MASTERCARD INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1. Summary of Significant Accounting Policies

Organization

MasterCard Incorporated and its consolidated subsidiaries, including MasterCard International Incorporated (MasterCard International) and MasterCard Europe sprl (MasterCard Europe) (together, MasterCard or the Company), provide payment solutions, including transaction processing and related services to customers principally in support of their credit, deposit access (debit), electronic cash and Automated Teller Machine (ATM) payment card programs, and travelers cheque programs. Our financial institution customers are generally either principal members (principal members) of MasterCard International, which participate directly in MasterCard International s business, or affiliate members of MasterCard International, which participate indirectly in MasterCard International s business through a principal member.

Consolidation and basis of presentation

The consolidated financial statements include the accounts of MasterCard and its majority-owned and controlled entities. The Company also evaluates its interests in variable interest entities, as applicable, to determine whether consolidation is required. Intercompany transactions and balances have been eliminated in consolidation. Certain prior period amounts have been reclassified to conform to the 2010 presentation. The Company follows accounting principles generally accepted in the United States of America (GAAP).

The balance sheet as of December 31, 2009 was derived from the audited consolidated financial statements as of December 31, 2009. The consolidated financial statements for the three and six months ended June 30, 2010 and 2009 and as of June 30, 2010 are unaudited, and in the opinion of management, include all normal recurring adjustments that are necessary to present fairly the results for interim periods. Due to seasonal fluctuations and other factors, the results of operations for the three and six months ended June 30, 2010 are not necessarily indicative of the results to be expected for the full year.

The accompanying unaudited consolidated financial statements are presented in accordance with the U.S. Securities and Exchange Commission requirements of Quarterly Reports on Form 10-Q and, consequently, do not include all of the disclosures required by GAAP. Reference should be made to the MasterCard Incorporated Annual Report on Form 10-K for the year ended December 31, 2009 for additional disclosures, including a summary of the Company s significant accounting policies.

Recent accounting pronouncements

Disclosure about the Credit Quality of Financing Receivables and the Allowance for Credit Losses - In July 2010, a new accounting standard was issued. This standard provides new disclosure guidance that will require companies to provide more information about the credit quality of their financing receivables in the disclosures to financial statements including, but not limited to, significant purchases and sales of financing receivables, aging information and credit quality indicators. The Company will adopt this accounting standard upon its effective date, periods ending on or after December 15, 2010, and does not anticipate that this adoption will have an impact on the Company s financial position or results of operations.

Transfers of financial assets - In June 2009, the accounting standard for transfers and servicing of financial assets and extinguishments of liabilities was amended. The change eliminates the qualifying special purpose entity concept, establishes a new unit of account definition that must be met for the transfer of portions of financial assets to be eligible for sale accounting, clarifies and changes the derecognition criteria for a transfer to be accounted for as a sale, changes the amount of gain or loss on a transfer of financial assets accounted for as a sale when beneficial interests are received by the transferor, and requires additional new disclosures. The Company adopted the new standard upon its effective date of January 1, 2010. The adoption did not have an impact on the Company s financial position or results of operations.

Variable interest entities - In June 2009, there was a revision to the accounting standard for the consolidation of variable interest entities. The revision eliminates the exemption for qualifying special purpose entities, requires

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

a new qualitative approach for determining whether a reporting entity should consolidate a variable interest entity, and changes the requirement of when to reassess whether a reporting entity should consolidate a variable interest entity. During February 2010, the scope of the revised standard was modified to indefinitely exclude certain entities from the requirement to be assessed for consolidation. The Company adopted the new standard upon its effective date of January 1, 2010. The adoption did not have an impact on the Company's financial position or results of operations.

Revenue arrangements with multiple deliverables - In September 2009, the accounting standard for the allocation of revenue in arrangements involving multiple deliverables was amended. Current accounting standards require companies to allocate revenue based on the fair value of each deliverable, even though such deliverables may not be sold separately either by the company itself or other vendors. The new accounting standard eliminates (i) the residual method of revenue allocation and (ii) the requirement that all undelivered elements must have objective and reliable evidence of fair value before a company can recognize the portion of the overall arrangement fee that is attributable to items that already have been delivered. The Company will adopt the revised accounting standard effective January 1, 2011 via prospective adoption. The Company is currently evaluating the requirements of the standard to determine the impact on the Company's financial position or results of operations.

Fair value disclosures - The Company measures certain assets and liabilities at fair value on a recurring basis by estimating the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When valuing liabilities, the Company also considers the Company's creditworthiness. The Company classifies these recurring fair value measurements into a three-level hierarchy (Valuation Hierarchy) and discloses the significant assumptions utilized in measuring assets and liabilities at fair value. In January 2010, fair value disclosure requirements were amended such that MasterCard was required to present detailed disclosures about transfers to and from Level 1 and 2 of the Valuation Hierarchy effective January 1, 2010 and MasterCard will also be required to disclose purchases, sales, issuances, and settlements on a gross basis within the Level 3 (of the Valuation Hierarchy) reconciliation effective January 1, 2011. The Company adopted the new guidance for disclosures about transfers to and from Level 1 and 2 of the Valuation Hierarchy effective January 1, 2010. The adoption did not have an impact on the Company's financial position or results of operations. The Company will adopt the guidance that requires disclosure of a reconciliation of purchases, sales, issuances, and settlements on a gross basis within Level 3 (of the Valuation Hierarchy) effective January 1, 2011, as required, and the adoption will have no impact on the Company's financial position or results of operations.

Note 2. Earnings Per Share

Earnings per share (EPS) is calculated including the effects of certain instruments granted in share-based payment transactions under the two-class method. Unvested share-based payment awards which receive non-forfeitable dividend rights, or dividend equivalents, are considered participating securities and are required to be included in computing EPS under the two-class method. The Company declared non-forfeitable dividends on unvested restricted stock units and contingently issuable performance stock units (Unvested Units) which were granted prior to 2009.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The components of basic and diluted EPS for common shares are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
(In millions, except per share data)				
Numerator:				
Net income attributable to MasterCard	\$ 458	\$ 349	\$ 913	\$ 716
Less: Net income allocated to Unvested Units		2	2	5
Net income attributable to MasterCard allocated to common shares	\$ 458	\$ 347	\$ 911	\$ 711
Denominator:				
Basic EPS weighted average shares outstanding	131	130	131	130
Dilutive stock options and stock units				
Diluted EPS weighted average shares outstanding	131	130	131	130
Earnings per Share				
Total Basic	\$ 3.50	\$ 2.67	\$ 6.97	\$ 5.49
Total Diluted	\$ 3.49	\$ 2.67	\$ 6.95	\$ 5.47

The calculation of diluted EPS for the three and six month periods ended June 30, 2010 and 2009 excluded the following share-based payment awards because the effect would be antidilutive:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
(In thousands)				
Stock options	204	288	204	288
Restricted stock units	2		2	

Note 3. Non-Cash Investing and Financing Activities

The following table includes non-cash investing and financing information for the six month periods ended June 30:

	2010	2009
(In millions)		
Dividend declared but not yet paid	\$ 19	\$ 19
Software licenses financed	11	
Municipal bonds cancelled		154
Revenue bonds received		(154)

Edgar Filing: MASTERCARD INC - Form 10-Q

Assets recorded pursuant to capital leases	3	(150)
Capital lease obligation		154
Fair value of assets acquired, net of original investment, cash paid and cash acquired		17
Fair value of liabilities assumed related to investments in affiliates		15 ¹
Fair value of non-controlling interest acquired		8

¹ Included \$9 million to be extinguished in 2013 and 2016 for future benefits to be provided by MasterCard in the establishment of a joint venture.

Effective March 1, 2009, MasterCard executed a new ten-year lease between MasterCard, as tenant, and the Missouri Development Finance Board (MDFB), as landlord, for MasterCard s global technology and operations center located in O Fallon, Missouri, called Winghaven. The lease includes a bargain purchase option and is thus classified as a capital lease. The building and land assets and capital lease obligation have been recorded at \$154 million, which represents the lesser of the present value of the minimum lease payments and the fair value of the building and land assets. The Company received refunding revenue bonds issued by MDFB in the exact amount, \$154 million, and with the same payment terms as the capital lease and which contain the legal right of setoff with the capital lease. The Company has netted its investment in the MDFB refunding revenue bonds and the corresponding capital lease obligation in the consolidated balance sheet.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****Note 4. Fair Value****Financial Instruments Recurring Measurements**

In accordance with accounting requirements for financial instruments, the Company is disclosing the estimated fair values as of June 30, 2010 and December 31, 2009 of the financial instruments that are within the scope of the accounting guidance, as well as the methods and significant assumptions used to estimate the fair value of those financial instruments. Furthermore, the Company classifies its fair value measurements in the Valuation Hierarchy. No transfers were made among the three levels in the Valuation Hierarchy during the three and six months ended June 30, 2010.

The distribution of the Company's financial instruments which are measured at fair value on a recurring basis within the Valuation Hierarchy as of June 30, 2010 and December 31, 2009 is as follows:

	June 30, 2010			Fair Value
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	(In millions)			
Municipal bonds ¹	\$	\$ 516	\$	\$ 516
Taxable short-term bond funds	313			313
Auction rate securities			134	134
Foreign currency forward contracts		(3)		(3)
Total	\$ 313	\$ 513	\$ 134	\$ 960

	December 31, 2009			Fair Value
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	(In millions)			
Municipal bonds ¹	\$	\$ 514	\$	\$ 514
Taxable short-term bond funds	310			310
Auction rate securities			180	180
Foreign currency forward contracts		(1)		(1)
Total	\$ 310	\$ 513	\$ 180	\$ 1,003

¹ Available-for-sale municipal bonds are carried at fair value and are included in the above tables. However, held-to-maturity municipal bonds are carried at amortized cost and excluded from the above tables.

Edgar Filing: MASTERCARD INC - Form 10-Q

The fair value of the Company's available-for-sale municipal bonds are based on quoted prices for similar assets in active markets and are therefore included in Level 2 of the Valuation Hierarchy.

The fair value of the Company's short-term bond funds are based on quoted prices and are therefore included in Level 1 of the Valuation Hierarchy.

The Company's auction rate securities (ARS) investments have been classified within Level 3 of the Valuation Hierarchy as their valuation requires substantial judgment and estimation of factors that are not currently observable in the market due to the lack of trading in the securities. This valuation may be revised in future periods as market conditions evolve. The Company has considered the lack of liquidity in the ARS market and the lack of comparable, orderly transactions when estimating the fair value of its ARS portfolio. Therefore, the Company uses the income approach, which included a discounted cash flow analysis of the estimated future cash flows adjusted by

Table of Contents

MASTERCARD INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

a risk premium for the ARS portfolio, to estimate the fair value of its ARS portfolio. The Company estimated the fair value of its ARS portfolio to be a 15% discount to the par value as of June 30, 2010 and December 31, 2009. When a determination is made to classify a financial instrument within Level 3, the determination is based upon the significance of the unobservable parameters to the overall fair value measurement. However, the fair value determination for Level 3 financial instruments may include observable components.

The Company's foreign currency forward contracts have been classified within Level 2 of the Valuation Hierarchy, as the fair value is based on broker quotes for the same or similar derivative instruments. See Note 19 (Foreign Exchange Risk Management) for further details.

Financial Instruments – Non-Recurring Measurements

Certain financial instruments are carried on the consolidated balance sheets at cost, which approximates fair value due to their short-term, highly liquid nature. These instruments include cash and cash equivalents, accounts receivable, settlement due from customers, restricted security deposits held for customers, prepaid expenses, accounts payable, settlement due to customers and accrued expenses.

Investment Securities Held-to-Maturity

The Company utilizes quoted prices for similar securities from active markets to estimate the fair value of its held-to-maturity securities. See Note 5 (Investment Securities) for fair value disclosure.

Debt

The Company estimates the fair value of its debt by applying a current period discount rate to the remaining cash flows under the terms of the debt. As of June 30, 2010 and December 31, 2009, the carrying value on the consolidated balance sheet totaled \$19 million and \$22 million, respectively, and approximated fair value.

Obligations Under Litigation Settlements

The Company estimates the fair value of its obligations under litigation settlements by applying a current period discount rate to the remaining cash flows under the terms of the litigation settlements. At June 30, 2010 and December 31, 2009, the carrying value on the consolidated balance sheet totaled \$591 million and \$870 million and the fair values totaled \$605 million and \$895 million, respectively, for these obligations. For additional information regarding the Company's obligations under litigation settlements, see Note 15 (Obligations Under Litigation Settlements).

Settlement Guarantee Liabilities

The Company estimates the fair value of its settlement guarantees by applying market assumptions for relevant though not directly comparable undertakings, as the latter are not observable in the market given the proprietary nature of such guarantees. Additionally, loss probability and severity profiles against the Company's gross and net settlement exposures are considered. The carrying value and estimated fair value of settlement guarantee liabilities were de minimis as of June 30, 2010 and December 31, 2009. For additional information regarding the Company's settlement guarantee liabilities, see Note 18 (Settlement and Travelers Cheque Risk Management).

Refunding Revenue Bonds

The Company holds refunding revenue bonds with the same payment terms, and which contain the right of set-off with a capital lease obligation related to the Company's global technology and operations center located in O'Fallon, Missouri, called Winghaven. The Company has netted the refunding revenue bonds and the corresponding capital lease obligation in the consolidated balance sheet and estimates that the carrying value approximates the fair value for these bonds. See Note 3 (Non-Cash Investing and Financing Activities) for further details.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)***Nonmarketable Equity Investments*

The Company has nonmarketable equity investments recorded under cost or equity method of accounting. These investments are not measured at fair value on an ongoing basis; however they are subject to fair value adjustments in certain circumstances, such as when there is evidence of impairment. Inputs to measure these investments are based on management's judgment using internal and external data; accordingly these fair value determinations are classified in Level 3 of the Valuation Hierarchy. The carrying value and estimated fair value of the Company's nonmarketable equity investments were de minimis as of June 30, 2010 and December 31, 2009.

Non-Financial Instruments

Certain assets and liabilities are measured at fair value on a nonrecurring basis. The Company's assets and liabilities measured at fair value on a nonrecurring basis include property, plant and equipment, goodwill and other intangible assets. These assets are not measured at fair value on an ongoing basis; however, they are subject to fair value adjustments in certain circumstances, such as when there is evidence of impairment.

The valuation methods for goodwill and other intangible assets involve assumptions concerning comparable company multiples, discount rates, growth projections and other assumptions of future business conditions. As the assumptions employed to measure these assets on a nonrecurring basis are based on management's judgment using internal and external data, these fair value determinations are classified in Level 3 of the Valuation Hierarchy.

Note 5. Investment Securities*Amortized Costs and Fair Values Available-for-Sale Investment Securities:*

The major categories of the Company's available-for-sale investment securities, for which unrealized gains and losses are recorded as a separate component of other comprehensive income on the consolidated statements of comprehensive income, and their respective cost basis and fair values as of June 30, 2010 and December 31, 2009 are as follows:

	June 30, 2010			
	Amortized Cost	Gross Unrealized Gain	Gross Unrealized Loss ¹	Fair Value
	(In millions)			
Municipal bonds	\$ 496	\$ 20	\$	\$ 516
Taxable short-term bond funds	308	5		313
Auction rate securities	158		(24)	134
Total	\$ 962	\$ 25	\$ (24)	\$ 963

	December 31, 2009			
	Amortized Cost	Gross Unrealized Gain	Gross Unrealized Loss ¹	Fair Value
	(In millions)			
Municipal bonds	\$ 492	\$ 22	\$	\$ 514
Taxable short-term bond funds	306	4		310
Auction rate securities	212		(32)	180

Edgar Filing: MASTERCARD INC - Form 10-Q

Total	\$ 1,010	\$ 26	\$ (32)	\$ 1,004
-------	----------	-------	---------	----------

¹ The unrealized losses have been in an unrealized loss position longer than 12 months, but have not been deemed other-than-temporarily impaired. The municipal bond portfolio is comprised of tax exempt bonds and is diversified across states and sectors. The portfolio has an average credit quality of double-A.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The short-term bond funds invest in fixed income securities, including corporate bonds, mortgage-backed securities, and asset-backed securities.

The Company holds investments in ARS. Interest on these securities is exempt from U.S. federal income tax and the interest rate on the securities typically resets every 35 days. The securities are fully collateralized by student loans with guarantees (ranging from approximately 95% to 98% of principal and interest) by the U.S. government via the Department of Education.

Beginning on February 11, 2008, the auction mechanism that normally provided liquidity to the ARS investments began to fail. Since mid-February 2008, all investment positions in the Company's ARS investment portfolio have experienced failed auctions. The securities for which auctions have failed have continued to pay interest in accordance with the contractual terms of such instruments and will continue to accrue interest and be auctioned at each respective reset date until the auction succeeds, the issuer redeems the securities or they mature. As of June 30, 2010, the ARS market remained illiquid but issuer call and redemption activity in the ARS student loan sector has occurred periodically since the auctions began to fail. During the three and six months ended June 30, 2010, the Company did not sell any ARS in the auction market but there were some calls at par.

The table below includes a roll-forward of the Company's ARS investments from January 1, 2010 to June 30, 2010.

	Significant Unobservable Inputs (Level 3) (In millions)
Fair value, January 1, 2010	\$ 180
Calls, at par	(54)
Recovery of unrealized losses due to issuer calls	8
Fair value, June 30, 2010	\$ 134

The Company evaluated the estimated impairment of its ARS portfolio to determine if it was other-than-temporary. The Company considered several factors including, but not limited to, the following: (1) the reasons for the decline in value (changes in interest rates, credit event, or market fluctuations); (2) assessments as to whether it is more likely than not that it will hold and not be required to sell the investments for a sufficient period of time to allow for recovery of the cost basis; (3) whether the decline is substantial; and (4) the historical and anticipated duration of the events causing the decline in value. The evaluation for other-than-temporary impairments is a quantitative and qualitative process, which is subject to various risks and uncertainties. The risks and uncertainties include changes in credit quality, market liquidity, timing and amounts of issuer calls, and interest rates. As of June 30, 2010, the Company believed that the unrealized losses on the ARS were not related to credit quality but rather due to the lack of liquidity in the market. The Company believes that it is more likely than not that the Company will hold and not be required to sell its ARS investments until recovery of their cost bases which may be at maturity or earlier if called. Therefore, MasterCard does not consider the unrealized losses to be other-than-temporary. The Company estimated a 15% discount to the par value of the ARS portfolio at June 30, 2010 and December 31, 2009. The pre-tax impairment included in accumulated other comprehensive income related to the Company's ARS was \$24 million and \$32 million as of June 30, 2010 and December 31, 2009, respectively. A hypothetical increase of 100 basis points in the discount rate used in the discounted cash flow analysis would have increased the impairment by \$17 million and \$23 million as of June 30, 2010 and December 31, 2009, respectively.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)***Carrying and Fair Values Held-to-Maturity Investment Securities:*

As of June 30, 2010, the Company also owned held-to-maturity investment securities, which consisted of U.S. Treasury notes and a municipal bond yielding interest at 5.0% per annum. The bond relates to the Company's back-up processing center in Kansas City, Missouri. The carrying value, gross unrecorded gains and fair value of these held-to-maturity investment securities were as follows:

	June 30, 2010	December 31, 2009
	(In millions)	
Carrying value	\$ 337	\$ 338
Gross unrecorded gains	3	2
Fair value	\$ 340	\$ 340

Investment Maturities:

The maturity distribution based on the contractual terms of the Company's investment securities at June 30, 2010 was as follows:

	Available-For-Sale Amortized		Held-To-Maturity	
	Cost	Fair Value	Carrying Value	Fair Value
	(In millions)			
Due within 1 year	\$ 48	\$ 49	\$ 301	\$ 301
Due after 1 year through 5 years	358	374	36	39
Due after 5 years through 10 years	94	97		
Due after 10 years	154	130		
No contractual maturity	308	313		
Total	\$ 962	\$ 963	\$ 337	\$ 340

The majority of securities due after ten years are ARS. Taxable short-term bond funds have been included in the table above in the no contractual maturity category, as these investments do not have a stated maturity date; however, the short-term bond funds have daily liquidity.

The table below summarizes the maturity ranges of the ARS portfolio, based on relative par value, as of June 30, 2010:

	Par Amount (In millions)	% of Total
Due within 10 years	\$ 4	3%
Due year 11 through year 20	25	16%
Due year 21 through year 30	92	58%
Due after year 30	37	23%

Edgar Filing: MASTERCARD INC - Form 10-Q

Total	\$	158	100%
-------	----	-----	------

Investment Income:

Investment income was \$13 million and \$14 million for the three months ended June 30, 2010 and 2009, respectively. Investment income was \$23 million and \$31 million for the six months ended June 30, 2010 and 2009, respectively. It primarily consisted of interest income generated from cash, cash equivalents, investment securities available-for-sale and investment securities held-to-maturity. Dividend income and gross realized gains and losses were not significant.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****Note 6. Prepaid Expenses**

Prepaid expenses consisted of the following:

	June 30, 2010	December 31, 2009
	(In millions)	
Customer and merchant incentives	\$ 511	\$ 445
Advertising	52	56
Income taxes	53	93
Data processing	41	29
Other	23	18
Total prepaid expenses	680	641
Prepaid expenses, current	(332)	(313)
Prepaid expenses, long-term	\$ 348	\$ 328

Prepaid customer and merchant incentives represent payments made to customers and merchants under business agreements.

Note 7. Other Assets

Other assets consisted of the following:

	June 30, 2010	December 31, 2009
	(In millions)	
Customer and merchant incentives	\$ 127	\$ 216
Cost and equity method investments	38	35
Cash surrender value of keyman life insurance	23	23
Other	38	36
Total other assets	226	310
Other assets, current	(78)	(126)
Other assets, long-term	\$ 148	\$ 184

Certain customer and merchant business agreements provided incentives upon entering into the agreement. As of June 30, 2010 and December 31, 2009, other assets included amounts to be paid for these incentives and the related liability was included in accrued expenses and other liabilities. Once the payment is made, the liability is relieved and the other asset is reclassified to a prepaid expense.

Note 8. Property, Plant and Equipment

Property, plant and equipment consisted of the following:

Edgar Filing: MASTERCARD INC - Form 10-Q

	June 30, 2010	December 31, 2009
	(In millions)	
Property, plant and equipment	\$ 752	\$ 753
Less accumulated depreciation and amortization	(317)	(304)
Property, plant and equipment, net	\$ 435	\$ 449

As of June 30, 2010 and December 31, 2009, capital leases, excluding the Winghaven facility, of \$13 million and \$14 million, respectively, were included in equipment. Accumulated amortization of these capital leases was \$5 million and \$6 million as of

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

June 30, 2010 and December 31, 2009, respectively. The Winghaven facility is discussed further in Note 3 (Non-Cash Investing and Financing Activities).

Depreciation expense for the above property, plant and equipment, including amortization for capital leases, was \$16 million and \$19 million for the three months ended June 30, 2010 and 2009, respectively. Depreciation expense for the above property, plant and equipment, including amortization for capital leases, was \$33 million and \$35 million for the six months ended June 30, 2010 and 2009, respectively.

Note 9. Goodwill

Goodwill was \$267 million and \$309 million as of June 30, 2010 and December 31, 2009, respectively. The change in the carrying amount of goodwill for the six months ended June 30, 2010 was due to foreign currency translation.

Note 10. Accrued Expenses

Accrued expenses consisted of the following:

	June 30, 2010	December 31, 2009
	(In millions)	
Customer and merchant incentives	\$ 521	\$ 598
Personnel costs	208	367
Advertising	79	131
Income taxes	41	32
Other	78	97
Total accrued expenses	\$ 927	\$ 1,225

Note 11. Pension and Postretirement Plans

The Company maintains a non-contributory, qualified, defined benefit pension plan (the *Qualified Plan*) with a cash balance feature covering substantially all of its U.S. employees hired before July 1, 2007. Additionally, the Company has an unfunded non-qualified supplemental executive retirement plan (the *Non-qualified Plan*) that provides certain key employees with supplemental retirement benefits in excess of limits imposed on qualified plans by U.S. tax laws. The term *Pension Plans* includes both the *Qualified Plan* and the *Non-qualified Plan*. The net periodic pension cost for the *Pension Plans* was as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
	(In millions)			
Service cost	\$ 4	\$ 4	\$ 8	\$ 9
Interest cost	4	4	7	7
Expected return on plan assets	(5)	(3)	(9)	(6)
Amortization:				
Actuarial loss	1	2	2	4
Prior service credit			(1)	(1)

Edgar Filing: MASTERCARD INC - Form 10-Q

Net periodic pension cost	\$ 4	\$ 7	\$ 7	\$ 13
---------------------------	------	------	------	-------

The reduction in net periodic pension costs for the three and six months ended June 30, 2010 versus the same periods in 2009 was primarily a result of voluntary Company contributions and favorable investment returns achieved during 2009.

The Company made voluntary contributions totaling \$15 million and \$20 million to the Qualified Plan during the three and six month periods ended June 30, 2010, respectively. The Company continues to evaluate if any further contributions to the Qualified Plan may be made during the remainder of 2010. During the three and six months ended June 30, 2009, the Company contributed \$17 million and \$31 million, respectively, to the Qualified Plan.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

The Company maintains a postretirement plan (the Postretirement Plan) providing health coverage and life insurance benefits for substantially all of its U.S. employees and retirees hired before July 1, 2007. Net periodic postretirement benefit cost was \$1 million for each of the three month periods ended June 30, 2010 and 2009. Net periodic postretirement benefit cost was \$2 million and \$3 million for the six month periods ended June 30, 2010 and 2009, respectively. The cost included amounts for interest cost, service cost and amortization of the transition obligation partially offset by the amortization of the actuarial gain. The majority of the cost represented interest cost. The Company does not make any contributions to its Postretirement Plan other than funding benefits payments.

Note 12. Share Based Payment and Other Benefits

On March 1, 2010, the Company granted approximately 150 thousand restricted stock units, 169 thousand stock options and 42 thousand performance units under the MasterCard Incorporated 2006 Long-Term Incentive Plan (LTIP). The fair value of the restricted stock units and performance units, based on the closing price of the Class A common stock, par value \$.0001 per share, on the New York Stock Exchange on March 1, 2010, was \$232.74. The fair value of the stock options estimated on the date of grant using a Black-Scholes option pricing model was \$84.79. Vesting of the shares underlying the restricted stock units and performance units will occur on February 28, 2013. The stock options vest in four equal annual installments beginning on March 1, 2011, and have a term of ten years. Compensation expense is recorded net of estimated forfeitures over the shorter of the vesting period or the date the individual becomes eligible to retire under the LTIP. The Company uses the straight-line method of attribution over the requisite service period for expensing equity awards.

With regard to the performance units granted on March 1, 2010, whether and the extent to which, the performance stock units will vest will be based on the Company s performance against a predetermined return on equity goal, with an average of return on equity over the three-year period commencing January 1, 2010 against threshold, target and maximum performance goals. In the event the performance units do vest on February 28, 2013, the ultimate number of shares to be released on the vesting date will be based on meeting or exceeding average annual return on equity goals and achievement of quantitative and qualitative goals determined by the Company s compensation committee over the performance period, which includes performance against the corporate scorecard. These performance units have been classified as equity awards, will be settled by delivering stock to the employees and contain service and performance conditions. Given that the performance terms are subjective and not fixed on the date of grant, the performance units will be remeasured at the end of each reporting period, at fair value, until the time the performance conditions are fixed and the ultimate number of shares to be issued is determined. Estimates are adjusted as appropriate. Compensation expense is calculated using the number of performance units expected to vest; multiplied by the period ending price of a share of MasterCard s Class A common stock on the New York Stock Exchange; less previously recorded compensation expense.

Note 13. Stockholders Equity

In February 2010, the Company s Board of Directors authorized programs to facilitate conversions of shares of Class B common stock on a one-for-one basis into shares of Class A common stock for subsequent sale or transfer to public investors, beginning after May 31, 2010. The conversion programs follow the expiration on May 31, 2010 of a 4-year post initial public offering restriction period with respect to the conversion of shares of Class B common stock. Effective June 1, 2010, 7,482,218 shares of the Class B common stock were converted on a one-for-one basis into shares of Class A common stock for subsequent sale or transfer to public investors in accordance with the terms of both the program and the Company s certificate of incorporation.

Following the June 1, 2010 conversion event, shares of the Company s Class A common stock and Class B common stock represented approximately 90.4% and 9.6%, respectively, of the aggregate outstanding shares of the Class A common stock and Class B common stock. This level of Class B ownership represents the first time the outstanding shares of the Class B common stock represented less than 15% of the aggregate outstanding shares of the Class A common stock and Class B common stock. Accordingly, pursuant to the Company s amended and restated certificate of incorporation dated June 10, 2009, all outstanding shares of the Company s Class M common stock were automatically transferred to the Company and retired, and are no longer available for issue

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

or reissue. Additionally, the Company no longer has authority to issue additional shares of Class M common stock. Although the Class M common stock was generally non-voting, the holders of Class M common stock had (prior to the retirement of such class) the right to elect up to three of the Company's directors (but not more than one-quarter of all directors) and approve specified significant corporate actions under our certificate of incorporation. The retirement of the Class M common stock had no effect on the Company's financial position or basic or diluted EPS. As of July 26, 2010, 12,023,551 shares of Class B common stock had not been converted into shares of Class A common stock and remained outstanding (representing 9.2% of aggregate shares outstanding).

Note 14. Commitments

At June 30, 2010, the Company had the following future minimum payments due under non-cancelable agreements:

	Total	Capital Leases ¹	Operating Leases	Sponsorship, Licensing & Other
	(In millions)			
Remainder of 2010	\$ 202	\$ 2	\$ 12	\$ 188
2011	185	6	20	159
2012	134	4	16	114
2013	70	37	11	22
2014	18		8	10
Thereafter	24		21	3
Total	\$ 633	\$ 49	\$ 88	\$ 496

¹ Excludes non-cash transactions relating to the Company's Winghaven facility. See Note 3 (Non-Cash Investing and Financing Activities) for more information.

Included in the table above are capital leases with imputed interest expense of \$6 million and a net present value of minimum lease payments of \$43 million. In addition, at June 30, 2010, \$40 million of the future minimum payments in the table above for operating leases, sponsorship, licensing and other agreements was accrued. Consolidated rental expense for the Company's leased office space, which is recognized on a straight line basis over the life of the lease, was \$7 million and \$8 million for the three months ended June 30, 2010 and 2009, respectively. Consolidated rental expense for the Company's leased office space, which is recognized on a straight line basis over the life of the lease, was \$13 million and \$22 million for the six months ended June 30, 2010 and 2009, respectively. Consolidated lease expense for automobiles, computer equipment and office equipment was \$2 million and \$4 million for each of the three and six month periods ended June 30, 2010 and 2009, respectively.

Note 15. Obligations Under Litigation Settlements

On June 24, 2008, MasterCard entered into a settlement agreement (the American Express Settlement) with American Express Company (American Express) relating to the U.S. federal antitrust litigation between MasterCard and American Express. The American Express Settlement ended all existing litigation between MasterCard and American Express. Under the terms of the American Express Settlement, MasterCard is obligated to make 12 quarterly payments of up to \$150 million per quarter beginning in the third quarter of 2008. MasterCard's maximum nominal payments will total \$1.8 billion. The amount of each quarterly payment is contingent on the performance of American Express's U.S. Global Network Services business. The quarterly payments will be in an amount equal to 15% of American Express's U.S. Global Network Services billings during the quarter, up to a maximum of \$150 million per quarter. If, however, the payment for any quarter is less than \$150 million, the maximum payment for subsequent quarters will be increased by the difference between \$150 million and the lesser amount

Edgar Filing: MASTERCARD INC - Form 10-Q

that was paid in any quarter in which there was a shortfall. MasterCard has assumed American Express will achieve these financial hurdles. MasterCard recorded the present value of \$1.8 billion, at a 5.75% discount rate, or \$1.649 billion in the quarter ended June 30, 2008 with respect to the American Express Settlement.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

Total liabilities for the American Express Settlement and other litigation settlements changed from December 31, 2009, as follows:

	(In millions)
Balance as of December 31, 2009	\$ 870
Interest accretion on American Express Settlement	21
Payments on American Express Settlement	(300)
Other payments, accruals and accretion, net	
Balance as of June 30, 2010	\$ 591

See Note 17 (Legal and Regulatory Proceedings) for additional discussion regarding the Company's legal proceedings.

Note 16. Income Taxes

The effective income tax rates were 35.7% and 35.0% for the three months ended June 30, 2010 and 2009, respectively, and 35.1% and 34.1% for the six months ended June 30, 2010 and 2009, respectively. The rate for the three months ended June 30, 2010 was higher than the rate for the three months ended June 30, 2009 due primarily to an adjustment related to the Company's U.S. foreign tax credits, partially offset by a lower state tax rate and lower income tax reserves. The rate for the six months ended June 30, 2010 was higher than the rate for the six months ended June 30, 2009 due primarily to an adjustment to the Company's balance of deferred taxes in the six month period ended June 30, 2009 and an adjustment related to the Company's U.S. foreign tax credits in the six month period ended June 30, 2010, partially offset by a lower state tax rate and lower income tax reserves.

Note 17. Legal and Regulatory Proceedings

MasterCard is a party to legal and regulatory proceedings with respect to a variety of matters in the ordinary course of business. Some of these proceedings involve complex claims that are subject to substantial uncertainties and unascertainable damages. Therefore, the probability of loss and an estimation of damages are not possible to ascertain at present. Accordingly, except as discussed below, MasterCard has not established reserves for any of these proceedings. MasterCard has recorded liabilities for certain legal proceedings which have been settled through contractual agreements. Except as described below, MasterCard does not believe that any legal or regulatory proceedings to which it is a party would have a material impact on its results of operations, financial position, or cash flows. Although MasterCard believes that it has strong defenses for the litigations and regulatory proceedings described below, it could in the future incur judgments and/or fines, enter into settlements of claims or be required to change its business practices in ways that could have a material adverse effect on its results of operations, financial position or cash flows. Notwithstanding MasterCard's belief, in the event it were found liable in a large class-action lawsuit or on the basis of a claim entitling the plaintiff to treble damages or under which it were jointly and severally liable, charges it may be required to record could be significant and could materially and adversely affect its results of operations, cash flow and financial condition, or, in certain circumstances, even cause MasterCard to become insolvent. Moreover, an adverse outcome in a regulatory proceeding could result in fines and/or lead to the filing of civil damage claims and possibly result in damage awards in amounts that could be significant and could materially and adversely affect the Company's results of operations, cash flows and financial condition.

Department of Justice Antitrust Litigation and Related Private Litigations

In October 1998, the U.S. Department of Justice (DOJ) filed suit against MasterCard International, Visa U.S.A., Inc. and Visa International Corp. in the U.S. District Court for the Southern District of New York alleging that both MasterCard's and Visa's governance structure and policies violated U.S. federal antitrust laws. First, the DOJ claimed that dual governance—the situation where a financial institution has a representative on the Board of Directors of MasterCard or Visa while a portion of its card portfolio is issued under the brand of the other association—was anti-competitive and acted to limit innovation within the payment card industry. Second, the DOJ challenged MasterCard's Competitive Programs Policy (CPP) and a Visa bylaw provision that prohibited financial institutions participating in the respective associations from issuing competing proprietary payment cards (such as American Express or Discover). The DOJ alleged that MasterCard's CPP and Visa's

bylaw provision acted to restrain competition.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

On October 9, 2001, District Court Judge Barbara Jones issued an opinion upholding the legality and pro-competitive nature of dual governance. However, the judge also held that MasterCard's CPP and the Visa bylaw constituted unlawful restraints of trade under the federal antitrust laws. On November 26, 2001, the judge issued a final judgment that ordered MasterCard to repeal the CPP insofar as it applies to issuers and enjoined MasterCard from enacting or enforcing any bylaw, rule, policy or practice that prohibits its issuers from issuing general purpose credit or debit cards in the United States on any other general purpose card network. The Second Circuit upheld the final judgment and the Supreme Court denied certiorari.

Shortly after the Supreme Court's denial of certiorari, both American Express and Discover Financial Services, Inc. filed complaints against MasterCard and Visa in which they alleged that the implementation and enforcement of MasterCard's CPP and Visa's bylaw provision violated both Section 1 of the Sherman Act, which prohibits contracts, combinations and conspiracies that unreasonably restrain trade and Section 2 of the Sherman Act, which prohibits monopolization and attempts or conspiracy to monopolize a particular market. These actions were designated as related cases to the DOJ litigation. On June 24, 2008, MasterCard entered into a settlement agreement with American Express to resolve all current litigation between American Express and MasterCard. Under the terms of the settlement agreement, MasterCard is obligated to make twelve quarterly payments of up to \$150 million per quarter with the first payment having been made in September 2008. See Note 15 (Obligations under Litigation Settlements) for additional discussion. On October 27, 2008, MasterCard and Visa entered into a settlement agreement with Discover (the Discover Settlement), ending all litigation between the parties for a total of approximately \$2.8 billion. The MasterCard share of the settlement, paid to Discover in November 2008, was approximately \$863 million. In addition, in connection with the Discover Settlement and pursuant to a separate agreement, Morgan Stanley, Discover's former parent company, paid MasterCard \$35 million in November 2008.

On April 29, 2005, a complaint was filed in California state court on behalf of a putative class of consumers under California unfair competition law (Section 17200) and the Cartwright Act (the Attridge action). The claims in this action seek to piggyback on the portion of the DOJ antitrust litigation discussed above with regard to the district court's findings concerning MasterCard's CPP and Visa's related bylaw. MasterCard and Visa moved to dismiss the complaint and the court granted the defendants' motion to dismiss the plaintiffs' Cartwright Act claims but denied the defendants' motion to dismiss the plaintiffs' Section 17200 unfair competition claims. MasterCard filed an answer to the complaint on June 19, 2006 and the parties have proceeded with discovery. On September 14, 2009, MasterCard executed a settlement agreement that is subject to court approval in the California consumer litigations (see U.S. Merchant and Consumer Litigations). The agreement includes a release that the parties believe encompasses the claims asserted in the Attridge action. On January 5, 2010, the court in the California consumer actions executed an order preliminarily approving the settlement, overruling objections by the plaintiff in the Attridge case. A hearing on final approval of the settlement is set for August 6, 2010. At this time, it is not possible to determine the outcome of, or estimate the liability related to, the Attridge action and no incremental provision for losses has been provided in connection with it.

Currency Conversion Litigations

MasterCard International, together with Visa U.S.A., Inc. and Visa International Corp., are defendants in a state court lawsuit in California. The lawsuit alleges that MasterCard and Visa wrongfully imposed an asserted one percent currency conversion fee on every credit card transaction by U.S. MasterCard and Visa cardholders involving the purchase of goods or services in a foreign country, and that such alleged fee is unlawful. This action, titled *Schwartz v. Visa Int'l Corp., et al.* (the Schwartz action), was brought in the Superior Court of California in February 2000, purportedly on behalf of the general public. MasterCard International, Visa U.S.A., Inc., Visa International Corp., several member banks including Citibank (South Dakota), N.A., Chase Manhattan Bank USA, N.A., Bank of America, N.A. (USA), MBNA, and Citicorp Diners Club Inc. are also defendants in a number of federal putative class actions that allege, among other things, violations of federal antitrust laws based on the asserted one percent currency conversion fee. Pursuant to an order of the Judicial Panel on Multidistrict Litigation, the federal complaints have been consolidated in MDL No. 1409 before Judge William H. Pauley III in the U.S. District Court for the Southern District of New York.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

On July 20, 2006, MasterCard and the other defendants in the MDL action entered into agreements settling the MDL action and related matters, as well as the Schwartz matter. Pursuant to the settlement agreements, MasterCard paid approximately \$72 million to be used for the defendants settlement fund to settle the MDL action and approximately \$13 million to settle the Schwartz matter. On November 8, 2006, Judge Pauley granted preliminary approval of the settlement agreements, which were subject to both final approval by Judge Pauley and resolution of all appeals. On November 15, 2006, the plaintiff in one of the New York state court cases appealed the preliminary approval of the settlement agreement to the U.S. Court of Appeals for the Second Circuit. On November 3, 2009, Judge Pauley signed a Final Judgment and Order of Dismissal granting final approval to the settlement agreements. On November 20, 2009, the same plaintiff in the New York state cases filed notice of appeal of final settlement approval in the MDL action. Within the time period for appeal in the MDL action, twelve other such notices of appeal were filed. Subsequently, several plaintiffs have requested to withdraw their appeals. Briefing on the remaining appeals is ongoing. With regard to other state court currency conversion actions, MasterCard has reached agreements in principle with the plaintiffs for a total of approximately \$4 million, which has been accrued. Settlement agreements have been executed with plaintiffs in the Ohio, Pennsylvania, Florida, Texas, Arkansas, Tennessee, Arizona, New York, Minnesota, Illinois and Missouri actions. At this time, it is not possible to predict with certainty the ultimate resolution of these matters.

U.S. Merchant and Consumer Litigations

Commencing in October 1996, several class action suits were brought by a number of U.S. merchants against MasterCard International and Visa U.S.A., Inc. challenging certain aspects of the payment card industry under U.S. federal antitrust law. Those suits were later consolidated in the U.S. District Court for the Eastern District of New York. The plaintiffs claimed that MasterCard's Honor All Cards rule (and a similar Visa rule), which required merchants who accept MasterCard cards to accept for payment every validly presented MasterCard card, constituted an illegal tying arrangement in violation of Section 1 of the Sherman Act. Plaintiffs claimed that MasterCard and Visa unlawfully tied acceptance of debit cards to acceptance of credit cards. On June 4, 2003, MasterCard International signed a settlement agreement to settle the claims brought by the plaintiffs in this matter, which the Court approved on December 19, 2003. On January 24, 2005, the Second Circuit Court of Appeals issued an order affirming the District Court's approval of the settlement agreement thus making it final. On July 1, 2009, MasterCard International entered into an agreement with the plaintiffs to prepay MasterCard International's remaining payment obligations under the settlement agreement at a discount. On August 26, 2009, the court entered a final order approving the prepayment agreement. The agreement became final pursuant to its terms on September 25, 2009 as there were no appeals of the court's approval, and the prepayment was made on September 30, 2009.

In addition, individual or multiple complaints have been brought in nineteen different states and the District of Columbia alleging state unfair competition, consumer protection and common law claims against MasterCard International (and Visa) on behalf of putative classes of consumers. The claims in these actions largely mirror the allegations made in the U.S. merchant lawsuit and assert that merchants, faced with excessive merchant discount fees, have passed these overcharges to consumers in the form of higher prices on goods and services sold. MasterCard has been successful in dismissing cases in seventeen of the jurisdictions as courts have granted MasterCard's motions to dismiss for failure to state a claim or plaintiffs have voluntarily dismissed their complaints. However, there are outstanding cases in New Mexico and California. On June 9, 2010, the court issued an order granting MasterCard's motion to dismiss the complaint in the New Mexico action. The plaintiffs have filed a notice of appeal of that decision. With respect to the California state actions, and as discussed above under Department of Justice Antitrust Litigation and Related Private Litigations, on September 14, 2009, the parties to the California state court actions executed a settlement agreement which required a payment by MasterCard of \$6 million, subject to approval by the California state court. On January 5, 2010, the court executed an order preliminarily approving the settlement. A hearing on final approval of the settlement is set for August 6, 2010.

At this time, it is not possible to determine the outcome of, or, except as indicated above in the California consumer action, estimate the liability related to, the remaining consumer cases and no provision for losses has been provided in connection with them. The consumer class actions are not covered by the terms of the settlement agreement in the U.S. merchant lawsuit.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****Interchange Litigation and Regulatory Proceedings**

Interchange fees represent a sharing of payment system costs among the financial institutions participating in a four-party payment card system such as MasterCard's. Typically, interchange fees are paid by the acquirer to the issuer in connection with purchase transactions initiated with the payment system's cards. These fees reimburse the issuer for a portion of the costs incurred by it in providing services which are of benefit to all participants in the system, including acquirers and merchants. MasterCard or its customer financial institutions establish default interchange fees in certain circumstances that apply when there is no other interchange fee arrangement between the issuer and the acquirer. MasterCard establishes a variety of interchange rates depending on such considerations as the location and the type of transaction, and collects the interchange fee on behalf of the institutions entitled to receive it and remits the interchange fee to eligible institutions. As described more fully below, MasterCard's interchange fees are subject to regulatory and/or legal review and/or challenges in a number of jurisdictions. At this time, it is not possible to determine the ultimate resolution of, or estimate the liability related to, any of the interchange proceedings described below. Except as described below, no provision for losses has been provided in connection with them.

United States. On June 22, 2005, a purported class action lawsuit was filed by a group of merchants in the U.S. District Court of Connecticut against MasterCard International Incorporated, Visa U.S.A., Inc., Visa International Service Association and a number of member banks alleging, among other things, that MasterCard's and Visa's purported setting of interchange fees violates Section 1 of the Sherman Act, which prohibits contracts, combinations and conspiracies that unreasonably restrain trade. In addition, the complaint alleges MasterCard's and Visa's purported tying and bundling of transaction fees also constitutes a violation of Section 1 of the Sherman Act. The suit seeks treble damages in an unspecified amount, attorneys' fees and injunctive relief. Since the filing of this complaint, there have been approximately fifty similar complaints (the majority of which are styled as class actions, although a few complaints are on behalf of individual plaintiffs) filed on behalf of merchants against MasterCard and Visa (and in some cases, certain member banks) in federal courts in California, New York, Wisconsin, Pennsylvania, New Jersey, Ohio, Kentucky and Connecticut. On October 19, 2005, the Judicial Panel on Multidistrict Litigation issued an order transferring these cases to Judge Gleeson of the U.S. District Court for the Eastern District of New York for coordination of pre-trial proceedings in MDL No. 1720. On April 24, 2006, the group of purported class plaintiffs filed a First Amended Class Action Complaint. Taken together, the claims in the First Amended Class Action Complaint and in the complaints brought on the behalf of the individual merchants are generally brought under both Section 1 of the Sherman Act and Section 2 of the Sherman Act, which prohibits monopolization and attempts or conspiracies to monopolize a particular industry. Specifically, the complaints contain some or all of the following claims: (1) that MasterCard's and Visa's setting of interchange fees (for both credit and off-line debit transactions) violates Section 1 of the Sherman Act; (2) that MasterCard and Visa have enacted and enforced various rules, including the no surcharge rule and purported anti-steering rules, in violation of Section 1 or 2 of the Sherman Act; (3) that MasterCard's and Visa's purported bundling of the acceptance of premium credit cards to standard credit cards constitutes an unlawful tying arrangement; and (4) that MasterCard and Visa have unlawfully tied and bundled transaction fees. In addition to the claims brought under federal antitrust law, some of these complaints contain certain unfair competition law claims under state law based upon the same conduct described above. These interchange-related litigations seek treble damages, as well as attorneys' fees and injunctive relief. On June 9, 2006, MasterCard answered the complaint and moved to dismiss or, alternatively, moved to strike the pre-2004 damage claims that were contained in the First Amended Class Action Complaint and moved to dismiss the Section 2 claims that were brought in the individual merchant complaints. On January 8, 2008, the district court dismissed the plaintiffs' pre-2004 damage claims. On May 14, 2008, the court denied MasterCard's motion to dismiss the Section 2 monopolization claims. Fact discovery has been proceeding and was generally completed by November 21, 2008. Briefs have been submitted on plaintiffs' motion for class certification. The court heard oral argument on the plaintiffs' class certification motion on November 19, 2009. The parties are awaiting a decision on the motion.

On January 29, 2009, the class plaintiffs filed a Second Consolidated Class Action Complaint. The allegations and claims in this complaint generally mirror those in the first amended class action complaint described above although plaintiffs have added additional claims brought under Sections 1 and 2 of the Sherman Act against MasterCard, Visa and a number of banks alleging, among other things, that the networks and banks have continued to fix interchange fees following each network's initial public offering. On March 31, 2009, MasterCard and the other defendants in the action filed a motion to dismiss the Second Consolidated Class Action Complaint in its

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

entirety, or alternatively, to narrow the claims in the complaint. The parties have fully briefed the motion and the court heard oral argument on the motion on November 18, 2009. The parties are awaiting decisions on the motions.

On July 5, 2006, the group of purported class plaintiffs filed a supplemental complaint alleging that MasterCard's initial public offering of its Class A Common Stock in May 2006 (the "IPO") and certain purported agreements entered into between MasterCard and its member financial institutions in connection with the IPO: (1) violate Section 7 of the Clayton Act because their effect allegedly may be to substantially lessen competition, (2) violate Section 1 of the Sherman Act because they allegedly constitute an unlawful combination in restraint of trade and (3) constitute a fraudulent conveyance because the member banks are allegedly attempting to release without adequate consideration from the member banks MasterCard's right to assess the member banks for MasterCard's litigation liabilities in these interchange-related litigations and in other antitrust litigations pending against it. The plaintiffs seek unspecified damages and an order reversing and unwinding the IPO. On September 15, 2006, MasterCard moved to dismiss all of the claims contained in the supplemental complaint. On November 25, 2008, the district court granted MasterCard's motion to dismiss the plaintiffs' supplemental complaint in its entirety with leave to file an amended complaint. On January 29, 2009, the class plaintiffs replied their complaint directed at MasterCard's IPO by filing a First Amended Supplemental Class Action Complaint. The causes of action in the complaint generally mirror those in the plaintiffs' original IPO-related complaint although the plaintiffs have attempted to expand their factual allegations based upon discovery that has been garnered in the case. The class plaintiffs seek treble damages and injunctive relief including, but not limited to, an order reversing and unwinding the IPO. On March 31, 2009, MasterCard filed a motion to dismiss the First Amended Supplemental Class Action Complaint in its entirety. The parties have fully briefed the motion to dismiss and the court heard oral argument on the motion on November 18, 2009. The parties are awaiting a decision on the motion. On July 2, 2009, the class plaintiffs and individual plaintiffs served confidential expert reports detailing the plaintiffs' theories of liability and alleging damages in the tens of billions of dollars. The defendants served their expert reports on December 14, 2009 countering the plaintiffs' assertions of liability and damages. Briefing on dispositive motions, including summary judgment motions, is currently scheduled to be completed on February 4, 2011. No trial date has been scheduled. The parties have also entered into court-recommended mediation.

On October 10, 2008, the Antitrust Division of the DOJ issued a civil investigative demand to MasterCard and other payment industry participants seeking information regarding certain rules relating to merchant point of acceptance rules, particularly with respect to merchants' ability to steer customers to payment forms preferred by merchants. Subsequently, MasterCard received requests for similar information from certain State Attorneys General, including the Attorneys General of Ohio and Texas. In addition, on December 23, 2009, MasterCard received a request from the Texas Attorney General's office for MasterCard's responses to questions concerning both its merchant point of acceptance rules as well as its practices surrounding the setting of default interchange rates. MasterCard is cooperating with the DOJ and the offices of the State Attorneys General in connection with their requests for information.

European Union. On September 25, 2003, the European Commission issued a Statement of Objections challenging MasterCard Europe's cross-border default interchange fees. On June 23, 2006, the European Commission issued a supplemental Statement of Objections covering credit, debit and commercial card fees. On November 14 and 15, 2006, the European Commission held hearings on MasterCard Europe's cross-border default interchange fees. On March 23, 2007, the European Commission issued a Letter of Facts, also covering credit, debit and commercial card fees and discussing its views on the impact of the IPO on the case. MasterCard Europe responded to the Statements of Objections and Letter of Facts and made presentations on a variety of issues at the hearings.

The European Commission announced its decision on December 19, 2007. The decision applies to MasterCard's default cross-border interchange fees for MasterCard and Maestro branded consumer payment card transactions in the European Economic Area ("EEA") (the European Commission refers to these as "MasterCard's MIF"), but not to commercial card transactions (the European Commission stated publicly that it has not yet finished its investigation of commercial card interchange fees). The decision applies to MasterCard's MIF for cross-border consumer card payments and to any domestic consumer card transactions that default to MasterCard's MIF, of which currently there are none. The decision required MasterCard to stop applying the MasterCard MIF, to refrain from repeating the conduct, and not apply its then recently adopted (but never implemented) Maestro SEPA and

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

Intra-Eurozone default interchange fees to debit card payment transactions within the Eurozone. MasterCard understood that the decision gave MasterCard until June 21, 2008 to comply, with the possibility that the European Commission could have extended this time at its discretion. The decision also required MasterCard to issue certain specific notices to financial institutions and other entities that participate in its MasterCard and Maestro payment systems in the EEA and make certain specific public announcements regarding the steps it has taken to comply. The decision did not impose a fine on MasterCard, but provides for a daily penalty of up to 3.5% of MasterCard's daily consolidated global turnover in the preceding business year (which MasterCard estimates to be approximately \$0.5 million U.S. per day) in the event that MasterCard fails to comply. On March 1, 2008, MasterCard filed an application for annulment of the European Commission's decision with the General Court of the European Union.

The December 19, 2007 decision against MasterCard permits MasterCard to establish other default cross-border interchange fees for MasterCard and Maestro branded consumer payment card transactions in the EEA if MasterCard can demonstrate by empirical proof to the European Commission's satisfaction that the new interchange fees create efficiencies that outweigh the restriction of competition alleged by the European Commission, that consumers get a fair share of the benefits of the new interchange fees, that there are no less restrictive means of achieving the efficiencies of MasterCard's payment systems, and that competition is not eliminated altogether. In March 2008, MasterCard entered into discussions with the European Commission about, among other things, the nature of the empirical proof it would require for MasterCard to establish other default cross-border interchange fees consistent with the decision and so as to understand more fully the European Commission's position as to how it may comply with the decision. MasterCard requested an extension of time to comply with the decision and, on April 26, 2008, the European Commission informed MasterCard that it had rejected such request. On June 12, 2008, MasterCard announced that, effective June 21, 2008, MasterCard would temporarily repeal its then current default intra-EEA cross-border consumer card interchange fees in conformity with the decision. On October 17, 2008, MasterCard received an information request from the European Commission in connection with the decision concerning certain pricing changes that MasterCard implemented as of October 1, 2008. MasterCard submitted its response on November 13, 2008.

On March 30, 2009, MasterCard gave certain undertakings to the European Commission and, in response, on April 1, 2009, the Commissioner for competition policy and DG Competition informed MasterCard that, subject to MasterCard's fulfilling its undertakings, they do not intend to pursue proceedings for non-compliance with or circumvention of the decision of December 19, 2007 or for infringing the antitrust laws in relation to the October 1, 2008 pricing changes, the introduction of new cross-border consumer default interchange fees or any of the other MasterCard undertakings. MasterCard's undertakings include: (1) repealing the October 1, 2008 pricing changes; (2) adopting a specific methodology for the setting of cross-border consumer default interchange fees; (3) establishing new default cross-border consumer interchange fees as of July 1, 2009 such that the weighted average interchange fee for credit card transactions does not exceed 30 basis points and for debit card transactions does not exceed 20 basis points; (4) introducing a new rule prohibiting its acquirers from requiring merchants to process all of their MasterCard and Maestro transactions with the acquirer; and (5) introducing a new rule requiring its acquirers to provide merchants with certain pricing information in connection with MasterCard and Maestro transactions. The undertakings will be effective until a final decision by the General Court of the European Union regarding MasterCard's application for annulment of the European Commission's December 19, 2007 decision.

Although MasterCard believes that any other business practices it would implement in response to the decision would be in compliance with the December 19, 2007 decision, the European Commission may deem any such practice not in compliance with the decision, or in violation of European competition law, in which case MasterCard may be assessed fines for the period that it is not in compliance. Furthermore, because a balancing mechanism like default cross-border interchange fees constitutes an essential element of MasterCard Europe's operations, the December 19, 2007 decision could also significantly impact MasterCard International's European customers and MasterCard Europe's business. The European Commission decision could also lead to additional competition authorities in European Union member states commencing investigations or proceedings regarding domestic interchange fees or, in certain jurisdictions, regulation. In addition, the European Commission's decision could lead to the filing of private actions against MasterCard Europe by merchants and/or consumers which, if MasterCard is unsuccessful in its application for annulment of the decision, could result in MasterCard owing substantial damages.

United Kingdom Office of Fair Trading. On September 25, 2001, the Office of Fair Trading of the United Kingdom (OFT) issued a Rule 14 Notice under the U.K. Competition Act 1998 challenging the MasterCard

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

default interchange fees and multilateral service fee (MSF), the fee paid by issuers to acquirers when a customer uses a MasterCard-branded card in the United Kingdom either at an ATM or over the counter to obtain a cash advance. Until November 2004, the interchange fees and MSF were established by MasterCard U.K. Members Forum Limited (MMF) (formerly MasterCard Europay U.K. Ltd.) for domestic credit card transactions in the United Kingdom. The notice contained preliminary conclusions to the effect that the MasterCard U.K. default interchange fees and MSF infringed U.K. competition law and did not qualify for an exemption in their present forms. On February 11, 2003, the OFT issued a supplemental Rule 14 Notice, which also contained preliminary conclusions challenging MasterCard s U.K. interchange fees (but not the MSF) under the Competition Act. On November 10, 2004, the OFT issued a third notice (now called a Statement of Objections) claiming that the interchange fees infringed U.K. and European Union competition law.

On November 18, 2004, MasterCard s board of directors adopted a resolution withdrawing the authority of the U.K. members to set domestic MasterCard interchange fees and MSFs and conferring such authority on MasterCard s President and Chief Executive Officer.

On September 6, 2005, the OFT issued its decision, concluding that MasterCard s U.K. interchange fees that were established by MMF prior to November 18, 2004 contravene U.K. and European Union competition law. The OFT decided not to impose penalties on MasterCard or MMF. MMF and MasterCard appealed the OFT s decision to the U.K. Competition Appeals Tribunal. On June 19, 2006, the U.K. Competition Appeals Tribunal set aside the OFT s decision, following the OFT s request to the Tribunal to withdraw the decision and end its case against MasterCard s U.K. default interchange fees in place prior to November 18, 2004.

Shortly thereafter, the OFT commenced a new investigation of MasterCard s current U.K. default credit card interchange fees and announced on February 9, 2007 that the investigation would also cover so-called immediate debit cards. To date, the OFT has issued a number of requests for information to MasterCard Europe and financial institutions that participate in MasterCard s payment system in the United Kingdom. MasterCard understands that the OFT is considering whether to commence a formal proceeding through the issuance of a Statement of Objections. The OFT has informed MasterCard that it does not intend to issue such a Statement of Objections prior to the judgment of the General Court of the European Union with respect to MasterCard s appeal of the December 2007 decision of the European Commission. If the OFT ultimately determines that any of MasterCard s U.K. interchange fees contravene U.K. and European Union competition law, it may issue a new decision and possibly levy fines accruing from the date of its first decision. MasterCard would likely appeal a negative decision by the OFT in any future proceeding to the Competition Appeals Tribunal. Such an OFT decision could lead to the filing of private actions against MasterCard by merchants and/or consumers which, if its appeal of such an OFT decision were to fail, could result in an award or awards of substantial damages and could have a significant adverse impact on the revenues of MasterCard International s U.K. customers and MasterCard s overall business in the U.K.

Poland. In April 2001, in response to merchant complaints, the Polish Office for Protection of Competition and Consumers (the PCA) initiated an investigation of MasterCard s domestic credit and debit card default interchange fees. MasterCard Europe filed several submissions and met with the PCA in connection with the investigation. In January 2007, the PCA issued a decision that MasterCard s interchange fees are unlawful under Polish competition law, and imposed fines on MasterCard s licensed financial institutions. As part of this decision, the PCA also decided that MasterCard had not violated the law. MasterCard and the financial institutions appealed the decision to the court of first instance. On November 12, 2008, the court of first instance reversed the decision of the PCA and also rejected MasterCard s appeal on the basis that MasterCard did not have a legal interest in the PCA s decision because its conduct was not found to be in breach of the relevant competition laws. MasterCard has appealed this part of the court of first instance s decision because it has significant interest in the outcome of the case. The PCA appealed the other parts of the decision. On April 22, 2010 the court of appeals issued an oral decision (followed by a written decision on May 25, 2010) in which it reinstated MasterCard s appeal, reversed a specific finding of the court of first instance and sent the case back to the court of first instance for further proceedings. If on appeal the PCA s decision is ultimately allowed to stand, it could have a significant adverse impact on the revenues of MasterCard s Polish customers and on MasterCard s overall business in Poland.

Hungary. In January 2008, the Hungarian Competition Authority (HCA) notified MasterCard that it had commenced a formal investigation of MasterCard Europe s domestic interchange fees. This followed an informal investigation that the HCA had been conducting since the middle of 2007. On July 12, 2009, the HCA issued to

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

MasterCard a Preliminary Position that MasterCard Europe's historic domestic interchange fees violate Hungarian competition law. MasterCard responded to the Preliminary Position both in writing and at a hearing which was held on September 8 and 9, 2009. On September 24, 2009, the HCA ruled that MasterCard's historic interchange fees violated the law and fined MasterCard Europe approximately \$3 million, which was paid during the fourth quarter of 2009. The HCA issued its formal decision on December 2, 2009 and on December 18, 2009, MasterCard appealed the decision to the Hungarian courts. If the HCA's decision is not reversed on appeal, it could have a significant adverse impact on the revenues of MasterCard's Hungarian customers and on MasterCard's overall business in Hungary.

Italy. On July 15, 2009, the Italian Competition Authority (ICA) commenced a proceeding against MasterCard and a number of its customers concerning MasterCard Europe's domestic interchange fees in Italy. MasterCard, as well as each of the banks involved in the proceeding, offered to give certain undertakings to the ICA, which were rejected (which rejection MasterCard has appealed). On May 28, 2010, the ICA issued a Statement of Objections to MasterCard and the banks. MasterCard will have the opportunity to respond both in writing and at a hearing to the Statement of Objections and, if a negative decision is reached, to appeal the decision. A negative decision could result in MasterCard and/or its customers being fined and, if not reversed on appeal, could have a significant adverse impact on the revenues of MasterCard's Italian customers and on MasterCard's overall business in Italy.

Switzerland. On July 2, 2010, MasterCard received a notice from the Swiss Competition Authority (WEKO) that, based upon complaints, WEKO had opened an investigation of MasterCard's domestic debit acquirer fees and ordered MasterCard to discontinue charging the fees. MasterCard responded to the notice on July 9, 2010. A negative decision could result in MasterCard being fined and ordered to stop collecting the fees. If WEKO were to issue a negative decision regarding the fees and order MasterCard to stop collecting them, and the decision was not reversed on appeal, such a decision could have a significant adverse impact on the revenues of MasterCard and its overall business in Switzerland.

Australia. In 2002, the Reserve Bank of Australia (RBA) announced regulations under the Payments Systems (Regulation) Act of 1998 applicable to four-party credit card payment systems in Australia, including MasterCard's. Those regulations, among other things, mandate the use of a formula for determining domestic interchange fees that effectively caps their weighted average at 50 basis points. Operators of three-party systems, such as American Express and Diners Club, were unaffected by the interchange fee regulation. In 2007, the RBA commenced a review of such regulations and, on September 26, 2008, the RBA released its final conclusions. These indicated that the RBA was willing to withdraw its regulations if MasterCard and Visa made certain undertakings regarding the future levels of their respective credit card interchange fees and other practices, including their honor all cards rules. If the undertakings were not made, the RBA said it would consider imposing in 2009 additional regulations that could further reduce the domestic interchange fees of MasterCard and Visa in Australia. On August 26, 2009, the RBA announced that it had decided not to withdraw its regulations and that it would maintain them in their current form pending further consideration of the regulations. MasterCard plans to continue discussions with the RBA as to the nature of the undertakings that MasterCard may be willing to provide. The effect of the undertakings or any such additional regulations could put MasterCard at an even greater competitive disadvantage relative to competitors in Australia that purportedly do not operate four-party systems or, in the case of the undertakings, possibly increase MasterCard's legal exposure under Australian competition laws, which could have a significant adverse impact on MasterCard's business in Australia.

South Africa. On August 4, 2006, the South Africa Competition Commission created a special body, the Jali Enquiry (the Enquiry), to examine competition in the payments industry in South Africa, including interchange fees. After nearly two years of investigation, including several rounds of public hearings in which MasterCard participated, on June 25, 2008, the Enquiry published an Executive Summary of its findings. The Enquiry's full report was made public on December 12, 2008. The Enquiry recommends, among other things, that an independent authority be established to set payment card interchange fees in South Africa and that payment systems (including MasterCard's) respective honor all cards rules be modified to give merchants greater freedom to choose which types of cards to accept. The Enquiry's report is non-binding but is under active consideration by South African regulators. If adopted, the Enquiry's recommendations could have a significant adverse impact on MasterCard's business in South Africa.

MASTERCARD INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

Other Jurisdictions. In January 2006, a German retailers association filed a complaint with the Federal Cartel Office (FCO) in Germany concerning MasterCard s domestic default interchange fees. The complaint alleges that MasterCard s German domestic interchange fees are not transparent to merchants and include so-called extraneous costs . On December 21, 2009, the FCO sent MasterCard a questionnaire concerning its domestic interchange fees.

In July 2009, the Canadian Competition Bureau informed MasterCard that it intends to review MasterCard s interchange fees and related rules, such as the honor all cards and no surcharge rules.

On June 5, 2010, the Ukrainian Competition Authority issued MasterCard a comprehensive information request concerning its rules and domestic fees in response to a complaint filed by a Ukrainian banking association.

MasterCard is aware that regulatory authorities and/or central banks in certain other jurisdictions including Belgium, Brazil, Colombia, Czech Republic, Estonia, France, Israel, Latvia, the Netherlands, Norway, Slovakia, Turkey and Venezuela are reviewing MasterCard s and/or its members interchange fees and/or related practices (such as the honor all cards rule) and may seek to regulate the establishment of such fees and/or such practices.

Note 18. Settlement and Travelers Cheque Risk Management

MasterCard International s rules generally guarantee the payment of certain MasterCard, Cirrus and Maestro branded transactions between its principal members. The term and amount of the guarantee are unlimited. Settlement risk is the exposure to members under MasterCard International s rules (Settlement Exposure), due to the difference in timing between the payment transaction date and subsequent settlement. Settlement Exposure is estimated using the average daily card volumes during the quarter multiplied by the estimated number of days to settle. The Company has global risk management policies and procedures, which include risk standards, to provide a framework for managing the Company s settlement risk. Member-reported transaction data and the transaction clearing data underlying the settlement risk calculation may be revised in subsequent reporting periods.

In the event that MasterCard International effects a payment on behalf of a failed member, MasterCard International may seek an assignment of the underlying receivables. Subject to approval by the Board of Directors, members may be charged for the amount of any settlement loss incurred during the ordinary activities of the Company.

MasterCard requires certain members that are not in compliance with the Company s risk standards in effect at the time of review to post collateral, typically in the form of cash, letters of credit, or guarantees. This requirement is based on management review of the individual risk circumstances for each member that is out of compliance. In addition to these amounts, MasterCard holds collateral to cover variability and future growth in member programs. The Company also holds collateral to pay merchants in the event of merchant bank/acquirer failure. Although it is not contractually obligated under MasterCard International s rules to effect such payments to merchants, the Company may elect to do so to protect brand integrity. MasterCard monitors its credit risk portfolio on a regular basis and the adequacy of collateral on hand. Additionally, from time to time, the Company reviews its risk management methodology and standards. As such, the amounts of estimated settlement risk are revised as necessary.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

Estimated Settlement Exposure, and the portion of the Company's uncollateralized Settlement Exposure for MasterCard-branded transactions that relates to members that are deemed not to be in compliance with, or that are under review in connection with, the Company's risk management standards, were as follows:

	June 30, 2010	December 31, 2009
	(In millions)	
MasterCard-branded transactions:		
Gross Settlement Exposure	\$ 25,727	\$ 26,373
Collateral held for Settlement Exposure	(3,196)	(2,759)
Net uncollateralized Settlement Exposure	\$ 22,531	\$ 23,614
Uncollateralized Settlement Exposure attributable to non-compliant members	\$ 174	\$ 211
Cirrus and Maestro transactions:		
Gross Settlement Exposure	\$ 2,559	\$ 3,433

Although MasterCard holds collateral at the member level, the Cirrus and Maestro estimated settlement exposures are calculated at the regional level. Therefore, these settlement exposures are reported on a gross basis, rather than net of collateral.

Of the total uncollateralized Settlement Exposure under the MasterCard brand, the United States accounted for approximately 42% and 40% at June 30, 2010 and December 31, 2009, respectively. No individual country other than the United States accounted for more than 10% of total uncollateralized Settlement Exposure at either June 30, 2010 or December 31, 2009. Of the total uncollateralized Settlement Exposure attributable to non-compliant members, five members represented approximately 66% and 56% at June 30, 2010 and December 31, 2009, respectively.

MasterCard guarantees the payment of MasterCard-branded travelers cheques in the event of issuer default. The guarantee estimate is based on all outstanding MasterCard-branded travelers cheques, reduced by an actuarial determination of cheques that are not anticipated to be presented for payment. The term and amount of the guarantee are unlimited. MasterCard calculated its MasterCard-branded travelers cheques exposure under this guarantee as \$366 million and \$401 million at June 30, 2010 and December 31, 2009, respectively. The reduction in travelers cheques exposure is attributable to MasterCard-branded travelers cheques no longer being issued.

A significant portion of the Company's travelers cheques risk is concentrated in one MasterCard travelers cheques issuer. MasterCard obtained an unlimited guarantee estimated at \$282 million and \$313 million at June 30, 2010 and December 31, 2009, respectively, from a financial institution that is a member, to cover all of the exposure of outstanding travelers cheques with respect to such issuer. In addition, MasterCard obtained a limited guarantee estimated at \$14 million as of June 30, 2010 and December 31, 2009 from a financial institution that is a member in order to cover the exposure of outstanding travelers cheques with respect to another issuer. These guarantee amounts have also been reduced by an actuarial determination of travelers cheques that are not anticipated to be presented for payment.

Beginning in 2008, many of the Company's financial institution customers were directly and adversely impacted by the unprecedented events that occurred in the financial markets around the world. The ongoing economic turmoil presents increased risk that the Company may have to perform under its settlement and travelers cheque guarantees. General economic conditions and political conditions in countries in which MasterCard operates may also affect the Company's settlement risk. The Company's global risk management policies and procedures, which are revised and enhanced from time to time, continue to be effective as evidenced by the historically low level of losses that the Company has experienced from customer financial institution failures, including no losses in the last several years.

Edgar Filing: MASTERCARD INC - Form 10-Q

The Company enters into business agreements in the ordinary course of business under which the Company agrees to indemnify third parties against damages, losses and expenses incurred in connection with legal and other proceedings arising from relationships or transactions with the Company. As the extent of the Company's obligations under these agreements depends entirely upon the occurrence of future events, the Company's potential future liability under these agreements is not determinable.

Table of Contents**MASTERCARD INCORPORATED****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****Note 19. Foreign Exchange Risk Management**

The Company enters into foreign currency forward contracts to manage risk associated with anticipated receipts and disbursements which are either transacted in a non-functional currency or valued based on a currency other than its functional currencies. The Company also enters into foreign currency forward contracts to offset possible changes in value due to foreign exchange fluctuations of assets and liabilities denominated in foreign currencies. The objective of this activity is to reduce the Company's exposure to transaction gains and losses resulting from fluctuations of foreign currencies against its functional currencies.

The Company does not designate foreign currency forward contracts as hedging instruments pursuant to the accounting standards for derivative instruments and hedging activities. The Company records the change in the estimated fair value of the outstanding forward contracts at the end of the reporting period to its consolidated balance sheet and consolidated statement of operations.

As of June 30, 2010, all contracts to purchase and sell foreign currency had been entered into with customers of MasterCard International. MasterCard's outstanding forward contracts are classified by functional currency as summarized below:

U.S. Dollar Functional Currency

	June 30, 2010		December 31, 2009	
	Notional	Estimated Fair Value ¹	Notional	Estimated Fair Value ¹

Total	\$ (4)	\$ (19)	\$ (10)	\$ (19)

¹ Amounts represent gross fair value amounts while these amounts may be netted for actual balance sheet presentation. The currencies underlying the foreign currency forward contracts consist primarily of the Australian dollar, Canadian dollar, Chinese renminbi, euro, Korean won, Mexican peso, Turkish lira and U.K. pound sterling. The fair

Table of Contents

MASTERCARD INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)

value of the foreign currency forward contracts generally reflects the estimated amounts that the Company would receive or (pay), on a pre-tax basis, to terminate the contracts at the reporting date based on broker quotes for the same or similar instruments. The terms of the foreign currency forward contracts are generally less than 18 months. The Company had no deferred gains or losses in accumulated other comprehensive income as of June 30, 2010 and December 31, 2009 as there were no derivative contracts accounted for under hedge accounting.

The Company's derivative financial instruments are subject to both credit and market risk. Credit risk is the risk of loss due to failure of the counterparty to perform its obligations in accordance with contractual terms. Market risk is the potential change in an instrument's value caused by fluctuations in interest rates and other variables related to currency exchange rates. Credit and market risk related to derivative instruments were not material at June 30, 2010 and December 31, 2009.

Generally, the Company does not obtain collateral related to forward contracts because of the high credit ratings of the counterparties. The amount of loss the Company would incur if the counterparties failed to perform according to the terms of the contracts is not considered material.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the consolidated financial statements and notes of MasterCard Incorporated and its consolidated subsidiaries, including MasterCard International Incorporated (MasterCard International) and MasterCard Europe sprl (MasterCard Europe) (together, MasterCard or the Company) included elsewhere in this Report. Percentage changes provided throughout Management's Discussion and Analysis of Financial Condition and Results of Operations were calculated on amounts rounded to the nearest thousand.

Forward-Looking Statements

This Report on Form 10-Q contains forward-looking statements pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. When used in this Report, the words believe, expect, could, may, would, will and similar words are intended to identify forward-looking statements. These forward-looking statements relate to the Company's future prospects, developments and business strategies and include, without limitation, the continuation of economic recovery in the Company's Asia/Pacific and Latin America regions, and the Company's belief in the continuing trend from paper-based forms of payment toward electronic forms of payment and its ability to drive growth by: further penetrating its existing customer base and by expanding its role in targeted geographies and higher-growth segments of the global payments industry, pursuing incremental payment processing opportunities throughout the world, enhancing its relationships with merchants, continuing to develop e-commerce capabilities, building and commercializing payment innovations, expanding points of acceptance for its brands, seeking to maintain unsurpassed acceptance and continuing to invest in its brands, increasing its volume of business with customers over time and increasing global MasterCard brand awareness preference and usage through integrated advertising, sponsorships and related activity on a global scale. Many factors and uncertainties relating to our operations and business environment, all of which are difficult to predict and many of which are outside of our control, influence whether any forward-looking statements can or will be achieved. Any one of those factors could cause our actual results to differ materially from those expressed or implied in writing in any forward-looking statements made by MasterCard or on its behalf. We believe there are certain risk factors that are important to our business, and these could cause actual results to differ from our expectations. Reference should be made to Part I, Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2009 and an update to the risk factors in Item 1A Risk Factors of this Report for a complete discussion of these risk factors.

In this Report, references to the Company, MasterCard, we, us or our refer to the MasterCard brand generally, and to the business conducted by MasterCard Incorporated and its consolidated subsidiaries, including our principal operating subsidiary, MasterCard International Incorporated (d/b/a MasterCard Worldwide).

Overview

MasterCard is a leading global payment solutions company that provides a variety of services in support of the credit, debit and related payment programs of approximately 23,000 financial institutions and other entities that are our customers. We develop and market payment solutions, process payment transactions, and provide support services to our customers and, depending upon the service, to merchants and other clients. We manage a family of well-known, widely accepted payment card brands, including MasterCard®, MasterCard Electronic®, Maestr® and Cirrus®, which we license to our customers. As part of managing these brands, we also establish and enforce rules and standards surrounding the use of our payment card network. We generate revenues from the fees that we charge our customers for providing transaction processing and other payment-related services and by assessing our customers based primarily on the dollar volume of activity on the cards that carry our brands. Cardholder and merchant relationships are managed principally by our customers. Accordingly, we do not issue cards, extend credit to cardholders, determine the interest rates (if applicable) or other fees charged to cardholders by issuers, or establish the merchant discount charged by acquirers in connection with the acceptance of cards that carry our brands.

Our net income was \$458 million, or \$3.49 per diluted share, and \$913 million, or \$6.95 per diluted share, for the three and six months ended June 30, 2010, respectively, versus net income of \$349 million, or \$2.67 per diluted share, and \$716 million, or \$5.47 per diluted share, for the three and six months ended June 30, 2009. As of June 30, 2010, our liquidity and capital positions remained strong, with \$3.2 billion in cash and cash equivalents and current available-for-sale securities and \$4.1 billion in equity. In addition, during the six months ended June 30, 2010, we generated cash flows from operations of \$438 million.

Table of Contents

Our net revenues increased 6.7% and 9.7% in the three and six months ended June 30, 2010, respectively, versus the comparable periods in 2009. These increases were primarily due to increased dollar volume of activity on cards carrying our brands, higher pricing and increased transactions. During the three and six months ended June 30, 2010, net pricing actions contributed approximately 4 and 5 percentage points, respectively, to our net revenue growth. These net pricing actions included price increases during 2009 and 2010, which were partially offset by an increase in cross-border rebates and the repeal of pricing relating to our interim arrangement with the European Commission.

Overall, revenue growth was moderated by an increase in rebates and incentives relating to higher cross-border rebates to encourage certain behaviors of customers, new and renewed customer agreements and increased volumes. Rebates and incentives as a percentage of gross revenues were 25.3% in each of the three and six months ended June 30, 2010 versus 21.2% and 21.8%, respectively, for the comparable periods in 2009.

Our revenues depend heavily upon the overall level of consumer, business and government spending. Changes in cardholder spending behavior, influenced by economic environments, may impact our ability to grow our revenues. Our revenues are primarily based on volumes and transactions. In the three and six months ended June 30, 2010, volume-based revenues (domestic assessments and cross-border volume fees) and transaction-based revenues (transaction processing fees) increased compared to the three and six months ended June 30, 2009. Our volumes are impacted by the number of transactions and the dollar amount of each transaction. During the three and six months ended June 30, 2010, our volumes increased 8.5% and 8.4% on a local currency basis and our processed transactions increased 0.1% and 2.3%, respectively. This compares to a decline in volumes of 0.3% and 0.1% on a local currency basis and increased processed transactions of 7.7% and 6.7% during the three and six months ended June 30, 2009, respectively. Our growth in processed transactions in 2010 is lower than in 2009 due to debit portfolio losses in the U.S. and U.K. Those debit portfolio losses impacted revenues to a lesser extent than the percentage decrease in the number of transactions due to the pricing of those products and portfolios.

Our operating expenses decreased 10.4% and 4.7% in the three and six months ended June 30, 2010, respectively, versus the comparable periods in 2009 due to lower general and administrative expenses. The decline was primarily due to lower personnel expenses as a result of a realignment of resources in 2009.

Our ratios of operating income as a percentage of net revenues, or operating margins, were 52.6% and 53.0% in the three and six months ended June 30, 2010, respectively, versus 43.5% and 45.9%, respectively, in the comparable periods in 2009.

We believe the trend within the global payments industry from paper-based forms of payment, such as cash and checks, toward electronic forms of payment, such as payment card transactions, creates significant opportunities for the growth of our business over the longer term. See [-Business Environment](#) for a discussion of environmental considerations related to our long-term strategic objectives.

Business Environment

We process transactions from more than 210 countries and territories and in more than 150 currencies. The United States is our largest geographic market based on revenues. Net revenue generated in the United States was approximately 45.3% and 46.4% of total revenues in the three and six months ended June 30, 2010, respectively, versus 49.0% and 48.7%, respectively, in the comparable periods in 2009. No individual country, other than the United States, generated more than 10% of total revenues in the three or six months ended June 30, 2010 or 2009, but differences in market maturity, economic health, price changes and foreign exchange fluctuations in certain countries have increased the proportion of revenues generated outside the United States over time. While the global nature of our business helps protect our operating results from adverse economic conditions in a single or a few countries, the significant concentration of our revenues generated in the United States makes our business particularly susceptible to adverse economic conditions in the United States.

Table of Contents

The competitive and evolving nature of the global payments industry provides both challenges to and opportunities for the continued growth of our business. Unprecedented events which began during 2008 have impacted the financial markets around the world, including continued distress in the credit environment, continued equity market volatility and additional government intervention. In particular, the economies of the United States and the United Kingdom have been significantly impacted by this economic turmoil, and it is also impacting other economies around the world. More recently, European countries including Portugal, Ireland, Greece and Spain have experienced downgrades in sovereign credit ratings by ratings agencies, driven by fiscal challenges. Some existing customers have been placed in receivership or administration or have a significant amount of their stock owned by their governments. Many financial institutions are facing increased regulatory and governmental influence, including potential further changes in laws and regulations. Many of our financial institution customers, merchants that accept our brands and cardholders who use our brands have been directly and adversely impacted.

MasterCard's financial results may be negatively impacted by actions taken by individual financial institutions or by governmental or regulatory bodies in response to the economic crisis. The severity of the economic environment may accelerate the timing of or increase the impact of risks to our financial performance that have historically been present. As a result, our revenue growth has been and may be negatively impacted, or the Company may be impacted in several ways, including but not limited to the following:

Declining economies, foreign currency fluctuations and the pace of economic recovery can change consumer spending behaviors; for example, a significant portion of our revenues is dependent on cross-border travel patterns, which may continue to change.

Constriction of consumer and business confidence, such as in recessionary environments and those markets experiencing relatively high unemployment, may continue to cause decreased spending by cardholders.

Our customers may restrict credit lines to cardholders or limit the issuance of new cards to mitigate increasing cardholder defaults.

Uncertainty and volatility in the performance of our customers' businesses may make estimates of our revenues, rebates, incentives and realization of prepaid assets less predictable.

Our customers may implement cost reduction initiatives that reduce or eliminate payment card marketing or increase requests for greater incentives or greater cost stability.

Our customers may decrease spending for optional or enhanced services.

Government intervention, including the effect of laws, regulations and/or government investments in our customers, may have potential negative effects on our business with those banking institutions or otherwise alter their strategic direction away from our products.

Tightening of credit availability could impact the ability of participating financial institutions to lend to us under the terms of our credit facility.

Our customers may default on their settlement obligations. See Note 18 (Settlement and Travelers Cheque Risk Management) to the consolidated financial statements included in Part I, Item 1 for further discussion of our settlement exposure.

Edgar Filing: MASTERCARD INC - Form 10-Q

Our business and prospects, as well as our revenue and profitability, could be materially and adversely affected by consolidation of our customers. See Consolidation or other changes affecting the banking industry could result in a loss of business for MasterCard and may result in lower prices and/or more favorable terms for our customers, which may materially and adversely affect our revenues and profitability in Part I, Item 1A (Risk Factors) of the Company's Annual Report on Form 10-K for the year ended December 31, 2009 for further discussion.

In addition, our business and our customers' businesses are subject to regulation in many countries. Regulatory bodies may seek to impose rules and price controls on certain aspects of our business and the payments industry. For example, see Note 17 (Legal and Regulatory Proceedings) to the consolidated financial statements included in Part I, Item 1 and Part I, Item 1A (Risk Factors) of the Company's Annual Report on Form 10-K for the year ended December 31, 2009 for further discussion. Furthermore, in July 2010, the United States enacted into law the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Financial Reform Act). See Part II, Item 1A, (Risk Factors) for further discussion.

MasterCard continues to monitor the extent and pace of economic recovery around the world to identify opportunities for the continued growth of our business and to evaluate the evolution of the global payments industry. For example, in our Asia/Pacific and Latin American regions we have now experienced a few quarters of significant increases in dollar volume of activity on cards carrying our brands in those regions. In addition, in recent months in the U.S. we have observed mixed economic indicators, including retail

Table of Contents

spending and unemployment rates. Notwithstanding some encouraging trends, the extent and pace of economic recovery in various regions remains uncertain and the overall business environment may present challenges for MasterCard to grow its business.

Our strategy is to continue to grow by further penetrating our existing customer base and by expanding our role in targeted geographies and higher-growth segments of the global payments industry (such as premium/affluent, quick-service/low value, commercial/small business, debit, prepaid and issuer and acquirer processor services), pursuing incremental processing opportunities throughout the world, enhancing our merchant relationships, continuing to develop e-commerce capabilities, building and commercializing payment innovations, expanding points of acceptance for our brands, seeking to maintain unsurpassed acceptance and continuing to invest in our brands. We are committed to providing our customers with coordinated services through integrated and dedicated account teams in a manner that allows us to capitalize on our expertise in payment programs, marketing, product development, technology, processing and consulting and information services for these customers. By investing in strong customer relationships over the long term, we believe that we can increase our volume of business with customers over time.

Financial Results

Our operating results for the three and six months ended June 30, 2010 and 2009, were as follows:

	For the Three Months Ended June 30,		Percent Increase (Decrease)	For the Six Months Ended June 30,		Percent Increase (Decrease)
	2010	2009	2010 vs. 2009	2010	2009	2010 vs. 2009

Table of Contents

Impact of Foreign Currency Rates

Our overall operating results are impacted by changes in foreign currency exchange rates, especially the strengthening or weakening of the U.S. dollar versus the euro and Brazilian real. The functional currency of MasterCard Europe, our principal European operating subsidiary, is the euro, and the functional currency of our Brazilian subsidiary is the Brazilian real. Accordingly, the strengthening or weakening of the U.S. dollar versus the euro and Brazilian real impacts the translation of our European and Brazilian subsidiaries' operating results into the U.S. dollar. During the three and six months ended June 30, 2010, the U.S. dollar strengthened against the euro and weakened against the Brazilian real, as compared to the comparable periods in 2009. However, the strengthening of the U.S. dollar against the euro was more significant during the three months ended June 30, 2010 as compared to the six months ended June 30, 2010. Accordingly, during the three months ended June 30, 2010, the net foreign currency impact of the euro and Brazilian real unfavorably impacted net revenue growth by 1.2 percentage points and favorably impacted net revenue growth by 0.7 percentage points during the six months ended June 30, 2010. Operating expenses were favorably impacted by 0.7 percentage points and unfavorably impacted by 0.4 percentage points during the three and six months ended June 30, 2010, respectively.

In addition, changes in foreign currency exchange rates directly impact the calculation of gross dollar volume (GDV) and gross euro volume (GEV), which are used in the calculation of our domestic assessments, cross-border volume fees and volume related rebates and incentives. In most non-European regions, GDV is calculated based on local currency spending volume converted to U.S. dollars using average exchange rates for the period. In Europe, GEV is calculated based on local currency spending volume converted to euros using average exchange rates for the period. As a result, our domestic assessments, cross-border volume fees and volume related rebates and incentives are impacted by the strengthening or weakening of the U.S. dollar versus most non-European local currencies and the strengthening or weakening of the euro versus European local currencies. The strengthening or weakening of the U.S. dollar is evident when GDV on a U.S. dollar-converted basis is compared to GDV on a local currency basis. In the three and six months ended June 30, 2010, GDV increased 9.8% and 12.2%, respectively, when measured on a U.S. dollar converted basis and increased 8.5% and 8.4%, respectively, when measured on a local currency basis, versus the comparable periods in 2009.

Revenues

Revenue Descriptions

MasterCard's business model involves four participants in addition to us: cardholders, merchants, issuers (the cardholders' banks) and acquirers (the merchants' banks). Our gross revenues are typically based on the volume of activity on cards that carry our brands, the number of transactions we process for our customers or the nature of other payment-related services we provide to our customers. Our revenues are based upon transactional information accumulated by our systems or reported by our customers. Our primary revenue billing currencies are the U.S. dollar, euro and Brazilian real.

We process transactions denominated in more than 150 currencies through our global system, providing cardholders with the ability to utilize, and merchants to accept, MasterCard cards across multiple country borders. We process most of the cross-border transactions using MasterCard, Maestro and Cirrus-branded cards and process the majority of MasterCard-branded domestic transactions in the United States, United Kingdom, Canada, Brazil and Australia.

Our pricing is complex and is dependent on the nature of the volumes, types of transactions and other products and services we offer to our customers. A combination of the following factors determines the pricing:

Domestic or cross-border

Signature-based (credit and off-line debit) or PIN-based (on-line debit, including automated teller machine (ATM) cash withdrawals and retail purchases)

Tiered pricing, with rates decreasing as customers meet incremental volume/transaction hurdles

Geographic region or country

Retail purchase or cash withdrawal

Table of Contents

Cross-border transactions generate greater revenue than domestic transactions for a transaction of the same amount, since cross-border fees are higher than domestic fees. We review our pricing and implement pricing changes on an on-going basis and expect pricing to continue to be a component of revenue growth in the future. In addition, standard pricing varies among our regional businesses, and such pricing can be customized further for our customers through incentive and rebate agreements.

The Company classifies its net revenues into the following five categories:

1. **Domestic assessments:** Domestic assessments are fees charged to issuers and acquirers based primarily on the volume of activity on MasterCard and Maestro-branded cards where the merchant country and the cardholder country are the same. A portion of these assessments is estimated based on aggregate transaction information collected from our systems and projected customer performance and is calculated by converting the aggregate volume of usage (purchases, cash disbursements, balance transfers and convenience checks) from local currency to the billing currency and then multiplying by the specific price. In addition, domestic assessments include items such as card assessments, which are fees charged on the number of cards issued or assessments for specific purposes, such as acceptance development or market development programs. Acceptance development fees are charged primarily to U.S. issuers based on components of volume, and support our focus on developing merchant relationships and promoting acceptance at the point of sale.
2. **Cross-border volume fees:** Cross-border volume fees are charged to issuers and acquirers based on the volume of activity on MasterCard and Maestro-branded cards where the merchant country and the cardholder country are different. Cross-border volume fees are calculated by converting the aggregate volume of usage (purchases and cash disbursements) from local currency to the billing currency and then multiplying by the specific price. Cross-border volume fees also include fees, charged to issuers, for performing currency conversion services.
3. **Transaction processing fees:** Transaction processing fees are charged for both domestic and cross-border transactions and are primarily based on the number of transactions. These fees are calculated by multiplying the number and type of transactions by the specific price for each service. Transaction processing fees include charges for the following:

Transaction Switching Authorization, Clearing and Settlement.

- a. *Authorization* refers to a process in which a transaction is approved by the issuer or, in certain circumstances such as when the issuer's systems are unavailable or cannot be contacted, by MasterCard or others on behalf of the issuer in accordance with either the issuer's instructions or applicable rules. MasterCard's rules, which vary across regions, establish the circumstances under which merchants and acquirers must seek authorization of transactions. Fees for authorization are primarily paid by issuers.
- b. *Clearing* refers to the exchange of financial transaction information between issuers and acquirers after a transaction has been completed. Fees for clearing are primarily paid by issuers.
- c. *Settlement* refers to facilitating the exchange of funds between parties. Fees for settlement are primarily paid by issuers.

Connectivity fees are charged to issuers and acquirers for network access, equipment and the transmission of authorization and settlement messages. These fees are based on the size of the data being transmitted through and the number of connections to the Company's network.

Edgar Filing: MASTERCARD INC - Form 10-Q

4. **Other revenues:** Other revenues for other payment-related services are primarily dependent on the nature of the products or services provided to our customers but are also impacted by other factors, such as contractual agreements. Examples of other revenues are fees associated with the following:

Fraud products and services used to prevent or detect fraudulent transactions. This includes warning bulletin fees which are charged to issuers and acquirers for listing invalid or fraudulent accounts either electronically or in paper form and for distributing this listing to merchants.

Table of Contents

Cardholder services fees are for benefits provided with MasterCard-branded cards, such as insurance, telecommunications assistance for lost cards and locating automated teller machines.

Consulting and research fees are primarily generated by MasterCard Advisors, the Company's professional advisory services group. The Company's business agreements with certain customers and merchants may include consulting services as an incentive. The contra-revenue associated with these incentives is included in rebates and incentives.

The Company also charges for a variety of other payment-related services, including compliance and penalty fees, account and transaction enhancement services, holograms and publications.

5. **Rebates and incentives (contra-revenue):** Rebates and incentives are provided to certain MasterCard customers and are recorded as contra-revenue in the same period that performance occurs. Performance periods vary depending on the type of rebate or incentive, including commitments to the agreement term, hurdles for volumes, transactions or issuance of new cards and the launch of new programs or the execution of marketing programs. Rebates and incentives are calculated based on estimated performance, the timing of new and renewed agreements and the terms of the related business agreements.

Revenue Analysis

Gross revenues increased \$204 million and \$459 million, or 12.6% and 14.7%, in the three and six months ended June 30, 2010, respectively, versus the comparable periods in 2009, primarily due to increased dollar volume of activity on cards carrying our brands, higher pricing and increased transactions. Rebates and incentives as a percentage of gross revenues were 25.3% in each of the three and six months ended June 30, 2010, respectively, versus 21.2% and 21.8%, respectively, for the comparable periods in 2009. Our net revenues increased 6.7% and 9.7% in the three and six months ended June 30, 2010, respectively, versus the comparable periods in 2009.

Pricing changes increased net revenues by approximately 4 and 5 percentage points during the three and six months ended June 30, 2010, respectively. These net pricing changes included price increases during 2009 and 2010, which were partially offset by an approximate 4 percentage point increase in cross-border rebates and an approximate 2 percentage point decrease relating to the October 2008 pricing changes which were repealed at the end of June 2009 as part of our interim arrangement with the European Commission. See Note 17 (Legal and Regulatory Proceedings) to the consolidated financial statements included in Part I, Item 1 for more information.

The significant components of our net revenues were as follows for the three and six months ended June 30:

	For the Three Months Ended June 30,		Dollar Increase	Percent Increase	For the Six Months Ended June 30,		Dollar Increase	Percent Increase
	2010	2009	(Decrease) 2010 vs. 2009	(Decrease) 2010 vs. 2009	2010	2009	(Decrease) 2010 vs. 2009	(Decrease) 2010 vs. 2009
	(In millions, except percentages)							
Domestic assessments	\$ 650	\$ 586	\$ 64	11.0 %	\$ 1,237	\$ 1,139	\$ 98
