EARNINGS RELEASE FOR THE QUARTER AND FISCAL YEAR ENDED

30 JUNE, 2004 IN AUSTRALIAN DOLLARS

**NEWS CORPORATION REPORTS FULL YEAR OPERATING
INCOME OF A\$4.3 BILLION ON REVENUES OF A\$29.4 BILLION**

**FOURTH QUARTER OPERATING INCOME INCREASES 18% TO
A\$1.0 BILLION ON REVENUE GROWTH OF 8%**

FULL YEAR HIGHLIGHTS

Net profit increases 57% on a US\$ basis to a record US\$1.6 billion and record cash flow from operations of US\$2.4 billion grows 47% over fiscal 2003.

Record Filmed Entertainment operating income up 38% on a US\$ basis on continued strength of home entertainment sales of film and television titles and string of theatrical hits.

Strong advertising growth at Fox News and FX and higher affiliate revenues at the Regional Sports Networks drives record operating income on a US\$ basis up 43% at Cable Network Programming.

Television segment operating income up 12% on a US\$ basis as higher pricing increases advertising revenues at the broadcast network and fuels record operating income at television stations and STAR.

All print businesses report higher earnings contributions on a US\$ basis: advertising and circulation revenue gains in the U.K. and Australia drive record operating income at Newspapers, higher contributions from free-standing inserts volume lifts Magazines and Inserts; array of bestsellers fuels record operating income at Book Publishing.

Completed acquisition of a 34% interest in The DIRECTV Group.

Announced plan of reorganisation that would change the Company's place of incorporation to the United States by the end of calendar 2004.

QUARTER HIGHLIGHTS

Edgar Filing: NEWS CORP LTD - Form 6-K

Tenth consecutive quarter of revenue and operating income growth on a US\$ basis.

Higher earnings contributions on a US\$ basis across nearly all operating segments led by double-digit growth at the Television, Cable Network Programming and Newspapers segments.

SKY Italia operating losses decline US\$49 million from a year ago as subscriber base expands to nearly 2.7 million with over 90% of new subscribers opting for a premium-programming tier.

News Corporation

EARNINGS RELEASE

FOR THE QUARTER AND FISCAL YEAR ENDED 30 JUNE, 2004.

Sydney, 12 August, 2004 The News Corporation Limited (ASX: NCP, NCPDP) today reported fourth quarter consolidated revenues of A\$7.7 billion, an 8% increase over the A\$7.1 billion in the prior year, and full year revenues of A\$29.4 billion versus A\$29.9 billion reported a year ago.

Consolidated operating income for the fourth quarter of A\$1.0 billion was up 18% over the A\$882 million reported a year ago. For the full year, operating income was A\$4.3 billion versus A\$4.4 billion reported in fiscal 2003. The Company's fourth quarter and full year results included double-digit operating income growth across nearly all operating segments in local currency terms offset by unfavourable foreign currency fluctuations.

Net profit for the fourth quarter was A\$555 million compared with A\$612 reported in the fourth quarter a year ago. For the full year net profit was A\$2.3 billion, an increase of A\$504 million over the A\$1.8 billion in fiscal 2003. Net profit before other items in the fourth quarter increased to A\$597 million (A\$0.101 per share) versus A\$518 million (A\$0.098 per share) reported in the prior year and full year net profit before other items increased to A\$2.4 billion (A\$0.421 per share), an increase of A\$468 million over the A\$1.9 billion (A\$0.360 per share) reported in fiscal 2003. Fourth quarter and full year results were primarily due to higher consolidated operating income in local currency terms and significant improvement in net profit from associated entities offset by unfavourable foreign currency fluctuations.

Commenting on the results, Chairman and Chief Executive Rupert Murdoch said:

Fiscal 2004 was another outstanding year for News Corporation, punctuated by fourth quarter operating income growth of 31% in U.S. dollar terms. We delivered our third consecutive year of record operating profits on double digit revenue and operating income gains. Our success was once again achieved across our uniquely balanced collection of assets with record profits generated at nearly every established business segment from our film to our television to our print assets. It was a year in which we enjoyed the success achieved through expanded distribution of our content, such as our films and television product in home entertainment and our growing ratings and subscribers at our array of cable channels. And it was a year in which we translated market leadership positions into increased advertising revenues, beginning with our broadcast and cable upfronts and including record market share and profits at our station group and sustained strength at our various print assets.

It was also a year in which we further expanded our distinctive global distribution reach with the rapid development of our direct-to-home television investments. SKY Italia quickly ramped up its subscriber base, as well as its average revenue per subscriber, connecting with nearly 2.7 million subscribers by fiscal year-end. DIRECTV mirrored this success, adding over 915,000 subscribers since our acquisition at the end of the calendar year. The brisk subscriber growth at these dynamic platforms is a testament to their tremendous long-term growth potential.

We are extremely pleased with our progress during the past year not only for the record financial results we delivered but for the strategic direction we continued to follow. Success begets success and we are confident that the momentum we generated in fiscal 2004, combined with our expected reincorporation in the United States, positions us to deliver superior returns in the year ahead.

* SKY Italia results consolidated as of 1 May, 2003

The following commentary is discussed primarily in U.S. dollars

REVIEW OF OPERATING RESULTS**FILMED ENTERTAINMENT**

The Filmed Entertainment segment reported fourth quarter operating income of US\$91 million, up 7% from the US\$85 million reported in the same period a year ago, and record full year operating income of US\$886 million, up 38% from the US\$641 million reported in fiscal 2003. Current-quarter and full year results primarily reflect strong worldwide theatrical revenues and higher contributions from film and television home entertainment releases as well as increased contributions from catalog titles in pay-TV and free-TV.

Fourth quarter film results were largely driven by the domestic home entertainment performances of *Cheaper By The Dozen* as well as contributions from various catalog titles including *Ice Age* and *There's Something About Mary*. The availability of last year's theatrical hits in pay-TV, most notably *X-2: X-Men United*, *28 Days Later* and *Bend it Like Beckham*, also contributed to the increase. These contributions were

Edgar Filing: NEWS CORP LTD - Form 6-K

partially offset by the marketing costs for a string of successful spring and summer releases, including *The Day After Tomorrow*, which has grossed over US\$530 million worldwide since its May release, *Dodgeball*, which has grossed over US\$110 million domestically since its June release and *I, Robot* which was released after the quarter and has already grossed over US\$120 million in domestic box office.

For the full year, film results were primarily driven by the worldwide home entertainment and pay-TV performances of *X-2: X-Men United*, *28 Days Later*, *Daredevil*, *Drumline*, *Just Married*, *Phone Booth* and various catalog titles combined with several successful theatrical releases during the year, including *The League of Extraordinary Gentlemen* and *Cheaper By the Dozen*.

Twentieth Century Fox Television (TCFTV) fourth quarter earnings reflected sustained momentum in home entertainment sales, particularly from *24*, *Buffy the Vampire Slayer*

News Corporation

EARNINGS RELEASE

and *M*A*S*H*, offset by lower worldwide revenues from *X-Files* and *The Practice*. These titles also contributed to TCFTV's full year growth along with the home entertainment sales of *The Simpsons*, *Family Guy* and *Angel*. Additionally, increased syndication profits from the initial release of *Angel* as well as further proceeds from *M*A*S*H* contributed to the year-on-year growth.

TELEVISION

The Television segment reported fourth quarter operating income of US\$351 million, an increase of 21% versus the same period a year ago, and full year operating income of US\$957 million, an increase of 12% over fiscal 2003. These gains primarily reflect earnings improvement at the FOX Broadcasting Company and Fox Television Stations, and higher contributions from STAR.

Fox Television Stations (FTS) fourth quarter operating income grew 15% over the same quarter a year ago reflecting strong primetime advertising revenue increases led by the success of *American Idol* and local news, partially offset by primetime ratings weakness at UPN. For the full year, operating income grew 7% versus fiscal 2003 as FTS achieved record market share while slightly lowering operating expenses year-on-year.

At the FOX Broadcasting Company (FBC), fourth quarter operating income improved by US\$22 million as higher pricing for the primetime entertainment schedule was partially offset by a 10% decline in primetime ratings and higher promotional costs for the launch of several new series. For the full year, operating income improved by US\$21 million over fiscal 2003 despite a decline in primetime ratings primarily due to higher pricing for the primetime entertainment schedule and improved sports advertising from an increase in post-season ratings and pricing. FBC finished the broadcast season number one among Adults 18-34 and number two by only one-tenth of a rating point among Adults 18-49, led by *American Idol*, the number one program in primetime, whose ratings grew nearly 10% over prior year.

STAR's fourth quarter operating income increased 52%, bolstered by 18% revenue growth versus the same quarter a year ago. Full year operating income grew substantially on advertising growth of 21%. Revenue gains for both the quarter and year were driven primarily in India where STAR Plus has maintained its leadership position as India's top cable entertainment channel. Additionally, the full year benefited from higher subscription revenues at STAR Plus and continued expansion in China from increased penetration of the Xing Kong channel, which has become the number one national/regional channel in the Guangdong cable market.

CABLE NETWORK PROGRAMMING

Cable Network Programming reported fourth quarter operating income of US\$154 million, an increase of 60% over the fourth quarter a year ago, and record full year operating income of US\$617 million, an increase of 43% over fiscal 2003. The strong fourth quarter and full year results reflect continued growth across all of the Company's primary cable channels and the absence of losses from the Los Angeles Dodgers which was sold during the third quarter.

News Corporation

EARNINGS RELEASE

FOR THE QUARTER AND FISCAL YEAR ENDED 30 JUNE, 2004.

The Fox News Channel (FNC) reported operating income growth of over 40% for both the fourth quarter and full year as higher advertising pricing drove strong double-digit revenue gains over a year ago. FNC has maintained its leadership position as the number one cable news channel for over two and a half years and during the fourth quarter and full year exceeded the viewership of its nearest competitor by more than 50% in primetime and more than 60% on a 24-hour basis.

At our other cable channels (including the Regional Sports Networks (RSNs), FX and SPEED Channel) operating profit increased 46% for the fourth quarter and 27% for the full year, primarily driven by revenue growth at the RSNs and FX. Higher affiliate revenue contributions at the RSNs for both the quarter and year, largely due to increased affiliate rates and additional DTH subscribers, combined with increased advertising sales to drive operating income growth. This growth was partially offset by higher programming costs from additional events and rights increases versus a year ago. The fourth quarter and full year revenue growth at FX was driven principally by increased advertising revenue from strong ratings and higher pricing while also growing its affiliate revenues, as its subscriber base expanded by 5%. Partially offsetting these improvements were increased costs related to entertainment programming, including *The Shield* and *Nip/Tuck*.

DIRECT BROADCAST SATELLITE TELEVISION

On 30 April, 2003 the Company completed the acquisition of the Italian pay-TV business Telepiu and combined it with Stream. News Corporation owns 80.1% of the combined entity, SKY Italia, whose results constitute this segment. During the fourth quarter, SKY Italia reported an operating loss of US\$19 million, an improvement of US\$49 million versus the operating loss of US\$68 million reported a year ago for the two months ended 30 June, 2003. For the full year, SKY Italia reported an operating loss of US\$267 million on revenues of US\$1.7 billion, while increasing its subscriber base to nearly 2.7 million. Over 90% of the new subscribers during the quarter opted for a premium-programming tier including movies and/or sports programming.

MAGAZINES AND INSERTS

The Magazines and Inserts segment reported fourth quarter operating income of US\$66 million versus US\$70 million a year ago, and full year operating income of US\$271 million, a 6% increase over fiscal 2003. During the quarter, higher contributions from the InStore division, driven by revenue growth primarily from higher shelf product volume was more than offset by reorganisation costs associated with the international division and slightly lower contributions at the Free-Standing Inserts division. The full year improvement was driven by higher contributions from the Free-Standing Inserts division resulting principally from higher demand for packaged goods and custom publishing pages.

NEWSPAPERS

The Newspaper segment reported fourth quarter operating income of US\$144 million, a 14% increase versus the same period a year ago and full year operating income of US\$592 million, a 48% increase over fiscal 2003. Advertising strength throughout the year drove the growth in both the U.K. and Australia, with circulation revenue gains in the U.K., stemming from the end of the cover price initiative during fiscal 2003, also contributing to the full-year growth.

The U.K. newspaper group reported a slight operating income decline in local currency terms for the fourth quarter compared to the prior year as advertising revenue gains of 11%, primarily from *The Sun* on the strength of higher volumes across all categories, and circulation revenue growth, from higher cover prices across all titles, were more than offset by an increase in promotional spending and additional costs associated with the compact version of *The Times*. On a full year basis, operating income in local currency terms increased 30%, primarily from circulation revenue growth which was achieved across all titles, with the largest increase at *The Sun* where reduced cover price initiatives a year ago adversely affected results. *The Sun* also led the U.K newspaper group to 7% advertising growth for the year with higher volumes on display and classified advertising.

The Australian newspaper group reported an 18% increase in fourth quarter operating income in local currency terms versus a year ago and full year operating income growth of 15% versus fiscal 2003. The quarterly and full year growth was primarily driven by double-digit increases in advertising revenue compared to a year ago. Display and classified advertising achieved strong growth throughout the year with ongoing strength in national display together with real estate, retail and employment advertising.

BOOK PUBLISHING

HarperCollins reported operating income of US\$6 million during the quarter versus US\$4 million in the fourth quarter a year ago reflecting strong performances by Zondervan and General Books, and a rebound in Children's Books. Full year operating income of US\$158 million increased 19% from fiscal 2003 and was driven by solid performances around the world, highlighted by blockbuster sales of Zondervan's *The Purpose Driven Life* by Rick Warren. During the quarter, HarperCollins had 52 books on *The New York Times* bestseller list including five titles that reached the #1 spot. For the full year, the Company had 97 books on *The New York Times* bestseller lists including nine titles that reached the number one spot.

OTHER ITEMS

A final franked dividend of A\$0.015 per Ordinary Share and a franked dividend of A\$0.0375 per Preferred Limited Voting Ordinary Share have been declared and are payable on 26 October, 2004. The Company's Dividend Reinvestment Plan (Plan) remains in operation and a discount of 10% will apply in determining the allotment price calculated in accordance with the Plan rules. The record date for determining dividend entitlements and Plan participation is 17 September, 2004. The ex-dividend date will be 13 September, 2004.

News Corporation

EARNINGS RELEASE

FOR THE QUARTER AND FISCAL YEAR ENDED 30 JUNE, 2004.

During the quarter News Corporation announced it is pursuing a reorganisation that would change the company's place of incorporation to the United States by the end of calendar 2004. In connection with this reorganisation, News Corporation would also acquire, from the Murdoch Interests, the 58% controlling interest in Queensland Press Pty Limited (QPL) not currently owned by the Company. The completion of the reorganisation and the QPL transactions is subject to a number of conditions, including obtaining regulatory clearances, court approvals, certain tax rulings and the requisite vote of the Company's shareholders and option holders on the reorganisation as well as obtaining independent appraisals and fairness opinions.

During the second quarter, the Company completed the acquisition of 34% of the outstanding common stock of The DIRECTV Group for approximately US\$3.1 billion in cash and 130.7 million preferred limited voting ordinary ADRs. At closing, News Corporation's ownership interest was transferred to Fox Entertainment Group, Inc. (FEG) in exchange for US\$4.5 billion in promissory notes and approximately 74.5 million shares in FEG, increasing News Corporation's ownership interest in FEG from 80.6% to approximately 82%.

During the third quarter, the Company completed the sale of the Los Angeles Dodgers franchise and real estate assets to real estate developer Frank McCourt for the gross sale price of approximately US\$421 million and agreed to remit US\$50 million to the buyer for certain pre-existing commitments.

FOR THE QUARTER AND FISCAL YEAR ENDED 30 JUNE, 2004.

REVIEW OF ASSOCIATED ENTITIES RESULTS

Fourth quarter net profit from associated entities before other items was A\$138 million versus A\$124 million in the same period a year ago. For the full year, net profit from associated entities before other items was A\$367 million compared with losses of A\$159 million in fiscal 2003. The year-over-year improvements in both the fourth quarter and full year were primarily due to higher earnings at BSKyB, the absence of Stream's losses in the current year and favourable results at Regional Programming Partners due mainly to the income recognised from the termination of a sports broadcast rights agreement. These favourable results were partially offset by losses reported at The DIRECTV Group and, in the fourth quarter, losses at the Sky Latin America properties.

The Company's share of net profit (loss) from associated entities is as follows:

EARNINGS RELEASE

FOR THE QUARTER AND FISCAL YEAR ENDED 30 JUNE, 2004.

The revenue growth for the quarter was offset by higher programming, marketing and overhead costs. The increase in net loss in the current quarter principally reflects the unfavourable impact of foreign currency fluctuations due to the weakening of the Brazilian Real on U.S. dollar-denominated liabilities in the quarter.

Innova's revenues grew 24% in local currency terms in the quarter compared to prior year primarily driven by a 16% increase in the subscriber base as well as higher set-top box rentals. The decrease in net income during the quarter as compared to the prior year quarter principally reflects the unfavourable impact of foreign currency fluctuations due to the weakening of the Mexican Peso on U.S. dollar-denominated liabilities in the quarter, partially offset by higher revenues and lower interest expense resulting from the refinancing of debt.

FOXTEL's revenues for the quarter increased 14%, principally due to an increase of 19% in satellite subscribers compared to a year ago, and higher average revenue per subscriber. Net loss for the quarter increased as subscriber revenues were more than offset by increased transmission costs as well as higher subscriber management and acquisition expenses

EARNINGS RELEASE

FOR THE QUARTER AND FISCAL YEAR ENDED 30 JUNE, 2004.

Note 2 - SUPPLEMENTAL FINANCIAL DATA

The Company considers net profit before other items to be an important indicator of the Company's operating performance on a consolidated basis. Net profit before other items, defined as net profit attributable to members of the parent entity before other items related to the Company and associated entities, net of applicable income tax expenses and outside equity interests, eliminates the effect of transactions that are considered significant by reason of their size, nature or effect on the Company's financial performance for the year. Net profit before other items should be considered in addition to, not as a substitute for the Company's operating income, net profit attributable to members of the parent entity, cash flows and other measures of financial performance prepared in accordance with generally accepted accounting principles in Australia. Net profit before other items does not reflect cash available to fund requirements, and the items excluded from net profit before other items, such as other revenues and expenses, are significant components in assessing the Company's financial performance.

The following table reconciles certain components of net profit attributable to members of the parent entity as presented on page 3 of this release to the presentation required under Australian GAAP as required by Australian Accounting Standard AASB 1018 Statement of Financial Performance on page 13 of this release.

EARNINGS RELEASE

FOR THE QUARTER AND FISCAL YEAR ENDED JUNE 30, 2004

NEW YORK, NY, August 11, 2004 The News Corporation Limited (NYSE: NWS, NWSA) today reported fourth quarter consolidated revenues of \$5.5 billion, a 20% increase over the \$4.6 billion in the prior year, and full year revenues of \$21.0 billion, an increase of 20% over the \$17.5 billion reported a year ago.

Consolidated operating income for the fourth quarter of \$747 million was up 31% over the \$570 million reported a year ago. For the full year, operating income was a record \$3.1 billion, an increase of 21% over the \$2.5 billion reported in fiscal 2003 despite the inclusion of \$267 million in losses from SKY Italia during the current year. Fiscal 2003 results included \$68 million in losses from SKY Italia for the two months ended June 30, 2003. The Company's 31% fourth quarter growth and record full year operating income were driven by double-digit increases across nearly all of its operating segments.

Net profit for the fourth quarter was \$399 million, an increase of \$29 million over the \$370 million reported in the fourth quarter a year ago. For the full year net profit was \$1.6 billion, an increase of \$601 million over the \$1.0 billion in fiscal 2003. Net profit before other items in the fourth quarter increased to \$429 million (\$0.29 per ADR) versus \$320 million (\$0.24 per ADR) reported in the prior year and full year net profit before other items increased to \$1.7 billion (\$1.20 per ADR), an increase of \$585 million over the \$1.1 billion (\$0.83 per ADR) reported in fiscal 2003. Fourth quarter and full year increases were primarily due to higher consolidated operating income and significant improvement in net profit from associated entities.

Commenting on the results, Chairman and Chief Executive Rupert Murdoch said:

Fiscal 2004 was another outstanding year for News Corporation, punctuated by fourth quarter operating income growth of 31%. We delivered our third consecutive year of record operating profits on double digit revenue and operating income gains. Our success was once again achieved across our uniquely balanced collection of assets with record profits generated at nearly every established business segment from our film to our television to our print assets. It was a year in which we enjoyed the success achieved through expanded distribution of our content, such as our films and television product in home entertainment and our growing ratings and subscribers at our array of cable channels. And it was a year in which we translated market leadership positions into increased advertising revenues, beginning with our broadcast and cable upfronts and including record market share and profits at our station group and sustained strength at our various print assets.

It was also a year in which we further expanded our distinctive global distribution reach with the rapid development of our direct-to-home television investments. SKY Italia quickly ramped up its subscriber base, as well as its average revenue per subscriber, connecting with nearly 2.7 million subscribers by fiscal year-end. DIRECTV mirrored this success, adding over 915,000 subscribers since our acquisition at the end of the calendar year. The brisk subscriber growth at these dynamic platforms is a testament to their tremendous long-term growth potential.

We are extremely pleased with our progress during the past year not only for the record financial results we delivered but for the strategic direction we continued to follow. Success begets success and we are confident that the momentum we generated in fiscal 2004, combined with our expected reincorporation in the United States, positions us to deliver superior returns in the year ahead.

REVIEW OF OPERATING RESULTS**FILMED ENTERTAINMENT**

The Filmed Entertainment segment reported fourth quarter operating income of \$91 million, up 7% from the \$85 million reported in the same period a year ago, and record full year operating income of \$886 million, up 38% from the \$641 million reported in fiscal 2003. Current-quarter and full year results primarily reflect strong worldwide theatrical revenues and higher contributions from film and television home entertainment releases as well as increased contributions from catalog titles in pay-TV and free-TV.

Fourth quarter film results were largely driven by the domestic home entertainment performances of *Cheaper By The Dozen* as well as contributions from various catalog titles including *Ice Age* and *There's Something About Mary*. The availability of last year's theatrical hits in pay-TV, most notably *X-2: X-Men United*, *28 Days Later* and *Bend it Like Beckham*, also contributed to the increase. These contributions were partially offset by the marketing costs for a string of successful spring and summer releases, including *The Day After Tomorrow*, which has grossed over \$530 million worldwide since its May release, *Dodgeball*, which has grossed over \$110 million domestically since its June release and *I, Robot* which was released after the quarter and has already grossed over \$120 million in domestic box office.

Edgar Filing: NEWS CORP LTD - Form 6-K

For the full year, film results were primarily driven by the worldwide home entertainment and pay-TV performances of *X-2: X-Men United*, *28 Days Later*, *Daredevil*, *Drumline*, *Just Married*, *Phone Booth* and various catalog titles combined with several successful theatrical releases during the year, including *The League of Extraordinary Gentlemen* and *Cheaper By the Dozen*.

Twentieth Century Fox Television (TCFTV) fourth quarter earnings reflected sustained momentum in home entertainment sales, particularly from *24*, *Buffy the Vampire Slayer* and *M*A*S*H*, offset by lower worldwide revenues from *X-Files* and *The Practice*. These titles also contributed to TCFTV's full year growth along with the home entertainment

sales of *The Simpsons*, *Family Guy* and *Angel*. Additionally, increased syndication profits from the initial release of *Angel* as well as further proceeds from *M*A*S*H* contributed to the year-on-year growth.

TELEVISION

The Television segment reported fourth quarter operating income of \$351 million, an increase of 21% versus the same period a year ago, and full year operating income of \$957 million, an increase of 12% over fiscal 2003. These gains primarily reflect earnings improvement at the FOX Broadcasting Company and Fox Television Stations, and higher contributions from STAR.

Fox Television Stations (FTS) fourth quarter operating income grew 15% over the same quarter a year ago reflecting strong primetime advertising revenue increases led by the success of *American Idol* and local news, partially offset by primetime ratings weakness at UPN. For the full year, operating income grew 7% versus fiscal 2003 as FTS achieved record market share while slightly lowering operating expenses year-on-year.

At the FOX Broadcasting Company (FBC), fourth quarter operating income improved by \$22 million as higher pricing for the primetime entertainment schedule was partially offset by a 10% decline in primetime ratings and higher promotional costs for the launch of several new series. For the full year, operating income improved by \$21 million over fiscal 2003 despite a decline in primetime ratings primarily due to higher pricing for the primetime entertainment schedule and improved sports advertising from an increase in post-season ratings and pricing. FBC finished the broadcast season number one among Adults 18-34 and number two by only one-tenth of a rating point among Adults 18-49, led by *American Idol*, the number one program in primetime, whose ratings grew nearly 10% over prior year.

STAR's fourth quarter operating income increased 52%, bolstered by 18% revenue growth versus the same quarter a year ago. Full year operating income grew substantially on advertising growth of 21%. Revenue gains for both the quarter and year were driven primarily in India where STAR Plus has maintained its leadership position as India's top cable entertainment channel. Additionally, the full year benefited from higher subscription revenues at STAR Plus and continued expansion in China from increased penetration of the Xing Kong channel, which has become the number one national/regional channel in the Guangdong cable market.

CABLE NETWORK PROGRAMMING

Cable Network Programming reported fourth quarter operating income of \$154 million, an increase of 60% over the fourth quarter a year ago, and record full year operating income of \$617 million, an increase of 43% over fiscal 2003. The strong fourth quarter and full year results reflect continued growth across all of the Company's primary cable channels and the absence of losses from the Los Angeles Dodgers which was sold during the third quarter.

News Corporation

EARNINGS RELEASE

FOR THE QUARTER AND FISCAL YEAR ENDED JUNE 30, 2004

The Fox News Channel (FNC) reported operating income growth of over 40% for both the fourth quarter and full year as higher advertising pricing drove strong double-digit revenue gains over a year ago. FNC has maintained its leadership position as the number one cable news channel for over two and a half years and during the fourth quarter and full year exceeded the viewership of its nearest competitor by more than 50% in primetime and more than 60% on a 24-hour basis.

At our other cable channels (including the Regional Sports Networks (RSNs), FX and SPEED Channel) operating profit increased 46% for the fourth quarter and 27% for the full year, primarily driven by revenue growth at the RSNs and FX. Higher affiliate revenue contributions at the RSNs for both the quarter and year, largely due to increased affiliate rates and additional DTH subscribers, combined with increased advertising sales to drive operating income growth. This growth was partially offset by higher programming costs from additional events and rights increases versus a year ago. The fourth quarter and full year revenue growth at FX was driven principally by increased advertising revenue from strong ratings and higher pricing while also growing its affiliate revenues, as its subscriber base expanded by 5%. Partially offsetting these improvements were increased costs related to entertainment programming, including *The Shield* and *Nip/Tuck*.

DIRECT BROADCAST SATELLITE TELEVISION

On April 30, 2003 the Company completed the acquisition of the Italian pay-TV business Telepiu and combined it with Stream. News Corporation owns 80.1% of the combined entity, SKY Italia, whose results constitute this segment. During the fourth quarter, SKY Italia reported an operating loss of \$19 million, an improvement of \$49 million versus the operating loss of \$68 million reported a year ago for the two months ended June 30, 2003. For the full year, SKY Italia reported an operating loss of \$267 million on revenues of \$1.7 billion, while increasing its subscriber base to nearly 2.7 million. Over 90% of the new subscribers during the quarter opted for a premium-programming tier including movies and/or sports programming.

MAGAZINES AND INSERTS

The Magazines and Inserts segment reported fourth quarter operating income of \$66 million versus \$70 million a year ago, and full year operating income of \$271 million, a 6% increase over fiscal 2003. During the quarter, higher contributions from the InStore division, driven by revenue growth primarily from higher shelf product volume was more than offset by reorganization costs associated with the international division and slightly lower contributions at the Free-Standing Inserts division. The full year improvement was driven by higher contributions from the Free-Standing Inserts division resulting principally from higher demand for packaged goods and custom publishing pages.

NEWSPAPERS

The Newspaper segment reported fourth quarter operating income of \$144 million, a 14% increase versus the same period a year ago and full year operating income of \$592

million, a 48% increase over fiscal 2003. Advertising strength throughout the year drove the growth in both the U.K. and Australia, with circulation revenue gains in the U.K., stemming from the end of the cover price initiative during fiscal 2003, also contributing to the full-year growth.

The U.K. newspaper group reported a slight operating income decline in local currency terms for the fourth quarter compared to the prior year as advertising revenue gains of 11%, primarily from *The Sun* on the strength of higher volumes across all categories, and circulation revenue growth, from higher cover prices across all titles, were more than offset by an increase in promotional spending and additional costs associated with the compact version of *The Times*. On a full year basis, operating income in local currency terms increased 30%, primarily from circulation revenue growth which was achieved across all titles, with the largest increase at *The Sun* where reduced cover price initiatives a year ago adversely affected results. *The Sun* also led the U.K newspaper group to 7% advertising growth for the year with higher volumes on display and classified advertising.

The Australian newspaper group reported an 18% increase in fourth quarter operating income in local currency terms versus a year ago and full year operating income growth of 15% versus fiscal 2003. The quarterly and full year growth was primarily driven by double-digit increases in advertising revenue compared to a year ago. Display and classified advertising achieved strong growth throughout the year with ongoing strength in national display together with real estate, retail and employment advertising.

BOOK PUBLISHING

HarperCollins reported operating income of \$6 million during the quarter versus \$4 million in the fourth quarter a year ago reflecting strong performances by Zondervan and General Books, and a rebound in Children's Books. Full year operating income of \$158 million increased 19% from fiscal 2003 and was driven by solid performances around the world, highlighted by blockbuster sales of Zondervan's *The Purpose Driven Life* by Rick Warren. During the quarter, HarperCollins had 52 books on *The New York Times* bestseller list including five titles that reached the #1 spot. For the full year, the Company had 97 books on *The New York Times* bestseller lists including nine titles that reached the number one spot.

OTHER ITEMS

A final franked dividend of A\$0.06 per Ordinary ADR and a franked dividend of A\$0.15 per Preferred Limited Voting Ordinary ADR have been declared and are payable on November 2, 2004. The Company's Dividend Reinvestment Plan (Plan) remains in operation and a discount of 10% will apply in determining the allotment price calculated in accordance with the Plan rules. The record date for determining dividend entitlements and Plan participation is September 16, 2004. The ex-dividend date will be September 14, 2004.

During the quarter News Corporation announced it is pursuing a reorganization that would change the company's place of incorporation to the United States by the end of

calendar 2004. In connection with this reorganization, News Corporation would also acquire, from the Murdoch Interests, the 58% controlling interest in Queensland Press Pty Limited (QPL) not currently owned by the Company. The completion of the reorganization and the QPL transactions is subject to a number of conditions, including obtaining regulatory clearances, court approvals, certain tax rulings and the requisite vote of the Company's shareholders and option holders on the reorganization as well as obtaining independent appraisals and fairness opinions.

During the second quarter, the Company completed the acquisition of 34% of the outstanding common stock of The DIRECTV Group for approximately \$3.1 billion in cash and 130.7 million preferred limited voting ordinary ADRs. At closing, News Corporation's ownership interest was transferred to Fox Entertainment Group, Inc. (FEG) in exchange for \$4.5 billion in promissory notes and approximately 74.5 million shares in FEG, increasing News Corporation's ownership interest in FEG from 80.6% to approximately 82%.

During the third quarter, the Company completed the sale of the Los Angeles Dodgers franchise and real estate assets to real estate developer Frank McCourt for the gross sale price of approximately \$421 million and agreed to remit \$50 million to the buyer for certain pre-existing commitments.

REVIEW OF ASSOCIATED ENTITIES RESULTS

Fourth quarter net profit from associated entities before other items was \$99 million versus \$68 million in the same period a year ago. For the full year, net profit from associated entities before other items was \$261 million compared with losses of \$93 million in fiscal 2003. The year-over-year improvements in both the fourth quarter and full year were primarily due to higher earnings at BSkyB, the absence of Stream's losses in the current year and favorable results at Regional Programming Partners due mainly to the income recognized from the termination of a sports broadcast rights agreement. These favorable results were partially offset by losses reported at The DIRECTV Group and, in the fourth quarter, losses at the Sky Latin America properties.

The Company's share of net profit (loss) from associated entities is as follows:

EARNINGS RELEASE

FOR THE QUARTER AND FISCAL YEAR ENDED JUNE 30, 2004

The revenue growth for the quarter was offset by higher programming, marketing and overhead costs. The increase in net loss in the current quarter principally reflects the unfavorable impact of foreign currency fluctuations due to the weakening of the Brazilian Real on U.S. dollar-denominated liabilities in the quarter.

Innova's revenues grew 24% in local currency terms in the quarter compared to prior year primarily driven by a 16% increase in the subscriber base as well as higher set-top box rentals. The decrease in net income during the quarter as compared to the prior year quarter principally reflects the unfavorable impact of foreign currency fluctuations due to the weakening of the Mexican Peso on U.S. dollar-denominated liabilities in the quarter, partially offset by higher revenues and lower interest expense resulting from the refinancing of debt.

EARNINGS RELEASE

FOR THE QUARTER AND FISCAL YEAR ENDED JUNE 30, 2004

Note 2 - SUPPLEMENTAL FINANCIAL DATA

The Company considers net profit before other items to be an important indicator of the Company's operating performance on a consolidated basis. Net profit before other items, defined as net profit attributable to members of the parent entity before other items related to the Company and associated entities, net of applicable income tax expenses and outside equity interests, eliminates the effect of transactions that are considered significant by reason of their size, nature or effect on the Company's financial performance for the year. Net profit before other items should be considered in addition to, not as a substitute for the Company's operating income, net profit attributable to members of the parent entity, cash flows and other measures of financial performance prepared in accordance with generally accepted accounting principles in Australia. Net profit before other items does not reflect cash available to fund requirements, and the items excluded from net profit before other items, such as other revenues and expenses, are significant components in assessing the Company's financial performance.

The following table reconciles certain components of net profit attributable to members of the parent entity as presented on page 3 of this release to the presentation required under Australian GAAP as required by Australian Accounting Standard AASB 1018 Statement of Financial Performance on page 13 of this release.
