REFERENCE MATERIALS FOR GENERAL MEETING OF SHAREHOLDERS

Item No. 1: Dividend from Surplus

Regarding our term-end dividend, we propose a dividend as described below in order to respond to your loyal support. As we have already paid an interim dividend of 55.00 yen per share, the full-year dividend will be 110.00 yen per share, which is the same amount with the dividend for the previous Business Term.

- (1) Type of dividend Cash

 - (2) Matters concerning allocation of dividend and its total amount
55.00 yen per one common share of the Company
Total amount of dividend 67,896,852,045 yen

 - (3) Effective date of the dividend from surplus March 30, 2009
-

Item No. 2: Partial Amendment to the Articles of Incorporation

1. Reasons for Amendment

- (1) Following the enforcement of the Law Partially Amending the Law Concerning Book-Entry Transfer of Corporate Bonds and Other Securities for the Purpose of Streamlining the Settlement of Trades of Stocks, Etc. (Law No. 88 of 2004; hereinafter, the Streamlining Settlement Law) on January 5, 2009, all stocks issued by listed companies have been simultaneously shifted to the Book-Entry Transfer System (the share certificates dematerialization).

Consequently, the Company will make necessary amendments throughout the Articles of Incorporation, such as deleting provisions assuming the existence of share certificates, adjusting the numbering of articles and adding supplementary provisions.

With respect to Article 7 of the current Articles of Incorporation, it is deemed that a resolution by a General Meeting of Shareholders has been made for an amendment of the Articles of Incorporation to repeal the said article, effective as of January 5, 2009, pursuant to paragraph 1, Article 6 of the Supplementary Provisions of the Streamlining Settlement Law.

- (2) On the occasion of the share certificates dematerialization, the Company has eliminated handling fees relating to shares of the Company. Consequently, the Company will make necessary amendments to Article 11 of the current Articles of Incorporation.

2. Substance of Amendment

The substance of the amendment is as follows:

Note: Certain minor or typographical changes made to the original Japanese Articles of Incorporation are not reflected in this English translation. The underlined parts do not always correspond to the amended parts in the original Japanese Articles of Incorporation.

(The amended parts are underlined.)

Item No. 4: Grant of Retirement Allowance to a Director to Retire

It is proposed that retirement allowance be granted to Mr. Shunichi Uzawa, the Director retiring at the end of this Meeting, in appreciation of his service during his term in office, within the due amount based upon certain standards stipulated by the Company, and that the determination of the actual amount and the time and method of granting, etc. be entrusted to the Board of Directors.

Brief personal record of the Director to retire is as follows:

Name	Brief personal record
------	-----------------------

Shunichi Uzawa	As of Mar. 2004: Director (present)
----------------	--

Item No. 5: Grant of Bonus to Directors

It is proposed that bonus be granted to the twenty-five Directors as of the end of this term, in appreciation of their services during this Business Term, which totals 243,900,000 yen considering the business results for this Business Term and the members to be granted, etc.

Item No.6: Issuance of Share Options as Stock Options Without Compensation

Pursuant to the provisions of Articles 236, 238 and 239 of the Corporation Law (*kaisha-ho*), we would like you to approve the issuance of share options (*shinkabu yoyaku-ken*) as stock options without compensation to the Company's directors, executive officers and senior employees, and delegation of the details of offering to the Company's Board of Directors.

Also, we would like you to approve the specific method for calculating the amount of remuneration for Directors as specified in Item 2, Paragraph 1 of Article 361 of the Corporation Law and the specific contents of remuneration that are not monetary as specified in Item 3 of the same Paragraph since share options to be allocated to Directors are considered as remunerations to Directors as stipulated in Paragraph 1 of Article 361 of the Corporation Law.

1. The Reason for the Necessity to Solicit Those Who Subscribe for Share Options on Particularly Favorable Conditions

Share options will be issued to the Company's directors, executive officers and senior employees, without compensation, for the purpose of further enhancing their motivation and morale to improve the Company's performance, with a view to long-term improvement of its corporate value.

2. Grantees of Share Options

The Company's directors, ten (10) executive officers, and not more than thirty-five (35) senior employees who are entrusted with important functions.

3. Maximum Number of Share Options

The maximum number of share options that the Board of Directors will be authorized to determine matters on offering, based on the delegation by resolution of the said shareholders meeting (the **Resolution**), will be eleven thousand (11,000).

4. Cash Payment for Share Options

No cash payment will be required for the share options that the Board of Directors will be authorized to determine matters on offering, based on the delegation by the Resolution.

5. Features of Share Options

The features of share options that the Board of Directors will be authorized to determine matters on offering, based on the delegation by the Resolution, will be as follows:

(1) Number of Shares to be acquired upon Exercise of a Share Option

The number of shares to be acquired upon Exercise of one (1) share option (the **Allotted Number of Shares**) shall be one hundred (100) common shares, and the maximum total number of shares to be delivered due to the exercise of share options shall be one million one hundred thousand (1,100,000) shares.

However, if the Company effects a share split (including allotment of common shares without compensation; this inclusion being applicable below) or a share consolidation after the date of the allotment of the share options, the Allotted Number of Shares will be adjusted by the following calculation formula:

Allotted Number of Shares after Adjustment

= Allotted Number of Shares before Adjustment x Ratio of Share Splitting or Share Consolidation.

Such adjustment will be made only with respect to the number of issued share options that have not then been exercised, and any fractional number of less than one (1) share resulting from such adjustment will be rounded off.

(2) Amount of Property to Be Contributed upon Exercise of Share Options

The amount of property to be contributed upon the exercise of each share option will be the amount obtained by multiplying the amount to be paid in for one share (the **Exercise Price**) to be delivered upon the exercise of a share option by the Allotted Number of Shares. The Exercise Price will be the product of the multiplication of 1.05 and the closing price of one (1) common share of the Company in ordinary trading at the Tokyo Stock Exchange as of the date of allotment of the share options (or if no trade is made on such date, the date immediately preceding the date on which such ordinary shares are traded), with any fractional amount of less than one (1) yen to be rounded up to one (1) yen.

The Exercise Price will be adjusted as follows:

- (i) If the Company effects a share split or a share consolidation after the date of the allotment of the share options, the Exercise Price will be adjusted by the following calculation formula, with any fractional amount of less than one (1) yen to be rounded up to one (1) yen:

Exercise Price after Adjustment

= Exercise Price before Adjustment x $\frac{1}{\text{Ratio of Share Splitting or Share Consolidation}}$

- (ii) If, after the date of allotment of share options, the Company issues common shares at a price lower than the then market price thereof or disposes common shares owned by it, the Exercise Price will be adjusted by the following calculation formula, with any fractional amount of less than one (1) yen to be rounded up to one (1) yen; however, the Exercise Price will not be adjusted in the case of the exercise of share options:

Exercise Price after Adjustment = Exercise Price before Adjustment x

Number of Issued and Outstanding Shares + **Number of Newly Issued Shares x Payment amount per Share**
Market Price

Number of Issued and Outstanding Shares + Number of Newly Issued Shares

The Number of Issued and Outstanding Shares is the number of shares already issued by the Company after subtraction of the number of shares owned by the Company. In the case of the Company's disposal of shares owned by it, the Number of Newly Issued Shares will be replaced with the Number of Own Shares to be Disposed.

(iii) In the case of a merger, a company split or capital reduction after the date of allotment of share options, or in any other analogous case requiring the adjustment of the Exercise Price, the Exercise Price shall be appropriately adjusted within a reasonable range.

(3) Period during Which Share Options Are Exercisable

From May 1, 2011 to April 30, 2015.

(4) Matters regarding Stated Capital and Capital Reserves Increased When Shares Are Issued upon Exercise of Share Options

(i) The increased amount of stated capital will be one half (1/2) of the maximum amount of increases of stated capital, etc. to be calculated in accordance with Article 40, Paragraph 1 of the Companies Accounting Regulations (*Kaisha Keisan Kisoku*). Any fractional amount of less than one (1) yen resulting from such calculation will be rounded up to one (1) yen.

(ii) The increased amount of capital reserves shall be the amount of the maximum amount of increases of stated capital, etc., mentioned in (i) above, after the subtraction of increased amount of stated capital mentioned in (i) above.

(5) Restriction on Acquisition of Share Options by Transfer

An acquisition of share options by way of transfer requires the approval of the Board of Directors.

(6) Events for the Company's Acquisition of Share Options

If a proposal for the approval of a merger agreement under which the Company will become an extinguishing company or a proposal for the approval for a share exchange agreement or a share transfer plan under which the Company will become a wholly-owned subsidiary is approved by the Company's shareholders at a shareholders' meeting (or by the Board of Directors if no resolution of a shareholders meeting is required for such approval), the Company will be entitled to acquire the

share options, without compensation, on a date separately designated by the Board of Directors.

(7) Handling of Fractions

Any fraction of a share (less than one (1) share) to be delivered to any holder of share options who has exercised share options will be disregarded.

(8) Other Conditions for Exercise of Share Options

(i) One share option may not be exercised partially.

(ii) Each holder of share options must continue to be a director, executive officer or employee of the Company until the end of the Company's general meeting of shareholders regarding the final business term within two (2) years from the end of the Ordinary General Meeting of Shareholders for the 108th Business Term of the Company.

(iii) Holders of share options will be entitled to exercise their share options for two (2) years, and during the exercisable period, even after they lose their positions as directors, executive officers or employees. However, if a holder of share options loses such position due to resignation at his/her initiative, or due to dismissal or discharge by the Company, his/her share options will immediately lose effect.

(iv) No succession by inheritance is authorized for the share options.

(v) Any other conditions for the exercise of share options may be established by the Board of Directors.

6. Specific Method of Calculation of Remuneration to Directors

The amount of share options to be issued to the directors of the Company, as remuneration, will be the amount to be obtained by multiplying the fair market value per share option as of the allotment date thereof by the total number (not more than five thousand seven hundred (5,700) share options) of share options to be allotted to the directors existing as of such allotment date. The fair market value of a share option will be calculated with the use of the Black-Scholes model on the basis of various conditions applicable on the allotment date. Upon the approval of Proposal No. 3, regarding election of directors, the number of directors will be Twenty-five (25).

To Our Shareholders

We are pleased to present our report for the 108th business term (from January 1, 2008 to December 31, 2008).

Regarding economic conditions during the business term, the financial market turmoil that began in the U.S. eventually affected the real economy throughout the world, and the global economies followed a downward trend. Toward the end of the term, in particular, due to the abrupt appreciation of the yen in the foreign exchange markets and drastic stock market downturns, economic decline had further amplified and serious conditions were created.

Under these circumstances, the Canon Group, in the third year of Phase III (2006 to 2010) of our Excellent Global Corporation Plan, took steps to improve our business performance by building a stable business base. Full-scale efforts were made to energetically move ahead with measures in the areas of development, production and sales, as well as focusing on cost reduction, inventory management and other measures. However, profits declined significantly under the effect of global economic upheaval.

Regarding dividends, though business conditions are severe, we propose a term-end dividend of 55.00 yen per share at the Ordinary General Meeting of Shareholders for the 108th Business Term in appreciation for the ongoing support of our shareholders. Combined with the interim dividend (55.00 yen per share), dividends for the year will be 110.00 yen per share which is the same amount with the previous Business Term.

Conditions for the Canon Group are expected to become more difficult in the future, but we will strive to improve our management quality and remain united to overcome these difficult circumstances.

We look forward to your continued support and encouragement.

BUSINESS REPORT

(From January 1, 2008 to December 31, 2008)

1. Current Conditions of the Canon Group

(1) Business Progress and Results

n General Business Conditions

Reviewing Japanese and overseas economies during the term, the U.S. economy entered a recessionary phase by weak domestic demand due to downturns in residential investment, capital investments and consumer spending, and by worsening employment conditions. The European economies also contracted with unabating drops in residential prices, cooling consumer spending, export weakness, etc. Asian economies in general entered a trend of reduced growth due to the slowing European and U.S. economies, despite continued growth in China. Meanwhile, against the background of global economic deceleration, the Japanese economy moved along with a touch of stagnation which, toward the end of the term, developed into clear signs of serious difficulties as indicated by major declines in corporate profits and resulting reductions in capital investments. In the foreign exchange markets, compared with the previous term, the yen rose substantially during the term against both the U.S. dollar and the euro.

As to the conditions of the markets in which the Canon Group operates, although demand for digital cameras grew as a whole, prices for compact types fell. Meanwhile, demand was generally flat for networked multifunctional devices, inkjet printers, laser beam printers and other business machines. Demand for mirror projection mask aligners for LCDs expanded greatly as increased demand for large-size LCD panels energized capital investments. On the other hand, demand for semiconductor production equipment weakened, due to ongoing capital investment restraint by semiconductor manufacturers.

Under these business conditions, the Canon Group designated the term, which is the third year of Phase III (2006 to 2010) of our Excellent Global Corporation Plan, as a year for firmly positioning toward achieving 2010 objectives, and took various initiatives.

To begin with, in the area of development, we moved ahead with efforts to integrate our business and technology strategies, launched structural improvements in the R&D field aimed at radically strengthening and streamlining of our R&D capabilities and formulated a technology roadmap for the future.

In the area of production, the entire Group worked to accelerate automation and in-house production in order to strengthen our manufacturing base and boost productivity. We enhanced our facilities with the aim of automating production of the Group. For example, the Oita Office of Oita Canon Materials Inc. installed an integrated production line for ink cartridges, and the Moriyama Office of Canon Machinery Inc. established a plant that manufactures automatic assembly machines for toner and ink cartridges for Canon Group. Meanwhile, we also established an R&D building for CMOS sensors and other semiconductor devices at our Kawasaki Office and moved forward with efforts to strengthen our in-house production infrastructure. Additionally, we embarked on construction of a new toner cartridge plant at Canon Virginia, Inc. in the U.S., in order to create an optimal production structure by locating production facilities in areas where products are consumed. On another front, Canon Finetech Inc. made Nisca Corporation into a wholly owned subsidiary with the aim of strengthening development capabilities and improving productivity.

Meanwhile, we acquired shares of Hitachi Displays, Ltd. to accelerate commercialization of organic electro-luminescence (EL) displays and to put small and medium-sized displays into business operations.

In the area of sales, we focused on structural reinforcement by means such as reorganization of Group sales subsidiaries in the area of solutions business whose importance is increasing. Canon Marketing Japan Inc. established Canon IT Solutions Inc. by integrating domestic Group companies, and offered high-value-added services. Also, Canon U.S.A., Inc. integrated the regional solution companies and acquired NEWCAL Industries Inc., which led to strengthening its system to pursue nationwide sales and services.

As described above, the resources of the entire Canon Group were brought to advance measures on various fronts. Despite our efforts, under the effect of worsening business conditions, we recorded net sales of 4,094.2 billion yen (down 8.6% from the previous term), income before income taxes and minority interests of 481.1 billion yen (down 37.4%), and net income of 309.1 billion yen (down 36.7%), all on a consolidated basis. On a non-consolidated basis, we recorded net sales of 2,721.1 billion yen (down 5.8%), ordinary profit of 359.1 billion yen (down 35.0%), and net income of 224.1 billion yen (down 38.9%).

1 Business Machines Operations

Office Imaging Products

Regarding the imageRUNNER series of office-use digital networked multifunctional devices, as the Japanese and overseas markets for multifunctional devices continued to shift toward color machines and away from black-and-white, we launched nine new models for five product types of color devices in the Japanese market. We strengthened our line of color machines by working to expand sales of the newly launched iR C4080F which is capable of printing 36 pages per minute in color and 40 pages per minute in black-and-white, and by launching the iR C2110F which offers both compact size and high functionality, as well as enhanced operability through a color TFT LCD and scroll wheel. In the area of black-and-white machines, we launched six new models for three product types in the Japanese market. These included the iR3245F which, despite it being a black-and-white machine, employs a high-speed and compact color scanner capable of digitalizing and transmitting color data files for scanned images. We also worked to promote our solutions business by proposing printing environments adjusted to customers' business formats and needs by using the Multifunctional Embedded Application Platform (MEAP) capable of expanding range of functions which is installed on our imageRUNNER series.

For our imagePRESS series printers for digital commercial printing, we launched the imagePRESS C6000 which is capable of printing 60 pages per minute in both black-and-white and color. We also strengthened this product line with the launch of the imagePRESS C1+ which can print 14 pages per minute in color and 60 pages per minute in black-and-white and employs a newly developed clear toner that enables a broad range of expression possibilities such as coating or metallic tone design effects.

Regarding products for small business owners for which demand is expanding, we launched several new products, including the Satera MF8450 multifunctional color machine, the top-line product in the Satera series.

Sales for this segment fell by 13.3% on a consolidated basis and by 12.5% on a non-consolidated basis, both in comparison to the previous term.

Computer Peripherals

Regarding inkjet printers, amid market contraction and other difficult business conditions, we pursued aggressive sales activities including the introduction of new products employing the ChromaLife100 system which offers significantly better photo print stability through the combination of genuine Canon photo paper with a newly developed dye ink which realizes richer and more vibrant colors. Under the ongoing shift from single-function to multifunctional devices, we launched PIXUS MP980 multifunctional device using ink of six colors including the newly adopted gray ink and PIXUS MP630 multifunctional device offering automated double-sided printing function as standard and a broad array of direct printing functions. In single-function devices, we enhanced our lineup by launching products such as the PIXUS iP4600 which can rapidly print a borderless L-size photo in about 18 seconds. As a result, we were able to increase unit sales of inkjet printers despite the sluggish market. Meanwhile, sales of consumables including ink cartridges were also strong.

Regarding laser beam printers, OEM-brand products saw a leveling off in color products which had previously shown consistent growth. As for low-end products, which had contributed to the growth of black-and-white machines, multifunctional devices reflected continuing growth but single-function devices showed weakness in sales. For Canon-brand products, we strengthened our product line by launching Satera LBP5050/5050N color devices and, in black-and-white devices, products such as the Satera LBP3980 capable of printing 35 pages per minute and up to A3 size. Additionally, we worked to expand our solutions business utilizing the MEAP-Lite function expansion system.

In image scanners, we launched new products, including the CanoScan 5600F which adopts CCD technology and the CanoScan LiDE 200 which employs CIS (Contact Images Sensor) technology.

Sales for this segment fell by 5.4% on a consolidated basis and by 6.5% on a non-consolidated basis, both in comparison to the previous term.

Business Information Products

In the area of office-use document scanners, due to corporations carrying out upgrades of their internal network environments and further advanced document digitization, the market for low-priced and compact products continued to expand. Under these conditions, for the imageFORMULA series handled by Canon Electronics Inc., we launched the DR-X10C as a new version of the flagship model and the DR-7090C capable of a high reading speed of 70 pages per minute. Sales promotion efforts for both products enabled us to achieve growth in unit sales.

Calculators handled by Canon Electronic Business Machines (H.K.) Co., Ltd. saw shrinkage in the Japanese market, but maintained high growth rates in other Asian markets. In the U.S., focused sales efforts for MP-25DV print-capable calculator boosted unit sales. Also, we introduced new products for electronic dictionaries handled by that company including the wordtank V903 which offers rich Chinese language content for learners of Chinese and the wordtank M600 for people who enjoy pastimes like foreign travel and *haiku*.

Sales for servers and personal computers handled by Canon Marketing Japan Inc. declined as that company moved forward with its shift from sales of single products to the solutions business.

Sales for this segment fell by 20.1% on a consolidated basis in comparison to the previous term. For this segment, there were no sales on a non-consolidated basis.

30

n Camera Operations

In digital cameras, as for our SLR type which continues to enjoy growing demand, we launched in our EOS DIGITAL series the EOS 50D equipped with a 15.1 megapixel CMOS sensor and a newly designed DIGIC 4 image processor for even higher image quality and higher-speed image processing. We also introduced the EOS 5D Mark II which is equipped with a 21.1 megapixel 35mm full-frame CMOS sensor and a DIGIC 4 image processor, and offers full HD video functionality. Sales promotion activities for these models as well as the EOS Kiss X2 in the EOS Kiss series, resulted in higher SLR unit sales. Consequently, sales of our EF lens series, dedicated flashes and other products also marked sound sales increases.

In the area of compact digital cameras, we launched six new models in our stylish IXY DIGITAL series. These included the 10.0 megapixel IXY DIGITAL 920 IS equipped with a DIGIC 4 image processor and 4.0x zoom. Additionally, in the PowerShot series with its ample product range for a variety of photographic styles, we launched ten new models, including the 14.7 megapixel PowerShot G10 with a DIGIC 4 image processor and 5.0x zoom.

In digital video cameras, we introduced new products such as the iVHS HF11 which enables recording up to 24 hours using double memory capacity that consists of both an internal flash memory and an SD card slot as recording medium. As a result, we increased our share of the market for HD video cameras.

On the LCD projector front, we expanded our line of high-resolution models by launching the SX80 equipped with our own LCOS reflective LCD panel for SXGA+ (1,400X1,050 pixels) resolution.

Sales for this segment fell by 9.6% on a consolidated basis and by 5.1% on a non-consolidated basis, both in comparison to the previous term.

n Optical and Other Products Operations

Regarding mirror projection mask aligners for LCDs, with an improving demand-supply balance for large-size LCD panels through the first half of the term, and a trend of increase in panel prices, panel manufacturers engaged in active capital investments that, despite a slowdown toward the end of the term, resulted in a significant improvement. Under these circumstances, we worked to promote sales of our MPAsp-H700 series eighth-generation mirror projection mask aligner and produced a significant improvement in sales.

In semiconductor production equipment, we experienced lower sales due to falling demand caused by semiconductor manufacturers curbing capital investment for mass-production in response to slumping semiconductor prices.

For the imagePROGRAF series of large-format inkjet printers, we launched new products such as the iPF820 for businesses using CAD drawings and the iPF6200 for graphic art businesses. We also engaged in solutions business by introducing PosterArtist 2008 software application for the easy creation of professional-quality posters.

Meanwhile, sales of medical equipment remained steady as a result of sales expansion efforts that included the introduction of CR-1, a non-mydratic digital retinal camera capable of producing high-quality images for medical examinations at about one-third of the flash intensity than before.

Die bonders handled by Canon Machinery Inc. and magnetic head film deposition equipment and other devices handled by Canon ANELVA Corporation were depressed amid market weakness caused by lower capital investments on the part of customers.

Sales for this segment fell by 0.2% on a consolidated basis and grew by 19.0% on a non-consolidated basis, both in comparison to the previous term.

(3) Management Perspectives

Regarding the global economy, given the combined effects of economic downturns in the leading industrialized countries and deceleration in emerging countries, it is expected that growth rate will decrease greatly and a strong sense of stagnation is to continue. The business conditions for the Canon Group are also expected to continue severe due to factors such as trend of strong yen in the foreign exchange markets.

Under these conditions, the Canon Group, in the fourth year of Phase III (2006 to 2010) of our Excellent Global Corporation Plan, will make the most of management reforms achieved to date and take all measures for next growth in order to achieve further improvements in management quality. In other words, we will respond swiftly to the present difficult business conditions and restructure ourselves as a lean organization by setting this year as to be prepared to take advantage of improved conditions in the future.

Toward that goal, our key objectives will be, first of all, to achieve timely introductions of new products satisfactory to customers in every aspect of functionality, design, ease of use, reliability and cost performance, and to secure No.1 market positions above and beyond the rest in each of our businesses.

Next, amid a strong yen, drastic fluctuations in raw material prices, falling product prices and other changing conditions, we will work to lower our cost rate by, for example, pursuing production and procurement reform activities to an even greater degree and practicing prototype-less development. Furthermore, in the face of stagnant market conditions, we will improve the quality of products thoroughly by renewing our appreciation of product quality as the lifeblood of a manufacturer and taking to heart the supremacy of quality.

Additionally, through our collaboration with Hitachi Displays, Ltd., to which we infused capital during the current term, we will concentrate on strengthening display operations as a new core business. We also aim to add significant strength to new businesses by actively launching new products in the field of medical equipment and by pursuing other initiatives as well.

With eyes focused on taking the Canon Group to new heights, promoting its perpetual development and transforming it into a truly excellent global company that continues to prosper, we will work to strengthen our unique core technology research system and develop management personnel, while also devoting even greater efforts to social contribution activities.

Notes to Consolidated Financial Statements

<Notes to Basic Significant Matters Regarding Preparation of Consolidated Financial Statements> Significant Accounting Policies

1. Group Position

The number of consolidated subsidiaries was 245, and the number of affiliated companies accounted for by the equity method was 18.

2. Basis of Presentation

The consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles (US GAAP) pursuant to the provision of Section 1, Article 148 of the Company Accounting Regulations. However, certain disclosures required under US GAAP are omitted pursuant to the same provision.

3. Cash Equivalents

All highly liquid investments acquired with an original maturity of three months or less are considered to be cash equivalents.

4. Translation of Foreign Currencies

Assets and liabilities denominated in foreign currencies are translated at the rate of exchange in effect at the balance sheet date. Exchange differences are charged or credited to income. Assets and liabilities of subsidiaries located outside Japan are translated into Japanese yen at the rates of exchange in effect at the balance sheet date and income and expense items are translated at the average exchange rates prevailing during the year. The resulting translation adjustments are reported in other comprehensive income (loss).

5. Inventories

Inventories are stated at the lower of cost or market value. Cost is determined by the average method for domestic inventories and principally the first-in, first-out method for overseas inventories.

6. Marketable Securities

Canon accounts for its debt and marketable equity securities in accordance with Statement of Financial Accounting Standards No.115, Accounting for Certain Investments in Debt and Equity Securities. Held-to-maturity securities are recorded at amortized cost, adjusted for the amortization or accretion of premiums or discounts. Available-for-sale securities are recorded at fair value. Unrealized holding gains and losses, net of the related tax effect, on available for-sale securities are excluded from earnings and are reported in other comprehensive income (loss) until realized. Realized gain and losses are determined on the average cost method.

7. Property, Plant and Equipment

Property, plant and equipment are depreciated principally by the declining-balance method.

8. Goodwill and Other Intangible Assets

Goodwill and other intangible assets with indefinite useful lives are not amortized, but are instead tested for impairment at least annually in accordance with Statement of Financial Accounting Standards No.142, Goodwill and Other Intangible Assets. Intangible assets with estimated useful lives are amortized over the respective estimated useful lives. Software is amortized on a straight-line basis over the period of three to five years.

9. Impairment of Long-Lived Assets

In accordance with Statement of Financial Accounting Standards No.144, Accounting for the Impairment or Disposal of Long-Lived Assets, long-lived assets, such as property, plant and equipment, and acquired intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If the carrying amount of the asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset.

10. Basis of Recording Allowances

(Allowance for doubtful accounts)

An allowance for doubtful accounts is provided based on credit loss history and an evaluation of any specific doubtful accounts.

(Accrued pension and severance cost)

In accordance with Statement of Financial Accounting Standards No.87, Employer's Accounting for Pensions and Statement of Financial Accounting Standards No.158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, pension and severance cost is accrued based on the projected benefit obligations and the fair value of plan assets at the balance sheet date. Unrecognized actuarial loss is recognized by amortizing a portion in excess of a corridor (i.e., 10% of the greater of the projected benefit obligations or the fair value of plan assets) by the straight-line method over the average remaining service period of employees. Unrecognized prior service cost is amortized by the straight-line method over the average remaining service period of employees.

11. Taxes collected from customers and remitted to governmental authorities are excluded from revenues, cost and expenses in consolidated statements of income.

12. Stock Based Compensation

Canon measures stock-based compensation cost at the grant date, based on the fair value of the award, and recognizes the cost on a straight-line basis over the requisite service period.

13. Net Income Per Share

Basic net income per share is computed by dividing net income by the weighted-average number of common shares outstanding during each year. Diluted net income per share includes the effect from potential issuance of common stock based on the assumption that all convertible debentures were converted into common stock and all stock options were exercised.

14. New Accounting Standard

Canon adopted SFAS No. 157, Fair Value Measurements in the first quarter beginning January 1, 2008. The adoption of SFAS 157 had no effect on the consolidated statement of income for the year ended December 31, 2008.

15. Reclassification

Time deposits and marketable securities, which had been previously disclosed separately in the consolidated balance sheets, have been reclassified to short-term investments.

Intangible assets, which were previously included in Other assets, have been reclassified in the consolidated balance sheets.

Pursuant to Article 444, Section 4 of the Corporation Law, we have audited the consolidated balance sheet, the consolidated statement of income, the consolidated statement of stockholders' equity and the notes to consolidated financial statements of Canon Inc. (the Company) applicable to the fiscal year from January 1, 2008 through December 31, 2008. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position and results of operations of the Canon Group, which consisted of the Company and consolidated subsidiaries, applicable to the fiscal year ended December 31, 2008 in conformity with accounting principles generally accepted in the United States under Article 148, Section 1 of the Corporation Accounting Regulations (refer to Note 2 of notes to basic significant matters regarding preparation of consolidated financial statements in the notes to consolidated financial statements).

We have no interest in the Company which should be disclosed in compliance with the Certified Public Accountants Act.

Audit Report of Board of Corporate Auditors on Consolidated Financial Statements

Audit Report on Consolidated Financial Statements

Regarding the consolidated financial statements (consolidated balance sheet, consolidated statement of income, consolidated statements of changes in stockholders' equity, and notes to consolidated financial statements) for the 108th business term from January 1, 2008, to December 31, 2008, we have prepared this Audit Report upon deliberation based on the audit reports prepared by each Corporate Auditor and hereby report as follows:

1. Auditing Methods Employed by the Corporate Auditors and Board of Corporate Auditors and Details of Such Methods

We established auditing policies, allocation of duties, and other relevant matters, and received reports from each Corporate Auditor regarding their execution of audits and results thereof, as well as reports from the Directors and the Accounting Auditor regarding performance of their duties, and sought explanations as necessary.

Following the auditing policies and allocation of duties established by the Board of Corporate Auditors, each Corporate Auditor received reports from such as the Directors and employees regarding consolidated financial statements and sought explanations as necessary. Furthermore, we monitored and verified whether the Accounting Auditor maintained their independence and implemented appropriate audits, and received reports from the Accounting Auditor regarding the performance of their duties and sought explanations as necessary. In addition, we received notice from the Accounting Auditor that System for ensuring that duties are performed properly (matters set forth in each item of Article 159 of the Company Accounting Regulations) is organized in accordance with the Quality Management Standards Regarding Audits (Business Accounting Council, October 28, 2005) and other relevant standards, and sought explanations as necessary. Based on the above methods, we examined the consolidated financial statements for this business term.

2. Audit Results

We confirm that the methods and results of the audit employed by the Accounting Auditor, Ernst & Young ShinNihon LLC, are proper.

Notes to Non-Consolidated Financial Statements

<Notes to Significant Accounting Policies>

1. Valuation of Securities

(1) Securities of subsidiaries and affiliates----stated at cost based on the moving average method.

(2) Other securities:

Securities with quotation----stated at fair value (unrealized holdings gains and losses are reported in net assets, when sold, the cost is based on the moving average method.) Securities without quotation----stated at cost based on the moving average method.

2. Valuation of Inventories

(1) Finished goods; work in process----valued at cost based on the periodic average method.

(2) Raw materials and supplies----valued at cost based on the moving average method.

3. Depreciation Method of Fixed Assets

(1) Property, plant and equipment----calculated by declining-balance method. For buildings (excluding fixtures) acquired after April 1, 1998, depreciation is calculated by straight-line method.

<Additional information>

Due to the amendment of Japanese Corporate Tax Law in 2007, for Property, Plant and equipment acquired before March 31, 2007, 5% of acquisition cost and reminder cost variance is calculated by straight-line for 5 years, next year of which it was 5% of acquisition cost. The changes in accounting for depreciation did not have a material impact on the statements of income.

- (2) Intangible fixed assets----calculated by straight-line method. With regard to software for sale, calculated based on the estimated marketable period in consideration of marketing plan etc. of the relevant products (3 years), and with regard to internal-use software, calculated based on the estimated useful period in the Company (5 years).
4. Deferred Charges----The items which can be deferred under the Corporation Law charged to operations as incurred.
5. Basis of Recording Allowances
- (1) Allowance for doubtful accounts----provided as a general provision for uncollectible receivables
---- General accounts
Allowances are provided using a rate determined by past debt experience.
- Allowance for accounts considered to be uncollectible and accounts in bankruptcy filing are provided for individual estimated uncollectible amount, primarily determined based on the respective customer's financial conditions.
- (2) Accrued warranty expenses----provides as general provision for product after-sales service expenses and no charge repair cost on an estimated amount based on the historical performance.
- (3) Accrued bonuses for employees----provided as a general provision for bonus to employees for this term based on an amount expected to pay.
- (4) Accrued directors' bonuses----provided as general provision for bonus to directors for this term based on an amount expected to pay.
- (5) Accrued pension and severance cost----provided as general provision for employee retirement and severance benefits based on projected benefits obligation and expected plan asset. Prior service cost and actuarial variance are amortized by straight-line method with average remaining service periods.

- (6) Accrued directors' retirement benefits----provision for directors' retirement benefits based on the necessary amount at the fiscal year-end in accordance with management policy.
 - (7) Reserve for environmental provision----provided as general provision for the future environmental-related cost, such as construction costs to prevent the proliferation of soil pollution, and also clean up costs of hazardous substances based on the related regulations.
 - (8) Accrued long service rewards for employees----provided as general provision for reward for employees in accordance with management policy for long service employees for this term based on an amount expected to pay.
6. Hedge accounting
- (1) Hedge accounting----deferral hedge accounting has been applied.
 - (2) Hedging instrument and hedged assets / liabilities

Hedging instrument----derivative transaction (foreign exchange contract) Hedged assets / liabilities----accounts receivables denominated in foreign currency for forecasted transaction.
 - (3) Hedge policy----derivative financial instruments are comprised principally of foreign exchange contracts to manage currency risk. The Company does not hold derivative financial instrument for trading purpose.
 - (4) Assessment of hedge effectiveness----foreign exchange forward contracts due to the same currency of the same underlying at the same period are concluded to cover foreign currency fluctuation risk in the market based on the hedging policy, and thus is effective.
7. Consumption Taxes----excluded from the statements of income and are accumulated in other receivables or other payables.

<Notes to Change in Accounting Policies>

(Accrued long service rewards for employees)

The Company has a byelaw for Refresh Leave to grant long service reward and refresh leave at a regular period to the employees who have been serving the Company for long years in order to refresh mind and body as well as generating new energy. As the significance of amounts rose due to the increase in numbers of employees, and reinforcement of attendance record systems enabled to estimate the rational amounts of reward payable, the Company changed the accounting policy for long service reward from the expense of the term in which the reward was paid, to recognition of accrued long service reward based on expected amounts under the byelaw from this accounting period, in order to calculate periodical profit and loss more appropriately. As a result, operating profit, ordinary profit and income before income taxes have decreased by 1,160 million yen, and net income has decreased by 696 million yen for the accounting period ended December 31, 2008.

Pursuant to Article 436, Section 2, Paragraph 1 of the Corporation Law, we have audited the non-consolidated balance sheet, the non-consolidated statement of income, the non-consolidated statement of changes in net assets, the notes to non-consolidated financial statements and the related supplementary schedules of Canon Inc. (the Company) applicable to the 108th fiscal year from January 1, 2008 through December 31, 2008. These non-consolidated financial statements and the related supplementary schedules are the responsibility of the Company s management. Our responsibility is to express an opinion on these non-consolidated financial statements and the related supplementary schedules based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the non-consolidated financial statements and the related supplementary schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the non-consolidated financial statements and the related supplementary schedules. An audit also includes assessing the accounting principles used and significant

estimates made by management, as well as evaluating the overall presentation of the non-consolidated financial statements and the related supplementary schedules. We believe that our audit provides a reasonable basis for our opinion.

78

In our opinion, the non-consolidated financial statements and the related supplementary schedules referred to above present fairly, in all material respects, the financial position and results of operations of Canon Inc. applicable to the 108th fiscal year ended December 31, 2008 in conformity with accounting principles generally accepted in Japan.

We have no interest in the Company which should be disclosed in compliance with the Certified Public Accountants Act.

Audit Report of Board of Corporate Auditors

Audit Report

Regarding the performance of duties by the Directors for the 108th business term from January 1, 2008, to December 31, 2008, we have prepared this Audit Report upon deliberation based on the audit reports prepared by each Corporate Auditor and hereby report as follows:

1. Auditing Methods Employed by the Corporate Auditors and Board of Corporate Auditors and Details of Such Methods

We established auditing policies, allocation of duties and other relevant matters, and received reports from each Corporate Auditor regarding their execution of audits and results thereof, as well as reports from the Directors, other relevant personnel, and the Accounting Auditor regarding performance of their duties, and sought explanations as necessary.

Each Corporate Auditor complied with the auditing standards of Corporate Auditors established by the Board of Corporate Auditors, followed the auditing policies, allocation of duties, and other relevant matters, communicated with such as the Directors, the internal auditing and other employees, and made efforts to establish the environment for collecting information and auditing, and participated in the meetings of the Board of Directors and other important meetings, received reports from such as the Directors and employees regarding performance of their duties, sought explanations as necessary, examined important authorized documents and associated information, and studied the operations and status of assets at the head office and principal offices. In addition, we monitored and verified the system for ensuring that the performance of duties by the Directors conforms to the related laws and regulations and Articles of Incorporation, as well as the resolution of the Board of Directors regarding the organization of the system stipulated in item 1 and item 3, Article 100, of the Enforcement Regulations of the Corporation Law and the status of the system based on such resolution (Internal Control System), which are necessary for ensuring propriety of company's operations. With respect to subsidiaries, we communicated and exchanged information with Directors and Corporate Auditors of subsidiaries, and received business reports from subsidiaries as necessary. Based on the above methods, we examined the business report and the accompanying detailed statements for this business term.

Furthermore, we monitored and verified whether the Accounting Auditor maintained their independence and implemented appropriate audits, and we received reports from the Accounting Auditor regarding the performance of their duties and sought explanations as necessary. In addition, we received notice from the Accounting Auditor that System for ensuring that duties are performed properly (matters set forth in each item of Article 159 of the Company Accounting Regulations) is organized in accordance with the Quality Management Standards Regarding Audits (Business Accounting Council, October 28, 2005) and other relevant standards, and sought explanations as necessary. Based on the above methods, we examined the non-consolidated financial statements (non-consolidated balance sheet, non-consolidated statement of income, non-consolidated statements of changes in net assets, and notes to non-consolidated financial statements) and the accompanying detailed statements for this business term.
