Other Information

Jeffrey J. Scott entered into a settlement agreement with the Alberta Securities Commission (“ASC”) on February 6, 2009, with respect to allegations that Mr. Scott, along with certain other directors of High Plains Energy Inc. (“High

Plains”) acted contrary to the public interest in connection with their inadequate rectification of incorrect production information disclosed to the public in press releases issued by High Plains between July 2005 and January 2006. Mr. Scott admitted that he had acted contrary to the public interest by failing to: (i) disclose High Plains’ actual production for the period of July to November 2005, with comparative references to the untrue figures disclosed for those months in the press releases disseminated during that period; (ii) compare the actual production rates for December 2005 and January 2006 with the untrue figures disclosed in the press releases for those months; and (iii) ensure that High Plains disclosed in a timely manner that the accuracy of its earlier disclosures of the monthly production was questionable and under review by High Plains. Mr. Scott and each of the other respondents to the settlement agreement were ordered to pay \$25,000 to the ASC of which \$5,000 was a payment towards investigation costs. The ASC noted in the settlement agreement that Mr. Scott and the other directors were provided with false information by management of High Plains with respect to production levels, and thus had no knowledge of the untrue statements in certain press releases issued by management in late 2005, until January 30, 2006, at the earliest. The ASC also noted that each of the subject directors, upon being made aware of the potential problem with High Plains’ reported production, made substantial efforts and committed significant amount of time in a good faith effort to resolving the problems and determining High Plains’ actual production and noted that none of the subject directors had been previously sanctioned by the ASC, and each cooperated fully with staff in its investigation.

As a result of the above, the TSX Venture Exchange (“TSXV”) and the Toronto Stock Exchange (“TSX”) conducted their own reviews as to Mr. Scott’s acceptability to serve as a director or officer of any respective exchange-listed issuer. They determined that Mr. Scott must obtain written approval prior to occupying such post and the TSXV determined that he should complete a half-day workshop “Simplifying Timely Disclosures,” which he successfully completed on April 26, 2010, and further that any TSXV-listed company on whose board he sits implement a written disclosure policy.

Except as described above, our above-listed directors have neither been convicted in any criminal proceeding during the past ten years nor been parties to any judicial or administrative proceeding during the past ten years that resulted in a judgment, decree or final order enjoining them from future violations of, or prohibiting activities subject to, federal or state securities laws or a finding of any violation of federal or state securities law or commodities law. Similarly, no bankruptcy petitions have been filed by or against any business or property of any of our directors or officers, nor has any bankruptcy petition been filed against a partnership or business association in which these persons were general partners or executive officers.

Executive Officers

For information with respect to our executive officers, see “Executive Officers of the Registrant” at the end of Part I of the Original Report, following Item 4, which is incorporated by reference here.

Section 16(A) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires Gran Tierra’s directors and executive officers, and persons who own more than ten percent of a registered class of Gran Tierra’s equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of common stock and other equity securities of Gran Tierra. Officers, directors and greater than ten percent stockholders are required by SEC regulation to furnish Gran Tierra with copies of all Section 16(a) forms they file.

To Gran Tierra’s knowledge, based solely on a review of the copies of such reports furnished to Gran Tierra and written representations that no other reports were required, during the fiscal year ended December 31, 2014, all Section 16(a) filing requirements applicable to its officers, directors and greater than ten percent beneficial owners were complied with.

Audit Committee

The Audit Committee of the Board was established by the Board in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), to oversee Gran Tierra’s corporate accounting and financial reporting processes and audits of its financial statements. For this purpose, the Audit Committee performs several functions. The Audit Committee reviews our financial reports and other financial information disclosed to the public, the government and various regulatory bodies, our system of internal accounting, our financial controls, and the annual independent audit of our financial statements. The Audit Committee evaluates the performance of and

assesses the qualifications of the independent auditors; determines and approves the engagement of the independent auditors; determines whether to retain or terminate the existing independent auditors or to appoint and engage new independent auditors; reviews and approves the retention of the independent auditors to perform any proposed permissible non-audit services; monitors the rotation of partners of the independent auditors on Gran Tierra's audit engagement team as required by law; reviews and approves or rejects transactions between Gran Tierra and any related persons; confers with management and the independent auditors regarding the effectiveness of internal controls over financial reporting; establishes procedures, as required under applicable law, for the receipt, retention and treatment of complaints received by Gran Tierra regarding accounting, internal accounting controls or auditing matters and the confidential and anonymous submission by employees of concerns regarding questionable accounting or auditing matters; and meets to review Gran Tierra's annual audited financial statements and quarterly financial statements with management and the independent auditors, including a review of Gran Tierra's disclosures under "Management's Discussion and Analysis of Financial Condition and Results of Operations."

The Audit Committee is currently composed of three directors: Messrs. Kirton, Macey and Price. Scott Price was appointed a member of the Audit Committee on February 2, 2015. Verne Johnson was a member of the Audit Committee until his resignation effective August 18, 2014. Jeffrey Scott was a member of the Audit Committee until February 2, 2015. The Audit Committee met five times during the fiscal year. The Audit Committee has a written charter that is available to stockholders on Gran Tierra's website at <http://www.grantierra.com>.

The Board reviews the NYSE MKT listing standards definition of independence for Audit Committee members and has determined that all members of Gran Tierra's Audit Committee are independent (as independence is currently established in Rule 803(a)(2) of the NYSE MKT listing standards). Additionally, each Audit Committee member has met the criteria for audit committee independence set forth in Rule 10A-3 promulgated pursuant to the Exchange Act. The Board has determined that Mr. Kirton, an independent director, qualifies as an "audit committee financial expert" within the meaning of Item 407(d)(5) of Regulation S-K promulgated by the SEC, based on his past experience as a former KPMG partner. In addition to Gran Tierra's Audit Committee, Mr. Kirton also serves on the Audit Committee of Essential Energy Services Ltd. The Board has determined that these simultaneous services do not impair Mr. Kirton's ability to effectively serve on Gran Tierra's Audit Committee.

Adoption of Code of Ethics

Gran Tierra has adopted a Code of Business Conduct and Ethics (the "Code") applicable to all of its Board members, employees and executive officers, including its Executive Chairman of the Board (Principal Executive Officer), Interim Chief Executive Officer (Principal Executive Officer), and Chief Financial Officer (Principal Financial Officer and Principal Accounting Officer). Gran Tierra has made the Code available on its website at <http://www.grantierra.com/corporate-responsibility.html>.

Gran Tierra intends to satisfy the public disclosure requirements regarding (1) any amendments to the Code, or (2) any waivers under the Code given to Gran Tierra's Principal Executive Officer, Principal Financial Officer and Principal Accounting Officer by posting such information on its website at <http://www.grantierra.com/corporate-responsibility.html>. There were no amendments to the Code or waivers granted thereunder relating to the Principal Executive Officer, Principal Financial Officer or Principal Accounting Officer during 2014.

Director Nominations

No material changes have been made to the procedures by which shareholders may recommend nominees to the Board.

Compensation Discussion and Analysis

Overview

In this section, we describe the material components of our executive compensation program for our "named executive officers," *i.e.* our executive officers appearing in the Summary Compensation Table and other compensation tables contained herein:

Dana Coffield, our former President and Chief Executive Officer¹;

James Rozon, our Chief Financial Officer;

Duncan Nightingale, our Chief Operating Officer²;

David Hardy, our Vice President, Legal and General Counsel;

Carlos Monges, our President, Gran Tierra Energy Peru SRL; and

Shane O’Leary, our former Chief Operating Officer³

We also provide an overview of our executive compensation philosophy and our executive compensation program. In addition, we explain how and why our Compensation Committee and our Board arrived at specific compensation policies and decisions involving the named executive officers.

Opportunity for Stockholder Feedback

The Compensation Committee carefully considers feedback from our stockholders regarding our executive compensation program. Stockholders are invited to express their views to the Compensation Committee in accordance with our policy regarding Communications with the Board of Directors which is available on Gran Tierra’s website at <http://www.grantierra.com>. In addition, the annual advisory vote on the compensation of the named executive officers provides our stockholders with an opportunity to communicate their views on our executive compensation program.

¹ Mr. Coffield served as our President and Chief Executive Officer until February 2, 2015.

² Mr. Nightingale served as our President, Gran Tierra Energy Colombia Ltd. until August 31, 2014 and as our Chief Operating Officer from September 1, 2014 to February 2, 2015. On February 2, 2015, Mr. Nightingale was appointed interim President and Chief Executive Officer.

³ Mr. O’Leary served as our Chief Operating Officer until August 31, 2014.

Last year we conducted an advisory vote on executive compensation at our 2014 Annual Meeting. While this vote was advisory and therefore not binding on our Board or our Compensation Committee, we believe that it is important for our stockholders to have an opportunity to express their views regarding our executive compensation philosophy, our compensation policies and programs, and our decisions regarding executive compensation.

At the 2014 annual meeting of stockholders, 98.48% of the votes cast on the advisory vote on executive compensation (Proposal 3) were cast in favor of our named executive officer compensation as disclosed in the 2014 proxy statement. The Board and Compensation Committee reviewed these final vote results and determined that, given the significant level of support, no changes to our executive compensation policies and processes were necessary.

Our Business

We are an independent international energy company engaged in oil and gas exploration, development, production and acquisition. We own and operate oil and gas properties in Colombia, Peru and Brazil. During 2014, we divested our Argentina business unit. Our revenue and other income from continuing operations for the year ended December 31, 2014, was \$562.3 million. For more information about our business, please see the sections titled “Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K filed with the SEC on March 2, 2015.

2014 Business Summary and Highlights

In mid-2014, the commodity price environment for oil began to deteriorate and has not since recovered. Further, one of our major projects for 2014, the Bretaña Sur appraisal well on the L4 lobe on the Bretaña field in Peru, encountered approximately six feet of oil pay above the oil-water contact in the Vivian Sandstone Reservoir which was less than we expected.

As announced on February 2, 2015, largely as a result of the current low commodity price environment, we reevaluated our business strategy with a renewed focus on balancing the return and risk of our exploration and development projects. As a result, on February 19, 2015, we made the decision to cease all further development expenditures on the Bretaña field on Block 95 in Peru other than what is necessary to maintain tangible asset integrity and security. The high capital investment, associated debt financing and long-term payout horizon of this project does not align with our shift in strategy.

As a result of the above decision, all probable and possible reserves associated with the field were reclassified as contingent resources with an effective date of January 31, 2015, resulting in no reserves in Peru for the Bretaña field, compared to Proved plus Probable (“**2P**”) net after royalty (“**NAR**”) reserves of 57.6 million barrels of oil equivalent (“**MMBOE**”) and Proved plus Probable plus Possible (“**3P**”) NAR reserves of 104.7 MMOBE at December 31, 2013, calculated in accordance with US Securities and Exchange Commission (“**SEC**”) rules. Further as a result, \$265.1 million of unproved properties relating to Block 95 were impaired at December 31, 2014. We expect to continue to identify and evaluate all options for the Bretaña field.

In June 2014, we successfully sold our Argentina business unit and focused human and capital resources in areas that we believe will provide the greatest return for our shareholders and drive growth in the future.

⁴ Gas volumes are converted to BOE at the rate of 6 Mcf of gas per bbl of oil, based upon the approximate relative energy content of gas and oil. The rate is not necessarily indicative of the relationship between oil and gas prices. BOEs may be misleading, particularly if used in isolation. A BOE conversion ratio of 6 Mcf:1 bbl is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead.

We are the largest landholder, reserve holder and producer in the Putumayo region of Southwestern Colombia. Our Colombia operations continued to deliver consistent production, largely due to effective reservoir management on the Costayaco and Moqueta fields on the Chaza Block. We continued to focus on developing our producing conventional light oil fields, including Costayaco and Moqueta, and generating exploration prospects. During 2014, 83% of our consolidated production, NAR adjusted for inventory changes and losses, was from the Chaza block.

We hold a 100% working interest in seven blocks in Brazil and are the operator of all of these blocks. Our Brazilian properties are located in the Recôncavo Basin in Eastern Brazil in the State of Bahia. Block REC-T-155 in the Recôncavo Basin has three productive oil wells. In 2014, on Block REC-T-155, we successfully performed dual completions of the 3-GTE-03-BA and 4-GTE-04-BA development wells in the Tiê field, completed a single stage fracture stimulation on the 1-GTE-8DP-BA exploration well, commenced the acquisition of 3-D seismic on Blocks REC-T-86, REC-T-117 and REC-T-118, and performed planning activities for future drilling activity.

Reserve performance for 2014:

Our total Proved (“1P”) oil and gas reserves NAR were 37.0 MMBOE at December 31, 2014, compared with 42.1 MMBOE in 2013 (100% light and medium oil and liquids compared with 95% at year-end 2013), and after producing 9.2 MMBOE of company interest oil and gas before royalties, inventory adjustments and losses or 7.0 MMBOE NAR before inventory adjustments and losses, excluding Argentina production.

Excluding Peru reserves at December 31, 2014, total 2P reserves NAR, were 50.6 MMBOE compared with 111.9 MMBOE at December 31, 2013 (99% oil and liquids compared with 97% at year-end 2013) and total 3P reserves NAR were 65.9 MMBOE at December 31, 2014, compared with 183.9 MMBOE at December 31, 2013 (98% oil and liquids compared with 94% at year-end 2013). Including Peru reserves, total 2P and 3P reserves NAR were 108.5 MMBOE and 170.3 MMBOE, respectively, at December 31, 2014.

In 2014, reserves were reduced by the sale of our Argentina business unit, which contributed 4.4 MMBOE, 6.4 MMBOE and 16.7 MMBOE of 1P, 2P and 3P oil and gas NAR reserves at December 31, 2013. The aforementioned reserve figures were calculated in accordance with the SEC rules.

As per Canadian National Instrument 51-101 - *Standards of Disclosure for Oil and Gas Activities* (“NI 51-101”) and the reserves definitions in the Canadian Oil and Gas Evaluation Handbook (“COGEH”), reserves NAR as at December 31, 2014, excluding Peru, were 37.5 MMBOE 1P, 51.2 MMBOE 2P and 67.3 MMBOE total 3P NAR reserves. This compares to NAR reserves as at December 31, 2013, of 41.7 MMBOE 1P, 111.8 MMBOE 2P, and 3P NAR reserves of 183.7 MMBOE. Including Peru reserves, total 2P and 3P reserves NAR were 108.9 MMBOE and 171.0 MMBOE, respectively, at December 31, 2014 on an NI 51-101 compliant basis.

Other business developments and financial results, from continuing operations for 2014:

Oil and natural gas production averaged 25,182 gross working interest (“WI”) barrels of oil equivalent per day (“BOEPD”), or 19,283 BOEPD NAR before adjustment for inventory changes and losses or 18,523 BOEPD NAR adjusted for inventory changes and losses (99% light and medium oil and liquids), compared with 25,638 BOEPD gross WI and 19,071 BOEPD NAR before adjustment for inventory changes and losses and 19,239 BOEPD NAR adjusted for inventory changes and losses in the corresponding period in 2013. Approximately 99% of this production was oil, with the balance consisting of natural gas;

- Revenue and other income was \$562.3 million, a 13% decrease from 2013;

Net loss of \$171.3 million for 2014, representing \$0.60 per share basic and diluted, was driven by a \$265.1 million impairment cost in Peru related to Block 95; and

- Funds flow⁵ from continuing operations decreased to \$311.3 million in 2014 from \$343.2 million in 2013; and

⁵ Funds flow from continuing operations is a non-GAAP measure which does not have any standardized meaning prescribed under generally accepted accounting principles in the United States of America. A reconciliation to net income and loss can be found in our Annual Report on Form 10-K for the year ended December 31, 2014.

Cash and cash equivalents decreased to \$331.8 million as at December 31, 2014, from \$428.8 million as at December 31, 2013.

In addition to the foregoing, the price of oil directly impacts our financial performance and operating decisions. During 2013, the price of West Texas Intermediate Crude oil (the reference price for most of our contracts) experienced ranges from \$112.93 in January 2013 to \$110.63 in December 2013. During 2014, the price of West Texas Intermediate Crude oil experienced fluctuations from \$53.27 to \$107.26; beginning the year at \$95.14 and ending the year at \$54.59. The price of Brent Crude oil experienced ranges from \$112.14 in January 2013 to \$110.80 in December 2013. In 2014, Brent ranged from \$107.78 in January 2014 to \$57.33 in December 2014.

Illustrated in the charts below is our 5-year performance using various metrics:

2014 Executive Compensation Highlights

The Compensation Committee approved and recommended, and in February 2014 our Board approved, the following compensation actions:

(1) Maintain our compensation philosophy for 2014 which is (i) to target the salary component for our employees at the 65th percentile of our peer group, (ii) to target total cash compensation for our employees at the 75th percentile of our peer group at target performance and (iii) to target total direct compensation (including equity compensation) for our employees at the 75th percentile of our peer group at target performance levels; and

(2) Make annual cash bonuses in 2014 for 2013 performance consistent with our 2013 business results.

Adjustments to Executive Compensation for 2015

In January and February 2015, the Compensation Committee and our Board, respectively, reconfirmed the compensation philosophy set forth in (1) above; however, to reflect the current economic environment in the oil and gas sector, the Compensation Committee and our Board, respectively, chose to freeze executive salaries at 2014 levels. To further recognize both the current economic environment in the oil and gas sector and Gran Tierra's poor share price performance since mid-2014, the Compensation Committee and our Board also chose to freeze 2015 stock option and RSU awards at 2014 levels, despite the grant date fair value of the resulting awards being less than half of 2014 values. In conjunction with the discretionary downward adjustments to bonuses for 2014 performance (see the section titled "2014 Annual Bonus Determination and 2015 Bonus Structure"), the preceding changes have materially reduced our executives' total compensation for 2015, in alignment with shareholders' fortunes.

2014 Compensation Governance Highlights

We endeavor to maintain good governance standards, including with respect to the oversight of our executive compensation policies and practices. The following policies and practices were in effect during 2014 relating to executive compensation:

The Compensation Committee is composed solely of independent directors who have established ways to communicate with stockholders regarding their executive compensation ideas and concerns;

The Compensation Committee's independent compensation consultant, Lane Caputo Compensation Inc. ("**Lane Caputo**"), is retained directly by the Compensation Committee and performs only limited consulting services for us with the full knowledge of the Compensation Committee;

The Compensation Committee assessed the independence of Lane Caputo pursuant to SEC rules taking into consideration the following factors:

o That Lane Caputo reports directly to the Compensation Committee, and the Compensation Committee has the sole power to terminate or replace any of its compensation advisors at any time;

o Whether Lane Caputo provides any other services to Gran Tierra;

o Aggregate fees paid by Gran Tierra to Lane Caputo, as a percentage of the total revenue of Lane Caputo;

o Lane Caputo policies and procedures designed to prevent conflicts of interest;

o Any business or personal relationships between Lane Caputo, on one hand, and any member of the Compensation Committee or executive officer, on the other hand; and

o Whether Lane Caputo owns any shares of Gran Tierra's stock; and

The Compensation Committee conducts an annual review and approval of our compensation strategy, including a review of our compensation-related risk profile so that our compensation-related risks are not reasonably likely to have a material adverse effect on Gran Tierra.

Philosophy and Objectives of our Executive Compensation Program

Our philosophy underlying our executive compensation program is to provide an attractive, flexible, and market-based total compensation program that is tied to performance and aligned with the interests of our stockholders. Our objective is to recruit and retain the caliber of executive officers and other key employees necessary to deliver sustained high performance to our stockholders and communities where we have a strong presence. Our executive compensation program is an important component of these overall human resources policies. Our compensation practices also serve as a means of communicating our goals and standards of conduct and performance, and for motivating and rewarding employees in relation to their achievements.

We observe the following principles:

Retain and Hire Top Caliber Executives: Executive officers should have base salaries and employee benefits that are market competitive and that permit us to hire and retain high-caliber individuals at all levels;

Pay for Performance: A significant portion of the annual compensation of our executive officers should vary with annual business performance and each individual's contribution to that performance;

Reward long-term growth and profitability: Executive officers should be rewarded for achieving long-term results, and these rewards should be aligned with the interests of our stockholders; and

Provide modest perquisites: Perquisites for our executive officers should be minimized and limited to items that serve a reasonable business purpose.

Our compensation program consists of three basic elements: base salary, cash bonus and equity incentives. We focus on providing a majority of the total compensation for our named executive officers based on performance:

we provide cash bonuses linked both to: (a) business performance (business performance was to be the sole consideration in the determination of cash bonus awards for Dana Coffield, our former President and Chief Executive Officer during 2014); and (b) each individual's performance (and business unit performance where applicable). We link the portion of our executive officers' cash compensation to our business performance as measured by achievement

of budget targets for items such as production, reserves, capital expenditures, revenues and operating costs, as well as other factors such as liquidity, share price performance given overall market conditions, and other objectives specific to our situation at the time; and

in 2014, we provided long-term incentives in the form of stock option grants and restricted share unit (RSU) grants; awards generally vest over three years, linking executive officers' rewards directly to their ability to create value for our stockholders and providing an incentive for our executive officers to remain with us over the long term.

Risk Assessment

In early 2015, the Compensation Committee and the Board each assessed the risks associated with our compensation policies and practices. These assessments included an examination of the changes in our risk profile over the past year for our executive compensation policies and practices. Based on this assessment, the Compensation Committee and the Board each determined that these risks were not reasonably likely to have a material adverse effect on us. Among other things, the Compensation Committee and the Board took into consideration the fact that:

- the current significant weighting towards long-term incentive compensation discourages short-term risk taking;

our goals are appropriately set to avoid targets that, if not achieved, result in a large percentage loss of compensation;

- incentive awards are decided by the Compensation Committee and recommended to the Board for approval; and

as an oil and gas exploration company, we do not face the same level of risks associated with compensation for employees at financial services (traders and instruments with a high degree of risk) or technology companies (rapidly changing markets).

Compensation Process

The Compensation Committee recommends to the Board for approval the annual compensation for our President and Chief Executive Officer. Within the framework of the compensation programs reviewed and approved by the Compensation Committee and based on management's review of market competitive positions, each year our Chief Executive Officer recommends the level of base salary increase (if any), the annual incentive award, and the long-term incentive award value for executive officers, including the other named executive officers. These recommendations are based upon his assessment of each executive officer's performance (including his own), the performance of the individual's respective business or function, and employee retention considerations. The Compensation Committee reviews our Chief Executive Officer's recommendations, as well as the recommendations of Lane Caputo, and deliberates as to whether any compensation changes should be made affecting our executive officers. Following this deliberation, it determines, in its sole discretion, its recommendations to be made to the Board for approval. Our Chief Executive Officer does not attend that portion of the Board meeting at which his compensation is deliberated or approved.

Except as described above, our Chief Executive Officer does not play any role with respect to any matter affecting his own compensation.

The Compensation Committee contemplated the success and performance of our executive team for the year 2014 while taking a deliberate and objective approach to fairly assess compensation awards. The Compensation Committee and the Board make their compensation decisions for the upcoming year, and review performance for the prior year, generally in the first quarter of the year. Annual bonuses in respect of 2014 performance, as well as the consideration of salary increases for 2015, were recommended by the Compensation Committee and approved by the Board in February 2015. Bonuses in respect of 2014 performance were paid in February 2015. In February 2014, the Compensation Committee recommended, and the Board approved, long-term incentive awards consisting of 50% time-vested stock options and 50% time-vested RSUs (calculated based on Black-Scholes value for stock options and our current share price for the RSUs), representing the long-term incentive program.

Role of the Compensation Consultant

The Compensation Committee relies upon external advisors and third-party compensation surveys as well as the knowledge and experience of Compensation Committee members and other members of the Board to set rewarding and competitive levels of salary and other compensation. The retention of and scope of services from independent compensation advisors are to be assessed on an annual basis.

The Compensation Committee retained the services of Lane Caputo as its executive compensation consultant pursuant to a written agreement. Lane Caputo reports directly to the Compensation Committee and the Compensation Committee may replace Lane Caputo or hire additional consultants at any time. A representative of Lane Caputo attends meetings of the Compensation Committee, as requested, and communicates with the Compensation Committee Chair between meetings; however, the Compensation Committee makes all decisions and recommendations to the Board. Lane Caputo maintains a group of benchmark peers that the Compensation Committee and the Board find relevant for comparison purposes. Services performed by Lane Caputo are pre-approved by the Compensation Committee and any additional work to be performed, including at the request of management, must be pre-approved by the Chair of the Compensation Committee.

The total amount of fees paid to Lane Caputo for services to the Compensation Committee in 2014 was \$75,908. Lane Caputo received \$20,681 in other fees from us for general compensation related work for Gran Tierra.

The Compensation Committee assesses the performance and independence of Lane Caputo and of each individual employee of the consulting firm who directly provides services to Gran Tierra. In January 2015, the Compensation Committee considered whether Lane Caputo could serve as an independent advisor to the Compensation Committee. The Compensation Committee requested information from Lane Caputo about potential conflicts of interest, and in particular, considered the fact that Lane Caputo provides minimal other services to Gran Tierra, that the individual representative of Lane Caputo who works directly with the Compensation Committee has no other business relationships with the Board, management or Gran Tierra, and Lane Caputo's own policies on ethics and conflicts of interest. As a result and after taking into consideration the six factors prescribed by the SEC and NYSE MKT described above, the Compensation Committee concluded that there were no actual conflicts of interest with respect to Lane Caputo providing services to the Compensation Committee.

Use of Peer Data

2014 Compensation Structure

Our executive compensation program is designed with the flexibility to be competitive and motivational within the various marketplaces in which we compete for employees, while being subject to centralized design, approval, and control. The Compensation Committee relies on various sources of compensation information to ascertain the competitive market for our executive officers, including the named executive officers. To assist in establishing recommendations for our 2014 executive compensation structure, base salaries and target bonuses, Lane Caputo continued with the philosophy of measuring our compensation structure against a relevant group of industry peers (the "**Custom Peer Group**") against which to benchmark executive compensation. This Custom Peer Group was substantially similar to the 2013 Custom Peer Group. Although it would have been preferable to only include peers that compete with us in the international energy arena, our relative size, and the lack of sufficient international peers of similar size, dictated that peers with domestic operations of similar size be included in the peer group, and, in fact, such domestic peers are predominate in the group. As a result, the Custom Peer Group included peers of a similar size to us based on market capitalization and average daily production volumes, and included peers with operations located both internationally and domestically. The Custom Peer Group consisted of the following 20 companies:

Bankers Petroleum Ltd.	Legacy Oil & Gas Inc.	Petrominerales Ltd.
Baytex Energy Corp.	Lightstream Resources Ltd.	Peyto Exploration & Development Corp.
Birchcliff Energy Ltd.	Niko Resources Ltd.	Transglobe Energy Corp.
Bonavista Energy Corp.	NuVista Energy Ltd.	Trilogy Energy Corp.
Bonterra Energy Corp.	Paramount Resources Ltd.	Vermilion Energy Inc.
Crew Energy Inc.	Parex Resources Inc.	Whitecap Resources Inc.

Enerplus Corp.

Pengrowth Energy Corp.

In making 2014 compensation decisions for our executive officers located in South America, the Compensation Committee also utilized the following local compensation surveys to reflect the local pay practices in each country:

- Aon Hewitt Market Review (Argentina);
- Towers Watson Data Services 2013 Compensation Survey (Brazil);
- Mercer 2013 Compensation Survey (Peru).

2015 Compensation Structure

To assist in establishing recommendations for our 2015 executive compensation structure, base salaries and target bonuses, Lane Caputo continued measuring our compensation structure against a relevant group of industry peers, revising the Custom Peer Group slightly by removing Niko Resources Ltd. (size of operations were no longer comparable) and Petrominerales Ltd. (due to its acquisition in the year) and adding Bellatrix Exploration Ltd. and Canacol Energy Ltd.

In making 2015 compensation decisions for our executive officers located in South America, the Compensation Committee utilized the following local compensation surveys:

- Towers Watson Data Services 2014 Oil & Gas Survey Special Market Sample (Brazil);
- Mercer 2014 Colombia Compensation Survey (Colombia);
- Mercer 2014 Peru Total Remuneration Survey (Peru).

Application of Judgment

Given the extensive research and analysis used to develop the peer benchmark group, the Compensation Committee believes that the market data used provides a useful guide for comparative purposes. The Compensation Committee recognizes that a successful compensation program also requires an application of judgment to maintain a subjective determination of individual performance by our executive officers. Therefore, the Compensation Committee applies its judgment in reconciling the program's objectives and peer comparisons with the realities of rewarding excellent performance and retaining valued employees.

Elements of Compensation

The Compensation Committee has determined that we will use three basic elements of compensation: base salary (including benefits), cash bonus and equity incentives. Each component has a different purpose.

The Compensation Committee believes that base salaries at this stage of our growth and especially within the international exploration and production sector, must be competitive to retain the best executives. Short-term cash bonuses are a common element of compensation in our industry and among our peers with whom we compete for executive talent. The Compensation Committee believes that principal performance incentives should be in the form of long-term equity incentives given the longer-term nature of our business plan. Long-term incentives are delivered in the form of stock options and RSUs. The Compensation Committee ultimately determines the optimal allocation among the three forms of compensation relative to our peers for each executive position, taking into account the contributions of each executive officer and our operational and financial achievements. The Compensation Committee does not use a formula to establish the allocation between base salary, target bonus and long term incentives; rather, this allocation has been based on the consensus among the members of the Compensation Committee, all of whom have significant experience in the oil and gas exploration business. Actual bonuses are determined based on the subjective determination by the Compensation Committee and the Board of the achievement of goals set at the

beginning of the year.

Salary

The Compensation Committee determined 2014 base salaries based upon the market data presented by Lane Caputo and, taking into consideration the very competitive nature of the international exploration and production sector and the corresponding shortage of experienced executive talent, particularly in Calgary, Canada, Gran Tierra's headquarters, and determined that a general target of the 65th percentile of the Custom Peer Group was appropriate to retain the services of our executive officers, with the exact amount determined by the Compensation Committee's subjective assessment of the appropriate salary for each executive officer given their performance and roles within Gran Tierra.

The Compensation Committee recommended to the Board, and the Board approved, the following annual salaries (USD) for 2014:

Name	Salary ⁽¹⁾
Mr. Coffield	\$395,690
Mr. Rozon	296,983
Mr. Nightingale	289,655
Mr. Hardy	276,724
Mr. Monges	252,409
Mr. O'Leary	341,379

(1) Amounts differ from the amounts reported in Gran Tierra's Form 8-K filed with the Securities and Exchange Commission on February 12, 2014, as in that filing the conversion from Canadian dollars to U.S. dollars was calculated at the exchange rate at December 31, 2013.

2014 salary for Mr. Coffield was positioned slightly above the 65th percentile of the Custom Peer Group while Messrs. Rozon and Hardy were positioned at the 75th percentile. Mr. Monges was positioned at the 65th percentile of the relevant local market data. Mr. O'Leary's salary was above the 75th percentile due to the premium compensation levels associated with the complexities of managing international operations, which are not required of most of the peer group benchmarks.

In connection with Mr. Nightingale's promotion to Chief Operating Officer, effective September 1, 2014, Mr. Nightingale received an increase in his annual base salary by 10% from CAD \$336,000 to CAD \$369,600. This revised salary positions Mr. Nightingale above the 65th percentile of the Custom Peer Group, which the Compensation Committee considers appropriate competitive positioning considering Mr. Nightingale's experience as the Colombian Country President; the Colombian business unit being the most significant operating region for Gran Tierra.

2014 Annual Bonus Determination and 2015 Bonus Structure

Bonuses for 2014 performance were based on corporate, business unit and personal performance, with the following individual weightings and target incentive levels. Both the weighting of corporate, business unit and personal performance, as well as the target incentive levels, remain unchanged for 2015.

Name	Target Bonus (Percent of Salary)	Corporate Performance Weighting	Business Unit Performance Weighting	Personal Performance Weighting
Mr. Coffield ⁽¹⁾	100	% 100	% 0	% 0
Mr. Rozon	80	% 70	% 0	% 30
Mr. Nightingale (part year) ⁽²⁾	60	% 30	% 40	% 30
Mr. Nightingale (part year) ⁽²⁾	80	% 70	% 0	% 30
Mr. Hardy	70	% 60	% 0	% 40
Mr. Monges	60	% 30	% 40	% 30
Mr. O'Leary ⁽³⁾	80	% 70	% 0	% 30

(1) Mr. Coffield was not an employee of Gran Tierra at the date cash bonuses for 2014 performance were paid; he did not received a 2014 performance bonus.

In connection with Mr. Nightingale's promotion to Chief Operating Officer, he was given an increase in annual bonus target to 80% of his base salary (from 60%), a change commensurate with the position of chief operating officer based on competitive market data and compensation arrangements of the incumbent in that position. His annual bonus weighting was also changed to 70% on corporate performance and 30% on individual performance, effective September 1, 2014.

Mr. O'Leary ceased to be the Chief Operating Officer on August 31, 2014 and was provided a pro-rated bonus for that portion of the year that he was an employee of Gran Tierra. Please see the section titled "Termination and Change in Control Provisions" for further details.

The Compensation Committee, using its subjective judgment of our performance in 2014 measured against the performance goals set forth for us, determined that the corporate performance score was 82% while the business unit score for the Colombia business unit was 88% and the business unit score for the Peru business unit was 65%. For each executive, the relevant performance score was applied to each of the corporate and business unit weightings with the Compensation Committee's subjective determination of his individual performance as measured against his specific individual performance objectives applied to his personal performance weighting.

Subsequent to the calculation of earned bonus amounts as described in the methodology above, the Compensation Committee discretionarily reduced the calculated bonus payments by between 17% and 75%, with an average individual reduction of 40%, for each executive officer to reflect both the current economic environment in the oil and gas sector and Gran Tierra's poor share price performance since mid-2014. The Compensation Committee believes these discretionary adjustments are aligned with the principle of *pay for performance*; one of the principles that our compensation philosophy is based upon.

Equity Incentives

In February 2014, the Compensation Committee continued to administer the long-term incentive program by providing executive officers with an annual grant consisting of a 50% weighting of time-vested stock options and a 50% weighting of time-vested RSUs. The number of stock options and RSUs granted is in reference to the grant date fair value of each (Black-Scholes value for stock options and our current share price for the RSUs) and the target long-term incentive program award value for each position. The Compensation Committee considered the recommendations of Lane Caputo, and elements of individual, business unit and corporate performance, in determining its recommendations for equity incentive grants. The Board granted options and RSUs under the terms of Gran Tierra's 2007 Equity Incentive Plan to each of our named executive officers as follows:

Name	Number of Stock Options	Number of RSUs
Mr. Coffield	260,000	95,000
Mr. Rozon	165,000	60,000
Mr. Nightingale	145,000	52,500
Mr. Hardy	100,000	35,000
Mr. Monges	70,000	25,000
Mr. O'Leary	215,000	80,000

The levels of these awards were based on recommendations from Lane Caputo, taking into account our desired competitive positioning of total direct compensation targeting the 75th percentile of the Custom Peer Group, as discussed in the section titled "Philosophy and Objectives of our Executive Compensation Program" above based on the fair value of awards at time of grant. In addition to the fair value, the absolute number of awards and each award as a percentage of total shares outstanding versus the Custom Peer Group were also considered as well as the country of residence of the executive officer.

In connection with Mr. Nightingale's promotion to Chief Operating Officer effective September 1, 2015, Mr. Nightingale was granted a stock option to purchase 70,000 shares of Gran Tierra Energy common stock at an exercise price per share equal to the fair market value of a share of Gran Tierra Energy common stock on the date of grant, and restricted stock units to acquire 27,500 shares of Gran Tierra Energy common stock. Both the stock option and restricted stock unit will vest over three years. Since Mr. Nightingale's promotion took effect mid-way through the

Company's stock award cycle (generally annual grants are made in March), the Committee and the Board reviewed the equity grants that had been made to Mr. O'Leary in 2014 as the Chief Operation Officer and determined to utilize 50% of the difference between Mr. O'Leary's 2014 equity grant and Mr. Nightingale's 2014 equity grant as an appropriate measure for the equity grant to Mr. Nightingale for his promotion.

Termination and Change in Control Provisions

Our employment agreements with Messrs. Coffield, Rozon, Nightingale, Hardy and O'Leary contain termination and change in control provisions. These provisions provide that these executive officers will receive severance payments in the event that their employment is terminated other than for "cause" or if they terminate their employment with us for "good reason." The termination and change-in-control provisions were industry standard clauses at the time that the executive officers entered into the employment agreements with us. Our employment agreement with Mr. Monges contains a termination provision, which provides that Mr. Monges will receive severance payments in the event he is terminated without cause and has the legal right to severance under Peruvian labor laws. The employment agreements with our executive officers, including termination and change in control provisions, are discussed in the section titled "Agreements with Named Executive Officers."

Mr. O’Leary ceased to be the Chief Operating Officer on August 31, 2014, and he retired effective October 1, 2014, from Gran Tierra. We do not have a retirement policy. However, after the Committee and the Board reviewed Mr. O’Leary’s accomplishments at the Company and our desire to have an orderly transition of the chief operating officer duties, the Committee and the Board considered a variety of retirement options for Mr. O’Leary which would accomplish our goals. Pursuant to a severance agreement, we provided (1) the payment of Mr. O’Leary’s bonus for 2014 at 100% of target, pro-rated to his retirement date, resulting in a payment of \$204,828 (CAD \$237,600); and (2) the acceleration of vesting of the long term incentive plan awards held by Mr. O’Leary (stock options to purchase 335,000 shares, and restricted stock units to acquire 86,668 shares, of Gran Tierra common stock) that would have vested in the two year period beginning December 31, 2014, effective December 31, 2014. We also entered into a consulting agreement with Mr. O’Leary from October 1, 2014, to December 31, 2014, at a rate of \$194 (CAD\$225) per hour, with an option to extend the consulting period for a period not to exceed three months upon the mutual agreement of the parties. The consulting agreement with Mr. O’Leary was subsequently extended to March 31, 2015. No amounts were ever paid to Mr. O’Leary pursuant to the consulting agreement.

Mr. Coffield ceased to be the President and Chief Executive Officer on February 2, 2015. Pursuant to Mr. Coffield’s Executive Employment Agreement, we were obligated to provide him with a separation package equal to two years’ Total Cash Compensation. Such payment equated to \$1,825,862 (CAD \$2,118,000) and was deferred until August 3, 2015 at the election of Mr. Coffield.

Benefits

Messrs. Coffield and O’Leary were, and Messrs. Rozon, Hardy, Nightingale and Monges are, eligible for full participation in all rights and benefits under any life insurance, disability, medical, dental, health and accident plans maintained by Gran Tierra for its employees and executive officers. Our executive officers generally do not receive any supplemental retirement benefits or perquisites, except for limited perquisites provided on a case-by-case basis. In addition, our executive officers will be paid their base salary in the event they become disabled while still employed by us, until such time as the executive officer begins to receive long-term disability insurance benefits. These are standard basic benefits in our industry and help to retain and recruit key talent.

Summary Compensation Table

The following table shows for the fiscal years ended December 31, 2014, 2013 and 2012, compensation awarded to or paid to, or earned by, Gran Tierra’s Chief Executive Officer, Chief Financial Officer and three other most highly compensated executive officers at December 31, 2014, and one additional executive officer who was not serving as an executive officer at December 31, 2014 (collectively, the “Named Executive Officers”):

For 2012, 2013 and 2014, the Compensation Committee determined incentive bonuses for Gran Tierra’s named executive officers based on a subjective assessment of corporate, business unit and personal performance in 2012, 2013 and 2014, in addition to consideration of Gran Tierra’s overall operational and financial results, as more fully (2) described in “Compensation Discussion and Analysis” above. Because these amounts are established based on the Compensation Committee’s subjective assessment, they are reported as bonuses rather than non-equity incentive plan compensation.

Granted under terms of Gran Tierra’s 2007 Equity Incentive Plan. Assumptions made in the valuation of stock options granted are discussed in Note 8 to Gran Tierra’s 2014 Consolidated Financial Statements, which can be (3) found in Item 8 of Gran Tierra’s Form 10-K filed with the SEC on March 2, 2015. Reflects the aggregate grant date fair value computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718 Compensation – Stock Compensation (“ASC 718”).

Granted under terms of Gran Tierra’s 2007 Equity Incentive Plan. The amounts shown represent the aggregate grant date fair value of time-vested RSUs based on the closing price of Gran Tierra’s common stock on the grant (4) date computed in accordance with ASC 718. Under the terms of the 2007 Equity Incentive Plan and Restricted Stock Unit Award Agreement, upon the vesting of units, the holder will receive, at the option of Gran Tierra, either the underlying number of shares of Gran Tierra’s common stock or a cash payment equal to the value of the underlying shares, in each case net of taxes and other required withholdings.

A “Change in Control” is defined as (i) a dissolution, liquidation or sale of all or substantially all of the assets of Gran Tierra; (ii) a merger or consolidation in which Gran Tierra is not the surviving corporation; (iii) a reverse merger in which Gran Tierra is the surviving corporation but the shares of Gran Tierra’s common stock outstanding immediately preceding the merger are converted by virtue of the merger into other property, whether in the form of securities, cash or otherwise; or (iv) the acquisition by any person, entity or group within the meaning of Section 13(d) or 14(d) of the Securities Exchange Act (excluding any employee benefit plan, or related trust, sponsored or maintained by Gran Tierra or any affiliate of Gran Tierra) of the beneficial ownership (within the meaning of Rule 13d-3 of the Exchange Act) of securities of Gran Tierra representing at least fifty percent (50%) of the combined voting power entitled to vote in the election of directors.

Hardy and Rozon is eligible for a payment equal to one-and-one-half times the previous 12 months total compensation. In the event of an involuntary termination of his employment without cause, Mr. Monges is eligible to receive a payment equal to legal severance under Peruvian labor laws computed based upon an employment commencement date of October 1, 2011, and an additional voluntary severance payment equal to the difference between the actual legal severance amount and the amount of legal severance Mr. Monges would have received under Peruvian labor laws using 60% of the monthly salary earned by Mr. Monges as an employee of Petrolifera Petroleum del Peru S.A.C. prior to October 1, 2011, as the basis for computing the legal severance amount.

Except as otherwise stated in the 2007 Equity Incentive Plan, in the event of specified significant corporate transactions (as defined in the 2007 Equity Incentive Plan), such as a sale or other disposition of all or substantially all of Gran Tierra’s assets, a sale of at least 50% of Gran Tierra’s outstanding securities, a merger in which Gran Tierra is not the surviving entity, or a merger in which Gran Tierra is the surviving entity, but Gran Tierra’s common stock outstanding immediately prior to the transaction is exchanged or converted into other property, any surviving corporation or acquiring corporation (or the surviving or acquiring corporation’s parent company) may assume or continue any or all outstanding stock awards under the 2007 Equity Incentive Plan or may substitute similar stock awards for stock awards outstanding under the 2007 Equity Incentive Plan in connection with such specified corporate transaction. Regardless of whether a surviving corporation or acquiring corporation (or its parent) does assume or continue any or all such outstanding stock awards or substitute a similar stock award for only a portion of a stock award, with respect to any such awards that are held by optionees then performing services for Gran Tierra or any of Gran Tierra’s affiliates, (i) the vesting and exercisability of such awards shall (contingent to the effectiveness of such corporate transaction) be accelerated in full to the date prior to the effective time of such corporate transaction as the Board shall determine (or, if the Board shall not determine, the date that is five days prior to the effective time of the corporate transaction), and (ii) any reacquisition or repurchase rights held by Gran Tierra with respect to such awards shall (contingent to the effectiveness of such corporate transaction) lapse and such awards will be terminated if not exercised prior to the effective date of the corporate transaction.

The table below estimates the amounts payable if an involuntary termination of employment without “cause,” or a termination for “good reason,” or a “corporate transaction” had occurred on December 31, 2014, for the Named Executive Officers using \$3.85, the closing price of the stock on that date:

Unvested equity awards will accelerate and become fully vested immediately prior to a Corporate Transaction.

With respect to stock options, the value is calculated as (a) the difference between \$3.85, the closing price of our common stock on December 31, 2014, and the exercise price of the applicable option, multiplied by (b) the number (1) of unvested options subject to accelerated vesting held by the applicable named executive officer. With respect to RSUs, the value is calculated as (a) \$3.85, the closing price of our common stock on December 31, 2014, multiplied by (b) the number of unvested RSUs subject to accelerated vesting held by the applicable named executive officer.

(2) Represents the severance payment equal to: two times the previous 12 months total compensation for Mr. Coffield; one-and-one-half times the previous 12 months total compensation for each of Messrs. Hardy and Rozon; one times the previous 12 months total compensation for Mr. Nightingale; and the legal severance amount calculated in accordance with Peruvian labor laws and the voluntary severance amount calculated in accordance with his

employment agreement for Mr. Monges. The amount indicated does not include the payment of any accrued vacation that may be due upon termination of employment.

(3) In connection with his appointment as our Interim President and Chief Executive Officer, effective February 2015, Mr. Nightingale is entitled to severance payment equal to two times his previous 12 months total compensation.

(4) Mr. O’Leary was not employed by Gran Tierra on December 31, 2014, and so was not entitled to termination benefits at December 31, 2014. His termination benefits, as reported in the table above, are the actual benefits he received in connection with his termination of employment with us on October 1, 2014.

Item 13. *Certain Relationships and Related Transactions, and Director Independence*

Related Person Transactions Policy and Procedures

Gran Tierra discourages transactions with related persons. The charter of the Audit Committee provides that the Audit Committee is charged with reviewing and approving or disapproving any related person transactions, as defined under Regulation S-K, Item 404. In addition, potential related persons transactions are to be referred to the Chief Executive Officer, and brought to the attention of the full Board if material.

Certain Related-Person Transactions

Gran Tierra has entered into indemnity agreements with certain officers and directors which provide, among other things, that Gran Tierra will indemnify such officer or director, under the circumstances and to the extent provided for therein, for expenses, damages, judgments, fines and settlements he may be required to pay in actions or proceedings which he is or may be made a party by reason of his position as a director, officer or other agent of Gran Tierra, and otherwise to the fullest extent permitted under Nevada law and Gran Tierra's Bylaws.

Independence of Directors

Gran Tierra follows the listing standards of the NYSE MKT. As required under the NYSE MKT listing standards, a majority of the members of a listed company's board of directors must qualify as "independent," as affirmatively determined by the board of directors. The Board consults with Gran Tierra's counsel to ensure that the Board's determinations are consistent with relevant securities and other laws and regulations regarding the definition of "independent," including those set forth in the NYSE MKT listing standards, as in effect from time to time.

Consistent with these considerations, after review of all relevant identified transactions or relationships between each director, or any of his family members, and Gran Tierra, its senior management and its independent auditors, the Board has affirmatively determined that the following three of four directors are independent directors within the meaning of the applicable NYSE MKT listing standards: Messrs. Kirton, Macey and Price. In making this determination, the Board found that none of these directors or nominees for director had a material or other disqualifying relationship with Gran Tierra. Jeff Scott, Gran Tierra's Executive Chairman, is not an independent director by virtue of his employment with Gran Tierra.

Item 14. Principal Accounting Fees and Services**Principal Accountant Fees and Services**

Set forth below is a summary of fees paid to Deloitte LLP, our independent registered chartered accountants, for services in the fiscal periods ended December 31, 2014, and December 31, 2013. In determining the independence of Deloitte LLP, the Audit Committee considered whether the provision of non-audit services is compatible with maintaining Deloitte LLP's independence.

	Fiscal Year Ended	
	2014	2013
Audit Fees	\$1,438,964	\$1,561,745
Audit-related Fees	–	–
Tax Fees	–	–
All Other Fees	310,234	35,110
Total Fees	\$1,749,498	\$1,596,855

Audit Fees

The total audit fees and reimbursement of expenses paid to Deloitte LLP were for audits, reviews of the quarterly financial statements, and the preparation of consents.

All Other Fees

Other fees in 2014 included audit support for the sale of our Argentina business unit, IFRS support for Peru and Colombia and regulatory filing support for Colombia. Other fees in 2013 included projects for information technology security, and advisory work and assessments on privileged access.

All fees described above were approved by the Audit Committee.

Pre-Approval Policies and Procedures

Our Audit Committee is responsible for the engagement of the independent auditors and for approving, in advance, all auditing services and permitted non-audit services to be provided by the independent auditors. The Audit Committee maintains a policy for the engagement of independent auditors that is intended to maintain the independence from Gran Tierra of the independent auditors. In adopting this policy, our Audit Committee considered the various services that independent auditors have historically performed or may be needed to perform in the future for Gran Tierra. Under this policy:

the Audit Committee approves the performance by the independent auditors of auditing or permitted non-audit services, subject to restrictions in certain cases, based on the Audit Committee's determination that this would not be likely to impair the independence of the independent auditors from Gran Tierra;

Gran Tierra's management must obtain the specific prior approval of our Audit Committee for each engagement of the independent auditors to perform any auditing or permitted non-audit services; and

the performance by the independent auditors of certain types of services (bookkeeping or other services related to the accounting records or financial statements of Gran Tierra; financial information systems design and implementation; appraisal or valuation services, fairness opinions or contribution-in-kind reports; actuarial services; internal audit outsourcing services; management functions or human resources; broker or dealer, or investment adviser or investment banking services; legal services and expert services unrelated to the audit; and any other service that the applicable federal oversight regulatory authority determines, by regulation, is impermissible) is prohibited due to the likelihood that their independence would be impaired.

In its review of all non-audit service fees, our Audit Committee considers, among other things, the possible effect of these services on the independence of our independent auditors. Relevant considerations include, but are not limited to, whether the services are prohibited pursuant to SEC rules, whether the auditors are best positioned to provide the services, and the percentage of total services the non-audit services will comprise.

Any approval required under this policy must be given by our Audit Committee or by the chairperson of the Audit Committee in office at the time, provided that any pre-approval decisions made by the chairperson must be reported to the Audit Committee at its next scheduled meeting. Gran Tierra's Audit Committee will not delegate its responsibilities to approve services performed by the independent auditors to any member of management.
