**Item 5. Other Events and Required FD Disclosure**

On December 19, 2003, Seattle Genetics, Inc., a Delaware corporation ( Seattle Genetics ), announced that Genentech, Inc., a Delaware corporation ( Genentech ), had designated additional antigens pursuant to the Collaboration Agreement by and between Seattle Genetics and Genentech dated April 19, 2002 (the Collaboration Agreement ).

Under the terms of the Collaboration Agreement, Genentech has paid a \$3.0 million fee to designate the additional antigens. In addition, Genentech has purchased 1,090,342 shares of Seattle Genetics common stock in a private placement for an aggregate purchase price of approximately \$7.0 million. The \$6.42 per share price of the common stock sold to Genentech is based on a trailing average price of Seattle Genetics common stock over a predetermined period of time ending on the date Genentech designated the additional antigens. This stock purchase increases Genentech s total equity ownership in Seattle Genetics to 2,753,872 shares of common stock, or approximately 8.6% of Seattle Genetics outstanding common stock. The shares sold to Genentech are not registered under the Securities Act of 1933 and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements. Seattle Genetics has agreed to grant Genentech registration rights for such shares alongside existing registration rights holders. Seattle Genetics intends to use the proceeds from this investment for working capital and general corporate purposes.

The foregoing description of the transaction is only a summary and is qualified in its entirety by reference to the definitive transaction documents previously filed as exhibits to Seattle Genetics quarterly report on Form 10-Q for the period ended June 30, 2002.

A copy of the press release containing the announcement is filed herewith as Exhibit 99.1 and is incorporated herein by this reference.
