Optus Selects Gilat's Cellular Solution to Extend 3G Coverage to Rural Areas in Australia

Gilat's innovative small-cell-over-satellite solution, CellEdge SDR, enables excellent user experience and efficient provision of broadband services

Petah Tikva, Israel, September 14, 2016 -- Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that Optus, an Australian leader in integrated telecommunications, selected Gilat's CellEdge SDR small-cell-over-satellite solution to extend 3G cellular coverage to regional and remote areas in Australia.

By choosing Gilat's CellEdge SDR (Software Defined Radio), Optus aims to extend its 3G mobile network areas along some of the major highways of the Northern Territory and Western Australia, providing a 'check in' capability. Gilat provides an integrated solution, which combines small cell and VSAT functionality, and allows cost effective and fast deployment of cellular coverage.

"Gilat's small-cell-over-satellite solution enables us to provide mobile connectivity to unserved and underserved areas," said Paul Sheridan, Vice President, Optus Satellite. "It is an innovative and cost effective solution to address our requirements for delivering a high quality user experience, under challenging environmental conditions in regional Australia."

"Gilat's solution will enable Optus to expand mobile services quickly and affordably," added Oded Sheshinski, RVP Asia-Pacific at Gilat. "This success further strengthens our leadership in the cellular LTE market and opens up additional opportunities for integrated small-cell-over-satellite solutions."

About Optus

Optus is an Australian leader in integrated telecommunications, delivering cutting-edge communications, information technology and entertainment services. In 2001 Singtel became the parent company of Optus, paving the way to become a strong and strategic telecommunications player within the Asia-Pacific region. With more than 130 years of operating experience the Singtel Group is Asia's leading communications group providing a wide spectrum of multimedia and infocomms technology (ICT) solutions, including voice, data and video services over fixed and wireless platforms.

About Gilat

Gilat Satellite Networks Ltd (NASDAQ, TASE: GILT) is a leading provider of products and services for satellite-based broadband communications. Gilat develops and markets a wide range of high-performance satellite ground segment equipment and VSATs, with an increasing focus on the consumer and Ka-band market. In addition, Gilat enables mobile SOTM (Satellite-on-the-Move) solutions providing low-profile antennas, next generation solid-state power amplifiers and modems. Gilat also provides managed network and satellite-based services for rural telephony and Internet access via its subsidiaries in Peru and Colombia.

With over 25 years of experience, and over a million products shipped to more than 90 countries, Gilat has provided enterprises, service providers and operators with efficient and reliable satellite-based connectivity solutions, including cellular backhaul, banking, retail, e-government and rural communication networks. Gilat also enables leading defense, public security and news organizations to implement advanced, on-the-move tactical communications on board their land, air and sea fleets using Gilat's high-performance SOTM solutions. Gilat controlling shareholders are the FIMI Private Equity Funds. For more information, please visit us at www.gilat.com
