UNIVERSAL SECURITY INSTRUMENTS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Statement of Management

The condensed consolidated financial statements include the accounts of Universal Security Instruments, Inc. (USI or the Company) and its majority owned subsidiaries. Significant intercompany accounts and transactions have been eliminated in consolidation. In the opinion of the Company's management, the interim condensed consolidated financial statements include all adjustments, consisting of only normal recurring adjustments, necessary for a fair presentation of the results for the interim periods. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. The interim condensed consolidated financial statements should be read in conjunction with the Company's March 31, 2011 audited financial statements filed with the Securities and Exchange Commission on Form 10-K. The interim operating results are not necessarily indicative of the operating results for the full fiscal year.

Use of Estimates

The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ materially from those estimates.

Joint Venture

The Company and its co-venturer, a Hong Kong corporation, each owns a 50% interest in a Hong Kong joint venture, Eyston Company Limited (the "Joint Venture"), that has manufacturing facilities in the People's Republic of China, for the manufacturing of security products. The following represents summarized balance sheet and income statement information of the Joint Venture as of and for the six months ended September 30, 2011 and 2010:

	2011	2010
Net sales	\$ 11,418,433	\$ 12,468,764
Gross profit	2,726,225	3,583,948
Net income	792,317	1,648,828
Total current assets	14,625,933	12,893,889
Total assets	32,071,234	32,196,541
Total current liabilities	4,281,413	5,103,172

During the six months ended September 30, 2011 and 2010, respectively, the Company purchased \$5,362,315 and \$4,008,328 of products from the Joint Venture. For the six month period ended September 30, 2011 and 2010, the Company has adjusted its earnings of the Joint Venture to reflect an increase of \$146,673 and a decrease of \$27,590, respectively, for changes to inter-Company profit in inventory

Income Taxes

We calculate our interim tax provision in accordance with the guidance for accounting for income taxes in interim periods. At the end of each interim period, we estimate the annual effective tax rate and apply that tax rate to our ordinary quarterly pre-tax income. The tax expense or benefit related to significant, unusual or extraordinary discrete

events during the interim period is recognized in the interim period in which those events occurred. In addition, the effect of changes in enacted tax laws or rates or tax status is recognized in the interim period in which the change occurs.

The Company recognizes a liability or asset for the deferred tax consequences of temporary differences between the tax basis of assets or liabilities and their reported amounts in the financial statements. These temporary differences will result in taxable or deductible amounts in future years when the reported amounts of the assets or liabilities are recovered or settled. The deferred tax assets are reviewed periodically for recoverability and valuation allowances are provided whenever it is more likely than not that a deferred tax asset will not be realized. The Company follows the financial pronouncement that gives guidance related to the recognition and measurement of a tax position taken or expected to be taken in a tax return and requires that we recognize in our financial statements the impact of a tax position, if that position is more likely than not to be sustained upon an examination, based on the technical merits of the position. Interest and penalties related to income tax matters are recorded as income tax expenses.

Financing Receivables

In September 2010, the Financial Accounting Standards Board issued an Accounting Standards Update requiring enhanced disclosure of the credit quality of financing receivables, as defined therein, and the adequacy of allowances for credit losses.

Management considers amounts due from the Company's factor to be "financing receivables." Trade accounts receivable, other receivables, and receivables from our Hong Kong Joint Venture are not considered by management to be financing receivables.

The Company sells the majority of its short-term receivables arising in the ordinary course of business to our factor. At the time a receivable is sold to our factor the credit risk associated with the credit worthiness of the debtor is assumed by the factor. The Company continues to bear any credit risk associated with delivery or warranty issues related to the products sold.

Management assesses the credit risk of both its trade accounts receivable and its financing receivables based on the specific identification of accounts that have exceeded credit terms. An allowance for uncollectible receivables is provided based on that assessment. Changes in the allowance account from one accounting period to the next are charged to operations in the period the change is determined. Amounts ultimately determined to be uncollectible are eliminated from the receivable accounts and from the allowance account in the period that the receivables' status is determined to be uncollectible.

Based on the nature of the factoring agreement and prior experience, no allowance for uncollectible financing receivables has been provided. At September 30, 2011, an allowance of \$75,000 has been provided for uncollectible trade accounts receivable.

Net Income per Common Share

Basic earnings per common share are computed based on the weighted average number of common shares outstanding during the periods presented. Diluted earnings per common share is computed based on the weighted average number of common shares outstanding plus the effect of stock options and other potentially dilutive common stock equivalents. The dilutive effect of stock options and other potentially dilutive common stock equivalents is determined using the treasury stock method based on the Company's average stock price. The 25,000 shares issuable upon the assumed exercise of outstanding stock options as of September 30, 2011 were excluded from the calculation of diluted earnings per share, as their impact on our loss is anti-dilutive. As a result basic and diluted income per share are identical for the 3 and 6 month periods ended September 30, 2011.

A reconciliation of the weighted average shares of common stock utilized in the computation of basic and diluted earnings per share for the three and six month periods ended September 30, 2011 and 2010 is as follows:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2011	2010	2011	2010
Weighted average number of common shares outstanding for basic EPS	2,387,887	2,387,887	2,387,887	2,387,887
Shares issued upon the assumed exercise of outstanding stock options	-	6,863	-	7,156
Weighted average number of common and common equivalent shares outstanding for diluted EPS	2,387,887	2,394,750	2,387,887	2,395,043

Contingencies

From time to time, the Company is involved in various lawsuits and legal matters. It is the opinion of management, based on the advice of legal counsel, that the ultimate outcome of these matters will not have a material adverse effect on the Company's financial statements.

8

Recent Accounting Pronouncements Not Yet Adopted

Changes to accounting principles generally accepted in the United States of America (U.S. GAAP) are established by the Financial Accounting Standards Board (FASB) in the form of accounting standards updated (ASU's) to the FASB's Accounting Standards Codification.

The Company considers the applicability and impact of all ASU's. Recently issued ASU's were evaluated and determined to be either not applicable or are not expected to have a material impact on our consolidated financial statements.

ITEM 2.MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used throughout this Report, "we," "our," "the Company" "USI" and similar words refers to Universal Security Instruments, Inc.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain forward-looking statements reflecting our current expectations with respect to our operations, performance, financial condition, and other developments. These forward-looking statements may generally be identified by the use of the words "may", "will", "believes", "should", "expect", "anticipates", "estimates", and similar expressions. These statements are necessarily estimates reflecting management's best judgment based upon current information and involve a number of risks and uncertainties. We caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made, and readers are advised that various factors could affect our financial performance and could cause our actual results for future periods to differ materially from those anticipated or projected. While it is impossible to identify all such factors, such factors include, but are not limited to, those risks identified in our periodic reports filed with the Securities and Exchange Commission, including our most recent Annual Report on Form 10-K.

overview

We are in the business of marketing and distributing safety and security products which are primarily manufactured through our 50%-owned Hong Kong Joint Venture. Our financial statements detail our sales and other operational results only, and report the financial results of the Hong Kong Joint Venture using the equity method. Accordingly, the following discussion and analysis of the three and six month periods ended September 30, 2011 and 2010 relate to the operational results of the Company. A discussion and analysis of the Hong Kong Joint Venture's operational results for these periods is presented below under the heading "Joint Venture."

The Company has developed new products based on new smoke and gas detection technologies, with what the Company believes are improved sensing technology and product features. The Company has applied for patents for these new products. Before these products can be sold, independent testing agencies evaluate the effectiveness of the products in performing their stated function and issue an approval and testing certificate for each product. Certain products now being sold by the Company have received approvals. The Company continues to pursue obtaining approvals for the remainder of its new product line.

Results of Operations

Three Months Ended September 30, 2011 and 2010

Sales. Net sales for the three months ended September 30, 2011 were \$3,307,514 compared to \$3,714,378 for the comparable three months in the prior fiscal year, a decrease of \$406,864 (11.0%). The primary reasons for the decrease in net sales volumes were lower sales of our core product lines due to the continued difficulties experienced in the housing market and general economic conditions.

Gross Profit Margin. Gross profit margin is calculated as net sales less cost of goods sold expressed as a percentage of net sales. Our gross profit margin was 30.3% and 28.6% of sales for the quarters ended September 30, 2011 and 2010, respectively. The increase in gross profit margin was primarily due to the mix of products sold which included sales of our new product line which typically have higher margins. Included in the cost of goods sold figure are increased freight costs incurred by the Company to meet delivery commitments to a retailer customer in the Canadian market.

Expenses. Research and development, and selling, general and administrative expenses were \$1,234,611 at September 30, 2011, compared to \$1,233,311 for the comparable three months in the prior year. As a percentage of net sales, these expenses increased to 37.3% for the three month period ended September 30, 2011, from 33.2% for the 2010 period. The increase in costs as a percentage of net sales was primarily due to fixed costs that do not decrease in the same rate as the reduction in sales.

Interest Expense and Income. Our interest income, net of interest expense, was \$15,841 for the quarter ended September 30, 2011, compared to net interest income of \$78,069 for the quarter ended September 30, 2010. The decrease in interest income, net of interest expense, is due to a reduction in assets held for investment.

Income Taxes. During the quarter ended September 30, 2011, the Company incurred income tax expense of \$94,315. For the corresponding 2010 period, the Company incurred income tax expense of \$57,149. The provision for income tax expense for the quarter ended September 30, 2011, as compared to the same quarter in the prior year, is impacted principally by the amount and timing of the unrealized earnings of and the payment of dividends by the Hong Kong Joint Venture.

Net (Loss) Income. We reported a net loss of \$309,941 for the quarter ended September 30, 2011, compared to net income of \$268,376 for the corresponding quarter of the prior fiscal year, a \$578,317 (215.5%) decrease. The reason for the decrease in net income is reduced revenues, an increase in freight charges incurred to meet sales commitments, lower joint venture earnings and higher income taxes.

Six Months Ended September 30, 2011 and 2010

Sales. Net sales for the six months ended September 30, 2011 were \$6,508,816 compared to \$7,395,799 for the comparable six months in the prior fiscal year, a decrease of \$886,983 (12.0%). The primary reasons for the decrease in net sales volumes were lower sales of our core product lines due to the continued difficulties experienced in the housing market and general economic conditions.

Gross Profit Margin. The gross profit margin is calculated as net sales less cost of goods sold expressed as a percentage of net sales. The Company's gross profit margin was 29.4% for the period ended September 30, 2010 and 28.8% for the period ended September 30, 2011. The decrease in gross profit margin was primarily due to the mix of products sold. Included in the cost of goods sold figure are increased freight costs incurred by the Company to meet delivery commitments to a retailer customer in the Canadian market.

Expenses. Research and development, and selling, general and administrative expenses were \$2,478,758 at September 30, 2011 compared to \$2,608,296 for the comparable six months in the prior year. As a percentage of sales, these expenses were 38.1% for the six month period ended September 30, 2011 and 35.3% for the comparable 2010 period. The primary reason for the decrease in expenses as a percentage of sales is due to fixed expenses that do not decrease at the same rate as the reduction in sales.

Interest Expense and Income. Our interest income, net of interest expense was \$21,015 for the six months ended September 30, 2011, compared to net interest income of \$105,873 for the six months ended September 30, 2010. The decrease in interest income, net of interest expense, is due to a reduction in assets held for investment.

Income Taxes. During the six months ended September 30, 2011, the Company recorded an income tax benefit of \$33,112. For the corresponding 2010 period, the Company recorded a tax benefit of \$25,276. The provision for income tax benefit for the six months ended September 30, 2011, as compared to the same period in the prior year, is impacted principally by the amount and timing of the unrealized earnings of and the payment of dividends by the Hong Kong Joint Venture.

Net (Loss) Income. We reported a net loss of \$309,360 for the six months ended September 30, 2011 compared to net income of \$550,243 for the corresponding period of the prior fiscal year, a decrease of \$859,602 (156.2%). The primary reasons for the decrease are reduced revenues, an increase in freight charges incurred to meet sales commitments, and lower Joint Venture earnings.

Financial Condition and Liquidity

The Company has a Factoring Agreement with CIT Group, Inc. (CIT) which supplies both short-term borrowings and letters of credit to finance foreign inventory purchases. The maximum amount available under the Factoring Agreement is currently \$7,500,000. Based on specified percentages of our accounts receivable and inventory and letter of credit commitments, as of September 30, 2011 we had a borrowing availability of \$3,389,319 under the Factoring Agreement and had no borrowings. The interest rate under the Factoring Agreement on the uncollected factored accounts receivable and any additional borrowings is equal to the prime rate of interest charged by our lender. At September 30, 2011, the prime rate was 3.25%. Borrowings are collateralized by all of our accounts receivable and inventory.

Our factored accounts receivable as of the end of our last fiscal year was \$1,569,126, and was \$1,554,622 as of September 30, 2011. Our prepaid expenses as of the end of our last fiscal year were \$519,356, and were comparable to prepaid expenses of \$493,356 as of September 30, 2011.

Operating activities used cash of \$2,426,582 for the six months ended September 30, 2011. This was primarily due to an increase in accounts receivable and due from factor of \$397,083 and an increase in inventories and prepaid expenses of \$1,427,267, offset by a decrease in accounts payable and accrued expenses of \$38,248 and earnings of the Joint Venture of \$241,673. For the same period last year, operating activities provided cash of \$923,092, primarily as a result of decreases in inventory and prepaid expenses offset by a decrease in accounts payable and accrued expenses.

Investing activities provided cash of \$387,448 during the six months ended September 30, 2011, and used cash of \$1,834,653 at September 30, 2010. In the six months ended September 30, 2010, the Company purchased assets held for investment. The Company increased its assets held for investment in an effort to obtain a more favorable return.

Financing activities did not provide or use cash during the six months ended September 30, 2011 or September 30, 2010.

We believe that funds available under the Factoring Agreement, distributions from the Joint Venture, and our line of credit facilities provide us with sufficient resources to meet our requirements for liquidity and working capital.

Joint Venture

Net Sales. Net sales of the Joint Venture for the three and six months ended September 30, 2011 were \$5,222,374 and \$11,418,433, respectively, compared to \$5,673,433 and \$12,468,764, respectively, for the comparable period in the prior fiscal year. The 8.0% and 8.4% respective decreases in net sales by the Joint Venture for the three and six month periods were due to lower volumes of sales to unaffiliated customers primarily in Europe.

Gross Margins. Gross margins of the Joint Venture for the three month period ended September 30, 2011 decreased to 21.7% from 28.9% for the 2010 corresponding period. For the six month period ended September 30, 2011, gross margins decreased to 23.9% from the 28.7% gross margin of the prior year's corresponding period. The lower gross margins for the 2011 period was due to product mix of the Joint Venture's sales; since gross margins depend on sales volume of various products, with varying margins, increased sales of higher margin products and decreased sales of lower margin products affect the overall gross margins.

Expenses. Selling, general and administrative expenses were \$1,128,308 and \$2,158,386, respectively, for the three and six month periods ended September 30, 2011, compared to \$969,630 and \$2,036,921 in the prior year's respective periods. As a percentage of sales, expenses were 21.6% and 18.9% for the three and six month periods ended September 30, 2011, compared to 17.1% and 16.3% for the three and six month periods ended September 30,

2010. The increase in selling, general and administrative expense as a percent of sales was primarily due to certain fixed costs that remained constant despite decreased net sales, and due to a loss on assets held for investment during the quarter ended September 30, 2011.

Interest Income and Expense. Interest income on assets held for investment was \$115,283 and \$217,812 respectively, for the three and six month periods ended September 30, 2011, compared to interest income of \$71,235 and \$121,516, respectively, for the prior year's periods, principally due to the increase in the average balance of assets held for investment.

Net Income. Net income for the three and six months ended September 30, 2011 was \$125,490 and \$792,317, respectively, compared to \$818,448 and \$1,648,828, respectively, in the comparable periods last year. The 84.7% and 51.9% respective decrease in net income for the three and six month periods were due primarily to decreased sales volume as noted above, combined with higher costs for labor and materials reflected as lower gross profit margins as discussed above.

Liquidity. Cash needs of the Joint Venture are currently met by funds generated from operations. During the six months ended September 30, 2011, working capital increased by \$53,974 from \$10,290,546 on March 31, 2011 to \$10,344,520 on September 30, 2011.

Critical Accounting Policies

Management's discussion and analysis of our consolidated financial statements and results of operations are based on our condensed Consolidated Financial Statements included as part of this document. The preparation of these condensed consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosures of contingent assets and liabilities. On an ongoing basis, we evaluate these estimates, including those related to bad debts, inventories, income taxes, and contingencies and litigation. We base these estimates on historical experiences, future projections and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We believe the following critical accounting policies affect management's more significant judgments and estimates used in the preparation of its condensed consolidated financial statements. For a detailed discussion on the application on these and other accounting policies, see Note A to the consolidated financial statements included in Item 8 of the Form 10-K for the year ended March 31, 2011. Certain of our accounting policies require the application of significant judgment by management in selecting the appropriate assumptions for calculating financial estimates. By their nature, these judgments are subject to an inherent degree of uncertainty and actual results could differ from these estimates. These judgments are based on our historical experience, terms of existing contracts, current economic trends in the industry, information provided by our customers, and information available from outside sources, as appropriate. Our critical accounting policies include:

Revenue Recognition. We recognize sales upon shipment of products net of applicable provisions for any discounts or allowances. The shipping date from our warehouse is the appropriate point of revenue recognition since upon shipment we have substantially completed our obligations which entitle us to receive the benefits represented by the revenues, and the shipping date provides a consistent point within our control to measure revenue. Customers may not return, exchange or refuse acceptance of goods without our approval. We have established allowances to cover anticipated doubtful accounts based upon historical experience.

Inventories. Inventories are valued at the lower of market or cost. Cost is determined on the first-in first-out method. We have recorded a reserve for obsolescence or unmarketable inventory equal to the difference between the cost of inventory and the estimated market value based upon assumptions about future demand and market conditions. Management reviews the reserve quarterly.

Income Taxes. The Company recognizes a liability or asset for the deferred tax consequences of temporary differences between the tax basis of assets or liabilities and their reported amounts in the financial statements. These temporary differences will result in taxable or deductible amounts in future years when the reported amounts of the assets or liabilities are recovered or settled. The deferred tax assets are reviewed periodically for recoverability and valuation allowances are provided, whenever it is more likely than not that a deferred tax asset will not be

realized.. The Company follows the financial pronouncement that gives guidance related to the financial statement of recognition and measurement of a tax position taken or expected to be taken in a tax return and requires that we recognize in our financial statements the impact of a tax position, if that position is more likely than not to be sustained upon an examination, based on the technical merits of the position. Interest and penalties related to income tax matters are recorded as income tax expenses.

Financing Receivables. In September 2010, the FASB issued an Accounting Standards Update requiring enhanced disclosure of the credit quality of financing receivables, as defined therein, and the adequacy of allowances for credit losses. Management considers amounts due from the Company's factor to be "financing receivables". Trade accounts receivable, other receivables, and receivables from our Hong Kong Joint Venture are not considered by management to be financing receivables.

The Company sells the majority of its short-term receivables arising in the ordinary course of business to our factor. At the time a receivable is sold to our factor the credit risk associated with the credit worthiness of the debtor is assumed by the factor. The Company continues to bear any credit risk associated with delivery or warranty issues related to the products sold.

Management assesses the credit risk of both its trade accounts receivable and its financing receivables based on the specific identification of accounts that have exceeded credit terms. An allowance for uncollectible receivables is provided based on that assessment. Changes in the allowance account from one accounting period to the next are charged to operations in the period the change is determined. Amounts ultimately determined to be uncollectible are eliminated from the receivable accounts and from the allowance account in the period that the receivables' status is determined to be uncollectible.

Based on the nature of the factoring agreement and prior experience, no allowance for uncollectible financing receivables has been provided. At September 30, 2011, an allowance of \$75,000 has been provided for uncollectible trade accounts receivable.

Contingencies. From time to time, we are subject to lawsuits and other claims, related to patents and other matters. Management is required to assess the likelihood of any adverse judgments or outcomes to these matters, as well as potential ranges of probable losses. A determination of the amount of reserves required, if any, for these contingencies is based on a careful analysis of each individual issue with the assistance of outside legal counsel. It is the opinion of management, based on advice of legal counsel, that the ultimate outcome of these matters will not have a material adverse effect on the Company's financial statements.

Warranties. We generally provide warranties from one to ten years to the non-commercial end user on all products sold. The manufacturers of our products provide us with a one-year warranty on all products we purchase for resale. Claims for warranty replacement of products beyond the one-year warranty period covered by the manufacturers are immaterial and we do not record estimated warranty expense or a contingent liability for warranty claims.

recent accounting pronouncements not yet adopted

Changes to accounting principles generally accepted in the United States of America (U.S. GAAP) are established by the Financial Accounting Standards Board (FASB) in the form of accounting standards updated (ASU's) to the FASB's Accounting Standards Codification.

We consider the applicability and impact of all ASU's. Recently issued ASU's were evaluated and determined to be either not applicable or are not expected to have a material impact on our consolidated financial statements.

ITEM 4.

CONTROLS AND PROCEDURES

We maintain a system of disclosure controls and procedures that is designed to provide reasonable assurance that information, which is required to be disclosed by us in the reports that we file or submit under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and is accumulated and communicated to management in a timely manner. Our Chief Executive Officer and Chief Financial Officer have evaluated this system of disclosure controls and procedures as of the end of the period covered by this quarterly report, and have concluded that the system is effective. There have been no changes in our internal control over financial reporting during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, the Company is involved in various lawsuits and legal matters. It is the opinion of management, based on the advice of legal counsel, that these matters will not have a material adverse effect on the Company's financial statements.

ITEM 6. EXHIBITS

Exhibit No.

- 3.1 Articles of Incorporation (incorporated by reference to the Company's Quarterly Report on Form 10-Q for the period ended December 31, 1988, File No. 1-31747)
- 3.2 Articles Supplementary, filed October 14, 2003 (incorporated by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed October 31, 2002, file No. 1-31747)
- 3.3 Bylaws, as amended (incorporated by reference to Exhibit 3.3 to the Company's Quarterly Report on Form 10-Q for the period ended June 30, 2010, File No. 1-31747)
- 10.1 Hong Kong Joint Venture Agreement, as amended (incorporated by reference to Exhibit 10.1 to the Company's Annual Report on Form 10-K for the year ended March 31, 2003, File No. 1-31747)
- 10.2 Amended and Restated Factoring Agreement between the Registrant and The CIT Group/Commercial Services, Inc. ("CIT"), dated June 22, 2007 (substantially identical agreement entered into by the Registrant's wholly-owned subsidiary, USI Electric, Inc.) (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed June 26, 2007, file No. 1-31747)
- 10.3 Amended and Restated Inventory Security Agreement between the Registrant and CIT, dated June 22, 2007 (substantially identical agreement entered into by the Registrant's wholly-owned subsidiary, USI Electric, Inc.) (incorporated by reference to Exhibit 10.2 to the Company's Current Report on Form 8-K filed June 26, 2007, file No. 1-31747)
- 10.4 Amendment, dated December 22, 2010, to Amended and Restated Factoring Agreement between the Registrant and CIT dated June 22, 2007 (substantially identical agreement entered into by the Registrant's wholly-owned subsidiary, USI Electric, Inc.) (incorporated by reference to Exhibit 10.5 to the Company's Quarterly Report on Form 10-Q filed February 16, 2011, file No. 1-31747)
- 10.5 Lease between Universal Security Instruments, Inc. and St. John Properties, Inc. dated November 4, 2008 for its office and warehouse located at 11407 Cronhill Drive, Suites A-D, Owings Mills, Maryland 21117 (incorporated by reference to Exhibit 10.8 to the Company's Quarterly Report on Form 10-Q for the period ended December 31, 2008, File No. 1-31747)
- 10.6 Amendment to Lease between Universal Security Instruments, Inc. and St. John Properties, Inc. dated June 23, 2010 (incorporated by reference to Exhibit 10.9 to the Company's Annual Report on Form 10-K for the year ended March 31, 2010, File No. 1-31747)
- 10.7 Amended and Restated Employment Agreement dated July 18, 2007 between the Company and Harvey B. Grossblatt (incorporated by reference to Exhibit 10.7 to the Company's Quarterly Report on Form 10-Q for the period ended December 31, 2007, File No. 1-31747), as amended by Addendum dated November 13, 2007 (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed November 15, 2007, File No. 1-31747), by Addendum dated September 8, 2008 (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed September 8, 2008, File No. 1-31747), and by Addendum dated March 11, 2011 (incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K filed March 12, 2011, File No. 1-31747)
- 31.1 Rule 13a-14(a)/15d-14(a) Certification of Chief Executive Officer*
- 31.2 Rule 13a-14(a)/15d-14(a) Certification of Chief Financial Officer*
- 32.1 Section 1350 Certifications*

99.1 Press Release dated November 9, 2011*

101 Interactive data files providing financial information from the Registrant's Quarterly Report on Form 10-Q for the quarter ended September 30, 2011 in XBRL (eXtensible Business Reporting Language) pursuant to Rule 405 of Regulation S-T: (i) Condensed Consolidated Balance Sheets, September 30, 2011 and March 31, 2011, (ii) Condensed Consolidated Statements of Earnings for the six months ended September 30, 2011 and 2010, (iii) Condensed Consolidated Statements of Cash Flows for the six months ended September 30, 2011 and 2010, and (v) Notes to Consolidated Financial Statements*
