2. NEW ACCOUNTING PRONOUNCEMENTS

Fair Value Measurements

In January 2010, the Financial Accounting Standards Board issued additional guidance that requires new disclosures regarding significant transfers in and out of Level 1 and Level 2 fair value measurements and additional information on the roll forward of Level 3 fair value measurements. This guidance also clarified the existing provisions on determining the appropriate classes of assets and liabilities to be reported and disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. This additional guidance is effective for interim and annual periods beginning after December 15, 2009, with the exception of the new requirements in the Level 3 roll forward, which will be effective for fiscal years beginning after December 15, 2010. We adopted these provisions effective January 1, 2010, and they did not have a material impact on our disclosures. We do not expect the new requirements related to the Level 3 roll forward to have an impact on our disclosures.

3. INVESTMENT IN NUSTAR ENERGY

On May 19, 2010, NuStar Energy issued 4,400,000 common units representing limited partner interests at a price of \$56.55 per unit. NuStar Energy received proceeds of \$240.1 million, net of issuance cost. In conjunction with NuStar Energy's issuance of common units, we contributed \$5.1 million to NuStar Energy in order to maintain our 2% general partner interest and our ownership in NuStar Energy was reduced from 18.7% at December 31, 2009 to 17.7% at September 30, 2010. This issuance resulted in a gain of \$7.8 million for the nine months ended September 30, 2010, which is included in Other income, net on our consolidated statements of income, and represents the increase in the value of our proportionate share of NuStar Energy's capital.

GP Services Agreement

NuStar Energy and NuStar GP, LLC, a wholly owned subsidiary of NuStar GP Holdings, entered into a services agreement, effective as of January 1, 2008 (the GP Services Agreement). The GP Services Agreement provides that NuStar GP, LLC will furnish administrative and certain operating services necessary to conduct the business of NuStar Energy. All employees providing services to both NuStar GP Holdings and NuStar Energy are employed by NuStar GP, LLC; therefore, NuStar Energy reimburses NuStar GP, LLC for all employee costs, other than the expenses allocated to NuStar GP Holdings (the Holdco Administrative Services Expense).

Beginning with the 2009 fiscal year and for each fiscal year thereafter, the Holdco Administrative Services Expense totals \$1.1 million plus 1.0% of NuStar GP, LLC's domestic bonus and unit-based compensation expense, subject to certain other adjustments. The GP Services Agreement will terminate on December 31, 2012, with automatic two-year renewals unless terminated by either party upon six months' prior written notice. The aggregate amounts of Holdco Administrative Services Expense that we incurred were \$0.3 million for the three months ended September 30, 2010 and 2009, and \$1.0 million for the nine months ended September 30, 2010 and 2009.

6. FAIR VALUE MEASUREMENTS

We segregate the inputs used in measuring fair value into three levels: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists.

The following liabilities are measured at fair value on a recurring basis:

	Level 1	September 30, 2010		Total

Expected volatility	36.1%

8. CREDIT FACILITY

Edgar Filing: NuStar GP Holdings, LLC - Form 10-Q

On July 15, 2010, we entered into a 364-day revolving credit facility (2010 Credit Facility) that matures on July 14, 2011 with a borrowing capacity of up to \$30.0 million, of which, up to \$10.0 million may be available for letters of credit. Interest on the 2010 Credit Facility is based upon, at our option, either an alternative base rate plus 1.75% or a LIBOR-based rate plus 2.75%, which was 3.1% as of September 30, 2010. These interest rates are 1.75% lower than the rates that were in effect under our previous revolving credit facility, which matured on July 16, 2010 (2009 Credit Facility).

During the second quarter of 2010, we borrowed \$5.2 million under the 2009 Credit Facility mainly to fund our \$5.1 million contribution to NuStar Energy to maintain our 2% general partner interest following its issuance of common units in May 2010. On July 15, 2010, we borrowed \$19.5 million under the 2010 Credit Facility to repay in full the balance on the 2009 Credit Facility. As of September 30, 2010, we had availability of \$10.5 million for borrowings under the 2010 Credit Facility. The carrying amount of the 2010 Credit Facility approximated its fair value as of September 30, 2010.

Table of Contents**NUSTAR GP HOLDINGS, LLC****CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The terms of the 2010 Credit Facility, which are similar to those under the 2009 Credit Facility, require NuStar Energy to maintain a total debt-to-EBITDA ratio of less than 5.0-to-1.0 for any four consecutive quarters, subject to adjustment following certain acquisitions. We are also required to receive cash distributions of at least \$35.0 million in respect of our ownership interests in NuStar Energy for the preceding four fiscal quarters ending on the last day of each fiscal quarter. Our management believes that we are in compliance with the covenants, including the debt-to-EBITDA ratio, which was 4.6x as of September 30, 2010.

9. COMMITMENTS AND CONTINGENCIES*Litigation and Environmental Matters*

We are not currently a party to any material legal proceedings. However, NuStar Energy is subject to certain loss contingencies, the outcome of which could have an effect on NuStar Energy's results of operations and ability to pay distributions, which would impact our results of operations and ability to pay distributions. NuStar Energy's material contingent liabilities resulting from various litigation, claims and commitments are discussed below.

Grace Energy Corporation Matter. In 1997, Grace Energy Corporation (Grace Energy) sued subsidiaries of Kaneb Pipe Line Partners, L.P. (KPP) and Kaneb Services LLC (KSL and collectively with KPP and their respective subsidiaries, Kaneb) in Texas state court. NuStar Energy acquired Kaneb on July 1, 2005. The complaint sought recovery of the cost of remediation of fuel leaks in the 1970s from a pipeline that had once connected a former Grace Energy terminal with Otis Air Force Base in Massachusetts (Otis AFB). Grace Energy alleges the Otis AFB pipeline and related environmental liabilities had been transferred in 1978 to an entity that was part of Kaneb's acquisition of Support Terminal Services, Inc. and its subsidiaries from Grace Energy in 1993. Kaneb contends that it did not acquire the Otis AFB pipeline and never assumed any responsibility for any associated environmental damage.

In 2000, the court entered final judgment that: (i) Grace Energy could not recover its own remediation costs of \$3.5 million, (ii) Kaneb owned the Otis AFB pipeline and its related environmental liabilities and (iii) Grace Energy was awarded \$1.8 million in attorney costs. Both Kaneb and Grace Energy appealed the final judgment of the trial court to the Texas Court of Appeals in Dallas. In 2001, Grace Energy filed a petition in bankruptcy, which created an automatic stay of actions against Grace Energy. In September 2008, Grace Energy filed its Joint Plan of Reorganization and Disclosure Statement.

The Otis AFB is a part of a Superfund Site pursuant to the Comprehensive Environmental Response Compensation and Liability Act (CERCLA). The site contains a number of groundwater contamination plumes, two of which are allegedly associated with the Otis AFB pipeline. Relying on the final judgment of the Texas state court assigning ownership of the Otis AFB pipeline to Kaneb, the U.S. Department of Justice (the DOJ) advised Kaneb in 2001 that it intends to seek reimbursement from Kaneb for the remediation costs associated with the two plumes. In November 2008, the DOJ forwarded information to NuStar Energy indicating that the past and estimated future remediation expenses associated with one plume are \$71.9 million. The DOJ has indicated that they will not seek recovery of remediation costs for the second plume. The DOJ has not filed a lawsuit against NuStar Energy related to this matter, and NuStar Energy has not made any payments toward costs incurred by the DOJ. NuStar Energy is currently in settlement discussions with other potentially responsible parties and the DOJ, and a change in NuStar Energy's estimate of this liability may occur in the near term. However, any settlement agreement that is reached must be approved by multiple parties and requires the approval of the bankruptcy court and the federal district court. NuStar Energy cannot currently estimate when or if a settlement will be finalized.

Eres Matter. In August 2008, Eres N.V. (Eres) forwarded a demand for arbitration to CITGO Asphalt Refining Company (CARCO), CITGO Petroleum Corporation (CITGO), NuStar Asphalt Refining, LLC (NuStar Asphalt) and NuStar Marketing LLC (NuStar Marketing, and together with CARCO, CITGO and NuStar Asphalt, the Defendants) contending that the Defendants are in breach of a tanker voyage charter party agreement, dated November 2004, between Eres and CARCO (the Charter Agreement). The Charter Agreement provides for CARCO's use of Eres' vessels for the shipment of asphalt. Eres contends that NuStar Asphalt and/or NuStar Marketing (together, the NuStar Entities) assumed the Charter Agreement when NuStar Asphalt purchased the CARCO assets, and that the Defendants have failed to perform under the Charter Agreement since January 1, 2008. Eres has valued its damages for the alleged breach of contract claim at approximately \$78.1 million. Pursuant

and to be obligated to defend and indemnify CITGO and CARCO against Eres' claims. The Defendants were ordered to proceed with arbitration. NuStar Energy intends to vigorously defend against Eres' claims in arbitration.

Other

NuStar Energy is also a party to additional claims and legal proceedings arising in the ordinary course of its business. Due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on NuStar Energy's results of operations, financial position or liquidity. It is possible that if one or more of the matters described above were decided against NuStar Energy, the effects could be material to its results of operations in the period in which it would be required to record or adjust the related liability and could also be material to its cash flows in the periods it would be required to pay such liability.

NuStar Energy's net income increased \$3.9 million for the three months ended September 30, 2010, compared to the three months ended September 30, 2009, primarily due to an increase in segment operating income, partially offset by an increase in general and administrative expenses. NuStar Energy's segment operating income increased \$11.0 million for the three months ended September 30, 2010, compared to the three months ended September 30, 2009, due to increased operating income from all of its reportable business segments.

NuStar Energy's per unit distributions for the three months ended September 30, 2010 increased, compared to the three months ended September 30, 2009, from \$1.065 to \$1.075. That increase, coupled with an increase in the number of NuStar Energy units outstanding resulting from the issuance of units in the fourth quarter of 2009 and the second quarter of 2010, resulted in NuStar Energy increasing its total cash distributions. Since our IDR in NuStar Energy entitle us to an increasing amount of NuStar Energy's cash distributions, our equity in earnings of NuStar Energy related to our IDR also increased for that period.

Our equity in earnings related to our limited partner interest in NuStar Energy decreased for the three months ended September 30, 2010, compared to the three months ended September 30, 2009, due to a decrease in NuStar Energy's net income per unit.

Other income, net

Other income, net increased for the nine months ended September 30, 2010, compared to the nine months ended September 30, 2009 due to NuStar Energy's issuance of 4,400,000 common units in May 2010. This issuance resulted in a gain of \$7.8 million representing the increase in the value of our proportionate share of NuStar Energy's capital.

Table of Contents

OUTLOOK

Overall, NuStar Energy expects its net income in the fourth quarter to be lower than the third quarter mainly due to lower earnings from its asphalt operations. Asphalt sales typically decline in the fourth quarter for seasonal reasons, including decreased road construction during colder months. However, NuStar Energy expects earnings from its fuels marketing operations, transportation segment and storage segment to improve compared to the third quarter, but not enough to offset the lower earnings from its asphalt operations.

For the full year 2010, NuStar Energy's net income should be higher than 2009 due to increases in the earnings from all three of its reportable segments. However, NuStar Energy's earnings per unit likely will decline due to the dilutive effect of its equity issuances in 2009 and 2010.

NuStar Energy's Storage Segment

NuStar Energy expects the remainder of 2010 to continue to benefit from higher renewal rates and incremental earnings from the acquisition of three terminals in May 2010. Also, this segment should realize higher earnings from capital projects that NuStar Energy completed during 2009 as well as certain capital projects expected to be completed late in 2010. As a result, NuStar Energy expects the storage segment results for the full year 2010 to exceed 2009.

NuStar Energy's Transportation Segment

Excluding the effect of pipeline sales that occurred in 2009, NuStar Energy expects throughputs for the full year 2010 to increase slightly over 2009 primarily due to higher demand in its mid-continent region and higher utilization rates at certain of its customers' refineries. Therefore, NuStar Energy expects the full year 2010 earnings for this segment to improve compared to 2009 despite the fact that the tariffs on its pipelines regulated by the Federal Energy Regulatory Commission, which adjust annually based upon changes in the producer price index, were reduced by 1.3 percent effective July 1, 2010.

NuStar Energy's Asphalt and Fuels Marketing Segment

NuStar Energy expects the asphalt and fuels marketing segment results to increase for the full year 2010 compared to 2009 due mainly to higher earnings from the fuels marketing operations. NuStar Energy's fuels marketing operations should benefit from improved results from sales of bunker fuel and fuel oil as well as refined product and crude trading. However, NuStar Energy expects the full year results from its asphalt operations to be comparable to 2009.

NuStar Energy's outlook could change depending on, among other things, the pace of the economic recovery, and other factors that affect overall demand for the products it stores, transports and sells as well as changes in commodity prices for the products it markets.

We expect our equity in earnings of NuStar Energy to increase or decrease consistent with NuStar Energy's earnings.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES****General**

Our cash flows consist of distributions from NuStar Energy on our partnership interests, including all of the IDR that we own. Due to our ownership of NuStar Energy's IDR, our portion of NuStar Energy's total distributions may exceed our ownership interest in NuStar Energy. Our primary cash requirements are for distributions to members, capital contributions to maintain our 2% general partner interest in NuStar Energy in the event that NuStar Energy issues additional units, debt service requirements, if any, benefit plan funding and general and administrative expenses. In addition, because NuStar GP, LLC, a wholly owned subsidiary of NuStar GP Holdings, elected to be treated as a taxable entity in August 2006, we may be required to pay income taxes, which may exceed the amount of tax expense recorded in the consolidated financial statements. We expect to fund our cash requirements primarily with the quarterly cash distributions we receive from NuStar Energy and borrowings under our revolving credit facility, if necessary. Additionally, NuStar Energy reimburses us for all costs incurred on their behalf, primarily employee-related costs.

Cash Distributions from NuStar Energy

NuStar Energy pays quarterly distributions within 45 days following the end of each quarter based on the partnership interests outstanding as of a record date that is set after the end of each quarter. Cash Flows for the Nine Months Ended September 30, 2010 and 2009

Cash distributions received from NuStar Energy were \$61.2 million for the nine months ended September 30, 2010, which we used principally to fund distributions to our unitholders totaling \$57.2 million. We borrowed \$5.2 million for the nine months ended September 30, 2010 to fund our \$5.1 million contribution to NuStar Energy in order to maintain our 2% general partner interest following its issuance of common units in May 2010. This issuance resulted in a gain of \$7.8 million, which is included on the statement of cash flows as an adjustment to reconcile net income to net cash provided by operating activities. Additionally, for the nine months ended September 30, 2010, we purchased \$7.4 million of NuStar Energy units to satisfy awards granted in connection with unit-based compensation.

Cash distributions received from NuStar Energy were \$57.2 million for the nine months ended September 30, 2009, which we used principally to fund distributions to our unitholders totaling \$54.8 million. We repaid \$6.5 million of long-term debt during the nine months ended September 30, 2009 from available cash on hand, due to the impending maturity of our three-year revolving credit facility.

Table of Contents***Credit Facility***

On July 15, 2010, we entered into a 364-day revolving credit facility (2010 Credit Facility) that matures on July 14, 2011 with a borrowing capacity of up to \$30.0 million, of which, up to \$10.0 million may be available for letters of credit. Interest on the 2010 Credit Facility is based upon, at our option, either an alternative base rate plus 1.75% or a LIBOR-based rate plus 2.75%, which was 3.1% as of September 30, 2010. These interest rates are 1.75% lower than the rates that were in effect under our previous revolving credit facility, which matured on July 16, 2010 (2009 Credit Facility).

During the second quarter of 2010, we borrowed \$5.2 million under the 2009 Credit Facility mainly to fund our \$5.1 million contribution to NuStar Energy to maintain our 2% general partner interest following its issuance of common units in May 2010. On July 15, 2010, we borrowed \$19.5 million under the 2010 Credit Facility to repay in full the balance on the 2009 Credit Facility. As of September 30, 2010, we had availability of \$10.5 million for borrowings under the 2010 Credit Facility. The carrying amount of the 2010 Credit Facility approximated its fair value as of September 30, 2010.

The terms of the 2010 Credit Facility, which are similar to those under the 2009 Credit Facility, require NuStar Energy to maintain a total debt-to-EBITDA ratio of less than 5.0-to-1.0 for any four consecutive quarters, subject to adjustment following certain acquisitions. We are also required to receive cash distributions of at least \$35.0 million in respect of our ownership interests in NuStar Energy for the preceding four fiscal quarters ending on the last day of each fiscal quarter. Our management believes that we are in compliance with the covenants, including the debt-to-EBITDA ratio, which was 4.6x as of September 30, 2010.

Investment in NuStar Energy

In May 2010, NuStar Energy issued 4,400,000 common units representing limited partner interests at a price of \$56.55 resulting in net proceeds of \$240.1 million. In connection with this issuance, we contributed \$5.1 million to NuStar Energy to maintain our 2% general partner interest.

Cash Distributions to Unitholders

Our limited liability company agreement requires that, within 50 days after the end of each quarter, we distribute all of our available cash to the holders of record of our units on the applicable record date. The table set forth below shows our cash distributions applicable to the period in which the distributions were earned:

Please refer to Note 4 of Condensed Notes to Consolidated Financial Statements for total related party transactions charged to and amounts due from NuStar Energy related to these and other transactions, and a description of agreements.

Contingencies

As previously discussed, our only cash-generating assets are our indirect ownership interests in NuStar Energy.
