**Item 2.05 Costs Associated with Exit or Disposal Activities.**

On September 6, 2011, Sunoco, Inc. (the Company ) announced that it plans to exit the crude oil refining business and has begun a process to sell its refineries located in Philadelphia and Marcus Hook, PA. The Company stated that if a suitable transaction cannot be implemented, the Company intends to idle the main processing units at these refineries in July 2012.

In connection with the decision to exit refining, the Company expects to record a pretax noncash charge of between \$1.9 billion and \$2.2 billion in the third quarter of 2011, related to impairment of the plant and equipment in the refineries. In the event the processing units are idled, additional pretax charges of up to \$500 million, primarily related to contract terminations, staffing costs and severance, may be incurred. Most of these costs would be paid over a period of approximately one year. Additionally, upon the sale of the refineries or idling of the main processing units, the Company expects to record a pretax gain related to the liquidation of all of its crude oil and a significant portion of its refined product inventories totaling approximately \$2 billion at current market prices. The actual amount of this pretax gain will depend upon the market value of crude and refined products and the volumes on hand at the time of liquidation.

A copy of the Company's press release on these matters is filed as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

**Item 2.06 Material Impairments.**
