Forward-Looking Statements

This Report on Economic and Financial Analysis contains forward-looking statements relating to our business which are based on management's current expectations, estimates and projections about future events and financial trends which could affect our business. Words such as: believes, anticipates, plans, expects, intends, aims, evaluates, predicts, foresees, projects, guidelines, should and similar expresidentify forward-looking statements. These statements are not guarantees of future performance and involve risks and uncertainties which are difficult to predict and which could be beyond our control. Furthermore, certain forward-looking statements are based on assumptions which future events may prove to be inaccurate. Therefore, actual results may differ materially from the plans, objectives, expectations, projections and intentions expressed or implied in such forward-looking statements.

Factors which could cause actual results to differ materially include, among others, changes in regional, national and international commercial and economic conditions; inflation rates, increases in customer default and any other delays in credit operations; increases in the allowance for loan loss; loss of funding capacity; loss of clientele or revenues; our capacity to sustain and improve performance; changes in interest rates which could, among others, have an adverse effect on our margins; competition in the banking sector, in financial services, credit card services, insurance, asset management and other related sectors; government regulations and fiscal matters; disputes or adverse legal proceedings or ruling; as well as credit risks and other loan and investment activity risks.

Accordingly, the reader should not place undue reliance on these forward-looking statements. In all cases, these forward-looking statements are valid only as at the date they are made. Except as required under applicable legislation, we assume no obligation whatsoever to update these statements, whether as a result of new information, future events or any other motive.

1 Analysis of Consolidated Results

Profitability

Bradesco reported first-quarter net income of R\$ 609 million, corresponding to R\$ 3.85 per share and an annualized return of 19.1% on closing stockholders' equity and 19.3% on average stockholders' equity.

During the period from January 1 through March 31, 2004, net income increased by 19.9%, compared to the same period in 2003.

The return on total assets was 1.5%, annualized.

Analysis of the Statement of Income - In millions of reais

Income from Credit and Leasing Operations

	First Quarter		2003	2004	
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
3,009	3,181	5.7	3,244	3,181	(1.9)

volume of the credit portfolio, particularly the consumer customer segment which was up by 22.6%, despite falling interest rates in 1Q04.

This increase in income mainly reflects the increase in the average Income was down slightly following the drop in average interest rates for 1Q04.

Results of Securities (TVM) and Derivative Financial Instrument Operations

	First Quarter		2003	2004	
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
2,165	1,876	(13.3)	2,240	1,876	(16.3)

This variation for the period was due to the decrease in average The variation for the quarter was generated by (i) the decrease in interest rates, mainly CDI from 5.7% in 1Q03 to 3.8% in 1Q04, partially mitigated by the increase in average volume of the securities 1Q04; and (ii) gain on the sale of shares of Latasa in 4Q03. portfolio.

average interest rates, particularly CDI from 4.4% in 4Q03 to 3.8% in

Financial Income on Insurance, Private Pension Plans and Savings Bonds

	First Quarte	,	2003	2004	
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
1,441	1,245	(13.6)	1,412	1,245	(11.8)

The variation for the period was generated by the decrease in average interest rates and partially mitigated by growth in average volume of securities, subject to technical reserves, especially VGBL and PGBL products.

The variation for the quarter was due to the decrease in the average interest rates in 1Q04.

Results of Foreign Exchange Transactions

	First Quarter		2003	2004	
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
99	161	62.6	254	161	(36.6)

This account should be analyzed net of foreign funding expenses used to finance import/export operations, as described in Note 13a to the financial statements. Net of these deductions, results would total R\$ 98 for 1Q03 and R\$ 63 for 1Q04, affected by the decrease in average fx portfolio interest rates.

This account should be analyzed net of foreign funding expenses used to finance import/export operations. Net of these deductions, results would total R\$ 130 for 4Q03 and R\$ 63 for 1Q04, affected by the decrease in average fx portfolio interest rates in 1Q04.

Results of Compulsory Deposits

	First Quarte	r	2003	2004	
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
361	289	(19.9)	289	289	-

The decrease was mainly generated by: (i) decrease in the SELIC rate from 5.7% in 1Q03 to 3.8% in 1Q04, the rate used to remunerate additional compulsory deposits on demand, time and savings deposits; (ii) the decrease in the TR reference rate used to remunerate savings account deposits, from 1.3% in 1Q03 to 0.4% in 1Q04, the rate used to remunerate compulsory deposits on savings deposits; partially offset by: (iii) the increase in the volume of deposits.

Income remained practically stable for the quarter, affected by: (i) cuts in the SELIC and TR rates in 1Q04; offset by (ii) the increase in the average volume of time deposits.

Interest and Charges on Deposits

|--|

2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
2,670	2,454	(8.1)	2,605	2,454	(5.8)

The variation reflects, for the most part, less expense with: (i) time deposits - R\$ 391; (ii) purchase and sale commitments - R\$ 79; (iii) savings deposits - R\$ 146, mainly as a result of lower average interest rates in 1Q04, and (iv) partially offset by negative exchange variation of 5.1% in 1Q03 compared to positive exchange variation of 0.7% in 1Q04, particularly impacting securities issued abroad by Bradesco.

The variation was due substantially to less expense for: (i) time deposits - R\$ 148; (ii) purchase and sale commitments - R\$ 77; (iii) savings deposits - R\$ 54, mainly as a result of lower interest rates in 1Q04; and (iv) partially offset by negative exchange variation of 1.2% in 4Q03, compared to positive exchange variation of 0.7% in 1Q04, impacting securities issued abroad by Bradesco.

Price-level Restatement and Interest on Technical Reserves for Insurance, Private Pension Plans and Savings Bonds

	First Quarter		2003	2004	
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
902	652	(27.7)	701	652	(7.0)

1Q04, partially offset by growth in the volume of technical reserves, particularly in VGBL and PGBL products.

The decrease reflects principally the fall in average interest rates in This decrease reflects mainly the drop in average interest rates in

Expenses for Borrowings and Onlendings

First Quarter		2003	2004		
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
141	316	124.1	490	316	(35.5)

The increase is directly related to negative exchange variation of 5.1% in 1Q03, against positive exchange variation of 0.7% in 1Q04, mainly impacting borrowings and onlendings indexed or denominated in foreign currency, offset by the decrease in average interest rates for the period.

The variation is mainly due to decreased expense with foreign bankers, as a result of the drop in average interest rates in 1Q04.

Financial Margin

	First Quarter		2003	2004	
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
3,362	3,330	(1.0)	3,643	3,330	(8.6)

Variation for the period was generated mainly by: (i) decrease in interest income operations - R\$ 44, comprised by the increase in average business volume - R\$ 419 and the decrease in spread - R\$ 463; and by (ii) the increase in non-interest income - R\$ 12, derived from gains with securities and treasury transactions.

Variation for the quarter was generated mainly by: (i) decrease in interest income operations - R\$ 131, comprised by the increase in business volume - R\$ 56 and the decrease in spread - R\$ 187; and by (ii) the decrease in non-interest income - R\$ 182, derived from increased gains with securities in 4Q03, mainly as a result of the sale of shares of Latasa S.A.

Expenses for Provision for Loan Losses

First Quarter		2003	2004		
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
808	561	(30.6)	452	561	24.1

Excluding the additional provisions of R\$ 298 and R\$ 26, recorded for 1Q03 and for 1Q04, respectively, the slight increase of R\$ 25 in this expense is compatible with growth in the credit portfolio for the period.

Excluding the additional provisions of R\$ 37 and R\$ 26, recorded for 4Q03 and for 1Q04, respectively, there was an extraordinary increase in the provision of R\$ 120, reflecting the reclassification of certain customer ratings, including securitizations of rural loans in the amount of R\$ 54.

Income on Commissions and Fees

First Quarter		2003	2004		
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
1,017	1,319	29.7	1,275	1,319	3.5

Growth for the period is derived from the increase in the average Growth for the quarter mainly reflects increased revenues with (i) volume of transactions and number of customers, highlighting in fund management s - R\$ 12 and (ii) cards - R\$ 20. particular: (i) fund management - R\$ 97; (ii) checking accounts -R\$ 69; (iii) cards - R\$ 39; and (iv) credit operations - R\$ 37.

product sales with the selling to premium ratio consistent with that for selling to premium ratio consistent with that for the prior quarter. the prior period.

The increase for the period mainly reflects the growth in VGBL Selling expenses remained practically stable for the quarter with the

Expenses with Pension Plan Benefits and Redemptions

_	First Quarter			2004	
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
(437)	(809)	85.1	(999)	(809)	(19.0)

The variation was mainly generated by increased private pension plan redemptions and insurance policies as a result of product features, particularly VGBL, which permit redemptions at any time subsequent to the corresponding grace period.

The decrease was substantially due to decreased private pension plan redemptions as compared to the prior quarter.

Personnel Expenses

First Quarter			2003	2004	
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
(1,053)	(1,177)	11.8	(1,272)	(1,177)	(7.5)

The variation for the period was mainly due to: (i) salary increases (12.6%), pursuant to the collective-labor agreement in September/03; and (ii) consolidation of BBV Banco, Zogbi and BEM - R\$ 97.

The variation was due mostly to: (i) concentration of vacation pay in the first quarter and adjustments to payroll as a result of the banks acquired; partially offset by (ii) the purchase of BEM and Zogbi - R\$ 16.

Other Administrative Expenses

First Quarter			2003	2004	
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
(1,101)	(1,208)	9.7	(1,328)	(1,208)	(9.0)

The variation in this expense was mostly due to increased expenses for: (i) consolidation of Banco BBV, Banco Zogbi and Banco BEM - R\$ 95; (ii) publicity and advertising - R\$ 37; partially offset by less expense for: (iii) depreciation and amortization - R\$ 17; and (iv) data processing - R\$ 16.

The decrease was mostly due to less expenses for: (i) third-party services - R\$ 40; (ii) publicity and advertising - R\$ 30; (iii) data processing - R\$ 20; (iv) rents R\$ 9 - (v) maintenance and repairs of assets - R\$ 9; partially offset by (vi) consolidation of Zogbi and BEM - R\$ 20.

Tax Expenses

	First Quarter			2004	
2003	2004	% Variation	4th Qtr.	1st Qtr.	% Variation
(268)	(336)	25.4	(293)	(336)	14.7

This variation was substantially generated by the increase in expenses for COFINS - R\$ 52, as a result of the rise in the calculation basis rate from 3% to 4% in September 2003.

The increase for the quarter reflects substantially increase in expenses for (i) PIS/COFINS - R\$ 21, in line with growth in taxable income (ii) CPMF - R\$ 11, partly as a result of the payment of interest attributed to own capital in 1Q04, and (iii) ISS - R\$ 6, as a result of the increase in the calculation basis during the quarter.

Analysis of Financial Margin

Banco Bradesco s consolidated financial margin (before PDD) totaled R\$ 3,330 million for the first quarter of 2004 (1Q04), as compared to R\$ 3,362 million for the same period in 2003 and R\$ 3,643 million for the final quarter of 2003, decreases of 1.0% and 8.6%, respectively. The average financial margin rate, which reflects financial margin (without PDD) in comparison to the average balance of total assets was 8.1% annualized, with a negative variation of 0.7% compared to the prior quarter and down by 1.6 percentage points compared to the same quarter in 2003.

However, we stress that the variation in financial margin in 1Q04 is due to the decrease in interest income operations of R\$ 132 million, comprising a decrease of R\$ 187 million in spread for the quarter, offset by gains of R\$ 55 million, corresponding to the increase in the average volume of business.

Another factor which affected the quarterly financial margin was the decrease of R\$ 181 million in non-interest income, which mainly comprises treasury and securities transactions, as compared to 4Q03, mostly as a result of the sale of our stake in Latasa S.A. through which we determined gains of R\$ 195 million.

The economic scenario, influenced by falling interest rates, was an important factor contributing to the slight decrease in financial margin, considering that in 1Q03, the SELIC rate was 5.7%, compared to 4.4% in 4Q03 and 3.8% in 1Q04. This variation affects mainly results derived from working capital, floating funds and investments of insurance, private pension plan and savings bond operations.

In terms of business volume, always strictly related to economic activity, we noted that the economic recovery remained moderate throughout 1Q04, and this stability plus seasonal effects prompted a slight increase in volume, with a positive affect on financial margin.

The only modest increase in credit operations and fall in spreads were partially offset by the increase in the share of consumer customers in the total portfolio. This share which was 28.8% of total credits at December 31, 2003, grew to 30% at March 31, 2004, reflecting Bradesco s strategy in the ongoing expansion of this market segment.

Income on financial intermediation of insurance, private pension plans and savings bonds grew by 10% in 1Q04 compared to the same period in the prior year. This growth includes the effects of falling interest rates, however the negative effect was offset by a substantial increase in volume, since technical reserves for insurance, private pension plans and savings bonds totaled an average balance of R\$ 27,178 million in 1Q04, a growth rate of 35.2% as compared to the same quarter in 2003, following the increase in sales of Insurance Group products.

Emphasis should also be given to demand and savings deposits, which together totaled an average balance of R\$ 34,792 million, an increase of 3.6% compared to 4Q03 and of 6.6% compared to the same period in 2003. These increases demonstrate the strengthening of Bradesco s customer base, not only through recent acquisitions but also as a result of organic growth, especially through the efforts of the Customer Service Network to secure new checking account holders and contributing to an increase of 931 thousand customers between December 31, 2003 and March 31, 2004.

Younger than 30 From 31 to 40 From 41 to 50 Older than 50 Personnel Expenses	44% 39% 15% 2%	Men Women	54% 46%		32% 67% 1%	Less than 5 years From 6 to 10 years From 11 to 20 Years More than 20 Years	41% 11% 38% 10%	Non-managerial Managerial	47% 53%

Bradesco s accumulated personnel expenses totaled R\$ 1,177 million for the first quarter of 2004, including expenses for remuneration, social charges, benefits, training, employee profit sharing and others.

The following pie graph presents the percentage share of each item in relation to total Bradesco personnel expenditure:

Composition of Personnel Expenses - 1st Quarter 2004

Personnel Expenses by Business Segment - 1st Quarter 2004

Training

Bradesco s staff training activities are tuned to its organizational strategies, to the ongoing improvement of its customer service quality and to its capacity to produce results and are developed by its Training Department, which is ISO 9001:2000 certified.

Accordingly, the Training Program uses tailor-made methodologies, offering in-class or distance self-development training courses/initiatives to all of its staff, designed to meet both their professional and personal development needs.

The most innovative of these training methodologies, permitting the rapid inclusion of a considerable number of employees, is the TreiNet , online training program which was used for the period from January to March 2004 with 29,773 employee participations for courses in Integration and Basic Banking, Financial Math, Business Accounting and Balance Sheet Analysis, Financial Market and Investments, Loans and Financing, Business Support Platforms, Convenience Services, Internal Control Systems, Savings Bonds, Vida e Previdência pension plans, Teller Training, Written Communication and Performance Management and Decision-making Support (GDAD), Auto-line Insurance and Money Laundering Prevention and Reference Files.

Through the important partnerships entered into with Consulting Firms, Universities and Business Schools, such as USP, FGV and IBMEC, the Bank qualifies its professional staff to operate in the Organization s diverse specialist segments, such as Bradesco Empresas (Middle Market), Corporate Banking, Private Banking, Prime and Consortium.

The specialization courses offered at post-graduate level should be given particular emphasis. Three groups have now concluded their studies in Business Process Management, Foreign Trade and International Operations and Banking Business and another two groups are taking the Banking Business course. These courses are given by the prestigious FIA, FIPE and FGV universities.

Bradesco s compliance culture was also strengthened through distance learning courses, via manuals and TreiNet programs available to all the Organization s employees.

Following the incorporation of Banco BCN in February 2004, additional training courses on products, services, operating systems and customer service were given with 1,045 employee participations.

During the period from January to March 2004, 332 courses were given, in 2,831 groups, with 51,409 employee participations and a total of 1,129,123 hours spent in training, as well as investments of R\$ 10 million.

^(*) Amounts accumulated over prior 12-month period.

Operating Efficiency Ratio (%)

The operating efficiency impairment from 56.6% to 59.0% reflects acquisitions made over the prior 12-month period (BBV Banco, Zogbi and BEM).

We stress that the synergy process relating to the acquisitions made in recent years is still in progress and can be verified by the improvement in the ratio over the prior 3 quarters from 61.3% in 3Q03 to 57.3% in 1Q04.

Activity-Based Costing

As part of the Organization s ongoing pursuit to optimize its results and performance, our cost management model will be supported by Activity-Based Costing (ABC) methodology which has already provided, among others, support for studies relating to the formation and

negotiation of banking charges, costing information for performance and decision-making support management and for customer profitability purposes, and for the formation of a database for analyses regarding the unification and rationalization of the Bank s different units.

The Organization is currently implementing ABM (Activity-Based Management) methodology which will rapidly lead to cost prevention practices and a pro-active approach as regards the identification of opportunities. Thus, at the same time as we improve our processes, we are also able to seamlessly integrate operating performance with strategic objectives, in the pursuit to create and/or sustain competitive advantages and value for both our customers and stockholders.

Accordingly, the future mission of the activity-based management model is to provide ongoing support for planning and controlling the Bank s business processes and to promote the permanent improvement of operating and tactical issues and to provide a firm basis for their strategic gearing.

- (1) Applications in investments fund quotas were distributed based on the securities comprising their portfolios maintaining the fund category classification.
- (2) The number of days to maturity was based on the maturity of the securities, regardless of accounting classification.
- (3) This column reflects book value subsequent to mark-to-market adjustment, except for securities held to maturity, the market value of which is higher than purchase cost by R\$ 802 million.
- The market value of securities is determined based on the market price practiced on the balance sheet date. In the event no market prices are available, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or quotations for instruments with similar characteristics.
- (5) Investment fund and managed portfolio resources invested in purchase and sale commitments with Banco Bradesco, the investors in which are subsidiary companies, included in the consolidated financial statements.
- (6) Securities arising from the acquisition of Banco BEM, comprising substantially financial treasury notes, in the amount of R\$ 165,262 thousand, remain classified in the Securities held to maturity category. In line with the portfolio profile of Banco Bradesco (the new parent company) these securities will be reclassified at June 30, 2004, pursuant to BACEN Circular 3068/2001.

Agriculture, livestock raising, fishing, forest				
development and management	746	1.4	808	1.5
Consumers	15,633	28.8	16,453	30.0
TOTAL	54,336	100.0	54,894	100.0
Ry Segment				

At the end of the first quarter of 2004, 99.2% of the credit portfolio was directed to the private sector, with no significant movement compared with the prior quarter. By economic activity sector, manufacturing maintained the majority of credit volume, with a 32.0% share of total operations, particularly food and beverage, steel, metal products and mechanics. Credits directed to the service sector, including financial intermediaries, comprised 21.2%, whereas commerce and farming/livestock activities recorded a 14.5% and 1.5% portfolio share, respectively. Loans to consumers comprised 30.0% of the portfolio.

Portfolio Performance

Maintaining the same trend registered in the final three months of 2003, economic recovery continued its moderate course during the first quarter, which together with the seasonal fall in demand, typical of the period, produced only a slight increase in the balance of credit operations between January and March.

As a result, the volume of Bradesco s consolidated credit portfolio at March 31 totaled R\$ 54.9 billion, an increase of 1.0%, as compared to December, or 10.6%, annualized.

Projections for 2004 indicate that the demand for credit will grow in line with a more consistent return to economic and productive sector growth, based on the expectation that the basic interest and compulsory deposit rates will continue their gradual downswing, in the pursuit to rekindle consumption and private investment.

Composition of the Credit Portfolio by Risk Levels

The classification and quality of the credit portfolio by risk level, at the end of March, 2004, remained stable in comparison with December, 2003. The operations concentrated from levels AA to C, classified by BACEN as normal course operations, totaled 90.4% of the accumulated balance. 3.3% of operations were classified at risk administration level D and will remain so until this risk is reduced or guarantees with greater liquidity are obtained. Only 6.3% were considered to be abnormal course operations, subject to partial loss after the application of customary recovery procedures. The maintenance of these rates reflects the Bank s permanent use of credit assessment and monitoring instruments.

By Rating In millions of reais

⁽¹⁾ On total portfolio.

- (2) For operations with installments overdue by more than 14 days.
- (3) Recorded based on the customer/transaction classification.
- (4) The additional provision is recorded based on management's experience and expected collection of the credit portfolio to determine the total allowance deemed sufficient to cover specific and general portfolio risks, as well as the provision calculated based on risk level ratings and the corresponding minimum provision requirements established by CMN Resolution 2682. The additional provision per customer was classified in the above table according to the corresponding risk levels.

The volume of the allowance for loan losses in March 2004 totaled R\$ 4,192 million, corresponding to 7.6% of total credit operations. However, of this amount, only 45.9% effectively comprises overdue operations (past due and falling due) and the remaining portion is recorded as a precaution only, based on the customers' internal classification or to cover specific and general portfolio risks.

Movement of the Portfolio between March 2003 and March 2004

The performance of the consolidated credit portfolio over the prior twelve months up to March 2004, despite the low level of economic activity, evidences the maintenance of the quality of the assets, in particular as a result of new borrowers and acquisitions for the period, corresponding to increases of 15.0% and 9.1%, respectively, compared to the balance of the credit portfolio up to March 2003.

Portfolio Movement between March 2003 and March 2004

	Borrowers rema March 2	0	New borrowers between March 2003 and March 2004		New borrowers of acquisitions 31, 200	at March	Total credit at March 31, 2004	
Level	In millions of reais	%	In millions of reais	%	In millions of reais	%	In millions of reais	%
AA C	38,437	89.5	7,008	94.1	4,173	92.0	49,618	90.4
D	1,494	3.5	286	3.8	57	1.3	1,837	3.3
ЕН	2,984	7.0	152	2.1	303	6.7	3,439	6.3
Total	42,915	100.0	7,446	100.0	4,533	100.0	54,894	100.0

As a result, the quality of the credits granted to new borrowers during the year has proved satisfactory and accordingly the percentage of credit operations classified as normal course (from AA to C) maintained its customary high level, totaling 90.4% at the end of the first quarter.

Concentration of Credit Portfolio In millions of reais

Credit Portfolio Indicators

To facilitate the analysis of the Bank's credit portfolio performance, we present below a comparative summary of the main parameters, based on the rules established by BACEN for recording provisions.

	In millions of reais				
	2	2003	2004		
Items	March	December	March		

Total Credit Operations	49,655	54,336	54,894
- Consumer	13,422	15,633	16,453
- Corporate	36,233	38,703	38,441
Existing Allowance	3,902	4,059	4,192
- Specific	1,943	1,816	1,924
- Generic	1,156	1,384	1,384
- Additional	803	859	884
Specific Allowance/Existing Allowance (%)	49.8	44.7	45.9
Existing Allowance/Total Credit Operations (%)	7.9	7.5	7.6
Normal Course Operations (from AA to C)/Total Credit Operations (%)	90.8	91.2	90.4
Operations under risk management (D)/Total Credit Operations (%)	2.8	2.8	3.3
Abnormal Course Operations (from E to H)/Total Credit Operations (%)	6.4	6.0	6.3
Credit Operations (D)	1,370	1,488	1,837
Existing Allowance (D)	372	423	438
Allowance/Credit Operations (D) (%)	27.2	28.4	23.8
Credit Operations (from E to H)	3,223	3,286	3,439
Existing Provision (from E to H)	2,799	2,842	2,951
Allowance/Credit Operations (from E to H) (%)	86.8	86.5	85.8

The figures at the end of March 2004 continue to confirm the low credit risk of the Bradesco portfolio, as a result of its comfortable coverage levels and moreover that the Organization's credit granting strategy is being applied on a secure, selective and consistent basis.

Asset Management

Bradesco ranked leader by Investidor Institucional Magazine

Bradesco was ranked leader, by the consulting firm Risk Office, among institutions with the largest number of funds considered excellent. Bradesco was considered outstanding for its performance in both fixed-income and variable-income funds in 2003. This ranking rates funds specifically designed for institutional investors.

The following tables present information on asset management based on the criteria used by the ANBID Global Ranking of Third-party Portfolio Managers:

Market Segmentation

Bradesco operates on a segmented service basis, seeking to match its different products and services to the different profiles and size of its target public. In line with a world market trend, Bradesco s structure permits the grouping together of customers with similar profiles facilitating superior quality customer service, extending business opportunities with a greater focus on relationship actions.

Major corporations with annual billings in excess of R\$ 180 million are served since June 1999 by Bradesco Corporate Banking which provides a range of sophisticated financial solutions, enhancing its service structure through the use of the Asian and Euro Desks, focused on prospecting new business in these regions.

Middle market companies, with annual billings from R\$ 15 million to R\$ 180 million, are served by Bradesco Empresas which came into operation in April 2002 designed to offer a differentiated service in exclusive VIP areas, tailored to the specific needs of this type of customer, who in general prefer the use of alternative channels such as the telephone, ATMs and the Internet, instruments in which Bradesco technology is outstanding.

In the consumer customer area, the first step in terms of customer segmentation was taken via Bradesco Private Banking, focused on the personalized management of high-income customer accounts with funds available for investment in excess of R\$ 1 million, which commenced operations in November 2000.

In May 2003, following the incorporation of Banco Mercantil de São Paulo, the Bradesco Prime service was launched targeting consumer customers with monthly incomes of more than R\$ 4 thousand or investments in excess of R\$ 50 thousand. Through exclusive branches, or specifically reserved areas in traditional branches, this public receives a high standard of personalized customer service with a wide range of products and services, including diverse credit lines, insurance policies and private pension plans.

Other customers are classified on a retail basis as companies or consumers. Bradesco s activities in this segment were strengthened through the partnership entered into with the Brazilian Postal and Telegraph Company - Correios for the purpose of creating Banco Postal, the post-office bank. Dedicated to extending banking service access to low-income bracket consumers, particularly those who live in the country s remote interior regions, Bradesco is now present in all of Brazil s states.

Retail Bradesco

Focus: Individuals with a monthly income of less than R\$ 4 thousand and companies with annual billings of less than R\$ 15 million.

More than 15 million customers in this segment have access to the Bradesco Customer Service Network with its 2,700 Branches and more than 2,100 Service Outlets. In addition, the largest customers in this niche receive an exclusive service under the Managed Account concept.

Bradesco Corporate Banking

Bradesco Corporate Banking s specialized structures are designed to provide the best possible service to 1,287 Economic Groups comprising its target market, segmented as follows:

Corporate - The structure devised to conduct the Bank s relationship with Brazil s major corporations is growing and improving year by year. Every effort is made to ensure that the related-area professionals have a through working knowledge of the corresponding economic sectors and companies and as a result are able to offer complete solutions and genuine added value, developing solutions in the areas of cash management, private pension plans, asset management, overseas trade and risk management.

Infrastructure - This team is responsible for corporate relationships in the telecom, power, sanitation and transport sectors, focusing on the development of structured solutions designed to meet specific sector needs, including the structuring of long-term corporate finance and project finance, among other activities.

Agribusiness - This is a specialized structure formed to attend companies in this key economic segment, designed to provide product and service solutions in line with their specific corporate needs. As part of the Corporate Banking services, this area is able to operate throughout the production chain in the pursuit to implement feasible structured solutions.

Asian Desk - A partnership entered into with the UFJ Bank for the purpose of developing financial solutions, in the role of economic and financial advisor and main banker for companies interested in the commercial and financial flows between Brazil/Japan and Brazil/Asia.

Euro Desk - Focused on the management of customers of Spanish origin and the development of financial solutions for Bradesco Corporate companies, prospecting business synergies in Europe, the U.S. and Latin America.

Bradesco Empresas (middle market)

Bradesco s middle market segment, Bradesco Empresas, was created in April 2002, designed to offer quality corporate customer service for companies all over Brazil.

This segment targets middle market companies with annual billings from R\$ 15 million to R\$ 180 million.

The Bank s traditional Branch customers who are compatible with this profile are invited to join the Bradesco Empresas segment.

The Bradesco Empresas service offers exclusively reserved Branches for its corporate customers in this segment, located in strategic areas.

This segment has 66 service outlets throughout Brazil distributed as follows: Southeast (41), South (16), Central West (4) Northeast (3) and North (2) with 12,388 corporate customers from the different production chain sectors.

The personalized service offered by Bradesco Empresas prompted significant investments in this area, including specific training for our Relationship Managers and adaptation of the IT structure, designed to provide added value and increase the Bank s share of this segment.

Since they are responsible for a maximum portfolio of 25 to 30 organizations, each Relationship Manager is able to focus on increasing business in the following areas: Loans, Investments, Foreign Trade, Derivatives, Cash Management and Structured Transactions.

The recent mergers of other financial institutions by Bradesco have had a positive effect, increasing the Bank s product portfolio and market share.

Bradesco Private Banking

Bradesco Private Banking, with its ISO 9001:2000 certification, offers high-income consumer customers, with a minimum of R\$ 1 million in funds available for investment, access to a broad range of capital market products, as well as financial advice and guidance as to the best investment options, increasing their wealth and maximizing returns in line with their objectives.

Bradesco Prime

As part of the segmentation strategy implemented by the Organization in 1999, Bradesco Prime commenced activities on May 19, 2003 and now boasts a Network of 169 Branches distributed nationwide and which is expected to increase to 175 by June 2004.

Bradesco Prime s target public comprises consumer customers with a monthly income of more than R\$ 4,000.00 or with investments in excess of R\$ 50,000.00.

Bradesco Prime coordinates the Bank s commercial relationship with these segment customers, providing VIP facilities and personalized attendance by Relationship Managers, as well as bespoke products and services.

In March 2004, Bradesco launched its Prime Account, designed to create increased customer/bank relationship value. This account offers the market s most complete rewards scheme and is based on a point scoring system, whereby customers accumulate points according to which products and services they use.

The Bradesco Prime Relationship Manager is a high-caliber professional capable of catering to all the financial needs of his/her customers. Since customer portfolios are kept small, managers are able to dedicate special attention to each one.

In addition, Bradesco Prime Customers have access to the extensive Bradesco Customer Service Network, comprising its nationwide branches and self-service network.

Banco Postal

Bradesco uses the post office bank, Banco Postal, created in partnership with the Brazilian Postal and Telegraph Company (Correios) to offer its banking products and services nationwide in the majority of Brazilian town and cities.

The first Branch was opened in São Francisco de Paula, MG, on March 25, 2002. By the end of 2002, the number of post-office bank branches had increased to 2,500. At the end of 2003 there were 4,000 units in operation.

Banco Postal is now present throughout Brazil in the country s most remote cities, from Oiapoque in the North to Chuí in the South and from the island of Fernando de Noronha in the East to Santa Rosa do Purus in the western region of the state of Acre. Towns which were previously unknown to the majority of Brazilians such as Nova Iorque-MA; Buenos Aires-PE; Barcelona-RN; Filadélfia-TO; Maravilha-AL and SC; Alegria-RS; Passa and Fica-RN; Varre Sai-RJ; Passabem-MG; Feliz Deserto-AL; Recursolândia-TO, among others, now have access to banking services provided by Banco Postal.

Today, 1,240 towns and villages, with no previous bank access, can rely on the services offered by Banco Postal, bringing benefits to a population of more than 11.5 million people.

Banco Postal has an enormous social reach and is of particular importance for including low-income families in the financial system, especially retired people, who before the arrival of the post office bank had to travel long distances by boat or dirt track just to receive their monthly pension or to pay a bill, spending a large part of their income in the process.

Accordingly, more than 1.5 million people, with no previous access to the financial system, are Banco Postal customers, increasing Bradesco s customer base. Of these, 85% are savings account holders with an average balance of R\$ 137.00. As account holders, they are able to increase the efficiency with which they manage their household budgets, since they are no longer obliged to withdraw the full amount of their salary or social security benefit. All post-office bank customers have debit cards which can be used nationwide and more than 15% also use check books.

Banco Postal is an important agent for extending credit to all income brackets and for implementing the federal government s social policies. More than 20% of post-office bank customers have been granted credit through 290 thousand contracts at an average amount of R\$ 500.00, in the case of consumer customers and R\$ 6,752.00 for corporate customers.

Microcredit operations total 108 thousand contracts with more than R\$ 49 million loaned to low-income families in the average amount of R\$ 594.31, evidencing Banco Postal s vocation as an agent for social development.

In densely populated areas, Banco Postal also contributes by enhancing the customer service provided by the traditional Bradesco Branches, since a considerable number of the Bank s customers and other users are now able to use the post-office bank structure as an alternative service channel.

Number of Transactions carried out Monthly - thousand

Branch Distribution - Bradesco and Correios

Banco Postal will generate new business opportunities for the Organization, since it will be able to attend all of Brazil s municipalities through the Correios Post Office branches.

Investments in Infrastructure, Information Technology and Telecommunications

The investments for expanding operating capacity, infrastructure, IT and telecommunications at the Bradesco Organization are designed to maintain a modern, practical and secure customer service network, characterizing the Bank as one of the world's most contemporary companies and creating added value for its customers and users at home and abroad.

Risk Management Activities and Structure

At Bradesco, risk management is seen as a competitive advantage, adding value to the Bradesco name, as well as providing essential support for the planning activities of the diverse business areas. At the same time, risk management facilitates the maintenance of a stable environment and ensures that resources yield maximum benefits and that capital is allocated to the benefit of stockholders and society as a whole.

Bradesco adopts an ongoing strategy designed to enhance its risk management activities, in the pursuit to keep abreast of the best market practices adopted worldwide. These activities have become increasingly important, not only as a result of the global economy, but also on account of the complex nature of the products and services offered to the community.

The independence of the risk management area is essential for achieving the successful management of market, liquidity, credit and operating risks. This activity together with others including money-laundering prevention, internal controls and compliance are managed by the Risk Management and Compliance Department, under the direct supervision of the Statutory Department Director, who in turn is subordinated to an Executive Director, reporting directly to the Institution s President:

This organizational structure is designed not only to guarantee area independence but also to place greater focus on these important value-added activities, confirming the Organization s commitment to the implementation of best corporate governance practices, using every available resource, whether human, technical or financial, to ensure that risk planning and management is carried out by this area using latest generation technology Groupwide. In particular, because Bradesco is now extending its risk analysis strategy to encompass not only its banking business but also its associated companies, including Bradesco Vida e Previdência (private pensions), Bradesco Saúde (healthcare insurance), Bradesco Seguros (insurance), BRAM (asset management) and Bradesco Capitalização (savings bonds) as regards actuarial and market risks, consolidating its risk management culture on an Organization-wide basis.

The Risk Management and Compliance Department is also responsible for coordinating compliance with the regulations determined by the Brazilian Central Bank relating to the New Capital Accord (Basel II) to be published in the near future by the Basel Committee.

Credit Risk Management

As part of its credit risk management enhancement process, Bradesco is working uninterruptedly to improve the procedures for gathering and controlling portfolio information, develop new loss calculation models, enhance and prepare rating inventories used in the various sectors in which the Bank operates, oversee credit analysis, granting and settlement processes, monitor credit concentration and to define the dividing line between operating risks and credit risks.

As part of this ongoing enhancement process, additional efforts are being made to prepare the Bank for the introduction of more advanced risk management techniques, based on the recommendations of the New Capital Accord to be introduced by the Basel Committee, among which we highlight the following:

Creation of an Executive Credit Risk Committee responsible for assuring the strategic management of the credit operation portfolio.

Structuring of the expected loss and capital allocation calculation system in line with Basel II requirements.

Identification of the reporting process changes required to improve decision making and credit portfolio management.

Restructuring of the management information system (MIS).

Mapping, measurement and identification of credit risk management capacity gaps, as regards Basel II requirements, as well as best practices, embracing roles and responsibilities, professional qualification, review of the organizational structure and IT demands.

Credit Policy

Designed to ensure maximum security, quality and liquidity in the investment of assets, minimizing risks inherent to all types of credit operation, the Organization's Credit Policy also seeks to offer agile and profitable business, applying appropriate methodology for each of the Bank s business segments, as well as directing the establishment of operating limits and the granting of credit.

Credit is granted based on a highly automated and efficient approvals system, supported by assessment policies which are geared by constantly improving technical parameters designed to ensure proper support for credit decisions.

As part of this system, the Branches operate within varying limits depending on the size and type of guarantee offered, while specialized credit scoring systems maximize the speed and security of the approvals process, based on strict protection standards.

The credit committees located at the Bank's headquarters also play an important role, centralizing, analyzing and authorizing credit operations at amounts above the branch limits and managing this core strategic activity.

Operations are diversified, dispersed and focused on consumer and corporate customers with sound payment capacity and proven creditworthiness. Care is taken to ensure that the underlying guarantees are sufficient to cover the risks assumed, considering the purpose and terms of the credit granted.

Methodology used for Credit Portfolio classification

In addition to supporting the establishment of minimum parameters for granting credit and managing risk, the credit risk scoring system established by the Brazilian Central Bank also facilitates the definition of differentiated credit policies based on the customer's specific characteristics and size, providing a basis for the correct pricing of operations and for establishing the most appropriate guarantees for each situation.

In accordance with internal policy, Bradesco Customer risk ratings are established on a corporate basis and are permanently reviewed to maintain the quality of the credit portfolio. These ratings are segmented as follows:

Classification - Corporate

Rating	Bradesco	% Provision	Concept
AA	Excellent	0.0	Premium company/group, with size, tradition and market leadership, with excellent reputation and economic and financial position.
A	Very Good	0.5	Company/group with size, sound economic and financial position, acting in markets with good prospects and/or potential for expansion.
В	Good	1.0	Company/group which, regardless of size, has a good economic and financial position.
C	Acceptable	3.0	Company/group with a satisfactory economic and financial situation but with performance subject to economic scenario variations.
D	Fair	10.0	Company/group with economic and financial position in decline or unsatisfactory accounting information, under risk management.
E	Deficient	30.0	
F	Bad	50.0	Abnormal course credit operations, classified based on expected loss as per percentage shown.
G	Critical	70.0	
Н	Uncollectible	100.0	

In the case of consumer customers, the above risk ratings are mainly defined based on their registered reference variables which include: income, equity, restrictions and indebtedness, as well as performance and past relationship with the Bank.

Market Risk Management

Market risk is related to the possibility of the loss of income from fluctuating rates caused by mismatched maturities, currencies and indices of the Institution's asset and liability portfolios. This risk is monitored on a strict basis by the financial market to avoid losses for institutions.

At Bradesco, market risks are managed through methodologies and models which are consistent with local and international market realities, ensuring that the Organization's strategic decisions are implemented with speed and a high level of reliability.

The Organization adopts a conservative policy regarding market risk exposure; VaR (Value at Risk) limits are defined by Senior Management, and compliance is monitored daily by an area which is independent from portfolio management. The methodology used to determine VaR has a reliability level of 97.5%. The volatilities and correlations used by the models are calculated on statistical bases and are used in processes based on future prospects in accordance with economic studies. The methodology applied and current statistical models are validated daily using backtesting techniques.

We present below the VaR of the Own Portfolio positions (Treasury):

In thousands of reais

Risk Factors	2002		2004			
	December	March	June	September	December	March
Prefixed	5,407	6,293	6,541	12,658	5,888	2,832
Exchange coupon	33,142	9,662	14,717	19,000	17,999	15,245
Foreign currency	2,876	1,807	439	184	2,907	55
Floating rate	11	105	10	13	11	-
Correlated effect	(4,014)	(3,804)	(3,243)	(3,395)	(5,858)	(1,322)
VaR	37,422	14,064	18,464	28,460	20,947	16,810

In addition, a daily Gap Analysis is performed to measure the effect of the movement in the internal interest rate and foreign exchange coupon curves (interest spread paid above the foreign exchange variation) on the portfolio.

Complementing the market risk monitoring, control and management structure and in accordance with Central Bank regulations, a daily verification is made of the values at risk for the fixed and foreign exchange positions of the Organization s entire portfolio and of minimum capital requirements.

Operating Risk Management

Operating risks are those inherent to activities which provide support for transactions in which the Organization participates and may occur as a result of the interruption of business, system failures, errors, omission, fraud or external events impacting the results of the Institution and of its customers.

Following recent guidelines issued by the Basel Committee, the Organization is working to adapt its processes to comply with possible future Central Bank demands, complementing its present capital management policies, based on an analysis of operating losses.

Operating risk is managed at Bradesco based on the dissemination of its culture, disclosure of its policies and development of own methodologies, models and tools designed to permit, among other factors, decreases in the cost of regulatory capital to be subscribed and at the same time increases in operating efficiency.

Bradesco, through its Operating Risk Management area, prepared a plan designed to achieve full compliance with the 10 principles of good operating-risk-management practice determined by the Basel Committee.

In line with the definition and development of the methodology and accounting and management criteria used for managing operating risk, the area is now implementing a specific Internal Management System for streamlining this information, designed to manage, enhance and increase the knowledge used to administrate operating loss events, facilitating an in-depth assessment, based on either management or accounting controls.

The cutting-edge nature of this internal operating risk management process can be regarded as a benchmark of Bradesco s important status within Brazil s financial scenario, increasing its competitive edge as a result of greater operating efficiency and adding stockholder value, as well as extending its relationship of trust with customers, the market and regulatory bodies.

Liquidity Risk Management

Liquidity risk management is designed to control the different mismatched liquidation terms of the Institution's rights and obligations, as well as the liquidity of the financial instruments used to manage the financial positions.

Knowledge and monitoring of this risk are critical since they enable the Organization to settle transactions on a timely and secure basis.

At Bradesco, liquidity risk management involves a series of controls, mainly, the establishment of technical limits and an ongoing assessment of the positions assumed and financial instruments used.

Capital Risk Management

The Organization's capital is managed to optimize the risk to return ratio, minimizing losses through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact the Capital Adequacy Ratio (Basel).

Capital Adequacy Ratio (Basel) - March 2004 - In millions of reais

Calculation Basis	Consolidated Financial ⁽¹⁾	Total Consolidated (2)

- (1) Financial companies only.
- (2) Financial and non-financial companies.
- (3) Had the issuance of subordinated debt in April of 2004, in the amount of R\$ 784,139 thousand, been considered, the consolidated financial and economic-financial capital adequacy ratios, would increase to 19.53% and 16.97%, respectively.

Internal Controls

The Organization has developed a number of systems, policies and internal controls over the years to mitigate possible potential losses generated by its exposure to risk.

Aware of the importance of these controls, Bradesco has developed and implemented certain tools designed to optimize these processes and procedures, among which we highlight the following:

Implementation of an internal controls system (Compliance), based on the pillars defined by Basel and the methodology of the Committee of Sponsoring Organizations (COSO), mainly as regards components in the following areas: control environment, risk assessment, control activities, information, communications and monitoring, ensuring that activities, policies and normative instructions are in constant compliance with legal and regulatory standards.

Implementation of a Brazilian Payments System (SPB) management process for the specific purpose of monitoring the flow of messages transmitted between the Organization s banks and the external entities such as the Brazilian Central Bank, Special Clearance and Custody System (SELIC), clearing houses and other financial institutions. This monitoring process is based on Organization information system tools and intense staff training activities to facilitate the identification and rectification of events in environments and systems and also to ensure that online cash transfers (TEDs) processed via SPB are properly validated. Complementing these monitoring activities, the Bank also adopts a Systems Contingency Plan for SPB to cover the main departments handling critical transactions, addressing pre-established scenarios and actions and reducing the possibility of messages not being correctly processed. This area is also responsible for the external contingency process with the Brazilian Central Bank.

Ongoing improvement of technology tools and employee training, focused on the process used to monitor the financial activity of customers and designed to prevent money laundering and utilization of the Organization for processing illegal transactions.

Dissemination of processes and procedures to guarantee information security, based on Corporate Information Security Policy and Standards, the guidelines of which establish premises for protecting the confidentiality, integrity and availability of information.

Bradesco Day and Night Customer Service Channels

As well as the traditional Customer Service Network (Branches), Bradesco customers are able to consult their banking transactions, carry out financial transactions and purchase products and services deployed via state-of-the-art technology through the following alternative channels: Self-service (Auto-Atendimento), Easy Phone (Fone Fácil) and Internet Banking.

Bradesco Day and Night - Self-Service ATM Network

Brazil s largest Private-Sector Self-service Network, with 22,513 ATMs (Bradesco - 22,302 and Banco BEM- 211).

Located in bank branches and in all areas of important economic agglomeration: Shopping Malls, Hypermarkets, Supermarkets, Airports, Service Stations, Bus Terminals etc.

Million

	2002	2003		2004
	4 th Qtr.	1 st Qtr.	4 th Qtr.	1 st Qtr.
Number of Cards	34.5	35.8	41.1	42.7
Credit	6.1	6.2	7.0	7.0
Debit	28.4	29.6	34.1	35.7
Average amount billed - in reais	3,746.2	3,650.3	4,808.4	4,658.6
Credit	2,363.1	2,350.9	2,761.9	2,704.9
Debit	1,383.1	1,299.4	2,046.5	1,953.7
Number of transactions	70.4	68.2	91.1	90.5
Credit	37.3	36.4	42.9	43.1
Debit Credit Cards	33.1	31.8	48.2	47.4

The number of Bradesco credit cards grew by 13.1% in the first quarter of 2004, compared to the same period in 2003, while the Visa and MasterCard market grew by some 11.0%. This growth rate increased our market share from 15.0% in 2003 to 15.5% in 2004. First-quarter billings totaled R\$ 2.7 billion, a growth rate of 15.1% as compared to the same period in 2003, and an 18.5% increase in the number of transactions.

Debit Cards

The number of debit cards increased by 20.7% in the first quarter of 2004, compared to the same period in 2003, confirming Bradesco s leadership of the Visa Electron market.

In terms of billings, there was a significant 50.3% increase in comparison with 2003. These two indicators demonstrate clearly that Brazilians are changing their payment habits, substituting checks and cash for the use of debit cards. The commercial establishments are our allies in this market, since debit cards are preferred for their guaranteed liquidity, security and easy operation.

Following the acquisition of Banco BEM, the debit card base increased by 283.6 thousand cards.

Acquiring Market

The network of commercial establishments in Brazil, accredited by the Visa system, is administered by Companhia Brasileira de Meios de Pagamentos - Visanet, in which Bradesco has a direct capital holding of 39.7%. In the first quarter of 2004, Visanet processed some R\$15.4 billion in transactions, including both credit and debit card billings, a 27.2% increase as compared to the same quarter in 2003. At present, Visanet has 667.1 thousand associated establishments nationwide. The Visa network is preferred by customers precisely because of the card s wide market acceptance.

Over recent years, the Bradesco Organization has provided important incentives designed to increase Brazil s foreign trade activities.

In similar manner, we highlight the substantial amount of US\$ 4.7 billion, recorded at the end of the first quarter of 2004 in foreign exchange trading for exports. This corresponds to a 67% increase as compared to the same quarter in 2003.

Based on data available for the first two months of 2004, Bradesco s share of the exchange market for exports totaled some 22.1%, an increase in performance of 15.7% compared to the 19.1% share obtained during the same period in 2003.

The financial volume of imports at the end of the first quarter totaled US\$ 1.5 billion, some 10% more than the total of US\$ 1.35 billion obtained for the same period in 2003. Market share at the end of the first two months of 2004 was 11.3%.

As a result of these increases, the International Area ended the first quarter with a balance of US\$ 6.9 billion in export and import financing, foreign collateral provided and onlending to local customers.

Volume of Foreign Currency Trade - In billions of U.S. dollars

Export Market

Import Market

We present below the foreign trade portfolio balances at the end of the first quarter of 2004:

Export Financing	In millions of U.S dollars	In millions of reais
Advance on foreign exchange contracts - undelivered bills	1,675.2	4,871.1
Advance on export contracts - delivered bills	464.6	1,351.0
Prepayments	839.3	2,441.2
Onlending of funds borrowed from BNDES/EXIM	274.4	798.0
Exchange discounted in advance	15.4	44.9
Documentary drafts and bills of exchange in foreign currency	8.8	25.6
Indirect exports	6.1	17.6
Loans according to export incentive program (Proex)	0.1	0.2
Total export financing	3,283.9	9,549.6
Import financing		
Foreign currency import loans	253.1	736.0
Exchange discounted in advance	77.4	225.1
Open import credit	62.1	180.5
Total import financing	392.6	1,141.6
Guarantees		
International guarantees	45.6	132.6
Total international guarantees	45.6	132.6
Total export and import financing	3,722.1	10,823.8

The foreign exchange portfolio is financed by credit lines obtained from correspondent banks. The Bank also has a Commercial Paper program in the United States in the amount of US\$ 190 million, as well as two foreign trade finance facilities, one with the Inter American Development Bank - IDB in the amount of US\$ 110 million and the other with the International Finance Corporation - IFC in the amount of US\$ 70 million.

At the end of March, approximately 97 U.S., European and Asian Banks had extended credit lines to Bradesco.

March 31, 2004 - In millions of U.S dollars

Banco Bradesco Luxembourg S.A.	272.1	126.8
Banco Alvorada (formerly BBV Banco) - Nassau	268.1	268.1

The core objective of the foreign branches and subsidiaries is to obtain funds in the international market for onlending to customers, principally through the financing of Brazilian foreign trade.

The main activity of the subsidiary Banco Bradesco Luxembourg S.A. is to provide additional services to private banking customers and to increase foreign trade operations.

At the end of the first quarter of 2004, as well as short-term funds obtained from correspondent banks for foreign trade financing, loans of US\$ 219.6 million on a consolidated basis were raised by the Bradesco Organization through public and private placements in the international capital market, earmarked for foreign trade financing and working capital loans.

Mergers, Acquisitions, Project Finance, Corporate Reorganization and Privatizations

In March 2004, ANBID published its Mergers & Acquisitions Ranking in which Bradesco was rated segment leader for the 2nd consecutive year in number of transactions, having completed a total of 8 operations.

ANBID Mergers & Acquisitions Ranking - ANBID - December 2003

Ranking - Number of Operations

Consultants	Ranking	Operations
Bradesco	1 st	8
JP Morgan	1 st	8
Unibanco	1 st	8
Citigroup	4 th	6

Continuing this trend, during the first quarter of 2004, Bradesco completed 3 operations in the Mergers and Acquisitions segment in the amount of some R\$ 737.0 million.

Bradesco s presence is also notable in Project Finance operations, acting as a financial advisor to major corporations operating in electric power generation and co-related projects, as well as in the structuring of the corresponding financings.

Structured Transactions

Recently integrated with the Capital Market Department, the Structured Transactions Area, operating in the Bradesco Corporate and Bradesco Empresas segments, will be responsible for the following:

• Development of structures used to segregate credit risks, through SPEs, Credit Acquisitions, Credit Assignment Funds (FDCs) and Certificates of Real Estate Receivables (CRIs).

- Structuring of properly protected medium and long-term financings based on pre-defined cash flows pursuant to specific covenants and guarantees which minimize the risks of each transaction.
- Development of structured solutions designed to meet the specific needs of companies, such as: less working capital requirements, increased liquidity, optimization of financial and tax costs, compliance with legal technical limits/financial covenants, sale of permanent assets and off-balance-sheet financings.
- Coordination of loan syndication processes, including the lengthening of refinanceable debts, structured by the Bank or third parties.

Collection and Tax and Utility Collections

Cash Management

Bradesco s cash management solutions comprise a portfolio of more than 40 products designed to meet public and private sector customer management needs in the areas of receipts, payments, human resources and administration, ensuring that their bank transactions are carried out with speed and convenience, in line with superior quality standards (ISO 9001:2000) and security (electronic certification and sound cryptography). The innovations have secured the preference of a growing number of customers from all market segments and niches in diverse locations and different activity fields, using latest-generation technology means for connecting the Bank and its customers. We highlight, in particular, the following products:

Receipt Solutions

Bradesco Online Collection

The high efficiency standards of Bradesco s online collection service generate confidence, minimizing costs and maximizing customer returns, covering all of their accounts receivable management needs. As a result of these features, Bradesco Collection is now market leader, generating other business opportunities for the Organization. Online collection is responsible for processing more than 98% of all documents registered in the Bradesco collection portfolio.

Tax and Utility Collections

Developed based on high standards of efficiency and quality, Bradesco s tax and utility collections serve a dual purpose. On the one hand, they seek to provide customer satisfaction with appropriate and innovative solutions for the settlement of taxes, duties and contributions. On the other, they effectively interact with the different Government Departments in the federal, state and municipal spheres and with public utility concessionaires.

Bradesco s tax and utility collection services are noted for the speed and security of the data transmitted and amounts collected.

Payment Solutions

Net Empresa, Pag-For and PTRB (Online Tax Payments)

As part of the same efficiency commitment, Bradesco s payment solutions, deployed through the Net Empresa, Pag-For and PTRB products, meet all customer needs, facilitating supplier payments, tax settlements and electronic transfers, online or through the transmission of files with maximum speed and security.

During the quarter, an amount of R\$ 85.2 billion was recorded for 24.1 million payment transactions, facilitating the management of Trade Accounts Payable for more than 232 thousand companies.

Banco Finasa S.A., a wholly owned subsidiary of Banco Bradesco S.A., operates in the financing sector of new and used vehicles, consumer durables and services, focusing the retail sector, through Finasa Promotora de Vendas Ltda., which is responsible for securing customers and transactions.

During the quarter, the results of Banco Zogbi S.A. were consolidated. The total capital of this company was acquired by the Bradesco Organization, through Banco Finasa S.A. on November 6, 2003, as well as its subsidiaries Zogbi Leasing S.A. Arrendamento Mercantil, Zogbi Distribuidora de Títulos e Valores Mobiliários Ltda. and Promovel Empreendimentos e Serviços Ltda., Zogbi s sales promotion company, responsible for securing and forwarding proposals for personal loans and consumer financing - CDC.

Designed to increase the volume of business, a number of agreements and operating partnerships were entered into for credit granting purposes, such as those with Ford Credit and Microsoft in 2002 and ABRAPAR, subsequent to approval by the Brazilian Association of Fiat Automobile Dealerships ABRACAF, signed in 2003.

At the end of March, Finasa Promotora had 53 Branches and was present in 12,030 new and used registered vehicle dealerships and 2,193 stores selling furniture and home decor, tourism, auto parts and IT related equipment and software, among others. Promovel Empreendimentos e Serviços had 70 Branches present in 25,100 registered stores, selling construction materials, clothing, footwear and other goods.

Customers served by Banco Finasa totaled some 969 thousand, at March 31, 2004.

Measured by Austin Rating, Banco Finasa obtained the maximum AAA rating for financial soundness and a Low Risk long-term rating.

Operating Performance

At the end of March 2004, consolidated assets totaled R\$ 6,891.0 million, a growth rate of 24.6% compared to December 2003 and 66.8% to March 2003. Concentrated in new and used auto financing, the balance of this portfolio, before allowance for loan losses, totaled R\$ 5,475.3 million, an increase compared to December 2003 and March 2003 of 8.4% and 41.9%, respectively. The acquisition of Banco Zogbi totaled R\$ 441.0 million in credit operations, of which R\$ 179.1 million comprised commercial loans and R\$ 261.9 million in financings.

Auto-financing production for the first quarter of 2004 totaled R\$ 1,341.2 million, compared to R\$ 786.4 million in the first quarter of 2003, an increase of 70.5%.

Consolidated Finasa reported first-quarter net income of R\$ 59.7 million and stockholders equity of R\$ 263.7 million.

We stress that the loss of R\$ 95.4 million reported in the final quarter of 2003 was affected by the mark-to-market adjustment of swap transactions, in compliance with Central Bank Circular 3082.

These transactions are designed to hedge overall credit operations and were entirely successful from an economic viewpoint. However, from a formal standpoint, these transactions are not acceptable as hedges pursuant to the aforementioned legislation. As a result, the asset transactions to which they are a counter entry receive a different accounting treatment, ie, they are adjusted based on the rates established in the corresponding contracts, whereas swaps are marked to market.

A portion of the net effect of the mark-to-market adjustment of swaps carried out in 4Q03, was reversed in 1Q04, as presented below:

The Bradesco Organization maintains its support of sports activities through the FINASA Sports Program (PROGRAMA FINASA ESPORTES). Focusing on the formation, development and promotion of women s basketball and volleyball, at March 31, the Program comprised 76 Sports Training Centers, 46 for volleyball and 30 for basketball 3,980 girls from 10 to 16 years of age have access to courts, uniforms, sports material, instructors and all the infrastructure required to practice these sports completely free of charge. The training centers are installed on the premises of private and state schools, at the City Hall sports complex in Osasco and at the Bradesco Foundation and SESI units. Participation in this program requires proof of regular school attendance and includes counseling on health issues, life quality, living in society, social behavior, citizenship issues and prevention of drug abuse. As well as these training centers, the Program also maintains competitive teams in all base categories (14 to 18 - year olds) and a senior Women s Volleyball team called FINASA OSASCO, a benchmark in national sports.

N.B expenses for selling/earned premiums. Bradesco Insurance Group

Number of Policyholders - Thousand

Up to March 31, 2004, the average number of customers grew by 11.5% compared to the same period in 2003.

In the first quarter of 2004, Bradesco Saúde maintained its outstanding market position, especially in the corporate health insurance segment (source: ANS). Brazilian consumers are increasingly convinced that Health and Dental Insurance are the best alternatives for meeting their medical, hospital and dental care needs. At present, Bradesco Saúde has more than 2.4 million customers.

The increasing number of policyholders employed by micro, small and medium companies, as well as major corporations that have contracted Bradesco Saúde, confirms the insurance company s high level of expertise and personalization in Corporate Insurance services, a distinct advantage in the Supplementary Health Insurance market.

More than 12 thousand companies in Brazil have acquired Bradesco Health Insurance. Out of Brazil s 100 largest companies in terms of billings, 34 are Bradesco clients in the Health and Dental Health lines and out of the country s 50 largest companies, 32% are Bradesco Saúde clients. (source: Exame Magazine s Biggest and Best List, July 2003)

Finally, emphasis should also be given to the user-friendly nature of the Bradesco Saúde Portal (www.bradescosaude.com.br), which, in addition to providing information on available products, also offers access to a number of services for policyholders, prospects and brokers.

In February 2004, the Bradesco Insurance Group confirmed its outstanding position in the Brazilian Basic Line Insurance market, with a significant share of the overall market billings in this area.

In the Corporate Risk area, Bradesco ratified its position as one of the sector s most important insurance companies with a considerable share of the main lines and as the principal insurance company of major national and international business conglomerates operating in the mining, oil, steel, agribusiness, paper and pulp, power, automobile, chemical and petrochemical, aluminum and aircraft industries.

In the mass market insurance segment, focusing on consumer and small and medium corporate customers, product line sales registered an important growth, in particular, Bradesco Bilhete Residencial, which achieved a record of 599,807 homes insured, an increase of 25.0% compared to the same quarter in 2003.

The launching of new products and the reformulation of others, in the pursuit to offer our customers best quality products on a permanent basis, made a significant contribution to the results achieved during the quarter.

In the Auto/RCF line, Bradesco maintained the number of policyholders and market leadership, confirming its technically correct pricing policy. Emphasis should also be given to the implementation of the differentiated services which add value to products, such as discounts given through the nationwide customer service networks and the increase in the number of relationships with brokers which are carried out exclusively online via the Internet.

Bradesco s market share of the Auto/RCF portfolio up to February, 2004 was 15.5%.

Awards

Bradesco Seguros

Bradesco Seguros was ranked as one of the 100 companies who most invested in this area in Brazil in 2003, according to a study carried out by Info Magazine, specialized in technology. Indiana Seguros, another Bradesco Insurance Group company, was ranked among Brazil s 100 Most Wired Companies in 2004.

(1)Includes Bradesco Vida e Previdência S.A. and from June 2003, Alvorada Vida S.A. (formerly BBV Previdência e Seguradora Brasil S.A.). Income from Plans - Market Share (%)

Since its foundation in 1981, Bradesco Vida e Previdência has recorded consistently high levels of growth, confirming its leadership of a sector which from the early nineties has shown considerable potential for expansion.

Income from its private pension plans, including VGBL, has grown some 41.2% per year over the last five years, enabling the company to maintain its leadership position with 31.9% of the market, the result of a sound product development policy structured around innovative and flexible options.

Products bearing the Bradesco Vida e Previdência hallmark reflect the company's efforts to remain ahead of its time, sensitive to future trends.

Growth in Technical Reserves - In millions of reais

Providing a secure option for participants, policyholders and beneficiaries, Bradesco Vida e Previdência has recorded an increasing growth rate in the volume of its technical reserves. During the quarter, technical reserves presented an increase of 6.1% as compared to the same period in 2003, highlighting the company's capacity to meet the commitments assumed.

Bradesco Vida e Previdência's unquestionable commitment to providing a care-free future for its participants has ensured its ranking as Brazil's largest listed supplementary pension plan company.

Growth in Guaranteeing Assets of Technical Reserves - In millions of reais

Private Pension Plan and VGBL Investment Portfolio - Market Share (%)

Reflecting the growth in income from private pension plans, Bradesco Vida e Previdência ended the first quarter of 2004 with a high level of capitalization. The investment portfolio presents an ongoing growth in financial volume and results, guaranteeing full coverage of technical reserves.

The company's success and commitment to the implementation of its policies are confirmed by its 49.1% share of this segment, one of most important market indicators.

Increase in Number of Participants - Thousand

N.B includes VGBL long-term life products

During the period, Bradesco Vida e Previdência signed new contracts for individual and company plans, which accounted for a 0.7% increase in the number of participants compared to the performance recorded for 2003. Total plan participants surpassed the 1.3 million mark.

⁽¹⁾ Includes: Bradesco Capitalização and Atlântica Capitalização (formerly BCN Capitalização).

Bradesco Capitalização s outstanding position in the premium bond market is the result of its transparent operating policy, which is focused on the deployment of products in line with potential consumer demand.

The company is consolidating its outstanding position in diverse regions and holds a leadership position in five Brazilian states, according to the latest figures for February published by SUSEP. The company s market share in these states was as follows: 33.9% in Bahia, 33.1% in Amazonas, 31.6% in Pará, 24.7% in Santa Catarina and 23.8% in São Paulo.

In pursuit of a bond which is suited to its customers different profiles and budgets, the company developed a number of products varying in accordance with the type of payment (single or monthly), contribution terms, regularity of draws (weekly or monthly) and related prize amounts. This phase brought the company closer to the general public and consolidated the success of its popular Pé Quente (Lucky Bond) savings bond series.

Bradesco Capitalização was the first private savings bond company in Brazil to receive ISO 9002 certification and in December 2002 this certificate was upgraded to the 2000 Version ISO 9001:2000. This certification from Fundação Vanzolini attests to the management quality of Bradesco savings bonds and confirms the principles on which their creation was based: good products, good services and continuous growth.

Savings Bonds

Income from Plans - Market Share (%)

Technical Reserves - Market Share (%)

Growth in Technical Reserves - In millions of reais

Bradesco Capitalização s fast-growing volume of technical reserves totaled R\$ 1.95 billion in March, a growth rate of 18.1% compared to the same period in 2003. According to data for February published by SUSEP, the company has 24.0% of the total market volume of technical reserves.

These results transmit confidence and confirm the company s financial soundness and capacity to honor the commitments assumed with its customers.

Growth in Assets Guaranteeing Technical Reserves - In millions of reais

Number of Customers - Thousand

In line with its customer loyalty building policy focused on quality customer service and the offer of innovative products, the number of Bradesco Capitalização customers in March 2004 had grown by 7.8% in comparison with March 2003, totaling 2.8 million.

Outstanding Savings Bonds Bradesco Costumers - thousand

Outstanding Savings Bonds - transfer of draw participation rights - thousand

Total Outstanding Savings Bonds - thousand

The outstanding savings bond portfolio also presented a significant increase of 505.5% compared to the same quarter in 2003, with more than 44 million outstanding bonds. Of this amount, 89.6% are certificates with Transfer of Draw Participation Rights , which were sold via partnership agreements with companies in different market segments, including Bradesco Cartões, Bradesco Vida e Previdência, Banco Finasa, etc. Since the purpose of this type of savings bond certificate is to add value to partners products or to provide incentives for customer payments, these are low-priced bonds sold with reduced terms and grace periods and at a lower unit purchase price.

Leasing Companies

At March 31, 2003, the Bradesco Organization had the following leasing companies: Bradesco BCN Leasing S.A. Arrendamento Mercantil, Potenza Leasing S.A. Arrendamento Mercantil, Bancocidade Leasing Arrendamento Mercantil S.A., Alvorada Leasing Brasil S.A. Arrendamento Mercantil, formerly BBV Leasing Brasil S.A. Arrendamento Mercantil and Zogbi Leasing S.A Arrendamento Mercantil.

In 2003, the Bradesco Organization changed the organizational structure of the Leasing Companies as follows:

- In February, BCN Leasing Arrendamento Mercantil S.A. incorporated Bradesco Leasing S.A. Arrendamento Mercantil and changed its name to Bradesco BCN Leasing S.A. Arrendamento Mercantil.
- In April, Bradesco BCN Leasing incorporated Finasa Leasing Arrendamento Mercantil S.A.
- In September, Bradesco BCN Leasing acquired the leasing portfolio of BBV Leasing Brasil S.A. Arrendamento Mercantil now named Alvorada Leasing Brasil S.A. Arrendamento Mercantil and, following the capital increase of R\$ 350 million in Bancocidade Leasing Arrendamento Mercantil S.A., became its controlling stockholder.
- In October, the capital of Boavista S.A. Arrendamento Mercantil was partially spun off and the spun-off portion of R\$ 195 million was incorporated by Bancocidade Leasing Arrendamento Mercantil S.A.
- In December, Boavista S.A. Arrendamento Mercantil was incorporated by Banco Boavista InterAtlântico S.A.

Stockholders' equity

Corporate Reorganization

In March 2003, non-recurring income in the amount of R\$ 132.5 million was recognized in Potenza Leasing S.A. Arrendamento Mercantil, derived from deferred tax assets recorded on prior-year tax losses and negative bases of social contribution.

Leasing Performance - Consolidated Bradesco

Bradesco's leasing operations are carried out through Bradesco BCN Leasing S.A. Arrendamento Mercantil, Banco Finasa S.A. and Zogbi Leasing S.A. Arrendamento Mercantil.

At March 31, 2003, leasing operations brought to present value totaled R\$ 1,374.9 million, with a balance of R\$ 27.7 million receivable in operating leases.

According to the Brazilian Association of Leasing Companies (ABEL), the Bradesco Organization is one of the sector s leaders, with a 14.6% market share (base date: February 2004). This sound performance is rooted in its Branch Network integrated operations and the maintenance of its diversified business strategies in various market segments, in particular, the implementation of operating agreements with major industries, mainly in the heavy vehicle and machinery/equipment sectors.

The following pie graph presents the composition of Bradesco's consolidated leasing portfolio by types of asset.

Operations					

2003

On December 9, 2002, Bradesco Consórcios commenced the sale of consortium quotas to Bradesco employees and on January 21, 2003 sales were extended to the Bank s account holders and non-account holders and the consortium purchase system included as part of the Bradesco Organization s product portfolio. At March 31, 2004, a total of 72 thousand consortium quotas had been sold, with billings in excess of R\$ 2.3 billion, 8,245 participants had been selected by bid or draw and 4,273 items had been delivered to members comprising 370 groups. 59 new groups were formed during the first quarter of 2004.

The company uses all the facilities of the Bradesco Organization customer service network to commercialize the products offered.

Mission

The company s mission is to manage consortium plans and groups for consumer and corporate purchasers regardless of whether they are Bradesco account holders or not, and to operate in the car, truck, tractor and combine harvester segment, as well as in real estate, maintaining excellent standards in the quality of the services offered and in consortium system practice, pursuant to regulations determined by the Brazilian Central Bank and in line with the Bradesco Organization s philosophy.

Segmentation

The Bradesco Organization s entry into this segment is part of its strategy to offer the most complete range of product and services possible to its customers.

Providing all income brackets with the opportunity to purchase items through the consortium quota system, filling a market lacuna at accessible prices, especially considering, as regards the country s present housing deficit, real estate products.

The Consortium segment is a complementary niche to regular banking activities and at present there are 3.2 million(*) consortium group members nationwide. According to information gathered, only 15%(*) of vehicles sold in Brazil are sold via the Consortium method.

The automotive sector presented growth of 4.9% in February 2004, increasing from 2.65 million consortium group members in 2003 to 2.78 million members in 2004. The number of winning members selected by bid or by draw grew from 114.2 thousand in the first 2-month period of 2003 to 115.9 thousand in the same period of 2004.

2004

Growing continuously over the last five years, the real estate sector presented a 62.5% increase in winning members selected by bid or by draw in the first two months of 2004 compared to the same period in 2003. Bradesco Consórcios, placed 3rd in the Real Estate ranking for February 2004, according to statistical data released by the Brazilian Central Bank, now aims to achieve leadership of this segment in the first half of 2004, through its sales campaign of real estate consortium quotas.

(*) Source: ABAC-Brazilian Association of Consortium Group Management Companies (February 2004).

Representation

Within this segment, Bradesco plays a central role in providing Brazilians with the opportunity to acquire consumer durables and real estate.

In less than a year, Bradesco Consórcios won the Marketing Best 2003 award, confirming that good ideas, a sound product and considerable effort, are capable of leveraging our medium and long-term results, with positive effects on our capacity to secure new customers.

At the end of the first quarter, Bradesco Corretora maintained its outstanding position in the Capital Market.

We present below a summary of the main activities carried out during the quarter.

Bradesco Corretora ended the year ranked 9th among the 90 brokerage firms operating in the São Paulo Stock Exchange (BOVESPA). During the quarter, services were provided to 57,813 investors and 101,820 buy and sell orders were carried out for a total financial volume of R\$ 4.7 billion. The Corretora participates with BOVESPA in the Bovespa vai até você campaign in an important effort to raise public awareness regarding the benefits of investing in the stock market.

Bradesco Corretora negotiated 730.3 thousand contracts in the Mercantile and Futures Exchange (BM&F) for a financial volume of R\$ 80.0 billion, ranking the Corretora 26th out of more than 80 participants. The Corretora has centered its efforts on the continued expansion of its business, as well as promoting the futures market. In the agricultural area, the Corretora acts directly in the country s main production centers, through visits, seminars and participation in agricultural fairs and expos. In conjunction with the BM&F, the company sponsored visits to the exchange and Bradesco Corretora in São Paulo by investors from all over the country. At the same time, the company hosted numerous visits by farmers, teachers, opinion-makers and brokers from the physical commodities market.

Online web trading for the quarter totaled 59,785 orders with a financial volume of R\$ 355.7 million, comprising 3.2% of all Home-Broker operations carried out in BOVESPA and placing the Corretora fifth in the overall ranking. The customer base increased by 13.3% with more than 2,564 new customers registered during the quarter and more than 12,672 e-mails received.

As a result of its role in Public Offerings of Share Purchases, Special Operations, Stock Swapping Auctions and Privatization Auctions, Bradesco Corretora continues in its important market position, with a financial volume of R\$ 642.3 million for the quarter.

Bradesco Corretora offers an investment analysis service, operating in conjunction with Banco Bradesco s economic area, delivering main market performance reports, suggested stock portfolios and a comprehensive stock guide.

The company also offers a non-resident investor representation service for transactions carried out in the financial and capital markets, in accordance with the provisions of CMN Resolution 2689/2000, of January 26, 2000.

Net income recorded for the quarter totaled R\$ 5 million.

Stockholders' equity at the end of the quarter increased to R\$ 70 million, corresponding to 20.47% of total assets of R\$ 342 million.

2002

Bradesco Securities, Inc., a wholly owned subsidiary of Banco Bradesco, operates as a broker dealer in the United States. The company's activities are focused on the intermediation of share purchases and sales, with emphasis on ADR operations. The company is also authorized to operate with Bonds, Commercial Paper and Certificates of Deposit, among others, and to provide Investment Advisory services. This Bradesco initiative was motivated by more than 90 programs involving ADRs of Brazilian companies traded in New York and by the growing interest of foreign investors in the emerging markets and is designed to offer support for global economy investors who invest part of this flow in countries such as Brazil.

Designed to provide leverage to its brokerage transactions abroad, Bradesco Securities, Inc. increased company capital in the amount of US\$ 20 million in May 2003.

Banco Bradesco obtained Financial Holding Company status from the Board of Governors of the Federal Reserve System, on January 30, 2004, which will permit the expansion of Bradesco Securities activities.

This status, given based on a rigorous analysis of various aspects determined in US banking legislation, including Bradesco s high level of capitalization and the quality of its Management, will allow the Bank, either directly or through its subsidiaries, to operate in the US market, carrying out financial activities under the same conditions as local banks, in particular the following:

- Underwriting, private placement and market-making
- Acquisitions, mergers, portfolio management and financial services (merchant banking)
- Administration of mutual fund portfolios
- Sale of insurance

Accordingly, Banco Bradesco has strengthened its role in the Investment Banking segment, increasing opportunities for exploiting various financial activities in the US market and contributing to the increase in the volume of transactions carried out with Brazilian companies.

Awards

For the second time in a row, Bradesco received the Quality Seal (Selo Animec Companhia Aberta 2003) given annually by the National Association of Capital Market Investors ANIMEC to institutions recognized for their transparency, the respect shown to stakeholders and application of good corporate governance practices. Bradesco also received the Top 5 award from MZ Consult, a financial services consultancy, which rates Brazil s best Investor Relations websites.

A study prepared by the consulting firm Economática, in eight Latam countries and the U.S., revealed that Bradesco was the Bank with the best dividend distribution policy in 2003.

The Bank was overall winner of the 2004 edition of the 100 Most-wired Companies in Brazil poll organized by Info Exame magazine. As well as leading the overall ranking, Bradesco was also considered the banking sector s most-wired company. Bradesco Seguros also appears in the same ranking.

Bradesco was also recognized as Brazil s Best Foreign Exchange Bank by Global Finance magazine and by the Investidor Institucional magazine as best fund manager focused on institutional clients, with the largest number of products rated excellent, in the ranking prepared by the Risk Office consultancy.

Sociocultural Events

During the first quarter of 2004, Bradesco gave support to a number of different social projects throughout Brazil. These consisted of cultural, regional, sector or professional venues, including trade fairs, seminars, conventions and community events.

In commemoration of the city of São Paulo s 45% anniversary, Bradesco sponsored a retrospective exhibition of Picasso (*Picasso na Oca uma retrospectiva*). This was the largest exhibition of the art of the Spanish genius Pablo Picasso ever to be shown in Latin America, with 124 works from the Picasso Museum in Paris on show. During certain weeks, the doors to the exhibition were opened to the public for free. Bradesco was this important event s exclusive sponsor.

During the first quarter, Bradesco was present once again at the Summer Festival and Carnival in Salvador (BA) and at the Grape Festival in Caxias do Sul (RS). The Organization also gave support to the ExpoAgrodinâmica in Não Me Toque (RS), the Comigo Agrishow in Rio Verde (GO) and the Expogrande Agricultural Fair in Campo Grande (MS).

In the educational area, the Bradesco Foundation opened its 40th School on the outskirts of the town of Osasco, São Paulo. The new unit will attend two thousand students in 2004. In February, three students from the Foundation's Schools in Irecê (BA), Paranavaí (PR) and Vila Velha (ES) were prize winners at the Literary Competition (*Um Poema Chamado Brasil*) organized by the Ministries of Education and Culture, UNESCO and Fiat. The competition was created to encourage students to express their feelings on life in Brazil through poetry writing, chronicles and short stories.

The first Sunday in March was National Voluntary Action Day at the Bradesco Foundation s 40 Schools throughout Brazil. More than 300 thousand people from underprivileged communities took part in 650 activities carried out in the health, citizenship, art, environment, technology, sports and leisure areas. More than 7 thousand volunteers were involved, including students, teachers and support staff, as well as professionals such as doctors, dentists, nutritionists, nurses, psychologists and lawyers.

Fundação Bradesco - The Bradesco Organization s Social Arm

Background

The Bradesco Foundation, a not-for-profit entity, headquartered at Cidade de Deus, Osasco (SP), was founded in 1956 and declared to be of Federal Public Utility by Decree 86,238, on July 30, 1981.

Convinced that education lies at the roots of equal opportunity and personal and collective fulfillment, the Bradesco Foundation currently maintains 40 schools installed as priority in the country s most underprivileged regions, in all of Brazil s states and in the Federal District.

Objectives and Goals

Through its pioneer action in private social investment, the Bradesco Foundation s chief mission is to provide formal, quality education to children, young people and adults ensuring that they receive the qualifications required to achieve personal fulfillment through their work and the exercising of their rights and duties as citizens.

Accordingly, the Foundation has expanded its activities yearly, increasing the number of students matriculated in its schools from 13,080 to more than 105,000 over the last twenty-four years. The Bradesco Foundation schools offer education free-of-charge at pre, junior and high school levels, as well as basic professional and technical training in IT, electronics, industry, management and agriculture and livestock raising. Distance learning is also offered as part of its Youth and Adult Education programs.

Important Events

The 40th Bradesco Foundation School, in Jardim Conceição, Osasco (SP), opened its doors on March 16 this year, with modern facilities and the capacity to attend some 2,000 students from the local community.

On March 7, all the Foundation Schools took part in Brazil s National Voluntary Action Day. More than 300 thousand people benefited from activities promoted in the leisure and entertainment, education, culture, sports, healthcare, community development and citizenship action areas. Seven thousand volunteers were involved, including students, parents, support staff, teachers and professionals from partner organizations, providing more than 600 quality services to community members residing in the vicinity of the Foundation schools.

School Locations

The majority of the Foundation's educational units are located on the outskirts of major cities or in rural areas where there is a significant lack of educational and welfare assistance. Thousands of students in all four corners of Brazil are given the opportunity to study at the Foundation schools.

Independent auditors report on supplementary accounting information.

To
The Board of Directors and Stockholders
Banco Bradesco S.A.
Osasco - SP

We have performed special review, in accordance with the specific rules established by the Brazilian Institute of Independent Auditors (IBRACOM), jointly with the Brazilian Federal Accounting Council (CFC), of the consolidated interim report of Banco Bradesco S.A. and its subsidiaries for the three-month periods ended March 31, 2004 and 2003 and have issued an unqualified report, dated April 30, 2004.

Our review was performed for the purpose of reviewing the consolidated interim report of Banco Bradesco S.A. and its subsidiaries, taken as a whole. In connection with our special review, we have performed a review of the supplementary account information included in the Report on Ecomic and Financial Analysis that is presented exclusively for the purpose of additional analysis and is not a required part of the financial statements.

Based on our special review, we are not aware of any significant modifications that should be made to the supplementary account information for it to be presented adequately, in material respects, in relation to the interim report taken as a whole.

5	Financial Statements, Report of the Fiscal Council and Independent Auditors' Report

Directors Report

To Our Stockholders.

We are pleased to present the financial statements for the quarter ended March 31, 2004, of Banco Bradesco S.A., as well as the consolidated financial statements, prepared in accordance with the requirements of Brazilian corporate legislation.

Among the important events for the quarter at the Bradesco Organization, we highlight the following:

- Authorization from the Federal Reserve Bank (FED) giving permission for Bradesco to operate as a Financial Holding Company in the United States, carrying out financial activities in the highly competitive U.S. market under the same conditions as local banks.
- Acquisition of the share control of Banco do Estado do Maranhão BEM, which had total assets of R\$766 million and a network of 76 Branches at December 31, 2003. As a result of this acquisition through an auction carried out by BOVESPA, the São Paulo stock exchange, on February 10, 2004, the Bradesco Organization expands its presence in the northern state of Maranhão.
- Ratification by the Brazilian Central Bank and subsequent conclusion of the acquisition, through Banco Finasa S.A. of the share control of Banco Zogbi S.A. and the companies Promosec Companhia Securitizadora de Créditos Financeiros, Promovel Empreendimentos e Serviços Ltda., Zogbi Leasing S.A. Arrendamento Mercantil and Zogbi Distribuidora de Títulos e Valores Mobiliários Ltda. An important strategic move by the Bradesco Organization in the consumer financing sector, complementing the activities carried out by Finasa and Banco Postal.
- Integration of BCN S.A. with Banco Bradesco on February 25, with the transformation of the BCN Branches into Bradesco Branches. This initiative has optimized resources, combining the expertise and dedication of staff from both institutions, in the pursuit to offer customers maximum quality in products and services.
- Conclusion on March 19 of the 1-for-10,000 reverse stock split, designed to adjust the par value of Bradesco shares to a more appropriate level for stock exchange trading purposes, align its local and foreign market quotations, decrease trading costs and increase the efficiency of the shareholder information and registration system.

Bradesco reported first-quarter net income of R\$ 608.713 million, corresponding to R\$ 3.85 per share, an annualized return of 19.10% on closing stockholders equity, and 19.27% on average stockholders equity.

Taxes and contributions, including social security contributions, payable or accrued, on the main activities carried out by the Bradesco Organization for the period, amounted to R\$ 833.351 million, equivalente or 136.90% of net income.

At the end of the quarter, paid-up capital totaled R\$ 7 billion and comprised 158,587,941 nominative-registered shares, with no par value, of which 79,894,005 are common and 78,693,936 are preferred shares and considering the 1-for-10,000 reverse stock split approved by the Extraordinary General Meeting on December 17, 2003. Paid-up capital, plus reserves of R\$ 6.625 billion, comprised the total stockholders equity of R\$ 13.625 billion, a 16.37% growth rate, compared to the same period in 2003. Net equity per share was equivalent to R\$ 86.13.

Managed stockholders equity corresponds to 8.51% of consolidated assets which totaled R\$ 160.971 billion, an 11.01% growth rate for the quarter compared to March 2003. As a result, the capital adequacy ratios were 18.91% on a consolidated financial basis and 16.42% on a consolidated economic and financial basis and accordingly, above the 11% required minimum established by National Monetary Council Resolution 2099 of August 17, 1994, in conformity with the Basel Accord. At the end of the quarter, the ratio of permanent assets to stockholders equity, in relation to consolidated reference equity was 43.84% on a consolidated financial basis and 27.99% on a consolidated economic and financial basis, accordingly, within the maximum 50% limit.

In compliance with the provisions of Article 8 of Brazilian Central Bank Circular 3068, of November 8, 2001, Bradesco declares that it has both the financial capacity and the intention to hold to maturity the securities classified in the securities held to maturity category.

With a growth rate of 17.94% compared to the same period in 2003, overall funding obtained by the Bradesco Organization amounted to R\$ 228.004 billion, at March 31, 2004 and comprised the following:

- R\$ 74.270 billion in demand, time and interbank deposits, open market and savings accounts.
- R\$ 84.045 billion in managed assets, comprising investment funds and customer portfolios an increase of 31.78% over the same period in 2003.
- R\$ 33.922 billion in foreign exchange portfolio, borrowings and onlendings, own working capital funds, collection and tax and utility collections and similar, as well as funds from the issuance of securities and local subordinated debt.
- R\$ 27.947 billion recorded in technical reserves for insurance, private pension plans and savings bonds, a growth rate of 32.76% compared to the same period in 2003.
- R\$ 7.820 billion in foreign resources through public and private issues, subordinated debt and securitization of future financial flows, corresponding to a total of US\$ 2.689 billion.

The balance of credit operations totaled R\$ 54.894 billion and includes the following:

- R\$ 6.065 billion in advances on foreign exchange contracts for a portfolio of US\$ 3.284 billion in export financing.
- US\$ 392.603 million in foreign currency import financing.
- R\$ 1.375 billion in leasing.
- R\$ 4.493 billion in agricultural loans
- R\$ 7.439 billion in foreign and domestic onlendings, mainly comprising funds from the National Bank for Economic and Social Development (BNDES).

In the housing loan area, the Organization provided funds during the first three months of the year for the construction and purchase of residential housing in the amount of R\$ 111.019 million, comprising 1,780 properties.

In the Capital Market Area, Bradesco was an important intermediary in the public placement of shares, debentures and promissory notes, with a total volume of R\$ 1.420 billion recorded in the first quarter, corresponding to 78.83% of all issues registered with the Brazilian Securities Commission (CVM). The Bank also gained recognition for its activities in the area of mergers and acquisitions, project finance and as an advisor in corporate and financial restructuring.

The Bradesco Insurance Group, with an important role in the insurance, private pension plan and savings bond areas, reported net income of R\$ 164.179 million at March 31, 2004. The overall premium income attained R\$ 3.431 billion, a growth rate of 14.98% in comparison with the same period in 2003.

At the end of the quarter, the Bradesco Organization Network offered its customers and other users access to 11,205 service outlets, with 22,302 ATMs in the BDN Bradesco Day and Night Self-service Network, 16,388 of which also operate at weekends and on bank holidays and more than 211 ATMs in the Banco BEM S.A. customer service network:

- 3,058 Branches in Brazil (Bradesco 2,981, Banco BEM 76 and Banco Finasa 1).
- Branches abroad, 1 in New York (Bradesco), 4 in Grand Cayman (Bradesco, BCN, Mercantil and Banco Boavista) and 2 in Nassau, Bahamas (Banco Boavista and Banco Alvorada, formerly BBV Banco).
- Subsidiaries abroad (Banco Bradesco Argentina S.A. in Buenos Aires, Banco Bradesco Luxembourg S.A. in Luxembourg, Boavista Banking Ltd. in Nassau, Bradesco Securities, Inc. in New York, Bradesco Services Co. Ltd. in Tokyo and Cidade Capital Markets Ltd. in Grand Cayman).
- 4,085 Banco Postal branches

Banking service posts and outlets in companies (Bradesco 2,129 and Banco BEM - 26).
 Advanced Banking Posts of Banco BEM.
 Outplaced terminals in the BDN Bradesco Day and Night Network.
 Branches of Finasa Promotora de Vendas, present in 12,030 vehicle dealerships and 2,193 stores selling furniture and decor, tourism, auto parts and IT related equipment and software, among others.
 Branches of Promovel Empreendimentos e Serviços Ltda., responsible for securing and forwarding proposals for personal loans and consumer financing (CDC) to Banco Zogbi, present in more than 25 thousand stores selling mainly furniture, DIY, clothing and footwear.

In compliance with CVM Instruction 381, the Bradesco Organization declares that, during the quarter, no non-audit services were contracted or rendered by KPMG Auditores Independentes for an amount which exceeds 5% of the total external audit costs. This policy complies with internationally accepted principles designed to maintain the independence of external auditors. In accordance with these principles: auditors should not audit their own work, nor exercise management functions for their clients, nor promote the interests of such clients. Each external audit is contracted for a maximum five-year period pursuant to Brazilian Central Bank regulations.

In the social area, the Organization plays an important role through its educational and welfare programs developed by Fundação Bradesco (the Bradesco Foundation), which maintains 40 schools installed as a priority in regions which are both socially and economically deprived across all of Brazil s states and in the Federal District. More than 107 thousand students receive education, completely free-of-charge, at the Foundation schools, including youth and adult education and basic professional training courses. To its more than 50 thousand infant, junior, middle and technical school students, the Foundation also provides free meals, uniforms, school materials and medical/dental care.

In the human resources area, Bradesco s strategy to increase the value of its work force through the implementation of permanent training programs designed to enhance staff qualification and development, continued in the pursuit to meet the Organization s expansion demands, as always focusing on customer service excellence and product and service efficiency. During the quarter, 332 courses were given with 51,409 employee participations. The benefit plans designed to guarantee the well being, better life quality and security of employees and their dependents, covered 185,237 people at March 31, 2004.

The results achieved during the quarter once again reflect Bradesco s successful efforts to surpass expectations and offer only the very best in terms of products and services. This progress was only possible thanks to the support and trust of our stockholders and customers and the dedicated work of our employees and other stakeholders. To all of them, we offer our sincere gratitude.

Cidade de Deus, April 30, 2004

Board of Directors and Board of Executive Officers

Consolidated Balance Sheet at March 31 - In thousands of reais

- 33) FINANCIAL INSTRUMENTS
- 34) EMPLOYEE BENEFITS
- 35) INCOME TAX AND SOCIAL CONTRIBUTION
- 36) OTHER INFORMATION

1) OPERATIONS

Banco Bradesco S.A. is a private-sector open-capital company which, operating as a multiple bank, carries out all types of authorized banking activities including foreign exchange transactions through its commercial, investment, consumer financing, housing loan and credit card portfolios. The Bank also operates in a number of other activities through its direct and indirect subsidiary companies, particularly in leasing, consortium management, insurance, savings bond and private pension plan activities. Operations are conducted within the context of the companies comprising the Bradesco Group, which are jointly active in the market.

2) PRESENTATION OF THE FINANCIAL STATEMENTS

The financial statements of Banco Bradesco S.A. include the financial statements of Banco Bradesco S.A., its foreign branches and its direct and indirect subsidiaries and jointly controlled investments in Brazil and abroad.

The financial statements of Banco Bradesco S.A. were prepared based on accounting policies determined by Brazilian Corporation Law for the recording of operations, as well as the rules and instructions of the National Monetary Council (CMN), Brazilian Central Bank (BACEN), Brazilian Securities Commission (CVM) and Superintendency of Private Insurance (SUSEP), and comprise the financial statements of the leasing companies based on the capital leasing method of accounting, which requires the reclassification of leasing operations to the current-asset and long-term-receivable accounts.

Accordingly, upon consolidation, intercompany investments, account balances, revenue, expenses and unrealized income were eliminated from the financial statements and, in the case of investments which are jointly controlled with other stockholders, asset, liability and income components, are included in the consolidated financial statements in proportion to the parent company's percentage capital ownership of each investee. Goodwill on the acquisition of investments in subsidiaries is presented in deferred assets and minority interests in net income and stockholders equity are separately disclosed. Exchange variation arising from permanent investments in subsidiaries and foreign branches was allocated to the statement of income accounts in accordance with the corresponding assets and liabilities from which it originated.

The financial statements include estimates and assumptions, such as the calculation of the allowance for loan losses, the estimation of the fair value of certain financial instruments, provision for contingencies, other provisions, the quantification of technical reserves for insurance, pension plans and savings bonds and the determination of the useful economic life of specific assets. Actual results could differ from these estimates and assumptions.

We present below the main direct and indirect subsidiaries, including their foreign branches and subsidiaries and jointly controlled investments:

- (1) New names of Banco Bilbao Vizcaya Argentaria Brasil S.A. BBV Banco and of the BBV Banco branch in Nassau acquired in June 2003.
- (2) Percentage ownership decreased following the merger of Banco BEA S.A. in April 2003.
- (3) Acquired on February 10, 2004.
- (4) Partially spun off on March 10, 2004, with spun-off portion merged into Banco Bradesco. On March 12, 2004, the remaining assets and liabilities of Banco BCN S.A. were incorporated by Banco Alvorada S.A.
- (5) Merged into Banco Baneb in April 2003.
- (6) Company/branch became a direct subsidiary of Banco Bradesco following the partial spin off of Banco BCN on March 10, 2004, with the incorporation of the spun-off portion by Banco Bradesco (item 4).
- (7) Became a direct subsidiary of Banco Bradesco in May 2003.
- (8) Percentage ownership increased through acquisition and incorporation of the minority stockholders shares of Banco Mercantil de São Paulo S.A.
- (9) Acquired on February 16, 2004.
- (10) Percentage ownership increased following the merger of Finasa Leasing S.A. Arrendamento Mercantil in April 2003, into BCN Leasing S.A. Arrendamento Mercantil.
- (11) Proportionally consolidated in accordance with CMN Resolution 2723 and CVM Instruction 247.
- (12) Companies audited by other independent auditors in 2003.
- (13) Companies audited by other independent auditors in 2004.

- (14) Percentage ownership increased through acquisition of BBV Banco in June 2003.
- (15) The joint venture partnership called Brazilian Merchant Voucher Receivables Limited operating in the securitization of the future flow of credit card bill receivables from foreign cardholders abroad is being consolidated (Note 18b).
- (16) Merged into Bradesco BCN Leasing S.A. Arrendamento Mercantil in April 2003.
- (17) In September 2003, Banco Mercantil de São Paulo International S.A. and Banco Bradesco Luxembourg S.A. were merged and the latter s name maintained.
- (18) The joint venture partnership called International Diversified Payment Rights Company, operating in the securitization of the future flow of payment orders received from abroad is being consolidated (Note 18b).
- (19) Merged into Bradesco Capitalização S.A. in December 2003.
- (20) Percentage ownership decreased through the incorporation of ABS-Empreendimentos Imobiliários, Participações e Serviços S.A. in December 2003.
- (21) Became a direct subsidiary of Bradesco Seguros in April 2003.
- (22) A subsidiary since percentage ownership totals 51% of voting capital.
- (23) Percentage ownership increased through acquisition of shares.
- (24) Sold in October 2003.
- (25) Percentage ownership increased through cancellation of treasury stock of Bradesco Seguros.
- 3) SIGNIFICANT ACCOUNTING POLICIES

a) Determination of net income

Income and expenses are recorded on the accrual basis and are prorated daily when of a financial nature. Transactions with prefixed rates are recorded at their redemption amounts and income and expenses for the future period are recorded as a discount to the corresponding asset and liability accounts. Post-fixed or foreign-currency-indexed transactions are adjusted to the balance sheet date. Income and expenses of a financial nature are calculated based on the exponential method, except when relating to discounted notes or to cross-border transactions which are calculated on the straight-line method.

The insurance and coinsurance premiums and income on commissions, net of premiums assigned in coinsurance and reinsurance and corresponding expenses for commission, are appropriated to results upon issuance of the corresponding insurance policies and are deferred for appropriation on a straight-line basis over the terms of the policies, through the recording and reversal of a provision for unearned premiums and deferred selling expenses. The accepted coinsurance and retrocession operations are recorded based on the information received from other companies and the Brazilian Institute of Reinsurers (IRB), respectively.

The revenue from savings bond plans is recognized at the time it is effectively received. The expenses for placement of bonds, classified as Selling Expenses, are recorded as they are incurred. Brokerage expenses are recorded at the time the savings bond plan contributions are effectively received. The payment of prizes on winning bonds is recorded as an expense in the month in which the draw takes place.

The private pension plan contributions are recorded in income at the time they are effectively received.

b) Interbank investments

Purchase and sale commitments subject to unrestricted movement agreements are adjusted to market value. Other assets are recorded at purchase cost, including accrued income up to the balance sheet date, net of loss accrual, where applicable.

c) Securities

Securities are classified and recorded as presented below:

- Trading securities securities which are acquired for the purpose of being actively and frequently traded are adjusted to market value as a counter-entry to results for the period.
- Securities available for sale securities which are not specifically intended for trading purposes or as held to maturity, are adjusted to market value as a counter-entry to a specific account in stockholders' equity, at amounts net of tax effects.
- Securities held to maturity securities for which there exists intention and financial capacity for maintenance through to maturity are recorded at cost, plus accrued earnings, as a counter-entry to results for the period.
- d) Derivative financial instruments (assets and liabilities)

The derivative financial instruments are classified based on management s intended use thereof on the date of the operation and whether it was carried out for hedging purposes or not.

The derivative financial instruments which do not comply with the hedging criteria established by BACEN, particularly derivatives used to manage general exposure to risk, are recorded at market values, with the corresponding mark-to-market adjustments taken directly to income for the period.

The derivative financial instruments used for protection against exposure to risk or for changing the characteristics of financial assets and liabilities and which are: (i) significantly co-related in relation to the adjustment of their market value to the market value of the hedged item, at both the start and over the duration of the contract; and (ii) considered to be effective in mitigating the risk associated with the exposure which is to be protected, are classified as hedges in accordance with their specific nature:

- Market risk hedge the hedged financial assets and liabilities and the corresponding derivative financial instruments are recorded at market value, with corresponding mark-to-market adjustments recorded directly in income for the period.
- Cash flow hedge hedged financial assets and liabilities and the corresponding derivative financial instruments are recorded at market value, with corresponding mark-to-market adjustments, net of tax effects, recorded in the stockholders equity account. The non-hedged portion is recorded directly in results for the period.
- e) Credit and leasing operations, advances on foreign exchange contracts, other receivables and allowance for loan and leasing losses

Credit and leasing operations, advances on foreign exchange contracts and other receivables are classified in compliance with: (i) the parameters established by CMN Resolution 2682/1999 at nine levels from AA (minimum risk) to H (maximum risk); and (ii) management s risk level assessment. This assessment, which is carried out on a periodic basis, considers current economic conditions, and past loan loss experience, as well as specific and general risks relating to operations, borrowers and guarantors. The length of the delay in payment defined in CMN Resolution 2682/1999 is also taken into account for customer risk classification purposes as follows:

Length of delay	Customer classification
	AA
• No delay	A
• Up to 14 days	
• From 15 to 30 days	В
• From 31 to 60 days	С
	D
• From 61 to 90 days	E
• From 91 to 120 days	F
• From 121 to 150 days	
• From 151 to 180 days	G
<u> </u>	Н

• More than 180 days

The accrual of credit operations past due up to 60 days is recorded in income on credit operations and subsequent to the 61st day, in unearned income.

Past-due operations classified at H level remain at this level for six months, subsequent to which time they are written off against the existing allowance and controlled over a five-year period in memorandum accounts and no longer presented in the balance sheet.

Renegotiated operations are maintained with a classification equal to their prior classification. Renegotiated operations, already written off against the allowance and which are recorded in memorandum accounts, are classified at H level and any gains derived from their renegotiation are recognized as revenue only when they are effectively received.

In the case of mortgage loans, the contractual capitalization period (monthly or quarterly) for income appropriation purposes complies with applicable legislation and end-borrower financings are adjusted to the present value of the installments receivable.

The allowance for loan losses is recorded at an amount considered sufficient to cover estimated losses and is based upon current economic conditions, past loan loss experience, specific and general portfolio risks and on BACEN requirements and instructions.

f) Income tax and social contribution (asset and liability)

Deferred income tax and social contribution, calculated on tax losses, negative basis of social contribution and temporary additions, are recorded in Other receivables - sundry , and the provision for deferred tax liabilities on excess depreciation and mark-to-market adjustments of securities is recorded in Other liabilities - taxes and social security contributions . Only deferred tax assets which have already acquired, or are about to acquire, tax deductibility rights are recorded on amortization of goodwill.

Deferred tax assets on temporary additions are realized upon use and/or reversal of the corresponding provisions on which they were recorded. Deferred tax assets on tax losses and negative basis of social contribution will be realized as taxable income is generated.

The provision for federal income tax is calculated at the standard rate of 15% of taxable income, plus an additional rate of 10% for income over established limits. The provision for social contribution is recorded at the rate of 9% of pre-tax income. Provisions were recorded for other taxes and social contributions in accordance with specific applicable legislation.

g) Technical reserves relating to insurance, pension plan and savings bond activities

Provision for unearned premiums

These are recorded at the amount of that portion of the insurance premiums issued retained, corresponding to the unexpired risk periods of the insurance contracts, in accordance with the criteria determined by SUSEP standards.

Benefits to be granted and benefits granted

Mathematical provisions comprise the amount of the liabilities assumed under the form of income, pension and savings plans and are calculated based on the financial method determined in the contract under the responsibility of a legally qualified actuary registered with the Brazilian Institute of Actuaries (IBA). The mathematical provisions comprise the present value of future benefits estimated based on actuarial methods and assumptions. The provision for benefits to be granted comprises participants whose receipt of benefits has not yet commenced and the provision for benefits granted comprises participants who are currently receiving benefits.

Savings bonds - mathematical provisions

These are recorded in conformity with the technical notes approved by SUSEP, based on a variable percentage applicable to the amounts effectively received.

Unsettled claims and IBNR

The provision for payment of unsettled claims is recorded based on estimated probable payments, net of recoveries and adjusted for price-level restatement up to the balance sheet date. The reserve for claims incurred but not reported (IBNR) is calculated on an actuarial basis to quantify the volume and amount of the claims incurred, but which have not yet been reported to the insurance companies by the policyholders/beneficiaries.

h) Investments

Significant investments in subsidiaries, associated companies and jointly-controlled investments were recorded on the equity method. The financial statements of the foreign branches and subsidiaries are adjusted to comply with the accounting practices adopted in Brazil, translated into reais, and their related effects recognized in income for the period.

The exchange membership certificates of Stock Exchanges, the Center for the Financial Clearance and Custody of Private Securities (CETIP) and the Mercantile and Futures Exchange (BM&F) were recorded at net book value, as informed by the corresponding exchanges, and fiscal incentives and other investments were recorded at cost, less a provision for loss, where applicable.

i) Property and equipment in use

Property and equipment in use is stated at cost, net of the corresponding accumulated depreciation, calculated on the straight-line method at annual rates which take into consideration the economic useful lives of the assets as follows: buildings in use - 4%; furniture and fixtures and

machinery and equipment - 10%; data processing systems - 20% to 50%; and transport systems - 20%.

j) Deferred charges

Deferred charges are recorded at cost of acquisition or formation, net of the corresponding accumulated amortization, calculated on the straight-line method and amortized at a rate of 20% to 50% per annum.

Goodwill on the acquisition of investments in subsidiary companies, based on expected future results, is amortized at rates of 10% to 20% per annum and is presented on a consolidated basis in deferred charges.

k) Deposits and deposits received under security repurchase agreements

These are stated at the amount of the liabilities and include related charges up to the balance sheet date on a daily pro rata basis.

1) Other assets and liabilities

The assets were stated at their realizable amounts, including, where applicable, related income and monetary and exchange variations (on a daily pro rata basis), less a provision for loss, when deemed appropriate. The liabilities include known or estimated amounts, plus related charges and monetary and exchange variations (on a daily pro rata basis).

4)INFORMATION FOR COMPARISON PURPOSES

a) Reclassifications

In order to facilitate comparison of the financial statements, certain March 31, 2003 account balances were reclassified in line with the accounting procedures/classification used at March 31, 2004.

At March 31, 2003 In thousands of reais

- (1) Includes Promosec Cia. Securitizadora de Créditos Financeiros, Zogbi Leasing S.A. Arrendamento Mercantil, Zogbi Distribuidorade Títulos e Valores Mobiliários Ltda. and Promovel Empreendimentos e Serviços Ltda.
- Under management of Banco Bradesco S.A., provisions were recorded in BEM S.A. (formerly Banco do Estado do Maranhão S.A.) to covercertain contingencies and were responsible for its present stockholders—deficit. On March 12, 2004, a request to hold a public offer for shares (OPA) was filed at the Brazilian Securities Commission (CVM) for the acquisition of the bank—s minority interest and the cancellation of BEM—s listing as a publicly held company. As soon as this operation is concluded, the capital necessary for the bank to comply with legal minimum capital and stockholders—equity requirements, will be transferred to Banco BEM S.A.
- (II) In the first half of 2003, Bradesco acquired the share control of BBV Banco (now Banco Alvorada S.A.) and subsidiaries, the account balances of which are consolidated from June 2003. On September 19, 2003, Bradesco and BBV entered into an agreement for the assignment of assets and rights and assumption of liabilities, whereby Bradesco received assets in the amount of R\$3,274,079 thousand and assumed liabilities in the amount of R\$ 4,683,169 thousand.

5) ADJUSTED BALANCE SHEET AND STATEMENT OF INCOME BY BUSINESS SEGMENT

The consolidated balance sheet and statement of income, by business segment, are presented below at March 31, 2004 in accordance with the Chart of Accounts for National Financial System Institutions (COSIF).

⁽¹⁾ The financial segment comprises financial institutions and holding companies which are mainly responsible for managing financial resources, as well as credit card administration and asset management companies.

⁽²⁾ Asset and liability and income and expense account balances are eliminated between companies from the same segment.

⁽³⁾ The Insurance Group segment comprises insurance, private pension plan and savings bond companies.

- (4) Amounts eliminated between companies from different segments.
- (5) Investments and equity in earnings of associated companies are allocated to the segment to which the companies pertain.
- 6) BALANCE SHEET BY CURRENCY AND EXCHANGE EXPOSURE

We present below the consolidated account balances by currency and exchange exposure:

At March 31, 2004 In thousands of reais

- (1) Investment fund and managed portfolio resources invested in purchase and sale commitments with Banco Bradesco, the investors in which are subsidiary companies, included in the consolidated financial statements.
- (2) Other investment fund applications were distributed based on the securities comprising their portfolios, maintaining the fund category classification.
- (3) The number of days to maturity was based on the maturity of the securities, regardless of accounting classification.
- (4) This column reflects book value subsequent to mark-to-market, except for securities held to maturity, whose market value is higher than book value by R\$ 802,232 thousand.
- (5) The market value of securities is determined based on the market price practiced on the balance sheet date. In the event no market prices are available, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or quotations for instruments with similar characteristics.
- (6) Securities derived from the acquisition of Banco BEM S.A., comprising substantially financial treasury notes, in the amount of R\$ 498,262 thousand, remain classified in the Securities held to maturity category. In line with the portfolio profile of Banco Bradesco (the new parent company) these securities will be reclassified at June 30, 2004, pursuant to BACEN Circular 3068/2001.
- d) Composition of the portfolios by account:
