On January 11, 2019, EnPro Industries, Inc. (the “Company”) issued a press release which included certain information regarding its results of operations for the year ended December 31, 2018. The press release is submitted as Exhibit 99.1 to this Current Report. Item 2.05 Costs Associated with Exit or Disposal Activities.

On December 14, 2018, the Company approved a restructuring plan (the “Plan”) whereby its STEMCO heavy-duty trucking business will exit its friction manufacturing operations related to drum brakes. STEMCO will continue to source drum brake friction from third parties to support its brake product business. As a result of the restructuring, the drum brake friction production lines, which occupy a portion of an owned manufacturing facility located in Rome, Georgia, have been closed. A total of 15 friction production line employees have been terminated. The Company first communicated the Plan to these employees on January 11, 2019.

The Company expects to record total restructuring expenses related to the exit of approximately \$15.8 million, composed of impairment of inventory, equipment and other tangible assets of approximately \$12.9 million, the impairment of the Company's investment in a contemplated joint venture for the development of international friction manufacturing facilities of \$2.5 million, and severance and other expenses of approximately \$0.4 million. These expenses, other than the severance and other expenses of approximately \$0.4 million, are non-cash charges and have been recognized in the fourth quarter of 2018. The severance and other expenses will result in future cash expenditures and are anticipated to be incurred in the first half of 2019.
