The following table sets forth information regarding stock options granted to the Named Executive Officers during the fiscal year ended March 31, 2005. The exercise price in all cases is equal to 100% of the fair market value of our Shares on the date of grant.

In addition, in accordance with the Securities and Exchange Commission rules, the table shows the hypothetical gains that would exist for these options if exercised at end of the option term. These gains are based on the assumed rates of annual compound stock price appreciation of 5% and 10% from the date the options were granted to their expiration date, and do not represent the Company's estimates or projections of future stock prices. There can be no assurance that any of the values reflected in the table will be achieved. The gains shown are net of the option exercise price, but do not include deductions for taxes or other expenses associated with the exercise of the options or the sale of the underlying shares of stock. The actual value that an executive may realize, if any, will depend upon the difference between the market price of our Shares and the exercise price of the option on the date the option is exercised.

Compensation of Directors

As amended in May 2004, during fiscal 2005, each director of the Company who is not an employee of the Company or its affiliates received an annual fee of \$25,000 plus a fee of \$1,000 for each Board meeting attended and \$500 for each committee meeting attended. In addition, each such director was annually awarded a fully vested option to purchase 10,000 Shares at a purchase price determined on the date of grant in accordance with the applicable stock option plan. Each member of the Audit Committee was granted an additional fully vested option to purchase 5,000 Shares at a purchase price determined on the date of grant in accordance with the applicable stock option plan. The chairpersons of the Compensation and Stock Option Committee and Audit Committee were granted an additional fully vested option to purchase 3,000 Shares at a purchase price determined on the date of grant in accordance with the applicable stock option plan. Chairpersons and directors who are also employees of the Company or its affiliates receive no remuneration for serving as directors. The total number of Shares subject to options granted in any one year to any non-employee director shall not exceed an aggregate of 20,000 Shares. All independent directors who provide services to the Company or act to discharge their duties were paid \$1,500 per day plus actual expenses.

Employment Contracts, Termination of Employment and Change-in-Control Arrangements

Effective April 22, 1999, the Company entered into an employment agreement with Mr. Reed, providing that beginning on that date, he would serve as President and Chief Executive Officer of the Company for an initial term of three years, to be automatically extended by one year on an annual basis unless one party notifies the other of termination. The agreement contains standard provisions relating to benefits, intellectual property, confidentiality, and restrictions on competitive activities and solicitation of Company employees and customers. Pursuant to this agreement, Mr. Reed is entitled to an annual base salary of \$450,000 per year, which may be increased as determined by the Board of Directors. A portion of this salary is paid upon completion of the fiscal year so long as Mr. Reed continues to be employed by the Company at such time. After the second anniversary of the agreement, in all cases of termination except those occurring within two years of a change in control, options granted to Mr. Reed shall remain exercisable for a period of one year. Should Mr. Reed be terminated without cause or resign (as a result a reduction in pay or title, the Company's material breach of the employment contract or a relocation of Mr. Reed's offices outside of Southern California), within two years of a change of control or liquidation of the Company, all of Mr. Reed's options shall vest immediately and remain exercisable for a period of one year and he shall receive a severance payment equal to two times his current base salary if termination occurs in the first year of the contract, and three times his current base salary if termination happens thereafter. Mr. Reed is also entitled to a severance payment of three times his current base salary if he is terminated by the Company without cause (as defined in the agreement).

The Company entered into substantially similar employment agreements with Katie Fung, Dean Personne, Jack Menache and Danny Tong. These agreements contain standard provisions relating to confidentiality and restrictions on competitive activities and solicitation of Company employees and customers. Each agreement also calls for a lump-sum severance payment in amounts equal to 3 to 12 months base salary and unused vacation pay, and the vesting of all stock options which would have vested within 18 months of the date of termination with such options remaining exercisable for one year should the employee be terminated without cause or resign because of a reduction in base salary or material adverse change in employment duties. If termination without cause or resignation (resulting from a reduction in base salary or a materially adverse change in employment duties) occurs in anticipation of or within two years following a change in control or liquidation of the Company, in addition to a severance package similar to that described above, all stock options held by the employee shall immediately vest in full and remain exercisable for a period of one year. In July 2005, the Company entered into addendums to each of those agreements that removed the specified termination dates and to extend the term until such time as the respective agreement is otherwise terminated in accordance with its terms.
