TABLE OF CONTENTS**CALCULATION OF REGISTRATION FEE**

Title of each class of securities to be registered	Amount to be Registered	Proposed maximum offering price per share	Proposed maximum aggregate offering price	Amount of registration fee
Common Stock, par value \$0.0001 per share ⁽¹⁾	24,481,092 ⁽²⁾	\$ 9.875 ⁽³⁾	\$ 241,750,783.50	\$ 27,704.64
Common Stock ⁽⁴⁾	5,750,000	\$ 9.875 ⁽³⁾	\$ 56,781,250.00	\$ 6,507.13
Warrants to Purchase Common Stock ⁽⁵⁾	N/A	N/A	N/A	N/A
Common Stock underlying Warrants ⁽⁶⁾	4,600,000	\$ 9.875 ⁽³⁾	\$ 45,425,000.00	\$ 5,205.71
Total	34,831,092		\$ 343,957,033.50	\$ 39,417.48 ⁽⁷⁾

The number of shares of common stock of Net Element International, Inc. being registered represents the estimated (1) maximum number of shares of Net Element International's common stock to be issued in connection with the proposed business combination described herein.

Calculated as the product obtained by multiplying (a) the shares of common stock, par value \$0.001 per share, of Net Element, Inc. estimated to be issued and outstanding (on a fully diluted basis) immediately prior to the consummation of the merger by (b) the Exchange Ratio of 0.025 set forth in the merger

(2) agreement (as hereinafter defined). This amount also includes shares of common stock of Net Element International that may, under certain circumstances, be issued to the extent a holder of common stock of Net Element, Inc. would receive fewer than 100 shares of common stock of Net Element International as a result of the Exchange Ratio.

Estimated solely for the purpose of calculating the registration fee, based on the average of the high and low prices (3) of the ordinary shares of Cazador Acquisition Corporation Ltd. on The NASDAQ Capital Market on June 5, 2012 (\$9.875 per share), in accordance with Rule 457(f)(1).

The number of shares of common stock of Net Element International being registered includes all ordinary shares (4) of Cazador Acquisition Corporation Ltd. that are issued and outstanding upon Cazador domestication (as hereinafter defined), which shares will automatically be converted by operation of law into shares of common stock of Net Element International in the Cazador domestication.

Upon effectiveness of the Cazador domestication, all outstanding warrants to acquire ordinary shares of Cazador (5) Acquisition Corporation Ltd. will become warrants to acquire the same number of shares of Net Element International at the same price and for on same terms. No registration fee is required pursuant to Rule 457(g) under the Securities Act.

Pursuant to Rule 416, there is also being registered such indeterminable number of additional shares of common (6) stock of Net Element International as may be issued to prevent dilution resulting from share dividends, split-up, reverse split-up or similar event.

(7) Previously paid by Cazador Acquisition Corporation Ltd.

Prior the effectiveness of the business combination described herein, the Registrant intends to effect a domestication under Section 388 of the General Corporation Law of the State of Delaware and a migration under Cayman Islands *law, pursuant to which the Registrant's jurisdiction of incorporation will be changed from the Cayman Islands to the State of Delaware. In connection with the domestication and the merger, the Registrant intends to change its legal corporate name to Net Element International, Inc.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until this Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

TABLE OF CONTENTS

**PRELIMINARY SUBJECT TO COMPLETION DATED
AUGUST 23, 2012**

The information in this preliminary joint proxy statement/prospectus is not complete and may be changed. The registrant may not sell the securities described herein until the registration statement filed with the Securities and Exchange Commission is declared effective. This joint proxy statement/prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

CAZADOR ACQUISITION
CORPORATION LTD.

NET ELEMENT, INC.

To the Shareholders of Cazador Acquisition Corporation Ltd. and Net Element, Inc.:

Each of the respective boards of directors of Cazador Acquisition Corporation Ltd., or Cazador, and Net Element, Inc., or Net Element, have approved an agreement and plan of merger by and between Cazador and Net Element, or the merger agreement, pursuant to which Net Element will merge with and into Cazador, with Cazador as the surviving entity. The foregoing transaction is referred to in this joint proxy statement/prospectus as the merger.

As a condition to closing the merger pursuant to the terms of the merger agreement, the board of directors of Cazador has unanimously approved a change of Cazador's jurisdiction of incorporation by discontinuing as an exempted company in the Cayman Islands and continuing and domesticating as a corporation incorporated under the laws of the State of Delaware, which we refer to as the Cazador domestication. To effect the Cazador domestication, Cazador will file a notice of de-registration with the Cayman Islands Registrar of Companies, together with the necessary accompanying documents, and file a certificate of incorporation and a certificate of corporate domestication with the Secretary of State of the State of Delaware, under which Cazador will be domesticated and continue as a Delaware corporation, at which time Cazador will change its name, in connection with the effectiveness of the merger, to Net Element International, Inc. We refer to Cazador following effectiveness of the Cazador domestication as NEI. On the effective date of the Cazador domestication, each currently issued and outstanding ordinary share, par value \$0.0001 per share, of Cazador Cayman, or Cazador Ordinary Shares, will automatically convert by operation of law, on a one-for-one basis, into shares of common stock, par value \$0.0001 per share, of NEI, or NEI Common Stock. Similarly, outstanding options, warrants and other rights to acquire Cazador Ordinary Shares will become options, warrants or rights to acquire the corresponding shares of NEI Common Stock. No other changes will be made to the terms of any outstanding options, warrants and other rights to acquire Cazador Ordinary Shares as a result of the Cazador domestication.

The Cazador domestication, together with the merger, is referred to as the business combination. Unless the context otherwise requires, in this joint proxy statement/prospectus, the term Cazador refers to Cazador Acquisition Corporation Ltd. as it currently exists under Cayman Islands law and as it will continue to exist under the Delaware General Corporation Law, or the DGCL, following the Cazador domestication. The term Cazador Cayman refers to Cazador prior to the Cazador domestication.

Prior to the effective time of the merger, each holder of outstanding securities of Net Element that are convertible into or exchangeable or exercisable for shares of common stock, par value \$0.001 per share, of Net Element, or the Net Element Common Stock, will enter into conversion agreements, pursuant to which all such outstanding securities of

Net Element will be either terminated or converted into or exchanged or exercised for shares of Net Element Common Stock (in the case of outstanding Net Element stock options and warrants that are exercised, on a cashless basis); provided that certain option holders that received their options in lieu of cash compensation will have the ability to elect to terminate their options in exchange for cash in the amount of such compensation.

Pursuant to the terms of the merger agreement, upon completion of the merger, each share of then-issued and outstanding Net Element Common Stock (other than shares held by Net Element as treasury stock or by any of its direct or indirect wholly-owned subsidiaries, which will be cancelled upon the effectiveness of the merger, and shares with respect to which appraisal rights, to the extent available under the DGCL, are properly exercised and not withdrawn) will be automatically cancelled and converted into the right to receive the number of shares of NEI Common Stock equal to the Exchange Ratio. The Exchange Ratio is 0.025 shares of NEI Common Stock per share of Net Element Common Stock, which reflects a 66% premium over the last reported sale price of the Net Element Common Stock on the OTCQB electronic quotation system of \$0.15 per share on August 21, 2012. The Exchange Ratio is subject to adjustment to reflect appropriately the effect of any stock split, reverse stock split, stock dividend, extraordinary cash dividends, reorganization, recapitalization, reclassification, combination, exchange of shares or other like change, although no such events are currently contemplated. However, the Exchange Ratio will not be adjusted to reflect any changes in the market prices of Cazador Ordinary Shares, NEI Common Stock or Net Element Common

TABLE OF CONTENTS

Stock. Notwithstanding the foregoing, to the extent a holder of Net Element Common Stock would receive fewer than 100 shares of NEI Common Stock as a result of the Exchange Ratio, Cazador shall have the right, exercisable in Cazador's sole and absolute discretion, to issue to any such holder an additional number of shares of NEI Common Stock so that such holder receives, in the aggregate, 100 shares of NEI Common Stock in connection with the merger. In addition, no fractional shares of NEI Common Stock will be issued in connection with the merger. Instead, Cazador will issue one share of NEI Common Stock to each holder that would otherwise be entitled to a fraction of a share of NEI Common Stock.

Immediately following the completion of the business combination (without taking into account any shares of NEI Common Stock held by Net Element shareholders prior to the completion of the business combination, and assuming cashless exercise of outstanding warrants and options of Net Element and that no holders of Public Cazador Ordinary Shares exercise their redemption rights), the former shareholders of Net Element are expected to own approximately 80.9% of the outstanding NEI Common Stock (or approximately 65.6% of the outstanding NEI Common Stock calculated on a fully diluted basis) and the current holders of Cazador Ordinary Shares are expected to own approximately 19.1% of the outstanding NEI Common Stock (or approximately 34.4% of the outstanding NEI Common Stock calculated on a fully diluted basis).

The Cazador Ordinary Shares are listed on The NASDAQ Capital Market and trade under the symbol CAZA. On , 2012, the latest practicable date before the printing of this proxy statement/prospectus, the last reported sale price of the Cazador Ordinary Shares on The NASDAQ Capital Market was \$ per share. Cazador intends to apply to list the NEI Common Stock on The NASDAQ Capital Market under the symbol NETE. There can be no assurance that the NEI Common Stock will be listed on The NASDAQ Capital Market.

The Net Element Common Stock is quoted on the OTCQB electronic quotation system under the symbol NETE. On , 2012, the latest practicable date before the printing of this proxy statement/prospectus, the last reported sale price of the Net Element Common Stock on the OTCQB electronic quotation system was \$ per share.

Completion of the merger requires, among other things, that the holders of (i) a majority of the outstanding Cazador Ordinary Shares issued in Cazador's initial public offering and not held by Cazador's Sponsor, or the Public Cazador Ordinary Shares, and (ii) a majority of the outstanding shares of Net Element Common Stock vote in favor of the approval and adoption of the merger agreement. Completion of the Cazador domestication, which is a condition to close the merger, requires that the holders of at least two-thirds of the outstanding Cazador Ordinary Shares which attend and vote at a general meeting in favor of the approval of the Cazador domestication. To obtain these required approvals, Cazador will hold a special meeting of Cazador shareholders on September 28, 2012 and Net Element will hold a special meeting of Net Element shareholders on September 28, 2012.

Cazador Sub Holdings Ltd, including all of Cazador's directors and executive officers (which we refer to, collectively, as the Sponsor), has agreed to vote its Cazador Ordinary Shares in the same manner as holders of the majority of the Public Cazador Ordinary Shares in connection with the votes required to approve the business combination. As of August 21, 2012, the Sponsor beneficially owned and was entitled to vote approximately 20.0% of the total outstanding Cazador Ordinary Shares on that date.

Mike Zoi, Net Element's Chairman and Chief Executive Officer, owns, in combination with the holdings of entities that he controls, approximately 59.4% of the issued and outstanding Net Element Common Stock as of August 21, 2012 (67.2% assuming a cashless exercise of options and warrants Mr. Zoi owns which are currently exercisable), and therefore holds enough shares to approve and adopt the merger agreement without the vote of any other Net Element shareholder. Mr. Zoi intends to vote his shares FOR the approval and adoption of the merger agreement. Following consummation of the merger, Mr. Zoi will control approximately 54.3% of NEI's voting power if no holders of Public

Cazador Ordinary Shares exercise their redemption rights described below (or approximately 58.7% of NEI's voting power if the maximum permissible number of holders of Public Cazador Ordinary Shares exercise their redemption rights whereby Cazador may proceed with the merger). As a result, Mr. Zoi will have the ability to exert significant influence over NEI's corporate affairs and to control the outcome of virtually all matters submitted to a vote of NEI's shareholders. Mr. Zoi's interests may conflict with or differ from the interests of NEI's other shareholders.

TABLE OF CONTENTS

Cazador is offering each holder of Public Cazador Ordinary Shares the right to have such holder's shares redeemed into cash if such holder either (i) votes against the business combination and timely exercises such redemption right or (ii) votes in favor of the business combination but elects to exercise such shareholder's right to redeem. However, although an abstention or failure to vote on the business combination will have the same effect as a vote against the business combination, such abstention or failure to vote will not be sufficient to enable holders of Public Cazador Ordinary Shares to exercise their redemption rights. Cazador's Sponsor and its beneficial owners will not have shareholder redemption rights with respect to any Cazador Ordinary Shares owned by them, directly or indirectly, including Cazador Ordinary Shares purchased by them in Cazador's initial public offering or in the secondary market. The actual per-share redemption price will be equal to the aggregate amount then in the trust account, and including accrued interest, net of any interest income on the trust account balance required for Cazador to pay its tax obligations incurred and net of interest income of up to \$2.0 million previously released to Cazador to fund its working capital requirements (calculated as of two business days prior to the consummation of the business combination), divided by the number of Public Cazador Ordinary Shares. As of August 21, 2012, the per-share redemption price would be approximately \$10.036. There will be no redemption rights upon the consummation of the business combination with respect to outstanding Cazador warrants.

Each holder of Public Cazador Ordinary Shares may elect to redeem his, her or its Public Cazador Ordinary Shares irrespective of whether he, she or it votes for or against the business combination. Cazador will not complete the business combination if holders of Public Cazador Ordinary Shares, owning, in the aggregate, more than 49.9% of the Public Cazador Ordinary Shares, both vote against and exercise their shareholder redemption rights with respect to the business combination. Additionally, as per the terms of the merger agreement, the merger will not be consummated unless Cazador has at least \$23.5 million of cash held in the trust account (after giving effect to payment of all holders of Public Cazador Ordinary Shares who exercise their redemption right but excluding payments to be made for transaction fees and related expenses and pay-off of related party debt). Holders of Public Cazador Ordinary Shares will be able to redeem their shares up to the business day immediately prior to the vote on the proposals to approve the business combination.

As set forth in Cazador's Second Amended and Restated Memorandum and Articles of Association, or the Cazador Cayman Charter, a holder of Public Cazador Ordinary Shares, together with any affiliate of his or any other person with whom he is acting in concert or as a partnership, syndicate or other group for the purpose of acquiring, holding or disposing of Cazador Cayman's securities, will be prohibited from exercising shareholder redemption rights with respect to more than 10% of the Public Cazador Ordinary Shares.

Cazador may enter into privately negotiated transactions to purchase shares of NEI Common Stock from its public shareholders using proceeds released from the trust account immediately following consummation of the transactions contemplated by the merger agreement.

CAZADOR'S BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE IN FAVOR OF THE PROPOSAL TO APPROVE AND ADOPT THE MERGER AGREEMENT.

CAZADOR'S BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE IN FAVOR OF THE PROPOSAL TO APPROVE THE CAZADOR DOMESTICATION.

NET ELEMENT'S BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE IN FAVOR OF THE PROPOSAL TO APPROVE AND ADOPT THE MERGER AGREEMENT.

Information about the special meetings, the transactions contemplated by the merger agreement and the other business to be considered by Cazador shareholders and Net Element shareholders is contained in this document and the

documents incorporated by reference, which we urge you to read carefully. **In particular, see Risk Factors beginning on page 31.**

Your vote is very important. Whether or not you plan to attend the special meeting of Cazador shareholders or the special meeting of Net Element shareholders, as applicable, please submit a proxy to vote your shares as soon as possible to make sure your shares are represented at the applicable special meeting. Your failure to vote will have the same effect as voting against the various proposals.

**CAZADOR ACQUISITION CORPORATION LTD.
BBVA Building, P1
254 Muñoz Rivera Avenue
San Juan, Puerto Rico 00918**

**NOTICE OF SPECIAL MEETING OF SHAREHOLDERS
to be held on September 28, 2012**

To Our Shareholders:

A special meeting of shareholders of Cazador Acquisition Corporation Ltd. (**Cazador**) will be held at the offices of Reed Smith LLP located at 599 Lexington Avenue, New York, New York 10022 on September 28, 2012, at 10:00 a.m., Eastern time (the **Cazador special meeting**). The purposes of the Cazador special meeting are to vote on the following matters and to transact such other business that may properly come before the Cazador special meeting:

1. Approve and adopt the Agreement and Plan of Merger, dated as of June 12, 2012, between Cazador and Net Element, Inc. (**Net Element**), as it may be amended (the **merger agreement**), a copy of which is attached to the accompanying joint proxy statement/prospectus as Annex A. The board of directors of Cazador (the **Cazador board**) recommends a vote **FOR** this proposal.
2. If, and only if, the merger agreement is approved and adopted, approve the change of Cazador's jurisdiction of incorporation by discontinuing as an exempted company in the Cayman Islands and continuing and domesticating as a corporation incorporated under the laws of the State of Delaware (the **Cazador domestication** and with the merger contemplated by the merger agreement, the **business combination**). The Cazador board recommends a vote **FOR** this proposal.
3. Approve one or more adjournments of the Cazador special meeting (including, if necessary, to solicit additional proxies because there are not sufficient votes to approve and adopt the merger agreement and/or approve the Cazador domestication). The Cazador board recommends a vote **FOR** this proposal.
4. Transact any other business that may properly come before the Cazador special meeting.

The Cazador board has fixed August 27, 2012 as the record date for the determination of shareholders entitled to notice of, and to vote at, the Cazador special meeting or one or more adjournments thereof. Only holders of record of ordinary shares, par value \$0.0001 per share, of Cazador (**Cazador Ordinary Shares**) at the close of business on August 27, 2012 are entitled to notice of, and to vote at, the Cazador special meeting or one or more adjournments or postponements thereof.

CAZADOR IS OFFERING EACH HOLDER OF PUBLIC CAZADOR ORDINARY SHARES THE RIGHT TO HAVE SUCH HOLDER'S SHARES REDEEMED INTO CASH IF SUCH HOLDER EITHER (I) VOTES AGAINST

THE BUSINESS COMBINATION AND TIMELY EXERCISES SUCH REDEMPTION RIGHT OR (II) VOTES IN FAVOR OF THE BUSINESS COMBINATION BUT ELECTS TO EXERCISE SUCH SHAREHOLDER'S RIGHT TO REDEEM. HOWEVER, ALTHOUGH AN ABSTENTION OR FAILURE TO VOTE ON THE BUSINESS COMBINATION WILL HAVE THE SAME EFFECT AS A VOTE AGAINST THE BUSINESS COMBINATION, SUCH ABSTENTION OR FAILURE TO VOTE WILL NOT BE SUFFICIENT TO ENABLE HOLDERS OF PUBLIC CAZADOR ORDINARY SHARES TO EXERCISE THEIR REDEMPTION RIGHTS. CAZADOR SUB HOLDINGS LTD. (CAZADOR'S SPONSOR) AND ITS BENEFICIAL OWNERS WILL NOT HAVE SHAREHOLDER REDEMPTION RIGHTS WITH RESPECT TO ANY CAZADOR ORDINARY SHARES OWNED BY THEM, DIRECTLY OR INDIRECTLY, INCLUDING CAZADOR ORDINARY SHARES PURCHASED BY THEM IN CAZADOR'S INITIAL PUBLIC OFFERING OR IN THE SECONDARY MARKET. THE ACTUAL PER-SHARE REDEMPTION PRICE WILL BE EQUAL TO THE AGGREGATE AMOUNT THEN IN THE TRUST ACCOUNT, AND INCLUDING ACCRUED INTEREST, NET OF ANY INTEREST INCOME ON THE TRUST ACCOUNT BALANCE REQUIRED FOR CAZADOR TO PAY ITS TAX OBLIGATIONS INCURRED AND NET OF INTEREST INCOME OF UP TO \$2.0 MILLION PREVIOUSLY RELEASED TO CAZADOR TO FUND ITS WORKING CAPITAL REQUIREMENTS (CALCULATED AS OF TWO BUSINESS DAYS PRIOR TO THE CONSUMMATION OF THE BUSINESS COMBINATION),

TABLE OF CONTENTS

DIVIDED BY THE NUMBER OF PUBLIC CAZADOR ORDINARY SHARES. AS OF AUGUST 21, 2012, THE PER-SHARE REDEMPTION PRICE WOULD BE APPROXIMATELY \$10.036. THERE WILL BE NO REDEMPTION RIGHTS UPON THE CONSUMMATION OF THE MERGER AGREEMENT WITH RESPECT TO OUTSTANDING CAZADOR WARRANTS.

Cazador and Net Element will consummate the merger contemplated by the merger agreement only if, among other conditions, the holders of (i) a majority of the outstanding Cazador Ordinary Shares issued in Cazador's initial public offering and not held by Cazador's Sponsor (Public Cazador Ordinary Shares) and (ii) a majority of the outstanding shares of common stock, par value \$0.001 per share of Net Element (Net Element Common Stock) vote in favor of the approval and adoption of the merger agreement. Cazador will effect the Cazador domestication (as described in the accompanying joint proxy statement/prospectus), which is a condition to close the merger, only if the holders of at least two-thirds of the outstanding Cazador Ordinary Shares which attend and vote at the Cazador special meeting in favor of the approval of the Cazador domestication.

Cazador's Sponsor has agreed to vote its Cazador Ordinary Shares in the same manner as holders of the majority of the Public Cazador Ordinary Shares in connection with the votes required to approve the business combination. As of August 21, 2012, the Sponsor beneficially owned and was entitled to vote approximately 20.0% of the total outstanding Cazador Ordinary Shares on that date.

Mike Zoi, Net Element's Chairman and Chief Executive Officer, owns, in combination with the holdings of entities that he controls, approximately 59.4% of the issued and outstanding Net Element Common Stock as of August 21, 2012 (67.2% assuming a cashless exercise of options and warrants Mr. Zoi owns which are currently exercisable), and therefore holds enough shares to approve and adopt the merger agreement without the vote of any other Net Element shareholder. Mr. Zoi intends to vote his shares FOR the approval and adoption of the merger agreement. Following consummation of the merger, Mr. Zoi will control approximately 54.3% of NEI's voting power if no holders of Public Cazador Ordinary Shares exercise their redemption rights described below (or approximately 58.7% of NEI's voting power if the maximum permissible number of holders of Public Cazador Ordinary Shares exercise their redemption rights whereby Cazador may proceed with the merger). As a result, Mr. Zoi will have the ability to exert significant influence over NEI's corporate affairs and to control the outcome of virtually all matters submitted to a vote of NEI's shareholders. Mr. Zoi's interests may conflict with or differ from the interests of NEI's other shareholders.

Each holder of Public Cazador Ordinary Shares may elect to redeem his, her or its Public Cazador Ordinary Shares irrespective of whether he, she or it votes for or against the business combination. Cazador will not complete the business combination if holders of Public Cazador Ordinary Shares, owning, in the aggregate, more than 49.9% of the Public Cazador Ordinary Shares, both vote against and exercise their shareholder redemption rights with respect to the business combination. Additionally, as per the terms of the merger agreement, the merger will not be consummated unless Cazador has at least \$23.5 million of cash held in the trust account (after giving effect to payment of all holders of Public Cazador Ordinary Shares who exercise their redemption right but excluding payments to be made for transaction fees and related expenses and pay-off of related party debt). Holders of Public Cazador Ordinary Shares will be able to redeem their shares up to the business day immediately prior to the vote on the proposals to approve the business combination.

As set forth in Cazador's Second Amended and Restated Memorandum and Articles of Association, a holder of Public Cazador Ordinary Shares, together with any affiliate of his or any other person with whom he is acting in concert or as a partnership, syndicate or other group for the purpose of acquiring, holding or disposing of Cazador Cayman's securities, will be prohibited from exercising shareholder redemption rights with respect to more than 10% of the Public Cazador Ordinary Shares.

Edgar Filing: Cazador Acquisition Corp Ltd. - Form S-4/A

Cazador may enter into privately negotiated transactions to purchase shares from its public shareholders using proceeds released from the trust account immediately following consummation of the transactions contemplated by the merger agreement.

For more information about the proposals and the Cazador special meeting, please review carefully the accompanying joint proxy statement/prospectus.

TABLE OF CONTENTS

Your vote is important. Whether or not you expect to attend the Cazador special meeting in person, please submit a proxy by telephone or over the internet as instructed in these materials, or complete, date, sign and return the enclosed proxy card, as promptly as possible in order to ensure that we receive your proxy with respect to your Cazador Ordinary Shares. Instructions are shown on the enclosed proxy card and a return envelope (postage pre-paid if mailed in the United States) is enclosed for your convenience. If your Cazador Ordinary Shares are held in a stock brokerage account or by a bank or other nominee, please follow the instructions that you receive from your broker, bank or other nominee to vote your shares.

If you sign, date and mail your proxy card without indicating how you wish to vote, your proxy will be voted in favor of the approval and adoption of the merger agreement, in favor of the Cazador domestication and in favor of the proposal to adjourn the meeting if necessary to solicit additional proxies. If you fail to return your proxy card or fail to submit your proxy by telephone or over the internet, or fail to instruct your broker how to vote, and do not attend the Cazador special meeting in person, the effect will be that your shares will not be counted for purposes of determining whether a quorum is present at the Cazador special meeting and, if a quorum is present, will have the same effect as a vote against the approval and adoption of the merger agreement. If you are a shareholder of record and you attend the Cazador special meeting and wish to vote in person, you may withdraw your proxy and vote in person.

By Order of the Board of Directors,

Secretary

TABLE OF CONTENTS

**NET ELEMENT, INC.
1450 S. Miami Avenue
Miami, Florida 33130**

**NOTICE OF SPECIAL MEETING OF SHAREHOLDERS
to be held on September 28, 2012**

To Our Shareholders:

A special meeting of shareholders of Net Element, Inc. (Net Element) will be held at the offices of Reed Smith LLP located at 599 Lexington Avenue, New York, New York 10022 on September 28, 2012, at 11:00 a.m., Eastern time (the Net Element special meeting). The purposes of the Net Element special meeting are to vote on the following matters and to transact such other business that may properly come before the Net Element special meeting:

1. Approve and adopt the Agreement and Plan of Merger, dated as of June 12, 2012, between Cazador Acquisition Corporation Ltd. and Net Element, as it may be amended (the merger agreement), a copy of which is attached to the accompanying joint proxy statement/prospectus as Annex A. The board of directors of Net Element (the Net Element board) recommends a vote FOR this proposal.
2. Approve one or more adjournments of the Net Element special meeting. The Net Element board recommends a vote FOR this proposal.
3. Transact such other business that may properly come before the Net Element special meeting.

The Net Element board has fixed August 27, 2012 as the record date for the determination of shareholders entitled to notice of, and to vote at, the Net Element special meeting or one or more adjournments thereof. Only holders of record of ordinary shares, par value \$0.0001 per share, of Net Element (Net Element Common Stock) at the close of business on August 27, 2012 are entitled to notice of, and to vote at, the Net Element special meeting or one or more adjournments or postponements thereof.

Cazador and Net Element will consummate the merger contemplated by the merger agreement only if, among other conditions, the holders of (i) a majority of the outstanding ordinary shares, par value \$0.0001 per share, of Cazador (Cazador Ordinary Shares) issued in Cazador s initial public offering and not held by Cazador Sub Holdings Ltd. (Cazador s Sponsor)(Public Cazador Ordinary Shares) and (ii) a majority of the outstanding shares of Net Element Common Stock vote in favor of the approval and adoption of the merger agreement. Cazador will effect the Cazador domestication (as described in the accompanying joint proxy statement/prospectus), which is a condition to close the merger, only if the holders of at least two-thirds of the outstanding Cazador Ordinary Shares which attend and vote at the Cazador special meeting in favor of the approval of the Cazador domestication.

Cazador s Sponsor has agreed to vote its Cazador Ordinary Shares in the same manner as holders of the majority of the Public Cazador Ordinary Shares in connection with the votes required to approve the business combination. As of

Edgar Filing: Cazador Acquisition Corp Ltd. - Form S-4/A

August 21, 2012, the Sponsor beneficially owned and was entitled to vote approximately 20.0% of the total outstanding Cazador Ordinary Shares on that date.

Mike Zoi, Net Element's Chairman and Chief Executive Officer, owns, in combination with the holdings of entities that he controls, approximately 59.4% of the issued and outstanding Net Element Common Stock as of August 21, 2012 (67.2% assuming a cashless exercise of options and warrants Mr. Zoi owns which are currently exercisable), and therefore holds enough shares to approve and adopt the merger agreement without the vote of any other Net Element shareholder. Mr. Zoi intends to vote his shares FOR the approval and adoption of the merger agreement. Following consummation of the merger, Mr. Zoi will control approximately 54.3% of NEI's voting power if no holders of Public Cazador Ordinary Shares exercise any redemption rights afforded to them (or approximately 58.7% of NEI's voting power if the maximum permissible number of holders of Public Cazador Ordinary Shares exercise their redemption rights whereby Cazador may proceed with the merger). As a result, Mr. Zoi will have the ability to exert significant influence over NEI's corporate affairs and to control the outcome of virtually all matters submitted to a vote of NEI's shareholders. Mr. Zoi's interests may conflict with or differ from the interests of NEI's other shareholders.

TABLE OF CONTENTS

For more information about the proposals and the Net Element special meeting, please review carefully the accompanying joint proxy statement/prospectus.

Your vote is important. Whether or not you expect to attend the Net Element special meeting in person, please submit a proxy by telephone or over the internet as instructed in these materials, or complete, date, sign and return the enclosed proxy card, as promptly as possible in order to ensure that we receive your proxy with respect to your shares of Net Element Common Stock. Instructions are shown on the enclosed proxy card and a return envelope (postage pre-paid if mailed in the United States) is enclosed for your convenience. If your shares of Net Element Common Stock are held in a stock brokerage account or by a bank or other nominee, please follow the instructions that you receive from your broker, bank or other nominee to vote your shares.

If you sign, date and mail your proxy card without indicating how you wish to vote, your proxy will be voted in favor of the approval and adoption of the merger agreement and in favor of the proposal to adjourn the meeting if necessary to solicit additional proxies. If you fail to return your proxy card or fail to submit your proxy by telephone or over the internet, or fail to instruct your broker how to vote, and do not attend the Net Element special meeting in person, the effect will be that your shares will not be counted for purposes of determining whether a quorum is present at the Net Element special meeting and, if a quorum is present, will have the same effect as a vote against the approval and adoption of the merger agreement. If you are a shareholder of record and you attend the Net Element special meeting and wish to vote in person, you may withdraw your proxy and vote in person.

Please do not send documents or certificates representing your ownership of Net Element Common Stock at this time. If the transactions contemplated by the merger agreement are consummated, we will notify you of the procedures for exchanging your shares of Net Element Common Stock.

By Order of the Board of Directors,

Secretary

Miami, Florida
, 2012

TABLE OF CONTENTS

FORWARD-LOOKING STATEMENTS

This joint proxy statement/prospectus and the documents that are incorporated into this joint proxy statement/prospectus by reference may contain or incorporate by reference statements that do not directly or exclusively relate to historical facts. Such statements are forward-looking statements. You can typically identify forward-looking statements by the use of forward-looking words, such as may, will, could, project, believe, and expect, estimate, continue, potential, plan, forecast and other similar words. These include, but are not limited to, statements relating to the synergies and the benefits that we expect to achieve in the transactions discussed herein, including future financial and operating results, the combined company's plans, objectives, expectations and intentions and other statements that are not historical facts. Those statements represent the intentions, plans, expectations, assumptions and beliefs of Cazador and Net Element about future events and are subject to risks, uncertainties and other factors. Many of those factors are outside the control of Cazador and Net Element, and could cause actual results to differ materially from the results expressed or implied by those forward-looking statements. In addition to the risk factors described under "Risk Factors" beginning on page 31, those factors include:

possible delays in closing the business combination whether due to the inability to obtain shareholder or regulatory approval, Cazador's not having at least \$23.5 million of cash upon consummation of the merger held in the trust account, or otherwise;

the ability to integrate Cazador's or Net Element's businesses and operations;

the benefits of and the acquisition of Cazador and Net Element, including the prospects of the combined businesses, anticipated synergies and cost savings;

anticipated growth and growth strategies;

the need for additional capital and the availability of financing;

the combined company's ability to successfully manage relationships with customers, distributors and other important relationships;

the combined company's ability to integrate the management team and employees;

the loss of key personnel or expenditure of a greater amount of resources attracting, retaining and motivating key personnel than in the past;

the compatibility of business cultures;

technological changes;

pricing and availability of products and services;

demand for the combined company's products and services;

competition;

the deterioration of general economic conditions, either nationally or in the local markets in which we operate;

legislative or regulatory changes that may adversely affect the combined company's business;

costs related to the business combination that may reduce Cazador's working capital;

the inability of Cazador to list the NEI Common Stock on The NASDAQ Capital Market; and

Cazador's dissolution and liquidation as a result of a failure to close the business combination.

The forward-looking statements are based on current expectations about future events. Although Cazador believes that the expectations reflected in the forward-looking statements are reasonable, these expectations may not be achieved.

Cazador is under no duty to update any of the forward-looking statements after the date of this joint proxy statement/prospectus to conform those statements to actual results. In evaluating these statements, you should consider various factors, including the risks outlined in the section entitled "Risk Factors" beginning on page 31.

TABLE OF CONTENTS

QUESTIONS AND ANSWERS

*The following questions and answers are intended to address briefly some commonly asked questions regarding the transactions contemplated by the business combination and the special meetings of Cazador and Net Element. These questions and answers may not address all questions that may be important to you as a shareholder. To better understand these matters, and for a description of the legal terms governing the transactions contemplated by the business combination, you should carefully read this entire joint proxy statement/prospectus, including the annexes, as well as the documents that have been incorporated by reference in this joint proxy statement/prospectus. See *Where You Can Find More Information* beginning on page 208. Unless the context otherwise requires, in this joint proxy statement/prospectus, the term *Cazador* refers to Cazador Acquisition Corporation Ltd. as it currently exists under Cayman Islands law and as it will continue to exist under the DGCL following the Cazador domestication; the term *Cazador Cayman* refers to Cazador prior to the Cazador domestication; the term *NEI* refers to Cazador following effectiveness of the Cazador domestication; all references in this joint proxy statement/prospectus to *Net Element* refer to Net Element, Inc., a Delaware corporation; unless otherwise indicated or as the context requires, all references in this joint proxy statement/prospectus to *we* refer to Cazador and Net Element; all references to the merger agreement refer to the Agreement and Plan of Merger, dated as of June 12, 2012, as it may be amended from time to time, between Cazador and Net Element, a copy of which is attached as Annex A to this joint proxy statement/prospectus; and all references to the *Cazador Cayman Charter* refer to Cazador's Second Amended and Restated Memorandum and Articles of Association, a copy of which is attached as Annex B to this joint proxy statement/prospectus.*

General Questions and Answers

Q: Why am I receiving this joint proxy statement/prospectus?

A: Cazador is proposing to acquire Net Element pursuant to the merger agreement. Cazador and Net Element have entered into the merger agreement pursuant to which Net Element will merge with and into Cazador, with Cazador as the surviving entity. As a condition to closing the merger pursuant to the terms of the merger agreement, Cazador is proposing to change its jurisdiction of incorporation by discontinuing as an exempted company in the Cayman Islands and continuing and domesticating as a corporation incorporated under the laws of Delaware, at which time Cazador will change its name, in connection with the effectiveness of the merger, to Net Element International, Inc. As a result of the merger, former Net Element shareholders will own NEI Common Stock. Cazador intends to apply to list the NEI Common Stock on The NASDAQ Capital Market. There can be no assurance that the NEI Common Stock will be listed on The NASDAQ Capital Market.

Cazador is holding a special meeting of shareholders, which we refer to as the Cazador special meeting, in order to obtain the shareholder approval necessary to approve and adopt the merger agreement and the merger contemplated thereby, which we refer to as the Cazador merger approval. Pursuant to the terms of the merger agreement, Cazador shareholders will also be asked to approve the Cazador domestication, which we refer to as the Cazador domestication proposal, and, together with the Cazador merger approval, as the Cazador business combination approval. In addition, Cazador shareholders will be asked to approve the adjournment of the Cazador special meeting (if it is necessary or appropriate to solicit additional proxies because there are not sufficient votes to obtain the Cazador business combination approval).

Net Element is holding a special meeting of shareholders, which we refer to as the Net Element special meeting, in order to obtain the shareholder approval necessary to approve and adopt the merger agreement and the merger contemplated thereby, which we refer to as the Net Element business combination approval. In addition, Net Element

shareholders will be asked to approve the adjournment of the Net Element special meeting.

We will be unable to complete the business combination unless both the Cazador business combination approval and the Net Element business combination approval are obtained at the respective special meetings and the continuance to Delaware is approved.

We have included elsewhere in this joint proxy statement/prospectus important information about the business combination, the merger agreement (a copy of which is attached as Annex A) and the Cazador and

TABLE OF CONTENTS

Net Element special meetings. You should read this information carefully and in its entirety. The enclosed voting materials allow you to vote your shares without attending the applicable special meeting.

YOUR VOTE IS IMPORTANT. YOU ARE ENCOURAGED TO VOTE AS SOON AS POSSIBLE AFTER CAREFULLY REVIEWING THIS JOINT PROXY STATEMENT/PROSPECTUS.

Q: What equity stake will current Net Element shareholders and current Cazador shareholders hold in Cazador immediately after the consummation of the business combination?

A: Immediately following the completion of the business combination (without taking into account any shares of NEI Common Stock held by Net Element shareholders prior to the completion of the business combination, and assuming cashless exercise of outstanding warrants and options of Net Element and that no holders of Public Cazador Ordinary Shares exercise their redemption rights), the former shareholders of Net Element are expected to own approximately 80.9% of the outstanding NEI Common Stock (or approximately 65.6% of the outstanding NEI Common Stock calculated on a fully diluted basis) and the current holders of Cazador Ordinary Shares are expected to own approximately 19.1% of the outstanding NEI Common Stock (or approximately 34.4% of the outstanding NEI Common Stock calculated on a fully diluted basis).

Q: What conditions must be satisfied to complete the business combination?

A: Cazador and Net Element are not required to complete the business combination unless a number of conditions are satisfied or waived. These conditions include, among others: (i) receipt of both the Cazador business combination approval and the Net Element business combination approval; (ii) completion of the Cazador domestication; (iii) absence of any injunctions, orders or laws that would prohibit, restrain or make illegal the merger; (iv) effectiveness of the registration statement on Form S-4, of which this joint proxy statement/prospectus forms a part, and the absence of any stop order; (v) the holders of Public Cazador Ordinary Shares, owning, in the aggregate, more than 49.9% of the Public Cazador Ordinary Shares, must not both vote against and exercise their shareholder redemption rights with respect to the business combination; and (vi) Cazador's having at least \$23.5 million of cash held in the trust account (after giving effect to payment of all holders of Public Cazador Ordinary Shares who exercise their redemption right but excluding payments to be made for transaction fees and related expenses and pay-off of related party debt).

For a more complete summary of the conditions that must be satisfied or waived prior to completion of the business combination, see The Merger Agreement Description of the Merger Agreement Conditions to the Closing of the Merger beginning on page 168.

Q: When do you expect the business combination to be completed?

A: Cazador and Net Element are working to complete the business combination as quickly as possible, and we anticipate that it will be completed in the third quarter of 2012. However, the business combination is subject to various regulatory approvals and other conditions which are described in more detail in this joint proxy statement/prospectus, and it is possible that factors outside the control of Cazador and Net Element could result in the

Q: What equity stake will current Net Element shareholders and current Cazador shareholders hold in Cazador immediately after the consummation of the business combination?

business combination not being completed at all.

Q: What are my U.S. federal income tax consequences as a result of the merger?

A: As a condition to the completion of the merger, each of Reed Smith LLP, or Reed Smith, tax counsel to Cazador, and Bilzin Sumberg Baena Price & Axelrod LLP, or Bilzin, tax counsel to Net Element, must have delivered an opinion, dated the closing date of the merger, to the effect that the merger will be treated as a reorganization for U.S. federal income tax purposes within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended, or the Code. Assuming that the merger qualifies as a reorganization, Net Element shareholders will not recognize any gain or loss for U.S. federal income tax purposes on the exchange of Net Element Common Stock for shares of NEI Common Stock in the merger.

The tax opinions regarding the merger will not address any state, local or foreign tax consequences of the merger. The opinions will be subject to customary qualifications and assumptions, including that the merger will be completed according to the terms of the merger agreement. In rendering the tax opinions, each counsel will require and rely on representations and statements of Net Element, Cazador and their affiliates, which will be delivered at the time of the closing of the merger. If any such assumption, representation or statement is or becomes inaccurate, the U.S. federal income tax consequences of the merger could be adversely affected.

TABLE OF CONTENTS

An opinion of counsel represents such counsel's best legal judgment but is not binding on the Internal Revenue Service, or IRS, or any court. Neither Net Element nor Cazador intends to request any ruling from the IRS as to the U.S. federal income tax consequences of the merger. Consequently, no assurance can be given that the IRS will not assert, or that a court will not sustain, a position contrary to any of the tax consequences described in this joint proxy statement/prospectus or any of the tax consequences described in the tax opinions.

Tax matters are very complicated, and the tax consequences of the merger to a particular shareholder will depend on such shareholder's circumstances. Accordingly, you are strongly urged to consult your tax advisor for a full understanding of the tax consequences of the merger to you, including the applicability and effect of U.S. federal, state, local and foreign income and other tax laws. For a more complete discussion of the material U.S. federal income tax consequences of the merger, see Material U.S. Federal Income Tax Consequences Material U.S. Federal Income Tax Consequences of the Merger beginning on page 155.

Q: What happens if I sell my Cazador Ordinary Shares or Net Element Common Stock before the applicable special meeting?

A: The record dates for the Net Element special meeting, which we refer to as the Net Element record date, and for the Cazador special meeting, which we refer to as the Cazador record date, are earlier than the date of the special meetings and the date that the business combination is expected to be completed. If you transfer your shares after the applicable record date, but before the applicable special meeting, unless the transferee requests a proxy, you will retain your right to vote at such special meeting, but will have transferred the right to receive the merger consideration, in the case of Net Element shareholders, in the merger. In order to receive the merger consideration, holders of Net Element Common Stock must hold their shares through completion of the merger.

Q: What happens if I sell my shares of Net Element Common Stock after the Net Element special meeting, but before the effective time of the merger?

A: If you transfer your shares of Net Element Common Stock after the Net Element special meeting, but before the effective time of the merger, you will have transferred the right to receive the merger consideration in the merger. In order for holders of Net Element Common Stock to receive the merger consideration, such holders must hold their shares through completion of the merger.

Q: What if I hold shares in both Cazador and Net Element?

A: If you are a shareholder of both Cazador and Net Element, you will receive two separate packages of proxy materials. A vote as a Net Element shareholder for the proposal to approve and adopt the merger agreement will not constitute a vote as a Cazador shareholder for the proposal to approve and adopt the merger agreement, or vice versa. **THEREFORE, PLEASE MARK, SIGN, DATE AND RETURN ALL PROXY CARDS THAT YOU RECEIVE, WHETHER FROM CAZADOR OR NET ELEMENT, OR SUBMIT A PROXY AS BOTH A CAZADOR AND NET ELEMENT SHAREHOLDER OVER THE INTERNET OR BY TELEPHONE.**

Q: My shares are held in street name by my broker. Will my broker automatically vote my shares for me?

A: No. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial holder of the shares held for you in what is known as street name. If this is the case, this joint proxy statement/prospectus has been forwarded to you by your brokerage firm, bank or other nominee, or its agent. As the beneficial holder, you have the right to direct your broker, bank or other nominee as to how to vote your shares. If you do not provide voting instructions to your broker on a particular proposal on which your broker does not have discretionary authority to vote, your shares will not be voted on that proposal. This is called a broker non-vote.

Cazador believes that under Cayman Islands law, broker non-votes should be counted for purposes of determining the presence or absence of a quorum at the Cazador special meeting. Furthermore, under the rules of the NYSE, brokers, banks and other nominees that are members of the NYSE do not have discretionary authority to vote on non-routine proxy statement proposals, including the proposals to approve the business

TABLE OF CONTENTS

combination at the special meetings. Accordingly, to the extent that there are any broker non-votes, a broker non-vote will have the same effect as a vote **AGAINST** the proposal to approve and adopt the merger agreement but will have no effect on the other proposals.

Net Element believes that, under the DGCL, broker non-votes will be counted for purposes of determining the presence of a quorum at the Net Element special meeting. As noted in the previous paragraph, however, brokers, banks and other nominees that are members of the NYSE do not have discretionary authority to vote on non-routine proxy statement proposals, including the proposals to approve the business combination at the special meetings. To the extent that there are any broker non-votes, a broker non-vote will have the same effect as a vote **AGAINST** the proposal to approve and adopt the merger agreement but will have no effect on the other proposals.

Q: What do I need to do now?

A: Read and consider the information contained in this joint proxy statement/prospectus carefully, and then please vote your shares as soon as possible so that your shares may be represented at your special meeting.

Q: How do I vote?

A: You can vote in person by completing a ballot at the special meeting, or you can vote by proxy before the special meeting. Even if you plan to attend your company's special meeting, we encourage you to vote your shares by proxy as soon as possible. After carefully reading and considering the information contained in this joint proxy statement/prospectus, please submit your proxy by telephone or over the Internet in accordance with the instructions set forth on the enclosed proxy card, or mark, sign and date the proxy card, and return it in the enclosed postage-paid envelope as soon as possible so that your shares may be voted at your company's special meeting. For detailed information, see *The Special Meeting of Cazador Shareholders How to Vote* beginning on page 124 and *The Special Meeting of Net Element Shareholders How to Vote* beginning on page 131. **YOUR VOTE IS VERY IMPORTANT.**

Q: Can I change my vote after I have submitted a proxy by telephone or over the Internet or submitted my completed proxy card?

A: Yes. If you are a shareholder of record, you can change your vote by revoking your proxy at any time before it is voted at the Cazador or Net Element special meeting, as applicable. You can do this in one of four ways: (1) submit a proxy again by telephone or over the Internet prior to midnight on the night before the special meeting; (2) sign another proxy card with a later date and return it by mail prior to midnight on the night before the special meeting; (3) attend the applicable special meeting and complete a ballot; or (4) send a written notice of revocation to the secretary of Cazador or Net Element, as applicable, so that it is received prior to midnight on the night before the Cazador or Net Element special meeting, as applicable.

If you have instructed a broker to vote your shares, you must follow directions received from your broker to change your vote.

Q: What should shareholders do if they receive more than one set of voting materials for a special meeting?

A: You may receive more than one set of voting materials for a special meeting, including multiple copies of this joint proxy statement/prospectus and multiple proxy cards or voting instruction cards. Please complete, sign, date and return each proxy card and voting instruction card that you receive. For example, if you hold your shares in more than one brokerage account, you will receive a separate voting instruction card for each brokerage account in which you hold shares. If you are a holder of record and your shares are registered in more than one name, you will receive more than one proxy card.

Q: Who should I call if I have questions about the proxy materials or voting procedures?

A: If you have questions about the business combination, or if you need assistance in submitting your proxy or voting your shares or need additional copies of this joint proxy statement/prospectus or the enclosed proxy card, you should contact the company in which you hold shares as follows:

If you are a Cazador shareholder, you should contact Morrow & Co., LLC, or Morrow, by mail at 470 West Avenue, Stamford, CT 06902, or by telephone at (800) 662-5200

TABLE OF CONTENTS

If you are a Net Element shareholder, you should contact Net Element by mail at 1450 S. Miami Avenue, Miami, Florida 33130, Attention: Jonathan New, by telephone at (305) 507-8808, or by email at jn@netelement.com.

If your shares are held in a stock brokerage account or by a bank or other nominee, you should contact your broker, bank or other nominee for additional information.

Questions and Answers for Cazador Shareholders

Q: Why is Cazador proposing the merger?

A: Cazador is proposing to acquire Net Element pursuant to the merger agreement.

Cazador is a recently organized blank check company incorporated as a Cayman Islands exempted company for the purpose of effecting a merger, share capital exchange, asset acquisition, share purchase, reorganization or similar business combination. Cazador's business plan is not limited to a particular industry, geographic region or minimum transaction value for purposes of consummating an initial business combination, except that its initial business combination must be with one or more target businesses whose fair market value, individually or collectively, is equal to at least 80% of the balance in the trust account at the time of such initial business combination plus any amounts previously distributed to Cazador shareholders who have exercised their shareholder redemption rights. Additionally, Cazador must acquire at least a controlling interest in a target business (meaning more than 50% of the voting securities of such target business), although after consummating a business combination with a target business, holders of Cazador Ordinary Shares may own less than a majority of the voting securities of the combined businesses.

Cazador determined that the fair market value of Net Element is approximately \$97.7 million (based on the aggregate shares of Net Element Common Stock to be acquired by Cazador in the merger multiplied by the last reported sale price per share of Net Element Common Stock on the OTCQB electronic quotation system on June 11, 2012, which was the date immediately preceding the public announcement of the merger). Because the balance of the Cazador trust account was approximately \$46.2 million as of June 11, 2012, Cazador concluded that the fair market value of Net Element is greater than 80% of the balance of the Cazador trust account. Pursuant to the terms of the merger agreement, upon completion of the merger, each share of then-issued and outstanding Net Element Common Stock will be automatically cancelled and converted into the right to receive the number of shares of NEI Common Stock equal to the Exchange Ratio. Although, following completion of the business combination, the current holders of Cazador Ordinary Shares are expected to own approximately 19.1% of the outstanding NEI Common Stock (or 34.4% of the outstanding NEI Common Stock calculated on a fully diluted basis), Cazador concluded that it is acquiring a controlling interest in Net Element since, pursuant to the terms of the merger agreement, Cazador will acquire 100% of the voting securities of Net Element.

On October 14, 2010, Cazador closed its initial public offering of 4,600,000 units (including 600,000 units subject to the underwriters' over-allotment option which were exercised on October 14, 2010). Each unit consisted of one ordinary share, par value \$0.001, and one warrant. The units were sold at an offering price of \$10.00, generating gross proceeds to Cazador of approximately \$46.0 million. Prior to Cazador's initial public offering, it sold an aggregate of 4,340,000 warrants to Cazador's Sponsor in a private placement for a purchase price of \$0.50 per warrant, generating total proceeds of approximately \$2.2 million to Cazador. After deducting the underwriting discounts and commissions and Cazador's initial public offering expenses, the total net proceeds to Cazador from the initial public offering and private placement were approximately \$46.5 million, of which approximately \$46.2 million was deposited into a trust account, with the remaining proceeds being used to provide for business, legal and accounting due diligence and advisory fees in connection with prospective business combinations, compliance with securities laws and regulations,

Q: Who should I call if I have questions about the proxy materials or voting procedures?

and continuing general and administrative expenses.

In accordance with the Cazador Cayman Charter (which is included as Annex B to this joint proxy statement/prospectus and incorporated by reference), if Cazador was unable to complete a business combination by April 14, 2012, Cazador would be required to repurchase all of the Public Cazador Ordinary Shares and liquidate the trust account and distribute the proceeds pro rata to the holders of Public Cazador Ordinary Shares in return for such shares (which will be subsequently cancelled upon completion of the

TABLE OF CONTENTS

redemption of such shares). On March 28, 2012, Cazador filed a Form 8-K with the SEC in which it announced that it had entered into a non-binding letter of intent with respect to an initial business combination. Pursuant to the Cazador Cayman Charter, the execution of the letter of intent affords the Company a six-month extension for the completion of its initial business combination until October 14, 2012.

See The Business Combination Recommendation of the Cazador Board; Cazador's Reasons for the Business Combination.

Q: Why is Cazador proposing the Cazador domestication?

A: Although, pursuant to the merger agreement, Net Element will merge with and into Cazador, with Cazador as the surviving entity, the operations of Net Element will become the core business of the combined entity following completion of the merger. Net Element believes that being a Delaware corporation increases its ability to attract long-term investors. As a result, Net Element's key shareholders required that it be a condition to close the merger pursuant to the terms of the merger agreement that Cazador change its jurisdiction of incorporation from the Cayman Islands to Delaware, referred to as the Cazador domestication. To effect the Cazador domestication, Cazador will file a notice of de-registration with the Cayman Islands Registrar of Companies, together with the necessary accompanying documents, and file a certificate of incorporation and a certificate of corporate domestication with the Secretary of State of Delaware, under which Cazador will be domesticated and continue as a Delaware corporation, at which time Cazador will change its name, in connection with the effectiveness of the merger, to Net Element International, Inc. The Cazador domestication requires the approval of the holders of at least two-thirds of the outstanding Cazador Ordinary Shares which attend and vote at the Cazador special meeting. If, however, the merger agreement is not approved and adopted by Cazador's shareholders, then the Cazador domestication will not be submitted to Cazador's shareholders for approval.

Q: What are my U.S. federal income tax consequences as a result of the Cazador domestication?

A: In the opinion of Reed Smith, tax counsel to Cazador, the Cazador domestication will constitute a reorganization within the meaning of Section 368(a)(1)(F) of the Code. Assuming that the Cazador domestication qualifies as a reorganization, U.S. holders (as defined in Material U.S. Federal Income Tax Consequences below) of Cazador Ordinary Shares will be subject to Section 367(b) of the Code and, as a result:

A U.S. holder of Cazador Ordinary Shares whose Cazador Ordinary Shares have a fair market value of less than \$50,000 on the day of the Cazador domestication will not recognize any gain or loss and will not be required to include any part of the all earnings and profits amount in income.

A U.S. holder of Cazador Ordinary Shares whose Cazador Ordinary Shares have a fair market value of \$50,000 or more but who on the day of the Cazador domestication owns (actually and constructively) less than 10% of the total combined voting power of all classes of Cazador Cayman shares entitled to vote generally will recognize gain (but not loss) on the exchange of Cazador Ordinary Shares for NEI Common Stock pursuant to the Cazador domestication. As an alternative to recognizing gain, however, a U.S. holder may elect to include in income as a dividend the all earnings and profits amount, as the term is defined in Treasury Regulation Section 1.367(b)-2(d), attributable to the Cazador Ordinary Shares it directly owns, provided certain requirements are satisfied. Cazador does not expect that Cazador Cayman's cumulative earnings and profits will be greater than zero as of the day of the Cazador domestication.

A U.S. holder of Cazador Ordinary Shares whose Cazador Ordinary Shares have a fair market value of \$50,000 or more, and who on the day of the Cazador domestication owns (actually and constructively) 10% or more of the total combined voting power of all classes of Cazador Cayman shares entitled to vote generally will be required to include in income as a dividend the all earnings and profits amount, as the term is defined in Treasury Regulation Section 1.367(b)-2(d), attributable to the Cazador Ordinary Shares it directly owns. However, Cazador does not expect that Cazador Cayman's cumulative earnings and profits will be greater than zero as of the day of the Cazador domestication.

6

TABLE OF CONTENTS

Cazador Cayman should be considered a passive foreign investment company, or PFIC, for U.S. federal income tax purposes. As a result, notwithstanding the foregoing U.S. federal income tax consequences of the Cazador domestication, proposed Treasury regulations under Section 1291(f) of the Code (which have a retroactive effective date), if finalized in their current form, generally would require a U.S. holder to recognize gain on the exchange of Cazador Ordinary Shares for NEI Common Stock pursuant to the Cazador domestication. The tax on any such gain so recognized would be imposed at the rate applicable to ordinary income and an interest charge would apply based on a complex set of computational rules designed to offset the tax deferral to such holders on the undistributed earnings, if any, of Cazador Cayman. However, we are unable to predict at this time whether, in what form, and with what effective date, final Treasury regulations under Section 1291(f) of the Code will be adopted. For a more complete discussion of the potential application of the PFIC rules to U.S. holders as a result of the Cazador domestication, see Material U.S. Federal Income Tax Consequences – Material U.S. Federal Income Tax Consequences of the Cazador Domestication – Passive Foreign Investment Company Considerations beginning on page 158.

Additionally, the Cazador domestication may cause non-U.S. holders (as defined in Material U.S. Federal Income Tax Consequences below) to become subject to U.S. withholding taxes on any dividends in respect of the shares of NEI Common Stock made subsequent to the Cazador domestication.

The tax opinion regarding the Cazador domestication will not address any state, local or foreign tax consequences of the Cazador domestication. The opinions will be subject to customary qualifications and assumptions, including that the Cazador domestication will be completed as described herein. In rendering the tax opinion, Reed Smith will require and rely on representations and statements of Cazador and their affiliates, which will be delivered at the time of the closing of the Cazador domestication. If any such assumption, representation or statement is or becomes inaccurate, the U.S. federal income tax consequences of the Cazador domestication could be adversely affected.

An opinion of counsel represents such counsel's best legal judgment but is not binding on the IRS or any court. Cazador does not intend to request any ruling from the IRS as to the U.S. federal income tax consequences of the Cazador domestication. Consequently, no assurance can be given that the IRS will not assert, or that a court will not sustain, a position contrary to any of the tax consequences set forth in this joint proxy statement/prospectus or any of the tax consequences described in the tax opinion.

Tax matters are very complicated, and the tax consequences of the Cazador domestication to a particular shareholder will depend on such shareholder's circumstances. Accordingly, you are strongly urged to consult your tax advisor for a full understanding of the tax consequences of the Cazador domestication to you, including the applicability and effect of U.S. federal, state, local and foreign income and other tax laws. For a more complete discussion of the material U.S. federal income tax consequences of the Cazador domestication, see Material U.S. Federal Income Tax Consequences – Material U.S. Federal Income Tax Consequences of the Cazador Domestication beginning on page 156.

Q: When and where will the Cazador special meeting be held?

A: The Cazador special meeting will be held at the offices of Reed Smith LLP located at 599 Lexington Avenue, New York, New York 10022 on September 28, 2012, at 10:00 a.m., Eastern time, unless the special meeting is adjourned or postponed.

Q: Who is entitled to vote at the Cazador special meeting?

A: Cazador has fixed August 27, 2012 as the Cazador record date. If you were a Cazador shareholder at the close of business on the Cazador record date, you are entitled to vote on matters that come before the Cazador special meeting. However, a Cazador shareholder may only vote his or her shares if he or she is present in person or is represented by proxy at the Cazador special meeting.

Q: How many votes do I have?

A: Cazador shareholders are entitled to one vote at the Cazador special meeting for each Cazador Ordinary Share held of record as of the Cazador record date. As of the close of business on the Cazador record date, there were outstanding Cazador Ordinary Shares, of which were outstanding Public Cazador Ordinary Shares.

7

TABLE OF CONTENTS

Q: What constitutes a quorum?

A: Holders of a majority in voting power of the Cazador Ordinary Shares issued and outstanding and entitled to vote at the Cazador special meeting, present in person or represented by proxy, constitute a quorum. As of the record date for the Cazador special meeting, Cazador Ordinary Shares would be required to achieve a quorum.

Q: What vote is required to approve each Cazador proposal?

A: *Proposal to Approve and Adopt the Merger Agreement by Cazador Shareholders:* The proposal to approve and adopt the merger agreement and the merger contemplated thereby, which we refer to as the Cazador merger proposal, requires the affirmative vote of holders of a majority of the Public Cazador Ordinary Shares outstanding and entitled to vote. Accordingly, a Cazador shareholder's failure to submit a proxy card or to vote in person at the special meeting, an abstention from voting, or the failure of a Cazador shareholder who holds his or her shares in street name through a broker or other nominee to give voting instructions to such broker or other nominee, will have the same effect as a vote AGAINST the Cazador merger proposal.

Proposal to Approve the Cazador Domestication: The proposal to approve the Cazador domestication, which we refer to as the Cazador domestication proposal, requires the affirmative vote of holders of at least two-thirds of the Cazador Ordinary Shares outstanding and entitled to vote which attend and vote at the Cazador special meeting. If, however, the Cazador domestication proposal is approved, but the Cazador merger proposal is not approved, then neither the Cazador domestication nor the merger will be consummated.

Proposal to Adjourn the Cazador special meeting by Cazador Shareholders: Approving the adjournment of the special meeting (if it is necessary or appropriate to solicit additional proxies because there are not sufficient votes to obtain the Cazador business combination approval) requires the affirmative vote of holders of a majority of the Cazador Ordinary Shares present, in person or represented by proxy, at the special meeting and entitled to vote on the adjournment proposal, regardless of whether a quorum is present. Accordingly, abstentions will have the same effect as a vote AGAINST the proposal to adjourn the special meeting, while broker non-votes and shares not in attendance at the special meeting will have no effect on the outcome of any vote to adjourn the special meeting.

Q: How does Cazador's Sponsor intend to vote its shares?

A: Cazador's Sponsor has agreed to vote its Cazador Ordinary Shares in the same manner as holders of the majority of the Public Cazador Ordinary Shares in connection with the votes required to approve the business combination. As of August 21, 2012, the Sponsor beneficially owned and was entitled to vote approximately 20.0% of the total outstanding Cazador Ordinary Shares on that date.

Q: What are the recommendations of Cazador's board of directors?

A: Cazador's board of directors, or the Cazador board, has unanimously (i) approved the merger agreement and the consummation of the transactions contemplated thereby upon the terms and subject to the conditions set forth in the merger agreement; (ii) approved the Cazador domestication; (iii) determined that the terms of the merger are fair to, and in the best interests of, Cazador and its shareholders; (iv) directed that the merger agreement be submitted to Cazador shareholders for adoption; (v) recommended that Cazador shareholders vote in favor of each of the Cazador

Q: How many votes do I have?

merger proposal and the Cazador domestication proposal and (vi) declared the advisability of the business combination.

The Cazador board unanimously recommends that Cazador shareholders vote:

FOR the Cazador merger proposal; and

FOR the Cazador domestication proposal; and

FOR the proposal to approve the adjournment of the special meeting (if it is necessary or appropriate to solicit additional proxies because there are not sufficient votes to obtain the Cazador business combination approval).

See The Business Combination Recommendation of the Cazador Board; Cazador's Reasons for the Business Combination beginning on page 142.

8

TABLE OF CONTENTS

Q: Do Cazador shareholders have redemption rights?

A: Yes. Cazador is offering each holder of Public Cazador Ordinary Shares the right to have such holder's shares redeemed into cash if such holder either (i) votes against the business combination and timely exercises such redemption right or (ii) votes in favor of the business combination but elects to exercise such shareholder's right to redeem. However, although an abstention or failure to vote on the business combination will have the same effect as a vote against the business combination, such abstention or failure to vote will not be sufficient to enable holders of Public Cazador Ordinary Shares to exercise their redemption rights. Cazador's Sponsor and its beneficial owners will not have shareholder redemption rights with respect to any Cazador Ordinary Shares owned by them, directly or indirectly, including Cazador Ordinary Shares purchased by them in Cazador's initial public offering or in the secondary market. The actual per-share redemption price will be equal to the aggregate amount then in the trust account, and including accrued interest, net of any interest income on the trust account balance required for Cazador to pay its tax obligations incurred and net of interest income of up to \$2.0 million previously released to Cazador to fund its working capital requirements (calculated as of two business days prior to the consummation of the business combination), divided by the number of Public Cazador Ordinary Shares. As of August 21, 2012, the per-share redemption price would be approximately \$10.036.

Each holder of Public Cazador Ordinary Shares may elect to redeem his, her or its Public Cazador Ordinary Shares irrespective of whether he, she or it votes for or against the business combination. Cazador will not complete the business combination if holders of Public Cazador Ordinary Shares, owning, in the aggregate, more than 49.9% of the Public Cazador Ordinary Shares, both vote against and exercise their shareholder redemption rights with respect to the business combination. Additionally, as per the terms of the merger agreement, the merger will not be consummated unless Cazador has at least \$23.5 million of cash held in the trust account (after giving effect to payment of all holders of Public Cazador Ordinary Shares who exercise their redemption right but excluding payments to be made for transaction fees and pay-off of related party debt). Holders of Public Cazador Ordinary Shares will be able to redeem their shares up to the business day immediately prior to the vote on the proposals to approve the business combination.

Holders of outstanding Cazador units must separate the underlying Public Cazador Ordinary Shares and Cazador warrants prior to exercising redemption rights with respect to the Public Cazador Ordinary Shares. There will be no redemption rights upon consummation of the merger with respect to outstanding Cazador warrants.

As set forth in the Cazador Cayman Charter, a holder of Public Cazador Ordinary Shares, together with any affiliate of his or any other person with whom he is acting in concert or as a partnership, syndicate or other group for the purpose of acquiring, holding or disposing of Cazador Cayman's securities, will be prohibited from exercising shareholder redemption rights with respect to more than 10% of the Public Cazador Ordinary Shares.

Cazador may enter into privately negotiated transactions to purchase shares of NEI Common Stock from its public shareholders using proceeds released from the trust account immediately following consummation of the transactions contemplated by the merger agreement.

Q: Will how I vote affect my ability to exercise redemption rights?

A: You may exercise your redemption rights regardless of whether you vote your Public Cazador Ordinary Shares for or against the business combination or other proposals submitted for approval by shareholders. However, although an abstention or failure to vote on the business combination will have the same effect as a vote against the business

combination, such abstention or failure to vote will not be sufficient to enable you to exercise your redemption rights with respect to your Public Cazador Ordinary Shares.

Q: How do I exercise my redemption rights?

A: If you wish to exercise your redemption rights, you must:

send a letter to Cazador's transfer agent, Continental Stock Transfer & Trust Company, at 17 Battery Place, 8 Floor, New York, New York 10004, attn: Mark Zimkind, stating that you are exercising your redemption rights and demanding that your Public Cazador Ordinary Shares be converted into cash; and

9

TABLE OF CONTENTS

either:
physically tender, or if you hold your Public Cazador Ordinary Shares in street name, cause your broker to physically tender, your certificates representing Cazador Ordinary Shares to Cazador's transfer agent by 5:00 p.m. Eastern time on September 27, 2012; or
deliver your Public Cazador Ordinary Shares electronically using the Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, to Cazador's transfer agent by 5:00 p.m. Eastern time on September 27, 2012.
You may elect to redeem your Public Cazador Ordinary Shares irrespective of whether you vote in favor of or against the approval of the business combination.

Holders of outstanding Cazador units must separate the underlying Public Cazador Ordinary Shares and Cazador warrants prior to exercising redemption rights with respect to the Public Cazador Ordinary Shares. You may instruct your broker to do so, or if you hold Cazador units registered in your own name, you must contact the depository directly and instruct them to do so. If you fail to cause your Public Cazador Ordinary Shares to be separated and delivered to Cazador's transfer agent by 5:00 p.m. Eastern time on September 27, 2012, you will not be able to exercise your redemption rights with respect to your Public Cazador Ordinary Shares.

Q: What are my U.S. federal income tax consequences of exercising my redemption rights?

A: A U.S. holder of Public Cazador Ordinary Shares who exercises redemption rights to receive cash from the trust account in exchange for its Public Cazador Ordinary Shares generally will recognize gain or loss equal to the difference, if any, between the amount of cash received and its tax basis in the Public Cazador Ordinary Shares redeemed. A shareholder's tax basis in its Public Cazador Ordinary Shares generally will equal the cost of such shares. A shareholder who purchased Cazador units in Cazador's initial public offering generally will have a tax basis in the Public Cazador Ordinary Shares that were part of such Cazador units equal to the portion of the purchase price of such Cazador units allocated to the Public Cazador Ordinary Shares (such allocation based on the relative fair market values of the Public Cazador Ordinary Shares and the warrants at the time of purchase).

Because Cazador Cayman should be considered a PFIC for U.S. federal income tax purposes, a U.S. holder who exercises redemption rights to receive cash in exchange for its Public Cazador Ordinary Shares generally will be subject to special tax rules with respect to any gain realized on the redemption. In general, under these special tax rules, unless the U.S. holder has made a qualified electing fund election under Section 1295 of the Code with respect to its Public Cazador Ordinary Shares for the first taxable year in which such U.S. holder owns such shares or in which Cazador Cayman is a PFIC, whichever is later, or a mark-to-market election under Section 1296 of the Code, (i) any gain recognized on the redemption will be allocated ratably over the U.S. holder's holding period for the Public Cazador Ordinary Shares redeemed, (ii) the amount of gain allocated to the current taxable year will be treated as ordinary income, and (iii) the amount of gain allocated to each other year will be subject to the highest tax rate in effect for that year, and an interest charge will be imposed to recover the deemed benefit of the deferred payment of tax.

Tax matters are very complicated, and the tax consequences of the redemption to a particular holder of Public Cazador Ordinary Shares will depend on such shareholder's circumstances. Accordingly, you are strongly urged to consult your tax advisor for a full understanding of the tax consequences of the redemption to you, including the applicability and effect of U.S. federal, state, local and foreign income and other tax laws. For a more complete discussion of the material U.S. federal income tax consequences of a redemption of Public Cazador Ordinary Shares for cash, see Material U.S. Federal Income Tax Consequences – Tax Consequences to Holders of Public Cazador Ordinary Shares

Q: How do I exercise my redemption rights?

Q: How will the Cazador domestication affect my Cazador Ordinary Shares, warrants and units?

A: On the effective date of the Cazador domestication, each Cazador Ordinary Share that is issued and outstanding will automatically convert by operation of law into one share of NEI Common Stock. Similarly, outstanding options, warrants and other rights to acquire Cazador Ordinary Shares will become options,

TABLE OF CONTENTS

warrants or rights to acquire the corresponding shares of NEI Common Stock. It is not necessary for holders of Cazador Ordinary Shares who currently hold share certificates to exchange their existing share certificates for certificates of shares of NEI Common Stock. No other changes will be made to the terms of any outstanding options, warrants and other rights to acquire Cazador Ordinary Shares as a result of the Cazador domestication.

On the effective date of the Cazador domestication, the outstanding units of Cazador will be automatically separated into the underlying Cazador Ordinary Shares and Cazador warrants. As a result, the Cazador units will no longer be listed on The NASDAQ Capital Market.

Q: If I am a Cazador warrant holder, can I exercise redemption rights with respect to my warrants?

A: No. There are no redemption rights with respect to Cazador's warrants.

Q: If I am a Cazador unit holder, can I exercise redemption rights with respect to my units?

A: No. Holders of outstanding Cazador units must separate the underlying Public Cazador Ordinary Shares and Cazador warrants prior to exercising redemption rights with respect to the Public Cazador Ordinary Shares. You may instruct your broker to do so, or if you hold Cazador units registered in your own name, you must contact the depository directly and instruct them to do so. If you fail to cause your Public Cazador Ordinary Shares to be separated and delivered to Cazador's transfer agent by 5:00 p.m. Eastern time on September 27, 2012, you will not be able to exercise your redemption rights with respect to your Public Cazador Ordinary Shares.

Q: Do I have appraisal rights in connection with the Cazador domestication?

A: No. Under Cayman Islands law and the DGCL, holders of Cazador Ordinary Shares do not have statutory dissenters' rights of appraisal or any other appraisal rights as a result of the Cazador domestication.

Q: What happens to the funds deposited in the trust account after completion of the business combination?

A: Upon consummation of the business combination, the funds deposited in the trust account will be released to pay holders of Public Cazador Ordinary Shares who properly exercise their redemption rights; (ii) to pay transaction fees and expenses associated with the business combination; and (iii) for working capital and general corporate purposes of Cazador following the business combination.

Q: What happens if the business combination is not consummated or is terminated?

A: If Cazador does not effect the business combination or any other business combination before October 14, 2012, it will compulsorily repurchase all Public Cazador Ordinary Shares and automatically liquidate the trust account in accordance with the procedure in the Cazador Cayman Charter. The Public Cazador Ordinary Shares will be cancelled and Cazador's Sponsor will be the only remaining shareholder and Cazador will continue in existence.

Q: How will the solicitation of proxies be handled?

A: Cazador is soliciting proxies for the Cazador special meeting from Cazador shareholders. Cazador will bear the cost of soliciting proxies from Cazador shareholders, except that Cazador and Net Element have each agreed to share equally the costs incurred in connection with the printing and mailing of this joint proxy statement/prospectus. In addition to this mailing, Cazador's directors, officers and employees (who will not receive any additional compensation for such services) may solicit proxies by telephone or in-person meeting.

Cazador has also engaged the services of Morrow to assist in the solicitation and distribution of the proxies, for an initial fee of \$12,500 plus out-of-pocket expenses. Cazador will pay Morrow an additional fee of \$25,000 upon successful completion of the business combination.

Cazador will reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for forwarding proxy and solicitation materials to the beneficial owners of Cazador Ordinary Shares.

TABLE OF CONTENTS

Questions and Answers for Net Element Shareholders

Q: Why is Net Element proposing to combine with Cazador?

A: In reaching its decision to recommend the merger agreement for adoption by Net Element shareholders, the Net Element board of directors, or the Net Element board, consulted with Net Element's management, as well as its financial and legal advisors, and considered a number of factors that the board members believe supported their decision. In particular, the Net Element board believes the business combination would provide Net Element shareholders with the potential to participate in a newly capitalized public company that could take advantage of potential growth opportunities and synergies resulting from combining Net Element with Cazador. The Net Element board reviewed the strategic alternatives available to the company, including remaining as a stand-alone public company, and concluded that it is an appropriate time to sell Net Element and that the merger consideration reflected the highest value reasonably attainable for Net Element public shareholders at this time. See *The Business Combination Recommendation of the Net Element Board; Net Element's Reasons for the Business Combination* beginning on page 147.

Q: What will Net Element shareholders receive in the merger?

A: Prior to the effectiveness of the merger, Cazador intends to change its jurisdiction of incorporation from the Cayman Islands to Delaware by effecting the Cazador domestication. On the effective date of the Cazador domestication, each Cazador Ordinary Share that is issued and outstanding will automatically convert by operation of law into one share of NEI Common Stock.

Pursuant to the terms of the merger agreement, upon completion of the merger, each share of then-issued and outstanding Net Element Common Stock will be automatically cancelled and converted into the right to receive the number of shares of NEI Common Stock equal to the Exchange Ratio. The Exchange Ratio is 0.025 shares of NEI Common Stock per share of Net Element Common Stock, which reflects a 66% premium over the last reported sale price of the Net Element Common Stock on the OTCQB electronic quotation system of \$0.15 per share on August 21, 2012. The Exchange Ratio is subject to adjustment to reflect appropriately the effect of any stock split, reverse stock split, stock dividend, extraordinary cash dividends, reorganization, recapitalization, reclassification, combination, exchange of shares or other like change, although no such events are currently contemplated. However, the Exchange Ratio will not be adjusted to reflect any changes in the market prices of Cazador Ordinary Shares, NEI Common Stock or Net Element Common Stock. However, shares held by Net Element as treasury stock or by any direct or indirect wholly-owned subsidiary of Net Element and shares with respect to which appraisal rights, to the extent available under the DGCL, are properly exercised and not withdrawn, which we collectively refer to as the Net Element excluded shares, will not receive the merger consideration. Any Net Element excluded shares will be cancelled upon the effectiveness of the merger.

Notwithstanding the foregoing, to the extent a holder of Net Element Common Stock would receive fewer than 100 shares of NEI Common Stock as a result of the Exchange Ratio, Cazador shall have the right, exercisable in Cazador's sole and absolute discretion, to issue to any such holder an additional number of shares of NEI Common Stock so that such holder receives, in the aggregate, 100 shares of NEI Common Stock in connection with the merger.

Net Element shareholders will not receive any fractional shares of NEI Common Stock in the merger. Instead, Cazador will issue one share of NEI Common Stock to each holder of Net Element Common Stock that would otherwise be entitled to a fractional share of NEI Common Stock.

Q: Should I send in my share certificates now for the exchange?

A: No. After the merger is completed, Net Element shareholders holding Net Element share certificates will receive from Cazador's exchange agent a letter of transmittal and instructions on how to obtain the merger consideration.

Each holder of record of one or more book entry shares of Net Element Common Stock whose shares will be converted into the right to receive the merger consideration will automatically, upon the effective time of the merger, be entitled to receive, and Cazador will cause the exchange agent to deliver to such holder as promptly as practicable after the effective time, the NEI Common Stock to which such holder is entitled under

12

TABLE OF CONTENTS

the merger agreement. Holders of book entry shares will not be required to deliver a certificate or an executed letter of transmittal to the exchange agent in order to receive the merger consideration.

Q: When and where will the Net Element special meeting be held?

A: The Net Element special meeting will be held at the offices of Reed Smith LLP located at 599 Lexington Avenue, New York, New York 10022 on September 28, 2012, at 11:00 a.m., Eastern time, unless the special meeting is adjourned or postponed.

Q: Who is entitled to vote at the Net Element special meeting?

A: Net Element has fixed August 27, 2012 as the Net Element record date. If you were a Net Element shareholder at the close of business on the Net Element record date, you are entitled to vote on matters that come before the Net Element special meeting. However, a Net Element shareholder may only vote his or her shares of Net Element Common Stock if he or she is present in person or is represented by proxy at the Net Element special meeting.

Q: How many votes do I have?

A: Net Element shareholders are entitled to one vote at the Net Element special meeting for each share of Net Element Common Stock held of record as of the Net Element record date. As of the close of business on the Net Element record date, there were outstanding shares of Net Element Common Stock.

Q: What constitutes a quorum?

A: Holders of a majority of the outstanding shares of Net Element Common Stock entitled to vote at the Net Element special meeting, present in person or represented by proxy, constitutes a quorum. In the absence of a quorum, the majority of the shares represented in person or by proxy, will have the power to adjourn the special meeting. As of the record date for the Net Element special meeting, _____ shares of Net Element Common Stock would be required to achieve a quorum.

Q: What vote is required to approve each Net Element proposal?

A: *Proposal to Approve and Adopt the Merger Agreement by Net Element Shareholders:* The proposal to approve and adopt the merger agreement and the merger contemplated thereby, which we refer to as the Net Element merger proposal, requires the affirmative vote of holders of a majority of the shares of Net Element Common Stock outstanding and entitled to vote. Accordingly, a Net Element shareholder's failure to submit a proxy card or to vote in person at the special meeting, an abstention from voting, or the failure of a Net Element shareholder who holds his or her shares in street name through a broker or other nominee to give voting instructions to such broker or other nominee, which we refer to as a broker non-vote, will have the same effect as a vote AGAINST the Net Element merger proposal.

Proposal to Adjourn the Net Element Special Meeting by Net Element Shareholders: Approving the adjournment of the special meeting (if it is necessary or appropriate to solicit additional proxies because there are not sufficient votes to obtain the Net Element business combination approval) requires the affirmative vote of holders of a majority of the shares of Net Element Common Stock present, in person or represented by proxy, at the special meeting and entitled to vote on the adjournment proposal. Accordingly, abstentions will have the same effect as a vote AGAINST the proposal to adjourn the special meeting, while broker non-votes and shares not in attendance at the special meeting will have no effect on the outcome of any vote to adjourn the special meeting.

Q: How do the Net Element insiders intend to vote their shares?

A: Mike Zoi, Net Element's Chairman and Chief Executive Officer, owns, in combination with the holdings of entities that he controls, approximately 59.4% of the issued and outstanding Net Element Common Stock as of August 21, 2012 (67.2% assuming a cashless exercise of options and warrants Mr. Zoi owns which are currently exercisable), and therefore holds enough shares to approve and adopt the merger agreement without the vote of any other Net Element shareholder. Mr. Zoi intends to vote his shares FOR the approval and adoption of the merger agreement. Following consummation of the merger, Mr. Zoi will control approximately 54.3% of NEI's voting power if no holders of Public Cazador Ordinary Shares exercise their redemption

TABLE OF CONTENTS

rights (or approximately 58.7% of NEI's voting power if the maximum permissible number of holders of Public Cazador Ordinary Shares exercise their redemption rights whereby Cazador may proceed with the merger). As a result, Mr. Zoi will have the ability to exert significant influence over NEI's corporate affairs and to control the outcome of virtually all matters submitted to a vote of NEI's shareholders. Mr. Zoi's interests may conflict with or differ from the interests of NEI's other shareholders.

Q: What are the recommendations of the Net Element board?

A: The Net Element board (other than Mike Zoi, who did not participate in the vote) has unanimously (i) approved the merger agreement and the consummation of the transactions contemplated thereby upon the terms and subject to the conditions set forth in the merger agreement; (ii) determined that the terms of the business combination are fair to, and in the best interests of, Net Element and its shareholders; (iii) directed that the merger agreement be submitted to Net Element shareholders for adoption; and (iv) declared the advisability of the business combination.

The Net Element board recommends that Net Element shareholders vote:

FOR the Net Element merger proposal; and

FOR the proposal to approve the adjournment of the special meeting.

See The Business Combination Recommendation of the Net Element Board; Net Element's Reasons for the Business Combination beginning on page 147.

Q: Are Net Element shareholders entitled to appraisal or dissenters' rights?

A: Yes, but only to the extent available under the DGCL. Holders of Net Element Common Stock who do not vote for the Net Element merger proposal and elect to exercise such appraisal rights, to the extent such rights are available under the DGCL, and who perfect those rights under the DGCL will be entitled to the appraised fair value of their shares of Net Element Common Stock paid to them in cash. The appraised fair value of any holder's Net Element Common Stock may be more or less than the value of the merger consideration that would otherwise be payable to such holder pursuant to the merger agreement. To exercise appraisal rights, a shareholder must follow carefully the requirements of the DGCL, including not consenting to, or voting in favor of, the approval and adoption of the merger agreement and timely delivering to Net Element a written demand for appraisal of such shareholder's shares in accordance with the DGCL. These appraisal requirements and procedures are summarized under the section entitled The Merger Agreement Description of the Merger Agreement Appraisal Rights/Dissenting Shares beginning on page 163. A copy of the relevant provisions of the DGCL addressing appraisal rights is attached as Annex H to this joint proxy statement/prospectus. Holders of Net Element Common Stock who intend to exercise appraisal rights should read the statutory provisions carefully and consult with their own legal advisors, as any deviation from the statutory requirements may result in a forfeiture of appraisal rights otherwise available to such shareholders.

Q: If the merger is completed, when can I expect to receive the merger consideration for my shares of Net Element Common Stock?

A: *Certificated Shares*: As soon as reasonably practicable after the effective time of the business combination,

Cazador will cause an exchange agent to mail to each holder of certificated shares of Net Element Common Stock a form of letter of transmittal and instructions for use in effecting the exchange of Net Element Common Stock for the merger consideration. After receiving the proper documentation from a holder of Net Element Common Stock, the exchange agent will deliver to such holder the shares of NEI Common Stock to which such holder is entitled under the merger agreement.

Book Entry Shares: Each holder of record of one or more book entry shares of Net Element Common Stock whose shares will be converted into the right to receive the merger consideration will automatically, upon the effective time of the merger, be entitled to receive, and Cazador will cause the exchange agent to deliver to such holder as promptly as practicable after the effective time, the cash and NEI Common Stock to which such holder is entitled under the merger agreement. Holders of book entry shares will not be required to deliver a certificate or an executed letter of transmittal to the exchange agent in order to receive the merger consideration.

Parties to the Business Combination

Cazador Acquisition Corporation Ltd.

Cazador Acquisition Corporation Ltd., or Cazador, is a recently organized blank check company incorporated as a Cayman Islands exempted company for the purpose of effecting a merger, share capital exchange, asset acquisition, share purchase, reorganization or similar business combination.

On October 14, 2010, Cazador closed its initial public offering of 4,600,000 units (including 600,000 units subject to the underwriters' over-allotment option which were exercised on October 14, 2010). Each unit consisted of one ordinary share, par value \$0.001, and one warrant. The units were sold at an offering price of \$10.00, generating gross proceeds to Cazador of approximately \$46.0 million. Prior to Cazador's initial public offering, it sold an aggregate of 4,340,000 warrants to Cazador's Sponsor in a private placement for a purchase price of \$0.50 per warrant, generating total proceeds of approximately \$2.2 million to Cazador. After deducting the underwriting discounts and commissions and Cazador's initial public offering expenses, the total net proceeds to Cazador from the initial public offering and private placement were approximately \$46.5 million, of which approximately \$46.2 million was deposited into a trust account, with the remaining proceeds being used to provide for business, legal and accounting due diligence and advisory fees in connection with prospective business combinations, compliance with securities laws and regulations, and continuing general and administrative expenses.

Prior to the effectiveness of the merger, Cazador intends to change its jurisdiction of incorporation from the Cayman Islands to Delaware by effecting the Cazador domestication. Following the Cazador domestication, Cazador will continue as a Delaware corporation, at which time Cazador will change its name, in connection with the effectiveness of the merger, to Net Element International, Inc.

The Cazador Ordinary Shares are listed on The NASDAQ Capital Market and trade under the symbol CAZA. On , 2012, the latest practicable date before the printing of this proxy statement/prospectus, the last reported sale price of the Cazador Ordinary Shares on The NASDAQ Capital Market was \$ per share. Cazador intends to apply to list the shares of NEI Common Stock on The NASDAQ Capital Market under the symbol NETE. There can be no assurance that the NEI Common Stock will be listed on The NASDAQ Capital Market.

Cazador's principal executive offices are located at BBVA Building, P1, 254 Muñoz Rivera Avenue, San Juan, Puerto Rico 00918, and its telephone number is (787) 993-9650.

Net Element, Inc.

Since April 1, 2010, Net Element has pursued a strategy to develop and acquire technology and applications for use in the online media industry. As part of Net Element's strategy to develop an online media company, on December 14, 2010, Net Element acquired Openfilm, LLC, a Florida limited liability company that is engaged in the development of

technology and operation of a website that supports the advancement of independent film on the Internet. Additionally, on February 1, 2011, Net Element acquired Motorsport, LLC, a Florida limited liability company that owns 100% of the outstanding common stock of Motorsport.com, Inc., a Florida corporation engaged in the operation of a news and information website relating to the international motorsport industry, and Music 1, LLC, a Florida limited liability company that owns 97% of the membership interests in A&R Music Live, LLC, a Georgia limited liability company that owns and operates two websites that provide an online social community and marketplace for musicians, songwriters, producers and record companies and an opportunity to showcase artist talents. As a result of these acquisitions, Net Element now operates several online media websites in the film, auto racing and emerging music talent markets.

TABLE OF CONTENTS

The Net Element Common Stock is quoted on the OTCQB electronic quotation system under the symbol NETE. On , 2012, the latest practicable date before the printing of this proxy statement/prospectus, the last reported sale price of the Net Element Common Stock on the OTCQB electronic quotation system was \$ per share.

Net Element s principal executive offices are located at 1450 S. Miami Avenue, Miami, Florida 33130, and its telephone number is (305) 507-8808.

The Proposed Business Combination

The Proposed Merger

Cazador is proposing to acquire Net Element pursuant to the merger agreement. Cazador and Net Element have entered into the merger agreement pursuant to which Net Element will merge with and into Cazador, with Cazador as the surviving entity.

Prior to the effectiveness of the merger, Cazador intends to change its jurisdiction of incorporation from the Cayman Islands to Delaware by effecting the Cazador domestication. On the effective date of the Cazador domestication, each Cazador Ordinary Share that is issued and outstanding will automatically convert by operation of law into one share of NEI Common Stock.

Prior to the effective time of the merger, each holder of outstanding securities of Net Element that are convertible into or exchangeable or exercisable for shares of Net Element Common Stock will enter into conversion agreements, pursuant to which all such outstanding securities of Net Element will be either terminated or converted into or exchanged or exercised for shares of Net Element Common Stock (in the case of outstanding Net Element stock options and warrants that are exercised, on a cashless basis); provided that certain option holders that received their options in lieu of cash compensation will have the ability to elect to terminate their options in exchange for cash in the amount of such compensation.

As a result of the business combination, former Net Element shareholders will own NEI Common Stock. Cazador intends to apply to list the NEI Common Stock on The NASDAQ Capital Market. There can be no assurance that the NEI Common Stock will be listed on The NASDAQ Capital Market.

For additional information on the business combination, see The Business Combination beginning on page 136, and for additional information on the merger agreement and the related transaction documents, see The Merger Agreement beginning on page 162.

The Proposed Cazador Domestication

As a condition to closing the merger pursuant to the terms of the merger agreement, Cazador intends to change its jurisdiction of incorporation from the Cayman Islands to Delaware, referred to as the Cazador domestication. To effect the Cazador domestication, Cazador will file a notice of de-registration with the Cayman Islands Registrar of Companies, together with the necessary accompanying documents, and file a certificate of incorporation and a certificate of corporate domestication with the Secretary of State of Delaware, under which Cazador will be domesticated and continue as a Delaware corporation, at which time Cazador will change its name, in connection with the effectiveness of the merger, to Net Element International, Inc. The Cazador domestication requires the approval of the holders of at least two-thirds of the outstanding Cazador Ordinary Shares which attend and vote at the Cazador special meeting. If, however, the Cazador domestication proposal is approved, but the Cazador merger proposal is not

approved, then neither the Cazador domestication nor the merger will be consummated.

On the effective date of the Cazador domestication, each Cazador Ordinary Share that is issued and outstanding will automatically convert by operation of law into one share of NEI Common Stock. Similarly, outstanding options, warrants and other rights to acquire Cazador Ordinary Shares will become options, warrants or rights to acquire the corresponding shares of NEI Common Stock. It is not necessary for holders of Cazador Ordinary Shares who currently hold share certificates to exchange their existing share certificates for certificates of shares of NEI Common Stock. No other changes will be made to the terms of any outstanding options, warrants and other rights to acquire Cazador Ordinary Shares as a result of the Cazador domestication.

TABLE OF CONTENTS

On the effective date of the Cazador domestication, the outstanding units of Cazador will be automatically separated into the underlying Cazador Ordinary Shares and Cazador warrants. As a result, the Cazador units will no longer be listed on The NASDAQ Capital Market.

Merger Consideration Received by Net Element Shareholders

Pursuant to the terms of the merger agreement, upon completion of the merger, each share of then-issued and outstanding Net Element Common Stock (other than Net Element excluded shares, which will be cancelled upon effectiveness of the merger) will be automatically cancelled and converted into the right to receive the number of shares of NEI Common Stock equal to the Exchange Ratio. The Exchange Ratio is 0.025 shares of NEI Common Stock per share of Net Element Common Stock, which reflects a 66% premium over the last reported sale price of the Net Element Common Stock on the OTCQB electronic quotation system of \$0.15 per share on August 21, 2012. The Exchange Ratio is subject to adjustment to reflect appropriately the effect of any stock split, reverse stock split, stock dividend, extraordinary cash dividends, reorganization, recapitalization, reclassification, combination, exchange of shares or other like change, although no such events are currently contemplated. However, the Exchange Ratio will not be adjusted to reflect any changes in the market prices of Cazador Ordinary Shares, NEI Common Stock or Net Element Common Stock. Notwithstanding the foregoing, to the extent a holder of Net Element Common Stock would receive fewer than 100 shares of NEI Common Stock as a result of the Exchange Ratio, Cazador shall have the right, exercisable in Cazador's sole and absolute discretion, to issue to any such holder an additional number of shares of NEI Common Stock so that such holder receives, in the aggregate, 100 shares of NEI Common Stock in connection with the merger.

Net Element shareholders will not receive any fractional shares of NEI Common Stock in the merger. Instead, Cazador will issue one share of NEI Common Stock to each holder of Net Element Common Stock that would otherwise be entitled to a fraction of a share of NEI Common Stock.

A description of the NEI Common Stock to be issued as merger consideration is set forth under the section entitled Description of NEI Securities beginning on page 188.

Total Shares of NEI Common Stock to be Issued as Merger Consideration

Based on the number of fully diluted shares of Net Element Common Stock outstanding as of _____, 2012, the latest practicable date before the printing of this joint proxy statement/prospectus, the total number of shares of NEI Common Stock to be issued to holders of Net Element Common Stock as merger consideration will be approximately 24.4 million shares. Immediately following the completion of the business combination (without taking into account any shares of NEI Common Stock held by Net Element shareholders prior to the completion of the business combination, and assuming cashless exercise of outstanding warrants and options of Net Element and that no holders of Public Cazador Ordinary Shares exercise their redemption rights), the former shareholders of Net Element are expected to own approximately 80.9% of the outstanding NEI Common Stock (or approximately 65.6% of the outstanding NEI Common Stock calculated on a fully diluted basis) and the current holders of Cazador Ordinary Shares are expected to own approximately 19.1% of the outstanding NEI Common Stock (or approximately 34.4% of the outstanding NEI Common Stock calculated on a fully diluted basis). Additionally, following consummation of the merger, Mike Zoi, Net Element's Chairman and Chief Executive Officer, will control approximately 54.3% of NEI's voting power if no holders of Public Cazador Ordinary Shares exercise their redemption rights (or approximately 58.7% of NEI's voting power if the maximum permissible number of holders of Public Cazador Ordinary Shares

exercise their redemption rights whereby Cazador may proceed with the merger). As a result, Mr. Zoi will have the ability to exert significant influence over NEI's corporate affairs and to control the outcome of virtually all matters submitted to a vote of NEI's shareholders. Mr. Zoi's interests may conflict with or differ from the interests of NEI's other shareholders.

Comparative Per Share Market Price

The Cazador Ordinary Shares are listed on The NASDAQ Capital Market and trade under the symbol CAZA. Cazador intends to apply to list the shares of NEI Common Stock on The NASDAQ Capital Market under the symbol NETE.

There can be no assurance that the NEI Common Stock will be listed on The NASDAQ Capital Market.

TABLE OF CONTENTS

The Net Element Common Stock is quoted on the OTCQB electronic quotation system under the symbol NETE.

The following table shows the closing prices of Cazador Ordinary Shares and Net Element Common Stock as reported on June 11, 2012, the last trading day before the business combination was publicly announced, and on _____, 2012, the last practicable trading day before the date of this joint proxy statement/prospectus. This table also shows the value of the merger consideration per share of Net Element Common Stock, which was calculated by multiplying (i) the closing price of Cazador Ordinary Shares as of the specified date by (ii) the quotient obtained by dividing (a) the aggregate number of shares of NEI Common Stock to be issued to holders of Net Element Common Stock by (b) the number of shares of Net Element Common Stock outstanding on a fully diluted basis upon effective time of the business combination.

Date	Net Element Common Stock	Cazador Ordinary Shares	Value Per Share of Net Element Common Stock
June 11, 2012	\$ 0.10	\$ 9.87	\$ 0.2468
_____, 2012	\$	\$	\$

The market prices of Cazador Ordinary Shares and Net Element Common Stock will fluctuate prior to the consummation of the business combination. You should obtain current market quotations for your shares.

Neither Cazador nor Net Element currently pays dividends on its common shares. Under the terms of the merger agreement, during the period before the effective times of the merger, Net Element is prohibited from paying any dividends on the Net Element Common Stock, unless Net Element has received prior written consent from Cazador.

Cazador Special Meeting

Date, Time and Place

A special meeting of the shareholders of Cazador will be held at the offices of Reed Smith LLP located at 599 Lexington Avenue, New York, New York 10022 on September 28, 2012, at 10:00 a.m., Eastern time, unless the special meeting is adjourned or postponed.

Purposes of the Special Meeting

At the special meeting, Cazador shareholders will be asked to consider and vote upon the following matters and to transact such other business that may properly come before the meeting:

- the Cazador merger proposal; and
- the Cazador domestication proposal; and
- the proposal to approve the adjournment of the special meeting (if it is necessary or appropriate to solicit additional proxies because there are not sufficient votes to obtain the Cazador business combination approval).

Record Date; Shares Entitled to Vote

Holders of Cazador Ordinary Shares as of the close of business on August 27, 2012, or the Cazador record date, are entitled to notice of, and to vote at, the special meeting or one or more adjournments thereof. Each Cazador Ordinary Share is entitled to one vote.

As of the Cazador record date, Cazador Ordinary Shares were outstanding and entitled to vote at the Cazador special meeting, of which were Public Cazador Ordinary Shares.

Vote Required

The Cazador Merger Proposal: The Cazador merger proposal requires the affirmative vote of holders of a majority of the Public Cazador Ordinary Shares outstanding and entitled to vote. Accordingly, a Cazador shareholder's failure to submit a proxy card or to vote in person at the special meeting, an abstention from

TABLE OF CONTENTS

voting, or the failure of a Cazador shareholder who holds his or her shares in street name through a broker or other nominee to give voting instructions to such broker or other nominee, will have the same effect as a vote AGAINST the Cazador merger proposal.

The Cazador Domestication Proposal: The Cazador domestication proposal requires the affirmative vote of holders of at least two-thirds of the Cazador Ordinary Shares outstanding and entitled to vote which attend and vote at the Cazador special meeting.

Proposal to Adjourn the Cazador Special Meeting by Cazador Shareholders: Approving the adjournment of the special meeting (if it is necessary or appropriate to solicit additional proxies because there are not sufficient votes to obtain the Cazador business combination approval) requires the affirmative vote of holders of a majority of the Cazador Ordinary Shares present, in person or represented by proxy, at the special meeting and entitled to vote on the adjournment proposal, regardless of whether a quorum is present. Accordingly, abstentions will have the same effect as a vote AGAINST the proposal to adjourn the special meeting, while broker non-votes and shares not in attendance at the special meeting will have no effect on the outcome of any vote to adjourn the special meeting.

Recommendation of the Cazador Board

The Cazador board has unanimously (i) approved the merger agreement and the consummation of the transactions contemplated thereby upon the terms and subject to the conditions set forth in the merger agreement; (ii) approved the Cazador domestication; (iii) determined that the terms of the merger are fair to, and in the best interests of, Cazador and its shareholders; (iv) directed that the merger agreement be submitted to Cazador shareholders for adoption; (v) recommended that Cazador shareholders vote in favor of each of the Cazador merger proposal and the Cazador domestication proposal and (vi) declared the advisability of the business combination.

THE CAZADOR BOARD UNANIMOUSLY RECOMMENDS THAT CAZADOR SHAREHOLDERS VOTE:

FOR THE CAZADOR MERGER PROPOSAL;
FOR THE CAZADOR DOMESTICATION PROPOSAL; AND
FOR THE PROPOSAL TO APPROVE THE ADJOURNMENT OF THE SPECIAL MEETING (IF IT IS NECESSARY OR APPROPRIATE TO SOLICIT ADDITIONAL PROXIES BECAUSE THERE ARE NOT SUFFICIENT VOTES TO OBTAIN THE CAZADOR BUSINESS COMBINATION APPROVAL).

See The Business Combination Recommendation of the Cazador Board; Cazador's Reasons for the Business Combination beginning on page 142.

Net Element Special Meeting

Date, Time and Place

A special meeting of the shareholders of Net Element will be held at the offices of Reed Smith LLP located at 599 Lexington Avenue, New York, New York 10022 on September 28, 2012, at 11:00 a.m., Eastern time, unless the special meeting is adjourned or postponed.

Purpose of the Special Meeting

At the special meeting, Net Element shareholders will be asked to consider and vote upon the following matters and to transact such other business that may properly come before the meeting:

the Net Element merger proposal; and
a proposal to approve the adjournment of the Net Element special meeting.

19

TABLE OF CONTENTS

Record Date; Shares Entitled to Vote

Only holders of record of shares of Net Element Common Stock at the close of business on _____, 2012, or the Net Element record date, will be entitled to notice of, and to vote at, the special meeting or one or more adjournments thereof. Each outstanding share of Net Element Common Stock entitles its holder to cast one vote.

As of the Net Element record date, there were _____ shares of Net Element Common Stock outstanding and entitled to vote at the Net Element special meeting.

Vote Required

The Net Element Merger Proposal: The Net Element merger proposal requires the affirmative vote of holders of a majority of the shares of Net Element Common Stock outstanding and entitled to vote. Accordingly, a Net Element shareholder's failure to submit a proxy card or to vote in person at the special meeting, an abstention from voting, or the failure of a Net Element shareholder who holds his or her shares in street name through a broker or other nominee to give voting instructions to such broker or other nominee, which we refer to as a broker non-vote, will have the same effect as a vote AGAINST the Net Element merger proposal.

Proposal to Adjourn the Net Element Special Meeting by Net Element Shareholders: Approving the adjournment of the special meeting (if it is necessary or appropriate to solicit additional proxies because there are not sufficient votes to obtain the Net Element business combination approval) requires the affirmative vote of holders of a majority of the shares of Net Element Common Stock present, in person or represented by proxy, at the special meeting and entitled to vote on the adjournment proposal. Accordingly, abstentions will have the same effect as a vote AGAINST the proposal to adjourn the special meeting, while broker non-votes and shares not in attendance at the special meeting will have no effect on the outcome of any vote to adjourn the special meeting.

Recommendation of the Net Element Board

The Net Element board (other than Mike Zoi, who did not participate in the vote) has unanimously (i) approved the merger agreement and the consummation of the transactions contemplated thereby upon the terms and subject to the conditions set forth in the merger agreement; (ii) determined that the terms of the business combination are fair to, and in the best interests of, Net Element and its shareholders; (iii) directed that the merger agreement be submitted to Net Element shareholders for adoption; and (iv) declared the advisability of the business combination.

THE NET ELEMENT BOARD RECOMMENDS THAT NET ELEMENT SHAREHOLDERS VOTE:

FOR THE NET ELEMENT MERGER PROPOSAL; AND
FOR THE PROPOSAL TO APPROVE THE ADJOURNMENT OF THE SPECIAL MEETING.

See The Business Combination Recommendation of the Net Element Board; Net Element's Reasons for the Business Combination beginning on page 147.

Interests of Officers and Directors in the Business Combination

Certain of Net Element's and Cazador's executive officers and directors have financial interests in the business combination that are different from, or in addition to, the interests of Cazador's shareholders and Net Element's shareholders, other than the insider shareholders. For example, in the case of Net Element, immediately prior to the

effectiveness of the merger, the principal amounts of all outstanding convertible debt of Net Element owned by Enerfund, LLC, a Florida limited liability company (which is owned and controlled by Mike Zoi and totals \$3.6 million) will be converted into 32,727,273 shares of Net Element Common Stock, which will be converted into 818,182 shares of NEI Common Stock in the merger and, immediately following the effectiveness of the merger, NEI will pay to Enerfund an amount, in cash, representing payment in full of all notes and payables of Net Element owed to Mike Zoi or any of his affiliates which are then outstanding (which, as of August 21, 2012, totaled approximately \$7.5 million). In the case of Cazador, Mike Zoi, through Enerfund, has previously paid, on behalf of Cazador, \$150,000 of Cazador's legal fees in connection with the merger agreement and the merger, and Mike Zoi has also agreed, through Enerfund, to pay, on behalf of

TABLE OF CONTENTS

Cazador, additional legal fees of Cazador up to a maximum of \$250,000 if the merger is not consummated or is otherwise terminated or abandoned. If Enerfund would not have agreed to these payments, Cazador Sub Holdings, Ltd. would be liable for these payments. Cazador Sub Holdings, Ltd. is indirectly majority-owned by entities controlled by Francesco Piovanetti. The members of the Cazador board and the members of the Net Element board were aware of and considered these interests, among other matters, in evaluating and negotiating the merger agreement and the transactions contemplated thereby and in recommending to Cazador and Net Element shareholders, respectively, that the merger agreement be approved and adopted. These interests and other interests of Net Element and Cazador's respective executive officers and directors are described in more detail in the section of this document entitled "The Business Combination - Interests of Officers and Directors in the Business Combination" beginning on page 150.

Material U.S. Federal Income Tax Consequences

Material U.S. Federal Income Tax Consequences of the Merger

As a condition to the completion of the merger, each of Reed Smith, tax counsel to Cazador, and Bilzin, tax counsel to Net Element, must have delivered an opinion, dated the closing date of the merger, to the effect that the merger will be treated as a reorganization for U.S. federal income tax purposes within the meaning of Section 368(a) of the Code. Assuming that the merger qualifies as a reorganization, Net Element shareholders will not recognize any gain or loss for U.S. federal income tax purposes on the exchange of Net Element Common Stock for shares of NEI Common Stock in the merger.

The tax opinions regarding the merger will not address any state, local or foreign tax consequences of the merger. The opinions will be subject to customary qualifications and assumptions, including that the merger will be completed according to the terms of the merger agreement. In rendering the tax opinions, each counsel will require and rely on representations and statements of Net Element, Cazador and their affiliates, which will be delivered at the time of the closing of the merger. If any such assumption, representation or statement is or becomes inaccurate, the U.S. federal income tax consequences of the merger could be adversely affected.

An opinion of counsel represents such counsel's best legal judgment but is not binding on the IRS or any court. Neither Net Element nor Cazador intends to request any ruling from the IRS as to the U.S. federal income tax consequences of the merger. Consequently, no assurance can be given that the IRS will not assert, or that a court will not sustain, a position contrary to any of the tax consequences described in this joint proxy statement/prospectus or any of the tax consequences described in the tax opinions.

Tax matters are very complicated, and the tax consequences of the merger to a particular shareholder will depend on such shareholder's circumstances. Accordingly, Cazador and Net Element urge you to consult your tax advisor for a full understanding of the tax consequences of the merger to you, including the applicability and effect of U.S. federal, state, local and foreign income and other tax laws. For a more complete discussion of the material U.S. federal income tax consequences of the merger, see "Material U.S. Federal Income Tax Consequences - Material U.S. Federal Income Tax Consequences of the Merger" beginning on page 155.

Material U.S. Federal Income Tax Consequences of the Cazador Domestication

In the opinion of Reed Smith, tax counsel to Cazador, the Cazador domestication will constitute a reorganization

within the meaning of Section 368(a)(1)(F) of the Code. Assuming that the Cazador domestication qualifies as a reorganization, U.S. holders (as defined in Material U.S. Federal Income Tax Consequences below) of Cazador Ordinary Shares will be subject to Section 367(b) of the Code and, as a result:

A U.S. holder of Cazador Ordinary Shares whose Cazador Ordinary Shares have a fair market value of less than \$50,000 on the day of the Cazador domestication will not recognize any gain or loss and will not be required to include any part of the all earnings and profits amount in income.

A U.S. holder of Cazador Ordinary Shares whose Cazador Ordinary Shares have a fair market value of \$50,000 or more but who on the day of the Cazador domestication owns (actually and constructively) less than 10% of the total combined voting power of all classes of Cazador Cayman shares entitled to vote generally will recognize gain (but not loss) on the exchange of Cazador Ordinary Shares for NEI Common Stock pursuant to the Cazador domestication. As an alternative to

21

TABLE OF CONTENTS

recognizing gain, however, a U.S. holder may elect to include in income as a dividend the all earnings and profits amount, as the term is defined in Treasury Regulation Section 1.367(b)-2(d), attributable to the Cazador Ordinary Shares it directly owns, provided certain requirements are satisfied. Cazador does not expect that Cazador Cayman's cumulative earnings and profits will be greater than zero as of the day of the Cazador domestication.

A U.S. holder of Cazador Ordinary Shares whose Cazador Ordinary Shares have a fair market value of \$50,000 or more, and who on the day of the Cazador domestication owns (actually and constructively) 10% or more of the total combined voting power of all classes of Cazador Cayman shares entitled to vote generally will be required to include in income as a dividend the all earnings and profits amount, as the term is defined in Treasury Regulation Section 1.367(b)-2(d), attributable to the Cazador Ordinary Shares it directly owns. However, Cazador does not expect that Cazador Cayman's cumulative earnings and profits will be greater than zero as of the day of the Cazador domestication.

Cazador Cayman should be considered a passive foreign investment company, or PFIC, for U.S. federal income tax purposes. As a result, notwithstanding the foregoing U.S. federal income tax consequences of the Cazador domestication, proposed Treasury regulations under Section 1291(f) of the Code (which have a retroactive effective date), if finalized in their current form, generally would require a U.S. holder to recognize gain on the exchange of Cazador Ordinary Shares for NEI Common Stock pursuant to the Cazador domestication. The tax on any such gain so recognized would be imposed at the rate applicable to ordinary income and an interest charge would apply based on a complex set of computational rules designed to offset the tax deferral to such holders on the undistributed earnings, if any, of Cazador Cayman. However, we are unable to predict at this time whether, in what form, and with what effective date, final Treasury regulations under Section 1291(f) of the Code will be adopted. For a more complete discussion of the potential application of the PFIC rules to U.S. holders as a result of the Cazador domestication, see Material U.S. Federal Income Tax Consequences Material U.S. Federal Income Tax Consequences of the Cazador Domestication Passive Foreign Investment Company Considerations beginning on page 158.

Additionally, the Cazador domestication may cause non-U.S. holders (as defined in Material U.S. Federal Income Tax Consequences below) to become subject to U.S. withholding taxes on any dividends in respect of the shares of NEI Common Stock made subsequent to the Cazador domestication.

The tax opinion regarding the Cazador domestication will not address any state, local or foreign tax consequences of the Cazador domestication. The opinions will be subject to customary qualifications and assumptions, including that the Cazador domestication will be completed as described herein. In rendering the tax opinion, Reed Smith will require and rely on representations and statements of Cazador and their affiliates, which will be delivered at the time of the closing of the Cazador domestication. If any such assumption, representation or statement is or becomes inaccurate, the U.S. federal income tax consequences of the Cazador domestication could be adversely affected.

An opinion of counsel represents such counsel's best legal judgment but is not binding on the IRS or any court. Cazador does not intend to request any ruling from the IRS as to the U.S. federal income tax consequences of the Cazador domestication. Consequently, no assurance can be given that the IRS will not assert, or that a court will not sustain, a position contrary to any of the tax consequences set forth in this joint proxy statement/prospectus or any of the tax consequences described in the tax opinion.

Tax matters are very complicated, and the tax consequences of the Cazador domestication to a particular shareholder will depend on such shareholder's circumstances. Accordingly, Cazador urges you to consult your tax advisor for a full understanding of the tax consequences of the Cazador domestication to you, including the applicability and effect of U.S. federal, state, local and foreign income and other tax laws. For a more complete discussion of the material U.S. federal income tax consequences of the Cazador domestication, see Material U.S. Federal Income Tax Consequences Material U.S. Federal Income Tax Consequences of the Cazador Domestication beginning on page 156.

TABLE OF CONTENTS

Accounting Treatment

The Cazador Domestication

There will be no accounting effect or change in the carrying amount of the consolidated assets and liabilities of Cazador Cayman as a result of Cazador domestication. The business, capitalization, assets and liabilities and financial statements of Cazador will be the same upon effectiveness of the Cazador domestication as they are prior to the Cazador domestication.

The Merger

The merger will be accounted for as a reverse recapitalization, whereby Net Element will be the continuing entity for financial reporting purposes and will be deemed, for accounting purposes, to be the acquiror of Cazador. Following the closing of the merger; (i) the current shareholders of Net Element will hold a majority of the issued and outstanding shares of NEI Common Stock, on a fully diluted basis, and, therefore, will have voting control of NEI; (ii) the senior management of Net Element will be the majority of the senior management of NEI; (iii) the majority of the NEI board will be appointed by Net Element; and (iv) Net Element's operations will become the core business of the combined entity following completion of the merger.

Based on the above facts, the respective management of Cazador and Net Element believe that Cazador is not considered as the accounting acquiror, and therefore, the merger contemplated by the merger agreement will be accounted for as a reverse recapitalization. The accounting of the merger will be similar to that of a capital infusion, as the only significant pre-merger assets of Cazador consist of cash and cash equivalents. No intangible assets or goodwill will be recognized as a result of the merger; accordingly, Net Element will record the shares of NEI Common Stock issued in exchange for shares of Net Element Common Stock based on the carrying value of the assets and liabilities received as of the closing date of the merger.

Officers and Directors of NEI

Upon completion of the business combination, the following individuals have been designated as of the date of this joint proxy statement/prospectus to serve as directors and executive officers of NEI:

Name	Age	Position
Mike Zoi	46	Non-Executive Chairman
Francesco Piovanetti	37	Chief Executive Officer & Director
Dmitry Kozko	29	President & Director
David P. Kelley II	54	Independent Director
James Caan	72	Independent Director
Kenges Rakishev	33	Independent Director
Felix Vulis	56	Independent Director
Alberto Hernandez	37	Chief Operating Officer
Jonathan New	52	Chief Financial Officer
Curtis Wolfe	48	Secretary
Richard Lappenbusch	44	Executive Vice President & Chief Strategy Officer
Ivan Onuchin	36	Chief Technology Officer

For more information on the new directors and management of NEI, see Post-Merger NEI Executive Officers and Directors beginning on page 173.

Listing of NEI Common Stock

The Cazador Ordinary Shares are listed on The NASDAQ Capital Market and trade under the symbol CAZA. On , 2012, the latest practicable date before the printing of this proxy statement/prospectus, the last reported sale price of the Cazador Ordinary Shares on The NASDAQ Capital Market was \$ per share. Cazador intends to apply to list the shares of NEI Common Stock on The NASDAQ Capital Market under the symbol NETE. There can be no assurance that the NEI Common Stock will be listed on The NASDAQ Capital Market.

TABLE OF CONTENTS

Comparison of Shareholder Rights

As a Result of the Cazador Domestication

The Cazador domestication will change Cazador's jurisdiction of incorporation from the Cayman Islands to Delaware and, as a result, Cazador's organizational documents will change and will be governed by the DGCL rather than Cayman Islands law. There are differences between the governing corporate law of Cazador Cayman and NEI. Additionally, there are differences between the new organizational documents of NEI and the current organizational documents of Cazador Cayman. For example, while the Cazador Cayman Charter contains provisions regarding business combinations and interested shareholders that will be substantially similar in effect to the provisions of Section 203 of the DGCL, the NEI bylaws will not contain provisions similar to the business combination provisions in the Cazador Cayman Charter. However, holders of NEI Common Stock will have substantially similar voting rights because NEI will be subject to the provisions of Section 203 upon effectiveness of the Cazador domestication. See Comparison of Shareholder Rights beginning on page 192. However, Cazador's business, assets and liabilities on a consolidated basis, as well as its principal business locations and fiscal year, will be the same upon completion of the Cazador domestication as they are prior to the Cazador domestication (following completion of the merger, Cazador will then change its principal business locations to those of Net Element).

For a summary of the material differences among the rights of holders of NEI Common Stock and holders of Cazador Ordinary Shares, see Comparison of Shareholder Rights beginning on page 192.

As a Result of the Merger

As a result of the merger, the holders of Net Element Common Stock will become holders of NEI Common Stock. Following the merger, Net Element shareholders will have different rights as shareholders of NEI than they had as shareholders of Net Element due to the different provisions of the governing documents of NEI and Net Element.

For a summary of the material differences among the rights of holders of NEI Common Stock and holders of Net Element Common Stock, see Comparison of Shareholder Rights beginning on page 192.

TABLE OF CONTENTS

SELECTED UNAUDITED PRO FORMA CONSOLIDATED COMBINED FINANCIAL INFORMATION

The following table shows summary unaudited pro forma consolidated combined financial information regarding the financial condition and results of operations of the combined company after giving effect to the business combination. The summary unaudited pro forma consolidated combined balance sheets as of June 30, 2012 combines the historical consolidated balance sheets of Cazador and Net Element giving effect to the business combination as if it had occurred on June 30, 2012. The summary unaudited pro forma consolidated combined statements of operations for the fiscal year ended December 31, 2011 and for the six months ended June 30, 2012 combine the historical consolidated statements of operations of Cazador and Net Element giving effect to the business combination as if it had occurred on January 1, 2011.

The summary unaudited pro forma consolidated combined financial information has been derived from and should be read in conjunction with the more detailed unaudited pro forma consolidated combined financial statements of the combined company included elsewhere in this joint proxy statement/prospectus and the accompanying notes to those unaudited pro forma consolidated combined financial statements. The summary unaudited pro forma condensed combined financial statements were based on and should be read in conjunction with the historical consolidated financial statements and related notes of Cazador and Net Element for the applicable periods, which have been included elsewhere in this joint proxy statement/prospectus.

The summary unaudited pro forma consolidated combined financial information has been prepared using two different assumptions: (i) that none of the holders of Cazador Ordinary Shares exercise their redemption rights under the Cazador Cayman Charter and (ii) that holders of 2,258,370, or approximately 49.09% of, Public Cazador Ordinary Shares exercise their redemption rights, which is the estimated maximum number of Public Cazador Ordinary Shares that may be redeemed whereby Cazador will continue have at least \$23.5 million of cash held in the trust account (after giving effect to payment of all holders of Public Cazador Ordinary Shares who exercise their redemption right but excluding payments to be made for transaction fees and related expenses and pay-off of related party debt), which is a condition to close the merger.

The summary unaudited pro forma consolidated combined financial information has been presented for informational purposes only and is not necessarily indicative of what the combined company's financial position or results of operations actually would have been had the business combination been completed as of the date indicated. In addition, the summary unaudited pro forma consolidated combined financial information does not purport to project the future financial position or operating results of the combined company. Also, as explained in more detail in the accompanying notes to the unaudited pro forma consolidated combined financial statements, the merger will be accounted for as a reverse recapitalization, whereby Net Element will be the continuing entity for financial reporting purposes and will be deemed, for accounting purposes, to be the acquiror of Cazador. Following the closing of the merger; (i) the current shareholders of Net Element will hold a majority of the issued and outstanding shares of NEI Common Stock, on a fully diluted basis, and, therefore, will have voting control of NEI; (ii) the senior management of Net Element will be the majority of the senior management of NEI; (iii) the majority of the NEI board will be appointed by Net Element; and (iv) Net Element's operations will become the core business of the combined entity following completion of the merger.

Therefore, in accordance with the applicable accounting guidance for a reverse capitalization, since Cazador is not determined to be the acquiror for accounting purposes, the accounting for the merger contemplated by the merger agreement will be similar to that of a capital infusion, as the only significant pre-merger assets of Cazador are cash and cash equivalents, which are already recognized by Cazador at fair value. No intangible assets or goodwill will be recognized as a result of the accounting for the merger. Net Element will record the shares of NEI Common Stock issued in exchange for shares of Net Element Common Stock based on the value of the assets and liabilities of

Cazador as of the closing date of the merger.

TABLE OF CONTENTSPro forma balance sheet data (in USD)Unaudited

	As of June 30, 2012	
	Assuming no redemptions ⁽¹⁾	Assuming minimum funds remaining ⁽²⁾
Cash and cash equivalents	\$ 42,500,491	\$ 19,835,491

March 31, 2010*	0.15	0.15

*Note: On November 11, 2010, the Net Element board adopted a resolution changing Net Element's fiscal year end from March 31 to December 31.

Neither Cazador nor Net Element has paid dividends on the Cazador Ordinary Shares or Net Element Common Stock, respectively, during 2012 or 2011, and neither company has any current intention of doing so.

TABLE OF CONTENTS

RISK FACTORS

In addition to the other information contained in or incorporated by reference into this joint proxy statement/prospectus, you should carefully consider the following risk factors in deciding whether to vote or instruct your vote to be cast to approve the proposals described in this joint proxy statement/prospectus.

Risks Factors Relating to Cazador

Cazador may not be able to consummate an initial business combination within the required time frame, in which case, it would be forced to distribute the trust account proceeds and liquidate its trust account.

The Cazador Cayman Charter provides that if after 24 months (since the period to complete Cazador's business combination has been extended because it has, prior to April 14, 2012, entered into a non-binding letter of intent with respect to an initial business combination) from the consummation of Cazador's initial public offering, or October 14, 2012, it has not consummated an initial business combination, Cazador will be required to repurchase all of the Public Cazador Ordinary Shares and liquidate the trust account and distribute the proceeds pro rata to the holders of Public Cazador Ordinary Shares in return for such shares (which will be subsequently cancelled upon completion of the redemption of such shares). This provision may not be amended except with consent of 66.66% of the issued and outstanding Public Cazador Ordinary Shares voting in person or by proxy at a meeting in which the holders of 95% of the outstanding Public Cazador Ordinary Shares must be present in order to constitute a quorum.

Cazador will not complete the business combination if holders of Public Cazador Ordinary Shares, owning, in the aggregate, more than 49.9% of the Public Cazador Ordinary Shares, both vote against and exercise their shareholder redemption rights with respect to the business combination. Additionally, as per the terms of the merger agreement, the merger will not be consummated unless Cazador has at least \$23.5 million of cash held in the trust account (after giving effect to payment of all holders of Public Cazador Ordinary Shares who exercise their redemption right but excluding payments to be made for transaction fees and related expenses and pay-off of related party debt). Holders of Public Cazador Ordinary Shares will be able to redeem their shares up to the business day immediately prior to the vote on the proposals to approve the business combination.

If both the Cazador merger proposal and the Cazador domestication proposal are not approved by Cazador's shareholders, Cazador will not complete the business combination and may not be able to consummate an alternative business combination within the required time frame, either due to insufficient time or insufficient operating funds.

If Cazador is forced to liquidate its trust account before the completion of an initial business combination and distribute the trust account, holders of Public Cazador Ordinary Shares may receive less than \$10.00 per share and Cazador's warrants may expire worthless.

If Cazador fails to complete an initial business combination prior to October 14, 2012, it will notify the holders of Public Cazador Ordinary Shares that it will compulsorily repurchase all Public Cazador Ordinary Shares using the proceeds in the trust account.

In these circumstances, the per-share repurchase distribution may be less than \$10.00 because of the expenses of Cazador's initial public offering, Cazador's general and administrative expenses and the anticipated costs of seeking an initial business combination. Cazador's Sponsor and its beneficial owners will not have shareholder redemption rights with respect to any Cazador Ordinary Shares owned by them, directly or indirectly, including Cazador Ordinary Shares purchased by them in Cazador's initial public offering or in the secondary market. If Cazador is unable to conclude its initial business combination, the actual per-share redemption price will be equal to the aggregate amount then in the trust account, and including accrued interest, net of any interest income on the trust account balance required for Cazador to pay its tax obligations incurred and net of interest income of up to \$2.0 million previously released to Cazador to fund its working capital requirements (calculated as of two business days prior to the consummation of the business combination), divided by the number of Public Cazador Ordinary Shares. As of August 21, 2012, the per-share redemption price would be approximately \$10.036. Furthermore, there will be no distribution with respect to Cazador's outstanding warrants.

TABLE OF CONTENTS

Cazador may proceed with the business combination only if it has at least \$23.5 million of cash held in the trust account (after giving effect to payment of all holders of Public Cazador Ordinary Shares who exercise their redemption right but excluding payments to be made for transaction fees and related expenses and pay-off of related party debt).

The Cazador Cayman Charter requires Cazador to provide all of Cazador's shareholders with an opportunity to redeem all of their shares in connection with the consummation of any initial business combination. Under the Cazador Cayman Charter, Cazador may proceed with an initial business combination even if holders of Public Cazador Ordinary Shares, owning, in the aggregate, up to 49.9% of the Public Cazador Ordinary Shares (minus one Public Cazador Ordinary Share) exercise their redemption rights. Notwithstanding the foregoing, however, as per the terms of the merger agreement, the merger will not be consummated unless Cazador has at least \$23.5 million of cash held in the trust account (after giving effect to payment of all holders of Public Cazador Ordinary Shares who exercise their redemption right but excluding payments to be made for transaction fees and pay-off of related party debt). If more than approximately 49.09% of the outstanding Public Cazador Ordinary Shares exercise their redemption rights, the trust account would have less than \$23.5 million of cash. Consequently, despite the provisions of the Cazador Cayman Charter, if approximately 49.09% or more of the outstanding Public Cazador Ordinary Shares exercise their redemption rights, Cazador would not proceed with such redemption, would not close the merger and may instead search for an alternate business combination. See also the risk factor above titled "Cazador may have insufficient time or funds to complete an alternative business combination if the business combination is not approved by Cazador's shareholders or the business combination is otherwise not completed."

A holder of Public Cazador Ordinary Shares, together with any affiliate of his or any other person with whom he is acting in concert or as a partnership, syndicate or other group for the purpose of acquiring, holding or disposing of Cazador Cayman's securities, will be prohibited from exercising shareholder redemption rights with respect to more than 10% of the Public Cazador Ordinary Shares.

In connection with the shareholder approval of the business combination, Cazador is offering each holder of Public Cazador Ordinary Shares the right to have such holder's shares redeemed into cash if such holder either (i) votes against the business combination and timely exercises such redemption right or (ii) votes in favor of the business combination but elects to exercise such shareholder's right to redeem. Notwithstanding the foregoing, as set forth in the Cazador Cayman Charter, a holder of Public Cazador Ordinary Shares, together with any affiliate of his or any other person with whom he is acting in concert or as a partnership, syndicate or other group for the purpose of acquiring, holding or disposing of Cazador Cayman's securities, will be prohibited from exercising shareholder redemption rights with respect to more than 10% of the Public Cazador Ordinary Shares. Accordingly, if holders of Public Cazador Ordinary Shares, alone or as part of such a partnership, syndicate or group, hold more than 10% of the Public Cazador Ordinary Shares, such shareholders will not be able to seek redemption rights with respect to the full amount of the Public Cazador Ordinary Shares held by them and may be forced to hold such additional shares or sell them in the open market. Cazador cannot assure you that the value of such additional shares will appreciate over time or that the market price of your Public Cazador Ordinary Shares will exceed the per-share redemption price.

Cazador may proceed with the business combination only if it has at least \$23.5 million of cash held in the trust account.

Subsequent to Cazador's consummation of the business combination, Cazador may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on Cazador's financial condition, results of operations and Cazador's stock price, which could cause you to lose some or all of your investment.

Although Cazador has conducted extensive due diligence on Net Element, Cazador cannot assure you that this diligence revealed all material issues that may be present in Net Element's business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of Net Element's and Cazador's control will not later arise. As a result, Cazador may be forced to later write-down or write-off assets, restructure its operations, or incur impairment or other charges that could result in losses. Even if Cazador's due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with Cazador's preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on Cazador's liquidity, the fact that Cazador reports charges of this nature could contribute to negative market perceptions about Cazador or its securities.

TABLE OF CONTENTS

If third parties bring claims against Cazador, the proceeds held in the trust account could be reduced and the per-share price from the liquidation of the trust account received by holders of Public Cazador Ordinary Shares may be less than \$10.00.

Cazador's placing of funds in the trust account may not protect those funds from third party claims against Cazador. Although Cazador seeks to have all vendors and service providers it engages, and prospective target businesses with which it negotiates, and other entities with which it does business, execute agreements waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of holders of Public Cazador Ordinary Shares, there is no guarantee that they will execute such agreements and the execution of such an agreement is not a condition to Cazador's doing business with anyone. Furthermore, there is no guarantee that, even if such entities execute such agreements with Cazador, they will not seek recourse against the trust account, nor is there any guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with Cazador and will not seek recourse directly or indirectly against the trust account for any reason. There is also no guarantee that a court would uphold the validity of such agreements. Further, Cazador could be subject to claims from parties not in contract with Cazador who have not executed a waiver, such as a third party claiming tortious interference as a result of the proposed business combination.

Accordingly, the proceeds held in trust could be subject to claims which could take priority over those of holders of Public Cazador Ordinary Shares and, as a result, the per-share price from the liquidation of the trust account could be less than \$10.00 due to claims of such creditors. If Cazador distributes amounts held in trust to holders of Public Cazador Ordinary Shares pursuant to the exercise of shareholder redemption rights in connection with the business combination, or if Cazador liquidates the trust account before the completion of its initial business combination, each of Cazador's Sponsor and Cazador's management, Arco Capital Management LLC, or ACM, has agreed that it will be jointly and severally liable, by means of direct payment to the trust account, to ensure that the amount in the trust account is not reduced by the claims of target businesses or claims of vendors or other entities that are owed money by Cazador for services rendered or contracted for or products sold to Cazador. However, there will be no liability (1) as to any claimed amounts owed to a third party who executed a legally enforceable waiver or (2) as to any claims under Cazador's indemnity of the underwriters of Cazador's initial public offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or the Securities Act. Based upon representations from Cazador's Sponsor that it will have sufficient funds available to satisfy its indemnification obligations to Cazador, Cazador believes that the Sponsor and ACM will be able to satisfy any indemnification obligations that may arise given the limited nature of the obligations. Cazador has questioned the Sponsor with respect to its financial net worth and reviewed its financial information and believes that the Sponsor will be able to satisfy any indemnification obligations that may arise. However, Cazador cannot assure you that they will be able to satisfy those obligations. Therefore, Cazador cannot assure you that the per-share distribution from the trust account, if Cazador liquidates the trust account, will not be less than \$10.00, plus interest, due to such claims.

Additionally, if Cazador becomes insolvent or a petition to wind up Cazador is filed against it which is not dismissed, the proceeds held in the trust account could be subject to applicable Cayman Islands insolvency law, and may be included in Cazador's insolvent estate and subject to the claims of third parties with priority over the claims of holders of Public Cazador Ordinary Shares (including claims of holders of Public Cazador Ordinary Shares for amounts owed to them as a result the redemption or repurchase of Public Cazador Ordinary Share). To the extent any insolvency claims deplete the trust account, Cazador cannot assure you that it will be able to return to holders of Public Cazador Ordinary Shares at least \$10.00 per share.

Cazador's shareholders may be held liable for claims by third parties against Cazador to the extent of distributions received by them.

If Cazador fails to complete an initial business combination prior to October 14, 2012, it will notify holders of Public Cazador Ordinary Shares that it will compulsorily repurchase all Public Cazador Ordinary Shares using the proceeds in the trust account.

TABLE OF CONTENTS

To the extent any claims deplete the trust account, Cazador cannot assure you that it will be able to return to holders of Public Cazador Ordinary Shares at least \$10.00 per share. In addition, under certain limited circumstances, distributions received by holders of Public Cazador Ordinary Shares could be viewed by applicable laws (including insolvency laws and certain equitable and/or restitution principles) as either fraudulent transfers or mistaken or otherwise wrongful payments. In those circumstances, a Cayman Islands court could order that amounts received by holders of Public Cazador Ordinary Shares be repaid to Cazador.

Because Cazador is currently incorporated under the laws of the Cayman Islands, holders of Cazador Ordinary Shares may face difficulties in protecting their interests, and their ability to protect their rights through the U.S. Federal courts may be limited.

Cazador is a company incorporated under the laws of the Cayman Islands. In addition, some of its directors and officers are nationals or residents of jurisdictions other than the U.S. and all or a substantial portion of their assets are located outside the U.S. As a result, it may be difficult for investors to effect service of process within the U.S. upon Cazador's directors or executive officers, or enforce judgments obtained in the U.S. courts against Cazador's directors or officers.

Cazador's corporate affairs are currently governed by the Cazador Cayman Charter (which is included as Annex B to this joint proxy statement/prospectus and incorporated by reference), the Companies Law (2011 Revision) of the Cayman Islands and other statutes (as the same may be supplemented or amended from time to time) and the common law of the Cayman Islands. The rights of shareholders to take action against the directors, actions by minority shareholders (including shareholder derivative actions) and the fiduciary responsibilities of Cazador's directors to Cazador under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, the decisions of whose courts are of persuasive authority, but are not binding on a court in the Cayman Islands. The rights of Cazador's shareholders and the fiduciary responsibilities of Cazador's directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedent in some jurisdictions in the U.S. Moreover, the Cayman Islands has a less prescriptive body of securities laws as compared to the U.S., and some states, such as Delaware, have more fully developed and judicially interpreted bodies of corporate law. In addition, Cayman Islands companies may not have standing to initiate a shareholder derivative action in a federal court of the U.S.

Although there is no statutory enforcement in the Cayman Islands of judgments obtained in the U.S., the courts of the Cayman Islands will recognize a foreign judgment as the basis for a claim at common law in the Cayman Islands provided such judgment:

is given by a foreign court of competent jurisdiction;

imposes on the judgment debtor a liability to pay a liquidated sum for which the judgment has been given;

is final;

is not in respect of taxes, a fine or a penalty; and

was not obtained in a manner and is not of a kind the enforcement of which is contrary to the public policy of the Cayman Islands.

As a result of all of the above, holders of Public Cazador Ordinary Shares may have more difficulty in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as public shareholders of a U.S. company. Prior to the effectiveness of the merger, Cazador intends to change its jurisdiction of incorporation from the Cayman Islands to Delaware by effecting the Cazador domestication.

Because Cazador is currently incorporated under the laws of the Cayman Islands, holders of Cazador Ordinary Shares

However, there can be no assurance that the Cazador domestication will be approved by Cazador's shareholders.

TABLE OF CONTENTS

If Cazador is deemed to be a taxpayer in a particular jurisdiction, it may increase Cazador's tax liability.

Due to Cazador's activities spanning several countries, there is the possibility that it may be deemed to be taxable in a given jurisdiction, which may increase its tax liability, reduce its after-tax income and reduce the amount held in the trust account.

Cazador's working capital will be reduced if holders of Public Cazador Ordinary Shares exercise their right to redeem their shares for cash, which reduced working capital may adversely affect Cazador's business and future operations.

Pursuant to the Cazador Cayman Charter, Cazador is offering each holder of Public Cazador Ordinary Shares the right to have such holder's shares redeemed into cash if such holder either (i) votes against the business combination and timely exercises such redemption right or (ii) votes in favor of the business combination but elects to exercise such shareholder's right to redeem. Cazador's Sponsor and its beneficial owners will not have shareholder redemption rights with respect to any Cazador Ordinary Shares owned by them, directly or indirectly, including Cazador Ordinary Shares purchased by them in Cazador's initial public offering or in the secondary market. The actual per-share redemption price will be equal to the aggregate amount then in the trust account, and including accrued interest, net of any interest income on the trust account balance required for Cazador to pay its tax obligations incurred and net of interest income of up to \$2.0 million previously released to Cazador to fund its working capital requirements (calculated as of two business days prior to the consummation of the business combination), divided by the number of Public Cazador Ordinary Shares.

As per the terms of the merger agreement, the merger will not be consummated unless Cazador has at least \$23.5 million of cash held in the trust account (after giving effect to payment of all holders of Public Cazador Ordinary Shares who exercise their redemption right but excluding payments to be made for transaction fees and related expenses and pay-off of related party debt). No assurances can be given that such amount will be sufficient to meet Cazador's post-business combination working capital requirements. If the amount remaining in the trust account after any redemptions is insufficient to fund Cazador's post-business combination working capital requirements, Cazador would need to seek to borrow funds necessary to satisfy such requirements. Cazador cannot assure you that such funds would be available to Cazador on terms favorable to it or at all. If such funds were not available to Cazador, it may adversely affect Cazador's operations and profitability.

Cazador may only be able to complete one business combination with the proceeds of its initial public offering, which will cause Cazador to be solely dependent on a single business which may have a limited number of products or services.

Cazador's initial business combination must be with one or more target businesses having an aggregate fair market value of at least 80% of the balance in the trust account at the time of such acquisition plus any amounts previously distributed to shareholders who have exercised their shareholder redemption rights. Additionally, Cazador must acquire at least a controlling interest in a target business (meaning more than 50% of the voting securities of such target business), although after consummating a business combination with a target business, holders of Cazador Ordinary Shares may own less than a majority of the voting securities of the combined businesses. However, Cazador

may not be able to acquire more than one target business because of various factors, including the existence of complex accounting issues and the requirement that Cazador prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. Because Cazador's only contemplated business combination is a merger with a single entity, Net Element, Cazador may not be able to diversify its operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the current prospects for Cazador's success will be solely dependent upon the performance of a single business, Net Element.

TABLE OF CONTENTS

Cazador's lack of diversification may further subject it to numerous economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact upon Net Element's business and may expose Cazador to higher risk than other entities that have the resources to complete several business combinations or that have diversified operations.

Risks Factors Relating to Net Element

Net Element's financial condition creates doubt whether it will continue as a going concern. If Net Element does not continue as a going concern, investors may lose their entire investment.

Since Net Element's inception, it has incurred significant operating losses, and, as of June 30, 2012, Net Element had an accumulated deficit of approximately \$55.8 million and a working capital deficit of approximately \$2.2 million. Net Element incurred net losses totaling \$4.5 million for the six months ended June 30, 2012 and \$24.9 million for the year ended December 31, 2011. Net Element's independent registered public accounting firm, in its report for the fiscal years ended December 31, 2011 and 2010, included an emphasis of matter paragraph regarding the substantial doubt about Net Element's ability to continue as a going concern. While Net Element believes it has sufficient capital resources to fund its current operations through most of the third fiscal quarter of 2012, it will require additional capital to develop its business operations. Net Element has historically been dependent upon TGR Capital, LLC, Enerfund and its Chairman and Chief Executive Officer, Mike Zoi (as a result of his controlling interests in TGR Capital, LLC and Enerfund), to fund Net Element's operations and Net Element is exploring additional sources of financing in order to meet its financial requirements. As of the date of this joint proxy statement/prospectus, management of Net Element expects that its cash flows from operations and remaining proceeds from a \$2 million investment in Net Element by Igor Yakovlevich Krutoy, which was received on June 6, 2012, will be sufficient to meet Net Element's financial requirements through most of the third fiscal quarter of 2012. Net Element currently believes that it will require an additional \$13.7 million in financing to continue operations as currently conducted and to pay for currently anticipated capital expenditures over the next 12 months. Additional funds may be raised through debt financing and/or the issuance of equity securities, there being no assurance that any type of financing on terms satisfactory to Net Element will be available or otherwise occur. Debt financing must be repaid regardless of whether

Net Element generates revenues or cash flows from operations and may be secured by substantially all of Net Element's assets. Any equity financing or debt financing that requires the issuance of equity securities or warrants to the lender would cause the percentage ownership by Net Element's current stockholders to be diluted, which dilution may be substantial. Also, any additional equity securities issued may have rights, preferences or privileges senior to those of existing stockholders. If such financings are not available when required or are not available on acceptable terms, Net Element may be unable to implement its business plans or take advantage of business opportunities, any of which could have a material adverse effect on Net Element's business, financial condition, results of operations and/or prospects and may ultimately require Net Element to suspend or cease operations, which could cause investors in Net Element to lose the entire amount of their investment.

Net Element has a limited operating history upon which an evaluation of its prospects can be made. For that reason, it would be difficult for a potential investor to judge Net Element's prospects for success.

Since April 1, 2010, Net Element has pursued a strategy to develop and acquire applications, services and technologies for use in its Internet media products and services. Net Element completed its first significant acquisition in furtherance of that strategy on December 14, 2010. There can be no assurance that Net Element's future proposed

operations will be implemented successfully or that it will ever have profits. If Net Element is unable to successfully develop its operations, holders of Net Element Common Stock may lose their entire investment. Net Element faces all of the risks inherent in a new business, including the expenses, difficulties, complications and delays frequently encountered in connection with conducting operations, including the need for significant additional capital requirements and management's potential underestimation of initial and ongoing costs. As a new business, Net Element may encounter delays and other problems in connection with developing its Internet websites, technologies and operations. Net Element also faces the risk that it may not be able to effectively implement its business plans and strategies. In evaluating Net Element's business and prospects, these difficulties should be considered. If Net Element is not effective in addressing these risks, it will not operate profitably and it may not have adequate working capital to meet its obligations as they come due.

TABLE OF CONTENTS

Net Element's management has identified continued material weaknesses in its internal controls as of December 31, 2011, which, if not properly remedied, could result in material misstatements in Net Element's financial statements.

A material weakness is defined as a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of Net Element's annual or interim financial statements will not be prevented or detected on a timely basis. As described in Item 9A of Net Element's Annual Report on Form 10-K for the year ended December 31, 2011, Net Element's management has identified the following material weaknesses in its internal control over financial reporting as of December 31, 2011: (i) inadequate written policies and procedures; (ii) inadequate segregation of duties related to job responsibilities for initiating, authorizing, and recording of certain transactions; (iii) Net Element does not have a functioning audit committee; (iv)

Net Element has deficiencies in its testing of internal controls; (v) Net Element has limited financial personnel, information technology infrastructure and other resources; and (vi) Net Element's management has limited ability to monitor the design and operating effectiveness of Net Element's internal controls. These material weaknesses impede the ability of Net Element's management to implement remedial measures and oversee Net Element's internal control over financial reporting on a consistent basis. Net Element's management intends to focus its remediation efforts in the near term on installing a new financial system and documenting formal policies and procedures surrounding transaction processing, period-end account analyses and providing for additional review and monitoring procedures and periodically assess the need for additional accounting resources as Net Element's business develops and resources permit. If Net Element is not able to adequately address the material weaknesses in its internal controls, it is possible that a material misstatement of Net Element's annual or interim financial statements will not be timely prevented or detected. Any failure in preventing or detecting a material misstatement of Net Element's annual or interim financial results could have a material adverse effect on Net Element's stock price and on Net Element's results of operations, could make it more difficult for Net Element to obtain additional financing as needed and could have additional material adverse consequences.

Failure by Net Element to successfully develop the business of its subsidiary TOT Money may harm Net Element's revenue and business prospects.

Net Element recently formed its subsidiary OOO TOT Money (a Russian limited liability company) in June 2012 to adapt the existing revenue sharing platform used in Openfilm.com to a mobile commerce payment platform. Net Element plans to increasingly generate most of its revenues from the mobile commerce payment platform being developed by TOT Money. TOT Money initially plans to launch operations in Russia, using its mobile commerce payment platform to facilitate payments using SMS (short message services, which is a text messaging service). The SMS payment processing market in Russia is primarily controlled by four companies, each of which is substantially larger than Net Element, has more established operations than Net Element and has significantly greater resources than Net Element. In order to successfully enter that market, Net Element must convince mobile phone carriers and content providers to use TOT Money's platform over competitive platforms that may already be in use. Failure to successfully develop TOT Money's payment processing platform and enter into contracts with mobile phone carriers and content providers to use that platform may harm Net Element's revenue and business prospects.

Net Element relies on traffic to its Internet websites from search engines like Google, Yahoo! and Bing. If Net Element's websites fail to rank prominently in unpaid search results, traffic to Net Element's websites could decline (or may not increase to the extent desired), which could adversely affect Net Element's

business prospects.

Net Element's success depends in part on its ability to attract users of its websites through unpaid Internet search results on search engines like Google, Yahoo! and Bing. The number of users Net Element attracts to its websites from search engines is due in large part to how and where its websites rank in unpaid search results. These rankings can be affected by a number of factors, many of which are not in Net Element's direct control, and they may change frequently. For example, a search engine may change its ranking algorithms, methodologies or design layouts. As a result, links to Net Element's websites may not be prominent enough to drive traffic to such websites, and Net Element may not know how to, or otherwise be in a position to, influence the results. In some instances, search engine companies may change these rankings in

TABLE OF CONTENTS

order to promote their own competing products or services or the products or services of one or more of Net Element's competitors. Net Element's websites have experienced fluctuations in search result rankings in the past, and Net Element anticipates fluctuations in the future. Any reduction in the number of users directed to Net Element's websites (or failure to increase the number of users directed to such websites) could adversely affect Net Element's business prospects and results of operations.

Failure by Net Element to generate and maintain sufficient high quality content on its websites may negatively affect the amount of traffic to those websites and, as a result, adversely affect Net Element's revenue and business prospects.

Net Element's success depends in part on its ability to provide consumers with high quality content on its websites. However, Net Element may not be able to provide users the information they seek if the information on Net Element's websites is not up-to-date. If Net Element is unable to provide consumers with the information they seek, or if they can find equivalent content on other websites or publications, they may stop or reduce their use of Net Element's websites or Net Element may not be able to increase their use of Net Element's websites. If Net Element's user traffic declines, Net Element may have more difficulty attracting third parties to advertise on such websites, which would negatively affect Net Element's revenue and business prospects.

If Net Element fails to increase the number of advertisers on its websites, Net Element's revenue and business prospects will be harmed.

In the year ended December 31, 2011, substantially all of Net Element's revenues were generated by the sale of premium services (subscription and pay per view fees), licensing fees (primarily from Launchpad) and advertising. However, in the future, Net Element plans to increasingly generate more of its revenues from advertising. As a result, Net Element's ability to grow its business depends in part on its ability to maintain and expand its base of viewers and advertisers on its websites. To do so, Net Element must convince prospective advertisers of the benefits of Net Element's product and services offerings, including those who may not be familiar with Net Element's products or services. Net Element must also convince existing and prospective advertisers alike that Net Element's advertising products and services will benefit them. Many of these businesses may be more accustomed to using more traditional methods of advertising, such as newspapers, magazines or print yellow pages directories. Failure to maintain and expand Net Element's base of advertisers on Net Element's websites could harm Net Element's revenue and business prospects.

Net Element may experience attrition in its advertisers in the ordinary course of business resulting from several factors, including losses to competitors, lower priced competitors, perceptions that Net Element's advertising solutions are unnecessary or ineffective, declining advertising budgets, closures and bankruptcies. If Net Element's advertisers increase their rates of non-renewal or if Net Element experiences significant advertiser attrition or contract breach, or if Net Element is unable to attract new advertisers in numbers greater than the number of advertisers that it loses, Net Element's client base will decrease and Net Element's business prospects, financial condition and results of operations would be negatively affected.

Net Element expects to face increased competition in the market for attracting advertisers to its websites.

The market for attracting advertisers on Internet websites is intensely competitive and rapidly changing. With the ongoing emergence of new technologies and market entrants, competition is likely to intensify in the future. Net Element's competitors include, among others, offline media companies and service providers; newspaper, television, and other media companies; Internet search engines, such as Google, Yahoo! and Bing; and various other online service providers. Net Element's competitors may enjoy competitive advantages, such as greater name recognition, longer operating histories, substantially greater market share, larger existing user bases and substantially greater financial, technical and other resources. Net Element's competitors may use these advantages to offer products or services similar to those of Net Element at a lower price, develop different products or services to compete with Net Element's current solutions and respond more quickly and effectively than Net Element does to new or changing opportunities, technologies, standards or client requirements. In particular, major Internet companies, such as Amazon, Google, Facebook, Yahoo! and Microsoft may be more successful than Net Element in developing and marketing online advertising offerings,

TABLE OF CONTENTS

and many of Net Element's advertisers and potential advertisers may choose to purchase online advertising services from these or other competitors and may reduce their purchases of Net Element's products and services. In addition, many of Net Element's current and potential competitors have established marketing relationships with and access to larger client bases. As the market for online advertising increases, new competitors, business models and solutions are likely to emerge. For all of these reasons, Net Element may be unable to grow or maintain the number of businesses that use its advertising solutions, in which case its business prospects, financial condition and results of operations will be negatively affected.

If Net Element fails to adequately protect or enforce its intellectual property rights, competitors may create and market products and services similar to those of Net Element. In addition, Net Element may be subject to intellectual property litigation and infringement claims by third parties.

Net Element's ability to compete effectively is dependent in part upon the proprietary nature of its technologies and software platform. Net Element generally intends to rely on a combination of trade secret, copyright, trademark and patent law to protect its proprietary rights in its intellectual properties. Net Element has applied for patents and it owns trademarks through its wholly-owned subsidiary, NetLab Systems IP LLC, and certain of its operating subsidiaries have license arrangements to use those inventions, technologies and services. Although Net Element attempts to protect its proprietary technologies through trade secrets, patents, trademarks and license and other agreements, these may be insufficient. In addition, if Net Element licenses its software to non-U.S. countries, because of differences in foreign laws concerning proprietary rights, Net Element's intellectual properties may not receive the same degree of protection in non-U.S. countries as they would in the United States. Although Net Element's subsidiaries and other customers will utilize Net Element's proprietary software in object code form, no assurance can be given that unauthorized third parties will not be able to copy such software. Net Element may not always be able to successfully protect or enforce its proprietary properties against competitors, which may materially adversely affect Net Element's business prospects, financial condition and results of operations. In addition, there can be no assurance that Net Element's competitors will not independently utilize existing technologies to develop products that are substantially equivalent or superior to those of Net Element, which also could materially adversely affect Net Element's business prospects, financial condition and results of operations.

In addition, although Net Element does not believe that its intellectual properties infringe the rights of others and while to date Net Element has not been subject to such claims, it may be exposed to, or threatened with, future litigation by other parties alleging that Net Element's technologies infringe their intellectual property rights. Any intellectual property claims, regardless of their merit, could be time consuming, expensive to litigate or settle and could divert management resources and attention. An adverse determination in any intellectual property claim could require Net Element to pay damages and/or stop using its technologies and other material found to be in violation of another party's rights and could prevent Net Element from licensing its technologies to others. In order to avoid these restrictions, Net Element may have to seek a license. Such a license may not be available on reasonable terms, could require Net Element to pay significant license fees and may significantly increase Net Element's operating expenses. A license also may not be available to Net Element at all. As a result, Net Element may be required to use and/or develop non-infringing alternatives, which could require significant effort and expense. If Net Element cannot obtain a license or develop alternatives for any infringing aspects of its business, it may be forced to limit its technologies and may be unable to compete effectively. Any of these adverse consequences could have a material adverse effect on Net Element's business prospects, financial condition and results of operations.

Further, from time to time Net Element may be engaged in disputes regarding the licensing of its intellectual property rights, including matters related to the terms of its licensing arrangements. These types of disputes can be asserted by

If Net Element fails to adequately protect or enforce its intellectual property rights, competitors may create and market

Net Element's licensees or prospective licensees or by other third parties as part of negotiations with Net Element or in private actions seeking monetary damages or injunctive relief or in regulatory actions. Requests for monetary and injunctive remedies asserted in claims like these could be material and could have a significant impact on Net Element's business prospects. Any disputes with Net Element's licensees, potential licensees or other third parties could materially adversely affect Net Element's business prospects, financial condition and results of operations.

TABLE OF CONTENTS

Acquisition activities could result in operating difficulties, dilution to Net Element s shareholders and other harmful consequences.

Net Element has built its current business primarily through acquisitions of intellectual property and other assets. Net Element intends to selectively pursue strategic acquisitions in the future. Future acquisitions could divert management s time and focus from operating Net Element s business. In addition, integrating an acquired company, business or technology is risky and may result in unforeseen operating difficulties and expenditures. Foreign acquisitions also involve unique risks related to integration of operations across different cultures and languages, currency risks and the particular economic, political and regulatory risks associated with specific countries.

Net Element may not accurately assess the value or prospects of acquisition candidates, and the anticipated benefits from Net Element s future or even past acquisitions may not materialize. In addition, future acquisitions or dispositions could result in potentially dilutive issuances of Net Element s equity securities, including Net Element Common Stock, the incurrence of debt, contingent liabilities or amortization expenses, or write-offs of goodwill, any of which could negatively affect Net Element s financial condition.

Poor perception of Net Element s brand, business or industry could harm its reputation and adversely affect its business prospects, financial condition and results of operations.

The success of Net Element s business depends in part on its reputation within its industries and with consumers. Because Net Element s business is transforming traditional content creation and distribution models and is therefore not easily understood by casual observers, Net Element s brand, business and reputation is vulnerable to poor perception. For example, perception that the quality of Net Element s content may not be the same or better than that of other published Internet content, even if baseless, can damage Net Element s reputation. Net Element may be the subject of unflattering reports in blogs, video blogs and the media about its business and its business model. While disruptive businesses are often criticized early on in their life cycles, Net Element believes its business may be more frequently targeted than most because of the nature of the business it is disrupting namely the traditional broadcast, print and publication media. Any damage to Net Element s reputation could harm Net Element s ability to obtain and retain contracts with mobile phone carriers, content providers, advertisers and other customers, which could materially adversely affect its results of operations, financial condition and business.

The expansion of Net Element s owned and operated websites into new areas of consumer interest, products, services and technologies subjects it to additional business, legal, financial and competitive risks.

An important element of Net Element s business strategy is to grow its network of owned and operated websites to cover new areas of consumer interest, expand into new business lines and develop additional services, products and technologies. In directing its focus into new areas, Net Element faces numerous risks and challenges, including increased capital requirements, long development cycles, new competitors and the requirement to develop new strategic relationships. Net Element cannot assure you that its strategy will result in increased net revenues or net income. Furthermore, growth into new areas may require changes to Net Element s existing business model and cost structure, modifications to its infrastructure and exposure to new regulatory and legal risks, any of which may require expertise in areas in which Net Element has little or no experience. If Net Element cannot generate revenue as a result of its expansion into new areas that are greater than the cost of such expansion, Net Element s operating results could be adversely affected.

Acquisition activities could result in operating difficulties, dilution to Net Element s shareholders and other harmful

Net Element may not timely and effectively scale and adapt its existing technology and network infrastructure to ensure that its websites are accessible.

It is important to Net Element's success that users in all geographies be able to access Net Element's websites at all times. Net Element has previously experienced, and may experience in the future, service disruptions, outages and other performance problems due to a variety of factors, including infrastructure changes, human or software errors, capacity constraints due to an overwhelming number of users accessing Net Element's platform simultaneously, and denial of service or fraud or security attacks. In some instances, Net Element may not be able to identify the cause or causes of these performance problems within an

TABLE OF CONTENTS

acceptable period of time. It may become increasingly difficult to maintain and improve the availability of Net Element's websites, especially during peak usage times and as Net Element's solutions become more complex and Net Element's user traffic increases. If Net Element's websites are unavailable when users attempt to access them or they do not load as quickly as they expect, users may seek other services to obtain the information for which they are looking, and may not return to Net Element's websites as often in the future, or at all. This would negatively impact Net Element's ability to attract users and advertisers. Net Element expects to continue to make significant investments to maintain and improve the availability of Net Element's websites and to enable rapid releases of new content and features. To the extent that Net Element does not effectively address capacity constraints, upgrade its systems as needed and continually develop its technologies and network architecture to accommodate actual and anticipated changes in technology, Net Element's business prospects and operating results may be adversely affected.

Net Element's business is subject to complex and evolving U.S. and foreign laws and regulations regarding privacy, data protection and other matters. Many of these laws and regulations are subject to change and uncertain interpretations, and could result in claims, changes to Net Element's business practices, increased cost of operations or declines in user growth or engagement, or otherwise harm Net Element's business.

Net Element is subject to a number of foreign and domestic laws and regulations that affect companies conducting business on the Internet and companies transmitting user information via text message or other electronic means, many of which are still evolving and the interpretation of which are often uncertain. These existing and proposed laws and regulations can be costly to comply with and can delay or impede the development of new products, increase Net Element's operating costs, require significant management time and attention and subject Net Element to claims or other remedies, including fines or demands that Net Element modify or cease existing business practices, or could otherwise have an adverse impact on Net Element's business.

Net Element's business is subject to the risks of hurricanes, floods, fires and other natural catastrophic events and to interruption by man-made problems such as computer viruses or terrorism.

Net Element's systems and operations are vulnerable to damage or interruption from hurricanes, floods, fires, power losses, telecommunications outages, terrorist attacks, acts of war, human errors, break-ins and similar events. Net Element's U.S. corporate offices are located in Miami, Florida, which is an area that is at high risk of hurricane and flood damage. In addition, acts of terrorism, which may be targeted at metropolitan areas that have higher population density than rural areas, could cause disruptions in Net Element's business or the economy as a whole. The servers that Net Element uses through various third party service providers are not located in Miami, Florida but may also be vulnerable to computer viruses, break-ins and similar disruptions from unauthorized tampering with Net Element's computer systems, which could lead to interruptions, delays, loss of critical data or the unauthorized disclosure of confidential information. Such service providers may not have sufficient protection or recovery plans in certain circumstances, and Net Element's insurance may not be sufficient to compensate it for losses that may occur. As Net Element relies heavily on its servers, computer and communications systems and the Internet to conduct its business, such disruptions could negatively impact its ability to run its business and either directly or indirectly disrupt its advertisers' businesses, which could have an adverse effect on its business prospects, operating results and financial condition.

Net Element is effectively controlled by Mike Zoi, its Chairman and Chief Executive Officer. Mr. Zoi's interests may conflict with the interests of Net Element's outside shareholders, who may be unable to influence management and exercise control over Net Element's business.

Mike Zoi, Net Element's Chairman and Chief Executive Officer, owns, in combination with the holdings of entities that he controls, approximately 59.4% of the issued and outstanding Net Element Common Stock as of August 21, 2012 (67.2% assuming a cashless exercise of options and warrants Mr. Zoi owns which are currently exercisable). As a result, and in addition to having de-facto control over all key elements of the day to day operations of Net Element's business, Mr. Zoi can be viewed as having de-facto control over corporate actions requiring shareholder approval, including but not limited to: (i) electing and removing directors; (ii)

TABLE OF CONTENTS

amending or preventing amendment of Net Element's certificate of incorporation or bylaws; (iii) selling all or substantially all of Net Element's assets; and (iv) merging with another entity, including Cazador. This concentration of ownership could be disadvantageous to shareholders with interests that might vary from those of Mr. Zoi and adversely affect the price that investors might be willing to pay in the future for Net Element's securities. For example, Mr. Zoi owns and controls enough shares to approve and adopt the merger agreement without the vote of any other Net Element shareholder.

The impact of worldwide economic conditions, including the resulting effect on advertising spending by local businesses, may adversely affect Net Element's business prospects, operating results and financial condition.

Net Element's performance is subject to worldwide economic conditions and their impact on levels of advertising spent by businesses, which may be disproportionately affected by economic downturns. To the extent that the current economic slowdown continues, or worldwide economic conditions materially deteriorate, Net Element's existing and potential advertising clients may no longer consider investment in Net Element's advertising solutions a necessity, or may elect to reduce advertising budgets. Historically, economic downturns have generally resulted in reductions in advertising spending. In particular, web-based advertising solutions may be viewed by some of Net Element's existing and potential advertising clients as a lower priority and could cause advertisers to reduce the amounts they spend on advertising, terminate their use of Net Element's solutions or default on their payment obligations to Net Element. In addition, economic conditions may adversely impact levels of consumer spending, which could adversely impact the numbers of consumers visiting Net Element's websites. Consumer purchases of discretionary items generally decline during recessionary periods and other periods in which disposable income is adversely affected. If consumer spending declines, businesses may be less likely to advertise on Net Element's websites, which could have a material adverse effect on Net Element's business prospects, financial condition and results of operations.

The historic price of Net Element Common Stock has been volatile and the future market price of Net Element Common Stock is likely to continue to be volatile. Further, the limited market for Net Element Common Stock contributes significantly to the high volatility in the market price of Net Element Common Stock. This may make it difficult for holders of Net Element Common Stock to sell their shares for a positive return on their investment.

The public market for Net Element Common Stock has historically been very volatile. Over the last two completed fiscal years, and through the fiscal quarter ended June 30, 2012, the per-share market price for Net Element Common Stock has ranged from \$0.01 to \$1.05. Any future market price for Net Element Common Stock is likely to continue to be very volatile. This price volatility may make it more difficult for holders of Net Element Common Stock to sell shares when they want and at prices they find attractive. Net Element does not know of any one particular factor that has caused volatility in its share price. However, the market for Net Element Common Stock is limited, which contributes significantly to that volatility, and Net Element cannot assure you that a larger or more liquid market will ever be developed or maintained. In addition, the stock market in general has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of companies. Broad market factors and the investing public's negative perception of Net Element's business may reduce its share price, regardless of Net Element's operating performance. Market fluctuations and volatility, as well as general economic, market and political conditions, could reduce the market price of Net Element Common Stock. These fluctuations may also cause short sellers to periodically enter the market in the belief that Net Element will have poor results in the

The impact of worldwide economic conditions, including the resulting effect on advertising spending by local business

future. As a result, this may make it difficult or impossible for holders of Net Element Common Stock to sell shares when they want and at prices they find attractive.

Net Element's operating results and financial condition may fluctuate which could negatively affect the market price of Net Element Common Stock.

Net Element's operating results could vary significantly from quarter to quarter and year to year because of a variety of factors, many of which are outside of Net Element's control. As a result, comparing Net Element's operating results on a period-to-period basis may not be meaningful and the market price of Net

TABLE OF CONTENTS

Element Common Stock may be negatively affected. The following factors, among others, may contribute to the variability of Net Element's quarterly and annual results and negatively affect the market price of Net Element Common Stock:

- Net Element's ability to secure contracts with mobile phone carriers and content providers to use the mobile commerce payment processing platform being developed by TOT Money;
- Net Element's ability to attract new advertisers and retain existing advertisers;
- the effects of changes in search engine placement and prominence of Net Element's websites;
- the effects of increased competition on Net Element's business;
- Net Element's ability to successfully expand in existing markets and enter new markets;
- the impact of worldwide economic conditions, including the resulting effect on consumer spending and the level of advertising spending by businesses;
- Net Element's ability to protect its intellectual property;
- Net Element's ability to maintain and increase traffic to its websites;
- Net Element's ability to keep pace with changes in technology;
- the success of Net Element's sales and marketing efforts;
- costs associated with defending intellectual property infringement and other claims and related judgments or settlements;
- changes in government licensing and regulation affecting Net Element's business;
- interruptions in service and any related impact on Net Element's reputation;
- the attraction and retention of qualified employees and key personnel;
- Net Element's ability to choose and effectively manage third-party service providers;
- the impact of fluctuations in currency exchange rates;
- Net Element's ability to successfully manage and integrate any acquisitions of businesses, solutions or technologies;
- the effects of natural or man-made catastrophic events;
- changes in consumer behavior;
- Net Element's ability to increase the effectiveness of its internal controls; and
- changes in Net Element's tax rates or exposure to additional tax liabilities.

Net Element may sell equity securities in the future, which would cause dilution.

Net Element may sell equity securities in the future to obtain funds for general corporate or other purposes. Net Element may sell these securities at a discount to the market price. Any future sales of equity securities will dilute the holdings of existing holders of Net Element Common Stock, possibly reducing the value of their investment.

Net Element incurs increased costs as a result of being a public company.

As a public company, Net Element currently incurs significant legal, accounting and other expenses not incurred by private companies. If Net Element Common Stock becomes listed on The NASDAQ Capital Market or any other exchange, then Net Element will incur significant additional compliance expenses. It may be time consuming, difficult and costly for Net Element to develop and implement the additional internal controls, processes and reporting procedures required by federal statutes, SEC rules, other government regulations affecting public companies and/or stock exchange compliance requirements. Net Element may need to hire additional financial reporting, internal auditing and other finance staff in order to develop and

TABLE OF CONTENTS

implement appropriate internal controls, processes and reporting procedures, which will increase its expenses and adversely affect its operating results and financial condition.

Net Element may fail to qualify for continued quotation on the OTCQB electronic quotation system, which could make it more difficult for holders of Net Element Common Stock to sell their shares.

Net Element Common Stock is currently quoted on the OTCQB electronic quotation system, which is the middle tier of the OTC Markets. There can be no assurance that quotation of Net Element Common Stock on the OTCQB will continue. In the event that Net Element Common Stock fails to qualify for continued quotation on the OTCQB, Net Element Common Stock could thereafter only be quoted on the OTC Pink market, which is the bottom tier of the OTC Markets. Under such circumstances, holders of Net Element Common Stock may find it more difficult to dispose of, or to obtain accurate quotations for, their shares, and Net Element Common Stock would become substantially less attractive to certain purchasers such as certain financial institutions, hedge funds and other similar investors.

Net Element Common Stock is subject to the penny stock rules of the SEC, which makes it more difficult for holders of Net Element Common Stock to sell their shares.

Net Element Common Stock is subject to the penny stock rules adopted pursuant to Section 15(g) of the Securities Exchange Act of 1934, as amended, or the Exchange Act. The penny stock rules apply to, among others, companies whose common stock is not listed on The NASDAQ Capital Market or another national securities exchange or whose common stock trades at less than \$5.00 per share, subject to certain exceptions. Such rules require, among other things, that brokers who trade penny stock complete certain documentation, make suitability inquiries of investors and provide investors with certain information concerning trading in the security, including a risk disclosure document and quote information under certain circumstances. Many brokers have decided not to trade penny stock because of the requirements of the penny stock rules and, as a result, the number of broker-dealers willing to act as market makers in such securities is limited. Because Net Element Common Stock is subject to the penny stock rules, holders of Net Element Common Stock may find it more difficult to sell their shares.

Risk Factors Relating to the Business Combination

If the merger does not qualify as a reorganization under Section 368(a) of the Code, the shareholders of Net Element may be required to pay substantial U.S. federal income taxes and Net Element may be required to pay substantial corporate-level U.S. federal income taxes.

As a condition to the completion of the merger, each of Reed Smith, tax counsel to Cazador, and Bilzin, tax counsel to Net Element, must have delivered an opinion, dated the closing date of the merger, to the effect that the merger will be treated as a reorganization for U.S. federal income tax purposes within the meaning of Section 368(a) of the Code.

The tax opinions regarding the merger will not address any state, local or foreign tax consequences of the merger.

These opinions will be subject to customary qualifications and assumptions, including that the merger will be completed according to the terms of the merger agreement. In rendering the tax opinions, each counsel will require and rely on representations and statements of Net Element, Cazador and their affiliates, which will be delivered at the

Net Element may fail to qualify for continued quotation on the OTCQB electronic quotation system, which could make it more difficult for holders of Net Element Common Stock to sell their shares.

time of the closing of the merger. If any such assumption, representation or statement is or becomes inaccurate, the U.S. federal income tax consequences of the merger could be adversely affected.

An opinion of counsel represents such counsel's best legal judgment but is not binding on the IRS or any court. Neither Net Element nor Cazador intends to request any ruling from the IRS as to the U.S. federal income tax consequences of the merger. Consequently, no assurance can be given that the IRS will not assert, or that a court will not sustain, a position contrary to any of the tax consequences set forth in this joint proxy statement/prospectus or any of the tax consequences described in the tax opinions.

Although each of Net Element and Cazador believes that the merger should qualify as a tax-free reorganization under the Code, it is possible that the IRS may assert that the merger fails to qualify as such. If the IRS were successful in any such contention, or if for any other reason the merger were to fail to qualify as a tax-free reorganization, then (i) each Net Element shareholder would recognize gain or loss with respect to all such shareholder's shares of Net Element Common Stock based on the difference between (A) the fair

TABLE OF CONTENTS

market value of NEI Common Stock received in the merger and (B) such shareholder's tax basis in the Net Element Common Stock surrendered in the merger; and (ii) Net Element would recognize gain or loss with respect to all of its assets based on the difference between (A) the sum of the fair market value of the NEI Common Stock transferred pursuant to the merger and the liabilities deemed assumed by NEI for U.S. federal income tax purposes and (B) Net Element's aggregate tax basis in all of its assets.

For additional information regarding U.S. federal income tax consequences to Net Element shareholders, see "Material U.S. Federal Income Tax Consequences" "Material U.S. Federal Income Tax Consequences of the Merger" beginning on page 155.

The Cazador domestication may result in adverse tax consequences for holders of Cazador Ordinary Shares.

If you are a U.S. holder (as defined in "Material U.S. Federal Income Tax Consequences" below) of Cazador Ordinary Shares, you may be subject to U.S. federal income tax as a result of the Cazador domestication. If you are a non-U.S. holder (as defined in "Material U.S. Federal Income Tax Consequences" below) of Cazador Ordinary Shares, you may become subject to withholding tax on any dividends paid on NEI Common Stock subsequent to the Cazador domestication. Please read the following information which provides more details on the potential U.S. federal income tax consequences of the Cazador domestication.

If you are a U.S. holder of Cazador Ordinary Shares whose Cazador Ordinary Shares have a fair market value of \$50,000 or more but who on the day of the Cazador domestication owns (actually and constructively) less than 10% of the total combined voting power of all classes of Cazador Cayman shares entitled to vote, you generally will recognize gain (but not loss) on the exchange of Cazador Ordinary Shares for NEI Common Stock pursuant to the Cazador domestication. As an alternative to recognizing gain, however, you may elect to include in income as a dividend the all earnings and profits amount, as the term is defined in Treasury Regulation Section 1.367(b)-2(d), attributable to the Cazador Ordinary Shares you directly hold, provided certain requirements are satisfied. Cazador does not expect that Cazador Cayman's cumulative earnings and profits will be greater than zero as of the day of the Cazador domestication. Therefore, based on such expectation, making an election to include the all earnings and profits amount attributable to the Cazador Ordinary Shares into income as a dividend generally would be advantageous to U.S. holders who would otherwise recognize gain with respect to the exchange of Cazador Ordinary Shares for NEI Common Stock in the Cazador domestication. **WE STRONGLY URGE EACH SUCH U.S. HOLDER TO READ CAREFULLY THE DESCRIPTIONS OF THE ELECTION IN "MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES" "MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE CAZADOR DOMESTICATION" BELOW, STARTING ON PAGE 156, AS WELL AS TO CONSULT ITS OWN TAX ADVISOR.**

If you are a U.S. holder of Cazador Ordinary Shares whose Cazador Ordinary Shares have a fair market value of \$50,000 or more, and who on the day of the Cazador domestication owns (actually and constructively) 10% or more of the total combined voting power of all classes of Cazador Cayman shares entitled to vote, you generally will be required to include in income as a dividend the all earnings and profits amount, as the term is defined in Treasury Regulation Section 1.367(b)-2(d), attributable to the Cazador Ordinary Shares you directly hold. As noted above, however, Cazador does not expect that Cazador Cayman's cumulative earnings and profits will be greater than zero as of the day of the Cazador domestication. A U.S. holder's ownership of Cazador Cayman warrants will be taken into account in determining whether such U.S. holder owns 10% or more of the total combined voting power of all classes of Cazador Cayman shares. Complex attribution rules apply in determining whether, for U.S. federal tax purposes, a U.S. holder owns 10% or more of the total combined voting power of all classes of Cazador Cayman shares entitled to

The Cazador domestication may result in adverse tax consequences for holders of Cazador Ordinary Shares.

vote. **EACH U.S. HOLDER IS STRONGLY URGED TO CONSULT ITS OWN TAX ADVISOR.**

Section 1291(f) of the Code generally requires that, to the extent provided in Treasury regulations, a U.S. person who disposes of stock of a PFIC must recognize gain equal to the excess of the fair market value of such PFIC stock over its adjusted tax basis, notwithstanding any other provision of the Code. No final Treasury regulations have been promulgated under this statute. However, proposed Treasury regulations were promulgated in 1992 with a retroactive effective date. Because Cazador Cayman should be considered a PFIC for U.S. federal income tax purposes, these regulations, if finalized in their current form, generally would

TABLE OF CONTENTS

require U.S. holders of Cazador Ordinary Shares to recognize gain on the exchange of Cazador Ordinary Shares for NEI Common Stock pursuant to the Cazador domestication (unless the U.S. holder has made a qualified electing fund election under Section 1295 of the Code with respect to its Cazador Ordinary Shares for the first taxable year in which such U.S. holder owns such shares or in which Cazador Cayman is a PFIC, whichever is later, or a mark-to-market election under Section 1296 of the Code, regardless of whether or the extent to which such U.S. holder would otherwise have been subject to U.S. federal income tax upon such exchange. The tax on any such gain so recognized would be imposed at the rate applicable to ordinary income and an interest charge would apply based on a complex set of computational rules designed to offset the tax deferral to such holders on the undistributed earnings, if any, of Cazador Cayman. The same rule should also apply to a U.S. holder who exchanges Cazador Cayman warrants for NEI warrants. However, we are unable to predict at this time whether, in what form, and with what effective date, final Treasury regulations under Section 1291(f) of the Code will be adopted.

Additionally, the Cazador domestication may cause non-U.S. holders (as defined in Material U.S. Federal Income Tax Consequences below) to become subject to U.S. withholding taxes on any dividends in respect of the shares of NEI Common Stock made subsequent to the Cazador domestication.

For a more detailed description of the material U.S. federal income tax consequences associated with the Cazador domestication, see Material U.S. Federal Income Tax Consequences Material U.S. Federal Income Tax Consequences of the Cazador Domestication beginning on page 156. **WE STRONGLY URGE YOU TO CONSULT WITH YOUR OWN TAX ADVISOR.**

Currently, the rights of holders of Cazador Ordinary Shares arise under Cayman Islands law as well as the Cazador Cayman Charter. Upon effectiveness of the Cazador domestication and the merger, the rights of holders of NEI Common Stock will arise under the DGCL as well as NEI's certificate of incorporation and bylaws.

Upon effectiveness of the Cazador domestication and the merger, the rights of holders of NEI Common Stock will arise under the amended and restated certificate of incorporation and bylaws of NEI as well as the DGCL. Those new organizational documents and the DGCL contain provisions that differ in some respects from those in the Cazador Cayman Charter and Cayman Islands law and, therefore, some rights of holders of NEI Common Stock could differ from the rights that holders of Cazador Ordinary Shares currently possess. For instance, while class actions are generally not available to shareholders under Cayman Islands law, such actions are generally available under the DGCL. This change could increase the likelihood that Cazador becomes involved in costly litigation, which could have a material adverse effect on Cazador. Additionally, there are differences between the new organizational documents of NEI and the current organizational documents of Cazador Cayman. For example, while the Cazador Cayman Charter contains provisions regarding business combinations and interested shareholders that will be substantially similar in effect to the provisions of Section 203 of the DGCL, the amended and restated NEI bylaws will not contain provisions similar to the business combination provisions in the Cazador Cayman Charter. However, holders of NEI Common Stock will have substantially similar voting rights because NEI will be subject to the provisions of Section 203 of the DGCL upon effectiveness of the Cazador domestication and the merger. There can be no assurance that the rights afforded by Section 203 of the DGCL will not be changed or rescinded by the Delaware legislature or courts in the future.

For a more detailed description of the rights of holders of NEI Common Stock and how they may differ from the rights of holders of Cazador Ordinary Shares, please see Comparison of Shareholder Rights beginning on page 192.

Currently, the rights of holders of Cazador Ordinary Shares arise under Cayman Islands law as well as the Cazador

Forms of the amended and restated certificate of incorporation and bylaws of NEI are attached as Appendices C and D, respectively, to this joint proxy statement/prospectus and we urge you to read them.

Net Element shareholders cannot be sure of the market value of the shares of NEI Common Stock to be issued upon completion of the business combination.

Net Element shareholders will receive a fixed number of shares of NEI Common Stock in the business combination rather than a number of shares with a particular fixed market value. The market values of Cazador Ordinary Shares, NEI Common Stock and Net Element Common Stock at the time of the business

TABLE OF CONTENTS

combination may vary significantly from their prices on the date the merger agreement was executed, the date of this joint proxy statement/prospectus or the dates on which Cazador shareholders and Net Element shareholders vote on the business combination. Because the Exchange Ratio will not be adjusted to reflect any changes in the market prices of Cazador Ordinary Shares, NEI Common Stock or Net Element Common Stock, the market value of the NEI Common Stock issued in the merger and the Net Element Common Stock surrendered in the merger may be higher or lower than the values of these shares on earlier dates. 100% of the merger consideration to be received by Net Element public shareholders will be NEI Common Stock.

Following consummation of the business combination, the market price of Cazador's securities may be influenced by many factors, some of which are beyond its control, including those described above and the following:

changes in financial estimates by analysts;
announcements by it or its competitors of significant contracts, productions, acquisitions or capital commitments;
fluctuations in its quarterly financial results or the quarterly financial results of companies perceived to be similar to it;

general economic conditions;
changes in market valuations of similar companies;
terrorist acts;

changes in its capital structure, such as future issuances of securities or the incurrence of additional debt;
future sales of NEI Common Stock;

investor perception of Internet media and technology industry;
regulatory developments in the United States, foreign countries or both;
litigation involving Cazador, its subsidiaries or its general industry;
additions or departures of key personnel; and

all of the factors which currently affect the market price of Net Element Common Stock. See Risk Factors Relating to Net Element Net Element's operating results and financial condition may fluctuate which could negatively affect the market price of Net Element Common Stock.

The market values of Cazador Ordinary Shares, NEI Common Stock and Net Element Common Stock may vary significantly from the date of the special meetings to the date of the completion of the business combination. You are urged to obtain up-to-date prices for Cazador Ordinary Shares, NEI Common Stock and Net Element Common Stock. There is no assurance that the business combination will be completed, that there will not be a delay in the completion of the business combination or that all or any of the anticipated benefits of the business combination will be obtained.

Neither the Cazador board nor the Net Element board obtained a fairness opinion in determining whether or not to proceed with the business combination and, as a result, the terms may not be fair from a financial point of view to the shareholders of Cazador and/or Net Element.

In analyzing the business combination, each of the Cazador board and the Net Element board conducted significant due diligence on Net Element and Cazador, respectively. Each of the Cazador board and the Net Element board believes that because of the financial skills and background of its respective directors, each of the Cazador board and the Net Element board was qualified to conclude that the business combination is fair from a financial perspective to its respective shareholders. Accordingly, the Cazador board and/or the Net Element board may be incorrect in its assessment of the fairness of the business combination from a financial point of view to the shareholders of Cazador and/or Net Element.

Neither the Cazador board nor the Net Element board obtained a fairness opinion in determining whether or not to p

TABLE OF CONTENTS

There are inherent risks in the Cazador board's performing its own valuation and analysis in determining the fair value of Net Element.

The Cazador board may have limited experience in valuing certain business prospects of Net Element, especially those outside of emerging markets and within the online media market. As a result, the Cazador board may be unable to effectively value and analyze the business of Net Element. If the Cazador board is unable to effectively value Net Element, it may pay merger consideration in connection with the merger that is greater than would otherwise be paid had the board obtained a fairness opinion. Additionally, because the Cazador board did not obtain a fairness opinion in connection with its determination to proceed with the business combination, its shareholders may lack a sufficient basis on which to rely on the Cazador board's determination of the value of Net Element. This may increase the number of holders of Public Cazador Ordinary Shares who elect to exercise their redemption rights, which could deplete the funds remaining in Cazador's trust account and could materially harm Cazador's ability to consummate the business combination.

The loss of Net Element's key personnel could negatively affect the operations and profitability of Cazador.

Although Cazador contemplates that certain members of Net Element's management team will transition to positions in Cazador following the business combination, it is possible that members of the management of Net Element will not wish to make such a transition. In addition, while it is anticipated that Cazador and certain members of Net Element's senior management will enter into employment agreements, such agreements with Cazador have not been finalized and they may not be finalized or entered into until after the merger is completed. The loss of Net Element's key personnel could negatively affect the operations and profitability of Cazador.

Failure to successfully combine and integrate the businesses of Cazador and Net Element in the expected time frame may adversely affect Cazador's future results.

The success of the business combination will depend, in part, on Cazador's ability to realize the anticipated benefits from combining the businesses of Cazador and Net Element as further described in the section titled "The Business Combination Recommendation of the Cazador Board; Cazador's Reasons for the Business Combination" beginning on page 142 and "The Business Combination Recommendation of the Net Element Board; Net Element's Reasons for the Business Combination" beginning on page 147. To realize these anticipated benefits, the businesses of Cazador and Net Element must be successfully integrated and combined. Cazador and Net Element have been independent companies, and they will continue to be operated as such until the completion of the business combination. The management of Cazador may face significant challenges in integrating the technologies, organizations, procedures, policies and operations, as well as addressing the different business cultures at the two companies, and retaining key personnel. If the combined company is not successfully integrated, the anticipated benefits of the business combination may not be realized fully or at all or may take longer to realize than expected. The integration process and other disruptions resulting from the business combination may also disrupt Net Element's ongoing businesses and/or adversely affect its relationships with employees, customary regulators and others with whom it has business or other dealings.

Cazador and Net Element will be subject to business uncertainties and contractual restrictions while the business combination is pending.

Uncertainty about the effect of the business combination on employees and customers may have an adverse effect on Cazador and Net Element and consequently on the combined company. These uncertainties may impair Net Element's ability to retain and motivate key personnel and could cause customers and others that deal with Net Element to defer entering into contracts with Net Element or making other decisions concerning Net Element or seek to change existing business relationships with Net Element. Certain of Net Element's agreements with its customers, vendors or other third parties have provisions that may allow such parties to terminate the agreements if the business combination is completed. If key employees depart because of uncertainty about their future roles and the potential complexities of the business combination, Cazador's and Net Element's business could be harmed. In addition, the merger agreement restricts Cazador and Net Element, without the consent of the other party, from making certain acquisitions and taking other specified

TABLE OF CONTENTS

actions until the business combination occurs. These restrictions may prevent Cazador and Net Element from pursuing attractive business opportunities that may arise prior to the completion of the business combination. See the section entitled "The Merger Agreement - Description of the Merger Agreement - Additional Agreements" beginning on page 167 for a description of the restrictive covenants applicable to Cazador and Net Element.

The merger agreement limits Net Element's ability to pursue alternatives to the business combination.

Net Element has agreed that it will not solicit, initiate, knowingly encourage or facilitate inquiries or proposals or engage in discussions or negotiations regarding takeover proposals, subject to limited exceptions, including that Net Element may take certain actions in the event it receives an unsolicited takeover proposal that constitutes a superior proposal or is reasonably expected to lead to a superior proposal, and the Net Element board determines in good faith, after consultation with its outside legal counsel, that a failure to take action with respect to such takeover proposal would be inconsistent with its fiduciary duties. Net Element has also agreed that the Net Element board will not change its recommendation to its shareholders or approve any alternative agreement, subject to limited exceptions, including that, at any time prior to the Net Element business combination approval, the Net Element board may make a change in recommendation in response to a superior proposal, if the Net Element board concludes in good faith that a failure to change its recommendation would be inconsistent with the exercise of its fiduciary duties to its shareholders under applicable laws and, if Cazador shall not have, within five business days of its receipt of notice of such superior proposal, made an offer that the Net Element board determines, in good faith, to be at least as favorable to Net Element's shareholders as such superior proposal. The merger agreement also requires each party to call, give notice of and hold a meeting of its shareholders for the purposes of obtaining the applicable shareholder approval. This special meeting requirement does not apply to a party in the event that the merger agreement is terminated in accordance with its terms. These provisions might discourage a potential competing acquiror that might have an interest in acquiring all or a significant part of Net Element from considering or proposing an acquisition, even if it were prepared to pay consideration with a higher price per share than that proposed in the business combination, or might result in a potential competing acquiror proposing to pay a lower price per share to acquire Net Element than it might otherwise have been willing to pay.

Certain directors and executive officers of Cazador and Net Element may have interests in the business combination that are different from, or in addition to or in conflict with, yours.

Executive officers of Cazador and Net Element negotiated the terms of the business combination and each of the Cazador board and the Net Element board approved the business combination and the transactions contemplated thereby and recommend that you vote in favor of the proposals to approve the business combination. These directors and executive officers may have interests in the business combination that are different from, or in addition to or in conflict with, yours. For example, in the case of Net Element, immediately prior to the effectiveness of the merger, the principal amounts of all outstanding convertible debt of Net Element owned by Enerfund (which is owned and controlled by Mike Zoi and totals \$3.6 million) will be converted into 32,727,273 shares of Net Element Common Stock, which will be converted into 818,182 shares of NEI Common Stock in the merger and, immediately following the effectiveness of the merger, NEI will pay, in cash, all notes and payables of Net Element owed to Mike Zoi or any of his affiliates which are then outstanding (which, as of August 21, 2012, totaled approximately \$7.5 million). In the case of Cazador, Mike Zoi, through Enerfund, has previously paid, on behalf of Cazador, \$150,000 of Cazador's legal fees in connection with the merger agreement and the merger, and Mike Zoi has also agreed, through Enerfund, to pay, on behalf of Cazador, additional legal fees of Cazador up to a maximum of \$250,000 if the merger is not

consummated or is otherwise terminated or abandoned. If Enerfund would not have agreed to these payments, Cazador Sub Holdings, Ltd. would be liable for these payments. Cazador Sub Holdings, Ltd. is indirectly majority-owned by entities controlled by Francesco Piovanetti. These interests also include the continued employment of certain executive officers of Cazador and Net Element by Cazador, the continued positions of certain directors of Cazador and Net Element as directors of Cazador, and the indemnification of former Cazador and Net Element directors and Cazador and Net Element officers by Cazador and the surviving corporations. You should be aware of these interests when you consider your board of directors' recommendation that you vote in favor of the approval and adoption of the merger agreement and the

TABLE OF CONTENTS

consummation of the transactions contemplated thereby. These and other interests of Net Element s and Cazador s respective executive officers and directors are described in more detail in the section of this document entitled The Business Combination Interests of Officers and Directors in the Business Combination beginning on page 150.

Cazador s Sponsor owns Cazador Ordinary Shares and warrants that may be worthless if the business combination is not approved. Such interests may have influenced the Sponsor s decision to approve the business combination.

Following the consummation of the business combination, Cazador s Sponsor, which includes all of Cazador s directors and executive officers, will beneficially own approximately 1,150,000 shares of NEI Common Stock and will have the right to acquire an additional 4,340,000 shares of NEI Common Stock through the exercise of warrants, subject to certain limitations. Cazador s Sponsor is not entitled to receive any of the cash proceeds that may be distributed upon Cazador s liquidation with respect to Cazador Ordinary Shares that are held by the Sponsor. Therefore, if the business combination is not approved and Cazador does not consummate another business combination by October 14, 2012 and is forced to liquidate, such Cazador Ordinary Shares and warrants held by the Sponsor will be worthless. As of August 27, 2012, the record date for the Cazador special meeting, Cazador s Sponsor beneficially held \$ in Cazador Ordinary Shares (based on a market price of \$ per share) and \$ in warrants (based on a market price of \$ per warrant). These financial interests of Cazador s Sponsor may have influenced the Sponsor s decision to approve the business combination and to continue to pursue the business combination. See The Business Combination Interests of the Officers and Directors in the Business Combination beginning on page 150.

The shares of NEI Common Stock to be received by Net Element shareholders and Cazador shareholders as a result of the business combination will have different rights from shares of Net Element Common Stock and Cazador Ordinary Shares, respectively.

Following completion of the business combination, Net Element shareholders and Cazador shareholders will no longer be shareholders of Net Element and Cazador Cayman, respectively, but will instead be shareholders of NEI.

There will be important differences between your current rights as a Net Element shareholder or a Cazador shareholder, as the case may be, and your rights as a NEI shareholder. See Comparison of Shareholder Rights beginning on page 192 for a discussion of the different rights associated with Net Element Common Stock, Cazador Ordinary Shares and NEI Common Stock.

Both Cazador shareholders and Net Element shareholders will have a reduced ownership and voting interest after consummation of the business combination.

After the completion of the business combination, Cazador shareholders and Net Element shareholders will own a smaller percentage of NEI than they currently own of Cazador and Net Element, respectively. Immediately following the completion of the business combination (without taking into account any shares of NEI Common Stock held by Net Element shareholders prior to the completion of the business combination, and assuming cashless exercise of outstanding warrants and options of Net Element and that no holders of Public Cazador Ordinary Shares exercise their redemption rights), the former shareholders of Net Element are expected to own approximately 80.9% of the outstanding NEI Common Stock (or approximately 65.6% of the outstanding NEI Common Stock calculated on a fully diluted basis) and the current holders of Cazador Ordinary Shares are expected to own approximately 19.1% of

the outstanding NEI Common Stock (or approximately 34.4% of the outstanding NEI Common Stock calculated on a fully diluted basis).

Consequently, Cazador shareholders, as a group, and Net Element shareholders, as a group, will each have reduced ownership and voting power in the combined company compared to their current ownership and voting power in Cazador and Net Element, respectively. In particular, current Cazador shareholders, as a group, will have less than a majority of the ownership and voting power of NEI following completion of the business combination and, therefore, will be able to exercise less collective influence over the management and policies of NEI than they currently exercise.

TABLE OF CONTENTS

Following consummation of the merger, Mike Zoi, Net Element's Chairman and Chief Executive Officer, will control a majority of NEI's voting power and, as a result, will be in a position to affect NEI's ongoing operations, corporate transactions and any matters submitted to a vote of NEI shareholders, including the election of directors and a change in corporate control.

Following consummation of the merger, Mike Zoi, Net Element's Chairman and Chief Executive Officer, will control approximately 54.3% of NEI's voting power if no holders of Public Cazador Ordinary Shares exercise their redemption rights (or approximately 58.7% of NEI's voting power if the maximum permissible number of holders of Public Cazador Ordinary Shares exercise their redemption rights whereby Cazador may proceed with the merger). As a result, Mr. Zoi will have the ability to exert significant influence over NEI's corporate affairs and to control the outcome of virtually all matters submitted to a vote of NEI's shareholders, including the election of NEI directors, the amendment of NEI's Certificate of Incorporation or by-laws, and the approval of mergers, consolidations and other significant corporate transactions involving NEI. Mr. Zoi's interests may conflict with or differ from the interests of NEI's other shareholders. In situations involving a conflict of interest between Mr. Zoi and NEI's other shareholders, Mr. Zoi may exercise his control in a manner that would benefit himself to the potential detriment of NEI's other shareholders. Mr. Zoi's significant ownership interest could delay, prevent or cause a change in control of NEI, any of which may be adverse to the interests of NEI's other shareholders.

Failure to complete the business combination could negatively affect the stock prices, businesses and financial results of Cazador and Net Element, respectively.

If the business combination is not completed, the ongoing businesses of Cazador and Net Element may be adversely affected and Cazador and Net Element will be subject to several risks and consequences, including the following:

Cazador and Net Element will be required to pay certain costs relating to the business combination, whether or not the business combination is completed, such as significant fees and expenses relating to financing arrangements and legal, accounting and printing fees;

Cazador may be required to pay significant fees and expenses relating to financing arrangements, whether or not the business combination is completed, which may include investment banking fees and commissions, commitment fees, early termination or redemption premiums, professional fees and other costs and expenses;

under the merger agreement, each of Cazador and Net Element is subject to certain restrictions on the conduct of its business prior to completing the business combination which may adversely affect its ability to execute certain of its business strategies;

matters relating to the business combination may require substantial commitments of time and resources by Cazador and Net Element management, which could otherwise have been devoted to other opportunities that may have been beneficial to Cazador and Net Element as independent companies, as the case may be.

In addition, if the business combination is not completed, Cazador and/or Net Element may experience negative reactions from the financial markets and from Net Element's customers and employees. Cazador and Net Element also could be subject to litigation related to a failure to complete the business combination or to enforce their respective obligations under the merger agreement. If the business combination is not consummated, Cazador and Net Element cannot assure their respective shareholders that the risks described will not materially affect the business, financial results and stock prices of Cazador and/or Net Element.

Following consummation of the merger, Mike Zoi, Net Element's Chairman and Chief Executive Officer, will control

Cazador and Net Element will incur significant transaction and merger-related transition costs in connection with the business combination.

Cazador and Net Element expect that they will incur significant, non-recurring costs in connection with consummating the business combination and integrating the operations of Cazador and Net Element. Cazador expects that it will incur approximately \$50,000 of costs in connection with maintaining employee morale and retaining key employees of Net Element. Cazador and Net Element will also incur significant fees and expenses relating to financing arrangements and legal, accounting and other transaction fees and costs

TABLE OF CONTENTS

associated with the business combination, which we estimate will be approximately \$2.0 million in aggregate. The merger agreement provides that the expenses for the business combination will be paid by Cazador, unless the business combination is terminated, in which case each party must pay its own expenses.

The unaudited pro forma financial information included elsewhere in this joint proxy statement/prospectus may not be indicative of what the combined company's actual financial position or results of operations would have been.

The unaudited pro forma financial information in this joint proxy statement/prospectus is presented for illustrative purposes only, has been prepared based on a number of assumptions and is not necessarily indicative of what the combined company's actual financial position or results of operations would have been had the business combination been completed on the dates indicated. The unaudited pro forma consolidated financial information does not reflect any cost savings, operating synergies or revenue enhancements that the combined companies may achieve as a result of the business combination or the costs to combine the operations of Cazador and Net Element or the costs necessary to achieve these cost savings, operating synergies and revenue enhancements. See Unaudited Pro Forma Consolidated Combined Financial Information beginning on page 179 for more information.

Cazador's warrants may be exercised in the future, which would increase the number of shares eligible for future resale in the public market and result in dilution to Cazador's shareholders.

Outstanding warrants to purchase an aggregate of 4,340,000 NEI Common Stock (issued in the Cazador domestication in exchange for Cazador warrants to purchase Cazador Ordinary Shares) will become exercisable after the consummation of the business combination. These warrants likely will be exercised only if the \$7.50 per share exercise price is below the market price of the shares of NEI Common Stock. To the extent such warrants are exercised, additional shares of NEI Common Stock will be issued, which will result in dilution to the holders of NEI Common Stock and increase the number of shares eligible for resale in the public market. Sales of substantial numbers of such shares in the public market could adversely affect the market price of NEI Common Stock.

If Cazador's Sponsor exercises its registration rights with respect to its Cazador Ordinary Shares and warrants and the underlying securities, it may have an adverse effect on the market price of the NEI Common Stock and the existence of these rights may make it more difficult to effect the business combination.

Cazador's Sponsor and its beneficial owners and permitted transferees are entitled to an aggregate of four demands that Cazador register the Cazador Ordinary Shares, warrants and underlying securities held by them. They can elect to exercise these rights with respect to such securities after the consummation of the business combination provided that the estimated market value of the securities to be registered is at least \$500,000 in the aggregate. In general, Cazador will bear the expenses incurred in connection with the filing of any demand registration statements. The presence of these additional securities trading in the public market may have an adverse effect on the market price of the NEI Common Stock.

The unaudited pro forma financial information included elsewhere in this joint proxy statement/prospectus may not be

If holders of Public Cazador Ordinary Shares fail to deliver their shares in accordance with the redemption requirements specified in this joint proxy statement/prospectus, they will not be entitled to redeem their Public Cazador Ordinary Shares for a pro rata portion of the trust account.

In order for holders of Public Cazador Ordinary Shares to exercise their redemption rights, whether they are a record holder or hold their shares in street name, they must either tender their certificates to Cazador's transfer agent or deliver their shares to the transfer agent electronically using Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option no later than the business day immediately preceding the vote on the business combination. As the delivery process can be accomplished by the shareholder, whether or not he is a record holder or his shares are held in street name, in a matter of hours by simply contacting the transfer agent or his broker and requesting delivery of his shares through the DWAC System, Cazador believes this time period is sufficient for an average investor.

Because Cazador has no control over this process, it may take significantly longer than anticipated. Accordingly, if it takes longer than we anticipate for shareholders to deliver their shares, holders of Public

TABLE OF CONTENTS

Cazador Ordinary Shares who wish to redeem may be unable to meet the deadline for exercising their shareholder redemption rights and thus may be unable to redeem their shares.

See the section entitled "The Business Combination - Redemption Rights of Cazador Shareholders" for the procedures to be followed if you wish to redeem your shares to cash.

The NASDAQ Capital Market may not list the NEI Common Stock on its exchange, which could limit investors' ability to make transactions in NEI Common Stock and subject NEI to additional trading restrictions.

Cazador will seek listing of the NEI Common Stock on The NASDAQ Capital Market as soon as practicable in connection with the business combination. There can be no assurance that the NEI Common Stock will be listed, or if listed, that NEI will be able to maintain the listing of the NEI Common Stock in the future.

On June 26, 2012, Cazador received a deficiency notice from The NASDAQ Capital Market stating that Cazador does not comply with the 300 minimum public holders requirement for continued inclusion on The NASDAQ Capital Market. The notice states that Cazador has been granted an extension of time until October 14, 2012 to complete its initial business combination and regain compliance with the minimum public holders requirement. Pursuant to the merger agreement, the merger with Net Element must close by October 14, 2012. Although Cazador believes that, upon consummation of the merger, the post-merger company will be in compliance with the 300 minimum public holders requirement, no assurance can be given that this requirement or any of the other continued listing requirements will be met, in which case the NEI Common Stock may not be listed on The NASDAQ Capital Market.

If The NASDAQ Capital Market does not list the NEI Common Stock for trading on its exchange, Cazador could face significant material adverse consequences, including:

- a limited availability of market quotations for the NEI Common Stock;
- reduced liquidity with respect to the NEI Common Stock;

- a determination that its shares of NEI Common Stock are penny stock, which will require brokers trading in such shares to adhere to more stringent rules, possibly resulting in a reduced level of trading activity in the secondary trading market for the shares of NEI Common Stock;

- a limited amount of news and analyst coverage for NEI; and
- fewer opportunities to obtain additional financing in the future.

The exercise of discretion by Cazador and Net Element's respective directors and officers in agreeing to changes or waivers in the terms of the business combination may result in a conflict of interest when determining whether such changes to the terms of the merger or waivers of conditions are appropriate and in shareholders' best interests.

In the period leading up to the closing of the business combination, events may occur that, pursuant to the merger agreement, would require Cazador or Net Element to agree to amend one or more provisions of the merger agreement, as applicable, to consent to certain actions taken by the other party or to waive rights that they are entitled to under the merger agreement. Such events could arise because of changes in the course of the respective business or operations of one of the parties, a request by another party to undertake actions that would otherwise be prohibited by the terms of the merger agreement, or the occurrence of other events that would have a material adverse effect on Cazador or Net Element's respective businesses or operations and would entitle Cazador or Net Element to terminate such

agreement. In any of such circumstances, it would be discretionary on each of Cazador or Net Element, acting through its respective board of directors, to grant its consent or waive its rights. The existence of the financial and personal interests of the directors described in preceding risk factors may result in a conflict of interest on the part of one or more of the directors between what he or she may believe is best for Cazador or Net Element, as applicable, and what he may believe is best for himself in determining whether or not to take the requested action. As of the date of this joint proxy statement/prospectus, each of Cazador and Net Element does not believe there will be any changes or waivers that its respective directors and officers would be likely to make after shareholder

TABLE OF CONTENTS

approvals of the Cazador merger proposal and the Net Element merger proposal, respectively, have been obtained. While certain changes could be made without further shareholder approval, Cazador and Net Element will circulate a new or amended joint proxy statement/prospectus and re-solicit Cazador's and Net Element's shareholders if changes to the terms of the transaction that would have a material adverse impact on Cazador or Net Element shareholders are required prior to the shareholder vote on the Cazador merger proposal and the Net Element merger proposal, respectively.

A portion of the funds in the trust account may be used to redeem Public Cazador Ordinary Shares. As a consequence, if the business combination is completed, such funds will not be available to Cazador for working capital and general corporate purposes and the number of beneficial holders of Cazador's securities may be reduced to a number that may preclude the quotation, trading or listing of NEI Common Stock other than on the over the counter markets such as the Over the Counter Bulletin Board or the OTC markets (OTCQB or Pink Sheets).

Pursuant to the Cazador Cayman Charter, Cazador is offering each holder of Public Cazador Ordinary Shares the right to have such holder's shares redeemed into cash. As per the terms of the merger agreement, the merger will not be consummated unless Cazador has at least \$23.5 million of cash held in the trust account (after giving effect to payment of all holders of Public Cazador Ordinary Shares who exercise their redemption right but excluding payments to be made for transaction fees and related expenses and pay-off of related party debt). After such redemptions and the payment of expenses associated with the business combination, including investment banking fees, legal fees and deferred underwriting commissions, the balance of funds in the trust account will be available to NEI for working capital and general corporate purposes.

Although we believe that a minimum of \$23.5 million will be sufficient to fund NEI's working capital requirements for the foreseeable future, we cannot assure you that NEI will not require additional funds, in which case NEI may need to seek to borrow funds necessary to satisfy such requirements. We cannot assure you that such funds would be available to NEI on terms favorable to it or at all. If such funds were not available to NEI, it may materially and adversely affect NEI's operations and profitability.

Additionally, as a result of any redemptions of Public Cazador Ordinary Shares, NEI may not have a sufficient number of beneficial holders of NEI Common Stock or a public float that meets the listing requirements of The NASDAQ Capital Market or any other national securities exchange, which could materially and adversely affect the market price and liquidity of the NEI Common Stock.

TABLE OF CONTENTS

INFORMATION ABOUT CAZADOR

Unless the context otherwise requires, in this section only, the term "Cazador" refers to Cazador Acquisition Corporation Ltd., a recently organized blank check company as it currently exists under Cayman Islands law.

Overview

Cazador Acquisition Corporation Ltd. is an exempted company incorporated on April 20, 2010 in the Cayman Islands with limited liability as a blank check company. Cazador was incorporated for the purpose of effecting a merger, share capital exchange, asset acquisition, share purchase, reorganization or similar business combination, with one or more operating businesses or assets. Cazador has focused, and will continue to focus, on effecting a business combination in developing countries in Central and Eastern Europe, Latin America and Asia, but it may pursue opportunities in other geographical areas.

Cazador is partially owned by its Sponsor, Cazador Sub Holdings Ltd., which is a company incorporated as a Cayman Islands exempted company, whose ultimate owner is Arco Group LLC, a Puerto Rico limited liability company.

Emerging and developing economies growth outpaced that of advanced economies in 2010 and 2011. During 2011, advanced economies grew 1.6% while emerging and developing economies grew 6.2%. Additionally, in 2010 advanced economies grew 3.2% while emerging and developing economies grew 7.3%. Moreover, the International Monetary Fund projects emerging and developing economies will grow at a much larger pace in 2012 and 2013 than the advanced economies.

In addition to having superior economic growth, companies in emerging markets have limited access to capital due to historical circumstances and inefficient capital markets. Therefore, Cazador believes that well-capitalized companies in emerging Europe, Latin America and Asia, offer numerous opportunities for value creation. In Cazador's opinion, one of the ways in which value can be created is by addressing the growing needs of the local population, the demand for exports of their raw materials and finished or semi-finished goods by economically developed countries.

On October 14, 2010, Cazador closed its initial public offering of 4.6 million units (including 600,000 units subject to the underwriters' over-allotment option which were exercised on October 14, 2010). Each unit consists of one Cazador Ordinary Share and one warrant. The units were sold at an offering price of \$10.00, generating gross proceeds to Cazador of approximately \$46.0 million. Rodman & Renshaw, LLC and Maxim Group LLC acted as joint book-running managers of the initial public offering. The securities sold in Cazador's initial public offering were registered under the Securities Act pursuant to a registration statement on Form F-1 (No. 333-169231). The SEC declared the registration statement effective on October 7, 2010. Cazador's units began trading on The NASDAQ Capital Market on October 8, 2010. Prior to Cazador's initial public offering, it sold an aggregate of 4.34 million warrants to the Sponsor in a private placement for a purchase price of \$0.50 per warrant, generating total proceeds of approximately \$2.2 million.

Cazador paid approximately \$1.0 million in underwriting discounts and commissions, and incurred fees of approximately \$590,500 for other costs and expenses related to its initial public offering.

After deducting the underwriting discounts and commissions and Cazador's initial public offering expenses, the total net proceeds to Cazador from its initial public offering and private placement were approximately \$46.5 million of which approximately \$46.2 million was deposited into a trust account and the remaining proceeds were used to provide for business, legal and accounting due diligence and advisory fees in connection with prospective business

combinations, compliance with securities laws and regulations, and continuing general and administrative expenses.

Shareholder Redemption Rights

At the time Cazador seeks shareholder approval of any initial business combination, it will offer each holder of Public Cazador Ordinary Shares the right to have such holder's shares redeemed into cash if such holder either (i) votes against the business combination and timely exercises such redemption right or (ii) votes in favor of the business combination but elects to exercise such shareholder's right to redeem. However, although an abstention or failure to vote on the business combination will have the same effect as a vote

TABLE OF CONTENTS

against the business combination, such abstention or failure to vote will not be sufficient to enable holders of Public Cazador Ordinary Shares to exercise their redemption rights. Cazador's Sponsor and its beneficial owners will not have shareholder redemption rights with respect to any Cazador Ordinary Shares owned by them, directly or indirectly, including Cazador Ordinary Shares purchased by them in Cazador's initial public offering or in the secondary market. The actual per-share redemption price will be equal to the aggregate amount then in the trust account, and including accrued interest, net of any interest income on the trust account balance required for Cazador to pay its tax obligations incurred and net of interest income of up to \$2.0 million previously released to Cazador to fund its working capital requirements (calculated as of two business days prior to the consummation of the business combination), divided by the number of Public Cazador Ordinary Shares. As of August 21, 2012, the per-share redemption price would be approximately \$10.036.

Notwithstanding the foregoing, as set forth in the Cazador Cayman Charter, a holder of Public Cazador Ordinary Shares, together with any affiliate of his or any other person with whom he is acting in concert or as a partnership, syndicate or other group for the purpose of acquiring, holding or disposing of Cazador Cayman's securities, will be prohibited from exercising shareholder redemption rights with respect to more than 10% of the Public Cazador Ordinary Shares. Such a shareholder would still be entitled to vote against a proposed business combination with respect to all Public Cazador Ordinary Shares owned by him or his affiliates. Cazador believes this prohibition will discourage shareholders from accumulating large blocks of Cazador Ordinary Shares before the vote held to approve a proposed business combination and attempt to use the shareholder redemption right as a means to force Cazador or its management to purchase their Cazador Ordinary Shares at a significant premium to the then current market price. Absent this provision, a shareholder who owns in excess of 10% of the Public Cazador Ordinary Shares could threaten to vote against a proposed business combination and seek conversion, regardless of the merits of the transaction, if his shares are not purchased by Cazador or Cazador's management at a premium to the then current market price (or if management refuses to transfer to him some of their shares). By limiting a shareholder's ability to redeem only 10% of the Public Cazador Ordinary Shares, Cazador believes it has limited the ability of a small group of shareholders to unreasonably attempt to block a transaction which is favored by Cazador's other public shareholders. However, Cazador is not restricting any shareholders' ability to vote all of their shares against the business combination.

An eligible shareholder may request shareholder redemption at any time up to the business day immediately preceding the vote with respect to a proposed business combination. Redeeming shareholders may vote either FOR or AGAINST the business combination but will receive no pro rata interest income in the event they vote against such business combination (this will be the case with respect to both redemption proceeds if the proposal is approved and liquidation proceeds if not) which will incentivize redeeming shareholders to vote in favor of the business combination since redeeming shareholders voting for the business combination will be eligible to receive a pro rata share of the interest income earned by the trust not released to Cazador for working capital purposes and as a result have a higher redemption price, and Cazador will retain the difference to the extent of a liquidation of Cazador's trust account. In addition, no later than the business day immediately preceding the vote on the business combination, the shareholder must present written instructions to Cazador's transfer agent stating that such shareholder wishes to redeem such holder's shares and confirming that the shareholder has held the shares since the record date and will continue to hold them through the shareholder meeting and the close of the business combination. Public Cazador Ordinary Shares that have not been tendered in accordance with these procedures by the business day prior to the Cazador special meeting will not be redeemed for cash. Further, Cazador may require holders of Public Cazador Ordinary Shares, whether they are a record holder or hold their shares in street name, to either tender their certificates to Cazador's transfer agent or to deliver their shares to the transfer agent electronically using Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, in each case, at the holder's option no later than the business day immediately preceding the vote on the initial business combination.

The purpose of the requirement for physical or electronic delivery prior to the Cazador special meeting is two-fold. First, it insures that the exercise by a shareholder of his shareholder redemption rights is irrevocable once the business combination is approved as the case may be, and second, it insures that Cazador will know

TABLE OF CONTENTS

the amount of the proceeds that it will be able to use to consummate the business combination. Traditionally, in order to perfect shareholder redemption rights in connection with a blank check company's initial business combination, a holder could simply vote against a proposed initial business combination and check a box on the proxy card indicating such holder was seeking redemption. After the business combination was approved, the company would contact such shareholder to arrange for him to deliver his shares to verify ownership. As a result, the shareholder then had an option window after the consummation of the initial business combination during which he could monitor the price of the shares in the market. If the price rose above the redemption price, he could sell his shares in the open market before actually delivering his shares to the company for cancellation. Thus, the shareholder redemption right, with respect to which shareholders was aware they needed to commit before the shareholder meeting, would become a continuing right surviving past the consummation of the initial business combination until the redeeming shareholder delivered his ordinary shares for conversion. The requirement for physical or electronic delivery prior to the meeting would be imposed to ensure that a redeeming holder's election to redeem is irrevocable once the business combination is approved.

There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through the DWAC system. The transfer agent will typically charge approximately \$80 to the tendering broker, and it would be up to the broker to decide whether to pass this cost on to the shareholder who has exercised his shareholder redemption right. However, this fee would be incurred whether or not Cazador requires shareholders seeking to exercise their shareholder redemption rights to tender their shares prior to the Cazador special meeting as the need to deliver the shares is a requirement of redemption whenever such delivery must be effectuated.

Accordingly, tendering shares prior to the meeting would not result in any increased cost to shareholders when compared to the traditional process.

The steps outlined above will make it more difficult for Cazador shareholders to exercise their shareholder redemption rights. In the event that it takes longer than anticipated to obtain delivery of their shares, shareholders who wish to redeem may be unable to make such delivery by the deadline for exercising their shareholder redemption rights and thus will be unable to redeem their shares.

Any request for shareholder redemption, once made, may be withdrawn at any time up to the business day immediately prior to the vote with respect to the initial business combination. Furthermore, if a shareholder delivered his shares for redemption and subsequently decided prior to the meeting not to elect redemption, he may simply request that the transfer agent return the shares (physically or electronically). It is anticipated that the funds to be distributed to shareholders entitled to redeem their shares who elect redemption will be distributed promptly after completion of the business combination. Cazador shareholders who redeem their shares for their pro rata share of the trust account still have the right to exercise any warrants they still hold.

Redeeming shareholders may vote either for or against the business combination but will receive no pro rata interest income in the event they vote against such business combination (this will be the case with respect to both redemption proceeds if the proposal is approved and proceeds from liquidation of the trust account if not) which will incentivize redeeming shareholders to vote in favor of the business combination since redeeming shareholders voting for the business combination will be eligible to receive a pro rata share of the interest income earned by the trust and as a result have a higher redemption price. However, if a holder of Public Cazador Ordinary Shares fails to properly exercise such shareholder's redemption rights, such shareholder will not have its Public Cazador Ordinary Shares redeemed for its pro rata distribution of the trust account.

Each holder of Public Cazador Ordinary Shares may elect to redeem his, her or its Public Cazador Ordinary Shares irrespective of whether he, she or it votes for or against an initial business combination. Cazador will not complete an initial business combination if holders of Public Cazador Ordinary Shares, owning , in the aggregate, more than 49.9%

of the Public Cazador Ordinary Shares, both vote against and exercise their shareholder redemption rights with respect to such initial business combination. Cazador has set the redemption percentage at 49.9% in order to reduce the likelihood that a small group of investors holding a block of Public Cazador Ordinary Shares will be able to stop Cazador from completing a business combination that may otherwise be approved by Cazador's public shareholders.

TABLE OF CONTENTS

If a vote on the business combination is held and the business combination is not approved, Cazador may continue to try to consummate an initial business combination with the same or a different target until October 14, 2012, which is the date on which Cazador is required to liquidate the trust account. If the initial business combination is not approved or completed for any reason, then holders of Public Cazador Ordinary Shares who exercised their shareholder redemption rights would not be entitled to redeem their Public Cazador Ordinary Shares for a pro rata share of the aggregate amount then in the trust account. In such case, if Cazador had required its shareholders to tender their shares prior to the meeting, Cazador will promptly return such shares to the tendering shareholders. Holders of Public Cazador Ordinary Shares would be entitled to receive their pro rata share of the aggregate amount in the trust account only in the event that (i) such shareholder votes for the business combination and the business combination is duly approved and subsequently completed, or (ii) in connection with Cazador's liquidation of its trust account.

Fair Market Value of Target Business

In contrast to many other companies with business plans similar to Cazador's that must combine with one or more target businesses that have a fair market value equal to 80% or more of the acquiror's net assets, Cazador will not combine with a target business or businesses unless the fair market value of such entity or entities meets a minimum valuation threshold of 80% of the amount in the trust account at the time of the business combination plus any amounts previously distributed to Cazador shareholders who have exercised their shareholder redemption rights.

Cazador has used this criterion to provide investors and its management team with greater certainty as to the fair market value that a target business or businesses must have in order to qualify for an initial business combination with Cazador. The determination of net assets requires an acquiror to have deducted all liabilities from total assets to arrive at the balance of net assets. Given the on-going nature of legal, accounting, shareholder meeting and other expenses that will be incurred immediately before and at the time of an initial business combination, the balance of an acquiror's total liabilities may be difficult to ascertain at a particular point in time with a high degree of certainty. Accordingly, Cazador has determined to use the valuation threshold of 80% of the amount in the trust account at the time of the initial business combination plus any amounts previously distributed to its shareholders who have exercised their shareholder redemption rights for the fair market value of the target business or businesses with which Cazador combines so that Cazador's management team will have greater certainty when selecting, and Cazador's investors will have greater certainty when voting to approve or disapprove a proposed combination with, a target business or businesses that will meet the minimum valuation criterion.

The fair market value of a target business or businesses will be determined by the disinterested members of Cazador's board of directors based upon one or more standards generally accepted by the financial community (such as actual and potential sales, the values of comparable businesses, earnings and cash flow and/or book value). If the disinterested members of Cazador's board are not able to independently determine that the target business has a sufficient fair market value to meet the threshold criterion, Cazador will obtain an opinion from an unaffiliated, independent investment banking firm which is a member of the Financial Industry Regulatory Authority with respect to the satisfaction of such criterion.

Cazador will not be required to obtain an opinion from an investment banking firm as to the fair market value of the business if Cazador's board of directors independently determines that the target business or businesses has sufficient fair market value to meet the threshold criterion.

The Cazador board determined that the fair market value of Net Element is approximately \$97.7 million (based on the aggregate shares of Net Element Common Stock to be acquired by Cazador in the merger multiplied by the last reported sale price per share of Net Element Common Stock on the OTCQB electronic quotation system on June 11, 2012, which was the date immediately preceding the public announcement of the merger). Because the balance of the

Cazador trust account was approximately \$46.2 million as of June 11, 2012, the Cazador board concluded that the fair market value of Net Element is greater than 80% of the balance of the Cazador trust account. Because the Cazador board independently was able to determine the fair market value of Net Element, it did not obtain a fairness opinion from an investment banking firm.

Controlling Interest in Target Business

If Cazador acquires an operating business, it must acquire at least a controlling interest in a target business (meaning more than 50% of the voting securities of the target business). The key factor that Cazador

TABLE OF CONTENTS

will rely on in determining controlling shareholder status will be its acquisition of more than 50% of the voting securities of a target company. As a result, it is possible that, following consummation of a business combination, the holders of Public Cazador Ordinary Shares will own less than a majority of the voting securities of the combined businesses even though Cazador has determined that it acquired a controlling interest.

Pursuant to the terms of the merger agreement, upon completion of the merger, each share of then-issued and outstanding Net Element Common Stock will be automatically cancelled and converted into the right to receive the number of shares of NEI Common Stock equal to the Exchange Ratio. Although, following completion of the business combination, the current holders of Cazador Ordinary Shares are expected to own approximately 19.1% of the outstanding NEI Common Stock (or 34.4% of the outstanding NEI Common Stock calculated on a fully diluted basis), Cazador concluded that it is acquiring a controlling interest in Net Element since, pursuant to the terms of the merger agreement, Cazador will acquire 100% of the voting securities of Net Element.

Opportunity for Shareholder Approval of Business Combination

Because Cazador is proposing the business combination, Cazador is submitting to its shareholders the Cazador merger proposal and the Cazador domestication proposal pursuant to Cayman Islands law and the DGCL. The quorum required to constitute this meeting, as for all meetings of Cazador shareholders in accordance with the Cazador Cayman Charter, is a majority of the issued and outstanding Cazador Ordinary Shares (whether or not held by public shareholders). In connection with the votes required for the business combination, Cazador's Sponsor has agreed to vote its Cazador Ordinary Shares in the same manner as holders of the majority of the Public Cazador Ordinary Shares in connection with the votes required to approve the business combination. As of August 21, 2012, the Sponsor beneficially owned and was entitled to vote approximately 20.0% of the total outstanding Cazador Ordinary Shares on that date.

Cazador will consummate the business combination only if, among other conditions, the holders of (i) a majority of the outstanding Public Cazador Ordinary Shares vote in favor of the Cazador merger proposal and (ii) at least two-thirds of the outstanding Cazador Ordinary Shares which attend and vote at the Cazador special meeting in favor of the Cazador domestication proposal. If the business combination is not approved by the required number of Cazador's shareholders, Cazador may continue to seek other target businesses with which to effect its initial business combination until October 14, 2012. Further, Cazador will not complete the business combination if holders of Public Cazador Ordinary Shares, owning, in the aggregate, more than 49.9% of the Public Cazador Ordinary Shares, both vote against and exercise their shareholder redemption rights with respect to the business combination. Additionally, as per the terms of the merger agreement, the merger will not be consummated unless Cazador has at least \$23.5 million of cash held in the trust account (after giving effect to payment of all holders of Public Cazador Ordinary Shares who exercise their redemption right but excluding payments to be made for transaction fees and related expenses and pay-off of related party debt). Holders of Public Cazador Ordinary Shares will be able to redeem their shares up to the business day immediately prior to the vote on the proposals to approve the business combination.

Liquidation If No Business Combination

The Cazador Cayman Charter provides that if after 24 months (since the period to complete Cazador's business combination has been extended because it has, prior to April 14, 2012, entered into a non-binding letter of intent with respect to an initial business combination) from the consummation of Cazador's initial public offering, or October 14, 2012, it has not consummated an initial business combination, Cazador will be required to repurchase all outstanding Public Cazador Ordinary Shares and liquidate the trust account and distribute the proceeds pro rata to the holders of Public Cazador Ordinary Shares in return for such shares (which will be subsequently cancelled upon completion of

the redemption of such shares). This provision may not be amended except with consent of 66.66% of the issued and outstanding Public Cazador Ordinary Shares voting present in person or by proxy at a meeting in which the holders of 95% of the outstanding Public Cazador Ordinary Shares must be present in order to constitute a quorum. The Cazador Cayman Charter provides the procedures by which Cazador will repurchase all of the Public Cazador Ordinary Shares if it does not complete an initial business combination prior to October 14, 2012. The Cazador Cayman Charter is included as Annex B to this joint proxy statement/prospectus and incorporated by reference.

TABLE OF CONTENTS

Following completion of the repurchase of Public Cazador Ordinary Shares, Cazador's Sponsor (including its permitted transferees) will be the only remaining shareholder and Cazador will continue in existence. To the extent any claims deplete the funds remaining in the trust account, Cazador cannot assure you that it will be able to return to holders of Public Cazador Ordinary Shares the amounts payable to them from the liquidation of the trust account. In addition, under certain limited circumstances distributions received by shareholders could be viewed by applicable laws (including insolvency laws and certain equitable and/or restitution principles) as either fraudulent transfers or mistaken or otherwise wrongful payments. In those circumstances, a court could order that amounts received by holders of Public Cazador Ordinary Shares be repaid to Cazador.
