UNITED STATES SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended December 31, 2011

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

Commission file numbers 001-14141 and 333-46983

L-3 COMMUNICATIONS HOLDINGS, INC.

L-3 COMMUNICATIONS CORPORATION

(Exact names of registrants as specified in their charters)

Delaware

(State or other jurisdiction of incorporation or organization)

600 Third Avenue, New York, NY

(Address of principal executive offices)

13-3937434 and 13-3937436

(I.R.S. Employer Identification Nos.)

10016

(Zip Code)

(212) 697-1111

(Telephone number)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class

L-3 Communications Holdings, Inc.

Name of each exchange on which registered:

New York Stock Exchange

common stock, par value \$0.01 per share

Securities registered pursuant to Section 12(g) of the Act:

None.

Indicate by check mark if the registrants are well-known seasoned issuers, as defined in Rule 405 of the Securities Act.

Yes No

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

Indicate by check mark if the registrants are not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes No

Indicate by check mark whether the registrants (1) have filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) have been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrants have submitted electronically and posted on their corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrants were required to submit and post such files).

Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrants' knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrants are large accelerated filers, accelerated filers, non-accelerated filers, or smaller reporting companies. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrants are shell companies (as defined in Rule 12b-2 of the Act).

Yes No

The aggregate market value of the L-3 Communications Holdings, Inc. voting stock held by non-affiliates of the Registrants as of July 1, 2011 was approximately \$9.3 billion. For purposes of this calculation, the Registrants have assumed that their directors and executive officers are affiliates.

There were 98,980,128 shares of L-3 Communications Holdings, Inc. common stock with a par value of \$0.01 outstanding as of the close of business on February 24, 2012.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the definitive proxy statement to be filed with the Securities and Exchange Commission ("SEC") pursuant to Regulation 14A relating to the Registrants Annual Meeting of Shareholders, to be held on April 24, 2012, will be incorporated by reference in this Form 10-K in response to Items 10,11,12,13 and 14 of Part III. The definitive proxy statement will be filed with the SEC no later than 120 days after the registrants' fiscal year ended December 31, 2011.

Table of Contents**PART I**

For convenience purposes in this filing on Form 10-K, L-3 Holdings refers to L-3 Communications Holdings, Inc., and L-3 Communications refers to L-3 Communications Corporation, a wholly-owned operating subsidiary of L-3 Holdings. L-3, we, us and our refer to L-3 Holdings and its subsidiaries, including L-3 Communications.

Item 1. Business**Overview**

L-3 Holdings, a Delaware corporation organized in April 1997, derives all of its operating income and cash flows from its wholly-owned subsidiary, L-3 Communications. L-3 Communications, a Delaware corporation, is a prime contractor in Command, Control, Communications, Intelligence, Surveillance and Reconnaissance (C³ISR) systems, aircraft modernization and maintenance, and government services. L-3 is also a leading provider of a broad range of electronic systems used on military and commercial platforms. Our customers include the United States (U.S.) Department of Defense (DoD) and its prime contractors, U.S. Government intelligence agencies, the U.S. Department of Homeland Security (DHS), U.S. Department of State (DoS), U.S. Department of Justice (DoJ), allied foreign governments, domestic and foreign commercial customers and select other U.S. federal, state and local government agencies.

For the year ended December 31, 2011, we generated sales of \$15.2 billion, operating income of \$1,598 million and net cash from operating activities of \$1,484 million. The table below presents a summary of our 2011 sales by major category of end customer. For a more detailed presentation of our sales by end customer, see Major Customers on page 14.

	2011 Sales (in millions)	% of Total Sales
DoD	\$ 11,321	75%
Other U.S. Government	1,113	7
Total U.S. Government	\$ 12,434	82%
Foreign governments	1,200	8
Commercial foreign	905	6
Commercial domestic	630	4
Total sales	\$ 15,169	100%

We have the following four reportable segments: (1) C³ISR, (2) Government Services, (3) Aircraft Modernization and Maintenance (AM&M), and (4) Electronic Systems. Financial information for our segments, including sales by geographic area, is included in Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations and in Note 22 to our audited consolidated financial statements.

On July 28, 2011, we announced that our Board of Directors approved a plan to spin-off a new, independent government services company that will be publicly traded. The new public company will be named Engility Holdings, Inc. (Engility). See Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Overview and Outlook Spin-Off of Businesses that will comprise Engility on page 38 for additional information.

Business Strategy

Our business strategy is customer-focused and aims to increase shareholder value by expanding our strong positions in C³ISR, electronic systems and aircraft modernization and maintenance by leveraging our customer relationships and pursuing adjacent market opportunities. We intend to gain market share with disruptive,

Table of Contents

affordable solutions, collaboration across L-3 and demonstrated past performance that address customer imperatives. We will continue shifting our business portfolio to emphasize products, systems and proprietary services. The acquisition of the Kollmorgen Electro-Optical business completed on February 6, 2012, and our planned spin-off of the businesses that will comprise Engility are examples of this element of our strategy. Financially, our emphasis is on growing earnings per share and cash flow over time. Our strategy involves a flexible and balanced combination of organic growth, cost reductions, and select business acquisitions and divestitures, enabling us to grow the company and also return cash to our shareholders in a balanced and disciplined manner. Our strategy includes the elements discussed below.

Maintain an Entrepreneurial, Accountable and Results-Driven Culture. A key part of L-3's strategy is our entrepreneurial, accountable, and results-driven culture that is focused on meeting our customers' needs and on achieving L-3's strategic goals and growth objectives. L-3's culture is made up of diverse people providing creative solutions and ideas in an environment that fosters teamwork and collaboration across our business units. Operating with integrity and with a commitment to the highest standards of ethical conduct is an important part of our strategy to build and maintain the trust of our customers, shareholders, employees, suppliers and communities where we live and work.

Grow Sales Organically and Selectively Acquire Businesses. We intend to use our existing prime contractor and supplier positions and internal investments to grow our sales organically. We expect to continue to benefit from our position as a supplier to multiple bidders on select prime contract bids. We plan to maintain our diversified and broad business mix with limited reliance on any single contract, follow-on or new business opportunity. We also expect to continue to supplement our organic sales growth by acquiring, on a select basis, businesses that add new products, technologies, programs and contracts, or provide access to select DoD or non-DoD customers and provide attractive returns on investment.

Collaborate to Increase Growth Opportunities. We intend to deepen the collaboration among our diversified businesses to develop new business opportunities. The combination of our leading technologies and our ability to deliver the right solutions to our customers quickly and re-shape our portfolio underscores our reputation for performance and customer focus. We expect that our core strengths of agility, responsiveness and cost-effectiveness will allow us to continue to provide exceptional performance to our customers. We intend to continue our internal initiatives to consolidate and drive efficiency in our operations and develop our collaborative culture to continue our shift from a "black box" provider to a complete solutions provider.

Continuously Improve our Cost Structure and Right-Size our Businesses. We intend to continue to aggressively improve and reduce our direct contract costs and overhead costs, including general and administrative costs. Our effective management of labor, material, subcontractor and other direct costs is an important element of cost control and favorable contract performance. We believe that proactively re-sizing our businesses to their anticipated sales, combined with continuous cost improvement will enable us to increase our cost competitiveness, and to selectively invest in new product development, bids and proposals and other business development activities to organically grow our sales.

Align Research & Development with Customer Priorities. We intend to continue to align our products, services, internal investments in research and development and business development activities to proactively address customer priorities and requirements and invest in growth areas such as C³ISR, integrated sensor systems, cyber security and intelligence support. We also intend to grow our sales and gain market share through the introduction of innovative and disruptive solutions, new products and continued collaboration among our businesses to offer high quality and competitive solutions and services to our customers.

Expand our Prime Contractor and Supplier Positions. We intend to expand our prime contractor roles in select business areas where we have domain expertise, including C³ISR and aircraft modernization and maintenance and expand our supplier positions in electronic systems by leveraging our customer relationships and pursuing adjacent market opportunities. We also intend to enter into teaming arrangements with other prime contractors and platform original equipment manufacturers to compete for select new business opportunities. As an independent supplier of a broad range of products, subsystems and systems in several key business areas, our growth will partially be driven by expanding our share of existing programs and participating in new programs.

Table of Contents

We also expect to identify opportunities to use our customer relationships and leverage the capabilities of our various businesses, including proprietary technologies, to expand the scope of our products and services to existing and new customers.

Focus On Outstanding Program Performance. We believe that outstanding performance on our existing programs and contracts in terms of staying on-budget, on-schedule and in accordance with our contractual obligations is the foundation for successfully meeting our objectives of expanding L-3's prime contractor and supplier positions and growing sales organically. We believe that a prerequisite for growing and winning new business is to retain our existing business by successfully meeting the performance criteria included in our existing contracts. We will continue to focus on delivering superior contract performance to our customers in order to maintain our reputation as an agile and responsive contractor and to differentiate ourselves from our competitors.

Attract and Retain Skilled Personnel. The success of our businesses is, to a large extent, dependent upon the knowledge and skills of our employees. We intend to continue to attract and retain employees who have management, contracting, engineering and technical skills and who have U.S. Government security clearances, particularly those with clearances of top-secret and above.

Business Acquisitions and Dispositions

During the years ended December 31, 2011, 2010 and 2009, we used cash of \$20 million, \$756 million and \$90 million for business acquisitions, respectively. See Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Business Acquisitions and Dispositions on page 40 for additional details about our business acquisitions, including their aggregate purchase prices, and our divestitures.

Products and Services

Our four reportable segments provide a wide range of products and services to various customers and are described below.

C³ISR Reportable Segment

In 2011, C³ISR net sales of \$3,568 million represented 24% of our total net sales. The businesses in this segment provide products and services for the global ISR market, specializing in signals intelligence (SIGINT) and communications intelligence systems. These products and services provide the warfighter the unique ability to collect and analyze data from command centers, communication nodes and air defense systems for real-time situational awareness and response. The businesses in this reportable segment also provide C³ systems, networked communications systems and secure communications products for military and other U.S. Government and allied foreign government intelligence, reconnaissance and surveillance applications. We believe that these products and services are critical elements for a substantial number of major command, control and communication, intelligence gathering and space systems. These products and services are used to connect a variety of airborne, space, ground and sea-based communication systems and are used in the transmission, processing, recording, monitoring, and dissemination functions of these communication systems. Major products and services for this reportable segment include:

highly specialized fleet management sustainment and support services, including procurement, systems integration, sensor development, modifications and periodic depot maintenance for ISR and special mission aircraft and airborne systems;

strategic and tactical SIGINT systems that detect, collect, identify, analyze and disseminate information;

secure data links that enable real-time information collection and dissemination to users of networked communications for airborne, satellite, ground and sea-based remote platforms, both manned and unmanned;

Table of Contents

secure terminal and communication network equipment and encryption management; and

communication systems for surface and undersea vessels and manned space flights.

The table below provides additional information for the systems, products and services, selected applications and selected platforms or end users of our C³ISR reportable segment.

Systems/Products/Services	Selected Applications	Selected Platforms/End Users
<i>ISR Systems</i>		
Prime mission systems integration, sensor development and operations and support	Signal processing, airborne SIGINT applications, antenna technology, real-time process control and software development	U.S. Air Force (USAF), United Kingdom (U.K.) Ministry of Defence (MoD), and other allied foreign military ISR aircraft platforms and ground systems
Fleet management of special mission aircraft, including avionics and mission system upgrades and logistics support	Measurement collection and signal intelligence, special missions	DoD and classified customers within the U.S. Government
ISR operations and support	Data link support and services, special applications, classified projects, spares and repairs	USAF and U.S. Army ISR aircraft platforms and ground systems
<i>Networked Communications</i>		
Airborne, space and surface data link terminals, ground stations, and transportable tactical SATCOM (satellite communications) systems	High performance, wideband secure communication links for relaying of intelligence and reconnaissance information	Manned aircraft, unmanned aerial vehicles (UAVs), naval ships, ground vehicles and satellites for the DoD
Multi-band Manpack Receivers	Portable, ruggedized terminals used for receiving reconnaissance video and sensor data from multiple airborne platforms	U.S. Special Operations Command (USSOCOM), USAF and other DoD customers
Satellite command and control sustainment and support	Software integration, test and maintenance support, satellite control network and engineering support for satellite launch systems	USAF Space Command (AFSC), USAF Satellite Control Network and launch ranges
<i>Secure Communications Products</i>		
Secure communication terminals and equipment, and secure network encryption products	Secure and non-secure voice, data and video communication for office, battlefield and secure internet protocol (IP) network applications	DoD and U.S. Government intelligence agencies
Ground-based satellite communication terminals and payloads	Interoperable, transportable ground terminals	DoD and U.S. Government intelligence agencies
Shipboard communications systems	Internal and external communications (radio rooms)	U.S. Navy (USN), U.S. Coast Guard (USCG) and allied foreign navies

Table of Contents

Government Services Reportable Segment

In 2011, Government Services net sales of \$3,621 million represented 24% of our total net sales. The businesses in this segment provide a full range of systems engineering and technical assistance (SETA), training, operational support, cyber security, intelligence, enterprise information technology (IT) and security solutions services to the DoD, DoS, DoJ and U.S. Government intelligence agencies and allied foreign governments. Major services for this reportable segment include:

communication software support, IT services and a wide range of engineering development services and integration support;

high-end engineering and information systems support services used for command, control, communications and ISR architectures for applications used by the DoD, DHS and U.S. Government intelligence agencies, including missile and space systems, UAVs and manned military aircraft;

developing and managing extensive programs in the United States and internationally that focus on teaching, training and education, logistics, strategic planning, organizational design, democracy transition and leadership development;

human intelligence support and other services, including linguist and translation services and related management to support contingency operations and current intelligence-gathering requirements;

command & control systems and software services in support of maritime and expeditionary warfare;

intelligence, analysis and solutions support to the DoD, including the U.S. Armed Services combatant commands and the U.S. Government intelligence agencies, including those within the U.S. Armed Services;

technical and management services, which provide support of intelligence, logistics, C³ and combatant commands; and

conventional high-end enterprise IT support, systems, including cyber security and other services to the DoD and other U.S. federal agencies.

Table of Contents

The table below provides additional information for the systems, products and services, selected applications and selected platforms or end users of our Government Services reportable segment.

Systems/Products/Services	Selected Applications	Selected Platforms/End Users
<i>Training and Operational Support</i>		
Training systems, and doctrine development	Training, leadership development and education services for U.S. and allied foreign armed forces, counterintelligence and law enforcement personnel	U.S. Army, U.S. Marine Corps (USMC), DoS, DoJ and allied foreign governments
Acquisition management and staff augmentation	Rapid fielding support for combatants and physical location management	U.S. Army
Specialized management, policy and training in energy, environmental and natural resource management	Water and Coastal resource management, sustainable agriculture and food security, climate change mitigation strategies, emergency preparedness, response and reconstruction, power sector restructuring and energy economics and finance	U.S. Agency for International Development, foreign governments, World Bank and Non-Governmental Organizations
Linguistic, interpretation, translation and analyst services	Counterintelligence, threat protection and counter terrorism	U.S. Army
<i>Command & Control Systems and Software</i>		
Software engineering/software sustainment, operations analysis, research, technical analysis, training, and test and evaluation	Software, systems and field services support for C ⁴ ISR Systems, fixed and rotary wing aircraft, naval vessels and ground vehicles	U.S. Army, USN and USMC
Communication systems and software engineering services	Value-added, critical software support for C ⁴ ISR systems, electronic warfare and fire support systems	U.S. Army Communications Electronics Command (CECOM)
Acquisition and Procurement Support	Support defense acquisition programs, develop acquisition roadmaps, capability assessments and develop requirements	U.S. Army, USN and USMC
Systems Engineering and Integration Support	System design and development, platform simulations, systems testing, prototype development and deployment and hardware and software integration	USMC, U.S. Army and USSOCOM
<i>Engineering Solutions</i>		
Engineering and technical solutions	Systems engineering and design, analysis and integration, technical support and test & evaluation, Weapons of Mass Destruction (WMD) effects analysis and Improvised Explosive Device (IED) counter measures	DoD and U.S. Government agencies

Table of Contents

Systems/Products/Services	Selected Applications	Selected Platforms/End Users
Program management and operational support	Command center operations, systems acquisitions, emergency management training, continuity of operations and government planning	Federal Emergency Management Agency, FAA, Joint Task Force Civil Support
<i>Enterprise IT Solutions</i>		
Network and enterprise administration and management	Systems engineering, cyber security, assurance and risk management, network and systems administration, management, software development and life cycle support and systems integration	U.S. Army, U.S. Joint Chiefs of Staff, USAF, USSOCOM, Federal Aviation Administration (FAA) and NASA
Systems acquisition and advisory support and comprehensive operational support services	Requirements definition, program management, planning and analysis, systems engineering, integration and development, intelligence analysis and managing and network engineering	U.S. Army, USAF, USN and DHS
<i>Intelligence Solutions and Support</i>		
System support and concept operations (CONOPS)	ISR, modeling and simulation, and cyber security	DoD, U.S. Missile Defense Agency (MDA), U.S. Government intelligence agencies, and NASA
IT services	IT infrastructure modernization and operations, and cyber security	U.S. Government intelligence agencies and U.K. MoD
Information management and IT systems support and software design, development and systems integration	Intelligence and operations support, systems, network centric operations and information operations	DoD and U.S. Government intelligence agencies
<i>Global Security Solutions</i>		
Surveillance systems and products, including installation and logistics support	Remote surveillance for U.S. borders	DHS
Security Solutions	Border security systems, area surveillance and access control, critical infrastructure protection, continuity planning and emergency management	DHS, USMC and Customs and Border Patrol

As previously discussed, we plan to spin-off a part of our Government Services segment into a new, independent company that will be publicly traded. See Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Overview and Outlook Spin-off of Businesses that will comprise Engility on page 38 for additional information. The new public company will be named Engility Holdings, Inc., and will include the SETA, training and operational support services businesses, which provide the training, operational support, command & control systems and software, and engineering solutions services described in the table above. L-3 will retain the cyber security, intelligence, enterprise IT and security solutions businesses, which provide the enterprise IT solutions, intelligence solutions and support, and global security solutions services described in the table above. The Government Services segment will be renamed National Security Solutions upon completion of the spin-off.

Table of Contents***Aircraft Modernization and Maintenance (AM&M) Reportable Segment***

In 2011, AM&M net sales of \$2,440 million represented 16% of our total net sales. The businesses in this segment provide modernization, upgrades and sustainment, maintenance and logistics support services for military and various government aircraft and other platforms. We sell these services primarily to the DoD, the Canadian Department of National Defense (DND) and other allied foreign governments. Major products and services for this reportable segment include:

engineering, modification, maintenance, logistics and upgrades for aircraft, vehicles and personnel equipment;

turnkey aviation life cycle management services that integrate custom developed and commercial off-the-shelf products for various military fixed and rotary wing aircraft, including heavy maintenance and structural modifications and interior modifications and construction; and

aerospace and other technical services related to large fleet support, such as aircraft and vehicle modernization, maintenance, repair and overhaul, logistics, support and supply chain management, primarily for military training, tactical, cargo and utility aircraft.

The table below provides additional information for the systems, products and services, selected applications and selected platforms or end users of our AM&M reportable segment.

Systems/Products/Services	Selected Applications	Selected Platforms/End Users
<i>Aircraft and Base Support Services</i>		
Logistics support, maintenance and refurbishment	Aircraft maintenance repair and overhaul, flight operations support for training, cargo and special mission aircraft	U.S. Army, USAF, USN, Canadian DND and other allied foreign militaries
Contract Field Teams (CFT)	Deployment of highly mobile, quick response field teams to customer locations to supplement the customer's resources for various ground vehicles and aircraft	U.S. Army, USAF, USN and USMC
Contractor operated and managed base supply (COMBS)	Inventory management activities relating to flight support and maintenance, including procurement and field distribution	Military training and cargo aircraft
<i>Aircraft Modernization</i>		
Modernization and life extension maintenance upgrades and support	Aircraft structural modifications and inspections, installation of mission equipment, navigation and avionics products, interior modifications	USN, USAF, Canadian DND, Royal Australian Air Force, other allied foreign governments, various military, fixed and rotary wing aircraft, original equipment manufacturers (OEM), very important person and head of state aircraft
Fabrication and assembly of fixed and rotary wing aeronautical structures	Rotary wing cabin assemblies, new and modified wings and subassemblies, and parts fabrication for original equipment manufacturers	U.S. Army, USN, USMC, Canadian DND and OEMs

Table of Contents***Electronic Systems Reportable Segment***

In 2011, Electronic Systems net sales of \$5,540 million represented 36% of our total net sales. The businesses in this reportable segment provide a broad range of products and services, including components, products, subsystems, systems and related services to military and commercial customers in several niche markets. The table below provides a summary of the segment's business areas and the percentage that each contributed to Electronic Systems net sales in 2011.

Business Area	% of 2011 Segment Sales
Microwave	18%
Power & Control Systems	17
Integrated Sensor Systems	14
Aviation Products	10
Simulation & Training	10
Warrior Systems	8
Precision Engagement	7
Security & Detection	6
Space & Propulsion	5
Undersea Warfare	4
Marine Services	1
Total Electronic Systems	100%

Table of Contents

The table below provides additional information for the systems, products, and services selected applications and selected platforms or end users of our Electronic Systems reportable segment.

Systems/Products/Services	Selected Applications	Selected Platforms/End Users
<i>Microwave</i>		
Passive and active microwave components and subsystems and non-ionizing radiation monitoring equipment	Radio transmission, switching and conditioning, transponder control, channel and frequency separation, ground vehicles, aircraft and satellites	DoD and original equipment manufacturers, SATCOM for DoD and various government agencies
Traveling wave tubes, power modules, klystrons and digital broadcast	Microwave vacuum electron devices and power modules	DoD and allied foreign military manned/unmanned platforms, various missile programs and commercial broadcast
Quick-deploy flyaway very small aperture terminals (VSAT) and vehicular satellite systems	Satellite communication systems	U.S. Army, USAF and various DoD agencies
High dynamic small aperture Ku/Ka-band receive/transmit systems	Off road use on military vehicles, watercraft, and airborne platforms to provide two-way broadband connectivity while on the move	U.S. Army and various DoD agencies
Tactical ground based signal intercept and direction finding systems	Man portable and military vehicle mounted tactical signal intercept/exploitation and direction finding systems	U.S. Army and other DoD/U.S. intelligence agencies
Managed satellite networks and integrated remote VSAT satellite systems	Deployment and support of global communication networks for tactical and enterprise applications	U.S. Army, DoD/U.S. intelligence agencies, allied forces and commercial contractors
Spread spectrum & time division multiple access modems that support ultra high frequency (UHF) using Ka band operation	On the move SATCOM and other tactical communications systems utilizing small aperture terminals	U.S. military and various international allied military and special forces customers
Ultra-wide frequency and advanced radar antennas and radomes	Surveillance and radar detection	Military fixed and rotary winged aircraft, SATCOM
Telemetry and instrumentation systems	Spacecraft telemetry tracking and control, encryption and high data rate transmitters, satellite command and control software, airborne and ground test telemetry systems, and tactical intelligence receivers	Aircraft, missiles and satellites
<i>Power & Control Systems</i>		
Shipboard electrical power packages, electric drives and propulsion, automation, navigation, communication, entertainment solutions and safety systems	Surface ships ranging from shipping vessels, container carriers, environmental and research ships, ferries, cruise liners and mega yachts	Commercial shipbuilders and allied foreign navies

Table of Contents

Systems/Products/Services	Selected Applications	Selected Platforms/End Users
Naval power delivery, conversion and switching products, and hybrid electric drives	Switching, distribution and protection, frequency and voltage conversion, propulsion motors and drive units	Naval submarines, surface ships and aircraft carriers
Automation, dynamic positioning, navigation, communications, and sensors	Vessel bridge and machinery plant platform management systems	U.S. and allied foreign navies, other government agencies, commercial shipyards, and utility companies
Power plant simulation, modeling, computer systems, and training services	Submarines, nuclear and other power plants	Allied navies, nuclear and other power plant companies
<i>Integrated Sensor Systems</i>		
Targeted stabilized camera systems with integrated sensors and wireless communication systems	Intelligence Data Collection, Surveillance and Reconnaissance	DoD, intelligence and security agencies, law enforcement, manned/unmanned platforms
Airborne and ground based high energy laser beam directors, laser designators and high tracking rate telescopes	Directed energy systems, space surveillance, satellite laser ranging and laser communications, airborne and ground target designation/illumination	USAF and NASA
<i>Aviation Products</i>		
Solid state crash protected cockpit voice and flight data recorders	Aircraft voice and flight data recorders that continuously record voice and sounds from cockpit and aircraft intercommunications	Commercial transport, business, regional and military aircraft
Airborne traffic and collision avoidance systems, terrain awareness warning systems	Reduce the potential for midair aircraft collisions and crashes into terrain by providing visual and audible warnings and maneuvering instructions to pilots	Commercial transport, business, regional and military aircraft
Advanced cockpit avionics	Pilot safety, navigation and situation awareness products	Commercial transport, business, regional and military aircraft
Cockpit and mission displays	High performance, ruggedized flat panel and cathode ray tube displays and processors	Various military aircraft
<i>Simulation & Training</i>		
Military aircraft flight simulators, reconfigurable training devices, distributed mission training suites	Advanced simulation technologies and training for pilots, navigators, flight engineers, gunners and operators	Fixed and rotary winged aircraft and ground vehicles for USAF, USN, U.S. Army, Canadian DND and allied foreign militaries
Training services, courseware integrated logistics support and maintenance	Systems management, operations, and maintenance	Various DoD and allied foreign military customers

Table of Contents

Systems/Products/Services	Selected Applications	Selected Platforms/End Users
<i>Warrior Systems</i>		
Enhanced vision and weapon sights products	Image intensified night vision goggles/sights, holographic weapon sights, thermal sights and images, and driver viewers for special forces, pilots and aircrews, soldiers, marines, sailors and law enforcement personnel	U.S. Army, USN, USMC, DHS, allied foreign militaries and law enforcement agencies
Weapons Training Systems	Laser marksmanship training systems and advanced integrated technologies for security products and services	DoD and law enforcement agencies
<i>Precision Engagement</i>		
Unmanned systems and components	Tactical unmanned air systems (UAS), medium altitude long endurance (MALE) UAS, small expendable UAS, flight controls, sensors and remote viewing systems	U.S. DoD and allied foreign ministries of defense
Global Positioning System (GPS) receivers	Location tracking	Guided projectiles and precision munitions
Fuzing and ordnance systems	Precision munitions, fuzes, and electronic and electro safety arming devices (ESADs)	Various DoD and allied foreign military customers
Remote viewing video and exploitation systems	Portable situational awareness and video exploitation software and hardware for soldiers, ships and vehicles	USMC, USN and Various DoD
Lightweight man portable computer/displays for dismounted soldiers	Situational awareness and connectivity for dismounted soldiers	U.K. MoD
<i>Security & Detection</i>		
Airport security systems, explosives detection systems and whole body imaging systems	Rapid scanning of passenger checked baggage and carry-on luggage, scanning of large cargo containers	DHS, including the U.S. Transportation and Security Administration (TSA), domestic and international airports and state and local governments
Non-invasive security systems and portals, and sophisticated sensors with threat detection capabilities	Aviation, rail and border crossing security	TSA, U.S. Customs agency, various regulatory authorities and private security companies
Force protection, electronic warfare and satellite monitoring	Counter IED systems, jamming and satellite monitoring	U.K. MoD and other international security agencies and ministries of defense

Table of Contents

Systems/Products/Services	Selected Applications	Selected Platforms/End Users
<i>Space & Propulsion</i>		
Navigation systems and positioning navigation units	Satellite launch and orbiting navigation and navigation for ground vehicles and fire control systems	USAF, U.S. Army, USMC and NASA
Ballistic missile targets	Targets for ground based ballistic missile intercept systems	Missile Defense Agency
Heavy fuel engines, cross drive variable transmissions, turret drive systems, vehicle suspension, advanced drive systems and auxiliary power generators	Power trains and suspension systems for military vehicles, power and energy management for military hybrid electric vehicles, non portable and under armor auxiliary power units, and heavy fueled engines for unmanned systems	U.S. Army, USMC and allied foreign ministries of defense, manned/unmanned military platforms
High power microwave sources, systems & effects, pulse power systems and electromagnetics hardened construction	Forensic analysis of weapons of mass destruction, active detection of special nuclear material and irradiation systems for decontamination and industrial applications	U.K. MoD, U.S. Defense Threat Reduction Agency, U.S. Army and USAF
<i>Undersea Warfare</i>		
Airborne dipping sonars, submarine and surface ship towed arrays	Submarine and surface ship detection and localization	USN and allied foreign navies
Underwater sensor ranges	Monitor nuclear testing, track submarines and surface vessels	U.S. and foreign military and commercial customers
<i>Marine Services</i>		
Service life extensions	Landing craft air cushion amphibious vehicle	USN
Ship repair, overhaul and maintenance, ship instructions, and battle force tactical training	Embedded shipboard training systems	USN, USCG and commercial shipowners

Table of Contents**Backlog and Orders**

We define funded backlog as the value of funded orders received from customers, less the cumulative amount of sales recognized on such orders. We define funded orders as the value of contract awards received from the U.S. Government, for which the U.S. Government has appropriated funds, plus the value of contract awards and orders received from customers other than the U.S. Government. The table below presents our funded backlog, percent of funded backlog at December 31, 2011 expected to be recorded as sales in 2012 and funded orders for each of our reportable segments.

Reportable Segment:	Funded Backlog at December 31,		Percentage of Funded Backlog at December 31, 2011 Expected to be Recorded as Sales in 2012	Funded Orders	
	2011	2010		2011	2010
	(in millions)			(in millions)	
C ³ ISR	\$ 2,868	\$ 2,615	70%	\$ 3,819	\$ 3,657
Government Services	1,461	1,695	84%	3,388	3,850
AM&M	1,731	1,872	74%	2,296	2,996
Electronic Systems	4,635	4,909	67%	5,286	5,149
Consolidated	\$ 10,695	\$ 11,091	71%	\$ 14,789	\$ 15,652

Our funded backlog does not include the full potential value of our contract awards, including those pertaining to multi-year, cost-plus type contracts, which are generally funded on an annual basis. Funded backlog also excludes the potential future orders and related sales from unexercised priced contract options that may be exercised by customers under existing contracts and the potential future orders and related sales of purchase orders that we may receive in the future under indefinite quantity contracts or basic ordering agreements during the term of such agreements.

Major Customers

The table below presents a summary of our 2011 sales by end customer and the percent contributed by each to our total 2011 sales. For additional information regarding domestic and foreign sales, see Note 22 to our audited consolidated financial statements.

	2011 Sales (in millions)	% of Total Sales
Army	\$ 3,931	26%
Air Force	3,864	25
Navy/Marines	2,358	16
Other Defense	1,168	8
Total DoD	\$ 11,321	75%
Other U.S. Government	1,113	7
Total U.S. Government	\$ 12,434	82%
Foreign governments	1,200	8
Commercial foreign	905	6
Commercial domestic	630	4

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

Total sales	\$ 15,169	100%
-------------	-----------	------

Direct sales to the end customer represent approximately 70% of our consolidated sales, and we are a subcontractor or supplier for the remaining 30%. Additionally, approximately 70% of our DoD sales for 2011 were direct to the customer, and approximately 30% were indirect through other prime system contractors and subcontractors of the DoD.

Table of Contents

Our sales are predominantly derived from contracts with agencies of, and prime system contractors to, the U.S. Government. Various U.S. Government agencies and contracting entities exercise independent and individual purchasing decisions, subject to annual appropriations by the U.S. Congress. For the year ended December 31, 2011, our five largest contracts generated 11% of our consolidated sales. For the year ended December 31, 2011, our largest contract (revenue arrangement) in terms of annual sales was the Fort Rucker Maintenance Support contract with the U.S. Army Aviation and Missile Command. Under this contract, which generated approximately 3% of our 2011 sales, we provide maintenance and logistical support services for rotary wing aircraft assigned to Fort Rucker and satellite units in Alabama. The current contract is expected to end on September 30, 2012. We submitted our proposal in November 2011 for the contract re-competition and anticipate the award will be made by August 2012. We cannot provide any assurance that we will win the re-competition of the Fort Rucker Maintenance Support contract.

Research and Development

We conduct research and development activities that consist of projects involving applied research, new product and systems development and select concept studies. We employ scientific, engineering and other personnel to improve our existing product-lines and systems and develop new products, technologies, and systems. As of December 31, 2011, we employed approximately 12,500 engineers, a substantial portion of whom hold advanced degrees, and who work on company-sponsored research and development efforts and customer funded research and development contracts.

Company-sponsored (Independent) research and development costs for our businesses that are U.S. Government contractors are allocated to U.S. Government contracts and are charged to cost of sales when the related sales are recognized as revenue. Research and development costs for our commercial businesses are expensed as incurred and are also charged to cost of sales. The table below presents company-sponsored (Independent) research and development expenses incurred for the years ended December 31, 2011, 2010 and 2009 for our U.S. Government businesses and our commercial businesses.

	Year Ended December 31,		
	2011	2010	2009
Company-Sponsored Research and Development Costs:			
U.S. Government Contractor Businesses	\$ 207	\$ 202	\$ 198
Commercial Businesses	73	68	59
Total	\$ 280	\$ 270	\$ 257

Customer-funded research and development costs pursuant to contracts (revenue arrangements) are not included in the table above because they are direct contract costs and are charged to cost of sales when the corresponding revenue is recognized. See Note 2 to our audited consolidated financial statements for additional information regarding research and development.

Competition

Our businesses generally encounter significant competition. We believe that we are a major provider for many of the products and services we offer to our DoD, government and commercial customers.

Our ability to compete for existing and new business depends on a variety of factors, including,

the effectiveness and innovation of our technologies, systems and research and development programs;

our ability to offer better program performance at an affordable and competitive cost;

historical technical, cost and schedule performance;

our ability to attain supplier positions on contracts;

Table of Contents

our ability to maintain an effective supplier and vendor base;

our ability to retain our employees and hire new ones, particularly those who have U.S. Government security clearances;

the capabilities of our facilities, equipment and personnel to undertake the business for which we compete; and

our ability to quickly and flexibly meet customer requirements and priorities.

In some instances, we are the incumbent supplier or have been the sole provider on a contract for many years, and we refer to these positions as sole-source. On our sole-source contracts, there may be other suppliers who have the capability to compete for the contracts involved, but they can only enter the market if the customer chooses to reopen the particular contract to competition. Sole-source contracts are generally re-competed every three to five years and at times more frequently. For the year ended December 31, 2011, contracts where we held sole-source positions accounted for 57% of our total sales and contracts which we had competitively won accounted for 43% of our total sales.

L-3 is a defense supplier with a broad and diverse portfolio of products and services. We are primarily a non-platform prime contractor and have diverse subcontractor positions. We supply our products and services to other prime system contractors. However, we also compete directly with other large prime system contractors for (1) certain products, subsystems and systems, where they have vertically integrated businesses and (2) niche areas where we are a prime contractor. We also compete with numerous other aerospace, defense and government technical services contractors, which generally provide similar products, subsystems, systems or services.

In addition, our ability to compete for select contracts may require us to team with one or more of the other prime system contractors that bid and compete for major platform programs, and our ability to team with them is often dependent upon the outcome of a competition for subcontracts they award.

Patents and Licenses

Generally, we do not believe that our patents, trademarks and licenses are material to our operations. Furthermore, most of our U.S. Government contracts generally permit us to use patents owned by other U.S. Government contractors. Similar provisions in U.S. Government contracts awarded to other companies make it impossible for us to prevent the use of our patents in most DoD work performed by other companies for the U.S. Government.

Raw Materials

Generally, our businesses engage in limited manufacturing activities and have minimal exposure to fluctuations in the supply of raw materials. L-3's business mix is approximately 50% services work, and for those businesses that sell hardware and product, most of the value that we provide is labor oriented, such as design, engineering, assembly and test activities. In manufacturing our products, we use our own production capabilities as well as a diverse base of third party suppliers and subcontractors. Although certain aspects of our manufacturing activities require relatively scarce raw materials, we have not experienced difficulty in our ability to procure raw materials, components, sub-assemblies and other supplies required in our manufacturing processes.

Contracts

A significant portion of our sales are derived from sole-source contracts as discussed above. We believe that our customers award sole-source contracts to the most capable supplier in terms of quality, responsiveness,

Table of Contents

design, engineering and program management competency and cost. However, as discussed above, we are increasingly competing against other prime system contractors for major subsystems and systems business.

Generally, the sales price arrangements for our contracts are either fixed-price, cost-plus or time-and-material type. Generally, a fixed-price type contract offers higher profit margin potential than a cost-plus type or time-and-material type contract, which is commensurate with the greater levels of risk we assume on a fixed-price type contract.

On a fixed-price type contract (revenue arrangement), we agree to perform the contractual statement of work for a predetermined sales price. Although a fixed-price type contract generally permits us to retain profits if the total actual contract costs are less than the estimated contract costs, we bear the risk that increased or unexpected costs may reduce our profit or cause us to sustain losses on the contract. Accounting for the sales on a fixed-price type contract that is covered by contract accounting standards requires the preparation of estimates of (1) the total contract revenue, (2) the total costs at completion, which is equal to the sum of the actual incurred costs to date on the contract and the estimated costs to complete the contract's statement of work, and (3) the measurement of progress towards completion. Adjustments to original estimates for a contract's revenue, estimated costs at completion and estimated total profit or loss are often required as work progresses under a contract, as experience is gained and as more information is obtained, even though the scope of work required under the contract may not change.

On a cost-plus type contract (revenue arrangement), we are paid our allowable incurred costs plus a profit which can be fixed or variable depending on the contract's fee arrangement up to predetermined funding levels determined by our customers. Cost-plus type contracts with award and incentive fee provisions are our primary variable contract fee arrangement. Award fees provide for a fee based on actual performance relative to contractually specified performance criteria. Incentive fees provide for a fee based on the relationship which total allowable costs bear to target cost. The tables below present our sales from cost-plus type contracts with award fees and incentive fees and the percentage of available performance-based award fees we achieved for the years ended December 31, 2011, 2010 and 2009.

	Year Ended December 31,		
	2011	2010	2009
Sales from Cost-Plus Contracts with:			
Award fees	\$ 705	\$ 907	\$ 1,068
Incentive fees	848	944	751
Performance based fees	\$ 1,553	\$ 1,851	\$ 1,819

	Year Ended December 31,		
	2011	2010	2009
Percentage of Available Performance-Based Award Fees Achieved	92%	90%	95%

On a time-and-material type contract (revenue arrangement), we are paid on the basis of direct labor hours expended at specified fixed-price hourly rates (that include wages, overhead, allowable general and administrative expenses and profit) and materials at cost. Therefore, on cost-plus type and time-and-material type contracts we do not bear the risks of unexpected cost overruns, provided that we do not incur costs that exceed the predetermined funded amounts.

We believe we have a balanced mix of fixed-price, cost-plus and time-and-material type contracts, a diversified business base and an attractive customer profile with limited reliance on any single contract.

Table of Contents

The table below presents the percentage of our total sales generated from each contract-type for the years ended December 31, 2011, 2010, and 2009.

Contract-Type	Year Ended December 31,		
	2011	2010	2009
Fixed-price	63%	58%	57%
Cost-plus	26%	28%	28%
Time-and-material	11%	14%	15%
Total sales	100%	100%	100%

Substantially all of our cost-plus type contracts and time-and-material type contracts are with U.S. Government customers. Substantially all of our sales to commercial customers are transacted under fixed-price sales arrangements and are included in our fixed-price type contract sales.

Regulatory Environment

Most of our revenue arrangements with agencies of the U.S. Government, including the DoD, are subject to unique procurement and administrative rules. These rules are based on both laws and regulations, including the U.S. Federal Acquisition Regulation, that: (1) impose various profit and cost controls, (2) regulate the allocations of costs, both direct and indirect, to contracts and (3) provide for the non-reimbursement of unallowable costs. Unallowable costs include, but are not limited to, lobbying expenses, interest expenses and certain costs related to business acquisitions, including, for example, the incremental depreciation and amortization expenses arising from fair value increases to the historical carrying values of acquired assets. Our contract administration and cost accounting policies and practices are also subject to oversight by government inspectors, technical specialists and auditors. See Part I Item 1A Risk Factors beginning on page 20 for a discussion of certain additional business risks specific to our government contracts.

Our U.S. Government contracts are subject to extensive legal and regulatory requirements and, from time to time, agencies of the U.S. Government investigate whether our operations are being conducted in accordance with these requirements. Investigations could result in administrative, civil, or criminal liabilities, including repayments, disallowance of certain costs, or fines and penalties. As is common in the U.S. defense industry, we are subject to business risks, including changes in the U.S. Government's procurement policies (such as greater emphasis on competitive procurement), governmental appropriations, national defense policies or regulations, service modernization plans, and availability of funds. A reduction in expenditures by the U.S. Government for products and services of the type we manufacture and provide, lower margins resulting from increasingly competitive procurement policies, a reduction in the volume of contracts or subcontracts awarded to us or the incurrence of substantial contract cost overruns could materially adversely affect our business.

Certain of our sales are under foreign military sales (FMS) agreements directly between the U.S. Government and allied foreign governments. In such cases, because we serve only as the supplier, we do not have unilateral control over the terms of the agreements. Certain of our sales are direct commercial sales to allied foreign governments. These sales are subject to U.S. Government approval and licensing under the Arms Export Control Act. Legal restrictions on sales of sensitive U.S. technology also limit the extent to which we can sell our products to allied foreign governments or private parties.

All of our U.S. Government contracts can be terminated by the U.S. Government either for its convenience or if we default by failing to perform under the contract. Termination for convenience provisions provide only for our recovery of costs incurred or committed settlement expenses and profit on the work completed prior to termination. Termination for default provisions provide for the contractor to be liable for excess costs incurred by the U.S. Government in procuring undelivered items from another source. Our contracts with foreign governments generally contain similar provisions relating to termination at the convenience of the customer.

Table of Contents

Environmental Matters

Our operations are subject to various environmental laws and regulations relating to the discharge, storage, treatment, handling, disposal and remediation of certain materials, substances and wastes used in our operations. We continually assess our obligations and compliance with respect to these requirements.

We have also assessed the risk of environmental contamination for our various manufacturing facilities, including our acquired businesses and, where appropriate, have obtained indemnification, either from the sellers of those acquired businesses or through pollution liability insurance. We believe that our current operations are in substantial compliance with all existing applicable environmental laws and permits. We believe our current expenditures will allow us to continue to be in compliance with applicable environmental laws and regulations. While it is difficult to determine the timing and ultimate cost to be incurred in order to comply with these laws, based upon available internal and external assessments, with respect to those environmental loss contingencies of which we are aware, we believe there are no environmental loss contingencies that, individually or in the aggregate, would be material to our consolidated results of operations, financial position or cash flows.

Employees

As of December 31, 2011, we employed approximately 61,000 full-time and part-time employees, 84% of whom were located in the United States. Of these employees, approximately 16% are covered by 180 separate collective bargaining agreements with various labor unions. The success of our business is, to a large extent, dependent upon the knowledge of our employees and on the management, contracting, engineering and technical skills of our employees. In addition, our ability to grow our businesses, obtain additional orders for our products and services and to satisfy contractual obligations under certain of our existing revenue arrangements is largely dependent upon our ability to attract and retain employees who have U.S. Government security clearances, particularly those with clearances of top-secret and above. We believe that relations with our employees are positive.

L-3 Holdings Obligations

The only obligations of L-3 Holdings at December 31, 2011 were: (1) its 3% Convertible Contingent Debt Securities (CODES) due 2035, which were issued by L-3 Holdings on July 29, 2005, (2) its guarantee of borrowings under the revolving credit facility of L-3 Communications and (3) its guarantee of other contractual obligations of L-3 Communications and its subsidiaries. L-3 Holdings' obligations relating to the CODES have been jointly, severally, fully and unconditionally guaranteed by L-3 Communications and certain of its wholly-owned domestic subsidiaries. In order to generate the funds necessary to repurchase its common stock and pay dividends declared and principal and interest on its outstanding indebtedness, if any, L-3 Holdings relies on dividends and other payments from its subsidiaries.

Available Information

We are subject to the informational requirements of the Securities Exchange Act of 1934 and, in accordance therewith, file reports, including annual, quarterly and current reports, proxy statements and other information with the SEC. Such reports and other information can be inspected and copied at the Public Reference Room of the SEC located at 100 F Street, N.E., Washington, D.C. 20549. Copies of such material can be obtained from the Public Reference Room of the SEC at prescribed rates. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Such material may also be accessed electronically by means of the SEC's home page on the Internet at <http://www.sec.gov>.

You may also obtain a free copy of our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and proxy statement for the annual shareholders' meeting, as well as any amendments to those reports as soon as reasonably practicable after electronic filing with the SEC through our website on the Internet at <http://www.L-3com.com>.

Table of Contents

We also have a Corporate Governance webpage. You can access our Corporate Governance Guidelines and charters for the audit, compensation and nominating/corporate governance committees of our Board of Directors through our website, <http://www.L-3com.com>, by clicking on the Corporate Governance link under the heading Investor Relations. We post our Code of Ethics and Business Conduct on our Code of Ethics webpage under the link Code of Ethics and Business Conduct. Our Code of Ethics and Business Conduct applies to all directors, officers and employees, including our chairman, president and chief executive officer, our senior vice president and chief financial officer, and our vice president, controller and principal accounting officer. We will post any amendments to the Code of Ethics and Business Conduct, and any waivers that are required to be disclosed by the rules of either the SEC or the New York Stock Exchange, Inc. (NYSE), on our website within the required periods. The information on our website is not incorporated by reference into this report.

To learn more about L-3, please visit our website at <http://www.L-3com.com>. We use our website as a channel of distribution of material company information. Financial and other material information regarding L-3 is routinely posted on our website and is readily accessible.

Item 1A. Risk Factors

You should carefully consider the following risk factors and other information contained or incorporated by reference in this Form 10-K, including Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations . Any of these risks could materially affect our business and our financial condition, results of operations and cash flows, which could in turn materially affect the price of our common stock.

Our contracts (revenue arrangements) with U.S. Government customers entail certain risks.

A decline in or a redirection of the U.S. defense budget could result in a material decrease in our sales, results of operations and cash flows.

Our government contracts and sales are highly correlated and dependent upon the U.S. defense budget which is subject to the congressional budget authorization and appropriations process. Congress usually appropriates funds for a given program on a September 30 fiscal year basis, even though contract periods of performance may extend over many years. Consequently, at the beginning of a major program, the contract is usually partially funded, and additional monies are normally committed to the contract by the procuring agency only as appropriations are made by Congress in future fiscal years. DoD budgets are a function of several factors beyond our control, including, but not limited to, changes in U.S. procurement policies, budget considerations, current and future economic conditions, presidential administration priorities, changing national security and defense requirements, geo-political developments and actual fiscal year congressional appropriations for defense budgets. Any of these factors could result in a significant decline in, or redirection of, current and future DoD budgets and impact our future results of operations, including our sales and operating income growth rates.

In August 2011, Congress enacted the Budget Control Act of 2011 (the BCA). The BCA immediately imposes spending caps that contain approximately \$487 billion in reductions to the DoD base budgets over the next ten years (FY 2012 to FY 2021), compared to previously proposed DoD base budgets for the same fiscal years. An automatic sequestration process was also triggered by the BCA and becomes effective on January 3, 2013, unless modified by the enactment of new law. The sequestration process imposes additional cuts of approximately \$50 billion per year to the currently proposed DoD budgets for each fiscal year beginning with FY 2013 through FY 2021.

On February 13, 2012, President Obama submitted his FY 2013 proposed budget (FY 2013 DoD Plan) to Congress. The FY 2013 DoD Plan complies with the first phase of the BCA imposed spending cuts. The FY 2013 DoD Plan reduces proposed DoD base budgets by \$259 billion for FY 2013 to FY 2017, compared to the previously proposed DoD base budgets. The enacted DoD budget (base and OCO) for FY 2012 is 6% lower than the FY 2011 enacted budget. In addition, the FY 2013 DoD Plan projects a decline in the total DoD budget of 5% in FY 2013 and 6% in FY 2014, and a 2% increase in each year beginning in FY 2015 through FY 2017. The FY 2013 DoD Plan does not address or provision for the automatic sequestration process.

Table of Contents

The declining DoD budgets will reduce funding for some of our revenue arrangements and generally will have a negative impact on our sales, results of operations and cash flows. Additionally, the planned withdrawal of U.S. military forces from Afghanistan by the end of 2014 is expected to negatively impact our sales related to supporting U.S. military operations in Afghanistan.

We rely predominantly on sales to U.S. Government entities, and the loss or delay of a significant number of our contracts would have a material adverse effect on our results of operations and cash flows.

Our sales are predominantly derived from contracts (revenue arrangements) with agencies of, and prime system contractors to, the U.S. Government. The loss or delay of all or a substantial portion of our sales to the U.S. Government would have a material adverse effect on our results of operations and cash flows. Approximately 82%, or \$12.4 billion, of our sales for the year ended December 31, 2011 were made directly or indirectly to U.S. Government agencies, including the DoD. Aggregate sales from our five largest contracts (revenue arrangements) amounted to approximately \$1.7 billion, or 11% of our sales for the year ended December 31, 2011. For the year ended December 31, 2011, our largest contract (revenue arrangement) in terms of annual sales was the Fort Rucker Maintenance Support contract with the U.S. Army Aviation and Missile Command, which is included in our AM&M segment. Under this contract, which generated approximately 3% of our 2011 sales, we provide maintenance and logistical support services for rotary wing aircraft assigned to Fort Rucker and satellite units in Alabama. The current contract is expected to end on September 30, 2012. We submitted our proposal in November 2011 for the contract re-competition and anticipate the award will be made by August 2012. We cannot provide any assurance that we will win the re-competition of the Fort Rucker Maintenance Support contract.

A substantial majority of our total sales are for products and services under contracts with various agencies and procurement offices of the DoD or with prime contractors to the DoD. Although these various agencies, procurement offices and prime contractors are subject to common budgetary pressures and other factors, our customers exercise independent purchasing decisions. Because of this concentration of contracts, if a significant number of our DoD contracts and subcontracts are simultaneously delayed or cancelled for budgetary, performance or other reasons, it would have a material adverse effect on our results of operations and cash flows.

In addition to contract cancellations and declines in agency budgets, our backlog and future financial results may be adversely affected by:

curtailment of the U.S. Government's use of technology or other services and product providers, including curtailment due to government budget reductions and related fiscal matters;

developments in Afghanistan, or other geopolitical developments that affect demand for our products and services;

our ability to hire and retain personnel to meet increasing demand for our services; and

technological developments that impact purchasing decisions or our competitive position.

The DoD's wide-ranging efficiencies initiative, which targets affordability and cost growth, could have a material effect on the procurement process and may adversely affect our existing contracts and the award of new contracts.

The U.S. Government has issued guidance regarding changes to the procurement process that is intended to control cost growth throughout the acquisition cycle by developing a competitive strategy for each program. As a result, the Company expects to engage in more frequent negotiations and re-competitions on a cost or price analysis basis with every competitive bid in which it participates. This initiative is organized into five major areas: affordability and cost growth; productivity and innovation; competition; services acquisition; and

Table of Contents

processes and bureaucracy. Because this initiative significantly changes the way the U.S. Government solicits, negotiates and manages its contracts, this initiative could result in a reduction in expenditures for the type of products we manufacture for, and services we provide to, the U.S. Government and could have a material negative impact on our future sales, earnings and cash flows.

In addition, the FY 2013 DoD Plan seeks reductions in contractor support services and consolidation of enterprise IT systems as part of an effort to achieve another \$60 billion of efficiency savings over the five fiscal years FY 2013 through FY 2017. This initiative will primarily affect our businesses within the Government Services reportable segment and could result in the loss of certain of our existing contracts (revenue arrangements) depending on how the DoD implements this initiative.

Our government contracts contain unfavorable termination provisions and are subject to audit and modification. If a termination right is exercised by the government, it could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Companies engaged primarily in supplying defense-related equipment and services to U.S. Government agencies are subject to certain business risks peculiar to the defense industry. These risks include the ability of the U.S. Government to unilaterally:

suspend us from receiving new contracts pending resolution of alleged violations of procurement laws or regulations;

terminate existing contracts;

reduce the value of existing contracts; and

audit our contract-related costs and fees, including allocated indirect costs.

All of our U.S. Government contracts can be terminated by the U.S. Government either for its convenience or if we default by failing to perform under the contract. Termination for convenience provisions provide only for our recovery of costs incurred or committed settlement expenses and profit on the work completed prior to termination. Termination for default provisions provide for the contractor to be liable for excess costs incurred by the U.S. Government in procuring undelivered items from another source. Our contracts with foreign governments generally contain similar provisions relating to termination at the convenience of the customer.

U.S. Government agencies, including the Defense Contract Audit Agency and various agency Inspectors General, routinely audit and investigate our costs and performance on contracts, as well as our accounting and general business practices. Based on the results of such audits, the U.S. Government may adjust our contract related costs and fees, including allocated indirect costs. In addition, under U.S. Government purchasing regulations, some of our costs, including certain business acquisition costs, most financing costs, portions of research and development costs, and certain marketing expenses may not be reimbursable under U.S. Government contracts.

We currently have a backlog of funded orders, primarily under contracts with the U.S. Government. Our total funded backlog was \$10,695 million at December 31, 2011. As described above, the U.S. Government may unilaterally modify or terminate its contracts with us. Accordingly, most of our backlog could be modified or terminated by the U.S. Government, which would negatively impact our future sales, results of operations and cash flows.

Table of Contents

We may not be able to win competitively awarded contracts or receive required licenses to export our products, which could have a material adverse effect on our business, financial condition, results of operations and future prospects.

Our government contracts are subject to competitive bidding. We obtain many of our U.S. Government contracts through a competitive bidding process. We may not be able to continue to win competitively awarded contracts. In addition, awarded contracts may not generate sales sufficient to result in our profitability. We are also subject to risks associated with the following:

the frequent need to bid on programs in advance of the completion of their design, which may result in unforeseen technological difficulties and/or cost overruns;

the substantial time, effort and experience required to prepare bids and proposals for competitively awarded contracts that may not be awarded to us;

design complexity and rapid technological obsolescence; and

the constant need for design improvement.

In addition to these U.S. Government contract risks, we are not permitted to export some of our products and are also required to obtain licenses from U.S. Government agencies to export many of our products and systems. Failure to receive required licenses would eliminate our ability to sell our products and systems outside the United States.

Intense competition and bid protests may adversely effect our sales, results of operations and cash flows.

The defense and commercial industries in which our businesses operate are highly competitive. We expect that the DoD's increased use of commercial off-the-shelf products and components in military equipment will continue to encourage new competitors to enter the market. We also expect increased competition for our products and services due to the uncertainty of future U.S. defense budgets. Furthermore, the current competitive environment has resulted in an increase of bid protests from unsuccessful bidders, which typically extends the time until work on a contract can begin. Additionally, some of our competitors are larger than we are and have more financial and other resources than we have. For more information concerning the factors that affect our ability to compete, see Part I Item 1 Business Competition beginning on page 15.

We are subject to government investigations, which could have a material adverse effect on our business, financial condition, results of operations, cash flows and future prospects.

U.S. Government contracts are subject to extensive legal and regulatory requirements, and from time to time agencies of the U.S. Government investigate whether such contracts were and are being conducted in accordance with these requirements. We are currently cooperating with the U.S. Government on several investigations, including those discussed in Note 19 to our audited consolidated financial statements beginning on page F-41. Under U.S. Government regulations, an indictment of the Company by a federal grand jury, or an administrative finding against us as to our present responsibility to be a U.S. Government contractor or subcontractor, could result in us being suspended for a period of time from eligibility for awards of new government contracts or task orders or in a loss of export privileges. A conviction, or an administrative finding against us that satisfies the requisite level of seriousness, could result in debarment from contracting with the federal government for a specific term.

Table of Contents

We are subject to the risks of current and future legal proceedings, which could have a material adverse effect on our business, financial condition, results of operations, cash flows and future prospects.

At any given time, we are a defendant in various material legal proceedings and litigation matters arising in the ordinary course of business, including litigation, claims and assessments that have been asserted against acquired businesses, which we have assumed. Although we maintain insurance policies, these policies may not be adequate to protect us from all material judgments and expenses related to current or future claims and may not cover the conduct that is the subject of the litigation. Desired levels of insurance may not be available in the future at economical prices or at all. In addition, we believe that while we have valid defenses with respect to legal matters pending against us, the results of litigation can be difficult to predict, including those involving jury trials. Accordingly, our current judgment as to the likelihood of our loss (or our current estimate as to the potential range of loss, if applicable) with respect to any particular litigation matter may turn out to be wrong. A significant judgment against us, arising out of any of our current or future legal proceedings and litigation, could have a material adverse effect on our business, financial condition, results of operations, cash flows and future prospects. For a discussion of material litigation to which we are currently a party, see Note 19 to our audited consolidated financial statements on page F-41.

If we are unable to keep pace with rapidly evolving products and service offerings and technological change, there could be a material adverse effect on our business, financial condition, results of operations, cash flows and future prospects.

The rapid change of technology is a key feature of most of the markets in which our products, services and systems oriented businesses operate. To succeed in the future, we will need to continue to design, develop, manufacture, assemble, test, market and support new products and enhancements on a timely and cost-effective basis. Historically, our technology has been developed through customer-funded and internally funded research and development and through certain business acquisitions. We may not be able to continue to maintain comparable levels of research and development or successfully complete such acquisitions. In the past, we have allocated substantial funds to capital expenditures, programs and other investments. This practice will continue to be required in the future. Even so, we may not be able to successfully identify new opportunities and may not have the necessary financial resources to develop new products and systems in a timely or cost-effective manner. At the same time, products and technologies developed by others may render our products, services and systems obsolete or non-competitive.

Our business acquisition strategy involves risks, and we may not successfully implement our strategy.

We opportunistically seek to acquire businesses that enhance our capabilities and add new technologies, products, services, programs, contracts, and customers to our existing businesses. We may not be able to continue to identify acquisition candidates on commercially reasonable terms or at all. If we make additional business acquisitions, we may not realize the benefits anticipated from these acquisitions, including sales growth, cost synergies and improving margins. Furthermore, we may not be able to obtain additional financing for business acquisitions, since such additional financing could be restricted or limited by the terms of our debt agreements or due to unfavorable credit market conditions.

The process of integrating the operations of acquired businesses into our existing operations may result in unforeseen difficulties and may require significant financial and managerial resources that would otherwise be available for the ongoing development or expansion of our existing operations. Possible future business acquisitions could result in the incurrence of additional debt and related interest expense and contingent liabilities, each of which could result in an increase to our already significant level of outstanding debt, as well as more restrictive covenants.

We consider and may enter into strategic business acquisitions on an ongoing basis and may be evaluating acquisitions or engaging in acquisition negotiations at any given time. We regularly evaluate potential

Table of Contents

acquisitions and joint venture transactions and have not entered into any agreements with respect to any material transactions at this time. Furthermore, in certain of our business acquisitions we have assumed all claims against and liabilities of the acquired business, including both asserted and unasserted claims and liabilities.

Goodwill represents a significant asset on our balance sheet and may become impaired.

Goodwill represents the largest asset on our balance sheet, with an aggregate balance of \$8,697 million at December 31, 2011. We review goodwill and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable, and also review goodwill annually in accordance with the accounting standards for goodwill and intangible assets. The annual impairment test requires us to determine the fair value of our reporting units in comparison to their carrying values. A decline in the estimated fair value of a reporting unit could result in a goodwill impairment, and a related non-cash impairment charge against earnings, if estimated fair value for the reporting unit is less than the carrying value of the net assets of the reporting unit, including its goodwill. The fair value of eight of our reporting units exceeded the carrying value of the net assets of those reporting units by less than 20% at November 30, 2011. In addition, we recorded a non-cash goodwill impairment charge of \$43 million in 2011 due to a decline in the estimated fair value of the Marine Services business, which is part of the Electronic Systems segment, as a result of a decline in its projected future cash flows. A decline in the estimated fair value of one or more of our reporting units could result in a material adverse effect on our financial condition and results of operations. See Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies beginning on page 41.

Our results of operations and cash flows are substantially affected by our mix of fixed-price, cost-plus and time-and-material type contracts.

Our sales are transacted using written revenue arrangements, or contracts, which are generally fixed-price, cost-plus or time-and-material. For a description of our revenue recognition policies, see Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Critical Accounting Policies beginning on page 41.

The table below presents the percentage of our total sales generated from each contract-type.

<u>Contract-Type</u>	Year Ended December 31,		
	2011	2010	2009
Fixed-price	63%	58%	57%
Cost-plus	26%	28%	28%
Time-and-material	11%	14%	15%
Total sales	100%	100%	100%

Substantially all of our cost-plus and time-and-material type contracts are with the U.S. Government, primarily the DoD. Substantially all of our sales to commercial customers are transacted under fixed-price sales arrangements, and are included in our fixed-price type contract sales.

On a fixed-price type contract (revenue arrangement), we agree to perform the contractual statement of work for a predetermined sales price. Although a fixed-price type contract generally permits us to retain profits if the total actual contract costs are less than the estimated contract costs, we bear the risk that increased or unexpected costs may reduce our profit or cause us to sustain losses on the contract.

On a cost-plus type contract (revenue arrangement), we are paid our allowable incurred costs plus a profit which can be fixed or variable depending on the contract's fee arrangement up to predetermined funding levels.

Table of Contents

determined by our customers. On a time-and-material type contract (revenue arrangement), we are paid on the basis of direct labor hours expended at specified fixed-price hourly rates (that include wages, overhead, allowable general and administrative expenses and profit) and materials at cost. Therefore, on cost-plus type and time-and-material type contracts, we do not bear the risks of unexpected cost overruns, provided that we do not incur costs that exceed the predetermined funded amounts.

Additionally, the impact of revisions in profit or loss estimates for all types of contracts subject to percentage of completion accounting are recognized on a cumulative catch-up basis in the period in which the revisions are made. Provisions for anticipated losses on contracts are recorded in the period in which they become evident. Amounts representing contract change orders or claims are included in sales only when they can be reliably estimated and their realization is reasonably assured. The revisions in contract estimates, if significant, can materially affect our results of operations and cash flows, as well as reduce the valuations of receivables and inventories; and in some cases, result in liabilities to complete contracts in a loss position.

Our significant level of debt and our ability to make payments on or service our indebtedness may adversely affect our financial and operating activities or our ability to incur additional debt.

At December 31, 2011, we had approximately \$4,139 million in aggregate principal amount of outstanding debt. In addition, at December 31, 2011 we had borrowing capacity of \$997 million available to us under our three-year \$1 billion revolving credit facility that was due to expire on October 23, 2012 (Revolving Credit Facility), after reductions of \$3 million for outstanding letters of credit. On February 3, 2012, we amended and restated our Revolving Credit Facility (Amended and Restated Revolving Credit Facility), which also extended the expiration date to February 3, 2017. In the future, we may increase our borrowings, subject to limitations imposed on us by our debt agreements. The first scheduled maturity of our existing debt is our \$500 million aggregate principal amount of our 6³/₈% Senior Subordinated Notes maturing October 15, 2015. See Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources Debt beginning on page 62 and Note 10 to our audited consolidated financial statements.

Our ability to make scheduled payments of principal and interest on our indebtedness and to refinance our existing debt depends on our future financial performance as well as our ability to access the capital markets, and the relative attractiveness of available financing terms. We do not have complete control over our future financial performance because it is subject to economic, political, financial (including credit market conditions), competitive, regulatory and other factors affecting the aerospace and defense industry, as well as commercial industries in which we operate. It is possible that in the future our businesses may not generate sufficient cash flow from operations to allow us to service our debt and make necessary capital expenditures. If this situation occurs, we may have to reduce costs and expenses, sell assets, restructure debt or obtain additional equity capital. We may not be able to do so in a timely manner or upon acceptable terms in accordance with the restrictions contained in our debt agreements. Our level of indebtedness has important consequences to us. These consequences may include:

requiring a substantial portion of our net cash flow from operations to be used to pay interest and principal on our debt and therefore be unavailable for other purposes, including acquisitions, capital expenditures, paying dividends to our shareholders, repurchasing shares of our common stock, research and development and other investments;

limiting our ability to obtain additional financing for acquisitions, working capital, investments or other expenditures, which, in each case, may limit our ability to carry out our acquisition strategy;

increasing interest expense due to higher interest rates on our Amended and Restated Revolving Credit Facility as it has a variable interest rate;

heightening our vulnerability to downturns in our business or in the general economy and restricting us from making acquisitions, introducing new technologies and products or exploiting business opportunities; and

Table of Contents

impacting debt covenants that limit our ability to borrow additional funds, dispose of assets, pay cash dividends to our shareholders or repurchase shares of our common stock. Failure to comply with such covenants could result in an event of default which, if not cured or waived, could result in the acceleration of our outstanding indebtedness.

Additionally, on December 31, 2011, we had \$9,212 million of contractual obligations (including outstanding indebtedness). For a detailed listing of the components of our contractual obligations, see Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Contractual Obligations on page 64.

Our debt agreements restrict our ability to finance our future operations and, if we are unable to meet our financial ratios, could cause our existing debt to be accelerated.

Our debt agreements contain a number of significant covenants that, among other things, restrict our ability to:

sell assets;

incur more indebtedness;

repay certain indebtedness;

make certain investments or business acquisitions;

make certain capital expenditures;

engage in business mergers or consolidations; and

engage in certain transactions with subsidiaries and affiliates.

These restrictions could impair our ability to finance our future operations or capital needs or engage in other business activities that may be in our interest. In addition, some of our debt agreements also require us to maintain compliance with certain financial ratios, including (1) total consolidated earnings before interest, taxes, depreciation and amortization to total consolidated cash interest expense, (2) total consolidated funded indebtedness less designated cash balances to total consolidated earnings before interest, taxes, depreciation and amortization, and (3) consolidated senior indebtedness less designated cash balances to consolidated earnings before interest, taxes, depreciation and amortization. Our ability to comply with these ratios and covenants may be affected by events beyond our control. A breach of any of these agreements or our inability to comply with the required financial ratios or covenants could result in a default under those debt agreements. In the event of any such default, the lenders under those debt agreements could elect to:

declare all outstanding debt, accrued interest and fees to be due and immediately payable;

require us to apply all of our available cash to repay our outstanding senior debt; and

prevent us from making debt service payments on our other debt.

For further discussion of our financial ratios, debt agreements and other payment restrictions, see Note 10 to our audited consolidated financial statements on page F-23.

Table of Contents

If we are unable to attract and retain key management and personnel, we may become unable to operate our business effectively.

Our future success depends to a significant degree upon the continued contributions of our management, and our ability to attract and retain highly qualified management and technical personnel, including employees who have U.S. Government security clearances, particularly clearances of top-secret and above. We do not maintain any key person life insurance policies for members of our management. We face competition for management and technical personnel from other companies and organizations. Failure to attract and retain such personnel would damage our future prospects.

Environmental laws and regulations may subject us to significant liability.

Our operations are subject to various U.S. federal, state and local as well as certain foreign environmental laws and regulations within the countries in which we operate relating to the discharge, storage, treatment, handling, disposal and remediation of certain materials, substances and wastes used in our operations.

New laws and regulations, stricter enforcement of existing laws and regulations, the discovery of previously unknown contamination or the imposition of new clean-up requirements may require us to incur a significant amount of additional costs in the future and could decrease the amount of cash flow available to us for other purposes, including capital expenditures, research and development and other investments and could have a material adverse effect on our business, financial condition, results of operations, cash flows and future prospects.

Our sales to certain foreign customers expose us to risks associated with operating internationally.

For the year ended December 31, 2011, sales to foreign customers, excluding our foreign sales made under FMS agreements directly between the U.S. Government and allied foreign governments, represented approximately 11% of our consolidated sales. Consequently, our businesses are subject to a variety of risks that are specific to international operations, including the following:

export regulations that could erode profit margins or restrict exports;

compliance with the U.S. Foreign Corrupt Practices Act and similar non-U.S. regulations;

the burden and cost of compliance with foreign laws, treaties and technical standards and changes in those regulations;

contract award and funding delays;

potential restrictions on transfers of funds;

currency fluctuations;

import and export duties and value added taxes;

transportation delays and interruptions;

uncertainties arising from foreign local business practices and cultural considerations; and

potential military conflicts and political risks.

While we have and will continue to adopt measures to reduce the potential impact of losses resulting from the risks of our foreign business, we cannot ensure that such measures will be adequate.

Table of Contents

Our business could be negatively impacted by security threats and other disruptions.

As a U.S. defense contractor, we face various security threats, including cyber security attacks to our information technology infrastructure, attempts to gain access to our proprietary or classified information as well as threats to the physical security of our facilities and employees. Although we utilize various procedures and controls to monitor and mitigate these threats, there can be no assurance that these procedures and controls will be sufficient to prevent disruptions in mission critical systems, the unauthorized release of confidential information and corruption of data. Accordingly, any significant operational delays, or any destruction, manipulation or improper use of our data, information systems or networks could adversely affect our financial results and damage the reputation for our products and services.

We announced the planned spin-off of a part of our Government Services segment into a new, independent publicly traded company, which will be named Engility. This transaction will likely require significant time and attention of our management and we may not be able to complete the transaction or, if completed, realize the anticipated benefits.

On July 28, 2011, we announced a plan to spin-off a part of our Government Services segment. In order to effectuate the spin-off, among other things, we will be required to file a registration statement on Form 10 with the Securities and Exchange Commission (SEC). Our ability to complete the spin-off in a timely manner, if at all, could be subject to several factors, including but not limited to: (1) changes in the newly created entity's operating performance, (2) our ability to obtain any necessary consents or approvals, (3) our ability to obtain any necessary financing for the newly created entity as well as the terms of such financing, (4) changes in governmental regulations, (5) changes in the underlying businesses, its contracts, or customers, (6) overall political and economic conditions at the time of the spin-off, and (7) obtaining an opinion of counsel as to the satisfaction of certain requirements necessary for the spin-off to receive tax-free treatment upon which the Internal Revenue Service (IRS) does not rule. Additionally, execution of the proposed spin-off transaction will likely require significant time and attention from management, which could distract management from the operation of our business and the execution of our other strategic initiatives. We may not be able to complete the spin-off within the expected time frame or complete the spin-off at all. In addition, even if completed, we may not realize the anticipated benefits from the spin-off.

The Company's proposed spin-off of Engility could result in substantial tax liability to the Company and its shareholders.

We have received an IRS Ruling stating that L-3 and its shareholders will not recognize any taxable income, gain or loss for U.S. federal income tax purposes as a result of the spin-off. In addition, certain requirements for tax-free treatment that are not covered in the IRS Ruling will be addressed in an opinion of counsel which we expect to receive immediately prior to the completion of the spin-off. An opinion of counsel is not binding on the IRS. Accordingly, the IRS or the courts may reach conclusions with respect to the spin-off that are different from the conclusions reached in the opinion of counsel. Moreover, both the IRS Ruling and the opinion of counsel are based on certain factual statements and representations made by us, which, if incomplete or untrue in any material respect, could invalidate the IRS Ruling or opinion of counsel.

If, notwithstanding receipt of the IRS Ruling and opinion of counsel, the spin-off and certain related transactions were determined to be taxable, then we would be subject to a substantial tax liability. In addition, if the spin-off were taxable, each holder of our common stock who receives shares of Engility would generally be treated as receiving a taxable distribution of property in an amount equal to the fair market value of the shares of Engility received.

Item 1B. Unresolved Staff Comments

None.

Table of Contents**Item 2. Properties**

At December 31, 2011, we operated in 491 locations consisting of manufacturing facilities, administration, research and development and other properties throughout the United States and internationally. Of these, we owned 37 locations consisting of approximately 5.7 million square feet and leased space at 454 locations consisting of approximately 15.9 million square feet.

Our reportable segments have major operations at the following locations:

C³ISR Camden, New Jersey; Deerfield, Ohio; Greenville and Rockwall, Texas; and Salt Lake City, Utah.

Government Services Annapolis, Maryland; and Alexandria, Chantilly and Reston, Virginia.

AM&M Crestview, Florida; Madison, Mississippi; Waco, Texas; and Quebec, Canada.

Electronic Systems Phoenix and Tempe, Arizona; Anaheim, Menlo Park, San Carlos, San Diego, San Leandro, Simi Valley, Sylmar and Torrance, California; Orlando, Sarasota and St. Petersburg, Florida; Ayer, Massachusetts; Grand Rapids and Muskegon, Michigan; Londonderry, New Hampshire; Budd Lake, New Jersey; Albuquerque, New Mexico; Binghamton, Hauppauge and Victor, New York; Cincinnati and Mason, Ohio; Tulsa, Oklahoma; Philadelphia, Pittsburgh and Williamsport, Pennsylvania; Arlington and Garland, Texas; Ontario, Canada; and Elmenhorst, Jemgum, Leer and Hamburg, Germany.

Corporate and other locations New York, New York and Arlington, Virginia.

A summary of square footage by reportable segment as of December 31, 2011 is presented below.

	Leased	Owned (Square feet in millions)	Total
C ³ ISR	5.0	0.2	5.2
Government Services	2.2		2.2
AM&M	0.9	1.7	2.6
Electronic Systems	7.7	3.8	11.5
Corporate	0.1		0.1
Total	15.9	5.7	21.6

Management believes all of our properties have been well maintained, are in good condition, and are adequate to meet our current contractual requirements.

Item 3. Legal Proceedings

The information required with respect to this item can be found in Note 19 to our audited consolidated financial statements and is incorporated by reference into this Item 3.

Item 4. Mine Safety Disclosures

None.

Table of Contents**PART II****Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

The common stock of L-3 Holdings is traded on the NYSE under the symbol LLL. On February 21, 2012, the number of holders of L-3 Holdings common stock was approximately 39,650. On February 28, 2012, the closing price of L-3 Holdings common stock, as reported by the NYSE, was \$70.28 per share.

The table below sets forth the high and low closing price of L-3 Holdings common stock as reported on the NYSE composite transaction tape and the amount of dividends paid per share during the past two calendar years.

Common Stock	Dividends Paid		Closing Price (High-Low)	
	2011	2010	2011	2010
Dividends Paid and Market Prices				
First Quarter	\$ 0.45	\$ 0.40	\$ 80.85	\$ 70.84
Second Quarter	0.45	0.40	88.31	74.95
Third Quarter	0.45	0.40	86.77	58.94
Fourth Quarter	0.45	0.40	70.97	60.04
Year Ended December 31	\$ 1.80	\$ 1.60	88.31	58.94

On February 7, 2012, L-3 Holdings announced that its Board of Directors had increased L-3 Holdings regular quarterly cash dividend by 11% to \$0.50 per share, payable on March 15, 2012, to shareholders of record at the close of business on March 1, 2012.

L-3 Holdings relies on dividends received from L-3 Communications to generate the funds necessary to pay dividends on L-3 Holdings common stock. See Note 10 to our audited consolidated financial statements for the financial and other restrictive covenants that limit the payment of dividends by L-3 Communications to L-3 Holdings.

Issuer Purchases of Equity Securities

The following table provides information about share repurchases made by L-3 Holdings of its common stock that are registered pursuant to Section 12 of the Exchange Act during the 2011 fourth quarter. Repurchases are made from time to time at management's discretion in accordance with applicable federal securities laws. All share repurchases of L-3 Holdings common stock have been recorded as treasury shares.

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased As Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares That May Yet Be Purchased Under The Plans or Programs ⁽¹⁾ (in millions)
October 1 - October 31, 2011	1,203,781	\$ 64.94	1,203,781	\$ 1,214
November 1 - 30, 2011	627,007	65.24	627,007	\$ 1,173
December 1 - 31, 2011	601,616	65.16	601,606	\$ 1,134

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

Total	2,432,404	\$ 65.07	2,432,404
-------	-----------	----------	-----------

(1) The share repurchases described in the table above were made pursuant to the \$1.5 billion share repurchase program authorized by L-3 Holdings Board of Directors on April 26, 2011, which has a stated termination date of April 30, 2013.

Table of Contents

From January 1, 2012 through February 29, 2012, L-3 Holdings has repurchased 934,086 shares of its common stock at an average price of \$69.68 per share for an aggregate amount of approximately \$65 million.

The graph below compares the cumulative total returns of our common stock with the cumulative total return of the Standard & Poor's 500 Composite Stock Index and the Standard & Poor's 1500 Aerospace & Defense Index, for the period from December 31, 2006 to December 31, 2011. These figures assume that all dividends paid over the performance period were reinvested, and that the starting value of each index and the investment in our common stock was \$100 on December 31, 2006.

We are one of the companies included in the Standard & Poor's 1500 Aerospace & Defense Index and the Standard & Poor's 500 Composite Stock Index. The starting point for the measurement of our common stock cumulative total return was our stock price of \$81.78 per share on December 29, 2006. The graph is not, and is not intended to be, indicative of future performance of our common stock.

Table of Contents**Item 6. Selected Financial Data**

We derived the selected financial data presented below at December 31, 2011 and 2010 and for each of the three years in the period ended December 31, 2011 from our audited consolidated financial statements included elsewhere in this Form 10-K. We derived the selected financial data presented below at December 31, 2009, 2008 and 2007 and for the years ended December 31, 2008 and 2007 from our audited consolidated financial statements not included in this Form 10-K. The selected financial data should be read in conjunction with our Management's Discussion and Analysis of Financial Condition and Results of Operations and our audited consolidated financial statements. Our results of operations, cash flows and financial position are affected significantly, in some periods, by our business acquisitions, the more significant of which are described elsewhere herein.

Cash dividends declared per share on L-3 Holdings common stock

- (1) The year ended December 31, 2011 includes: (1) a tax benefit of \$78 million, or \$0.74 per diluted share, for a net reversal of amounts previously accrued related to tax years for which the statutes of limitations had expired, (2) a non-cash goodwill impairment charge of \$43 million (\$42 million after income taxes), or \$0.40 per diluted share, due to a decline in the estimated fair value of our Marine Services business and (3) \$14 million (\$8 million after income taxes), or \$0.08 per diluted share for our portion of an impairment charge for long-lived assets at an equity method investment.

Table of Contents

- (2) The year ended December 31, 2008 includes: (1) a gain of \$12 million (\$7 million after income taxes, or \$0.06 per diluted share) related to the sale of a product line, (2) a non-cash impairment charge of \$28 million (\$17 million after income taxes, or \$0.14 per diluted share) related to a write-down of capitalized software development costs associated with a general aviation product, and (3) an after-tax gain of \$20 million, or \$0.16 per diluted share, related to the sale of our 85% ownership interest in Medical Education Technologies, Inc. on October 8, 2008. (The gain is excluded from income from continuing operations for the year ended December 31, 2008.)
- (3) The year ended December 31, 2008 includes a gain of \$133 million (\$81 million after income taxes, or \$0.66 per diluted share) related to the reversal of a \$126 million current liability for pending and threatened litigation and \$7 million of related accrued interest as a result of a June 27, 2008 decision by the U.S. Court of Appeals which vacated an adverse 2006 jury verdict.

	Year Ended December 31,

Overview and Outlook

L-3's Business

L-3 is a prime contractor in Command, Control, Communications, Intelligence, Surveillance and Reconnaissance (C³ISR) systems, aircraft modernization and maintenance, and government services. L-3 is also a leading provider of a broad range of electronic systems used on military and commercial platforms. Our customers include the United States (U.S.) Department of Defense (DoD) and its prime contractors, U.S. Government intelligence agencies, the U.S. Department of Homeland Security (DHS), U.S. Department of State (DoS), U.S. Department of Justice (DoJ), allied foreign governments, domestic and foreign commercial customers, and select other U.S. federal, state and local government agencies.

We have the following four reportable segments: (1) C³ISR, (2) Government Services, (3) Aircraft Modernization and Maintenance (AM&M), and (4) Electronic Systems. Financial information with respect to each of our segments is included in Note 22 to our audited consolidated financial statements. C³ISR provides products and services for the global ISR market, C³ systems, networked communications systems and secure communications products. We believe that these products and services are critical elements for a substantial number of major command, control and communication, intelligence gathering and space systems. These products and services are used to connect a variety of airborne, space, ground and sea-based communication systems and are used in the transmission, processing, recording, monitoring, and dissemination functions of these communication systems. Government Services provides a full range of systems engineering and technical assistance (SETA), training, operational support, cyber security, intelligence, enterprise IT and security solutions services to the DoD, DoS, DoJ, and U.S. Government intelligence agencies and allied foreign governments. AM&M provides modernization, upgrades and sustainment, maintenance and logistics support services for military and various government aircraft and other platforms. We sell these services primarily to the DoD, the Canadian Department of Defense and other allied foreign governments. Electronic Systems provides a broad range of products and services, including components, products, subsystems, systems, and related services to military and commercial customers in several niche markets across several business areas, including microwave, power & control systems, integrated sensor systems, aviation products, simulation & training, warrior systems, precision engagement, security & detection, space & propulsion, undersea warfare and marine services.

On July 28, 2011, we announced that our Board of Directors approved a plan to spin-off a new, independent government services company that will be publicly traded. The new public company will be named Engility Holdings, Inc. (Engility) and will include the SETA, training and operational support services businesses that are currently part of L-3's Government Services segment. See [Spin-Off of Businesses that will comprise Engility](#) below for additional information.

Due to re-alignments in our management and organizational structure during the quarter ended April 1, 2011, we made certain reclassifications among our C³ISR, Government Services and Electronic Systems segments. See Note 22 to our audited consolidated financial statements for the prior period sales, operating income and assets reclassified between segments.

Table of Contents

For the year ended December 31, 2011, we generated sales of \$15,169 million. Our primary customer was the DoD. The table below presents a summary of our 2011 sales by end customer and the percent contributed by each to our total 2011 sales.

	2011 Sales (in millions)	% of Total Sales
Army	\$ 3,931	26%
Air Force	3,864	25
Navy/Marines	2,358	16
Other Defense	1,168	8
Total DoD	\$ 11,321	75%
Other U.S. Government	1,113	7
Total U.S. Government	\$ 12,434	82%
Foreign governments	1,200	8
Commercial foreign	905	6
Commercial domestic	630	4
Total sales	\$ 15,169	100%

Most of our contracts (revenue arrangements) with the U.S. Government are subject to U.S. Defense Contract Audit Agency audits and various cost and pricing regulations, and include standard provisions for termination for the convenience of the U.S. Government. Multiyear U.S. Government contracts and related orders are subject to cancellation if funds for contract performance for any subsequent year become unavailable. Foreign government contracts generally include comparable provisions relating to termination for the convenience of the relevant foreign government.

Industry Considerations

As described above, sales to the DoD represent approximately 75% of our total sales. The U.S. Government fiscal year ends on September 30th. From fiscal year (FY) 2000 to FY 2010, the DoD budget, including wartime funding for Overseas Contingency Operations (OCO) grew at a compound annual rate of approximately 9%. The total DoD budget (base and OCO) for FY 2011 was approximately flat compared to fiscal year 2010. During the year ended December 31, 2011, the U.S. Government completed its drawdown of U.S. military troops from Iraq, and began to drawdown troops from Afghanistan, in accordance with the Obama Administration plan to complete the drawdown from Afghanistan by the end of 2014. While the U.S. is expected to maintain a presence in the Middle East to deter aggression and prevent the emergence of new threats, there will be a rebalance toward other regions of the world such as the Asia-Pacific theatre. In addition, the U.S. Government has been under increasing pressure to reduce the U.S. fiscal budget deficit and national spending.

In August 2011, Congress enacted the Budget Control Act of 2011 (the BCA). The BCA immediately imposes spending caps that contain approximately \$487 billion in reductions to the DoD base budgets over the next ten years (FY 2012 to FY 2021), compared to previously proposed DoD base budgets for the same fiscal years. An automatic sequestration process was also triggered and becomes effective on January 3, 2013, unless modified by the enactment of new law. The sequestration process imposes additional cuts of approximately \$50 billion per year to the currently proposed DoD budgets for each fiscal year beginning with FY 2013 through FY 2021, for which FY 2013 to FY 2017 proposed DoD budgets are presented below.

Table of Contents

On February 13, 2012, President Obama submitted his FY 2013 proposed budget (FY 2013 DoD Plan) to Congress. The FY 2013 DoD Plan complies with the first phase of the BCA imposed spending cuts. The FY 2013 DoD Plan reduces proposed DoD base budgets by \$259 billion for FY 2013 to FY 2017, compared to the previously proposed DoD base budgets. The FY 2013 DoD Plan does not address or provision for the automatic sequestration process. The FY 2013 DoD Plan reflects a revised national security strategy that includes a more disciplined use of resources from: (1) various efficiency initiatives, (2) military force structure reductions, (3) equipment modernization savings, including program terminations, restructuring and deferrals, and (4) military personnel compensation changes. The table below presents the enacted DoD budget (base and OCO) for FY 2012 and the proposed DoD budgets for FY 2013 to FY 2017, as provided in the FY 2013 DoD Plan.

Fiscal Year	Base	OCO	Total	Annual Total Budget Change
2012	\$ 530.6	\$ 115.1	\$ 645.7	-6%
2013	\$ 525.4	\$ 88.5	\$ 613.9	-5%
2014	\$ 533.6	\$ 44.2	\$ 577.8	-6%
2015	\$ 545.9	\$ 44.2	\$ 590.1	2%
2016	\$ 555.9	\$ 44.2	\$ 600.1	2%
2017	\$ 567.3	\$ 44.2	\$ 611.5	2%

The FY 2013 DoD Plan is expected to continue to focus on advanced ISR (intelligence, surveillance and reconnaissance), communications, strike aircraft, precision-guided weapons, unmanned systems, networked information technologies, cyber security, special operations forces, missile defense and space programs, and generally, systems and capabilities that are critical to both conventional and irregular warfare, and the ability to project power in denied environments. We believe L-3 is well positioned to benefit from the DoD's focus in several of these areas. The declining DoD budgets, however, will reduce funding for some of our revenue arrangements and generally, will have a negative impact on our sales, results of operations and cash flows. Additionally, the planned withdrawal of U.S. military forces from Afghanistan by the end of 2014 is expected to negatively impact our sales related to supporting U.S. military operations in Afghanistan.

Key Performance Measures

The primary financial performance measures that L-3 uses to manage its businesses and monitor results of operations are sales trends and operating income trends. Management believes that these financial performance measures are the primary growth drivers for L-3's earnings per common share and net cash from operating activities. One of L-3's primary business objectives is to increase sales from organic growth and select business acquisitions. We define organic sales growth as the increase or decrease in sales for the current period compared to the prior period, excluding sales in the: (1) current period from business acquisitions that are included in L-3's actual results of operations for less than twelve months, and (2) prior period from business divestitures that are included in L-3's actual results of operations for the twelve-month period prior to the divestiture date. We expect to supplement our organic sales growth by selectively acquiring businesses that: (1) add important new technologies and products, (2) provide access to select customers, programs and contracts, and (3) provide attractive returns on investment. The two main determinants of our operating income growth are sales growth and improvements in direct and indirect contract costs. We define operating margin as operating income as a percentage of sales. Improving operating margins is one of several methods for growing earnings per common share and net cash from operating activities.

Sales Trends. For the year ended December 31, 2011, consolidated net sales of \$15,169 million declined by 3.3%, comprised of an organic sales decline of 4.3%, partially offset by net sales from business acquisitions of 1.0%, compared to the year ended December 31, 2010. Our average annual sales growth for the five years ended December 31, 2011, was 4%, with average annual organic sales growth of approximately 3% and average annual sales growth from business acquisitions, net of divestitures, of approximately 1%.

Table of Contents

For the years ended December 31, 2011 and 2010, our largest contract (revenue arrangement) in terms of annual sales was the Fort Rucker Maintenance Support contract with the U.S. Army Aviation and Missile Command, which is included in our AM&M segment. Under this contract, which generated approximately 3% of our 2011 and 2010 sales, we provide maintenance and logistical support services for rotary wing aircraft assigned to Fort Rucker and satellite units in Alabama. The current contract is expected to end on September 30, 2012. We submitted our proposal in November 2011 for the contract re-competition and anticipate the award will be made by August 2012. We cannot provide any assurance that we will win the re-competition of the Fort Rucker Maintenance support contract.

The Special Operations Forces Support Activity (SOFSFA) contract, which was included in our AM&M segment, generated \$332 million of sales for the year ended December 31, 2010. In June 2010, the follow-on contract was awarded to another contractor and the transition to the successor contractor ended in October 2010.

Our sales trends are highly correlated to DoD budgets because we derive approximately 75% of our annual sales from the DoD. The currently proposed DoD base and OCO budgets are a function of several factors beyond our control, including, but not limited to, changes in U.S. procurement policies, budget considerations, current and future economic conditions, presidential administration priorities, changing national security and defense requirements, geo-political developments and actual fiscal year congressional appropriations for defense budgets. Any of these factors could result in a significant decline in or redirection of current and future DoD budgets and impact L-3's future results of operations, including our sales and operating income growth rates. Additionally, L-3's future results of operations will be affected by our ability to retain our existing business and to successfully compete for new business, which largely depend on: (1) our successful performance on existing contracts, (2) the effectiveness and innovation of our technologies and research and development activities, (3) our ability to offer better program performance than our competitors at an affordable cost, and (4) our ability to retain our employees and hire new ones, particularly those employees who have U.S. Government security clearances.

Operating Income Trends. For the year ended December 31, 2011, our consolidated operating income was \$1,598 million and our consolidated operating margin was 10.5%. Our consolidated operating income and consolidated operating margin for the year ended December 31, 2011 were reduced by a non-cash goodwill impairment charge of \$43 million recorded in the 2011 fourth quarter, as further discussed below. The goodwill impairment charge is excluded from segment operating income because it was excluded by management for purposes of assessing segment operating performance. Our segment operating income was \$1,641 million for the year ended December 31, 2011, a decrease of 6% from \$1,750 million for the year ended December 31, 2010, and our segment operating margin was 10.8% for the year ended December 31, 2011, a decrease of 40 basis points from 11.2% for the year ended December 31, 2010. See Results of Operations, including segment results below for a discussion of operating margin.

We are focused on increasing operating margin, to the extent possible, by reducing our indirect costs and improving our overall contract performance. Our 2011 operating margin was lower than our 2010 operating margin and we expect our 2012 annual operating margin to decline as compared to 2011. While we are taking action to increase operating margin, we may not be able to do so in the future. Furthermore, in the future, select business acquisitions and select new business, including contract renewals and new contracts, could have lower operating margins than L-3's operating margin on existing business and contracts. Changes in the competitive environment and DoD procurement practices and reductions in our consolidated sales levels could also result in lower operating margin.

Spin-Off of Businesses that will comprise Engility

As previously discussed, we plan to spin-off a part of our Government Services segment into a new, independent company that will be publicly traded. The new public company will be named Engility. The spin-off, which is intended to be tax-free to L-3 and its shareholders, is expected to be completed in the first half of 2012. Upon completion, L-3 shareholders will own 100% of the shares of both L-3 and Engility. The spin-off is not subject to a shareholder vote.

Table of Contents

Under the plan, Engility will include the SETA, training and operational support services businesses that are currently part of L-3's Government Services segment. For the year ended December 31, 2011, the businesses that will comprise Engility had sales of approximately \$2.0 billion, or 56% of total Government Services net sales, and operating income of approximately \$178 million, or 64% of total Government Services operating income. The businesses that will comprise Engility had approximately 9,000 employees at December 31, 2011.

L-3 will retain the cyber security, intelligence, enterprise IT and security solutions businesses that are also part of L-3's Government Services segment. The Government Services segment will be renamed National Security Solutions (NSS) upon completion of the spin-off, and will continue to leverage synergies across L-3 to develop unique solutions to address growing challenges for our DoD, intelligence and global security customers. During the year ended December 31, 2011, L-3's businesses that will comprise NSS had sales of approximately \$1.6 billion, or 44% of total Government Services net sales, and operating income of approximately \$102 million, or 36% of total Government Services operating income.

The completion of the spin-off is subject to certain customary conditions, including filing of required documents with the SEC, and an opinion of counsel as to the satisfaction of certain requirements necessary for the spin-off to receive tax-free treatment upon which the IRS does not rule, which is expected to be received immediately prior to the completion of the spin-off transaction. There can be no assurance that any separation transaction will ultimately occur, or if one does occur, its terms or timing.

Other 2011 Events

Our 2011 results were impacted by the items discussed below, which increased net income attributable to L-3 by \$28 million and diluted earnings per share by \$0.26 (collectively referred to as the Q4 2011 Items):

A tax benefit of \$78 million, or \$0.74 of diluted earnings per share, for a net reversal of amounts previously accrued related to tax years for which the statutes of limitations expired; and

Non-cash impairment charges of \$57 million (\$50 million after income taxes), or \$0.48 of diluted earnings per share. The impairment charges include: (1) a goodwill impairment charge of \$43 million, (\$42 million after income taxes), or \$0.40 per diluted share, which is included in operating income and (2) \$14 million, (\$8 million after income taxes), or \$0.08 per diluted share, which is included in interest and other income, net, for our portion of an impairment charge for long-lived assets at an equity method investment. The goodwill impairment charge was due to a decline in the estimated fair value of the Marine Services business, which is part of the Electronic Systems segment, as a result of a decline in its projected future cash flows.

Debt Repurchases, Issuances and Redemptions. On February 2, 2011, we repurchased approximately \$11 million of our CODES as a result of the exercise by the holders of their contractual right to require us to repurchase their CODES.

On February 7, 2011, L-3 Communications issued \$650 million in principal amount of 4.95% Senior Notes that mature on February 15, 2021 (2021 Senior Notes). The 2021 Senior Notes were issued at a discount of \$4 million. On March 9, 2011, the net cash proceeds from this offering, together with cash on hand, were used to redeem L-3 Communications' \$650 million 5⁷/₈% Senior Subordinated Notes due January 15, 2015 (5⁷/₈% 2015 Notes). In connection with the redemption of the 5⁷/₈% 2015 Notes, we recorded a debt retirement charge of \$18 million (\$11 million after income taxes, or \$0.10 per diluted share).

On November 22, 2011, L-3 Communications issued \$500 million in principal amount of 3.95% Senior Notes that mature on November 15, 2016 (2016 Senior Notes). The 2016 Senior Notes were issued at a discount of \$4 million. On December 22, 2011, the net proceeds from this offering, together with cash on hand, were used to redeem \$500 million of L-3 Communications' 6³/₈% Senior Subordinated Notes due 2015 (6³/₈% 2015 Notes). In connection with the redemption of the 6³/₈% 2015 Notes, we recorded a debt retirement charge of \$17 million (\$10 million after income tax, or \$0.10 per diluted share).

Table of Contents**Business Acquisitions and Dispositions**

As discussed above, one aspect of our strategy is to selectively acquire businesses that add new products and technologies, or provide access to select customers, programs and contracts. We intend to continue acquiring select businesses for reasonable valuations that will provide attractive returns to L-3. Our business acquisitions, depending on their contract-type, sales mix or other factors, could reduce L-3's consolidated operating margin while still increasing L-3's operating income, earnings per share, and net cash from operating activities. In addition, we may also dispose of certain businesses if we determine that they no longer fit into L-3's overall business strategy and we are able to receive an attractive price.

Business Acquisitions and Divestitures

Acquisitions. The table below summarizes the acquisitions that we have completed during the years ended December 31, 2009, 2010 and 2011, referred to herein as business acquisitions. See Note 4 to our audited consolidated financial statements for further information regarding our business acquisitions. During the year ended December 31, 2011, we used \$20 million of cash for business acquisitions, including earnout payments for certain business acquisitions completed prior to January 1, 2011.

Business Acquisitions	Date Acquired	Purchase Price⁽¹⁾ (in millions)
<u>2009</u>		
Chesapeake Sciences Corporation	January 30, 2009	\$ 91 ⁽²⁾
<u>2010</u>		
Insight Technology Incorporated	April 14, 2010	\$ 611
Airborne Technologies, Inc.	August 4, 2010	34
3Di Technologies (3Di)	September 17, 2010	60 ⁽³⁾
FUNA International, GmbH	December 22, 2010	50
Total 2010		\$ 755
<u>2011</u>		
Communications and engineering business of ComHouse Wireless L.P.	July 1, 2011	\$ 13 ⁽⁴⁾
Cargo radiation screening business of Detector Network International (DNI)	October 28, 2011	5 ⁽⁴⁾⁽⁵⁾
Total 2011		\$ 18

(1) The purchase price represents the contractual consideration for the acquired business, excluding adjustments for net cash acquired and acquisition transaction costs.

(2) Includes additional purchase price of approximately \$4 million for certain acquired tax benefits.

(3) Excludes additional purchase price, not to exceed \$11 million, which is contingent upon the post acquisition financial performance of 3Di through December 31, 2012.

(4) The final purchase price is subject to adjustment based on the closing date actual net assets.

(5)

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

Excludes additional purchase price, not to exceed \$10 million, which is contingent upon the post acquisition financial performance of DNI through December 31, 2014.

All of our business acquisitions are included in our consolidated results of operations from their dates of acquisition. We regularly evaluate potential business acquisitions. On February 6, 2012, we acquired the Kollmorgen Electro-Optical (KEO) business of Danaher Corporation for a purchase price of \$210 million, which was financed with cash on hand. KEO develops and manufactures specialized equipment, including submarine photonics systems and periscopes, ship fire control systems, visual landing aids, ground electro-optical and sensor-cueing systems for the U.S. military and allied foreign governments.

Table of Contents

Divestitures. On February 22, 2011, we divested Microdyne Corporation (Microdyne) and on December 17, 2010, we divested InfraredVision Technology Corporation (ITC), both of which were within the Electronic Systems segment. These divestiture transactions resulted in pre-tax losses of approximately \$2 million for Microdyne and \$1 million for ITC. Microdyne's and ITC's annual revenues (approximately \$8 million and \$4 million, respectively), pre-tax income and net assets were not material for any period presented, and, therefore, these divestitures are not reported as discontinued operations.

Critical Accounting Policies

Our significant accounting policies are described in Note 2 to our audited consolidated financial statements. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and cost of sales during the reporting period. The most significant of these estimates and assumptions relate to contract revenue, profit and loss recognition, fair values of assets acquired and liabilities assumed in business combinations, market values for inventories reported at lower of cost or market, pension and post-retirement benefit obligations, stock-based employee compensation expense, income taxes, including the valuations of deferred tax assets, litigation reserves and environmental obligations, accrued product warranty costs and the recoverability, useful lives and valuation of recorded amounts of long-lived assets, identifiable intangible assets and goodwill. Changes in estimates are reflected in the period during which they become known. Actual amounts will differ from these estimates and could differ materially. We believe that our critical accounting estimates have the following attributes: (1) we are required to make assumptions about matters that are uncertain and inherently judgmental at the time of the estimate; (2) use of reasonably different assumptions could have changed our estimates, particularly with respect to estimates of contract revenues and costs, and recoverability of assets, and (3) changes in the estimate could have a material effect on our financial condition or results of operations. We believe the following critical accounting policies contain the more significant judgments and estimates used in the preparation of our financial statements.

Contract Revenue Recognition and Contract Estimates. Approximately 40% of our consolidated net sales are generated from contracts (revenue arrangements) that require us to design, develop, manufacture, modify, upgrade, test and integrate complex aerospace and electronic equipment, and to provide related engineering and technical services according to the buyer's specifications. These revenue arrangements or contracts are generally fixed price, cost-plus, or time-and-material and are covered by accounting standards for construction-type and production-type contracts and federal government contractors. Substantially all of our cost-plus type and time-and-material type contracts are with the U.S. Government, primarily the DoD. Certain of our contracts with the U.S. Government are multi-year contracts that are funded annually by the customer, and sales on these multi-year contracts are based on amounts appropriated (funded) by the U.S. Government. Our remaining sales are accounted for in accordance with accounting standards for revenue arrangements with commercial customers.

Sales and profits on fixed-price type contracts that are covered by accounting standards for construction-type and production-type contracts and federal government contractors are substantially recognized using percentage-of-completion (POC) methods of accounting. Sales on such contracts represent approximately 30% of our consolidated net sales. Sales and profits on fixed-price production contracts under which units are produced and delivered in a continuous or sequential process are recorded as units are delivered based on their contractual selling prices (the units-of-delivery method). Sales and profits on each fixed-price production contract under which units are not produced and delivered in a continuous or sequential process, or under which a relatively few number of units are produced, are recorded based on the ratio of actual cumulative costs incurred to total estimated costs at completion of the contract multiplied by the total estimated contract revenue, less cumulative sales recognized in prior periods (the cost-to-cost method). Under both POC methods of accounting, a single estimated total profit margin is used to recognize profit for each contract over its entire period of performance, which can exceed one year.

Table of Contents

Accounting for the sales on these fixed-price contracts requires the preparation of estimates of (1) the total contract revenue, (2) the total costs at completion, which is equal to the sum of the actual incurred costs to date on the contract and the estimated costs to complete the contract's statement of work, and (3) the measurement of progress towards completion. The estimated profit or loss at completion on a contract is equal to the difference between the total estimated contract revenue and the total estimated cost at completion. Under the units-of-delivery method, sales on a fixed-price type contract are recorded as the units are delivered during the period based on their contractual selling prices. Under the cost-to-cost method, sales on a fixed-price type contract are recorded at amounts equal to the ratio of actual cumulative costs incurred divided by total estimated costs at completion, multiplied by (i) the total estimated contract revenue, less (ii) the cumulative sales recognized in prior periods. The profit recorded on a contract in any period using either the units-of-delivery method or cost-to-cost method is equal to (i) the current estimated total profit margin multiplied by the cumulative sales recognized, less (ii) the amount of cumulative profit previously recorded for the contract. In the case of a contract for which the total estimated costs exceed the total estimated revenues, a loss arises, and a provision for the entire loss is recorded in the period that the loss becomes evident. The unrecoverable costs on a loss contract that are expected to be incurred in future periods are recorded as a component of other current liabilities entitled Estimated cost in excess of estimated contract value to complete contracts in process in a loss position.

Adjustments to estimates for a contract's revenue, estimated costs at completion and estimated profit or loss are often required as work progresses under a contract, as experience is gained and as more information is obtained, even though the scope of work required under the contract may not change, or if contract modifications occur. The impact of revisions in profit (loss) estimates for all types of contracts subject to percentage-of-completion accounting are recognized on a cumulative catch-up basis in the period in which the revisions are made. Amounts representing contract change orders or claims are included in sales only when they can be reliably estimated and their realization is reasonably assured. The revisions in contract estimates, if significant, can materially affect our results of operations and cash flows, as well as reduce the valuations of receivables and inventories, and in some cases result in liabilities to complete contracts in a loss position. Net changes in contract estimates increased consolidated operating income by \$73 million, or 4%, for the year ended December 31, 2011, \$46 million, or 3%, for the year ended December 31, 2010, and \$76 million, or 5%, for the year ended December 31, 2009.

Sales and profits on cost-plus type contracts that are covered by accounting standards for government contractors are recognized as allowable costs are incurred on the contract, at an amount equal to the allowable costs plus the estimated profit on those costs. Sales on such contracts represent approximately 10% of our consolidated net sales. The estimated profit on a cost-plus contract is fixed or variable based on the contractual fee arrangement. Incentive and award fees are our primary variable fee contractual arrangement. Incentive and award fees on cost-plus type contracts are included as an element of total estimated contract revenues and recorded to sales when a basis exists for the reasonable prediction of performance in relation to established contractual targets and we are able to make reasonably dependable estimates for them. Sales and profits on time-and-material type contracts are recognized on the basis of direct labor hours expended multiplied by the contractual fixed rate per hour, plus the actual costs of material and other direct non-labor costs. On a time-and-material type contract, the fixed hourly rates include amounts for the cost of direct labor, indirect contract costs and profit. Cost-plus type or time-and-material type contracts generally contain less estimation risks than fixed-price type contracts.

Sales on arrangements for (1) fixed-price type contracts that require us to perform services that are not related to production of tangible assets (Fixed-Price Service Contracts), and (2) certain commercial customers are recognized in accordance with accounting standards for revenue arrangements with commercial customers. Sales for our businesses whose customers are primarily commercial business enterprises are substantially generated from single element revenue arrangements. Sales are recognized when there is persuasive evidence of an arrangement, delivery has occurred or services have been performed, the selling price to the buyer is fixed or determinable and collectability is reasonably assured. Sales for Fixed-Price Service Contracts that do not contain measurable units of work performed are generally recognized on a straight-line basis over the contractual service

Table of Contents

period, unless evidence suggests that the revenue is earned, or obligations fulfilled, in a different manner. Sales for Fixed-Price Service Contracts that contain measurable units of work performed are generally recognized when the units of work are completed. Sales and profit on cost-plus and time-and-material type contracts within the scope of revenue recognition accounting standards for revenue arrangements with commercial customers are recognized in the same manner as those within the scope of contract accounting standards, except for incentive and award fees. Cost-based incentive fees are recognized when they are realizable in the amount that would be due under the contractual termination provisions as if the contract was terminated. Performance based incentive fees and award fees are recorded as sales when awarded by the customer.

For contracts with multiple deliverables, we apply the separation and allocation guidance under the accounting standard for revenue arrangements with multiple deliverables, unless all the deliverables are covered by contract accounting standards, in which case we apply the separation and allocation guidance under contract accounting standards. Revenue arrangements with multiple deliverables are evaluated to determine if the deliverables should be separated into more than one unit of accounting. We recognize revenue for each unit of accounting based on the revenue recognition policies discussed above.

Sales and profit in connection with contracts to provide services to the U.S. Government that contain collection risk because the contracts are incrementally funded and subject to the availability of funds appropriated, are deferred until the contract modification is obtained, indicating that adequate funds are available to the contract or task order.

Goodwill and Identifiable Intangible Assets. In accordance with the accounting standards for business combinations, we record the assets acquired and liabilities assumed based on their estimated fair values at the date of acquisition (commonly referred to as the purchase price allocation). As part of the purchase price allocations for our business acquisitions, identifiable intangible assets are recognized as assets apart from goodwill if they arise from contractual or other legal rights, or if they are capable of being separated or divided from the acquired business and sold, transferred, licensed, rented or exchanged. However, we do not recognize any intangible assets apart from goodwill for the assembled workforces of our business acquisitions.

Generally, the largest separately identifiable intangible asset from the businesses that we acquire is the value of their assembled workforces, which includes the human capital of the management, administrative, marketing and business development, scientific, engineering and technical employees of the acquired businesses. The success of our businesses, including their ability to retain existing business (revenue arrangements) and to successfully compete for and win new business (revenue arrangements), is primarily dependent on the management, marketing and business development, contracting, engineering and technical skills and knowledge of our employees, rather than on productive capital (plant and equipment, and technology and intellectual property). Additionally, for a significant portion of our businesses, our ability to attract and retain employees who have U.S. Government security clearances, particularly those with top-secret and above clearances, is critical to our success, and is often a prerequisite for retaining existing revenue arrangements and pursuing new ones. Generally, patents, trademarks and licenses are not material for our acquired businesses. Furthermore, our U.S. Government contracts (revenue arrangements) generally permit other companies to use our patents in most domestic work performed by such other companies for the U.S. Government. Therefore, because intangible assets for assembled workforces are part of goodwill, the substantial majority of the intangible assets for our acquired business acquisitions are recognized as goodwill. Additionally, the value assigned to goodwill for our business acquisitions also includes the value that we expect to realize from cost reduction measures that we implement for our acquired businesses. Goodwill equals the amount of the purchase price of the business acquired in excess of the sum of the fair value of identifiable acquired assets, both tangible and intangible, less the fair value of liabilities assumed. At December 31, 2011, we had goodwill of \$8,697 million and identifiable intangible assets of \$410 million.

The most significant identifiable intangible asset that is separately recognized in accordance with U.S. GAAP for our business acquisitions is customer contractual relationships. All of our customer relationships are established through written customer contracts (revenue arrangements). The fair value for customer contractual

Table of Contents

relationships is determined, as of the date of acquisition, based on estimates and judgments regarding expectations for the estimated future after-tax earnings and cash flows (including cash flows from working capital) arising from the follow-on sales on contract (revenue arrangement) renewals expected from customer contractual relationships over their estimated lives, including the probability of expected future contract renewals and sales, less a contributory asset charge, all of which is discounted to present value. All identifiable intangible assets are amortized over their estimated useful lives as the economic benefits are consumed, ranging from four to thirty years. We review customer contractual relationships for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable in accordance with the accounting standards for long-lived assets. If any such event or change in circumstances occurs, and, if our revised estimates of future after-tax cash flows are significantly lower than our estimates at the date we acquired the customer contractual relationships, we may be required to record an impairment charge to write down these intangible assets to their realizable values. We review and update our estimates of the duration of our customer contractual relationships. If such estimates indicate that the duration of our customer contractual relationships has decreased compared to the estimates made as of the date we acquired these intangible assets, then we accelerate the amortization period for our customer contractual relationships over their remaining useful economic lives.

We review goodwill for impairment at least annually as of November 30, and whenever events or changes in circumstances indicate that the carrying amount may not be recoverable in accordance with the accounting standards for goodwill. The goodwill for each reporting unit is tested using a two-step process. A reporting unit is an operating segment, as defined by the segment reporting accounting standards, or a component of an operating segment. A component of an operating segment is a reporting unit if the component constitutes a business for which discrete financial information is available and is reviewed by operating segment management. Two or more components of an operating segment may be aggregated and deemed a single reporting unit for goodwill impairment testing purposes if the components have similar economic characteristics.

L-3 had 17 reporting units at December 31, 2011, and 19 reporting units at December 31, 2010. The composition of our reporting units and associated goodwill balances changed in 2011 as compared to 2010 due to business realignments that resulted in the consolidation of two reporting units into one and the elimination of a reporting unit. The reporting units had fair values in excess of their carrying values at the time of the realignments and the related goodwill for each was allocated based on a relative fair value. In addition, the aggregate balance of goodwill declined by \$33 million to \$8,697 million at December 31, 2011 from \$8,730 million at December 31, 2010 due to a \$43 million impairment charge (discussed below) and \$17 million of foreign currency translation adjustments, which were partially offset by additions of \$27 million for business acquisitions.

The table below presents the number of reporting units and the associated goodwill, at December 31, 2011 for each of our reportable segments.

Reportable Segment	Number of Reporting Units	Aggregate Goodwill (in millions)
C ³ ISR	3	\$ 866
Government Services	1	2,191
AM&M	1	1,169
Electronic Systems	12	4,471
Total	17	\$ 8,697

The first step in the process of testing goodwill for potential impairment is to compare the carrying value of the reporting unit to its fair value. If a potential impairment is identified, the second step is to measure the impairment loss by comparing the implied fair value of goodwill with the carrying value of goodwill of the reporting unit. Our methodology for determining the fair value of a reporting unit is estimated using a discounted cash flow (DCF) valuation approach, and is dependent on estimates for future sales, operating income, depreciation and amortization, income tax payments, working capital changes, and capital expenditures, as well

Table of Contents

as, expected long-term growth rates for cash flows. All of these factors are affected by economic conditions related to the industries in which we operate (predominantly the U.S. defense industry), as well as, conditions in the U.S. capital markets.

During the fourth quarter of 2011, we recorded a non-cash impairment charge of \$43 million (\$42 million after income taxes), or \$0.40 per diluted share, for the impairment of goodwill based on its annual impairment test as of November 30. The goodwill impairment charge was due to a decline in the estimated fair value of the Marine Services reporting unit, which is part of the Electronics Systems segment, as a result of a decline in its projected future cash flows. The decline in projected future cash flows was due to: (1) lower DoD budgets which have caused shipyards to retain work that has been typically outsourced to Marine Services and (2) lower margins on existing and expected future contracts due to increased competition. In 2010, we disclosed that the Marine Services reporting unit was identified as one of six reporting units that when applying a hypothetical decrease of at least 20% would have had a carrying value in excess of its estimated fair value. The 2010 estimated fair value of the Marine Services reporting unit exceeded its carrying value after a hypothetical decrease of 10% to its fair value.

The more significant assumptions used in our DCF valuations to determine the fair values of our reporting units in connection with the goodwill valuation assessment at November 30, 2011, were: (1) detailed three-year cash flow projections for each of our reporting units, which are based primarily on our estimates of future sales, operating income, and cash flows, (2) the expected long-term growth rates for each of our reporting units, which approximate the expected long-term growth rate for the U.S. economy and the respective industries in which the reporting units operate, and (3) risk adjusted discount rates, which represent the weighted average cost of capital (WACC) for each reporting unit and include the estimated risk-free rate of return that is used to discount future cash flow projections to their present values. Although certain refinements to the process used to estimate the WACC were implemented, there were no significant changes to the underlying methods used in 2011 as compared to the prior year DCF valuations of our reporting units.

Each reporting unit WACC was comprised of: (1) an estimated required rate of return on equity, based on publicly traded companies with business and economic risk characteristics comparable to each of L-3's reporting units (Market Participants), including a risk free rate of return of 3.06% on the 30 year U.S. Treasury Bond as of November 30, 2011 (4.1% as of November 30, 2010) and an equity risk premium of 6% (5% for 2010) and (2) an after-tax rate of return on Market Participants' debt, each weighted by the relative market value percentages of Market Participants' equity and debt. The WACC assumptions for each reporting unit are based on a number of market inputs that are outside of our control and are updated annually to reflect changes to such market inputs as of the date of our annual goodwill impairment assessments, including changes to: (1) the estimated required rate of return on equity based on historical returns on common stock securities of Market Participants and the Standard & Poor's 500 Index over the prior two-year period, (2) the risk free rate of return based on the prevailing market yield on the 30 year U.S. Treasury bond, (3) the rate of return of Market Participants' publically traded debt securities, and (4) the relative market value percentages of Market Participants' equity and debt.

The table below presents the weighted average risk adjusted discount rate assumptions used in our DCF valuation for each of our reportable segments for our goodwill impairment assessments at November 30, 2011.

Reportable Segment	WACC
C ³ ISR ⁽¹⁾	7.1%
Government Services ⁽²⁾	7.1%
AM&M ⁽²⁾	7.1%
Electronic Systems ⁽³⁾	7.5%

(1) All reporting units within the C³ISR reportable segment used the risk adjusted discount rates as presented in the table above.

(2) The Government Services and AM&M reportable segments are each comprised of one reporting unit.

(3) The weighted average risk adjusted discount rate for the Electronic Systems reportable segment is comprised of separate assumptions for each reporting unit that range that from 6.9% to 9.1%.

Table of Contents

As presented in the table below, L-3's historical three-year average annual cash flow growth rates for 2011, 2010 and 2009 for our reportable segments ranged from a negative 4% to a positive 35%. The annual cash flows generated by each of our reporting units varies from year to year, and, therefore, the annual cash flow growth rates do not result in linear trends, due to a number of factors. The factors that affect the level of annual cash flows in each of our reporting units include, but are not limited to: (1) variability of annual sales volume and sales growth rates, (2) increases and decreases in working capital, including customer advance payments and billings on multi-year contracts (revenue arrangements) with long-term performance periods (exceeding one year), (3) the timing of invoicing and cash collections between fiscal years from receivables due from customers on multi-year contracts (revenue arrangements) that are affected by the financing terms of individual contracts, (4) the timing of increases and decreases of select inventories procured and produced in anticipation of future product sales, which frequently overlap the ending and beginning of fiscal years, (5) the timing of the receipt of award fee and incentive fee payments from customers on contracts (revenue arrangements), (6) variability in annual cash outlays for research and development costs, (7) changes in cash outlays for capital expenditures for property, plant and equipment, and (8) increases in annual sales and costs and expense volumes of a reporting unit resulting from business acquisitions. As a result of the factors discussed above and the varying sizes of our reporting units, the annual cash flow levels and growth rates at the reporting unit level tend to fluctuate significantly from year to year.

The 2011 cash flow amount and the cash flow growth rate for each of the last three years for each of our segments are presented in the following table.

Reportable Segment	Estimated Cash Flow ⁽¹⁾	Estimated Annual Cash Flow Growth Rate ⁽¹⁾			
	(in millions)	2011	2010	2009	3 Yr. Average
C ³ ISR ⁽²⁾	\$ 260	117%	(44)%	32%	35%
Government Services ⁽³⁾	\$ 341	20%	9%	(41)%	(4)%
AM&M ⁽⁴⁾	\$ 174	(24)%	46%	(30)%	(3)%
Electronic Systems ⁽⁵⁾	\$ 522	(8)%	5%	5%	1%

(1) Reportable segment estimated cash flow excludes interest payments on debt and other corporate cash flows.

(2) The increase in cash flow in 2011 for C³ISR was due to working capital improvements, timing of billings and cash receipts on fixed price contracts, and growth in operating income. The decrease in cash flow for C³ISR in 2010 was due to the timing of billings and cash receipts on certain fixed price contracts for networked communications and higher working capital requirements, partially offset by growth in sales and operating income. The increase in cash flow in 2009 for C³ISR was primarily due to growth in sales and operating income.

(3) The increase in cash flows in 2011 for Government Services was primarily due to working capital reductions due to lower sales volume and a decrease in tax payments due to a lower effective tax rate and lower operating income. The increase in cash flows for Government Services in 2010 was primarily due to working capital reductions due to lower sales volume and the timing of advanced payments for certain contracts for foreign customers. The decrease in cash flows for Government Services in 2009 was primarily due to lower sales and operating income in comparison to the prior year, driven primarily by lower Iraq-related linguist services.

(4) The decrease in cash flows in 2011 for AM&M was primarily due to higher working capital, primarily for inventory on new contracts that began in 2011 and timing of billings, partially offset by an increase in advanced payments. The increase in cash flows for AM&M in 2010 was primarily due to working capital reductions, primarily for billed receivables on contracts nearing completion and the loss of the SOFSA contract, and lower capital expenditures. In 2009, the decrease in cash flow for AM&M was primarily due to cash used for working capital attributable to increased billed receivables associated with 2009 sales growth, primarily system field services.

(5) The decrease in cash flows in 2011 for Electronic Systems was primarily due to lower operating income compared to 2010 for warrior systems, training & simulation, space & propulsion and microwave and liquidation of advance payments at microwave, partially offset by lower working capital requirements at warrior systems. The increase in cash flows for Electronic Systems in 2010 was primarily due to higher operating income compared to 2009 for integrated sensor systems, microwave, aviation products and undersea warfare. The increase in cash flows for Electronic Systems in 2009 was primarily due to higher operating income compared to 2008 for several business areas, primarily integrated sensor systems and power and control systems.

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

We consistently consider several factors to determine expected future annual cash flows for our reporting units, including, historical multi-year average cash flow trends by reporting unit and the expected future cash

Table of Contents

flow growth rates for each of our reporting units primarily based on our estimates of future sales, operating income, and working capital changes. Furthermore, the substantial majority of our reporting units are primarily dependent upon the DoD budget and spending. Historically, approximately 75% of L-3's annual sales have been generated from DoD customers. Accordingly, to determine expected future annual cash flows for our reporting units we also consider: (1) the DoD budget and spending priorities, (2) expansion into new markets, (3) changing conditions in existing markets for our products, systems, and services, (4) possible termination of certain government contracts, (5) expected success in new business competitions and re-competitions on existing business, and (6) anticipated operating margins and working capital requirements, which vary significantly depending on the stage of completion (early, mature, ending) of contracts (revenue arrangements). We closely monitor changes in these factors and their impact on the expected cash flow of our reporting units.

In addition to the factors noted in the previous paragraph that were relevant and specific to each of our reporting units, our goodwill impairment assessments as of November 30, 2011 assumed a declining DoD budget through 2014 with modest growth beginning in fiscal year 2015, consistent with our discussion of industry considerations on page 36. However, our current estimates and assumptions may not result in the projected cash flow outcomes due to a number of factors, including:

the impact on our businesses of the recent DoD base budget cuts, including \$22 billion of cuts in the FY 2012 enacted budget compared to the FY 2012 budget request, and \$259 billion of cuts to the proposed DoD base budgets for FY 2013 to FY 2017 compared to the previously proposed DoD base budgets, and their impact on our future results of operations and cash flows; and

the outcome of potential additional cuts of \$500 billion for FY 2013 through FY 2021 due to the sequestration process, which becomes effective on January 3, 2013, unless Congress enacts new legislation to rescind them.

Additionally, our actual cash flows may be higher than our projections and the DCF valuation does not reflect actions that we may take to increase the profitability and cash flows of our reporting units, including our eight reporting units with fair value cushions of less than 20% in the table on page 48. Actions we may take include, consolidating and streamlining select business operations, creating future synergies with other L-3 businesses, or pursuing incremental targeted growth opportunities. Additionally, the DCF valuations do not assume future business acquisitions or divestitures.

The table below presents the estimated (1) 2012 cash flow amount, (2) average cash flow growth rates for 2012-2014, and (3) weighted average cash flow growth rates for 2015 and 2016 and after 2016 for each of our reportable segments.

Reportable Segment	Estimated Cash Flow (in millions)	Estimated Average Cash Flow Growth Rates			
		2012		2014	
		2012	3 Yr. Average	2015	2016
C ³ ISR	\$ 272 ⁽¹⁾	(8)%		0%	1.4%
Government Services	\$ 193 ⁽²⁾	(16)%		0%	1.0%
AM&M	\$ 125 ⁽³⁾	(14)%		0%	.5%
Electronic Systems	\$ 444 ⁽⁴⁾	1%		(2.3)%	1.0%

(1) C³ISR projected cash flows are expected to increase by \$12 million from \$260 million in 2011 to \$272 million in 2012. The increase is primarily due to slight improvements in sales, operating income and working capital requirements.

(2) Government Services projected cash flows are expected to decrease by \$148 million from \$341 million in 2011 to \$193 million in 2012. The decrease is due primarily to lower expected sales, operating income, and margins.

(3)

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

AM&M projected cash flows are expected to decrease by \$49 million from \$174 million in 2011 to \$125 million in 2012. The decrease is primarily due to lower margins and higher capital expenditures due to IT Systems and facility upgrades.

- (4) Electronic Systems projected cash flows are expected to decrease by \$78 million from \$522 million in 2011 to \$444 million in 2012. The decrease is due to lower operating income and margins at undersea warfare, aviation products and power systems, and liquidation of advance payments on contracts with non-DoD customers at undersea warfare. These decreases are partially offset by margin and working capital improvements at warrior systems.

Table of Contents

A decline in the estimated fair value of a reporting unit could result in a goodwill impairment, and a related non-cash impairment charge against earnings, if the estimated fair value for the reporting unit is less than the carrying value of the net assets of the reporting unit, including its goodwill. A large decline in estimated fair value of a reporting unit could result in an adverse effect on our financial condition and results of operations.

In order to evaluate the sensitivity of the fair value calculations relating to our goodwill impairment assessment, we applied hypothetical decreases to the estimated fair values of each of our reporting units. We determined that a decrease in fair value of at least 20% would be required before any reporting unit, with the exception of eight, would have a carrying value in excess of its fair value. The table below presents the: (1) risk adjusted discount rates, (2) annual cash flow and three-year average growth rate, (3) 2011 cash flow, (4) goodwill balance, and (5) excess fair value percentage and dollar amount, for each of these eight reporting units.

Reporting Unit	Risk Adjusted Discount Rates	Estimated Annual Cash Flow Growth Rate ⁽¹⁾			3 Year Average	Estimated 2011 Cash Flows ⁽¹⁾	Goodwill Balance ⁽²⁾	Excess	
		2011	2010	2009				Fair Value ⁽³⁾	Value ⁽³⁾
Power & Control Systems ⁽⁴⁾	7.1%	21%	(34)%	41%	9%	\$81	\$ 776	18%	\$ 155
Undersea Warfare ⁽⁵⁾	7.1%	(33)%	24%	1,441%	477%	\$33	\$ 203	17%	\$ 29
Microwave Group ⁽⁶⁾	7.6%	(41)%	46%	(26)%	(7)%	\$61	\$ 790	14%	\$ 172
Marine Services ⁽⁷⁾	6.9%	(66)%	(66)%	593%	153%	\$3	\$ 63	13%	\$ 9
Government Services ⁽⁸⁾	7.1%	20%	9%	(41)%	(4)%	\$341	\$ 2,192	11%	\$ 318
AM&M ⁽⁹⁾	7.1%	(24)%	46%	(30)%	(2.5)%	\$174	\$ 1,166	11%	\$ 173
Space & Propulsion Systems ⁽¹⁰⁾	7.1%	(46)%	(19)%	(10)%	(25)%	\$22	\$ 250	8%	\$ 27
Warrior Systems ⁽¹¹⁾	7.1%	(40)%	(24)%	22%	(14)%	\$18	\$ 559	7%	\$ 69

(1) Reporting unit cash flow excludes interest payments on debt and other corporate cash flows.

(2) The goodwill balance is as of November 30, 2011, our goodwill impairment testing date except for the Marine Services reporting unit, whose goodwill balance represents the amount of goodwill remaining after the non-cash impairment charge of \$43 million.

(3) The excess fair value represents the percentage and dollar amount by which the fair value of a reporting unit must decline before a potential impairment is identified and would require the second step of the goodwill impairment assessment to be performed.

(4) Our DCF valuation for this reporting unit assumed lower projected cash flow of approximately 51% in 2012 compared to 2011 due to the wind down of a U.S. Army Indefinite Delivery Indefinite Quality (IDIQ) contract, as well as the liquidation of advance payments as a result of deliveries to foreign customers. In addition, our DCF valuation for this reporting unit assumed that projected cash flow will be approximately 35% and 34% below 2011 in 2013 and 2014, respectively, due to continued weakness in the commercial shipbuilding market and further liquidation of advances to foreign customers. Projected cash flows are expected to remain flat from 2015 to 2016 and then grow 1% annually after 2016.

(5) Our DCF valuation for this reporting unit assumed lower projected cash flow of approximately 157% in 2012 compared to 2011 levels due to liquidations of advance payments on contracts with non-DoD customers and contracts nearing completion. In addition, our DCF valuation for this reporting unit assumed that projected cash flow will remain approximately 56% and 58% below 2011 levels in 2013 and 2014, respectively, reflecting continued lower demand from allied foreign navies. Projected cash flows are expected to remain flat from 2015 to 2016 and then grow 1% annually after 2016.

(6) Our DCF valuation for this reporting unit assumed higher projected cash flow of approximately 43% in 2012 compared to 2011. The unit's 2011 cash flows were negatively impacted by lower manufacturing yields which delayed shipments of power devices for satellite communications systems. The DCF for 2012 reflects the expected resolution of lower manufacturing yields encountered in 2011, as well an increase in expected receipt of advance payments in 2012. In addition, our DCF valuation for this reporting unit assumed that projected cash flow will be approximately 35% and 39% above 2011 levels in 2013 and 2014, respectively, due to expected higher manufacturing yields. Projected cash flows are expected to remain flat from 2015 to 2016 and then grow 1% annually after 2016.

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

- (7) The goodwill balance for the Marine Services reporting unit is the balance remaining after the non-cash impairment change of \$43 million. Our DCF valuation for this reporting unit assumed lower projected cash flow of approximately 128% in 2012 compared to 2011 levels due to lower DoD budgets which caused shipyards to retain work that had been typically outsourced and lower margins on existing and expected follow on contracts due to pricing pressure resulting from increased competition. In addition, our DCF valuation for this reporting unit assumed that projected cash flow will be approximately 76% to 80% above depressed 2011 levels in 2013 and 2014, respectively, as we expect shipyards to begin outsourcing work to Marine Services. Projected cash flows are expected to remain flat from 2015 to 2016 and then grow 1% annually after 2016.
- (8) Our DCF valuation for this reporting unit assumed lower projected cash flow of approximately 43% in 2012 compared to 2011 levels due to lower expected sales, operating income, and margins resulting from: contract re-compete losses in 2011, the drawdown of U.S. military forces from Iraq that was completed in December 2011 and the impact of DoD efficiency initiatives. In addition, our DCF valuation for this reporting unit assumed that projected cash flow will remain approximately 44% and 45% below 2011 levels in 2013 and 2014, respectively, reflecting continued constraints on the DoD budget. Projected cash flows are expected to remain flat from 2015 to 2016 and then grow 1% annually after 2016.

Table of Contents

- (9) Our DCF valuation for this reporting unit assumed lower projected cash flow of approximately 28% in 2012 compared to 2011 levels due to lower margins and higher capital expenditures due to IT Systems and facility upgrades. In addition, our DCF valuation for this reporting unit assumed that projected cash flow will remain approximately 33% and 37% below 2011 levels in 2013 and 2014, respectively, reflecting continued constraints on the DoD budget. Projected cash flows are expected to remain flat from 2015 to 2016 and then grow .5% annually after 2016.
- (10) Our DCF valuation for this reporting unit assumed lower projected cash flow of approximately 43% in 2012 compared to 2011 levels due to liquidation of advance payments on a international contract. In addition, our DCF valuation for this reporting unit assumed that projected cash flow will grow 25% and 23% above depressed 2011 levels in 2013 and 2014, respectively, reflecting growth in M-60 tank refurbishments for foreign militaries and a ramp up in Bradley production in 2014. Projected cash flows are expected to decrease 6.6% from 2015 to 2016 and then grow .6% annually after 2016.
- (11) The warrior systems reporting unit was created in the third quarter of 2010 as a result of our acquisition of Insight Technology on April 14, 2010, and its combination with two existing integrated sensor systems businesses. Cash flow data for 2009 includes the cash flows from the two former integrated sensor systems businesses and the 2010 cash flow includes these two businesses and Insight Technology from the acquisition date. The DCF valuation for this reporting unit assumed an average cash flow growth rate of 98% during 2012 through 2014. This increase is primarily attributable to an increase of \$52 million or 297% in 2012 due to margin and working capital improvements. The cash flows assume an average negative 1.5% growth rate in 2013 and 2014 due to higher working capital needs. Projected cash flows are expected to remain flat from 2015 to 2016 and then grow 1% annually after 2016.

Pension Plan and Postretirement Benefit Plan Obligations. The obligations for our pension plans and postretirement benefit plans and the related annual costs of employee benefits are calculated based on several long-term assumptions, including discount rates and expected mortality for employee benefit liabilities, and rates of return on plan assets, and expected annual rates for salary increases for employee participants in the case of pension plans, and expected annual increases in the costs of medical and other health care benefits in the case of postretirement benefit obligations. These long-term assumptions are subject to revision based on changes in interest rates, financial market conditions, expected versus actual returns on plan assets, expected participant mortality and other actuarial assumptions, including future rates of salary increases, benefit formulas and levels, and rates of increase in the costs of benefits. Changes in the assumptions, if significant, could materially affect the amount of annual net periodic benefit costs recognized in our results of operations from one year to the next, the liabilities for the pension plans and postretirement benefit plans, and our annual cash requirements to fund these plans. Our pension expense for 2012 is expected to increase by \$34 million to \$179 million from \$145 million in 2011. Our discount rate assumption decreased from a weighted average rate of 5.57% in 2010 to 5.02% in 2011. The increase in our 2012 pension expense is primarily due to the decrease in discount rate and a decrease in the expected long-term return on plan assets assumption for our U.S. pension plans from 8.75% in 2011 to 8.25% in 2012. See Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources – Pension Plans on page 60 for a further discussion of our estimated 2012 pension expense.

Discount rates are used to determine the present value of our pension obligations and also affect the amount of pension expense in any given period. The discount rate assumptions used to determine our pension and postretirement benefit obligations at December 31, 2011 and 2010 were based on a hypothetical AA yield curve represented by a series of annualized individual discount rates. Each bond issue underlying the yield curve is required to have a rating of AA or better by Moody's Investors Service, Inc. and/or Standard & Poor's. The resulting discount rate reflects the matching of plan liability cash flows to the yield curve. For a sensitivity analysis projecting the impact of a change in the discount rate on our projected benefit obligation and pension expense, see Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources – Pension Plans on page 60.

Valuation of Deferred Income Tax Assets and Liabilities. At December 31, 2011, we had deferred tax assets of \$651 million, deferred tax liabilities of \$923 million and a valuation allowance of \$14 million. The deferred tax assets include \$19 million for loss carryforwards and \$10 million for tax credit carryforwards which are subject to various limitations and will expire if unused within their respective carryforward periods. Deferred income taxes are determined separately for each of our tax-paying entities in each tax jurisdiction. The future realization of our deferred income tax assets ultimately depends on our ability to generate sufficient taxable income of the appropriate character (for example, ordinary income or capital gains) within the carryback and carryforward periods available under the tax law and, to a lesser extent, our ability to execute successful tax planning.

Table of Contents

strategies. Based on our estimates of the amounts and timing of future taxable income and tax planning strategies, we believe that we will be able to realize our deferred tax assets, except for capital losses and certain foreign and state net operating losses. A change in the ability of our operations to continue to generate future taxable income, or our ability to implement desired tax planning strategies, could affect our ability to realize the future tax deductions underlying our deferred tax assets, and require us to provide a valuation allowance against our deferred tax assets. The recognition of a valuation allowance would result in a reduction to net income and, if significant, could have a material impact on our effective tax rate, results of operations and financial position in any given period.

Liabilities for Pending and Threatened Litigation. We are subject to litigation, government investigations, proceedings, claims or assessments and various contingent liabilities incidental to our business or assumed in connection with certain business acquisitions. In accordance with the accounting standards for contingencies, we accrue a charge for a loss contingency when we believe it is both probable that a liability has been incurred, and the amount of the loss can be reasonably estimated. If the loss is within a range of specified amounts, the most likely amount is accrued, and if no amount within the range represents a better estimate we accrue the minimum amount in the range. Generally, we record the loss contingency at the amount we expect to pay to resolve the contingency and the amount is generally not discounted to the present value. Amounts recoverable under insurance contracts are recorded as assets when recovery is deemed probable. Contingencies that might result in a gain are not recognized until realizable. Changes to the amount of the estimated loss, or resolution of one or more contingencies could have a material impact on our results of operations, financial position and cash flows. See Note 19 to our audited consolidated financial statements for further discussion of our litigation matters.

Valuation of Long-Lived Assets. In addition to goodwill and identifiable intangible assets recognized in connection with our business acquisitions, our long-lived assets also include property, plant and equipment, capitalized software development costs for software to be sold, leased or otherwise marketed, and certain long-term investments. As of December 31, 2011, the consolidated carrying values of our property, plant and equipment were \$934 million, certain long-term investments were \$43 million, and capitalized software development costs were \$39 million. As of December 31, 2011, the carrying value of our property, plant and equipment represented 6% of total assets and the carrying value of our capitalized software development costs and certain long-term investments each represented less than 1% of total assets. We review the valuation of our long-lived assets whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable. An impairment loss is recognized when the carrying amount of a long-lived asset exceeds its fair value or net realizable value expected to result from the asset's use and eventual disposition. We use a variety of factors to assess valuation, depending upon the asset. Long-lived assets are evaluated based upon the expected period the asset will be utilized, and other factors depending on the asset, including estimated future sales, profits and related cash flows, estimated product acceptance and product life cycles, changes in technology and customer demand, and the performance of invested companies and joint ventures. Changes in estimates and judgments on any of these factors could have a material impact on our results of operations and financial position.

Table of Contents**Results of Operations**

The following information should be read in conjunction with our audited consolidated financial statements. Our results of operations for the periods presented are affected by our business acquisitions. See Note 4 to our audited consolidated financial statements for a discussion of our business acquisitions.

Consolidated Results of Operations

The table below provides selected financial data for L-3 for the years ended December 31, 2011 compared with 2010 and 2010 compared with 2009.

(in millions, except per share data)	Year Ended December 31,			Year Ended December 31,		
	2011 ⁽¹⁾	2010	Increase/ (decrease)	2010	2009	Increase/ (decrease)
Net sales	\$ 15,169	\$ 15,680	\$ (511)	\$ 15,680	\$ 15,615	\$ 65
Operating income	\$ 1,598	\$ 1,750	\$ (152)	\$ 1,750	\$ 1,656	\$ 94
Goodwill impairment charge	43		43			
Segment operating income	\$ 1,641	\$ 1,750	\$ (109)	\$ 1,750	\$ 1,656	\$ 94
Operating margin	10.5%	11.2%	(70) bpts	11.2%	10.6%	60 bpts
Goodwill impairment charge	0.3%		30 bpts			
Segment operating margin	10.8%	11.2%	(40) bpts	11.2%	10.6%	60 bpts
Net interest expense and other income	\$ 235	\$ 248	\$ (13)	\$ 248	\$ 260	\$ (12)
Debt retirement charge	\$ 35	\$ 18	\$ 17	\$ 18	\$ 10	\$ 8
Effective income tax rate	27.1%	34.9%	nm	34.9%	34.3%	60 bpts
Net income attributable to L-3	\$ 956	\$ 955	\$ 1	\$ 955	\$ 901	\$ 54
Diluted earnings per share	\$ 9.03	\$ 8.25	\$ 0.78	\$ 8.25	\$ 7.61	\$ 0.64
Diluted weighted average common shares outstanding	105.6	115.1	(9.5)	115.1	117.4	(2.3)

⁽¹⁾ The year ended December 31, 2011 includes: (1) a tax benefit of \$78 million, or \$0.74 of diluted earnings per share, for a net reversal of amounts previously accrued related to tax years for which the statute of limitations has expired, (2) a non-cash goodwill impairment charge of \$43 million (\$42 million after income taxes), or \$0.40 per diluted share due to a decline in the estimated fair value of our Marine Services business and (3) \$14 million (\$8 million after income taxes), or \$0.08 per diluted share for our share of an impairment charge for long-lived assets at an equity method investment.
nm - Not meaningful.

2011 Compared with 2010

Net Sales: For the year ended December 31, 2011, consolidated net sales of \$15.2 billion decreased by 3% compared to the year ended December 31, 2010. Lower sales from the AM&M, Government Services and Electronic Systems were partially offset by sales growth from the C³ISR segments. Acquired businesses, which are all included in the Electronics Systems segment, contributed \$160 million to net sales for the year ended December 31, 2011.

Sales from services, primarily from our Government Services, AM&M and C³ISR segments, decreased by \$478 million to \$7,606 million, representing approximately 50% of consolidated net sales, for the year ended December 31, 2011, compared to \$8,084 million, or approximately 52% of consolidated net sales for the year ended December 31, 2010. Sales from services decreased primarily due to the loss of the SOFSA, Afghanistan Ministry of Defense (MoD) support and Federal Aviation Administration (FAA) IT support services contracts, reduced subcontractor pass-through sales related to U.S. Army systems and software engineering and services (SSES), and lower linguist services, training, intelligence support and logistics support services for the U.S.

Table of Contents

Army due to the drawdown of U.S. military forces from Iraq. These decreases were partially offset by increased contractor logistics support (CLS) services for U.S. Army C-12 aircraft, and increased intelligence and information technology (IT) support services for U.S. Government agencies.

Sales from products, which primarily include products from our C³ISR and Electronic Systems segments, decreased by \$33 million to \$7,563 million, representing approximately 50% of consolidated net sales for the year ended December 31, 2011, compared to \$7,596 million, or approximately 48% of consolidated net sales, for the year ended December 31, 2010. The decrease in product sales was due to sales volume declines primarily for Joint Cargo Aircraft (JCA), night vision products, combat propulsion systems, mobile satellite communication systems and simulation & training devices. The decreases were partially offset by sales from acquired businesses, and organic sales growth primarily for networked communication and integrated sensor systems. See the reportable segment results below for additional discussion of our segment sales.

Operating income and operating margin: Consolidated operating income for the year ended December 31, 2011 decreased by \$152 million, or 9%, compared to the year ended December 31, 2010. Segment operating income for the year ended December 31, 2011 decreased by \$109 million, or 6%, compared to the year ended December 31, 2010. Segment operating margin decreased by 40 basis points to 10.8% for the year ended December 31, 2011 compared to 11.2% for the year ended December 31, 2010. Lower operating margins in the C³ISR, Government Services and Electronic Systems segments were partially offset by higher operating margins for the AM&M segment. See the reportable segment results below for additional discussion of operating margin.

Net interest expense and other income: Net interest expense and other income decreased by \$13 million for the year ended December 31, 2011 compared to the prior year. The decrease was primarily due to lower amortization of bond discounts and lower interest expense as a result of recent debt refinancings, partially offset by \$14 million for our share of an impairment charge for long-lived assets at an equity method investment.

Debt Retirement Charge: During 2011, we redeemed our 5⁷/₈% 2015 Notes and \$500 million of our 6³/₈% 2015 Notes and recorded related debt retirement charges of \$35 million. During 2010, we redeemed our 6¹/₈% Senior Subordinated Notes due 2013 and 2014 and recorded related debt retirement charges of \$18 million. See Liquidity and Capital Resources Statement of Cash Flows Debt Repayments for additional information.

Effective income tax rate: The effective tax rate for the year ended December 31, 2011 decreased to 27.1% from 34.9% for the year ended December 31, 2010. Excluding the Q4 2011 Items, the effective tax rate would have decreased to 32.1% for 2011. This decrease was primarily due to: (1) \$12 million for the reversal of previously accrued amounts in the second quarter of 2011, (2) additional federal tax benefits on the repatriation of foreign earnings, and (3) a 2010 tax provision of \$5 million, or \$0.04 per diluted share, related to the unfavorable tax treatment of the U.S. Federal Patient Protection and Affordable Care Act that did not recur in 2011.

Net income attributable to L-3 and diluted earnings per share: Net income attributable to L-3 increased by \$1 million to \$956 million for the year ended December 31, 2011, compared to last year and diluted earnings per share (EPS) increased 9% to \$9.03 from \$8.25. Excluding the Q4 2011 Items of \$28 million, or \$0.26 per share, net income attributable to L-3 decreased \$27 million to \$928 million and diluted EPS increased \$0.52, or 6%, to \$8.77.

Diluted weighted average common shares outstanding: Diluted weighted average common shares outstanding for the year ended December 31, 2011 decreased by 9.5 million shares, or 8%, compared to the year ended December 31, 2010. The decrease was due to repurchases of our common stock in connection with our share repurchase programs authorized by our Board of Directors, partially offset by additional shares issued in connection with various employee stock-based compensation programs and contributions to employee savings plans made in common stock.

Table of Contents***2010 Compared with 2009***

Net Sales: For the year ended December 31, 2010, consolidated net sales of approximately \$15.7 billion increased slightly compared to the year ended December 31, 2009. Sales growth from the C³ISR segment was offset by lower sales from the Government Services and Electronic Systems reportable segments and the AM&M reportable segment, primarily due to the loss of the SOFSA contract. Acquired businesses, primarily Insight Technology and 3Di, contributed \$207 million to net sales for the year ended December 31, 2010.

Sales from services decreased by \$15 million to \$8,084 million for the year ended December 31, 2009, compared to \$8,099 million for the year ended December 31, 2009. Sales from services represented approximately 52% of consolidated net sales for each of the years. The decrease was due primarily to reduced SSES pass-through volume, the loss of the SOFSA contract and the loss of an aircraft maintenance contract with the U.S. Customs and Border Patrol, and lower sales volume for marine services and simulation & training due to contracts nearing completion. These decreases were partially offset by organic sales growth in airborne ISR logistics support and fleet management services for the U.S. Air Force and information technology (IT) support services for the U.S. Special Operations Command (SOCOM) and other U.S. Government agencies.

Sales from products increased by \$80 million to \$7,596 million for the year ended December 31, 2010, compared to \$7,516 million for the year ended December 31, 2009. Sales from products represented approximately 48% of consolidated net sales for each of the years. The increase was primarily due to organic growth from networked communications, aircraft modernization, integrated sensor systems, microwave, and security & detection systems and sales from the Insight acquired business. These increases were partially offset by sales declines for combat propulsion systems, commercial shipbuilding products, precision engagement, displays, and marine services. See the reportable segment results below for additional discussion of our segment sales.

Operating income and operating margin: Consolidated operating income for the year ended December 31, 2010 increased by \$94 million, or 6%, to \$1,750 million from \$1,656 million from the year ended December 31, 2009. Operating margin increased to 11.2% for the year ended December 31, 2010 from 10.6% for the year ended December 31, 2009. Higher sales and improved contract performance for the C³ISR segment and favorable sales mix across several businesses, improved contract performance, and \$9 million from the sale of a technology license in the Electronic Systems segment increased operating margin by 80 basis points. Lower pension expense of \$16 million (\$10 million after income taxes, or \$0.09 per diluted share) increased operating margin by 10 basis points. These increases were partially offset by lower operating margins in the Government Services segment, which reduced operating margin by 20 basis points. Severance charges, primarily in the Electronic Systems segment, of \$17 million reduced operating margin by 10 basis points. See the reportable segment results below for additional discussion of segment operating margin.

Net interest expense and other income: Net interest expense and other income decreased by \$12 million for the year ended December 31, 2010 compared to the prior year primarily as a result of lower outstanding debt and higher income from investments accounted for using the equity method.

Debt Retirement Charge: During 2010, we redeemed our 6¹/₈% Senior Subordinated Notes due 2013 and 2014 and recorded related debt retirement charges of \$18 million. During 2009, we redeemed our 7⁵/₈% Senior Subordinated Notes due 2012 and recorded a related \$10 million debt retirement charge. See Liquidity and Capital Resources Statement of Cash Flows Debt repayments for additional information.

Effective income tax rate: The effective tax rate for the year ended December 31, 2010 increased by 60 basis points to 34.9% compared to last year. The increase was primarily due to higher tax benefits for the resolution of tax contingencies in 2009. In addition, the year ended December 31, 2010 included a tax provision of \$5 million, or \$0.04 per diluted share, related to the U.S. Federal Patient Protection and Affordable Care Act, which changed the tax treatment for certain retiree prescription drug benefits and increased the tax rate by 30 basis points.

Table of Contents

Net income attributable to L-3 and diluted earnings per share: Net income attributable to L-3 increased by \$54 million, or 6%, to \$955 million for the year ended December 31, 2010 from \$901 million for the year ended December 31, 2009. Diluted EPS increased by \$0.64, or 8%, to \$8.25 for the year ended December 31, 2010 from \$7.61 for the year ended December 31, 2009.

Diluted weighted average common shares outstanding: Diluted weighted average common shares outstanding for the year ended December 31, 2010 decreased by 2.3 million shares, or 2%, compared to the year ended December 31, 2009. The decrease was due to repurchases of our common stock in connection with our share repurchase programs authorized by our Board of Directors, partially offset by additional shares issued in connection with various employee stock-based compensation programs and contributions to employee savings plans made in common stock.

Reportable Segment Results of Operations

The table below presents selected data by reportable segment reconciled to consolidated totals. See Note 22 to our audited consolidated financial statements for additional reportable segment data.

	2011	Year Ended December 31,

⁽¹⁾ As a result of re-alignments of business units in the Company's management and organizational structure as discussed in Note 2 to our audited consolidated financial statements, sales of \$113 million and \$141 million were reclassified from the Government Services segment to the Electronic Systems segment and sales of \$76 million and \$78 million were reclassified from the C³ISR segment to the Government Services segment for the years ended December 31, 2010 and 2009, respectively. In addition, operating income of \$7 million and \$16 million was reclassified from the Government Services segment to the Electronic Systems segment and operating income of \$4 million and \$5 million was reclassified from the C³ISR segment to the Government Services segment for the

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

years ended December 31, 2010 and 2009, respectively.

(2) Net sales are after intercompany eliminations.

Table of Contents**C³ISR**

	Year Ended December 31,		Increase/ (decrease)	Year Ended December 31,		Increase
	2011	2010		2010	2009	
	(dollars in millions)					
Net sales	\$ 3,568.2	\$ 3,322.8	\$ 245.4	\$ 3,322.8	\$ 3,015.9	\$ 306.9
Operating income	409.1	391.2	17.9	391.2	338.9	52.3
Operating margin	11.5%	11.8%	(30) bpts	11.8%	11.2%	60 bpts

2011 Compared with 2010

C³ISR net sales for the year ended December 31, 2011 increased by \$245 million, or 7%, compared to the year ended December 31, 2010. This increase was primarily due to increased volume and new business for networked communication systems for manned and unmanned platforms, airborne ISR logistics support and fleet management services to the DoD, and international airborne ISR platforms. These increases were partially offset primarily by lower sales for airborne ISR platforms to the DoD and force protection products to foreign ministries of defense.

C³ISR operating income for the year ended December 31, 2011 increased by \$18 million, or 5%, compared to the year ended December 31, 2010. Operating margin decreased by 30 basis points primarily due to lower margin sales mix for networked communication systems and a \$6 million loss on a contract termination recorded in 2011.

2010 Compared with 2009

C³ISR net sales for the year ended December 31, 2010 increased by 10% compared to the year ended December 31, 2009 primarily due to demand for airborne ISR logistics support and fleet management services and networked communications systems for manned and unmanned platforms.

C³ISR operating income for the year ended December 31, 2010 increased by 15% compared to the year ended December 31, 2009. Operating margin increased by 60 basis points. Higher sales volume and improved contract performance increased operating margin by 60 basis points and lower pension expense of \$6 million increased operating margin by 20 basis points. These increases were partially offset by higher lower margin services sales, which reduced operating margin by 20 basis points.

Government Services

	Year Ended December 31,		Decrease	Year Ended December 31,		Decrease
	2011	2010		2010	2009	
	(dollars in millions)					
Net sales	\$ 3,621.4	\$ 3,926.4	\$ (305.0)	\$ 3,926.4	\$ 4,030.9	\$ (104.5)
Operating income	279.8	341.7	(61.9)	341.7	383.3	(41.6)
Operating margin	7.7%	8.7%	(100) bpts	8.7%	9.5%	(80) bpts

2011 Compared with 2010

Government Services net sales for the year ended December 31, 2011 decreased by \$305 million, or 8%, compared to the year ended December 31, 2010. The decrease in sales was due to: (1) \$124 million primarily related to the loss of the Afghanistan MoD support contract and the FAA IT support services contract, (2) \$118 million in lower linguist services, training, intelligence support, and logistics support services for the U.S. Army due to the drawdown of U.S. military forces from Iraq, (3) \$75 million in reduced SSES pass-through volume, (4) \$51 million of lower sales related to the SBIInet program for the U.S. Department of Homeland Security and an international maritime security enhancement program, and (5) \$42 million for IT support services for the U.S.

Table of Contents

Special Operations Command due to fewer task orders received because of more competitors on the current contract. These decreases were partially offset by \$105 million in higher sales due to increased demand for intelligence and information technology support services for U.S. Government agencies.

Government Services operating income for the year ended December 31, 2011 decreased by \$62 million, or 18%, compared to the year ended December 31, 2010. Operating margin decreased by 100 basis points. Lower contract profit rates on select new business and re-competitions of existing business due to competitive price pressures and higher business development costs for cyber security initiatives decreased operating margin by 60 basis points. Transaction costs of \$9 million for the Engility spin-off and severance charges of \$5 million reduced operating margin by 40 basis points.

2010 Compared with 2009

Government Services net sales for the year ended December 31, 2010 decreased by 3% compared to the year ended December 31, 2009. The decrease was primarily due to: (1) reduced subcontractor pass-through sales volume of \$154 million related to reduced SSES pass through volume, (2) \$46 million of lower sales volume from the loss of an Afghanistan MoD support contract, and (3) \$27 million of lower sales volume from reduced tasking for Iraq training work. These decreases were partially offset by increases of \$109 million primarily for increased logistics and law enforcement support services for the U.S. Army due to higher volume for Afghanistan, and information technology support services for SOCOM and other U.S. Government agencies. The increase in net sales from acquired businesses was \$13 million.

Government Services operating income for the year ended December 31, 2010 decreased by 11% compared to the year ended December 31, 2009. Operating margin decreased by 80 basis points. Operating margin was reduced by 110 basis points primarily due to lower sales volume and lower margins on select contract renewals and new contracts. These decreases were partially offset by a decline in lower margin subcontractor pass-through sales, which increased operating margin by 30 basis points.

Aircraft Modernization and Maintenance (AM&M)

	Year Ended December 31,		Increase/ (decrease)	Year Ended December 31,		Decrease
	2011	2010		2010	2009	
	(dollars in millions)					
Net sales	\$ 2,439.5	\$ 2,780.9	\$ (341.4)	\$ 2,780.9	\$ 2,827.8	\$ (46.9)
Operating income	231.8	229.1	2.7	229.1	242.7	(13.6)
Operating margin	9.5%	8.2%	130 bpts	8.2%	8.6%	(40) bpts

2011 Compared with 2010

AM&M net sales for the year ended December 31, 2011 decreased by \$341 million, or 12%, compared to the year ended December 31, 2010. The decrease was primarily the result of \$332 million from the SOFSA contract loss, \$75 million from lower JCA volume, and \$35 million due to lower sales for MHP, partially offset by increased CLS services for U.S. Army C-12 aircraft.

AM&M operating income for the year ended December 31, 2011 increased by \$3 million, or 1%, compared to the year ended December 31, 2010. Operating margin increased by 130 basis points. The increase in operating margin was due to: (1) improved contract performance for rotary wing cabin assemblies and special mission aircraft, which increased operating margin by 100 basis points, (2) the sales decline on the lower margin SOFSA contract, which increased operating margin by 60 basis points, and (3) a 2011 first quarter favorable price adjustment of \$10 million for an international aircraft modernization contract, which increased operating margin by 40 basis points. These margin increases were partially offset by a 70 basis point decrease in operating margin primarily due to JCA for higher costs and reduced aircraft order quantities.

Table of Contents**2010 Compared with 2009**

AM&M net sales for the year ended December 31, 2010 decreased by 2% compared to the year ended December 31, 2009. The decrease was primarily due to sales volume declines of \$123 million from SOFSA and \$45 million from the loss of an aircraft maintenance contract with the U.S. Customs and Border Patrol in 2009. These decreases were partially offset by \$121 million in sales increases primarily for higher volume for JCA, rotary wing cabin assemblies, and the Canadian Maritime Helicopter Program.

AM&M operating income for the year ended December 31, 2010 decreased by 6% compared to the year ended December 31, 2009. Operating margin decreased by 40 basis points. The decrease in operating margin was primarily due to lower volume and prices for systems field support services and lower margin sales mix, primarily related to higher JCA volume, which has lower margins than the overall AM&M segment.

Electronic Systems

	Year Ended December 31,		Decrease	Year Ended December 31,		Increase/ (decrease)
	2011	2010		2010	2009	
	(dollars in millions)					
Net sales	\$ 5,539.6	\$ 5,649.5	\$ (109.9)	\$ 5,649.5	\$ 5,740.1	\$ (90.6)
Operating income	719.9	788.1	(68.2)	788.1	691.3	96.8
Operating margin	13.0%	13.9%	(90) bpts	13.9%	12.0%	190 bpts

2011 Compared with 2010

Electronic Systems net sales for the year ended December 31, 2011 decreased by \$110 million, or 2%, compared to the year ended December 31, 2010, reflecting lower sales of: (1) \$376 million due to declining DoD demand for night vision products, combat propulsion systems, mobile satellite communication systems and simulation & training devices, (2) \$40 million due to lower manufacturing yields for power devices for satellite communications systems, and (3) \$9 million from the sale of a general aviation product technology license in the 2010 fourth quarter that did not recur in the 2011 fourth quarter. These decreases were partially offset by sales from acquired businesses of \$160 million, sales volume increases of \$122 million for integrated sensor systems to the U.S. Army and U.S. Air Force, and higher sales for commercial shipbuilding products of \$33 million, with a majority of the increase from commercial shipbuilding products due to the strengthening of the U.S. dollar against the Euro.

Electronic Systems operating income for the year ended December 31, 2011 decreased by \$68 million, or 9%, compared to the year ended December 31, 2010. Operating margin decreased by 90 basis points. Unfavorable contract performance and lower sales primarily for warrior systems and simulation & training reduced operating margin by 150 basis points, and lower manufacturing yields for power devices for satellite communication systems reduced operating margin by 20 basis points. These decreases in operating margin were partially offset by 80 basis points due primarily to higher sales volume for integrated sensor systems.

2010 Compared with 2009

Electronic Systems net sales for the year ended December 31, 2010 decreased by 2% compared to the year ended December 31, 2009, reflecting lower sales volume of: (1) \$113 million for combat propulsion systems due to a reduction in DoD funding for Bradley Fighting Vehicles, (2) \$107 million due to reduced demand for commercial ship building products, and (3) \$168 million from precision engagement, marine services, training & simulation, and displays due to contracts nearing completion. These decreases were partially offset by \$94 million of sales volume increases due primarily to higher demand for integrated sensor systems products to the U.S. Army, microwave products and security & detection systems, and \$9 million from the sale of a technology license. Acquired businesses, primarily Insight and 3Di, contributed \$194 million to net sales.

Table of Contents

Electronic Systems operating income for the year ended December 31, 2010 increased by 14% compared to the year ended December 31, 2009. Operating margin increased by 190 basis points. Favorable sales mix across several businesses, primarily integrated sensor systems products, increased operating margin by 150 basis points. Additionally, three items comprised of: (1) the sale of a technology license for \$9 million, (2) a volume price adjustment on a supply contract of \$6 million, and (3) a favorable contract modification for precision engagement of \$5 million, collectively increased operating income by \$20 million and operating margin by 40 basis points compared to the year ended December 31, 2009. Lower pension expense of \$10 million increased operating margin by 20 basis points. These increases were partially offset by severance charges of \$11 million, which reduced operating margin by 20 basis points.

Liquidity and Capital Resources

Anticipated Sources and Uses of Cash Flow

At December 31, 2011, we had total cash and cash equivalents of \$764 million. While no amounts of the cash and cash equivalents are considered restricted, \$208 million was held by the Company's foreign subsidiaries. The repatriation of cash held in non-U.S. jurisdictions is subject to local capital requirements, as well as income tax considerations. Our primary source of liquidity is cash flow generated from operations. We generated \$1,484 million of cash from operating activities during the year ended December 31, 2011. Significant cash uses during the year ended December 31, 2011, included \$958 million to repurchase shares of our common stock, and \$188 million for dividends.

As of December 31, 2011, we also had \$997 million of borrowings available under our Revolving Credit Facility, after reductions of \$3 million for outstanding letters of credit, subject to certain conditions. On February 3, 2012, we amended and restated our Revolving Credit Facility (Amended and Restated Revolving Credit Facility), which also extended the expiration date to February 3, 2017. We currently believe that our cash from operating activities together with our cash on hand, and available borrowings under our Amended and Restated Revolving Credit Facility will be adequate for the foreseeable future to meet our anticipated requirements for working capital, capital expenditures, defined benefit plan contributions, commitments, contingencies, research and development expenditures, business acquisitions (depending on the size), contingent purchase price payments on previous business acquisitions, program and other discretionary investments, interest payments, income tax payments, L-3 Holdings' dividends and share repurchases.

Our business may not continue to generate cash flow at current levels, and it is possible that currently anticipated improvements may not be achieved. If we are unable to generate sufficient cash flow from operations to service our debt, we may be required to reduce costs and expenses, sell assets, reduce capital expenditures, reduce dividend payments, refinance all or a portion of our existing debt or obtain additional financing, which we may not be able to do on a timely basis, on satisfactory terms, or at all. Our ability to make scheduled principal payments or to pay interest on or to refinance our indebtedness depends on our future performance and financial results, which, to a certain extent, are subject to general conditions in or affecting the U.S. defense industry and to general economic, political, financial, competitive, legislative and regulatory factors beyond our control.

For a discussion of our debt refinancing activities during 2011, which improved our debt maturity profile and reduced ongoing interest expense, see Financing Activities-Debt on page 62.

Balance Sheet

Billed receivables decreased by \$59 million to \$1,240 million at December 31, 2011 from \$1,299 million at December 31, 2010 due to the timing of billings and collections primarily for government services, commercial shipbuilding, network communications, undersea warfare, microwave, and display systems. These decreases were partially offset by increases in integrated sensor systems and ISR services due to higher sales, and the timing of billings and collections for simulation & training and AM&M.

Table of Contents

Contracts in process increased by \$81 million to \$2,629 million at December 31, 2011 from \$2,548 million at December 31, 2010 due to the following:

Increases of \$18 million in unbilled contract receivables primarily due to sales exceeding billings for networked communications, secure communications, ISR services, and commercial shipbuilding, partially offset by decreases due to lower sales and billings for government services, and combat propulsion systems; and

Increases of \$63 million in inventoried contract costs across several business areas, primarily AM&M for spare parts, integrated sensor systems and space & propulsion systems to support current and anticipated customer demand, and Government Services inventoried pre-contract costs in anticipation of a Q1 2012 award, offset by decreases in precision engagement due to product deliveries.

L-3's receivables days sales outstanding (DSO) was 73 at December 31, 2011, compared with 70 at December 31, 2010. The increase in DSO was primarily due to the decrease in our trailing 12 month pro forma sales, partially offset by the decrease in billed receivables. We calculate our DSO by dividing: (1) our aggregate end of period billed receivables and net unbilled contract receivables, by (2) our trailing 12 month sales adjusted, on a pro forma basis, to include sales from business acquisitions and exclude sales from business divestitures that we completed as of the end of the period, multiplied by the number of calendar days in the trailing 12 month period (365 days at both December 31, 2011 and December 31, 2010). Our trailing 12 month pro forma sales were \$15,180 million at December 31, 2011 and \$15,850 million at December 31, 2010.

The increase in inventories was primarily due to higher inventory for commercial shipbuilding to support demand, shipping delays for Warrior Systems, and \$2 million of acquired inventories from business acquisitions. These increases were partially offset by lower microwave inventory.

The decrease in other current assets was primarily due to applying expected tax refunds, primarily for U.S. federal and state income taxes, to current year estimated tax payments.

The increase in net property, plant and equipment (PP&E) was principally due to capital expenditures, partially offset by depreciation expense.

Goodwill decreased by \$33 million to \$8,697 million at December 31, 2011 from \$8,730 million at December 31, 2010.

The table below presents the changes in goodwill applicable to our reporting units in each reportable segment.

	C ³ ISR	Government Services	AM&M (in millions)	Electronic Systems	Consolidated Total
Balance at December 31, 2010	\$ 868	\$ 2,285	\$ 1,172	\$ 4,405	\$ 8,730
Business acquisitions	3		2	22	27
Impairment losses				(43)	(43)
Foreign currency translation ⁽¹⁾			(5)	(12)	(17)
Segment reclassification ⁽²⁾	(5)	(94)		99	
Balance at December 31, 2011	\$ 866	\$ 2,191	\$ 1,169	\$ 4,471	\$ 8,697

⁽¹⁾ The changes in goodwill from foreign currency translation adjustments are due to fluctuations in the U.S. dollar and foreign currency exchange rates. The decrease in goodwill presented in the AM&M and Electronic Systems segments during 2011 was primarily due to the strengthening of the U.S. dollar against the Canadian dollar and the Euro.

⁽²⁾ As a result of re-alignments of business units in our management and organizational structure as discussed in Note 2, goodwill was reclassified on a relative fair value basis among the C³ISR, Government Services and Electronic Systems segments during the quarter ended April 1, 2011.

Table of Contents

The decrease in identifiable intangible assets was primarily due to amortization expense partially offset by the recognition of \$5 million of intangible assets for the business acquisitions during 2011.

The fluctuation in accounts payable and accrued expenses were primarily due to the timing of when invoices for purchases from third-party vendors and subcontractors were received and payments were made. The decrease in accrued employment costs was due to the timing of payments and reductions in headcount for payroll taxes and salaries and wages, reduced incentive compensation and lower benefit costs.

The decrease in advance payments and billings in excess of costs incurred was primarily due to liquidations upon shipment and invoicing for certain microwave, security & detection systems, and power & control systems contracts, partially offset by increases in performance based billings for certain AM&M, C³ISR and undersea warfare contracts.

Non-current deferred income tax liabilities increased primarily due to amortization of certain goodwill and other identifiable intangible assets during 2011 for tax purposes. Other liabilities decreased primarily due to the reversal of previously accrued income tax expense related to tax years for which the statutes of limitations had expired.

Pension Plans

L-3 maintains defined benefit pension plans covering employees at certain of its businesses and approximately 22% of its employees. At December 31, 2011, L-3's projected benefit obligation, which includes accumulated benefits plus the incremental benefits attributable to projected future salary increases for covered employees, was \$2,679 million and exceeded the fair value of L-3's pension plan assets of \$1,712 million by \$967 million. At December 31, 2010, L-3's projected benefit obligation was \$2,365 million and exceeded the fair value of L-3's pension plan assets of \$1,585 million by \$780 million. The \$187 million increase in our unfunded status was due to pension expense of \$145 million for 2011, and a net increase of \$218 million in accumulated other comprehensive loss comprised of \$268 million primarily for net actuarial losses experienced in 2011 and \$50 million of amortization of net actuarial losses and prior service costs as a component of pension expense in 2011, partially offset by employer pension contributions of \$176 million.

The 2011 increase of \$268 million in accumulated other comprehensive loss as noted above was primarily due to (i) the reduction in our weighted average discount rate from 5.57% at December 31, 2010 to 5.02% at December 31, 2011 and (ii) our actual 2011 pension plan asset return of approximately 4%, which was lower than our weighted average expected long-term rate of return assumption of 8.55%. The actuarial gains and losses that our pension plans experience are not recognized in pension expense in the year incurred, but rather are recorded as a component of accumulated other comprehensive income (loss) and amortized to pension expense in future periods over the estimated average remaining service periods of the covered employees. See Note 20 to our audited consolidated financial statements.

Our pension expense for 2011 was \$145 million. We currently expect pension expense for 2012 to increase \$34 million to approximately \$179 million primarily due to the reduction in our weighted average discount rate and a change in the expected long-term return on plan assets assumption for our U.S. pension plans to 8.25% in 2012 from 8.75% in 2011.

Our pension expense for 2012 may be different from our current expectations when finalized due to a number of factors, including the effect of any future business acquisitions for which we assume liabilities for pension benefits, changes in headcount at our businesses that sponsor pension plans, actual pension plan contributions and changes (if any) to our pension assumptions for 2012, including the discount rate, expected long-term return on plan assets and salary increases. The businesses that will comprise Engility do not have any employees who participate in our pension plans.

Table of Contents

Our contributions for 2011 were \$176 million and we currently expect to contribute approximately \$173 million to our pension plans in 2012. Actual 2012 pension contributions could be affected by changes in the funded status of our pension plans during 2012. A substantial portion of our pension plan contributions for L-3's businesses that are U.S. Government contractors are recoverable as allowable indirect contract costs at amounts generally equal to the annual pension contributions.

Our projected benefit obligation and annual pension expense are significantly affected by our discount rate assumption. For example, a reduction to the discount rate of 25 basis points would increase our projected benefit obligation at December 31, 2011 by approximately \$95 million and our estimated pension expense for 2012 by approximately \$12 million. Conversely, an increase to the discount rate of 25 basis points would have decreased our projected benefit obligation at December 31, 2011 by approximately \$91 million, and our estimated pension expense for 2012 by approximately \$11 million.

Statement of Cash Flows

The table below provides a summary of our cash flows from operating, investing, and financing activities for the periods indicated.

	Year Ended December 31,		
	2011	2010 (in millions)	2009
Net cash from operating activities	\$ 1,484	\$ 1,461	\$ 1,407
Net cash used in investing activities	(203)	(945)	(272)
Net cash used in financing activities	(1,120)	(918)	(1,005)

Operating Activities

2011 Compared with 2010. We generated \$1,484 million of cash from operating activities during the year ended December 31, 2011, an increase of \$23 million compared with \$1,461 million generated during the year ended December 31, 2010. The increase was primarily due to lower tax payments.

2010 Compared with 2009. We generated \$1,461 million of cash from operating activities during the year ended December 31, 2010, an increase of \$54 million compared with \$1,407 million generated during the year ended December 31, 2009. The increase was due to \$55 million of higher net income and \$51 million of higher non-cash expenses primarily for higher deferred income taxes and stock-based employee compensation. These increases were partially offset by \$52 million of more net cash used for changes in operating assets and liabilities primarily for billed receivables and pension and postretirement benefits. The net cash from changes in operating assets and liabilities is further discussed above under *Liquidity and Capital Resources* *Balance Sheet* beginning on page 58.

Interest Payments. Our cash from operating activities included interest payments on debt of \$238 million for the year ended December 31, 2011, \$233 million for the year ended December 31, 2010, and \$237 million for the year ended December 31, 2009. Our interest expense also included amortization of deferred debt issue costs and bond discounts, which are non-cash items.

Investing Activities

During 2011, we used \$203 million of cash primarily to: (1) acquire two businesses discussed under *Business Acquisitions and Dispositions* on page 40 and (2) pay \$192 million for capital expenditures.

During 2010, we used \$945 million of cash primarily to: (1) acquire four businesses discussed under *Business Acquisitions and Dispositions* on page 40, (2) pay \$181 million for capital expenditures, and (3) invest \$23 million in an unconsolidated subsidiary accounted for using the equity method.

Table of Contents

During 2009, we used \$272 million of cash primarily to: (1) acquire a business and pay the remaining contractual purchase price for a business acquisition completed prior to January 1, 2009 for a total of \$90 million, and (2) pay \$186 million for capital expenditures.

*Financing Activities***Debt**

At December 31, 2011, total outstanding debt was \$4,125 million, of which \$2,938 million was senior debt and \$1,187 million was subordinated debt and CODES, compared to \$4,137 million at December 31, 2010, of which \$1,794 million was senior debt and \$2,343 million was subordinated debt and CODES. At December 31, 2011, borrowings available under our \$1 billion Revolving Credit Facility were \$997 million, after reduction for outstanding letters of credit of \$3 million. We also had \$407 million of other standby letters of credit at December 31, 2011, that may have been drawn upon in the event that we did not perform on certain of our contractual requirements. There were no borrowings outstanding under our Revolving Credit Facility at December 31, 2011. At December 31, 2011, our outstanding debt matures between October 15, 2015 and August 1, 2035. See Note 10 to our audited consolidated financial statements for the components of our debt at December 31, 2011.

Debt Issuances

The terms of each of the outstanding Senior Notes issued by L-3 Communications during the years ended December 31, 2011, 2010 and 2009 are presented in the table below.

Note	Date of Issuance	Amount Issued	Discount (in millions)	Net Cash Proceeds	Effective Interest Rate	Redemption at Treasury Rate+
3.95% Senior Notes due November 15, 2016	November 22, 2011	\$ 500	\$ 4	\$ 491	4.11%	50 bps
5.20% Senior Notes due October 15, 2019	October 2, 2009	\$ 1,000	\$ 4	\$ 987	5.25%	30 bps
4.75% Senior Notes due July 15, 2020	May 21, 2010	\$ 800	\$ 3	\$ 790	4.79%	25 bps
4.95% Senior Notes due February 15, 2021	February 7, 2011	\$ 650	\$ 4	\$ 639	5.02%	25 bps

Debt Repayments

We used the net cash proceeds from the Senior Note issuances, together with cash on hand, to repay our outstanding \$650 million term loan on October 7, 2009 and redeem certain of our outstanding Senior Subordinated Notes. Information on the Senior Subordinated Notes we redeemed during the years ended December 31, 2011, 2010 and 2009 is presented in the table below.

Note	Redemption Date	Principal Amount Redeemed (in millions)	Debt Retirement Charge	Redemption Price % of Principal
6 ³ / ₈ % Senior Subordinated Notes due October 15, 2015	December 22, 2011	\$ 500	\$ 17	102.125%
5 ⁷ / ₈ % Senior Subordinated Notes due January 15, 2015	March 9, 2011	\$ 650	\$ 18	101.958%
6 ¹ / ₈ % Senior Subordinated Notes due January 15, 2014	June 21, 2010	\$ 400	\$ 13	102.042%
6 ¹ / ₈ % Senior Subordinated Notes due July 15, 2013	July 15, 2010	\$ 400	\$ 5	101.021%
7 ³ / ₈ % Senior Subordinated Notes due June 15, 2012	November 2, 2009	\$ 750	\$ 10	101.271%

On February 2, 2011, we repurchased approximately \$11 million of our CODES as a result of the exercise by the holders of their contractual right to require us to repurchase their CODES. The CODES are subject to redemption at the option of L-3 Holdings, in whole or in part, at a cash redemption price (plus accrued and unpaid interest, including contingent interest and additional interest, if any) equal to 100% of the principal amount of CODES. We may, from time to time, make open market purchases of our outstanding debt securities,

Table of Contents

including the CODES. Whether or not we repurchase any of our outstanding debt securities, including the CODES, the amount of any such repurchases will vary depending on numerous factors, including, without limitation, the trading price of our debt, other market conditions, our ongoing capital allocation planning, the levels of our cash and debt balances, other demands for cash, such as acquisition activity, and general economic conditions.

Debt Covenants and Other Provisions. The Amended and Restated Revolving Credit Facility, senior notes and senior subordinated notes contain financial and/or other restrictive covenants. See Note 10 to our audited consolidated financial statements for a description of our debt and related financial covenants, including dividend payment and share repurchase restrictions and cross default provisions. As of December 31, 2011, we were in compliance with our financial and other restrictive covenants.

Under select conditions, including if L-3 Holding's common stock price is more than 120% (currently \$115.78) of the then current conversion price (currently \$96.48) for a specified period, the conversion feature of the CODES will require L-3 Holdings, upon conversion, to pay the holders of the CODES the principal amount in cash, and if the settlement amount exceeds the principal amount, the excess will be settled in cash or stock or a combination thereof, at our option. See Note 10 to our audited consolidated financial statements for additional information regarding the CODES, including conditions for conversion. L-3 Holdings' closing stock price of February 28, 2012 was \$70.28 per share.

Guarantees. The borrowings under the Amended and Restated Revolving Credit Facility are fully and unconditionally guaranteed by L-3 Holdings and by substantially all of the material wholly-owned domestic subsidiaries of L-3 Communications on an unsecured senior basis. The payment of principal and premium, if any, and interest on the senior notes are fully and unconditionally guaranteed, on an unsecured senior basis, jointly and severally, by L-3 Communications' material wholly-owned domestic subsidiaries that guarantee any of its other indebtedness. The payment of principal and premium, if any, and interest on the senior subordinated notes are fully and unconditionally guaranteed, on an unsecured senior subordinated basis, jointly and severally, by L-3 Communications' wholly-owned domestic subsidiaries that guarantee any of its other indebtedness. The payment of principal and premium, if any, and interest on the CODES are fully and unconditionally guaranteed, on an unsecured senior subordinated basis, jointly and severally, by L-3 Communications and its wholly-owned domestic subsidiaries that guarantee any of its other liabilities.

Subordination. The guarantees of the Amended and Restated Revolving Credit Facility and the senior notes rank senior to the guarantees of the senior subordinated notes and the CODES and rank pari passu with each other. The guarantees of the senior subordinated notes and CODES rank pari passu with each other and are junior to the guarantees of the Amended and Restated Revolving Credit Facility and senior notes.

Equity

During 2011 and 2010, L-3 Holdings' Board of Directors authorized the following quarterly cash dividends:

Date Declared	Record Date	Cash Dividends Per Share	Date Paid	Total Dividends Paid (in millions)
2011				
February 8	March 1	\$ 0.45	March 15	\$ 49
April 26	May 17	\$ 0.45	June 15	\$ 48
July 12	August 18	\$ 0.45	September 15	\$ 46
October 11	November 17	\$ 0.45	December 15	\$ 45
2010				
February 2	March 1	\$ 0.40	March 15	\$ 47
April 27	May 17	\$ 0.40	June 15	\$ 46
July 13	August 17	\$ 0.40	September 15	\$ 46
October 26	November 17	\$ 0.40	December 15	\$ 45

Table of Contents

On February 7, 2012, L-3 Holdings announced that its Board of Directors had increased L-3 Holdings' regular quarterly cash dividend by 11% to \$0.50 per share, payable on March 15, 2012, to shareholders of record at the close of business on March 1, 2012.

On February 21, 2012, the number of holders of L-3 Holdings' common stock was approximately 39,650. On February 28, 2012, the closing price of L-3 Holdings common stock, as reported by the NYSE, was \$70.28 per share.

For the year ended December 31, 2011, L-3 Holdings repurchased \$958 million, or 13.3 million shares, of its common stock compared to \$834 million, or 11.0 million shares, of its common stock for the year ended December 31, 2010.

Contractual Obligations

The table below presents our estimated total contractual obligations at December 31, 2011, including the amounts expected to be paid or settled for each of the periods indicated below.

	Total	Payments due by period			
		Less than 1 year	1 3 years (in millions)	3 5 years	More than 5 years
Contractual Obligations					
L-3 Communications long-term debt ⁽¹⁾	\$ 3,450	\$	\$	\$ 1,000	\$ 2,450
L-3 Holdings long-term debt ⁽¹⁾⁽²⁾	689				689
Interest payments ⁽³⁾	1,787	195	389	357	846
Non-cancelable operating leases ⁽⁴⁾	620	173	225	119	103
Notes payable and capital lease obligations	10		1	8	1
Purchase obligations ⁽⁵⁾	2,333	2,044	271	16	2
Other long-term liabilities ⁽⁶⁾	323	186 ⁽⁷⁾	81	7	49
Total⁽⁸⁾	\$ 9,212	\$ 2,598	\$ 967	\$ 1,507	\$ 4,140

(1) Represents principal amount of long-term debt and only includes scheduled principal payments.

(2) The CODES are convertible into cash and shares of L-3 Holdings' common stock based on a conversion rate of 10.3644 shares of L-3 Holdings common stock per one thousand dollars in principal amount of the CODES (equivalent to a current conversion price of \$96.48 per share). The conversion feature of the CODES may require L-3 Holdings to settle the principal amount with the holders of the CODES if L-3 Holdings common stock price is more than 120% of the then current conversion price (currently \$115.78) for a specified period, and if the settlement amount exceeds the principal amount, the excess will be settled in cash or stock or a combination thereof, at our option. Additionally, holders of the CODES may require L-3 Holdings to repurchase the CODES, in whole or in part, on February 1, 2016, February 1, 2021, February 1, 2026 and February 1, 2031 at a cash repurchase price equal to 100% of the principal amount of the CODES (plus accrued and unpaid interest, if any). See Note 10 to our audited consolidated financial statements for additional information regarding the CODES, including conditions for conversion and contingent interest features. L-3 Holdings stock price on February 28, 2012 was \$70.28.

(3) Represents expected interest payments on L-3's long-term debt balance as of December 31, 2011 using the stated interest rate on our fixed rate debt, assuming that current borrowings remain outstanding to the contractual maturity date.

(4) Non-cancelable operating leases are presented net of estimated sublease rental income.

(5) Represents open purchase orders at December 31, 2011 for amounts expected to be paid for goods or services that are legally binding.

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

- (6) Other long-term liabilities primarily consist of workers compensation and deferred compensation for the years ending December 31, 2013 and thereafter and also include pension and postretirement benefit plan contributions that we expect to pay in 2012.
- (7) Our pension and postretirement benefit plan funding policy is generally to contribute in accordance with cost accounting standards that affect government contractors, subject to the Internal Revenue Code and regulations thereon. For 2012, we expect to contribute approximately \$173 million to our pension plans and approximately \$13 million to our postretirement benefit plans. Due to the current uncertainty of the amounts used to compute our expected pension and postretirement benefit plan funding, we believe it is not practicable to reasonably estimate such future funding for periods in excess of one year and we may decide or be required to contribute more than we expect to our pension and postretirement plans.
- (8) Excludes all income tax obligations, a portion of which represents unrecognized tax benefits in connection with uncertain tax positions taken, or expected to be taken on our income tax returns as of December 31, 2011 since we cannot determine the time period of future tax consequences. For additional information regarding income taxes, see Note 17 to our audited consolidated financial statements.

Table of Contents**Off Balance Sheet Arrangements**

The table below presents our estimated total contingent commitments and other guarantees at December 31, 2011, including the amounts expected to be paid or settled for each of the periods indicated below.

	Total	2012	Payments due by period		2017 and thereafter
			2013-2014 (in millions)	2015-2016	
Contingent Commitments					
Standby letters of credit under our Revolving Credit Facility ⁽¹⁾	\$ 3	\$ 3	\$	\$	\$
Other standby letters of credit ⁽¹⁾	407	356	38	8	5
Other guarantees ⁽²⁾	3				3
Contingent commitments for earnout payments on business acquisitions ⁽³⁾	21		16	5	
Total ⁽⁴⁾	\$ 434	\$ 359	\$ 54	\$ 13	\$ 8

(1) Represents outstanding letters of credit with financial institutions covering performance and financial guarantees per contractual requirements with certain customers. These letters of credit may be drawn upon in the event of L-3's nonperformance.

(2) Represents the minimum guarantees made by L-3 or the lessee under the purchase option for certain operating leases in which the lease renewal is not exercised (see Note 19 to our audited consolidated financial statements for a description of these guarantees).

(3) Represents potential additional contingent purchase payments for business acquisitions that are contingent upon the post-acquisition financial performance or certain other performance conditions of the acquired businesses in accordance with the contractual purchase agreement. At December 31, 2011, our consolidated balance sheet includes \$16 million within the other liabilities caption for the fair value of these contingent purchase payments.

(4) The total amount does not include residual value guarantees for two real estate lease agreements that are accounted for as operating leases. We have the right to exercise options under the lease agreements to purchase both properties for \$28 million on or before August 31, 2012. See Note 19 to our audited consolidated financial statements for a further description of these leases.

Legal Proceedings and Contingencies

We are engaged in providing products and services under contracts with the U.S. Government and, to a lesser degree, under foreign government contracts, some of which are funded by the U.S. Government. All such contracts are subject to extensive legal and regulatory requirements, and, periodically, agencies of the U.S. Government investigate whether such contracts were and are being conducted in accordance with these requirements. Under U.S. Government procurement regulations, an indictment by a federal grand jury, or an administrative finding against us as to our present responsibility to be a U.S. Government contractor or subcontractor, could result in the suspension for a period of time from eligibility for awards of new government contracts or task orders or in a loss of export privileges. A conviction, or an administrative finding that satisfies the requisite level of seriousness, could result in debarment from contracting with the federal government for a specified term. We are currently cooperating with the U.S. Government on several investigations, none of which we anticipate will have a material adverse effect on our consolidated financial position, results of operations or cash flows.

We continually assess our obligations with respect to applicable environmental protection laws. While it is difficult to determine the timing and ultimate cost that we will incur to comply with these laws, based upon available internal and external assessments, with respect to those environmental loss contingencies of which we are aware, we believe that even without considering potential insurance recoveries, if any, there are no environmental loss contingencies that, in the aggregate, would be material to our consolidated financial position, results of operations or cash flows. Also, we have been periodically subject to litigation, government investigations, proceedings, claims or assessments and various contingent liabilities incidental to our business. We accrue for these contingencies when it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. For a description of our legal proceedings and contingencies, see Note 19 to our audited

consolidated financial statements.

Table of Contents**Derivative Financial Instruments and Other Market Risk**

Included in our derivative financial instruments are foreign currency forward contracts. All of our derivative financial instruments that are sensitive to market risk are entered into for purposes other than trading.

Interest Rate Risk. Our Amended and Restated Revolving Credit Facility is subject to variable interest and is therefore sensitive to changes in interest rates. The interest rates on the Senior Notes, senior subordinated notes, and CODES are fixed-rate and are not affected by changes in interest rates. Additional data on our debt obligations and our applicable borrowing spreads included in the interest rates we would pay on borrowings under the Amended and Restated Revolving Credit Facility, if any, are provided in Note 10 to our audited consolidated financial statements.

Foreign Currency Exchange Risk. Our U.S. and foreign businesses enter into contracts with customers, subcontractors or vendors that are denominated in currencies other than their functional currencies. To protect the functional currency equivalent cash flows associated with certain of these contracts, we enter into foreign currency forward contracts, which are generally designated and accounted for as cash flow hedges. At December 31, 2011, the notional value of foreign currency forward contracts was \$335 million and the net fair value of these contracts was an asset of \$1 million. The notional values of our foreign currency forward contracts with maturities ranging through 2016 and thereafter are presented in the table below.

	2012	2013	Year of Maturity		2016 and thereafter
			2014	2015	
			(in millions)		
Notional value	\$ 280	\$ 27	\$ 22	\$ 6	\$

Accounting Standards Issued and Not Yet Implemented

For a discussion of accounting standards issued and not yet implemented, see Note 2 to our audited consolidated financial statements.

Inflation

The effect of inflation on our sales and earnings has not been significant. Although a majority of our sales are made under long-term contracts (revenue arrangements), the selling prices of such contracts, established for deliveries in the future, generally reflect estimated costs to be incurred in these future periods. In addition, some of our contracts provide for price adjustments through cost escalation clauses.

Forward-Looking Statements

Certain of the matters discussed concerning our operations, cash flows, financial position, economic performance and financial condition, including in particular, the likelihood of our success in developing and expanding our business and the realization of sales from backlog, include forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act.

Statements that are predictive in nature, that depend upon or refer to events or conditions or that include words such as *expects*, *anticipates*, *intends*, *plans*, *believes*, *estimates* and similar expressions are forward-looking statements. Although we believe that these statements are based upon reasonable assumptions, including projections of total sales growth, sales growth from business acquisitions, organic sales growth, consolidated operating margins, total segment operating margins, interest expense, earnings, cash flow, research and development costs, working capital, capital expenditures and other projections, they are subject to several risks and uncertainties, and therefore, it is possible that these statements may not be achieved. Such statements will also be influenced by factors which include, among other things:

timing and completion of the planned spin-off of the businesses that will comprise Engility and our ability to achieve anticipated benefits;

Table of Contents

the effects on the businesses that will comprise Engility leading up to the planned spin-off;

our dependence on the defense industry and the business risks peculiar to that industry, including changing priorities or reductions in the U.S. Government defense budget;

backlog processing and program slips resulting from delayed funding of the DoD budget;

our reliance on contracts with a limited number of agencies of, or contractors to, the U.S. Government and the possibility of termination of government contracts by unilateral government action or for failure to perform;

the extensive legal and regulatory requirements surrounding our contracts with the U.S. or foreign governments and the results of any investigation of our contracts undertaken by the U.S. or foreign governments, including potential suspensions or debarments;

our ability to retain our existing business and related contracts (revenue arrangements);

our ability to successfully compete for and win new business and related contracts (revenue arrangements) and to win re-competitions of our existing contracts;

our ability to identify and acquire additional businesses in the future with terms, including the purchase price, that are attractive to L-3 and to integrate acquired business operations;

our ability to maintain and improve our consolidated operating margin and total segment operating margin in future periods;

our ability to obtain future government contracts (revenue arrangements) on a timely basis;

the availability of government funding and changes in customer requirements for our products and services;

our significant amount of debt and the restrictions contained in our debt agreements;

our ability to continue to retain and train our existing employees and to recruit and hire new qualified and skilled employees, as well as our ability to retain and hire employees with U.S. Government security clearances that are a prerequisite to compete for and to perform work on classified contracts for the U.S. Government;

actual future interest rates, volatility and other assumptions used in the determination of pension benefits and equity-based compensation, as well as the market performance of benefit plan assets;

our collective bargaining agreements, our ability to successfully negotiate contracts with labor unions and our ability to favorably resolve labor disputes should they arise;

the business, economic and political conditions in the markets in which we operate, including those for the commercial aviation, shipbuilding and communications markets;

global economic uncertainty;

the DoD's contractor support services in-sourcing and efficiency initiatives;

events beyond our control such as acts of terrorism;

our ability to perform contracts (revenue arrangements) on schedule;

Table of Contents

our international operations, including sales to foreign customers;

our extensive use of fixed-price type contracts as compared to cost-plus type and time-and-material type contracts;

the rapid change of technology and high level of competition in the defense industry and the commercial industries in which our businesses participate;

our introduction of new products into commercial markets or our investments in civil and commercial products or companies;

the outcome of litigation matters, particularly in connection with jury trials;

results of audits by U.S. Government agencies, including the Defense Contract Audit Agency, of our sell prices, costs and performance on contracts (revenue arrangements), and our accounting and general business practices;

the impact on our business of improper conduct by our employees, agents, or business partners;

anticipated cost savings from business acquisitions not fully realized or realized within the expected time frame;

the outcome of matters relating to the Foreign Corrupt Practices Act (FCPA) and similar non-U.S. regulations;

ultimate resolution of contingent matters, claims and investigations relating to acquired businesses, and the impact on the final purchase price allocations;

significant increase in competitive pressure among companies in our industry; and

the fair values of our assets, including identifiable intangible assets and the estimated fair value of the goodwill balances for our reporting units, which can be impaired or reduced by other factors, some of which are discussed above.

In addition, for a discussion of other risks and uncertainties that could impair our results of operations or financial condition, see Part I Item 1A Risk Factors and Note 19 to our audited consolidated financial statements, in each case included in this Annual Report on Form 10-K for the year ended December 31, 2011.

Readers of this document are cautioned that our forward-looking statements are not guarantees of future performance and the actual results or developments may differ materially from the expectations expressed in the forward-looking statements.

As for the forward-looking statements that relate to future financial results and other projections, actual results will be different due to the inherent uncertainties of estimates, forecasts and projections and may be better or worse than projected and such differences could be material. Given these uncertainties, you should not place any reliance on these forward-looking statements. These forward-looking statements also represent our estimates and assumptions only as of the date that they were made. We expressly disclaim a duty to provide updates to these forward-looking statements, and the estimates and assumptions associated with them, after the date of this filing to reflect events or changes in circumstances or changes in expectations or the occurrence of anticipated events.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

For data regarding quantitative and qualitative disclosures related to our market risk sensitive financial instruments, see Part II Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources Derivative Financial Instruments and Other Market Risk on page 66 and Note 13 to our audited consolidated financial statements. See Notes 12 and 14 to our audited consolidated financial statements for the aggregate fair values and notional amounts of our foreign currency forward contracts at December 31, 2011.

Item 8. Financial Statements and Supplementary Data

See our audited consolidated financial statements beginning on page F-1.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Conclusions Regarding Effectiveness of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934 related to L-3 Holdings and L-3 Communications is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chairman, President and Chief Executive Officer, and our Senior Vice President and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our management, with the participation of our Chairman, President and Chief Executive Officer, and our Senior Vice President and Chief Financial Officer, has evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2011. Based upon that evaluation, our Chairman, President and Chief Executive Officer, and our Senior Vice President and Chief Financial Officer concluded that, as of December 31, 2011, the design and operation of our disclosure controls and procedures were effective to accomplish their objectives at the reasonable assurance level.

There were no changes in our internal control over financial reporting that occurred during the quarter ended December 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

As required by the SEC's rules and regulations for the implementation of Section 404 of the Sarbanes-Oxley Act, our management is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of our consolidated financial statements for external reporting purposes in accordance with accounting principles generally accepted in the United States of America. Our internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of L-3, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the consolidated financial statements.

Table of Contents

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements in our consolidated financial statements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of L-3 Holdings and L-3 Communications internal control over financial reporting as of December 31, 2011. In making these assessments, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control - Integrated Framework*. Based on our assessments and those criteria, management determined that L-3 Holdings and L-3 Communications maintained effective internal control over financial reporting as of December 31, 2011.

The effectiveness of the Company's internal control over financial reporting as of December 31, 2011 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report. See page F-1 to our audited consolidated financial statements for their report.

Item 9B. Other Information

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The Company posts its Code of Ethics and Business Conduct on the Corporate Governance webpage at its website at <http://www.L-3com.com> under the link Code of Ethics and Business Conduct . The Company s Code of Ethics and Business Conduct applies to all directors, officers and employees, including our chairman, president and chief executive officer, our senior vice president and chief financial officer, and our corporate controller and principal accounting officer. We will post any amendments to the Code of Ethics and Business Conduct, and any waivers that are required to be disclosed by the rules of either the SEC or the NYSE, on our website within the required periods.

The remaining information called for by Item 10 is included in the sections captioned Proposal 1. Election of Directors , Continuing Members of the Board of Directors , Executives and Certain Other Officers of the Company , Section 16(A) Beneficial Ownership Reporting Compliance and The Board of Directors and Certain Governance Matters in the definitive proxy statement (the Company s Proxy Statement) relating to the Company s 2012 Annual Meeting of Shareholders, to be held on April 24, 2012, and is incorporated herein by reference. L-3 Holdings will file its proxy statement with the SEC pursuant to Regulation 14A within 120 days after the end of the Company s 2011 fiscal year covered by this Form 10-K.

Item 11. Executive Compensation

The following sections of the Company s Proxy Statement are incorporated herein by reference: Compensation Discussion and Analysis , Tabular Executive Compensation Disclosure , Compensation of Directors , Compensation Committee Report and Compensation Committee Interlocks and Insider Participation .

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The Security Ownership of Certain Beneficial Owners , Security Ownership of Management , and Equity Compensation Plan Information sections of the Company s Proxy Statement are incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The Certain Relationships and Related Transactions and The Board of Directors and Certain Governance Matters sections of the Company s Proxy Statement are incorporated herein by reference.

Item 14. Principal Accountant Fees and Services

The Independent Registered Public Accounting Firm Fees section of the Company s Proxy Statement is incorporated herein by reference.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of L-3 Communications Holdings, Inc. and L-3 Communications Corporation:

In our opinion, the consolidated financial statements listed in the accompanying index appearing on page F-1 present fairly, in all material respects, the financial position of L-3 Communications Holdings, Inc. and L-3 Communications Corporation and its subsidiaries (collectively, the Company) at December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2011 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2011, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control Over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audits of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

L-3 COMMUNICATIONS HOLDINGS, INC.

AND L-3 COMMUNICATIONS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business

L-3 Communications Holdings, Inc. derives all of its operating income and cash flows from its wholly-owned subsidiary, L-3 Communications Corporation (L-3 Communications). L-3 Communications Holdings, Inc. (L-3 Holdings and, together with its subsidiaries, referred to herein as L-3 or the Company) is a prime contractor in Command, Control, Communications, Intelligence, Surveillance and Reconnaissance (C³ISR) systems, aircraft modernization and maintenance, and government services. L-3 is also a leading provider of a broad range of electronic systems used on military and commercial platforms. The Company's customers include the United States (U.S.) Department of Defense (DoD) and its prime contractors, U.S. Government intelligence agencies, the U.S. Department of Homeland Security (DHS), U.S. Department of State (DoS), U.S. Department of Justice (DoJ), allied foreign governments, domestic and foreign commercial customers and select other U.S. federal, state and local government agencies.

The Company has the following four reportable segments: (1) C³ISR, (2) Government Services, (3) Aircraft Modernization and Maintenance (AM&M), and (4) Electronic Systems. Financial information with respect to each of the Company's segments is included in Note 22. C³ISR provides products and services for the global ISR market, C³ systems, networked communications systems and secure communications products. The Company believes that these products and services are critical elements for a substantial number of major command, control and communication, intelligence gathering and space systems. These products and services are used to connect a variety of airborne, space, ground and sea-based communication systems and are used in the transmission, processing, recording, monitoring, and dissemination functions of these communication systems. Government Services provides a full range of systems engineering and technical assistance (SETA), training, operational support, cyber security, intelligence, enterprise information technology (IT) and security solutions services to the DoD, DoS, DoJ, and U.S. Government intelligence agencies and allied foreign governments. AM&M provides modernization, upgrades and sustainment, maintenance and logistics support services for military and various government aircraft and other platforms. The Company sells these services primarily to the DoD, the Canadian Department of Defense and other allied foreign governments. Electronic Systems provides a broad range of products and services, including components, products, subsystems and systems and related services to military and commercial customers in several niche markets across several business areas, including microwave, power & control systems, integrated sensor systems, aviation products, simulation & training, warrior systems, precision engagement, security & detection, space & propulsion, undersea warfare and marine services.

On July 28, 2011, the Company announced that its Board of Directors approved a plan to spin-off a new, independent government services company that will be publicly traded. The new public company will be named Engility Holdings, Inc. (Engility). The spin-off, which is intended to be tax-free to L-3 and its shareholders, is expected to be completed in the first half of 2012. Upon completion, L-3 shareholders will own 100% of the shares of both L-3 and Engility. The spin-off is not subject to a shareholder vote.

Under the plan, Engility will include the SETA, training and operational support services businesses that are currently part of L-3's Government Services segment. L-3 will retain the cyber security, intelligence, enterprise IT and security solutions businesses that are also part of L-3's Government Services segment. The Government Services segment will be renamed National Security Solutions upon completion of the spin-off.

The completion of the spin-off is subject to certain customary conditions, including filing of required documents with the U.S. Securities and Exchange Commission, and an opinion of counsel as to the satisfaction

of certain requirements necessary for the spin-off to receive tax-free treatment upon which the Internal Revenue Service does not rule, which is expected to be received immediately prior to the completion of the spin-off transaction. There can be no assurance that any separation transaction will ultimately occur, or if one does occur, its terms or timing.

2. Summary of Significant Accounting Policies

Basis of Presentation: The accompanying financial statements comprise the consolidated financial statements of L-3 Holdings and L-3 Communications. L-3 Holdings' only asset is its investment in the common stock of L-3 Communications, its wholly-owned subsidiary, and its only obligations are: (1) the 3% Convertible Contingent Debt Securities (CODES) due 2035, which were issued by L-3 Holdings on July 29, 2005, (2) its guarantee of borrowings under the Revolving Credit Facility of L-3 Communications and (3) its guarantee of other contractual obligations of L-3 Communications and its subsidiaries. L-3 Holdings' obligations relating to the CODES have been jointly, severally, fully and unconditionally guaranteed by L-3 Communications and certain of its wholly-owned domestic subsidiaries. Accordingly, such debt has been reflected as debt of L-3 Communications in its consolidated financial statements in accordance with the accounting standards for pushdown accounting. All issuances of and conversions into L-3 Holdings' equity securities, including grants of stock options, restricted stock, restricted stock units and performance units by L-3 Holdings to employees and directors of L-3 Communications and its subsidiaries, have been reflected in the consolidated financial statements of L-3 Communications. As a result, the consolidated financial positions, results of operations and cash flows of L-3 Holdings and L-3 Communications are substantially the same. See Note 25 for additional information regarding the audited financial information of L-3 Communications and its subsidiaries.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and costs of sales during the reporting period. The most significant of these estimates and assumptions relate to contract revenue, profit and loss recognition, fair values of assets acquired and liabilities assumed in business combinations, market values for inventories reported at lower of cost or market, pension and post-retirement benefit obligations, stock-based employee compensation expense, income taxes, including the valuations of deferred tax assets, litigation reserves and environmental obligations, accrued product warranty costs, and the recoverability, useful lives and valuation of recorded amounts of long-lived assets, identifiable intangible assets and goodwill. Changes in estimates are reflected in the periods during which they become known. Actual amounts will differ from these estimates and could differ materially.

Due to re-alignments in the Company's management and organizational structure during the quarter ended April 1, 2011, the Company made certain reclassifications among its C³ISR, Government Services and Electronic Systems reportable segments. The segment results presented in this annual report reflect these reclassifications. See Note 22 for the amount of prior period sales, operating income, and assets reclassified between segments.

Certain other reclassifications have been made to conform prior-year amounts to the current-year presentation.

Principles of Consolidation: The consolidated financial statements of the Company include all wholly-owned and majority-owned subsidiaries. All significant intercompany transactions are eliminated in consolidation. Investments in equity securities, joint ventures and limited liability corporations over which the Company has significant influence but does not have voting control are accounted for using the equity method. Investments over which the Company does not have significant influence are accounted for using the cost method.

Table of Contents

L-3 COMMUNICATIONS HOLDINGS, INC.

AND L-3 COMMUNICATIONS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

Revenue Recognition: Substantially all of the Company's sales are generated from written contractual (revenue) arrangements. The sales price for the Company's revenue arrangements are either fixed price, cost-plus or time-and-material type. Depending on the contractual scope of work, the Company utilizes either contract accounting standards or accounting standards for revenue arrangements with commercial customers to account for these contracts. Approximately 40% of the Company's 2011 sales were accounted for under contract accounting standards, including approximately 30% from fixed-price type contracts and approximately 10% from cost-plus type contracts. For contracts that are accounted for under contract accounting standards, sales and profits are recognized based on: (1) a Percentage-of-Completion (POC) method of accounting (fixed-price contracts), (2) allowable costs incurred plus the estimated profit on those costs (cost-plus contracts), or (3) direct labor hours expended multiplied by the contractual fixed rate per hour plus incurred costs for material (time-and-material contracts).

Sales and profits on fixed-price type contracts that are covered by contract accounting standards are substantially recognized using POC methods of accounting. Sales and profits on fixed-price production contracts under which units are produced and delivered in a continuous or sequential process are recorded as units are delivered based on their contractual selling prices (the units-of-delivery method). Sales and profits on each fixed-price production contract under which units are not produced and delivered in a continuous or sequential process, or under which a relatively few number of units are produced, are recorded based on the ratio of actual cumulative costs incurred to the total estimated costs at completion of the contract, multiplied by the total estimated contract revenue, less cumulative sales recognized in prior periods (the cost-to-cost method). Under both POC methods of accounting, a single estimated total profit margin is used to recognize profit for each contract over its entire period of performance, which can exceed one year. Losses on contracts are recognized in the period in which they become evident. The impact of revisions of contract estimates, which may result from contract modifications, performance or other reasons, are recognized on a cumulative catch-up basis in the period in which the revisions are made.

Sales and profits on cost-plus type contracts that are covered by contract accounting standards are recognized as allowable costs are incurred on the contract, at an amount equal to the allowable costs plus the estimated profit on those costs. The estimated profit on a cost-plus type contract is fixed or variable based on the contractual fee arrangement. Incentive and award fees are the primary variable fee contractual arrangements. Incentive and award fees on cost-plus type contracts are included as an element of total estimated contract revenues and are recorded to sales when a basis exists for the reasonable prediction of performance in relation to established contractual targets and the Company is able to make reasonably dependable estimates for them.

Sales and profits on time-and-material type contracts are recognized on the basis of direct labor hours expended multiplied by the contractual fixed rate per hour, plus the actual costs of materials and other direct non-labor costs.

Sales on arrangements for (1) fixed-price type contracts that require us to perform services that are not related to the production of tangible assets (Fixed-Price Service Contracts) and (2) certain commercial customers are recognized in accordance with accounting standards for revenue arrangements with commercial customers. Sales for the Company's businesses whose customers are primarily commercial business enterprises are substantially all generated from single element revenue arrangements. Sales are recognized when there is persuasive evidence of an arrangement, delivery has occurred or services have been performed, the selling price to the buyer is fixed or determinable and collectability is reasonably assured. Sales for Fixed-Price Service Contracts that do not contain measurable units of work performed are generally recognized on a straight-line basis over the contractual service period, unless evidence suggests that the revenue is earned, or obligations fulfilled, in a different manner.

Table of Contents

L-3 COMMUNICATIONS HOLDINGS, INC.

AND L-3 COMMUNICATIONS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

Sales for Fixed-Price Service Contracts that contain measurable units of work performed are generally recognized when the units of work are completed. Sales and profit on cost-plus and time-and-material type contracts to perform services are recognized in the same manner as those within the scope of contract accounting standards, except for incentive and award fees. Cost-based incentive fees are recognized when they are realizable in the amount that would be due under the contractual termination provisions as if the contract was terminated. Performance based incentive fees and award fees are recorded as sales when awarded by the customer.

For contracts with multiple deliverables, the Company applies the separation and allocation guidance under the accounting standard for revenue arrangements with multiple deliverables, unless all the deliverables are covered by contract accounting standards, in which case the Company applies the separation and allocation guidance under contract accounting standards. Revenue arrangements with multiple deliverables are evaluated to determine if the deliverables should be separated into more than one unit of accounting. The Company recognizes revenue for each unit of accounting based on the revenue recognition policies discussed above.

Sales and profit in connection with contracts to provide services to the U.S. Government that contain collection risk because the contracts are incrementally funded and subject to the availability of funds appropriated, are deferred until a contract modification is obtained, indicating that adequate funds are available to the contract or task order.

Research and Development: Independent research and development (IRAD) costs sponsored by the Company and bid and proposal (B&P) costs relate to both U.S. Government contracts and those for commercial and international customers. The IRAD and B&P costs for certain of the Company's businesses that are U.S. Government contractors are recoverable indirect contract costs that are allocated to U.S. Government contracts in accordance with U.S. Government procurement regulations, and are specifically excluded from research and development accounting standards. The Company includes the recoverable IRAD and B&P costs allocated to U.S. Government contracts in inventoried contract costs, and charges them to costs of sales when the related contract sales are recognized as revenue. Research and development costs that are not recoverable on U.S. Government contracts are accounted for in accordance with research and development accounting standards and are expensed as incurred to cost of sales.

Customer-funded research and development costs are incurred pursuant to contracts (revenue arrangements) to perform research and development activities according to customer specifications. These costs are not accounted for as research and development expenses, and are also not indirect contract costs. Instead, these costs are direct contract costs and are expensed to cost of sales when the corresponding revenue is recognized, which is generally as the research and development services are performed. Customer-funded research and development costs are substantially all incurred under cost-plus type contracts with the U.S. Government.

Product Warranties: Product warranty costs are accrued when revenue is recognized for the covered products. Product warranty expense is recognized based on the terms of the product warranty and the related estimated costs. Accrued warranty costs are reduced as product warranty costs are incurred.

Table of Contents

L-3 COMMUNICATIONS HOLDINGS, INC.

AND L-3 COMMUNICATIONS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

The table below presents the changes in the Company's accrued product warranty costs.

	Year Ended December 31,	
	2011	2010
	(in millions)	
Accrued product warranty costs⁽¹⁾:		
Balance at January 1	\$ 92	\$ 99
Acquisitions during this period		1
Accruals for product warranties issued during the period	77	62
Changes to accruals for product warranties existing before January 1	2	4
Foreign currency translation adjustments	(1)	(1)
Settlements made during the period	(76)	(73)
Balance at December 31	\$ 94	\$ 92

⁽¹⁾ Warranty obligations incurred in connection with long-term production contracts that are accounted for under the POC cost-to-cost method are included within the contract estimates at completion and are excluded from the above amounts. The balances above include both the current and non-current amounts.

Deferred Debt Issue Costs: Costs to issue debt are capitalized and deferred when incurred, and subsequently amortized to interest expense over the term of the related debt using the effective interest rate method.

Stock-Based Compensation: The Company follows the fair value based method of accounting for stock-based employee compensation, which requires the Company to expense all stock-based employee compensation. Stock-based employee compensation is primarily a non-cash expense because the Company settles these obligations by issuing shares of L-3 Holdings common stock instead of settling such obligations with cash payments, except for certain performance unit awards that are payable in cash.

Compensation expense for all restricted stock unit and stock option awards is recognized on a straight-line basis over the requisite service period for the entire award based on the grant date fair value. All of the stock options granted to employees by the Company are non-qualified stock options under U.S. income tax regulations. Compensation expense for performance units payable in L-3 Holdings common stock is based on the fair value of the units at the grant date (measurement date), adjusted each reporting period for progress towards the target award, and recognized on a straight line basis over the requisite service period. Compensation expense for performance units that are payable in cash is based on a binomial valuation technique (the Monte Carlo valuation model) adjusted for historical performance each reporting period and recognized on a straight-line basis over the requisite service period.

Income Taxes: The Company provides for income taxes using the liability method. Deferred income tax assets and liabilities reflect tax carryforwards and the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting and income tax purposes, as determined under enacted tax laws and rates. The effect of changes in tax laws or rates is accounted for in the period of enactment. Valuation allowances for deferred tax assets are provided when it is more likely than not that the assets will not be realized, considering, when appropriate, tax planning strategies.

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

Income tax accounting standards prescribe: (1) a minimum recognition threshold that an income tax benefit arising from an uncertain income tax position taken, or expected to be taken, on an income tax return is required to meet before being recognized in the financial statements and (2) the measurement of the income tax benefits recognized from such positions. The Company's accounting policy is to classify uncertain income tax positions

F-11

Table of Contents

L-3 COMMUNICATIONS HOLDINGS, INC.

AND L-3 COMMUNICATIONS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

that are not expected to be resolved in one year as non-current income tax liabilities and to classify potential interest and penalties on uncertain income tax positions as elements of the provision for income taxes on its financial statements.

Cash and Cash Equivalents: Cash equivalents consist of highly liquid investments with an original maturity of three months or less at the time of purchase.

Contracts in Process: Contracts in process include unbilled contract receivables and inventoried contract costs for which sales and profits are recognized using a POC method of accounting. Unbilled Contract Receivables represent accumulated incurred costs and earned profits or losses on contracts in process that have been recorded as sales, primarily using the cost-to-cost method, which have not yet been billed to customers. Inventoried Contract Costs represent incurred costs on contracts in process that have not yet been recognized as costs and expenses because the related sales, which are primarily recorded using the units-of-delivery method, have not been recognized. Contract costs include direct costs and indirect costs, including overhead costs. As discussed in Note 5, the Company's inventoried contract costs for U.S. Government contracts, and contracts with prime contractors or subcontractors of the U.S. Government include allocated general and administrative costs (G&A), IRAD costs and B&P costs. Contracts in Process contain amounts relating to contracts and programs with long performance cycles, a portion of which may not be realized within one year. For contracts in a loss position, the unrecoverable costs expected to be incurred in future periods are recorded in Estimated Costs in Excess of Estimated Contract Value to Complete Contracts in Process in a Loss Position, which is a component of Other Current Liabilities. Under the terms of certain revenue arrangements (contracts) with the U.S. Government, the Company may receive progress payments as costs are incurred or milestone payments as work is performed. The U.S. Government has a security interest in the Unbilled Contract Receivables and Inventoried Contract Costs to which progress payments have been applied, and such progress payments are reflected as a reduction of the related amounts. Milestone payments that have been received in excess of contract costs incurred and related estimated profits are reported on the Company's balance sheet as Advance Payments and Billings in Excess of Costs Incurred.

The Company values its acquired contracts in process in connection with business acquisitions on the date of acquisition at contract value less the Company's estimated costs to complete the contract and a reasonable profit allowance on the Company's completion effort commensurate with the profit margin that the Company earns on similar contracts.

Inventories: Inventories, other than Inventoried Contract Costs, are stated at cost (first-in, first-out or average cost), but not in excess of realizable value. A provision for excess or inactive inventory is recorded based upon an analysis that considers current inventory levels, historical usage patterns and future sales expectations.

Property, Plant and Equipment: Property, plant and equipment are stated at cost, less accumulated depreciation. Depreciation is computed by applying principally the straight-line method to the estimated useful lives of the related assets. Useful lives range substantially from 10 to 40 years for buildings and improvements and 3 to 10 years for machinery, equipment, furniture and fixtures. Leasehold improvements are amortized over the shorter of the lease term or the estimated useful life of the improvements. When property or equipment is retired or otherwise disposed of, the net book value of the asset is removed from the Company's balance sheet and the net gain or loss is included in the determination of operating income. Property, plant and equipment acquired as part of a business acquisition is valued at fair value.

Goodwill: The carrying value of goodwill and indefinite lived identifiable intangible assets are not amortized, but are tested for impairment annually as of November 30 as well as whenever events or changes in

Table of Contents

L-3 COMMUNICATIONS HOLDINGS, INC.

AND L-3 COMMUNICATIONS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

circumstances indicate that the carrying amount of these assets may not be recoverable using a two-step process for each reporting unit. The first step in the process is to identify any potential impairment by comparing the carrying value of a reporting unit and its fair value. The Company determines the fair value of its reporting units using a discounted cash flows valuation approach. If a potential impairment is identified, the second step is to measure the impairment loss by comparing the implied fair value of goodwill with the carrying value of goodwill of the reporting unit. During the year ended December 31, 2011, the Company recorded a \$43 million goodwill impairment charge. See Note 7 for additional information on the goodwill impairment charge. There were no impairment charges that resulted from the annual impairment assessment or change in circumstances during 2010 or 2009.

Identifiable Intangible Assets: Identifiable intangible assets represent assets acquired as part of the Company's business acquisitions and include customer contractual relationships, technology, favorable leasehold interests and trade names. The initial measurement of these intangible assets is based on their fair values. Identifiable intangible assets are: (1) tested for impairment whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable and (2) amortized over their estimated useful lives as the economic benefits are consumed, ranging from 4 to 30 years. The Company reviews and updates its estimates of the duration of its customer contractual relationships. If such estimates indicate that the duration of the Company's customer contractual relationships has decreased compared to the estimates made as of the date the Company acquired these intangible assets, then the Company accelerates the amortization period for its customer contractual relationships over their remaining useful economic life.

Derivative Financial Instruments: The Company's derivative financial instruments include foreign currency forward contracts, which are entered into for risk management purposes, and an embedded derivative representing the contingent interest payment provision related to the CODES.

The Company's U.S. and foreign businesses enter into contracts with customers, subcontractors or vendors that are denominated in currencies other than their functional currencies. To protect the functional currency equivalent cash flows associated with certain of these contracts, the Company enters into foreign currency forward contracts. The Company's activities involving foreign currency forward contracts are designed to hedge the changes in the functional currency equivalent cash flows due to movements in foreign exchange rates compared to the functional currency. The foreign currencies hedged are primarily the Canadian dollar, the Euro, the British pound and the U.S. dollar. The Company manages exposure to counterparty non-performance credit risk by entering into foreign currency forward contracts only with major financial institutions that are expected to fully perform under the terms of such contracts. Foreign currency forward contracts are recorded in the Company's Consolidated Balance Sheets at fair value and are generally designated and accounted for as cash flow hedges in accordance with the accounting standards for derivative instruments and hedging activities. Gains and losses on designated foreign currency forward contracts that are highly effective in offsetting the corresponding change in the cash flows of the hedged transactions are recorded net of income taxes in accumulated other comprehensive income (loss) (accumulated OCI) and then recognized in income when the underlying hedged transaction affects income. Gains and losses on foreign currency forward contracts that do not meet hedge accounting criteria are recognized in income immediately.

The embedded derivative related to the issuance of the CODES is recorded at fair value with changes reflected in the Consolidated Statements of Operations.

Translation of Foreign Currency and Foreign Currency Transactions: Transactions in foreign currencies are translated into the local (functional) currency of the respective business at the approximate prevailing rate at the

Table of Contents

L-3 COMMUNICATIONS HOLDINGS, INC.

AND L-3 COMMUNICATIONS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

time of the transaction. Foreign exchange transaction gains and losses in the years ended December 31, 2011, 2010 and 2009 are not material to the Company's results of operations. The operations of the Company's foreign subsidiaries are translated from the local (functional) currencies into U.S. dollars using weighted average rates of exchange during each reporting period. The rates of exchange at each balance sheet date are used for translating the assets and liabilities of the Company's foreign subsidiaries. Gains or losses resulting from these translation adjustments are included in the accompanying Consolidated Balance Sheets as a component of accumulated other comprehensive income (loss).

Accounting Standards Issued and Not Yet Implemented: In June 2011, the Financial Accounting Standards Board (FASB) issued a revised accounting standard regarding the presentation of comprehensive income in financial statements that eliminates the option to present other comprehensive income (OCI) within the statement of equity. The revised standard requires net income, the components of other OCI, and total comprehensive income to be presented in either one continuous statement or two separate but consecutive statements. In December 2011, the FASB deferred the new requirement to present components of reclassifications from OCI to net income on the face of the income statement and to require continuation of current disclosure requirements of such reclassifications in the notes to the financial statements. The revised standard is effective for the Company for periods beginning after December 15, 2011 and requires retrospective application for all periods presented, with early adoption permitted. The adoption of this standard will not impact the Company's financial position, results of operations or cash flows.

In September 2011, the FASB issued a revised accounting standard allowing companies to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, as a result of the qualitative assessment, it is more likely than not that the fair value of a reporting unit is less than its carrying amount, a more detailed two-step goodwill impairment test would be performed to identify a potential goodwill impairment and measure the amount of loss to be recognized, if any. The standard will be effective for annual and interim goodwill impairment tests performed after December 31, 2011, with early adoption permitted. The adoption of this standard is not expected to have a material impact on the Company's financial position, results of operations or cash flows.

3. New Accounting Standards Implemented

In October 2009, the FASB issued a revised accounting standard for revenue arrangements with multiple deliverables. The revision: (1) removed the objective-and-reliable-evidence-of-fair-value criterion from the separation criteria used to determine whether an arrangement involving multiple deliverables contains more than one unit of accounting, (2) provided a hierarchy that entities must use to estimate the selling price of each deliverable, (3) eliminated the use of the residual method for allocation, and (4) expanded the ongoing disclosure requirements. The revised accounting standard was effective for the Company beginning on January 1, 2011, and did not have a material impact on the Company's financial position, results of operations or cash flows.

In October 2009, the FASB issued a revised accounting standard for certain revenue arrangements that include software elements. Under the revised standard, tangible products that contain both software and non-software components that work together to deliver a product's essential functionality are excluded from the scope of pre-existing software revenue recognition standards. In addition, hardware components of a tangible product containing software components are excluded from the scope of software revenue recognition standards. The revised accounting standard was effective for the Company beginning on January 1, 2011, and did not have a material impact on the Company's financial position, results of operations, or cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

4. Acquisitions and Dispositions

All of the business acquisitions are included in the Company's results of operations from their respective dates of acquisition.

2011 Business Acquisitions

During the year ended December 31, 2011, in separate transactions, the Company acquired two businesses for an aggregate purchase price of \$18 million, which were financed with cash on hand. Based on preliminary purchase price allocations, the aggregate goodwill recognized for these businesses was \$19 million, of which \$14 million is expected to be deductible for income tax purposes. The goodwill was assigned to the Electronic Systems reportable segment. A description of each business acquisition made by the Company during the year ended December 31, 2011 is listed below:

On July 1, 2011, the Company acquired the communications and engineering business of ComHouse Wireless L.P. (ComHouse). The acquired business provides L-3 with cellular wave form modulation technology that can be used to counter improvised explosive devices.

On October 28, 2011, the Company acquired the cargo radiation screening business of Detector Networks International LLC (DNI). The purchase price for DNI is subject to additional, contingent consideration not to exceed \$10 million and is based on DNI's post-acquisition financial performance through December 31, 2014. The Company recorded a \$7 million liability on the acquisition date for the fair value of the contingent consideration, which was unchanged at December 31, 2011.

The final purchase price for ComHouse is subject to adjustment based on the closing date actual net assets, and the final purchase price for DNI is subject to adjustment based on: (i) the closing date net assets and (ii) contingent consideration, which is based on post-acquisition financial performance as discussed above. The final purchase price allocations for these business acquisitions are expected to be completed by the second quarter of 2012 and will be based on the final purchase price, except to the extent that the amount of contingent consideration paid for DNI is different than the acquisition date fair value of such consideration, and final appraisals and other analyses of fair values for the acquired assets and assumed liabilities. The Company does not expect that the difference between the preliminary and final purchase price allocations for these acquisitions will have a material impact on its results of operations or financial position.

2010 Business Acquisitions

During the year ended December 31, 2010, in separate transactions, the Company acquired four businesses for an aggregate purchase price of \$755 million, which were financed with cash on hand. Based on final purchase price allocations, the aggregate goodwill recognized for these businesses was \$533 million, of which \$474 million is expected to be deductible for income tax purposes. The goodwill was assigned to the Electronic Systems reportable segment. A description of each business acquisition made by the Company during the year ended December 31, 2010 is listed below:

On December 22, 2010, the Company acquired all of the outstanding stock of FUNA International GmbH (FUNA), a leading supplier of control and safety systems, communication systems and entertainment solutions for cruise ships, ferries, and mega yachts;

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

On September 17, 2010, the Company acquired 3Di Technologies (3Di), a provider of highly specialized end-to-end secure communications utilized by forward-deployed U.S. special operations and in-theater personnel. The purchase price for 3Di is subject to additional, contingent consideration not to exceed \$11 million and is based upon 3Di's post-acquisition financial performance through December 31, 2012. The Company recorded a \$9 million liability on the acquisition date for the fair value of the contingent consideration, which was unchanged at December 31, 2011;

On August 4, 2010, the Company acquired all of the outstanding stock of Airborne Technologies, Inc. (ATI), a provider of highly specialized aeronautical engineering expertise, manufacturing and operations support for unmanned aircraft systems; and

On April 14, 2010, the Company acquired all of the outstanding stock of Insight Technology Incorporated (Insight), a manufacturer of mission critical night vision and electro-optical equipment.

As of December 31, 2011, the purchase prices for Insight, ATI and FUNA were finalized and the purchase price allocations for Insight, ATI, 3Di and FUNA were completed with no significant changes from the preliminary amounts.

2009 Business Acquisition

On January 30, 2009, the Company acquired all of the outstanding stock of Chesapeake Sciences Corporation (CSC) for a purchase price of \$91 million in cash, which includes a \$7 million net working capital adjustment, of which \$6 million was for cash acquired, and a \$4 million adjustment related to certain tax benefits acquired. The acquisition was financed using cash on hand. CSC is a developer and manufacturer of anti-submarine warfare systems for use onboard submarines and surface ship combatants. Based on the final purchase price allocation, the amount of goodwill recognized was \$56 million, which was assigned to the Electronic Systems reportable segment, and is not expected to be deductible for income tax purposes.

Unaudited Pro Forma Statements of Operations Data

The assets, liabilities and results of operations of the businesses acquired in 2011 were not material to the Company's consolidated financial position or results of operations, and therefore pro forma financial information for such business acquisitions is not presented.

The following unaudited pro forma Statements of Operations data presents the combined results of the Company and its business acquisitions completed during the years ended December 31, 2010 and 2009, assuming that the business acquisitions completed during 2010 and 2009 had occurred on January 1, 2009.

	Year Ended December 31,	
	2010	2009
	(in millions, except per share data)	
Pro forma net sales	\$ 15,854	\$ 16,047
Pro forma net income attributable to L-3	\$ 967	\$ 931
Pro forma diluted earnings per share	\$ 8.36	\$ 7.87

The unaudited pro forma results disclosed in the table above are based on various assumptions and are not necessarily indicative of the results of operations that would have occurred had the Company completed these acquisitions on the dates indicated above.

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED*****Business Acquisitions Completed After December 31, 2011***

On February 6, 2012, the Company acquired the Kollmorgen Electro-Optical (KEO) business of Danaher Corporation for a purchase price of \$210 million, which was financed with cash on hand. KEO develops and manufactures specialized equipment, including submarine photonics systems and periscopes, ship fire control systems, visual landing aids, ground electro-optical and sensor-cueing systems for the U.S. military and allied foreign governments.

2011 Business Disposition

On February 22, 2011, the Company divested Microdyne Corporation (Microdyne), which was within the Electronic Systems segment. The divestiture resulted in a pre-tax loss of \$2 million. Microdyne's annual revenues (approximately \$8 million), operating results and net assets were not material for any period presented and, therefore, this divestiture is not reported as a discontinued operation. The net proceeds from the sale are included in investing activities on the Consolidated Statement of Cash Flows.

2010 Business Disposition

On December 17, 2010, the Company divested InfraredVision Technology Corporation (ITC), which was within the Electronic Systems segment. The divestiture resulted in a pre-tax loss of \$1 million. The annual revenues of approximately \$4 million, operating results and net assets of ITC were not material for any period presented and, therefore, the ITC divestiture is not reported as a discontinued operation. The net proceeds from the sale are included in investing activities on the Consolidated Statement of Cash Flows.

5. Contracts in Process

The components of contracts in process are presented in the table below. The unbilled contract receivables, inventoried contract costs and unliquidated progress payments are principally related to contracts with the U.S. Government and prime contractors or subcontractors of the U.S. Government. Identifiable intangible assets related to contracts in process assumed by the Company in its business acquisitions and the underlying contractual customer relationships are separately recognized at the date of acquisition, and are discussed and presented in Note 7.

	December 31,	
	2011	2010
	(in millions)	
Unbilled contract receivables, gross	\$ 2,926	\$ 2,769
Unliquidated progress payments	(1,146)	(1,007)
Unbilled contract receivables, net	1,780	1,762
Inventoried contract costs, gross	928	882
Unliquidated progress payments	(79)	(96)
Inventoried contract costs, net	849	786
Total contracts in process	\$ 2,629	\$ 2,548

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

Unbilled Contract Receivables. Unbilled contract receivables represent accumulated incurred costs and earned profits on contracts (revenue arrangements), which have been recorded as sales, but have not yet been billed to customers. Unbilled contract receivables arise from the cost-to-cost method of revenue recognition that is used to record sales on certain fixed-price contracts. Unbilled contract receivables from fixed-price type contracts are converted to billed receivables when amounts are invoiced to customers according to contractual billing terms, which generally occur when deliveries or other performance milestones are completed. Unbilled contract receivables also arise from cost-plus type contracts and time-and-material type contracts, for revenue amounts that have not been billed by the end of the accounting period due to the timing of preparation of invoices to customers. The Company believes that approximately 92% of the unbilled contract receivables at December 31, 2011 will be billed and collected within one year.

Unliquidated Progress Payments. Unliquidated progress payments arise from fixed-price type contracts with the U.S. Government that contain progress payment clauses, and represent progress payments on invoices that have been collected in cash, but have not yet been liquidated. Progress payment invoices are billed to the customer as contract costs are incurred at an amount generally equal to 75% to 80% of incurred costs. Unliquidated progress payments are liquidated as deliveries or other contract performance milestones are completed, at an amount equal to a percentage of the contract sales price for the items delivered or work performed, based on a contractual liquidation rate. Therefore, unliquidated progress payments are a contra asset account, and are classified against unbilled contract receivables if revenue for the underlying contract is recorded using the cost-to-cost method, and against inventoried contract costs if revenue is recorded using the units-of-delivery method.

Inventoried Contract Costs. In accordance with contract accounting standards, the Company's U.S. Government contractor businesses account for the portion of their G&A, IRAD and B&P costs that are allowable and reimbursable indirect contract costs under U.S. Government procurement regulations on their U.S. Government contracts (revenue arrangements) as inventoried contract costs. G&A, IRAD and B&P costs are allocated to contracts for which the U.S. Government is the end customer and are charged to costs of sales when sales on the related contracts are recognized. The Company's U.S. Government contractor businesses record the unallowable portion of their G&A, IRAD and B&P costs to expense as incurred, and do not include them in inventoried contract costs.

The table below presents a summary of G&A, IRAD and B&P costs included in inventoried contract costs and the changes to them, including amounts charged to cost of sales by the Company's U.S. Government contractor businesses for the periods presented.

	2011	Year Ended December 31, 2010 (in millions)	2009
Amounts included in inventoried contract costs at beginning of the year	\$ 97	\$ 77	\$ 74
Add: IRAD and B&P costs incurred	348	344	324
Other G&A costs incurred	963	987	990
Total contract costs incurred	1,311	1,331	1,314
Less: Amounts charged to cost of sales	(1,317)	(1,311)	(1,311)
Amounts included in inventoried contract costs at end of the year	\$ 91	\$ 97	\$ 77

Finished goods	53	59
Total	\$ 317	\$ 303

7. Goodwill and Identifiable Intangible Assets

Goodwill. In accordance with the accounting standards for business combinations, the Company records the assets acquired and liabilities assumed based on their estimated fair values at the date of acquisition (commonly referred to as the purchase price allocation). As part of the purchase price allocations for the Company's business acquisitions, identifiable intangible assets are recognized as assets apart from goodwill if they arise from contractual or other legal rights, or if they are capable of being separated or divided from the acquired business and sold, transferred, licensed, rented or exchanged. However, the Company does not recognize any intangible assets apart from goodwill for the assembled workforces of its business acquisitions. At December 31, 2011, the Company had approximately 61,000 employees, and the substantial majority of the sales generated by the Company's businesses are from the productive labor efforts of its employees, as compared to selling manufactured products or right-to-use technology.

Generally, the largest intangible assets from the businesses that the Company acquires are the assembled workforces, which includes the human capital of the management, administrative, marketing and business development, scientific, engineering and technical employees of the acquired businesses. The success of the Company's businesses, including their ability to retain existing business (revenue arrangements) and to

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

successfully compete for and win new business (revenue arrangements), is primarily dependent on the management, marketing and business development, contracting, engineering and technical skills and knowledge of its employees, rather than on productive capital (plant and equipment, and technology and intellectual property). Additionally, for a significant portion of its businesses, the Company's ability to attract and retain employees who have U.S. Government security clearances, particularly those of top-secret and above, is critical

F-19

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

to its success, and is often a prerequisite for retaining existing revenue arrangements and pursuing new ones. Generally, patents, trademarks and licenses are not material for the Company's acquired businesses. Furthermore, the Company's U.S. Government contracts (revenue arrangements) generally permit other companies to use the Company's patents in most domestic work performed by such other companies for the U.S. Government. Therefore, because intangible assets for assembled workforces are part of goodwill in accordance with the accounting standards for business combinations, the substantial majority of the intangible assets for the Company's business acquisitions is recognized as goodwill. Additionally, the value assigned to goodwill for the Company's business acquisitions also includes the value that the Company expects to realize from cost reduction measures that it implements for its acquired businesses.

The table below presents the changes in goodwill allocated to the Company's reporting units in each reportable segment.

	C³ISR	Government Services	AM&M (in millions)	Electronic Systems	Consolidated Total
Balance at December 31, 2009	\$ 870	\$ 2,320	\$ 1,158	\$ 3,842	\$ 8,190
Business acquisitions				530	530

Segment reclassification		(34)		34	
Balance at December 31, 2010	\$ 868	\$ 2,285	\$ 1,172	\$ 4,405	\$ 8,730
Business acquisitions	3		2	22	27
Impairment loss				(43)	(43)
Foreign currency translation ⁽¹⁾			(5)	(12)	(17)
Segment reclassification ⁽²⁾	(5)	(94)		99	
Balance at December 31, 2011	\$ 866	\$ 2,191	\$ 1,169	\$ 4,471	\$ 8,697

(1) The changes in goodwill from foreign currency translation adjustments are due to fluctuations in the U.S. dollar and foreign currency exchange rates. The decrease in goodwill presented in the AM&M and Electronic Systems segments during 2011 was primarily due to the strengthening of the U.S. dollar against the Canadian dollar and the Euro. The decreases in goodwill presented in the C³ISR and Government Services reportable segments during 2010 were due to the strengthening of the U.S. dollar against the British pound. The increases in goodwill presented in the AM&M and Electronic Systems reportable segments during 2010 were primarily due to the weakening of the U.S. dollar against the Canadian dollar.

(2) As a result of re-alignments of business units in the Company's management and organizational structure as discussed in Note 2, goodwill was reclassified on a relative fair value basis among the C³ISR, Government Services and Electronic Systems segments during the quarter ended April 1, 2011.

For the year ended December 31, 2011, the increase of \$27 million related to business acquisitions was comprised of: (1) \$19 million for business acquisitions completed during the year ended December 31, 2011, (2) \$3 million for earnouts related to certain business acquisitions

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

completed prior to January 1, 2011 and (3) \$5 million primarily for adjustments related to final purchase price allocations for certain business acquisitions completed prior to January 1, 2011.

For the year ended December 31, 2010, the increase of \$530 million related to business acquisitions completed during the year ended December 31, 2010. The decrease of \$2 million related to the sale of ITC completed on December 17, 2010.

F-20

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

As discussed in Note 2, the carrying value of goodwill is tested for impairment annually as of November 30 as well as whenever events or changes in circumstances indicate that the carrying amount may not be recoverable using a two step process for each reporting unit. The first step of the November 30, 2011 annual impairment test indicated that a portion of the \$105 million of goodwill for the Marine Services business may not be recoverable. The Company performed the second step of the impairment test in accordance with the accounting standards for goodwill to measure the impairment loss and determined that the implied goodwill was \$43 million lower than the carrying amount. Accordingly, the Company recorded a non-cash impairment charge of \$43 million (\$42 million after income taxes), or \$0.40 per diluted share, for the impairment of goodwill. The goodwill impairment charge was due to a decline in the estimated fair value of the Marine Services business, which is part of the Electronics Systems segment, as a result of a decline in its projected future cash flows. The decline in projected future cash flows was due to: (1) lower DoD budgets which have caused shipyards to retain work that has been typically outsourced to Marine Services and (2) lower margins on existing and expected future contracts due to increased competition. The Company's accumulated goodwill impairment losses at December 31, 2011 and 2010 were \$58 million and \$15 million, respectively, all of which was recorded in the Electronic Systems segment.

Identifiable Intangible Assets. The most significant identifiable intangible asset that is separately recognized for the Company's business acquisitions is customer contractual relationships. All of the Company's customer relationships are established through written customer contracts (revenue arrangements). The fair value for customer contractual relationships is determined, as of the date of acquisition, based on estimates and judgments regarding expectations for the estimated future after-tax earnings and cash flows (including cash flows for working capital) arising from the follow-on sales on contract (revenue arrangement) renewals expected from the customer contractual relationships over their estimated lives, including the probability of expected future contract renewals and sales, less a contributory assets charge, all of which is discounted to present value.

Information on the Company's identifiable intangible assets that are subject to amortization is presented in the table below.

	Weighted Average Amortization Period (in years)	December 31, 2011			December 31, 2010

Less: Current portion of long-term debt		(11)
Carrying amount of long-term debt, excluding current portion	\$ 4,125	\$ 4,126

(1) The Company's three-year revolving credit facility, which was amended and restated on February 3, 2012, allowed for total aggregate borrowings of up to \$1 billion. Available borrowings under the revolving credit facility were \$997 million after reductions for outstanding letters of credit of \$3 million at December 31, 2011 and \$983 million after reductions for outstanding letters of credit of \$17 million at December 31, 2010.

L-3 Communications Amended and Restated Revolving Credit Facility

On February 3, 2012, L-3 Communications amended and restated its \$1 billion Revolving Credit Facility, which extended the expiration date to February 3, 2017. The terms of the Amended and Restated Revolving Credit Facility are substantially consistent with the terms of this facility prior to its amendment and restatement except that: (1) provisions that previously limited the ability of L-3 Communications to pay dividends, repurchase L-3 Holdings' common stock and make other distributions with respect to any capital stock were eliminated, (2) a provision that previously limited the ability of L-3 Communications to make investments in

F-23

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

L-3 Holdings was made less restrictive and (3) the cost of borrowings, loan commitment fees and letter of credit fees were reduced. In addition, the Amended and Restated Revolving Credit Facility provides for uncommitted incremental revolving facilities and additional term loan facilities in an aggregate principal amount of up to \$500 million. Borrowings under the Amended and Restated Revolving Credit Facility bear interest, at L-3 Communications' option, at either (i) the base rate equal to the highest of (a) 0.50% per annum above the latest federal funds rate, (b) the Bank of America prime rate (as defined in the Amended and Restated Revolving Credit Facility), and (c) 1.00% per annum above a Eurodollar Rate (as defined in the Amended and Restated Revolving Credit Facility), plus a spread ranging from 0.25% to 1.00% per annum, or (ii) a Eurodollar Rate (as defined in the Amended and Restated Revolving Credit Facility) plus a spread ranging from 1.25% to 2.00% per annum. L-3 Communications pays: (1) commitment fees calculated on the daily amounts of the available unused commitments at a rate ranging from 0.15% to 0.325% per annum, (2) letter of credit fees ranging from 0.675% to 1.20% per annum for commercial and performance letters of credit and (3) letter of credit fees ranging from 1.25% to 2.00% for financial letters of credit. The interest rate spread and the commitment fee rate, in all cases, depends on L-3 Communications' debt rating at the time of determination. The debt rating is based on the credit ratings as determined by Standard & Poor's Rating Services, Moody's Investors Service, Inc. and Fitch Ratings of L-3 Communications' non-credit enhanced senior, unsecured long-term debt.

L-3 Communications Senior Notes

The Senior Notes, which are included as components of long-term debt in the table above, are unsecured senior obligations of L-3 Communications. The terms of each outstanding Senior Note are presented in the table below.

Note	Date of Issuance	Amount Issued	Discount ⁽¹⁾ (in millions)	Net Cash Proceeds	Effective Interest Rate	Redemption at Treasury Rate ⁺⁽²⁾⁽³⁾
3.95% Senior Notes due November 15, 2016	November 22, 2011	\$ 500	\$ 4	\$ 491	4.11%	50 bps
5.20% Senior Notes due October 15, 2019	October 2, 2009	\$ 1,000	\$ 4	\$ 987	5.25%	30 bps
4.75% Senior Notes due July 15, 2020	May 21, 2010	\$ 800	\$ 3	\$ 790	4.79%	25 bps
4.95% Senior Notes due February 15, 2021	February 7, 2011	\$ 650	\$ 4	\$ 639	5.02%	25 bps

(1) Discounts are recorded as a reduction to the principal amount of the notes and are amortized as interest expense over the term of the notes.

(2) The Senior Notes may be redeemed at any time prior to their maturity at the option of L-3 Communications, in whole or in part, at a redemption price equal to the greater of (1) 100% of the principal amount, or (2) the present value of the remaining principal and interest payments discounted to the date of redemption, on a semi-annual basis, at the Treasury Rate (as defined in the Senior Indentures), plus the spread indicated in the table above.

(3) Upon the occurrence of a change in control (as defined in the Senior Indentures), each holder of the notes will have the right to require L-3 Communications to repurchase all or any part of such holder's notes at an offer price in cash equal to 101% of the aggregate principal amount plus accrued and unpaid interest and special interest (as defined in the Senior Indentures), if any, to the date of purchase.

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

The Company used the net cash proceeds from the Senior Note issuances, together with cash on hand, to repay its outstanding \$650 million term loan on October 7, 2009 and redeem certain of its outstanding Senior Subordinated Notes. Information on the Senior Subordinated Notes redeemed by the Company during the years ended December 31, 2011, 2010 and 2009 is presented in the table below.

Note	Redemption Date	Principal Amount Redeemed	Debt Retirement Charge	Redemption Price % of Principal
(in millions)				
6 ³ / ₈ % Senior Subordinated Notes due October 15, 2015 ⁽¹⁾	December 22, 2011	\$ 500	\$ 17	102.125%
5 ⁷ / ₈ % Senior Subordinated Notes due January 15, 2015	March 9, 2011	\$ 650	\$ 18	101.958%
6 ¹ / ₈ % Senior Subordinated Notes due January 15, 2014	June 21, 2010	\$ 400	\$ 13	102.042%
6 ¹ / ₈ % Senior Subordinated Notes due July 15, 2013	July 15, 2010	\$ 400	\$ 5	101.021%
7 ⁵ / ₈ % Senior Subordinated Notes due June 15, 2012	November 2, 2009	\$ 750	\$ 10	101.271%

⁽¹⁾ The \$500 million aggregate principal amount of remaining 6³/₈% Senior Subordinated Notes due October 15, 2015 are subject to redemption at any time, at the option of L-3 Communications, in whole or in part. Redemption prices include a premium on the principal amount (plus accrued and unpaid interest). The current redemption price is 102.125%, and will decline annually on October 15th to 100% of the principal amount by 2013.

L-3 Holdings

In 2005, L-3 Holdings sold \$700 million of 3% Convertible Contingent Debt Securities (CODES) due August 1, 2035. Interest is payable semi-annually on February 1 and August 1 of each year. On February 2, 2011, L-3 Holdings repurchased approximately \$11 million of the CODES as a result of the exercise by the holders of their contractual right to require L-3 Holdings to repurchase their CODES. Holders of the remaining CODES may require L-3 Holdings to repurchase the CODES, in whole or in part, on February 1, 2016, February 1, 2021, February 1, 2026 and February 1, 2031 at a cash repurchase price equal to 100% of the principal amount of the CODES (plus accrued and unpaid interest, including contingent interest and additional interest, if any). In addition, holders of the CODES may require L-3 Holdings to repurchase the CODES at a repurchase price equal to 100% of the principal amount of the CODES (plus accrued and unpaid interest, including contingent interest and additional interest, if any) if a fundamental change occurs prior to maturity of the CODES. At December 31, 2010, the \$11 million of repurchased CODES were classified as a current liability, and at December 31, 2011 and 2010, the remaining \$689 million principal amount of CODES were classified as long-term debt.

In accordance with the provisions of the accounting standard for convertible debt, the Company separately accounts for the liability and equity (conversion option) components of the CODES in a manner that reflects the Company's non-convertible debt borrowing rate. Through February 1, 2011, the effective interest rate of the CODES was 6.33% and interest expense related to both the contractual coupon interest and amortization of the discount on the liability components. The Company amortized the discount on the liability component of the CODES through February 1, 2011 which was the first date that the holders of the CODES had a contractual right to require L-3 Holdings to repurchase the CODES. Interest expense for the CODES after February 1, 2011 relates only to the contractual coupon interest. Interest expense recognized was \$23 million and \$43 million for the years ended December 31, 2011 and December 31, 2010, respectively.

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

The following table provides additional information about the Company's CODES:

	December 31, 2011	December 31, 2010
	(in millions)	
Carrying amount of the equity component (conversion feature)	\$ 64	\$ 64
Unamortized discount of liability component amortized through February 1, 2011	\$	\$ 2
Net carrying amount of liability component	\$ 689	\$ 698

The CODES are convertible into cash and shares of L-3 Holdings' common stock based on a current conversion rate of 10.3644 shares of L-3 Holdings common stock per one thousand dollars in principal amount of the CODES (equivalent to a conversion price of \$96.48 per share) only under the following circumstances: (1) prior to August 1, 2033, on any date during any fiscal quarter (and only during such fiscal quarter) beginning after September 30, 2005, if the closing sales price of the common stock of L-3 Holdings is more than 120% of the then current conversion price (currently \$115.78) for at least 20 trading days in the 30 consecutive trading-day period ending on the last trading day of the previous fiscal quarter; (2) on or after August 1, 2033, at all times on or after any date on which the closing sale price of the common stock of L-3 Holdings is more than 120% of the then current conversion price (currently \$115.78); (3) if we distribute to all holders of our common stock, rights or warrants (other than pursuant to a rights plan) entitling them to purchase, for a period of 45 calendar days or less, shares of L-3 Holdings' common stock at a price less than the average closing sales price for the ten trading days preceding the declaration date for such distribution; (4) if we distribute to all holders of our common stock, cash and other assets, debt securities or rights to purchase L-3 Holdings securities (other than pursuant to a rights plan), which distribution has a per share value exceeding 10% of the closing sale price of L-3 Holdings common stock on the trading day preceding the declaration date for such distribution; (5) during the five consecutive business-day period following any five consecutive trading-day period in which the average trading price of the CODES was less than 98% of the average of the closing sale price of L-3 Holdings common stock during such five trading day period multiplied by the then current conversion rate; (6) during a specified period if the CODES have been called for redemption; or (7) during a specified period if a fundamental change (as such term is defined in the indenture governing the CODES) occurs. The conversion rate is subject to adjustments in certain circumstances set forth in the indenture governing the CODES. For the year ended December 31, 2011, the conversion feature of the CODES had no impact on diluted earnings per share (EPS) (see Note 16).

Upon conversion of the CODES, the settlement amount will be computed as follows: (1) if L-3 Holdings elects to satisfy the entire conversion obligation in cash, L-3 Holdings will deliver to the holder for each one thousand dollars in principal amount of the CODES converted cash in an amount equal to the conversion value; or (2) if L-3 Holdings elects to satisfy the conversion obligation in a combination of cash and common stock, L-3 Holdings will deliver to the holder for each one thousand dollars in principal amount of the CODES converted (x) cash in an amount equal to (i) the fixed dollar amount per one thousand dollars in principal amount of the CODES of the conversion obligation to be satisfied in cash specified in the notice regarding L-3 Holdings' chosen method of settlement or, if lower, the conversion value, or (ii) the percentage of the conversion obligation to be satisfied in cash specified in the notice regarding L-3 Holdings' chosen method of settlement multiplied by the conversion value, as the case may be (the cash amount); provided that in either case the cash amount shall in no event be less than the lesser of (a) the principal amount of the CODES converted and (b) the conversion value; and (y) a number of shares of common stock of L-3 Holdings for each of the 20 trading days in the conversion period equal to 1/20th of (i) the conversion rate then in effect minus (ii) the quotient of the cash amount divided by the closing price of common stock of L-3 Holdings for that day (plus cash in lieu of fractional shares, if applicable).

Table of Contents

L-3 COMMUNICATIONS HOLDINGS, INC.

AND L-3 COMMUNICATIONS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

The CODES are senior unsecured obligations of L-3 Holdings and rank equal in right of payment with all existing and future senior indebtedness and senior to all future senior subordinated indebtedness of L-3 Holdings. The CODES are jointly and severally guaranteed on a senior subordinated basis by the existing and future domestic subsidiaries of L-3 Holdings that guarantee any other indebtedness of L-3 Holdings or any of its domestic subsidiaries.

The CODES are subject to redemption at the option of L-3 Holdings, in whole or in part, at a cash redemption price (plus accrued and unpaid interest, including contingent interest and additional interest, if any) equal to 100% of the principal amount of the CODES.

Holders of the CODES have a right to receive contingent interest payments, which will be paid on the CODES during any six-month period commencing February 1, 2011 in which the trading price of the CODES for each of the five trading days ending on the second trading day preceding the first day of the applicable six-month interest period equals or exceeds 120% of the principal amount of the CODES. The contingent interest payable per one thousand dollars in principal amount of CODES will equal 0.25% of the average trading price of one thousand dollars in principal amount of CODES during the five trading days ending on the second trading day preceding the first day of the applicable six-month interest period. The contingent interest payment provision has been accounted for as an embedded derivative. The amount assigned to the embedded derivative is adjusted periodically through other income (expense) for changes in its fair value, if any. The change in the fair value of the embedded derivative related to the CODES was \$0 for the years ended December 31, 2011, 2010 and 2009.

Guarantees

L-3 Communications

The borrowings under the Amended and Restated Revolving Credit Facility are fully and unconditionally guaranteed by L-3 Holdings and by substantially all of the material wholly-owned domestic subsidiaries of L-3 Communications on an unsecured senior basis. The payment of principal and premium, if any, and interest on the Senior Notes are fully and unconditionally guaranteed, on an unsecured senior basis, jointly and severally, by L-3 Communications' material wholly-owned domestic subsidiaries that guarantee any of its other indebtedness. The payment of principal and premium, if any, and interest on the 6³/₈% Senior Subordinated Notes due 2015 are fully and unconditionally guaranteed, on an unsecured senior subordinated basis, jointly and severally, by L-3 Communications' wholly-owned domestic subsidiaries that guarantee any of its other liabilities. See Note 25 for a description of the conditions under which the guarantees of the Senior Notes and Senior Subordinated Notes will be released.

L-3 Holdings

The payment of principal and premium, if any, and interest on the CODES are fully and unconditionally guaranteed, on an unsecured senior subordinated basis, jointly and severally, by L-3 Communications and its wholly-owned domestic subsidiaries that guarantee any of its other liabilities.

Subordination

The guarantees of the Amended and Restated Revolving Credit Facility and the Senior Notes rank senior to the guarantees of the Senior Subordinated Notes and the CODES and rank pari passu with each other. The guarantees of the Senior Subordinated Notes and CODES rank pari passu with each other and are junior to the guarantees of the Amended and Restated Revolving Credit Facility and Senior Notes.

L-3 COMMUNICATIONS HOLDINGS, INC.

AND L-3 COMMUNICATIONS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

Covenants

Financial and other restrictive covenants. The Revolving Credit Facility and Senior Subordinated Notes indenture contain financial and other restrictive covenants that limit, among other things, the ability of the subsidiaries of L-3 Communications to borrow additional funds, and the ability of L-3 Communications and its subsidiaries to incur liens, make investments, merge or consolidate, dispose of assets, pay dividends or repurchase its common stock. The Company's Amended and Restated Revolving Credit Facility contains covenants that require that (1) the Company's consolidated leverage ratio be less than or equal to 4.0 to 1.0; (2) the Company's consolidated interest coverage ratio be greater than or equal to 3.0 to 1.0; and (3) the Company's consolidated senior leverage ratio be less than or equal to 3.5 to 1.0, in each case, as of the end of any fiscal quarter. Calculations of the financial covenants are to exclude, among other things, certain items such as impairment losses on goodwill or other intangible assets, non-cash gains or losses from discontinued operations, gains or losses in connection with asset dispositions, and gains or losses with respect to judgments or settlements in connection with litigation matters. As of December 31, 2011, the Company was in compliance with its financial and other restrictive covenants.

The Senior Indentures contain covenants customary for investment grade notes, including covenants that restrict the ability of L-3 Communications and its wholly-owned domestic subsidiaries to create, incur, assume or permit to exist any lien, except permitted liens (as defined in the Senior Indentures) and restrict the ability of L-3 Communications and its subsidiaries to enter into certain sale and leaseback transactions (as defined in the Senior Indentures).

The Senior Subordinated Notes indenture contains covenants that restrict the ability of L-3 Communications to incur indebtedness and issue capital stock that matures or is redeemable 91 days or less after the maturity date of such series of notes, and the ability of its restricted subsidiaries to incur indebtedness or issue preferred stock, unless the Company's fixed charge coverage ratio would have been at least 2.0 to 1.0 on a pro forma basis. The covenants are subject to several material exceptions, including an exception for indebtedness under the Company's Revolving Credit Facility up to a specified amount.

Restricted Payments. L-3 Holdings relies on dividends paid by L-3 Communications to generate the funds necessary to pay dividends on and repurchase its common stock. The Senior Subordinated Notes indenture contains provisions that limit the ability of L-3 Communications to pay dividends to L-3 Holdings and make investments in L-3 Holdings, subject to exceptions. Subject to certain limitations, the indenture permits L-3 Communications to make such restricted payments so long as it would be able to incur at least one dollar of additional indebtedness under the fixed charge coverage ratio test described above and meet other conditions.

Cross default provisions. The Amended and Restated Revolving Credit Facility contains cross default provisions that are triggered when a payment default occurs or certain other defaults occur that would allow the acceleration of indebtedness, swap contracts or guarantees of L-3 Holdings, L-3 Communications or its subsidiaries, so long as the aggregate amount of such indebtedness, swap contracts or guarantees is at least \$50 million and such defaults (other than payment defaults and defaults that have resulted in acceleration) have not been cured within 10 days. The Senior Subordinated Notes indentures contain cross acceleration provisions that are triggered when holders of the indebtedness of L-3 Holdings, L-3 Communications or their restricted subsidiaries (or the payment of which is guaranteed by such entities) accelerate at least \$10 million in aggregate principal amount of those obligations. The Senior Notes indenture contains a cross acceleration provision that is triggered when a default or acceleration occurs under any indenture or instrument of L-3 Communications or its subsidiaries or the payment of which is guaranteed by L-3 Communications or its subsidiaries in an aggregate amount of at least \$100 million.

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED****11. Equity**

In August 2011, L-3 Holdings completed its previously announced \$1 billion share repurchase program, which was approved by its Board of Directors on July 14, 2010. On April 26, 2011, L-3 Holdings Board of Directors approved a new share repurchase program that authorizes L-3 Holdings to repurchase up to an additional \$1.5 billion of its outstanding shares of common stock through April 30, 2013. Repurchases of L-3 Holdings common stock under the share repurchase programs are made at management's discretion in accordance with applicable U.S. federal securities laws in the open market or otherwise. The timing and actual number of shares to be repurchased in the future will depend on a variety of factors, including the Company's financial position, earnings, legal requirements, other investment opportunities (including acquisitions), market conditions and other factors. All share repurchases of L-3 Holdings common stock have been recorded as treasury shares. L-3 Holdings repurchased 13.3 million shares of its common stock at an average price of \$72.17 per share for an aggregate amount of approximately \$958 million from January 1, 2011 through December 31, 2011. At December 31, 2011, the remaining dollar value under the share repurchase program was \$1,134 million.

From January 1, 2012 through February 29, 2012, L-3 Holdings repurchased 934,086 shares of its common stock at an average price of \$69.68 per share for an aggregate amount of approximately \$65 million.

12. Fair Value Measurements

The Company applies the accounting standards for fair value measurements to all of the Company's assets and liabilities that are measured and recorded at fair value. Fair value is defined as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. The standards establish a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs.

The following table presents the fair value hierarchy level for each of the Company's assets and liabilities that are measured and recorded at fair value on a recurring basis.

Description	Level 1 ⁽¹⁾	2011 Level 2 ⁽²⁾	December 31,		2010 Level 2 ⁽²⁾	Level 3 ⁽³⁾
			Level 3 ⁽³⁾	Level 1 ⁽¹⁾		
(in millions)						
Assets						
Cash equivalents	\$ 725	\$	\$	\$ 347	\$	\$
Derivatives (foreign currency forward contracts)		10			22	
Total Assets	\$ 725	\$ 10	\$	\$ 347	\$ 22	\$
Liabilities						
Derivatives (foreign currency forward contracts)	\$	\$ 9	\$	\$	\$ 5	\$

⁽¹⁾ Level 1 is based on quoted market prices available in active markets for identical assets or liabilities as of the reporting date. Cash equivalents are primarily held in registered money market funds that are valued using quoted market prices.

- (2) Level 2 is based on pricing inputs other than quoted prices in active markets, which are either directly or indirectly observable. The fair value is determined using a valuation model based on observable market inputs, including quoted foreign currency forward exchange rates and consideration of non-performance risk.
- (3) Level 3 is based on pricing inputs that are not observable and not corroborated by market data. The Company has no Level 3 assets or liabilities.

F-29

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED****13. Financial Instruments**

At December 31, 2011 and 2010, the Company's financial instruments consisted primarily of cash and cash equivalents, billed receivables, trade accounts payable, Senior Notes, Senior Subordinated Notes, CODES and foreign currency forward contracts. The carrying amounts of cash and cash equivalents, billed receivables and trade accounts payable are representative of their respective fair values because of the short-term maturities or expected settlement dates of these instruments. The fair values of foreign currency forward contracts are based on forward exchange rates. The carrying amounts and estimated fair values of the Company's financial instruments are presented in the table below.

	December 31, 2011		December 31, 2010	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
	(in millions)			
Senior Notes ⁽¹⁾	2,938	2,940	1,794	1,810
Senior Subordinated Notes ⁽¹⁾	498	513	1,645	1,691
CODES ⁽¹⁾	689	658	698	701
Foreign currency forward contracts ⁽²⁾	1	1	17	17

⁽¹⁾ The Company measures the fair value of its long-term debt using Level 2 inputs based primarily on current market yields for its existing debt traded in the secondary market.

⁽²⁾ See Note 14 for additional disclosures regarding the notional amounts and fair values of foreign currency forward contracts.

14. Derivative Financial Instruments

Notional amounts are used to measure the volume of foreign currency forward contracts and do not represent exposure to foreign currency losses. The table below presents the notional amounts of the Company's outstanding foreign currency forward contracts by currency as of December 31, 2011.

Currency	Notional Amount (in millions)
Canadian dollar	\$ 211
U.S. dollar	58
British pound	35
Euro	30
Other	1

Total

At December 31, 2011, the Company's foreign currency forward contracts had maturities through 2016.

The table below presents the fair values and the location of the Company's derivative instruments in the Consolidated Balance Sheets.

	Fair Values of Derivative Instruments ⁽¹⁾							
	December 31, 2011				December 31, 2010			
	Other Current Assets	Other Assets	Other Current Liabilities	Other Liabilities	Other Current Assets	Other Assets	Other Current Liabilities	Other Liabilities
	(in millions)							
<u>Derivatives designated as hedging instruments:</u>								
Foreign currency forward contracts	\$ 3	\$ 5	\$ 8	\$	\$ 11	\$ 8	\$ 2	\$
<u>Derivatives not designated as hedging instruments:</u>								
Foreign currency forward contracts	1	1	1		2	1	3	
Embedded derivative related to the CODES								
Total derivative instruments	\$ 4	\$ 6	\$ 9	\$	\$ 13	\$ 9	\$ 5	\$

⁽¹⁾ See Note 12 for a description of the fair value hierarchy related to the Company's foreign currency forward contracts.

The effect of gains or losses from foreign currency forward contracts was not material to the Consolidated Statements of Operations for the years ended December 31, 2011 and 2010. At December 31, 2011, the estimated net amount of existing losses that are expected to be reclassified into income within the next 12 months is \$5 million.

15. Accumulated Other Comprehensive (Loss) Income

The changes in the accumulated other comprehensive (loss) income balances, net of related tax effects are presented in the table below:

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED****16. L-3 Holdings Earnings Per Share**

A reconciliation of basic and diluted EPS is presented in the table below.

	2011	Year Ended December 31, 2010	2009
	(in millions, except per share data)		
Reconciliation of net income:			
Net income	\$ 968	\$ 966	\$ 911
Net income attributable to noncontrolling interests	(12)	(11)	(10)
Net income allocable to participating securities	(2)	(5)	(8)
Net income allocable to L-3 Holdings common shareholders	\$ 954	\$ 950	\$ 893
Earnings per share allocable to L-3 Holdings common shareholders:			
Basic:			
Weighted average common shares outstanding	104.4	114.3	116.8
Basic earnings per share:			
Net income	\$ 9.14	\$ 8.31	\$ 7.65
Diluted:			
Common and potential common shares:			
Weighted average common shares outstanding	104.4	114.3	116.8
Assumed exercise of stock options	2.0	2.7	3.5
Unvested restricted stock awards	1.8	1.3	0.4
Employee stock purchase plan contributions	0.2	0.5	0.4
Performance unit awards	0.1	0.1	
Assumed purchase of common shares for treasury	(2.9)	(3.8)	(3.7)
Assumed conversion of the CODES ⁽¹⁾			
Common and potential common shares	105.6	115.1	117.4
Diluted earnings per share:			
Net income	\$ 9.03	\$ 8.25	\$ 7.61

(1) L-3 Holdings CODES had no impact on diluted EPS for the years ended December 31, 2011, 2010 and 2009 because the average market price of L-3 Holdings common stock during these periods was less than the price at which the CODES would have been convertible into L-3 Holdings common stock. As of December 31, 2011, 2010 and 2009, the conversion prices were \$96.48, \$98.94 and \$100.14, respectively.

Excluded from the computations of diluted EPS are certain shares related to stock options, and restricted stock units underlying employee stock-based compensation and employee stock purchase plan contributions of 3.2 million for the year ended December 31, 2011, 2.8 million for

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

the year ended December 31, 2010, and 3.0 million for the year ended December 31, 2009, because they were anti-dilutive.

	(in millions)	
Current deferred tax assets	\$ 99	\$ 114
Non-current deferred tax liabilities	(385)	(308)
Total net deferred tax liabilities	\$ (286)	\$ (194)

F-34

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

At December 31, 2011, the Company had approximately \$20 million of capital loss carryforwards that will expire, if unused in 2016. The realizability of the \$7 million resulting deferred tax asset will depend on the Company generating a like amount of capital gains before the losses expire in 2016. The Company does not believe that it is more likely than not that it will generate sufficient capital gains during this time period, and has therefore established a full valuation allowance against the capital loss carryforward. In addition, the Company had \$113 million of state net operating losses that will expire, if unused, between 2012 and 2031 and \$20 million of foreign net operating losses that can be carried forward indefinitely. The Company also has \$10 million of tax credit carryforwards related to state and foreign research and experimentation credits and investment tax credits that will expire, if unused, beginning in 2016. The Company believes that it will generate sufficient taxable income, of the appropriate character, to utilize \$105 million of the state net operating losses, \$2 million of the foreign net operating losses and substantially all of the state and foreign credit carryforwards before they expire.

As of December 31, 2011, the total amount of unrecognized tax benefits was \$187 million, \$76 million of which would reduce the effective income tax rate, if recognized. A reconciliation of the change in unrecognized income tax benefits, excluding potential interest and penalties, is presented in the table below.

	2011	2010 (in millions)	2009
Balance at January 1	\$ 237	\$ 219	\$ 171
Additions for tax positions related to the current year	9	8	17
Additions for tax positions related to prior years	35	73	64
Reductions for tax positions related to prior years	(13)	(63)	
Reductions for tax positions related to settlements with taxing authorities	(5)		(2)
Reduction for tax positions related to prior years as a result of a lapse of statute of limitations	(76)		(31)
Balance at December 31	\$ 187	\$ 237	\$ 219

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. The U.S. federal income tax jurisdiction is the Company's primary tax jurisdiction. The statutes of limitations for the Company's U.S. Federal income tax returns for the years ended December 31, 2008 through 2010 are open as of December 31, 2011. As of December 31, 2011, the Company anticipates that unrecognized tax benefits will decrease by approximately \$30 million over the next 12 months due to the potential resolution of unrecognized tax benefits involving several jurisdictions and tax periods. The actual amount could vary significantly depending on the ultimate timing and nature of any settlements.

In 2011, the Company reached an agreement with the Internal Revenue Service relating to the audit of the Company's 2006 and 2007 U.S. Federal income tax returns. The Company also reached agreement on several state and foreign audits. As a result of these agreements, the Company reversed previously accrued income tax expense of \$12 million, including interest and penalties. In addition, the statutes of limitations for the 2006 and 2007 U.S. Federal income tax returns, certain foreign tax returns and certain state tax returns expired in 2011. As a result, the Company reversed previously accrued income tax expense by \$81 million, including interest and penalties.

In 2009, the statute of limitations for the 2004 and 2005 U.S. Federal income tax returns of the Company, certain foreign income tax returns and certain returns of its acquired subsidiaries expired. As a result, the Company reduced its income tax provision by \$31 million for the reversal of previously accrued amounts.

Edgar Filing: L 3 COMMUNICATIONS CORP - Form 10-K

As of December 31, 2011 and 2010, current and non-current income taxes payable include accrued potential interest of \$14 million (\$8 million after income taxes) and \$22 million (\$13 million after income taxes), respectively, and potential penalties of \$13 million and \$13 million, respectively. With respect to the interest

F-35

Table of Contents

L-3 COMMUNICATIONS HOLDINGS, INC.

AND L-3 COMMUNICATIONS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED

related items, the Company's income tax expense included a benefit of \$5 million and \$1 million for the years ended December 31, 2011 and 2010, respectively, and an expense of \$3 million for the year ended December 31, 2009.

At December 31, 2011, the Company has not provided deferred U.S. income taxes and foreign withholding taxes for \$288 million of undistributed earnings by its non-U.S. subsidiaries as such earnings are intended to be reinvested indefinitely. Quantification of additional taxes that may be payable on distribution is not practicable.

18. Stock-Based Compensation

Stock-based Compensation Plans. Effective April 29, 2008, the Company adopted the 2008 Long Term Performance Plan (2008 LTTP) and the 2008 Directors Stock Incentive Plan (2008 DSIP). As a result, no subsequent awards in respect of shares of L-3 Holdings common stock have been or will be issued under the Company's 1997 Stock Option Plan, the 1998 Directors Stock Option Plan and the 1999 Long Term Performance Plan (Prior Plans).

Awards under the 2008 LTTP may be granted to any officer or employee of the Company or any of its subsidiaries, or to any other individual who provides services to or on behalf of the Company or any of its subsidiaries. Awards under the 2008 LTTP may be in the form of stock options, stock appreciation rights, restricted stock and other stock-based awards (including restricted stock units and performance units).

Under the terms of the 2008 LTTP, (i) the maximum number of shares of L-3 Holdings' common stock that may be issued pursuant to incentive stock option awards (i.e., stock options granted in accordance with Section 422 of the U.S. Internal Revenue Code of 1986, as amended) is 3,000,000, (ii) the maximum number of shares of L-3 Holdings' common stock that may be issued (or paid in cash by reference to such shares) pursuant to all awards granted during a calendar year to any individual participant is 500,000 and (iv) the maximum number of shares of L-3 Holdings' common stock that may be issuable (or payable in cash by reference to such shares) to any participant over the life of the 2008 LTTP with respect to performance-based awards may not exceed 5% of L-3 Holdings' total outstanding shares of common stock.

On April 27, 2010, the stockholders of L-3 Holdings approved an amendment to the 2008 LTTP that increased the number of shares authorized for issuance under the 2008 LTTP to approximately 12.2 million shares, except that each share of L-3 Holdings common stock issued under a full value award (i.e., awards other than stock options or stock appreciation rights) granted on or after March 1, 2010 will be counted as 2.6 shares for purposes of this share limit. At December 31, 2011, 6.3 million shares of L-3 Holdings' common stock remained available for future awards under the 2008 LTTP.

Awards under the 2008 DSIP may be granted only to non-employee directors of the Company. Awards under the 2008 DSIP may be in the form of stock options, restricted stock, restricted stock units and minimum ownership stock. At December 31, 2011, the number of shares of L-3 Holdings' common stock authorized for grant under the 2008 DSIP was 300,000, of which, 237,852 shares were still available for awards. The 2008 LTTP and the 2008 DSIP are collectively referred to as the 2008 Plans.

To date, awards under the 2008 Plans and Prior Plans (collectively, the Plans) have been in the form of L-3 Holdings' restricted stock, restricted stock units, performance units and options to purchase L-3 Holdings' common stock. The Company adopted the Plans in order to provide incentives to directors, officers, employees and other individuals providing services to or on behalf of the Company and its subsidiaries. The Company

Table of Contents**L-3 COMMUNICATIONS HOLDINGS, INC.****AND L-3 COMMUNICATIONS CORPORATION****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - CONTINUED**

believes that its stock-based compensation awards encourage high levels of performance by individuals who contribute to the success of the Company and enable the Company to attract, retain and reward talented and experienced individuals. This is accomplished by providing eligible individuals with an opportunity to obtain or increase a proprietary interest in the Company and/or by providing eligible individuals with additional incentives to join or remain with the Company. The Plans serve to better align the interests of management and its employees with those of the Company's shareholders.

Stock Options. The exercise price of stock options granted under the 2008 Plans may not be less than the fair market value of L-3 Holdings common stock on the date of grant. Options expire after 10 years from the date of grant and vest ratably over a three year period on the annual anniversary of the date of grant. All unvested options are subject to forfeiture upon termination of employment (subject to customary exceptions for death or disability). Compensation expense for stock option awards was \$11 million (\$7 million after income taxes) for the year ended December 31, 2011, \$12 million (\$8 million after income taxes) for the year ended December 31, 2010, and \$16 million (\$10 million after income taxes) for the year ended December 31, 2009. All of the stock option awards issued under the Plans are non-qualified stock options for U.S. income tax regulations. The table below presents a summary of the Company's stock option activity as of December 31, 2011 and changes during the year then ended.

Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual
----------------------------------	--	---
