Other Matters Concerning Executive Officers and Directors

On January 26, 2016, Verso and substantially all of our direct and indirect subsidiaries ("Debtors") filed voluntary petitions for relief under Chapter 11 of Title 11 of the United States Code ("Bankruptcy Code") in the United States Bankruptcy Court for the District of Delaware ("Bankruptcy Court"). The chapter 11 cases ("Chapter 11 Cases") were consolidated for procedural purposes only and administered jointly under the caption "In re: Verso Corporation, et al., Case No. 16-10163." On June 23, 2016, the Bankruptcy Court entered an order confirming the Debtors' First Modified Third Amended Joint Plan of Reorganization Under Chapter 11 of the Bankruptcy Code dated as of June 20, 2016 ("Plan"). On July 15, 2016, the Plan became effective pursuant to its terms and the Debtors emerged from their Chapter 11 reorganization.

All of our executive officers, other than Mr. Lederer and Mr. St. John, were executive officers of Verso before and during the Chapter 11 Cases. Mr. St. John was serving as our Regional Vice President of Operations during the Chapter 11 Cases, but he did not become an executive officer of Verso until he was elected our Senior Vice President of Manufacturing in August 2016. No director served in such capacity or as an executive officer of Verso prior to our emergence from Chapter 11 reorganization.

In addition, Mr. Campbell was serving as Chief Financial Officer of Cooper-Standard Holdings, Inc. when it voluntarily filed for protection under Chapter 11 of Title 11 of the Bankruptcy Code on August 3, 2009.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (“Exchange Act”), and the rules of the Securities and Exchange Commission (“SEC”) thereunder require that our directors and executive officers and the beneficial owners of more than 10% of Verso’s common stock file with the SEC initial reports of, and subsequent reports of changes in, their beneficial ownership of our common stock. Based solely on our review of such Section 16(a) reports and written representations that our directors and executive officers have furnished to us, we believe that all reporting persons complied with all applicable Section 16(a) filing requirements during 2018.

Code of Ethics

Our board of directors has adopted a Code of Conduct that applies to all of our directors, employees and officers, including our Interim Chief Executive Officer and Chief Financial Officer. The current version of the Code of Conduct is available on our website under the Corporate Governance section at www.versoco.com. To the extent required by rules adopted by the SEC and the New York Stock Exchange, we intend to promptly disclose future amendments to certain provisions of the Code of Conduct, or waivers of such provisions granted to executive officers and directors, on our website under the Corporate Governance section at www.versoco.com.

Audit and Finance Committee

We have a standing Audit Committee of the board. The Audit Committee currently consists of three directors – Messrs. Carr, Scheiwe and Shuster – appointed by the board of directors. The board of directors has determined that each director serving on the Audit Committee is independent under the applicable rules of the New York Stock Exchange (“NYSE”) and Exchange Act, satisfies the NYSE’s requirements of being financially literate and possessing accounting or related financial management expertise, and qualifies as an “audit committee financial expert” under the SEC’s rules.

Item 11. Executive Compensation

Compensation Discussion & Analysis

This Compensation Discussion and Analysis describes our compensation arrangements for 2018 with our “named executive officers” listed in the table below.

Name	Title
B. Christopher DiSantis	Former President and Chief Executive Officer
Allen J. Campbell	Senior Vice President and Chief Financial Officer
Michael A. Weinhold	President of Graphic and Specialty Papers
Adam St. John	Senior Vice President of Manufacturing
Kenneth D. Sawyer	Senior Vice President of Human Resources and Communications

Executive Summary

The Compensation Committee is responsible for determining the compensation of our named executive officers. Our executive compensation program includes a number of features that we believe reflect best practices in the market and help ensure that the program reinforces our stockholders' interests. These features are described in more detail below in this Compensation Discussion and Analysis and include the following:

Each of our named executive officers' target direct compensation for 2018 consists of his annual base salary, target annual bonus and the target value of his 2018 equity award described below. The diagram below shows the percentage of our named executive officers' target direct compensation that is "at risk" variable compensation, meaning that the compensation is performance-based and/or with a value dependent on our stock price:

Our Compensation Committee determined that for the annual equity awards granted to our named executive officers in or for 2018, a substantial portion of the award would be subject to performance-based vesting requirements. The Compensation Committee determined that the vesting of 50% of the award would be contingent on the compound annual growth rate ("CAGR") of our stock price from January 1, 2018 to January 1, 2021 relative to the stock price CAGR over that three-year period for a peer group of companies selected by our Compensation Committee. The remaining 50% of the award vests over time, and is scheduled to vest in two installments in January 2021 and January 2022, subject to the executive's continued employment with us through those dates.

We provide our named executive officers with annual performance-based cash award opportunities, with the amount awarded to the executive determined based on our achievement of financial and operational performance goals established by the Compensation Committee for the year. Based on our performance against the goals established for 2018, the Compensation Committee determined that our named executive officers' bonuses for 2018 would be paid at 168.3% of target. We believe this payout is appropriate in light of our performance during the year.

The Compensation Committee has retained an independent compensation consultant to provide advice on our executive compensation program.

Executive Compensation Philosophy and Objectives

The Compensation Committee conducts an annual review of our executive compensation program to help ensure that: (1) the program is designed to align the interests of our named executive officers with our stockholders' interests by rewarding performance that is tied to creating stockholder value; and (2) the program provides a total compensation package for each of our named executive officers that we believe is competitive.

Our executives' compensation package consists primarily of a base salary, an annual performance-based cash opportunity, and long-term equity-based awards. We believe that in order to attract and retain top executives, we need to provide them with compensation levels that reward their continued service. Some of the elements, such as base salaries and annual bonuses, are paid out on a short-term or current basis. Other elements, such as benefits provided upon certain terminations of employment and equity awards that are subject to multi-year vesting schedules, are paid out on a long-term basis. We believe this mix of short- and long-term elements allows us to achieve our goals of attracting, retaining and motivating our top executives.

In structuring executive compensation packages, the Compensation Committee considers how each component promotes retention and motivates performance. Base salaries, severance and other termination benefits are primarily intended to attract and retain highly qualified executives. These elements of our executive compensation program are generally not dependent on performance. Annual cash bonus and long-term equity incentive opportunities provide further incentives to achieve performance goals specified by the Compensation Committee, to enhance alignment with stockholder interests and/or to continue employment with us through specified vesting dates.

We believe that by providing a significant portion of our named executive officers' total compensation package in the form of equity-based awards, we are able to create an incentive to build stockholder value over the long-term and closely align the interests of our named executive officers to those of our stockholders by incentivizing our named executive officers to produce stockholder value. As described in more detail below, the annual equity awards granted to the named executive officers for 2018 are structured so that one-half of the award will vest only if we achieve specified levels of stock price performance relative to the performance of a peer group of companies over a three-year performance period and only if the executive remains employed with us through the end of the applicable performance period. The remainder of the award generally vests only if the executive remains employed with us over a multi-year period.

Our annual performance-based cash awards are also contingent upon the achievement of financial and operational performance goals established by the Compensation Committee, thereby providing additional incentives for our executives to achieve short-term or annual goals that we believe will maximize stockholder value over the long-term.

Compensation Determination Process

Role of the Compensation Committee and our Executive Officers

Our executive compensation program is determined and approved by our Compensation Committee. None of the named executive officers are members of the Compensation Committee or otherwise have any role in determining the compensation of the other named executive officers, although the Compensation Committee considers the recommendations of our Chief Executive Officer in setting compensation levels for our other executive officers.

Determination of Compensation

Except as otherwise noted, our Compensation Committee's executive compensation determinations are subjective and are generally based on the experience and general knowledge possessed by members of our Compensation Committee taking into account the executive's responsibilities and experience, our performance and the individual performance of the executive. As discussed below, in determining the compensation of our named executive officers, the Compensation Committee considers the compensation provided to executives at corresponding positions with a peer group of companies. However, we do not set executive compensation levels at any specific level or "benchmark" against other companies.

Compensation Consultant

For 2018, our Compensation Committee retained Lyons, Benenson & Company Inc. (“Lyons Benenson”) to serve as its independent compensation consultant. Lyons Benenson assisted our Compensation Committee by performing a comprehensive review of our 2018 executive compensation program before it was established, including the composition of our peer group, amounts and nature of compensation paid to executive officers, structure of our various compensation programs, design of our short-term incentive performance measurement framework, performance vesting requirements for our annual long-term incentive awards and appropriate target total direct compensation levels and potential payment and vesting ranges for our executive officers. During 2018, Lyons Benenson also provided data to the Compensation Committee on the compensation and relative performance of our peer group, advised and provided peer group data regarding the Company’s compensation arrangements for its non-employee directors, provided advice as the Compensation Committee began its considerations of our executive compensation framework for 2019, and reviewed data in connection with the Compensation Committee’s determination of short-term incentive award performance. A representative of Lyons Benenson regularly meets both privately and in meetings with the Compensation Committee to discuss its recommendations.

Other than its engagement by the Compensation Committee, Lyons Benenson provides no other services to us or any of our subsidiaries. The Compensation Committee has assessed the independence of Lyons Benenson and concluded that its engagement of Lyons Benenson does not raise any conflict of interest with us or any of our directors or executive officers.

In February 2018, Lyons Benenson assisted the Compensation Committee in selecting the following peer group of companies in our industry to assist the committee in making its compensation decisions for 2018.

Bemis Company, Inc.	Neenah Paper, Inc.
Cenveo, Inc.	P.H. Glatfelter Company
Clearwater Paper Corporation	Packaging Corporation of America
Domtar Corporation	Resolute Forest Products Inc.
Graphic Packaging Holding Company	Schweitzer-Mauduit International, Inc.
Greif, Inc.	Sonoco Products Company
Kapstone Paper & Packaging Corporation	

The Compensation Committee, with advice from Lyons Benenson, decided that the peer companies should be publicly traded U.S. companies in the Company's industry with revenue of up to \$9.0 billion, generally have an average total shareholder return above that of the Paper Products GICS Sub-Industry, and generally exceed the median for the Paper Products GICS Sub-Industry in two of three key performance areas (three-year revenue CAGR, three-year average return on invested capital, and three-year average operating margin), in each case as of the time the peer group was selected. For each of our named executive officers, Lyons Benenson provided information on the compensation levels for similarly situated executives with the peer companies. Although the Compensation Committee reviewed and discussed the peer company compensation data provided by Lyons Benenson to help inform its decision making process, the Compensation Committee does not set compensation levels at any specific level or percentile against the peer group data. The peer company data is only one point of information taken into account by the Compensation Committee in making compensation decisions.

The Role of Stockholder Say-on-Pay Votes

At the annual meeting of our stockholders held in September 2018, our stockholders were provided with an opportunity to cast an advisory vote on our executive compensation program through a say-on-pay proposal. Approximately 96 percent of votes cast were in favor of our executive compensation program. The Compensation Committee believes that our compensation program includes a number of features as noted above that reflect best practices in the market and that this voting result affirms stockholders' support of the Company's approach in compensating its executive officers. Our Compensation Committee will continue to consider the outcome of the Company's say-on-pay proposals when making future compensation decisions for our named executive officers.

Current Executive Compensation Program Elements

The current elements of our executive compensation program are:

base salaries;

annual performance-based cash awards;

equity-based incentive awards; and

certain retirement and other benefits.

Base Salary

The compensation of Verso’s executive officers begins with a base salary. In determining the initial annual base salaries or the amounts by which to increase the base salaries of our executive officers, we typically evaluate each executive officer’s position and functional responsibilities, consider the executive officer’s performance and contributions in the prior year, review the executive officer’s base salary in comparison to the base salaries of similar positions with similar functional responsibilities at comparable companies, compare the executive officer’s base salary to those of our other executive officers for internal equity purposes, and consider Verso’s financial position and our resources available for compensation purposes.

In March 2018, the Compensation Committee approved small increases to the base salaries of each our named executive officers for 2018 (except no change was made to Mr. DiSantis’ base salary for 2018). The Compensation Committee approved these increases based on its assessment of peer group data provided by the Compensation Committee’s compensation consultant and the Compensation Committee’s assessment of their positions. The amount of each named executive officer’s base salary before and after the increase is set forth in the table below.

Name	Prior Base Salary	New Base Salary
Allen J. Campbell	\$433,500	\$442,170
Michael A. Weinhold	\$433,500	\$446,505
Adam St. John	\$375,000	\$382,500
Kenneth D. Sawyer	\$350,000	\$353,500

Annual Cash Incentive Plan: 2018 Verso Incentive Plan

In June 2018, Verso, with the approval of the Compensation Committee, established and implemented the 2018 Verso Incentive Plan (“2018 VIP”), an annual, performance-based cash incentive plan for the benefit of our executive officers and other key employees. The 2018 VIP provided the participants with an opportunity to receive a cash incentive award based on Verso’s, their departments’ and their individual performances in 2018. The 2018 VIP involved the quantitative measurement of Verso’s actual performance against a series of operational and financial performance objectives for 2018. It also entailed a qualitative assessment of the contributions of each participant and his or her department to the achievement of our performance objectives.

The 2018 VIP was designed to provide the participants with an incentive for superior work and to motivate them toward even higher achievements and business results, to tie their goals and interests to those of Verso and its stockholders, and to enable us to attract and retain highly qualified executive officers and other employees. The 2018 VIP was administered by the Compensation Committee. Generally, unless otherwise provided by an agreement with Verso, a participant must remain employed by Verso until the time bonuses are actually paid for the performance year in order to be eligible to receive a bonus under the plan.

The 2018 VIP set forth Verso’s performance objectives for 2018 to be used to establish the 2018 annual cash incentives for participants in the plan, the relative weighting of the performance objectives against each other, the threshold, target and maximum achievement levels of our performance objectives, and the funding associated with achieving the performance objectives at the various achievement levels. In establishing the performance objectives, their relative weighting, and their achievement levels, the Compensation Committee considered information provided by management concerning our operational and financial goals for 2018, with the purpose of reflecting those goals in the 2018 VIP. In establishing the funding levels, the Compensation Committee considered the other compensation provided to our executive officers and senior managers, with the aim of establishing total incentive compensation that was competitive. Taking these matters into consideration, the Compensation Committee approved the elements of the 2018 VIP as shown in the following table.

2018 Performance Objectives	Relative Weighting	Achievement Levels and Funding Levels		
		Threshold	Target	Maximum
Adjusted EBITDA ⁽¹⁾	40%	\$189M	\$210M	\$252M

Adjusted EBITDA is our earnings before interest, taxes, depreciation and amortization, adjusted to exclude certain
(1)unusual items and to reflect changes in accounting principles, policies, practices and procedures adopted or implemented during the term of the 2018 VIP.

(2) Cash conversion is calculated by adding the number of days of inventory plus the number of days of accounts receivable minus days of accounts payable.

(3) Price/mix improvement is the measure of the improvement in product pricing and grade mix optimization between 2018 and 2019, taking into account various factors.

(4) Safety TIR (Total Incident Rate) refers to our number of OSHA recordable safety incidents during 2018 per 100 full-time employees.

(5) The three metrics that follow (Tons Sold, Maine Grant Funding and Total Project Return on Investment) measure the success of the conversion and go-to-market strategy of the Androscoggin A3 paper machine project.

⁽⁶⁾ Tons Sold refers to tons of paper shipped from the No. 3 machine at our Androscoggin Mill for a portion of the 2018 fiscal year, adjusted to estimate shipment for a full year.

⁽⁷⁾ Maine Grant Funding refers to funds awarded Verso under a development grant from the State of Maine for which Verso applied.

⁽⁸⁾ Total Project Return on Investment refers to actual profit and loss associated with the A3 paper machine project for a portion of the 2018 fiscal year, adjusted to estimate for a full year, as compared to a target profit and loss for the 2018 fiscal year set near the beginning of the year.

Under the 2018 VIP, the incentive pool, representing the total amount of incentive awards for all participants, was determined initially by adding together all the participants' target-level incentive awards. A participant's target-level incentive award is a specified percentage of the participant's base salary. This initial pool represents the amount of the incentive pool at the target achievement level of performance, which also is referred to as the target-level incentive pool. If the incentive pool were to be funded at the threshold achievement level, the amount of the incentive pool would be equal to 70% of the target-level incentive pool. If, on the other hand, the incentive pool were to be funded at the maximum achievement level, the amount of the incentive pool would be equal to 200% of the target-level incentive pool. Under the 2018 VIP, the threshold, target and maximum funding levels of the incentive pool were approximately \$7.5 million, \$10.7 million and \$21.4 million, respectively.

After determining the target-level incentive pool, the next step in determining the funding of the incentive pool was to consider the levels of achievement of Verso's performance objectives. After year-end, we calculated the achievement level and factored in the relative weighting of each of our performance objectives. By way of illustration only, if we had achieved the Adjusted EBITDA performance objective at the threshold level of achievement, then 70% of 40%, or a net of 28%, of the target-level incentive pool would have been funded. For any performance objective that was achieved at a level between the threshold and target achievement levels or between the target and maximum achievement levels, we used linear interpolation to determine the appropriate incentive pool funding percentage attributable to such performance objective. This methodology was used to determine the incentive pool funding percentage attributable to the achievement of each of our performance objectives, and the results were added together. Next, the actual amount of the incentive pool was determined by multiplying the total incentive pool funding percentage by the amount of the target-level incentive pool.

The Compensation Committee, applying the methodology set forth in the 2018 VIP, funded the incentive pool at approximately \$18 million, representing a funding percentage of 168.3% of the target-level incentive pool. The Compensation Committee determined the funding of the incentive pool based on the following actual levels of achievement of Verso's performance objectives as set forth in the 2018 VIP:

2018 Performance Objectives	Relative Weighting	Actual Achievement Levels	Funding Levels
-----------------------------	--------------------	---------------------------	----------------

Edgar Filing: Verso Corp - Form 10-K/A

Adjusted EBITDA	40%	\$296M	80%
Cash Conversion (Days)	20%	52	40%
Price Mix Improvement	20%	\$233M	40%
Safety TIR	10%	1.24	0%
A-3 Project Execution			
Tons Sold	3.33%	197,736	5%
Maine Grant Funding	3.33%	\$4M	3.3%
Total Project Return on Investment	3.33%	58%	0%
Funding percentage:			168.3%
Funding amount (168.3% of the target level of \$10.7 million):			\$18M

The amount of a participant's incentive award under the 2018 VIP was determined by reference to his or her target-level incentive award percentage. A participant's target-level incentive award percentage is the percentage of his or her base salary that the participant would receive as an incentive award under the 2018 VIP in the event that the incentive pool were to be funded at the target level of 100%. The target-level incentive award percentage reflects our assessment of a participant's ability, considering his or her position with us, to affect our operational and financial performance. They also take into account the other compensation to which a participant is entitled, the target-level incentive award percentages for positions with similar functional responsibilities at comparable companies, and, in the case of Mr. DiSantis, the applicable provisions of his employment agreement with us. The target-level incentive award percentages range from 5% to 100% of a participant's base salary at the end of the year, depending on the participant's employment grade level with us. The target-level incentive award percentages of our named executive officers were 100% of base salary for Mr. DiSantis, 80% of base salary for Mr. Campbell, and 75% of base salary for Mr. Weinhold, Mr. St. John and Mr. Sawyer. In each case, a participant's incentive award is capped at 200% of his or her target-level incentive award.

The amount of a participant's incentive award under the 2018 VIP could be affected, but is not necessarily driven, by the level of achievement of his or her group/individual performance objectives. A participant's group/individual performance objectives, which were established at the beginning of the year in consultation with his or her supervisor, are intended to be linked to and supportive of the achievement of our performance objectives. The requirement to develop group/individual performance objectives applied to all participants in the 2018 VIP other than Mr. DiSantis, our former Chief Executive Officer. Our named executive officers other than Mr. DiSantis developed their group/individual performance objectives in early 2018. While the Compensation Committee had the discretion to make adjustments to a participant's incentive award to take into account extraordinary or unforeseen events and circumstances, the Compensation Committee did not make any adjustments for individual performance in the 2018 VIP incentive awards payable to our named executive officers. With respect to Mr. DiSantis, his 2018 VIP incentive award was based solely on the level of achievement of Verso's performance objectives.

In summary, the incentive pool for the 2018 VIP was funded at approximately \$18 million, representing a funding percentage of 168.3% of the target-level incentive pool, and the 2018 VIP incentive awards for our executive officers were equal to 168.3% of their target-level incentive awards. Additional information about the 2018 VIP incentive awards paid to our named executive officers is set forth in the "Non-Equity Incentive Plan Compensation" column of the Summary Compensation Table.

2016 Retention Plan

In July 2016, upon emerging from its Chapter 11 reorganization, Verso established and implemented the 2016 Retention Plan, a service-based retention award plan for the benefit of our executive officers and certain key senior managers. Each of the named executive officers participate in the plan (other than Mr. DiSantis, who was not employed by Verso when the plan was adopted). The purpose of the 2016 Retention Plan is to provide the participants with financial incentives to continue their employment with Verso as we develop and implement our long-range strategic initiatives following our reorganization. The 2016 Retention Plan provides for three levels of retention awards based on the participants' positions within Verso's management. The values of the retention award are varying percentages of the participants' base salaries, with our executive officers receiving retention awards at the 85% level. For the executive officers, the retention awards consist of cash and awards of restricted stock units ("RSUs") comprising 70% and 30%, respectively, of the total value of the participant's award (based on the grant date fair value of the RSUs awarded). The cash retention awards vested in three installments of 15%, 15% and 70% on December 31, 2016, June 30, 2017, and June 30, 2018, respectively. The RSU retention awards vest in three equal installments on each of the first, second and third anniversaries of the grant date of July 28, 2016. In order to vest in an installment of a cash or RSU retention award, the participant must remain continuously employed by Verso or one of our subsidiaries through the applicable vesting date of the installment. Except in certain circumstances specified in the award documents as described below under "Potential Payments Upon Termination of Employment or Change in Control," if a participant's employment with us terminates before any portion of a cash or RSU retention award becomes vested, the unvested portion of the award will expire, regardless of the reason for the termination of employment. If, in connection with the termination of a participant's employment, the participant is entitled to acceleration of the unvested portion of his or her cash retention award, such accelerated award will be reduced by the amount of any termination allowance that the participant receives under our severance policy.

The cash retention awards paid to our named executive officers in 2018 under the 2016 Retention Plan are set forth in the “Bonus” column of the Summary Compensation Table. Under applicable SEC rules, the grant date value of the RSU awards granted under the 2016 Retention Plan was reported as compensation for the executive in 2016 when the award was granted.

Long-Term Equity Incentive Awards

To further align the interests of our named executive officers with those of the Company’s stockholders, we believe that a significant portion of each named executive officer’s compensation opportunity should be in the form of equity-based awards. The Compensation Committee makes a subjective determination each year as to the type and number of long-term incentive equity awards to be granted to our named executive officers in that year. To help inform its decision making process, the Compensation Committee considers a number of factors, including the executive’s position with the Company and total compensation package, the executive’s performance of his individual responsibilities, the equity participation levels of comparable executives at comparable companies, the Compensation Committee’s general assessment of Company and individual performance and the executive’s contribution to the success of the Company’s financial performance. A formula is not used for these purposes and none of these factors is given any particular weight over another as the ultimate equity award grant determinations by the Compensation Committee are subjective. As described below, Mr. DiSantis’ annual equity-based award is as provided in his employment agreement with us.

For 2018, the Compensation Committee approved equity awards under our Performance Incentive Plan, in the form of RSUs, to the named executive officers, with the vesting of 50% of the award generally based on our performance over the three-year period commencing on January 1, 2018 and ending on January 1, 2021, and the vesting of the other 50% of the award being time-based, subject to the executive's continued employment with us through the vesting dates. RSUs are designed both to link executives' interests with those of our stockholders (as the value of the RSUs depends on the price of our common stock) and to provide a long-term retention incentive for the vesting period (as the RSUs generally have value regardless of stock price volatility and vesting of the entire award is generally contingent on the executive's continued employment through the vesting date). In addition, fewer RSUs can be awarded to deliver the same grant-date value as stock options (determined using the equity award valuation principles applied in the Company's financial reporting).

The table below reflects the number of RSUs granted to each of the named executive officers in 2018 as approved by the Compensation Committee in February 2018.

Name	Time-Based RSUs	Performance-Based RSUs (at Target)
B. Christopher DiSantis	59,277	59,277
Allen J. Campbell	16,301	16,301
Michael A. Weinhold	16,301	16,301
Adam St. John	14,819	14,819
Kenneth D. Sawyer	14,819	14,819

The performance-based RSUs are eligible to vest and be paid depending on the CAGR of the Company's stock price over the 2018-2020 performance period relative to the CAGR during that period of the stock prices over that same period for the peer group of companies selected by the Compensation Committee to assess our executive compensation program for 2018, identified above. The vesting of the performance RSUs will be determined at the end of the performance period in accordance the following table (with the vesting percentage stated as a percentage of the target number of RSUs subject to the award, and with the percentage to be determined by linear interpolation for performance between the levels indicated in the table):

CAGR Performance Relative to the Peer Companies	Vesting Percentage
Below 55 th Percentile	0%
55 th Percentile	50%
65 th Percentile	100%
75 th Percentile or Higher	150%

The performance awards cannot vest at more than 150% of the target number of the RSUs subject to the award.

The time-based RSUs granted to the named executive officers in 2018 are scheduled to vest in two equal installments on each of January 1, 2021 and January 1, 2022, subject to the executive's continued employment through the applicable vesting dates.

While the Compensation Committee approved the fiscal year 2017 performance- and time-based RSU awards for our named executive officers in 2017, the Compensation Committee did not establish the performance-based vesting criteria for the performance-based RSUs until February 2018. Since this criteria was not established until 2018, under FASB ASC Topic 718, the performance-based RSUs approved by the Compensation Committee in 2017 are not considered to have been "granted" until 2018. Accordingly, and in accordance with applicable SEC rules, the grant date fair value of each named executive officer's performance-based RSUs approved by the Compensation Committee in 2017 is included in the Summary Compensation Table on page 15 as compensation for 2018, and the awards are included in the Grants of Plan-Based Awards During Fiscal Year 2018 table on page 19. These awards were not included as compensation for the named executive officers for 2017 in accordance with applicable SEC rules. However, the 2017 time-based RSU awards were included as compensation for the named executive officers for 2017. Information on the material terms of the 2017 performance-based RSU awards can be found in the Company's Proxy Statement for 2018 Annual Meeting of Stockholders.

The table below reflects the number of performance-based RSUs (at the target level of performance) awarded to the named executive officers for 2017 for which vesting criteria was established in February 2018 (“2017 performance-based RSUs”).

Name	Performance- Based RSUs (Target)
B. Christopher DiSantis	125,945
Allen J. Campbell	46,610
Michael A. Weinhold	46,610
Adam St John	42,373
Kenneth D. Sawyer	42,373

The 2017 performance-based RSUs are eligible to vest and be paid depending on the CAGR of the Company’s stock price over the 2017-2019 performance period relative to the CAGR of the stock prices over that same period for the peer group of companies selected by the Compensation Committee. The vesting of these awards will be determined at the end of the performance period in accordance with the following table (with the vesting percentage to be determined by linear interpolation for performance between the levels indicated in the table):

CAGR Performance Relative to the Peer Companies	Vesting Percentage
Below 50 th Percentile	0%
50 th Percentile	50%
60 th Percentile	100%
70 th Percentile or Higher	150%

The performance awards cannot vest at more than 150% of the RSUs subject to the award.

Additional information regarding the material terms of the equity awards granted to our named executive officers for 2018 is set forth in the “Grants of Plan-Based Awards During Fiscal Year 2018” table below.

Actions Taken Subsequent to Fiscal Year 2018

In March 2019, the Compensation Committee approved compensation for fiscal year 2019 for each of our named executive officers. The table below reflects the number of RSUs granted to each named executive officer in 2019 as

approved by the Compensation Committee in March 2019.

Name	Time- Based RSUs	Performance- Based RSUs (Target)
B. Christopher DiSantis	47,506	47,506
Allen J. Campbell	13,064	13,064
Michael A. Weinhold	13,064	13,064
Adam St. John	11,876	11,877
Kenneth D. Sawyer	11,876	11,877

The performance-based RSUs are eligible to vest and be paid depending on the total shareholder return (“TSR”) of the Company’s stock over the three-year period commencing on January 1, 2019 and ending on January 1, 2022. Vesting will be determined on the basis of two criteria. First, the TSR of the Company’s stock, determined as of the end of the 2019-2022 measurement period and compared to the beginning of such period, must have increased by an amount of at least five percent compounded annually. If this threshold requirement is met, then the performance-based RSUs will be eligible to vest and be paid depending on the TSR of the Company’s stock price over the 2019-2022 performance period relative to the TSR of the stock prices over that same period for the peer group of companies selected by the Compensation Committee, in accordance with the table below (with the vesting percentage to be determined by linear interpolation for performance between the levels indicated in the table). For 2019, the peer group of companies is the same as for 2018, excluding Cenveo, Inc. (excluded because it declared bankruptcy) and Kapstone Paper & Packaging Corporation (excluded because it was acquired).

TSR Performance Relative to the Peer Companies	Vesting Percentage ⁽¹⁾
Below 45 th Percentile	0%
45 th Percentile	50%
65 th Percentile	100%
80 th Percentile or Higher	150%

⁽¹⁾ Notwithstanding performance against the peer group, no performance-based RSUs will vest if the TSR of the Company's stock has not met the threshold requirement identified in the paragraph above.

The performance awards cannot vest at more than 150% of the target number of RSUs subject to the award.

The time-based RSUs granted in 2019 are scheduled to vest in three installments on January 1, 2020, January 1, 2021 and January 1, 2022.

The Compensation Committee also approved increases in the base salary for each named executive officer as follows, in each case effective as of March 1, 2019:

Name	Prior Base Salary	New Base Salary
B. Christopher DiSantis	\$825,000	\$866,250
Allen J. Campbell	\$442,170	\$473,122
Michael A. Weinhold	\$446,505	\$464,365
Adam St. John	\$382,500	\$409,275
Kenneth D. Sawyer	\$353,500	\$363,221

Relocation

In 2017, we moved our headquarters from Memphis, Tennessee, to Miamisburg, Ohio. In connection with the move, we provided relocating employees, including relocating named executive officers, with a cost of living adjustment to their base salaries and covered certain of their relocation expenses.

Additional Benefits

In addition to our tax-qualified retirement plans, we provide our executives the opportunity to elect to defer a portion of their compensation under our nonqualified deferred compensation plan, and we may also make additional discretionary contributions to the executives' accounts under the plan through our Executive Retirement Program. We believe these plans offer a tax-advantaged way to help our executives save for their retirement. We also provide group medical, dental, life and other insurance coverage for our executive officers and other eligible employees. In addition, under our executive financial counseling policy, we pay the costs of personal investment, estate planning, tax and other financial counseling services, subject to an annual cap of \$9,500 or \$6,500 (depending on the executive's position with us), for our executive officers.

Severance and Other Benefits upon Termination of Employment

The Company believes that severance protections, particularly in the context of a change in control transaction, can play a valuable role in attracting and retaining key executive officers.

Under his employment agreement with the Company, Mr. DiSantis was entitled to severance benefits in the event of a termination of employment by the Company without cause or by him for good reason. The other named executive officers participate in our severance policy and would be eligible for benefits if their employment is terminated by us without cause or in certain other circumstances. The Company has determined that it is appropriate to provide the named executive officers with severance benefits under these circumstances in light of their positions with the Company and as part of their overall compensation package. We have also entered into confidentiality and non-competition agreements (referred to as "CNC Agreements") with our named executive officers (other than Mr. DiSantis) that provide for the executive to receive compensation in consideration for the executive's covenants not to compete with us or solicit our employees for 12 months following their termination. We believe these agreements, as well as similar restrictive covenants agreed to by Mr. DiSantis in connection with entering into his employment agreement with the Company, provide important protections for the Company following the termination of an executive's employment.

The Company believes that the occurrence, or potential occurrence, of a change in control transaction could create uncertainty regarding the continued employment of the Company's executive officers as many change in control transactions result in significant organizational changes, particularly at the senior executive level. In order to encourage the Company's executive officers to remain employed with the Company during an important time when their prospects for continued employment following the transaction may be uncertain, the Company's equity award agreements with the named executive officers provide for accelerated vesting of the award if the executive's employment is actually or constructively terminated by the Company without cause in connection with a change in control.

The payment of cash severance benefits is only triggered by an actual or constructive termination of employment. However, as described below under "Grants of Plan-Based Awards," outstanding equity-based awards granted under the Company's equity incentive plans, including those awards held by the named executive officers, may accelerate on a change in control of the Company if they are not assumed by the acquiring entity and are to be terminated on the transaction and, pursuant to the terms of his employment agreement, Mr. DiSantis was entitled to accelerated vesting of his equity awards in connection with a change in control of the Company.

For more information regarding these severance arrangements, please see "Potential Payments upon Termination or Change in Control" below.

DiSantis Severance Benefits

Effective as of April 5, 2019, Mr. DiSantis ceased being Chief Executive Officer and a member of the Board. We entered into a separation agreement and general release with Mr. DiSantis on April 11, 2019 in connection with his departure ("Separation Agreement"). Under the Separation Agreement, in addition to the other accrued obligations and vested benefits under the Company's benefit plans, we agreed to provide to or for the benefit of Mr. DiSantis the following, consistent with the terms of his employment agreement with the Company:

a severance payment equal to 25 months base salary, in the total of \$1,804,687.50 (minus applicable, taxes, withholding, and deductions), payable in 25 equal monthly installments;

a prorated portion of his bonus for fiscal year 2019, if any, payable at such time as bonuses are generally paid to senior executives of the Company;

reimbursement for attorney's fees incurred in connection with the separation agreement up to a maximum of \$25,000, contingent upon the receipt of supporting documentation and reasonable substantiation;

reimbursement for the cost of future outplacement assistance up to a maximum of \$25,000, contingent upon the receipt of supporting documentation and reasonable substantiation;

a monthly amount, equal to the current Company-paid portion of any premiums (grossed up for income taxes) for his existing healthcare coverage, for his cost of COBRA continuation coverage for a maximum of 18 months; and

Vesting of 341,174 unvested RSUs granted under our Performance Incentive Plan.

Mr. DiSantis provided the Company with a release of claims and agreed to comply with certain non-competition, non-solicitation and other covenants under his Separation Agreement and his restrictive covenant agreement.

Tax Considerations

Federal income tax law generally prohibits a publicly-held company from deducting compensation paid to a current or former named executive officer that exceeds \$1 million during the tax year. Certain awards granted before November 2, 2017 that were based upon attaining pre-established performance measures that were set by the company's compensation committee under a plan approved by the company's stockholders, as well as amounts payable to former executives pursuant to a written binding contract that was in effect on November 2, 2017, may qualify for an exception to the \$1 million deductibility limit.

As one of the factors in its consideration of compensation matters, the Compensation Committee notes this deductibility limitation. However, the Compensation Committee has the flexibility to take any compensation-related actions that it determines are in the best interests of the Company and its stockholders, including awarding compensation that may not be deductible for tax purposes. There can be no assurance that any compensation will in fact be deductible.

The 2018 bonus consists of a cash retention award made under the 2016 Retention Plan to certain of our named executive officers that was subject to the executive officer's continued employment with Verso through June 30, 2018.

The amounts reported include the value of performance-based and time-based RSUs granted in 2018 and performance-based RSUs approved for grant by the Compensation Committee in 2017 but deemed granted in 2018 because the Compensation Committee established the applicable performance-based vesting criteria for these awards in February 2018. Footnote (3) discloses the grant date valuation of these awards.

The amounts reported reflect the fair value on the grant date of the stock awards granted to our named executive officers during the applicable fiscal year. While the Compensation Committee approved the fiscal year 2017 performance- and time-based RSU awards for our named executive officers in 2017, the Compensation Committee did not establish the performance-based vesting criteria for the performance-based RSUs until February 2018. Since this criteria was not established until 2018, under FASB ASC Topic 718 the performance-based RSUs approved by the Compensation Committee in 2017 are not considered to have been "granted" until 2018. Accordingly, and in accordance with applicable SEC rules, the grant date fair value of each named executive officer's performance-based RSUs approved by the Compensation Committee in 2017 is included in the Stock Award column for 2018, along with the fiscal 2018 annual long-term equity incentive awards. The fair values on the grant date of the time-based RSU grants reported in the "Stock Awards" column, computed in accordance with FASB ASC Topic 718, were based on the closing sale price per share of our Class A common stock on the NYSE on the applicable grant date. In accordance with applicable SEC rules, the grant date fair value of the performance-based RSU awards was determined based on the probable outcome (determined as of the date of grant of the awards, as the grant date is determined for accounting purposes) of the performance-based conditions applicable to the awards. For these purposes, the grant date fair value was determined based on a Monte Carlo simulation pricing model (which probability weights multiple potential outcomes) as of such grant date of the awards. The significant assumptions used in the Monte Carlo simulation pricing model were: a stock price volatility rate of 61.6% for Verso and 31.6% for the comparison group of peer companies and the average pair-wise correlation coefficients between each of these values of 33%; a simulation period of 3 years (the applicable performance period); and a dividend yield of 0.0% for Verso and 2.3% for the comparison group of peer companies. The following tables present the grant date fair value of performance-based RSUs granted to our named executive officers under two sets of assumptions: (a) assuming the probable outcome would occur (using the Monte Carlo simulation pricing model) and (b) assuming the highest level of performance would be achieved.

Agreements with Named Executive Officers

Employment Agreement with B. Christopher DiSantis. We entered into an employment agreement with B. Christopher DiSantis when he became our President and Chief Executive Officer on February 1, 2017. The principal components of Mr. DiSantis' compensation under the agreement were as follows:

an annual salary of \$825,000, subject to increase at the discretion of our board of directors;

a cash incentive award payable under our annual, performance-based incentive plan, with a target-level award amount equal to 100% of his base salary;

an initial grant of RSUs under our performance incentive plan with a fair market value of \$2 million on the date of grant ("Initial DiSantis RSU Award"), which was granted in February 2017;

with respect to each fiscal year during Mr. DiSantis' employment with us commencing on the first anniversary of his employment date, a targeted equity or equity-based award with a fair market value of \$2 million on the grant date, with the terms of each such award to be determined by the board of directors in its reasonable discretion; and

the right to participate in our employee benefit plans, programs and arrangements.

With respect to potential severance benefits, the agreement provided that if we terminated Mr. DiSantis' employment without cause (as defined in the employment agreement) or if he resigned for good reason (as defined in the employment agreement), then we were required to provide him with the following benefits, subject to Mr. DiSantis' execution of our customary waiver and release of claims:

two times his annual base salary, payable in 24 equal monthly installments after the termination date ("DiSantis Continued Base Salary");

a prorated portion of his annual bonus for the calendar year in which the termination date occurs based on actual performance; and

a monthly amount equal to our portion of any premiums (grossed up for income taxes) for continued coverage for him and his eligible dependents under our employee health and welfare plans for 18 months after the termination date;

with respect to the Initial DiSantis RSU Award, acceleration of (1) the next tranche of time-based RSUs scheduled to vest following the termination date and (2) the performance-based RSUs at target level; and

cost of outplacement assistance (up to \$25,000) and attorney's fees incurred in connection with the termination (up to \$25,000) ("DiSantis Professional Fees").

The agreement provided that if Mr. DiSantis' employment terminated due to his death or disability, then we were required to provide the same benefits as described above (other than the DiSantis Continued Base Salary and DiSantis Professional Fees) to him or his estate, as applicable. It provided that vesting of Mr. DiSantis' equity awards would accelerate in connection with a change in control of the Company.

As a condition to Mr. DiSantis' employment, he also executed a restrictive covenant agreement, which requires Mr. DiSantis to comply with a perpetual confidentiality covenant as well as non-competition and non-solicitation/non-hire covenants extending for 12 months and 24 months, respectively, after the termination of his employment for any reason.

In connection with Mr. DiSantis' termination on April 5, 2019, he entered into a Separation Agreement with the Company pursuant to which he will receive the severance benefits provided in his employment agreement, as set forth in the Separation Agreement, and described on page 14, under "DiSantis Severance Benefits".

CNC Agreements with Other Named Executive Officers. We have confidentiality and non-competition agreements ("CNC agreements") with each of our named executive officers other than our former Chief Executive Officer and Interim Chief Executive Officer. The CNC agreements, which have substantially identical terms, require each named executive officer to comply with a perpetual confidentiality covenant as well as non-competition and non-solicitation/non-hire covenants extending for 12 months after the termination of his employment for any reason.

Under each CNC agreement, if the named executive officer's employment is terminated by either party and for any reason, we are required to provide him (or his estate) with the following payments and benefits, subject to the named executive officer's execution of our customary waiver and release of claims and to his compliance with his obligations under the CNC agreement:

- any unpaid annual incentive award for any calendar year completed on or before the termination date;
- a prorated portion of his annual incentive award for the calendar year in which the termination date occurred;

payments equal to 180% (for Mr. Campbell) or 175% (for Messrs. Weinhold, St. John and Sawyer) of his base salary, payable in 12 equal monthly installments;

subsidized medical and dental insurance coverage for him and his eligible dependents for up to two years after the later of the last day of the month in which the termination date occurs or the last day of any period up to six months for which we have provided him with a subsidy for continued coverage pursuant to our severance policy;

reimbursement of the cost of converting his group life insurance coverage to an individual policy and the premiums on the individual policy for up to two years after the termination date;

income tax gross-ups on the amounts paid with respect to the continued medical and dental insurance coverage and the life insurance conversion and coverage; and

a contribution to his account under the DC Plan in an amount equal to the projected value of certain lost retirement benefits consisting of our contributions under the Retirement Plan, Supplemental Salary Retirement Program, Deferred Compensation Plan, and Executive Retirement Program that we would have made if he had remained actively employed with us for two years after the termination date.

Employment Agreement with Leslie T. Lederer. We entered into an employment agreement with Leslie T. Lederer when he became our Interim Chief Executive Officer on April 5, 2019. The principal components of Mr. Lederer's compensation under the agreement are as follows:

· an annual salary of \$720,000;

· a grant of 67,720 RSUs under our performance incentive plan, of which 5% will vest on the 90th day after April 5, 2019, 5% will vest on the 180th day after April 5, 2019, and the balance of which will vest on a change in control,

generally subject to Mr. Lederer's continuous employment with the Company and settled as described below; and

the right to participate in our employee benefit plans generally available to employees of the Company and vacation and fringe benefits provided to other senior executives.

In the event Mr. Lederer's employment terminates prior to a change in control for any reason other than by the Company for cause (as defined in the employment agreement), subject to the execution of a release, any vested RSUs will be settled upon termination. In addition, in the event Mr. Lederer's employment is terminated prior to a change in control by the Company without cause or due to his disability, if a change in control occurs within 12 months of termination, following negotiations without material interruption which commenced prior to termination, subject to execution of a release, any unvested RSUs at the time of Mr. Lederer's termination shall vest upon the consummation of the change in control and be settled at such time. If a change in control occurs while Mr. Lederer is employed with the Company, all vested RSUs will be settled upon such event.

As a condition to Mr. Lederer's employment, he also executed a restrictive covenant agreement, which requires Mr. Lederer to comply with a perpetual confidentiality covenant, a non-solicitation/non-hire covenant extending for 12 months after the termination of his employment for any reason, as well as a non-competition covenant extending for 12 months after the termination of his employment for any reason provided he has been employed with the Company for more than 90 days.

⁽¹⁾ These columns reflect the threshold, target and maximum award opportunities for performance-based cash awards payable under the 2018 VIP.

These columns reflect the threshold, target and maximum award opportunities for performance-based RSU awards ⁽²⁾granted to our named executive officers during 2018 and, as described in footnote (5) below, the threshold, target and maximum award opportunities for the 2017 performance-based RSU awards.

⁽³⁾ This column reflects the number of shares subject to the time-based RSU awards granted to our named executive officers during 2018.

⁽⁴⁾ The amounts reported in this column reflect the fair value of these awards on the grant date as determined under the principles used to calculate the value of equity awards for purposes of our audited consolidated financial statements. For the assumptions and methodologies used to value the awards reported in this column of the table above, see footnote (2) to the Summary Compensation Table above.

While the Compensation Committee approved the fiscal year 2017 performance-based RSU awards in 2017, the Compensation Committee did not establish the performance-based vesting criteria for the performance-based RSUs until February 2018. Since this criteria was not established until 2018, under FASB ASC Topic 718 the ⁽⁵⁾performance-based RSUs approved by the Compensation Committee in 2017 are not considered to have been “granted” until 2018. Accordingly, and in accordance with applicable SEC rules, the performance-based RSUs approved by the Compensation Committee in 2017 are included in the table above as a grant made in 2018, along with the fiscal 2018 annual long-term incentive awards.

Description of Plan-Based Awards

The non-equity incentive plan awards reported in the table above were granted under the 2018 Verso Incentive Plan. For a description of the material terms of these awards, see “Compensation Discussion and Analysis — Current Executive

Compensation Program Elements — Annual Cash Incentive Plan: 2018 Verso Incentive Plan.”

Each of the equity incentive awards reported in the “Grants of Plan-Based Awards During Fiscal Year 2018” table above was granted under, and is subject to, the terms of our Performance Incentive Plan (“PIP”), which we established upon emerging from our Chapter 11 reorganization. The PIP is administered by the Compensation Committee. The Compensation Committee has authority to interpret the plan provisions and make all required determinations under the plan. This authority includes making required proportionate adjustments to outstanding awards upon the occurrence of certain corporate events such as reorganizations, mergers and stock splits, and making provision for any tax withholding obligations incurred in respect of awards to be satisfied. Awards granted under the plan are generally only transferable to a beneficiary of a named executive officer upon his death. However, the Compensation Committee may establish procedures for the transfer of awards to other persons or entities, provided that such transfers comply with applicable securities laws and, with limited exceptions set forth in the plan document, are not made for value.

Under the terms of awards granted under the PIP, if there is a change in control of Verso, outstanding awards granted under the plan (including awards held by our named executive officers) will generally terminate unless the Compensation Committee provides for the substitution, assumption, exchange or other continuation of the outstanding awards. The Compensation Committee has discretion to provide for outstanding awards to become vested and/or to be canceled in exchange for the right to receive a cash payment in connection with the change in control transaction.

Each of the equity awards granted to our named executive officers in 2018 was in the form of RSUs. Each RSU represents the right to receive, upon vesting, one share of our Class A common stock. If any dividends are paid by the Company while the RSUs are outstanding, the executive would be credited with additional RSUs that are subject to the same vesting and payment terms as the underlying RSUs. For a description of the vesting terms of the equity incentive awards reported in the table above, see “Compensation Discussion and Analysis — Current Executive Compensation Program Elements — Equity-Based Awards.”

⁽¹⁾ The market value of the unvested RSUs is computed based on the \$22.40 closing sale price per share of our Class A common stock on the NYSE on December 31, 2018.

⁽²⁾ The unvested portion of this RSU award is scheduled to vest in two equal installments on February 1, 2020 and February 1, 2021, generally subject to the executive's continued employment or service through each vesting date.

⁽³⁾ The unvested portion of this RSU award is scheduled to vest in two equal installments on January 1, 2021 and January 1, 2022, generally subject to the executive's continued employment or service through each vesting date.

These are the outstanding unvested portions of the performance-based RSUs granted to our named executive officers in 2018. The unvested portions of these awards are scheduled to vest on a three-year "cliff" basis on the first date following December 31, 2020 on which the Compensation Committee determines that the performance vesting conditions have been achieved by the Company, generally subject to the executive's continued employment or service through the vesting date. The number of performance-based RSUs that will vest on that date will be ⁽⁴⁾ determined by multiplying the target number of RSUs shown in the chart above by a percentage between 0% and 150%, determined based on the CAGR of the Company's stock price over the 2018-2020 performance period relative to the CAGR during that period of the stock prices over that same period for the Company's peer group. Performance-based RSU grants are included in this column assuming the maximum level of performance is achieved.

These are the outstanding unvested portions of the performance-based RSUs that were awarded to our named executive officers in 2017 but were deemed to be granted to our named executive officers in 2018 under SEC rules. The unvested portions of these awards are scheduled to vest on a three-year “cliff” basis on the first date following December 31, 2019 on which the Compensation Committee determines that the performance vesting conditions have been achieved by the Company, generally subject to the executive’s continued employment or service through (5) the vesting date. The number of performance-based RSUs that will vest on that date will be determined by multiplying the target number of RSUs shown in the chart above by a percentage between 0% and 150%, determined based on the CAGR of the Company’s stock price over the 2017-2019 performance period relative to the CAGR during that period of the stock prices over that same period for the Company’s peer group. Performance-based RSU grants are included in this column assuming the maximum level of performance is achieved.

(6) The unvested portion of this RSU award is scheduled to vest on July 28, 2019, generally subject to the executive’s continued employment or service through the vesting date.

(7) The unvested portion of this RSU award is scheduled to vest in two equal installments on January 1, 2020 and January 1, 2021, generally subject to the executive’s continued employment or service through each vesting date.

Retirement Benefits

Verso provides benefits to our executive officers and other eligible employees under the following retirement plans and programs as a means of attracting and retaining qualified employees:

- Retirement Savings Plan, a tax-qualified, 401(k) defined contribution plan;

- Supplemental Salary Retirement Program, a tax-qualified defined contribution program implemented under the Retirement Savings Plan;

- Deferred Compensation Plan, a non-qualified defined contribution plan; and

- Executive Retirement Program, a non-qualified defined contribution program implemented under the Deferred Compensation Plan.

Information about the benefits that we provide under these retirement plans and programs on behalf of our executive officers is set forth in the sections below as well as the Summary Compensation Table.

Retirement Savings Plan. The Retirement Savings Plan (“Retirement Plan”) is a tax-qualified, 401(k) defined contribution plan which in 2018 permitted eligible employees to defer the receipt of up to the lesser of 85% or \$18,500 of their employment compensation on a pre-tax basis, or if an employee is age 50 or over, to defer up to \$6,000 in additional compensation up to a limit of \$24,500. Employees also may defer amounts of their employment compensation in excess of these limits on an after-tax basis. The employee deferrals of employment compensation are subject to certain limits imposed by the Internal Revenue Code. In addition, Verso makes matching contributions for employees who defer a portion of their employment compensation under the Retirement Plan. We match 100% of the first 3%, and 50% of the second 3%, of the employees’ deferrals. The employee deferrals under the Retirement Savings Plan are immediately and fully vested and non-forfeitable. For employees hired by us before January 1, 2009, our matching contributions under the Retirement Plan are fully vested and non-forfeitable. For employees hired by us on or after January 1, 2009 and prior to November 1, 2017, our matching contributions under the Retirement Plan were subject to three-year “cliff” vesting measured from the date on which an employee’s employment with us commenced, such that after the employee had been continuously employed by us for three years, all of our past and future matching contributions became fully vested and non-forfeitable. Since November 1, 2017, matching contributions under the Retirement Plan are immediately and fully vested.

Supplemental Salary Retirement Program. The Supplemental Salary Retirement Program (“SSRP”) is a tax-qualified defined contribution program implemented under the Retirement Plan pursuant to which Verso may make discretionary contributions. Under the SSRP, Verso may make an annual contribution to each eligible employee’s account under the Retirement Plan of 3% of an employee’s eligible compensation. An employee’s eligible compensation consists of the employee’s salary, bonus and cash incentive compensation paid during the immediately preceding year. For all of our employees, our SSRP contributions are subject to three-year “cliff” vesting measured from the date on which an employee’s employment with us commences, such that after the employee has been continuously employed by us for three years, all of our past and future contributions become fully vested and non-forfeitable.

Deferred Compensation Plan. The Deferred Compensation Plan (“DC Plan”) is a non-qualified plan that permits eligible employees to defer the receipt of up to 85% of their base salary and up to 100% of their cash incentive compensation, by contributing such amounts to their accounts under the DC Plan. The DC Plan also permits Verso to make matching contributions and discretionary contributions to employees’ accounts under the DC Plan. We match 100% of the first 3%, and 50% of the second 3%, of the employees’ deferrals under the DC Plan, with the requirement that the employee must not qualify for our matching contributions under the Retirement Plan. The employee deferrals under the DC Plan, as well as company matching contributions are immediately and fully vested.

Executive Retirement Program. The Executive Retirement Program (“ERP”) is a program implemented under the DC Plan for the benefit of our executives and selected senior managers. Under the ERP, Verso may make an annual discretionary contribution to each eligible employee’s account under the DC Plan. Our ERP contribution is equal to between 4% and 10% of an employee’s eligible compensation, depending on the employee’s employment pay grade with us. An employee’s eligible compensation consists of the employee’s base salary and target-level incentive award under the VIP, in each case determined as of January 1 of the year for which our ERP contribution is made.

account.

(2) The executive's contributions in each case are included in the 2018 "Salary" column of the Summary Compensation Table.

(3) The registrant's contributions in each case are included in the 2018 "All Other Compensation" column of the Summary Compensation Table.

The balances at the end of 2018 in this column reflect the following aggregate amounts that were previously reported as compensation in the appropriate columns of the Summary Compensation Table for years through and including 2018 to the extent the executive was a named executive officer for the applicable year (amounts previously reported as compensation in the Summary Compensation Table may exceed the corresponding balance at last fiscal year end due to the crediting of earnings and losses under the applicable plan): Mr. DiSantis - \$63,701 (DCP - D), \$61,445 (DCP - M), and \$165,000 (ERP); Mr. Campbell - \$66,431 (DCP - D), \$62,070 (DCP - M), and \$165,835 (ERP); Mr. Weinhold - \$217,228 (DCP - D), \$230,137 (DCP - M), and \$120,690 (ERP); Mr. St. John - \$48,135 (DCP - D), \$38,294 (DCP - M), and \$95,379 (ERP); Mr. Sawyer - \$61,249 (DCP - D), and \$48,324 (ERP).

Potential Payments upon Termination of Employment or Change in Control

The following section provides information about our named executive officers' potential benefits upon the termination of their employment or a change in control of Verso under our plans, programs, policies and agreements that were in effect in 2018.

Severance Policy. Verso has adopted and implemented a severance policy for the benefit of our salaried employees, including our executive officers other than Mr. DiSantis, and specific groups of hourly employees whose employment with us is terminated under certain circumstances. The severance policy applies in the event that (1) we terminate the employee's employment without cause (as defined in the policy), (2) we eliminate the employee's position and do not offer him or her a similar position, (3) we close the facility where the employee works and do not offer him or her a similar position at another Verso facility, or (4) we sell the facility where the employee works and neither the purchaser (or its affiliate) nor Verso offers him or her a similar position. The principal benefit under the severance policy is a termination allowance payable in cash to the terminated employee which is based, in large measure, on the employee's job-tier, the employee's years of applicable service with us and our predecessors, and his or her annual base salary or wages in effect immediately prior to the termination of employment. The amount of the termination allowance equals the sum of (a) a minimum number of weeks of eligible pay based on the employee's job tier and (b) for all employees except our executive officers, a number of additional weeks of eligible pay determined according to a formula that takes into account the employee's years of eligible service, subject in each case to the total amount of the termination allowance not exceeding 13 to 52 weeks of eligible pay, depending on employee's job tier and years of service. Our executive officers are entitled to receive a termination allowance equal to 52 weeks of eligible pay, regardless of their years of eligible service. The Severance Policy also gives us the discretion to offer other termination benefits, such as subsidized medical and dental insurance coverage for a specified period after the termination of employment and outplacement services appropriate for the employee's position with us.

Severance Benefits Provided under Agreements with Named Executive Officers. As described above, the employment agreement with Mr. DiSantis provided for him to receive specified benefits in the event of certain terminations of his employment. In addition, we have entered into CNC agreements with each of our executive officers other than Mr. DiSantis which, among other things, provide for them to receive specified benefits in the event of any termination of their employment. Information about the potential and actual severance benefits provided for in these agreements between us and our named executive officers is set forth in the "Agreements with Named Executive Officers" section above.

In connection with Mr. DiSantis' termination on April 5, 2019, he entered into a Separation Agreement with the Company pursuant to which he will receive the severance benefits provided in his employment agreement, as at forth in the Separation Agreement, and as described on page 14, under "DiSantis Severance Benefits".

PIP and RSU Award Agreements. In 2016, 2017 and 2018, Verso granted RSUs under the PIP to our executive officers and certain key senior managers as part of their annual compensation and, with respect to Mr. DiSantis, in connection with his commencing employment with us. The PIP, together with the award agreements thereunder, contain provisions addressing the effects on the RSUs of the termination of an executive officer's employment with us. The PIP provides that its administrator has the authority to establish the effect, if any, of a termination of employment on the rights and benefits of each award made under the PIP and, in so doing, may make distinctions based upon, among other things, the cause of termination and type of award. The form of award agreement under which the RSU awards were granted states that, as a general rule, upon the termination of a grantee's employment, regardless of the reason (whether with or without cause, voluntarily or involuntarily), any unvested portion of the RSU award that has not become vested on or before the termination of employment date will terminate.

However, the RSU award agreement for Mr. DiSantis' 2017 and 2018 grants provided for the following vesting acceleration benefits:

Upon the consummation of a change of control (as defined in the award agreement), all unvested time-based RSUs fully vest and all performance-based RSUs vest at target level.

If Mr. DiSantis' employment were terminated (1) due to his death or disability or (2) as a result of a termination of employment constituting a qualifying termination, which was defined in his award agreement as a termination of employment either (a) by us without cause (as defined in the award agreement) or (b) by Mr. DiSantis for good reason (as defined in the award agreement); then, subject to the condition that Mr. DiSantis provide us with a general release in a form provided by us, the next tranche of time-based RSUs scheduled to vest following the termination date would have vested, and the performance-based RSUs would have vested at target level.

The award agreements for the 2017 and 2018 RSU awards for each of the named executive officers provide for the following vesting acceleration benefits:

If the executive's employment with us is terminated and the termination is a qualifying termination – which is defined in each award agreement as a termination of employment either (1) by us without cause (as defined in the award agreement) or (2) by the executive for good reason (as defined in the award agreement), in each case, within twelve months following a change of control (as defined in the award agreement) – then (a) all unvested time-based RSUs will vest and, (b) with respect to the performance-vesting RSUs, (i) if Verso is the surviving company following such change of control, then a pro-rata number of RSUs that may be eligible to vest will be determined on such qualified termination based on the number of days the executive was employed by Verso during the performance period, with such number of RSUs to vest at the end of the performance period based on actual performance, or (ii) if Verso is not the surviving company following such change of control, then all performance-based RSUs will vest at target level.

If the executive's employment is terminated due to his death or disability, then the next tranche of time-based RSUs that is scheduled to vest following the termination date will vest and all performance-based RSUs will vest at target level.

If the executive's employment is terminated as a result of a qualified termination, then, subject to the condition that the executive provide us with a general release in a form provided by us, (1) the next tranche of time-based RSUs that is scheduled to vest following the termination date will vest, and (2) with respect to the performance-based RSUs, a pro-rata number of RSUs that may be eligible to vest will be determined on such qualified termination based on the number of days the executive was employed by Verso during the performance period, with such number of RSUs to vest at the end of the performance period based on actual performance.

The award agreements for the 2016 RSU awards for Messrs. Campbell, Weinhold, St. John and Sawyer provide that if the executive's employment is terminated in a qualifying termination (as described above) or due to the executive's death or disability, then all unvested RSUs subject to the executive's award will vest, subject, in the case of a qualifying termination, to the condition that the executive provide us with a general release in a form provided by us.

Vacation Policy. Verso has a vacation policy that, among other things, provides for a payment in lieu of any earned, unused vacation upon the termination of an eligible employee's employment under certain circumstances. Under the policy, we will provide vacation pay to a terminated employee if the termination of employment is (1) by the employee (referred to as a "voluntary" termination) and the employee has completed at least six months of employment with us and gives us at least two weeks of prior notice of termination, (2) by us (referred to as an "involuntary" termination) and the employee has completed at least six months of employment with us, or (3) due to the employee's retirement, death or disability. Under such circumstances, a terminated employee (or his or her estate) is entitled to receive a payment equal to the daily equivalent of his or her base salary multiplied by the number of earned, unused vacation days during the calendar year in which the termination date occurred.

Quantification of Potential Termination and Change in Control Benefits. The following table provides the estimated value of the benefits that would be payable to the named executive officers if a termination of their employment in the circumstances described above and/or a change in control of the Company had occurred on the last business day of fiscal 2018. (In the table below, "Involuntary Termination" refers to a termination of the executive's employment by us without cause or a termination of employment by the executive for good reason.)

For Mr. DiSantis, the amount is equal to the severance and bonus to which he would be entitled pursuant to the terms of his employment agreement. For all other named executive officers, the amount is equal to one year of salary pursuant to the terms of our severance policy.

This column shows the Company's estimated costs to provide health and welfare benefits for the executive and his eligible dependents following termination of employment (including, as applicable, the estimated costs to reimburse the executive for taxes imposed with respect to these benefits). This benefit is part of the description of benefits following a termination of employment pursuant to the agreements described above under "Agreements with the Named Executive Officers," and as such is not also included in the calculation represented in footnote 4 to this table.

This value is the closing price of our common stock on the NYSE on the last trading day of 2018 multiplied by the number of shares subject to the accelerated portion of the award. With respect to performance-vesting RSUs held by Mr. DiSantis, in the case of an Involuntary Termination, Death/Disability, Change in Control/No Termination and Change in Control/Involuntary Termination, the value of the applicable target number of shares subject to the awards has been included. With respect to performance-vesting RSUs held by each of the other named executive officers, (a) in the case of Death/Disability and Change in Control/Involuntary Termination in connection with a transaction in which the Company did not survive as a public company, the value of the applicable target number of shares subject to the awards has been included, and (b) in all other circumstances referenced in the table, no value for performance-vesting RSUs has been included because the awards would remain subject to the applicable performance-based vesting conditions (as they also would in the case of a Change in Control/Involuntary Termination assuming the Company survives as a public company).

The amounts in this column reflect all other payments that the executive would have been entitled to receive upon termination of employment as of December 31, 2018 in consideration for his covenant not to compete following a termination of employment pursuant to the CNC agreements described above under "Agreements with the Named Executive Officers," specifically:

- any unpaid annual incentive award for any calendar year completed on or before the termination date;

payments equal to 180% (for Mr. Campbell) or 175% (for Messrs. Weinhold, St. John and Sawyer) of his base salary, payable in 12 equal monthly installments;

reimbursement of the cost of converting his group life insurance coverage to an individual policy and the premiums on the individual policy for up to two years after the termination date, grossed up to cover the cost of income taxes;

- a contribution to his account under the DC Plan in an amount equal to the projected value of certain lost retirement benefits consisting of our contributions under the Retirement Plan, SSRP, DC Plan, and ERP that

we would have made if he had remained actively employed with us for two years after the termination date.

CEO Pay Ratio Disclosure

Pursuant to the Securities Exchange Act of 1934, as amended, we are required to disclose in this Amendment the ratio of the total annual compensation of Mr. DiSantis, our former Chief Executive Officer, to the median of the total annual compensation of all of our employees (excluding Mr. DiSantis). Based on SEC rules for this disclosure and applying the methodology described below, we have determined that Mr. DiSantis' total compensation for 2018 was \$7,587,528, and the median of the total 2018 compensation of all of our employees (excluding Mr. DiSantis) was \$97,475. Accordingly, we estimate the ratio of Mr. DiSantis' total compensation for 2018 to the median of the total 2018 compensation of all of our employees (excluding Mr. DiSantis) to be 78 to 1.

We identified the median employee by taking into account the total 2018 compensation reflected in our tax records for all individuals, excluding Mr. DiSantis, who were employed by us or one of our affiliates on December 1, 2018, the first day of the last month of our fiscal year. We included all employees, whether employed on a full-time, part-time or seasonal basis. We did not make any assumptions, adjustments or estimates with respect to their total 2018 compensation reflected in our tax records, except that we annualized the compensation for any full-time employees who were not employed by us for all of 2018. We believe total compensation reflected in our tax records for all employees is an appropriate measure because we do not distribute annual equity awards to all employees.

Once the median employee was identified as described above, that employee's total annual compensation for 2018 was determined using the same rules that apply to reporting the compensation of our named executive officers (including Mr. DiSantis) in the "Total" column of the Summary Compensation Table. The total compensation amounts included in the first paragraph of this pay-ratio disclosure were determined based on that methodology.

As discussed in footnotes (2) and (3) to the Summary Compensation Table, Mr. DiSantis' total compensation for 2018 as reported in the Summary Compensation Table (\$7,587,528) included the grant date fair value of certain performance-based RSUs that were approved by the Compensation Committee in 2017 but are considered to have been granted in 2018 because the Compensation Committee did not establish the applicable performance-based vesting criteria for the awards until February 2018. If the grant date fair value of these awards was excluded from Mr. DiSantis' total compensation for 2018, his total compensation for 2018 would have been \$4,569,886 and the estimated ratio of Mr. DiSantis' total compensation for 2018 to the median of the total 2018 compensation of all of our employees (excluding Mr. DiSantis) would have been 47 to 1.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Policy Relating to Related-Person Transactions

Verso’s policy, as set forth in the Audit Committee’s charter, is that all transactions with related persons, as contemplated in Item 404(a) of the SEC’s Regulation S-K, and regardless of the dollar amount of the transaction, are subject to review and approval by the Audit Committee. Since January 1, 2018, no transaction between Verso and any related person has been reviewed or approved.

Director Independence

The NYSE requires that a listed company have a majority of independent directors as well as an audit committee, a compensation committee, and a corporate governance and nominating committee composed entirely of independent directors. Our board of directors has affirmatively determined that four of our current directors – Alan J. Carr, Eugene I. Davis, Steven D. Scheiwe and Jay Shuster – are independent under the NYSE’s listing standards. In making this determination, our board of directors has affirmatively determined that each of these directors meets the objective criteria for independence set forth by the NYSE and that none of them has any relationship, direct or indirect, to us other than as stockholders or through their service as our directors. In addition, our board of directors previously determined that Robert M. Amen and Jerome L. Goldman were independent directors under the NYSE’s listing standards during their service on the board of directors in 2018 through our 2018 annual meeting of stockholders. Mr. DiSantis was not independent under the NYSE’s listing standards during his service on the board of directors through his departure on April 5, 2019, as a result of serving as our President and Chief Executive Officer during such time.

Item 14. Principal Accountant Fees and Services

Audit and Non-Audit Services and Fees of Independent Registered Public Accounting Firm

Pursuant to the Audit Committee’s charter, to help ensure the independence of Verso’s independent registered public accounting firm, all auditing services, internal control-related services and permitted non-audit services (including the terms thereof) to be performed for us by our independent registered public accounting firm must be pre-approved by the Audit Committee, subject to the *de minimis* exceptions for non-audit services described in Section 10A(i)(1)(B) of the Exchange Act, which are approved by the Audit Committee prior to the completion of the audit. The Audit Committee may delegate to a subcommittee of its members the authority to grant the required approvals, provided that any exercise of such authority by the subcommittee is presented to the full Audit Committee at its next scheduled meeting.

The Audit Committee reviewed and pre-approved all services provided by Deloitte & Touche LLP in 2017 and 2018 in accordance with the pre-approval policies and procedures described above and concluded that the services provided were compatible with maintaining its independence in the conduct of its auditing functions.
