Gross profit was RMB496.6 million (USD73.2 million), as compared to RMB537.9 million in 1Q10 and RMB454.5 million in 2Q09

Operating profit was RMB221.5 million (USD32.7 million), as compared to RMB323.2 million in 1Q10 and RMB279.7 million in 2Q09. Non-GAAP operating profit² was RMB246.5 million (USD36.4 million), as compared to RMB344.9 million in 1Q10 and RMB300.0 million in 2Q09

Net income attributable to the Company's shareholders was RMB196.6 million (USD29.0 million), as compared to RMB305.2 million in 1Q10 and RMB262.6 million in 2Q09. Non-GAAP net income attributable to the Company's shareholders was RMB221.7 million (USD32.7 million), as compared to RMB327.0 million in 1Q10 and RMB282.9 million in 2Q09

Basic and diluted earnings per ADS³ were RMB3.93 (USD0.58) and RMB3.71 (USD0.55), respectively, as compared to RMB6.12 and RMB5.75, respectively, in 1Q10, and RMB5.21 and RMB4.94, respectively, in 2Q09. Non-GAAP basic and diluted earnings per ADS² were RMB4.43 (USD0.65) and RMB4.19 (USD0.62), respectively, as compared to RMB6.56 and RMB6.16, respectively, in 1Q10, and RMB5.61 and RMB5.32, respectively, in 2Q09

Acquired C&C Media Co., Ltd. (C&C Media), a Japanese online game operator, to capture the growth opportunities in Japan and expand the Company's overseas operating capabilities

Acquired a majority stake in Runic Games, Inc. (Runic Games), a specialized developer of PC-based entertainment software in the U.S, to further enhance the Company's strong R&D capabilities

¹ The U.S. dollar (USD) amounts disclosed in this press release, except for those transaction amounts that were actually settled in U.S. dollars, are presented solely for the convenience of the reader. The conversion of Renminbi (RMB) into USD in this release is based on the noon buying rate in The City of New York for cable transfers in RMB per USD as certified for customs purposes by the Federal Reserve Bank of New York as of June 30, 2010, which was RMB6.7815 to USD1.00. The percentages stated in this press release are calculated based on the RMB amounts.

² As used in this press release, non-GAAP operating profit, non-GAAP net income attributable to the Company's shareholders and non-GAAP earnings per ADS are defined to exclude share-based compensation charge from operating profit, net income attributable to the Company's shareholders and earnings per ADS, respectively. See Non-GAAP Financial Measures and Reconciliation of GAAP and Non-GAAP Results at the end of this press release.

³ Each ADS represents five ordinary shares.

The second quarter results largely came in line with our expectations, commented Mr. Michael Chi, Chairman and Chief Executive Officer of Perfect World. The slight sequential revenue decline in the second quarter was primarily due to our efforts to decelerate some promotional and monetization activities within our games, in order to further nurture our games and lengthen the lifecycles.

Our pipeline remains strong, with genuinely differentiated 2D, 2.5D and 3D games, and our specialized game engines and production studios are allowing us to build solid franchises in each of these market segments. We are excited about a number of the games in our pipeline, but as we learned from past experience, it is best for us to take time in testing and fine tuning new games before officially launching them in order to avoid potential issues and the risks of losing players at what is essentially the most critical period of a new game. We are excited about a number of our upcoming projects, including *Forsaken World*, our newest 3D Western-themed MMORPG and *Dragon Excalibur*, our first 2D real-time MMORPG. We are also anticipating the launch of *XiaoAoJiangHu*, which will be known as *Swordsman Online* in Western markets. Based on a famous martial arts novel written by renowned author Louis Cha, the game is highly anticipated by gamers.

One of our main competitive advantages continues to be in research and development. We continue to invest in and build our R&D team to further strengthen our game development capabilities and enhance our ability to create new and innovative games. During the quarter, we acquired a majority stake in Runic Games, a top-tier game development studio based in the U.S., which has immediately strengthened our global R&D capabilities. By collaborating with Runic Games' professional and experienced team, we seek to create global titles that cater to the tastes of both Eastern and Western gamers.

We continue to strengthen our overseas penetration and are pleased with our development. We signed several licensing agreements and launched a number of our games in various markets through overseas game operators during the second quarter. We acquired C&C Media, our long-time Japanese operation partner, to further expand our overseas operating capabilities and capture the growth opportunities in Japan. Our North American operations are also seeing healthy growth as we continue to launch games through our wholly-owned subsidiary in U.S. We will also be launching our games in Europe through our European subsidiary in the near future.

Acquiring companies that are complementary to our core business remains a large part of our growth strategy. We continue to see much potential in the broader entertainment industry in China and believe that our further involvement in this industry will lead to future benefits to our core business through content generation and co-promotion. As a part of this strategy, one of our controlled entities, Beijing Perfect World Cultural Communication Co., Ltd., recently signed agreements to invest in Beijing Xinbaoyuan Movie & TV Investment Co., Ltd. and Shanghai Baohong Entertainment & Media Co., Ltd. and take majority stakes in these companies. Both of these companies are engaged in the film and television production and distribution business. We are excited to work together with such a reputable team to further the development of the entertainment industry in China.

With the continued rise of the number of internet users in China, we believe there are vast opportunities for the strongest players in the online game industry. As we continue to strengthen our platform by investing in R&D and expanding through acquisitions, we have experienced some added pressure on margin and temporary fluctuations in our results. However, we believe this is a necessary step for the long-term benefit of our Company and remain confident in our ability to sustain growth with our strong development and operation team, stable portfolio of existing games, and exciting pipeline. We have noted the price at which our ADSs are currently trading and have considered our financial positions, in particular, the cash currently available to us. We are considering a potential share repurchase program, but such program will need to be approved by our board of directors. We will announce the details of the program if and when we receive the approval from the board. As we continue to allocate resources to longer-term projects to lengthen the life cycle of our games, we will remain focused on managing the steady, long-term growth of our Company while maximizing shareholder value over time.

Second Quarter 2010 Financial Results

Total Revenues

Total revenues were RMB594.2 million (USD87.6 million) in 2Q10, as compared to RMB625.0 million in 1Q10 and RMB521.3 million in 2Q09.

Online game operation revenues were RMB533.3 million (USD78.6 million) in 2Q10, as compared to RMB569.7 million in 1Q10 and RMB475.1 million in 2Q09. The slight decline in online game operation revenues from 1Q10 was primarily due to the deceleration of some of the in-game promotions and monetization activities in the second quarter, in order to further nurture the Company's existing games and lengthen the life cycles of the games, and was partially offset by additional online game operation revenues from Japan as the Company acquired C&C Media in the second quarter.

The aggregate average concurrent users (ACU) for games under operation in mainland China was approximately 886,000 in 2Q10, as compared to 993,000 in 1Q10 and 761,000 in 2Q09. The active paying customers (APC) for games operated in mainland China under the item-based revenue model was approximately 1,433,000 in 2Q10, as compared to 1,670,000 in 1Q10 and 1,877,000 in 2Q09. The average revenue per active paying customer (ARPU) for games operated in mainland China under the item-based revenue model was RMB292 in 2Q10, as compared to RMB306 in 1Q10 and RMB237 in 2Q09. The decline in ACU from 1Q10 was mainly due to the underperformance of a recently launched new game, as well as more stringent anti-cheating efforts adopted by the Company. The decline in APC and ARPU from 1Q10 was mainly due to the deceleration of some of the in-game promotions and monetization activities by the Company in the second quarter.

Overseas licensing revenues were RMB55.1 million (USD8.1 million) in 2Q10, as compared to RMB53.4 million in 1Q10 and RMB46.2 million in 2Q09. The increase from 1Q10 was mainly attributed to the successful launch of "Pocketpet Journey West" in Korea, "Battle of the Immortals" in Vietnam and "Zhu Xian" in Korea and Russia through various local operators, and was partially offset by a decrease in licensing revenues from Japan as the Company acquired C&C Media, its Japanese operation partner, and started to consolidate C&C Media's online game operation revenues in 2Q10.

Film, television and other revenues were RMB5.7 million (USD0.8 million) in 2Q10, as compared to RMB2.0 million in 1Q10 and Nil in 2Q09.

Cost of Revenues

The cost of revenues was RMB97.6 million (USD14.4 million) in 2Q10, as compared to RMB87.1 million in 1Q10 and RMB66.8 million in 2Q09.

The online game related cost was RMB96.9 million (USD14.3 million) in 2Q10, as compared to RMB87.1 million in 1Q10 and RMB66.8 million in 2Q09. The increase from 1Q10 was mainly a result of the consolidation of C&C Media, which currently operates six games in Japan.

The film, television and other cost was RMB718,946 (USD106,016) in 2Q10, as compared to RMB24,887 in 1Q10 and Nil in 2Q09.

Gross Profit and Gross Margin

Gross profit was RMB496.6 million (USD73.2 million) in 2Q10, as compared to RMB537.9 million in 1Q10 and RMB454.5 million in 2Q09. Gross margin was 83.6% in 2Q10, as compared to 86.1% in 1Q10 and 87.2% in 2Q09.

Operating Expenses

Operating expenses were RMB275.1 million (USD40.6 million) in 2Q10, as compared to RMB214.8 million in 1Q10 and RMB174.9 million in 2Q09. The increase in operating expenses from 1Q10 was attributed to higher sales and marketing expenses, R&D expenses and general and administrative expenses.

Sales and marketing expenses were RMB121.0 million (USD17.8 million) in 2Q10, as compared to RMB82.2 million in 1Q10 and RMB72.7 million in 2Q09. The increase from 1Q10 was mainly a result of the consolidation of C&C Media, higher advertising and promotional expenses associated with the launch of large expansion packs for Zhu Xian and Fantasy Zhu Xian, and expenses related to attending a nationwide industrial exhibition in the U.S. in 2Q10.

R&D expenses were RMB90.7 million (USD13.4 million) in 2Q10, as compared to RMB77.8 million in 1Q10 and RMB65.0 million in 2Q09. The increase from 1Q10 was primarily due to an increase in staff cost as the Company continued to expand its R&D talent pool, and as a result of the consolidation of Runic Games. This was partially offset by the capitalization of development costs of RMB11.0 million (USD1.6 million) for the two online games under testing.

General and administrative expenses were RMB63.5 million (USD9.4 million) in 2Q10, as compared to RMB54.8 million in 1Q10 and RMB37.2 million in 2Q09. The increase from 1Q10 mainly resulted from the consolidation of C&C Media, partially offset by a decrease in professional service expenses.

Operating Profit

Operating profit was RMB221.5 million (USD32.7 million) in 2Q10, as compared to RMB323.2 million in 1Q10 and RMB279.7 million in 2Q09. Non-GAAP operating profit was RMB246.5 million (USD36.4 million) in 2Q10, as compared to RMB344.9 million in 1Q10 and RMB300.0 million in 2Q09.

Total Other Income

Total other income was RMB4.7 million (USD0.7 million) in 2Q10, as compared to RMB10.5 million in 1Q10 and RMB2.6 million in 2Q09.

Income Tax Expense

Income tax expense was RMB29.6 million (USD4.4 million) in 2Q10, as compared to RMB28.7 million in 1Q10 and RMB19.8 million in 2Q09.

Net Income Attributable to the Company's Shareholders

Net income attributable to the Company's shareholders was RMB196.6 million (USD29.0 million) in 2Q10, as compared to RMB305.2 million in 1Q10 and RMB262.6 million in 2Q09. Non-GAAP net income attributable to the Company's shareholders was RMB221.7 million (USD32.7 million) in 2Q10, as compared to RMB327.0 million in 1Q10 and RMB282.9 million in 2Q09.

Basic and diluted earnings per ADS were RMB3.93 (USD0.58) and RMB3.71 (USD0.55), respectively, in 2Q10, as compared to RMB6.12 and RMB5.75, respectively, in 1Q10, and RMB5.21 and RMB4.94, respectively, in 2Q09. Non-GAAP basic and diluted earnings per ADS were RMB4.43 (USD0.65) and RMB4.19 (USD0.62), respectively, in 2Q10, as compared to RMB6.56 and RMB6.16, respectively, in 1Q10, and RMB5.61 and RMB5.32, respectively, in 2Q09.

Cash and Cash Equivalents

As of June 30, 2010, the Company had RMB1,719.9 million (USD253.6 million) of cash and cash equivalents, as compared to RMB1,876.9 million as of March 31, 2010. The decrease was mainly due to the investment made in C&C Media and the cash outflow for investment in time deposit, and was partially offset by a net cash inflow generated from the Company's online game operations.

Recent Developments

Strategic Investment in Xinbaoyuan and Baohong

In July 2010, Beijing Perfect World Cultural Communication Co., Ltd. (PW Cultural), an entity controlled by the Company, entered into agreements to invest approximately RMB110.0 million and RMB82.3 million in cash, respectively, in Beijing Xinbaoyuan Movie & TV Investment Co., Ltd. (Xinbaoyuan) and Shanghai Baohong Entertainment & Media Co., Ltd. (Baohong) and take majority stakes in these companies. Both Xinbaoyuan and Baohong are engaged in the film and television program production and distribution business and have been controlled and managed by Ms. Ding Xin, a well-respected veteran in the field of television content distribution, and Mr. Zhao Baogang, a renowned director, who have led a team of veteran industry professionals to produce a number of award winning television shows. The expertise, creativity and innovation, and strong reputation of both companies in the film and television industry are expected to bring new, future growth opportunities to the Company, while creating synergies with the Company's core gaming business primarily through content generation and co-promotion.

Business Outlook

Based on the Company's current operations, total revenues for the third quarter of 2010 are expected to be between RMB594 million and RMB624 million, representing an increase of 0% to 5% on a sequential basis. This reflects expected growth from the online game operations.

Non-GAAP Financial Measures

To supplement the financial measures prepared in accordance with generally accepted accounting principals in the United States, or GAAP, this press release presents non-GAAP operating profit, non-GAAP net income attributable to the Company's shareholders and non-GAAP earnings per ADS by excluding share-based compensation charge from operating profit, net income attributable to the Company's shareholders and earnings per ADS, respectively. The Company believes these non-GAAP financial measures are important to help investors understand the Company's operating and financial performance, compare business trends among different reporting periods on a consistent basis and assess the Company's core operating results, as they exclude certain expenses that are not expected to result in cash payments. The use of the above non-GAAP financial measures has certain limitations. Share-based compensation charge has been and will continue to be incurred and is not reflected in the presentation of the non-GAAP financial measures. It should be considered in the overall evaluation of our results. None of the non-GAAP measures is a measure of net income attributable to the Company's shareholders, operating profit, operating performance or liquidity presented in accordance with GAAP. We compensate for these limitations by providing the relevant disclosure of our share-based compensation charge in our reconciliations to the most directly comparable GAAP financial measures, which should be considered when evaluating our performance. These non-GAAP financial measures should be considered in addition to financial measures prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, financial measures prepared in accordance with GAAP. Reconciliation of each of these non-GAAP financial measures to the most directly comparable GAAP financial measure are set forth at the end of this release.
