or
developments that
VAALCO expects,
believes
or
anticipates
will
or
may
occur
in
the
future
are
forward-looking
statements.
These
statements include
future production rates, completion and production timetables and costs to complete well. These statements are based on
assumptions made
by
VAALCO
based
on
its
experience
perception
of
historical
trends,
current
conditions,
expected future
developments and other factors it believes are appropriate in the circumstances. Such statements are subject to a number of
assumptions, risks and uncertainties, many of which are beyond VAALCO s control. These risks include, but are not limited to
inflation, lack of availability of goods, services and capital, environmental risks, drilling risks, foreign operational risks and

regulatory changes. Investors are cautioned that forward-looking statements are not guarantees of future performance and that actual results or developments may differ materially from those projected in the forward-looking statements. These risks are further described in VAALCO s annual report on Form 10-K for the year ended December 31, 2007 and other reports filed with the projected in the forward-looking statements.

The Securities
and
Exchange
Commission
generally
permits
oil
and
gas
companies, in
filings with
the SEC
SEC,
to
disclose only
proved reserves that a company has demonstrated by actual production or conclusive formation tests to be economically and
legally producible under existing economic and operating conditions. In this document, we describe volumes of oil that we be
may be
discovered
in
the
future
through
our
existing
exploration
program.

These amounts

not
proved
reserves
as
defined by
the SEC. These estimates are by their nature more speculative than estimates of proved reserves and accordingly are subject to
substantially greater risk of being actually realized by VAALCO.

VAALCO Overview

Houston-based independent exploration and production company (E&P)

Exploration activities primarily in

West Africa offshore Gabon, onshore Gabon, offshore Angola

Opportunistic minority participations in UK North Sea exploration

Production (100% oil) located offshore Gabon

26 full-time employees: Houston (9), Gabon (10) and Angola (7)

20-30 contractors worldwide depending on activity level VAALCO is an Important Presence and a Valued Long-Term Partner in Gabon and Angola Gabon Angola

8
Exceptional West African Opportunity

Africa holds a significant and growing portion of world oil reserves

By 2010, West Africa is expected to account for 1 of 3 new barrels pumped worldwide and by 2015, the U.S. is projected to import 25% of all its oil from Africa, up from 15% in 2007

8% of global proved reserves

High proportion of new field discoveries

Strong reserve growth of discovered fields

Gabon

Long history of energy production under stable contract terms

Former French colony independent since 1960 under French civil law

Population 1.3 MM (about size of Colorado)

Angola

Oil sales and related activities constitute approximately one-half of GDP and 90% of exports

Has emerged as a major African oil producer following the end of the country s civil war in 2002

One of the world s fastest growing economies because of strong production growth

Population 15.5 MM

Focused and Disciplined Business Strategy

Seek exploration opportunities in proven hydrocarbon basins where modern technology has the potential to unlock previously hidden reserves

In areas with acceptable political risk where positive

market conditions provide niche opportunities

Increase reserves primarily through the drill-bit while continually reviewing potential property and corporate acquisitions at reasonable prices

Focused primarily on West Africa asset base

Maintain financial discipline to support growth

Optimize cash flows from producing assets

Etame Marin Concession Efficient, Low Cost Operator with Exceptional Exploration and Production Track Record

Exceptional Track Record and Expertise

82% success rate in exploration

drilling since 1998, when Etame drilling began
100% success rate in the drilling and completion of development wells
Industry-wide, success rates are approximately 1 in 3 for exploration drilling VAALCO s Drilling Success Rates are Among the Best in the Industry 1. II. Superior Returns and Financial Performance

Superior Stock Price Performance and Stockholder Returns

VAALCO s stock price performance has exceed that of its peer

group and far exceeded the broader market over all meaningful periods The peer group is as defined by the independent governance and proxy advisory firm RiskMetrics (ISS): Brigham Exploration Co. (NasdaqNM:BEXP), Callon Petroleum Co. (NYSE:CPE), Carrizo Oil & Gas Inc. (NasdaqNM:CRZO), Delta Petroleum Corp. (NasdaqNM:DPTR), Edge Petroleum Corp. (NasdaqNM:EPEX), **TXCO** Resources, Inc. (NasdagNM:TXCO), Goodrich Petroleum Corp. (NYSE:GDP), Harvest Natural Resources Inc. (NYSE:HNR), Pacific Ethanol, Inc. (NasdaqNM:PEIX), PrimeEnergy Corp. (NasdaqSC:PNRG), Quest Resource Corp. (NasdaqNM:QRCP); peer group companies are indexed on a market capitalization weighted basis; in this presentation, over the 5-year measurement period, the peer group index excludes Pacific Ethanol, Inc. (NasdaqNM:PEIX), which entered trading on the Nasdaq Global Market on March 24, 2005. 5-year and 3-year relative performance charts use weekly average prices Stockholder Returns 503% 143% 49% 61% -100% 0% 100% 200% 300% 400% 500% 600% **VAALCO**

Successful Efforts Accounting, Liftings and the Cost Account
1.
Successful efforts
1
accounting
```

is the SEC s preferred method of accounting for exploration use of the successful efforts convention results in unusually low net income in any period where there are exceptional exploration expenses, such as an unsuccessful well or large payments for the acquisition of seismic data VAALCO uses the convention as we believe it is a more transparent way to report performance 2. Irregularity in the timing of crude oil sales (so-called liftings) results in unusually low net income in any period that a lifting is missed, and unusually high net income in periods where there are extra liftings to catch-up with inventory VAALCO s taxes are recognized based on barrels of

```
oil
produced
per
month
but
revenues
are
recognized
only
when
oil
is
sold
(lifted)
At any time VAALCO can have up to 1.1 MM gross barrels in inventory
In
the
Etame
concession,
VAALCO
receives
form
of
tax
deduction
for
capital
spending
(costs)
and
can
carry-forward
amounts
not
yet
deducted
in
 cost
account
```

VAALCO

experiences higher taxes, and lower net income, in any period where there is limited capital spending and no balance in the Cost Account

1. Under the successful efforts convention, all exploration costs except those related to successful drilling are expensed in the

incurred; under the full cost convention, the cost of both successful and unsuccessful exploration efforts are fully capitalized 2. Under U.S. and Gabonese law and VAALCO s production sharing agreement (PSA) with the government of Gabon All 3

of These Transitory Factors Impacted VAALCO s Net Income in the First Quarter of 2008

19 Nanes Delorme Partners Arguments Rest on Incorrect Assertions

Assertion: VAALCO s stock price has underperformed its peers

Peer Group

20 Nanes Delorme Partners Arguments Rest on Incorrect Assertions

Assertion: VAALCO is undervalued on the basis of two ratios: (a) Enterprise Value (EV) / EBITDA and (b) Price / Earnings (P/E) (EV)

Nanes states these ratios to be virtually all relevant comparable valuation metrics; however, Nanes knows or should know as self-described specialist in the oil and gas industry that EV/EBITDA and P/E ratios mean very little in the context of small-cap E&Ps EV / EBITDA: EBITDA multiples are less useful for valuing oil and gas reserves, where depletion factors and exploration and development expenditures are difficult incorporate in single **EBITDA** multiple factor John S.

Herold,

Inc.
Valuation Methodology
P/E Ratios:
oil
industry
earnings
are
frequently
impacted
by
fluctuations
in
commodity prices, the timing of exploration costs, income tax rates that vary
with
the
geographic
location
of
operations,
and
other
accounting
vagaries
associated with capital intensive businesses. As a consequence, reported
net income and, hence P/E ratios, are of limited utility in the valuation of an
oil company.
John S. Herold, Inc. Valuation Methodology
E&Ps, and Smaller E&P s

John S. Herold, Inc. Valuation Methodology E&Ps, and Smaller E&P s in Particular, Are Not Valued on the Basis of Simplistic Multiples

III.
VAALCO s Board: Experienced, Proven and Committed to Maximizing
Stockholder Value

VAALCO s Board: Independent, Engaged and Experienced

More than 100 years of combined experience in the E&P industry, including

international development

4 of 7 directors current or former executive officers in the industry

5 of 7 directors have served as directors of other public companies

Balanced portfolio of complementary experience:

International government relations and diplomacy

Geology and geophysics

Finance and accounting

Investment banking

Tax law In 2007:

8 full board meetings

Quarterly sessions with only independent directors

7 committee meetings

Audit (4)

Compensation (2)

Governance and Nominating (1)

Board closely monitors implementation of strategy and operational results

Board and all committee meetings conclude with an executive session of independent directors only

5 of 7 directors are independent under NYSE

listing requirements

The 2 others being the Company s CEO and CFO

All committees are comprised solely of independent directors

Audit

Compensation

Governance and Nominating INDEPENDENT ENGAGED EXPERIENCED

23
Continuing Director Nominees Possess
Critical Skills and Experience

President since 1992; designed and implemented all of VAALCO s exploration, drilling and development campaigns since joining the Company in 1991

30+ years experience in the petroleum industry

Former petroleum reservoir engineer with Exxon, management consultant with McKinsey & Company and investment banker with Copeland, Wickersham and Wiley, a leading investment banking boutique specializing in the oil and gas industry
Member of the Audit Committee
Pioneer of Canadian oil and gas Industry; 50+ years of experience in the petroleum industry includes 10 years as President of Mobil Oil Canada Ltd.
Honors include: inductee into Petroleum Hall of Fame, Honorary Doctorate from the University of Alberta, named on Albertans who had an impact on the 20 th century
Current director of Softrock Minerals and Carma.; former Chairman of Shiningbank Energy Income Fund, Chairman of Serenpet, President, CEO and Chairman of Poco Petroleum Ltd., President and CEO of Bowtex Energy (Canada) and Chairman

and

CEO

of Mobil Oil Canada

Member of the Nominating and Corporate Governance and Compensation committees

35+ years of experience in the petroleum industry

Former Ambassador to Great Britain with long standing business connections in the oil and gas industry

Provides valuable perspectives on international relations in support of VAALCO s West African exploration efforts

Committed to Maximizing Stockholder Value

VAALCO s Board is always open to considering bona fide offers that would provide stockholders

with

full

and

fair value for their shares
NO such offers have been received
VAALCO s Board, with assistance of its financial and legal advisors, continuously reviews the Company s business plans and other value creating opportunities / strategic options
Retained independent financial advisors over 1 year ago and have been evaluating:
Concessions, farm-ins and acquisitions
Acquisitions of additional working interests in the Etame concession
Growth capital financing structures including PIPEs (private investment public equity)

Other opportunities / strategic options Now is not the right time to sell VAALCO Stockholders are poised to benefit from the current drilling program Selling now would transfer the value of potential discovery to the acquiror E&Ps do not receive full value on resources that have not been proved-out by drilling Uncertain market conditions (including commodity price volatility and credit market instability) are likely to inhibit robust sale process and the ability to obtain full and fair value for stockholders After careful analysis and consideration, in

September

2007 VAALCO s Board with the assistance of the Company s financial and legal advisors adopted stockholders rights plan (Poison Pill), as an appropriate defense to prevent an opportunistic acquisition at

prices below VAALCO s intrinsic value

Why Even One Nanes Delorme / Pilatus Energy Nominee is Bad

for

Stockholders

Who

Are

They? Nanes Delorme

Proxy campaign led by Julien Balkany, a 27-year old French citizen

Formed 2000 by Daryl Nanes; based in New York

Suffered \$323,510 net loss in 2007

Broker and adviser on African oil & gas transactions including:

Surestream
Petroleum s
exclusive advisor
in a
sale of up to 40% of its interests in the Ndunda
Block, Democratic Republic of Congo

Sole financial advisors

to Afren

in its acquisition of oil & gas properties in Angola

all of Afren s
oil

& gas assets are located in West Africa

Advisor to Maurel

& Prom, a company with extensive oil & gas operations in Gabon and Congo (Brazzaville), West Africa

Self-proclaimed hedge fund formed January 2008

Affiliated with investment bank Bear Stearns Pilatus Energy

Founded in 2006; based in Zug, Switzerland

Purportedly

led

by

Loik

Le

Floch-Prigent

The name of the former Elf CEO doesn't appear on their list of executives but it is he who makes all of their investment decisions.

```
Le Floch-Prigent
was convicted by a French court in
2003, sentenced to 5-years in prison and fined
 375,000 for fraud, embezzlement, bribery and a
kickback scheme through his management of Elf
Aquataine
(known as the Elf Affair )
4,5
 probably the biggest political and corporate sleaze
scandal to hit a western democracy since the
second
world
war
6
Used $145 MM of public funds used to buy influence
and contacts in Africa
7
Accused of embezzling millions from Elf and using
company
funds
to
obtain
political
influence
Le Floch-Prigent
was convicted again 1 year ago for
misappropriating funds in connection with a bogus
jobs scheme, receiving a 15-month suspended
sentence and 60,000 fine
Reported to have acquired oil and gas properties in
Mali
and Congo
and to be pursuing assets in
Cameroon,
Guinea
and
```

the Ivory Coast

Why Even One Nanes Delorme / Pilatus Energy Nominee is Bad for Stockholders
Significant
Conflicts of Interest

The most

competitive and important area of activity for E&P companies is the search for prospective drilling acreage and related information (such as whether properties are available and seismic data) Protecting this sensitive, proprietary information is crucial to an E&P company s success and a critical driver of value creation We believe installing any competitor s paid representatives onto VAALCO s **Board** would inhibit discussion and create an untenable situation that limits meaningful review of VAALCO s

opportunities and
prospects
In
our
view,
this
would be detrimental to stockholder value and the future of VAALCO
Nanes Delorme Partners and Pilatus Energy Have Significant Conflicts
of Interest
They Do Not Belong on VAALCO s Board

28

Why Even One Nanes Delorme / Pilatus Energy Nominee is

Bad

for

Stockholders

True

Intentions

Unknown Pilatus acquired ~4.5% of VAALCO (just shy of SEC disclosure requirements) only recently, between November 30, 2007 and January 30, 2008; Nanes Delorme was not even formed until January 22, 2008 Nanes told VAALCO on at least 3 occasions that its unnamed limited partner was not competitor **Pilatus** was only identified May 5, almost 2 months after the initial 13D, and an amended proxy Pilatus /Nanes goals are unclear; objectives

Refused

Are

on at least 2 occasions to enter into a non-disclosure agreement

do not seem aligned with other stockholders

Refused

Why Even One Nanes Delorme / Pilatus Energy Nominee is

Bad

for

Stockholders

No

Substantive

Ideas
Nanes other stated ideas for VAALCO make little sense:
Core
asset
divestitures
What
assets,
short
of
a 1-
sale of
the
entire
company, does
Nanes
Delorme propose to divest?
Nanes Delorme itself states that VAALCO is a company which has first class oil and gas
properties, with a balanced portfolio of assets and substantial exploration upside in Angola and
Gabon, which generates significant cash flow
