ITEM 8.01. OTHER EVENTS

KVH Industries Inc. (KVH or the Company) announced in a press release on July 1, 2008, a new 10-year agreement with ViaSat, Inc., to begin the global rollout of the popular mini-VSAT Broadbandsm satellite communications service. The mini-VSAT Broadbandsm satellite communications service should enable the Company to offer faster, more affordable broadband connections to a growing market of leisure, commercial, and government vessels worldwide.

Under this agreement, KVH and ViaSat are planning to roll out an exclusive global network offering access to KVH's mini-VSAT Broadband service for maritime use with airtime revenue to be shared between the two companies. As part of the coverage expansion, KVH has agreed to acquire satellite capacity from Ku-band satellite operators as well as purchase three new regional satellite hubs from ViaSat. These hubs will use ViaSat's ArcLight[®] spread spectrum mobile broadband technology and be operated by ViaSat. As the rollout continues, either KVH or ViaSat will work to establish additional regional hubs and satellite capacity. Over the course of the 10-year agreement, KVH and ViaSat also expect to implement future enhancements to the mini-VSAT Broadband spread spectrum maritime services and related products.

A copy of the Company's press release is attached hereto as Exhibit 99.1. The press release is incorporated by reference herein and the foregoing description of the press release is qualified in its entirety by reference to the attached exhibit.
