**Item 8.01. Other Events.**

In December 2007, the Division of Investigations of the Office of Enforcement of the Federal Energy Regulatory Commission (the FERC ) began an investigation into possible violations by Atmos Energy Corporation and certain of our affiliates of FERC 's posting and competitive bidding regulations for pre-arranged released firm capacity on interstate natural gas pipelines. We cooperated fully with FERC in its investigation and have taken steps to better ensure that current and future transactions comply with applicable FERC regulations by implementing a compliance plan dealing with capacity release and other related matters.

Atmos Energy Corporation and its affiliates, Atmos Energy Marketing, LLC and Trans Louisiana Gas Pipeline, Inc. (collectively, the Company ), have entered into a stipulation and consent agreement (the agreement ) with the Staff of the Office of Enforcement of FERC, which was approved by FERC on December 9, 2011, thereby resolving this investigation. FERC 's findings of violations were limited to the non-utility operations of the Company. Under the terms of the agreement, the Company will pay to the United States Treasury a total civil penalty of approximately \$6.4 million and to energy assistance programs approximately \$5.6 million in disgorgement of unjust profits plus interest for violations identified during the investigation. The resolution of this matter did not have a material adverse impact on the Company 's fiscal 2011 earnings and none of the payments will be charged to any of the Company 's customers. In addition, none of the services the Company provides to any of its utility or non-utility customers will be affected by the agreement.

A copy of the agreement is filed herewith as Exhibit 99.1 and is incorporated herein by reference. The foregoing summary does not purport to be complete and is qualified in its entirety by reference to the agreement.
