MCN | Madison/Claymore Covered Call Fund

**Dear Shareholder |**

We are pleased to submit the annual shareholder report for the Madison/Claymore Covered Call Fund (the Fund) for the fiscal year ended December 31, 2006. As you may know, the Fund's primary investment objective is to seek a high level of current income and current gains with a secondary objective of long-term capital appreciation. The Fund pursues these objectives by investing in a portfolio of what the Investment Manager believes to be high-quality, large-capitalization stocks that are trading at reasonable valuations in relation to their long-term earnings growth rates. The Fund will, on an ongoing and consistent basis, sell covered call options to seek to generate a reasonably steady return from option premiums.

Madison Asset Management, LLC, a wholly-owned subsidiary of Madison Investment Advisors, Inc., is the Fund's Investment Manager. Founded in 1974, Madison is an independently owned firm that acts as an investment adviser for individuals, corporations, pension funds, endowments, insurance companies and mutual funds. Madison and its subsidiaries managed more than \$10 billion in assets as of December 31, 2006.

In the fiscal year ended December 31, 2006, the Fund generated a total return of 11.86% on a market value basis. This represents a change in market price to \$15.11 on December 31, 2006 from \$14.80 on December 31, 2005, plus the reinvestment of dividends. The Fund produced a total return of 10.22% on a net asset value (NAV) basis. This represents a change in NAV to \$14.84 on December 31, 2006 from \$14.74 at the start of the period, plus the reinvestment of dividends. The Fund paid quarterly dividends of \$0.33 per share during the period. The most recent distribution was paid on November 30, 2006 and represented an annualized distribution yield of 8.74% based on the Fund's market price of \$15.11 on December 31, 2006.

Shareholders have the opportunity to reinvest their dividends from the Fund through the Dividend Reinvestment Plan (DRIP) that is described in detail on page 21 of this report. If shares trade at a discount to NAV, the DRIP takes advantage of the discount by reinvesting the quarterly dividend distribution in common shares of the Fund purchased in the market at a price less than NAV. Conversely, when the market price of the Fund's common shares is at a premium above NAV, the DRIP reinvests participants' dividends in newly-issued common shares at NAV, subject to an IRS limitation that the purchase price cannot be more than 5% below the market price per share. The DRIP provides a cost effective means to accumulate additional shares and to enjoy the benefits of compounding returns over time.

To learn more about the Fund's performance over this fiscal period, we encourage you to read the *Questions & Answers* section of the report on page 4. You will find information on Madison's investment philosophy and discipline and its views on the overall market environment and how it structured the portfolio based on its views.

We appreciate your investment and look forward to serving your investment needs in the future. For the most up-to-date information on your investment, please visit the Fund's website at [www.madisonclaymore.com](http://www.madisonclaymore.com).

Sincerely,

Nicholas Dalmaso

## Questions & Answers |

*We at Madison Asset Management, LLC are pleased to address the progress of the Madison/Claymore Covered Call Fund (the Fund) for the period ended December 31, 2006. Launched in July 2004, the Fund continues to pursue its investment objectives by investing in high-quality, large-capitalization common stocks that are, in our view, selling at reasonable prices with respect to their projected long-term earnings growth rates. Our option-writing strategy has provided a steady income return from option premiums which help us achieve our primary investment objective of providing a high level of current income and gains with a secondary objective of long-term capital appreciation.*

*Madison Asset Management, LLC, ( MAM ) a wholly owned subsidiary of Madison Investment Advisors, Inc., with its affiliates, manages more than \$10 billion in individual, corporate, pension, insurance, endowment, and mutual fund assets.*

### **What happened in the market during 2006?**

Despite a lackluster first half, 2006 proved a profitable year for stock investors. The Standard & Poor's 500 Index ( S&P 500 ) returned 15.8%. From a capitalization perspective, the S&P 500 performed roughly the same as mid-cap stocks (the Russell Midcap Index returned 15.3%). However, from a style perspective, value stocks once again stole the spotlight as growth stocks continued to lag.<sup>1</sup> A number of factors contributed to positive returns for the market. Investors remained primarily focused on the activities of the Federal Reserve Board (the Fed ). During the first half of the year, stock returns were soft as the Fed continued raising short-term interest rates. However, in the second half of 2006, the Fed held firm at a 5.25% target federal funds rate. As the prospect for further rate increases dwindled and a soft economic landing began to look more likely, equities gained momentum. Additionally, despite weak housing data for most of the year, real estate has shown some signs of bottoming. Energy prices dropped in the second half of the year as well, easing the burden at the pump for consumers and reducing fears of out-of-control inflation. Finally, 2006 witnessed a pickup in merger and acquisition activity, providing additional fuel for the stock market.

### **How did the Fund perform given marketplace conditions?**

We are pleased to report that the Fund generated sufficient income in 2006 to return \$1.32 per share in dividends to our shareholders. We continued to find ample opportunities to write calls at attractive premiums. The Fund's net asset value ( NAV ) per share also increased by \$0.10 in 2006 to \$14.84 from \$14.74 as the Fund's assets appreciated in value. The Fund's market price per share at year end was \$15.11, representing a 1.82% premium to its NAV at that time.

For the year, the Fund provided investors with a total return of 10.22% based on NAV and 11.86% based on market value, including the reinvestment of quarterly dividends in each case. Since inception, the NAV has increased \$0.51 per share and the

<sup>1</sup> Large value stocks are measured by the Russell 1000 Value Index, which returned 22.25% in 2006. Large growth stocks are measured by the Russell 1000 Growth Index, which returned 9.07% in 2006.

Fund has paid \$2.94 per share in dividends, resulting in a 26.38% cumulative total return. This compares favorably to the 24.8% increase for the CBOE BuyWrite Index over the same period. Thus, we believe that the Fund has achieved solid results over its first 29 months of operation, providing us with considerable confidence in meeting the Fund's long-term goals. Furthermore, we are optimistic about the Fund's ability to continue paying investors an attractive dividend.

### **Will you describe the Fund's portfolio equity and option structure?**

As of December 31, 2006, the Fund held 53 common stocks, and covered call options were written against 86% of the Fund's stock holdings. During the year, the Fund's managers wrote call options that generated premiums of \$26.8 million. It is the strategy of the Fund to write out-of-the-money options, meaning that the strike price is higher than the common stock price, so that the Fund has the potential to participate in some stock appreciation. At year end, however, the majority of the Fund's options were in-the-money because of price appreciation of the underlying stocks. In-the-money means that the stock price is above the strike price at which the shares would be called away. This provides the Fund with some downside protection should the market sell off.

### **Which sectors are prevalent in the Fund?**

## Edgar Filing: Madison/Claymore Covered Call Fund - Form N-CSR

From a sector perspective, as of December 31, 2006, the Fund's largest exposure was in the consumer discretionary sector, followed by technology, health care and financials. We continue to remain absent from the materials and utilities sectors, but did take a small position in energy during 2006.

### **Please describe the Fund's dividend policy.**

The Fund declared a \$0.33 per share quarterly dividend in February, May, August and November of 2006. At the Fund's traded market price of \$15.11 per share on December 31, 2006 and at the current quarterly rate of \$0.33, the Fund's dividend yield was 8.7%. All dividends during 2006 consisted of investment company taxable income (net income and short and long-term capital gains). The 2006 distributions did not include any returns of capital. It is management's intention to pay a dividend consisting of only earned net income and capital gains.

### **Will you discuss the Fund's security and option selection process?**

The Fund is managed by two teams of investment professionals. We like to think of these teams as a right hand and left hand, meaning they work together to make common stock and option decisions. We use fundamental analysis to select solid companies with good growth prospects and attractive valuations. We then seek attractive call options to write on those stocks. It is our belief that this partnership of active management between the equity and option teams provides investors with an innovative, risk-moderated approach to equity investing.

---

MCN | Madison/Claymore Covered Call Fund | **Questions & Answers** continued

Madison Asset Management seeks to invest in a portfolio of common stocks that have favorable PEG ratios (price-earnings ratio to growth rate) as well as financial strength and industry leadership. As bottom-up investors, we focus on the fundamental businesses of the companies the Fund holds. Our stock selection philosophy strays away from the beat the street objective, as we seek companies that we believe have sustainable competitive advantages, predictable cash flows, solid balance sheets and high-quality management teams. By concentrating on long-term prospects and circumventing the instant gratification school of thought, we believe we bring elements of consistency, stability and predictability to the Fund's shareholders.

Once we have selected attractive and solid names for the Fund, we employ our call writing strategy. This procedure entails selling calls that are primarily out-of-the money so that the Fund can potentially participate in some stock appreciation. By receiving option premiums, the Fund receives a high level of investment income and adds an element of downside protection. Call options may be written over a number of time periods and at differing strike prices in an effort to maximize the protective value to the strategy and spread income evenly throughout the year.

**What is management's outlook for the market and Fund in 2007?**

Our outlook for stocks remains positive despite the rally in the second half of 2006. We believe there are a number of factors that can continue to drive positive returns, although some volatility is likely in the near term. While the economy has clearly slowed from its heady post-Katrina pace, Gross Domestic Product growth has held up at a more sustainable pace. This benefits our style of investing since a slower economy should lead to slower earnings growth, which should shift attention to higher quality companies, such as those the Fund owns. Furthermore, with the economy growing at a solid but slower pace and the market seemingly unconcerned about inflation, interest rates have been low and stable. This would generally be a good environment for price-to-earnings multiple expansion. At the very least we believe the headwind of price-to-earnings multiple contraction is gone. While we continue to believe that profit margins have likely peaked, absolute earnings remain strong. As a corollary effect, as profit levels have fattened over the years, many corporate balance sheets have been cleaned up and companies have rewarded shareholders with increased dividends and share repurchase programs. We expect this type of activity to continue. Although the strength in stocks in the latter half of the year may be followed by a pause sometime in the first part of 2007, we are prepared to take advantage of opportunities as they become available. Finally, we are optimistic that we will continue to be able to find call writing opportunities that will provide meaningful income for the Fund.

**MCN Risks and Other Considerations**

There can be no assurance that the Fund will achieve its investment objectives. The value of the Fund will fluctuate with the value of the underlying securities. Historically, closed-end funds often trade at a discount to their net asset value.

A strategy of writing (selling) covered call options entails various risks. For example, the correlation between the equity securities and options markets may, at times, be imperfect and can furthermore be affected by market behavior and unforeseen events, thus causing a given transaction to not achieve its objectives. There may be times when the Fund will be required to purchase or sell equity securities to meet its obligations under the options contracts on certain options at inopportune times when it may not be beneficial to the Fund. The Fund will forego the opportunity to profit from increases in the market value of equity securities that it has written call options on, above the sum of the premium and the strike price of the option. Furthermore, the Fund's downside protection on equity securities it has written call options on would be limited to the amount of the premium received for writing the call option and thus the Fund would be at risk for any further price declines in the stock below that level. Please refer to the Fund's prospectus for a more thorough discussion of the risks associated with investments in options on equity securities.

An investment in the Fund includes, but is not limited to, risks and considerations such as: Investment Risk, Not a Complete Investment Program, Equity Risk, Risks Associated with Options on Securities, Limitation on Option Writing Risk, Risks of Mid-Cap Companies, Income Risk, Foreign Securities Risk, Industry Concentration Risk, Derivatives Risk, Illiquid Securities Risk, Fund Distribution Risk, Market Discount Risk, Other Investment Companies, Financial Leverage Risk, Management Risk, Risks Related to Preferred Securities, Interest Rate Risk, Inflation Risk, Current Developments Risk and Anti-Takeover Provisions.

**Fund Distribution Risk** In order to make regular quarterly distributions on its common shares, the fund may have to sell a portion of its investment portfolio at a time when independent investment judgment may not dictate such action. In addition, the Fund's ability to make distributions more frequently than annually from any net realized capital gains by the Fund is subject to the Fund obtaining exemptive relief from the Securities and Exchange Commission, which cannot be assured. To the extent the total quarterly distributions for a year exceed the Fund's net investment company income and net realized capital gain for that year, the excess will generally constitute a return of the Fund's capital to its common shareholders. Such return of capital distributions generally are tax-free up to the amount of a common shareholder's tax basis in the common shares (generally, the amount paid for the common shares). In addition, such excess distributions will decrease the Fund's

## Edgar Filing: Madison/Claymore Covered Call Fund - Form N-CSR

total assets and may increase the Fund's expense ratio.

**Risks Associated with Options on Securities** There are several risks associated with transactions in options on securities. For example, there are significant differences between the securities and options markets that could result in an imperfect correlation between these markets, causing a given transaction not to achieve its objectives. A decision as to whether, when and how to use options involves the exercise of skill and judgment, and even a well-conceived transaction may be unsuccessful to some degree because of market behavior or unexpected events. As the writer of a covered call option, the Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call but has retained the risk of loss should the price of the underlying security decline. The writer of an option has no control over the time when it may be required to fulfill its obligation as a writer of the option. Once an option writer has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying security at the exercise price.

MCN | Madison/Claymore Covered Call Fund

**Notes to Financial Statements | December 31, 2006**

**Note 1 Organization:**

Madison/Claymore Covered Call Fund (the Fund) was organized as a Delaware statutory trust on May 6, 2004. The Fund is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940.

The Fund's primary investment objective is to provide a high level of current income and current gains, with a secondary objective of long-term capital appreciation. The Fund will pursue its investment objectives by investing in a portfolio consisting primarily of high quality, large capitalization common stocks that are, in the view of the Fund's Investment Manager, selling at a reasonable price in relation to their long-term earnings growth rates. The Fund will, on an ongoing and consistent basis, sell covered call options to seek to generate a reasonably steady production of option premiums. There can be no assurance that the Fund will achieve its investment objectives. The Fund's investment objectives are considered fundamental and may not be changed without shareholder approval.

**Note 2 Significant Accounting Policies:**

The preparation of the financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

The following is a summary of significant accounting policies consistently followed by the Fund.

**(a) Valuation of Investments**

Readily marketable portfolio securities listed on an exchange or traded in the over-the-counter market are generally valued at their last reported sale price. If no sales are reported, the securities are valued at the mean of the closing bid and asked prices on such day. If no bid or asked prices are quoted on such day, then the security is valued by such method as the Fund's Board of Trustees shall determine in good faith to reflect its fair value. Securities traded on NASDAQ are valued at the NASDAQ official closing price. Portfolio securities traded on more than one securities exchange are valued at the last sale price at the close of the exchange representing the principal market for such securities. Debt securities are valued at the last available bid price for such securities or, if such prices are not available, at the mean between the last bid and asked price. Exchange-traded options are valued at the mean of the best bid and best asked prices across all option exchanges.

Short-term debt securities having a remaining maturity of sixty days or less are valued at amortized cost, which approximates market value.

**(b) Investment Transactions and Investment Income**

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized to interest income over the lives of the respective securities using the effective interest method.

To earn greater income on otherwise uninvested cash temporarily held by the Fund, such as income earned from stock sold or called away, stock dividends and covered call writing premiums, the Fund may invest such cash in repurchase agreements. Repurchase agreements are short-term investments in which the Fund acquires ownership of a debt security and the seller agrees to repurchase the security at a future time and specified price. Repurchase agreements are fully collateralized by the underlying debt security. The Fund will make payment for such securities only upon physical delivery or evidence of book entry transfer to the account of the custodian bank. The seller is required to maintain the value of the underlying security at not less than the repurchase proceeds due the Fund.

**(c) Options**

The Fund will pursue its primary objective by employing an option strategy of writing (selling) covered call options on common stocks comprising at least 80% of the total assets of the Fund. Once an option is assigned, expired or exercised, the Fund has 20 business days to write additional options to meet the 80% test. The Fund seeks to produce a high level of current income and gains through premiums received from

writing options and, to a lesser extent, from dividends.

An option on a security is a contract that gives the holder of the option, in return for a premium, the right to buy from (in the case of a call) or sell to (in the case of a put) the writer of the option the security underlying the option at a specified exercise or strike price. The writer of an option on a security has an obligation upon exercise of the option to deliver the underlying security upon payment of the exercise price (in the case of a call) or to pay the exercise price upon delivery of the underlying security (in the case of a put).

There are several risks associated with transactions in options on securities. As the writer of a covered call option, the Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call but has retained the risk of loss should the price of the underlying security decline. The writer of an option has no control over the time when it may be required to fill its obligation as writer of the option. Once an option writer has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying security at the exercise price.

**(d) Distributions to Shareholders**

The Fund declares and pays quarterly dividends to common shareholders. Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. These dividends consist of investment company taxable income, which generally includes qualified dividend income, ordinary income and short-term capital gains, including premiums received on written options. Realized short-term capital gains are considered ordinary income for tax purposes and will be reclassified at the Fund's fiscal year end on the Fund's Statement of Assets and Liabilities from accumulated net realized gains to distributions in excess of net investment income. Any net realized long-term capital gains are distributed annually to common shareholders.

## MCN | Madison/Claymore Covered Call Fund | Notes to Financial Statements continued

**Note 3 Investment Advisory Agreement, Investment Management Agreement and Other Transactions with Affiliates:**

Pursuant to an Investment Advisory Agreement (the Agreement) between the Fund and Claymore Advisors, LLC (the Adviser), the Adviser will furnish offices, necessary facilities and equipment, provide certain administrative services, oversee the activities of Madison Asset Management LLC (the Investment Manager), provide personnel, including certain officers required for the Fund's administrative management and compensate all officers and trustees of the Fund who are its affiliates. As compensation for these services, the Fund will pay the Investment Adviser a fee, payable monthly, in an amount equal to 0.50% of the Fund's average daily managed assets. Managed assets equal the net assets of the Fund plus any assets attributable to financial leverage.

Pursuant to an Investment Management Agreement between the Fund and the Investment Manager, the Investment Manager, under the supervision of the Fund's Board of Trustees and the Adviser, will provide a continuous investment program for the Fund's portfolio; provide investment research and make and execute recommendations for the purchase and sale of securities; and provide certain facilities and personnel, including officers required for the Fund's administrative management and compensation of all officers and trustees of the Fund who are its affiliates. As compensation for these services, the Fund will pay the Investment Manager a fee, payable monthly, in an amount equal to 0.50% of the Fund's average daily managed assets.

Under separate Fund Administration and Fund Accounting agreements, the Adviser provides fund administration services and the Investment Manager provides fund accounting services to the Fund. The Adviser receives a fund administration fee payable monthly at the annual rate set forth below as a percentage of the average daily managed assets of the Fund:

Managed Assets	Rate
First \$ 200,000,000	0.0275%
Next \$ 300,000,000	0.0175%
Next \$ 500,000,000	0.0125%
Over \$ 1,000,000,000	0.0100%

The Investment Manager receives a fund accounting fee based on the combined managed assets of the Fund and the Madison Strategic Sector Premium Fund, a closed-end investment company sponsored by the Investment Manager. The fund accounting fee is allocated on a prorated basis of the managed assets of each fund. This fee is payable monthly at the annual rate set forth below as a percentage of the average daily managed assets of the two funds:

Managed Assets	Rate
First \$ 200,000,000	0.0275%
Next \$ 300,000,000	0.0200%
Next \$ 500,000,000	0.0150%
Over \$ 1,000,000,000	0.0100%

Certain officers and trustees of the Fund are also officers and directors of Claymore Advisors, LLC or Madison Asset Management LLC. The Fund does not compensate its officers or trustees who are officers of the two aforementioned firms.

**Note 4 Federal Income Taxes:**

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. In addition, by distributing substantially all of its ordinary income and long-term capital gains, if any, during each calendar year, the Fund intends not to be subject to U.S. federal excise tax.

Due to inherent differences in the recognition of income, expenses, and realized gains/losses under U.S. generally accepted accounting principles and federal income tax purposes, permanent differences between book and tax basis reporting have been identified and appropriately reclassified on the Statement of Assets and Liabilities. A permanent book and tax difference relating to a distribution reclass in the amount of \$24,929,078 was reclassified from accumulated undistributed net investment income to accumulated net realized gain. Net realized gains or losses may differ for financial reporting and tax reporting primarily as a result of the deferral of losses relating to wash sale transactions.

**Note 6 Capital:**

**Common Shares**

The Fund has an unlimited amount of common shares, \$0.01 par value authorized and 19,124,936 issued and outstanding.

Transactions in common shares were as follows:

	Year Ended	Year Ended
	December 31, 2006	December 31, 2005
Beginning Shares	18,889,180	18,513,442
Shares issued through dividend reinvestment	235,756	375,738
Ending Shares	19,124,936	18,889,180

**Note 7 Indemnifications:**

In the normal course of business, the Fund enters into contracts that provide general indemnifications. The Fund's maximum exposure under these arrangements is dependent upon claims that may be made against the Fund in the future, and, therefore cannot be estimated; however, the risk of material loss from such claims is considered remote.

**Note 8 Subsequent Event:**

On February 1, 2007, the Board of Trustees declared a quarterly dividend of \$0.33 per common share. This dividend is payable February 28, 2007 to shareholders of record on February 15, 2007.

**Note 9 New Accounting Pronouncements:**

On July 13, 2006, the Financial Accounting Standards Board ( FASB ) released FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes ( FIN 48 ). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006, and is to be applied to all open tax years as of the effective date. At this time, management is evaluating the implications of FIN 48 and its impact in the financial statements has not yet been determined.

On September 15, 2006, the FASB released Statement of Financial Accounting Standards No. 157, Fair Valuation Measurements ( FAS 157 ) which provides enhanced guidance for measuring fair value. The standard requires companies to provide expanded information about the assets and liabilities measured at fair value and the potential effect of these fair valuations on an entity's financial performance. The standard does not expand the use of fair value in any new circumstances, but provides clarification on acceptable fair valuation methods and applications. Adoption of FAS 157 is required for fiscal years beginning after November 17, 2007. At this time, management is evaluating the implications of FAS 157 and its impact in the financial statements has not yet been determined.

**Report of Independent Registered Public Accounting Firm |**

**To the Shareholders and Board of Trustees of Madison/Claymore Covered Call Fund**

We have audited the accompanying statement of assets and liabilities of Madison/Claymore Covered Call Fund (the Fund), including the portfolio of investments, as of December 31, 2006, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the two years in the period then ended and for the period from July 28, 2004 (commencement of investment operations) through December 31, 2004. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a part of designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2006, by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Madison/Claymore Covered Call Fund at December 31, 2006, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the two years in the period then ended and for the period from July 28, 2004 (commencement of investment operations) through December 31, 2004, in conformity with U.S. generally accepted accounting principles.

**Supplemental Information** | (unaudited)

**Federal Income Tax Information**

Qualified dividend income of as much as \$1,895,866 was received by the Fund through December 31, 2006. The Fund intends to designate the maximum amount of dividends that qualify for the reduced tax rate pursuant to the Jobs and Growth Tax Relief Reconciliation Act of 2003.

For corporate shareholders, \$1,895,866 of investment income qualifies for dividends-received deduction.

In January 2007, shareholders were advised on IRS Form 1099 DIV or substitute 1099 DIV as to the federal tax status of the distributions received by shareholders in calendar year 2006.

**Results of Shareholder Votes**

MCN | Madison/Claymore Covered Call Fund

**Dividend Reinvestment Plan** | (unaudited)

Unless the registered owner of common shares elects to receive cash by contacting the Plan Administrator, all dividends declared on common shares of the Fund will be automatically reinvested by the Bank of New York (the Plan Administrator), Administrator for shareholders in the Fund's Dividend Reinvestment Plan (the Plan), in additional common shares of the Fund. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional common shares of the Fund for you. If you wish for all dividends declared on your common shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each common shareholder under the Plan in the same name in which such common shareholder's common shares are registered. Whenever the Fund declares a dividend or other distribution (together, a Dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund (Newly Issued Common Shares) or (ii) by purchase of outstanding common shares on the open market (Open-Market Purchases) on the New York Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commission per common share is equal to or greater than the net asset value per common share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per common share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per common share on the payment date. If, on the payment date for any Dividend, the net asset value per common share is greater than the closing market value plus estimated brokerage commission, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases.

If, before the Plan Administrator has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per common share, the average per common share purchase price paid by the Plan Administrator may exceed the net asset value of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per common share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instruction of the participants.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commission incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such Dividends.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan

## About the Fund Manager |

### Madison Investment Advisors, Inc.

Madison Asset Management, LLC, (MAM) a wholly-owned subsidiary of Madison Investment Advisors, Inc., with its affiliates, manages over \$10 billion in individual, corporate, pension, insurance, endowment and mutual fund assets.

### Investment Philosophy

Madison believes in investing in high-quality growth companies, which deliver potentially consistent and sustainable earnings growth, yet sell at attractive valuations. Historically, shareholders of these types of companies have been rewarded over the long term with above-average returns, and favorable risk characteristics. Constructing portfolios with positive

risk/reward profiles has historically allowed clients to participate during strong market environments, while mitigating potential declines.

### Investment Process

The managers employ a fundamental, bottom-up strategy in constructing equity portfolios. The managers look for companies that they believe are consistently growing at an above-average pace, yet sell at below-average multiple.

The managers follow a rigorous three-step process when evaluating companies and then employ an actively-managed option strategy to help enhance income and mitigate downside risk.

1. **Business model.** The managers look for a sustainable competitive advantage, cash flow that is both predictable and growing, as well as a rock-solid balance sheet.
  2. **Management.** When assessing management, the managers look to see how the company has allocated capital in the past, their track record for enhancing shareholder value and the nature of their accounting practices.
  3. **Proper valuation.** The final step in the process is assessing the proper valuation for the company. The managers strive to purchase securities trading at a discount to their intrinsic value as determined by discounted cash flows. They corroborate this valuation work with additional valuation methodologies.
- The covered call investment strategy focuses on stocks in which the managers have high confidence in their continuing earnings growth rates, but sell at reasonable Price-Earnings Ratios. By writing the majority of the Fund's calls out-of-the-money, meaning the strike price is higher than the stock price, the Fund can participate in some stock appreciation while still receiving income in the form of option premiums. The covered call strategy also tends to reduce the risk compared to just owning the stock.

**Item 2. Code of Ethics.**

(a) The registrant has adopted a code of ethics (the Code of Ethics ) that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.

(b) No information need be disclosed pursuant to this paragraph.

(c) During the period covered by the shareholder report presented in Item 1, the Code of Ethics was revised to include more detail regarding the procedures to be followed for investigating, enforcing and reporting Code of Ethics issues.

(d) The registrant has not granted a waiver or an implicit waiver to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions from a provision of its Code of Ethics during the period covered by this report.

(e) Not applicable.

(f) (1) The registrant's Code of Ethics is attached hereto as an exhibit.

(2) Not applicable.

(3) Not applicable.

**Item 3. Audit Committee Financial Expert.**

The registrant's Board of Trustees has determined that it has at least one audit committee financial expert serving on its audit committee, Ronald E. Toupin, Jr. Mr. Toupin is an independent Trustee for purposes of this Item 3 of Form N-CSR. Mr. Toupin qualifies as an audit committee financial expert by virtue of his experience obtained as a portfolio manager and research analyst, which included review and analysis of offering documents and audited and unaudited financial statements using GAAP to show accounting estimates, accruals and reserves.

(Under applicable securities laws, a person who is determined to be an audit committee financial expert will not be deemed an expert for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as amended, as a result of being designated or identified as an audit committee financial expert. The designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities that are greater than the duties, obligations, and liabilities imposed on such person as a member of the audit committee and Board of Trustees in the absence of such designation or identification. The designation or identification of a person as an audit committee financial expert does not affect the duties, obligations or liability of any other member of the audit committee or board of directors.)

**Item 4. Principal Accountant Fees and Services.**

(a) Audit Fees: the aggregate fees billed for professional services rendered by the principal accountant for the audit of the registrant's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements were \$46,000 for the fiscal year ending December 31, 2006, and \$55,000 for the fiscal year ending December 31, 2005.

(b) Audit-Related Fees: the aggregate fees billed for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph 4(a) were \$0 for the fiscal year ending December 31, 2006 and \$0 for the fiscal year ending December 31, 2005.

(c) Tax Fees: the aggregate fees billed for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning were \$6,000 for the fiscal year ending December 31, 2006 and \$6,000 for the fiscal year ending December 31, 2005.

(d) All Other Fees: the aggregate fees billed for products and services provided by the principal accountant, other than the services reported in paragraphs (a) and (c) of this Item were \$0 for the fiscal year ending December 31, 2006 and \$0 for the fiscal year ending December 31, 2005.

The registrant's principal accountant did not bill fees for services not included in Items 4(b), (c) or (d) above that required pre-approval by the Audit Committee pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the Registrant's last two fiscal years.

(e) Audit Committee Pre-Approval Policies and Procedures

(i) The Registrant's audit committee reviews, and in its sole discretion, pre-approves, pursuant to written pre-approval procedures (A) all engagements for audit and non-audit services to be provided by the principal accountant to the registrant and (B) all engagements for non-audit services to be provided by the principal accountant (1) to the registrant's investment adviser (not including a sub-adviser whose role is primarily portfolio management and is sub-contracted or overseen by another investment adviser) and (2) to any entity controlling, controlled by or under common control with the registrant's investment adviser that provides ongoing services to the registrant; but in the case of the services described in subsection (B)(1) or (2), only if the engagement relates directly to the operations and financial reporting of the registrant; provided that such pre-approval need not be obtained in circumstances in which the pre-approval requirement is waived under rules promulgated by the Securities and Exchange Commission or New York Stock Exchange listing standards. Sections IV.C.2 and IV.C.3 of the Audit Committee's revised Audit Committee Charter contain the Audit Committee's Pre-Approval Policies and Procedures and such sections are included below.

IV.C.2 Pre-approve any engagement of the independent auditors to provide any non-prohibited services to the Trust, including the fees and other compensation to be paid to the independent auditors (unless an exception is available under Rule 2-01 of Regulation S-X).

(a) The Chairman or any member of the Audit Committee may grant the pre-approval of services to the Fund for non-prohibited services up to \$10,000. All such delegated pre-approvals shall be presented to the Audit Committee no later than the next Audit Committee meeting.

IV.C.3 Pre-approve any engagement of the independent auditors, including the fees and other compensation to be paid to the independent auditors, to provide any non-audit services to the Adviser (or any control affiliate of the Adviser providing ongoing services to the Trust), if the engagement relates directly to the operations and financial reporting of the Trust (unless an exception is available under Rule 2-01 of Regulation S-X).

(a) The Chairman or any member of the Audit Committee may grant the pre-approval for non-prohibited services to the Adviser up to \$10,000. All such delegated pre-approvals shall be presented to the Audit Committee no later than the next Audit Committee meeting.

(ii) None of the services described in each of Items 4(b) through (d) were approved by the audit committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) Not Applicable.

(g) The aggregate non-audit fees billed by the registrant's accountant for services rendered to the registrant, the registrant's investment adviser and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the registrant (not including a sub-adviser whose role is primarily portfolio management and is sub-contracted with or overseen by another investment adviser) that directly related to the operations and financial reporting of the registrant was \$0 for the fiscal year ending December 31, 2006 and \$0 for the fiscal year ending December 31, 2005.

(h) Not Applicable.

**Item 5. Audit Committee of Listed Registrants.**

(a) The registrant has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The audit committee of the registrant is comprised of: Randall C. Barnes, Philip E. Blake, James R. Imhoff, Jr., Ronald A. Nyberg, Ronald E. Toupin and Lorence D. Wheeler.

(b) Not Applicable.

**Item 6. Schedule of Investments.**

The Schedule of Investments is included as part of Item 1.

**Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.**

The registrant has delegated the responsibility for voting of proxies relating to its voting securities to its investment manager, Madison Asset Management, LLC (the Investment Manager). The Investment Manager's Proxy Voting Policies are included as an exhibit hereto.

**Item 8. Portfolio Managers of Closed-End Management Investment Companies.**

(a) (1) Frank E. Burgess, the President of Madison Investment Advisors, Inc., is responsible for the day-to-day management of the registrant. The Investment Manager is a wholly owned subsidiary of Madison Investment Advisors, Inc.

(a) (2) Other portfolios managed.

As of the end of the registrant's most recent fiscal year, Mr. Burgess was involved in the management of the following accounts:

Name of manager	Category of other accounts managed	Number managed in category	Total assets in category	Material conflicts of interest that may arise in connection with the manager's management of the Trust's investments and the investments of the other accounts
Frank Burgess	Registered investment companies	4 (including the registrant) *	\$ 415,046,000	None identified. One of the four funds managed by Mr. Burgess, the Madison Mosaic Equity Trust (MADOX), has investment strategies similar to the registrant. MADOX contains a fulcrum fee that rewards Madison Asset Management, LLC (MAM) if MADOX outperforms the BXM Index and penalizes MAM for underperforming the index. As of the date of this filing, MADOX assets were

Frank Burgess	<p>The Investment Manager believes investment professionals should receive compensation for the performance of their client's accounts, their individual effort, and the overall profitability of the firm. The manager is a controlling shareholder of Madison Investment Advisors, Inc. and participates in the overall profitability of the firm through his individual ownership in the firm. Madison Investment Advisors, Inc. also offers an Employee Stock Ownership Plan (ESOP) in which all employees are eligible to participate in after one year of employment. All the members of the Investment Manager's portfolio management teams have significant investments in either the firm or the investment company accounts the Investment Manager manages with the same general style and philosophy as individual client accounts. The Investment Manager believes its portfolio managers' goals are aligned with those of long-term investors, recognizing client goals to outperform over the long-term, rather than focused on short-term performance contests.</p>	Not applicable.	<p>None. Compensation is based on the entire employment relationship, not based on the performance of any single account or type of account.</p>
