Kamada Ltd. (the “Company”) (NASDAQ & TASE: KMDA), a plasma-derived protein therapeutics company, today announced that on July 22, 2018, during the course of the Company’s negotiations with the Histadrut - General Federation of Labor in Israel (“Histadrut”) and the Employees’ Committee of Kamada’s Beit Kama production facility in Israel (“The Employee’s Committee”), on the extension of a collective bargaining agreement, the Employee’s Committee commenced a labor strike.

In December 2013, the Company signed a collective bargaining agreement with the Histadrut and the Employees’ Committee, which expired in December 31, 2017. Since that time, the Company and the Employees Committee have been negotiating the renewal of the collective bargaining agreement. While significant progress has been achieved throughout the course of the negotiations, the parties have not reached an agreement to date.

As the strike was initiated by the Employee’s Committee, Kamada cannot predict how long it will last, or whether it will have a material direct effect on its financial results. However, at this time, the Company does not anticipate that the strike will have a materially adverse impact on its financial condition or the supply of its products.

The Employee’s Committee represents only the plant labor and the work stoppage has no impact on the R&D and clinical development activities of the Company.
