PART I - FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

The unaudited condensed consolidated balance sheet of the Registrant at June 30, 2005, the audited balance sheet at December 31, 2004, and the unaudited condensed consolidated statements of operations, shareholders' impairment, and cash flows for the three and six month periods ended June 30, 2005 and June 30, 2004 follow. The unaudited condensed consolidated financial statements reflect all adjustments that are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented.

e-SMART TECHNOLOGIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Basis of Presentation

The accompanying unaudited consolidated financial statements include the accounts of the Registrant and, since commencement of its operations on January 1, 2004 those of its wholly-owned subsidiary e-Smart Korea, Inc., and have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six month and three month periods ended June 30, 2005 and 2004, are not necessarily indicative of the results that may be expected for the respective years ended December 31, 2005 and 2004.

The unaudited condensed consolidated financial statements should be read in conjunction with the audited financial statements and related footnotes included in the Registrant's Annual Report on Form 10-KSB for the fiscal year ended December 31, 2004, supplemented by the notes included herein.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 Related Party Transactions

Common Ownership

Approximately 77% of the Registrant's outstanding common shares are owned by IVI Smart Technologies, Inc., a Delaware corporation (the Licensor), that is the sole owner of all of the Super Smart Camera Technology licensed to the Registrant in November 2000, August 2001, and September 2001, for a 20-year term for commercialization throughout China, the remainder of Asia exclusive of China, and the United States of America, respectively. In addition, the Licensor's parent, Intermarket Ventures, Inc., a Utah corporation (Ventures) has advanced the Registrant \$930,400 in 6% term notes and 314,000 in 5% demand notes at various dates throughout 2004, and an additional \$545,196 and \$136,000, respectively, during the six months ended June 30, 2005. Mary A. Grace, the Registrant's President and Chief Executive Officer, is a director, executive officer and principal stockholder of the Licensor and Ventures. Tamio Saito, the Registrant's Chief Technology Officer, is also an executive officer and principal stockholder of the Licensor and Ventures. The Licensor is in a position to materially

Table of Contents

influence the direction of the Registrant, its efforts in raising the additional capital critical to its success, and the strategies employed in commercialization of the licensed technology, assuming the Registrant's business plan is ultimately successful.

Note 3 Going Concern

The Registrant's condensed consolidated financial statements have been presented on the basis that it is a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business.

As shown in the accompanying financial statements, the Registrant had negative working capital at June 30, 2005, of \$ 1,209,293. In addition, the Registrant has incurred an accumulated deficit of \$(2,037,709) through June 30, 2005. The Registrant is dependent upon the efforts of its management to raise proceeds from continued debt or equity placements to sustain the research and development and ultimate commercialization of their respective interests in the Super Smart Card technology. The Registrant's ability to continue to receive the necessary level of funding support through the efforts of its management cannot be guaranteed. The condensed consolidated financial statements do not include any adjustments that might be necessary if the Registrant is unable to continue as a going concern.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion contains forward-looking statements regarding the Registrant, its business, prospects and results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause the Registrant's actual business, prospects and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Factors that may affect such forward-looking statements include the Registrant's ability to successfully exploit its licensed technology, develop new products and new markets for its licensed technology; the impact of competition on the Registrant's proposed operations, changes in law or regulatory requirements that adversely affect or preclude customers from using the Registrant's licensed technology, delays in the Registrant's introduction of new products or services, and failure by the Registrant to keep pace with emerging technologies.

When used in this discussion, words such as believes, anticipates, expects, intends, and similar expressions are intended to identify forward-looking statements, but are not the exclusive means of identifying forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. The Registrant undertakes no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by the Registrant in this report and other reports filed with the Securities and Exchange Commission (SEC) that attempt to advise interested parties of the risks and factors that may affect the Registrant's business.

Table of Contents

Six Months Ended June 30, 2005 and June 30, 2004

Revenues Since obtaining the license to the Super Smart Card technology in November 2000, the Registrant has been engaged in research and development efforts to enhance and broaden the technology's applications and in exploring the global market for its optimal commercialization. In the opinion of management, the Registrant's Super Smart Cards ready for commercialization. This fact notwithstanding, the Registrant is still in its development stage for accounting purposes as it has not experienced revenues in either of the six month periods ended June 30, 2005 (6M05) or June 30, 2004 (6M04).

Cost of Revenues Consistent with the Registrant still being in its development stage, it did not experience cost of revenues in either 6M05 or 6M04.

Operating Expenses - Operating expenses rose to \$ 2,025,048 for 6M05 compared to \$1,486,160 for 6M04; an increase of \$538,888 or 36%. The principal factors underlying this increase were as follows: 1) increased marketing expenses during 6M05 compared to 6M04 consistent with the Registrant's efforts to get closer to generating revenues, 2) an increase in general and administrative expenses during 6M05 consistent with the Registrant beginning to create the infrastructure it will require to oversee its affairs, and 3) an increase in research and development expenses in 6M05 in line with the Registrant's technology becoming closer to commercialization.

Loss Before Taxes and Income Taxes As a result of the foregoing, loss before taxes for 6M05 was \$(2,025,048) compared to \$(1,486,160) for 6M04 upon which the Registrant's provision for taxes in both periods was solely attributable to minimum state franchise taxes payable.

Net Loss Consistent with the foregoing analysis, the Registrant reported a net loss of \$(2,025,698) or \$(0.01) per share for 6M05, compared to a net loss of \$(1,486,660) or \$(0.01) per share for 6M04, based upon weighted average shares outstanding of 180,346,118 and 172,124,990, respectively.

Three Months Ended June 30, 2005 and June 30, 2004

Revenues Since obtaining the license to the Super Smart Card technology in November 2000, the Registrant has been engaged in research and development efforts to enhance and broaden the technology's applications and in exploring the global market for its optimal commercialization. In the opinion of management, the Registrant's Super Smart Cards ready for commercialization. This fact notwithstanding, the Registrant is still in its development stage for accounting purposes as it has not experienced revenues in either of the three month periods ended June 30, 2005 (2Q05) or June 30, 2004 (2Q04).

Cost of Revenues Consistent with the Registrant still being in its development stage, it did not experience cost of revenues in either 2Q05 or 2Q04.

Operating Expenses - Operating expenses rose to \$1,213,798 for 2Q05 compared to \$689,553 for 2Q04; an increase of \$524,245 or 76%. The principal factors underlying

Table of Contents

this increase were as follows: 1) increased marketing expenses during 2Q05 compared to 2Q04 consistent with the Registrant's efforts to get closer to generating revenues, 2) an increase in general and administrative expenses during 2Q05 consistent with the Registrant beginning to create the infrastructure it will require to oversee its affairs, and 3) an increase in research and development expenses in 2Q05 in line with the Registrant's technology becoming closer to commercialization.

Loss Before Taxes and Income Taxes As a result of the foregoing, loss before taxes for 2Q05 was \$(1,213,798) compared to \$(689,553) for 2Q04 upon which the Registrant's provision for taxes in both periods was solely attributable to minimum state franchise taxes payable.

Net Loss Consistent with the foregoing analysis, the Registrant reported a net loss of \$(1,214,198) or \$(0.01) per share for 2Q05, compared to a net loss of \$(689,803) or \$(0.00) per share for 2Q04, based upon weighted average shares outstanding of 185,453,748 and 162,409,292, respectively.

Liquidity and Capital Resources - The Registrant has limited working capital and is dependent upon the efforts of the Licensor and Ventures in raising proceeds derived from private securities offerings for funds for the continuation of its proposed smart card business. Currently, the Registrant does not have any existing credit facilities or similar bank borrowing arrangements. The Registrant will need to obtain additional financing in order to carry out its entire business plan. There can be no assurance that any additional financing will be available to the Registrant on acceptable terms, if at all. If the Registrant raises additional funds by issuing additional equity securities, further dilution to existing equity holders will result. If adequate additional funds are not available, the Registrant may be required to curtail significantly its long term business objectives and the Registrant still may not be able to transition out of the development stage, notwithstanding that the BVS2 systems and Super Smart Card and other smart card system technologies are ready for commercialization.

At June 30, 2005, the Registrant had current assets of \$ 98,518 (including cash of \$ 57,950), current liabilities of \$ 1,307,811, and an accumulated deficit of \$(2,037,709). The Registrant periodically evaluates its liquidity requirements, capital needs and availability of capital resources in view of its plans for commercialization of its technology, and other operating cash needs. In the opinion of Registrant's management, the Registrant is entirely dependent upon a material infusion of capital from the sale of securities to its accredited investors during the next several months in order to sustain its current developmental efforts, commence commercial operations, and ultimately transition out of the development stage.

ITEM 3. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

During the quarter ended June 30, 2005, the Registrant continued to implement controls and procedures designed to ensure that information required to be disclosed in the

Table of Contents

reports that the Registrant files or submits under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Based upon their evaluation of the controls and procedures implemented within 90 days of the filing date of this Quarterly Report, the Chief Executive and Chief Financial Officer of the Registrant concluded that the Registrant's disclosure controls and procedures have been improved substantially during the past three months. Such officer also concluded that the Registrant's controls and procedures will likely equal or exceed those required of the Registrant within one or two more operating quarters.

Changes in Internal Controls

The Registrant made no significant changes in its internal controls or in other factors that could significantly affect these controls subsequent to the date of the evaluation of those controls by the Chief Executive and Chief Financial Officer.

PART II - OTHER INFORMATION

ITEM 5. OTHER INFORMATION

Letter of Intent with MYBi, Inc.

On June 27, 2005, the Registrant, through e-Smart Korea, Inc., its wholly owned subsidiary (e-Korea), entered into a letter of intent (the LOI), with MYBi, Inc., a Korean corporation and owner of certain proprietary technology to facilitate automated fare collection and other pre-paid micro-payments, that has entered into extensive agreements with certain entities in Busan and other locations in Korea for the use of such technology (MYBi). The LOI contemplated a strategic alliance with MYBi designed to facilitate the development, adoption, and use of automated fare collection, micro-payment and macro-payment systems in Korea and elsewhere that marry the Registrant's proprietary biometric smartcard system with MYBi's proprietary automated fare collection and micro-payment system. On July 25, 2005, and as enumerated in the Registrant's Form 8-K Current Report filed on August 4, 2005, the Registrant, through e-Korea, entered into a ten year Strategic Alliance Agreement with MYBi, essentially embodying the terms of the LOI.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K
