Item 7.01 — Regulation FD Disclosure

On January 24, 2011, Park National Corporation (“Park”) filed a Current Report on Form 8-K (the “January 24, 2011 Form 8-K”) announcing financial results for the three months and year ended December 31, 2010 and furnishing other financial disclosures for purposes of Regulation FD. Please refer to “Item 7.01 – Regulation FD Disclosure” of the January 24, 2011 Form 8-K for the additional financial disclosures furnished.

During February 2011, Park sold approximately \$105 million of 15 year U.S. Government Agency mortgage-backed securities and recognized a pre-tax gain of approximately \$6.6 million. These securities had a weighted average book yield to Park of 5.02% and a remaining maturity of 2.3 years. These securities were sold at an average price of 106.2% of the principal balance, with an estimated yield to the buyer of 2.10%. In the January 24, 2011 Form 8-K, management stated that they did not then currently expect any gains or losses from the sale of investment securities during 2011, although there was a net unrealized gain of \$23.3 million in available for sale securities as of December 31, 2010. The combination of the opportunity for an efficient sale of securities, combined with favorable pricing of 106.2%, led to management’s decision to sell these securities. The proceeds from the sale of these securities are being reinvested at a yield of approximately 3.60% in 15 year U.S. Government Agency mortgage-backed securities with an average life of around 5 years.

The following is a discussion of the actual financial results for January 2011 and a reiteration of the projections for the fiscal year ending December 31, 2011, made by management in the January 24, 2011 Form 8-K.

Net Interest Income:

For the first month of 2011, net interest income was \$23.7 million compared to \$23.1 million for the same period in 2010. In the January 24, 2011 Form 8-K, management projected that net interest income for the year ending December 31, 2011 would be between \$268 million and \$278 million. This projection remains unchanged as of the date of this Current Report on Form 8-K.

Net Loan Charge-Offs and Provision for Loan Losses:

For the first month of 2011, net loan charge-offs for Park were approximately \$1.0 million compared to \$1.1 million of net loan charge-offs for the same period in 2010. In the January 24, 2011 Form 8-K, management projected that the provision for loan losses for the year ending December 31, 2011 would be approximately \$47 million to \$57 million. This projection remains unchanged as of the date of this Current Report on Form 8-K.

Other Income:

For the first month of 2011, total other income was \$5.9 million compared to \$6.0 million for the same period in 2010. In the January 24, 2011 Form 8-K, management projected that total other income for the year ending December 31, 2011 would be within a range of \$63 million to \$67 million, excluding any gains on the sale of securities. This projection remains unchanged as of the date of this Current Report on Form 8-K.

Gain on Sale of Securities:

As stated above in this Current Report on Form 8-K, Park recognized a gain on the sale of investment securities of \$6.6 million during February 2011. In the January 24, 2011 Form 8-K, management projected that there would not be any securities gains during 2011.

Other Expense:

Total other expense was \$15.2 million for the first month of 2011 compared to \$15.9 million for the same period in 2010. In the January 24, 2011 Form 8-K, management projected that total other expense would be approximately \$183 million to \$187 million for 2011. This projection remains unchanged as of the date of this Current Report on Form 8-K.
