**Item 1.01 Entry into a Material Definitive Agreement**

On January 24, 2007, Biolase Technology Inc. ( Biolase or the Company ) entered into a License Agreement (the Agreement ) with The Procter & Gamble Company ( P&G ). The Agreement formalizes the relationship between the parties that was formed pursuant to a binding letter of intent entered into in June 2006. Pursuant to the Agreement, Biolase granted P&G an exclusive, worldwide right and license to all Biolase intellectual property (the Licensed IP ) and technology related to, and for use in, the development of consumer products ( Products ) in a number of different areas, some of which areas are conditioned upon P&G s timely initiation of product development. The Agreement also grants to P&G the right to negotiate with Biolase in the event Biolase wishes to sell certain patents licensed under the Agreement.

Pursuant to the Agreement, P&G will make quarterly payments to Biolase in the amount of \$250,000, beginning with a payment for the third quarter of 2006 and continuing until the first Product is shipped by P&G for large-scale commercial distribution in the United States. Seventy-five percent of each \$250,000 payment will be treated as prepaid royalties and will be credited against royalty payments owed by P&G to Biolase. Twenty-five percent of each quarterly payment is considered payment for services provided by Biolase to P&G. The Agreement also provides for certain product launch milestone payments, a portion of which will be treated as prepaid royalties, and provides for potential payments associated with the exercise by P&G of an option to add a specific field of use to the Licensed IP. Following Product launches, P&G will be obligated to make royalty payments to the Company. The royalty rate, which will be expressed as a percentage of net Product sales, will depend in part upon the product category to which each Product belongs.

The Agreement will terminate on the date the last Biolase patent licensed to P&G expires. Additionally, either party may terminate the Agreement if there is an uncured material breach of any provision of the Agreement by the other party. Upon any termination for an uncured material breach, P&G may require Biolase to refund certain payments made to Biolase under the Agreement. Alternatively, following an uncured material breach, P&G may elect not to terminate the Agreement and instead to retain its exclusive license without any further payment obligations to Biolase. In that circumstance, P&G will not be entitled to receive reimbursement of any previous payments. The Agreement may also be terminated by mutual consent or by P&G upon a change in control of Biolase.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
