**Disclaimer Regarding Forward-Looking Statements**

This quarterly report includes forward-looking statements (within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934) about Matsushita and its Group companies (the Matsushita Group). To the extent that statements in this quarterly report do not relate to historical or current facts, they constitute forward-looking statements. These forward-looking statements are based on the current assumptions and beliefs of the Matsushita Group in light of the information currently available to it, and involve known and unknown risks, uncertainties and other factors. Such risks, uncertainties and other factors may cause the Matsushita Group's actual results, performance, achievements or financial position to be materially different from any future results, performance, achievements or financial position expressed or implied by these forward-looking statements. Matsushita undertakes no obligation to publicly update any forward-looking statements after the date of this quarterly report. Investors are advised to consult any further disclosures by Matsushita in its subsequent filings with the U.S. Securities and Exchange Commission pursuant to the Securities Exchange Act of 1934 and its other filings.

The risks, uncertainties and other factors referred to above include, but are not limited to, economic conditions, particularly consumer spending and corporate capital expenditures in the United States, Europe, Japan, China and other Asian countries; volatility in demand for electronic equipment and components from business and industrial customers, as well as consumers in many product and geographical markets; currency rate fluctuations, notably between the yen, the U.S. dollar, the euro, the Chinese yuan, Asian currencies and other currencies in which the Matsushita Group operates businesses, or in which assets and liabilities of the Matsushita Group are denominated; the ability of the Matsushita Group to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products in markets that are highly competitive in terms of both price and technology; the ability of the Matsushita Group to achieve its business objectives through joint ventures and other collaborative agreements with other companies; the ability of the Matsushita Group to maintain competitive strength in many product and geographical areas; the possibility of incurring expenses resulting from any defects in products or services of the Matsushita Group; the possibility that the Matsushita Group may face intellectual property infringement claims by third parties; current and potential, direct and indirect restrictions imposed by other countries over trade, manufacturing, labor and operations; fluctuations in market prices of securities and other assets in which the Matsushita Group has holdings or changes in valuation of long-lived assets, including property, plant and equipment and goodwill, and deferred tax assets and uncertain tax positions; future changes or revisions to accounting policies or accounting rules; as well as natural disasters including earthquakes and other events that may negatively impact business activities of the Matsushita Group. The factors listed above are not all-inclusive and further information is contained in Matsushita's latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission.

Note: Certain information previously filed with the SEC in other reports, is not included in this English translation.

**(2) Principal Businesses**

The Matsushita Group is comprised primarily of the parent Matsushita Electric Industrial Co., Ltd. and 544 consolidated subsidiaries in and outside of Japan, operating in close cooperation with each other. As a comprehensive electronics manufacturer, Matsushita is engaged in production, sales and service activities in a broad array of business areas.

The Company's business segment classifications consist of five segments, namely, Digital AVC Networks, \* Home Appliances, MEW and PanaHome, Components and Devices, and Other.

Matsushita will accelerate a phase change for further growth toward global excellence. From fiscal 2009 onward, with the aim at further clarifying its business fields for investors, Matsushita will newly disclose three business fields of the group which consist of five business segments as follows:

Digital AVC Networks Solution :

Digital AVC Networks segment

Solutions for the Environment and Comfortable Living :

Home Appliances and MEW and PanaHome segments

Devices and Industry Solution :

Components and Devices and Other segments

For production, Matsushita adopts a management system that takes charge of each product in the Company or its affiliates. In recent years, the Company has been enhancing production capacity at its overseas affiliates, to further develop global business. Meanwhile, in Japan, Matsushita's products are sold through sales channels at its domestic locations, each established according to products or customers. The Company also sells directly to large-scale consumers, such as the Government and corporations.

For export, sales are handled mainly through sales subsidiaries and agents located in respective countries.

Certain products produced at domestic affiliates are purchased by the Company and sold through the same sales channels as products produced by the Company itself. Additionally, products produced at overseas affiliates are sold mainly through sales subsidiaries in respective countries.

Meanwhile, most import operations are carried out internally, with the aim of expanding international economic cooperation.

Certain MEW and PanaHome products are sold on a proprietary basis at home and abroad.

\* The name of AVC Networks was changed to Digital AVC Networks from fiscal 2009.

**II The Business**

**(1) Operating Results**

In the electronics industry during the first quarter under review, while there was a growing demand before the Beijing Olympics, severe business conditions continued both in Japan and overseas, due mainly to price declines centered on digital products, a stronger yen against the U.S. dollar and rising prices for raw materials and energy. Under these circumstances, in fiscal 2009 as the middle year of the three-year mid-term management plan GP3, Matsushita is striving to produce successful results and create a new trend for achieving goals. Aiming at getting growth back on track and strengthening profitability, Matsushita is implementing initiatives focused on four major themes: double-digit growth in overseas sales, expansion of four strategic businesses, manufacturing innovation and the eco ideas strategy.

Consolidated group sales for the first quarter amounted to 2,152.0 billion yen. Explaining the first quarter results, sales gains were recorded in digital AV products.

Regarding earnings, operating profit\* for the first quarter amounted to 109.6 billion yen. Despite the negative effects of intensified global price competition and a stronger yen against the U.S. dollar, as well as rising prices for crude oil and other raw materials, this result was due primarily to sales gains in real terms excluding the effects of JVC\*\*, and comprehensive cost reduction activities including materials costs and fixed costs.

In other income (deductions), the Company recorded 7.2 billion yen as interest income and 5.3 billion yen as dividends received. These and other factors resulted in income before income taxes of 119.3 billion yen.

Provision for income taxes amounted to 42.4 billion yen and the effective tax rate to income before income taxes resulted in 35.6%, due mainly to increased tax advantage in overseas subsidiaries in lower tax countries.

Minority interests and equity in earnings of associated companies were 4.1 billion yen and 0.3 billion yen, respectively.

As a result of all the factors stated, the Company recorded a net income of 73.0 billion yen.

## Edgar Filing: MATSUSHITA ELECTRIC INDUSTRIAL CO LTD - Form 6-K

- \* In order to be consistent with financial reporting practices generally accepted in Japan, operating profit (loss) is presented as net sales less cost of sales and selling, general and administrative expenses. Under U.S. generally accepted accounting principles, expenses associated with the implementation of early retirement programs at certain domestic and overseas companies are included as part of operating profit in the consolidated statements of income.
  
- \*\* Victor Company of Japan, Ltd. and its subsidiaries became associated companies under the equity method from Matsushita's consolidated subsidiaries from August 2007. Accordingly, sales of JVC from August 2007 to September 2007 are excluded from the consolidated group sales.

**(2) Operating Results by Business Field and by Business Segment**

The Company's business segment classifications consist of five segments, namely, Digital AVC Networks, Home Appliances, MEW and PanaHome, Components and Devices, and Other.

Matsushita will accelerate a phase change for further growth toward global excellence. From fiscal 2009 onward, with the aim at further clarifying its business fields for investors, Matsushita will newly disclose three business fields of the group which consist of five business segments as follows:

Digital AVC Networks Solution :

Digital AVC Networks segment

Solutions for the Environment and Comfortable Living :

Home Appliances and MEW and PanaHome segments

Devices and Industry Solution :

Components and Devices and Other segments

*1. Digital AVC Networks Solution*

Sales of Digital AVC Networks Solution amounted 1,046.4 billion yen and segment profit was 55.0 billion yen. The breakdown is as follows:

a. Digital AVC Networks

Digital AVC Networks sales amounted to 1,046.4 billion yen. A significant sales increase of flat-panel TVs in video and audio equipment, as well as favorable sales of digital cameras and DVD recorders, contributed to an overall sales increase. Sales of information and communications equipment decreased due mainly to sluggish sales in automotive electronics equipment. Despite the price declines mainly in digital AV products, segment profit amounted to 55.0 billion yen. This was due primarily to sales increases of flat-panel TVs, digital cameras, DVD recorders and mobile

phones, in addition to the rationalization effects.

2. Solutions for the Environment and Comfortable Living

Sales of Solutions for the Environment and Comfortable Living amounted to 784.8 billion yen and segment profit was 42.0 billion yen. The breakdown is as follows:

b. Home Appliances

Sales of Home Appliances amounted to 352.1 billion yen. Despite sluggish sales in compressors and other products, favorable sales in refrigerators and electric lamps contributed to an overall sales increase. Despite the negative effects of rising raw materials prices, segment profit amounted to 31.5 billion yen, due primarily to the rationalization effects and sales gains in high value-added products such as refrigerators.

**Table of Contents**

- 8 -

c. MEW and PanaHome

Sales of MEW and PanaHome amounted to 432.8 billion yen. At MEW and its subsidiaries, sales gains were recorded with favorable sales in electrical construction materials and automation controls. At PanaHome Corporation and its subsidiaries, sluggish housing market conditions led to a decrease in sales. Segment profit amounted to 10.5 billion yen, mainly as a result of rationalization effects.

3. *Devices and Industry Solution*

Sales of Devices and Industry Solution amounted to 624.0 billion yen and segment profit was 33.4 billion yen. The breakdown is as follows:

d. Components and Devices

Sales of Components and Devices amounted to 334.6 billion yen. Sluggish sales of general electronic components and batteries resulted in a decrease in sales. Segment profit amounted to 19.5 billion yen, mainly as a result of rationalization efforts.

e. Other

Sales for Other amounted to 289.4 billion yen, due mainly to sales gains in factory automation equipment. Segment profit amounted to 13.9 billion yen, mainly as a result of an increase in sales.

**First-quarter Results by Domestic and Overseas Company Location\***

\* The following information shows the geographical sales and profit by region for the three months ended June 30, 2008.

Japan

Although sales gains were recorded in flat-panel TVs, DVD recorders, mobile phones and refrigerators, sales of companies in Japan amounted to 1,638.5 billion yen. This was due mainly to a decrease in sales as a result of deconsolidation of JVC. Profit in this region amounted to 100.7 billion yen, as a result of sales gains in real terms excluding the effects of JVC and the rationalization effects.

Americas

Although sales gains were recorded in flat-panel TVs, digital cameras and DVD recorders, sales of companies in the Americas amounted to 275.0 billion yen. This was due mainly to a decrease in sales as a result of deconsolidation of JVC and the effects of a stronger yen against the U.S. dollar. Profit in this region amounted to 4.3 billion yen mainly as a result of rationalization efforts.

**Table of Contents**

- 9 -

*Europe*

Although favorable sales were recorded in flat-panel TVs and digital cameras, sales of companies in Europe amounted to 294.3 billion yen. This was due mainly to a decrease in sales as a result of deconsolidation of JVC. Profit in this region resulted in a loss of 0.3 billion yen. Despite the rationalization efforts, the effect of price declines led to this result.

*Asia and Others*

Despite a decrease in sales as a result of deconsolidation of JVC, sales of companies in Asia and Others amounted to 733.9 billion yen. This was due mainly to favorable sales in flat-panel TVs, digital cameras and other digital AV products, as well as white goods such as air-conditioners and refrigerators. Geographical profit amounted to 33.9 billion yen, due mainly to favorable sales and rationalization effects.

**(3) Consolidated Assets, Liabilities, Minority Interests and Stockholders Equity**

The Company's consolidated total assets as of June 30, 2008 increased 171.6 billion yen to 7,615.2 billion yen, compared with 7,443.6 billion yen at the end of fiscal 2008. With regard to assets, inventories increased to 138.5 billion yen for seasonal factors, compared with the end of fiscal 2008.

With regard to liabilities, current liabilities were up by 79.4 billion yen and fixed liabilities were up by 65.2 billion yen from the end of fiscal 2008, due mainly to an increase in short-term borrowings and an issuance of bonds in its subsidiary. Accordingly, total liabilities resulted in 3,331.2 billion yen.

Minority interests increased 1.7 billion yen to 516.2 billion yen.

Stockholders' equity increased 25.4 billion yen, compared with the end of the last fiscal year's 3,742.3 billion yen, to 3,767.7 billion yen. Treasury stock increased 40.7 billion yen, as a result of the repurchase of the Company's own shares as part of Matsushita's financial strategy to enhance shareholder value. Pension liability adjustments decreased 72.7 billion yen, due mainly to a change in the measurement date to March 31 for those postretirement benefit plans with a December 31 measurement date in conformity with the provisions regarding the change in the measurement

date of postretirement benefit plan of Statement of Financial Accounting Standards (SFAS) No. 158. Meanwhile, other retained earnings increased 30.4 billion yen and cumulative translation adjustments increased 86.2 billion yen as a result of the correction of the yen appreciation against the U.S. dollar.

**Table of Contents**

- 10 -

**(4) Cash Flows**

*Cash flows from operating activities*

Net cash provided by operating activities in the fiscal 2009 first quarter amounted to 122.8 billion yen. Despite increased inventories, this was attributable mainly to net income and depreciation.

*Cash flows from investing activities*

Net cash used in investing activities amounted to 184.9 billion yen. Capital expenditures for tangible fixed assets were 163.5 billion yen, mainly consisting of manufacturing facilities for priority business areas such as plasma display panels (PDP), liquid crystal display (LCD) panels and semiconductors.

*Cash flows from financing activities*

Net cash used in financing activities amounted to 35.8 billion yen. Although long-term liabilities increased associated with the issuance of bonds in its subsidiary, an increase in repurchase of the Company's common stock and dividends payments led to overall increase in cash outflows.

With all these activities, cash and cash equivalents for the first quarter of fiscal 2009, with a positive effect of 39.7 billion yen for exchange rate changes, resulted in 1,156.6 billion yen.

**(5) Research and Development**

Matsushita's R&D expenditures for the first quarter of fiscal 2009 totaled 131.1 billion yen.

**Table of Contents**

- 11 -

**III Property, Plant and Equipment****(1) Capital Investment\***

During the first quarter ended June 30, 2008, the Company invested a total of 102,682 million yen in property, plant and equipment, with emphasis on production facilities in such strategically important areas as PDP and LCD panels, and semiconductors. The breakdown of capital investment by business segment is as follows:

<b>Business Segment</b>	<b>Yen (millions)</b>
Digital AVC Networks	49,309
Home Appliances	13,856
MEW and PanaHome	9,578
Components and Devices	24,119
Other	596
Subtotal	97,458
Corporate	5,224
Total	102,682

\* The above figures are calculated on an accrual basis.

**(2) Plan of the purchase and retirement of major property, plant and equipment**

During the three months ended June 30, 2008, there was no material change in the purchase and retirement of major property, plant and equipment from the plan at the end of March 31, 2008. Meanwhile, on July 29, 2008, Matsushita's Board of Directors decided to construct a new lithium-ion battery plant in Osaka City. Total capital expenditures for the plant are estimated to be approximately 100 billion yen.

\* The above figures are calculated on an accrual basis.

AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) **Summary of Significant Accounting Policies**

(a) **Description of Business**

Matsushita Electric Industrial Co., Ltd. (hereinafter, the Company, including consolidated subsidiaries, unless the context otherwise requires) is one of the world's leading producers of electronic and electric products. The Company currently offers a comprehensive range of products, systems and components for consumer, business and industrial use based on sophisticated electronics and precision technology, expanding to building materials and equipment, and housing business. Most of the Company's products are marketed under Panasonic and several other trade names, including National, Technics, and PanaHome.

Sales by product category for the three months ended June 30, 2008 were as follows: Digital AVC Networks 45%, (Video and audio equipment 22%, Information and communications equipment 23%), Home Appliances 16%, MEW and PanaHome\* 18%, Components and Devices 13% and Other 8%. A sales breakdown by geographical market was as follows: Japan 49%, North and South America 13%, Europe 14%, and Asia and Others 24%.

The Company is not dependent on a single supplier, and has no significant difficulty in obtaining raw materials from suppliers.

\* MEW stands for Matsushita Electric Works, Ltd. and PanaHome stands for PanaHome Corporation.

(b) **Basis of Presentation of Consolidated Financial Statements**

The Company and its domestic subsidiaries maintain their books of account in conformity with financial accounting standards of Japan, and its foreign subsidiaries in conformity with those of the countries of their domicile.

The consolidated financial statements presented herein have been prepared in a manner and reflect adjustments which are necessary to conform with U.S. generally accepted accounting principles.

Notes to Consolidated Financial Statements

**(c) Principles of Consolidation**

The consolidated financial statements include the accounts of the Company and its majority-owned, controlled subsidiaries. The Company also consolidates entities in which controlling interest exists through variable interests in accordance with Financial Accounting Standards Board (FASB) Interpretation No. 46 (revised December 2003),

Consolidation of Variable Interest Entities. Investments in companies and joint ventures over which we have the ability to exercise significant influence (generally through an ownership interest of between 20% to 50%) are included in Investments and advances in the consolidated balance sheets. All significant intercompany balances and transactions have been eliminated in consolidation.

**(d) Use of Estimates**

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

**(e) Adoption of New Accounting Pronouncements**

In September 2006, FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The Company applied SFAS No. 157 on April 1, 2008. In February 2008, FASB issued Staff Position No. 157-2, Effective Date of FASB Statement No. 157, which partially delays the effective date of SFAS No. 157 by one year for certain nonfinancial assets and liabilities. The adoption of SFAS No. 157 is not expected to have a material effect on the Company's consolidated financial statements and the Company has omitted the disclosures required by SFAS No. 157.

In September 2006, FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*—an amendment of FASB Statements No. 87, 88, 106, and 132(R). SFAS No. 158's provisions regarding the change in the measurement date of postretirement benefit plans require the fair value of plan assets and benefit obligations to be measured as of the date of the fiscal year-end consolidated balance sheet and the Company applied SFAS No. 158's provisions on April 1, 2008. In conformity with the provisions, the Company and certain subsidiaries changed the measurement date to March 31 for those postretirement benefit plans with a December 31 measurement date. With the change in the measurement date, beginning balances of Retained earnings and Accumulated other comprehensive income (loss) Pension liability adjustments at April 1, 2008 has been reduced by 3,727 million yen and 73,571 million yen, respectively.

(5) Long-Lived Assets

The Company periodically reviews the recorded value of its long-lived assets to determine if the future cash flows to be derived from these assets will be sufficient to recover the remaining recorded asset values. Impairment losses are included in other deductions in the consolidated statements of income, and are not charged to segment profit.

The Company recognized impairment losses in the aggregate of 2,112 million yen of property, plant and equipment for the three months ended June 30, 2008.

The Company recorded the impairment losses due to the closing of domestic manufacturing facilities. As a result of the closing, certain buildings and land became unused and the Company recorded the impairment losses. The fair

value of land was determined through an appraisal. The fair value of buildings was determined based on the discounted future cash flows expected to result from their eventual disposition.

Impairment losses of 1,702 million yen and 410 million yen related to Corporate and eliminations and the remaining segments, respectively.

Notes to Consolidated Financial Statements

(11) Derivatives and Hedging Activities

The Company operates internationally, giving rise to significant exposure to market risks arising from changes in foreign exchange rates, interest rates and commodity prices. The Company assesses these risks by continually monitoring changes in these exposures and by evaluating hedging opportunities. Derivative financial instruments utilized by the Company to hedge these risks are comprised principally of foreign exchange contracts, interest rate swaps, cross currency swaps and commodity derivatives. The Company does not hold or issue derivative financial instruments for any purposes other than hedging.

Gains and losses related to derivative instruments are classified in other income (deductions) in the consolidated statements of income. The amount of the hedging ineffectiveness and net gain or loss excluded from the assessment of hedge effectiveness is not material for the three months ended June 30, 2008. Amounts included in accumulated other comprehensive income (loss) at June 30, 2008 are expected to be recognized in earnings principally over the next twelve months. The maximum term over which the Company is hedging exposures to the variability of cash flows for foreign currency exchange risk is approximately five months.

The Company is exposed to credit risk in the event of non-performance by counterparties to the derivative contracts, but such risk is considered mitigated by the high credit rating of the counterparties.

(12) Commitments and Contingent Liabilities

The Company provides guarantees to third parties mainly on bank loans provided to associated companies and customers. The guarantees are made to enhance their credit. For each guarantee provided, the Company is required to perform under the guarantee if the guaranteed party defaults on a payment. At June 30, 2008, the maximum amount of undiscounted payments the Company would have to make in the event of default is 16,220 million yen. The carrying amount of the liabilities recognized for the Company's obligations as a guarantor under those guarantees at June 30

and March 31, 2008 was insignificant.

In connection with the sale and lease back of certain machinery and equipment, the Company guarantees a specific value of the leased assets. For each guarantee provided, the Company is required to perform under the guarantee if certain conditions are met during or at the end of the lease term. At June 30, 2008, the maximum amount of undiscounted payments the Company would have to make in the event that these conditions are met is 35,228 million yen. The carrying amount of the liabilities recognized for the Company's obligations as guarantors under those guarantees at June 30 and March 31 was insignificant.

Notes to Consolidated Financial Statements

Contingent liabilities at June 30, 2008 for discounted export bills of exchange amounted to 18 million yen.

There are a number of legal actions against the Company. Management is of the opinion that damages, if any, resulting from these actions will not have a material effect on the Company's consolidated financial statements.

(13) Segment Information

In accordance with SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, the segments reported below are the components of the Company for which separate financial information is available that is evaluated regularly by the chief operating decision maker of the Company in deciding how to allocate resources and in assessing performance.

Business segments correspond to categories of activity classified primarily by markets, products and brand names.

Digital AVC Networks includes video and audio equipment, and information and communications equipment. Home Appliances includes household equipment. MEW and PanaHome includes electrical supplies, electric products, building materials and equipment, and housing business. Components and Devices includes electronic components, semiconductors, electric motors and batteries. Other includes electronic-parts-mounting machines, industrial robots and industrial equipment. From April 1, 2008, the name of AVC Networks was changed to Digital AVC Networks.
