## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-CSRS

Form N-CSR is to be used by management investment companies to file reports with the Commission not later than 10 days after the transmission to stockholders of any report that is required to be transmitted to stockholders under Rule 30e-1 under the Investment Company Act of 1940 (17 CFR 270.30e-1). The Commission may use the information provided on Form N-CSR in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-CSR, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-CSR unless the Form displays a currently valid Office of Management and Budget ( OMB ) control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington DC 20549-2001. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. § 3507.

Brian S. Shlissel

*President & CEO*

Dear Shareholder:

Municipal bonds posted solid returns during the six-month reporting period ended October 31, 2011. Low levels of new issuance together with concerns of higher taxes, helped to drive prices higher. Despite ongoing challenges for the U.S. economy, anxiety over municipal defaults eased.

**Six-Month Period in Review**

For the fiscal six-month period ended October 31, 2011:

PIMCO Municipal Income Fund increased 14.50% on net asset value ( NAV ) and 10.32% on market price.

PIMCO California Municipal Income Fund increased 14.11% on NAV and 10.68% on market price.

PIMCO New York Municipal Income Fund increased 9.73% on NAV and 10.04% on market price.

The U.S. economy gained strength during the reporting period. As it began, gross domestic product ( GDP ), the value of goods and services produced in the country, the broadest measure of economic activity and the principal indicator of economic performance, rose at an annual rate of 1.3%. GDP nearly doubled to an annual rate of 2.0% between July and September 2011.

During the period, Standard & Poor's ( S&P ) downgraded the long-term credit rating of U.S. government debt from AAA to AA+. This move reflected S&P's concern that Congress and the White House would not be able to solve the nation's deepening fiscal problems. Other credit ratings agencies, however, maintained their top ratings for U.S. debt and the downgrade did not harm investor demand for U.S. Treasury securities. In fact, it had the opposite effect—investors reaffirmed the view that Treasuries were a relatively safe haven in times of uncertainty. Demand for government debt surged, with the yield on the benchmark 10-year Treasury bond dropping at one point to 1.72%, the lowest level in more than half-a-century. Municipal bond prices, which tend to closely track their Treasury brethren, rose accordingly. New issuance remained low throughout much of the reporting period, though it began to rise during the latter stages of the six-month period as suppliers moved to lock in low interest rates. In California, demand for new securities was strong, while a rally in higher-quality credits benefitted issuance in New York State.

## **Table of Contents**

The Federal Reserve ( the Fed ) launched a third attempt to stimulate the economy. Its latest effort, Operation Twist, involves the selling of \$400 billion of short-term Treasury securities in exchange for a similar amount of longer-term bonds. The Fed indicated this move is aimed at lowering longer-term bond yields while maintaining short-term rates at their current and historically low levels. This is regarded as an attempt to boost the ailing housing market by lowering mortgage rates, though such rates stand at the lowest levels in half-a-century. The Fed warned of significant downside risks to the economic outlook, including strains in global financial markets.

### **Outlook**

The U.S. economy and the fiscal situation at the state and local level have strengthened of late, however, the overall picture remains daunting. The Center on Budget and Policy Priorities reports that collectively, states are grappling with \$103 billion in red ink during the 2012 fiscal year. Separately, the National League of Cities reported that 57% of cities are facing greater financial

difficulties in 2011 than in 2010. These difficulties are compounded by uncertainty on taxes and budgets at the federal level, notably ongoing efforts by the so-called Congressional super committee to reduce the federal debt by \$1.5 trillion.

For specific information on the Funds and their performance, please review the following pages. If you have any questions regarding the information provided, we encourage you to contact your financial advisor or call the Funds shareholder servicing agent at (800) 254-5197. In addition, a wide range of information and resources is available on our website, [www.allianzinvestors.com/closedendfunds](http://www.allianzinvestors.com/closedendfunds).

Together with Allianz Global Investors Fund Management LLC, the Funds investment manager, and Pacific Investment Management Company LLC ( PIMCO ), the Funds sub-adviser, we thank you for investing with us.

We remain dedicated to serving your investment needs.

Sincerely,

Hans W. Kertess

**PIMCO Municipal Income Funds Fund Insights**

October 31, 2011 (unaudited)

For the six-months ended October 31, 2011, PIMCO Municipal Income Fund returned 14.50% on net asset value ( NAV ) and 10.32% on market price.

For the six-months ended October 31, 2011, PIMCO California Municipal Income Fund returned 14.11% on net asset value ( NAV ) and 10.68% on market price.

For the six-months ended October 31, 2011, PIMCO New York Municipal Income Fund returned 9.73% on net asset value ( NAV ) and 10.04% on market price.

The municipal bond market produced strong results during the six-months ended October 31, 2011. The overall municipal market (as measured by the Barclays Capital Municipal Bond Index) posted a positive return during five of the six months of the reporting period. Factors supporting the market during the period included: generally robust investor demand as fear of mass defaults from earlier in the year were somewhat mitigated, as states observed improving revenue and actively addressed structural budgetary issues; a sharp decline in new issuance of municipal securities; sharply declining interest rates due to several flights to quality.

During the reporting period, Municipal Income and New York Municipal emphasized revenue bonds over general obligation bonds. This was beneficial for results as revenue bonds outperformed general obligation bonds. California Municipal in contrast, was aided by its positioning in California general obligation bonds, as these securities outperformed revenue bonds.

The Funds were rewarded for having exposure to tobacco bonds. This higher yielding sector outperformed the benchmark during the six months ended October 31, 2011.

Exposure to the health care was additive for the Funds performance as this sector outperformed the benchmarks during the reporting period. Municipal Income and New York Municipal benefited from exposure to the corporate-backed sector. California Municipal s performance was enhanced by exposure to the education sector.

Shorter duration than that of their benchmarks detracted from performance, of each Fund, as municipal yields declined during the reporting period. A steepening yield curve bias also adversely effected results, as the municipal curve flattened during the six-month period.

(as a % of total investments)

(1) **Past performance is no guarantee of future results.** Total return is calculated by determining the percentage change in NAV or market price (as applicable) in the specified period. The calculation assumes that all income dividends and capital gain distributions, if any, have been reinvested. Total return does not reflect broker commissions or sales charges in connection with the purchase or sale of Fund shares. Total investment return for a period of less than one year is not annualized. Total return for a period of more than one year represents the average annual total return.

Performance at market price will differ from results at NAV. Although market price returns typically reflect investment results over time, during shorter periods returns at market price can also be influenced by factors such as changing views about the Funds, market conditions, supply and demand for each Fund's shares, or changes in the Funds' dividends.

An investment in the Funds involves risk, including the loss of principal. Total return, market price, market price yield and NAV will fluctuate with changes in market conditions. This data is provided for information purposes only and is not intended for trading purposes. Closed-end funds, unlike open-end funds, are not continuously offered. There is a one time public offering and once issued, shares of closed-end funds are traded in the open market through a stock exchange. NAV is equal to total assets attributable to common shareholders less total liabilities divided by the number of common shares outstanding. Holdings are subject to change daily.

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-CSRS

(2) Market Price Yield is determined by dividing the annualized current monthly per common share dividend (comprised of net investment income) payable to common shareholders by the market price per common share at October 31, 2011.

**PIMCO Municipal Income Funds Notes to Schedule of Investments**

October 31, 2011 (unaudited) (continued)

- (a) Private Placement Restricted as to resale and may not have a readily available market. Securities with an aggregate value of \$10,839,959 and \$9,833,061, representing 2.2% and 2.4% of total investments in Municipal and California Municipal, respectively.
- (b) Illiquid.
- (c) Pre-refunded bonds are collateralized by U.S. Government or other eligible securities which are held in escrow and used to pay principal and interest and retire the bonds at the earliest refunding date (payment date) and/or whose interest rates vary with changes in a designated base rate (such as the prime interest rate).
- (d) 144A Exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, typically only to qualified institutional buyers. Unless otherwise indicated, these securities are not considered to be illiquid.
- (e) When-issued. To be settled after October 31, 2011.
- (f) In default.
- (g) Inverse Floater The interest rate shown bears an inverse relationship to the interest rate on another security or the value of an index. The interest rate disclosed reflects the rate in effect on October 31, 2011.
- (h) Variable Rate Notes Instruments whose interest rates change on specified date (such as a coupon date or interest payment date) and/or whose interest rates vary with changes in a designated base rate (such as the prime interest rate). The interest rate disclosed reflects the rate in effect on October 31, 2011.
- (i) Residual Interest Bonds held in Trust Securities represent underlying bonds transferred to a separate securitization trust established in a tender option bond transaction in which each Fund acquired the residual interest certificates. These securities serve as collateral in a financing transaction.
- (j) Step Bond Coupon is a fixed rate for an initial period then resets at a specific date and rate.
- (k) Restricted. The aggregate acquisition cost of such securities is \$935,300 in Municipal. The aggregate market value is \$472,350, representing 0.1% of total investments in Municipal.
- (l) Rates reflect the effective yields at purchase date.

**PIMCO Municipal Income Funds Notes to Financial Statements**

October 31, 2011 (unaudited)

**1. Organization and Significant Accounting Policies**

PIMCO Municipal Income Fund ( Municipal ), PIMCO California Municipal Income Fund ( California Municipal ) and PIMCO New York Municipal Income Fund ( New York Municipal ), each a Fund and collectively referred to as the Funds or PIMCO Municipal Income Funds, were organized as Massachusetts business trusts on May 10, 2001. Prior to commencing operations on June 29, 2001, the Funds had no operations other than matters relating to their organization and registration as non-diversified, closed-end management investment companies registered under the Investment Company Act of 1940 and the rules and regulations thereunder, as amended. Allianz Global Investors Fund Management LLC (the Investment Manager ) serves as the Investment Manager and is an indirect, wholly-owned subsidiary of Allianz Global Investors of America L.P. ( Allianz Global ). Allianz Global is an indirect, wholly-owned subsidiary of Allianz SE, a publicly traded European insurance and financial services company. Each Fund has an unlimited amount of no par value per share of common shares authorized.

Under normal market conditions, Municipal invests substantially all of its assets in a portfolio of municipal bonds, the interest from which is exempt from federal income taxes. Under normal market conditions, California Municipal invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal and California state income taxes. Under normal market conditions, New York Municipal invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal, New York State and New York City income taxes. There is no guarantee that the Funds will meet their stated objectives. The Funds will generally seek to avoid investing in bonds generating interest income which could potentially subject individuals to alternative minimum tax. The issuers' abilities to meet their obligations may be affected by economic and political developments in a specific state or region.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in each Fund's financial statements. Actual results could differ from those estimates.

In the normal course of business, the Funds enter into contracts that contain a variety of representations that provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred.

In May 2011, the Financial Accounting Standards Board ( FASB ) issued an Accounting Standards Update ( ASU ) to develop common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with Generally Accepted Accounting Principles ( GAAP ) and International Financial Reporting Standards ( IFRSs ). FASB concluded that the amendments in this ASU will improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and IFRSs. The ASU is effective prospectively during interim or annual periods beginning on or after December 15, 2011. The Funds' management is evaluating the implications of this change.

The following is a summary of significant accounting policies consistently followed by the Funds:

**(a) Valuation of Investments**

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Market value is generally determined on the basis of last reported sales prices, or if no sales are reported, on the basis of quotes obtained from a quotation reporting system, established market makers, or independent pricing services.

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-CSRS

Portfolio securities and other financial instruments for which market quotations are not readily available, or for which a development/event occurs that may significantly impact the value of a security, are fair-valued, in good faith, pursuant to procedures established by the Board of Trustees, or persons acting at their discretion pursuant to procedures established by the Board of Trustees. The Funds' investments are valued daily using prices supplied by an independent pricing service or dealer quotations, or by using the last sale price on the exchange that is the primary market for such securities, or the mean between the last quoted bid and ask price. Independent pricing services use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Securities purchased on a when-issued basis are marked to market daily until settlement at the forward settlement date. Short-term securities maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days or less, or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days.

## **Table of Contents**

### **PIMCO Municipal Income Funds Notes to Financial Statements**

October 31, 2011 (unaudited)

#### **1. Organization and Significant Accounting Policies (continued)**

The prices used by the Funds to value securities may differ from the value that would be realized if the securities were sold and these differences could be material to the Funds' financial statements. Each Fund's net asset value ( NAV ) is normally determined as of the close of regular trading (normally, 4:00 p.m. Eastern time) on the New York Stock Exchange ( NYSE ) on each day the NYSE is open for business.

##### **(b) Fair Value Measurements**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (*i.e.* the exit price ) in an orderly transaction between market participants. The three levels of the fair value hierarchy are described below:

- Level 1 quoted prices in active markets for identical investments that the Funds have the ability to access
- Level 2 valuations based on other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.) or quotes from inactive exchanges
- Level 3 valuations based on significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments)

An investment asset's or liability's level within the fair value hierarchy is based on the lowest level input, individually or in aggregate, that is significant to fair value measurement. The objective of fair value measurement remains the same even when there is a significant decrease in the volume and level of activity for an asset or liability and regardless of the valuation technique used.

The valuation techniques used by the Funds to measure fair value during the six months ended October 31, 2011 maximized the use of observable inputs and minimized the use of unobservable inputs.

The inputs or methodology used for valuing securities is not necessarily an indication of the risk associated with investing in those securities. The following are certain inputs and techniques that the Funds generally use to evaluate how to classify each major category of assets and liabilities for Level 2 and Level 3, in accordance with GAAP.

**Municipal Bonds & Notes and Variable Rate Notes** Municipal bonds and notes and variable rate notes are valued by independent pricing services based on pricing models that take into account, among other factors, information received from market makers and broker-dealers, current trades, bid-want lists, offerings, market movements, the callability of the bond, state of issuance, benchmark yield curves, and bond insurance. To the extent that these inputs are observable, the values of municipal bonds and notes and variable rate notes are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-CSRS

U.S. Treasury Obligations U.S. Treasury obligations are valued by independent pricing services based on pricing models that evaluate the mean between the most recently quoted bid and ask price. The models also take into consideration data received from active market makers and broker-dealers, yield curves, and the spread over comparable U.S. Treasury issues. The spreads change daily in response to market conditions and are generally obtained from the new issue market and broker-dealer sources. To the extent that these inputs are observable, the values of U.S. Treasury obligations are categorized as Level 2. To the extent that these inputs are unobservable, the values are categorized as Level 3.

**Table of Contents****PIMCO Municipal Income Funds Notes to Financial Statements**

October 31, 2011 (unaudited)

**1. Organization and Significant Accounting Policies (continued)**

The Funds' policy is to recognize transfers between levels at the end of the reporting period.

A summary of the inputs used at October 31, 2011 in valuing each Fund's assets and liabilities is listed below:

**Municipal:**

	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Value at 10/31/11
<b>Investments in Securities</b> Assets				
Municipal Bonds & Notes:				
Tennessee		\$ 22,827,368	\$ 472,350	\$ 23,299,718
All Other		454,522,440		454,522,440
Variable Rate Notes		10,367,609		10,367,609
Short-Term Investments		3,563,746		3,563,746
<b>Total Investments in Securities</b>		\$ 491,281,163	\$ 472,350	\$ 491,753,513

**California Municipal:**

	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Value at 10/31/11
<b>Investments in Securities</b> Assets				
California Municipal Bonds & Notes		\$ 376,403,978		\$ 376,403,978
Other Municipal Bonds & Notes		8,880,144		8,880,144
California Variable Rate Notes		8,622,786		8,622,786
Short-Term Investments		9,490,355		9,490,355
<b>Total Investments in Securities</b> Assets		\$ 403,397,263		\$ 403,397,263

**New York Municipal:**

	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Value at 10/31/11
<b>Investments in Securities</b>				
New York Municipal Bonds & Notes		\$ 123,014,650		\$ 123,014,650
Other Municipal Bonds & Notes		6,933,490		6,933,490
Short-Term Investments		2,349,777		2,349,777
<b>Total Investments in Securities</b>		\$ 132,297,917		\$ 132,297,917

# Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-CSRS

There were no significant transfers between Levels 1 and 2 during the six months ended October 31, 2011.

A roll forward of fair value measurements using significant unobservable inputs (Level 3) for the six months ended October 31, 2011, was as follows:

<u>Municipal:</u>									Ending	
		Beginning				Net	Transfers	Transfers	Balance	
		Balance				Change	into	out of	Balance	
		4/30/11	Purchases	Sales	Accrued	in Unrealized	Level	Level	10/31/11	
						Appreciation/ Depreciation	3	3		
<b>Investments in Securities</b>	<b>Assets</b>									
Municipal Bonds & Notes:										
Tennessee		\$ 472,350							\$ 472,350	
<b>Total Investments</b>		<b>\$ 472,350</b>							<b>\$ 472,350</b>	

**Table of Contents**

**PIMCO Municipal Income Funds Notes to Financial Statements**

October 31, 2011 (unaudited)

**1. Organization and Significant Accounting Policies (continued)**

There was no change in unrealized appreciation/depreciation of Level 3 investments which Municipal held at October 31, 2011. Net change in unrealized appreciation/depreciation is reflected on the Statements of Operations.

**(c) Investment Transactions and Investment Income**

Investment transactions are accounted for on the trade date. Securities purchased and sold on a when-issued basis may be settled a month or more after the trade date. Realized gains and losses on investments are determined on an identified cost basis. Interest income adjusted for the accretion of discounts and amortization of premiums is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized, respectively, to interest income over the lives of the respective securities.

**(d) Federal Income Taxes**

The Funds intend to distribute all of their taxable income and to comply with the other requirements of Subchapter M of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required.

Accounting for uncertainty in income taxes establishes for all entities, including pass-through entities such as the Funds, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. The Funds' management has determined that its evaluation has resulted in no material impact to the Funds' financial statements at October 31, 2011. The Funds' federal tax returns for the prior three years remain subject to examination by the Internal Revenue Service.

**(e) Dividends and Distributions - Common Shares**

The Funds declare dividends from net investment income monthly to common shareholders. Distributions of net realized capital gains, if any, are paid at least annually. The Funds record dividends and distributions to their respective shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These book-tax differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment. Temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as dividends and/or distributions to shareholders from return of capital.

**(f) Reverse Repurchase Agreements**

In a reverse repurchase agreement, the Funds sell securities to a bank or broker-dealer and agree to repurchase the securities at a mutually agreed upon date and price. Generally, the effect of such a transaction is that the Funds can recover and reinvest all or most of the cash invested in portfolio securities involved during the term of the reverse repurchase agreement and still be entitled to the returns associated with those portfolio securities. Such transactions are advantageous if the interest cost to the Funds of the reverse repurchase transaction is less than the returns they obtain on investments purchased with the cash. To the extent the Funds

## Edgar Filing: PIMCO NEW YORK MUNICIPAL INCOME FUND - Form N-CSRS

do not cover their positions in reverse repurchase agreements (by segregating liquid assets at least equal in amount to the forward purchase commitment), the Funds' uncovered obligations under the agreements will be subject to the Funds' limitations on borrowings. Reverse repurchase agreements involve leverage risk and also the risk that the market value of the securities that the Funds are obligated to repurchase under the agreements may decline below the repurchase price. In the event the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the Funds' use of the proceeds of the agreement may be restricted pending determination by the other party, or their trustee or receiver, whether to enforce the Funds' obligation to repurchase the securities. There were no reverse repurchase agreements open at October 31, 2011.
