Item 2.02 Results of Operations and Financial Condition

The information in this Item is furnished to, but not filed with, the Securities and Exchange Commission (the "Commission") solely under Item 2.02 of Form 8-K, "Results of Operations and Financial Condition."

On November 1, 2004, G&K Services, Inc. issued a press release announcing its

financial results for the fiscal quarter ended October 2, 2004. A copy of the press release is furnished as Exhibit 99.1 to this report and is incorporated herein by reference. The press release contains certain non-GAAP financial measures, including the organic industrial rental growth rate, organic direct sale growth rate and free cash flow. The organic growth rates are calculated using industrial rental and direct sale revenues, respectively, adjusted for foreign currency exchange rate differences and revenues from newly acquired locations. Management believes that by eliminating the impact of the U.S.-Canadian exchange rate and the effects of the Company's recent business acquisitions, the organic growth rates better reflect the growth of our existing industrial rental and direct sale business and are therefore useful in analyzing the financial condition of the Company and the results of its operations. Free cash flow is cash provided by operating activities less capital expenditures. Management believes that this is an important financial measure because it indicates the Company's ability to expand, acquire additional business, pursue debt reduction and pay dividends.
