

TALON INTERNATIONAL, INC.
Form 10-Q
November 12, 2010

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the quarterly period ended September 30, 2010.

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

Commission file number 1-13669

TALON INTERNATIONAL, INC.
(Exact Name of Issuer as Specified in its Charter)

Delaware
(State or Other Jurisdiction of Incorporation or Organization)

95-4654481
(I.R.S. Employer Identification No.)

21900 Burbank Boulevard, Suite 270
Woodland Hills, California 91367
(Address of Principal Executive Offices)

(818) 444-4100
(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: TALON INTERNATIONAL, INC. - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer [] Accelerated filer [] Non-accelerated filer [] Smaller reporting company [X]

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes [] No [X]

At November 11, 2010 the issuer had 20,291,433 shares of Common Stock, \$.001 par value, issued and outstanding.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. Presentation of Interim Information

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The accompanying unaudited consolidated financial statements reflect all adjustments that, in the opinion of the management of Talon International, Inc. and its consolidated subsidiaries (collectively, the "Company"), are considered necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented. The results of operations for such periods are not necessarily indicative of the results expected for the full fiscal year or for any future period. The accompanying financial statements should be read in conjunction with the audited consolidated financial statements of the Company included in the Company's Form 10-K for the year ended December 31, 2009. The balance sheet as of December 31, 2009 has been derived from the audited financial statements as of that date but omits certain information and footnotes required for complete financial statements.

The annual consolidated financial statements for the year ended December 31, 2009 were prepared on the basis of a going concern. The Company's independent registered public accounting firm noted significant risks associated with the Company's ability to continue on this basis. The risks were primarily attributable to the uncertainty related to obtaining future liquidity sufficient to fund on-going operations and to satisfy the Company's debt obligations maturing at July 30, 2010. Pursuant to the Recapitalization Agreement entered into on July 30, 2010 (See Note 8) the Company fully satisfied the debt obligations by issuance of preferred stock to the lender. In addition, the amendment of the Company's Loan Agreement makes available additional operating capital sufficient to fund on-going operations for at least the next twelve months. As a consequence, the risk associated with this debt and with the Company's ability to continue as a going concern has been mitigated.

Note 2. Summary of Significant Accounting Policies

A complete description of the Company's Significant Accounting Policies is included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009, and should be read in conjunction with these unaudited consolidated financial statements. The Significant Accounting Policies noted below are only those policies that have changed materially or have supplemental information included for the periods presented here.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Allowance for Accounts and Note Receivable Doubtful Accounts

The Company is required to make judgments as to the collectability of accounts and note receivable based on established aging policy, historical experience and future expectations. The allowances for doubtful accounts represent allowances for customer trade accounts and note receivable that are estimated to be partially or entirely uncollectible. These allowances are used to reduce gross trade receivables or note receivable to their net realizable value. The Company records these allowances based on estimates related to the following factors: (i) customer specific allowances; (ii) amounts based upon an aging schedule; and (iii) an estimated amount, based on our historical experience, for issues not yet identified. Bad debt expense (recoveries) on accounts receivable for the three and nine months ended September 30, 2010 was \$20,550 and \$(53,133), respectively. A recovery of the related party note of \$(275,000) was included in Bad Debt expense for the nine months ended September 30, 2010, see Note 13 “Related Party Notes and Transactions”. Bad debt expense on accounts receivable for the three and nine months ended September 30, 2009 was \$38,717 and \$116,090, respectively.

Fair Value Measurements

Effective January 1, 2008, the Company adopted Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) No 820, “Fair Value Measurements and Disclosures” (“ASC 820”). Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability. As a basis for considering such assumptions, the guidance establishes a three-tier value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1— Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2— Includes other inputs that are directly or indirectly observable in the marketplace.

Level 3— Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

In accordance with this guidance, the Company measures its cash equivalents at fair value. The Company’s cash equivalents are classified within Level 1. Cash equivalents are valued primarily using quoted market prices utilizing market observable inputs. At September 30, 2010 and December 31, 2009, cash equivalents consisted of money market funds measured at fair value on a recurring basis; fair value of the Company’s money market funds was approximately \$549,000 and \$495,000, respectively.

Effective January 1, 2009, the Company adopted the FASB staff position that delayed the guidance on fair value measurements for non financial assets and non financial liabilities. The adoption of this guidance did not have a

material impact on the Company's consolidated financial statements.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Intangible Assets

Intangible assets consist of our trade name and exclusive license and intellectual property rights. Intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but instead are tested for impairment at least annually in accordance with the provisions of FASB ASC 350, "Intangibles - Goodwill and Other". Intangible assets with estimable useful lives are amortized over their respective estimated useful lives, which average 5 years, and are reviewed for impairment in accordance with the provisions of ASC 360, "Property, Plant and Equipment". The exclusive license and intellectual property rights are fully amortized.

Convertible Preferred Stock

The Company applied the guidance enumerated in FASB ASC No. 480-10 "Distinguishing Liabilities from Equity", FASB ASC No. 210 "Classification and Measurement of Redeemable Securities" and Rule 5-02.28 of Regulation S-X, when determining the classification and measurement of preferred stock. The Company classifies conditionally redeemable convertible preferred shares, which includes preferred shares subject to redemption upon the occurrence of uncertain events not solely within our control, as temporary equity in the mezzanine section of the consolidated balance sheet.

The Company evaluated the conversion option of the convertible preferred shares under FASB ASC No. 470-20, "Debt with Conversion and Other Options", Accounting for Convertible Securities with Beneficial Conversion Features ("BCF") or Contingently Adjustable Conversion Ratios. A convertible financial instrument includes a BCF when the fair market value of the preferred stock is lower than the value of common stock if the preferred stock converts to common stock at the issuance date. The BCF shall be recognized separately at issuance by allocating a portion of the proceeds equal to the intrinsic value of the feature to additional paid-in capital.

Redeemable securities initially are recorded at their fair value minus BCF and minus preferred stock issuance costs. Subsequent measurement and recognition of the changes in the preferred stock value uses the following approach:

- When an equity instrument is not currently redeemable and it is probable that the equity instrument will become redeemable (for example, when the redemption depends solely on the passage of time), then the changes in the redemption value (for example, fair value) are recognized immediately as they occur, and the carrying amount of the instrument is adjusted to equal the redemption value at the end of each reporting period. This method views the end of the reporting period as if it were also the redemption date for the instrument. The resulting increases in the carrying amount of the redeemable security reduce income applicable to common shareholders in the calculation of earnings per share.
- Dividends on preferred shares are accrued against the preferred stock and reduce income applicable to common shareholders in the calculation of earnings per share.

Classification of Expenses

Costs of Goods Sold – Cost of goods sold primarily includes expenses related to inventory purchases, customs, duty, freight, overhead expenses and reserves for obsolete inventory. Overhead expenses primarily consist of warehouse and operations salaries, and other warehouse expense.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Sales and Marketing Expenses – Sales and marketing expenses primarily include sales salaries and commissions, travel and entertainment, marketing, royalty expense, and other sales related costs. Marketing and advertising efforts are expensed as incurred and for the three and nine months ended September 30, 2010 were \$41,910 and \$57,738 respectively, compared to \$13,539 and \$42,734 for the three and nine months ended September 30, 2009, respectively.

General and Administrative Expenses – General and administrative expenses primarily include administrative salaries, employee benefits, professional service fees, facility expenses, information technology costs, investor relations, travel and entertainment, depreciation and amortization, bad debts and other general corporate expenses.

Interest Expense, net – Interest expense reflects the cost of borrowing and amortization of deferred financing costs and discounts. Interest expense for the three and nine months ended September 30, 2010 totaled \$163,012 and \$1,782,913, respectively. Interest expense for the three and nine months ended September 30, 2009 totaled \$683,511 and \$1,982,555, respectively. Interest income consists of earnings from outstanding amounts due to the Company under notes and other interest bearing receivables. The Company recorded interest income of \$2,247 and \$30,130, respectively, for the three and nine months ended September 30, 2010, as compared to \$10 and \$1,016 for the same periods in 2009.

Foreign Currency Translation

The Company has operations and holds assets in various foreign countries. The local currency is the functional currency for the Company's subsidiaries in China and India. Assets and liabilities are translated at end-of-period exchange rates while revenues and expenses are translated at the average exchange rates in effect during the period. Equity is translated at historical rates and the resulting cumulative translation adjustments are included as a component of accumulated other comprehensive income until the translation adjustments are realized. Included in other accumulated comprehensive income were a cumulative foreign currency translation gain of \$40,128 and \$74,289 at September 30, 2010 and December 31, 2009, respectively.

Comprehensive Loss

Comprehensive loss consists of net loss and unrealized gains on foreign currency translation adjustments. Comprehensive loss and its components for the three and nine months ended September 30, 2010 and 2009 is as follows:

	Three Months ended September 30,		Nine Months ended September 30,	
	2010	2009	2010	2009
Net loss	\$ (1,242,166)	\$ (647,156)	\$ (1,443,133)	\$ (1,750,829)
Other comprehensive income -				
Foreign currency translation	27,813	14,079	34,161	18,154
Total comprehensive loss	\$ (1,214,353)	\$ (633,077)	\$ (1,408,972)	\$ (1,732,675)

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The foreign currency translation adjustment represents the net currency translation gains and losses related to our China and India subsidiaries, which have not been reflected in the net loss for the periods presented.

Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. The accounting estimates that require the Company's most significant, difficult and subjective judgments include the valuation of marketable equity securities, the valuation allowance for accounts receivable, notes receivable and inventory and the assessment of recoverability of long-lived assets and intangible assets, stock-based compensation and the recognition and measurement of current and deferred income taxes (including the measurement of uncertain tax positions). Actual results could differ materially from the Company's estimates.

Reclassifications

Certain reclassifications have been made to prior period financial statements to conform to the current year presentation.

Note 3. New Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-06, "Fair Value Measurements and Disclosures" (Topic 820): Improving Disclosures about Fair Value Measurements. This guidance amends the disclosure requirements related to recurring and nonrecurring fair value measurements and requires new disclosures on the transfers of assets and liabilities between Level 1 (quoted prices in active market for identical assets or liabilities) and Level 2 (significant other observable inputs) of the fair value measurement hierarchy, including the reasons and the timing of the transfers. Additionally, the guidance requires a roll forward of activities on purchases, sales, issuance and settlements of the assets and liabilities measured using significant unobservable inputs (Level 3 fair value measurements). The guidance became effective for the reporting period beginning January 1, 2010, except for the disclosure on the roll forward activities for Level 3 fair value measurements, which will become effective for the reporting period beginning January 1, 2011. The adoption of this updated guidance was not significant to the consolidated financial statements.

In February 2010, the FASB issued updated guidance related to subsequent events. As a result of this updated guidance, public filers must evaluate subsequent events through the issuance date of their financial statements; however, they are not required to disclose the date in which subsequent events were evaluated in their financial statements disclosures. This amended guidance became effective upon its issuance on February 24, 2010 at which time the Company adopted this updated guidance.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Options to purchase 5,160,286 shares of common stock exercisable between \$0.06 and \$5.23 per share were outstanding for the three and nine months ended September 30, 2010, but were not included in the computation of diluted net loss per share because the effect of exercise or conversion would have an antidilutive effect on net loss per share.

Warrants to purchase 318,495 shares of common stock exercisable at \$3.65 and options to purchase 6,841,330 shares of common stock exercisable between \$0.09 and \$5.23 were outstanding for the three and nine months ended September 30, 2009, but were not included in the computation of diluted net loss per share because the effect of exercise or conversion would have an antidilutive effect on net loss per share.

Note 5. Accounts Receivable

Accounts receivable are included on the accompanying consolidated balance sheets net of an allowance for doubtful accounts. The total allowance for doubtful accounts at September 30, 2010 and December 31, 2009 was \$172,082 and \$232,329, respectively.

Note 6. Inventories

Inventories are stated at the lower of cost, determined using the first-in, first-out basis, or market value and are all categorized as finished goods. The costs of inventory include the purchase price, inbound freight and duties, conversion costs and certain allocated production overhead costs.

Inventory valuation reserves are recorded for damaged, obsolete, excess and slow-moving inventory. The Company uses estimates to record these reserves. Slow-moving inventory is reviewed by category and may be partially or fully reserved depending on the type of product and the length of time the product has been included in inventory. Reserve adjustments are made for the difference between the cost of the inventory and the estimated market value, if lower, and charged to operations in the period in which the facts that give rise to these adjustments become known. Market value of inventory is estimated based on the impact of market trends, an evaluation of economic conditions and the value of current orders relating to the future sales of this type of inventory.

Inventories consist of the following:

	September 30, 2010	December 31, 2009
Finished goods	\$ 2,344,407	\$ 2,863,923
Less reserves	(1,065,016)	(1,184,621)

Total inventories	\$	1,279,391	\$	1,679,302
-------------------	----	-----------	----	-----------

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 7. Debt Facility

On July 30, 2010, the Company entered into a Recapitalization Agreement (the “Recapitalization Agreement”) with CVC California, LLC (“CVC”) in which the Company issued to CVC shares of the Company’s Series B Convertible Preferred Stock in payment of all of the outstanding obligations owed by the Company to CVC under the Revolving Credit and Term Loan Agreement (the “Loan Agreement”, see Note 8) originally entered into by the Company on June 27, 2007 with Bluefin Capital, LLC (“Bluefin”). Bluefin subsequently assigned its rights and obligations under the Loan Agreement to an affiliate, CVC. At July 30, 2010, all of the outstanding obligations owed to CVC under the Loan Agreement became due and payable, consisting of outstanding borrowings and accrued interest of \$11,548,098 under the term notes, and \$5,158,587 under the revolving credit note, for a total of \$16,706,685. All of these outstanding obligations were converted into Series B Convertible Preferred Stock on July 30, 2010.

In connection with the Recapitalization Agreement, on July 30, 2010 the Company and CVC amended the Loan Agreement to extend the maturity date of the Loan Agreement from July 30, 2010 until July 31, 2012, reduced the “Maximum Revolver Amount” to \$3,000,000, amended the “Borrowing Base” to modify the advance rate applicable to Eligible Accounts Receivable to 75% and the advance rate applicable to Eligible Inventory to 40%, eliminated loan maintenance fees, and modified the permissible amount of Capital Expenditures the Company can make in any Fiscal Year. The Company paid CVC a non-refundable fee in the amount of \$60,000 in consideration of CVC amending the Loan Agreement. Upon execution of the amendment, CVC waived all prior Events of Default under the Loan Agreement. At July 30, 2010, following completion of the Recapitalization Agreement the Company had no amounts outstanding under the modified Loan Agreement.

The Company originally entered into the Loan Agreement on June 27, 2007, which had provided for a \$5.0 million revolving credit loan (of which \$4.3 was initially borrowed) and a \$9.5 million term loan for a three year period ending June 30, 2010 (which was subsequently extended to July 30, 2010). In connection with the initial Loan Agreement, the Company issued to Bluefin 1,500,000 shares of common stock for \$0.001 per share and issued warrants for the purchase of 2,100,000 common shares at prices ranging from \$1.05 per share to \$1.14 per share.

On November 19, 2007, the Company entered into an amendment to the Loan Agreement to modify the original financial covenants and to extend until June 30, 2008 the application of the original EBITDA covenant in exchange for the issuance of an additional 250,000 shares of common stock to the lender for \$0.001 per share, and a lowering of the exercise price for all of the previously issued warrants to an exercise price of \$0.75 per share.

On April 3, 2008, the Company entered a further amendment to the Loan Agreement. This amendment included a redefining of the EBITDA covenants, and the cancellation of all of the common stock warrants previously issued to the lender in exchange for a note payable for \$1.0 million issued by the Company under the same terms as the original Loan Agreement. In connection with this amendment the Company evaluated the Loan Agreement amendment under ASC 470-50, “Debt - Modifications and Extinguishments”. It was determined that the amendment did not constitute a material change as defined by ASC 470-50 and did not qualify for treatment as a troubled debt restructuring. Accordingly, the Company recorded a reduction to equity and an increase to notes payable for the fair value of the warrants of \$260,205 and the difference (\$739,795) between the fair value of the warrants at the time of repurchase and the face value of the note was recorded as an additional deferred cost and is reflected as a reduction to

the face value of the note on the balance sheet. This cost was amortized using the interest-method over the life of the modified notes and was reflected as interest expense. At June 30, 2010 the modification cost was fully amortized.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Under the terms of the Loan Agreement, as amended, the Company was required to meet certain coverage ratios, among other restrictions, including a restriction from declaring or paying a dividend prior to repayment of all the obligations. The financial covenants, as amended, required that the Company maintain at the end of each fiscal quarter “EBITDA” (as defined in the agreement) of not less than \$1.00 for the period and in excess of the ratios set out in the agreement for each quarter.

The Company failed to satisfy the minimum EBITDA requirement for the two quarters ended December 31, 2008 and March 31, 2009, and in connection with such failures, on March 31, 2009 the Company entered into a further amendment to the Loan Agreement that provided for the issuance of an additional term note to CVC in the principal amount of \$225,210 in lieu of paying a cash waiver fee in connection with the Company’s failures to satisfy the EBITDA requirement, the deferral of the term note quarterly interest payment of \$215,000 due April 1, 2009, a temporary increase to the borrowing base formulas and calculations under the revolving credit facility, the re-lending by CVC of \$125,000 under the term loan portion of credit facility, a consent to allow the Company to sell equipment that has been designated as held for sale, and the granting to CVC of the right to designate a non-voting observer to attend all meetings of the Company’s Board of Directors.

On June 30, 2010 the Loan Agreement was amended to extend the existing maturity date for an additional thirty days to July 30, 2010. The Loan Agreement (as amended) was scheduled to mature July 30, 2010 and all of the principal and interest arising under the Loan Agreement in the approximate amount of \$16.7 million was due at maturity. The Company did not have sufficient resources to pay this obligation on the maturity date.

Interest expense related to the Loan Agreement is composed of interest on debt, amortization of debt discount, and amortization of deferred financing costs. In total, the interest expense for the three and nine months ended September 30, 2010 was \$149,871 and \$1,746,953, respectively. For the three and nine months ended September 30, 2009 total interest expense was \$672,028 and \$1,947,909, respectively. Total interest expense in the periods were comprised as follows:

- Interest on debt related to the Loan Agreement for the three and nine months ended September 30, 2010 was \$144,871 and \$892,857, respectively. For the three and nine months ended September 30, 2009 interest on debt related to Loan Agreement was \$299,911 and \$876,453, respectively.
- Amortization of the debt discount related to the Loan Agreement for the three and nine months ended September 30, 2010 was \$0 and \$725,983, respectively. For the three and nine months ended September 30, 2009 amortization of the debt discount was \$313,019 and \$897,010, respectively.
- Amortization of deferred financing costs related to the Loan Agreement for the three and nine months ended September 30, 2010 was \$5,000 and \$128,114, respectively. For the three and nine months ended September 30, 2009 amortization of deferred financing costs was \$58,098 and \$174,446, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 8. Series B Convertible Preferred Stock and Stockholders' Equity (Deficit)

Series B Convertible Preferred Stock

On July 30, 2010, the Company entered into a Recapitalization Agreement with CVC, pursuant to which the Company issued to CVC an aggregate of 407,160 shares of a newly created series of the Company's preferred stock, designated Series B Convertible Preferred Stock, \$0.001 par value per share (the "Series B Preferred Stock"), in payment of an aggregate of \$16,706,685 owed by the Company to CVC under the Loan Agreement. Certain rights, preferences, privileges and restrictions of the Series B Preferred Stock are summarized below.

In connection with the Recapitalization Agreement the Company and CVC released all claims each may have against the other of any kind or nature arising out of or related to the Loan Agreement and the other loan documents which may have arisen on or before the date of the Recapitalization Agreement.

On July 30, 2010, the Company amended its certificate of incorporation by creating the Series B Preferred Stock with the following rights, preferences, privileges and restrictions:

- The Series B Preferred Stock ranks senior to the common stock and to any other preferred stock unless such preferred stock is created and issued on a senior or pari passu basis in accordance with the Company's certificate of incorporation.
- The Series B Preferred Stock will accrue dividends at the rate of 16% per annum, compounded annually. The dividends however are only payable to the holder upon the liquidation, dissolution or winding up of the Company. No accrued dividends will be convertible into common stock, nor will any accrued dividends be payable on shares of Series B Preferred Stock upon or following the conversion of such shares into common stock.
- Upon the liquidation, dissolution or winding up of the Company, each share of Series B Preferred Stock will be entitled to receive, prior to any distribution to holders of other equity securities, an amount equal to \$41.033 per share plus all accrued dividends (the "Liquidation Preference") upon the surrender and cancellation of such shares. A merger, consolidation, share exchange or other reorganization resulting in a change in control of the Company, or any sale of all or substantially all of the Company's assets, shall be deemed a liquidation and winding up for purposes of the Company's obligation to pay the Liquidation Preference.
- The Company has the right, at any time upon not less than thirty (30) days' prior written notice to the holders of Series B Preferred Stock, to redeem the Series B Preferred Stock in whole (but not in part) for a price equal to the then-applicable Liquidation Preference. The holders of Series B Preferred Stock shall have the option, exercisable at any time and from time to time commencing on July 31, 2016, to require the Company to redeem any or all of the Series B Preferred Stock held by such holders, at the then-applicable Liquidation Preference amount.
- Each share of Series B Preferred Stock is convertible into 100 shares of the Company's common stock (subject to adjustment for stock splits, reverse stock split, etc.) at any time and from time to time at each holder's option.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

- The Series B Preferred Stock vote with the common stock as a single class on all matters submitted or required to be submitted to a vote of the Company's stockholders, with each share of Series B Preferred Stock having a number of votes equal to the number of shares of common stock that may be acquired upon conversion thereof as of the applicable date of determination. Additionally, the Series B Preferred Stock have the right to vote as a separate class with respect to certain matters affecting the Series B Preferred Stock, including but not limited to (i) the creation or issuance of any other class or series of preferred stock, (ii) any amendments with respect to the rights, powers, preferences and limitations of the Series B Preferred Stock, (iii) paying dividends or distributions in respect of or redeem the Company's common stock or any other junior securities; and (iv) certain affiliate transactions. Any such vote shall require the affirmative vote or consent of a majority of the outstanding shares of Series B Preferred Stock.
- As long as the outstanding Series B Preferred Stock represents 35% or more of the voting shares of the Company, on an as-converted to common stock basis, (a) our Board of Directors shall consist of not more than seven (7) members, (b) the holders of Series B Preferred Stock shall have the right to elect three (3) directors if the Board has five (5) or fewer total directors, and four (4) directors if the Board has six (6) or seven (7) directors (the directors elected by the Series B Preferred Stock are referred to as the "Series B Directors"), and (c) those members serving on the Board who were not elected by holders of the Series B Preferred Stock shall have the right to designate all remaining directors. At least two (2) of the Series B Directors must be, and remain at all times while serving as a director, an independent director that qualifies for service on the audit committee of a corporation with securities listed on the Nasdaq Stock Market as provided in Nasdaq Marketplace Rule 5605(c)(2) (or any successor thereto).

Once the outstanding shares of Series B Preferred Stock represent less than 35% of the voting shares on an as-converted to common stock basis, then the entire Board will thereafter be elected by all stockholders having voting rights, voting as a single class.

The conversion of the term notes, revolver and related interest and fees into the Series B Preferred Stock (fair value of \$17,277,600 as of July 30, 2010) was considered to be debt extinguishment according to the FASB ASC No.405 "Liabilities" and FASB ASC No. 470-50 "Debt, Modifications and Extinguishments" ("ASC 470-50"). Per ASC 470-50 a loss on extinguishment of debt in amount of \$570,915 was recorded on July 30, 2010 and is included in the Consolidated Statement of Operations for the three and nine months ended September 30, 2010. The loss on extinguishment is equal to the difference between fair value of the preferred stock and the fair value of the debt extinguished at the transaction date. The fair value of the Series B Preferred Stock on the issuance date was determined by the Company and independent valuation specialists using the option pricing valuation model.

The Company applied the guidance enumerated in FASB ASC No. 480 "Distinguishing Liabilities from Equity", FASB ASC No. 210 "Classification and Measurement of Redeemable Securities" and Rule 5-02.28 of Regulation S-X, when determining the classification and measurement of preferred stock. The Company classifies conditionally redeemable convertible preferred shares, which includes preferred shares subject to redemption upon the occurrence of uncertain events not solely within the control of the Company, as temporary equity in the mezzanine section of the consolidated balance sheet. The Series B Preferred Stock is redeemable at the option of the holders after the sixth anniversary of issuance, which is not within the control of the Company.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The Company determined that there are no embedded features that would require separate reporting as derivative instruments. Therefore, the Company evaluated the conversion option of the convertible preferred shares under FASB ASC No. 470-20, "Debt with Conversion and Other Options", Accounting for Convertible Securities with Beneficial Conversion Features ("BCF") or Contingently Adjustable Conversion Ratios. A convertible financial instrument includes a BCF if the fair value of the instrument is lower than the fair value of shares of the common stock it is convertible into on the issuance date. The BCF shall be recognized separately at issuance by allocating a portion of the proceeds equal to the intrinsic value of the conversion feature to additional paid-in capital. The Company has recorded a BCF value of \$1,283,343 in connection with the issuance of the Series B Preferred Stock as of July 30, 2010.

The Series B Preferred Stock was initially recorded at the fair value of \$17,277,600 as of July 30, 2010, minus BCF (\$1,283,343) as stated above and minus stock issuance costs (\$190,744), for a net value of \$15,803,513 as of July 30, 2010. The value of the Series B Preferred Stock is adjusted as follows as a consequence of its redemption features and the following approach is implemented by the Company:

- The Series B Preferred Stock is not currently redeemable but it is probable that the preferred stock will become redeemable due to the redemption option available to the preferred stock holders on July 30, 2016. Changes in the redemption value (for example, fair value) are recognized immediately as they occur, and the carrying amount of the instrument is adjusted to equal the redemption value at the end of each reporting period. This method views the end of the reporting period as if it were also the redemption date for the Series B Preferred Stock. Accordingly, the original preferred stock discount in the amount of \$903,172 was charged against the preferred stock carrying value and retained earnings during the three months ended September 30, 2010. In addition, the resulting increase in the carrying amount of the Series B Preferred Stock reduces the income applicable to common shareholders reported in the calculation of earnings per share.
- The 16% annual dividend (compounded annually) on outstanding preferred shares is accrued each reporting period as an addition to the carrying value of the preferred stock and reduces the income applicable to common shareholders reported in the calculation of earnings per share.

Series B Preferred Stock activity for the three and nine months ended September 30, 2010 is as follows:

Series B Preferred Stock as of December 31, 2009 and June 30, 2010	\$-
Series B Preferred Stock, net fair value issued on July 30, 2010	15,803,513
Series B Preferred Stock original issue discount	903,172
Series B Preferred Stock dividends	445,511
Series B Preferred Stock as of September 30, 2010	\$17,152,196

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Common Stock

Stockholders Agreement

Concurrently with execution of the Recapitalization Agreement, on July 30, 2010, the Company entered into a Stockholders Agreement with CVC, and with Lonnie D. Schnell, Chief Executive Officer, Chief Financial Officer and a member of the Board of Directors of the Company, and Larry Dyne, President of the Company (“Messrs. Schnell and Dyne”), pursuant to which:

- Messrs. Schnell and Dyne agreed with CVC to vote their shares of Company voting stock in favor of a merger or consolidation of the Company into or with another corporation or any share exchange, business combination or other such transaction in which the Company is a constituent party, or any sale of all or substantially all of the Company’s assets (a “Triggering Transaction”), in each case to the extent such transaction is first approved by CVC. Messrs. Schnell and Dyne also provided CVC with an irrevocable proxy to vote their shares of Company voting stock in favor of any such transaction.
- CVC agreed with the Company that in connection with any director nominees to be submitted to holders of the Company’s common stock for election at a stockholders’ meeting, a committee of our Board comprised solely of directors then serving on the Board who were not elected or appointed by holders of Series B Preferred Stock, acting by majority vote, shall have the right to designate all of the Board’s nominees for director to be elected by holders of the Company’s Common Stock.
- CVC agreed with the Company that in connection with any election of directors submitted to the Company’s stockholders for election at a stockholders’ meeting, CVC will attend the stockholders’ meeting, in person or by proxy, and vote (or cause to be voted) all of CVC’s shares of the Company’s voting stock in favor of the Board’s nominees for director. CVC also provided the Company’s chief executive officer with an irrevocable proxy to vote its shares of the Company voting stock in favor of such nominees.
- Messrs. Schnell and Dyne provided CVC with a right of first refusal with respect to any shares of the Company’s voting securities that Messrs. Schnell and Dyne propose to sell in a private placement transaction, and agreed to provide CVC with advance notice of their intent to sell the Company’s voting securities in any public sale transaction.
- CVC provided Messrs. Schnell and Dyne with a tag-along right, providing Messrs. Schnell and Dyne with the right to sell their shares of the Company’s voting securities in a transaction where CVC is selling its shares of the Company’s voting securities.
- CVC agreed with the Company not to sell or otherwise transfer its shares of the Company’s voting securities, or to vote its shares of the Company’s voting securities in favor of any Triggering Transaction, at any time on or before July 31, 2011, other than in connection with a transaction that is approved by a majority of the Company’s voting shares (where, in calculating such majority, the votes attributable to CVC’s shares of the Company’s voting securities are excluded in the numerator but included in the denominator).

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

- The Company provided CVC with a preemptive right, pursuant to which CVC will have the right, subject to certain exceptions set forth in the Stockholders Agreement, to acquire in a subsequent issuance of securities by the Company a number of offered securities that will allow CVC to maintain its percentage ownership of the Company's voting securities.
- CVC agreed with Messrs. Schnell and Dyne that in connection with a Triggering Transaction, CVC, and any other holder of Series B Preferred Stock and shares of common stock acquired upon conversion thereof, shall pay to Messrs. Schnell and Dyne a portion (beginning at 5% and increasing to 10%) of the sales proceeds payable in the Triggering Transaction to CVC or such other holder in respect of such Series B Preferred Stock or conversion shares. Each of Messrs. Schnell and Dyne's right to receive such portion of the sales proceeds is conditional upon the Triggering Transaction occurring (i) while employed by the Company or (ii) within 12 months following termination of employment with the Company for any reason other than termination of employment for "cause" or termination of employment by Messrs. Schnell or Dyne without "good reason" (as such terms are defined in their respective employment agreements).

Change in Board of Directors

In connection with the Recapitalization Agreement, on July 30, 2010, four members resigned from the Company's Board of Directors and three members were appointed to the Board of Directors to fill the vacancies caused by such resignations. The Board of Directors currently consists of five members, and three members were designated by the Series B Preferred Stockholders to serve as Series B Directors.

The Company agreed to seek stockholder approval of an amendment to the certificate of incorporation to eliminate the provisions thereof requiring a classified Board of Directors, and to promptly file such amendment after obtaining such stockholder approval. In addition the Company agreed to pay to CVC a monitoring fee of \$5,000 per month until such time as the Series B Preferred Stock shall no longer entitle the holders thereof, voting as a separate class, to elect directors to serve on the Board of Directors.

Exclusive License and Intellectual Property Rights Agreement

On April 2, 2002, the Company entered into an Exclusive License and Intellectual Property Rights Agreement (the "Agreement") with Pro-Fit Holdings Limited ("Pro-Fit"). The Agreement gives the Company the exclusive rights to sell or sublicense waistbands manufactured under patented technology developed by Pro-Fit for garments manufactured anywhere in the world for the United States market and all United States brands. In accordance with the Agreement, the Company issued 150,000 shares of its common stock which were recorded at the market value of the stock on the date of the Agreement. The shares contain restrictions related to the transfer of the shares and registration rights. The Agreement has an indefinite term that extends for the duration of the trade secrets licensed under the Agreement. The Company has recorded an intangible asset amounting to \$612,500, which was fully amortized by the year ended December 31, 2007. The Company is currently in litigation with this licensor.

Note 9. Stock-Based Compensation

The Company accounts for stock-based awards to employees and directors in accordance with FASB ASC 718, “Compensation - Stock Compensation” (“ASC 718”), which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors based on estimated fair values. Options issued to consultants are accounted for in accordance with the provisions of FASB ASC 505-50, “Equity-Based Payments to Non-Employees”.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Stock Options

On July 14, 2008, at the Company's annual meeting of stockholders, the 2008 Stock Plan was approved by the stockholders. The 2008 Stock Plan authorizes up to 2,500,000 shares of common stock for issuance pursuant to awards granted to individuals under the plan. On July 31, 2007, at the Company's annual meeting of stockholders, the 2007 Stock Plan was approved which replaced the 1997 Stock Plan. The 2007 Stock Plan authorizes up to 2,600,000 shares of common stock for issuance pursuant to awards granted to individuals under the plan.

Options granted to certain employees in 2008 include certain vesting acceleration features based on Company performance as determined by the Board of Directors each year. Consistent with ASC 718-10, the stock based compensation expense for the employee options are recognized on a time-phased vesting schedule through the vesting date of December 31, 2010. In calculating the outcome of meeting performance conditions for 2009, the Company exceeded the performance criteria and accordingly, accelerated vesting was applied to the eligible stock options.

On July 29, 2010, our Board of Directors approved an amendment to the Company's 2008 Stock Incentive Plan (the "Plan Amendment") to increase by 2,310,000 the number of shares of common stock that may be issued pursuant to awards thereunder. The Plan Amendment is conditional upon approval of the Plan Amendment by our stockholders at our Annual Meeting scheduled to be held November 19, 2010.

The completion of the transactions pursuant to the Recapitalization Agreement constituted a change of control of the Company and as a result, on July 30, 2010 all options previously granted to Messrs. Schnell and Dyne became fully vested in accordance with provisions in their employment agreements. On July 30, 2010 the Company entered into an executive employment agreement with each of Messrs. Schnell and Dyne, and terminated their existing employment agreements, both dated June 18, 2008. In connection therewith, each of Messrs. Schnell and Dyne agreed to cancel all options to purchase shares of the Company's common stock previously awarded to such executive on or before December 31, 2007, and such options in amount of 1,005,500 were cancelled effective July 30, 2010 (See Note 8).

Options granted for the three and nine months ended September 30, 2010 totaled 530,000. Options granted for the three and nine months ended September 30, 2009 totaled 1,455,000 and 1,935,000, respectively.

As of September 30, 2010, the Company had \$125,470 of unamortized stock-based compensation expense related to options issued to employees and directors, which will be recognized over the weighted average period of 2.8 years. As of September 30, 2009, unamortized stock-based compensation expense related to options issued to employees and directors was \$262,388, which is being recognized over the weighted average period of approximately 1.6 years.

The following table summarizes the activity in the Company's share based plans during the nine months ended September 30, 2010.

Restricted Stock Units (RSU's)

Upon entering into employment agreements on July 30, 2010, each of Messrs. Schnell and Dyne were granted a restricted stock unit award (an "RSU Award"), for 5,778,500 shares of the Company's common stock. Each RSU Award shall vest 50% on a date which is 13 months following the grant date, and 10% on each date which is 18, 24, 30, 36 and 42 months following the grant date, subject to partial acceleration of vesting as part of the executives' severance benefits and full acceleration of vesting upon a change in control of the Company, as defined in the RSU Award agreement. As of July 30, 2010, the RSU's were valued at \$2,263,384 which was reduced by the fair value of the options surrendered (see Stock Options section above). As of September 30, 2010, the Company recorded \$2,086,661 of unamortized stock-based compensation expense related to RSU's issued to Messrs. Schnell and Dyne. The remaining expense will be recognized over the remaining weighted average period of 1.7 years.

Note 10. Income taxes

The Company accrues interest and penalties related to unrecognized tax benefits in interest and penalties expense. For the three and nine months ended September 30, 2010 and 2009, the Company accrued interest and penalties for unrecognized tax benefits of \$3,975 and \$11,925, respectively. At September 30, 2010 and December 31, 2009, the Company had approximately \$89,550 and \$77,625, respectively, accrued in interest and penalties associated with the unrecognized tax liabilities.

Net deferred tax assets were \$137,501 and \$89,564 as of September 30, 2010 and December 31, 2009, respectively related to the Company's foreign operations and were included in other assets. Due to prior operating losses incurred, no benefit for domestic income taxes and no benefit for a portion of the foreign income taxes has been recorded because there is not sufficient evidence to determine that the Company will be able to utilize its net operating loss carryforwards to offset future taxable income.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Other tax liabilities were \$15,469 and \$10,151 as of September 30, 2010 and December 31, 2009, respectively, and were included in other accrued expenses. Current receivable for income taxes totaled \$51,630 and \$5,527, respectively, as of September 30, 2010 and December 31, 2010.

Long term deferred income tax liabilities totaled \$568,467 and \$0 as of September 30, 2010 and December 31, 2009, respectively. The deferred income tax liability at September 30, 2010 includes a tax basis difference related to the Company's indefinite lived intangible asset, where the Company determined that it would no longer be able to support the use of the deferred tax asset related to its net operating losses to offset the liability.

The Company is currently evaluating the application of I.R.C. Section 382 concerning its change in ownership and potential limitations on its utilization of the net operating loss carryforwards to offset future taxable income.

Note 11. Commitments and Contingencies

On April 16, 2004, the Company filed suit against Pro-Fit Holdings, Limited in the U.S. District Court for the Central District of California – Tag-It Pacific, Inc. v. Pro-Fit Holdings, Limited, CV 04-2694 LGB (RCx) -- asserting various contractual and tort claims relating to the Company's exclusive license and intellectual property agreement with Pro-Fit, seeking declaratory relief, injunctive relief and damages. It is the Company's position that the agreement with Pro-Fit gives the Company exclusive rights in certain geographic areas to Pro-Fit's stretch and rigid waistband technology. The Company also filed a second civil action against Pro-Fit and related companies in the California Superior Court which was removed to the United States District Court, Central District of California. In the second quarter of 2008, Pro-Fit and certain related companies were placed into administration in the United Kingdom and filed petitions under Chapter 15 of Title 11 of the United States Code. As a consequence of the chapter 15 filings, all litigation by the Company against Pro-Fit has been stayed. The Company has incurred significant legal fees in this litigation, and unless the case is settled or resolved, may continue to incur additional legal fees in order to assert its rights and claims against Pro-Fit and any successor to those assets of Pro-Fit that are subject to its exclusive license and intellectual property agreement with Pro-Fit and to defend against any counterclaims.

The Company currently has pending other claims and complaints that arise in the ordinary course of the Company's business. The Company believes that it has meritorious defenses to these claims and that the claims are either covered by insurance or would not have a material effect on the Company's consolidated financial position or results of operations if adversely determined against the Company.

In November 2002, the FASB issued Topics of the FASB ASC 460-10, "Guarantees" ("ASC 460-10") and FASB ASC 850-10, "Related Party Disclosures" ("ASC 850-10"). The following is a summary of the Company's agreements that it has determined are within the scope of ASC 460-10 and ASC 850-10:

- In accordance with the bylaws of the Company, officers and directors are indemnified for certain events or occurrences arising as a result of the officer or director's serving in such capacity. The term of the indemnification period is for the lifetime of the officer or director. The maximum potential amount of future payments the Company could be required to make under the indemnification provisions of its bylaws is unlimited. However, the

Company has a director and officer liability insurance policy that reduces its exposure and enables it to recover a portion of any future amounts paid. As a result of its insurance policy coverage, the Company believes the estimated fair value of the indemnification provisions of its bylaws is minimal and therefore, the Company has not recorded any related liabilities.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

- The Company enters into indemnification provisions under its agreements with investors and its agreements with other parties in the normal course of business, typically with suppliers, customers and landlords. Under these provisions, the Company generally indemnifies and holds harmless the indemnified party for losses suffered or incurred by the indemnified party as a result of the Company's activities or, in some cases, as a result of the indemnified party's activities under the agreement. These indemnification provisions often include indemnifications relating to representations made by the Company with regard to intellectual property rights. These indemnification provisions generally survive termination of the underlying agreement. The maximum potential amount of future payments the Company could be required to make under these indemnification provisions is unlimited. The Company has not incurred material costs to defend lawsuits or settle claims related to these indemnification agreements. As a result, the Company believes the estimated fair value of these agreements is minimal. Accordingly, the Company has not recorded any related liabilities.

Note 12. Segment Reporting and Geographic Information

The Company manufactures and distributes a full range of zipper, trim and waistband items to manufacturers of fashion apparel, specialty retailers and mass merchandisers. Our organization is based on divisions representing the major product lines, and our operating decisions use these divisions to assess performance, allocate resources and make other operating decisions. Within these product lines there is not enough difference between the types of products to justify segmented reporting by product type or to account for these products separately. The net revenues and operating margins for the three primary product groups are as follows:

	Three Months Ended September 30, 2010			
	Talon	Trim	Tekfit	Consolidated
Net sales	\$ 5,536,184	\$ 3,735,984	\$ 5,166	\$ 9,277,334

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

The Company distributes its products internationally and has reporting requirements based on geographic regions. Revenues are attributed to countries based upon customer delivery locations and the net book value of long-lived assets (consisting of property and equipment and intangible) is attributed to countries based on the location of the assets, as follows:

Sales: Country / Region	Three Months ended September 30,		Nine Months ended September 30,	
	2010	2009	2010	2009
United States	\$ 761,204	\$ 829,381	\$ 2,768,820	\$ 2,398,991

Note 13. Related Party Notes and Transactions

On July 30, 2010, the Company entered into a Recapitalization Agreement in which the Company issued Series B Preferred Stock in payment of all of the outstanding obligations owed by the Company to CVC under the Loan Agreement (See Note 7 and Note 8). As a result of this transaction CVC (currently the sole holder of the Series B Preferred Stock) has become a majority stockholder in the company. A \$60,000 non-refundable fee was paid in consideration of CVC entering into an amendment to the Loan Agreement during the quarter ended September 30, 2010. Commencing August 1, 2010, a \$5,000 monthly debt monitoring fee was paid to CVC.

Colin Dyne, a former director of the Company in 2009 and through July 30, 2010, is also a director, officer and significant stockholder of People's Liberation, Inc., the parent company of Versatile Entertainment, Inc. and William Rast Sourcing. During the three and nine months ended September 30, 2010 the Company had sales of \$8,770 and

\$77,081, respectively, to William Rast Sourcing and Versatile Entertainment. During the three and nine months ended September 30, 2009 the Company had sales of \$40,165 and \$163,860, respectively, to William Rast Sourcing. Accounts receivable of \$34,493 and \$41,200 were outstanding from William Rast Sourcing and Versatile Entertainment at September 30, 2010 and December 31, 2009, respectively.

TALON INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note Receivable from Related Party, net at December 31, 2009 represented the unsecured note and accrued interest receivable due from Colin Dyne in the amount of \$720,417, and included a valuation reserve for the full amount due. The note bore interest at 7.5% and was due on demand. On June 29, 2010, the Company sold the Note Receivable with all of the Company's rights, title and interest therein to a third party for cash proceeds of \$275,000. The amount received was recorded as a recovery of bad debts.

In November 2009, the Company entered into an agreement to pay a commission to an affiliate of Colin Dyne equal to 7% of the collected revenues associated with the sales of products to selected retail brands, with 2% of the 7% earned applied to the note receivable balance. For the three and nine months ended September 30, 2010 commissions of \$36,004 and \$91,544 were paid in cash, respectively. For the nine months ended September 30, 2010 commissions of \$27,057 were applied to the note receivable balance. No commissions were earned under this agreement in 2009.

Notes payable to related parties includes demand notes and advances to parties related to or affiliated with Mark Dyne, the Chairman of the Board of Directors of the Company and a significant stockholder. The balance of demand notes payable and interest expense due to Mark Dyne and affiliated parties at September 30, 2010 and December 31, 2009 was \$234,675 and \$229,356, respectively.

Consulting fees to Diversified Consulting, LLC, a company owned by Mark Dyne, amounted to \$0 and \$46,772 for the three and nine months ended September 30, 2010, respectively. The consulting arrangement terminated on March 20, 2010. As of September 30, 2010 and December 31, 2009 accrued consulting fees amounted to \$158,289 and \$200,870, respectively, due to Diversified Consulting, LLC. Consulting fees paid for the three and nine months ended September 30, 2009 were \$37,500 and \$112,500, respectively.

Interest paid to Diversified Consulting, LLC, amounted to \$4,680 and \$12,440 for the three and nine months ended September 30, 2010, respectively. As of September 30, 2010 and December 31, 2009 accrued expenses includes associated interest on consulting fees in the amount of \$39,995 and \$50,698 due to Diversified Consulting, LLC.

Notes payable to related parties includes a note and associated interest due to Lonnie D. Schnell, the Chief Executive Officer and Chief Financial Officer of the Company. The note, issued on August 6, 2009 in partial satisfaction of 2008 annual incentive payments to which Mr. Schnell was entitled, bears 6% interest annually and the maturity date is the earlier of December 31, 2011 or ten days following Mr. Schnell's employment termination date. The balance of the note payable and accrued interest expense due to Mr. Schnell at September 30, 2010 and December 31, 2009 was \$38,192 and \$36,516, respectively.

Note 14. Subsequent Events

The Company evaluated subsequent events after the balance sheet date of September 30, 2010 through the date these unaudited financial statements were issued.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Forward Looking Statements

This report and other documents we file with the Securities and Exchange Commission contain forward looking statements that are based on current expectations, estimates, forecasts and projections about us, our future performance, our business or others on our behalf, our beliefs and our management's assumptions. These statements are not guarantees of future performance and involve certain risks, uncertainties, and assumptions that are difficult to predict. We describe our respective risks, uncertainties, and assumptions that could affect the outcome or results of operations below. We have based our forward looking statements on our management's beliefs and assumptions based on information available to our management at the time the statements are made. We caution you that actual outcomes and results may differ materially from what is expressed, implied, or forecast by our forward looking statements. Reference is made in particular to forward looking statements regarding projections or estimates concerning our business, including adequate liquidity to fund our operations and meet our other cash requirements, demand for our products and services, mix of revenue streams, ability to control or reduce operating expenses, anticipated gross margins and operating results, cost savings, product development efforts, general outlook of our business and industry, international businesses, and competitive position.

The following management's discussion and analysis is intended to assist the reader in understanding our consolidated financial statements. This management's discussion and analysis is provided as a supplement to, and should be read in conjunction with, our consolidated financial statements and accompanying notes.

Talon International, Inc. designs, manufactures, sells and distributes apparel zippers, specialty waistbands and various apparel trim products to manufacturers of fashion apparel, specialty retailers and mass merchandisers. We sell and market these products under various branded names including Talon® and Tekfit®. We operate the business globally under three product groups.

We pursue the global expansion of Talon zippers through the establishment of Talon owned sales, distribution and manufacturing locations, strategic manufacturing relationships and joint ventures. The manufacturing joint ventures, in combination with Talon owned and affiliated facilities under the Talon brand, improve our time-to-market by eliminating the typical setup and build-out phase for new manufacturing capacity throughout the world by sourcing, finishing and distributing to apparel manufacturers in their local markets.

Our trim business focuses on serving as an outsourced product development, sampling and sourcing department for the most demanding brands and retailers. We believe that trim design differentiation among brands and retailers is a critical marketing tool for our customers. By assisting our customers in the design, development, sampling and sourcing of trim, we generally achieve higher margins for our trim products, create long-term relationships with our customers, grow our sales to a particular customer by supplying trim for a larger proportion of their brands and better differentiate our trim sales and services from those of our competitors. We are expanding our trim business globally, to better serve our apparel customers in the field, in addition to our brand and retail customer. We believe we can lead the industry in trim sourcing by having strong relationships with our brand and retail customers and having a distributed service organization to serve our factory customers globally.

Our Tekfit business provides manufacturers with the patented technology, manufacturing know-how, equipment and materials required to produce an expandable waistband. Our efforts to expand this product offering to other customers have been limited by a licensing dispute. As described more fully in this report under Item 1. "Legal Proceedings", we are presently in litigation with Pro-Fit Holdings Limited related to our exclusively licensed rights to sell or sublicense stretch waistbands manufactured under Pro-Fit's patented technology. The revenues we derive from the sale of products incorporating the stretch waistband technology represented less than 1% of our consolidated revenues for the three and nine months ended September 30, 2010 and 2009. Our business prospects for this group could be adversely affected if our dispute with Pro-Fit is not resolved in a manner favorable to us.

Results of Operations

The following table sets forth selected statements of operations data shown as a percentage of net sales for the periods indicated:

	Three Months ended September 30,				Nine Months ended September 30,			
	2010		2009		2010		2009	
Net sales	100.0	%	100.0	%	100.0	%	100.0	%
Cost of goods sold	70.7		71.7		70.8		71.2	
Gross profit	29.3		28.3		29.2		28.8	
Sales and marketing expenses	9.1		5.9		7.0		6.9	
General and administrative expenses	21.3		20.5		17.8		20.2	
Interest expense, net	1.7		6.5		5.3		6.7	
Loss on extinguishment of debt	6.2		-		1.8		-	
Income taxes	4.4		1.6		1.7		0.9	
Net loss	(13.4))%	(6.2))%	(4.4))%	(5.9))%

Sales

For the three and nine months ended September 30, 2010 and 2009, sales by geographic region based on the location of the customer as a percentage of sales were as follows:

Region	Three Months ended September 30,				Nine Months ended September 30,			
	2010		2009		2010		2009	
United States	8.2	%	8.0	%	8.5	%	8.1	%
Hong Kong	32.2		38.9		33.7		32.4	
China	30.3		21.8		27.4		26.8	
Bangladesh	6.0		3.6		6.0		5.1	
Taiwan	1.7		2.7		3.4		2.5	
India	2.5		3.2		2.3		3.9	
Other	19.1		21.8		18.7		21.2	
	100.0	%	100.0	%	100.0	%	100.0	%

A sharp retail industry decline that began late in 2008 as a result of the global recession significantly impacted the apparel industry and resulted in lower demand for all apparel products including our Talon zipper and trims products. This recession has continued to impact the apparel industry and our customers in 2009 and 2010, and may

continue to do so depending upon the global economic trends.

Sales for the three months ended September 30, 2010 were \$9.3 million, \$1.1 million or 11.0% lower than sales for the same period in 2009. The decline reflects reduced demand from our customers during the quarter due to the continued impact of the previous recession and high unemployment on retail apparel sales, and consequently cautious industry outlooks and inventory purchase plans in 2010.

Sales for the nine months ended September 30, 2010 were \$32.5 million, an increase of \$3.0 million or 10.0%, from the same period in 2009. The net increase reflects improved retail buying in the first half of 2010 and the replenishment of inventories in this period by major brands, in addition to the benefit of new programs and customers for our products.

Gross Profit

Gross profit for the three months ended September 30, 2010 was \$2.7 million as compared to \$3.0 million for the same period in 2009. The reduction in gross profit for the three months ended September 30, 2010 as compared to the same period in 2009 was principally attributable to lower overall sales volumes offset by improved product mix and lower contract services costs associated with quality control and product development and lower inventory obsolescence.

Gross profit for the nine months ended September 30, 2010 was \$9.5 million as compared to \$8.5 million for the same period in 2009. The increase in gross profit for the nine months ended September 30, 2010 as compared to the same period in 2009 was principally attributable to higher sales volumes and improved product mix offset by higher freight and duty costs, higher contract services costs for quality control and product development and higher inventory obsolescence.

A recap of the change in gross margin for the three and nine months ended September 30, 2010 as compared with the same period in 2009 is as follows:

	Three Months ended September 30, 2010 compared to same period in 2009		Nine Months ended September 30, 2010 compared to same period in 2009	
	\$ in 000's ⁽¹⁾	% ⁽¹⁾	\$ in 000's ⁽¹⁾	% ⁽¹⁾
Gross profit increased (reduced) as a result of:				
Higher (lower) volumes	(420)	(14.2)	1,111	13.0
Mix of products	165	5.6	103	1.2
Increased freight and duty costs	-	-	(23)	(0.3)
Reduced (increased) contract services and inventory obsolescence	18	0.6	(197)	(2.3)
Gross profit increase (reduction)	(237)	(8.0)	994	11.6

(1) Represents the amount or percentage, as applicable, change in each item in the three and nine months ended September 30, 2010 period, as compared to the same period in 2009.

Sales and marketing expenses

Sales and marketing expenses for the three months ended September 30, 2010 were \$0.8 million, or 9.1% of sales, as compared to \$0.6 million, or 5.9% of sales, for the same period in 2009. Sales expenses increased due to the expansion of our sales force in the US during the third quarter of 2010.

Sales and marketing expenses for the nine months ended September 30, 2010 were \$2.3 million, or 7.0% of sales, as compared to \$2.0 million, or 6.9% of sales, for the same period in 2009. Sales expenses increased due to the expansion of our sales force in the US during the third quarter of 2010 offset by lower sales force expenses in Asia and reduced volume of sales.

General and administrative expenses

General and administrative expenses for the three months ended September 30, 2010 were \$2.0 million, or 21.3% of sales, as compared with \$2.1 million, or 20.5% of sales, for the same period in 2009. The reduction mainly reflects reduced professional fees, travel expenses and facilities expense offset by increased charges for non-cash compensation expenses.

General and administrative expenses for the nine months ended September 30, 2010 were \$5.8 million, or 17.8% of sales, as compared with \$6.0 million, or 20.2% of sales, for the same period in 2009. The \$0.2 million reduction mainly reflects beneficial effect of the sale of the Note Receivable from Related party for \$275,000 and other reductions to the allowance for doubtful accounts (together \$0.4 million), reduced professional fees (\$0.3 million) and reduced travel expenses and facilities expense (\$0.3 million). The costs reductions were substantially offset by increased employee expenses (\$0.6 million) and increased non-cash compensation and depreciation expenses (\$0.2 million).

Interest expense and interest income

Interest expense for the three months ended September 30, 2010 decreased by approximately \$521,000, as compared to the same period in 2009, to \$163,000. Interest expense for the nine months ended September 30, 2010 decreased by approximately \$200,000, as compared to the same period in 2009, to \$1,783,000. The decreases were the result of the elimination of amounts owned under our former revolver and term notes with CVC that were converted into preferred stock as of July 30, 2010. (See Note 7 in the accompanying Notes to Consolidated Financial Statements).

Interest income for the three and nine months ended September 30, 2010 increased by approximately \$2,000 and \$29,000, respectively due primarily to the recognition of and collection of interest income on the Related Party note receivable (See Note 13 in the accompanying Notes to Consolidated Financial Statements).

A brief summary of interest expense and interest income is presented below:

	Three Months ended September 30,		Nine Months ended September 30,	
	2010	2009	2010	2009
Amortization of deferred financing costs and debt discounts	\$ 5,000	\$ 372,117	\$ 854,096	\$ 1,071,457
Other interest expense	158,012	311,394	928,817	911,098
Interest expense	163,012	683,511	1,782,913	1,982,555
Interest income	(2,247)	(10)	(30,130)	(1,016)
Interest expense, net	\$ 160,765	\$ 683,501	\$ 1,752,783	\$ 1,981,539

Loss on extinguishment of debt

Loss on extinguishment of debt in the amount of \$0.6 million was recorded during three and nine months ended September 30, 2010 as a result of the transactions pursuant to the Recapitalization Agreement between us and our

lender on July 30, 2010. See Note 8 in the accompanying Notes to Consolidated Financial Statements.

Income taxes

Provision for income taxes for the three and nine months ended September 30, 2010 was approximately \$412,000 and \$543,000, respectively. During the three months ended September 30, 2010 we recorded a deferred income tax liability in amount of approximately \$568,000 due to a tax basis difference related to our indefinite lived intangible asset, where we determined that we would no longer be able to support the use of the deferred tax asset related to its net operating losses to offset the liability (See Note 10 in the accompanying Notes to Consolidated Financial Statements). The provision for income taxes other than this deferred income tax liability is mainly associated with our foreign operations. There is not sufficient evidence to ensure that it is more likely than not that we will be able to utilize our domestic operating loss carry forwards (as well as a portion of our foreign net operating loss carry forwards) to offset future taxable income and consequently the tax benefit of these losses are offset by a full valuation reserve provided against them.

Provision for income taxes for the three and nine months ended September 30, 2009 was approximately \$165,000 and \$267,000, respectively.

Liquidity and Capital Resources

The following table summarizes selected financial data at:

	(\$ in thousands)	
	September 30, 2010	December 31, 2009

Stockholders' Equity (deficit)	\$ (12,381)	\$ (11,179)
Total Equity and Preferred Stock	\$ 4,771	\$ (11,179)

Our Loan Agreement with CVC as extended was scheduled to mature July 30, 2010 and all of the principal and interest arising under the Loan Agreement in the approximate amount of \$16.7 million was due at maturity. We did not have sufficient resources to pay this obligation on the maturity date.

On July 30, 2010, we entered into a Recapitalization Agreement (the "Recapitalization Agreement") with CVC in which we issued shares of Series B Preferred Stock in payment of all of the outstanding obligations owed under the Loan Agreement. Concurrently, we amended the Loan Agreement to extend the term of the revolving credit facility for two years and modified its terms. See Note 7 and Note 8 in the accompanying Notes to the Consolidated Financial Statements.

Cash and cash equivalents

Cash and cash equivalents decreased by approximately \$248,000 at September 30, 2010 as compared to December 31, 2009, principally due to net cash used in financing activities related to preferred stock issuance costs incurred as part of the Recapitalization Agreement and the payment of loan modification fees (pursuant to Amendment No. 6 of the Loan Agreement dated July 30, 2010).

Cash provided by operating activities is our primary recurring source of funds, and reflects the net loss from operations excluding non cash charges, and changes in operating capital. The nine months ended September 30, 2010 reflected net cash provided by operating activities of approximately \$116,000. The nine months ended September 30, 2009 reflected net cash used in operating activities of approximately \$339,000.

The net cash provided by (used in) operating activities during the nine months ended September 30, 2010 and 2009 resulted principally from:

	(\$ in thousands)	
	Nine Months ended	
	September 30,	
	2010	2009
Net income before non-cash expenses	\$ 1,246	\$ 363
Inventory reduction	255	40
Accounts receivable reduction (increase)	499	(8)
Accounts payable and accrued expenses reduction	(1,669)	(618)
Other reductions in operating capital	(215)	(116)
Cash provided by (used in) operating activities	\$ 116	\$ (339)

Net cash (used in) investing activities for the nine months ended September 30, 2010 and 2009 was approximately \$(44,000) and \$(474,000), respectively. The expenditures in the first nine months of 2009 were principally associated with the development of our new ERP system that was implemented in March 2009.

Net cash used in financing activities for the nine months ended September 30, 2010 was approximately \$304,000 and reflects preferred stock issuance costs, payment of loan modification fees and repayment of borrowings under capital leases. For the nine months ended September 30, 2009 net cash provided by financing activities was approximately \$216,000 and primarily reflects the repayment of borrowings under capital leases and notes payable, net of borrowings under our revolver line of credit and term note.

On June 27, 2007, we entered into a Revolving Credit and Term Loan Agreement (the "Loan Agreement") with Bluefin Capital, LLC that provided for a \$5.0 million revolving credit facility and a \$9.5 million term loan, each with a three year term maturing June 30, 2010. Bluefin Capital subsequently assigned its rights and obligations under the Loan Agreement to an affiliate, CVC California, LLC ("CVC").

Under the terms of the Loan Agreement, as amended, we were required to meet certain coverage ratios, and were subject to other restrictions including a restriction from declaring or paying a dividend prior to repayment of all the obligations. The financial covenants required that we maintain at the end of each fiscal quarter "EBITDA" (as defined in the agreement) of not less than \$1.00 and in excess of ratios set out in the agreement for each quarter.

We failed to satisfy the EBITDA requirement for the quarter ended December 31, 2008 and March 31, 2009, and in connection with such failures, on March 31, 2009 we entered into an amendment to the Loan agreement with the lender that provided for the issuance of an additional term note in the principal amount of \$225,210 in lieu of paying a cash waiver fee in connection with our failures to satisfy the EBITDA requirements; deferral of the term note quarterly interest payments of \$215,000 due April 1, 2009; provided for a temporary increase to the borrowing base formulas and calculations under the revolving Loan Agreement; borrowed \$125,000 previously paid under the term loan portion of the Loan Agreement; obtained a consent to allow us to sell equipment that had been designated as held for sale; and granted our lender the right to designate a non-voting observer to attend all meetings of our Board of Directors.

On June 30, 2010 the Loan Agreement was amended to extend the existing maturity date for an additional thirty days to July 30, 2010, when all of the principal and interest arising under the Loan Agreement in the approximate amount of \$16.7 million became due. We did not have sufficient resources to pay this obligation on the maturity date.

On July 30, 2010, we entered into a Recapitalization Agreement in which we issued to CVC shares of Series B Preferred Stock in payment of all of the outstanding obligations owed by us under the Loan Agreement. At that date, the Company had outstanding borrowings and accrued interest of \$11,548,098 under the term notes, and \$5,158,587 under the revolving credit note, all of which was exchanged for the Series B Preferred Stock. See Note 8 in the accompanying Notes to Consolidated Financial Statements.

In connection with the Recapitalization Agreement, we amended the Loan Agreement to extend the maturity date of the Loan Agreement from July 30, 2010 until July 31, 2012, reduced the maximum borrowings available under the Revolver to \$3,000,000, amended the borrowing base to modify the advance rate applicable to eligible accounts receivable to 75% and modify the advance rate applicable to eligible inventory to 40%, eliminated loan maintenance fees, and modified the permissible amount of capital expenditures we can make in any fiscal year. We paid CVC a non-refundable fee in the amount of \$60,000 in consideration of CVC entering into the amendment. Upon execution of the amendment, CVC waived all prior events of default under the Loan Agreement.

Borrowings under the Loan Agreement are secured by all of our assets. At September 30, 2010 we had no borrowings under the revolving credit facility portion of the Loan Agreement, and the term loans under the Loan Agreement were fully paid and cancelled. At December 31, 2009 our borrowings under the Revolver portion of the Loan Agreement was \$4,988,988 and we did not have additional borrowings availability, and we had borrowings of \$10,725,210 under the term notes issued under the Loan Agreement (discounted carrying value of \$9,876,114).

We had financed equipment purchases through notes payable and capital lease obligations. Our current equipment obligations are approximately \$25,000 and bear interest at rates of 8.0% and 15.4% per annum. Under these obligations, we are required to make monthly payments of principal and interest through June 2014.

The outstanding balance (including accrued interest) of our notes payable to related parties at September 30, 2010 and December 31, 2009 was approximately \$273,000 and \$266,000, respectively. Included in this balance are demand notes which bear interest at 10% (balance as of September 30, 2010 and December 31, 2009 of approximately \$235,000 and 230,000, respectively), have no scheduled monthly payments and are due within fifteen days following demand. The remainder of the notes payable to related parties includes our note payable to an officer for approximately \$38,000 and \$36,000 at September 30, 2010 and December 31, 2009, respectively. The note bears 6% interest annually and the maturity date is the earlier of December 31, 2011 or ten days following employment termination date.

We have satisfied our working capital requirements primarily through cash flows generated from operations and borrowings under our credit facility. As we continue to expand globally with our apparel manufacturing in offshore locations, our customers are substantially all foreign-based and foreign-owned entities. We continue to evaluate both financing and equity options to provide capital needed to fund our expansion and on-going operations. If we experience greater than anticipated reductions in sales, we may need to borrow or raise additional capital, or further reduce the scope of our business in order to fund our on-going operations or to satisfy our future short-term operating requirements. The extent of our future long-term capital requirements will depend on many factors, including our results of operations, future demand for our products, the size and timing of possible acquisitions, our borrowing base availability limitations and our expansion into foreign markets. Our need for additional long-term financing may include the integration and expansion of our operations to expend our Talon trade name, and the expansion of our operations in the Asian and European markets. If our cash from operations is less than anticipated or our working capital requirements and capital expenditures are greater than we expect, we may need to raise additional debt or equity financing in order to provide for our operations.

Contractual Obligations and off-Balance Sheet Arrangements

The following summarizes our contractual obligations at September 30, 2010 and the effects such obligations are expected to have on liquidity and cash flow in future periods:

Contractual Obligations	Total	Payments Due by Period (\$ in thousands)			
		Less than 1 Year	1-3 Years	4-5 Years	After 5 Years
Notes payable to related parties	\$ 273	\$ 273	\$ -	\$ -	\$ -
Capital lease obligations	32	9	23	-	-
Operating leases	1,130	416	697	17	-
Other notes payable	62	62	-	-	-
Total Obligations	\$ 1,497	\$ 760	\$ 720	\$ 17	\$ -

(1) The majority of notes payable to related parties is due upon or near demand for payment and includes accrued interest payable through September 30, 2010.

At September 30, 2010 and December 31, 2009, we did not have any relationships with unconsolidated entities or financial partnerships (such as entities often referred to as structured finance or special purpose entities), which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As such, we do not have any of the risks associated with financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

Related Party Transactions

See Note 13 in the accompanying Notes to Consolidated Financial Statements for a discussion of related party transactions.

Application of Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions for the reporting period and as of the financial statement date. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent liabilities and the reported amounts of revenue and expense. Actual results could differ from those estimates.

Critical accounting policies are those that are important to the portrayal of our financial condition and results, and which require us to make difficult, subjective and/or complex judgments. Critical accounting policies cover accounting matters that are inherently uncertain because the future resolution of such matters is unknown. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements:

- Accounts and note receivable balances are evaluated on a continual basis and allowances are provided for potentially uncollectible accounts based on management’s estimate of the collectability of customer accounts. If the financial condition of a customer were to deteriorate, resulting in an impairment of its ability to make payments, an additional allowance may be required. Allowance adjustments are charged to operations in the period in which the facts that give rise to the adjustments become known.

The net bad debt expenses, recoveries and allowances for the three and nine months ended September 30, 2010 and 2009 are as follows:

	Three Months ended September 30,		Nine Months ended September 30,	
	2010	2009	2010	2009
Bad debt expenses for accounts receivable	\$ 20,550	\$ 38,717	\$ (41,801)	\$ 116,090
Bad debt recoveries for accounts receivable	\$ -	\$ -	\$ (11,332)	\$ -
Related party note recovery	\$ -	\$ -	\$ (275,000)	\$ -
Allowance for doubtful accounts, accounts receivable	\$ 172,082	\$ 227,442	\$ 172,082	\$ 227,442
Allowance for doubtful accounts, related party	\$ -	\$ 512,885	\$ -	\$ 512,885

- Inventories are stated at the lower of cost, determined using the first-in, first-out (“FIFO”) basis, or market value and are all substantially finished goods. The costs of inventory include the purchase price, inbound freight and duties, conversion costs and certain allocated production overhead costs. Inventory is evaluated on a continual basis and reserve adjustments are made based on management’s estimate of future sales value, if any, of specific inventory items. Inventory reserves are recorded for damaged, obsolete, excess, impaired and slow-moving inventory. We use estimates to record these reserves. Slow-moving inventory is reviewed by category and may be partially or fully reserved for depending on the type of product and the length of time the product has been included in inventory. Reserve adjustments are made for the difference between the cost of the inventory and the estimated market value, if lower, and charged to operations in the period in which the facts that give rise to these adjustments become known.

Market value of inventory is estimated based on the impact of market trends, an evaluation of economic conditions and the value of current orders relating to the future sales of this type of inventory. Inventory reserve is reduced following legacy inventory sale and write-off of reserved inventory and increased by additions to reserve for slow moving inventory.

- We record deferred tax assets and liabilities arising from temporary timing differences between recorded net income and taxable net income when and if we believe that future earnings will be sufficient to realize the tax benefit. For those jurisdictions where the expiration date of tax benefit carry-forwards or the projected taxable earnings indicate that realization is not likely, a valuation allowance is provided. If we determine that we may not realize all of our deferred tax assets in the future, we will make an adjustment to the carrying value of the deferred tax asset, which would be reflected as an income tax expense. Conversely, if we determine that we will realize a deferred tax asset, which currently has a valuation allowance, we would be required to reverse the valuation allowance, which would be reflected as an income tax benefit. A deferred income tax liability related to indefinite lived intangibles should not be offset against deferred income tax assets. We believe that our estimate of deferred tax assets and liabilities and determination to record a valuation allowance against such assets are critical accounting estimates because they are subject to, among other things, an estimate of future taxable income, which is susceptible to change and dependent upon events that may or may not occur, and because the impact of recording a valuation allowance may be material to the assets reported on the balance sheet and results of operations. See Note 10 in the accompanying Notes to Consolidated Financial Statements.

- We record impairment charges when the carrying amounts of long-lived assets are determined not to be recoverable. Impairment is measured by assessing the usefulness of an asset or by comparing the carrying value of an asset to its fair value. Fair value is typically determined using quoted market prices, if available, or an estimate of undiscounted future cash flows expected to result from the use of the asset and its eventual disposition.

The amount of impairment loss is calculated as the excess of the carrying value over the fair value. Changes in market conditions and management strategy may cause us to reassess the carrying amount of our long-lived assets.

- Sales are recognized when persuasive evidence of an arrangement exists, product title has passed, pricing is fixed or determinable and collection is reasonably assured. Sales resulting from customer buy-back agreements, or associated inventory storage arrangements are recognized upon delivery of the products to the customer, the customer's designated manufacturer, or upon notice from the customer to destroy or dispose of the goods.

Sales, provisions for estimated sales returns and the cost of products sold are recorded at the time title transfers to customers. Actual product returns are charged against estimated sales return allowances, which returns have been insignificant.

- We are currently involved in various lawsuits, claims and inquiries, most of which are routine to the nature of the business and in accordance with FASB ASC 450, "Contingencies". We accrue estimates of the probable and estimable losses for the resolution of these claims. The ultimate resolution of these claims could affect our future results of operations for any particular quarterly or annual period should our exposure be materially different from our earlier estimates or should liabilities be incurred that were not previously accrued.

New Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-06, "Fair Value Measurements and Disclosures" (Topic 820): Improving Disclosures about Fair Value Measurements. This guidance amends the disclosure requirements related to recurring and nonrecurring fair value measurements and requires new disclosures on the transfers of assets and liabilities between Level 1 (quoted prices in active market for identical assets or liabilities) and Level 2 (significant other observable inputs) of the fair value measurement hierarchy, including the reasons and the timing of the transfers. Additionally, the guidance requires a roll forward of activities on purchases, sales, issuance and settlements of the assets and liabilities measured using significant unobservable inputs (Level 3 fair value measurements). The guidance became effective for the reporting period beginning January 1, 2010, except for the disclosure on the roll forward activities for Level 3 fair value measurements, which will become effective for the reporting period beginning January 1, 2011. The adoption of this updated guidance was not significant to the consolidated financial statements.

In February 2010, the FASB issued updated guidance related to subsequent events. As a result of this updated guidance, public filers must still evaluate subsequent events through the issuance date of their financial statements; however, they are not required to disclose the date in which subsequent events were evaluated in their financial statements disclosures. This amended guidance became effective upon its issuance on February 24, 2010 at which time we adopted this updated guidance.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

Not Applicable

Item 4. Controls and Procedures

Evaluation of Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, or the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities Exchange Commission's rules and forms, including to ensure that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act.

As of the end of the period covered by this report, management, with the participation of Lonnie D. Schnell, our principal executive officer and principal financial officer, and James E. Reeder, our principal accounting officer, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based upon that evaluation, Mr. Schnell and Mr. Reeder concluded that these disclosure controls and procedures were effective as of the end of the period covered in this Quarterly Report on Form 10-Q.

Changes in Internal Control over Financial Reporting

During the quarter ended September 30, 2010, there were no changes in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

On April 16, 2004, we filed suit against Pro-Fit Holdings, Limited in the U.S. District Court for the Central District of California – Tag-It Pacific, Inc. v. Pro-Fit Holdings, Limited, CV 04-2694 LGB (RCx) -- asserting various contractual and tort claims relating to our exclusive license and intellectual property agreement with Pro-Fit, seeking declaratory relief, injunctive relief and damages. It is our position that the agreement with Pro-Fit gives us exclusive rights in certain geographic areas to Pro-Fit's stretch and rigid waistband technology. We also filed a second civil action against Pro-Fit and related companies in the California Superior Court which was removed to the United States District Court, Central District of California. In the second quarter of 2008, Pro-Fit and certain related companies were placed into administration in the United Kingdom and filed petitions under Chapter 15 of Title 11 of the United States Code. As a consequence of the chapter 15 filings, all litigation by us against Pro-Fit has been stayed. We have incurred significant legal fees in this litigation, and unless the case is settled or resolved, may continue to incur additional legal fees in order to assert its rights and claims against Pro-Fit and any successor to those assets of Pro-Fit that are subject to our exclusive license and intellectual property agreement with Pro-Fit and to defend against any counterclaims.

We currently have pending various other claims and complaints that arise in the ordinary course of our business. We believe that we have meritorious defenses to these claims and that the claims are either covered by insurance or would not have a material effect on our consolidated financial condition if adversely determined against us.

Item 1A. Risk Factors

Risk factors are contained in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2009. Except as set forth below, no material change to such risk factors has occurred during the nine months ended September 30, 2010.

CVC California, LLC holds voting control of our outstanding voting securities, which could limit other stockholders' ability to influence the outcome of key transactions.

With our entry into the Recapitalization Agreement on July 30, 2010, we issued to CVC Series B Preferred Stock which upon conversion, when combined with the 1,750,000 shares of common stock already owned by CVC, represents 54.1% of the fully diluted number of shares of common stock and 69.6% of Talon's outstanding voting securities immediately after the issuance of the Series B shares. In addition the holders of Series B Preferred Stock have the right to elect a majority of our Board of Directors. As a result, CVC has the voting power to determine the outcome of virtually any matter submitted to a vote of the holders of our common stock, including the election of a majority of the members of our Board of Directors and any change in control transaction. This concentration of ownership of our voting securities could have the effect of delaying or preventing a change of control of Talon or otherwise discouraging or preventing a potential acquirer from attempting to obtain control of our company. This, in turn, could have a negative effect on the market price of our common stock.

Item 5. Other Information

Annual Meeting of Stockholders

Our 2010 Annual Meeting of Stockholders is scheduled to take place on November 19, 2010, beginning at 11:00 a.m. Pacific Standard Time. The meeting will be held at Marriott Warner Center, 21850 Oxnard Street, Woodland Hills, California 91367. Record holders of outstanding shares of our common stock and Series B Preferred Stock as of the close of business on October 4, 2010 are entitled to vote at the Annual Meeting. The definitive proxy statement for the Annual Meeting was mailed to stockholders on October 22, 2010.

Appointment of Director

Effective as of October 3, 2010, David Ellis was appointed to the Board of Directors to fill an existing vacancy. Mr. Ellis was appointed to the Board by CVC, as the holder of all outstanding shares of Series B Preferred Stock, in accordance with the Recapitalization Agreement.

Mr. Ellis (age 46) is a co-founder of GemCap, an equity investor in low and middle-market sized companies and provider of asset-based loans, ranging from \$1 million to \$10 million, as a senior-secured lender. Through 2006, Mr. Ellis served as the President of Buxbaum Group, which he initially joined in 1988. Following a three-year hiatus from Buxbaum Group starting in 1991, Mr. Ellis rejoined the company in 1994. Buxbaum Group consisted of the following five companies which reported to Mr. Ellis: Buxbaum Company, Buxbaum Group, Buxbaum-Century, BC Commercial Finance and Pathway Strategic Partners. While at Buxbaum Group, Mr. Ellis gained twenty years of experience in the acquisition, insolvency and turnaround management businesses.

Mr. Ellis does not have any family relationships with any of our other directors or executive officers. Prior to his appointment as a member of our Board of Directors, Mr. Ellis did not have any material relationship with us and no such relationship is currently proposed.

Item 6. Exhibits

Exhibit No.	Description
3.1	Certificate of Incorporation of Registrant. Incorporated by reference to Exhibit 3.1 to Form SB-2 filed on October 21, 1997, and the amendments thereto.
3.1.2	Certificate of Designation of Rights, Preferences and Privileges of Series A Preferred Stock. Incorporated by reference to Exhibit A to the Rights Agreement filed as Exhibit 4.1 to Current Report on Form 8-K filed as of November 4, 1998.
3.1.3	Certificate of Amendment of Certificate of Incorporation of Registrant. Incorporated by reference to Exhibit 3.4 to Annual Report on Form 10-KSB, filed March 28, 2000.
3.1.4	

Certificate of Amendment of Certificate of Incorporation of Registrant. Incorporated by reference to Exhibit 3.1.3 to Form 8-K filed on August 4, 2006.

3.1.5 Certificate of Ownership and Merger. Incorporated by reference to Exhibit 3.1 to Form 8-K filed on July 20, 2007.

3.1.6 Certificate of Designation of Series B Convertible Preferred Stock. Incorporated by reference to Exhibit 3.1 to Form 8-K filed on August 5, 2010.

Exhibit No.	Description
10.1	Recapitalization Agreement, dated June 30, 2010, between Registrant and CVC California, LLC. Incorporated by reference to Exhibit 10.1 to Form 8-K filed on August 5, 2010.
10.2	Amendment No. 5 to Loan Agreement, dated June 30, 2010, between Registrant and CVC California, LLC. Incorporated by reference to Exhibit 10.2 to Form 8-K filed on August 5, 2010.
10.3	Amendment No. 6 to Loan Agreement, dated July 30, 2010, between Registrant and CVC California, LLC. Incorporated by reference to Exhibit 10.3 to Form 8-K filed on August 5, 2010.
10.4	Amended and Restated Revolving Credit Note, dated July 30, 2010, made by Registrant in favor of CVC California, LLC. Incorporated by reference to Exhibit 10.4 to Form 8-K filed on August 5, 2010.
10.5	Stockholders Agreement, dated July 30, 2010, among Registrant, CVC California, LLC, Lonnie D. Schnell and Larry Dyne. Incorporated by reference to Exhibit 10.5 to Form 8-K filed on August 5, 2010.
10.6+*	Employment Agreement, dated July 30, 2010, between Registrant and Lonnie D. Schnell. Incorporated by reference to Exhibit 10.6 to Form 8-K filed on August 5, 2010.
10.7+*	Employment Agreement, dated July 30, 2010, between Registrant and Larry Dyne. Incorporated by reference to Exhibit 10.7 to Form 8-K filed on August 5, 2010.
10.8+	Restricted Stock Unit Agreement, dated July 30, 2010, between Registrant and Lonnie D. Schnell. Incorporated by reference to Exhibit 10.8 to Form 8-K filed on August 5, 2010.
10.9+	Restricted Stock Unit Agreement, dated July 30, 2010, between Registrant and Larry Dyne. Incorporated by reference to Exhibit 10.9 to Form 8-K filed on August 5, 2010.
31.1	Certificate of Chief Executive Officer and Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certificate of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

+ Indicates a management contract or compensatory plan or arrangement.

*Certain portions of this agreement have been omitted and filed separately with the Securities and Exchange Commission pursuant to a request for an order granting confidential treatment pursuant to Rule 24b-2 of the Rules

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
