ITEM 1.01. ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT.

On December 8, 2005, the Board of Directors (the Board) of KVH Industries, Inc. (the Company) amended the Company s Amended and Restated 1996 Employee Stock Purchase Plan (the Plan.) Among other technical changes, the Plan was amended to provide that the option price for shares of common stock purchased under the Plan will be equal to 85% of the fair market value of the common stock at the end of the offering period, rather than the lower of such amount or 85% of the fair market value of the common stock at the beginning of the offering period.

On December 9, 2005, the Compensation Committee of the Board of Directors (the Committee) accelerated the vesting of existing out-of-the-money stock options that have exercise prices per share equal to or greater than ten percent (10%) above the closing market price on December 8, 2005. On such date, the closing market price was \$9.93. Accordingly, options to purchase approximately 271,000 shares of the Company s common stock became exercisable on December 9, 2005 as a result of this acceleration. These options have exercise prices ranging from \$10.99 to \$17.62 per share. The decision to accelerate the vesting of these stock options was made primarily to reduce the cumulative non-cash compensation expense that would have been recorded in the Company s Statement of Operations in future periods as a result of the adoption of FAS 123(R).
