UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 20-F

REGISTRATION STATEMENT PURSUANT TO SECTION 12(b) OR (g) OF THE SECURITIES EXCHANGE ACT OF 1934

OR

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2006

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

OR

SHELL COMPANY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Date of event requiring this shell company report _____

For the transition period from _____ to _____

Commission file number 001-14184

B.O.S. BETTER ONLINE SOLUTIONS LTD.

(Exact name of Registrant as specified in its charter)

ISRAEL

(Jurisdiction of incorporation or organization)

20 Freiman Street, Rishon LeZion, 75100, Israel

(Address of principal executive offices)

Securities registered or to be registered pursuant to Section 12(b) of the Act: Ordinary Shares, nominal value NIS 4.00 per share

Securities registered or to be registered pursuant to Section 12(g) of the Act: NONE

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act: NONE

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report: 6,744,798 Ordinary Shares, nominal value NIS 4.00 per share, as of December 31, 2006; and 8,492,213 Ordinary Shares, nominal value NIS 4.00 per share, as of April 30, 2007.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

If this report is an annual or transition report, indicate by check-mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark which financial statement item the registrant has elected to follow:

Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

Unless the context in which such terms are used would require a different meaning, all references to "BOS", "we", "our" or the "Company" refer to B.O.S. Better Online Solutions Ltd. and its subsidiaries.

3A. Selected Consolidated Financial Data

The consolidated statement of operations data for B.O.S. Better On-Line Solutions Ltd. set forth below with respect to the years ended December 31, 2006, 2005 and 2004, and the consolidated balance sheet data as of December 31, 2006 and 2005, have been derived from the Consolidated Financial Statements listed in Item 18, which have been prepared in accordance with generally accepted accounting principles ("GAAP") in the United States. The consolidated statement of operations data set forth below with respect to the years ended December 31, 2003 and 2002, and the consolidated balance sheet data as of December 31, 2004, 2003 and 2002, have been derived from other consolidated financial statements not included herein and have been prepared in accordance with U.S. GAAP. The financial statements for the years ended December 31, 2006, 2005, 2004, 2003 and 2002 were audited by Kost, Forer Gabbay & Kasierer, an independent registered public accounting firm and a member of Ernst & Young Global. The selected consolidated financial data presented below should be read in conjunction with Item 5: "Operating and Financial Review and Prospects" and the Notes to the Financial Statements included in this Form 20-F.

Following the sale of the Communications segment, the Company has accounted for the Communications segment as a discontinued operation. As such, the results of operations, including revenues, cost of revenues, operating expenses and other income and expenses related to the Communications segment for years 2005 and 2004, have been reclassified in the statements of operations and balance sheet as discontinued operations.

On May 29, 2003, the Company effected a one-for-four reverse stock split. All share and per share numbers herein reflect adjustments resulting from this reverse stock split.

3D. Risk Factors

The following factors, in addition to other information contained or incorporated by reference in this Form 20-F, should be considered carefully. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The risks described below are not the only risks facing our company. Additional risks and uncertainties that we are not aware of or that we currently believe are immaterial may also adversely affect our business, financial condition, results of operation and liquidity. The trading price of our ordinary shares could decline due to any of these risks, and you may lose all or part of your investment.

- 3 -

This report on Form 20-F contains forward-looking statements that are intended to be, and are hereby identified as, forward looking statements for the purposes of the safe harbor provisions of the Private Securities Reform Act of 1995. These statements address, among other things: our strategy; the anticipated development of our products; our anticipated use of proceeds; our projected capital expenditures and liquidity; our development of additional revenue sources; our development and expansion of relationships; the market acceptance of our products; and our technological advancement. Actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including all the risks discussed below and elsewhere in this report.

We urge you to consider that statements which use the terms believe, do not believe, expect, plan, intend, estimate, anticipate, project, forecast and similar expressions are intended to identify forward-looking statements. These statements reflect our current views with respect to future events and are based on assumptions and are subject to risks and uncertainties. Except as required by applicable law, including the federal securities laws of the United States, we do not intend to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Market data and forecasts used in this report have been obtained from independent industry sources. We have not independently verified the data obtained from these sources and we cannot assure you of the accuracy or completeness of the data. Forecasts and other forward-looking information obtained from these sources are subject to the same qualifications and additional uncertainties accompanying any estimates of future market size.

Risks relating to our business:

We have had a history of losses and our future levels of sales and ability to achieve profitability are unpredictable.

We incurred net losses of \$3.6 million in 2005, \$2.1 million in 2004 and \$21,000 in 2003. As of December 31, 2006, we had an accumulated deficit of \$42.6 million. In 2006 we had net income of \$92,000 which was due to income from discontinued operation of \$1.6 million. Our ability to maintain and improve future levels of sales and profitability depends on many factors, which include:

- the continued demand for our existing products;
- our ability to develop and sell new products to meet customer needs;
- management's ability to control costs and successfully implement our business strategy; and
- our ability to manufacture and deliver products in a timely manner.

There can be no assurance that we will experience any growth in sales or achieve profitability in the future or that the levels of historic sales or profitability experienced during previous years will continue in the future or that our net losses will not increase in the future.

Risks relating to our business:

We may be unable to maintain our gross profit margins.

Our sales and profitability may vary in any given year, and from quarter to quarter. In order to increase sales and enter into new markets with new products we may find it necessary to decrease prices in order to be competitive. Additionally, the gross profit margin of our subsidiary, Odem Electronic Technologies 1992 Ltd. (Odem), whose sales accounted for 90% of our total sales in 2006, and 75% of our total sales in 2005, tends to fluctuate. We may not be able to maintain current gross profit margins in the future, which would have a material adverse effect on our business.

We have limited capital resources and we may encounter difficulties raising capital, which could impede or strategy of growth through mergers and acquisitions.

Continued expansion by mergers and acquisitions requires additional financial resources and especially working capital. If our efforts to raise capital do not succeed, our efforts to increase our business may be seriously jeopardized.

A significant part of the revenues of our wholly-owned subsidiary, Odem, is from one major customer, Israel Aircraft Industries (IAI). Our business relationship with IAI involves the following risks:

An interruption in our business relationship with IAI would materially adversely impact our financial results.

Sales to IAI accounted for 24% of our revenues in year 2006 and 11% in 2005. An interruption in our business relationship with IAI would result in a significant reduction in our revenues and in a write-off of inventory, and would have an adverse effect on our business and results of operations.

Significant appreciation in the cost price of electronic components under a long term sales agreement with a fixed sales price with IAI, may materially adversely impact our financial results.

In September 2004, Odem entered into a long term sales agreement with IAI for the supply of electronic components for two models of business jets. The agreement provides for a fixed sales price of the components during the term of the agreement through December 2008. Absent the flexibility to increase our prices as a result of increased costs of the components, significant increased costs may adversely impact our financial results.

The relationship with IAI requires us to hold a large inventory, in order to meet its short lead time and delivery requirements. If we are unable to sell this inventory on a timely basis, we could incur charges for excess and obsolete inventory, which would materially adversely affect our results of operations.

Under the agreement with IAI, we are obligated to hold inventory of products necessary for three months of IAI s production of two models of business jets. This requires us to incur the costs of purchasing inventory without having an outstanding purchase order for the products. If we are unable to sell products that are purchased to hold in inventory, we may incur write-offs and write-downs as a result of slow-moving items, technological obsolescence, excess inventories, discontinued products and products with market prices lower than cost. Such write-offs and write-downs could adversely affect our operating results and financial condition.

We may be unable to maintain and continue developing marketing and distribution arrangements and expand our reach into overseas markets.

Sales outside Israel accounted for 29% of our total sales in 2006 and 44% in 2005. If we are not able to maintain our existing distribution channels and expand to new international markets, our operating results may be materially adversely affected. In 2006 our sales to the Far East declined to 9.6% of our total sales from 22% in 2005 and we have decided not to focus on this market.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

In December 2005, we sold our Communication segment to IP Gear Ltd., a subsidiary of Qualmax Inc., in exchange for shares of Qualmax Inc. common stock. If Qualmax is not successful in its business, we may lose the value of our investment.

On December 31, 2005 we closed a transaction for the sale of our Communications segment to IP Gear Ltd., a wholly owned subsidiary of Qualmax Inc., in consideration of common stock of Qualmax Inc.

On September 18, 2006, Qualmax announced that it had consummated the transfer of all of its assets and liabilities to New World Brands, Inc. (New World), in exchange for Series A Convertible Preferred Stock of New World convertible into common stock with approximately 86% of the voting power of New World. The shares of common stock of New World are quoted on the Over the Counter Bulletin Board. Immediately prior to the closing of this transaction, New World sold all of its former business operations.

In December, 2006, we closed a transaction with Qualmax and its subsidiaries, New World Brands and IPGear, pursuant to which we converted approximately \$1.5 million payable to us by Qualmax and IPGear into 5.50652 shares of Series A Convertible Preferred Stock of New World, which are convertible into approximately 16.5 million shares of New World Common Stock, reflecting a conversion rate of \$0.09 per one share of Common Stock. Conversion of the Series A Preferred Stock into Common Stock was to take place automatically upon effectiveness of an amendment to New World's certificate of incorporation authorizing an increase in the number of outstanding shares of Common Stock. On April 27, 2007, New World Brands announced the conversion of all of its outstanding Series A Convertible Preferred Stock into shares of Common Stock.

In connection with the transaction, we agreed to grant New World, contingent upon the satisfaction of certain conditions, a three-year option to purchase up to 30% of the New World shares held by us, at prices ranging from \$0.12 to \$0.24 per share of Common Stock.

In addition, we agreed to enter into a lock up agreement, restricting the transfer of our share holdings in Qualmax and in New World, for up to two years.

New World has a limited operating history on which to judge whether or not this company will be successful. If New World is not successful in its business or if New World's share price is subject to a prolonged decline, we may lose the value of our investment, and be required to record an impairment of the investment, which could materially adversely affect our results of operation.

We have limited order backlog. If revenue levels for any quarter fall below our expectations, our results of operations will be adversely affected.

We have a limited order backlog, which makes revenues in any quarter substantially dependent on orders received and delivered in that quarter. We base our decisions regarding our operating expenses on anticipated revenue trends, and our expenses level are relatively fixed, or require some time for adjustment. Hence, revenue levels below our expectations will adversely affect our results of operations.

- 6 -

The sales of our Software Solutions segment in the United States depend on one master distributor. In the event that we cease working with the master distributor, we may experience an interruption in sales until an alternative source of distribution can be found, which may have a material adverse effect on our business.

We market Software Solutions in the United States through one master distributor. In 2006 and in 5 our sales of Software Solutions (connectivity products) in the US market accounted for 7% and 11% of our total sales, respectively, and for approximately 21% and 25% of our gross profit, respectively. In the event that we cease working with the master distributor, we may experience an interruption in sales until an alternative source of distribution can be found, which may have a material adverse effect on our business.

In late 2002 we decided to wind up the business of our subsidiary, Pacific Information Systems, Inc. (PacInfo), due to its severe financial situation.

The wind up process was accompanied by settlements with a majority but not all of PacInfo's creditors. An action by any of such remaining creditors would result in additional costs to the Company.

Furthermore, certain actions involving PacInfo, if occurred before the end of 2003, may have triggered a tax event for PacInfo's former owners (the Sellers). In such event, we may be obligated, under the purchase agreement, to grant the Sellers a loan on a full recourse basis for certain tax payments the Sellers may be liable for, currently estimated at approximately \$2 million. The purchase agreement provides that the Company is to receive a security interest in shares of the Company that the Sellers hold at the time of the loan with a fair market value as of the

date of the loan of at least 125% of the amount of the loan as security for the repayment of the loan. In addition, in the event we are required to loan such sum to the Sellers, we may also be required to reimburse the Sellers for certain interest on taxes that they may owe. It is possible that the wind up of PacInfo during 2002 and 2003 may have triggered such a tax event for the Sellers, which would result in our obligation to loan the Sellers such amount and to reimburse them for interest expenses incidental to the tax event. Such a loan and reimbursement may have a material adverse effect on our business condition and results of operations.

Our acquisitions may not always prove successful.

Over the past years we have pursued the acquisition of businesses, products and technologies and we intend to continue to search for additional growth through mergers and acquisitions. However, our acquisitions have not always proven to be successful. Acquisitions involve a number of risks, including the difficulty of assimilating geographically diverse operations and personnel of the acquired businesses or activities and of maintaining uniform standards, controls, procedures and policies. There can be no assurance that we will not encounter these and other problems in connection with any future acquisitions we may undertake. There can be no assurance that we will ultimately be effective in executing additional acquisitions. Any failure to effectively execute and integrate future acquisitions could have an adverse effect on our business, operating results or financial condition.

We depend on certain key products for a significant part of our gross profit and if sales of these products decline, it would have a material adverse effect on us.

Our Software Solutions to the IBM midrange computer communications market contributed 28% of our gross profit in 2006 and 39% of our gross profit in 2005. If sales of our Software Solutions were to decline significantly for any reason, or the profit margins on such products were to decrease significantly for any reason (including in response to competitive pressures), our financial results would be adversely affected. Over the past few years there has been a continuous global decrease in sales and revenues from our Software Solutions segment.

- 7 -

We have recently begun to expand our range of Software Solutions to include generic, platform independent software that is no longer solely based on the IBM System i environment and are also developing and introducing new remote data access communication products. However, there can be no assurance that the planned enhancements or the new developments will be commercially successful, or that we will be able to increase sales of our Software Solutions products.

If we are unsuccessful in developing and introducing new products, we may be unable to expand our business.

The market for some of our products is characterized by rapidly changing technology and evolving industry standards. The introduction of products embodying new technology and the emergence of new industry standards can render existing products obsolete and unmarketable and can exert price pressure on existing products.

Our ability to anticipate changes in technology and industry standards and successfully develop and introduce new and enhanced products as well as additional applications for existing products, in each case on a timely basis, will be critical in our ability to grow and remain competitive. Although these products are related to, and even incorporate our existing products, there can be no assurance that we will be able to successfully develop and market any such new products. If we are unable to develop products that are competitive in technology and price and responsive to customer needs, for technological or other reasons, our business will be materially adversely affected.

We depend on key personnel and need to be able to retain them and our other employees.

Our success depends, to a significant extent, on the continued active participation of our executive officers, other members of management and key technical and sales and marketing personnel. In addition, there is significant competition for employees with technical expertise in our industry. Our success will depend, in part, on:

our ability to retain the employees who have assisted in the development of our products;

our ability to attract and retain additional qualified personnel to provide technological depth and support to enhance existing products and develop new products; and

our ability to attract and retain highly skilled computer operating, marketing and financial personnel.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

We cannot make assurances that we will be successful in attracting, integrating, motivating and retaining key personnel. If we are unable to retain our key personnel and attract additional qualified personnel as and when needed, our business may be adversely affected.

We may be unable to successfully defend ourselves against claims brought against us.

We are defendants in a number of lawsuits filed against us, and from time to time in the normal course of our business, may receive written demands for payments from prospective plaintiffs. Legal proceedings can be expensive, lengthy and disruptive to normal business operations, and can require extensive management attention and resources regardless of their merit. Moreover, we cannot predict the results of all proceedings and there can be no assurance that we will be successful in defending ourselves against them. An unfavorable resolution of a lawsuit or proceeding could materially adversely affect our business, results of operations and financial condition.

- 8 -

We may be obligated to indemnify our directors and officers.

The Company has agreements with its directors and senior officers which provide, subject to Israeli law, for the Company to indemnify these directors and senior officers for (a) monetary liability imposed upon them in favor of a third party by a judgment, including a settlement or an arbitral award confirmed by the court, as a result of an act or omission of such person in his capacity as a director or officer of the Company, (b) reasonable litigation expenses, including attorney's fees, incurred by them pursuant to an investigation or a proceeding commenced against them by a competent authority and that was terminated without an indictment and without having a monetary charge imposed on them in exchange for a criminal procedure (as such terms are defined in the Israeli Companies Law), or that was terminated without an indictment but with a monetary charge imposed on them in exchange for a criminal procedure in a crime that does not require proof of criminal intent, as a result of an act or omission of such person in his capacity as a director or officer of the Company, and (c) reasonable litigation expenses, including attorney's fees, incurred by such a director or officer or imposed on him by a court, in a proceeding brought against him by or on behalf of the Company or by a third party, or in a criminal action in which he was acquitted, or in a criminal action which does not require criminal intent in which he was convicted, in each case relating to acts or omissions of such person in his capacity as a director or officer of the Company. Such indemnification may materially adversely affect our financial condition.

We may be unable to effectively manage our growth and expansion, and as a result, our business results may be adversely affected.

Our goal is to grow significantly over the next few years. The management of our growth, if any, will require the continued expansion of our operational and financial control systems, as well as a significant increase in our manufacturing, testing, quality control, delivery and service capabilities. These factors could place a significant strain on our resources.

Our inability to meet our manufacturing and delivery commitments in a timely manner (as a result of unexpected increases in orders, for example) could result in losses of sales, our exposure to contractual penalties, costs or expenses, as well as damage to our reputation in the marketplace.

Our inability to manage growth effectively could have a material adverse effect on our business, financial condition and results of operations.

The measures we take in order to protect our intellectual property may not be effective or sufficient.

Our success is dependent upon our proprietary rights and technology. We currently rely on a combination of trade secret, copyright and trademark law, together with non-disclosure and invention assignment agreements, to establish and protect the proprietary rights and technology used in our products. Much of our proprietary information is not patentable. We generally enter into confidentiality agreements with our employees, consultants, customers and potential customers and limit the access to and the distribution of our proprietary information. Despite these precautions, it may be possible for a third party to copy or otherwise obtain and use our technology without authorization, or to develop similar technology independently. We do not believe that our products and proprietary rights infringe upon the proprietary rights of others. However, there can be no assurance that any other party will not argue otherwise. The cost of responding and adequately protecting ourselves against any such assertion may be material, whether or not the assertion is valid. Further, the laws of certain countries in which we sell our products do not protect our intellectual property rights to the same extent as do the laws of the United States. Substantial unauthorized use of our products could have a material adverse effect on our business. We cannot make assurances that our means of protecting our proprietary rights will be adequate or that our competitors will not independently develop similar technology. Additionally, there are risks that arise from the use of intranet networks and the Internet. Although we utilize firewalls and protection software, we cannot be sure that our proprietary information is secured against penetration. Such penetration, if occurs, could have an adverse effect on our business.

- 9 -

We rely on certain key suppliers for the supply of components in our products.

We purchase certain components and subassemblies used in our existing products from a single supplier or a limited number of suppliers. In the event that any of our suppliers or subcontractors becomes unable to fulfill our requirements in a timely manner, we may experience an interruption in production until an alternative source of supply can be obtained. A prolonged disruption in supply may force us to redesign and retest our products.

One of Odem's major suppliers accounted for 12% of our purchases in the year 2006 and for 27% of our purchases in the year 2005. An interruption in our business relationship with such supplier would have an adverse effect on our business and results of operations.

New industry standards, the modification of our products to meet additional existing standards or the addition of features to our products may delay the introduction of our products or increase our costs.

The industry standards that apply to our software segment products are continually evolving. In addition, since our products are integrated into networks consisting of elements manufactured by various companies, they must comply with a number of industry standards and practices established by various international bodies and industry forums. Should new standards gain broad acceptance, we will be required to adopt those standards in our products. We may also decide to modify our products to meet additional existing standards or add features to our products. It may take us a significant amount of time to develop and design products incorporating these new standards. *There can be no assurance that we will not be classified as a passive foreign investment company (a PFIC).*

Based upon our current and projected income, assets and activities, we do not believe that at this time BOS is a passive foreign investment company (a PFIC) for US federal income tax purposes, but there can be no assurance that we will not be classified as such in the future. Such classification may have grave tax consequences for US shareholders. One method of avoiding such tax consequences is by making a qualified electing fund election for the first taxable year in which the Company is a PFIC. However, such an election is conditioned upon our furnishing US shareholders annually with certain tax information. We do not presently prepare or provide such information, and such information may not be available to US shareholders if we are subsequently determined to be a PFIC.

We may be required to pay stamp taxes on documents executed by us on or after June 2003.

The Israeli Stamp Tax on Documents Law, 1961, or the Stamp Tax Law, provides that certain documents signed by Israeli companies are subject to a stamp tax, generally at a rate of between 0.4% and 1% of the value of the subject matter of the applicable document. As a result of an amendment to the Stamp Tax Law that came into effect in June 2003, the Israeli tax authorities have commenced enforcement of the provisions of the Stamp Tax Law.

Consequently, we may be liable to pay stamp taxes on some or all of the documents we have signed since June 2003, which could have a material adverse effect on our results of operations.

- 10 -

Recently promulgated regulations provide for the cancellation of the stamp tax with respect to documents signed from January 1, 2006 onwards.

We have significant sales worldwide and could encounter problems if conditions change in the places where we market our products.

We have sold and intend to continue to sell our products in markets through distributors in North America, Europe and Asia.

A number of risks are inherent in engaging in international transactions, including

international sales and operations being limited or disrupted by longer sales and payment cycles,

possible problems in collecting receivables,

imposition of governmental controls, or export license requirements,

political and economic instability in foreign countries,
trade restrictions or changes in tariffs being imposed; and
laws and legal issues concerning foreign countries.

If we should encounter such difficulties in conducting our international operations, it may adversely affect our business condition and results of operations.

The slowdown in technology markets and technology-focused corporations in prior years has had an adverse impact on us and on the value of our shares.

Our Company, like other technology companies, has been significantly impacted by the market slowdown in the technology industry in prior years. There can be no assurance that the technology market will fully recover or that our operating results will not continue to suffer as a consequence.

Inflation and foreign currency fluctuations significantly impact on our business results.

The vast majority of our sales are made in US dollars and most of our expenses are in US dollars and New Israel Shekels (NIS). The US dollar cost of our operations in Israel is influenced by the extent to which any increase in the rate of inflation in Israel over the rate of inflation in the United States is offset by the devaluation of the NIS in relation to the dollar. Our dollar costs in Israel will increase if inflation in Israel exceeds the devaluation of the NIS against the dollar or if the timing of such devaluations lags behind inflation rate increases in Israel.

If we are forced to repay our short and long term bank loans and secured convertible notes in cash, we may not have enough cash to fund our operations

Our short and long term bank loans and secured convertible notes contain certain provisions and restrictions, which if violated, could result in the full principal amounts together with interest and other amounts becoming immediately due and payable in cash. If such an event occurred, we might not have the cash resources to repay such indebtedness when due. In connection with the issuance of the notes, we agreed to certain restrictions upon incurring additional indebtedness such as in case of certain mergers and acquisitions. The existence of debt service obligations and the terms and anti-dilution provisions of the notes may limit our ability to obtain additional financing on favorable terms, or at all.

If the notes are converted and/or the warrants that were issued with the notes are exercised, or if we elect to pay principal and/or interest on the notes with our ordinary shares, a significantly greater number of our ordinary shares will be outstanding and the interests of our existing shareholders will be diluted. If these additional shares are sold into the market, it could decrease the market price of our ordinary shares and encourage short sales although the purchaser of the notes has agreed to not engage in short sales of our ordinary shares. Short sales and other hedging transactions could place further downward pressure on the price of our ordinary shares. We cannot predict whether or how many of our ordinary shares will become issuable as a result of these provisions.

- 11 -

Our assets are subject to security interests in favor of holders of our secured convertible notes. Our failure to repay the secured convertible notes, if required, could result in legal action against us, which could require the sale of all of our assets.

The repayment of our convertible notes is secured by a first priority floating charge on all of our company's assets, present and future as they may be changing from time to time, and by a first priority fixed charge on all of our right, title and interest in our wholly-owned subsidiaries, BOScom Ltd. and Quasar Telecom (2004) Ltd. If we are unable to repay the secured notes when required, the holders of the notes could commence legal action against us and foreclose on all of our assets to recover the amounts due. Any such action would require us to curtail or cease operations.

Risks related to our location in Israel:

Political, economic, and security conditions in Israel affect our operations and may limit our ability to produce and sell our products or provide our services.

Risks related to our location in Israel:

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

We are incorporated under the laws of the State of Israel, where we also maintain our headquarters and our principal manufacturing, research and development facilities. Political, economic, security and military conditions in Israel directly influence us. We could be adversely affected by any major hostilities involving Israel, the interruption or curtailment of trade between Israel and its trading partners or a significant downturn in the economic or financial condition of Israel. In July 2006, Israel became involved in a major military conflict with the Hizbullah organization in Lebanon, which subjected the north of Israel to missile attacks. Certain of our facilities are located in the north of Israel. Israel's military operations required the drafting of a substantial number of reserve soldiers. In addition, the future of the peace process with the Palestinians is uncertain and has deteriorated due to Palestinian violence, with the threat of a large-scale attack by Palestinians on Israeli civilians and key infrastructure remaining a constant concern. The past few years of renewed terrorist attacks by the Palestinians has severely affected the Israeli economy in many ways. In January 2006, Hamas, an Islamic movement responsible for many attacks against Israelis, won the majority of the seats in the Parliament of the Palestinian Authority. The election of a majority of Hamas-supported candidates is expected to be a major obstacle to relations between Israel and the Palestinian Authority, as well as to the stability in the Middle East as a whole. In addition, several countries still restrict business with Israel and with companies doing business in Israel. We could be adversely affected by adverse developments in the peace process or by restrictive laws or policies directed towards Israel or Israeli businesses.

Generally, all nonexempt male adult citizens and permanent residents of Israel, including some of our officers and employees, are obligated to perform military reserve duty annually, and are subject to being called to active duty at any time under emergency circumstances. While we have operated effectively under these requirements since our incorporation, we cannot predict the full impact of such conditions on us in the future, particularly if emergency circumstances occur. If many of our employees are called for active duty, our business may be adversely affected.

- 12 -

Additionally, in recent years Israel has been going through a period of recession in economic activity, resulting in low growth rates and growing unemployment. Our operations could be adversely affected if the economic conditions in Israel continue to deteriorate. Also, due to significant economic reforms proposed by the Israeli government, there have been several general strikes and work stoppages in 2003 and 2004, affecting all banks, airports and ports. These strikes have had an adverse effect on the Israeli economy and on business. Following the passing of laws to implement economic measures, the Israeli trade unions have threatened further strikes or work stoppages, and these may have an adverse effect on the Israeli economy and our business.

Furthermore, Israel is a party to certain trade agreements with other countries, and material changes to these agreements could have an adverse effect on our business.

If the Israeli Government programs that we benefit from are reduced or terminated, our taxes may increase.

Under the Israeli Law for Encouragement of Capital Investments, 1959, facilities that meet certain conditions can apply for Approved Enterprise status (or be a Benefited Enterprise, if qualified, without prior application and approval). This status confers certain benefits including tax benefits. The existing facilities of our wholly owned subsidiary, BOScom, have been designated as Approved Enterprises. If we attain taxable income in Israel, these tax benefits will help reduce BOScom's tax burden.

In order to maintain our eligibility for the tax benefits BOScom receives, BOScom must continue to satisfy certain conditions, including making certain investments in fixed assets and operations and achieving certain levels of export. If BOScom fails to satisfy such conditions in the future, BOScom could be disqualified from receiving the tax benefits pursuant to the Approved Enterprise status.

The Israeli Government authorities have indicated that the government may reduce or eliminate these benefits in the future. A termination or reduction of certain programs and tax benefits (particularly benefits available to BOScom as a result of the Approved Enterprise status of BOScom's facilities and programs) would have an adverse effect on the Company's business and financial condition.

The anti-takeover effects of Israeli laws may delay or deter a change of control of the Company.

Under the Israeli Companies Law, a merger is generally required to be approved by the shareholders and Board of Directors of each of the merging companies. Shareholder approval is not required if the company that will not survive the merger is controlled by the surviving company. Additionally, the law provides some exceptions to the shareholder approval requirement in the surviving company. Shares held by a party to the merger and certain of its affiliates are not counted towards the required approval. If the share capital of the company that will not be the surviving company is divided into different classes of shares, the approval of each class is also required. A merger may not be approved if the surviving company will not be able to satisfy its obligations. At the request of a creditor, a court may block a merger on this ground. In addition, a merger can be completed only after all approvals have been submitted to the Israeli Registrar of Companies, provided that 30 days have elapsed since shareholder approval was received and 50 days have passed from the time that a proposal for approval of the merger was filed with the Registrar.

Risks related to our location in Israel:

13

The Israeli Companies Law provides that an acquisition of shares in a public company must be made by means of a tender offer, if as a result of the acquisition, the purchaser would become a holder of 25% or more of the voting power at general meetings, and no other shareholder owns a 25% stake in the Company. Similarly, the Israeli Companies Law provides that an acquisition of shares in a public company must be made by means of a tender offer if, as a result of the acquisition, the purchaser would become a holder of 45% or more of the voting power at general meetings, unless someone else already holds 45% of the voting power. An acquisition from a 25% or 45% holder, which results in the purchaser becoming a 25% or 45% holder respectively, does not require a tender offer. An exception to the tender offer requirement may also apply when the additional voting power is obtained by means of a private placement approved by the general meeting of shareholders. These rules also do not apply if the acquisition is made by way of a merger.

The Israeli Companies Law also provides specific rules and procedures for the acquisition of shares held by minority shareholders, if the majority shareholder shall hold more than 90% of the outstanding shares.

These laws may have the effect of delaying or deterring a change in control of the Company, thereby limiting the opportunity for shareholders to receive a premium for their shares and possibly affecting the price that some investors are willing to pay for the Company's securities.

All of our directors and officers are non-U.S. residents and enforceability of civil liabilities against them is uncertain.

All of our directors and officers reside outside of the United States. Service of process upon them may be difficult to effect within the United States. Furthermore, because the majority of our assets are located in Israel, any judgment obtained in the United States against us or any of our directors and officers may not be collectible within the United States.

Risks related to our ordinary shares:

Our share price has been and may continue to be volatile, which could result in substantial losses for individual shareholders.

The market price of our ordinary shares has been and may continue to be highly volatile and subject to wide fluctuations. From January 2005 through May 2007, the daily closing price of our ordinary shares has ranged from \$2.15 to \$3.74 per share. We believe that these fluctuations have been in response to a number of factors including the following, some of which are beyond our control:

actual or anticipated variations in our quarterly operating results;

announcements of technological innovations or new products or services or new pricing practices by us or our competitors;

increased market share penetration by our competitors;

announcements by us or our competitors of significant acquisitions, strategic partnerships, joint ventures or capital commitments;

additions or departures of key personnel; and

sales of additional ordinary shares.

In addition, the stock market in general, and stocks of technology companies in particular, have from time to time experienced extreme price and volume fluctuations. This volatility is often unrelated or disproportionate to the operating performance of these companies. These broad market fluctuations may adversely affect the market price of our ordinary shares, regardless of our actual operating performance.

The Company's shares may be delisted from the NASDAQ Global Market if it does not meet NASDAQ's continued listing requirements.

In late 2002 and early 2003 the Company received notice from the NASDAQ Stock Market that its ordinary shares were subject to delisting from the NASDAQ Global Market for failure to meet NASDAQ's minimum bid price and shareholders' equity requirements (\$10 million) for

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

continued listing on the Global Market. As a result of the hearing requested by the Company and supplemental information presented by the Company to the NASDAQ Listing Qualifications Panel by the Company, the Panel determined to continue the listing of the Company's securities on the NASDAQ Global Market pursuant to a detailed exception to the NASDAQ Global Market Rules, and the Company successfully met all the conditions set forth in the exception.

On August 30, 2004, we received notice from the NASDAQ Stock Market that our ordinary shares were subject to delisting from the NASDAQ Global Market for failure to meet NASDAQ's minimum market value of publicly held shares requirement (\$5 million) for continued listing on the Global Market. On November 4, 2004, we were notified by NASDAQ that we had regained compliance with this requirement.

On January 25, 2005, we received notice from the NASDAQ Stock Market that we were not in compliance with the minimum \$10 million shareholders' equity requirement for continued listing on the Global Market. Following that notice, on January 28, 2005, we received an additional notice indicating that based on further review of our financial statements as they appeared in our filing on Form 6-K dated January 10, 2005, it was determined that the shareholders' equity was \$10,601,000 on a pro forma basis as of September 30, 2004. Therefore we were in compliance with the stockholders' equity requirement for continued listing on the Global Market and the matter had been closed.

On June 2, 2005, the Company again received notice from the NASDAQ Stock Market indicating that based on the results for the period ended March 31, 2005, the shareholders' equity was \$9,425,000, and accordingly not in compliance with the minimum \$10,000,000 shareholders' equity requirement for continued listing on the Global Market. The Company was requested to provide by June 17, 2005, its specific plan to achieve and sustain compliance with the listing requirements. The Company subsequently submitted a proposed plan of compliance to NASDAQ based upon completing a previously announced private placement offering of its ordinary shares. On July 11, 2005, the Company was advised by the NASDAQ Staff that contingent upon completion of the private placement by August 11, 2005, the Staff believed that the Company had provided a definitive plan evidencing its ability to achieve and sustain compliance with the listing requirements. The private placement took place in June 2005, and consequently the Company regained compliance with NASDAQ's minimum \$10,000,000 shareholders' equity requirement for continued listing on the Global Market.

There can be no assurance that we will be able to meet and continue to meet these or other NASDAQ requirements to maintain our NASDAQ Global Market listing, in which case we will have the right to apply for a transfer of our ordinary shares to the NASDAQ Capital Market.

- 15 -

Item 4: Information on the Company

4A. History and Development of the Company

We were incorporated in Israel in 1990 and are subject to the Israeli Companies Law 1999 - 5759. We design, integrate and test our products in our facilities in two locations in Israel.

Our executive offices and engineering, development, testing, shipping and service operations are located in two Israeli facilities: in Rishon Lezion and in Yoqneam.

Our telephone number is 972-3-954-1000 and our website address is www.boscorporate.com. Our subsidiary Odem maintains a website showcasing our services in the field of RFID. The website address is www.yourfid.com. The information contained on, or linked from, our website is not a part of this report.

We currently manage our operations through our two wholly-owned subsidiaries:

Odem Electronic Technologies 1992 Ltd. which is engaged in the Supply-Chain Solutions segment of our business.

BOScom Ltd. that is engaged in the Software Solutions segment of our business; and

On November 18, 2004, we purchased 63.8% of Odem's issued and outstanding shares from Odem's shareholders, in consideration of \$2,740,000, comprised of cash in the amount of \$1,971,000 and \$769,000 by the issuance of 290,532 of the Company's ordinary shares (subject to lock-up periods of 2 to 4 years). We purchased an additional 23.9% and 12.3% from the minority shareholders on September 29, 2005 and November 1, 2005, respectively, and thus Odem became our wholly-owned subsidiary. In consideration for the 12.3% of Odem's shares purchased in

Risks related to our ordinary shares:

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

November 2005 the Company paid \$554,000 in cash and for the 23.9% of Odeon's shares purchased in September 2005 the Company (i) issued 232,603 of the Company's ordinary shares (subject to lock up periods of 2 to 4 years) and paid \$716,000 in cash.

In addition, we have an interest in two companies:

(a) Surf Communications Solutions Ltd. (Surf), a developer and global supplier of universal access and network convergence software solutions to the wireline and wireless telecommunications and data communications industries. In November 2001, the Company invested \$1,000,000 as part of a private placement in Surf, and converted a convertible loan in the amount of \$1,042,000 into Preferred Shares in Surf. As a result of this private placement and conversion of the loan, the Company held 17% of Surf. In March 2003, the Company purchased from Catalyst Investments L.P. (Catalyst) most of the Surf shares held by Catalyst as a result of which Catalyst held 16.6% of the outstanding Company shares, after the issuance.

In September 2005, Surf executed a private placement and in June 2006 the Company invested \$300,000 in Surf as part of such private placement, following which we held 7.8% of Surf's issued and outstanding share capital.

- 16 -

(b) Qualmax Inc. (Pink Sheets: QMXI.PK) and its subsidiaries New World Brands (OTC: NWBD.OB) and IP Gear Ltd. Qualmax Inc., is an IT solutions provider focused on deployment of best-of breed VoIP, virtual private networks, turnkey network design, wireless connectivity and web. On December 31, 2005, we sold our Communications related property and equipment, goodwill, technology, trade name, existing distribution channels and related contingent liability to the Office of the Chief Scientist to IP Gear Ltd., a wholly owned subsidiary of Qualmax.

The consideration paid to the BOS in the transaction was approximately 3.2 million Qualmax shares of common stock constituting approximately 16% of Qualmax's total issued and outstanding Common Stock as of December 31, 2005, and \$800,000 in royalties to be paid at a rate of 4% from future revenues IP Gear will generate from the disposed segment with the entire \$800,000 due no later than 90 days from the third anniversary of the closing of the transaction. Additional shares were issuable to the Company at the end of four consecutive fiscal quarters following the closing of the transaction, contingent upon IP Gear generating by then a certain level of revenues from the disposed segment (Earn Out Shares). The maximum number of Earn Out Shares that could further be issued to the Company is approximately 1 million, constituting approximately 5% of Qualmax's outstanding shares as of June 15, 2006. On June 8, 2006, Qualmax issued to BOS, on account of the abovementioned commitment, 250,000 Earn Out Shares.

Qualmax also issued to the Company a five-year warrant for the purchase of up to 107,143 shares, constituting less than 1% of its outstanding shares in Qualmax, at the exercise price of \$2.80 per share (Warrants). The Company received certain piggy-back registration rights with respect to the Qualmax shares and the shares underlying the Warrants. The Company does not have a representative on the Board of Directors of Qualmax.

In addition, the Company and IP Gear entered into an Outsourcing Agreement, pursuant to which the Company provided IP Gear with certain operating services relating to the sold Communications Segment, until December 31, 2006. In accordance with the Agreement, the first three months of services were provided for no charge.

The Company also granted a bridge loan to IP Gear in the amount of \$1,000,000. The term of the loan was three years and it bore interest equal to the Prime rate plus 2.5%, up to a maximum of 12%. In the first 18 months, IP Gear was to pay only the interest accrued on the loan and monthly principal and interest payments were to commence thereafter. The loan granted to IP Gear was secured by a first priority floating charge, which may be subordinated to a charge in favor of Bank of America, NA in the event such charge is recorded. In addition repayment was guaranteed by Qualmax Inc.

The loan agreement provided that if the disposed segment would incur in the first quarter of 2006, losses that exceed \$250,000, the principal amount to be repaid under the loan shall be reduced by the excess losses. In such event, Qualmax was to issue to the Company additional shares of Common Stock against such reduction, valued at a predetermined price of \$1.43 per share. Pursuant to this provision, in May 2006, Qualmax issued to the Company 244,755 shares, and the principal amount of the loan was reduced to \$650,000. In June 2006, Qualmax issued to BOS additional 174,825 shares, further reducing the principal amount of the loan, to \$400,000.

In addition, the loan was to be immediately repaid in the event Qualmax raises by way of equity financing (or a series of equity financings) an aggregate amount equal to at least \$4,500,000.

- 17 -

Our Qualmax holdings as of December 31, 2006, equal approximately 18.0% of Qualmax's issued and outstanding Common Stock, including 250,000 earn-out shares and 419,580 shares issued upon conversions during the first half of 2006, of an aggregate of \$600,000 of the bridge loan.

On September 18, 2006, Qualmax announced that it had consummated the transfer of all of its assets and liabilities to New World Brands, Inc. (New World, NWBD.OB) in exchange for Series A Convertible Preferred Stock of New World convertible into common stock with approximately 86% of the voting power of New World. The shares of common stock of New World are quoted on the Over the Counter Bulletin Board. Immediately prior to the closing of the transaction, New World sold all of its former business operations.

On January 10, 2007, we announced that we closed a transaction with Qualmax and its subsidiaries, New World Brands and IPGear, pursuant to which converted approximately \$1.5 million payable to us by Qualmax and IPGear into 5.50652 shares of Series A Convertible Preferred Stock of New World, which are convertible into approximately 16,500,000 shares of New World Common Stock, reflecting a conversion rate of \$0.09 per one share of Common Stock. Conversion of the Series A Preferred Stock into Common Stock was to take place automatically upon effectiveness of an amendment to the New World Brands' certificate of incorporation authorizing an increase in the number of outstanding shares of common stock. Our registration rights with respect to the Qualmax Shares shall be applied also towards our New World Shares. Our New World holdings as of December 31, 2006 are approximately 4.2% of New World's issued and outstanding share capital. On April 27, 2007, New World Brands announced the conversion of all of its outstanding Series A Convertible Preferred Stock into shares of Common Stock.

In connection with the transaction, we agreed to grant New World, contingent upon the satisfaction of certain conditions, a three-year option to purchase up to 30% of the New World shares held by us, at prices ranging from \$0.12 to \$0.24 per share of Common Stock.

In addition, we agreed to enter into a lock up agreement, restricting the transfer of our share holdings in Qualmax and in New World, for up to two years.

In November 2006, Mr. Shmuel Koren was appointed to succeed Mr. Adiv Baruch as the Company's President and CEO. Mr. Baruch continues to serve on the Company's Board of Directors.

In addition, we appointed Mr. Eyal Cohen as our new Chief Financial Officer, effective January 2007 to replace Mr. Nehemia Kaufman. Mr. Cohen previously served as our controller and prior to that held the position of Chief Financial Officer at Cellact Ltd.

Also, in January 2007, the Company appointed Mr. Yoav Brukner as its new Internal Auditor. Mr. Brukner, a certified public accountant, is a partner with Brukner Ingber, CPA to replace Mr. Shmuel Rozenblum.

We have recently completed the previously announced relocation of our headquarters to the city of Rishon Lezion, in the center of Israel, and of our manufacturing and development facilities to the city of Yoqneam, in the north of Israel.

In April 2007 the Company completed a rights offering in which it raised gross proceeds of approximately \$4.4 million. In the rights offering, the Company offered its shareholders rights to purchase its ordinary shares at a subscription price of \$2.50 per ordinary share. The rights were traded for one day on both the Nasdaq Global Market and the Tel-Aviv Stock Exchange. The offering ended on April 16, 2007. 1,739,398 ordinary shares were issued pursuant to the rights offering.

- 18 -

4B. Business Overview

The Company manages its business in two reportable segments, which consist of Software Solutions and the Supply-Chain Solutions. A third segment, Communication Solutions, existed until it was sold in the fourth quarter of 2005.

(a) Software Solutions Segment.

The Software Solutions segment focuses on developing and providing software solutions that are based on middleware architecture, enabling enterprises to extend their business application capabilities to the Web, Mobile and RFID environments.

The table below summarizes the current offerings of our Software Solutions segment:

Risks related to our ordinary shares:

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

Product name	Technology Environment	Target Market
BOSâNOVA -Mobile	IBM System i and UNIX	Logistics, Out door employees using Terminals and Mobile devices
BOSâNOVA -WEB	IBM System i	Customers with branches and employees that are using Laptops
BOSâNOVA -Spooler	IBM System i	Customers conducting web facing projects using Websphere and other web applications servers.
BOSâNOVA -LAN Spooler	IBM System i and Microsoft	Customers with branches who need to control and manage their branches' printers.
BOSâNOVA -Secure	IBM System i	Customers who need to secure the TCP/IP LAN network
e-Twin@x	IBM System i	Customers who are implementing the TCP/IP on their System i and want to keep the Twinax devices.
BOSâNOVA Plus	IBM System i	Customers who want to use their PC as a Twinax terminal.
Safe-T	Generic	Customers that need to transfer large and/or sensitive data files in a secured and managed way.

BOSâNOVA Suite Solution

The Suite solution under BOSâNOVA brand name enables customers to extend compatibility of IBM System i Servers to other environments by implementing a variety of technologies such as Twinax to TCP/IP, WEB and Mobile connectivity.

- 19 -

BOSâNOVA Mobile

Breaking the virtual office boundaries and truly empowering the workforce with an I Series mobility solution. BOSâNOVA Mobile improves branch (inter-) connectivity and overall business continuity by combining the convenience of a mobile device (3.5G ready) with the stability and strength of BOSâNOVA capabilities in the System i environment. We are currently developing new version of our BOSâNOVA Mobile to support the Blackberry devices and also intend to release a new version for the UNIX environment.

BOSâNOVA Web

The *System i Gate to the WEB* is designed to connect external users to the Enterprise s System i via the web. BOSâNOVA Web extends connectivity to branches and external users at exceptionally low usage and maintenance cost. BOSâNOVA Web provides complete security and encryption capabilities while preserving and supporting all of iSeries capabilities.

BOSâNOVA Spooler

The System i spool printing solution for WEB Application Servers. System i spooled files can be printed and managed from any web environment workstation connected to the organization s server through the internet. It is easily integrated with existing Web application servers such as IBM WebSphere® and Microsoft IIS®. The BOSâNOVA Spooler has an advanced, flexible mechanism for direction of Telnet Printer Sessions, tailored to the needs of every organization. The server and users are managed easily and economically via the browser-based BOSâNOVA Spooler Administrator Interface.

BOSâNOVA LAN Spooler

A reliable and cost-effective Enterprise print solution for combined environments that is easy to deploy and offers complete control of all print tasks in the network. A Scalable solution that offers centralized configuration and management of multiple LAN spoolers in the corporate network, transgressing locations & branches.

BOSâNOVA Secure

The comprehensive solution for encrypted System i emulation over TCP/IP networks. Secured TN5250 emulation capabilities are delivered to any PC Workstation connected to a TCP/IP network, implementing SSL and SSO (Single Sign ON by Kerberos). This security emulation is an evolution of the original BOSâNOVA TCP/IP product. BOSâNOVA TCP/IP customers can implement the SSL and SSO features by adding BOSâNOVA Secure to their existing BOSâNOVA TCP/IP client(s).

e-Twin@X controller

This product provides TCP/IP over Twinax connection to local and remote System i, adding the benefits of a Local Area Network to existing Twinax infrastructure. This product eliminates the difficulty of maintaining System Network Architecture and AnyNet protocols, replacing them

with fast, state-of-the-art Transmission Control Protocol / Internet Protocol (TCP/IP).

BOSâNOVA Plus

An enhanced version of the Native Plus card that consists of a Twinax adapter card with feature-rich 5250 display/printer emulation software for either DOS, 16- or 32-bit Windows complete with 32-session APPC display/printer emulation software. This product is based on an IBM compatible Twinax card with 5250 Stealth Technology .

- 20 -

BOS Generic Solutions

Recently we have begun to expand our range of software solutions to include generic, platform independent software that is no longer solely based on the IBM System i environment in order to diversify our Software segment offerings.

Safe-T

Our Safe-T product, launched in May 2007 , delivers and manages secure File transfers for enterprise customers. Safe-T is a server based solution that provides organizations a holistic approach to their file transfer needs. Safe-T uses revolutionary compression technology that ensures fast transmission of the data that is secured by encrypting the transmission channel or the data itself. The recipient has no need for client software, eliminating the need for costly support or maintenance.

Safe-T manages recipients and the way they are authenticated and monitors and reports on all corporate file transfer activity allowing accountability.

Software RFID Server

We are currently developing an RFID server, which will be a middleware between the Enterprise Application system and the RFID equipments (Reader and Tags). This server will enable customers to integrate their RFID environment directly with their ERP application and receive the RFID data in Batch mode or in an on-line mode, depending on their business needs.

(b) Supply-Chain Solutions Segment

Our Supply-Chain Solutions segment, provides, through Odem, solutions in RFID (Radio Frequency Identification Devices), semiconductors, electronic components, CCD (Charge Coupled Devices), imaging, networking, telecom and automation. Odem is a major solution provider and distributor of electronic components and advance technologies in the Israeli market.

We constantly seek growth opportunities by developing new marketing channels for our products in North America, Europe and emerging markets in Eastern Europe, Asia-Pacific and South America. We intend to continue to raise funds in order to expand operations and capitalize on merger and acquisition growth opportunities.

Below is a description of our Supply-Chain product line.

(b1) Radio Frequency Identification Devices (RFID) solutions

RFID is the use of radio frequencies to read information from a small device known as a tag that can be sensed at a distance by radio frequencies. The tag can be any small device such as pendants, beads, nails, labels, microwires and fibers. According to a research entitled "RFID Forecasts, Players & Opportunities 2007-2017", which was released on February 2007 by IDTechEX, a knowledge based company specializing in providing independent marketing, technical and business advice and services on RFID smart labels, the total RFID market value (including all hardware, systems, integration etc.) across all countries is expected to reach \$4.96 Billion in 2007. We believe that the future years shall bring another new development the tagging of high volume items notably consumer goods, drugs, and postal package at the request of retailers, military forces and postal authorities.

- 21 -

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

In 2004, our Supply-Chain division started to provide products and solutions in the field of RFID and successfully implemented an RFID solution in the Maccabia sports event. On January 10, 2007, we announced that we had entered into an agreement with Environmental Solutions Europe Holdings B.V. (ESE) for the supply of RFID tags for tagging garbage bins and collection containers. ESE is a major provider of waste management services in Europe.

At the beginning of year 2007 we launched a website, www.yourfid.com for our RFID customers.

(b2) Electronic Components

We supply and distribute electronic components to the electronic and technology industries in Israel and globally and represent suppliers of components in five categories:

- 1) Active Components semiconductors, transistors, detectors, diodes, integrated circuits, hybrid modems, cellular components, communication ICs, memories, displays, and LEDS;
- 2) Passive Components capacitors, thermistors, varistors, oscillators, crystals, resistors, C-DC converters, and power supplies;
- 3) Electro-mechanical Components relays, connectors, circuit breakers, filters, transformers, plugs, thermostats, switches, etc. In March 20, 2007 we announced that Odem's appointment as a non-exclusive sales representative of Sensata Technologies Inc. (previously Texas Instruments Sensors & Controls) was expanded to include the territories of Turkey, Greece and Asia.
- 4) Discontinued Semiconductors- made by Intel, Fairchild, Harris, Microchip, National, Quality SMC, Texas Instruments, Vantis, Motorola, and more.
- 5) Supply-Chain a complete components supply chain solution offered by Odem to its customers. This program accommodates the preference of hi-tech customers to work with a limited number of suppliers that will be able to provide a comprehensive solution to their needs, covering the entire range of components.

A significant part of the revenues of Odem, is from one major customer, Israel Aircraft Industries (IAI). Sales to IAI accounted for 24% of our revenues in the year 2006 and for 14% of our revenue in 2005. The vast majority of Odem's sales to the IAI was made pursuant to individual purchase orders. In May 9, 2007, we announced that Odem received orders of about \$1.5 million from IAI for a components supply chain program. An interruption in our business relationship with the IAI would materially adversely impact our financial results.

(b3) Data systems

Odem provides full access solutions for IT and telecommunications (LAN/WAN) applications, selling communication servers, multi-protocol print servers, server adapters, USB products, switches, fiber optics equipment, ADSL and XDSL routers, modems, VoIP, storage equipment, ATM devices, and more.

- 22 -

(b4) Image Processing Products

Odem markets image processing products, charge-coupled-device (CCD) and CMOS imaging technologies. The products and technologies Odem markets in this field, such as CCD & CMOS sensors, line and area scan and camera interface items, are used in applications of management and quality control in production lines for products such as semiconductors, PCBs, and textiles.

In 2006 and 2005, 90% and 84% of our sales were attributable to sales of the Electronic Components Solutions segment.

Marketing, Distribution and Sales

We market our products primarily to medium and large sized corporations through a combination of direct sales, indirect distribution and original equipment manufacturers.

In the United States, we market our Software solutions through one master distributor located in Phoenix, Arizona, which coordinates the midrange connectivity-related marketing efforts of dozens of distributors and resellers, and also offers technical support and after-sales service. Odem (Supply-Chain solutions) markets its products and services in the United States through a wholly owned company, Ruby-Tech, Inc., located in Sherbourn, Massachusetts.

In Europe, we market our Software solutions through local distributors that provide pre and post sales support. Products sold in the rest of the world are serviced from our headquarters in Israel.

We further rely on peripheral product distributors who offer our products along with other products for the IBM midrange market. We also rely on value added resellers who offer system sales and installation, which include a variety of our products. In addition, we heavily depend upon our own marketing resources operating from Israel.

Our Software solutions largest customer is a master distributor located in Phoenix, Arizona, and Supply-chain solutions largest customer is located in Israel.

Our Company s sales fluctuate seasonally, with the third quarter sales affected (set back) by vacations in Europe and the holidays in Israel, and December and January sales are affected (set back) by the Christmas season. Revenues of our subsidiary, Odem, fluctuate in as a result of changes in the security conditions in Israel.

- 23 -

The following table sets forth our revenues (in thousands of US\$) from the continuing operations, by major geographic area, for the periods indicated below:

	<u>2006</u>	<u>%</u>	<u>2005</u>	<u>%</u>	<u>2004</u>	<u>%</u>
United States	2,848	14	3,439	14	3,251	47
Europe	1,173	6	1,171	5	600	9
Far East	2,019	10	6,083	25	701	10
Israel and others	14,877	70	13,406	56	2,367	34
Total Revenues	20,917	100	24,099	100	6,919	100

Manufacturing

The products of our subsidiary BOScom, are designed, integrated and tested at our facilities in Israel. The manufacturing is done by Israeli subcontractors using components and subassemblies supplied by vendors to our specifications. Certain components and subassemblies used by us in our existing products are purchased from a single supplier or a limited number of suppliers. Most of the imported components are purchased in Israel from local representatives of the manufacturers. Some of them have exclusive representative rights in Israel. In the event that these suppliers are unable to meet our requirements in a timely manner, we may experience an interruption in production until an alternative source of supply can be obtained. We generally maintain an inventory of components and subassemblies which we believe is sufficient to limit the potential for such an interruption. Our current manufacturing facilities have sufficient capacity to exceed current demand. The prices of raw materials used in our industry are volatile and availability of electronic components may vary due to changing demand in the market.

Odem distributes products that are manufactured by third party suppliers.

Intellectual Property

We currently rely on a combination of trade secrets, copyright and trademark law, together with non-disclosure agreements and technical measures, to establish and protect proprietary rights in our products.

We believe that the improvement of existing products, reliance upon trade secrets and proprietary know-how and the development of new products are generally as important as patent protection in establishing and maintaining a competitive advantage. We believe that the value of our products is dependent upon our proprietary software and hardware remaining trade secrets or subject to copyright protection.

- 24 -

Generally, we enter into non-disclosure and invention assignment agreements with our employees and subcontractors. However, there can be no assurance that our proprietary technology will remain a trade secret, or that others will not develop a similar technology or use such technology in products competitive with those offered by us.

While our competitive position may be affected by our inability to protect our proprietary information, we believe that because of the rapid pace of technological change in the industry, factors such as the technical expertise and the knowledge and innovative skill of our management and technical personnel, name recognition, the timeliness and quality of support services provided by us and our ability to rapidly develop, produce, enhance and market software products may be more significant in maintaining our competitive position.

As the number of software products in the industry increases and the functionality of these products further overlaps, we believe that software programs will increasingly become subject to infringement claims. The cost of responding to any such assertion may be material, whether or not the assertion is valid.

On May 10, 2006 the Company received a written demand from IDEAL Software GmbH, a German corporation, in which it claims that the Company owes it 1.13 million for unpaid license fees. On June 11, 2006 the Company filed with the Haifa District Court in Israel a claim against IDEAL. On January 10, 2007, we announced that we entered into a settlement of this dispute, pursuant to which, on December 21, 2006, we paid IDEAL an amount of 110,000, and agreed to withdraw the claim we filed against IDEAL.

Competition

Software Solutions:

The Software Solutions market is subject to rapidly changing technology and evolving standards incorporated into personal computers, networks and host computers. BOScom's products compete with products that have already been on the market for a number of years and are manufactured by competitors, most of which have substantially greater financial, marketing and technological resources and name recognition than ours.

Our competitors include IBM, Perle, Advanced Business Link, IGEL, CLI PowerTerm, NLynx, NetManage, Attachmate, and Seagull, Adobe, Optio and Formscape.

Supply-Chain Solutions:

The common practice in the industry is that suppliers and manufacturers usually grant a non-exclusive representation right in a specific territory. As long as sales reach a reasonable level and the relationship between the parties is good, the supplier will usually not grant another representation in the agreed territory.

Although most of Odem's representation agreements are not on an exclusive basis, in most cases it does not have a local competitor who distributes components from the same source. However, there may be competition in case of similar components made by other manufacturers. In October 2005, Odem's major supplier to the Far East market opened headquarters in China, causing a substantial decrease in Odem's sales to the Far East.

- 25 -

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

The number of instances in which territorial-based distributing agreements are challenged by large foreign distributors, who receive a special discount on large volume purchases from the suppliers and compete with the local distributor by selling directly to its customers, is increasing. Still, despite inferiority in pricing, local distributors have some advantages over such competition by providing close and continuous technical support, large inventory, a wide spectrum of products and short reaction time.

Odem currently represents 45 overseas suppliers, of which 30 are electronic components suppliers, 5 are suppliers of IT equipment, 5 are suppliers of market image-processing products and 5 are suppliers of RFID tags.

The electronic market is characterized by multiple agents and distributors. Three local electronic component competitors – Telsys Ltd., Nisco Projects Ltd. and STG International Electronics (1981) Ltd., are publicly traded on the Tel Aviv stock exchange. Other large and influential competitors, which are active in the electronic components and data market are Eastronics Ltd., Arrow/Rapac Ltd., Avent Components Israel Ltd., Chayon Group Ltd., and C.M.S. Compucenter Ltd. There is an increase in the number of distributors that are owned by international companies.

In the international market, Odem's competitors are mainly Airtechnics, Inc., Flame enterprise Inc., Norstan electronics Inc. and Peerless Electronics Inc. Our sales in the international market are through middle channels and not directly to the customers.

In the RFID market our main competitors are Moba mobile automation AG, Hewlett-Packard Company and Dymex Inc.

Strategy

The Company's vision is to become a leading provider of integrated RFID and Software Solutions for enterprises in the western markets.

The Company's strategy is to develop RFID and software applications and to build sales platform, which will enable us to sell in the western markets. In order to achieve our vision and strategy, we may acquire technologies and sales channels.

The key elements of our strategy are as follows:

Continue to expand our range of software solutions to include generic, platform independent software that is no longer solely based on the IBM System i environment, in order to diversify our Software Solutions segment offerings.

Increase representations: we continuously search for additional manufacturers to represent through our Supply-Chain Solutions division.

Expand our marketing network: we intend to increase our marketing presence in the Western markets, through the use of acquisitions, the engagement of additional independent distributors and original equipment manufacturers as well as our own sales representatives.

Acquisition of RFID applications to be sold through our existing and future channels.

Acquisition of companies or businesses that will increase our sales channels in Western markets.

- 26 -

Exchange Controls

See Item 10D.

For other government regulations affecting the Company's business, see Item 5, under "Grants and Participation".

4C. Organizational Structure

The Company's wholly owned subsidiaries include:

In Israel:

- 1) BOScom Ltd.;

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

(2) Odem, which we purchased on November 18, 2004 from Odem's previous shareholders, and in which, by November 2005, our holdings increased to 100%. Odem, an Israeli company, is a major solution provider and distributor of RFID and electronics components and advance technologies in the Israeli market; and

(3) Quasar Telecom, which obtained the assets BOS acquired in September 2004 from Quasar Communication Systems Ltd. The assets of Quasar Telecom were sold to IP Gear Ltd., a subsidiary of Qualmax Inc. as part of the sale of the Communications Segment in the fourth quarter of 2005.

In the U.S.:

(1) Ruby-Tech Inc., a wholly owned subsidiary of Odem;

(2) Lynk USA Inc., a subsidiary of BOS, and its subsidiary PacInfo (both Delaware corporations) and PacInfo's subsidiary, Dean Tech Technologies Associates, LLC., a Texan corporation; and

(3) BOS Delaware Inc. a Delaware corporation.

In the U.S., only Ruby-Tech is still operational.

In Europe BOScom had a UK subsidiary, Better On-Line Solutions Ltd., and its subsidiary, Better On-Line Solutions S.A.S in France, which, until mid-2003, distributed and serviced BOScom's products abroad. In mid-2003 we decided, due to cost-efficiency considerations, to cease operations in Europe through the subsidiaries and to market through distributors and resellers, and the subsidiaries are no longer operational and have been closed.

The voting power we (or our subsidiaries) have in all subsidiaries, equates to our shareholdings.

The Company also has an interest in Surf Communication Solutions Ltd. in which it has been investing since 1997, and in Qualmax Inc. and its subsidiary New World Brands Inc. in which it has been invested since December 2005.

- 27 -

4D. Property, Plants and Equipment

Our executive offices and engineering, development, testing, shipping and service operations are currently located in two Israeli facilities (Rishon Lezion and Yoqneam), and occupy a total of approximately 1,719 square meters. BOS occupies 537 square meters in Rishon Lezion, pursuant to a lease which expires in January 2012. Odem occupies 792 square meters in Rishon Lezion, of which 302 square meters are owned by Odem and the remaining space is rented pursuant to lease agreements for various periods, with terms that expire within one to three years. BOScom occupies a total of 390 square meters in Yoqneam, pursuant to leases that expire within one to three years. The current monthly rental fee for these lease agreements amounts to \$9,134.

Our average monthly rental fee in 2006 and 2005 amounted to \$10,000 and \$16,000, respectively.

The facilities in Yoqneam are located in a part of Israel, which has been designated by the government as a Development A area. This designation relates to the benefits available to us as an Approved Enterprise under Israeli law, that entitles us and our shareholders to reduced income tax rates on our income and on dividend distributions.

We believe that our facilities are sufficient to accommodate our anticipated needs in the foreseeable future.

Item 4A: Unresolved Staff Comments

Not Applicable

Item 5: Operating and Financial Review and Prospects

The following management's discussion and analysis of financial condition and results of operations should be read in conjunction with our financial statements and notes thereto. Certain matters discussed below and throughout this annual report are forward-looking statements that are based on our beliefs and assumptions as well as information currently available to us. Such forward-looking statements may be identified by the use of the words "anticipate", "believe", "estimate", "expect", "plan" and similar expressions. Such statements reflect our current views with respect to future events and are subject to certain risks and uncertainties. While we believe such forward-looking statements are based on reasonable assumptions, should one or more of the underlying assumptions prove incorrect, or these risks or uncertainties materialize, our actual results may differ materially from those described herein.

The Company's discussion and analysis of its financial condition and result of operations is based upon the Company's consolidated financial statements which have been prepared in accordance with generally accepted accounting principles ("GAAP") in the United States of America.

Critical accounting policies

Use of Estimates

The preparation of our financial statements required the Company to make estimations and judgments, in accordance with U.S. GAAP, that affect the reporting amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. The Company evaluates its estimates, including those related to revenue recognition, bad debts, inventories, and legal contingencies on an ongoing basis. The Company based its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about the values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

- 28 -

For a review of the accounting policies that form the basis of the above-referenced estimates and judgments that the Company made in preparing its consolidated financial statements, please see Note 2 (Significant Accounting Policies) to the Consolidated Financial Statements for the year ended December 31, 2006. The following accounting policies had the most significant impact on the Financial Statements for the year ended December 31, 2006.

Investment in an affiliated company

An affiliated company is a company in which the Company is able to exercise significant influence, but that is not a consolidated subsidiary and is accounted for by the equity method, net of write-down for decrease in fair value which is not of a temporary nature.

If there is a sudden and significant decrease in the fair values of our investments in affiliate companies, we may be required to write off part of our investments due to impairment. The Company's investment in an affiliated company is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable, in accordance with Accounting Principle Board Opinion No. 18 "The Equity Method of Accounting for Investments in Common Stock" (APB No. 18). The Company's investment in Surf has been included as an affiliated company until September 30, 2005 (see note 6 to the Consolidated Financial Statements for the year ended December 31, 2006).

During 2005, an impairment of \$1,385,000 has been recorded in equity in losses of an affiliated company in the statement of operations. In 2006 and 2004, based on management's analysis, no impairment losses were identified.

Investment in other companies

Investment in companies are investments through which the Company is not able to exercise significant influence over the investee's financial policies and which do not meet the fair value availability criteria of FAS 115 ("readily determined sales price currently available on a security exchange"), consequently such investments are accounted for by the cost method. The Company's investment in such companies is reviewed for impairment whenever events of changes in circumstances indicate that the carrying amount of the investment may not be recoverable in accordance with APB No. 18. No impairment has been identified during 2003 through 2006.

Goodwill, Intangible Assets and Other Long-Lived Assets

Under current accounting standards, we make judgments about the remaining useful lives of goodwill, other intangible assets and other long-lived assets, including assumptions about estimated future cash flows and other factors to determine the fair value of the respective assets.

We adopted SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets as of January 1, 2002. We are required to assess the impairment of long-lived assets, other than goodwill, tangible and intangible under SFAS No. 144, on a periodic basis, when events or changes in circumstances indicate that the carrying value may not be recoverable. Impairment indicators include any significant changes in the manner of our use of the assets or the strategy of our overall business, significant negative industry or economic trends and significant decline in our share price for a sustained period.

- 29 -

Upon determination that the carrying value of a long-lived asset may not be recoverable based upon a comparison of fair value to the carrying amount of the asset, an impairment charge is recorded. We measure fair value using discounted projected future cash flows.

We have adopted SFAS No. 142 Goodwill and Intangible Assets issued in July 2001. Pursuant to SFAS No. 142 goodwill and intangible assets that have indefinite useful lives will not be subject to amortization, but instead will be tested at least annually for impairment. Intangible assets that have definite useful lives will continue to be amortized over their useful lives, but without the constraint of an arbitrary.

Goodwill represents excess of the costs over the net assets of businesses acquired. SFAS No. 142 requires goodwill to be tested for impairment at least annually or between annual tests in certain circumstances, and written down when impaired. Goodwill attributable to each of the reporting units is tested for impairment by comparing the fair value of each reporting unit with its carrying value. Fair value is determined using income and market approaches. Significant estimates used in the methodologies include estimates of future cash flows, future short-term and long-term growth rates, weighted average cost of capital and estimates of market multiples for each of the reportable units.

The Company did not have any impairment losses for the years ended December 31, 2006, 2005 and 2004 and recorded an impairment charge on account of fixed assets which amounted to \$110,000 for the year ended December 31, 2003.

Inventory

Inventories are valued at the lower of cost or market value. Cost is determined as follows: Raw and packaging materials moving average cost method. Products in progress and finished products on the company's standard pricing basis (see also Note 4 to the Consolidated Financial Statements for the year ended December 31, 2006). If actual market conditions prove less favorable than those projected by management, additional inventory write-downs may be required. Inventories are written down for estimated obsolescence based upon assumptions about future demand and market conditions. Likewise, favorable future demand and market conditions could positively impact future operating results if inventory that has been written down is sold.

Revenue Recognition

The Company sells its Supply-Chain products mainly through direct sales and the Software Solutions products mainly through distributors and resellers channels.

The Company derives its revenues from the sale of products, license fees for its products, commissions, maintenance, support and services.

Revenues from product sales are recognized in accordance with Staff Accounting Bulletin No. 104 Revenue Recognition in Financial Statements (SAB 104) when delivery has occurred, persuasive evidence of an arrangement exists, the vendor's fee is fixed or determinable, no further obligation exists, and collectability is reasonably assured.

- 30 -

Revenues from license fees are recognized in accordance with Statement of Position (SOP) 97-2 Software Revenue Recognition , when persuasive evidence of an agreement exists, delivery of the product has occurred, no significant obligations with regard to implementation remain, the fee is fixed or determinable, and collection is probable. The Company generally does not grant a right of return to its customers. When a right of return exists, the Company defers revenue until the right of return expires, at which time revenue is recognized provided that all other revenue recognition criteria have been met.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

Revenues from maintenance and support are recognized ratably over the period of the maintenance contract. The fair value of the maintenance is determined based on the price charged when it sold separately or renewed.

Revenues from commissions are recognized upon their actual receipt, since under agreements with suppliers consideration is received on the basis of collection from customers.

Legal contingencies

The Company has been a party to various legal proceedings in the normal course of its business. The results of legal proceedings are difficult to predict and an unfavorable resolution of a lawsuit or proceeding may occur. Management believes that the prospects of these proceedings to prevail and recover a significant amount, seem remote, and a corresponding provision was recorded in this respect. For additional information see Legal Proceedings . As additional information becomes available, management will reassess the potential liability related to these legal proceedings and may revise its estimate of the probable cost of these proceedings. Such revisions in the estimates of the probable cost could have a material adverse effect on the Company's future results of operations and financial position.

Stock based compensation

On January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), Share-Based Payment (SFAS 123(R)) which requires the measurement and recognition of compensation expense based on estimated fair values for all share-based payment awards made to employees and directors. SFAS 123(R) supersedes Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25), for periods beginning in fiscal 2006. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 107 (SAB 107) relating to SFAS 123(R). The Company has applied the provisions of SAB 107 in its adoption of SFAS 123(R).

SFAS 123(R) requires companies to estimate the fair value of equity-based payment awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as an expense over the requisite service periods in the Company's consolidated income statement. Prior to the adoption of SFAS 123(R), the Company accounted for equity-based awards to employees and directors using the intrinsic value method in accordance with APB 25 as allowed under Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation (SFAS 123).

- 31 -

The Company adopted SFAS 123(R) using the modified prospective transition method, which requires the application of the accounting standard starting from January 1, 2006, the first day of the Company's fiscal year 2006. Under that transition method, compensation cost recognized in the year ended December 31, 2006, includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of Statement 123(R). Results for prior periods have not been restated.

The fair value for options granted in the year 2006 was estimated on the date of grant using a Black-Scholes Option Pricing Model, with the following weighted average assumptions:

Risk free interest	4.91%
Dividend yield	0%
Volatility	78%
Expected term (in years)	3

Functional currency

Odem's functional currency as of December 31, 2004, was other than the U.S. dollar and was translated into U.S. dollars. Beginning April 1, 2005, Odem's functional currency became the U.S. dollar, due to significant changes in circumstances which indicated a functional currency change. These changes included:

Transition of budget planning and business performance measurement from New Israeli Shekels (NIS) to U.S. dollars, as a result of Odem's integration with BOS.

Majority of Odem revenues and expenses became permanently linked to or paid in U.S. dollars.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

In accordance with FAS 52, Foreign Currency Translation and since the functional currency changed from a foreign currency to the reporting currency, U.S. dollars, the translation adjustments as of March 31, 2005, prior to the change have not been removed from equity and the translated amounts for non monetary assets as of March 31, 2005, prior to the change became the accounting basis for those assets in the periods starting April 1, 2005.

Discontinued operations

On December 31, 2005, we sold our Communications related property and equipment, goodwill, technology, trade name, existing distribution channels and related contingent liability to the Office of the Chief Scientist to IP Gear Ltd., a wholly owned subsidiary of Qualmax.

The results of operations, including revenues, cost of revenues, operating expenses, and other income and expenses of the discontinued operations have been reclassified in the statements of operations as discontinued operations. The Company's balance sheet reflects the net assets and liabilities of the discontinued operations as assets and liabilities related to discontinued operations.

- 32 -

5A. Results of Operations

Comparison of 2006 and 2005

Revenues of 2006 were \$20,917,000 compared to \$24,099,000 in 2005. Revenues of the Supply-Chain segment decreased from \$20,203,000 in year 2005 to \$18,859,000 in year 2006 as a result of our strategic decision to move out of the Far East market due to increased competition. As a result, 2006 revenues to the Far East were reduced by \$4,100,000 as compared to year 2005.

Revenues of Software solutions segment decreased from \$3,926,009 in year 2005 to \$2,058,000 in year 2006 as a result of continued weakness in the sales of BOSâNOVA Suite Solution to IBM System i environment. We have begun to expand our range of software solutions to include generic, platform independent software that is no longer solely based on the IBM System i environment. Our first product, Safe-T, was launched in May 2007. In the coming months we intend to expand our BOSâNOVA Mobile to support Blackberry devices and UNIX environment, as well. In addition, 2005 revenues included revenues of \$864,000 attributed to non profitable product lines that were sold during that year. Excluding the effect of the revenues attributed to the Far East and to the sold product lines, 2006 revenues reflect a 10% increase over the revenues of 2005.

Gross profit for 2006 was \$4,717,000 (gross margin of 23%) compared to \$6,245,000 (gross margin of 26%) for 2005. The decrease in gross margin results from a decrease in the revenues of the Software Solutions segment which has a relatively high gross margin. Software Solutions revenues decreased from \$3,926,000 (gross margin of 62%) in year 2005 to \$2,058,000 (gross margin of 65%) in 2006. Our future gross margins may be lower than what we experienced during 2006 in case the portion of the Software segment revenues as compared to the Supply-Chain revenues continues to decrease.

Research and development expenses for 2006 were \$486,000 compared to \$893,000 for 2005. The decrease in research and development expenses results from the sale of the Software Utilities product line during 2005, with respect to which research and development expenses in 2005 were \$378,000.

Selling and marketing expenses for 2006 were \$2,019,000 compared to \$2,425,000 in 2005. The decrease in selling and marketing expenses results primarily from the sale of the Software Utilities product line during 2005, with respect to which selling and marketing expenses in the year 2005 were \$226,000.

General and administrative expenses for 2006 were \$3,268,000 compared to \$2,667,000 in the year 2005. General and administrative expenses for 2006 includes shares based compensation cost in the amount of \$727,000 compared to \$348,000 in 2005.

As a result of the above, operating loss in year 2006 amounted to \$1,056,000 compared to operating income of \$260,000 in year 2005. Operating loss of the Software Solutions segment amounted to \$35,000 in year 2006 compared to an operating profit of \$235,000 in year 2005. Operating loss of the Supply-Chain segment amounted to \$64,000 in year 2006 compared to an operating profit of \$727,000 in year 2005.

Financial expenses for 2006 were \$626,000 compared to \$448,000 in 2005. The increase is attributed mainly to the sale of an additional convertible note in principal amount of \$1,500,000 to Laurus Master Fund Ltd. (Laurus) in August 2006.

Tax benefit in 2006 amounted to \$89,000 compared to taxes on income of \$204,000 in 2005. The tax benefit and tax on income are related to the taxable income of our subsidiary, Odem.

Equity losses of an affiliated company in 2005, refers to our investment in Surf. In September 2005, Surf completed a private placement that diluted the Company's holdings to 8.7% of Surf's issued and outstanding share capital. As a result, the Company ceased to have the ability to exercise significant influence over Surf and, accordingly, the adjusted carrying amount of the investment is accounted for based on the cost accounting method.

In June 2006, as part of an investment round, the Company invested \$300,000 in Surf, following which it holds 7.8% of Surf's issued and outstanding share capital as of December 31, 2006.

Minority interest in earnings of a subsidiary in 2005 refers to the Company's investment in Odem, which as of November 1, 2005, became a wholly-owned subsidiary of the Company.

Loss from continuing operations in 2006 amounted to \$1,593,000 compared to a loss of \$2,010,000 in 2005. On a per share basis, the basic and diluted loss per share from continuing operations in 2006 was \$0.24, compared to \$0.36 in 2005.

Income (loss) from discontinued operations is attributed to the operational results of the Communication segment that was sold in 2005. On a per share basis, the basic and diluted earning per share from discontinuing operations in 2006 was \$0.25, compared to loss \$0.28 in 2005.

Basic and diluted net earning per share in 2006 was \$0.01, compared to net loss of \$0.64 in 2005.

Comparison of 2005 and 2004

Revenues for 2005 were \$24,099,000 compared with \$6,919,000 in 2004, a 248% increase, which is mainly due to the consolidation, starting from November 18, 2004, of the results of operation of Odem (related to the Supply-Chain segment).

The Supply-Chain segment accounted for \$20,253,000 (or 84% of our consolidated revenues) in 2005, out of which the sales to the Far East accounted for \$6,083,000 (or 25% of our consolidated revenues in 2005). In the second half of 2005 we began to implement our strategic decision to move out of the Far East market, and focus on expanding our presence in the Western markets. This resulted in a decrease in the sales to the Far East, which was partially offset by growth in local sales.

The Software Solutions segment accounted for \$3,926,000 (or 16% of our consolidated revenues) in 2005. These revenues include \$864,000 related to the Software Utilities product line product line that was sold during 2005 and Thin Client product line that was closed at the beginning of 2005. Gross profit in 2005 totaled \$6,245,000 representing 26% of revenues, compared with \$3,260,000, constituting 47% of revenues in 2004. The major reason for the decrease in the gross margin was the consolidation, starting from November 18, 2004, of the results of operation of Odem whose gross profit represents 19% of revenues (see also Note 18 of the Consolidated Financial Statements).

Net research and development costs in 2005 amounted to \$893,000 compared to \$669,000 in 2004. The increase was attributed mainly to research and development costs in 2005, related mainly to our Software Utilities product line.

Sales and marketing expenses increased to \$2,425,000 compared to \$1,015,000 in 2004, mainly due to the consolidation, starting from November 18, 2004, of the results of operation of Odem.

General and administrative expenses increased to \$2,667,000 in 2005 from \$1,271,000 in 2004, mainly due to the consolidation, starting from November 18, 2004, of the results of operation of Odem.

As a result of the foregoing, our operating income in 2005 was \$260,000 compared to an operating income of \$305,000 in 2004.

Financial expenses amounted to \$448,000 in 2005 compared with expenses of \$158,000 in 2004. The major reason for the increase from 2004 was related to the convertible note (see also Note 13 to the Consolidated Financial Statements) and to the consolidation, starting from November

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

18, 2004, of the results of operation of Odem whose bank loans as of December 31, 2005 amounted to \$2,316,000.

Other income for 2005 includes capital gains of \$355,000 related mainly to the sale of the Software Utilities product line during year 2005.

Taxes on income increased to \$204,000 in 2005 from \$20,000 in 2004 as result of the consolidation, starting from November 18, 2004, of the results of operation of Odem which has a taxable income.

Equity in losses of an affiliated company, Surf Communication Solutions Ltd., amounted to \$1,750,000 in the 2005 as compared to \$308,000 in 2004. The equity loss in 2005 includes an impairment of \$1,385,000 of the investment in Surf. As of December 2005 our investment in Surf amounted to \$722,000.

Minority interest in the earnings of a subsidiary (Odem) amounted to \$223,000 in 2005 as compared to \$17,000 in 2004. In November 2005 the Company increased its holding in Odem to 100%.

As a result, net loss from the continuing operations for 2005 amounted to \$2,010,000 compared to loss of \$198,000 in 2004. On a per share basis, the net loss from the continuing operations in 2005 was \$0.36 per share compared with a -\$0.04 net loss per share in 2004. (For details regarding computation of net loss per share, see Note 17b to the Consolidated Financial Statements).

The total net loss for 2005 was \$3,605,000, compared with loss of \$2,053,000 in 2004. On a per share basis, the net loss in 2005 was \$0.64 per share compared with a \$0.441 net loss per share in 2004.

Variability of Quarterly Operating Results

Our revenues and profitability may vary in any given year, and from quarter to quarter, depending on the number of products sold. In addition, due to potential competition, uncertain market acceptance and other factors, we may be required to reduce prices for our products in the future.

- 35 -

Our future results will be affected by a number of factors including our ability to:

- increase the number of products sold,
- acquire effective distribution channels and manage them,
- develop, introduce and deliver new products on a timely basis,
- anticipate accurately customer demand patterns and
- manage future inventory levels in line with anticipated demand.

These results may also be affected by currency exchange rate fluctuations and economic conditions in the geographical areas in which we operate. There can be no assurance that our historical trends will continue, or that revenues, gross profit and net income in any particular quarter will not be lower than those of the preceding quarters, including comparable quarters.

Impact of Inflation and Currency Fluctuations

The US Dollar cost of our operations in Israel is influenced by the differential between the rate of inflation in Israel and any change in the value of the NIS relative to the Dollar.

A devaluation of the NIS in relation to the US Dollar will have the effect of decreasing the costs in NIS and a converse effect in case of devaluation of the US Dollar in relation to the NIS.

A devaluation of the NIS in relation to the US Dollar will have the effect of decreasing the Dollar value of any of our assets which consist of NIS (unless such asset is linked to the Dollar). Such a devaluation would also have the effect of reducing the Dollar amount of any of our liabilities which are payable in NIS (unless such payables are linked to the Dollar). Conversely, any increase in the value of the NIS in relation to the Dollar will have the effect of increasing the Dollar value of our assets which consist of NIS (unless such asset is linked to the Dollar). Such an increase would also have the effect of increasing the Dollar amount of any of our liabilities which are payable in NIS (unless such payables are linked to the Dollar).

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

In the years ended December 31, 2006, 2005, 2004, 2003, 2002 the inflation rate in Israel as adjusted for the devaluation of the Israeli currency in relation to the Dollar was 8.1%, (4.5)% 2.8%, 5.7%, and (0.8)%, respectively. The closing representative exchange rate of the Dollar at the end of each such period, as reported by the Bank of Israel, was NIS 4.225, NIS 4.44, NIS 4.603, NIS 4.308, NIS 4.379, and NIS 4.737, respectively. As a result, the Company experienced increases in the Dollar costs of operations in Israel in 2006, 2004, 2003 and decreases in 2005, 2002 and 2001.

Effective Corporate Tax Rate

Pursuant to an amendment to the income Tax Ordinance, approved by the Israeli parliament on July 25, 2005, Israeli companies are generally subject to income tax on their taxable income at the rate of 35% for the year 2004, 34% for 2005, 31% for 2006, 29% for 2007, 27% for 2008, 26% for 2009 and 25% for year 2010 and thereafter.

- 36 -

The effective tax rate payable by a company such as ours which derives part of its income from an Approved Enterprise, may be considerably less. See Note 17b to the Consolidated Financial Statements for the year ended December 31, 2006, and Tax Benefits under the Law for the Encouragement of Capital Investments, 1959 ahead. Subject to relevant tax treaties, dividends or interest received by an Israeli corporation from subsidiaries are generally subject to tax (unless the subsidiary's income is subject to Israeli corporate tax) regardless of its status as an Approved Enterprise. Odem and Quasar Telecom operations are subject to regular income tax rates.

On January 1, 2003, a comprehensive tax reform took effect in Israel. Pursuant to the reform, resident companies are subject to Israeli tax on income accrued or derived in Israel or abroad. In addition, the concept of controlled foreign corporations was introduced, according to which an Israeli company may become subject to Israeli taxes on certain income of a non-Israeli subsidiary if the subsidiary's primary source of income is passive income (such as interest, dividends, royalties, rental income or capital gains). The tax reform also substantially changed the system of taxation of capital gains.

Grants and Participation

Under the Law for the Encouragement of Industrial Research and Development, 1984 (the Research Law), research and development programs approved by a research committee of the Office of the Chief Scientist (OCS) of Israel's Ministry of Industry, Trade and Labor, are eligible for grants in exchange for payment to the Government of royalties from the sale of products developed in accordance with the Program. In order to be eligible, the applicant must be an Israeli company that proposes to invest in the development of industrial know-how, the development of new products, the development of new processing or manufacturing procedures or the development of significant improvements to an existing process or product. A committee of the OCS reviews the applications, evaluates the feasibility of the proposal, determines whether or not to approve a grant, and also determines the extent of Chief Scientist funding (within a range specified by the law) for approved projects. Depending on the nature of the project, the OCS grants generally amount up to 50% of the approved research expenses.

Under the terms of the grants we received from the OCS, we are obligated to pay royalties of 3.5% on sales of products incorporating know-how developed within the framework of each funded program or derived therefrom (including ancillary services in connection therewith), up to an aggregate of 100% of the dollar-linked value of the total grants received. Royalties payable with respect to grants received under programs approved by the OCS after January 1, 1999, are subject to interest on the U.S. dollar-linked value of the total grants received at the annual rate of LIBOR applicable to U.S. dollar deposits at the date the grants received.

The Research Law requires that the manufacture of any product developed as a result of research and development funded by the Israeli Government take place in Israel. If any of the manufacturing is performed outside of Israel, the company would ordinarily be required to pay royalties at an increased rate and to increase the aggregate repayment amount to between 120% and 300% of the grant amount, depending on the manufacturing volume that is performed outside Israel, except in special cases that receive the prior approval of the research committee, and subject to certain payments to be made to the Israeli Government (generally an amount no less than the aggregate grants plus interest less royalties paid).

The Research Law also provides that know-how from the research may not be transferred to third parties in Israel without prior approval of the research committee. This approval, however, is not required for the sale or export of any products resulting from such research and development. Approval of such transfer of know-how may be granted in specific circumstances, only if the recipient abides by the provisions of the Research Law and related regulations, including the restrictions on the transfer of know-how and the obligation to pay royalties in an amount that may be increased. The Research Law further provides that the know-how developed under an approved research and development program may not be transferred to any third parties outside Israel.

- 37 -

The Research Law imposes reporting requirements with respect to certain changes in the ownership of a grant recipient. The law requires the grant recipient and its controlling shareholders and interested parties to notify the Office of the Chief Scientist of any change in control of the recipient or a change in the holdings of the significant stockholders of the recipient that results in a non-Israeli becoming an interested party directly in the recipient and requires the new interested party to undertake to the Office of the Chief Scientist to comply with the Research Law. In addition, the rules of the Office of the Chief Scientist may require prior approval of the Office of the Chief Scientist or additional information or representations in respect of certain of such events.

The funds available for Office of the Chief Scientist grants out of the annual budget of the State of Israel have been reduced, and the Israeli authorities have indicated that the government may further reduce or abolish Office of the Chief Scientist grants in the future.

We recognized grants in the amount of \$27,000 in 2006, \$296,000 in 2005 and \$492,000 in 2004.

As of December 31, 2006, the Company has an outstanding contingent obligation to pay royalties in respect of OCS grants, in the amount of approximately \$3,430,000, compared to \$3,500,000 as of December 31, 2005.

We are committed to paying royalties to the Fund for the Encouragement of Exports for its participation, by way of grants, in our marketing expenses outside of Israel. Royalties payable are 3% of the growth in exports, from the year we received the grant, up to 100% of the dollar-linked amount of the grant received at the date the grants received. As of December 31, 2006, the Company has an outstanding contingent obligation to pay royalties of \$89,000 with respect to these grants, compared to \$110,000 on December 31, 2005.

Conditions in Israel

We are incorporated under the laws of Israel. Our offices and product development and manufacturing facilities are located in Israel. As a consequence, we are directly affected by political, economic and military conditions in Israel. Our operations would be substantially impaired if major hostilities involving Israel should occur or if trade between Israel and its present trading partners should be curtailed. See also Risk Factors .

Political and Economic Conditions

Since the establishment of the State of Israel in 1948, a number of armed conflicts have taken place between Israel and its Arab neighbors and a state of hostility, varying from time to time in intensity and degree, has led to security and economic problems for Israel. A peace agreement between Israel and Egypt was signed in 1979. However, economic relations have been limited. A peace agreement between Israel and Jordan was signed in 1994. However, as of the date hereof, Israel has not entered into any peace agreement with Syria or Lebanon. No prediction can be made as to whether any other written agreements will be entered into between Israel and its neighboring countries, whether a final resolution of the area's problems will be achieved, the nature of any such resolution or whether civil unrest will resume and to what extent such unrest would have an adverse impact on Israel's economic development or on our operations in the future.

- 38 -

There is substantial uncertainty about how or whether any peace process will develop or what effect it may have upon us. Since October 2000, there has been a substantial deterioration in the relationship between Israel and the Palestinians which has resulted in increased violence. The future effect of this deterioration and violence on the Israeli economy and our operations is unclear. In July 2006, Israel became involved in a major military conflict with the Hizbullah organization in Lebanon, which subjected the north of Israel to missile attacks. Certain of our facilities are located in the north of Israel near the City of Haifa. Israel's military operations required the drafting of a substantial number of reserve soldiers.

In January 2006, Hamas, an Islamic movement responsible for many attacks against Israelis, won the majority of the seats in the Parliament of the Palestinian Authority. The election of a majority of Hamas-supported candidates is expected to be a major obstacle to relations between Israel and the Palestinian Authority, as well as to the stability in the Middle East as a whole. Ongoing violence between Israel and its Arab neighbors and Palestinians may have a material adverse effect on our business, financial condition or results of operations.

Despite the limited progress towards peace between Israel, its Arab neighbors and the Palestinians, certain countries, companies and organizations continue to participate in a boycott of Israeli firms. We do not believe that the boycott has had a material adverse effect on us, but there can be no assurance that restrictive laws, policies or practices directed towards Israel or Israeli businesses will not have an adverse impact on the expansion of our business.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

Some of our employees are obligated to perform annual reserve duty in the Israel Defense Forces and may, at any time, be called for active military duty. While we have operated effectively under those and similar requirements in the past, no assessment can be made of the full impact of such requirements on us in the future, particularly if emergency circumstances occur.

In recent years Israel has been going through a period of recession in economic activity, resulting in low growth rates and growing unemployment. Our operations could be adversely affected if the economic conditions in Israel continue to deteriorate. In addition, due to significant economic measures proposed by the Israeli Government, there have been several general strikes and work stoppages in 2003 and 2004, affecting all banks, airports and ports. These strikes have had an adverse effect on the Israeli economy and on business, including our ability to deliver products to our customers. Following the passage by the Israeli Parliament of laws to implement the economic measures, the Israeli trade unions have threatened further strikes or work-stoppages, and these may have an adverse effect on the Israeli economy and our business.

In 1998, the Israeli currency control regulations were liberalized dramatically. As a result, Israeli citizens can generally freely purchase and sell Israeli currency and assets. The Government of Israel has periodically changed its policies in these areas. There are currently no Israeli currency control restrictions on remittances of dividends on ordinary shares or proceeds from the sale of ordinary shares; however, legislation remains in effect pursuant to which currency controls can be imposed by administrative action at any time.

The costs of our operations in Israel are generally incurred in New Israeli Shekels (NIS). If the inflation rate in Israel exceeds the rate of devaluation of the NIS against the US Dollar in any period, the costs of our Israeli operations, as measured in US Dollars, could increase. Israel's economy has, at various times in the past, experienced high rates of inflation.

- 39 -

Like many Israeli companies, we receive grants and tax benefits from the Israeli Government. We also participate in programs sponsored by the Israeli Government. The reduction or termination of any such grants, programs or tax benefits, especially those benefits available as a result of the Approved Enterprise status of certain facilities in Israel, could have a materially adverse effect on future investments by us in Israel.

5B. Liquidity and Capital Resources

We finance our activities by different means, including equity financings, short and long-term loans, and income from operating activities.

As of December 31, 2006, the Company's long and short term credit, net of convertible note issuance expenses, amounted to \$5,259,000, of which \$2,949,000 is credit from Israeli banks and the convertible notes issued to Laurus accounts for the remainder. In March, 2007 we converted \$1,400,000 in short term bank loans into long term bank loans. There are no restrictions on the use of the loans proceeds, but the Company is subject to certain limitations related mainly to financial ratios.

As of December 31, 2006 we had \$2,033,000 in cash and cash equivalents.

Net cash used in operating activities from continuing operations in 2006 was \$1,953,000 compared to \$2,257,000 in 2005.

During 2006, cash provided by investing activities from continuing operations amounted to \$631,000 as compared to \$610,000 in 2005. In both periods, the cash provided by investing activities results mainly from redemption of marketable securities.

Net cash provided by financing activities in 2006 amounted to \$1,676,000, which relates mainly to proceeds from short term bank credit and convertible notes. Net cash provided by financing activities amounted to \$4,159,000 in 2005, mainly as a result of the issuance of a Convertible Note and short term bank loans in the net amount of \$2,179,000 and proceeds from issuance of shares in the amount of \$2,090,000.

Working capital requirements will vary from time-to-time and will depend on numerous factors, including but not limited to, the operating results, scope of sales, supplier credit, the level of resources devoted to research and development, new product introductions, and marketing and acquisition activities.

We have in-balance sheet financial instruments and off-balance sheet contingent commitments. Our in-balance sheet financial instruments consist of our assets and liabilities. Our cash is invested in short-term (less than 3 months) U.S. dollars and NIS interest bearing deposits with banks. As of December 31, 2006, our average trade receivables and trade payables aging days are 74 and 51 days, respectively. The fair value of our financial instruments is similar to their book value. Our off-balance sheet contingent commitments consist of: (a) royalty commitments that are directly related to our future revenues, (b) lease commitments of our premises and vehicles, (c) directors and officers' indemnities, in excess

of the proceeds received from liability insurance which we obtain, and (d) legal proceedings.

- 40 -

We believe that our cash resources are sufficient to meet our operating needs for at least the next 12 months. In April 2007, the Company completed a rights offering in which it raised gross proceeds of approximately \$4.4 million. In the rights offering, the Company offered its shareholders rights to purchase its ordinary shares at a subscription price of \$2.50 per ordinary share. It is our intention to seek to raise additional equity and debt financings, to fund additional product development, establish distribution channels in new markets and for new merger and acquisition opportunities. There is, however, no assurance that we shall be able to obtain such financing.

Laurus Convertible Note Financings

On June 10, 2004 the Company entered into a Securities Purchase Agreement with Laurus, under which the Company issued and sold to Laurus in a private placement (i) a Secured Convertible Term Note of a \$2 million principal amount, due June 10, 2007 and (ii) a Warrant to purchase 130,000 Ordinary Shares at an exercise price of \$4.04 per share. The Warrant is exercisable, in whole or in part, until June 10, 2011. The Note bore interest at a fluctuating interest rate equal at all times to the WSJ prime rate plus 3%, subject to reduction in any particular month, if the average closing price of our ordinary Shares for any five consecutive trading days, exceeds the conversion price by at least 25%. The proceeds from the private placement were used for general working capital purposes and/or mergers and acquisitions.

The Note was convertible into Ordinary Shares at a price of \$3.08 per share. The note provided that if the Company issues stock in certain types of transactions at a price lower than the initial conversion price, then the conversion price will be adjusted to a lower price based on a weighted average formula. As a result of the price per share in the private placement offering described below (that closed on June 30, 2005), the conversion price of the convertible note was reduced to \$2.9042. The note was secured by a first priority floating charge on all of the Company's assets and by a first priority fixed charge on all of the Company's right, title and interest in its wholly-owned subsidiary, BOScom Ltd.

The principal amount of the Note was repayable in monthly installments, commencing as of October 1, 2004, in the initial amount of \$20,000 eventually increasing to \$73,600, and the note provided that it may be paid in cash or, subject to certain conditions, in ordinary Shares. Interest on the Note was payable monthly and the note provided that it may be paid in cash or, subject to certain conditions, in Ordinary Shares. Furthermore, each month, Laurus could have elected to convert all or a portion of the convertible note monthly payments (comprised of principal amortization and interest) into ordinary shares. The conversion of the note and exercise of the warrants are limited by certain restrictions. In any event, the number of ordinary shares issuable under the note and/or the warrants shall not exceed an aggregate of 833,085 ordinary shares (subject to certain adjustments). On March 23, 2005, after Laurus elected to convert \$308,000 of the principal sum of the convertible note, Laurus was issued 100,000 ordinary shares of the Company. On July 14, 2005, Laurus completed the conversion of the balance of the principal, which had not been previously converted or repaid, and the accrued interest, into an additional 540,293 ordinary shares, for approximately \$1.58 million.

Pursuant to its undertaking in the Registration Rights agreement with Laurus the Company filed with the Securities and Exchange Commission a registration statement on Form F-3 covering the resale of Ordinary Shares that were issued upon conversion of the Note and that shall be issued upon exercise of the Warrants. The Registration Rights agreement provided that any delay in registration and/or effectiveness of the underlying shares of the transaction, or failure to maintain their effectiveness, will result in penalties to be paid in cash, as liquidated damages. The registration statement became effective on March 11, 2005. Due to the delay in the effectiveness of the registration of the shares, we paid Laurus liquidated damages until March 11, 2005, in the amount of \$92,000.

- 41 -

On September 29, 2005, the Company entered into a Second Securities Purchase Agreement with Laurus, under which the Company issued to Laurus in a private placement (i) a Secured Convertible Term Note of a \$1.5 million principal amount, due September 2008, and (ii) a Warrant to purchase 73,052 ordinary shares at an exercise price of \$4.04 per share. The Note is convertible into ordinary shares at a price of \$3.08 per share. As a result of the price per share in the rights offering described below (that was completed on April 16, 2007), the conversion price of the convertible note was reduced to \$2.97 per share. The principal amount of the Note is repayable in monthly installments, commencing as of January 2006, in the initial amount of \$15,000 eventually increasing to \$55,200. The Note bears interest at a fluctuating interest rate equal at all times to the WSJ prime rate plus 1.5% which is subject to reduction under certain conditions. The interest on the note is payable in monthly installments, together with the principal monthly repayment. The principal amount and the interest accrued may be paid, subject to certain conditions, in ordinary shares. Each month, Laurus may elect to convert all or a portion of the convertible note monthly payments (comprised of principal amortization and interest) into ordinary shares. If the market price of the ordinary shares at the time of payment is at least 10% greater than the conversion price per ordinary share, the monthly payment shall be made in the form of ordinary shares.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

The Warrant is exercisable, in whole or in part, until September 29, 2012, and payment of the exercise price may be made either in cash or in a cashless exercise (or in a combination of both methods). The warrant exercise price is also subject to proportional adjustment in the event of combinations, subdivisions of the ordinary shares or if dividend is paid on the ordinary shares in ordinary shares.

Pursuant to its undertaking in the Registration Rights Agreement with Laurus, the Company filed with the Securities and Exchange Commission a registration statement on Form F-3 covering the resale of ordinary shares that are issuable upon conversion of the Note and/or exercise of the Warrants, and/or issuable in payment of principal and interest on the Note. The Registration Rights Agreement provided that any delay in registration and/or effectiveness of the underlying shares of the transaction, or failure to maintain their effectiveness, will result in penalties to be paid in cash, as liquidated damages. The registration statement became effective on February 8, 2006, and no penalties were incurred.

On August 16, 2006 the Company entered into and closed an additional financing transaction with Laurus. The financing consisted of a \$1.5 million Secured Convertible Term Note with a term of three years. In addition, BOS granted to Laurus a Warrant to purchase up to 73,052 Ordinary Shares, which is exercisable, in whole or in part, until August 16, 2013 at an exercise price of \$4.04 per share for the first 24,351 Ordinary Shares acquirable thereunder, and of \$5.30 per share for the additional 48,701 acquirable thereunder.

The Note bears interest at a fluctuating interest rate, which begins at the Prime rate plus 1.5%.

The conversion rate under the Note is \$3.08 per share for the first \$500,000 of principal amount payable thereunder and \$4.08 for any additional amount payable thereunder (subject to adjustment). As a result of the price per share in the rights offering described below (that was completed on April 16, 2007), the \$3.08 conversion rate was reduced to \$2.97 and the \$4.08 conversion rate was reduced to \$3.78. The principal amount of the Note is repayable in monthly installments commencing as of December 1, 2006, and may be paid in cash or, subject to certain conditions, in Ordinary Shares. Interest on the Note is payable monthly and may be paid in cash or, subject to certain conditions, in Ordinary Shares. The Note is secured by a security interest in certain assets of the Company. The proceeds from the private placement were to be used for general working capital purposes and/or mergers and acquisitions.

- 42 -

The Company also entered into a Registration Rights agreement with Laurus pursuant to which the Company agreed to prepare and file with the Securities and Exchange Commission a registration statement covering the resale of Ordinary Shares that are issuable upon conversion of the Note and/or exercise of the Warrants, and/or issuable in payment of principal and interest on the Note. The Registration Rights Agreement provided that any delay in registration and/or effectiveness of the underlying shares of the transaction, or failure to maintain their effectiveness, will result in penalties to be paid in cash, as liquidated damages. The registration statement became effective on December 5, 2006, and no penalties were incurred.

In the case of both the Note issued in September 2005 and the Note issued in August 2005, the following provisions apply:

- (a) The Note conversion price is subject to proportional adjustment in the event of stock splits, combinations, subdivisions of the ordinary shares or if dividend is paid on the ordinary shares in ordinary shares. In addition, if the Company issues stock in certain types of transactions at a price lower than the initial conversion price, then the conversion price will be adjusted to a lower price based on a weighted average formula;
- (b) The Note is secured by a first priority floating charge on all of the Company's assets and by a first priority fixed charge on all of the Company's right, title and interest in its wholly-owned subsidiaries, BOScom Ltd. and Quasar Telecom (2004) Ltd.; and
- (c) Conversion of the Note and exercise of the Warrants are limited such that at no time shall the Note be convertible (or the Warrants be exercised) into that number of ordinary shares which, when added to the number of ordinary shares otherwise beneficially owned by Laurus, exceed (i) 4.99% of the Company's outstanding ordinary shares, or (ii) 25% of the aggregate dollar trading volume of the ordinary shares for the 30-day trading period immediately preceding the conversion or exercise notice. These limitations expire, however, in an event of default under the Note or with 75 days prior notice by Laurus, provided that in no time shall Laurus' beneficial ownership of ordinary shares exceed 19.9% of our ordinary shares. In addition, the number of ordinary shares issuable under the September 2005 Note, the August 2006 Note and the related Warrants shall not exceed an aggregate of 1,270,720 ordinary shares.

2005 Private Placement

On May 24, 2005 the Company entered into a Share Purchase Agreement, under which the Company issued and sold to certain Israeli and European investors, in a private placement offering, 953,698 Ordinary Shares at a price of \$2.30 per share for a consideration of approximately \$2,040,000 (net of issuance expenses amounted to \$154,000), and 572,219 warrants to purchase Ordinary Shares reflecting a 60% warrant coverage, exercisable for three years from their date of issuance. The exercise price under the warrants is \$2.50 per Ordinary Share during for the first year from the issuance, and increasing to \$2.75 per Ordinary Share and \$3.03 per Ordinary Share, on the first and second anniversaries

of the issuance, respectively. The principal investor is the Catalyst Fund L.P., the Company's largest shareholder, that invested \$793,500 and as a result, immediately after the closing of the transaction on June 30, 2005, held 22.31% of the Company's outstanding share capital post-transaction. The Company also entered into a Registration Rights Agreement pursuant to which it agreed to prepare and file with the Securities and Exchange Commission a registration statement covering the resale of the Ordinary Shares issued to the investors. Such a registration statement was filed and became effective on February 8, 2006.

- 43 -

Rights Offering

In April 2007 the Company completed a rights offering in which it raised gross proceeds of approximately \$4.4 million. In the rights offering, the Company offered its shareholders rights to purchase its ordinary shares at a subscription price of \$2.50 per ordinary share. The rights were traded for one day on both the Nasdaq Global Market and the Tel-Aviv Stock Exchange. The offering ended on April 16, 2007.

5C. Research and Development

We believe that our future growth will depend upon our ability to enhance our existing products and introduce new products on a timely basis. Since we commenced operations, we have conducted extensive research and development activities.

Our research and development efforts have been focused on Communication Solutions (until sold in December 2005) and on Software Solutions. We intend to finance our research and development activities with our own resources and through funds from the Office of Chief Scientist (OCS) of Israel's Ministry of Industry, Trade and Labor.

5D. Trend Information

Commencing the second half of year 2003 we completed the transfer of sales and marketing activities of Software solutions from our subsidiaries abroad to distributors and resellers. This trend is continuing with respect to the Software segment by increasing the number of distributors and resellers in order to deepen our penetration in existing markets such as the Western markets.

In the Software Solutions segment, the trend of customer immigration from IBM iSeries to different systems has continued. In response we continue to expand our range of software solutions to include generic, platform independent software that is no longer solely based on the IBM System i environment, in order to diversify our Software Solutions segment offerings. As we execute our strategy to diversify of Software Solutions line of products, our research and development expenses are expected to increase.

In the second half of year 2005 and during the first half of year 2006, Odem faced a trend of decrease in its sales to the Far East, which is partially offset by growth in local sales. This trend has an impact on the growth of our revenues and on our working capital, inter alia due to the fact that the credit days offered to local Israeli customers are higher than those for customers in the Far East.

Our gross margin in year 2006 was lower than what we experienced during year 2005 as a result of a decrease in the proportion of revenues generated by Software solutions that carried a gross margin of 65%, to revenues of the Supply-Chain solution that carried gross margins of 18% in the year 2006.

- 44 -

5E. Off-Balance Sheet Arrangements

In 1998, as part of the PacInfo Share Purchase Agreement between the Company and PacInfo's former owners (the Sellers), the Company may be obligated to grant the Sellers a loan on a full recourse basis for certain tax payments the Sellers may be liable for, and reimburse the Sellers for certain interest on taxes that they may owe, currently estimated at approximately \$ 2 million.

In September 2004 Odem signed a long term sale agreement for the supply of electronic components (components). The agreement provides for a fixed sales price of the components during the term of the agreement thru December 2008. Absent the flexibility to increase our prices as a

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

result of increased costs of the components, significant increased costs may adversely impact our financial results. In addition, under the agreement, we are obligated to hold inventory of products necessary for three months of the customer's production. This requires us to incur the costs of purchasing inventory without having an outstanding purchase order for the products. If we are unable to sell products that are purchased to hold in inventory, we may incur write offs and write downs as a result of slow moving items, technological obsolescence, excess inventories, discontinued products and products with market prices lower than cost. Such write offs and write downs could adversely affect our operating results and financial condition. As of December 31, 2006 we had no write down of write off of inventory that related to this agreement.

5F. Tabular Disclosure of Contractual Obligations

The following table of our material contractual obligations as of December 31, 2006, summarizes the aggregate effect that these obligations are expected to have on our cash flows in the periods indicated:

	Payment due by period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long-term loans (1)	2,592,000	1,122,000	1,470,000	-	-
Accrued severance pay (2)	916,000	139,655	-	-	776,345
Other long term liabilities	237,000				237,000
Other liabilities reflected on our Balance Sheet (3)	8,234,000	8,234,000	-	-	-
Operating lease - cars	353,481	203,850	149,631	-	-
Purchase obligation for service and inventory	4,219,594	4,219,594	-	-	-
Facilities lease	215,379	88,816	126,563	-	-
Total	\$ 16,767,454	\$ 14,007,915	\$ 1,746,194	-	\$ 1,013,345

- 45 -

- (1) Does not include discount of \$264,000 that related to the convertible note (see note 13 of the Consolidated Financial Statements).
- (2) This amount reflects our accrued severance pay liability. Out of this amount, \$741,000 has been previously funded by our contributions to employee plans. During the first quarter of year 2007, \$139,655 were paid to employees. The time payment of the rest of accrued severance liability in the amount of \$776,345, cannot be predicted and, as a result, this amount is presented in the more than 5 years column.
- (3) This amount reflects the trade payables, employees and payroll accruals, deferred revenues, accrued expenses and other liabilities presented in our balance sheet.

In addition, the above table does not include (i) contingent obligations to pay royalties to the Office of the Chief Scientist and to the Overseas Marketing Fund since the total amount to be paid under the terms of those agreements is a function of future sales, and (ii) contingent legal claims (see note 15 of the Consolidated Financial Statements).

Item 6: Directors, Senior Management and Employees

6A. Directors and Senior Management

Set forth below is information regarding our directors and senior management.

Name	Age	Position
Mr. Edouard Cukierman ¹	42	Chairman of the Board of Directors
Mr. Shmuel Koren	37	President and Chief Executive Officer
Mr. Eyal Cohen	38	Chief Financial Officer
Mr. Joel Adler	53	Director
Mr. Avishai Gluck	35	Director
Mr. Andrea Mandel-Mantello	48	Director
Mr. Ronen Zavlik	46	Director
Mr. Jean-Marc Bally	36	Director
Dr. Yael Ilan	58	External Director
Prof. Adi Raveh	59	External Director
Mr. Avidan Zelicovsky ¹	37	Odem's CEO, Head of RFID & Supply-Chain Segment
Mr. Shai Sadeh	53	Senior VP, Software Solutions Segment
Ms. Sari Ellenberg	49	VP, Resources

Mr. Edouard Cukierman has been a director since May 2003, and Chairman of the Company since June 2003. Mr. Cukierman is the founder and CEO of Catalyst Investments and Chairman of Cukierman & Co. Investment House. Since 1993, Cukierman & Co., Investment House realized 1.7 Billion of Corporate Finance transactions. Mr. Cukierman is a former Board member of Orex, MTI Wireless and other technology companies. He was the President and CEO of the Astra Fund. He served as a Board member of Otto Capital, a Singapore based VC fund. He was the former President of the Supervisory Board of Citec-Environment and Services in Paris. He is currently a Board member of Lamina Technologies in Switzerland. He is also on the Board of Sar-El, an Israeli Defense Forces volunteer organization. He serves as an Officer of the IDF Spokesman Unit, and is part of the Hostage & Crisis Negotiation Team (Reserves). Mr. Cukierman holds an MBA from INSEAD, Fontainebleau, France and a B.Sc from the Technion Israel Institute of Technology.

¹ Mr. Cukierman and Mr. Zelicovsky are first cousins. There are no other family relationships among the officers and directors.

- 46 -

Mr. Shmuel Koren has been serving as the Company's President and CEO Since November 2006. From 1999 to 2006 Mr. Koren served as the Chief Financial Officer of Visonic Ltd. (LSE: VSC.L; TASE: VSC.TA). Prior to joining Visonic, Mr. Koren worked at Oren and Horowitz (an Israeli CPA firm), where he served for five years as a senior manager specializing in public companies and Israeli IPOs. Mr. Koren is a certified public accountant in Israel. He holds a B.A. degree in Business and Accounting from the Tel Aviv College of Business, an International M.B.A degree from the Herriot-Watt University Business School and a Masters degree in Law (LL.M.) from Bar Ilan University.

Mr. Eyal Cohen was appointed the Company's Chief Financial Officer on January, 2007. From 2004 through 2006 Mr. Cohen served as the Company's controller, and prior to that held the position of Chief Financial Officer at Cellact Ltd. From 1998 to 2001, Mr. Cohen was the controller of e-SIM Ltd. (NASDAQ:ESIMF) and in the years 1995-1997 held an audit manager position in PricewaterhouseCoopers. Mr. Cohen holds a B.A. in Accounting and Business Administration from the College of Management in Tel-Aviv and is a certified public accountant in Israel and in the United States, in the state of Maine.

Mr. Joel Adler has been a director since June 2005. Mr. Adler is a partner in Mishcon de Reya a leading law firm in London. He specializes in mergers & acquisitions and corporate finance work, in particular international corporate transactions. Joel advises a number of major Israel based companies on their business activities in the UK and Europe and on IPO of foreign companies on the London Stock Exchange (AIM). Mr. Adler joined Mishcon de Reya as a partner in 2006, from the London law firm of Speechly Bircham, where he was a partner from 1999. Previously Mr. Adler was head of the corporate department of Rakisons (now part of US law firm Steptoe & Johnson). He gained his experience with other leading law firms in London Herbert Oppenheimer Nathan & Vandyck (now Denton Wilde Sapte) and DJ Freeman. He is a member of the Israeli Bar and worked for the well-known Israeli law firm Caspi & Co. for two years. Mr. Adler holds a law degree from Bar Ilan University in Israel, and an LLM from London University. He was born and educated in Vienna.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

Mr. Avishai Glück has been a director since February 2004. He serves as the Executive Vice President of Catalyst Investments. Mr. Glück has financial management, accounting and tax consultation experience, as well as extensive knowledge of the Israeli high tech market, having screened hundreds of companies for Catalyst and as a senior corporate consultant at E&Y Israel. Mr. Glück currently serves as a director in Onset Technology Ltd. Prior to joining Catalyst, he held the position of Corporate Finance Consultant and accountant with Ernst & Young's Israeli affiliate Kost Forer & Gabbay, a leading Israeli CPA firm with a dominant position among Israeli technology companies. Mr. Glück has a BA from Tel-Aviv University in Accounting and Economics and is a licensed CPA.

- 47 -

Mr. Andrea Mandel-Mantello has been a director since November 2003. Mr. Mandel-Mantello is Founder and Partner of Advicorp PLC, a UK Investment Bank regulated by the UK Financial Services Authority. From 2000 to 2001 he was an advisor to a US based private equity group on business development in Israel. Prior to his work at Advicorp, Mr. Mandel-Mantello spent 9 years at SBC Warburg (now known as UBS) in London in various senior management positions including Executive Director of SBC Warburg, member of the Board of SBC Warburg Italia SIM S.p.A, and Country Head for Israel. Prior to working at SBCW Mr. Mandel-Mantello spent 2 years at Chemical Bank International Ltd. in London and 3 years at Banca Nazionale dell' Agricoltura in Rome. During his investment banking career Mr. Mandel-Mantello has pioneered several financial instruments in Italy including securitizations, equity linked products and high yield bonds. He is currently on the boards of Telit Plc (telecom equipment) listed on AIM; Coraline S.p.A., a company set up to acquire the business of Frette S.p.A. (luxury homeware products); and Moto S.p.A., a joint venture between Cremonini S.p.A. and Compass Group Plc (motorway restaurants). He holds a Bachelors degree in Economics and Political Science from Yale University.

Mr. Ronen Zavlik has been a director since May 2003. He is a partner in the CPA firm of Grinberg-Zavlik, which he founded in 1987. His firm provides a wide range of audit, tax consultancy and CFO services to a wide variety of companies. Mr. Zavlik provides internal auditing services to a number of large companies whose shares are traded on the Tel Aviv Stock Exchange, including Mariv Holdings Ltd, Extra Plastic Ltd., Israel Land Development Malls and Shopping Centers Ltd., Rapid Vision Ltd., and Optima Management and Investments 66 Ltd. Mr. Zavlik holds a B.A. in Accountancy and Business Management from the College of Management in Tel-Aviv. Mr. Zavlik is a licensed CPA in Israel and a member of the Institute of Certified Public Accountants in Israel.

Mr. Jean-Marc Bally was elected to the Board in May 2006. Since March 2006 he has been serving as the General Partner & Managing Director of Schneider Electric Ventures, a venture capital company with 50 Millions under management. Previously, Mr. Bally was an Investment Partner at Schneider Electric Ventures for 5 years where he was responsible for communications and IT industries investments across Europe focusing in particular on microtechnologies and electronics. Mr. Bally currently serves as a director in Ixiasoft Inc. (Canada), ConnectBlue ab (Sweden), Tracetel SA (France) and HBA SA (France) and holds an observer position in Microbridge Technologies Inc. (Canada), Netasq SA (France) and Tronic's Microsystems SA (France). Prior to his engagement with Schneider Electric Ventures, Mr. Bally spent 5 years in Corporate Finance in Schneider Electric SA. Mr. Bally holds a Masters (License) degree in Mathematics from Blaise Pascal University Clermont-Ferrand, an additional Masters degree in Business Management from Grenoble Graduate School of Business, and an executive education from INSEAD.

Dr. Yael Ilan has been an external director since November 2002. Dr. Ilan is the president of Yedatel Ltd., an economic consulting company, and serves as a director of CI Systems in the technology sector. Until 1998 she served on the board of Bezeq Israel's Telecommunication Company in which she headed the committee of technological policy and infrastructure and was a member of the audit committee and the committee for strategic planning and investment. From 1998 through 2000 she served as an external director of Elron Industries. In 2000-01 she founded and managed Optichrom, an optical component start-up. From 1995 through 2000 Dr. Ilan served as the head of program of the Broad Band Communication, a consortium of MAGNET - the Israeli Government hi-tech cooperation initiative. From 2002, Dr. Ilan serves as the industrial coordinator in the Electrical Engineering Department of the Technion. Dr. Ilan holds a Ph.D. in industrial engineering from Stanford University, a Ph.D. in physical chemistry from the Hebrew University and a Masters degree in business administration from the Hebrew University.

- 48 -

Prof. Adi Raveh has been an external director since February 2003. Prof. Raveh is a professor and head of the B.A. Program at the School of Business Administration, Hebrew University, Jerusalem. Since 1998 he serves as an external director at Clal Insurance Company Ltd. Since 2002 he serves as the Chairman of the Board of Jerusalem Capital Markets Underwriting limited. He also serves as a director of Meitav - a Mutual Funds Management company (since 1995), and as a director of Peilim - a Portfolio Management company - part of Bank Hapoalim Group (since 1996). Since 1992 he is a director who represents the Hebrew University at Hi-Tech - a Technology Entrepreneurship located at Har-Hahotzvim, Jerusalem. Prof. Raveh also serves as a director of two start-up companies: A.D.M (Advanced Dialysis Methods Ltd.) and Virtouch Ltd. Between 1994-1999 he served as a director and a member of the executive committee of the Bank of Jerusalem, Ltd. Between 1996-1998 he served as a member of an ad-hoc committee of the Council of Higher Education. In 1999 he served as a member of the Budget

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

Committee for Research at the Israel Science Foundation. Prof. Raveh holds a Ph.D. from the Hebrew University. He is the author of about 50 professional publications, was a visiting professor at Stanford University, Columbia University and Baruch College, N.Y., and has received a number of grants and honors.

Mr. Avidan Zelicovsky is the head of the Company's RFID & Electronic Division and the CEO of the Company's subsidiary, Odem Electronic Technologies 1992 Ltd., which he first joined in 1996, as a sales engineer. Mr. Zelicovsky holds a B.A. in Business Administration from the Tel Aviv College of Management and an LL.M. from the Ben-Gurion University.

Mr. Shai Sadeh has been Senior VP, Connectivity Segment since April 2004. Previously, from 1994 to 2004 he served in several executive capacities at Sintec/Formula Group; he was the founder and CEO of Tochna Veod, a Formula Group company; Manager of IBM iSeries (AS/400) Technical Support team; and founder of the Sintec Group Professional Services Division. Mr. Sadeh has a BA in Social Sciences from Tel Aviv University and is studying towards an M.B.A at the Hebrew University in Jerusalem.

Ms. Sari Ellenberg joined the Company as VP Resources in February 2007. From March 2005 through February 2007, Mrs. Ellenberg held the position of the assistant to the CFO of Visonic Ltd. (LSE:VSC.L; VSC.T). Prior to joining Visonic, Mrs. Ellenberg worked for two years at Elbit Medical Imaging Ltd. (NasdaqGM: EMITF) where she held the position of Deputy Legal Counsel. Prior to joining Elbit, Mrs. Ellenberg was an attorney with the Israeli law firm of Efrati, Galili & Co. . Mrs. Ellenberg holds a B.A. in English Linguistics from the Tel-Aviv University, an LL.B. from the Tel-Aviv University School of Law, and an MBA from the Ono Academic College.

6B. Board and Executive Compensation

The directors who are not executive officers are paid a fee for their services as directors to the extent that such fees are approved by a general meeting of our shareholders. As resolved by the shareholders, the external directors are compensated according to the maximum rate permitted (now and in the future) by Israeli law and regulation. The current rates for companies the size of ours, are an annual fee of approximately \$6,325, and a participation fee in meetings of approximately \$328. On February 18, 2003 the shareholders approved compensation for all directors who are not employees or consultants¹, including directors appointed in the future, at the same rate the external directors of the Company are paid. Additionally, the Company's directors are granted options (see Share Ownership ahead). The Company does not have any contracts with any of its non employee/consultant directors, that would provide for benefits upon termination of service.

¹ However, on August 5, 2004 the shareholders approved an exception that Edouard Cukierman, Chairman of the Board, will receive remuneration (retroactively from the date of his nomination in May 2003) as a Board member, under the same terms as all other directors, despite his being (indirectly) a controlling shareholder and senior executive of Cukierman & Co. Investment House Ltd. (a service provider to the Company).

- 49 -

The following tables present the total compensation paid to or accrued on behalf of all of our directors and officers as a group for the year ended December 31, 2006:

	Salaries, Directors' fees, Service fees, Commissions and Bonus	Pension, Retirement and Similar benefits
All directors and officers as a group (then 16 persons)	\$ 1,732,000	\$ 114,000

Such remuneration does not include amounts expended by the Company for expenses, including business association dues and expenses reimbursed to said officers, and other fringe benefits commonly reimbursed or paid by companies in the location in which the particular executive officer of the Company is located, as the case may be.

In 2005 and in 2006, we received CFO services from Mocha Global Managerial Services Ltd., with the services provided by Mr. Nehemia Kaufman. Commencing January 2007, these services are no longer provided and the Company has appointed Mr. Eyal Cohen as its CFO. In 2005 and through October 31, 2006 we received managerial/CEO services from Signum Ltd., with the services provided by Mr. Adiv Baruch.

Mr. Baruch was replaced by Mr. Shmuel Koren on November 1, 2006. On May 30, 2007, Mr. Baruch resigned from the Company's Board of Directors. Figure also includes consulting and other fees paid to Cukierman & Co. Investment House Ltd., of which Mr. Edouard Cukierman, the Company's Chairman, is (indirectly) a controlling shareholder.

6C. Board Practices

Our Board of Directors is currently comprised of nine directors, including two external directors. The directors are elected at the annual shareholders meeting, by a simple majority, to serve until the next annual meeting of our shareholders and until their respective successors are elected and qualified, with the exception of the external directors who, by rule of the Companies Law 1999, serve for three years. Our Articles of Association provide that the number of directors in the Company (including external directors) shall be determined from time to time by the annual general meeting of shareholders, provided that it shall not be less than four nor more than eleven. Our Articles of Association provide that the directors may appoint additional directors (whether to fill a vacancy or to expand the Board) so long as the number of directors so appointed does not exceed the number of directors authorized by shareholders at the annual general meeting, and such appointees shall serve until the next annual general meeting.

The Company has determined that Messrs. Adler, Bally, Glück, Mandel-Mantello, Zavlik and Raveh and Ms. Ilan, who constitute a majority of the Board of Directors, are independent directors under the applicable Nasdaq Stock Market requirements.

- 50 -

Under the Companies Law and the regulations promulgated pursuant thereto, Israeli companies whose shares have been offered to the public in, or that are publicly traded outside of, Israel are required to appoint at least two natural persons as external directors. No person may be appointed as an external director if the person, or a relative, partner or employer of the person, or any entity under the person's control, has or had, on or within the two years preceding the date of the person's appointment to serve as an external director, any affiliation with the company to whose board the external director is proposed to be appointed or with any entity controlling or controlled by such company or by the entity controlling such company. The term affiliation includes an employment relationship, a business or professional relationship maintained on a regular basis, control and service as an office holder (which term includes a director).

In addition, no person may serve as an external director if the person's position or other business activities create, or may create, a conflict of interest with the person's responsibilities as an external director or interfere with the person's ability to serve as an external director or if the person is an employee of the Israel Securities Authority or of an Israeli stock exchange. If, at the time of election of an external director, all other directors are of the same gender, the external director to be elected must be of the other gender. The external directors must have professional qualifications to serve as a director, and at least one of the external directors must be a financial expert.

External directors are elected for a term of three years and may be re-elected for one additional three-year term. Each committee of a company's Board of Directors that has the authority to exercise powers of the Board of Directors is required to include at least one external director and its audit committee must include all external directors.

External directors are elected at the general meeting of shareholders by a simple majority, provided that the majority includes at least one-third of the shareholders who are not controlling shareholders, who are present and voting, or that the non-controlling shareholders who vote against the election hold one percent or less of the voting power of the company.

Under the Companies Law an external director cannot be dismissed from office unless: (i) the Board of Directors determines that the external director no longer meets the statutory requirements for holding the office, or that the external director is in breach of the external director's fiduciary duties and the shareholders vote, by the same majority required for the appointment, to remove the external director after the external director has been given the opportunity to present his or her position; (ii) a court determines, upon a request of a director or a shareholder, that the external director no longer meets the statutory requirements of an external director or that the external director is in breach of his or her fiduciary duties to the company; or (iii) a court determines, upon a request of the company or a director, shareholder or creditor of the company, that the external director is unable to fulfill his or her duty or has been convicted of specified crimes.

Our Articles of Association provide that a director may appoint, by written notice to us, any individual to serve as an alternate director, up to a maximum period of one month, if the alternate is not then a member of the Board. Any alternate director shall have all of the rights and obligations of the director appointing him or her and shall be subject to all of the provisions of the Articles of Association and the Companies Law. Unless the time period or scope of any such appointment is limited by the appointing director, such appointment is effective for all purposes for a period of one month, but in any event will expire upon the expiration of the appointing director's term, removal of the alternate at an annual general meeting, the bankruptcy of the alternate, the conviction of the alternate for an offense under Section 232 of the Companies Law, the legal incapacitation of the alternate, the removal of the alternate by court order or the resignation of the alternate. Currently, no

alternate directors have been appointed. A director may appoint an alternate to serve in his place as a member of a committee of the Board of Directors, even if the alternate currently serves as a director, as long as he does not already serve as a member of that committee.

- 51 -

Officers serve at the discretion of the Board or until their successors are appointed.

According to the provisions of our Articles of Association and the Companies Law, the Board of Directors convenes in accordance with the Company's requirements, and at least once every three months. In practice, the Board of Directors convenes more often. Furthermore, our Articles of Association provide that the Board of Directors may also pass resolutions without actually convening, provided that all the directors entitled to participate in the discussion and vote on a matter that is brought for resolution agree not to convene for discussion of the matter. Resolutions passed without convening, shall be passed by an ordinary majority (just as in the case of convened meetings) and shall have the same effect as resolutions passed at a duly convened meeting.

In accordance with the requirements of the Nasdaq Stock Market, commencing on July 31, 2005, nominees for directors will be recommended for selection by a majority of the independent directors.

Audit Committee:

The Companies Law requires public companies to appoint an audit committee comprised of at least three directors, including all of the external directors, and further stipulates that the chairman of the Board of Directors, any director employed by or providing other services to a company and a controlling shareholder or any relative of a controlling shareholder may not be members of the audit committee. The responsibilities of the audit committee include identifying flaws in the management of a company's business, making recommendations to the Board of Directors as to how to correct them and deciding whether to approve actions or transactions which by law require audit committee approval. An audit committee may not approve an action or transaction with a controlling shareholder or with an office holder unless at the time of approval two external directors are serving as members of the audit committee and at least one participated in the meeting at which the action or transaction was approved.

In order to comply with the Sarbanes-Oxley Act of 2002, the Board of Directors has expanded the role of the Company's Audit Committee to provide assistance to the Board of Directors in fulfilling its legal and fiduciary obligations with respect to matters involving the accounting, auditing, financial reporting and internal control functions of the Company. In carrying out these duties, the Audit Committee must meet at least once in each fiscal quarter with management at which time, among other things, it reviews, and either approves or disapproves, the financial statements of the Company for the immediately preceding fiscal quarter and conveys its conclusions in this regard to the Board of Directors. The Audit Committee also monitors generally the services provided by the Company's external auditors to ensure their independence, and reviews, and either approves or disapproves, all audit and non-audit services provided by them. The Company's external and internal auditors must also report regularly to the Audit Committee at its meetings, and the Audit Committee discusses with the Company's external auditors the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the Company's financial statements, as and when it deems it appropriate to do so.

- 52 -

Under the Sarbanes-Oxley Act of 2002, the Audit Committee is also responsible for the appointment, compensation, retention and oversight of the work of the Company's external auditors. However, under Israeli law, the appointment of external auditors requires the approval of the shareholders of the Company. Accordingly, the appointment of the external auditors is approved and recommended to the shareholders by the Audit Committee and ratified by the shareholders. Furthermore, pursuant to the Company's Articles of Association, the Board of Directors is the organ that has the authority to determine the compensation of the external auditors, however, the Board of Directors recently delegated its authority to the audit committee, so that a second discussion by the Board of Directors shall not be necessary.

The Company has determined that the members of the audit committee meet the applicable Nasdaq Stock Market and SEC independence standards.

In 2003 the Company adopted an Audit Committee Charter which sets forth the responsibilities of the committee. A copy of this charter is available on the Company's website.

Remuneration Committee:

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

The role of the Remuneration Committee is to provide assistance and make recommendations to the Board of Directors regarding matters related to the compensation of employees of the Company. The Remuneration Committee of the Company meets on an ad hoc basis, and in the past has not always been active. Under the Israeli Companies Law, generally the Remuneration Committee may only make recommendations to the Board of Directors concerning the grant of options (and in some cases, such grants may need approval of the audit committee, the Board of Directors and the shareholders as well).

Commencing July 31, 2005, in accordance with Nasdaq rules, the compensation of the Company's Chief Executive Officer and other executive officers is recommended to the Board of Directors by a majority of the independent directors on the Company's Board of Directors.

6D. Employees

As of December 31, 2006, we employed 53 employees (including employees of our subsidiaries). All of our employees are employed in Israel. Of the 53 employees, 16 employees are in administration and finance, 18 employees in marketing and sales, 5 employees in research and development, 3 employees in technical support, and 11 employees in manufacturing and related activities. As of December 31, 2005, we employed 98 employees (the decrease in the number of employees in 2006 compared to 2005, is mainly due to the sale of the Communication segment in December 31, 2005). As of December 31, 2004, we employed 93 employees. We believe that our relations with our employees are satisfactory. We have not experienced a collective labor dispute or a strike.

Israeli labor laws are applicable to all of our employees in Israel. The laws principally concern the length of the work day, minimum daily wages for professional workers, contributions to a pension fund, insurance for work-related accidents, allotment of vacation and sickness days, procedures for dismissing employees, determination of severance pay and other conditions of employment.

- 53 -

All Israeli employers, are required to provide a certain escalation of wages in relation to the increase in the Israeli Consumer Price Index. The specific formula of such escalation varies according to agreements reached between the Government of Israel, the Manufacturers Association and the Histadrut, the general labor union in Israel. The majority of our employees are covered by comprehensive life and pension insurance policies. The remainder are covered by retirement accounts. Israeli employees and employers are required to pay predetermined sums to the Israel National Insurance Institute which amounts also include, since January 1, 1995, payments for national health insurance.

6E. Share Ownership

As of May 30, 2007, out of our directors and officers, then consisting of 14 persons, shares held by our officers and directors are as follow:

Name	Position	Shares	Options
Mr. Edouard Cukierman ²	Chairman of the Board of Directors	28,090	248,876
Mr. Joel Adler ³	Director	140,965	65,217
Mr. Avidan Zelicovsky	Odem's CEO, Head of RFID & Supply-Chain Segment	73,000	398,300

As of May 30, 2007, we have granted our officers and directors options to acquire an aggregate of 1,085,637 ordinary shares under our Stock Option Plans.³ The average exercise price of these options is \$2.404 per option. Of these options, none have been exercised until now and 81,666 had vested as of May 30, 2007.

On February 18, 2003 the Company's shareholders approved the grant of 7,500 options to any future first-time director, who is not an employee or paid consultant of the Company. The terms and conditions of the grant, as approved by the shareholders, are as follows: the exercise price shall be \$1.84; the options will vest over a three year period from the date of grant (one-third vesting every year) and be exercisable within five years from the date of grant. Due to following share fluctuation, at the recommendation of the Board of Directors, the shareholders resolved on August 5, 2004, that future issuances to new directors will have an exercise price equal to the average closing price of the shares on the Nasdaq Global Market on the 20 trading days preceding their appointment.

The shareholders approved on August 5, 2004, that Edouard Cukierman, Chairman of the Board, will be granted 7,500 options under the same terms as all other directors, despite his being (indirectly) a controlling shareholder and senior executive of Cukierman & Co. Investment

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

House Ltd. (a service provider to the Company), and therefore not eligible for options according to the current shareholder resolution.

² Mr. Edouard Cukierman held 21,666 ordinary shares directly and an additional 6,424 ordinary shares through a wholly owned company, E.D.I European Development and Investments Ltd.

³ Does not include 65,217 options of Brada Investments Limited, a shareholder of the Company owned by a discretionary trust of which Mr. Joel Adler, a director of the Company, is one of the beneficiaries. Does not include 85,000 options granted to Mocha Global Managerial Services Ltd., which in 2006 provided the Company with CFO services through Mr. Nehemia Kaufman.

- 54 -

The shareholders also approved on June 29, 2005, to grant all directors of the Company (including external directors), who are not employees or consultants of the Company (or who have been granted options similar to all directors despite their employment and/or services), an additional 7,500 options to purchase ordinary shares of the Company on the third anniversary of their service as directors, under the same terms approved by the shareholders on February 18, 2003 and as amended on August 5, 2004.

On May 18, 2006 the shareholders approved to grant Mr. Edouard Cukierman, the Chairman of the Board of Directors, a bonus of 21,666 ordinary shares (for no consideration), and 233,876 options to purchase ordinary shares of the Company, pursuant to the Company's 2003 Israeli Share Option Plan, at an exercise price of \$2.68 which is equal to the average closing price of the Company's shares on the Nasdaq Global Market on the 20 trading days preceding the shareholders' meeting date at which the grant was approved (the Grant Date), to be vested in three equal parts on the first, second and third anniversary of the Grant Date, for a maximum exercise period of 3 years from the vesting date of each portion of the Grant.

In May 2007 our Audit Committee and Board of Directors approved an Active Chairman Agreement with Mr. Edouard Cukierman. Pursuant to this Agreement, in consideration for Mr. Cukierman's services as the Company's Active Chairman, he shall receive a grant of 400,000 options in four equal annual tranches. The Agreement is subject to shareholder approval. The Options' exercise price shall be equal to the weighted average of the closing prices of the Company's Ordinary Shares on the Nasdaq Global Market, during a thirty-day period preceding the date of approval of the Agreement by the Company's shareholders.

Share Option Plans

The purpose of the Share Option Plans is to enable us to attract and retain qualified persons as employees, officers, directors, consultants and advisors and to motivate such persons by providing them with an equity participation in the company. The Section 102 Plan is designed to afford qualified optionees certain tax benefits under the Israel Income Tax Ordinance. The Share Option Plans will expire 10 years after their adoption, unless terminated earlier by the Board of Directors.

The Share Option Plans are administered by the Board of Directors which has broad discretion, subject to certain limitations, to determine the persons entitled to receive options.

Under the Share Option Plans, the terms and conditions under which options are granted and the number of shares subject thereto shall be determined by the Board of Directors. The Board of Directors also has discretion to determine the nature of the consideration to be paid upon the exercise of an option under the Share Option Plans. Such consideration generally may consist of cash, or, at the discretion of the Board of Directors, cash and a recourse promissory note.

The ordinary shares acquired upon exercise of an option are subject to certain restrictions on transfer, sale or hypothecation. Options are exercisable and restrictions on disposition of shares lapse pursuant to the terms of the individual agreements under which such options were granted or shares issued.

- 55 -

Due to a tax reform in Israel, after January 1, 2003 the Company may not grant options pursuant to an old Section 102 Plan. Therefore, the Company may not grant any more options pursuant to the 2000 and 1995 Plans described below. Previous grants under these Plans remain unaffected. In any event, after the adoption of the 2003 Plan (see below), the Board of Directors resolved that no further grants shall be made from the previously adopted plans.

2003 Plan

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

In May 2003 the Company's shareholders approved the adoption of the 2003 Israeli Stock Option Plan, pursuant to which 625,000 ordinary shares were reserved for purchase by the employees, directors, consultants and service providers of the Company and its subsidiaries. Subsequently, the shareholders approved an increase of the shares reserved for issuance under the Plan, to 1 million, and then to 1.5 million. The Board of Directors has resolved that no further grants shall be made from the previous plans. The Company has elected the benefits available under the capital gains alternative. Pursuant to the election made by the Company, capital gains derived by optionees arising from the sale of shares derived from the exercise of options granted to them under Section 102, will be subject to a flat capital gains tax rate of 25% (instead of the gains being taxed as salary income at the employee's marginal tax rate). However, as a result of this election, the Company will no longer be allowed to claim as an expense for tax purposes the amounts credited to such employees as a benefit when the related capital gains tax is payable by them, as the Company was previously entitled to do. The Company may change its election from time to time, as permitted by the Tax Ordinance. There are various conditions that must be met in order to qualify for these benefits, including registration of the options in the name of a trustee (the Trustee) for each of the employees who is granted options. Each option, and any ordinary shares acquired upon the exercise of the option, must be held by the Trustee for a period commencing on the date of grant and ending no earlier than 24 months after the date of grant.

As of April 30, 2007 we had 1,393,694 options outstanding under this plan (of which 226,474 are vested) with the exercise prices as set forth below:

Exercise Price Per Share \$	Outstanding
Less than \$0.01	73,000
\$ 1.84	45,000
\$ 2.00	18,457
\$ 2.28	7,500
\$ 2.4795	7,500
\$ 2.52	627,000
\$ 2.554	7,500
\$ 2.58	67,261
\$ 2.631	7,500
\$ 2.68	428,476
\$ 2.695	22,500
\$ 3.00	72,000
\$ 3.08	10,000
Total	1,393,694

- 56 -

2001 Plan

In March 2002, the Company's shareholders approved the adoption of the 2001 Stock Option Plan, pursuant to which 250,000 ordinary shares were reserved for purchase by the Company's employees, directors, consultants or service providers, as determined by the Board of Directors or its authorized sub-committee. As of April 30, 2007, we had 84,937 options outstanding under this plan, 75,000 at an exercise price of \$4.00 per share and 9,937 at an exercise price of \$6.80 per share. All of the outstanding options had vested as of April 30, 2007.

2000 Plan

In April 2001, the Company's shareholders approved our 2000 Employees Incentive Share Option Plan, pursuant to which 112,500 ordinary shares were reserved for purchase. The plan is subject to Section 102 of the Israeli Income Tax Ordinance. As of April 30, 2007, we had 10,235 options outstanding under this plan at an exercise price of \$28.00 per share. All of the outstanding options had vested as of April 30, 2007.

1999 Plan

In November 1999, the Company's shareholders approved the adoption of the 1999 Stock Option Plan (incentive and restricted stock options). The 1999 plan has 193,750 ordinary shares reserved in its favor. As of April 30, 2007, there were no options outstanding under this plan.

1995 Plans

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

In December 1995, we adopted the following plans: (i) the Stock Option Plan (Incentive and Restricted Share Options) (the ISO/RSO Plan), which provides for the grant of incentive and restricted stock options and (ii) the Section 102 Stock Option/Stock Purchase Plan (the Section 102 Plan and together with the ISO/RSO Plan, the Share Option Plans).

The Share Option Plans provide for the grant of options to purchase up to an aggregate of 50,000 ordinary shares. April 30, 2007, we had 600 options outstanding under this plan at an exercise price of \$18.00. All of the outstanding options had vested as of April 30, 2007.

Item 7: Major Shareholders and Related Party Transactions

7A. Major Shareholders

We are not directly or indirectly owned or controlled by another corporation or by any foreign government.

The following table sets forth, as of April 30, 2007, information to the best of the Company's knowledge, as to each person known to the Company to be the beneficial owner of more than five percent (5%) of the Company's outstanding Ordinary Shares. Except where indicated, to the best of the Company's knowledge based on information provided by the owners, the beneficial owners of the Ordinary Shares listed below have sole investment and voting power with respect to those shares. Applicable percentage ownership in the following table is based on 8,492,213 shares outstanding as of April 30, 2007.

- 57 -

The voting rights of our major shareholders do not differ from the voting rights of other holders of our ordinary shares.

Catalyst Fund may be deemed to be a Controlling Shareholder of the Company, as defined under the Israeli Companies Law. Cukierman & Co. Investment House Ltd. may be deemed a controlling person of Catalyst, and is (indirectly) controlled by Mr. Edouard Cukierman, the Company's Chairman of the Board, and the Chief Executive Officer of the general managing partner of Catalyst.

Name and Address	Shares Beneficially Owned	
	Number	Percent
Catalyst Fund, LP(1)(2) 3 Daniel Frisch Street, Tel-Aviv 64731, Israel	1,675,459	19.73%
D.S Apex Holdings Ltd. 2 Kaufman St. Tel-Aviv 68012 Israel	752,979(3)	8.87%

(1) Catalyst Fund refers collectively to Catalyst Fund L.P., Catalyst Fund II L.P. and Catalyst Fund III, L.P., all of which are limited partnerships organized and existing under the laws of the State of Israel, and which share the same general partner, Catalyst Investments L.P. Mr. Edouard Cukierman may be deemed to have sole voting and dispositive power with respect to the shares held by Catalyst. Mr. Cukierman disclaims beneficial ownership in such shares, except to the extent of his proportionate interest in them as an indirect shareholder in the general partner of Catalyst Fund.

(2) Does not include 207,000 warrants to purchase Ordinary Shares of the Company.

(3) Refers to the holdings of D.S Apex Holdings Ltd. and its subsidiaries.

The changes in holdings of the major shareholders over the last three years, are detailed to the best of our knowledge in the table below:

Holdings as of:	December 31, 2004	December 31, 2005	December 31, 2006	April 30, 2007
-----------------	-------------------	-------------------	-------------------	----------------

Catalyst Fund, LP	947,275	1,292,275	1,292,275	1,675,459
Jacob and Sara Neuhof	217,532	450,135	450,135	384,243
Touareg Consulting Ltd.			541,150	411,611
D.S Apex Holdings Ltd.				752,979

- 58 -

The shareholders' holdings reflect their voting rights. The Company's major shareholders do not have different voting rights than other shareholders, with respect to their shares.

As of April 30, 2007, there were 37 record holders of ordinary shares, of which 9 were registered with addresses in the United States, representing approximately 41.2% of the outstanding ordinary shares. However, the number of record holders in the United States is not representative of the number of beneficial holders nor is it representative of where such beneficial holders are resident since many of the ordinary shares are held of record by brokers and other nominees.

7B. Related Party Transactions

Grant of Shares and Options and to Mr. Cukierman

The shareholders approved on August 5, 2004, that Edouard Cukierman, Chairman of the Board, will be granted 7,500 options at an exercise price of \$1.84 under the same terms as all other first time directors (See Share Ownership). The shareholders also approved, on June 29, 2005, to grant all directors of the Company, an additional 7,500 options to purchase ordinary shares of the Company on the third anniversary of their service as directors. Following this decision Edouard Cukierman was granted 7,500 options at an exercise price of \$2.695 (See Share Ownership).

On May 18, 2006 the shareholders approved a grant to Mr. Edouard Cukierman of 21,666 ordinary shares (for no consideration), and 233,876 options to purchase ordinary shares of the Company, pursuant to the Company's 2003 Israeli Share Option Plan, at an exercise price of \$2.68. The options' exercise price was equal to the average closing price of the Company's shares on the Nasdaq Global Market on the 20 trading days preceding the shareholders' meeting date at which the grant was approved (the Grant Date). The options vest in three equal parts on the first, second and third anniversary of the Grant Date, and expire from May 2010 through May 2012 (see Share Ownership).

In May 2007 our Audit Committee and Board of Directors approved an Active Chairman Agreement with Mr. Edouard Cukierman. Pursuant to this Agreement, in consideration for Mr. Cukierman's services as the Company's Active Chairman, he shall receive a grant of 400,000 options in four equal annual tranches. The Agreement is subject to shareholder approval. The Options' exercise price shall be equal to the weighted average of the closing prices of the Company's Ordinary Shares on the Nasdaq Global Market, during a thirty-day period preceding the date of approval of the Agreement by the Company's shareholders.

In 2003, the Company's audit committee and Board approved the engagement of Cukierman & Co. Investment House Ltd., to provide non-exclusive investment-banking services and business development services to the Company, effective April 15, 2003. Cukierman & Co. is a company indirectly controlled by Mr. Edouard Cukierman. Since June 26, 2003, he serves as Chairman of the Company's Board, and he is also a co-manager of the Catalyst Fund, the Company's largest shareholder. For its services, Cukierman & Co. is paid a monthly sum of \$10,000 plus VAT, in addition to a success fee of 4%-6% for a consummated private placement. According to its terms, the Company may terminate the agreement at any time, by giving one month prior written notice. The agreement provided that the success fees for securing M&A transactions shall be discussed and drafted as an Addendum to the Service Agreement. Such an Addendum was approved on August 22, 2004, and it provides for a success fee of 3.5% of the proceeds exchanged in such a transaction.

- 59 -

The payments the Company paid pursuant to the Service Agreement in year 2006 are:

Grant of Shares and Options and to Mr. Cukierman

Business development	\$ 120
Success fee in respect of issuance of convertible loan, investment in Odem and private placements	75
	<hr/>
	\$ 195
	<hr/>

Management Agreement with Signum Ltd.

The Company's audit committee, Board of Directors and shareholders have approved an agreement with Signum Ltd. to provide management services to the Company (exclusively through Adiv Baruch who served in the capacity of President and Chief Executive Officer of the Company), effective January 1, 2004. Mr. Adiv Baruch is one of the controlling shareholders of Signum.

Signum was entitled to a monthly gross management fee of NIS 79,698, (approximately \$18,000) plus Value Added Tax, based on a NIS US Dollar exchange rate of NIS 4.4 to 1 US Dollar, that shall be adjusted at the beginning of every calendar quarter in accordance with the NIS US Dollar exchange rate on the last day of the previous quarter.

Additionally, Signum was granted options to purchase 216,282 ordinary shares of the Company (equal to five percent (5%) of the Company's issued and outstanding share capital, on a fully diluted and as converted basis, on November 23, 2003). The options vest and become exercisable in 36 equal monthly installments (fractions shall be rounded up) at the end of each month following the date of grant and shall be exercisable at any time during a period of ten years from the date of adoption of the Company's stock option plan (i.e. until 22.5.2013). The exercise price is \$3 per ordinary share. Notwithstanding the foregoing, all options shall immediately vest and become exercisable upon (a) the occurrence of a merger, reorganization, or sale of the Company or a sale all or substantially all of the Company's shares or assets or (b) upon the termination by the Company of the management agreement other than for Cause (as defined in the agreement), provided however that no such immediate vesting shall occur in the event of termination due to failure of Adiv Baruch to reach annual goals set by the Company's Board of Directors.

Furthermore, pursuant to the agreement, Signum had pro rata preemptive rights (taking into account all of the ordinary shares as if the options had vested and Signum had exercised all such options) with regard to future issuance of securities of the Company, under certain terms and conditions.

- 60 -

On June 29, 2005, the shareholders approved the grant of 20,000 options to purchase ordinary shares of the Company under the 2003 Israeli Share Option Plan, to Signum, as a bonus for year 2004, at an exercise price of \$3.08 per share, vesting over 24 months from the date of grant in 24 equal parts, 1/24 per month, exercisable until June 2010.

On May 18, 2006, the shareholders approved (i) the grant to Mr. Adiv Baruch of 65,000 ordinary shares (for no consideration) and (ii) the grant to Signum of options to purchase 187,100 ordinary shares of the Company, pursuant to the Company's 2003 Israeli Share Option Plan, at an exercise price of \$2.68. The options' exercise price was equal to the average closing price of the Company's shares on the Nasdaq Global Market on the 20 trading days preceding the shareholders' meeting date at which the grant was approved (the Grant Date).

On September 27, 2006, Mr. Baruch notified the Board that he shall be leaving the Company at the end of 2006 at which time the Management Agreement expired. The abovementioned options granted to Signum expired as well. On May 30, 2007 Mr. Baruch resigned from the Company's Board of Directors.

Indemnity Undertakings by the Company to its Directors and Officers

On February 18, 2003, the Company's shareholders approved indemnity undertakings to its directors and officers (including future directors and officers as may be appointed from time to time), in excess of any insurance proceeds, not to exceed, in the aggregate over the years, a total amount of \$2,500,000 (two and a half million dollars). On May 18, 2006, at the recommendation of the audit committee and the Board of Directors, the shareholders approved amendments to the indemnity undertakings, in light of changes to the Companies Law.

7C. Interests of Experts and Counsel

Not applicable.

Item 8: Financial Information.

8A. Consolidated Statements and Other Financial Information

Consolidated Financial Statements

See Item 18.

Sales Outside Israel

The total amount of export revenues of the Company has been as follows:

Year	export revenues	% of all revenues
2006	\$ 6,040,000	29%
2005	\$ 10,693,000	44%
2004	\$ 4,552,000	66%

- 61 -

Legal Proceedings

In March 2005, BOSNOVA EURL, a French company and former distributor of the Company, filed against the Company and others a claim with the French Tribunal, in the amount of 1.4 million Euros, alleging breach of exclusive distributor rights in France. This claim follows a previous motion for temporary injunctive relief that was filed against the Company's new French distributor, said motion ultimately denied by French Trade Tribunal. The Company assesses the prospect of the claimant to prevail and recover a significant amount as remote. The Company's financial statements include a provision in this respect.

On May 10, 2006 the Company received a written demand from IDEAL Software GmbH (IDEAL), a German corporation, in which it claims that the Company owes it for unpaid license fees. On June 11, 2006 the Company filed with the Haifa District Court in Israel a claim against IDEAL. Recently, we announced that we entered into a settlement of this dispute with IDEAL, pursuant to which, on December 21, 2006, we paid IDEAL an amount of 110,000 Euros, and we agreed to withdraw the claim we filed in Israel.

Dividend Policy

The Company does not currently have a dividend policy. The declaration and payment of any cash dividends in the future will be determined by the Board of Directors in light of the conditions existing at that time. This will include our earnings and financial condition. We may only pay cash dividends in any fiscal year, out of profits, as defined under Israeli law. Any dividends paid out of Approved Enterprise earnings (i.e. tax exempt income) will be liable to tax. As we cannot currently distribute dividends, no provision has been made for this additional tax in our Financial Statements.

8B. Significant Changes

Not applicable.

Item 9: The Offer and Listing.**9A. Offer and Listing Details**

Since April 1996, our ordinary shares were traded, and our warrants, until they expired on April 2, 2000, were traded in the over-the-counter market in the United States, and quoted on what is now called the NASDAQ Capital Market under the symbol BOSC and BOSCW, respectively. In September 2000, our shares started to be traded on what is now called the NASDAQ Global Market. In January 2002, our shares began trading also on the Tel-Aviv Stock Exchange, under the symbol BOSC, pursuant to the dual-listing regulations of the Israeli Securities Authority.

In April 2007 we concluded a rights offering in which we raised gross proceeds of approximately \$4.4 million. The rights were traded for one day, April 12, 2007, on both the Nasdaq Global Market and the Tel-Aviv Stock Exchange.

Exemption from Nasdaq Marketplace Rules

Nasdaq Marketplace Rule 4350(a)(1) allows foreign private issuers an exemption from certain Nasdaq requirements, if the foreign private issuer follows home country practice.

- 62 -

Under the Israeli Companies Law 1999, there is no requirement to send shareholders of a public company a copy of the Company's annual financial statements. The Company's annual financial statements are available through to the Company's public filings both in the United States and in Israel. In reliance on this home country practice, the Company does not distribute its annual financial statements to its shareholder by mail.

In addition, under the Israeli Companies Law 1999 the Company was not required to seek shareholder approval for the rights offering. The Company has relied on this home country practice for an exemption from Nasdaq Marketplace Rule 4350(i)(1).

Prices set forth below are high and low reported closing prices for our ordinary shares as reported by NASDAQ and the TASE for the periods indicated. All share prices have been retroactively adjusted to reflect the 1:4 reverse stock split effected May 29, 2003.

Period	NASDAQ		TASE		
	High (\$)	Low (\$)	High (NIS)	Low (NIS)	
2002	Annual	7.92	2.40	9.99	4.35
2003	Annual	3.97	1.67	17.42	8.00
2004	Annual	4.00	1.62	14.98	8.89

10B. Memorandum and Articles of Association

In March 2002 the Company adopted new Articles of Association, in view of the Israeli Companies Law, 1999. Since then, certain articles of the Article of Association have been amended.

Set forth below is a summary of certain provisions of our Memorandum and Articles of Association. This summary is not complete and should be read together with our Memorandum and Articles of Association, previously filed.

1. *Objects of the Company:*

The Company's objects and purposes are outlined in the Memorandum of Association. These objects include: the development of sophisticated interfaces for IBM mainframe computers; the export of hi-tech products to Europe and the USA; and research, development and manufacture of products in the sphere of communication networks. The Company's Articles of Association (Article 2) allow it to engage in any legal business.

2. *Provisions related to the directors of the Company:*

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

The Board of Directors may issue shares and other securities, which are convertible or exercisable into shares, up to the limit of the Company's authorized share capital.

(a) Approval of Certain Transactions under the Companies Law:

We are subject to the provisions of the Israeli Companies Law 1999, which became effective on February 1, 2000.

The Companies Law codifies the fiduciary duties that an Office Holder has to the Company. An Office Holder is defined in the Companies Law as any Director, General Manager or any other Manager directly subordinate to the General Manager and any other person with similar responsibilities.

An Office Holder's fiduciary duties consist of a Duty of Loyalty and a Duty of Care.

- 64 -

The Duty of Loyalty includes: the avoidance of any conflict of interest between the Office Holder's position in the company and his personal affairs; the avoidance of any competition with the company; the avoidance of any exploitation of any business opportunity of the Company in order to receive personal advantage for himself or others; and a duty to reveal to the Company any documents or information relating to the Company's affairs that the Office Holder has received due to his position.

The Duty of Care requires an Office Holder to act at a level of care that a reasonable Office Holder in the same position would employ under the same circumstances. This includes the duty to utilize reasonable means to obtain (1) information regarding the appropriateness of a given action brought for his approval or performed by him by virtue of his position and (2) all other information of importance pertaining to the foregoing actions.

Under the Companies Law, all arrangements with regard to the compensation of Office Holders who are not Directors require the approval of the Board of Directors. Arrangements regarding the compensation of Directors require Audit Committee, Board and Shareholder approval.

The Companies Law requires that an Office Holder of a company promptly disclose to the company's Board of Directors any personal interest that he or she may have, and all related material information known to him in connection with any existing or proposed transaction by the company. This disclosure must be made by the Office Holder, whether orally or in writing, no later than the first meeting of the Company's Board of Directors which discusses the particular transaction. An Office Holder is deemed to have a personal interest if he, certain members of his family, or a corporation in which he or any one of those family members is a 5% or greater shareholder or exercises or has the right to exercise control, has an interest in a transaction with the company. An Extraordinary Transaction is defined as a transaction other than in the ordinary course of business, not on market terms, or that is likely to have a material impact on the company's profitability, assets or liabilities.

In the case of a transaction that is not an Extraordinary Transaction, after the office holder complies with the above disclosure requirements, only board approval is required. The transaction must not be adverse to the company's interests. In the case of an Extraordinary Transaction, the company's Audit Committee and the Board of Directors, and, under certain circumstances, the shareholders of the company must approve the transaction, in addition to any approval stipulated by the Articles of Association. An Office Holder who has a personal interest in a matter that is considered at a meeting of the Board of Directors or the Audit Committee may not be present at this meeting or vote on this matter, unless a majority of the members of the Board of Directors or Audit Committee, respectively, have a personal interest in the matter, in which case they may all be present and vote, after which the matter must be approved by the shareholders of the Company.

(b) Borrowing powers exercisable by the Directors are not specifically outlined in the Company's Articles of Association, however, according to Article 15: Any power of the Company which has not been vested in another organ pursuant to the Companies Law or the articles may be exercised by the Board of Directors.

(c) The Company's Articles of Association do not contain provisions regarding the retirement of directors under an age limit requirement, nor do they contain a provision requiring a Director to hold any Company shares in order to qualify as a Director.

- 65 -

3. With regard to the rights, preferences and restrictions attaching to the shares, the Company's Articles of Association provide the following:

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

(a) Dividends, Rights to Share in the Company's Profits and Rights to Share in any Surplus upon Liquidation

All holders of paid-up ordinary shares of the Company have an equal right to participate in the distribution of (i) dividends, whether by cash or by bonus shares; (ii) Company assets; and (iii) the Company's surplus assets upon winding up, all pro rata to the nominal value of the shares held by them (Articles 4.2.2, 4.2.3 and 7.3).

The Board of Directors is the organ authorized to decide upon the distribution of dividends and bonus shares (Article 26). The shareholders who are entitled to a dividend are the shareholders on the date of the resolution for the dividend or on a later date if another date is specified in the resolution on the dividend's distribution. If the Board of Directors does not otherwise determine, any dividend may be paid by way of a cheque or payment order that shall be sent by mail in accordance with the registered address of the shareholder or person entitled thereto, or in the case of registered joint shareholders to the shareholder whose name appears first in the shareholders' register in relation to the joint shareholding. Every such cheque shall be drawn up to the order of the person to whom it is being sent. The receipt of a person who on the date of the dividend's declaration is listed in the shareholders' register as the holder of any share or, in the case of joint shareholders, of one of the joint shareholders shall serve as confirmation of all the payments made in connection with such share. For the purpose of implementing any resolution pursuant to the provisions of this paragraph, the Board of Directors may settle, as it deems fit, any difficulty arising in relation to the distribution of the dividend and/or bonus shares, including determine the value for the purpose of the said distribution of certain assets and resolve that payments in cash shall be made to members in reliance upon the value thus determined, determine regulations in relation to fractions of shares or in relation to non-payment of amounts less than NIS 200.

(b) Voting Rights

All holders of paid-up ordinary shares of the Company have an equal right to participate in and vote at the Company's general meetings, whether ordinary or special, and each of the shares in the Company shall entitle its holder, present at the meeting and participating in the vote, himself, by proxy or through a voting instrument, to one vote (Article 4.2.1). Such voting rights may be affected in the future by the grant of any special voting rights to the holders of a class of shares with preferential rights. Shareholders may vote either in person or through a proxy or voting instrument, unless the Board of Directors prohibited voting through a voting instrument on a certain matter and stated so in the notice of the meeting (Articles 14.1 and 14.6). A resolution at the general meeting shall be passed by an ordinary majority unless another majority is specified in the Companies Law or the Company's Articles of Association (Article 14.3).

(c) Election of Directors.

The Company's directors are elected by the shareholders at a shareholders' meeting. The Ordinary Shares do not have cumulative voting rights in the election of directors. The holders of Ordinary Shares conferring more than 50% of the voting power present by person or by proxy at the shareholders' meeting, have the power to elect the directors. The directors elected shall hold office until the next annual meeting, or sooner if they cease to hold office pursuant to the provisions of the Company's Articles. In addition, the Board of Directors may appoint a director (to fill a vacancy or otherwise) between shareholder meetings, and such appointment shall be valid until the next annual meeting or until such appointee ceases to hold office pursuant to the provisions of the Company's Articles. In compliance with the Companies Law, the Company has two external directors. The external directors are also appointed by the shareholders and their term of office is three years. Directors of the Company stand for reelection at every annual meeting (Article 16.2) and not at staggered intervals, with the exception of the External directors who are appointed for a period of 3 years under the Israeli Companies Law, 1999.

- 66 -

(d) Redemption

The Company may, subject to any applicable law, issue redeemable securities on such terms as determined by the Board of Directors, provided that the general meeting of shareholders approves the Board of Directors' recommendation and the terms determined (Article 27).

(e) Capital Calls by the Company

The Board of Directors may only make calls for payment upon shareholders in respect of monies not yet paid for shares held by them (Article 7.2).

(f) Discrimination

No provision in the Company's Articles of Association discriminates against an existing or prospective holder of securities, as a result of such shareholder owning a substantial amount of shares.

4. Modification of Rights of Holders of Stock

The general meeting of shareholders may resolve to create new shares of an existing class or of a new class with special rights and/or restrictions (Article 9.1).

So long as not otherwise provided in the shares issue terms and subject to the provisions of any law, the rights attached to a particular class of shares may be altered, after a resolution is passed by the Company and with the approval of a resolution passed at a general meeting of the holders of the shares of such class or the written agreement of all the class holders. The provisions of the Company's Articles of Association regarding general meetings shall apply, mutatis mutandis, to a general meeting of the holders of a particular class of shares (Article 10.1). The rights vested in the holders of shares of a particular class that were issued with special rights shall not be deemed to have been altered by the creation or issue of further shares ranking equally with them, unless otherwise provided in such shares issue terms (Article 10.2).

The above mentioned conditions are not more onerous than is required by law.

5. Annual General Meetings and Extraordinary General Meetings

General meetings shall be convened at least once a year at such place and time as determined by the Board of Directors but no later than 15 months from the last general meeting. Such general meetings shall be called annual meetings. The Company's other meetings shall be called special meetings (Article 12.1). The annual meeting's agenda shall include a discussion of the Board of Directors reports and the financial statements as required at law. The annual meeting shall appoint an auditor, appoint the directors pursuant to these articles and discuss all the other matters which must be discussed at the Company's annual general meeting, pursuant to these articles or the Law, as well as any other matter determined by the Board of Directors (Article 12.2).

- 67 -

The Board of Directors may convene a special meeting pursuant to its resolution and it must convene a general meeting if it receives a written requisition from any one of the following (hereinafter referred to as requisition) (i) two directors or one quarter of the directors holding office; and/or (ii) one or more shareholders holding at least 5% of the issued capital and at least 1% of the voting rights in the Company; and/or (iii) one or more shareholders holding at least 5% of the voting rights in the Company (Article 12.3). A requisition must detail the objects for which the meeting must be convened and shall be signed by the persons requisitioning it and sent to the Company's registered office. The requisition may be made up of a number of documents in an identical form of wording, each of which shall be signed by one or more of the persons requisitioning the meeting (Article 12.4). Where the Board of Directors is required to convene a special meeting, it shall do so within 21 days of the requisition being submitted to it, for a date that shall be specified in the invitation and subject to the law (Article 12.5).

Notice to the Company's members regarding the convening of a general meeting shall be sent to all the shareholders listed in the Company's shareholders register at least 21 days prior to the meeting and shall be published in other ways insofar as required by the law. The notice shall include the agenda, proposed resolutions and arrangements with regard to a written vote. The accidental omission to give notice of a meeting to any member, or the non-receipt of notice sent to such member, shall not invalidate the proceedings at such meeting (Article 12.6).

The shareholders entitled to participate in and vote at the general meeting are the shareholders on the date specified by the Board of Directors in the resolution to convene the meeting, and subject to the law (Article 14.1).

No discussions may be commenced at the general meeting unless a quorum is present at the time of the discussion's commencement. A quorum is the presence of at least two shareholders holding at least 33% of the voting rights (including presence through a proxy or a voting instrument), within half an hour of the time fixed for the meeting's commencement (Article 13.1). If no quorum is present at a general meeting within half an hour of the time fixed for the commencement thereof, the meeting shall be adjourned for one week, to the same day, time and place, or to a later time if stated in the invitation to the meeting or in the notice of the meeting (hereinafter referred to as the adjourned meeting) (Article 13.2). The quorum for the commencement of the adjourned meeting shall be any number of participants.

The Articles of Association provide that all shareholder resolutions shall be passed by an ordinary (simple) majority of the votes cast, unless another majority is specified in the Companies Law or in the Articles (Article 14.3).

6. Limitations on the rights to own securities

There are no limitations on the rights to own the Company's securities, including the rights of non-residents or foreign shareholders to do so.

- 68 -

7. Change of Control

Under the Companies Law, a merger is generally required to be approved by the shareholders and Board of Directors of each of the merging companies. Shareholder approval isn't required if the company that will not survive is controlled by the surviving company. Additionally, the law provides some exceptions to the shareholder approval requirement in the surviving company. If the share capital of the company that will not be the surviving company is divided into different classes of shares, the approval of each class is also required, unless determined otherwise by the court. A majority of votes approving the merger shall suffice, unless the company (like ours) was incorporated in Israel prior to the Companies Law of 1999, in which case a majority of 75% of the voting power is needed in order to approve the merger. Additionally, unless the court determines differently, a merger will not be approved if it is objected to by a majority of the shareholders present at the meeting, after excluding the shares held by the other party to the merger, by any person who holds 25% or more of the other party to the merger and by the relatives of and corporations controlled by these persons. Upon the request of a creditor of either party to the proposed merger, the court may delay or prevent the merger if it concludes that there exists a reasonable concern that, as a result of the merger, the surviving company will be unable to satisfy the obligations of any of the parties of the merger. Also, a merger can be completed only after all approvals have been submitted to the Israeli Registrar of Companies and provided that 30 days have elapsed since shareholder approval was received and 50 days have elapsed from the time that a proposal for approval of the merger was filed with the Registrar.

The Companies Law also provides that an acquisition of shares in a public company must be made by means of a tender offer if, as a result of the acquisition, the purchaser would become a holder of 25% or more of the voting power at general meetings. This rule does not apply if there is already another holder of 25% or more of the voting power at general meetings. Similarly, the Companies Law provides that an acquisition of shares in a public company must be made by means of a tender offer if, as a result of the acquisition, the purchaser would become a holder of more than 45% of the voting power of the company. This rule does not apply if someone else already holds 45% of the voting power of the company. An acquisition from a 25% or 45% holder, which turns the purchaser into a 25% or 45% holder respectively, does not require a tender offer. An exception to the tender offer requirement may also apply when the additional voting power is obtained by means of a private placement approved by the general meeting of shareholders. These tender offer requirements do not apply to companies whose shares are listed for trading outside of Israel if, under local law or the rules of the stock exchange on which their shares are traded, there is a limitation on the percentage of control which may be acquired or the purchaser is required to make a tender offer to the public.

Under the Companies Law, a person may not acquire shares in a public company if, after the acquisition, he will hold more than 90% of the shares or more than 90% of any class of shares of that company, unless a tender offer is made to purchase all of the shares or all of the shares of the particular class. The Companies Law also provides that as long as a shareholder in a public company holds more than 90% of the company's shares or of a class of shares, that shareholder shall be precluded from purchasing any additional shares (an exemption exists where the shareholder held prior to and following February 2000, over 90% of any class of shares, in which case he may purchase additional shares by a tender offer that was accepted by a majority of the offerees). If a tender offer is accepted and less than 5% of the shares of the company are not tendered, all of the shares will transfer to the ownership of the purchaser. If 5% or more of the shares of the company are not tendered, the purchaser may not purchase shares in a manner which will grant him more than 90% of the shares of the company.

- 69 -

8. *Disclosing share ownership*

The Company has no bylaw provisions governing the ownership threshold, above which shareholder ownership must be disclosed.

10C. Material Contracts

All material contracts have been described in detail throughout this form, wherever applicable.

10D. Exchange Controls

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

All exchange control restrictions previously imposed by the State of Israel have been removed, although there are still reporting requirements for foreign currency transactions. Legislation remains in effect, however, pursuant to which currency controls can be imposed by administrative action at any time.

At this time, due to the removal of the restrictions, non-residents of Israel who purchase our ordinary shares will be able to convert any proceeds from the sale of these ordinary shares, as well as dividend and liquidation distributions, if any, into non-Israeli currency. There are no limitations on the Company's ability to import and export capital.

10E. Taxation

The following is a summary of the material Israeli tax consequences, Israeli foreign exchange regulations and certain Israeli government programs affecting the Company.

To the extent that the discussion is based on new tax or other legislation that has not been subject to judicial or administrative interpretation, there can be no assurance that the views expressed in the discussion will be accepted by the tax or other authorities in question. The discussion is not intended, and should not be construed, as legal or professional tax advice and is not exhaustive of all possible tax considerations.

ISRAELI TAX CONSIDERATIONS

On January 1, 2003 a comprehensive tax reform took effect in Israel. Pursuant to the reform, resident companies are subject to Israeli tax on income accrued or derived in Israel or abroad. In addition, the concept of "controlled foreign corporation" was introduced according to which an Israeli company may become subject to Israeli taxes on certain income of a non-Israeli subsidiary if the subsidiary's primary source of income is passive income. The tax reform also substantially changes the taxation of capital gains.

General Corporate Tax Structure

Israeli companies are generally subject to income tax on their taxable income at the rate of 31% for the year 2006, 29% for 2007, 27% for 2008, 26% for 2009 and 25% for year 2010 and thereafter, and are subject to capital gains tax at a rate of 25% for capital gains (other than gains deriving from the sale of listed securities) derived after January 1, 2003.

Tax benefits under the Law for the Encouragement of Capital Investments, 1959.

The Law for the Encouragement of Capital Investments, 1959 (the "Investment Law") provides certain tax and financial benefits to investment programs that have been granted such status. The Investment Law provides that a proposed capital investment in eligible facilities may, upon application to the Investment Center of the Ministry of Industry and Trade of the State of Israel, be designated as an "Approved Enterprise". Each certificate of approval for an Approved Enterprise relates to a specific investment program delineated both by its financial scope, including its capital sources, and by its physical characteristics, e.g., the equipment to be purchased and utilized pursuant to the program. The tax benefits derived from any such certificate of approval relate only to taxable income attributable to the specific Approved Enterprise. If a company has more than one approval or only a portion of its capital investments are approved, its effective tax rate is the result of a weighted combination of the applicable rates. Income derived from activity that is not integral to the activity of the enterprise should not be divided between the different enterprises and should not enjoy tax benefits.

- 70 -

The principal stated objectives of the Investment Law are to promote the development of industry, the creation of jobs and the growth of exports. An amendment to the Investment Law that became effective on April 1, 2005, limits the scope of enterprises which may be approved by the Investment Center by setting criteria for the approval of a facility as an Approved Enterprise, such as provisions generally requiring that at least 25% of the Approved Enterprise's income will be derived from export. Additionally, the amendment enacted major changes in the manner in which tax benefits are awarded so that companies no longer require Investment Center approval in order to qualify for tax benefits (although approval is required if grants are sought). Rather, a company may claim the tax benefits offered by the Investment Law directly in its tax returns, provided that its facilities meet the criteria for tax benefits set out by the amendment (a "Benefited Enterprise"). We cannot assure that we will receive approvals in the future for Approved or Benefited Enterprise status.

Generally, taxable income of a company derived from an Approved Enterprise is subject to company tax at a maximum rate of 25% (subject to the percentage of the foreign shareholders holding in the company), rather than at the regular rate, for the benefit period. This period is ordinarily seven years or up to ten years if the company qualifies as Foreign Investors' Company, commencing with the year in which the Approved

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

Enterprise first generates taxable income and, subject to certain limitations, up to ten taxable years. The Investment Law also provides that a company that has an Approved Enterprise is entitled to accelerated depreciation on its property and equipment that are included in an approved investment program.

A company owning an Approved Enterprise may elect to receive an alternative package of benefits, in lieu of entitlement to grants. Under the alternative package, a company's undistributed income derived from an Approved Enterprise will be exempt from company tax for a period of between two and ten years from the first year of taxable income, depending on the geographic location of the Approved Enterprise within Israel, and such company will be eligible for a reduced tax rate for the remainder, if any, of the otherwise applicable benefits period.

The tax-exempt income attributable to the Approved or Benefited Enterprise can be distributed to shareholders without imposing tax liability on the Company only upon the complete liquidation of the Company. In the event of a distribution of such tax-exempt income as a cash dividend in a manner other than in the complete liquidation, the Company will be to tax in respect of the gross amount of the dividend at the otherwise applicable rate of 25%, (or lower in the case of a qualified foreign investment company which is at least 49% owned by non-Israeli residents). Dividends paid out of income derived by an Approved or Benefited Enterprise (or out of dividends received from a company whose income is derived from a Benefited Enterprise) are generally subject to withholding tax at the rate of 15% (deductible at source). The reduced rate of 15% is limited to dividends and distributions out of income derived from an Approved or Benefited Enterprise during the benefits period and actually paid at any time up to 12 years thereafter (this time limit does not apply to an FIC).

However, the Investment Law provides that terms and benefits included in any certificate of approval already granted will remain subject to the provisions of the Law as they were on the date of such approval. Therefore a facility that was approved as an Approved Enterprise prior to the amendment will generally not be subject to the provisions of the amendment.

- 71 -

The Investment Center of the Ministry of Industry and Trade granted BOScom an Approved Enterprise status under the alternative package of benefits. Since BOScom is located in Zone A, the portion of income derived from this Approved Enterprise program will be exempt from tax for a period of ten years, commencing when BOScom begins to realize net income from this programs. The period of tax benefits of BOScom Approved Enterprise has not yet commenced, because we have yet to realize taxable income. BOS was also granted an Approved Enterprise status which entitled the BOS for some tax benefits, but during 2002, as part of the transfer of operations from the BOS to BOScom, all tax benefits that were related to the Approved Enterprise of BOS, were transferred to BOScom.

The Investment Center of the Ministry of Industry and Trade bases its decision as to whether or not to approve an application, on the criteria set forth in the Investment Law and regulations, the then prevailing policy of the Investment Center, and the specific objectives and financial criteria of the applicant. Accordingly, there can be no assurance that any such application will be approved. In addition, the benefits available to an Approved Enterprise are conditional upon the fulfillment of conditions stipulated in the Investment Law and its regulations and the criteria set forth in the specific certificate of approval, as described above. In the event that a company does not meet these conditions, it would be required to refund the amount of tax benefits, with the addition of the consumer price index linkage adjustment and interest. If BOScom derives income from sources other than the Approved Enterprise, such income will be taxable at the regular corporate tax rate. Odem and Quasar Telecom do not enjoy the status of an Approved Enterprise.

Tax Benefits and Grants for Research and Development

Israeli tax law allows, under certain conditions, a tax deduction in the year incurred for expenditures (including capital expenditures) in scientific research and development projects, if the expenditures are approved by the relevant Israeli government ministry, determined by the field of research, the research and development is for the promotion of the enterprise and is carried out by or on behalf of the company seeking such deduction.

In case the tax deduction, in the year research and development expenditures are incurred, is not approved by the relevant Israeli government ministry, the Company will be entitled for the tax deduction over a period of three years.

Tax Benefits Under the Law for the Encouragement of Industry (Taxation), 1969

According to the Law for the Encouragement of Industry (Taxation), 1969, or the Industry Encouragement Law, an Industrial Company is a company resident in Israel that at least 90% of its income, in any tax year, determined in Israeli currency, exclusive of income from certain government loans, capital gains, interest and dividends, is derived from an Industrial Enterprise owned by it. An Industrial Enterprise is defined as an enterprise whose major activity in a given tax year is industrial production activity.

The following preferred corporate tax benefits are available to Industrial Companies, among others: (a) deduction of purchases of know-how and patents over an eight-year period for tax purposes; (b) deduction over a three-year period of expenses involved with the issuance and listing of shares on the Tel Aviv Stock Exchange or, on or after January 1, 2003, on a recognized stock market outside of Israel; (c) an election under certain conditions to file a consolidated tax return with additional related Israeli Industrial Companies that satisfy conditions set forth in the law; and (d) accelerated depreciation rates on equipment and buildings.

- 72 -

Eligibility for the benefits under the Industry Encouragement Law is not subject to receipt of prior approval from any governmental authority.

Until December 31, 2001 the Company qualified as an Industrial Company within the definition of the Industry Encouragement Law. In January 2002, subsequent to the Company's restructure transforming it into a holding company by transferring its industrial operations to its wholly-owned subsidiary, BOScom, the Company disqualified from being an Industrial Company and therefore the benefits described above are not available since then.

Special Provisions Relating to Taxation Under Inflationary Conditions

The Income Tax Law (Inflationary Adjustments), 1985, generally referred to as the Inflationary Adjustments Law, is intended to adjust the corporate tax system to the rate of inflation, i.e., to tax profits on an inflation-adjusted basis.

Under the Inflationary Adjustments Law, results for tax purposes are measured in historical cost terms and are subject to a series of adjustments based on movements in the Israel consumer price index. We are taxed under this law. The discrepancy between the change in (1) the Israel consumer price index and (2) the exchange rate of the NIS to the dollar, each year and cumulatively, may result in a significant difference between taxable income and the income denominated in dollars as reflected in our financial statements. In addition, subject to certain limitations, depreciation of fixed assets and losses carried forward are adjusted for inflation on the basis of changes in the Israel consumer price index.

The salient features of the Inflationary Adjustments Law can be described generally as follows:

- (a) A special tax adjustment for the preservation of equity whereby certain corporate assets are classified broadly into fixed (inflation immune) assets and non-fixed assets. Where a company's equity, as defined in such law, exceeds the depreciated cost of fixed assets, a deduction from taxable income that takes into account the effect of the applicable annual rate of inflation on such excess is allowed, up to a ceiling of 70% of taxable income in any single tax year, with the unused portion permitted to be carried forward, linked to the increase in the consumer price index. If the depreciated cost of fixed assets exceeds a company's equity, then such excess multiplied by the applicable annual rate of inflation is added to taxable income.
- (b) Subject to certain limitation set forth in the Inflationary adjustments Law, depreciation deductions on fixed assets and losses carried forward are adjusted for inflation based on the increase in the Israel consumer price index.
- (c) Gains on the sale of certain listed securities which are taxed at a reduced rate with respect to individuals are taxable at a company tax rate in certain circumstances. However, dealers in securities are subject to the regular tax rules applicable to business income in Israel. As of January 1, 2006, the relevant provisions governing taxation of companies on capital gains derived from the sale of traded securities are included in the Tax Ordinance, and the Adjustments Law no longer includes provisions in this regard.
- (d) Accelerated depreciation rates on equipment and buildings.

- 73 -

Capital Gains Tax on Sales of Ordinary Shares

Israeli law generally imposes a capital gains tax on the sale of any capital assets by residents of Israel, as defined for Israeli tax purposes, and on the sale of assets located in Israel, including shares in Israeli companies by both residents and non-residents of Israel, unless a specific exemption is available or unless a tax treaty between Israel and the shareholder's country of residence provides otherwise. The law distinguishes between the real gain and the inflationary surplus. The real gain is the excess of the total capital gain over the inflationary surplus, computed on the basis of the increase in the Israel consumer price index between the date of purchase and the date of sale. Generally, up until the 2006 tax year, capital gains tax was imposed on Israeli resident individuals at a rate of 15% on real gains derived on or after January 1, 2003 from the sale of shares in, among others, Israeli companies publicly traded on Nasdaq or on a recognized stock exchange or regulated market in a country that

has a treaty for the prevention of double taxation with Israel (such as our company). This tax rate was contingent upon the shareholder not claiming a deduction for financing expenses in connection with such shares (in which case the gain will be taxed at a rate of 25%), and did not apply to: (i) the sale of shares to a relative (as defined in the Israeli Income Tax Ordinance); (ii) the sale of shares by dealers in securities; (iii) the sale of shares by shareholders that report in accordance with the Inflationary Adjustment Law (that will be taxed at corporate tax rates for corporations and at marginal rates for individuals); or (iv) the sale of shares by shareholders who acquired their shares prior to an initial public offering (that may be subject to a different tax arrangement).

As of January 1, 2006, the tax rate applicable to capital gains derived from the sale of shares, whether listed on a stock market or not, is 20% for Israeli individuals, unless such shareholder claims a deduction for financing expenses in connection with such shares, in which case the gain will generally be taxed at a rate of 25%. Additionally, if such shareholder is considered a significant shareholder at any time during the 12-month period preceding such sale (i.e. such shareholder holds directly or indirectly, including jointly with others, at least 10% of any means of control in the company), the tax rate will be 25%. Israeli companies are subject to the corporate tax rate on capital gains derived from the sale of listed securities, unless such companies were not subject to the Adjustments Law (or certain regulations under Section 130A of the Tax Ordinance) at the time of publication of the aforementioned amendment to the Tax Ordinance, in which case the applicable tax rate is 25%. However, the different tax rates will not apply to dealers in securities and shareholders who acquired their shares prior to an initial public offering.

The tax basis of shares acquired prior to January 1, 2003 will be determined in accordance with the average closing share price in the three trading days preceding January 1, 2003. However, a request may be made to the tax authorities to consider the actual adjusted cost of the shares as the tax basis if it is higher than such average price.

Non-Israeli residents are exempt from Israeli capital gains tax on any gains derived from the sale of shares of Israeli companies publicly traded on a recognized stock exchange or regulated market outside of Israel, provided that such capital gains are not derived from a permanent establishment in Israel, that such shareholders are not subject to the Inflationary Adjustment Law and that such shareholders did not acquire their shares prior to the issuer's initial public offering. However, non-Israeli corporations will not be entitled to such exemption, if an Israeli resident (i) has a controlling interest of 25% or more in such non-Israeli corporation, or (ii) is the beneficiary or is entitled to 25% or more of the revenues or profits of such non-Israeli corporation, whether directly or indirectly.

In some instances where our shareholders may be subject to Israeli tax on the sale of their ordinary shares, the payment of the consideration may be subject to the withholding of Israeli tax at the source.

The US-Israel Tax Treaty

Pursuant to the Convention Between the Government of the United States of America and the Government of Israel with Respect to Taxes on Income, as amended (the United States- Israel Tax Treaty), the sale, exchange or disposition of ordinary shares by a person who qualifies as a resident of the United States within the meaning of the United States-Israel Tax Treaty and who is entitled to claim the benefits afforded to such person by the United States- Israel Tax Treaty (a Treaty United States Resident) generally will not be subject to the Israeli capital gains tax unless such Treaty United States Resident holds, directly or indirectly, shares representing 10% or more of the Company's voting power during any part of the 12- month period preceding such sale, exchange or disposition, subject to certain conditions. A sale, exchange or disposition of ordinary shares by a Treaty United States Resident who holds, directly or indirectly, shares representing 10% or more of the Company's voting power at any time during such preceding 12-month period would be subject to such Israeli tax, to the extent applicable; however, under the United States-Israel Tax Treaty, such Treaty United States Resident would be permitted to claim a credit for such taxes against the United States federal income tax imposed with respect to such sale, exchange or disposition, subject to the limitations specified in the treaty. The United States-Israel Tax Treaty does not relate to United States state or local taxes.

- 74 -

Taxation of Non-Resident Holders of Ordinary Shares

Non-residents of Israel are subject to income tax on income accrued or derived from sources in Israel. These sources of income include passive income such as dividends, royalties and interest, as well as non-passive income from services rendered in Israel. On distributions of dividends other than bonus shares or stock dividends, income tax is withheld at the source at the following rates: (i) for dividends distributed prior to January 1, 2006 25%; and (ii) for dividends distributed on or after January 1, 2006, 20%, or 25% for a shareholder that is considered a significant shareholder at any time during the 12-month period preceding such distribution; unless a different rate is provided in a treaty between Israel and the shareholder's country of residence. Under the U.S.-Israel Tax Treaty, the maximum tax on dividends paid to a holder of shares who is a resident of the United States is 25% or 12.5% if such U.S. resident is a corporation which holds, directly or indirectly, shares representing at least 10% or more of our issued voting power during the part of the tax year which precedes the date of payment of the dividend and during the whole of its prior tax year. However, under the U.S.-Israel Tax Treaty and the Investments Law, dividends generated by an Approved Enterprise (or Benefiting Enterprise) are taxed at the rate of 15%.

Foreign Exchange Regulations

Dividends, if any, paid to the holders of the ordinary shares, and any amounts payable upon dissolution, liquidation or winding up, as well as the proceeds of any sale in Israel of the ordinary shares to an Israeli resident, may be paid in non-Israeli currency or, if paid in Israeli currency, may be converted into dollars at the rate of exchange prevailing at the time of conversion.

UNITED STATES FEDERAL INCOME TAXES

The following general discussion sets forth the material United States federal income tax consequences applicable to the following persons who purchase, hold or dispose of the ordinary shares as capital assets (U.S. Shareholders): (i) citizens or residents (as defined for U.S. federal income tax purposes) of the United States; (ii) corporations or other entities taxable as corporations created or organized in or under the laws of the United States or any state thereof; (iii) estates, the income of which is subject to United States federal income taxation regardless of its source; and (iv) a trust if (a) a U.S. court is able to exercise primary supervision over its administration and (b) one or more U.S. persons have the authority to control all of its substantial decisions. This discussion is based on the provisions of the Internal Revenue Code of 1986, as amended (the Code), United States Treasury Regulations promulgated thereunder and administrative and judicial interpretations thereof, all as in effect as of the date of this Annual Report on Form 20-F. This discussion generally considers only U.S. Shareholders that will hold the ordinary shares as capital assets and does not consider (a) all aspects of U.S. federal income taxation that may be relevant to particular U.S. Shareholders by reason of their particular circumstances (including potential application of the alternative minimum tax), (b) U.S. shareholders subject to special treatment under the U.S. federal income tax laws, such as financial institutions, insurance companies, broker-dealers, tax-exempt organizations, financial institutions or foreign individuals or entities, (c) U.S. Shareholders owning directly or by attribution 10% or more of the Company s outstanding voting shares, (d) U.S. Shareholders who hold the ordinary shares as part of a hedging, straddle or conversion transaction, (e) U.S. Shareholders who acquire their ordinary shares in a compensatory transaction, (f) U.S. Shareholders whose functional currency is not the dollar, or (g) any aspect of state, local or non-United States tax law.

- 75 -

THE FOLLOWING SUMMARY DOES NOT ADDRESS THE IMPACT OF AN INVESTOR S INDIVIDUAL TAX CIRCUMSTANCES. ACCORDINGLY, EACH INVESTOR SHOULD CONSULT HIS OR HER OWN TAX ADVISOR AS TO THE PARTICULAR TAX CONSEQUENCES TO HIM OR HER OF AN INVESTMENT IN THE ORDINARY SHARES, INCLUDING THE EFFECTS OF APPLICABLE STATE, LOCAL OR FOREIGN TAX LAWS AND POSSIBLE CHANGES IN THE TAX LAWS.

Dividends Paid on the Ordinary Shares

Distributions paid on ordinary shares (including any Israeli taxes withheld) to a U.S. Shareholder will be treated as ordinary dividend income for United States federal income tax purposes to the extent of the Company s current and accumulated earnings and profits (as computed for U.S. federal income tax purposes). Such dividends, which will be treated as foreign source income for U.S. foreign tax credit purposes, generally will not qualify for the dividends-received deduction available to corporations. Distributions in excess of such earnings and profits will be applied against and will reduce the shareholder s tax basis in the ordinary shares and, to the extent in excess of such tax basis, will be treated as gain from a sale or exchange of such ordinary shares. The amount of the distribution will equal the US Dollar value of the distribution, calculated by reference to the exchange rate in effect on the date the distribution is received (or otherwise made available to the U.S. Shareholders), regardless of whether a payment in Israeli currency is actually converted to US Dollars at that time. U.S. Shareholders should consult their own tax advisors concerning the treatment of foreign currency gain or loss, if any, on any Israeli currency received which is converted into US Dollars subsequent to receipt.

Qualified dividend income received by an individual (as well as certain trusts and estates) U.S. Shareholder for taxable years beginning before January 1, 2009 are taxed at reduced rates of either 5 or 15 percent, depending upon the amount of such shareholder s taxable income. If a non-corporate U.S. Shareholder does not hold ordinary shares for more than 60 days during the 120 day period beginning 60 days before an ex-dividend date, dividends received on ordinary shares are not eligible for reduced rates. Dividends received from a foreign corporation that was a passive foreign investment company (as further discussed below) in either the taxable year of the distribution or the preceding taxable year are not qualified dividend income. Qualified dividend income includes dividends received from a qualified foreign corporation. A qualified foreign corporation includes a foreign corporation whose shares are readily tradable on an established securities market in the United States as well as a foreign corporation that is entitled to the benefits of a comprehensive income tax treaty with the United States which includes an exchange of information program. Israel and the United States are parties to a comprehensive income tax treaty which includes an exchange of information program. The United States Treasury Department will periodically issue guidance regarding which income tax treaties will be satisfactory for treating a corporation as a qualified foreign corporation . In the event ordinary shares should not be readily tradable on an established securities market in the United States, non-corporate U.S. Shareholders should consult their own tax advisors as to whether any distributions paid on ordinary shares will be taxed for United States federal income tax purposes at reduced tax rates.

- 76 -

Credit for Israeli Taxes Withheld

Subject to certain conditions and limitations, any Israeli tax withheld or paid with respect to dividends on the ordinary shares generally will be eligible for credit against a U.S. Shareholder's United States federal income tax liability at such U.S. Shareholder's election. The Code provides limitations on the amount of foreign tax credits that a U.S. Shareholder may claim, including extensive separate computation rules under which foreign tax credits allowable with respect to specific categories of income cannot exceed the United States federal income taxes otherwise payable with respect to each such category of income. Dividends with respect to the ordinary shares generally will be classified as foreign source passive income for the purpose of computing a U.S. Shareholder's foreign tax credit limitations for U.S. foreign tax credit purposes. The availability of the Israeli withholding tax as a foreign tax credit will also be subject to certain restrictions on the use of such credits, including a prohibition on the use of the credit to reduce liability for the United States individual and corporate minimum taxes by more than 90%. Alternatively, U.S. Shareholders that do not elect to claim a foreign tax credit may instead claim a deduction for Israeli income tax withheld or paid, but only for a year in which these U.S. Shareholders elect to do so for all foreign income taxes. The rules relating to foreign tax credits are complex, and you should consult your tax advisor to determine whether and if you would be entitled to this credit.

Disposition of the Ordinary Shares

Subject to the discussion under the heading *Passive Foreign Investment Company Status* the sale or exchange of ordinary shares generally will result in the recognition of capital gain or loss in an amount equal to the difference between the amount realized on the sale or exchange and the U.S. Shareholder's tax basis in the ordinary shares. Such gain or loss generally will be long-term capital gain or loss if the U.S. Shareholder's holding period of the ordinary shares exceeds one year at the time of the disposition. Certain limitations apply to the deductibility of capital losses by both corporate and non-corporate taxpayers. Under the Code, gain or loss recognized by a U.S. Shareholder on a sale or exchange of ordinary shares generally will be treated as U.S. source income or loss for U.S. foreign tax credit purposes. Under the tax treaty between the United States and Israel, however, gain derived from the sale, exchange or other disposition of ordinary shares by a holder who is a resident of the United States for purposes of the treaty and who sells the ordinary shares within Israel may be treated as foreign source income for U.S. foreign tax credit purposes. U.S. Shareholders should consult their own tax advisors regarding the treatment of any foreign currency gain or loss on any Israeli currency received in respect of the sale, exchange or other disposition of ordinary shares.

Passive Foreign Investment Company Status

A foreign corporation generally will be treated as a passive foreign investment company (PFIC) if, after applying certain look-through rules, either (i) 75% or more of its gross income is passive income or (ii) 50% or more of the average value of its assets is attributable to assets that produce or are held to produce passive income. Passive income for this purpose generally includes dividends, interest, rents, royalties and gains from securities and commodities transactions. The look-through rules require a foreign corporation that owns at least 25% by value, of the stock of another corporation to treat a proportionate amount of assets and income as held or received directly by the foreign corporation.

- 77 -

The Company has not made the analysis necessary to determine whether or not it is currently a PFIC or whether it has ever been a PFIC. However, the Company does not believe that it was a PFIC in 2006. However, there can be no assurance that the Company is not, has never been or will not in the future be a PFIC. If the Company were to be treated as a PFIC, any gain recognized by a U.S. Shareholder upon the sale (or certain other dispositions) of ordinary shares (or the receipt of certain distributions) generally would be treated as ordinary income, and a U.S. Shareholder may be required, in certain circumstances, to pay an interest charge together with tax calculated at maximum rates on certain excess distributions, including any gain on the sale or certain dispositions of ordinary shares. In order to avoid this tax consequence, a U.S. Shareholder (i) may be permitted to make a qualified electing fund election, in which case, in lieu of such treatment, such holder would be required to include in its taxable income certain undistributed amounts of the Company's income or (ii) may elect to mark-to-market the ordinary shares and recognize ordinary income (or possible ordinary loss) each year with respect to such investment and on the sale or other disposition of the ordinary shares. Additionally, if the Company is deemed to be a PFIC, a U.S. Shareholder who acquires ordinary shares in the Company from a decedent will be denied the normally available step-up in tax basis to fair market value for the ordinary shares at the date of the death and instead will have a tax basis equal to the decedent's tax basis if lower than fair market value. Neither the Company nor its advisors have the duty to or will undertake to inform U.S. Shareholders of changes in circumstances that would cause the Company to become a PFIC. U.S. Shareholders should consult their own tax advisors concerning the status of the Company as a PFIC at any point in time after the date of this Annual Report on Form 20-F. The Company does not currently intend to take the action necessary for a U.S. Shareholder to make a qualified electing fund election in the event the Company is determined to be a PFIC.

Tax Consequences for Non-U.S. Holders of Ordinary Shares

Except as described in Information Reporting and Back-up Withholding below, a non-U.S. holder of ordinary shares will not be subject to U.S. federal income or withholding tax on the payment of dividends on, and the proceeds from the disposition of, ordinary shares, unless:

- the item is effectively connected with the conduct by the non-U.S. holder of a trade or business in the United States and:
- (i) in the case of a resident of a country which has a treaty with the United States, the item is attributable to a permanent establishment; or
 - (ii) in the case of an individual, the item is attributable to a fixed place of business in the United States;
- the non-U.S. holder is an individual who holds the ordinary shares as a capital asset and is present in the United States for 183 days or more in the taxable year of the disposition and does not qualify for an exemption; or
- the non-U.S. holder is subject to tax under the provisions of U.S. tax law applicable to U.S. expatriates.

Information Reporting and Back up Withholding.

A non-corporate U.S. Shareholder may, under certain circumstances, be subject to information reporting requirements and backup withholding at a 30% rate on cash payments in the United States of dividends on, and the proceeds of disposition of, ordinary shares. Backup withholding will apply only if a U.S. Shareholder: (a) fails to furnish its social security or other taxpayer identification number (TIN) within a reasonable time after the request therefore; (b) furnishes an incorrect TIN; (c) is notified by the IRS that it has failed properly to report payments of interest and dividends; or (d) under certain circumstances, fails to certify, under penalty of perjury, that it has furnished a correct TIN and has not been notified by the IRS that it is subject to backup withholding for failure to report interest and dividend payments. U.S. Shareholders should consult their tax advisors regarding their qualification for exemption, if applicable. The amount of backup withholding from a payment to a U.S. Shareholder generally will be allowed as a credit against such U.S. Shareholder's federal income tax liability and may entitle such U.S. Shareholder to a refund, provided that the required information is furnished to the IRS.

10F. Dividends and Paying Agents

Not applicable.

10G. Statement by Experts

Not applicable.

10H. Documents on Display

The documents concerning the Company that are referred to in the form may be inspected at the Company's office in Israel.

10I. Subsidiary Information

For information relating to the Company's subsidiaries, see Item 4.C Organizational Structure as well as the Company's Consolidated Financial Statements (Items 8 and 18 of this form).

Item 11: Quantitative and Qualitative Disclosure about Market Risk.

Currency Exchange Rate Risk Management

The Company's functional currency is the US Dollar. Since the Company operates in Israel and Europe it manages assets and liabilities in currencies other than US Dollar such as Israeli Shekel and Euro.

The balance of monetary assets in comparison to liabilities in non-dollar currencies in the Balance Sheet as of December 31, 2006 and December 31, 2005 (Balance Sheet Exposure) is presented in the table below.

- 79 -

The data is presented in US Dollars (in thousands):

	December 31, 2006		December 31, 2005	
	Israeli currency (1)	Non-dollar Currencies (2)	Israeli currency (1)	Non-dollar Currencies (2)
	U.S.\$	U.S.\$	U.S.\$	U.S.\$
Current assets:				
Cash and cash equivalents	653	213	655	152
Trade receivables	2,399	-	3,847	260
Other accounts receivable	402	144	499	-
	<u>3,454</u>	<u>357</u>	<u>5,001</u>	<u>412</u>
Long term assets	<u>768</u>	<u>-</u>	<u>907</u>	<u>-</u>
Total assets	<u>4,222</u>	<u>357</u>	<u>5,908</u>	<u>412</u>
Current liabilities:				
Short term loans from banks and current maturities of long term loans	1,925	-	2,229	-
Trade payables	1,549	200	1,643	91
Other accounts payable	582	-	887	-
	<u>4,056</u>	<u>200</u>	<u>4,759</u>	<u>91</u>
Long term liabilities	<u>915</u>	<u>-</u>	<u>1,174</u>	<u>-</u>
Total liabilities	<u>4,971</u>	<u>200</u>	<u>5,993</u>	<u>91</u>
Net assets (liabilities)	<u>(749)</u>	<u>157</u>	<u>(25)</u>	<u>321</u>

(1) The above does not include balances in Israeli currency linked to the US dollar.

(2) Primarily Euro.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

The Company does not use financial instruments and derivatives, but manages the risk of Balance Sheet Exposure by attempting to maintain a similar balance of assets and liabilities in Israeli Shekels and the USD currencies.

The selling prices of our products in Israel and Europe are collected in the local currency. The purchases and salary expenses in Israel are paid in the local currency.

A material change in currency exchange rate of the NIS or Euro compared to the US Dollar may have an effect on the Company's financial results and cash flow.

Credit Risk Management

The company sells its products and purchases products from vendors on credit terms.

The trade receivables of the Company are derived from sales to customers located primarily in Israel, the United States, the Far East and Europe. The Company generally does not require collateral; however, in certain circumstances, the Company may require letters of credit, other collateral, additional guarantees or advanced payments.

Provisions are made for doubtful debts on a specific basis and, in management's opinion, appropriately reflect the loss inherent in collection of the debts. Management bases this provision on its assessment of the risk of the debt.

The table below presents the account receivables balance by geographical market as of December 31, 2006 and December 31, 2005:

	December 31	
	2006	2005
United States	\$ 561	\$ 789
Europe	345	255
Far East	51	44
Israel and others	4,675	3,756
	<u>5,632</u>	<u>4,844</u>
	\$ 5,632	\$ 4,844

- 80 -

Interest Rate Risk

The Company's exposure to market risk for changes in interest rates, is due to its investment of its surplus funds, loans and Convertible Note that carried variable interest.

The Company has a conservative investment policy. According to this policy the Company invests in bank deposits and in high level marketable securities.

A material change in yields of the securities which the company invests in and the need of cash before the securities' maturation, may have an effect on the Company's financial results and cash flow.

A material change in interest we receive on our bank deposits or pay on our loans and Convertible Note may have an effect on the Company's financial results and cash flow.

Bank Risk

The Company invests and manages the majority of its funds in three banks, which are among the five largest in Israel.

Item 12: Description of Securities Other than Equity Securities.

Not applicable.

PART II

Item 13: Defaults, Dividend Arrearages and Delinquencies.

Not applicable.

Item 14: Material Modifications to the Rights of Security Holders and Use of Proceeds.

Not applicable.

Item 15: Controls and Procedures

(a) Disclosure controls and procedures.

The Company's principal executive officer and its principal financial officer evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Such disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company is accumulated and communicated to the appropriate management, including the principal executive officer and financial officer, on a basis that permits timely decisions regarding timely disclosure. Based on that evaluation, such principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures as of the end of the period covered by this report have been designed and are functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

This Annual Report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit us to provide only management's report in this Annual Report.

- 81 -

(b) Change in Internal Control over Financial Reporting.

There were no changes in the Company's internal controls over financial reporting that occurred during the fiscal year ended December 31, 2006, that have materially affected or are reasonably likely to materially affect these controls.

(c) Other.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

The Company believes that a control system, no matter how well designed and operated, can not provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, with the Company have been determined.

Item 16: **[Reserved]**

Item 16A: **Audit Committee Financial Expert**

The Company's Board of Directors has determined that Prof. Adi Raveh and Mr. Ronen Zavlik, both members of the audit committee, are audit committee financial experts, as defined by the applicable SEC regulations. The experience of each is listed under Item 6A. Both are independent under the applicable SEC and Nasdaq regulations.

Item 16B: **Code of Ethics**

The Company has adopted a Code of Ethics applicable to its executive officers, directors and all other employees. A copy of the code is posted on our website and may also be obtained, without charge, upon a written request addressed to the Company's investor relations department.

Item 16C: **Principal Accountant Fees and Services**

The Company's principal accountants for the years 2005 and 2006 were Kost Forer Gabbay & Kasierer, a member of Ernst & Young Global.

The table below summarizes the audit and other fees paid and accrued by the Company and its consolidated subsidiaries to Kost Forer Gabbay & Kasierer, during each of 2005 and 2006:

	Year Ended December 31, 2006		Year Ended December 31, 2005	
	Amount	Percentage	Amount	Percentage
Audit Fees	62,000	76%	64,000	50%
Audit-Related Fees (1)	20,000	24%	25,000	20%
Tax Fees (2)	-		16,000	13%
All Other Fees (3)			22,000	17%
Total	82,000	100%	127,000	100%

(1) Audit-related fees are fees related to assurance and associated services that traditionally are performed by the independent auditor, including consultation concerning reporting standards.

(2) Tax fees are fees for professional services rendered by the Company's auditors with respect to tax advice related to acquisitions and tax compliance with the Israeli law for encouragement of investment, and issuance of annual tax reports.

- 82 -

(3) All Other Fees are fees for consulting services rendered by the Company's auditors with respect to government incentives.

Audit Committee s pre-approval policies and procedures:

The Audit Committee is responsible for the oversight of the independent auditors work, including the approval of services provided by the independent auditor. These services may include audit, audit-related, tax or other services, as described above. On an annual basis the audit committee pre-approves audit and non-audit services to be provided to the Company by its auditors, listing the particular services or categories of services, and sets forth a specific budget for such services. Additional services not covered by the annual pre-approval may be approved by the Audit Committee on a case-by-case basis as the need for such services arises. Furthermore, the Audit Committee has authorized the Committee Chairman to pre-approve engagements of the Company s auditors so long as the fee for each such engagement does not exceed \$5,000 and so long as the engagement is notified to the Committee at its next subsequent meeting. Any services pre-approved by the Audit Committee (or by the Chairman) must be permitted by applicable law. Once services have been pre-approved, the audit committee receives a report on a periodic basis regarding the extent of the services actually provided and the fees paid.

Item 16D: Exemptions from the Listing Standards for Audit Committees

Not applicable to Registrant

Item 16E: Purchases of Equity Securities by the Issuer and Affiliated Purchasers

The Company (or anyone acting on its behalf) did not purchase any of the Company s securities in 2006.

- 83 -

PART III**Item 17: Financial Statements**

Not applicable.

Item 18: Financial Statements

The following financial statements are filed as part of this Annual Report:

	<u>Page</u>
Reports of Independent Auditors	F-2 - F-3
Consolidated Balance Sheets	F-4 - F-5
Consolidated Statements of Operations	F-6
Statement of Changes in Shareholders' Equity	F-7 - F-8
Consolidated Statements of Cash Flows	F-9 - F-10
Notes to Consolidated Financial Statements	F-11 - F-50

The audited financial statements filed as part of this Form 20-F are identical to the audited financial statements that were filed as part of the Form 6-K on March 2, 2007, except for a correction of certain typographical errors.

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

Item 19: Exhibits

The following exhibits are filed as part of this Annual Report:

- 1.1 Memorandum of Association, as amended (incorporated by reference to Exhibit 1.1 of the Company's Annual Report on Form 20-F filed with the SEC on June 28, 2006).

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of

B.O.S. BETTER ONLINE SOLUTIONS LTD.

We have audited the accompanying consolidated balance sheets of B.O.S Better Online Solutions Ltd. (the Company) and subsidiaries as of December 31, 2006 and 2005, and the related consolidated statements of operations, changes in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the December 31, 2004 financial statements of Odem Electronic Technologies 1992 Ltd. (Odem), a subsidiary whose statements reflect total revenues for the period from November 18, 2004 (date of acquisition of Odem) to December 31, 2004 constituting 23.5% of the related consolidated total revenues. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to amounts included for Odem, is based solely on the reports of the other auditors. Those auditors expressed an unqualified opinion on those statements in their report dated March 25, 2005.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. We believe that our audits and the report of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries at December 31, 2006 and 2005, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2006, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2t to the consolidated financial statements, effective January 1, 2006, the Company adopted the provision of Statement of Financial Accounting Standard No. 123(R), Shared-Based Payment .

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of

ODEM ELECTRONIC TECHNOLOGIES 1992 LTD.

We have audited the consolidated balance sheets of Odem Electronic Technologies 1992 Ltd. (the Company) and its subsidiaries as of December 31, 2003 and 2004 and the related consolidated statements of operations, changes in shareholders' equity and cash flows for each of the years ended on those dates. These financial statements are the responsibility of the Company's Board of Directors and management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in Israel and the standards of the Public Company Accounting Oversight Board (United States), including those prescribed by the Israeli Auditors (Mode of Performance) Regulations, 1973. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Company's Board of Directors and management, as well as evaluating the overall financial statement presentation. We believe that our audit provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above, present fairly, in all material respects, the consolidated financial position of the Company and its subsidiaries as of December 31, 2003 and 2004 and the consolidated results of operations, changes in shareholders' equity and cash flows for each of the years ended on those dates, in conformity with accounting principles generally accepted in the United States of America.

NOTE 1: GENERAL

- a. B.O.S. Better Online Solutions Ltd. is an Israeli corporation (together with its subsidiaries the Company).

The Company manages its operations through two wholly-owned subsidiaries:

- BOScom Ltd. (BOScom) is engaged in the software solutions segment of the Company s business. BOScom was involved in cross platform printing solutions answering a demand for central printing and output management solutions in organizations which were sold during 2005 (see c); and
- Odem Electronic Technologies 1992 Ltd. (Odem) is engaged in the supply chain solutions segment of the Company s business. In September and November 2005, the Company purchased an additional 23.9% and 12.3%, respectively, of the outstanding shares of Odem. Following these purchases, the Company owns 100% of Odem. Odem is a solutions supplier of electronic components and systems to the technologies sector (see b).

BOS communication segment (the communication segment) included: BOScom s business of communication solutions which provide multi-path, intelligent routing voice over IP gateways and the Company s wholly-owned subsidiary Quasar Telecom (2004) Ltd. (Quasar), which provide communication solutions based on cellular technology. The assets and liabilities of this segment have been sold as part of the disposal of the communication segment in December 2005 (see d).

In addition, the Company holds shares in two other companies:

1. Surf Communication Systems Ltd. (Surf), a developer and supplier of access and network convergence software solutions to the wire line and wireless telecommunications and data communications industries. In June 2006, the Company invested \$300, following which, the Company holds 7.8% of Surf s issued and outstanding shares (see Note 6).
2. Qualmax Inc. (Qualmax), a U.S. public corporation listed on the Pink Sheets (QMXI.PK), and its subsidiaries New World Brands Inc. (OTC: NWBD.OB) and IPGear. Qualmax and its subsidiaries are developers and suppliers of voiceover IP technology products and services. The Company holds 18% of the issued and outstanding shares of Qualmax Inc. and Preferred shares in New World Brands Inc. that can be converted into 4.2% of New World Brands Inc. issued and outstanding shares. The Company s holdings in Qualmax were received as the consideration for the sale of the communication segment (see d).

NOTE 1: GENERAL (Cont.)

b. Business combination:

Acquisition of Odem:

On November 18, 2004 the Company purchased 63.8% of the outstanding shares of Odem, from Odem's existing shareholders. In consideration for Odem's shares the Company (i) issued 290,532 of the Company's Ordinary shares subject to lock-up periods of 2 to 4 years and (ii) paid an amount of \$1,971 in cash. In addition, Odem's selling shareholders and the Company had certain Put and Call options, based on performance, with respect to all of the remaining Odem shares held by such sellers, exercisable for a consideration comprised of additional cash and issuance of additional Ordinary shares of the Company. The Company recorded assets and liability with respect to these options at fair value. The Put option liability will be measured periodically until it expires or is exercised and the changes in the fair value will be charged to financial expenses.

On September 29, 2005 and November 1, 2005, the Company purchased an additional 23.9% and 12.3% of the outstanding shares of Odem respectively, from Odem's minority shareholders. Following these purchases, the Company owns 100% of Odem. In consideration for the 12.3% of Odem's shares purchased in November 2005 the Company paid \$554, in cash and for the 23.9% of Odem's shares purchase in September 2005 the Company (i) issued 232,603 of the Company's Ordinary shares subject to lock up periods of 2 to 4 years and (ii) an amount of \$716 to be paid in cash.

The Company's consolidated financial statements reflect the purchase price determined as follows:

	Odem			
	November 1, 2005	September 29, 2005	November 18, 2004	Total
Issuance of shares (1)	\$ -	\$ 532	\$ 769	\$ 1,301
Cash consideration	554	716	1,971	3,241
Transaction costs	19	54	139	212
Cancellation of Put and Call options	(33)	(104)	-	(137)
Total purchase price	\$ 540	\$ 1,198	\$ 2,879	\$ 4,617

- (1) The value of the Ordinary shares issued was determined based on the average market price of the Company's Ordinary shares over the period of two days before and after the terms of the transaction were agreed to and announced.

**B.O.S. BETTER ONLINE SOLUTIONS LTD.
AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 1: GENERAL (Cont.)

The Company has allocated the total purchase price in 2004 as follows:

Allocation of purchase price	Odem	Estimated useful life
Cash	\$ 586	
Tangible assets	780	
Put option to minority shareholders (2)	(359)	
Call option to minority shareholders (2)	230	
Customer list (1)	1,406	10 years
Deferred tax liability	(430)	
Goodwill	666	10 years
	<hr/>	
Total purchase price	\$ 2,879	
	<hr/>	

- (1) The Company's allocation of purchase price valued the acquired customer list by calculating cash flow benefit as a direct result of the customer relationship.
- (2) The Put and Call options were valued by using the Black-Scholes options pricing model.

The acquisitions have been treated using the purchase method of accounting in accordance with SFAS 141 Business Combinations. The purchase price has been allocated to the assets acquired and liabilities assumed based on their estimated fair value at the date of acquisition. The excess of the purchase price over the estimated fair value of the tangible and intangible assets acquired has been recorded as goodwill.

The Company has allocated the total cost of Odem acquisition in 2005 as follows.

Allocation of purchase price	November 1, 2005	September 29, 2005	Total	Estimated useful life
Tangible assets	\$ 340	\$ 681	\$ 1,021	
Customer list (1)	85	509	594	9 years
Deferred tax liability	(23)	(136)	(159)	
Goodwill	138	144	282	9 years
	<hr/>	<hr/>	<hr/>	

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

Total purchase price	\$	540	\$	1,198	\$	1,738
----------------------	----	-----	----	-------	----	-------

- (1) The Company's allocation of purchase price valued the acquired customer list by calculating cash flow benefit as a direct result of the customer relationship.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 1: GENERAL (Cont.)

c. Sale of product line:

On July 18, 2005, BOScom signed an asset purchase agreement with Consist Technologies Ltd. and Consist International Inc. (collectively, Consist), for the sale of its PrintBOS product line in consideration of \$500 and a contingent payment in each of the next three years equal to 6%-10% of future revenues exceeding \$1,000 per year, Consist will generate from the PrintBOS product line. The Company has recognized a gain of \$273 in 2005 with respect of this sale. As of December 31, 2005, the Company has received \$375 and the remaining \$125 has been placed in an escrow for a period of three years, pending repayment of royalties to the Office of the Chief Scientist (OCS) on sales of PrintBOS products. For the year ended December 31, 2006, total revenues generated by Consist from the PrintBOS products were less than \$1,000 and, therefore, the Company did not receive any royalties in 2006.

d. Discontinued operations:

1. Sale of communication segment:

On December 31, 2005, the Company sold its communication segment, including its property and equipment, goodwill, technology, trade name, existing distribution channels and related contingent liability to the Office of the Chief Scientist to IP Gear Ltd. (IP Gear), a wholly owned Israeli subsidiary of Qualmax. The consideration paid to the Company in the transaction was approximately 3.2 million Qualmax shares of Common stock constituting approximately 16% of Qualmax 's total issued and outstanding Common stock and \$800 in royalties to be paid at a rate of 4% from future revenues IP Gear will generate from the disposed segment (Royalties) with the entire \$800 due no later than 90 days from the third anniversary of the closing of the transaction. Additional shares may be issued to the Company at the end of four consecutive fiscal quarters following the closing of the transaction, contingent upon IP Gear generating by then a certain level of revenues from the disposed segment (Earn Out Shares). The maximum number of Earn Out Shares that may further be issued to the Company is approximately 1 million, constituting an additional 5% of Qualmax outstanding shares. In June 2006, the Company received 250,000 of Qualmax shares, valued at \$1.43 per share, as part of the Earn Out Shares consideration.

The Company received certain piggy-back registration rights with respect to the Qualmax shares. The Company does not have a representative on the Board of Qualmax.

F-14

**B.O.S. BETTER ONLINE SOLUTIONS LTD.
AND ITS SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

U.S. dollars in thousands (except for share and share data)

NOTE 1: GENERAL (Cont.)

In addition, the Company and IP Gear entered into an Outsourcing Agreement, pursuant to which the Company provided IP Gear with certain operating services relating to the sold communication segment through December 31, 2006. In accordance with the Outsourcing Agreement, the first three months of services were provided for no charge. For services rendered from April 2006 through December 2006, the Company charged IP Gear \$240, which was paid by issuing the Company Qualmax subsidiary's shares in December 2006, as part of an agreement signed by the parties (see below).

The Company also granted a bridge loan to IP Gear in the amount of \$1,000. The term of the loan is three years and it bears interest equal to the Prime rate plus 2.5%, up to a maximum of 12%. In the first 18 months, IP Gear shall pay only the interest accrued on the loan and monthly principal and interest payments shall commence thereafter. The loan granted to IP Gear is secured by a first priority floating charge, which may be subordinated to a charge in favor of a major financial institution in the event such charge is recorded. In addition, repayment is guaranteed by Qualmax Inc.

The loan agreement provides that if the disposed segment would incur in the first quarter of 2006, losses that exceed \$250, the principal amount to be repaid under the loan shall be reduced by the excess losses. In such event, Qualmax shall issue to the Company additional shares of Common stock against such reduction, valued at a predetermined price of \$1.43 per share. Pursuant to this provision, in May 2006, Qualmax issued to the Company 244,755 shares, at a price of \$1.43 per share, resulting in an amount of \$350. In June 2006, Qualmax issued BOS an additional 174,825 shares, reducing the principal amount of the loan to \$400 following which, the Company holds approximately 17.8% of Qualmax's total issued and outstanding Common stock. As part of the agreement signed between the parties in December 2006, the loan was fully repaid by issuance of additional shares of Qualmax (see below).

Qualmax also issued to the Company a five-year warrant for the purchase of up to 107,143 shares, constituting less than 1%, of its outstanding shares in Qualmax, at the exercise price of \$2.80 per share (Warrants). The Company received certain piggy-back registration rights with respect to the shares underlying the warrants.

The Company signed in December 2006 an agreement with Qualmax and its subsidiaries, New World Brands Inc. (NWB) and IP Gear, pursuant to which, the outstanding debt of Qualmax to the Company, in the amount of \$1,480 (which included long-term debt, outsourcing fees, royalties and other debts), was repaid to the Company through the issuance of 5,506,652 shares of series A Convertible Preferred stock of NWB which are convertible into approximately 16,450,000 shares of NWB Common stock, reflecting a conversion rate of \$0.09 per one share of Common stock. Conversion of the series A Preferred stock into Common stock will take place automatically upon effectiveness of an amendment to the NWB's certificate of incorporation authorizing an increase in the number of outstanding shares of Common stock. Following the conversion, the Company holds 18% in Qualmax and 4.2% in NWB. The Company's registration rights with respect to the Qualmax shares shall also apply to NWB shares.

F-15

**B.O.S. BETTER ONLINE SOLUTIONS LTD.
AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 1: GENERAL (Cont.)

In connection with the transaction, the Company agreed to grant NWB, contingent upon the satisfaction of certain conditions, a three-year option to purchase up to 30% of the NWB's shares held by the Company, at prices ranging from \$0.12 to \$0.24 per share of Common stock.

In addition, the Company agreed to enter into a lock up agreement, restricting the transfer of the share holdings in Qualmax and in NWB, for up to two years.

The Company accounts for its holdings in Qualmax shares on the cost basis since it is unable to exercise significant influence over Qualmax financial policies and since the shares held in Qualmax are restricted stock which do not meet the fair value availability criteria of FAS 115.

For the years ended December 31, 2006 and 2005, the Company's consolidated financial statements reflected a capital gain from the sale of the communication segment, which was determined as follows:

	Year ended December 31,	
	2006	2005
Consideration:		
Ordinary shares of Qualmax (1)	\$ 957	\$ 4,586
107,143 warrants (2)	-	104
5.50652 series A Preferred stock of NWB (3)	1,480	
Debt conversion (loan granted to IP Gear)	-	(1,000)
	2,437	3,690
Cost:		
Disposal of assets (liabilities) related to the communication segment	752	2,425
Transactions related costs	-	486
	752	2,911
Capital gain	\$ 1,685	\$ 779

(1) Valuated at \$1.43 per share.

(2) Valuated at \$0.97 per warrant.

(3)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 1: GENERAL (Cont.)

Following the agreement, signed in December 2006, under which the Company has accounted for the communication segment as a discontinued operation, in accordance with EITF 03-13 Applying the Conditions in Paragraph 42 of FASB Statement 144 in Determining Whether to Report Discontinued Operations. As such, the results of operations, including revenues, cost of revenues, operating expenses, and other income and expenses of the communication segment for 2005 and 2004, have been reclassified in the accompanying statements of operations as discontinued operations. The Company's balance sheet as of December 31, 2005 reflects the net assets and liabilities of the communication segment as assets and liabilities related to discontinued operations.

2. Discontinued product line:

On June 1, 1998, the Company acquired 100% of the share capital of Pacific Information Systems Inc. (PacInfo), a U.S. corporation. PacInfo was a reseller of computer networking products.

During the fourth quarter of 2002, the Company initiated a plan to cease operations of PacInfo.

The results of operations, including operating expenses and other income and expenses of PacInfo for 2004, have been reclassified in the accompanying statement of operations as discontinued operations. The Company's balance sheet at December 31, 2005 reflects the net assets and liabilities of PacInfo as assets and liabilities related to discontinued operations.

3. The carrying amounts of the major classes of assets and liabilities included as part of the discontinued operations are:

	December 31, 2005
Cash and cash equivalents	\$ 114
Trade receivables, net	355
Other accounts receivable and prepaid expenses	88
Inventories	3
Severance pay fund	30
Trade payables	(488)

**B.O.S. BETTER ONLINE SOLUTIONS LTD.
AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements are prepared according to United States generally accepted accounting principles (U.S. GAAP).

a. Use of estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

b. Financial statements in U.S. dollars:

A substantial portion of the Company's revenues is generated in U.S. dollar (dollars). In addition, most of the Company's costs are incurred in dollars. Company's management believes that the dollar is the primary currency of the economic environment in which the Company operates. Thus, the functional and reporting currency of the Company is the dollar.

Accordingly, monetary accounts maintained in currencies other than the dollar are remeasured into U.S. dollars in accordance with Statement 52 of the Financial Accounting Standards Board (FASB) Foreign Currency Translation . All transactions gains and losses from the remeasurement of monetary balance sheet items are reflected in the statement of operations as financial income or expenses as appropriate.

The financial statements of Odem, a subsidiary, whose functional currency as of December 31, 2004, was other than dollar have been translated into dollars, but on April 1, 2005, due to significant changes in circumstances initiated by management, like transition of Odem's majority of sales, expenses and budget from New Israeli Shekels (NIS) to dollars, indicate a functional currency change. Since the functional currency changed from a foreign currency to the reporting currency, dollars, as of March 31, 2005, the translation adjustments for non-monetary assets prior to the change, became the accounting basis for the periods starting April 1, 2005.

c. Principles of consolidation:

The consolidated financial statements include the accounts of the Company and its subsidiaries. Intercompany transactions and balances including profits from intercompany sales not yet realized outside the Company have been eliminated upon consolidation.

d. Cash equivalents:

Cash equivalents are short-term highly liquid investments that are readily convertible to cash originally purchased with maturities of less than three months.

F-19

**B.O.S. BETTER ONLINE SOLUTIONS LTD.
AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

e. Marketable securities:

The Company accounts for investments in debt securities in accordance with Statement of Financial Accounting Standard 115, Accounting for Certain Investments in Debt and Equity Securities (FAS 115). Management determines the appropriate classification of its investments in debt and equity securities at the time of purchase and reevaluates such determinations at each balance sheet date. Until November 30, 2005, debt securities have been classified as held-to-maturity since the Company had the positive intent and ability to hold the securities to maturity and they are stated at amortized cost. The amortized cost of held-to-maturity securities is adjusted for amortization of premiums and accretion of discounts to maturity. Such amortization and decline in value judged to be other than temporary and interest are included in financial income, net. Beginning December 1, 2005, the debt securities are classified as available-for-sale since the Company does not have the intent to hold the securities to maturity, and are stated at fair value. Due to the change in classification of the securities to available-for-sale , the unrealized holding gain at the date of transfer has been reported in other comprehensive income.

Available-for-sale securities are carried at fair value with unrealized gains, and are reported as a separate item under other comprehensive loss .

f. Inventories:

Inventory write-offs are provided to cover risks arising from slow-moving items or technological obsolescence. As of December 31, 2006 and 2005, inventory is presented net of \$100 and \$100, respectively, for technological obsolescence and slow moving items (see also Note 4).

Inventories are valued at the lower of cost or market value. Cost is determined as follows:

Raw and packaging materials - moving average cost method.

Products in progress and finished products - moving average cost method.

g. Grants and royalty-bearing grants:

Grants and royalty-bearing grants from the Chief Scientist of the Ministry of Industry and Trade in Israel for funding certain approved research and development projects are recognized at the time the Company is entitled to such grants, on the basis of the related costs incurred, and are presented as a deduction of research and development costs.

h. Investment in an affiliate:

An affiliate is a company in which the Company is able to exercise significant influence, but that is not a subsidiary and is accounted for by the equity method, net of write-down for decrease in fair value which is not of a temporary nature. The Company's investment in Surf has been included as an affiliate until September 30, 2005 (see Note 6).

F-20

**B.O.S. BETTER ONLINE SOLUTIONS LTD.
AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

The investment in an affiliate represents investments in Ordinary shares and Preferred shares of that company. The Company applies EITF 99-10, Percentage Used to Determine the Amount of Equity Method Losses. Accordingly, losses of the affiliate are recognized based on the ownership level of the particular security of the affiliate held by the Company.

The Company's investment in this company is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable, in accordance with Accounting Principle Board Opinion 18 The Equity Method of Accounting for Investments in Common Stock (APB 18). During 2005, an impairment of \$1,385 has been recorded in equity in losses of an affiliate in the statement of operations. In 2004, based on management's analysis, no impairment losses were identified.

i Investment in other companies:

Investment in other companies are investments in which the Company is unable to exercise significant influence over the investee's financial policies and which do not meet the fair value availability criteria of FAS 115 (Readily Determined Sales Price Currently Available on a Security Exchange), consequently such investments are accounted for by the cost method.

The Company's investment in such companies is reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable in accordance with APB 18. During 2006, an impairment loss of \$39 has been recorded. During 2005 and 2004, no impairment losses have been identified.

j. Property, plant and equipment:

Property, plant and equipment are stated at cost, net of accumulated depreciation. Depreciation is calculated by using the straight line method over the estimated useful lives of the assets, at the following annual rates:

	%	
Computers and software	20 - 33	(mainly 33%)
Office furniture and equipment	6 - 15	(mainly 10%)
Leasehold improvements	10	(over the shorter of the period of the lease or the life of the assets)
Vehicles	15	
Plant	4	
	F-21	

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

k. Impairment of long-lived assets:

The Company's long-lived assets are reviewed for impairment in accordance with Statement of Financial Accounting Standard 144 Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144) whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the future undiscounted cash flows expected to be generated by the assets. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. During 2006, 2005 and 2004, no impairment losses have been identified.

l. Goodwill:

Goodwill represents excess of the costs over the net assets of businesses acquired. SFAS 142 requires goodwill to be tested for impairment at least annually or between annual tests in certain circumstances, and written-down when impaired. Goodwill attributable to each of the reporting units is tested for impairment by comparing the fair value of each reporting unit with its carrying value. Fair value is determined using income and market approaches. Significant estimates used in the methodologies include estimates of future cash flows, future short-term and long-term growth rates, weighted average cost of capital and estimates of market multiples for each of the reportable units. During 2006, 2005 and 2004, no impairment losses have been identified.

m. Research and development costs:

Statement of Financial Accounting Standards 86 Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed, (SFAS 86) requires capitalization of certain software development costs subsequent to the establishment of technological feasibility. Based on the Company's product development process, technological feasibility is established upon completion of a working model. Research and development costs incurred in the process of developing product improvements or new products, are generally charged to expenses as incurred, net of participation of the Office of the Chief Scientist of the Israeli Ministry of Industry and Trade. Costs incurred by the Company between completion of the working model and the point at which the product is ready for general releases are insignificant.

n. Severance pay:

The Company's liability for severance pay for Israeli resident employees is calculated pursuant to the Israeli severance pay law based on the most recent salary of the employees multiplied by the number of years of employment as of the balance sheet date. Employees are entitled to one month's salary for each year of employment or a portion thereof. The Company's liability for its Israeli resident employees is covered by insurance policies designed solely for distributing severance pay. The value of these policies is recorded as an asset in the Company's balance sheet.

F-22

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

The insurance policies include profits accumulated up to the balance sheet date. The insurance policies may be withdrawn only upon complying with the Israeli severance pay law or labor agreements. The value of the deposited funds is based on the cash surrendered value of these policies and includes profits.

Severance expenses for 2006, 2005 and 2004 amounted to \$298, \$256 and \$214, respectively.

o. Revenue recognition:

The Company sells its products through direct sales, distributors and resellers channels.

The Company derives its revenues from the sale of products, license fees for its products, commissions, support and services.

Revenues from product sales are recognized in accordance with Staff Accounting Bulletin 104 - Revenue Recognition in Financial Statements (SAB 104) when delivery has occurred, persuasive evidence of an arrangement exists, the vendor's fee is fixed or determinable, no further obligation exists, and collectibility is reasonably assured.

Revenue from license fees is recognized in accordance with Statement of Position (SOP) 97-2 - Software Revenue Recognition , when persuasive evidence of an agreement exists, delivery of the product has occurred, no significant obligations with regard to implementation remain, the fee is fixed or determinable, and collectibility is probable. The Company generally does not grant a right of return to its customers. When a right of return exists, the Company defers revenue until the right of return expires, at which time revenue is recognized provided that all other revenue recognition criteria have been met.

Revenues support is recognized ratably over the period of the support contract. The fair value of the support is determined based on the price charged when it is sold separately or renewed.

Revenues from commissions are recognized upon their actual receipt, since under agreements with suppliers consideration is received on the basis of collection from customers.

p. Warranty:

BOScom provides a warranty of between 3 to 36 months at no extra charge, whereby defective hardware covered by the warranty should be sent back to the company. The Company estimates the costs that may be incurred under its warranty and records a liability in the amount of such costs at the time product revenue is recognized. Factors that affect the Company's warranty liability include the number of installed units, historical and anticipated rates of warranty claims, and cost per claim. The Company periodically assesses the adequacy of its recorded warranty liabilities and adjusts the amounts as necessary.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

q. Income taxes:

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No 109, Accounting for Income Taxes. This Statement prescribes the use of the liability method whereby deferred tax assets and liability account balances are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company has provided valuation allowances, in respect of deferred tax assets resulting from tax loss carryforward and other reserves and allowances due to its history of operating losses and current uncertainty concerning its ability to realize these deferred tax assets in the future.

r. Concentrations of credit risk:

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash and cash equivalents, trade receivables, other accounts receivable and marketable securities.

Cash and cash equivalents are invested mainly in U.S. dollars in deposits with major banks in Israel. Investments in marketable securities are conducted through a bank in Israel and include investments in corporate and governmental debentures. Management believes that the financial institutions that hold the Company's investments are financially sound, the portfolio is well diversified and, accordingly, minimal credit risk exists with respect to these investments.

The trade receivables of the Company are derived from sales to customers located primarily in Israel, United States, Europe and the Far East. The Company generally does not require collateral; however, in certain circumstances, the Company may require letters of credit, other collateral, additional guarantees or advanced payments. An allowance for doubtful accounts is determined with respect to specific debts that are doubtful of collection.

The loan granted to IP Gear is secured by a first priority floating charge, which may be subordinated to a charge in favor of a major financial institution in the event such charge is recorded. In addition, repayment is guaranteed by Qualmax Inc. (see Note 1d).

The Company has no off-balance-sheet concentrations of credit risk such as foreign exchange contracts, option contracts or other foreign hedging arrangements.

AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

- s. Basic and diluted net earnings (loss) per share:

Basic net earnings (loss) per share are calculated based on the weighted average number of Ordinary shares outstanding during each year. Diluted net earnings (loss) per share is calculated based on the weighted average number of Ordinary shares outstanding during each year, plus dilutive potential Ordinary shares considered outstanding during the year, in accordance with SFAS 128, Earnings Per Share .

The total number of shares related to the outstanding options and warrants excluded from the calculations of diluted net earnings (loss) per share, since they would have an anti-dilutive effect, were 1,386,424, 1,506,803 and 855,783 for the years ended December 31, 2006, 2005 and 2004, respectively.

- t. Accounting for share-based compensation:

On January 1, 2006, the Company adopted Statement of Financial Accounting Standards 123 (revised 2004),

Share-Based Payment (SFAS 123(R)) which requires the measurement and recognition of compensation expense based on estimated fair values for all share-based payment awards made to employees and directors. SFAS 123(R) supersedes Accounting Principles Board Opinion 25, Accounting for Stock Issued to Employees (APB 25), for periods beginning in fiscal 2006. In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin 107 (SAB 107) relating to SFAS 123(R). The Company has applied the provisions of SAB 107 in its adoption of SFAS 123(R).

SFAS 123(R) requires companies to estimate the fair value of equity-based payment awards on the date of grant using an option pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as an expense over the requisite service periods in the Company's consolidated statement of operations. Prior to the adoption of SFAS 123(R), the Company accounted for equity-based awards to employees and directors using the intrinsic value method in accordance with APB 25 as allowed under Statement of Financial Accounting Standards 123, Accounting for Share-based Compensation (SFAS 123).

The Company adopted SFAS 123(R) using the modified prospective transition method, which requires the application of the Accounting Standard starting from January 1, 2006, the first day of the Company's fiscal year 2006. Under that transition method, compensation cost recognized in the year ended December 31, 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the date of grant fair value estimated in accordance with the original provisions of SFAS 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the date of grant fair value estimated in accordance with the provisions of SFAS 123(R). Results for prior periods have not been restated.

AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

Prior to January 1, 2006, the Company applied the intrinsic value method of accounting for stock options as prescribed by APB 25, whereby compensation expense is equal to the excess, if any, of the quoted market price of the stock over the exercise price on the date of grant of the award.

The Company recognizes compensation expenses for the value of its awards granted subsequent to January 1, 2006 based on the straight line method over the requisite service period of each of the awards, net of estimated forfeitures. SFAS 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. Estimated forfeitures are based on actual historical pre-vesting forfeitures. For awards granted prior to January 1, 2006, the Company recognizes compensation expenses based on the accelerated attribution method over the requisite service period of each of the awards. Forfeitures were previously accounted for as they occurred, but have been estimated with the adoption of SFAS 123(R) for those awards not yet vested. The compensation expenses related to the stock options granted to employees, for the year ended December 31, 2006, was \$360.

As a result of adopting SFAS 123(R) on January 1, 2006, the Company's income before income taxes and net income for the year ended December 31, 2006, is \$370 lower than if it had continued to account for share-based compensation under APB 25. Basic and diluted net earnings per share for the year ended December 31, 2006, are \$0.06 and \$0.05, respectively, lower than if the Company had continued to account for share-based compensation under APB 25.

The Company estimates the fair value of stock options granted using the Black-Scholes options pricing model. The option-pricing model requires a number of assumptions, of which the most significant are expected stock price volatility and the expected option term. Expected volatility was calculated based upon actual historical stock price movements over the most recent periods ending on the date of grant, equal to the expected option term. The expected option term represents the average of the options contractual life and the vesting period in accordance with SAB 107 guidance. The risk-free interest rate is based on the yield from U.S. Treasury zero-coupon bonds with an equivalent term. The Company has historically not paid dividends and has no foreseeable plans to pay dividends.

The fair value for options granted in 2006 and 2005 is estimated on the date of grant using a Black-Scholes options pricing model with the following weighted average assumptions:

	December 31,	
	2006	2005
Risk free interest	4.91%	4.00%
Dividend yields	0%	0%
Volatility	78%	120%
Expected term (in years)	3	3

AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

u. Fair value of financial instruments:

The following methods and assumptions were used by the Company in estimating fair value disclosures for financial instruments:

The carrying amounts of cash and cash equivalents, trade receivables, other accounts receivable and trade payables approximate their fair value due to the short-term maturities of such instruments. The fair value for marketable securities is based on quoted market prices. The fair value of investments in other companies is based on independent third-party evaluations.

v. Impact of recently issued accounting pronouncements:

In June 2006, the FASB issued Interpretation 48 (FIN 48), Accounting for Uncertainty in Income Taxes (FIN 48), an interpretation of FASB Statement 109, Accounting for Income Taxes . The Interpretation addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under FIN 48, the Company may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the tax authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. FIN 48 also provides guidance on de-recognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. FIN 48 applies to all tax positions related to income taxes subject to SFAS 109. This includes tax positions considered to be routine as well as those with a high degree of uncertainty. FIN 48 specifically prohibits the use of a valuation allowance as a substitute for de-recognition of tax positions. The provisions of FIN 48 are effective beginning January 1, 2007. The Company is currently assessing the impact that FIN 48 will have on its consolidated financial statements.

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS 157, Fair Value Measurements (SFAS 157). This Standard defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. The Company is currently assessing the impact that SFAS 157 will have on its consolidated financial statements.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES (Cont.)

In February 2007, the FASB issued SFAS 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 permits companies to choose to measure certain financial instruments and certain other items at fair value. The Standard requires that unrealized gains and losses on items for which the fair value option has been elected be reported in earnings. SFAS 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years, although earlier adoption is permitted. The Company is currently assessing the impact that SFAS 159 will have on its consolidated financial statements

Corporate debentures	\$ -	\$ -	\$ -	\$ 1,332	\$ 1	\$ -	\$ 1,333

NOTE 6: INVESTMENT IN OTHER COMPANIES

a. Investment in Surf Communication Systems Ltd.:

In November 2001, the Company invested \$1,000 as part of a private placement in Surf Communication Systems Ltd. (Surf). At the same time, the Company converted its convertible loan in the amount of \$1,042 (principal and accrued interest) into Preferred shares of Surf at an exercise price equal to Surf's fair value as determined in the investment agreement. As a result of this private placement, the Company's holding in Surf was diluted to 17%. Accordingly, the investment was accounted based on the cost accounting method.

In March 2003, the Company engaged with Catalyst Investors L.P. (Catalyst), in order to purchase additional 191,548 series C Preferred shares of Surf. In consideration, the Company issued to Catalyst 633,102 Ordinary shares, at a purchase price of \$2.77, aggregating to \$1,755 and incurred transaction cost of \$155. The value of the Ordinary shares issued was determined based on the average market price of the Company's Ordinary shares over the period including two days before and after the terms of the transaction were agreed to and announced.

As a result of this investment, the Company had the ability to exercise significant influence over Surf. As a result, the investment in Surf had become qualified to be accounted for under the equity method. According to APB 18, when an investment qualifies for use of the equity method, the investor should adopt the equity method of accounting by adjusting retroactively the investment, results of operations (current and prior periods presented), and retained earnings, in a manner consistent with the accounting for a step-by-step acquisition of a subsidiary.

In September 2005, Surf entered into a private placement that is considered an event of change in circumstances having a significant adverse effect on the fair value of the investment. Therefore, the Company has evaluated its investment in Surf and determined that it amounts to \$722 as of December 31, 2005 based on management's analysis (supported by an independent third-party valuation). As a result, the Company has recorded an impairment of \$1,385, which has been included in the equity in losses of an affiliate in the statement of operations for the year December 31, 2005.

NOTE 6: INVESTMENT IN OTHER COMPANIES (Cont.)

In June 2006, as part of the investment round, the Company invested \$300 in Surf, following which, the Company holds 7.8% of Surf's issued and outstanding shares.

Moreover, following the private placement in Surf, the Company's voting rights have been diluted to 8.7% of the total voting rights in Surf. As a result, the Company ceased to have the ability to exercise significant influence over Surf and, accordingly, the adjusted carrying amount of the investment of \$722 is accounted for based on the cost accounting method.

Summarized combined financial information of Surf for the years in which the investment was accounted using the equity method was as follows:

	Year ended December 31,	
	2005	2004
Revenues	\$ 2,055	\$ 2,762
Cost of sales	\$ 660	\$ 700
Operating expenses from continuing operations	\$ 3,694	\$ 4,037
Net loss	\$ 2,334	\$ 1,971

b. The Company's investments in companies comprise of:

NOTE 13: LONG-TERM CONVERTIBLE NOTE

On June 10, 2004, the Company entered into a Securities Purchase Agreement (the Purchase Agreement), with Laurus Master Fund Ltd. (the Investor), under which the Company issued to the Investor in a private placement (i) a Secured Convertible Term Note of a \$2,000 principal amount, due June 10, 2007 (the Note); and (ii) a warrant to purchase 130,000 Ordinary shares at an exercise price of \$4.04 per share (the Warrant). According to the agreement, several fees in the amount of \$115 were paid to the Investor. These fees are presented as discount of the principal convertible loan. The Note is convertible into Ordinary shares at a price of \$3.08 per share. The principal amount of the Note is repayable in monthly installments, commencing September 2004, in the initial amount of \$20 eventually increasing to \$74. The Note bears prime interest rate plus 3% which subject to reduction in certain conditions. The Warrant is exercisable, in whole or in part, until June 10, 2011. Pursuant to its undertaking in the Registration Rights Agreement with the Investor the Company filed with the Securities and Exchange Commission a registration statement on Form F-3 covering the resale of Ordinary shares that are issuable upon conversion of

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

the Note and/or exercise of the Warrants, and/or issuable in payment of principal and interest on the Note. The Registration Rights Agreement provided that any delay in registration and/or effectiveness of the underlying shares of the transaction, or failure to maintain their effectiveness, will result in penalties to be paid in cash, as liquidated damages. The registration statement became effective on March 11, 2005. Due to the delay in the effectiveness of the registration of the shares, the Company paid the Investor liquidated damages of \$ 92.

F-34

**B.O.S. BETTER ONLINE SOLUTIONS LTD.
AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 13: LONG-TERM CONVERTIBLE NOTE (Cont.)

The Note conversion price is subject to proportional adjustment in the event of stock splits, combinations, subdivisions of the Ordinary shares or if dividend is paid on the Ordinary shares in Ordinary shares. In addition, if the Company issues stock in certain types of transactions at a price lower than the initial conversion price, then the conversion price will be adjusted to a lower price based on a weighted average formula.

The fair value of the warrants was calculated using the Black-Scholes options pricing model with the following assumptions: a risk-free interest rate of 3.34%, a dividend yield of 0%, a volatility of the expected market price of the Company's Ordinary shares of 100% and a weighted-average contractual life of 7 year. The fair value of the warrants in the amount of \$99 is presented as a component in shareholders' equity. Since the effective conversion price was greater than the share price at the commitment date, no beneficial conversion feature exists.

In March 2005, the Investor elected to convert \$308 of the Convertible note principal into 100,000 Ordinary shares of the Company. Due to the private placement agreement secured by the Company in June 2005, the conversion price was adjusted to \$2.94 per share, and in July 2005, the Investor completed the conversion of the balance of the Convertible Note principal, which had not been previously converted or repaid, and the accrued interest into an additional 540,293 Ordinary shares for approximately \$1,580.

In September 2005, the Company entered into a Second Securities Purchase Agreement (the Second Purchase Agreement) with the Investor, under which the Company issued to the Investor in a private placement (i) a Secured Convertible Term Note of a \$1,500 principal amount, due September 2008 (the Note), and (ii) a warrant to purchase 73,052 ordinary shares at an exercise price of \$4.04 per share (the Warrant). According to the Second Agreement, several fees in the total amount of \$116 were paid to the Investor. These fees are presented as a discount of the principal convertible loan. The Note is convertible into Ordinary shares at a price of \$3.08 per share. The principal amount of the Note is repayable in monthly installments, commencing as of January 2006, in the initial amount of \$15 eventually increasing to \$55. The Note bears prime interest rate plus 1.5% which is subject to reduction under certain conditions. The Warrant is exercisable, in whole or in part, until September 29, 2012. Pursuant to its undertaking in the Registration Rights agreement with the Investor, the Company filed with the Securities and Exchange Commission a registration statement on Form F-3 covering the resale of Ordinary shares that is issuable upon conversion of the Note and/or exercise of the Warrants, and/or issuable in payment of principal and interest on the Note. The Registration Rights agreement provided that any delay in registration and/or effectiveness of the underlying shares of the transaction, or failure to maintain their effectiveness, will result in penalties to be paid in cash, as liquidated damages. The registration statement became effective on February 8, 2006.

The note conversion price is subject to proportional adjustment in the event of stock splits, combinations, subdivisions of the Ordinary shares or if dividend is paid on the Ordinary shares in Ordinary shares. In addition, if BOS issues stock in certain types of transactions at a price lower than the initial conversion price, then the conversion price will be adjusted to a lower price based on a weighted average formula.

NOTE 13: LONG-TERM CONVERTIBLE NOTE (Cont.)

The fair value of the warrants was calculated using the Black-Scholes options pricing model with the following assumptions: a risk-free interest rate of 4.08%, a dividend yield of 0%, a volatility of the expected market price of the Company's Ordinary shares of 100% and a weighted-average contractual life of seven years. The fair value of the warrants in the amount of \$144 is offset against the note, amortized over the period of the note and presented as a component in shareholders' equity.

On August 17, 2006 the Company entered into a Third Securities Purchase Agreement (the Third Agreement) with the investor under which the Company issued to the Investor in a private placement (i) a third Convertible Term Note of a \$1,500 principal amount, due August 2009 (the Note), and (ii) a warrant to purchase 73,052 Ordinary shares at an exercise price of \$4.04 per share (the Warrant). The Note is convertible into Ordinary shares at a price of \$3.08 per share for the first 500,000 and \$4.08 for any additional amount payable thereunder. The principal amount of the Note is repayable in monthly installments, commencing as of December 2006, in the initial amount of \$15 eventually increasing to \$55. The Note bears prime interest rate plus 1.5% which is subject to reduction under certain conditions. The Warrant is exercisable, in whole or in part, until August 16, 2013 at an exercise price of \$4.04 for the first 24,351 Ordinary shares acquirable thereunder, and of \$5.30 per share for the additional 48,701 acquirable thereunder. Pursuant to its undertaking in the Registration Rights agreement with the Investor, the Company filed with the Securities and Exchange Commission a registration statement on Form F-3 covering the resale of Ordinary shares that is issuable upon conversion of the Note and/or exercise of the Warrants, and/or issuable in payment of principal and interest on the Note. The Registration Rights agreement provided that any delay in registration and/or effectiveness of the underlying shares of the transaction, or failure to maintain their effectiveness, will result in penalties to be paid in cash, as liquidated damages. The registration statement became effective on December 5, 2006.

The fair value of the warrants was calculated using the Black-Scholes options pricing model with the following assumptions: a risk-free interest rate of 4.83%, a dividend yield of 0%, a volatility of the expected market price of the Company's Ordinary shares of 80% and a weighted-average contractual life of seven years. The fair value of the warrants in the amount of \$131 is offset against the note, amortized over the period of the note and presented as a component in shareholders' equity.

The maturity of the loans is as follows:

	December 31,	
	2006	2005
First year (current maturities)	\$ 1,139	\$ 326
Second year	1,104	663
Third year	331	496
	2,574	1,485
Less discount	264	238
	\$ 2,310	\$ 1,247

NOTE 14: COMMITMENTS AND CONTINGENT LIABILITIES

a. Commitments:

1. Royalty commitments:

- a) Under the Company's research and development agreements with the Office of the Chief Scientist (OCS) and pursuant to applicable laws, the Company is required to pay royalties at the rate of 3.5% of sales of products developed with funds provided by the OCS, up to an amount equal to 100% of the research and development grants (dollar-linked) received from the OCS. The obligation to pay these royalties is contingent upon actual sales of the products. Royalties payable with respect to grants received under programs approved by the OCS after January 1, 1999, are subject to interest on the U.S. dollar-linked value of the total grants received at the annual rate of LIBOR applicable to U.S. dollar deposits at the time the grants are received.

As of December 31, 2006, the Company has an outstanding contingent obligation to pay royalties in the amount of approximately \$3,430, in respect of these grants.

- b) The Israeli Government, through the Overseas Marketing Fund, awarded the Company grants for participation in expenses for overseas marketing. The Company is committed to pay royalties to the Fund for Encouragement of Marketing Activities at the rate of 3% of the increase in export sales, up to the amount of the grants received by the Company linked to the dollar and bearing interest of LIBOR.

As of December 31, 2006, the Company has an outstanding contingent obligation to pay royalties of \$89 with respect to these grants.

2. Other commitments:

The facilities of the Company are rented under operating lease agreements that expire on various dates ending in 2009. Minimum future rental payments for 2007, 2008 and 2009 are \$39, 14 and \$14 respectively.

The Company's motor vehicles are rented under various cancelable operating lease agreements. The lease agreements for the motor vehicles expire on various dates ending in 2008. The maximum breach of contract fees can amount to \$40.

Lease payments for the facilities occupied by the Company and the Company's motor vehicles in 2006, 2005 and 2004 amounted to \$343, \$408 and \$385, respectively.

NOTE 14: COMMITMENTS AND CONTINGENT LIABILITIES (Cont.)

- b.
 1. In July 2002, the Company received a claim letter from a car leasing vendor, under which it claims that the Company's termination notice of the leasing agreement in March 2002 constitutes a breach of the agreement and the vendor is demanding compensation in which the nominal claim amount is of \$292. No legal proceeding has yet been filed. At this stage, according to the Company's legal counsel assessment, the prospects of vendor to prevail and recover a significant amount seem remote. The financial statements do not include any provision in that regard.
 2. In 1998, as part of PacInfo Share Purchase Agreement between the Company and Mr. Lee and Ms. Lee (the Sellers), the Company may be obligated to grant the Sellers a loan on a full recourse basis for certain tax payments the Sellers may be liable for and reimburse the Sellers for certain interest on taxes that they may owe, currently estimated at approximately \$2 million. The Company will receive a security interest in shares of the Company that the Sellers holds at the time of the loan with a fair market value as of the date of the loan of at least 125% of the amount of the loan as security for the repayment of the loan. It is possible that the windup of PacInfo during 2002 and 2003 may have triggered such a tax event for the Sellers, which would result in an obligation by the Company to lend the Sellers such amount and to reimburse them for interest expenses incidental to the tax event. Based on the Company's legal counsel opinion and management estimation, no provision was recorded.
 3. In March 2006, BOSNOVA EURL, a French company and former distributor of the Company, filed against the Company and others a claim with the French Tribunal. The claim is in the amount of 1.4 million and it alleges breach of exclusive distributor rights in France. This claim follows a previous motion for temporary injunctive relief that was filed against the Company's new French distributor, said motion was ultimately denied by French Trade Tribunal. The Company assesses the prospects of the claimant to prevail and recover a significant amount, as remote. The financial statements include a provision in the respect.

NOTE 15: SHAREHOLDERS EQUITY

a. Private placement:

In June 2005, the Company completed a private placement for the Company's Ordinary shares. The Company issued to the investors 953,743 Ordinary shares at a purchase price of \$2.30 per share, for a consideration of approximately \$2,040 (net of \$154 of issuance expenses).

The private placement included warrants of 572,219 for Ordinary shares. The exercise price of the warrants is \$2.50 per Ordinary share during the first year from their issue date, and increasing to \$2.75 per Ordinary share and \$3.03 per Ordinary share, on the first and second anniversaries of the issue date, respectively. The warrant is exercisable, in whole or in part during a period of three years from issuance of the warrants. Pursuant to its undertaking in the Registration Rights Agreement, the Company filed with the Securities and Exchange Commission a registration statement on Form F-3 covering the Ordinary shares (including those underlying the warrants). The registration statement became effective with no delay on February 8, 2006.

The Company's outstanding warrants to shareholders as of December 31, 2006 are as follows:

Issuance date	Warrants for Ordinary shares	Exercise price per share	Warrants exercisable	Exercisable through
June 2005	441,785	\$ (*)	441,785	June 2008
July 2005	130,434	\$ (*)	130,434	June 2008
	572,219		572,219	

*) The exercise price of the warrants is \$2.50 per Ordinary share during the first year from their issue date, and increasing to \$2.75 per Ordinary share and \$3.03 per Ordinary share, on the first and second anniversaries of the issue date.

b. Stock option plans:

In May 2003, the Company's shareholders approved the adoption of the 2003 Stock Option Plan, pursuant to which 625,000 Ordinary shares are reserved for purchase by employees, directors, consultants and service providers of the Company. In June 2005, the Company's shareholders approved an increase of the number of Ordinary shares reserved for issuance under the 2003 Stock Option Plan, to 1,000,000. In May 2006, the Company's shareholders approved an increase of the number of Ordinary shares reserved for issuance under the 2003 Stock Option Plan, to 1,500,000. Any option which is canceled or forfeited before expiration, will become available for future grants.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 15: SHAREHOLDERS EQUITY (Cont.)

As of December 31, 2006, an aggregate 200,073 of these options are still available for future grants. Each option granted under the Plans expires between 3-10 years from the date of the grant. The options vest gradually over a period of up to up to four years.

During 1994, 1995, 1999, 2000, 2001, the Company's Board adopted stock option plans (the Plans) pursuant to which 656,250 options for the purchase of the Company's Ordinary shares may be granted to officers, directors, consultants and employees of the Company. The Board has resolved that no further grants shall be made from these Plans.

A summary of employee option activity under the Company's stock option plans as of December 31, 2006, 2005 and 2004 and changes for the years then ended are as follows:

	Year ended December 31,					
	2006		2005		2004	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price
Options outstanding at beginning of year	400,250	\$ 4.77	430,576	\$ 9.47	426,252	\$ 11.93
Changes during the year:						
Granted	535,237	\$ 2.67	107,000	\$ 2.91	92,500	\$ 0.54
Exercised	(68,747)	\$ 1.98	(25,088)	\$ 2.00	-	\$ -
Forfeited or cancelled	(44,080)	\$ 10.68	(112,238)	\$ 21.66	(88,176)	\$ 11.97
Options outstanding at end of year	822,660	\$ 3.36	400,250	\$ 4.77	430,576	\$ 9.47
Options exercisable at end of year	162,423	\$ 7.29	217,750	\$ 7.40	248,790	\$ 5.49

The weighted-average date of grant fair value of options granted during the years ended December 31, 2006, 2005 and 2004 were \$1.45, \$2.13 and \$2.58, respectively.

As of December 31, 2006, there was \$611 of total unrecognized compensation cost related to non-vested share-based compensation arrangements granted to employees and directors under the Company's Plans. That cost is expected to be recognized over a weighted-average period of 1.5 years.

On November 18, 2004, upon acquisition of Odem, the Company granted 73,000 options to one of Odem's key employee. Each option can be exercised to purchase one Ordinary share of the Company without consideration. The options vest at the end of three years from the date of grant and expire ten years from the date of the grant. The market price of the Company's shares on the date of grant was \$2.5. Accordingly, the Company recorded in the year ended

Edgar Filing: BOS BETTER ONLINE SOLUTIONS LTD - Form 20-F

December 31, 2005, a compensation expense of \$62. This expense was included as part of general and administrative expenses.

F-40

**B.O.S. BETTER ONLINE SOLUTIONS LTD.
AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 15: SHAREHOLDERS EQUITY (Cont.)

As part of the disposition of the communication segment and the PrintBOS product line, the Company extended the options contractual life of employees who became the buyers' employees. As a result, the Company recorded an expense of \$104 in 2005 which was offset from the capital gain derived from the sale of this segment and product line in 2005.

On May 18, 2006, the shareholders approved to grant a bonus of 21,666 Ordinary shares to the Chairman of the Company's Board at no consideration. The fair value of the shares granted was \$60 at the date of grant.

Except for these options, all other options granted to employees in 2006, 2005 and 2004, have an exercise price equal to or higher than the market value of the Ordinary shares at the date of grant.

The options granted to employees outstanding as of December 31, 2006 have been separated into ranges of exercise prices, as follows:

Range of exercise price	Options outstanding as of December 31, 2006	Weighted average exercise price	Weighted average remaining contractual life (years)	Options exercisable as of December 31, 2006	Weighted average exercise price of options exercisable
\$ 0	73,000	\$ 0.00	7.99	-	\$ 0.00
\$ 1.84-2.00	67,961	\$ 1.89	3.00	67,961	\$ 1.89
\$ 2.28-3.08	628,237	\$ 2.70	5.18	41,000	\$ 2.46
\$ 6.8	26,137	\$ 6.80	1.34	26,137	\$ 6.80
\$ 18.00	750	\$ 18.00	2.36	750	\$ 18.00
\$ 28.00	26,575	\$ 28.00	1.35	26,575	\$ 28.00
	822,660	\$ 3.36	5.01	162,423	\$ 7.29

c. Options issued to service providers:

The Company accounts for these options in accordance with the provisions of SFAS 123 and EITF 96-18. The fair value for these options was estimated at the date of grant using Black-Scholes options pricing model with the following assumptions for the years ended December 31, 2006 and 2005: risk-free interest rate of 4.9% and 1.5%, respectively, dividend yields of 0% and 0%, respectively, volatility of 77% and 70%, respectively, and an expected life of 4.2 years and 2.5 years, respectively.

The compensation expenses that have been recorded in the consolidated financial statements regarding these stock options for the years ended December 31, 2006, 2005 and 2004 were \$116, \$348 and \$117 respectively.

On May 18, 2006, the shareholders approved to grant a bonus of 65,000 Ordinary shares to the Company's former President and CEO at no consideration. The fair value of the shares granted was \$180 at the date of grant.

NOTE 16: TAXES ON INCOME

a. Reduction in corporate tax rate:

In June 2004, an amendment to the Income Tax Ordinance (No. 140 and Temporary Provision), 2004 was passed by the Knesset (Israeli parliament) and on July 25, 2005, another law was passed, the amendment to the Income Tax Ordinance (No. 147) 2005, according to which the corporate tax rate is to be progressively reduced to the following tax rates: 2004 - 35%, 2005 - 34%, 2006 - 31%, 2007 - 29%, 2008 - 27%, 2009 - 26%, 2010 and thereafter - 25%.

The Odem operation is subject to regular income tax rate while the Company and BOScom enjoy the status of an Approved Enterprise, as described below.

b. Tax benefits under the Law for the Encouragement of Capital Investments, 1959 (the Investment Law):

The Company's production facilities have been granted an Approved Enterprise status under the Investment Law, with respect to four separate investment programs. According to the Investments Law, the Company has elected to receive for the first program state-guaranteed loans and grants and for the second and third programs, the Company has elected to receive only state-guaranteed loans. As for the fourth program, the Company has elected the alternative benefits and has waived Government grants in return for a tax exemption.

AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 16: TAXES ON INCOME (Cont.)

The Company is also a Foreign Investors Company, as defined by the above mentioned law, and as such, is entitled to a 10-year period of benefits and to an additional reduction in tax rates, up to 10% or 25% (based on the percentage of foreign ownership in each taxable year).

Income from the second, third and fourth programs, which commenced operations in 1992, 1994, 1997, respectively, may be exempt from income tax for a period of ten years commencing with the first year in which they generate taxable income. During 2002, as part of the transfer of operations from the Company to BOScom, all tax benefits that were related to the Approved Enterprise of the Company were transferred to BOScom. In addition, since 2002, the Company's investments are not subject to the Approved Enterprise program. Accordingly, taxable income generated in that period will be split according to the assets ratio method into a taxable income that is entitled to the benefits of the Approved Enterprise and into an income that will be taxed at the regular corporate tax rate as described in article a above.

BOScom also has a production facility, which was granted an Approved Enterprise status and had a separate investment program. BOScom elected to receive the alternative benefits. Income derived from BOScom's investment programs, which commenced operations in 1997 and 2002, may be exempt from income tax for a period of ten years commencing with the first year in which taxable income is generated.

The period of tax benefits detailed above is subject to limits of the earlier of 12 years from commencement of production, or 14 years from receiving the approval. Accordingly, the period of benefits relating to all investment programs expire in 2001 through 2014.

The entitlement to the above benefits is conditional upon the Company's and BOScom's fulfilling the conditions stipulated by the above law, regulations published thereunder and the instruments of approval for the specific investments in Approved Enterprises. In the event of failure to comply with these conditions, the benefits may be canceled and the Company and BOScom may be required to refund the amount of the benefits, in whole or in part, including interest. The management believes that the companies are meeting the aforementioned conditions.

The tax-exempt income attributable to the Approved Enterprise can be distributed to shareholders without imposing tax liability on the Company only upon the complete liquidation of the Company. In the event of a distribution of such tax-exempt income as a cash dividend in a manner other than in the complete liquidation of the Company and BOScom, the Company and BOScom will be required to pay tax at the rate of 10% to 25% on the amount distributed (based on the percentage of foreign ownership in each taxable year). In addition, these dividends will be subject to 15% withholding tax.

As of December 31, 2006, the Company and BOScom have not yet utilized any tax benefit since they have not generated any taxable income.

**B.O.S. BETTER ONLINE SOLUTIONS LTD.
AND ITS SUBSIDIARIES**

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

U.S. dollars in thousands (except for share and share data)

NOTE 16: TAXES ON INCOME (Cont.)

If the Company and BOScom derive income from sources other than an Approved Enterprise, such income will be taxable at the regular corporate tax rate as described in a above.

On April 1, 2005, an amendment to the Investment Law came into effect (the Amendment) and has significantly changed the provisions of the Investment Law. The Amendment limits the scope of enterprises which may be approved by the Investment Center by setting criteria for the approval of a facility as an Approved Enterprise, such as provisions generally requiring that at least 25% of the Approved Enterprise's income will be derived from export. Additionally, the Amendment enacted major changes in the manner in which tax benefits are awarded under the Investment Law so that companies no longer require Investment Center approval in order to qualify for tax benefits. However, the Investment Law provides that terms and benefits included in any certificate of approval already granted will remain subject to the provisions of the Investment Law as they were on the date of such approval. Therefore, the Israeli subsidiary's existing Approved Enterprise will generally not be subject to the provisions of the Amendment. As a result of the amendment, tax-exempt income generated under the provision of the new law will subject the Company to taxes upon distribution or liquidation and the Company may be required to record deferred tax liability with respect to such tax-exempt income. As of December 31, 2006, the Company did not generate income subject to the provision of the new law.

c. Loss carryforward:

Domestic (Israel):

The Company and its Israeli subsidiary have accumulated losses for Israel income tax purposes as of December 31, 2006, in the amount of approximately \$30,985. These losses may be carryforward (linked to the Israeli Consumer Price Index (CPI)) and offset against taxable income in the future for an indefinite period.

Foreign:

As of December 31, 2006, the U.S. subsidiaries which were classified as discontinued operations had U.S. Federal and State net operating loss carryforward of approximately \$10,265, that can be carried forward and offset against taxable income and expire through 2022. Utilization of U.S. net operating losses may be subject to substantial annual limitations due to the change in ownership provisions of the Internal Revenue Code of 1986 and similar state law provisions. The annual limitations may result in the expiration of net operating losses before utilization.

As of December 31, 2006, BOS UK had net operating loss carryforward of approximately \$3,500. In February 2006, the Company filed with the UK Companies House an application to dissolve BOS UK.

NOTE 18: SEGMENTS AND GEOGRAPHICAL INFORMATION

Commencing 2006 and subsequent to the disposal of the communication segment in 2006 and the acquisitions of Odem and Quasar, the Company manages its business with two reportable segments, consisting of the software solutions segment (previously named the connectivity segment) and the supply chain solutions segment (previously named the electronic components segment).

The Company's management makes financial decisions and allocates resources, based on the information it receives from its internal management system. The Company allocates resources and assesses performance for each operating segment using information about revenues, gross profit and operating income (loss) before interest and taxes.

- a. Revenues, gross profit and operating income (loss) for the operating segments for the years 2006, 2005 and 2004 were as follow:

	<u>Software solutions</u>	<u>Supply chain solutions</u>	<u>Not allocated</u>	<u>Consolidated</u>
2006				
Revenues	\$ 2,058	\$ 18,859	\$ -	\$ 20,917
Gross profit	\$ 1,341	\$ 3,376	\$ -	\$ 4,717
Operating loss	\$ (35)	\$ (64)	\$ (957)	\$ (1,056)
Assets related to segment	\$ 243	\$ 13,700	\$ 10,586	\$ 24,529
2005				
Revenues	\$ 3,926	\$ 20,253	\$ (80)	\$ 24,099
Gross profit	\$ 2,425	\$ 3,820	\$ -	\$ 6,245
Operating income (loss)	\$ 235	\$ 727	\$ (702)	\$ 260
Assets related to segment	\$ 391	\$ 11,535	\$ 10,720	\$ 22,646
2004				
Revenues	\$ 5,011	\$ 1,908	\$ -	\$ 6,919
Gross profit	\$ 2,933	\$ 327	\$ -	\$ 3,260
Operating income (loss)	\$ 1,009	\$ 66	\$ (770)	\$ 305
Assets related to segment	\$ 616	\$ 8,880	\$ 10,592	\$ 22,088

NOTE 19: RELATED PARTIES

M&A Addendum to the Service Agreement of Cukierman & Co.

In 2003, the Company's audit committee and Board approved the engagement of Cukierman & Co. Investment House Ltd., to provide non-exclusive investment-banking services and business development services to the Company, effective April 15, 2003. Cukierman & Co. is a company indirectly controlled by Mr. Edouard Cukierman. Since June 26, 2003, he serves as Chairman of the Company's Board, and he is also a co-manager of the Catalyst Fund, the Company's largest shareholder. For its services, Cukierman & Co. is paid a monthly sum of \$10,000 plus VAT, in addition to a success fee of 4%-6% for a consummated private placement. According to its terms, the Company may terminate the agreement at any time, by giving one month prior written notice. The agreement provided that the success fees for securing M&A transactions shall be discussed and drafted as an Addendum to the Service Agreement. Such an Addendum was approved on August 22, 2004, and it provides for a success fee of 3.5% of the proceeds exchanged in such a transaction.

The payments the Company paid according to the Service Agreement are:

	December 31,	
	2006	2005
Business development	\$ 120	\$ 109
Success fee in respect of issuance of convertible loan, investment in Odem and private placements	75	397
	\$ 195	\$ 506

Current liabilities in respect of related parties as of December 31, 2006 and 2005 were \$13 and \$23, respectively.

NOTE 20: SUBSEQUENT EVENT

Right offering:

On March 11, 2007, the Company announced that the registration statement previously filed by BOS with the Securities and Exchange Commission and the Israel Securities Authority, has been declared effective on March 8, 2007. All of the Company's shareholders, who own shares as of March 19, 2007, the record date, will be entitled to participate in a \$5 million right offering, and receive one right for each 3.3724 Ordinary shares owned on the record date. Each right will entitle the holder to purchase one Ordinary share, at a subscription price of \$2.50.
