Introduction

In February 2009, the Group announced its Strategic Plan refocusing on those businesses with clear competitive advantages and attractive customer franchises, primarily in stable low-to-medium risk sectors. The Non-Core division has been established and is reported separately from the divisions which form the core Group. In addition Group Manufacturing and the majority of Central Items are now allocated to customer facing divisions. Group Manufacturing costs are entirely allocated and separate reporting of its results has been discontinued. For Central items, volatile corporate items that do not naturally reside within a division have not been allocated. These changes do not affect the Group's results.

The Group's results have been restated for the amendment to IFRS 2 'Share-Based Payment'. This has resulted in an increase in staff costs amounting to £35 million for the first half of 2008 and £169 million for the full year 2008. The first half of 2008 has also been restated to reflect the finalisation of the ABN AMRO acquisition accounting.

Description of business

UK Retail offers a comprehensive range of banking products and related financial services to the personal market. It serves customers through the RBS and NatWest networks of branches and ATMs in the United Kingdom, and also through telephone and internet channels.

UK Corporate is a provider of banking, finance, and risk management services to the corporate and SME sector in the United Kingdom. It offers a full range of banking products and related financial services through a nationwide network of relationship managers, and also through telephone and internet channels. The product range includes asset finance through the Lombard brand.

Wealth provides private banking and investment services in the UK through Coutts & Co and Adam & Company, offshore banking through RBS International, NatWest Offshore and Isle of Man Bank, and international private banking through RBS Coutts.

Global Banking & Markets is a leading banking partner to major corporations and financial institutions around the world, providing an extensive range of debt and equity financing, risk management and investment services to its customers. The division is organised along seven principal business lines: money markets; rates flow trading; currencies; commodities (including RBS Sempra Commodities LLP, the commodities-marketing joint venture between RBS and Sempra Energy); equities; credit markets and portfolio management & origination.

Global Transaction Services ranks among the top five global transaction services providers, offering global payments, cash and liquidity management, and trade finance, United Kingdom and international merchant acquiring and commercial card products and services. It includes the Group's corporate money transmission activities in the United Kingdom and the United States.

Ulster Bank is the leading retail and commercial bank in Northern Ireland and the third largest banking group on the island of Ireland. It provides a comprehensive range of financial services through both its Retail Markets division which has a network of branches and operates in the personal and bancassurance sectors, while its Corporate Markets division provides services to SME business customers, corporates and institutional markets.

US Retail & Commercial provides financial services primarily through the Citizens and Charter One brands. US Retail is engaged in retail and corporate banking activities through its branch network in 12 states in the United States and through non-branch offices in other states. It ranks among the top five banks in New England and the Mid Atlantic regions.

RBS Insurance sells and underwrites retail and SME insurance over the telephone and internet, as well as through brokers and partnerships. Its brands include Direct Line, Churchill and Privilege, which sell general insurance products direct to the customer, as well as Green Flag and NIG. Through its international division, RBS Insurance sells general insurance, mainly motor, in Germany and Italy. The Intermediary and Broker division sells general insurance products through independent brokers.

Group Manufacturing comprises the Group's worldwide manufacturing operations. It supports the customer-facing businesses and provides operational technology, customer support in telephony, account management, lending and money transmission, global purchasing, property and other services. Manufacturing drives efficiencies and supports income growth across multiple brands and channels by using a single, scalable platform and common processes wherever possible. It also leverages the Group's purchasing power and is the Group's centre of excellence for managing large-scale and complex change.

Central items comprises group and corporate functions, such as treasury, funding and finance, risk management, legal, communications and human resources. The Centre manages the Group's capital resources and Group-wide

regulatory projects and provides services to the operating divisions.

Non- Core division manages separately assets that the Group intends to run off or dispose of. The division contains a range of businesses and asset portfolios that were formerly managed primarily within the GBM division, linked to proprietary trading, higher risk profile asset portfolios including excess risk concentrations and other illiquid portfolios. It also includes a number of other regional markets businesses that the Group has concluded are no longer strategic.

Allocation methodology for indirect costs

Manufacturing directly attributable costs have been allocated to the operating divisions, based on their service usage. Where services span more than one division an appropriate measure is used to allocate the costs on a basis which management considers reasonable. Manufacturing costs are fully allocated and there are no residual unallocated costs.

Group Centre directly attributable costs have been allocated to the operating divisions, based on their service usage. Where services span more than one division, the costs are allocated on a basis management considers reasonable. The residual unallocated costs remaining in the Group Centre, relate to volatile corporate items that do not naturally reside within a division.

Treasury costs are allocated to operating divisions as follows; term funding costs are allocated or rewarded based on long term funding gap or surplus; liquidity buffer funding costs are allocated based on share of overall liquidity buffer derived from divisional stresses; and capital cost or benefit is allocated based on share of divisional risk-adjusted RWAs.
