(1) MAJOR TRANSACTION

IN RELATION TO THE PURCHASE OF SIXTY Airbus A320 Series AIRCRAFT

AND

(2) DISCLOSEABLE TRANSACTION

IN RELATION TO THE SALE OF EIGHT CRJ and TEN eMB AIRCRAFT

MAJOR TRANSACTION

On 23 November 2012, the Company (as the purchaser) entered into the Purchase Agreement with Airbus SAS (as the seller) regarding the Acquisition.

The Acquisition constitutes a major transaction of the Company under the Listing Rules as applied by the Stock Exchange and is subject to the approval of the shareholders of the Company.

CEA Holding, which directly or indirectly holds approximately 59.94% of the issued share capital of the Company, does not have any interest or benefit under the Acquisition. No shareholder of the Company (including CEA Holding) would be required to abstain from voting at any general meeting of the Company, if convened, to approve the Acquisition.

The Company will issue and despatch to its shareholders the Circular as soon as possible but no later than 30 November 2012.

DISCLOSEABLE TRANSACTION

On 23 November 2012, the Company (as the seller) entered into the Disposal Agreement with Airbus SAS (as the purchaser) regarding the Disposal.

The Disposal constitutes a discloseable transaction of the Company under the Listing Rules as applied by the Stock Exchange.

THE PURCHASE AGREEMENT

On 23 November 2012, the Company (as the purchaser) entered into the Purchase Agreement with Airbus SAS (as the seller) regarding the Acquisition.

To the best knowledge, information and belief of the Directors having made all reasonable enquiry, Airbus SAS and its ultimate beneficial owner(s) are third parties independent of the Company and connected persons (as defined in the Listing Rules) of the Company, and are not connected persons of the Company.

Aircraft to be acquired : The Airbus Aircraft (i.e. sixty brand new Airbus A320 series aircraft)

Consideration : The aircraft basic price of the Airbus Aircraft in aggregate is approximately USD5.392 billion (equivalent to approximately RMB34.239 billion) based on the relevant price catalog in 2012. Such aircraft basic price comprises the airframe price and engine price.

The Purchase Agreement was negotiated and entered into in accordance with customary business and industry practice, under which Airbus SAS has granted to the Company substantive price concessions with regard to the Airbus Aircraft. Such price concessions were determined after arm's length negotiations between the Company and Airbus SAS and as a result, the Consideration is significantly lower than the aircraft basic price of the Airbus Aircraft mentioned above.

Based on the Consideration, the relevant "percentage ratio" calculated under Rule 14.07 of the Listing Rules at the material time is above 25% but less than 100%. Accordingly, the Acquisition constitutes a major transaction of the Company under the Listing Rules as applied by the Stock Exchange.

In respect of the Acquisition, the Company understands its disclosure obligations normally required under Chapter 14 of the Listing Rules, and has therefore on a number of occasions raised the issue with Airbus SAS in order to seek its consent to the Company's disclosing certain otherwise required information (including the Consideration) in this announcement and the Circular. Nonetheless, Airbus SAS, for business reasons and from a commercial perspective, did not accede to the Company's request in this respect, and insisted on the preservation of the confidentiality carried with such information to the extent possible. The Company has made an application to the Stock Exchange for a waiver from strict compliance with the relevant provisions (including Listing Rules 14.58(4) and 14.66(4)) under the Listing Rules in respect of the disclosure of the Consideration.

The Company confirms that the extent of the price concessions granted to the Company under the Purchase Agreement is comparable to price concessions granted to the Company under the previous agreements regarding the purchase of brand new aircraft from Airbus SAS. The price concessions granted to the Company under the Purchase Agreement will mainly affect the depreciation of aircraft in the future operation cost of the Company. The Company believes that the price concessions obtained by the Company under the Purchase Agreement have no material impact on the Company's future operating costs taken as a whole.

The Company has also taken into account the current economic environment, the industry performance and the Company's financial position, and considers that the extent of the price concessions granted to the Company under the Purchase Agreement are fair and reasonable and in the interests of its shareholders.

Payment terms and source of funding

The Consideration is payable by cash in United States dollars in installments, and is, as currently contemplated, being funded through the Company's working capital, bank loans from commercial banks and other sources of financing available to the Company.

Delivery

The Airbus Aircraft are expected to be delivered to the Company in stages from 2014 to 2017.

Reasons for entering into the Purchase Agreement and benefits expected to accrue to the Company

The Airbus Aircraft will primarily be used to satisfy the increasing demand for domestic medium and short-haul passenger air transportation routes, to increase the Company's capacity in domestic routes, and to enhance the routes network of the Company. The purchase of the Airbus Aircraft will further strengthen the Company's competitiveness in the domestic civil aviation market and increase its operational capacity in domestic routes of the Company.

Without considering the adjustments to be made to the aircraft fleet of the Company as a result of the market conditions and the age of the aircraft, the Acquisition will increase the ATKs of the Company by approximately 12.05% (based on the ATKs of the Company as at 31 December 2011).

As mentioned above, part of the Consideration is, as currently contemplated, being funded through bank loans from commercial banks. The Acquisition may therefore result in an increase in the Company's debt-to-equity ratio, but as the Consideration is payable by installments, it is not expected to have substantial impact on the Company's cash-flow position or its business operations.

The Acquisition has been approved by the Directors, and is subject to approval by the shareholders of the Company. The Acquisition is also subject to approvals by the relevant regulatory authority(ies) in the PRC in compliance with relevant regulatory requirements.

The Directors believe that the terms of the Purchase Agreement (including the price concessions under the Purchase Agreement) are fair and reasonable and in the interests of the Company's shareholders as a whole.

Major transaction The Acquisition constitutes a major transaction of the Company under the Listing Rules as applied by the Stock Exchange and is subject to the approval of the shareholders of the Company.

CEA Holding, which directly or indirectly holds approximately 59.94% of the issued share capital of the Company, does not have any interest or benefit under the Acquisition. No shareholder of the Company (including CEA Holding) would be required to abstain from voting at any general meeting of the Company, if convened, to approve the Acquisition.

The Acquisition is to be approved in writing by CEA Holding pursuant to Rule 14.44 of the Listing Rules, and no general meeting of the Company is required to be convened.

The Company will issue and despatch to its shareholders the Circular as soon as possible but no later than 30 November 2012.

THE DISPOSAL AGREEMENT

On 23 November 2012, the Company (as the seller) entered into the Disposal Agreement with Airbus SAS (as the purchaser) regarding the Disposal.

To the best knowledge, information and belief of the Directors having made all reasonable enquiry, Airbus SAS and its ultimate beneficial owner(s) are third parties independent of the Company and connected persons (as defined in the Listing Rules) of the Company, and are not connected persons of the Company.

Aircraft to be disposed of	<p>The Regional Jets (i.e. eight Canadair Regional Jets (CRJ) and ten Embraer Regional Jets (EMB)). They were delivered to the Company from years 2000 to 2007. The average usage of the Regional Jets is approximately 8.2 years.</p> <p>The Regional Jets are all regional aircraft, currently serving domestic routes.</p>
Consideration for the Disposal Agreement	<p>The consideration for the Disposal Agreement is determined after arm's length negotiation between the parties with reference to the unaudited book value of the Regional Jets as at the Delivery Dates and the condition of each of the Regional Jets as at the Delivery Dates. As at 23 November 2012, the unaudited book value of the Regional Jets is approximately RMB1.535 billion. The consideration price comprises the airframe price, accompanying engine price and accompanying accessories price.</p>
Conditions	<p>Completion of the Disposal is conditional upon the fulfillment or waiver by the relevant parties of, amongst others, the following conditions:</p> <ol style="list-style-type: none">(1) the Company has provided the relevant documentary evidence to prove its title ownership of the Regional Jets to Airbus SAS;(2) as at the Delivery Dates, there is no mortgage or priority right over the Regional Jets, or the provision of the relevant release documents in respect of such mortgage or priority right (if any) from the Company to Airbus SAS; and(3) the warranties and representations under the Disposal Agreement remain true and accurate.
Payment terms	<p>The consideration for the Disposal Agreement is payable by Airbus SAS by cash in United States dollars in installments after the delivery of the Regional Jets to Airbus SAS.</p>
Delivery	<p>The Regional Jets shall be delivered on the basis of status quo in accordance with requirements of the Civil Aviation Administration of China. The Regional Jets are expected to be delivered to Airbus SAS in stages from 2014 to 2016.</p>

Completion of the Disposal Agreement	<p>The completion of the Disposal will happen upon the conditions as set out in the Disposal Agreement having been fulfilled or waived by Airbus SAS and receiving the consideration for the Disposal Agreement in full.</p>
Reasons for entering into the Disposal Agreement, and benefits expected to accrue to the Company	<p>The disposal of the Regional Jets will streamline the aircraft models operated by the Company, optimize the fleet structure of the Company and lower the unit operation costs of the Company.</p> <p>As the consideration of the Disposal is based on the unaudited book value of the Regional Jets as at the Delivery Dates, the unaudited book value of the Regional Jets will decrease due to depreciation. The Directors expect that there will not be any significant gain or loss expected to accrue to the Company as a result of the Disposal.</p> <p>It is technically not viable to determine the net profit attributable to just the Regional Jets for the two previous financial years, however, there is no change in relation to the net profit attributable to the Regional Jets for the two previous financial years as a result of the Disposal.</p> <p>The ATKs of the Regional Jets in 2011 was approximately 123,837,516 tonne-kilometers, representing approximately 0.66% of the ATKs of the Company. Without considering the adjustments to be made to the aircraft fleet of the Company as a result of the market conditions and the age of the aircraft, the Disposal will decrease the ATKs of the Company by approximately 0.66% (based on the ATKs of the Company as at 31 December 2011).</p> <p>The Directors currently intend to use the proceeds from the Disposal for its normal operating purposes.</p> <p>The Disposal has been approved by the Directors.</p> <p>The Directors believe that the terms of the Disposal Agreement are fair and reasonable and in the interests of the Company's shareholders as a whole.</p>
Discloseable transaction	<p>The Disposal constitutes a discloseable transaction of the Company under the Listing Rules as applied by the Stock Exchange.</p>
