This immediate release contains statements that constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995, including estimates, forecasts, targets and plans. Such forward-looking statements do not represent any guarantee by management of future performance.

In many cases, but not all, we use such words as aim, anticipate, believe, endeavor, estimate, expect, intend, may, plan, probability, project, risk, seek, should, strive, target and similar expressions in relation to us or our management to identify forward-looking statements. You can also identify forward-looking statements by discussions of strategy, plans or intentions. These statements reflect our current views with respect to future events and are subject to risks, uncertainties and assumptions.

We may not be successful in implementing our business strategies, and management may fail to achieve its targets, for a wide range of possible reasons, including, without limitation, incurrence of significant credit-related costs; declines in the value of our securities portfolio, including as a result of the impact of the dislocation in the global financial markets; changes in interest rates; foreign currency fluctuations; decrease in the market liquidity of our assets; revised assumptions or other changes related to our pension plans; a decline in our deferred tax assets; the effect of financial transactions entered into for hedging and other similar purposes; failure to maintain required capital adequacy ratio levels; downgrades in our credit ratings; the effect of changes in general economic conditions in Japan and elsewhere; our ability to avoid reputational harm; and the effectiveness of our operational, legal and other risk management policies.

Further information regarding factors that could affect our financial condition and results of operations is included in Item 3.D. Key Information Risk Factors, and Item 5. Operating and Financial Review and Prospects in our most recent annual report on Form 20-F filed with the U.S. Securities and Exchange Commission (SEC), which is available in the Financial Information section of our web page at www.mizuho-fg.co.jp/english/ and also at the SEC's web site at www.sec.gov.

We do not intend to update our forward-looking statements. We are under no obligation, and disclaim any obligation, to update or alter our forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by the rules of the Tokyo Stock Exchange.

QUALITATIVE INFORMATION AND FINANCIAL STATEMENTS

(Please refer to Summary Results for the Second Quarter (First Half) of Fiscal 2009 on page 2-1 for more information.)

1. Qualitative Information related to the Consolidated Results of Operations

Looking back over the economic environment over the past six months ended September 30, 2009, the global economy continued to be in a serious situation. However, after accelerated action to stabilize the financial system and recover the economy with cooperation between the major countries, there are some signs of stabilization with stock prices and the volume of trade transactions bottoming out, among other factors.

The financial environment in the United States and Europe continues to be severe, but against the backdrop of progress in inventory adjustments among others, the economy is approaching a turnaround, and with among others the strengthening of domestic demand in China attributable mainly to the effects of economic stimulus policies, there are indications of a general strengthening in the Asian economies.

As for the Japanese economy, the situation continues to be severe as the worsening in employment continues, with a record high unemployment rate and industrial production at an extremely low level. But the economy is bottoming out, with signs of improvement in exports and increased personal consumption, especially of durable goods, with a return to positive real GDP growth in the April-June quarter for the first time in five consecutive quarters as the foreign economic environment improves and economic stimulus policies take effect.

However, with a consistently high unemployment rate and the prospect of its requiring a long time for private-sector demand to pick up, there is still the risk of falling once again into a vicious cycle of heightened financial uncertainty and a deterioration in the actual economy, and it is uncertain as to whether there will be sustainable recovery in the global economy.

Given the above business environment, it is important for Mizuho Financial Group to strengthen further its profitability by allocating management resources flexibly and by providing best financial services to meet customers' needs, while maintaining financial soundness and enhancing corporate governance such as risk management.

With the above economic environment, Net Income for the six months ended September 30, 2009 amounted to ¥87.8 billion, decreasing by ¥6.7 billion from the corresponding period of the previous fiscal year.

Taking segment information by type of business for MHFG and its consolidated subsidiaries categorized under banking business (banking and trust banking business), securities business and other, Ordinary Profits before eliminating inter-segment transactions was ¥61.8 billion for banking business, ¥48.0 billion for securities business and ¥(0.2) billion for other. Looking at segment information by geographic area categorized under Japan, the Americas, Europe and Asia/Oceania, Ordinary Profits before eliminating inter-segment transactions was ¥137.2 billion for Japan, ¥37.0 billion for the Americas, ¥(42.7) billion for Europe and ¥18.4 billion for Asia/Oceania.

2. Qualitative Information related to the Consolidated Financial Conditions

Consolidated total assets as of September 30, 2009 amounted to ¥155,857.8 billion, increasing by ¥3,134.7 billion from the end of the previous fiscal year.

Net Assets amounted to ¥5,605.9 billion, increasing by ¥1,419.3 billion from the end of the previous fiscal year. Shareholders' Equity amounted to ¥3,048.6 billion, Valuation and Translation Adjustments amounted to ¥238.3 billion and Minority Interests amounted to ¥2,316.6 billion.

In Assets, the balance of Loans and Bills Discounted amounted to ¥64,267.2 billion, decreasing by ¥6,252.9 billion from the end of the previous fiscal year while Securities were ¥37,938.4 billion, increasing by ¥7,764.8 billion from the end of the previous fiscal year. In Liabilities, Deposits amounted to ¥74,877.0 billion, decreasing by ¥2,302.5 billion from the end of the previous fiscal year.

The Consolidated Capital Adequacy Ratio (Basel II BIS Standard) was 12.92% (preliminary).

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

	March 31, 2008	March 31, 2009	September 30, 2009
Basel II	11.70%	10.55%	12.92%

3. Qualitative Information related to the Consolidated Earnings Estimates

Based on the financial results for the second quarter of fiscal 2009, MHFG hereby revises its consolidated earnings estimates for fiscal 2009, which were announced on May 15, 2009, and revises its estimates for Ordinary Income to ¥2,900.0 billion (a decrease of ¥300.0 billion from the previous estimate) and Ordinary Profits to ¥300.0 billion (a decrease of ¥30.0 billion from the previous estimate). There is no revision of its estimate for Net Income of ¥200.0 billion for fiscal 2009.

The above estimates constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. Please see the forward-looking statements legend on page 1-2 for a description of the factors that could affect our ability to meet these estimates.

4. Others

(1) Changes in Significant Subsidiaries during the Period (changes in specified subsidiaries accompanying changes in scope of consolidation)
On May 7, 2009, Shinko Securities Co., Ltd. (Shinko) (which was an affiliate of MHFG) and Mizuho Securities Co., Ltd. (MHSC) (which was a subsidiary of MHFG) consummated a merger, under which Shinko became the surviving entity and MHSC became the absorbed entity. Accordingly, MHSC, which was a specified subsidiary of MHFG before the merger, ceased to be a specified subsidiary. Please refer to (MATTERS RELATED TO COMBINATION AND OTHERS) on page 1-30 for more information.

(2) Changes of Accounting Methods and Presentation of Consolidated Financial Statements
(Changes of Accounting Method)

Accounting Standard for Business Combinations and others

As Accounting Standard for Business Combinations (ASBJ Statement No.21, December 26, 2008), Accounting Standard for Consolidated Financial Statements (ASBJ Statement No.22, December 26, 2008), Partial amendments to Accounting Standard for Research and Development Costs (ASBJ Statement No.23, December 26, 2008), Revised Accounting Standard for Business Divestitures (ASBJ Statement No.7 (Revised 2008), December 26, 2008), Revised Accounting Standard for Equity Method of Accounting for Investments (ASBJ Statement No.16 (Revised 2008), released on December 26, 2008), and Revised Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures (ASBJ Guidance No.10 (Revised 2008), December 26, 2008) can be applied for the first business combination and business divestitures conducted in the fiscal year beginning on or after April 1, 2009, MHFG has applied these accounting standards and others beginning with this interim period.

(Changes in Presentation of Financial Statements)

Consolidated Balance Sheet

During this interim period, the points for the future use of Mizuho Mileage Club were abolished and the unused balance of points was cleared. In consequence, the total amount of the Reserve for Frequent Users Services provided for Mizuho Mileage Club was liquidated. As a result, the amount of the Reserve for Frequent Users Services is now immaterial, and beginning with this interim period, the Reserve for Frequent Users Services is now included in Other Liabilities.

The Reserve for Frequent Users Services included in Other Liabilities as of September 30, 2009 amounted to ¥1,321 million.

Consolidated Statement of Income

As Cabinet Office Ordinance Partially Revising Regulation on Terminology, Forms and Preparation of Financial Statements (Cabinet Office Ordinance No.5, March 24, 2009) can be applied from the beginning of the fiscal year which begins on or after April 1, 2009 based on Accounting Standard for Consolidated Financial Statements (ASBJ Statement No.22, December 26, 2008), MHFG has presented Income before

Minority Interests beginning with this interim period.

I. Standards of Accounting Method

1. Trading Assets & Liabilities and Trading Income & Expenses

Trading transactions intended to take advantage of short-term fluctuations and arbitrage opportunities in interest rates, currency exchange rates, market prices of securities and related indices are recognized on a trade date basis and recorded in Trading Assets or Trading Liabilities on the consolidated balance sheet. Income or expenses generated on the relevant trading transactions are recorded in Trading Income or Trading Expenses on the consolidated statement of income.

Securities and other monetary claims held for trading purposes are stated at fair value at the consolidated balance sheet date. Derivative financial products, such as swaps, futures and option transactions, are stated at fair value, assuming that such transactions are terminated and settled at the consolidated balance sheet date.

Trading Income and Trading Expenses include the interest received and the interest paid during the interim period, the gains or losses resulting from any change in the value of securities and other monetary claims between the beginning and the end of the interim period, and the gains or losses resulting from any change in the value of financial derivatives between the beginning and the end of the interim period, assuming they were settled at the end of the interim period.

2. Securities

(i) Bonds held to maturity are stated at amortized cost (straight-line method) and determined by the moving average method. Investments in non-consolidated subsidiaries and affiliates, which are not under the equity method, are stated at acquisition cost and determined by the moving average method. Other Securities which have readily determinable fair value are stated at fair value. Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date. Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date (cost of securities sold is calculated primarily by the moving average method). Other Securities which do not have readily determinable fair value are stated at acquisition cost or amortized cost and determined by the moving average method.

The net unrealized gains on Other Securities are included directly in Net Assets, net of applicable income taxes after excluding gains and losses as a result of the fair-value hedge method.

(ii) Securities which are held as trust assets in Money Held in Trust accounts are valued in the same way as given in (i) above.

3. Derivative Transactions

Derivative transactions (other than transactions for trading purposes) are valued at fair value.

4. Depreciation

(1) Tangible Fixed Assets (Except for Lease Assets)

Depreciation of buildings is computed mainly by the straight-line method, and that of others is computed mainly by the declining-balance method. The depreciation cost for the period is recorded by the proportional distribution of the estimated annual depreciation costs by the length of the period. The range of useful lives is as follows:

Buildings: 3 years to 50 years
Others: 2 years to 20 years

(2) Intangible Fixed Assets (Except for Lease Assets)

Amortization of Intangible Fixed Assets is computed by the straight-line method. Development costs for internally-used software are capitalized and amortized over their estimated useful lives of mainly five years as determined by MHFG and consolidated subsidiaries.

(3) Lease Assets

Depreciation of lease assets booked in Tangible Fixed Assets and Intangible Fixed Assets which are concerned with finance lease transactions that do not transfer ownership is mainly computed by the same method as the one applied to fixed assets owned by us.

5. Deferred Assets

(1) Stock issuance costs

Stock issuance costs are expensed as incurred.

(2) Bond issuance costs

Bond issuance costs are expensed as incurred.

(3) Debenture issuance costs

Debenture issuance costs are expensed as incurred.

(4) Bond discounts

Bonds are stated at amortized cost computed by the straight-line method on the consolidated balance sheets.

Bond discounts booked on the consolidated balance sheet as of March 31, 2006 are amortized under the straight-line method over the term of the bond by applying the previous accounting method and the unamortized balance is directly deducted from bonds, based on the tentative measure stipulated in the Tentative Solution on Accounting for Deferred Assets (ASBJ Report No. 19, August 11, 2006).

6. Reserves for Possible Losses on Loans

Reserves for Possible Losses on Loans of major domestic consolidated subsidiaries are maintained in accordance with internally established standards for write-offs and reserve provisions.

For claims extended to obligors that are legally bankrupt under the Bankruptcy Law, Special Liquidation under the Company Law or other similar laws (Bankrupt Obligors), and to obligors that are effectively in similar conditions (Substantially Bankrupt Obligors), reserves are maintained at the amounts of claims net of direct write-offs described below and expected amounts recoverable from the disposition of collateral and the amounts recoverable under guarantees. For claims extended to obligors that are not yet legally or formally bankrupt but are likely to be bankrupt (Intensive Control Obligors), reserves are maintained at the amounts deemed necessary based on overall solvency analyses of the amounts of claims net of expected amounts recoverable from the disposition of collateral and the amounts recoverable under guarantees.

For claims extended to Intensive Control Obligors and Obligors with Restructured Loans and others, if the exposure to an obligor exceeds a certain specific amount, reserves are provided as follows: (i) if future cash flows of the principal and interest can be reasonably estimated, the discounted cash flow method is applied, under which the reserve is determined as the difference between the book value of the loan and its present value of future cash flows discounted using the contractual interest rate before the loan was classified as a Restructured Loan, and (ii) if future cash flows of the principal and interest cannot be reasonably estimated, reserves are provided for the losses estimated for each individual loan. For claims extended to other obligors, reserves are maintained at rates derived from historical credit loss experience and other factors. Reserve for Possible Losses on Loans to Restructuring Countries is maintained in order to cover possible losses based on analyses of the political and economic climates of the countries.

All claims are assessed by each claim origination department in accordance with the internally established Self-assessment Standard, and the results of the assessments are verified and examined by the independent examination departments. Reserves for Possible Losses on Loans are provided for on the basis of such verified assessments.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

In the case of claims to Bankrupt Obligors and Substantially Bankrupt Obligors, which are collateralized or guaranteed by a third party, the amounts deemed uncollectible (calculated by deducting the anticipated proceeds from the sale of collateral pledged against the claims and amounts that are expected to be recovered from guarantors of the claims) are written off against the respective claims balances. The total directly written-off amount was ¥577,944 million.

The claims above include corporate bonds which are issued by private placement (Article 2, Paragraph 3 of the Financial Instruments and Exchange Law) and others.

Other consolidated subsidiaries provide the amount necessary to cover the loan losses based upon past experience and other factors for general claims and the assessment for each individual loan for other claims.

7. Reserve for Possible Losses on Investments

Reserve for Possible Losses on Investments is maintained to provide against possible losses on investments in securities, after taking into consideration the financial condition and other factors concerning the investee company.

Except for securitization products which are included as reference assets of another securitization schemes of the Group's domestic banking subsidiary, Reserve for Possible Losses on Investments is provided against unrealized losses on securitization products related with the discontinuation of business regarding credit investments primarily in Europe which were made as an alternative to loans by the Group's domestic banking subsidiary. Since securities are recognized at fair value on the consolidated balance sheet, the balance of Securities is offset against that of Reserve for Possible Losses on Investments by ¥23,103 million.

8. Reserve for Bonus Payments

Reserve for Bonus Payments, which is provided for future bonus payments to employees, is maintained at the amount accrued at the end of the interim period, based on the estimated future payments.

9. Reserve for Employee Retirement Benefits

Reserve for Employee Retirement Benefits (including Prepaid Pension Cost), which is provided for future benefit payments to employees, is recorded as the required amount, based on the projected benefit obligation and the estimated plan asset amounts at the end of the interim period. Unrecognized actuarial differences are recognized as income or expenses from the following fiscal year under the straight-line method over a certain term within the average remaining service period of the employees of the respective fiscal year.

10. Reserve for Director and Corporate Auditor Retirement Benefits

Reserve for Director and Corporate Auditor Retirement Benefits, which is provided for future retirement benefit payments to directors, corporate auditors, and executive officers, is recognized at the amount accrued at the end of the interim period, based on the internally established standards.

11. Reserve for Possible Losses on Sales of Loans

Reserve for Possible Losses on Sales of Loans is provided for possible future losses on sales of loans at the amount deemed necessary based on a reasonable estimate of possible future losses.

12. Reserve for Contingencies

Reserve for Contingencies is maintained to provide against possible losses from contingencies, which are not covered by other specific reserves in off-balance transactions, trust transactions and others. The balance is an estimate of possible future losses, on an individual basis, considered to require a reserve.

13. Reserve for Reimbursement of Deposits

Reserve for Reimbursement of Deposits is provided against the losses for the deposits derecognized from the liabilities at the estimated amount of future claims for withdrawal to provide for claims by depositors and others.

14. Reserve for Reimbursement of Debentures

Reserve for Reimbursement of Debentures is provided for the debentures derecognized from Liabilities at the estimated amount for future claims.

15. Reserve under Special Laws

Reserve under Special Laws is Reserve for Contingent Liabilities from Financial Instruments and Exchange. This is the reserve pursuant to Article 46-5, Paragraph 1 and Article 48-3, Paragraph 1 of the Financial Instruments and Exchange Law to indemnify the losses incurred from accidents in the purchase and sale of securities, other transactions or derivative transactions.

16. Assets and Liabilities denominated in foreign currencies

Assets and Liabilities denominated in foreign currencies and accounts of overseas branches of domestic consolidated banking subsidiaries and a domestic consolidated trust banking subsidiary are translated into Japanese yen primarily at the exchange rates in effect at the consolidated balance sheet date, with the exception of the investments in non-consolidated subsidiaries and affiliates not under the equity method, which are translated at historical exchange rates.

Assets and Liabilities denominated in foreign currencies of the consolidated subsidiaries, except for the transactions mentioned above, are translated into Japanese yen primarily at the exchange rates in effect at the respective balance sheet dates.

17. Hedge Accounting

(1) Interest Rate Risk

The deferred method, the fair-value hedge method or the exceptional accrual method for interest rate swaps are applied as hedge accounting methods.

The portfolio hedge transaction for a large volume of small-value monetary claims and liabilities of domestic consolidated banking subsidiaries and domestic consolidated trust banking subsidiaries is accounted for in accordance with the method stipulated in the Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Financial Instruments for Banks (JICPA Industry Audit Committee Report No.24).

The effectiveness of hedging activities for the portfolio hedge transaction for a large volume of small-value monetary claims and liabilities is assessed as follows:

- (i) as for hedging activities to offset market fluctuation risks, the effectiveness is assessed by bracketing both the hedged instruments, such as deposits and loans, and the hedging instruments, such as interest-rate swaps, in the same maturity bucket.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

- (ii) as for hedging activities to fix the cash flows, the effectiveness is assessed based on the correlation between a base interest rate index of the hedged instrument and that of the hedging instrument.

The effectiveness of the individual hedge is assessed based on the comparison of the fluctuation in the market or of cash flows of the hedged instruments with that of the hedging instruments.

Among Net Deferred Hedge Losses, net of Taxes recorded on the consolidated balance sheet, those deferred hedge losses are included that resulted from the application of the macro-hedge method based on the Tentative Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Financial Instruments for Banks (JICPA Industry Audit Committee Report No.15), under which the overall interest rate risks inherent in loans, deposits and others are controlled on a macro-basis using derivatives transactions. The deferred hedge gains/losses are amortized as interest income or interest expenses over the remaining maturity and average remaining maturity of the respective hedging instruments. The unamortized amounts of gross deferred hedge losses and gross deferred hedge gains on the macro-hedges, before net of applicable income taxes were ¥60,101 million and ¥55,987 million, respectively.

(2) Foreign Exchange Risk

Domestic consolidated banking subsidiaries and some of domestic consolidated trust banking subsidiaries apply the deferred method of hedge accounting to hedge foreign exchange risks associated with various financial assets and liabilities denominated in foreign currencies as stipulated in the Accounting and Auditing Treatment relating to Adoption of Accounting Standards for Foreign Currency Transactions for Banks (JICPA Industry Audit Committee Report No.25). The effectiveness of the hedge is assessed by confirming that the amount of the foreign currency position of the hedged monetary claims and liabilities is equal to or larger than that of currency-swap transactions, exchange swap transactions, and similar transactions designated as the hedging instruments of the foreign exchange risk.

In addition to the above methods, these subsidiaries apply the deferred method or the fair-value hedge method to portfolio hedges of the foreign exchange risks associated with investments in subsidiaries and affiliates in foreign currency and Other Securities in foreign currency (except for bonds) identified as hedged items in advance, as long as the amount of foreign currency payables of spot and forward foreign exchange contracts exceeds the amount of acquisition cost of the hedged foreign securities in foreign currency.

(3) Inter-company Transactions

Inter-company interest rate swaps, currency swaps and similar derivatives among consolidated companies or between trading accounts and other accounts, which are designated as hedges, are not eliminated and related gains and losses are recognized in the statement of income or deferred under hedge accounting, because these inter-company derivatives are executed according to the criteria for appropriate outside third-party cover operations which are treated as hedge transactions objectively in accordance with JICPA Industry Audit Committee Reports Nos. 24 and 25.

18. Consumption Taxes and other

With respect to MHFG and its domestic consolidated subsidiaries, Japanese consumption taxes and local consumption taxes are excluded from transaction amounts.

II. Scope of Cash and Cash Equivalents on Consolidated Statements of Cash Flows

For the purpose of the consolidated statement of cash flows, Cash and Cash Equivalents consists of cash and due from central banks included in Cash and Due from Banks on the consolidated balance sheet.

III. Changes of Fundamental and Important Matters for the Preparation of Interim Consolidated Financial Statements (Changes of Accounting Method)

Accounting Standard for Business Combinations and others

As Accounting Standard for Business Combinations (ASBJ Statement No.21, December 26, 2008), Accounting Standard for Consolidated Financial Statements (ASBJ Statement No.22, December 26, 2008), Partial amendments to Accounting Standard for Research and Development Costs (ASBJ Statement No.23, December 26, 2008), Revised Accounting Standard for Business Divestitures (ASBJ Statement No.7 (Revised 2008), December 26, 2008), Revised Accounting Standard for Equity Method of Accounting for Investments (ASBJ Statement No.16 (Revised 2008), released on December 26, 2008), and Revised Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures (ASBJ Guidance No.10 (Revised 2008), December 26, 2008) can be applied for the first business combination and business divestitures conducted in the fiscal year beginning on or after April 1, 2009, MHFG has applied these accounting standards and others beginning with this interim period.

(Changes in Presentation of Financial Statements)

Consolidated Balance Sheet

During this interim period, the points for the future use of Mizuho Mileage Club were abolished and the unused balance of points was cleared. In consequence, the total amount of the Reserve for Frequent Users Services provided for Mizuho Mileage Club was liquidated. As a result the amount of the Reserve for Frequent Users Services is now immaterial, and beginning with this interim period, the Reserve for Frequent Users Services is now included in Other Liabilities.

The Reserve for Frequent Users Services included in Other Liabilities as of September 30, 2009 amounted to ¥1,321 million.

Consolidated Statement of Income

As Cabinet Office Ordinance Partially Revising Regulation on Terminology, Forms and Preparation of Financial Statements (Cabinet Office Ordinance No.5, March 24, 2009) can be applied from the beginning of the fiscal year which begins on or after April 1, 2009 based on Accounting Standard for Consolidated Financial Statements (ASBJ Statement No.22, December 26, 2008), MHFG has presented Income before Minority Interests beginning with this interim period.

Additional Information

(Issuance of New Shares by the Spread Method)

The spread method is adopted for the issuance of new shares (2,804,400 thousand shares) with a payment date of July 23, 2009. This is a method where the new shares are underwritten and purchased by the underwriters at the amount to be paid to MHFG (¥176.40 per share), and sold to the investors at an issue price (¥184.00 per share) different from the amount to be paid to MHFG.

Using the spread method, the aggregate amount of the difference between (a) the issue price and (b) the amount to be paid to MHFG is retained by the underwriters, and allocated to each of the underwriters as underwriting fees. Accordingly, Other Ordinary Expenses does not include the amount equivalent to such underwriting fees of ¥21,313 million related to the issuance.

The amount equivalent to such underwriting fees of ¥7,129 million, recognized as profit by consolidated subsidiaries, is eliminated and recorded as an increase in Capital Surplus.

(NOTES TO CONSOLIDATED BALANCE SHEET)

1. Securities include shares of ¥53,096 million and investments of ¥421 million in non-consolidated subsidiaries and affiliates.
2. Unsecured loaned securities which the borrowers have the right to sell or repledge amounted to ¥4,397 million and are included in trading securities under Trading Assets. MHFG has the right to sell or repledge some of unsecured borrowed securities, securities purchased under resale agreements and securities borrowed with cash collateral. Among them, the total of securities repledged was ¥9,737,810 million, securities neither repledged nor re-loaned was ¥2,235,181 million, respectively.

3. Loans and Bills Discounted include Loans to Bankrupt Obligor of ¥102,033 million and Non-Accrual Delinquent Loans of ¥834,926 million.

Loans to Bankrupt Obligor are loans, excluding loans written-off, on which delinquencies in payment of principal and/or interest have continued for a significant period of time or for some other reason there is no prospect of collecting principal and/or interest (Non-Accrual Loans), as per Article 96, Paragraph 1, Item 3, Subsections 1 to 5 or Item 4 of the Corporate Tax Law Enforcement Ordinance (Government Ordinance No. 97, 1965).

Non-Accrual Delinquent Loans represent Non-Accrual Loans other than (i) Loans to Bankrupt Obligor and (ii) loans on which interest payments have been deferred in order to assist or facilitate the restructuring of the obligors.

4. Balance of Loans Past Due for Three Months or More: ¥18,373 million

Loans Past Due for Three Months or More are loans on which payments of principal and/or interest have not been made for a period of three months or more since the next day following the last due date for such payments, and which are not included in Loans to Bankrupt Obligor, or Non-Accrual Delinquent Loans.

5. Balance of Restructured Loans: ¥428,664 million

Restructured Loans represent loans of which contracts were amended in favor of obligors (e.g. reduction of, or exemption from, stated interest, deferral of interest payments, extension of maturity dates and renunciation of claims) in order to assist or facilitate the restructuring of the obligors. Loans to Bankrupt Obligor, Non-Accrual Delinquent Loans and Loans Past Due for Three Months or More are not included.

6. Total balance of Loans to Bankrupt Obligor, Non-Accrual Delinquent Loans, Loans Past Due for Three Months or More, and Restructured Loans: ¥1,383,997 million

The amounts given in Notes 3 through 6 above are gross amounts before deduction of amounts for the Reserves for Possible Losses on Loans.

7. In accordance with JICPA Industry Audit Committee Report No. 24, bills discounted are accounted for as financing transactions. The banking subsidiaries have rights to sell or pledge these bankers' acceptances, commercial bills, documentary bills and foreign exchange bills purchased. The face value of these bills amounted to ¥521,712 million.

8. The following assets were pledged as collateral:

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

Trading Assets:	¥ 7,886,916 million
Securities:	¥ 12,493,801 million
Loans and Bills Discounted:	¥ 9,233,276 million
Other Assets:	¥ 1,124 million
Tangible Fixed Assets:	¥ 250 million

The following liabilities were collateralized by the above assets:

Deposits:	¥ 722,682 million
Call Money and Bills Sold:	¥ 2,615,300 million
Payables under Repurchase Agreements:	¥ 6,077,936 million
Guarantee Deposits Received under Securities Lending Transactions:	¥ 5,448,010 million
Borrowed Money:	¥ 7,848,690 million

In addition to the above, the settlement accounts of foreign and domestic exchange transactions or derivatives transactions and others were collateralized, and margins for futures transactions were substituted by Cash and Due from Banks of ¥20,623 million, Trading Assets of ¥391,203 million, Securities of ¥2,543,457 million and Loans and Bills Discounted of ¥18,042 million.

None of the assets was pledged as collateral in connection with borrowings by the non-consolidated subsidiaries and affiliates.

Other Assets includes guarantee deposits of ¥117,359 million, collateral pledged for derivatives transactions of ¥1,022,560 million, margins for futures transactions of ¥50,673 million and other guarantee deposits of ¥34,603 million.

Rediscount of bills is conducted as financial transaction based on the JICPA Industry Audit Committee Report No. 24. The face value of bankers' acceptances, commercial bills, documentary bills and foreign exchange bills purchased is ¥57 million.

9. Overdraft protection on current accounts and contracts of the commitment line for loans are contracts by which banking subsidiaries are bound to extend loans up to the prearranged amount, at the request of customers, unless the customer is in breach of contract conditions. The unutilized balance of these contracts amounted to ¥54,405,388 million. Of this amount, ¥47,234,097 million relates to contracts of which the original contractual maturity is one year or less, or which are unconditionally cancelable at any time. Since many of these contracts expire without being exercised, the unutilized balance itself does not necessarily affect future cash flows. A provision is included in many of these contracts that entitles the banking subsidiaries to refuse the execution of loans, or reduce the maximum amount under contracts when there is a change in the financial situation, necessity to preserve a claim or other similar reasons. The banking subsidiaries require collateral such as real estate and securities when deemed necessary at the time the contract is entered into. In addition, they periodically monitor customers' business conditions in accordance with internally established standards and take necessary measures to manage credit risks such as amendments to contracts.
10. In accordance with the Land Revaluation Law (Proclamation No. 34 dated March 31, 1998), land used for business operations of domestic consolidated banking subsidiaries was revalued. The applicable income taxes on the entire excess of revaluation are included in Deferred Tax Liabilities for Revaluation Reserve for Land under Liabilities, and the remainder, net of applicable income taxes, is stated as Revaluation Reserve for Land, net of Taxes included in Net Assets.
Revaluation date: March 31, 1998
- Revaluation method as stated in Article 3, Paragraph 3 of the above law: Land used for business operations was revalued by calculating the value on the basis of the valuation by road rating stipulated in Article 2, Paragraph 4 of the Enforcement Ordinance relating to the Land Revaluation Law (Government Ordinance No. 119 promulgated on March 31, 1998) with reasonable adjustments to compensate for sites with long depth and other factors, and also on the basis of the appraisal valuation stipulated in Paragraph 5.
11. Accumulated Depreciation of Tangible Fixed Assets amounted to ¥777,513 million.
12. Borrowed Money includes subordinated borrowed money of ¥665,353 million with a covenant that performance of the obligation is subordinated to that of other obligations.
13. Bonds and Notes includes subordinated bonds of ¥2,149,057 million.
14. The principal amounts of money trusts and loan trusts with contracts indemnifying the principal amounts, which are entrusted to domestic consolidated trust banking subsidiaries, are ¥921,505 million and ¥37,199 million, respectively.
15. Liabilities for guarantees on corporate bonds included in Securities, which were issued by private placement (Article 2, Paragraph 3 of the Financial Instruments and Exchange Law) amounted to ¥1,202,961 million.
16. Net Assets per share of common stock: ¥175.05

(NOTES TO CONSOLIDATED STATEMENT OF INCOME)

1. Other Ordinary Income includes gains on sales of stocks of ¥72,732 million.
2. Other Ordinary Expenses includes provision for reserves for possible losses on loans of ¥114,081 million, expenses of ¥76,833 million related to credit risk mitigation transactions, and losses on write-offs of loans of ¥69,568 million.
3. Extraordinary Gains includes negative goodwill incurred profits of ¥67,916 million associated with the merger of the securities subsidiary and gains on recovery of written-off claims of ¥28,997 million.
4. Extraordinary Losses includes losses on change in equity position associated with the merger of the securities subsidiary of ¥34,408 million and losses related to step acquisition of ¥13,670 million.
5. Net Income per share of common stock for the interim period: ¥6.89

- *1. Net Unrealized Gains include ¥46,346 million, which was recognized in the consolidated statement of income by applying the fair-value hedge method and others.
- *2. Fair value of Japanese stocks is determined based on the average quoted market price over the month preceding the consolidated balance sheet date. Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.
- *3. Certain Other Securities which have readily determinable fair value are devalued to the fair value, and the difference between the acquisition cost and the fair value is treated as the loss for the interim period (impairment (devaluation)), if the fair value (primarily the closing market price at the consolidated balance sheet date) has significantly deteriorated compared with the acquisition cost (including amortized cost), and unless it is deemed that there is a possibility of a recovery in the fair value. The amount of impairment (devaluation) for the interim period was ¥10,899 million.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

The criteria for determining whether a security's fair value has significantly deteriorated are outlined as follows:

Securities whose fair value is 50% or less of the acquisition cost

Securities whose fair value exceeds 50% but is 70% or less of the acquisition cost and the quoted market price maintains a certain level or lower.

(Additional Information)

1. Floating-rate Japanese Government Bonds

For Floating-rate Japanese Government Bonds within Securities, based on our determination that current market prices may not reflect fair value due to the extremely limited volume of actual transactions, domestic consolidated banking subsidiaries and some of trust banking subsidiaries have applied reasonably calculated prices as book value for the interim period.

As a result, compared to applying market price as book value, Securities increased by ¥91,888 million, Deferred Tax Assets decreased by ¥16,549 million, Net Unrealized Gains on Other Securities, net of Taxes increased by ¥71,964 million and Minority Interests increased by ¥3,374 million.

In deriving the reasonably calculated price, we used the Discounted Cash Flow Method as well as other methods. The price decision variables include the yield of 10-year Japanese Government Bonds and the volatilities of interest rate swap options for 10-year Japanese Government Bonds as underlying assets.

2. Securitization Products

With respect to the credit investments in securitization products made as an alternative to loans by the European, North American, and other offices of domestic consolidated banking subsidiaries, given the current situation in which the volume of actual transactions is extremely limited and there exists a considerable gap between the offers and bids of sellers and buyers, we determined that valuations obtained from brokers and information vendors cannot be deemed to be the fair value, and we applied reasonably calculated prices based on the reasonable estimates of our management as fair value.

As a result, compared to applying valuations obtained from brokers and information vendors as fair value, Securities increased by ¥132,779 million, Deferred Tax Assets decreased by ¥422 million, Net Unrealized Gains (Losses) on Other Securities, net of Taxes increased by ¥7,821 million and Ordinary Profits increased by ¥15,107 million.

The book value that was reasonably calculated based on the reasonable estimates of our management mentioned above is ¥521,056 million. In deriving reasonably calculated prices based on the reasonable estimates of our management mentioned above, we used the Discounted Cash Flow Method. The price decision variables include default rates, recovery rates, pre-payment rates and discount rates, and the subject Securities included Residential Mortgage-Backed Securities, Collateralized Loan Obligations, Commercial Mortgage-Backed Securities and other Asset Backed Securities.

3. Major components of securities not stated at fair value and their amount on the consolidated balance sheet:

SUMMARY OF FINANCIAL RESULTS

For the Second Quarter (First Half) of Fiscal 2009

(Six months ended September 30, 2009)

<under Japanese GAAP>

Summary Results for the Second Quarter (First Half) of Fiscal 2009

I. Summary of Income Analysis

Consolidated Net Business Profits

Consolidated Gross Profits for the first half of fiscal 2009 increased by JPY 87.8 billion on a year-on-year basis to JPY 1,005.1 billion.

Gross Profits of the banking subsidiaries amounted to JPY 790.6 billion, due to an increase in income derived from flexible and timely operations in the Trading segment and other factors partly offset by a decrease in income from Customer Groups mainly due to a decline in deposit income reflecting the drop in market interest rates. G&A expenses decreased by JPY 4.2 billion on a year-on-year basis to JPY 452.3 billion due to our overall cost reduction efforts, despite a year-on-year increase of JPY 18.6 billion in expenses associated with employee retirement benefits.

Aggregated consolidated Gross Profits (Net Operating Revenues) of our two securities subsidiaries (Mizuho Securities* and Mizuho Investors Securities) increased by JPY 103.4 billion on a year-on-year basis to JPY 168.6 billion, mainly due to, in addition to an increase in commission income, the effect of the merger with Shinko Securities.

[* Our financial results for the first half of fiscal 2008 did not include the income of Shinko Securities (Net Operating Revenues of JPY 55.2 billion and Ordinary Profits of JPY 0.2 billion), since Shinko Securities was an affiliate under the equity method of our group at that time.]

As a result, Consolidated Net Business Profits amounted to JPY 359.5 billion, a year-on-year increase of JPY 42.0 billion.

Consolidated Net Income

Consolidated Net Income for the first half of fiscal 2009 amounted to JPY 87.8 billion, a year-on-year decrease of JPY 6.7 billion.

Consolidated Credit-related Costs amounted to JPY 161.7 billion, and Credit Cost Ratio of the 3 Banks was 32bps**, an improvement from 69bps for the full fiscal 2008.

** Credit-related Costs for the first half of fiscal 2009 x 2 / Total claims under the Financial Reconstruction Law as of September 30, 2009 (aggregated amount of banking account and trust account)

The total P&L impact on our group of the global financial market turmoil for the first half of fiscal 2009 was limited to a loss of approximately JPY 3.0 billion.

Net Gains related to Stocks amounted to JPY 20.2 billion as a consequence of recording Gains on Sales in our efforts to reduce our stock portfolio despite recording losses in the amount of JPY 29.0 billion on equity derivatives entered into for hedging purposes at the banking

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

subsidiaries.

As for credit derivatives transactions entered into for credit risk hedging purposes at the banking subsidiaries, we recognized valuation losses of JPY 76.8 billion related to such hedging transactions due to the improvement in the credit markets.

Net Extraordinary Gains on our consolidated basis in connection with the consummation of the merger between Mizuho Securities and Shinko Securities in May 2009 amounted to JPY 19.8 billion (negative goodwill incurred profits associated with the merger of these securities companies and other factors).

*2 Includes impact of a review of the calculation method for reserve for possible losses on loans guaranteed by our credit guarantee subsidiary (JPY 26.8 billion, eliminated on a consolidated basis)

Net Interest Income

The average loan balance for the first half of fiscal 2009 increased by JPY 0.9 trillion on a year-on-year basis, while it decreased by JPY 1.3 trillion compared with the second half of fiscal 2008 mainly due to a decrease of JPY 1.1 trillion in loans to Deposit Insurance Corporation of Japan and the Japanese Government.

The domestic loan-and-deposit rate margin for the same period increased by 0.15% at Mizuho Corporate Bank from that for the first half of fiscal 2008. Meanwhile, the aggregate figure of domestic operations decreased slightly by 0.03% from that for the first half of fiscal 2008, as shown on the graph below.

Net Interest Income on a consolidated basis for the first half of fiscal 2009 increased by JPY 57.6 billion on a year-on-year basis to JPY 581.0 billion, with an increase in Net Interest Income in the Trading segment.

*1 Aggregate average balance of the 3 Banks for the period, excluding Trust Account and loans to Mizuho Financial Group, Inc. Balance for overseas branches includes foreign exchange translation impact.

*2 Aggregate figures of domestic operations of Mizuho Bank and Mizuho Corporate Bank after excluding loans to Mizuho Financial Group, Inc., Deposit Insurance Corporation of Japan and the Japanese Government

Non-Interest Income

Net Fee and Commission Income of the 3 Banks for the first half of fiscal 2009 amounted to JPY 136.0 billion, a year-on-year decrease of JPY 10.3 billion. This was primarily due to, in a business environment where the impact of the financial market turmoil still remained on the real economy, a decrease in fee and commission income from solution-related business and overseas business with corporate customers as well as a decrease in profits from trust and asset management business of Mizuho Trust & Banking.

Meanwhile, as for our business with individual customers, fee income associated with sales of investment trusts and individual annuities for the first half of fiscal 2009 increased from that for the second half of fiscal 2008.

II. Financial Soundness

- With respect to our financial soundness, although our NPL Ratio increased by 0.24% from March 31, 2009, it remained at a low level of 2.01%.
- Unrealized Gains (Losses) on Other Securities improved by JPY 732.6 billion from March 31, 2009 to JPY 160.2 billion.
- Our Consolidated Capital Adequacy Ratio was 12.92%, an improvement of 2.37% from that as of March 31, 2009.
- The total balance of securitization products and details as of September 30, 2009 are shown on page 2-5.

*1 Prime Capital (Tier 1 Capital - preferred securities - preferred stock (excluding mandatory convertible preferred stock)) divided by Risk-weighted Assets

*2 The base amount to be recorded directly to Net Assets after tax and other necessary adjustments. For Floating-rate Japanese Government Bonds and the vast majority of foreign currency denominated securitization products, we applied reasonably calculated prices based on the reasonable estimates of our management as fair value.

III. Disciplined Capital Management

In light of factors including the recent financial market turmoil and global economic downturn, we have been putting more priority on strengthening of stable capital base in order to prepare for a further adverse business environment.

More specifically, our medium-term target is to increase our consolidated Tier 1 capital ratio to 8% level, and we aim to maintain our prime capital at a level of more than half of our Tier 1 capital. As of September 30, 2009, our consolidated Tier 1 capital ratio and our prime capital ratio were 8.71% and 5.37%, respectively.

- **Increase of our prime capital**

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

In the first half of fiscal 2009, we issued common stock (the number of shares issued: 3 billion shares, total amount paid: JPY 529.2 billion) for the purpose of increasing our prime capital. Our decision is aimed at, in light of the current uncertainty over the economy, securing a solid and sufficient capital buffer in preparation for a further adverse business environment and ensuring the flexibility to capture business opportunities leading to our future growth and to respond to customer needs.

- **Strengthening of our capital base through issuance of non-dilutive preferred securities**

We issued preferred debt securities amounted at JPY 139.5 billion in June 2009, JPY 72.5 billion in August 2009, and JPY 25.0 billion in September 2009 through our overseas special purpose subsidiary, so as to further increase our group's capital base in light of the recent financial market turmoil on top of securing the agility and improving the flexibility of our capital strategy.

Meanwhile, we made a full redemption of JPY 176.0 billion of preferred debt securities which became redeemable at the issuer's option in June 2009.

- **Conversion of mandatory convertible preferred stock into common stock**

During the first half of fiscal 2009, the number of shares of our common stock increased by 1,002 million through requests for conversion of 317 million shares (JPY 317.6 billion) of Eleventh Series Class XI Preferred Stock. The outstanding balance of such preferred stock as of September 30, 2009 was JPY 594.2 billion.

We continue to pursue disciplined capital management, optimally balancing strengthening of stable capital base and steady returns to shareholders in accordance with changes in the business environment, our financial condition or other factors, and in light of on-going global discussions on capital.

Earnings Estimates for Fiscal 2009

(Figures below are on a consolidated basis)

- We estimate Consolidated Net Business Profits for fiscal 2009 to be JPY 720.0 billion, an increase of JPY 97.3 billion compared with the previous fiscal year, unchanged from the original estimate.

This is because, while taking into account the first half results in which the Trading segment showed a strong performance, we plan to further strengthen the profitability primarily in Customer Groups of the banking subsidiaries mainly by increasing loan interest income and through enhancing further the group synergies, and we assume our securities subsidiaries and others will improve their profitability.

- We estimate Credit-related Costs and Net Gains related to Stocks to be JPY -330.0 billion and JPY 50.0 billion, respectively.
- We estimate Ordinary Profits to be JPY 300.0 billion (a decrease of JPY 30.0 billion compared with the original estimate), taking into account factors in the first half including the valuation losses recognized on derivatives transactions entered into for hedging purposes.
- Based on the above, we estimate Consolidated Net Income to be JPY 200.0 billion, unchanged from the original estimate.
- While we anticipate a severe business environment, we plan to make cash dividend payments of JPY 8 per share of common stock for the fiscal year ending March 31, 2010, also from the standpoint of providing stable dividend payments, and plan to make dividend payments on preferred stock as prescribed (both unchanged from the original estimates).

The balance of reserve was approx. JPY 23 billion as of Sep. 30, 2009. Since securities were recognized at fair value on the consolidated balance sheet, the relevant balances as of Mar. 31, 2009 and Sep. 30, 2009 were those after being offset by the amount of Reserve for Possible Losses on Investments.

• **Loans Held for Sale (for which Reserve for Possible Losses on Sales of Loans was recorded)**

Approximately JPY 28 billion of Reserve for Possible Losses on Sales of Loans was recorded against approximately JPY 98 billion of Loans Held for Sale associated with overseas LBO and other transactions (Reserve ratio: 28.1%)

(Note) The figures shown above exclude those related to Intensive Control Obligors or below. The reserve ratio would be 34.3%, if including the balances of Loans Held for Sale to such obligors and the amounts of both Reserves for Possible Losses on Loans and Reserve for Contingencies in relation to the relevant balances.

Out of the above-mentioned JPY 98 billion, the LBO/MBO related Loans Held for Sale amounted to approximately JPY 85 billion, and the relevant reserve ratio was 29.6%.

(Note) The figures shown above exclude those related to Intensive Control Obligors or below. The reserve ratio would be 35.9%, if including the balances of Loans Held for Sale to such obligors and the amounts of both Reserves for Possible Losses on Loans and Reserve for Contingencies in relation to the relevant balances.

• **Overseas ABCP program-related**

The total assets of approximately JPY 84 billion acquired by overseas ABCP conduits, for which Mizuho Corporate Bank acted as a sponsor, included approximately JPY 33 billion of securitization products that were backed by credit card receivables and account receivables. No US subprime mortgage loan-related assets were included.

The balance of securitization products acquired by the aforementioned overseas ABCP conduits decreased by approximately JPY 49 billion from that as of Mar. 31, 2009 primarily due to redemptions at maturities.

• **Securitization products and loans guaranteed by US financial guarantors (monolines)**

Securitization products guaranteed by US monolines

Nil (Approximately JPY 4 billion of securitization products held by Mizuho Corporate Bank, which were backed by auto lease receivables, were sold in the second quarter of FY 2009. Gains on sales: approximately JPY 2 billion.)

Loans guaranteed by US monolines

Approximately JPY 15 billion of Mizuho Corporate Bank's loan commitments to overseas infrastructure projects (of which approximately JPY 7 billion was drawn down). No US subprime mortgage loan-related exposures were included.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

There were no particular concerns about the credit conditions of the aforementioned projects as of Sep. 30, 2009.

- **Loans to mortgage lenders in US (working capital, etc.)**

Approximately JPY 28 billion (approximately 20% of the lenders concerned had external ratings in the A range *1, and the rest had ratings in the BB range *1)

*1: Based on the lowest external ratings as of Sep. 30, 2009.

This immediate release contains statements that constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995, including estimates, forecasts, targets and plans. Such forward-looking statements do not represent any guarantee by management of future performance.

In many cases, but not all, we use such words as aim, anticipate, believe, endeavor, estimate, expect, intend, may, plan, probability, project, risk, seek, should, strive, target and similar expressions in relation to us or our management to identify forward-looking statements. You can also identify forward-looking statements by discussions of strategy, plans or intentions. These statements reflect our current views with respect to future events and are subject to risks, uncertainties and assumptions.

We may not be successful in implementing our business strategies, and management may fail to achieve its targets, for a wide range of possible reasons, including, without limitation, incurrence of significant credit-related costs; declines in the value of our securities portfolio, including as a result of the impact of the dislocation in the global financial markets; changes in interest rates; foreign currency fluctuations; decrease in the market liquidity of our assets; revised assumptions or other changes related to our pension plans; a decline in our deferred tax assets; the effect of financial transactions entered into for hedging and other similar purposes; failure to maintain required capital adequacy ratio levels; downgrades in our credit ratings; the effect of changes in general economic conditions in Japan and elsewhere; our ability to avoid reputational harm; and the effectiveness of our operational, legal and other risk management policies.

Further information regarding factors that could affect our financial condition and results of operations is included in Item 3.D. Key Information-Risk Factors, and Item 5. Operating and Financial Review and Prospects in our most recent annual report on Form 20-F filed with the U.S. Securities and Exchange Commission (SEC), which is available in the Financial Information section of our web page at www.mizuho-fg.co.jp/english/ and also at the SEC's web site at www.sec.gov.

We do not intend to update our forward-looking statements. We are under no obligation, and disclaim any obligation, to update or alter our forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by the rules of the Tokyo Stock Exchange.

* In addition to Securities on the consolidated balance sheets, NCDs in Cash and Due from Banks, certain items in Other Debt Purchased and certain items in Other Assets are also included.

* Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date.

Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.

* The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the consolidated balance sheets and the acquisition costs.

* Unrealized Gains/Losses include ¥46,346 million, ¥62,770 million and ¥50,163 million, which were recognized in the statement of income for September 30, 2009, March 31, 2009 and September 30, 2008, respectively, by applying the fair-value hedge method and others.

As a result, the base amounts to be recorded directly to Net Assets after tax and consolidation adjustments as of September 30, 2009, March 31, 2009 and September 30, 2008 are ¥160,210 million, ¥(572,395) million and ¥125,560 million, respectively.

* Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax and consolidation adjustments, excluding the amount recognized in the statement of income by applying the fair-value hedge method and others, including translation differences regarding securities which do not have readily determinable fair value) as of September 30, 2009, March 31, 2009 and September 30, 2008 are ¥116,406 million, ¥(519,574) million and ¥48,718 million, respectively.

* In addition to Securities indicated on the balance sheets, NCDs in Cash and Due from Banks and certain items in Other Debt Purchased are also included.

* Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the balance sheet date.

Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the balance sheet date.

* The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the balance sheets and the acquisition costs.

* Unrealized Gains/Losses include ¥70,781 million, ¥91,450 million and ¥68,604 million, which were recognized in the statement of income for September 30, 2009, March 31, 2009 and September 30, 2008, respectively, by applying the fair-value hedge method and others.

As a result, the base amounts to be recorded directly to Net Assets after tax adjustment as of September 30, 2009, March 31, 2009 and September 30, 2008 are ¥128,981 million, ¥(597,965) million and ¥54,261 million, respectively.

Unrealized Gains/Losses on Other Securities

(the base amount to be recorded directly to Net Assets after tax and other necessary adjustments)

For certain Other Securities (which have readily determinable fair value), Unrealized Gains/Losses were recognized in the statement of income by applying the fair-value hedge method and others. They were excluded from Unrealized Gains (Losses) on Other Securities. These adjusted Unrealized Gains/Losses were the base amount, which was to be recorded directly to Net Assets after tax and other necessary adjustments. The base amount was as follows:
