**VISX ANNOUNCES FOURTH QUARTER AND**

**FISCAL 2004 EARNINGS RESULTS**

***2004 Net Income Increases Over 65%***

SANTA CLARA, CALIFORNIA, FEBRUARY 10, 2005 VISX, INCORPORATED (NYSE Symbol: EYE) today announced financial results for the fourth quarter and twelve months ended December 31, 2004.

Fourth quarter revenues increased 6% to \$40,406,000 from \$38,218,000 for the comparable period of the prior year. Net income was \$5,850,000 and included merger-related expenses of \$3,100,000. This compares with fourth quarter 2003 net income of \$8,812,000 which was favorably impacted by an insurance reimbursement.

Merger-related expenses reduced fourth quarter 2004 net income by approximately \$0.06 per diluted share which resulted in earnings per diluted share for the quarter of \$0.11. In the fourth quarter of the prior year, an insurance reimbursement increased net income by \$0.04 per diluted share, resulting in earnings per diluted share of \$0.17.

## Edgar Filing: VISX INC - Form 425

Revenues for the twelve months ended December 31, 2004, were \$165,858,000 compared with \$143,905,000 for the comparable period of the prior year. License revenue, which is the key driver for the Company's profit, grew 34% in 2004 compared with 2003. Net income, despite merger-related charges, rose over 65% to \$38,442,000, or \$0.76 per diluted share, in the twelve months of 2004 compared with net income of \$23,251,000, or \$0.46 per diluted share, in the comparable period of the prior year.

Liz Dávila, chairman and CEO of VISX, stated, "In Q4 we saw solid growth. License revenue was up 13% and system sales were the strongest of the year. Aside from the impact of merger expenses, earnings were in line with our expectations, but at the low end due to delays related to FDA approvals. We are awaiting Iris Registration approval, which we now anticipate in Q1. Our CustomVue hyperopia approval came late in the quarter and is now contributing to a strong start in 2005. In January, our conversion to CustomVue procedures increased and worldwide license revenue was up more than 20% over last January."

Dávila continued, "We look forward to joining forces with AMO and are working to close the transaction in the first quarter. We believe AMO's strength in international markets and broad product portfolio, together with VISX's leadership in refractive surgery and strong market position in the U.S., will enable our combined company to accelerate growth worldwide."

more

**About CustomVue Laser Vision Correction:**

CustomVue laser vision correction employs a diagnostic laser system that analyzes the optical errors in the eye. Much like a fingerprint, each person's visual error is unique and can now be captured through the use of the VISX WaveScan System. The information is digitally recorded, transferred to the VISX STAR Laser System and the CustomVue laser vision correction procedure is customized based on the specific refractive errors of the individual. With the new CustomVue product, ophthalmologists can correct aberrations, or imperfections, of the eye that previously were not measured. This means that custom technology has the potential to improve vision beyond correction with contacts and glasses.

**Conference Call:**

VISX management will discuss its 2004 fourth quarter and fiscal year end results on a conference call at 4:30 p.m. eastern time on February 10, 2005. The call will be Webcast live at [www.visx.com](http://www.visx.com) and will be available for a period of one week following the call. A telephone rebroadcast of the call will also be available for one week following the conclusion of the call. To access the rebroadcast via telephone, call 888-286-8010. International callers should call 617-801-6888. Enter reservation number 14788508.

**About VISX:**

VISX is a worldwide market leader in the design, manufacture, and sale of laser vision correction systems. Ophthalmologists have performed over 6 million procedures using VISX Systems, reducing or eliminating completely the need for contacts or glasses. Additional information on VISX can be found on the worldwide web at [www.VISX.com](http://www.VISX.com).

**Additional Information and Where You Can Find It**

On December 6, 2004, AMO filed a Registration Statement on Form S-4 with the SEC that includes a joint proxy statement/prospectus of VISX and AMO and other relevant materials in connection with the proposed transaction. The joint proxy statement/prospectus will be mailed to the stockholders of VISX and AMO. Investors and security holders of VISX and AMO are urged to read the joint proxy statement/prospectus and the other relevant materials when they become available because they will contain important information about VISX, AMO and the proposed transaction. The joint proxy statement/prospectus and other relevant materials, and any other documents filed by VISX or AMO with the SEC, may be obtained free of charge at the SEC's web site at [www.sec.gov](http://www.sec.gov). In addition, investors and security holders may obtain free copies of the documents filed with the SEC by VISX by contacting VISX Investor Relations at [ir@visx.com](mailto:ir@visx.com) or via telephone at (408) 773-7435. Investors and security holders may obtain free copies of the documents filed with the SEC by AMO at [www.amo-inc.com](http://www.amo-inc.com) or via telephone at (714) 247-8348. Investors and security holders are urged to read the joint proxy statement/prospectus and the other relevant materials when they become available before making any voting or investment decision with respect to the proposed transaction.

VISX and AMO and their respective directors and executive officers may be deemed to be participants in the solicitation of proxies from the stockholders of VISX and AMO in favor of the proposed transaction. Information about the directors and executive officers of VISX and AMO and their respective interests in the proposed transaction will be available in the joint proxy statement/prospectus.

This press release contains certain forward-looking statements based on current expectations, forecasts, and assumptions of VISX that involve risks and uncertainties. Forward-looking statements in this release, including statements that FDA approval of Iris Registration will occur in Q1 2005, that we are working to close the transaction with AMO in the first quarter, and that we believe AMO's strength in international markets and broad product portfolio, together with VISX's leadership in refractive surgery and strong market position in the U.S., will enable our combined company to accelerate growth worldwide, are based on information available to VISX as of the date hereof. VISX's actual results could differ materially from those stated or implied in such forward-looking statements, due to risks and uncertainties associated with VISX's business, which include the fact that we must obtain FDA approval for U.S. introduction of Iris registration and FDA approvals are never certain, that market acceptance of our products, and particularly of CustomVue, is uncertain and depends on broad acceptance by physicians and patients, that intense competition in the laser vision correction industry could result in the loss of customers, an inability to attract new customers, or a decrease in prices for our products, that we face risks due to our reliance on sales in international markets, that we are subject to extensive governmental regulation, which increases our costs and could prevent us from selling our products, that the possibility of long-term side effects and adverse publicity regarding laser correction surgery could seriously harm our business, that we have and may become subject to product liability claims, that adverse economic conditions may cause our revenues to decline, that expenses are relatively fixed in the short term and declines in revenue would have an immediate impact on earnings per share, and that there is uncertainty as to whether the transaction to merge with AMO will be completed. Further information on risk factors is contained in VISX's most recent filings with the Securities and Exchange Commission, including VISX's Quarterly Report on Form 10-Q for the quarter ended September 30, 2004 and the Registration Statement filed by AMO on Form S-4 with the SEC that includes a joint proxy statement/prospectus of VISX and AMO. VISX assumes no obligation to update the information included in this press release, whether as a result of new information, future events, or otherwise.
