**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**(1) Interim Financial Statements**

The accompanying unaudited financial statements have been prepared in accordance with the rules and regulations of the United States Securities and Exchange Commission ( SEC ). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ( GAAP ) have been omitted pursuant to the SEC rules and regulations. The accompanying unaudited financial statements reflect, in the opinion of management, all adjustments necessary to present fairly the financial position and results of operations for the periods indicated.

The accompanying unaudited financial statements have been prepared in accordance with GAAP and include the consolidated accounts of Beasley Broadcast Group, Inc. (the Company ) and its wholly-owned subsidiaries. All significant inter-company balances and transactions have been eliminated in consolidation.

The balance sheet as of December 31, 2008 has been derived from the Company s audited financial statements for the fiscal year ended December 31, 2008. The financial statements and related notes included in this report should be read in conjunction with the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

Certain amounts previously reported in the 2008 financial statements have been reclassified to conform to the 2009 presentation.

Results of the third quarter of 2009 are not necessarily indicative of results for the full year.

The Company has evaluated events and transactions occurring subsequent to the balance sheet date of September 30, 2009, for items that should potentially be recognized in these financial statements. The evaluation was conducted through November 9, 2009, the date these financial statements were issued.

**(2) Recent Accounting Pronouncements**

On January 1, 2009, the Company adopted the provisions of Statement of Financial Accounting Standards ( SFAS ) 141 (revised 2007), *Business Combinations* which replaces SFAS 141, *Business Combinations*. SFAS 141(R) requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date. SFAS 141(R) also requires the acquirer in a business combination achieved in stages to recognize the identifiable assets and liabilities, as well as the noncontrolling interest in the acquiree, at the full amounts of their fair values. SFAS 141(R) applies to all transactions or other events in which an entity obtains control of one or more businesses. The adoption of SFAS 141(R) did not have an impact on the Company s results of operations or financial position but may have an impact on accounting for future business combinations.

On January 1, 2009, the Company adopted the provisions of FASB Staff Position ( FSP ) SFAS 142-3, *Determination of the Useful Life of Intangible Assets*, which amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS 142, *Goodwill and Other Intangible Assets*. The intent of this FSP is to improve the consistency between the useful life of a recognized intangible asset under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS 141 (revised 2007), and other U.S. generally accepted accounting principles. The adoption of FSP 142-3 did not have an impact on the Company s results of operations or financial position but may have an impact on accounting for future acquisitions.

In April 2009, the FASB issued FSP SFAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*, which amends SFAS 107, *Disclosures about Fair Value of Financial Instruments*, to require disclosures about fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. FSP SFAS 107-1 and APB 28-1 is effective for interim periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The Company adopted the provisions of FSP SFAS 107-1 and APB 28-1 in the first quarter of 2009 (see note 7).

In May 2009, the FASB issued SFAS 165, *Subsequent Events*, which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. An entity should apply the requirements of SFAS 165 to interim or annual financial periods ending after June 15, 2009. Adoption of SFAS 165 did not have a material impact on the Company s results of operations or financial position.

## Edgar Filing: BEASLEY BROADCAST GROUP INC - Form 10-Q

In June 2009, the FASB issued SFAS 167, *Amendments to FASB Interpretation No. 46(R)*, improves financial reporting by enterprises involved with variable interest entities. SFAS 167 addresses (1) the effects on certain provisions of FASB Interpretation

**Table of Contents****BEASLEY BROADCAST GROUP, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

No. 46 (revised December 2003), *Consolidation of Variable Interest Entities*, as a result of the elimination of the qualifying special-purpose entity concept in SFAS 166 and (2) concerns about the application of certain key provisions of FIN 46(R), including those in which the accounting and disclosures under the Interpretation do not always provide timely and useful information about an enterprise's involvement in a variable interest entity. SFAS 167 shall be effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within the first annual reporting period, and for interim and annual reporting periods thereafter. Earlier application is prohibited. Adoption of SFAS 167 is not expected to have a material impact on the Company's results of operations or financial position.

Effective October 1, 2009, the Company adopted the provisions of SFAS 168, *The FASB Accounting Standards Codification<sup>TM</sup> and the Hierarchy of Generally Accepted Accounting Principles – a replacement of FASB Statement No. 162*. The FASB Accounting Standards Codification<sup>TM</sup> (Codification) which became the source of authoritative U.S. generally accepted accounting principles (GAAP) recognized by FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. On the effective date of SFAS 168, the Codification superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification became nonauthoritative. The adoption of SFAS 168 did not have a material impact on the Company's results of operations or financial position.

In August 2009, the FASB issued Accounting Standard Update (ASU) 2009-05, *Fair Value Measurements and Disclosures – Measuring Liabilities at Fair Value*. ASU 2009-05 provides clarification for circumstances in which a quoted price in an inactive market for an identical liability is not available. ASU 2009-05 is effective for the first reporting period beginning after August 2009. The Company has not completed its evaluation of the impact of the adoption of ASU 2009-05.

**(3) Completed Dispositions**

On August 25, 2009, the Company completed the sale of substantially all of the assets used in the operation of radio station KBET-AM and certain assets used in the operation of radio stations KCYE-FM and KFRH-FM in Las Vegas, Nevada to Silver State Broadcasting LLC for \$15.3 million in cash. The Company repaid a portion of the outstanding balance under its credit facility with the sale proceeds. The Company recorded a \$1.7 million gain on sale during the third quarter of 2009.

The change in the carrying amount of FCC broadcasting licenses for the nine months ended September 30, 2009 is as follows:

Balance as of December 31, 2008	\$ 191,748,998
Sale of radio stations	(12,835,182)
<b>Balance as of September 30, 2009</b>	<b>\$ 178,913,816</b>

There is no goodwill recorded in the reporting unit containing the Las Vegas market cluster which included the sold radio stations. The Company continues to operate three radio stations in the Las Vegas radio market.

**(4) Long-Term Debt**

Long-term debt is comprised of the following:

	December 31, 2008	September 30, 2009
Credit facility:		

## Edgar Filing: BEASLEY BROADCAST GROUP INC - Form 10-Q

Revolving credit loan	\$ 55,500,000	\$ 55,826,716
Term loan	119,000,000	98,000,000
	174,500,000	153,826,716
Less current installments	(4,462,500)	(5,025,640)
	\$ 170,037,500	\$ 148,801,076

On March 13, 2009, the Company amended its credit facility. As of September 30, 2009, the credit facility consists of a revolving credit loan with a maximum commitment of \$65.0 million and a term loan with a remaining balance of \$98.0 million. The revolving credit loan includes a \$7.5 million sub-limit for letters of credit which may not be increased. At the Company's election, the revolving credit loan and term loan may bear interest at either the base rate or LIBOR plus a margin that is determined by the Company's debt to operating cash flow ratio. The base rate is equal to the higher of the prime rate, the federal funds effective rate, or the one month

**Table of Contents****BEASLEY BROADCAST GROUP, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

LIBOR quoted rate plus 1.0%. Interest on base rate loans is payable quarterly through maturity. Interest on LIBOR loans is payable on the last day of the selected LIBOR period and, if the selected period is longer than three months, every three months after the beginning of the LIBOR period. The revolving credit loan and term loan carried interest, based on LIBOR, at 4.1955% and 4.2744% as of December 31, 2008 and September 30, 2009, respectively, and mature on June 30, 2015. The scheduled reductions in the amount available under the revolving credit loan may require principal repayments if the outstanding balance at that time exceeds the maximum amount available under the revolving credit loan. In connection with the amended credit facility, the Company recorded a \$0.5 million loss on extinguishment of long-term debt during the first quarter of 2009.

As of September 30, 2009, the Company had \$9.2 million in remaining commitments available under the revolving credit loan of its credit facility.

The credit facility is secured by substantially all of the Company's assets and is guaranteed jointly and severally by all of the Company's subsidiaries. The guarantees were issued to the Company's lenders for repayment of the outstanding balance of the credit facility. If the Company defaulted under the terms of the credit facility, the subsidiaries may have been required to perform under their guarantees. The maximum amount of undiscounted payments the subsidiaries would have had to make in the event of default was \$153.8 million. The guarantees for the revolving credit loan and term loan expire on June 30, 2015.

As of September 30, 2009, the scheduled repayments of the amended credit facility for the remainder of 2009, the next four years, and thereafter are as follows:

	Revolving credit loan	Term loan	Total credit facility

Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and to inherent risks and uncertainties, such as unforeseen events that would cause us to broadcast commercial-free for any period of time and changes in the radio broadcasting industry generally. We do not intend, and undertake no obligation, to update any forward-looking statement. Key risks to our company are described in our annual report on Form 10-K, filed with the Securities and Exchange Commission on March 27, 2009.

***General***

We are a radio broadcasting company whose primary business is acquiring, developing, and operating radio stations throughout the United States. We own and operate 42 radio stations in the following markets: Miami-Fort Lauderdale, FL, Philadelphia, PA, Wilmington, DE, Las Vegas, NV, Fort Myers-Naples, FL, Fayetteville, NC, Greenville-New Bern-Jacksonville, NC, Augusta, GA, West Palm Beach-Boca Raton, FL, Atlanta, GA and Boston, MA. We refer to each group of radio stations that we own in each radio market as a market cluster.

***Recent Developments***

On August 25, 2009, we completed the sale of substantially all of the assets used in the operation of radio station KBET-AM and certain assets used in the operation of radio stations KCYE-FM and KFRH-FM in Las Vegas, Nevada to Silver State Broadcasting LLC for \$15.3 million in cash. We repaid a portion of the outstanding balance under our credit facility with the sale proceeds. We recorded a \$1.7 million gain on sale during the third quarter of 2009.

We continue to be impacted by deteriorating general economic conditions, which have caused a downturn in the advertising industry. The automobile and retail industries have historically been important sources of advertising revenue for us however they have been disproportionately impacted by the ongoing economic downturn. As these industries have reduced their discretionary spending they have reduced their advertising budgets. We will continue to review our operating costs and expenses areas in response to the decreased demand for advertising which has negatively impacted our revenues.

***Financial Statement Presentation***

The following discussion provides a brief description of certain key items that appear in our financial statements and general factors that impact these items.

***Net Revenue.*** Our net revenue is primarily derived from the sale of advertising airtime to local and national advertisers. Net revenue is gross revenue less agency commissions, generally 15% of gross revenue. Local revenue generally consists of advertising airtime sales to advertisers in a radio station's local market either directly to the advertiser or through the advertiser's agency. National revenue generally consists of advertising airtime sales to agencies purchasing advertising for multiple markets. National sales are generally facilitated by our national representation firm, which serves as our agent in these transactions.

The advertising rates that we are able to charge and the number of advertisements that we can broadcast without jeopardizing listener levels generally determine our net revenue. Advertising rates are primarily based on the following factors:

a radio station's audience share in the demographic groups targeted by advertisers as measured principally by quarterly reports issued by the Arbitron Ratings Company;

---

**Table of Contents**

the number of radio stations, as well as other forms of media, in the market competing for the attention of the same demographic groups;

the supply of, and demand for, radio advertising time; and

the size of the market.

Our net revenue is affected by general economic conditions, competition and our ability to improve operations at our market clusters. Seasonal revenue fluctuations are also common in the radio broadcasting industry and are primarily due to variations in advertising expenditures by local and national advertisers. Our revenues are typically lowest in the first calendar quarter of the year.

We use trade sales agreements to reduce cash paid for operating costs and expenses by exchanging advertising airtime for goods or services; however, we endeavor to minimize trade revenue in order to maximize cash revenue from our available airtime.

*Operating Costs and Expenses.* Our operating costs and expenses consist primarily of (1) programming, engineering, and promotional expenses, reported as cost of services, and selling, general and administrative expenses incurred at our radio stations, (2) general and administrative expenses, including compensation and other expenses, incurred at our corporate offices, and (3) depreciation and amortization. We strive to control our operating expenses by centralizing certain functions at our corporate offices and consolidating certain functions in each of our market clusters.

*Income Taxes.* Our effective tax rate was approximately 43% for the three and nine months ended September 30, 2008 and 57% and 53% for the three and nine months ended September 30, 2009, respectively, which differ from the federal statutory rate of 34% due to the effect of state income taxes and certain of our expenses that are not deductible for tax purposes. The effective tax rate also includes additional tax expense in 2008 and 2009 from the vesting of restricted stock in 2008 and 2009 at stock prices lower than the grant-date stock prices of those awards. The effective tax rate for the three and nine months ended September 30, 2009 also reflects a \$0.4 million increase to the valuation allowance for unrealized losses on investments which we have determined, more likely than not, that such losses will not be utilized.

***Critical Accounting Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make estimates and assumptions that affect reported amounts and related disclosures. We consider an accounting estimate to be critical if:

it requires assumptions to be made that were uncertain at the time the estimate was made; and

changes in the estimate or different estimates that could have been selected could have a material impact on our results of operations or financial condition.

Our critical accounting estimates are described in Item 7 of our annual report on Form 10-K for the year ended December 31, 2008. There have been no material changes to our critical accounting estimates during the third quarter of 2009.

***Recent Accounting Pronouncements***

In August 2009, the FASB issued Accounting Standard Update ( ASU ) 2009-05, *Fair Value Measurements and Disclosures - Measuring Liabilities at Fair Value*. ASU 2009-05 provides clarification for circumstances in which a quoted price in an inactive market for an identical liability is not available. ASU 2009-05 is effective for the first reporting period beginning after August 2009. We have not completed our evaluation of the impact of the adoption of ASU 2009-05.

*Interest Expense.* The \$0.7 million increase in interest expense during the three months ended September 30, 2009 was due an increase in our interest rate as a result of the amendment to our credit agreement during the first quarter of 2009 and the swap agreements we entered during the second and third quarters of 2008. These increases were partially offset with reduced borrowing costs as a result of a general decline in interest rates and scheduled and voluntary repayments of borrowings under our credit facility.

*Net Income.* As a result of the factors described above, net income for the three months ended September 30, 2009 was \$1.4 million compared to a net income of \$2.3 million for the three months ended September 30, 2008.

**Liquidity and Capital Resources**

*Overview.* Our primary source of liquidity is internally generated cash flow. Our primary liquidity needs have been, and for the next twelve months and thereafter are expected to continue to be, for working capital, debt service, and other general corporate purposes, including capital expenditures. Historically, our capital expenditures have not been significant. In addition to property and equipment associated with radio station acquisitions, our capital expenditures have generally been, and are expected to continue to be, related to the maintenance of our studio and office space and the technological improvement, including upgrades necessary to broadcast HD Radio, and maintenance of our broadcasting towers and equipment. We have also purchased or constructed office and studio space in some of our markets to facilitate the consolidation of our operations.

**Table of Contents**

Prior to March 13, 2009, our credit facility permitted us to repurchase up to \$50.0 million of our common stock and on June 10, 2004, our board of directors authorized us to repurchase up to \$25.0 million of our Class A common stock over a one-year period from the date of authorization, which was extended on May 12, 2005 for one additional year. On May 24, 2006, our board of directors authorized us to increase the remaining balance under our previous authorization from \$21.3 million to \$25.0 million and to extend the repurchase period to May 23, 2007. Effective May 24, 2007, our board of directors authorized the extension of the repurchase period for one additional year. Effective May 24, 2008, our board of directors authorized the extension of the repurchase period for one additional year. Effective March 13, 2009, our credit facility prohibits us from repurchasing additional shares of our common stock until our consolidated total debt is less than 5.00 times our consolidated operating cash flow at which time we are permitted to repurchase up to an aggregate of \$10.0 million of our common stock. We are permitted to repurchase up to \$0.5 million of our common stock per year in connection with vesting of restricted stock. From June 10, 2004 to November 5, 2009, we repurchased 2.6 million shares of our Class A common stock for an aggregate \$13.9 million.

Prior to March 13, 2009, our credit facility permitted us to pay cash dividends on our common stock in an amount up to an aggregate of \$10.0 million per year. Effective March 13, 2009, our credit facility prohibits us from paying cash dividends on our common stock until our consolidated total debt is less than 5.00 times our consolidated operating cash flow at which time we are permitted to pay cash dividends in an amount up to an aggregate of \$5.0 million per year.

We expect to provide for future liquidity needs through one or a combination of the following sources of liquidity:

internally generated cash flow;

our credit facility;

additional borrowings, other than under our existing credit facility, to the extent permitted thereunder; and

additional equity offerings.

We believe that we will have sufficient liquidity and capital resources to permit us to provide for our liquidity requirements and meet our financial obligations for the next twelve months. However, continuation or worsening of the economic downturn in the United States or in the markets we serve, poor financial results, unanticipated acquisition opportunities or unanticipated expenses could give rise to defaults under our credit facility, additional debt servicing requirements or other additional financing or liquidity requirements sooner than we expect and we may not secure financing when needed or on acceptable terms.

Our ability to reduce our total debt ratio, as defined by our credit facility, by increasing operating cash flow and/or decreasing long-term debt will determine how much, if any, of the remaining commitments under the revolving portion of our credit facility will be available to us in the future. Continuation or worsening of the economic downturn in the United States or in the markets we serve, poor financial results or unanticipated expenses could result in our failure to maintain or lower our total leverage ratio and we may not be permitted to make any additional borrowings under the revolving portion of our credit facility.

The following summary table presents a comparison of our capital resources for the nine months ended September 30, 2008 and 2009 with respect to certain of our key measures affecting our liquidity. The changes set forth in the table are discussed in greater detail below. This section should be read in conjunction with the financial statements and notes to financial statements included in Item 1 of this report.

*Net Cash Used In Financing Activities.* Net cash used in financing activities in the nine months ended September 30, 2009 was primarily due to scheduled repayments of \$2.7 million and voluntary repayments of \$17.9 million under our credit facility, and payments of \$0.8 million of loan fees related to the amended credit facility. Net cash used in financing activities for the same period in 2008 was primarily due to voluntary repayments of \$12.0 million under our credit facility, cash dividends of \$4.4 million, and \$0.8 million for repurchases of our Class A common stock.

*Credit Facility.* As of October 31, 2009, the outstanding balance of our credit facility was \$153.8 million. As of September 30, 2009, the credit facility consists of a revolving credit loan with a maximum commitment of \$65.0 million and a term loan with a remaining balance of \$98.0 million. The revolving credit loan includes a \$7.5 million sub-limit for letters of credit which may not be increased. At our election, the revolving credit loan and term loan may bear interest at either the base rate or LIBOR plus a margin that is determined by our debt to operating cash flow ratio. The base rate is equal to the higher of the prime rate, the federal funds effective rate, or the one month LIBOR quoted rate plus 1.0%. Interest on base rate loans is payable quarterly through maturity. Interest on LIBOR loans is payable on the last day of the selected LIBOR period and, if the selected period is longer than three months, every three months after the beginning of the LIBOR period. The revolving credit loan and term loan carried interest, based on LIBOR, at 4.1955% and 4.2744% as of December 31, 2008 and September 30, 2009, respectively, and mature on June 30, 2015. The scheduled reductions in the amount available under the revolving credit loan may require principal repayments if the outstanding balance at that time exceeds the maximum amount available under the revolving credit loan. In connection with the amended credit facility, we recorded a \$0.5 million loss on extinguishment of long-term debt during the first quarter of 2009.

As of September 30, 2009, we had \$9.2 million in remaining commitments available under the revolving credit loan of our credit facility.

As of September 30, 2009, our credit facility is secured by substantially all of our assets and is guaranteed jointly and severally by the Company and all of our subsidiaries. The guarantees were issued to our lenders for repayment of the outstanding balance of the credit facility. If we default under the terms of the credit facility, our subsidiaries may have been required to perform under their guarantees. The maximum amount of undiscounted payments the subsidiaries would have to make in the event of default is \$153.8 million. The guarantees for the revolving credit loan and term loan expire on June 30, 2015.

As of September 30, 2009, the scheduled repayments of the amended credit facility for the remainder of 2009, the next four years, and thereafter are as follows:

	<b>Revolving credit loan</b>	<b>Term loan</b>	<b>Total credit facility</b>
2009	\$	\$ 1,256,410	\$ 1,256,410
2010		5,025,640	5,025,640
2011		7,287,179	7,287,179
2012		8,041,025	8,041,025
2013	6,146,509	9,548,718	15,695,227
Thereafter	49,680,207	66,841,028	116,521,235
<b>Total</b>	<b>\$ 55,826,716</b>	<b>\$ 98,000,000</b>	<b>\$ 153,826,716</b>

We must pay a quarterly unused commitment fee equal to 0.5% of the unused portion of the revolving credit loan. We paid unused commitment fees of approximately \$12,000 and \$61,000 for the three and nine months ended September 30, 2009, respectively.

We are required to satisfy financial covenants, which require us to maintain specified financial ratios and to comply with financial tests, such as ratios for maximum consolidated total debt, minimum interest coverage and minimum fixed charges. As of September 30, 2009, these financial covenants included:

*Maximum Consolidated Total Debt Ratio.* As of September 30, 2009, our consolidated total debt must not have exceeded 7.5 times our consolidated operating cash flow for the four quarters then ending (as those terms are defined in the credit agreement). On the last day of each fiscal quarter for the period from October 1, 2009 to June 30, 2010, the maximum ratio will remain at 7.5, however, on the last day of each fiscal quarter for the period from July 1, 2010 through December 31, 2010, the maximum ratio will decrease to 5.25 times and on the last day of each fiscal quarter for all periods after January 1, 2011, the maximum ratio will decrease to 4.75 times.

*Minimum Interest Coverage Ratio.* Our consolidated operating cash flow for the four quarters ending on the last day of each quarter must not have been less than 2.0 times the amount of our consolidated cash interest expense for such four quarter period.

*Minimum Fixed Charge Ratio.* Our consolidated operating cash flow for any four consecutive quarters must not be less than 1.1 times the amount of our consolidated fixed charges for such four quarter period. Fixed charges include cash paid for interest, income taxes, capital expenditures, scheduled principal repayments, dividends, and agency and commitment fees.

Failure to comply with these financial covenants, to make scheduled interest payments or scheduled principal repayments, or to comply with any other terms of our credit facility could result in the acceleration of the maturity of our debt outstanding thereunder, which could have a material adverse effect on our business or results of operations.

As of September 30, 2009, we believed we were in compliance with all applicable financial covenants under our credit facility. As of September 30, 2009, as calculated pursuant to the terms of our credit agreement, our consolidated total debt ratio was 6.99 times consolidated operating cash flow, our interest coverage ratio was 2.37 times interest expense, and our fixed charge coverage ratio was 1.62 times fixed charges.

The credit facility also contains other customary restrictive covenants. These covenants limit our ability to: incur additional indebtedness and liens; enter into certain investments or joint ventures; consolidate, merge or effect asset sales; enter sale and lease-back transactions; sell or discount accounts receivable; enter into transactions with affiliates or stockholders; or change the nature of our business.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

Market risk is the risk of loss arising from adverse changes in market rates and prices such as interest rates, foreign currency exchange rates and commodity prices. Our primary exposure to market risk is interest rate risk associated with our credit facility. As of September 30, 2009, all of our long-term debt bears interest at variable rates. Accordingly, our earnings are affected by changes in interest rates. Assuming the current level of borrowings at variable rates and assuming a one-percentage point increase in the current interest rate under these borrowings, we estimate that our annualized interest expense would increase by \$0.4 million and our net income would decrease by \$0.3 million. In the event of an adverse change in interest rates, management may take actions to mitigate our exposure. However, due to the uncertainty of the actions that would be taken and their possible effects, this interest rate analysis assumes no such actions. Further, the analysis does not consider the effects of the change in the level of overall economic activity that could exist in such an environment.

As of September 30, 2009, we are a party to three interest rate swap agreements with a \$110.0 million notional amount. The swap agreements expire from March to September 2011. As of September 30, 2009, the fair value of the swap agreements was a liability of \$4.0 million.
