CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that involve risks and uncertainties. The words anticipate, believe, plan, estimate, expect, strive, future, intend and similar expressions are intended to identify such forward-looking statements. Our actual results could differ materially from the results anticipated in these forward-looking statements as a result of certain factors set forth under Management's Discussion and Analysis of Financial Condition and Results of Operations, Quantitative and Qualitative Disclosures about Market Risk and elsewhere in this report. Risks and uncertainties that could cause actual results to differ include, without limitation, general economic conditions, competition, loss of key personnel, pricing, brand reputation, consumer trends, acquisitions, new initiatives undertaken by us, security and information systems, legal liability for website content, merchandise supply problems, failure of third parties to provide adequate service, our reliance on centralized customer service, overstocks and merchandise returns, our reliance on a centralized fulfillment center, increases in postage and shipping costs, E-commerce trends, future Internet related taxes, our founder's control of us, fluctuations in quarterly operating results, customer interest in our products, the effect of government regulation and other risks and uncertainties included in our filings with the Securities and Exchange Commission. We caution you that no forward-looking statement is a guarantee of future performance, and you should not place undue reliance on these forward-looking statements which reflect our view only as of the date of this report. We undertake no obligation to update any forward-looking information.

PART I. FINANCIAL INFORMATION

Item 1. Financial Statements (Unaudited)

Unaudited Interim Condensed Consolidated Financial Statements

We have prepared our unaudited interim condensed consolidated financial statements included herein pursuant to the rules and regulations of the United States Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to these rules and regulations, although we believe that the disclosures made are adequate to make the information not misleading. In our opinion, the unaudited interim condensed financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly, in all material respects, our consolidated financial position as of March 31, 2011, the interim results of operations for the three months ended March 31, 2011 and 2010, and cash flows for the three months ended March 31, 2011 and 2010. These interim statements have not been audited. The balance sheet as of December 31, 2010 was derived from our audited consolidated financial statements included in our annual report on Form 10-K. The interim condensed consolidated financial statements contained herein should be read in conjunction with our audited financial statements, including the notes thereto, for the year ended December 31, 2010.

Notes to interim condensed consolidated financial statements

1. Organization, Nature of Operations, and Principles of Consolidation

References in this report to we, us, our or Gaiam refer to Gaiam, Inc. and its consolidated subsidiaries, unless we indicate otherwise. We are a lifestyle media company providing a broad selection of information, media, products and services to customers who value personal development, wellness, ecological lifestyles, responsible media and conscious community. We were incorporated under the laws of the State of Colorado on July 7, 1988.

We have prepared the accompanying unaudited interim condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States, or GAAP, and they include our accounts and those of our subsidiaries. Intercompany transactions and balances have been eliminated.

The unaudited condensed consolidated financial position, results of operations and cash flows for the interim periods disclosed in this report are not necessarily indicative of future financial results.

2. Significant Accounting Policies

No changes were made to our significant accounting policies during the three months ended March 31, 2011.

We have evaluated events subsequent to March 31, 2011 and concluded that no material event has occurred which would impact either the results reflected in this report or our results going forward.

Use of Estimates and Reclassifications

The preparation of financial statements in accordance with GAAP requires us to make estimates and assumptions that affect the amounts reported in the accompanying financial statements and disclosures. Although we base these estimates on our best knowledge of current events and actions that we may undertake in the future, actual results may be different from the estimates. We have made certain reclassifications to prior period amounts to conform to the current period presentations.

3. Equity

During the first three months of 2011, we issued 2,651 of our Class A common shares under our 2009 Long-Term Incentive Plan to our independent directors, in lieu of cash compensation, for services rendered in 2011 and issued 7,700 of our Class A common shares upon exercise of options under our 1999 Long-Term Incentive Plan.

Our subsidiary, Real Goods Solar, Inc. (Real Goods Solar), issued 5,661 of its Class A common shares valued at \$15 thousand to compensate independent board members for services rendered during the first quarter of 2011. As of March 31, 2011, we owned 54.6% of Real Goods Solar.

Gaiam and Real Goods Solar both valued the shares issued to their respective independent directors at estimated fair value based on the closing price of their respective stock on the date the shares were issued, which by policy is the last trading day of each quarter in which the services were rendered.

Table of Contents**5. Share-Based Payments**

During the first quarter of 2011, we cancelled 6,300 stock options previously issued under our 1999 and 2009 Long-Term Incentive Plans. Total share-based compensation expense recognized was \$0.4 million for each of the three months ended March 31, 2011 and 2010, and is shown in corporate, general and administration expenses on our condensed consolidated statements of operations.

Also during the first quarter of 2011, Real Goods Solar granted 34,000 new stock options and cancelled 13,000 stock options under the Real Goods Solar 2008 Long-Term Incentive Plan. The new stock options vest 2% per month over 50 months commencing in the eleventh month following the date of grant.

6. Net Loss Per Share Attributable To Gaiam, Inc. Common Shareholders

Basic net loss per share attributable to Gaiam, Inc. common shareholders excludes any dilutive effects of options. We compute basic net loss per share attributable to Gaiam, Inc. common shareholders using the weighted average number of common shares outstanding during the period. We compute diluted net loss per share attributable to Gaiam, Inc. common shareholders using the weighted average number of common shares and common stock equivalents outstanding during the period. We excluded common stock equivalents of 469,000 and 596,000 from the computation of diluted net loss per share attributable to Gaiam, Inc. common shareholders for the three months ended March 31, 2011 and 2010, respectively, because their effect was antidilutive.

The following table sets forth the computation of basic and diluted net loss per share attributable to Gaiam, Inc. common shareholders:

| (in thousands, except per share data) | Three Months Ended | |
|--|--------------------|-----------|
| | March 31, | |

| Net loss per share attributable to Gaiam, Inc. common shareholders diluted | \$ (0.04) | \$ (0.01) |

7. Segment Information

We manage our business and aggregate our operational and financial information in accordance with three reportable segments. The direct to consumer segment contains direct response marketing program, catalog, Internet, and subscription community sales channels; the business segment comprises retailer, media, and corporate account channels; and the solar segment reflects solar energy businesses.

Although we are able to track revenues by sales channel, the management, allocation of resources and analysis and reporting of expenses is presented on a combined basis, at the reportable segment level. Contribution margin is defined as net revenue less cost of goods sold and total operating expenses.

Item 2. Management's discussion and analysis of financial condition and results of operations

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the condensed consolidated financial statements and related notes included elsewhere in this document. This section is designed to provide information that will assist in understanding our condensed consolidated financial statements, changes in certain items in those statements from period to period, the primary factors that caused those changes and how certain accounting principles, policies and estimates affect the condensed consolidated financial statements.

Overview and Outlook

We are a lifestyle media company providing a broad selection of information, media, products and services to customers who value personal development, wellness, ecological lifestyles, and responsible media.

We offer our customers the ability to make purchasing decisions and find responsible content based on these values while providing quality offerings at a price comparable to mainstream alternatives.

Our media brand is built around our ability to develop and offer media content, products, and lifestyle solutions to consumers in the LOHAS market. We market our media and products through a multi-channel approach including traditional media channels, direct to consumers via the Internet, direct response marketing, subscriptions, catalogs, and through national retailers, digital partners and corporate accounts.

Our content forms the basis of our proprietary offerings, which then drive demand for parallel product and service offerings. Our operations are vertically integrated from content creation, through product development and sourcing, to customer service and distribution. We market our products and services across three segments: business, direct to consumer, and solar. We distribute the majority of our products in our business and direct to consumer segments from our fulfillment center or drop-ship products directly to customers. We also utilize a third party replication and fulfillment center for media distribution in our business segment.

Edgar Filing: GAIAM, INC - Form 10-Q

Our business segment sells directly to retailers, with our products available in approximately 64,000 retail doors in the United States. During the first quarter of 2011, this segment generated revenue of \$19.5 million, down from \$22.6 million during the first quarter of 2010, primarily attributable to low in-stock levels at our largest retail customer due to the retailer's replenishment delays and reduced sales to Borders resulting from its reorganization. We have been working closely with our retail partner to correct the low in-stock issue and began to see improvements in mid-April. At the end of the first quarter of 2011, we had our store within store presentations, which include custom fixtures that we design, in over 14,600 locations. In 2008, we created a media category management role that is part of our long term strategy and a key step in securing shelf space for media. We have now expanded this strategy to approximately 5,600 doors.

Through its diverse media reach, the direct to consumer segment provides an opportunity to launch and support new media releases, a sounding board for new product testing, promotional opportunities, a growing subscription base, and customer feedback on us and on the LOHAS industry's focus and future. During the first quarter of 2011, this segment generated revenues of \$17.9 million, down from \$24.6 million during the first quarter of 2010, primarily due to a \$7.7 million sales decline resulting from our previously disclosed plans to lower our direct response television advertising spend, partially offset by positive comparables in our catalog and internet businesses.

Table of Contents

Our solar segment offers residential and commercial solar energy integration services. On May 13, 2008, our solar energy integration business consummated an initial public offering and has since been managed as a separate segment. This business has grown its sales and expanded its market territories. During the first quarter of 2011, this segment generated revenues of \$17.4 million, up from \$15.0 million during the first quarter of 2010, due to organic growth, which has been primarily driven by an increase in marketing and sales initiatives. Real Goods Solar has and will continue to use its IPO proceeds to fund its working capital needs and general corporate purposes, which may include future acquisitions of businesses.

We believe our growth will be driven by media content, products, and services delivered to the consumer via Internet, retailers, licensing, electronic downloads and subscriptions. We have increased our focus on fitness media content creation and distribution, and media category management at retailers. Our licensing agreements have expanded our distribution within the non-theatrical media category.

We believe a number of factors are important to our long-term success, including increasing our branded store within a store presence, expanding category management into new retailers and genres, increasing international growth by expanding into new markets primarily through license arrangements, extending our product lines and enhancing our multimedia platform community through new media opportunities, new membership programs, initiatives and acquisitions.

Net revenue. Net revenue decreased \$7.4 million, or 11.9%, to \$54.8 million during the first quarter of 2011 from \$62.2 million during the first quarter of 2010. Net revenue in our business segment decreased \$3.1 million, or 13.7%, to \$19.5 million during the first quarter of 2011 from \$22.6 million during the first quarter of 2010, primarily due to low in-stock levels at our largest retail customer as a result of the retailer's replenishment delays and reduced sales to Borders resulting from its reorganization. We have been working closely with our retail partner to correct the low in-stock issue and began to see improvements in mid-April. Net revenue in our direct to consumer segment decreased \$6.7 million to \$17.9 million during the first quarter of 2011 from \$24.6 million during the first quarter of 2010, primarily attributable to a \$7.7 million sales decline resulting from our previously disclosed plans to lower spending for direct response television advertising, partially offset by positive comparables in our catalog and internet businesses. Net revenue in our solar segment increased \$2.4 million to \$17.4 million during the first quarter of 2011 from \$15.0 million during the first quarter of 2010, due to organic growth, which has been primarily driven by an increase in marketing and sales initiatives.

Edgar Filing: GAIAM, INC - Form 10-Q

Cost of goods sold. Cost of goods sold decreased \$1.0 million, or 3.4%, to \$29.0 million during the first quarter of 2011 from \$30.0 million during the first quarter of 2010. As a percentage of net revenue, cost of goods sold increased to 52.8% during the first quarter of 2011 from 48.2% during the first quarter of 2010. Cost of goods sold in our business segment decreased \$1.5 million, or 13.0%, to \$10.2 million during the first quarter of 2011 from \$11.7 million during the first quarter of 2010 and, as a percentage of net revenue, increased slightly to 52.3% during the first quarter of 2011 from 51.9% during the first quarter of 2010, primarily due to a shift in product sales mix. Cost of goods sold in our direct to consumer segment decreased \$0.9 million, or 12.6%, to \$6.4 million during the first quarter of 2011 from \$7.3 million during the first quarter of 2010 and, as a percentage of net revenue, increased to 35.6% during the first quarter of 2011 from 29.6% during the first quarter of 2010, primarily reflecting \$7.7 million of reduced revenues in our lower cost of goods sold direct response television business, partially offset by increased revenues in our higher cost of goods sold catalog and internet businesses. Cost of goods sold in our solar segment increased \$1.4 million, or 13.0%, to \$12.4 million during the

first quarter of 2011 from \$11.0 million during the first quarter of 2010 and, as a percentage of net revenue, decreased to 71.1% during the first quarter of 2011 from 73.1% during the first quarter of 2010, primarily reflecting a shift towards lower cost of goods sold residential installations.

Selling and operating expenses. Selling and operating expenses decreased \$5.4 million, or 18.1%, to \$24.4 million during the first quarter of 2011 from \$29.8 million during the first quarter of 2010. As a percentage of net revenue, selling and operating expenses decreased to 44.5% during the first quarter of 2011 from 47.9% during the first quarter of 2010. This decrease is primarily a result of reducing direct response television advertising to a level we view as more optimal, partially offset by additional costs to develop our GaiamTV and digital delivery strategies.

Corporate, general and administration expenses. Corporate, general and administration expenses remained at \$3.0 million during first quarters of both 2011 and 2010. As of percentage of net revenue, corporate, general and administration expenses increased to 5.5% during the first quarter of 2011 from 4.8% during the first quarter of 2010 reflecting the fixed nature of these costs.

Net (income) loss attributable to noncontrolling interest. Net (income) loss attributable to noncontrolling interest was income of \$59 thousand during the first quarter of 2011 compared to a loss of \$69 thousand during the first quarter of 2010 primarily as a result of the improved earnings in our solar segment.

Net loss attributable to Gaiam, Inc. As a result of the above factors, net loss attributable to Gaiam, Inc. was \$1.0 million during the first quarter of 2011 compared to \$0.3 million during the first quarter of 2010. Net loss per share attributable to Gaiam, Inc. common shareholders was \$0.04 per share during the first quarter of 2011 compared to \$0.01 per share during the first quarter of 2010.

Seasonality

Our sales are affected by seasonal influences. On an aggregate basis, we generate our strongest revenues and net income in the fourth quarter due to increased holiday spending and retailer fitness purchases.

Liquidity and Capital Resources

Our capital needs arise from working capital required to fund operations, capital expenditures related to acquisition and development of media content, development of our Internet and community platforms and new products, acquisitions of new businesses, replacements, expansions and improvements to our infrastructure, and future growth. These capital requirements depend on numerous factors, including the rate of market acceptance of our product offerings, our ability to expand our customer base, the cost of ongoing upgrades to our product offerings, the level of expenditures for sales and marketing, the level of investment in distribution systems and facilities and other factors. The timing and amount of these capital requirements are variable and we cannot accurately predict them. Additionally, we will continue to pursue opportunities to expand our media libraries, evaluate possible investments in businesses, products and technologies, and increase our sales and marketing programs and brand promotions as needed.

We have a revolving line of credit agreement with a financial institution with a current expiration date of October 2, 2011, which we anticipate renewing upon expiration. The credit agreement permits borrowings up to the lesser of \$15 million or our borrowing base which is calculated based upon the collateral value of our accounts receivable, inventory, and certain property and equipment. Borrowings under this agreement bear interest at the prime rate, provided, however, that at no time will the rate be less than 4.25% per annum. Borrowings are secured by a pledge of certain of our assets, and the agreement contains various financial covenants, including covenants requiring compliance with certain financial ratios. At March 31, 2011, we had no amounts outstanding under this agreement; however, \$0.5 million was reserved for outstanding letters of credit. We believe we are in compliance with all of the financial covenants under this credit agreement.

Table of Contents**Cash Flows**

The following table summarizes our primary sources (uses) of cash during the periods presented:

| (in thousands) | Three Months Ended March 31, | |
|-----------------------------------|---------------------------------|----------|
| | 2011 | 2010 |
| Net cash provided by (used in): | | |
| Operating activities | \$ 3,243 | \$ 2,094 |
| Investing activities | (994) | (2,816) |
| Financing activities | 39 | 538 |
| Effects of exchange rates on cash | 24 | |
| Net change in cash | \$ 2,312 | \$ (184) |

Operating activities. Our operating activities provided net cash of \$3.2 million and \$2.1 million during the first quarters of 2011 and 2010, respectively. Our net cash provided by operating activities during the first quarter of 2011 was primarily attributable to decreased accounts receivable, inventory and income taxes receivable of \$18.1 million and noncash adjustments of \$0.9 million to our net loss, partially offset by decreased accounts payable and accrued liabilities of \$13.5 million, increased other current assets and deferred advertising costs of \$1.3 million, and a net loss of \$0.9 million. The reduction in accounts payable reflects payments for inventory purchases of holiday and fitness season shipments. Our net cash provided by operating activities during the first quarter of 2010 was primarily attributable to decreased accounts receivable, inventory and other current assets of \$11.8 million and noncash adjustments of \$2.1 million to our net loss, partially offset by decreased accounts payable of \$11.2 million and increased deferred advertising costs of \$0.6 million.

Investing activities. Our investing activities used net cash of \$1.0 million and \$2.8 million during the first quarters of 2011 and 2010, respectively. The net cash used in investing activities during the first quarter of 2011 was used primarily to acquire property and equipment to maintain normal operations for \$0.6 million and media content for \$0.4 million. The net cash used in investing activities during the first quarter of 2010 was used primarily to acquire licensing rights for the Discovery Channel's media catalog and other media content for \$2.4 million, and property and equipment to maintain normal operations for \$0.4 million.

Financing activities. Our financing activities provided net cash of \$39 thousand and \$0.5 million during the first quarters of 2011 and 2010, respectively, as a result of stock option exercise issuances and related tax benefits.

On January 11, 2011, we renewed a shelf registration statement on Form S-3 with the Securities and Exchange Commission for the unissued portion of the 5,000,000 shares of our Class A common stock that we originally registered on November 8, 2007. During the quarter ended March 31, 2011, no shares were issued under this shelf registration.

We believe our available cash, cash expected to be generated from operations, cash generated by the sale of our stock, and borrowing capabilities should be sufficient to fund our operations on both a short-term and long-term basis. However, our projected cash needs may change as a result of acquisitions, product development, unforeseen operational difficulties or other factors.

In the normal course of our business, we investigate, evaluate and discuss acquisition, joint venture, minority investment, strategic relationship and other business combination opportunities in the LOHAS market. For any future investment, acquisition or joint venture opportunities, we may consider using then-available liquidity, issuing equity securities or incurring additional indebtedness.

Contractual Obligations

We have commitments pursuant to lease agreements, but have no outstanding commitments pursuant to purchase obligations. The following table shows our commitments to make future payments under operating leases:

| (in thousands) | Total | < 1 year | 1-3 years | 3-5 years | > 5 years |
|----------------|-------|----------|-----------|-----------|-----------|
|----------------|-------|----------|-----------|-----------|-----------|

| | | | | | |
|-----------------------------|----------|----------|----------|----------|----|
| Operating lease obligations | \$ 6,826 | \$ 2,126 | \$ 3,470 | \$ 1,230 | \$ |

Risk Factors

We wish to caution you that there are risks and uncertainties that could cause our actual results to be materially different from those indicated by forward looking statements that we make from time to time in filings with the Securities and Exchange Commission, news releases, reports, proxy statements, registration statements and other written communications as well as oral forward looking statements made from time to time by our representatives. These risks and uncertainties include those risks listed in our Annual Report on Form 10-K for the year ended December 31, 2010. Historical results are not necessarily an indication of the future results. Except

for the historical information contained herein, the matters discussed in this analysis are forward-looking statements that involve risk and uncertainties, including, but not limited to, general economic and business conditions, competition, pricing, brand reputation, consumer trends, and other factors which are often beyond our control. We do not undertake any obligation to update forward-looking statements except as required by law.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risks, which include changes in U.S. interest rates and foreign exchange rates. We do not engage in financial transactions for trading or speculative purposes, but do have on occasion forward contracts for foreign currency transactions, the gains and losses from which historically have been immaterial. In 2010, we acquired controlling financial interest in and, therefore, consolidated Gaiam PTY, an Australian based joint venture. Since Gaiam PTY's functional currency is the Australian dollar, this subsidiary exposes us to risk associated with foreign currency exchange rate fluctuations. However, we have determined that no material market risk exposure to our consolidated financial position, results from operations or cash flows existed as of March 31, 2011.

Any borrowings we might make under our bank credit facility would bear interest at the prime rate, provided, however, that at no time may the rate be less than 4.25% per annum. We do not have any amounts outstanding under our credit line, so any unfavorable change in interest rates would not have a material impact on our results from operations or cash flows unless we make borrowings in the future.

We purchase a significant amount of inventory from vendors outside of the U.S. in transactions that are primarily U.S. dollar denominated transactions. A decline in the relative value of the U.S. dollar to other foreign currencies has and may continue to lead to increased purchasing costs.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our chief executive officer and chief financial officer conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act. Based upon their evaluation as of March 31, 2011, they have concluded that those disclosure controls and procedures are effective.

Changes in Internal Control over Financial Reporting

No changes in our internal control over financial reporting occurred during the quarter ended March 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
