Proxy Statement for the 2008 Annual Meeting of Stockholders

To Be Held on June 3, 2008

This proxy statement contains information about the 2008 annual meeting of stockholders of Achillion Pharmaceuticals, Inc., including postponements and adjournments of the meeting. We are holding the meeting at our offices at 300 George Street, New Haven, Connecticut on Tuesday, June 3, 2008 at 9:00 a.m., local time.

In this proxy statement, we refer to Achillion Pharmaceuticals, Inc. as Achillion, we and us.

We are sending you this proxy statement in connection with the solicitation of proxies by our Board of Directors for use at the annual meeting.

We are mailing our Annual Report to Stockholders for the year ended December 31, 2007 with these proxy materials on or about May 2, 2008.

You can find our Annual Report on Form 10-K for the year ended December 31, 2007 on the Internet at our website at www.achillion.com or through the Securities and Exchange Commission's electronic data system, called EDGAR, at www.sec.gov. You may also obtain a printed copy of our Annual Report on Form 10-K, free of charge, from us by sending a written request to: ir@achillion.com or Investor Relations, Achillion Pharmaceuticals, Inc., 300 George Street, New Haven, Connecticut 06511.

IMPORTANT INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

Q. Who can vote at the annual meeting?

A. To be able to vote, you must have been a stockholder of record at the close of business on April 18, 2008, the record date for our annual meeting. As of that date, there were 15,640,406 shares of common stock outstanding and entitled to vote at the meeting.

If you were a stockholder of record on April 18, 2008, you will be entitled to vote all of the shares that you held on that date at the meeting, or any postponements or adjournments of the annual meeting.

Q. What are the voting rights of the holders of common stock?

A. Each outstanding share of our common stock will be entitled to one vote on each matter considered at the annual meeting.

Q. How do I vote?

A. If you are a record holder, meaning your shares are registered in your name, you may vote or submit a proxy:

(1) **Over the Internet:** If you have Internet access, you may authorize the voting of your shares by following the Submit a proxy by Internet instructions set forth on the enclosed proxy card. You must specify how you want your shares voted or your Internet vote will not be completed and you will receive an error message. Your shares will be voted in accordance with your instructions.

Table of Contents

(2) **By Mail:** Complete and sign your enclosed proxy card and mail it in the enclosed postage prepaid envelope. Your shares will be voted according to your instructions. If you do not specify on your proxy card how you want your shares voted, they will be voted in accordance with the recommendations of our Board of Directors.

(3) **In Person at the Meeting:** If you attend the meeting, you may deliver your completed proxy card in person or you may vote by completing a ballot, which we will provide to you at the meeting.

If your shares are held in street name, meaning they are held for your account by a broker or other nominee, you may vote:

(1) **Over the Internet:** You will receive instructions from your broker or other nominee if they permit Internet voting. You should follow those instructions.

(2) **By Mail:** You will receive instructions from your broker or other nominee explaining how you can vote your shares by mail. You should follow those instructions.

(3) **In Person at the Meeting:** You must contact your broker or other nominee who holds your shares to obtain a brokers proxy card and bring it with you to the meeting. A brokers proxy is not the form of proxy card enclosed with this proxy statement. **You will not be able to vote in person at the meeting unless you have a proxy from your broker issued in your name giving you the right to vote your shares.**

Q. Can I change my vote?

A. Yes. You may revoke your proxy and change your vote at any time before the meeting. To do so, you must do one of the following:

(1) Submit a proxy over the Internet as instructed above. Only your latest dated Internet proxy is counted.

(2) Sign a new proxy and submit it as instructed above. Only your latest dated proxy will be counted.

(3) Attend the meeting, request that your proxy be revoked and vote in person as instructed above. Attending the meeting will not revoke your proxy unless you specifically request that your proxy be revoked.

Q. Will my shares be voted if I don't return my proxy?

A. If your shares are registered directly in your name, your shares will not be voted unless you vote over the Internet, return your proxy or vote by ballot at the meeting. If your shares are held in street name, your brokerage firm may under certain circumstances vote your shares if you do not return your proxy. Brokerage firms can vote customers' unvoted shares on routine matters. If you do not return a proxy to your brokerage firm instructing them how to vote your shares, your brokerage firm

Table of Contents

may, on routine matters, either vote your shares or leave your shares unvoted. Your brokerage firm cannot vote your shares on any matter that is not considered routine, and therefore, your failure to give voting instructions to your broker will result in a so-called broker non-vote.

Proposal 1, the election of directors, and Proposal 2, ratification of the selection of our independent registered public accounting firm, are both considered routine matters. We encourage you to provide voting instructions to your brokerage firm by giving your proxy to them. This ensures that your shares will be voted at the meeting in accordance with your instructions. You should receive directions from your brokerage firm about how to submit your proxy at the time you receive this proxy statement. If you have any questions, please contact your brokerage firm.

Q. How many shares must be present to hold the meeting?

A. A majority of our outstanding shares of common stock must be present at the meeting to hold the meeting and conduct business. This is called a quorum. For purposes of determining whether a quorum exists, we count as present any shares that are represented by a proxy submitted over the Internet or by mail or that are represented in person at the meeting. Further, for purposes of establishing a quorum, we will count as present shares that a stockholder holds even if the stockholder votes to abstain or does not vote on one or more of the matters to be voted upon.

If a quorum is not present, we expect to adjourn the meeting until we obtain a quorum.

Q. What vote is required to approve each matter and how are votes counted?

A. Proposal 1 Election of three Class II Directors

The three nominees for director to receive the highest number of votes FOR election will be elected as directors. This is called a plurality. Abstentions are not counted for purposes of electing directors. If your shares are held by your broker in street name, and you do not vote your shares, your brokerage firm may vote your unvoted shares on Proposal 1. You may:

vote FOR all nominees;

WITHHOLD your vote from all nominees; or

vote FOR one or more nominees and WITHHOLD your vote from one or more of the nominees.

Votes that are withheld will not be included in the vote tally for the election of directors and will not affect the results of the vote.

Proposal 2 Ratification of Selection of Independent Registered Public Accounting Firm

To approve Proposal 2, stockholders holding a majority of the votes cast on the matter must vote FOR the proposal. If your shares are held by your broker in street name, and you do not vote your shares, your brokerage firm may vote your unvoted

Table of Contents

shares on Proposal 2. If you vote to ABSTAIN on Proposal 2, your shares will not be voted in favor of or against the proposal and will also not be counted as votes cast or shares voting on the proposal. As a result, voting to ABSTAIN will have no effect on the voting on the proposal.

Although stockholder approval of our Audit Committee's selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm is not required, we believe that it is advisable to give stockholders an opportunity to ratify this selection. If this proposal is not approved at the annual meeting, our Audit Committee will reconsider its selection of PricewaterhouseCoopers LLP.

Q. Are there other matters to be voted on at the meeting?

A. We do not know of any other matters that may come before the meeting other than the election of three Class II directors and the ratification of the selection of our independent registered public accounting firm. If any other matters are properly presented to the meeting, the persons named in the accompanying proxy intend to vote, or otherwise act, in accordance with their judgment on the matter.

Q. Where can I find the voting results?

A. We expect to report the voting results in our Quarterly Report on Form 10-Q for the second quarter ending June 30, 2008, which we anticipate filing with the Securities and Exchange Commission in August 2008.

Q. Who will bear the costs of soliciting these proxies?

A. We will bear the cost of soliciting these proxies. In addition to these proxy materials, our directors, officers and employees may solicit proxies by telephone, e-mail, facsimile and in person, without additional compensation.

Delivery of Security Holder Documents

Some banks, brokers and other nominee record holders may be participating in the practice of "householding" proxy statements and annual reports. This means that only one copy of our proxy statement and annual report to stockholders may have been sent to multiple stockholders in your household. Householding is designed to reduce duplicate mailings and save significant printing and postage costs. If you receive a household mailing this year and would like to receive additional copies of our annual report and/or proxy statement, please call us at 203-624-7000 or send a written request to ir@achillion.com or Investor Relations, Achillion Pharmaceuticals, Inc., 300 George Street, New Haven, Connecticut 06511. If you want to receive separate copies of the proxy statement or annual report to stockholders in the future, or if you are receiving multiple copies and would like to receive only one copy for your household, you should contact your bank, broker or other nominee record holder, or you may contact us at the above address and phone number.

Stock Ownership of Certain Beneficial Owners and Management

The following table sets forth certain information, as of March 1, 2008, or such earlier date as indicated below, with respect to the beneficial ownership of our common stock by:

each person who we know beneficially owns more than 5% of the outstanding shares of our common stock;

each of our directors and nominees for director;

Table of Contents

our chief executive officer, our chief financial officer and our three other most highly compensated executive officers who were serving as executive officers on December 31, 2007, whom we refer to collectively as our named executive officers; and

all of our directors and executive officers as a group.

The number of shares of our common stock owned by each person is determined under the rules of the Securities and Exchange Commission, or SEC, and the information is not necessarily indicative of beneficial ownership for any other purpose. Under these rules, beneficial ownership includes any shares as to which the individual has sole or shared voting power or investment power and also any shares which the individual has the right to acquire within 60 days after March 1, 2008 through the exercise of any warrant, stock option or other right. Unless otherwise indicated, each person has sole investment and voting power, or shares such power with his or her spouse, with respect to the shares set forth in the following table. The inclusion in this table of any shares deemed beneficially owned does not constitute an admission of beneficial ownership of those shares.

Percentage of common stock outstanding is based on 15,638,346 shares of our common stock outstanding as of March 1, 2008. Shares of common stock subject to stock options currently exercisable, or exercisable within 60 days of March 1, 2008, and shares of common stock issuable upon exercise of warrants, are deemed outstanding for the purpose of computing the percentage ownership of the person holding such securities but are not deemed outstanding for computing the percentage ownership of any other person.

Unless otherwise indicated, the address for each person is to the care of Achillion Pharmaceuticals, Inc., 300 George Street, New Haven, Connecticut 06511.

CORPORATE GOVERNANCE

General

This section describes key corporate governance guidelines and practices that we have adopted. Complete copies of our corporate governance guidelines, committee charters and code of conduct described below are available on our website at www.achillion.com. Alternatively, you can request a copy of any of these documents by writing to: Investor Relations, Achillion Pharmaceuticals, Inc., 300 George Street, New Haven, Connecticut 06511. Our Board of Directors believes that good corporate governance is important to ensure that we are managed for the long-term benefit of our stockholders.

Corporate Governance Guidelines

Our Board of Directors adopted corporate governance guidelines to assist the Board in the exercise of its duties and responsibilities and to serve the best interests of Achillion and our stockholders. These guidelines, which provide a framework for the conduct of the Board's business, provide that:

the principal responsibility of the directors is to oversee management of the company;

a majority of the members of the Board shall be independent directors;

the independent directors meet regularly in executive session;

directors have full and free access to senior executives and, as necessary and appropriate, independent advisors;

new directors participate in an orientation program and all directors are expected to participate in continuing director education on an ongoing basis; and

at least annually, the Board and its committees will conduct a self-evaluation to determine whether they are functioning effectively.

Board Determination of Independence

Under applicable NASDAQ rules, a director only qualifies as an independent director if, in the opinion of our Board of Directors, that person does not have a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Our Board of Directors has determined that none of Messrs. Frashier, Garvey, Grey, Scheer, Van Nostrand, Wright or Drs. Fisherman or Formela has a relationship which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is an independent director as defined under Rule 4200(a)(15) of the NASDAQ Stock Market, Inc. Marketplace Rules.

Director Nomination Process

The process followed by the Nominating and Corporate Governance Committee to identify and evaluate candidates includes requests to Board members and others for recommendations, meetings from time to time to evaluate biographical information and background material relating to potential candidates and interviews of selected candidates by members of the Committee and the Board. In considering whether to recommend any particular candidate for inclusion in the Board's slate of recommended director nominees, including candidates recommended by stockholders, the Nominating and Corporate Governance Committee considers the criteria as set forth in our Corporate Governance Guidelines. These criteria include the candidate's integrity, business acumen, knowledge of our business and industry, experience, diligence, age, conflicts of interest and the ability to act in the interests of all stockholders. The Committee does not assign specific weights to particular criteria and no particular criterion is a prerequisite for each nominee. We believe that the backgrounds and qualifications of the directors, considered as a group, should provide a significant composite mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities.

Table of Contents

Stockholders may recommend individuals to the Nominating and Corporate Governance Committee for consideration as potential director candidates by submitting their names, together with appropriate biographical information and background materials and a statement as to whether the stockholder or group of stockholders making the recommendation has beneficially owned more than 5% of our common stock for at least a year as of the date such recommendation is made, to our Nominating and Corporate Governance Committee, c/o Secretary, Achillion Pharmaceuticals, Inc., 300 George Street, New Haven, Connecticut 06511. Assuming that appropriate biographical and background material is provided for candidates recommended by stockholders, the Nominating and Corporate Governance Committee will evaluate those candidates by following substantially the same process, and applying substantially the same criteria, as for candidates submitted by others.

Our stockholders also have the right to nominate director candidates themselves, without any prior review or recommendation by the Nominating and Corporate Governance Committee or the Board, by following the procedures set forth below under *Stockholder Proposals for the 2009 Annual Meeting*.

Board Meetings and Attendance

The Board of Directors held five meetings, either in person or by teleconference, during the year ended December 31, 2007, or fiscal 2007. Certain Relationships and Related Transactions

Edgar Filing: ACHILLION PHARMACEUTICALS INC - Form DEFR14A

Item 404(a) of Regulation S-K requires us to disclose in our proxy statement any transaction since January 1, 2007, involving more than \$120,000 in which we are a participant and in which any related person has

or will have a direct or indirect material interest. A related person is any executive officer, director, nominee for director, or holder of 5% or more of our common stock, or an immediate family member of any of those persons. As described below, in 2007, we received cost-share payments under our collaboration and license agreement with Gilead Sciences, a holder of 5% or more of our common stock.

Policies and Procedures Regarding Review, Approval or Ratification of Related Person Transactions

In accordance with our Audit Committee Charter, our Audit Committee is responsible for reviewing and approving the terms and conditions of all related person transactions.

In reviewing and approving related person transactions, the Audit Committee reviews and considers information regarding the related person transaction as it deems appropriate under the circumstances, which may include information such as the related person's interest in the transaction, the approximate dollar value involved in the transaction, whether the transaction was undertaken in the ordinary course of business, whether the terms of the transaction are no less favorable to us than terms that could have been reached with an unrelated third party and the purpose of, and the potential benefits to us of, the transaction. The Audit Committee may approve or ratify the transaction only if it determines that the transaction is not inconsistent with our best interests.

Collaboration and License Agreement with Gilead Sciences, Inc.

In November 2004, we entered into a research collaboration and license agreement with Gilead Sciences, Inc., which holds approximately 7% of our common stock, pursuant to which we are collaborating exclusively with Gilead Sciences throughout the world to develop and commercialize compounds for the treatment of chronic hepatitis which inhibit the replication of HCV, the virus that causes hepatitis C, through a novel mechanism of action targeting the NS4A protein. Research and development activities prior to proof-of-concept are overseen by a research committee comprised of equal numbers of our representatives and representatives from Gilead Sciences. The joint research committee assigns research and development tasks and agrees upon a budget for the research program. In addition, the parties may agree at any time to increase or decrease the research budget. Prior to proof-of-concept, any disputes within the joint research committee that cannot be resolved between designated executives of each party will be resolved by Gilead Sciences.

According to the current jointly-agreed upon research plan for our next generation NS4A antagonist, the joint research committee determined that we would perform certain early-stage preclinical activities, while Gilead would perform later preclinical and clinical studies. We would continue to be responsible for back-up activities until such time as proof-of-concept is achieved, and Gilead Sciences would continue to be responsible for manufacturing, formulation and commercialization activities.

Gilead Sciences is otherwise responsible for all development and commercialization of compounds, including all regulatory filings and clinical trials after proof-of-concept. Gilead Sciences is responsible for the manufacturing of compounds throughout all stages of development and commercialization. Gilead Sciences has agreed under the agreement to use reasonably diligent efforts to develop and commercialize at least one compound in each of the United States, Japan, Germany, France, Italy, Spain and the United Kingdom. In connection with Gilead Sciences exclusive right to market and commercialize products, we have a one-time option to participate on a limited basis in the marketing effort in the United States. Pursuant to the terms of the collaboration agreement, Gilead Sciences must provide us with notice following commencement of a phase III clinical trial and prior to filing of an NDA. We must then notify Gilead Sciences whether we intend to designate field-based personnel to support their commercial activities within the United States. Following Gilead Sciences' receipt of our notice, the parties must negotiate in good faith to determine the number of Achillion field-based personnel and the manner of their participation. These field-based personnel will operate under the supervision of Gilead Sciences and receive training at a similar level to equivalent Gilead Sciences field-based personnel. We bear the costs associated with the commercial participation of our field-based personnel; provided, however, that Gilead Sciences shall bear the expense of training. Our participation does not change the amount of any royalty payments Gilead Sciences is obligated to pay us on net sales of any drugs pursuant to our collaboration.

Table of Contents

agreement. Under the agreement, Gilead Sciences is required to make royalty payments, if any, to us until the end of the royalty term, which is the earlier of (i) ten years following the date of the first commercial sale of a compound or (ii) the expiration of the last Achillion patent or patent owned jointly with Gilead Sciences.

We received \$10.0 million from Gilead Sciences upon the execution of the agreement, consisting of license fees and an equity investment, and could receive up to \$157.5 million in development, regulatory and sales milestone payments, assuming the successful simultaneous development of a lead and back-up compound, and annual sales in excess of \$600 million. We could also receive royalties on net sales of products. Through March 31, 2007, we shared equally with Gilead Sciences all costs of the research program through proof-of-concept. Effective April 1, 2007 and through proof-of-concept, we and Gilead Sciences amended our collaboration agreement such that each party's own internal costs, substantially full-time equivalent personnel costs, will be borne by each party and external research costs will continue to be shared equally by the parties. We expect that Achillion and Gilead Sciences will each contribute roughly one half of total personnel hours. After proof-of-concept, Gilead Sciences will assume all costs for development and commercialization of compounds, other than a portion of patent prosecution costs that we have agreed to pay.

The agreement will expire on the last to expire royalty term. In addition, Gilead Sciences may terminate the agreement for any reason by providing us with 120 days notice. Either party has the right to terminate for material breach, though we may terminate for Gilead Sciences breach only on a market-by-market basis and, if applicable, a product-by-product basis.

During the fiscal year ended December 31, 2007, we received an aggregate of \$1,945,000 in cost-share payments from Gilead Sciences under this agreement.

INFORMATION ABOUT EXECUTIVE AND DIRECTOR COMPENSATION

Compensation Discussion and Analysis

Compensation Objectives

The primary objective of the Compensation Committee of our Board of Directors with respect to executive compensation is to attract, retain and motivate the best possible executive talent. The Compensation Committee strives to tie short and long-term cash and equity incentives to achievement of measurable corporate and individual performance objectives, and to align executives' incentives with stockholder value creation. To achieve this objective, the Compensation Committee has maintained, and expects to further implement, compensation plans that tie a substantial portion of executives' overall compensation to our research, clinical, regulatory, business development and operational performance.

Compensation Processes

The Compensation Committee is responsible for reviewing and monitoring the compensation of our Chief Executive Officer and our other named executive officers. Our chief executive officer makes recommendations regarding compensation to the Compensation Committee. Our chief executive and chief financial officer develop these recommendations by utilizing publicly available compensation data and subscription compensation survey data for national and regional companies in the biopharmaceutical industry. We believe that the information provided by these surveys provide us with an appropriate starting place for compensation benchmarks, because many of the companies included in these surveys have similar organizational structures and tend to compete with us for executives and other employees. For benchmarking executive compensation, we typically review the compensation data we have collected from the complete group of companies, as well as a subset of the data from those companies that are located in the same geographic region, that have a similar number of employees, and that are at a similar stage of development as our company.

Our Compensation Committee has approved a pay-for-performance compensation philosophy, which is intended to bring base salaries and total executive compensation in line with approximately the mean of the companies with a similar number of employees and in a similar stage of development represented in the compensation data that we review.

We operate within the framework of this pay-for-performance philosophy to determine each component of an executive's initial compensation package based on numerous factors, including:

the individual's particular background and circumstances, including training and prior relevant work experience;

the individual's role with us and the compensation paid to similar persons in the companies represented in the compensation data that we review;

the demand for individuals with the individual's specific expertise and experience at the time of hire;

performance goals and other expectations for the position;

comparison to other executives within our company having similar levels of expertise and experience; and

uniqueness of industry skills and the relative need within Achillion for someone with those skills.

We have implemented, and the Compensation Committee has approved, an annual performance review process under which annual performance objectives are determined and set forth in writing at the beginning of each calendar year for the corporation as a whole, for each individual executive, and by extension, the functional department that each executive oversees. Annual corporate goals are proposed by senior executives and approved

Table of Contents

by the Board of Directors at the beginning of each calendar year. These corporate goals target the achievement of specific research, clinical, regulatory, business development and financial and operational milestones. Individual and department goals are proposed by each executive and approved by the Chief Executive Officer during the first quarter of each calendar year. Annual individual and department goals focus on contributions, which facilitate the achievement of the corporate goals. The Chief Executive Officer's goals and our named executive officers' individual goals are reviewed and approved by the Compensation Committee.

During the last two months of the calendar year, our Chief Executive Officer, other senior executives and the Compensation Committee evaluate individual, department, and corporate performance against the written goals for the completed year and annual salary increases, annual bonuses, and annual stock option awards granted to our employees are tied to the achievement of these goals. Consistent with our compensation philosophy, each non-executive employee's evaluation begins with a written self-assessment, which is submitted to the employee's supervisor. The supervisor then prepares a written evaluation based on the employee's self-assessment, the supervisor's own evaluation of the employee's performance, and, in some cases, input from others within the company. This process leads to a recommendation by senior executives for annual employee salary increases, annual stock option awards, and bonuses, if any, which is then reviewed and approved by the Compensation Committee. Our executive officers, other than the Chief Executive Officer, submit their self-assessments to the Chief Executive Officer, who performs the individual evaluations and submits recommendations for salary increases, bonuses, and stock option awards, which are reviewed and approved by the Compensation Committee. In the case of the Chief Executive Officer, his individual performance evaluation is conducted by the Compensation Committee and the Compensation Committee determines his salary increases, bonuses, and stock option awards. For all employees, including our executive officers, annual base salary increases, annual stock option awards, and annual bonuses, to the extent granted, are implemented effective the first day of the new calendar year.

Compensation Components

The components of our compensation package are as follows:

Base Salary

Base salaries for our executives and non-executive employees are established based on the scope of their responsibilities and their prior relevant background, training, and experience, taking into account competitive market compensation paid by the companies represented in the compensation data we review for similar positions and the overall market demand for such executives at the time of hire. As with total executive compensation, we believe that executive base salaries should generally target the mean of the range of salaries for executives in similar positions and with similar responsibilities in the companies of similar size to us represented in the compensation data we review. An executive's base salary is also evaluated together with other components of the executive's compensation to ensure that the executive's total compensation is in line with our overall compensation philosophy.

Base salaries are reviewed annually as part of our performance review process and increased for merit, as determined through an assessment of each employee's or executive's success in meeting or exceeding individual performance objectives and an assessment of whether significant corporate goals were achieved. If we identify significant market changes in our data analysis, we also realign base salaries with market levels for the same positions in the companies of similar size to us represented in the compensation data we review. Additionally, we adjust base salaries as warranted throughout the year for promotions or other changes in the scope or breadth of an employee's or executive's role or responsibilities.

In December 2007, our Compensation Committee approved an aggregate increase in non-executive employee salaries of 6%. Executive salaries were increased by 5% for executives other than our chief executive officer; our chief executive officer's salary was not changed.

Table of Contents

Annual Performance-Based Cash Bonus

Our compensation program includes eligibility for an annual performance-based discretionary cash bonus in the case of all executives and certain other employees. Our Board of Directors has established cash bonus targets for different positions or ranks of employees within our organization that range from 5% to 50%. The Board and Compensation Committee have discretion to adjust these targets. For example, in July 2007 the Compensation Committee amended the target bonus range for certain director-level employees and executives from 20% to 25% and from 25% to 30%, respectively. The amount of the cash bonus paid depends on the level of achievement of the stated corporate, department, and individual performance goals. The current target annual performance-based cash bonus percentage is 30% of base salary for all executives, other than our Chief Executive Officer and is 50% of base salary for our Chief Executive Officer. In its discretion, the Compensation Committee may award bonus payments to our executives above or below the target amount, particularly in cases in which goals are exceeded.

Equity-Based Awards

We believe that long-term performance is achieved through an ownership culture that encourages long-term participation by all our employees in equity-based awards. Our 2006 Stock Incentive Plan allows for the grant to employees, including executive officers, of stock options, restricted stock, and other equity-based awards. We typically make an initial equity award of stock options to new employees and annual performance-based equity grants as part of our overall compensation review. Our Board of Directors has delegated authority to our Compensation Committee to make initial new employee equity grants, as well as annual grants of options to all of our employees. Occasionally, upon promotion or other special circumstances, the Compensation Committee may grant awards at other times during the year.

Initial stock option awards. Executives and other employees who join us are awarded initial stock option grants. These grants have an exercise price equal to the fair market value of our common stock on the grant date and a vesting schedule of 25% on the first anniversary of the date of grant and 6.25% quarterly thereafter for the following three years. The size of the initial stock option award is determined based on the employee's position with us and analysis of the competitive practices of the companies similar in size to us represented in the compensation data that we review.

Restricted stock awards. While both our 1998 Stock Option Plan and 2006 Stock Incentive Plan permit the issuance of restricted stock awards to executive officers and certain high level non-executive employees, no such restricted stock awards have been issued to date, except that prior to our initial public offering, we granted options that were exercisable immediately for shares of restricted stock that vested over a specified period of time. The Compensation Committee may, in the future, issue restricted stock awards in order to achieve its compensation plan objectives.

Annual stock option awards. Our practice is to grant annual stock option awards as part of our overall compensation review process program. The Compensation Committee believes that stock options between long-term corporate performance and the creation of stockholder value. We intend that the annual aggregate value of these awards will be set in an amount required to maintain the employee group as a whole, and executives as a subset, at or near competitive median levels for companies represented in the compensation data we review. As part of the year-end compensation review by our Compensation Committee, our senior executives recommend, and the Compensation Committee approves, a pool of options to be granted to employees other than executive officers. The size of this pool is based upon the number of shares required to reach competitive levels of employee ownership for companies represented in the compensation data we review. Also as part of the year-end compensation review by our Compensation Committee, our CEO recommends, and the Compensation Committee approves, certain option grants to executive officers. The size of those grants is based upon the number of shares required to reach mean levels of stock ownership for officers in similar positions within the companies represented in the compensation data we review.

Other Compensation

We maintain broad-based benefits that are provided to all employees, including health insurance, life and disability insurance, dental insurance, and a 401(k) defined contribution plan. In particular circumstances, we also utilize cash signing bonuses when certain executives and non-executives join us. Such cash signing bonuses are typically repayable in full to the company if the recipient voluntarily terminates employment with us prior to the first anniversary of the date of hire. Whether a signing bonus is paid and the amount thereof is determined on a case-by-case basis under the specific hiring circumstances. For example, we will consider paying signing bonuses to compensate for amounts forfeited by an employee upon terminating prior employment, to assist with relocation expenses, and/or to create additional incentive for an employee to join our company in a position where there is high market demand.

Termination Based Compensation

Severance. All of our named executive officers are entitled to receive severance payments under their employment agreements under certain circumstances. In setting the terms of such severance arrangements, the Compensation Committee recognizes that executives, especially highly-ranked executives, often face challenges securing new employment following termination. Further, in cases of change in control, the Compensation Committee believes such severance arrangements minimize operational disruption due to executive departures and help ensure smooth transition of the officer's responsibilities. Our employment agreements with our named executive officers other than our Chief Executive Officer provide for severance payments to such officers in an amount equal to twelve months base salary upon termination without cause, or upon resignation for good reason (including our requiring him or her to relocate such that his or her daily commute exceeds 60 miles) within 12 months following a change in control. Our Chief Executive Officer's employment agreement provides severance of eighteen months of base salary if his employment is terminated without cause, or if he resigns for good reason (including our requiring him or her to relocate such that his or her daily commute exceeds 60 miles) within 12 months following a change in control, or if he resigns due to our requiring him to relocate such that his daily commute exceeds 60 miles, whether or not in connection with a change in control. We believe that the severance packages of our executive officers are generally consistent with severance packages offered to similar executive officers of the companies of similar size to us represented in the compensation data we reviewed.

Acceleration of vesting of equity-based awards. Our employment agreements with our named executive officers provide for the acceleration of vesting as to 100% of the original number of stock options granted to the officer if he or she is terminated for certain reasons after a change of control, which we refer to as "double trigger" acceleration. In addition, our employment agreements with our named executive officers provide for the acceleration of vesting as to 25% of the original number of stock options granted to the executive upon the occurrence of a change of control regardless of whether the executive's employment is terminated, which we refer to as "single trigger" acceleration. We believe that "double trigger" acceleration prevents an unintended windfall in the event of a friendly (non-hostile) change of control and provides an incentive for officers to remain with the company despite the uncertainties raised by a possible change of control, while the single trigger provides an incentive for officers to pursue change of control events that could result in a termination of the officer's employment but are in the best interests of our stockholders.

Compliance with IRS Code Section 162(m)

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction for compensation in excess of \$1.0 million paid to our chief executive officer and other officers whose compensation is required to be disclosed under the Exchange Act by reason of being among our four most highly compensated officers. Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. We periodically review the potential consequences of Section 162(m) and we generally intend to structure the performance-based portion of our executive compensation, where feasible, to comply with exemptions in Section 162(m) so that the compensation remains tax deductible to us. However, the Compensation Committee may, in its judgment, authorize compensation payments that do not comply with exemptions in Section 162(m) when it believes that such payments are appropriate to attract and retain executive talent and are in the best interests of our stockholders.

PROPOSAL 2 RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our Audit Committee has selected the firm of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the current fiscal year. PricewaterhouseCoopers LLP has served as our independent registered public accounting firm since 2002. Although stockholder approval of the selection of PricewaterhouseCoopers LLP is not required by law, the Board of Directors believes that it is advisable to give stockholders an opportunity to ratify this selection. If this proposal is not approved at our 2008 annual meeting, our Audit Committee will reconsider its selection of PricewaterhouseCoopers LLP. Representatives of PricewaterhouseCoopers LLP are expected to be present at the annual meeting and will have the opportunity to make a statement if they desire to do so and will also be available to respond to appropriate questions from stockholders.

Board Recommendation

The Board of Directors believes that the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm is in the best interests of Achillion and the best interests of our stockholders and therefore recommends a vote FOR this proposal.
