SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-K

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 333-169372

RYERSON HOLDING CORPORATION

(Exact name of registrant as specified in its charter)

Edgar Filing: Ryerson Holding Corp - Form 10-K

DELAWARE
(State or other jurisdiction of
incorporation or organization)

26-1251524
(I.R.S. Employer
Identification No.)

227 W. Monroe, 27th Floor
Chicago, Illinois 60606

(Address of principal executive offices)

(312) 292-5000

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

None

Securities registered pursuant to Section 12(g) of the Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

State the aggregate market value of the voting and non-voting common equity held by non-affiliates computed by reference to the price at which the common equity was last sold, or the average bid and asked price of such common equity, as of the last business day of the registrant's most recently completed second fiscal quarter.

Not applicable because no public equity market exists for such shares; the aggregate market value of the common stock held by non-affiliates of the Company is not determinable.

Edgar Filing: Ryerson Holding Corp - Form 10-K

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

As of March 1, 2012, there were 5,000,000 shares of our Common Stock, par value \$0.01 per share, outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Annual Report contains forward-looking statements. Such statements can be identified by the use of forward-looking terminology such as believes, expects, may, estimates, will, should, plans or anticipates or the negative thereof or other variations thereon or comparable terminology, or by discussions of strategy. Readers are cautioned that any such forward-looking statements are not guarantees of future performance and may involve significant risks and uncertainties, and that actual results may vary materially from those in the forward-looking statements as a result of various factors. Among the factors that significantly impact the metals distribution industry and our business are:

cyclical nature of our business, due to the cyclical nature of our customers' businesses;

impairment of goodwill that could result from, among other things, volatility in the markets in which we operate;

global financial and banking crises that affect credit availability;

remaining competitive and maintaining market share in the highly fragmented metals distribution industry, in which price is a competitive tool and in which customers who purchase commodity products are often able to source metals from a variety of sources;

managing the costs of purchased metals relative to the price at which we sell our products during periods of rapid price escalation, when we may not be able to pass through pricing increases fully to our customers quickly enough to maintain desirable gross margins, or during periods of generally declining prices, when our customers may demand that price decreases be passed fully on to them more quickly than we are able to obtain similar discounts from our suppliers;

our substantial indebtedness and the covenants in instruments governing such indebtedness;

the failure to effectively integrate newly acquired operations;

regulatory and other operational risks associated with our operations located outside of the United States;

our customer base, which, unlike many of our competitors, contains a substantial percentage of large customers, so that the potential loss of one or more large customers could negatively impact tonnage sold and our profitability;

fluctuating operating results depending on seasonality;

potential damage to our information technology infrastructure;

work stoppages;

Edgar Filing: Ryerson Holding Corp - Form 10-K

certain employee retirement benefit plans that are underfunded and the actual costs could exceed current estimates;

future funding for postretirement employee benefits may require substantial payments from current cash flow;

prolonged disruption of our processing centers;

ability to retain and attract management and key personnel;

ability of management to focus on North American and foreign operations;

termination of supplier arrangements;

the incurrence of substantial costs or liabilities to comply with, or as a result of violations of, environmental laws;

the impact of new or pending litigation against us;

a risk of product liability claims;

our risk management strategies may result in losses;

currency fluctuations in the U.S. dollar versus the Canadian dollar and the Chinese renminbi;

management of inventory and other costs and expenses; and

consolidation in the metals producer industry, in which we purchase products, which could limit our ability to effectively negotiate and manage costs of inventory or cause material shortages, both of which could impact profitability.

These forward-looking statements involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. Forward-looking statements should, therefore, be considered in light of various factors, including those set forth in this Annual Report under **Risk Factors** and the caption **Industry and Operating Trends** included in **Management's Discussion and Analysis of Financial Condition and Results of Operations** and elsewhere in this Annual Report. Moreover, we caution you not to place undue reliance on these forward-looking statements, which speak only as of the date they were made. We do not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of this Annual Report or to reflect the occurrence of unanticipated events.

Table of Contents

PART I

ITEM 1. BUSINESS.

Ryerson Holding Corporation (Ryerson Holding), a Delaware corporation, is the parent company of Ryerson Inc. (Ryerson). Ryerson Holding is 99% owned by affiliates of Platinum Equity, LLC (Platinum).

On October 19, 2007, the merger (the Platinum Acquisition) of Rhombus Merger Corporation (Merger Sub), a Delaware corporation and a wholly-owned subsidiary of Ryerson Holding, with and into Ryerson, was consummated in accordance with the Agreement and Plan of Merger, dated July 24, 2007, by and among Ryerson, Ryerson Holding and Merger Sub (the Merger Agreement). Upon the closing of the Platinum Acquisition, Ryerson ceased to be a publicly traded company and became a wholly-owned subsidiary of Ryerson Holding.

Ryerson conducts materials distribution operations in the United States through its wholly-owned direct subsidiary Joseph T. Ryerson & Son, Inc. (JT Ryerson), in Canada through its indirect wholly-owned subsidiary Ryerson Canada, Inc., a Canadian corporation (Ryerson Canada), in China through its indirect wholly-owned subsidiary Ryerson China Limited (Ryerson China) and in Mexico through its indirect wholly-owned subsidiary Ryerson Metals de Mexico, S. de R.L. de C.V., a Mexican corporation (Ryerson Mexico). Unless the context indicates otherwise, Ryerson Holding, Ryerson, JT Ryerson, Ryerson Canada, Ryerson China, and Ryerson Mexico together with their subsidiaries, are collectively referred to herein as Ryerson Holding, we, us, our, or the Company.

In addition to our United States, Canada, China and Mexico operations, we conducted materials distribution operations in India through Tata Ryerson Limited, a joint venture with Tata Iron & Steel Corporation, an integrated steel manufacturer in India, until July 10, 2009, when we sold our 50% investment to our joint venture partner, Tata Steel Limited. On February 17, 2012, we expanded our presence into Brazil by acquiring 50% of the issued and outstanding capital stock of Açofran Aços e Metais Ltda (Açofran), a long products distributor located in São Paulo, Brazil.

Our Company

We believe we are one of the largest processors and distributors of metals in North America measured in terms of sales, with global operations in North America, China and a recently established presence in Brazil. We believe our established and growing presence in China is the largest of any North American metal service center. Our customer base ranges from local, independently owned fabricators and machine shops to large, international original equipment manufacturers. We process and distribute a full line of over 75,000 products in stainless steel, aluminum, carbon steel and alloy steels and a limited line of nickel and red metals in various shapes and forms. More than one-half of the products we sell are processed to meet customer requirements. We use various processing and fabricating techniques to process materials to a specified thickness, length, width, shape and surface quality pursuant to customer orders. For the year ended December 31, 2011, we purchased 2.4 million tons of materials from suppliers throughout the world. For the year ended December 31, 2011, our net sales were \$4.7 billion and net loss was \$8.8 million.

We currently operate over 100 facilities across North America, seven facilities in China and one in Brazil. Our service centers are strategically located in close proximity to our customers, which allows us to quickly process and deliver our products and services, often within the next day of receiving an order. We own, lease or contract a fleet of tractors and trailers, allowing us to efficiently meet our customers' delivery demands. In addition, our scale enables us to maintain low operating costs. Our operating expenses as a percentage of sales for the years ended December 31, 2010 and 2011 were 13.3% and 11.8%, respectively.

We serve more than 40,000 customers across a wide range of manufacturing end markets. We believe the diverse end markets we serve reduce the volatility of our business in the aggregate. Our geographic network and broad range of products and services allow us to serve large, international manufacturing companies across multiple locations.

Industry Overview

Metals service centers serve as key intermediaries between metal producers and end users of metal products. Metal producers offer commodity products and typically sell metals in the form of standard-sized coils, sheets, plates, structurals, bars and tubes. Producers prefer large order quantities, longer lead times and limited inventory in order to maximize capacity utilization. End users of metal products seek to purchase metals with customized specifications, including value-added processing. End market customers look for one-stop suppliers that can offer processing services along with lower order volumes, shorter lead times, and more reliable delivery. As an intermediary, metals service centers aggregate end-users' demand, purchase metal in bulk to take advantage of economies of scale and then process and sell metal that meets specific customer

Edgar Filing: Ryerson Holding Corp - Form 10-K

requirements. The end-markets for metals service centers are highly diverse and include machinery, manufacturing, construction and transportation.

Table of Contents

The metals service center industry is comprised of many companies, the majority of which have limited product lines and inventories, with customers located in a specific geographic area. The industry is highly fragmented, with a large number of small companies and few relatively large companies. In general, competition is based on quality, service, price and geographic proximity.

The metals service center industry typically experiences cash flow trends that are counter-cyclical to the revenue and volume growth of the industry. Companies that participate in the industry have assets that are composed primarily of working capital. During an industry downturn, companies generally reduce working capital investments and generate cash as inventory and accounts receivable balances decline. As a result, operating cash flow and liquidity tend to increase during a downturn, which typically facilitates industry participants' ability to cover fixed costs and repay outstanding debt.

The industry is divided into three major groups: general line service centers, specialized service centers, and processing centers, each of which targets different market segments. General line service centers handle a broad line of metals products and tend to concentrate on distribution rather than processing. General line service centers range in size from a single location to a nationwide network of locations. For general line service centers, individual order size in terms of dollars and tons tends to be small relative to processing centers, while the total number of orders is typically high. Specialized service centers focus their activities on a narrower range of product and service offerings than do general line companies. Such service centers provide a narrower range of services to their customers and emphasize product expertise and lower operating costs, while maintaining a moderate level of investment in processing equipment. Processing centers typically process large quantities of metals purchased from primary producers for resale to large industrial customers, such as the automotive industry. Because orders are typically large, operation of a processing center requires a significant investment in processing equipment.

We compete with many other general line service centers, specialized service centers and processing centers on a regional and local basis, some of which may have greater financial resources and flexibility than us. We also compete to a lesser extent with primary metal producers. Primary metal producers typically sell to very large customers that require regular shipments of large volumes of steel. Although these large customers sometimes use metals service centers to supply a portion of their metals needs, metals service center customers typically are consumers of smaller volumes of metals than are customers of primary steel producers. Although we purchase from foreign steelmakers, some of our competitors purchase a higher percentage of metals than us from foreign steelmakers. Such competitors may benefit from favorable exchange rates or other economic or regulatory factors that may result in a competitive advantage. This competitive advantage may be offset somewhat by higher transportation costs and less dependable delivery times associated with importing metals into North America.

Competitive Strengths

Leading Market Position in the United States and Canada.

We believe we are one of the largest service center companies for stainless steel, one of the two largest service centers for aluminum, and one of the leading carbon steel products service center companies based on sales in the combined United States and Canada market. We also believe we are the second largest metals service center in the combined United States and Canada market based on sales. We have a broad geographic presence with over 100 locations in North America.

Our service centers are located near our customer locations, enabling us to provide timely delivery to customers across numerous geographic markets. Additionally, our widespread network of locations in the United States and Canada enables us to exploit our expertise in order to serve customers with complex supply chain requirements across multiple manufacturing locations. Our ability to transfer inventory among our facilities better enables us to more timely and profitably source specialized items at regional locations throughout our network than if we were required to maintain inventory of all products at each location.

Established and Growing Presence in International Markets.

We have leveraged our leadership in the U.S. and Canadian markets to establish operations in China, Mexico and Brazil.

China. We believe we are the most established North American based service center in China, with 2011 sales of \$175 million. Our sizable platform positions us favorably in the largest metals market in the world. We believe we are the only major global service center company whose activities in China generate a meaningful portion of revenues relative to overall operations.

Edgar Filing: Ryerson Holding Corp - Form 10-K

Mexico. While we have served the Mexican market through our U.S. facilities for years, we opened our first wholly-owned Mexican location in 2010 in Monterrey and added our second location in 2011 in Tijuana. In addition, we continue to ship into the Mexican market from our strategically located facilities in Texas, California and Arizona.

Brazil. On February 17, 2012, we acquired 50% of the outstanding capital stock of Açofran Aços e Metais Ltda, a long products distributor located in São Paulo.

Table of Contents

Diverse Customer Base and End Markets.

We believe that our broad and diverse customer base provides a strong platform for growth in a recovering economy and helps to protect us from regional and industry-specific downturns. We serve more than 40,000 customers across a diverse range of industries, including industrial equipment, industrial fabrication, electrical machinery, transportation equipment, heavy equipment and oil and gas. During the year ended December 31, 2011, no single customer accounted for more than 2% of our sales, and our top 10 customers accounted for less than 11% of sales. We continue to expand our customer base and have added over 4,000 net new customers since December 31, 2009.

Extensive Breadth of Products and Services.

We carry a full range of over 75,000 products, including stainless steel, aluminum, carbon steel and alloy steels and a limited line of nickel and red metals. In addition, we provide a broad range of processing and fabrication services to meet the needs of our customers. We also provide supply chain solutions, including just-in-time delivery and value-added components to many original equipment manufacturers. We believe our broad product mix and marketing approach provides customers with a one-stop shop solution few other service center companies are able to offer.

Experienced Management Team with Deep Industry Knowledge.

Our senior management team has extensive industry and operational experience and has been instrumental in optimizing and implementing our transformation since Platinum's acquisition of Ryerson in 2007. Our senior management has an average of more than 20 years of experience in the metals or service center industries. The senior executive team's extensive experience in international markets and outside the service center industry provides perspective to drive profitable growth. Our CEO, Mr. Michael Arnold, joined the Company in January 2011 and has 33 years of diversified industrial experience. Under Mr. Arnold's leadership, we have increased our focus on growing and enhancing profitability driven by providing customized solutions to diversified industrial customers who value these services.

Broad-Based Product and Geographic Platform Provides Multiple Opportunities for Profitable Growth.

While we expect the service center industry to benefit from improving general economic conditions, several end-markets where we have meaningful exposure (including the heavy and medium truck/transportation, machinery, oil and gas, industrial equipment and appliance sectors) have begun, and we believe will continue, to experience stronger shipment growth compared to overall industrial growth. In addition, although there can be no guarantee of growth, we believe a number of our other strategies, such as improving our product mix, driving value-based pricing and growing our large national network and diverse operating capabilities, will provide us with growth opportunities.

Strong Relationships with Suppliers.

We are among the largest purchasers of metals in North America and have long-term relationships with many of our North American suppliers. We believe we are frequently one of the largest customers of our suppliers and that concentrating our orders among a core group of suppliers is an effective method for obtaining favorable pricing and service. We believe we have the opportunity to further leverage this strength. Metals producers worldwide are consolidating and large, geographically diversified customers, such as Ryerson, are desirable partners for these larger suppliers. Through our knowledge of the global metals marketplace we have developed a global purchasing strategy that allows us to secure favorable prices across our product lines.

Transformed Decentralized Operating Model.

We have transformed our operating model by decentralizing our operations and reducing our cost base. Decentralization has improved our customer service by moving key functions such as procurement, credit and operations support to our regional offices. From October 2007 through the end of 2009, we engaged in a number of cost reductions that included a headcount reduction of approximately 1,700, representing 33% of our workforce, and the closure of 14 redundant or underperforming facilities in North America. We have also focused on process improvements in inventory management. Our inventory days improved from an average of 100 days in 2006 to 74 days in 2011. These organizational and operating changes have improved our operating structure, working capital management and efficiency. As a result of our initiatives, we believe that we have increased our financial flexibility and have a favorable cost structure compared to many of our peers. We continue to seek out opportunities to improve efficiency and reduce costs.

Industry Outlook

Edgar Filing: Ryerson Holding Corp - Form 10-K

We believe that the North American economy has resumed growing, following the recession that began in 2008. According to the Institute for Supply Management, the Purchasing Managers Index (PMI) was 54.1% in January 2012, marking the 30th consecutive month the reading was above 50%, which indicates that the manufacturing economy is generally expanding. The PMI measures the economic health of the manufacturing sector and is a composite index based on five indicators: new orders, inventory

Table of Contents

levels, production, supplier deliveries and the employment environment. PMI readings can be a good indicator of industrial activity and general economic growth. From May 2009 to January 2012, total metal service center industry purchase orders have increased by 65.2%. Furthermore, the overall U.S. economy is expected to continue to grow as evidenced by *IHS*'s forecasted GDP growth rates of 2.1%, 2.3% and 3.3% for 2012, 2013 and 2014, respectively.

According to the Metals Service Center Institute (MSCI), total inventory levels of carbon and stainless steel at U.S. service centers reached a trough in August 2009 and bottomed at the lowest levels since the data series began in 1977. Although industry demand recovered in 2010 and 2011, shipments and inventory are still well below historical averages, which we believe suggests long-term growth potential that may be realized if these metrics return to or exceed their historical averages.

Steel demand in North America is largely dependent on growth of the automotive, industrial equipment, consumer appliance and construction end markets. One of our key end markets is within the industrial equipment sector and according to the latest *Livingston Survey*, published by the *Federal Reserve Bank of Philadelphia*, U.S. industrial production grew by 4.0% in 2011 when compared to 2010 and is expected to grow by 3.1% and 3.2% in 2012 and 2013, respectively.

China continues to be a key driver in the growth of global metals demand. According to *The Economist Intelligence Unit*, China's GDP is projected to grow at 8.2% in 2012 while *CRU* is forecasting Chinese steel consumption growth of 4.9% and 6.3% (hot rolled products) in 2012 and 2013, respectively.

Metals prices have recovered significantly from the trough in 2009 as a result of growing demand and increased raw material costs, even though volumes are still well below historical levels.

Products and Services

We carry a full line of carbon steel, stainless steel, alloy steels and aluminum, and a limited line of nickel and red metals. These materials are inventoried in a number of shapes, including coils, sheets, rounds, hexagons, square and flat bars, plates, structurals and tubing.

The following table shows our percentage of sales by major product lines for 2009, 2010 and 2011:

Product Line	2009	2010	2011
Carbon Steel Flat	28%	29%	27%
Carbon Steel Plate	6	8	11
Carbon Steel Long	8	9	10
Stainless Steel Flat	19	21	18
Stainless Steel Plate	4	4	4
Stainless Steel Long	3	3	4
Aluminum Flat	15	15	15
Aluminum Plate	4	3	3
Aluminum Long	4	4	4
Other	9	4	4
Total	100%	100%	100%

More than one-half of the materials sold by us are processed. We use processing and fabricating techniques such as sawing, slitting, blanking, cutting to length, leveling, flame cutting, laser cutting, edge trimming, edge rolling, polishing and shearing to process materials to specified thickness, length, width, shape and surface quality pursuant to specific customer orders. Among the most common processing techniques used by us are slitting, which involves cutting coiled metals to specified widths along the length of the coil, and leveling, which involves flattening metals and cutting them to exact lengths. We also use third-party fabricators to outsource certain processes that we are not able to perform internally (such as pickling, painting, forming and drilling) to enhance our value-added services.

The plate burning and fabrication processes are particularly important to us. These processes require sophisticated and expensive processing equipment. As a result, rather than making investments in such equipment, manufacturers have increasingly outsourced these processes to metals service centers.

Edgar Filing: Ryerson Holding Corp - Form 10-K

As part of securing customer orders, we also provide services to our customers to assure cost effective material application while maintaining or improving the customers product quality.

Table of Contents

Our services include: just-in-time inventory programs, production of kits containing multiple products for ease of assembly by the customer, consignment arrangements and the placement of our employees at a customer's site for inventory management and production and technical assistance. We also provide special stocking programs in which products that would not otherwise be stocked by us are held in inventory to meet certain customers' needs. These services are designed to reduce customers' costs by minimizing their investment in inventory and improving their production efficiency.

Customers

Our customer base is diverse, numbering approximately 40,000 and includes most metal-consuming industries, most of which are cyclical. No single customer accounted for more than 2% of our sales for the year ended December 31, 2011, and the top 10 customers accounted for less than 11% of our sales in 2011. Substantially all of our sales are attributable to our U.S. operations and substantially all of our long-lived assets are located in the United States. Our Canadian operations comprised 10% of our sales in each of 2009, 2010 and 2011 and our China operations comprised 4% of our sales in 2009, 2010 and 2011. In addition, our Canadian operations' assets comprised 13%, 10% and 10% of consolidated assets at December 31, 2009, 2010 and 2011, respectively and our Chinese operations' assets comprised 4%, 5% and 5% of consolidated assets at December 31, 2009, 2010 and 2011, respectively. During 2010, we started operations in Mexico. Our Mexican operations' sales and assets were less than 1% of our worldwide sales and assets in 2010 and 2011.

The following table shows the Company's percentage of sales by class of customers for 2009, 2010 and 2011:

Class of Customer	Percentage of Sales		
	2009	2010	2011
Industrial equipment	42%	41%	38%
Industrial fabricators	21	22	23
Transportation equipment	13	12	13
Heavy equipment	8	8	9
Electrical machinery	9	9	8
Oil & gas	3	4	5
Other	4	4	4
Total	100%	100%	100%

Some of our largest customers have procurement programs with us, typically ranging from three months to one year in duration. Pricing for these contracts is generally based on a pricing formula rather than a fixed price for the program duration. However, certain customer contracts are at fixed prices; in order to minimize our financial exposure, we generally match these fixed-price sales programs with fixed-price supply programs. In general, sales to customers are priced at the time of sale based on prevailing market prices. In 2011, we reviewed our categorization of customers by end-market. As a result, the percentages by class of customer in the table above for 2009 and 2010 have been reclassified to conform to the 2011 presentation.

Suppliers

For the year ended December 31, 2011, our top 25 suppliers accounted for approximately 74% of our purchase dollars.

We purchase the majority of our inventories at prevailing market prices from key suppliers with which we have established relationships to obtain improvements in price, quality, delivery and service. We are generally able to meet our materials requirements because we use many suppliers, because there is a substantial overlap of product offerings from these suppliers, and because there are a number of other suppliers able to provide identical or similar products. Because of the competitive nature of the business, when metal prices increase due to product demand, mill surcharges, supplier consolidation or other factors that in turn lead to supply constraints or longer mill lead times, we may not be able to pass our increased material costs fully to customers. In recent years there have been significant consolidations among suppliers of carbon steel, stainless steel, and aluminum. Continued consolidation among suppliers could lead to disruptions in our ability to meet our material requirements as the sources of our products become more concentrated from fewer producers. We believe we will be able to meet our material requirements because we believe that we have good relationships with our suppliers and believe we will continue to be among the largest customers of our suppliers.

Sales and Marketing

Edgar Filing: Ryerson Holding Corp - Form 10-K

We maintain our own sales force. In addition to our office sales staff, we market and sell our products through the use of our field sales force that has extensive product and customer knowledge and through a comprehensive catalog of our products. Our office and field sales staffs, which together consist of approximately 750 employees, include technical and metallurgical personnel.

Table of Contents

A portion of our customers experience seasonal slowdowns. Our sales in the months of July, November and December traditionally have been lower than in other months because of a reduced number of shipping days and holiday or vacation closures for some customers. Consequently, our sales in the first two quarters of the year are usually higher than in the third and fourth quarters.

Capital Expenditures

In recent years we have made capital expenditures to maintain, improve and expand processing capabilities. Additions by us to property, plant and equipment, together with retirements for the five years ended December 31, 2011, excluding the initial purchase price of acquisitions and the initial effect of fully consolidating a joint venture, are set forth below. The net capital change during such period aggregated to an increase of \$43.4 million.

	Additions	Retirements or Sales (In millions)	Net
2011	\$ 47.0	\$ 14.9	\$ 32.1
2010	27.0	5.5	21.5
2009	22.8	17.4	5.4
2008	30.1	52.0	(21.9)
2007	60.7	54.4	6.3

We currently anticipate capital expenditures, excluding acquisitions, of up to approximately \$55 million for 2012. We expect capital expenditures will be funded from cash generated by operations and available borrowings.

Employees

As of December 31, 2011, we employed approximately 3,600 persons in North America and 400 persons in China. Our North American workforce was comprised of approximately 1,700 office employees and approximately 1,900 plant employees. Thirty-five percent of our plant employees were members of various unions, including the United Steel Workers and the International Brotherhood of Teamsters. Our relationship with the various unions has generally been good.

Nine contracts covering 339 persons were scheduled to expire in 2009. We reached agreement on the renewal of eight contracts covering approximately 258 persons and one contract covering approximately 89 persons was extended. During 2010, the parties to this extended contract covering two Chicago area facilities agreed to sever the bargaining unit between the two facilities and bargaining was concluded for one facility, which covered approximately 59 employees. This new contract expired on December 31, 2011. The other facility's contract, which covered approximately 30 employees, completed negotiations in 2011. Seven contracts covering approximately 85 persons were scheduled to expire in 2010. We reached agreement on the renewal of all seven contracts. Ten contracts covering approximately 312 persons were scheduled to expire in 2011. One of these contracts, which covered 59 employees, was not renewed due to facility closure. Seven of these contracts were successfully negotiated. The two remaining contracts covering 75 employees were extended. The contract extension covering 60 employees has since expired. Six contracts covering approximately 258 employees are scheduled to expire in 2012. We may not be able to negotiate extensions of these agreements or new agreements prior to their expiration date. As a result, we may experience additional labor disruptions in the future. A widespread work stoppage could have a material adverse effect on our results of operations, financial position and cash flows if it were to last for a significant period of time.

Environmental, Health and Safety Matters

Our facilities and operations are subject to many foreign, federal, state and local laws and regulations relating to the protection of the environmental and to health and safety. In particular, our operations are subject to extensive requirements relating to waste disposal, recycling, air and water emissions, the handling of regulated materials, remediation, underground storage tanks, asbestos-containing building materials, workplace exposure and other matters. We believe that our operations are currently in substantial compliance with all such laws and do not presently anticipate substantial expenditures in the foreseeable future in order to meet environmental, workplace health or safety requirements or to pay for any investigations, corrective action or claims. Claims, enforcement actions, or investigations regarding personal injury, property damage or violations of environmental laws could result in substantial costs to us, divert our management's attention and result in significant liabilities, fines, or the suspension or interruption of our facilities.

Edgar Filing: Ryerson Holding Corp - Form 10-K

We continue to analyze and implement safeguards to mitigate any environmental, health and safety risks we may face. As a result, additional costs and liabilities may be incurred to comply with future requirements or to address newly discovered conditions, which costs and liabilities could have a material adverse effect on the results of operations, financial condition or cash flows. For example, there is increasing likelihood that additional regulation of greenhouse gas emissions will occur at the foreign, federal, state and local level, which could affect us, our suppliers and our customers. While the costs of compliance could be significant, given the uncertain outcome and timing of future action by the U.S. federal government and states on this issue, we cannot reasonably predict the financial impact of future greenhouse gas regulations on our operations or our customers at this time. We do not currently anticipate any new programs disproportionately impacting us compared to our competitors.

Table of Contents

Some of the properties currently or previously owned or leased by us are located in industrial areas or have a long history of heavy industrial use. We may incur environmental liabilities with respect to these properties in the future including cost of investigations, corrective action, claims for natural resource damages, claims by third parties relating to property damages or claims relating to contamination at sites where we have sent waste for treatment or disposal. Based on currently available information, we do not expect any investigation or remediation matters or claims related to properties presently or formerly owned or operated or to which we have sent waste for treatment or disposal would have a material adverse effect on our financial condition, results of operations or cash flows.

In October 2011, the United States Environmental Protection Agency named us as one of more than 100 businesses that may be a potentially responsible party for the Portland Harbor Superfund Site (Portland Harbor). We do not currently have sufficient information available to us to determine the total cost of any required investigation or remediation of the Portland Harbor site. Management cannot predict the ultimate outcome of this matter or estimate a range of potential loss at this time.

Capital and operating expenses for pollution control projects were less than \$500,000 per year for the past five years. Excluding any potential additional remediation costs resulting from any corrective action for the properties described above, we expect spending for pollution control projects to remain at historical levels.

Our United States operations are also subject to the Department of Transportation Federal Motor Carrier Safety Regulations. We operate a private trucking motor fleet for making deliveries to some of our customers. Our drivers do not carry any material quantities of hazardous materials. Our foreign operations are subject to similar regulations. Future regulations could increase maintenance, replacement, and fuel costs for our fleet. These costs could have a material adverse effect on our results of operations, financial condition or cash flows.

Intellectual Property

We own several U.S. and foreign trademarks, service marks and copyrights. Certain of the trademarks are registered with the U.S. Patent and Trademark Office and, in certain circumstances, with the trademark offices of various foreign countries. We consider certain other information owned by us to be trade secrets. We protect our trade secrets by, among other things, entering into confidentiality agreements with our employees regarding such matters and implementing measures to restrict access to sensitive data and computer software source code on a need-to-know basis. We believe that these safeguards adequately protect our proprietary rights and vigorously defend these rights. While we consider all of our intellectual property rights as a whole to be important, we do not consider any single right to be essential to our operations as a whole. Our Floating Rate Senior Secured Notes due November 1, 2014 (2014 Notes) and 12% Senior Secured Notes due November 1, 2015 (2015 Notes) (together, the Ryerson Notes) are secured by our intellectual property.

Foreign Operations

Ryerson Canada

Ryerson Canada, an indirect wholly-owned Canadian subsidiary of Ryerson, is a metals service center and processor. Ryerson Canada has facilities in Calgary (AB), Edmonton (AB), Richmond (BC), Winnipeg (MB), Saint John (NB), Brampton (ON), Sudbury (ON), Toronto (ON) (includes Canadian headquarters), Laval (QC), Vaudreuil (QC) and Saskatoon (SK), Canada.

Ryerson China

In 2006, Ryerson and Van Shung Chong Holdings Limited (VSC) and its subsidiary, CAMP BVI, formed Ryerson China to enable us, through this foreign operation, to provide metals distribution services in China. We invested \$28.3 million in Ryerson China for a 40% equity interest. We increased our ownership of Ryerson China from 40% to 80% in the fourth quarter of 2008 for a total purchase cost of \$18.5 million. We consolidated the operations of Ryerson China as of October 31, 2008. On July 12, 2010, we acquired VSC's remaining 20% equity interest in Ryerson China for \$17.5 million. As a result, Ryerson China is now an indirect wholly-owned subsidiary of Ryerson Holding. Ryerson China is based in Shanghai and operates processing and service centers in Guangzhou, Dongguan, Kunshan and Tianjin.

Ryerson Mexico

Ryerson Mexico, an indirect wholly-owned subsidiary of Ryerson, operates as a metals service center and processor. Ryerson formed Ryerson Mexico in 2010 to expand operations into the Mexican market. Ryerson Mexico has service centers in Monterrey, Mexico and Tijuana, Mexico.

Brazil

Edgar Filing: Ryerson Holding Corp - Form 10-K

On February 17, 2012, we acquired 50% of the issued and outstanding capital stock of Açofran. As of such date, we, through Açofran, lease one service center in São Paulo, Brazil.

Available Information

All periodic and current reports and other filings that we are required to file with the Securities and Exchange Commission (SEC), including our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant Section 15(d) of the Securities Exchange Act of 1934, as amended, are available free of charge from the SEC 's website (<http://www.sec.gov>) or public reference room at 100 F Street N.E., Washington, D.C. 20549 (1-800-SEC-0330) or through our website at <http://www.ryerson.com>. Such documents are available as soon as reasonably practicable after electronic filing of the material with the SEC. Copies of these reports (excluding exhibits) may also be obtained free of charge, upon written request to: Legal Department, Ryerson Holding Corporation, 227 W. Monroe, 27th Floor, Chicago, Illinois 60606.

Table of Contents

The Company also posts its Code of Ethics on the website. See *Directors, Executive Officers and Corporate Governance Code of Ethics* for more information regarding our Code of Ethics.

Our website address is included in this report for information purposes only. Our website and the information contained therein or connected thereto are not incorporated into this annual report on Form 10-K.

ITEM 1A. RISK FACTORS.

Our business faces many risks. You should carefully consider the risks and uncertainties described below, together with the other information in this report, including the consolidated financial statements and notes to consolidated financial statements. We cannot assure you that any of the events discussed in the risk factors below will not occur. These risks could have a material and adverse impact on our business, results of operations, financial condition and cash flows.

We service industries that are highly cyclical, and any downturn in our customers' industries could reduce our sales and profitability. The economic downturn has reduced demand for our products and may continue to reduce demand until an economic recovery.

Many of our products are sold to industries that experience significant fluctuations in demand based on economic conditions, energy prices, seasonality, consumer demand and other factors beyond our control. These industries include manufacturing, electrical products and transportation. We do not expect the cyclical nature of our industry to change.

The U.S. economy entered an economic recession in December 2007, which spread to many global markets in 2008 and 2009 and affected Ryerson and other metals service centers. Beginning in late 2008 and continuing through 2011, the metals industry, including Ryerson and other service centers, felt additional effects of the global economic crisis and recovery thereto and the impact of the credit market disruption. These events contributed to a rapid decline in both demand for our products and pricing levels for those products. The Company has implemented a number of actions to conserve cash, reduce costs and strengthen its competitiveness, including curtailing non-critical capital expenditures, initiating headcount reductions and reductions of certain employee benefits, among other actions. However, there can be no assurance that these actions, or any others that the Company may take in response to further deterioration in economic and financial conditions, will be sufficient.

The volatility of the market could result in a material impairment of goodwill.

We evaluate goodwill on an annual basis and whenever events or changes in circumstances indicate potential impairment. Events or changes in circumstances that could trigger an impairment review include significant underperformance relative to our historical or projected future operating results, significant changes in the manner or the use of our assets or the strategy for our overall business, and significant negative industry or economic trends. We test for impairment of goodwill by calculating the fair value of a reporting unit using an income approach based on discounted future cash flows. Under this method, the fair value of each reporting unit is estimated based on expected future economic benefits discounted to a present value at a rate of return commensurate with the risk associated with the investment. Projected cash flows are discounted to present value using an estimated weighted average cost of capital, which considers both returns to equity and debt investors. The income approach is subject to a comparison for reasonableness to a market approach at the date of valuation. Significant changes in any one of the assumptions made as part of our analysis, which could occur as a result of actual events, or further declines in the market conditions for our products, could significantly impact our impairment analysis. An impairment charge, if incurred, could be material.

The global financial and banking crises have caused a lack of credit availability that has limited and may continue to limit the ability of our customers to purchase our products or to pay us in a timely manner.

In climates of global financial and banking crises, such as those from which we are currently recovering, the ability of our customers to maintain credit availability has become more challenging. In particular, the financial viability of many of our customers is threatened, which may impact their ability to pay us amounts due, further affecting our financial condition and results of operations.

The metals distribution business is very competitive and increased competition could reduce our revenues, gross margins and net income.

The principal markets that we serve are highly competitive. The metals distribution industry is fragmented and competitive, consisting of a large number of small companies and a few relatively large companies. Competition is based principally on price, service, quality, production capabilities, inventory availability and timely delivery. Competition in the various markets in which we participate comes from companies of various sizes, some of which have greater financial resources than we have and some of which have more established brand names in the local markets served by us. Increased competition could reduce our market share, force us to lower our prices or to offer increased services at a higher

cost, which could reduce our profitability.

The economic downturn has reduced metals prices. Though prices have risen since the onset of the economic downturn, we cannot assure you that prices will continue to rise. Changing metals prices may have a significant impact on our liquidity, net sales, gross margins, operating income and net income.

Table of Contents

The metals industry as a whole is cyclical and, at times, pricing and availability of metal can be volatile due to numerous factors beyond our control, including general domestic and international economic conditions, labor costs, sales levels, competition, levels of inventory held by other metals service centers, consolidation of metals producers, higher raw material costs for the producers of metals, import duties and tariffs and currency exchange rates. This volatility can significantly affect the availability and cost of materials for us.

We, like many other metals service centers, maintain substantial inventories of metal to accommodate the short lead times and just-in-time delivery requirements of our customers. Accordingly, we purchase metals in an effort to maintain our inventory at levels that we believe to be appropriate to satisfy the anticipated needs of our customers based upon historic buying practices, contracts with customers and market conditions. When metals prices decline, as they did in 2008 and 2009, customer demands for lower prices and our competitors' responses to those demands could result in lower sale prices and, consequently, lower margins as we use existing metals inventory. Notwithstanding recent price increases, metals prices may decline in 2012, and declines in those prices or further reductions in sales volumes could adversely impact our ability to maintain our liquidity and to remain in compliance with certain financial covenants under Ryerson's \$1.35 billion revolving credit facility agreement that matures on the earliest of (a) March 14, 2016, (b) the date that occurs 90 days prior to the scheduled maturity date of the 2014 Notes, if the 2014 Notes are then outstanding and (c) the date that occurs 90 days prior to the scheduled maturity date of the 2015 Notes, if the 2015 Notes are then outstanding (as amended, the Ryerson Credit Facility), as well as result in us incurring inventory or goodwill impairment charges. Changing metals prices therefore could significantly impact our liquidity, net sales, gross margins, operating income and net income.

We have a substantial amount of indebtedness, which could adversely affect our financial position and prevent us from fulfilling our financial obligations.

We currently have a substantial amount of indebtedness. As of December 31, 2011, our total indebtedness was approximately \$1,316 million. We may also incur additional indebtedness in the future. As of December 31, 2011, Ryerson had approximately \$274 million of unused capacity under the Ryerson Credit Facility. Our substantial indebtedness may:

make it difficult for us to satisfy our financial obligations, including making scheduled principal and interest payments on our outstanding notes and our other indebtedness;

limit our ability to borrow additional funds for working capital, capital expenditures, acquisitions and general corporate and other purposes;

limit our ability to use our cash flow or obtain additional financing for future working capital, capital expenditures, acquisitions or other general corporate purposes;

require us to use a substantial portion of our cash flow from operations to make debt service payments;

limit our flexibility to plan for, or react to, changes in our business and industry;

place us at a competitive disadvantage compared to our less leveraged competitors; and

increase our vulnerability to the impact of adverse economic and industry conditions.

We may be able to incur substantial additional indebtedness in the future. The terms of the Ryerson Credit Facility and the indentures governing our outstanding notes restrict but do not prohibit us from doing so. If new indebtedness is added to our current debt levels, the related risks that we now face could intensify.

Edgar Filing: Ryerson Holding Corp - Form 10-K

The covenants in the 14¹/₂% Senior Discount Notes due 2015 (Ryerson Holding Notes), Ryerson Credit Facility and the indenture governing the Ryerson Notes impose, and covenants contained in agreements governing indebtedness Ryerson Holding incurs in the future may impose, restrictions that may limit Ryerson Holding s operating and financial flexibility.

The indenture governing the Ryerson Holding Notes contain a number of significant restrictions and covenants that limit our ability and the ability of our restricted subsidiaries to:

incur additional debt;

pay dividends on our capital stock or repurchase our capital stock;

make certain investments or other restricted payments;

create liens or use assets as security in other transactions;

merge, consolidate or transfer or dispose of substantially all of our assets; and

engage in transactions with affiliates.

The Ryerson Credit Facility and the indenture governing the Ryerson Notes also contain restrictions and covenants that limit the ability of Ryerson and the ability of its restricted subsidiaries to do the acts mentioned above.

Table of Contents

The terms of the Ryerson Credit Facility require that, in the event availability under the facility declines to a certain level, Ryerson maintain a minimum fixed charge coverage ratio at the end of each fiscal quarter. Total credit availability is limited by the amount of eligible accounts receivable and inventory pledged as collateral under the agreement insofar as Ryerson is subject to a borrowing base comprised of the aggregate of these two amounts, less applicable reserves. As of December 31, 2011, total credit availability was \$274 million based upon eligible accounts receivable and inventory pledged as collateral.

Additionally, subject to certain exceptions, the indenture governing the Ryerson Notes restricts Ryerson's ability to pay us dividends to the extent of 50% of future net income, once prior losses are offset. Future net income is defined in the indenture governing the notes as net income adjusted for, among other things, the inclusion of dividends from joint ventures actually received in cash by Ryerson, and the exclusion of: (i) all extraordinary gains or losses; (ii) a certain portion of net income allocable to minority interest in unconsolidated persons or investments in unrestricted subsidiaries; (iii) gains or losses in respect of any asset sale on an after tax basis; (iv) the net income from any disposed or discontinued operations or any net gains or losses on disposed or discontinued operations, on an after-tax basis; (v) any gain or loss realized as a result of the cumulative effect of a change in accounting principles; (vi) any fees and expenses paid in connection with the issuance of Ryerson's notes; (vii) non-cash compensation expense incurred with any issuance of equity interest to an employee; and (viii) any net after-tax gains or losses attributable to the early extinguishment of debt. Our future indebtedness may contain covenants more restrictive in certain respects than the restrictions contained in the Ryerson Credit Facility and the indenture governing the Ryerson Holding Notes. Operating results below current levels or other adverse factors, including a significant increase in interest rates, could result in our being unable to comply with financial covenants that are contained in the Ryerson Credit Facility or that may be contained in any future indebtedness. If our indebtedness is in default for any reason, our business, financial condition and results of operations could be materially and adversely affected. In addition, complying with these covenants may also cause us to take actions that are not favorable to holders of the notes and may make it more difficult for us to successfully execute our business strategy and compete against companies that are not subject to such restrictions.

We may not be able to generate sufficient cash to service all of our indebtedness.

Our ability to make payments on our indebtedness depends on our ability to generate cash in the future. Our outstanding notes, the Ryerson Credit Facility and our other outstanding indebtedness are expected to account for significant cash interest expenses. Accordingly, we will have to generate significant cash flows from operations to meet our debt service requirements. If we do not generate sufficient cash flow to meet our debt service and working capital requirements, we may be required to sell assets, seek additional capital, reduce capital expenditures, restructure or refinance all or a portion of our existing indebtedness, or seek additional financing. Moreover, insufficient cash flow may make it more difficult for us to obtain financing on terms that are acceptable to us, or at all. Furthermore, Platinum has no obligation to provide us with debt or equity financing and we therefore may be unable to generate sufficient cash to service all of our indebtedness.

Because a substantial portion of our indebtedness bears interest at rates that fluctuate with changes in certain prevailing short-term interest rates, we are vulnerable to interest rate increases.

A substantial portion of our indebtedness, including the Ryerson Credit Facility and the 2014 Notes, bears interest at rates that fluctuate with changes in certain short-term prevailing interest rates. As of December 31, 2011, we had approximately \$102.9 million of the 2014 Notes and approximately \$520.2 million of outstanding borrowings under the Ryerson Credit Facility, with an additional \$274 million available for borrowing under such facility. Assuming a consistent level of debt, a 100 basis point change in the interest rate on our floating rate debt effective from the beginning of the year would increase or decrease our fiscal 2011 interest expense under the Ryerson Credit Facility and the 2014 Notes by approximately \$6.5 million on an annual basis. We used derivative financial instruments to manage a portion of the potential impact of our interest rate risk until their expiration in July 2011. To some extent, derivative financial instruments can protect against increases in interest rates, but they do not provide complete protection over the long term. If interest rates increase dramatically, we could be unable to service our debt which could have a material adverse effect on our business, financial condition, results of operations or cash flows.

Table of Contents

We may not be able to successfully consummate and complete the integration of future acquisitions, and if we are unable to do so, we may be unable to increase our growth rates.

We have grown through a combination of internal expansion, acquisitions and joint ventures. We intend to continue to grow through selective acquisitions, but we may not be able to identify appropriate acquisition candidates, obtain financing on satisfactory terms, consummate acquisitions or integrate acquired businesses effectively and profitably into our existing operations. Restrictions contained in the agreements governing our notes, the Ryerson Credit Facility or our other existing or future debt may also inhibit our ability to make certain investments, including acquisitions and participations in joint ventures.

Our future success will depend on our ability to complete the integration of these future acquisitions successfully into our operations. After any acquisition, customers may choose to diversify their supply chains to reduce reliance on a single supplier for a portion of their metals needs. We may not be able to retain all of our and an acquisition's customers, which may adversely affect our business and sales. Integrating acquisitions, particularly large acquisitions, requires us to enhance our operational and financial systems and employ additional qualified personnel, management and financial resources, and may adversely affect our business by diverting management away from day-to-day operations. Further, failure to successfully integrate acquisitions may adversely affect our profitability by creating significant operating inefficiencies that could increase our operating expenses as a percentage of sales and reduce our operating income. In addition, we may not realize expected cost savings from acquisitions, which may also adversely affect our profitability.

We may not be able to retain or expand our customer base if the North American manufacturing industry continues to erode through moving offshore or through acquisition and merger or consolidation activity in our customers' industries.

Our customer base primarily includes manufacturing and industrial firms. Some of our customers operate in industries that are undergoing consolidation through acquisition and merger activity; some are considering or have considered relocating production operations overseas or outsourcing particular functions overseas; and some customers have closed as they were unable to compete successfully with overseas competitors. Our facilities are predominately located in the United States and Canada. To the extent that our customers cease U.S. operations, relocate or move operations overseas to regions in which we do not have a presence, we could lose their business. Acquirers of manufacturing and industrial firms may have suppliers of choice that do not include us, which could impact our customer base and market share.

Certain of our operations are located outside of the United States, which subjects us to risks associated with international activities.

Certain of our operations are located outside of the United States, primarily in Canada, China and Mexico. We are subject to the Foreign Corrupt Practices Act (FCPA), which generally prohibits U.S. companies and their intermediaries from making corrupt payments or otherwise corruptly giving any other thing of value to foreign officials for the purpose of obtaining or keeping business or otherwise obtaining favorable treatment, and requires companies to maintain adequate record-keeping and internal accounting practices. The FCPA applies to covered companies, individual directors, officers, employees and agents. Under the FCPA, U.S. companies may be held liable for some actions taken by strategic or local partners or representatives. If we or our intermediaries fail to comply with the requirements of the FCPA, governmental authorities in the United States could seek to impose civil and/or criminal penalties, which could have a material adverse effect on our business, operations, financial conditions and cash flows.

The Chinese government exerts substantial influence over the manner in which we must conduct our business activities, particularly with regards to the land our facilities are located on.

The Chinese government has exercised and continues to exercise substantial control over the Chinese economy through regulation and state ownership. Our ability to operate in China may be harmed by changes in its laws and regulations, including those relating to taxation, import and export tariffs, environmental regulations, land use rights, property and other matters. We believe that our operations in China are in material compliance with all applicable legal and regulatory requirements. However, the central or local governments of the jurisdictions in which we operate may impose new, stricter regulations or interpretations of existing regulations that would require additional expenditures and efforts on our part to ensure our compliance with such regulations or interpretations. Moreover, the Chinese court system does not provide the same property and contract right guarantees as do courts in the United States and, accordingly, disputes may be protracted and resolution of claims may result in significant economic loss.

Additionally, although in recent years the Chinese government has implemented measures emphasizing the utilization of market forces for economic reform, there is no private ownership of land in China and all land ownership is held by the government of China, its agencies, and collectives, which issue land use rights that are generally renewable. We lease the land where our Chinese facilities are located from the Chinese government. Although we believe our relationship with the Chinese government is sound, if the Chinese government decided to terminate our land use rights agreements, our assets could become impaired and our ability to meet customer orders could be impacted.

Table of Contents

Operating results may experience seasonal fluctuations.

A portion of our customers experience seasonal slowdowns. Our sales in the months of July, November and December traditionally have been lower than in other months because of a reduced number of shipping days and holiday or vacation closures for some customers. Consequently, our sales in the first two quarters of the year are usually higher than in the third and fourth quarters.

Damage to our information technology infrastructure could harm our business.

The unavailability of any of our computer-based systems for any significant period of time could have a material adverse effect on our operations. In particular, our ability to manage inventory levels successfully largely depends on the efficient operation of our computer hardware and software systems. We use management information systems to track inventory information at individual facilities, communicate customer information and aggregate daily sales, margin and promotional information. Difficulties associated with upgrades, installations of major software or hardware, and integration with new systems could have a material adverse effect on results of operations. We will be required to expend substantial resources to integrate our information systems with the systems of companies we have acquired. The integration of these systems may disrupt our business or lead to operating inefficiencies. In addition, these systems are vulnerable to, among other things, damage or interruption from fire, flood, tornado and other natural disasters, power loss, computer system and network failures, operator negligence, physical and electronic loss of data, or security breaches and computer viruses.

Any significant work stoppages can harm our business.

As of December 31, 2011, we employed approximately 3,600 persons in North America and 400 persons in China. Our North American workforce was comprised of approximately 1,700 office employees and approximately 1,900 plant employees. Thirty-five percent of our plant employees were members of various unions, including the United Steel Workers and the International Brotherhood of Teamsters. Our relationship with the various unions has generally been good.

Nine contracts covering 339 persons were scheduled to expire in 2009. We reached agreement on the renewal of eight contracts covering approximately 258 persons and one contract covering approximately 89 persons was extended. During 2010, the parties to this extended contract covering two Chicago area facilities agreed to sever the bargaining unit between the two facilities and bargaining was concluded for one facility, which covered approximately 59 employees. This new contract expired on December 31, 2011. The other facility's contract, which covered approximately 30 employees, completed negotiations in 2011. Seven contracts covering approximately 85 persons were scheduled to expire in 2010. We reached agreement on the renewal of all seven contracts. Ten contracts covering approximately 312 persons were scheduled to expire in 2011. One of these contracts, which covered 59 employees, was not renewed due to facility closure. Seven of these contracts were successfully negotiated. The two remaining contracts covering 75 employees were extended. The contract extension covering 60 employees has since expired. Six contracts covering approximately 258 employees are scheduled to expire in 2012. We may not be able to negotiate extensions of these agreements or new agreements prior to their expiration date. As a result, we may experience additional labor disruptions in the future. A widespread work stoppage could have a material adverse effect on our results of operations, financial position and cash flows if it were to last for a significant period of time.

Certain employee retirement benefit plans are underfunded and the actual cost of those benefits could exceed current estimates, which would require us to fund the shortfall.

As of December 31, 2011, our pension plan had an unfunded liability of \$359 million. Our actual costs for benefits required to be paid may exceed those projected and future actuarial assessments to the extent those costs may exceed the current assessment. Under those circumstances, the adjustments required to be made to our recorded liability for these benefits could have a material adverse effect on our results of operations and financial condition and cash payments to fund these plans could have a material adverse effect on our cash flows. We may be required to make substantial future contributions to improve the plan's funded status, which may have a material adverse effect on our results of operations, financial condition or cash flows.

Future funding for postretirement employee benefits other than pensions also may require substantial payments from current cash flow.

We provide postretirement life insurance and medical benefits to eligible retired employees. Our unfunded postretirement benefit obligation as of December 31, 2011 was \$143 million. Our actual costs for benefits required to be paid may exceed those projected and future actuarial assessments to the extent those costs may exceed the current assessment. Under those circumstances, the adjustments required to be made to our recorded liability for these benefits could have a material adverse effect on our results of operations and financial condition and cash payments to fund these plans could have a material adverse effect on our cash flows.

Table of Contents

Any prolonged disruption of our processing centers could harm our business.

We have dedicated processing centers that permit us to produce standardized products in large volumes while maintaining low operating costs. Any prolonged disruption in the operations of any of these facilities, whether due to labor or technical difficulties, destruction or damage to any of the facilities or otherwise, could materially adversely affect our business and results of operations.

If we are unable to retain and attract management and key personnel, it may adversely affect our business.

We believe that our success is due, in part, to our experienced management team. Losing the services of one or more members of our management team could adversely affect our business and possibly prevent us from improving our operational, financial and information management systems and controls. In the future, we may need to retain and hire additional qualified sales, marketing, administrative, operating and technical personnel, and to train and manage new personnel. Our ability to implement our business plan is dependent on our ability to retain and hire a large number of qualified employees each year. If we are unable to hire sufficient qualified personnel, it could have a material adverse effect on our business, results of operations and financial condition.

Our existing international operations and potential joint ventures may cause us to incur costs and risks that may distract management from effectively operating our North American business, and such operations or joint ventures may not be profitable.

We maintain foreign operations in Canada, China and Mexico. International operations are subject to certain risks inherent in conducting business in foreign countries, including price controls, exchange controls, limitations on participation in local enterprises, nationalization, expropriation and other governmental action, and changes in currency exchange rates. While we believe that our current arrangements with local partners provide us with experienced business partners in foreign countries, events or issues, including disagreements with our partners, may occur that require attention of our senior executives and may result in expenses or losses that erode the profitability of our foreign operations or cause our capital investments abroad to be unprofitable.

Lead time and the cost of our products could increase if we were to lose one of our primary suppliers.

If, for any reason, our primary suppliers of aluminum, carbon steel, stainless steel or other metals should curtail or discontinue their delivery of such metals in the quantities needed and at prices that are competitive, our business could suffer. The number of available suppliers could be reduced by factors such as industry consolidation and bankruptcies affecting steel and metal producers. For the year ended December 31, 2011, our top 25 suppliers represented approximately 74% of our purchases. We could be significantly and adversely affected if delivery were disrupted from a major supplier. If, in the future, we were unable to obtain sufficient amounts of the necessary metals at competitive prices and on a timely basis from our traditional suppliers, we may not be able to obtain such metals from alternative sources at competitive prices to meet our delivery schedules, which could have a material adverse effect on our sales and profitability.

We could incur substantial costs related to environmental, health and safety laws.

Our operations are subject to increasingly stringent environmental, health and safety laws. These include laws that impose limitations on the discharge of pollutants into the air and water and establish standards for the treatment, storage and disposal of regulated materials and the investigation and remediation of contaminated soil, surface water and groundwater. Failure to maintain or achieve compliance with these laws or with the permits required for our operations could result in substantial increases in operating costs and capital expenditures. In addition, we may be subject to fines and civil or criminal sanctions, third party claims for property damage or personal injury, worker's compensation or personal injury claims, cleanup costs or temporary or permanent discontinuance of operations. Certain of our facilities are located in industrial areas, have a history of heavy industrial use and have been in operation for many years and, over time, we and other predecessor operators of these facilities have generated, used, handled and disposed of hazardous and other regulated wastes. Environmental liabilities could exist, including cleanup obligations at these facilities or at off-site locations where materials from our operations were disposed of, which could result in future expenditures that cannot be currently quantified and which could have a material adverse effect on our financial position, results of operations or cash flows. Such liabilities may be imposed without regard to fault or the legality of a party's conduct and may, in certain circumstances, be joint and several. Future changes to environmental, health and safety laws, including those related to climate change, could result in material liabilities and costs, constrain operations or make such operations more costly for us, our suppliers and our customers.

New regulations related to conflict-free minerals may force us to incur additional expenses.

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), signed into law on July 21, 2010, includes Section 1502, which requires the SEC to adopt additional disclosure requirements related to certain minerals sourced from the Democratic Republic of Congo and surrounding countries, or conflict minerals, for which such conflict minerals are necessary to the functionality of a

Edgar Filing: Ryerson Holding Corp - Form 10-K

product manufactured, or contracted to be manufactured, by an SEC reporting company. The metals covered by the proposed rules, promulgated on December 15, 2010, are commonly referred to as "3TG" and include tin, tantalum, tungsten and gold. While the SEC has not yet adopted the final rules regarding disclosure related to conflict minerals, implementation of the new disclosure requirements could affect the sourcing and availability of some of the minerals used in the manufacture of our products. Our supply chain is complex, and if we are not able to conclusively verify the origins for all metals used in our products, we may face

Table of Contents

reputational challenges with our customers. Additionally, as there may be only a limited number of suppliers offering conflict free metals, we cannot be sure that we will be able to obtain necessary metals from such suppliers in sufficient quantities or at competitive prices. Accordingly, we could incur significant cost related to the compliance process, including potential difficulty or added costs in satisfying the disclosure requirements.

We are subject to litigation that could strain our resources and distract management.

From time to time, we are involved in a variety of claims, lawsuits and other disputes arising in the ordinary course of business. These suits concern issues including product liability, contract disputes, employee-related matters and personal injury matters. It is not feasible to predict the outcome of all pending suits and claims, and the ultimate resolution of these matters as well as future lawsuits could have a material adverse effect on our business, financial condition, results of operations or cash flows or reputation.

We may face product liability claims that are costly and create adverse publicity.

If any of the products that we sell cause harm to any of our customers, we could be exposed to product liability lawsuits. If we were found liable under product liability claims, we could be required to pay substantial monetary damages. Further, even if we successfully defended ourselves against this type of claim, we could be forced to spend a substantial amount of money in litigation expenses, our management could be required to spend valuable time in the defense against these claims and our reputation could suffer, any of which could harm our business.

We are controlled by a single investor group and its interest as an equity holder may conflict with those of a creditor.

Platinum owns 99% of the issued and outstanding capital stock of Ryerson Holding, which owns 100% of the issued and outstanding capital stock of Ryerson. As a result, Platinum controls matters such as the election of all of the members of our board of directors, amendments to our organizational documents, or the approval of any mergers, tender offers, sales of assets or other major corporate transactions.

The interests of Platinum may not in all cases be aligned with the interests of holders of the Ryerson Holding Notes. For example, Platinum could cause us to make acquisitions that increase the amount of the indebtedness that is secured or senior to the notes or to sell revenue-generating assets, impairing our ability to make payments under the notes. Additionally, Platinum is in the business of making investments in companies and may from time to time acquire and hold interests in businesses that compete directly or indirectly with us. Accordingly, Platinum may also pursue acquisition opportunities that may be complementary to our business, and as a result, those acquisition opportunities may not be available to us. In addition, Platinum may have an interest in pursuing acquisitions, divestitures and other transactions that, in its judgment, could enhance its equity investment, even though such transactions might involve risks to holders of our notes.

Our risk management strategies may result in losses.

From time to time, we may use fixed-price and/or fixed-volume supplier contracts to offset contracts with customers. Additionally, we may use foreign exchange contracts and interest rate swaps to hedge Canadian dollar and floating rate debt exposures. These risk management strategies pose certain risks, including the risk that losses on a hedge position may exceed the amount invested in such instruments. Moreover, a party in a hedging transaction may be unavailable or unwilling to settle our obligations, which could cause us to suffer corresponding losses. A hedging instrument may not be effective in eliminating all of the risks inherent in any particular position. Our profitability may be adversely affected during any period as a result of use of such instruments.

We may be adversely affected by currency fluctuations in the U.S. dollar versus the Canadian dollar and the Chinese renminbi.

We have significant operations in Canada which incur the majority of their metal supply costs in U.S. dollars but earn the majority of their sales in Canadian dollars. Additionally, we have significant assets in China. We may from time to time experience losses when the value of the U.S. dollar strengthens against the Canadian dollar or the Chinese renminbi, which could have a material adverse effect on our results of operations. In addition, we will be subject to translation risk when we consolidate our Canadian and Chinese subsidiaries' net assets into our balance sheet. Fluctuations in the value of the U.S. dollar versus the Canadian dollar or Chinese renminbi could reduce the value of these assets as reported in our financial statements, which could, as a result, reduce our stockholders' equity.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

Not applicable.

ITEM 2. PROPERTIES.

As of December 31, 2011, the Company's facilities are set forth below:

Table of Contents***Operations in the United States***

JT Ryerson maintains 92 operational facilities, including 5 locations that are dedicated to administration services. All of our metals service center facilities are in good condition and are adequate for JT Ryerson's existing operations. Approximately 48% of these facilities are leased. The lease terms expire at various times through 2025. Owned properties noted as vacated below have been closed and are in the process of being sold. JT Ryerson's properties and facilities are adequate to serve its present and anticipated needs.

The following table sets forth certain information with respect to each facility as of December 31, 2011:

Operations in China

Ryerson China, an indirect wholly-owned subsidiary of Ryerson, has six service and processing centers in China, at Guangzhou, Dongguan, Kunshan and Tianjin, performing coil processing, sheet metal fabrication and plate processing. Ryerson China's headquarters office building is located in Shanghai. We own three buildings in China and have purchased the related land use rights. The remainder of our facilities are leased. All of the facilities are in good condition and are adequate for Ryerson China's existing and anticipated operations.

Operations in Mexico

Ryerson Mexico, an indirect wholly-owned subsidiary of Ryerson, has two facilities as of December 31, 2011. We have service centers in Monterrey and Tijuana, both of which are leased. The facilities are in good condition and are adequate for our existing and anticipated operations.

Operations in Brazil

On February 17, 2012, we acquired 50% of the issued and outstanding capital stock of Açofran. As of such date, we, through Açofran, lease one service center in São Paulo, Brazil. The facility is in good condition and is adequate for its existing and anticipated operations.

ITEM 3. LEGAL PROCEEDINGS.

From time to time, we are named as a defendant in legal actions incidental to our ordinary course of business. We do not believe that the resolution of these claims will have a material adverse effect on our financial position, results of operations or cash flows. We maintain liability insurance coverage to assist in protecting our assets from losses arising from or related to activities associated with business operations.

In October 2011, the United States Environmental Protection Agency named us as one of more than 100 businesses that may be a potentially responsible party for the Portland Harbor Superfund Site (Portland Harbor). We do not currently have sufficient information available to us to determine the total cost of any required investigation or remediation of the Portland Harbor site. Management cannot predict the ultimate outcome of this matter or estimate a range of potential loss at this time.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

There is no public trading market for our common stock. 99% of our issued and outstanding capital stock is owned by Platinum.

The Company declared and paid a dividend of \$213.8 million to our stockholders on January 29, 2010. The indentures governing our debt agreements restrict our ability to pay dividends on our common stock. Any payment of cash dividends on our common stock in the future will be at the discretion of our board of directors and will depend upon our results of operations, earnings, capital requirements, financial condition, future prospects, contractual restrictions and other factors deemed relevant by our board of directors.

Table of Contents**ITEM 6. SELECTED FINANCIAL DATA.**

The following table sets forth our selected historical consolidated financial information. Our selected historical consolidated statements of operations data for the years ended December 31, 2009, 2010 and 2011 and the summary historical balance sheet data as of December 31, 2010 and 2011 have been derived from our audited consolidated financial statements included in Item 8. Financial Statements and Supplementary Data. The selected historical consolidated statements of operations data of Ryerson Inc. as our predecessor for the period from January 1, 2007 through October 19, 2007 and of Ryerson Holding as successor for the period from October 20, 2007 through December 31, 2007 and for the year ended December 31, 2008 and the summary historical balance sheet data of Ryerson Holding as successor as of December 31, 2007 and 2008 were derived from the audited financial statements and related notes thereto, which are not included in this Annual Report.

The following consolidated financial information should be read together with Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and the audited Consolidated Financial Statements of Ryerson Holding and the Notes thereto included in Item 8. Financial Statements and Supplementary Data.

FIVE YEAR SUMMARY OF SELECTED FINANCIAL DATA AND OPERATING RESULTS

(Dollars in millions, except per ton data)

	Predecessor Period from January 1 to October 19, 2007	Period from October 20 to December 31, 2007	2008	Successor Year Ended December 31, 2009	2010	2011
Statements of Operations Data:						
Net sales	\$ 5,035.6	\$ 966.3	\$ 5,309.8	\$ 3,066.1	\$ 3,895.5	\$ 4,729.8

- (1) The period from January 1 to October 19, 2007 includes a LIFO liquidation gain of \$69.5 million, or \$42.3 million after-tax. The year ended December 31, 2008 includes a LIFO liquidation gain of \$15.6 million, or \$9.9 million after-tax.
- (2) The year ended December 31, 2008 includes a \$18.2 million gain on the retirement of debt as well as a \$6.7 million gain on the sale of corporate bonds. The year ended December 31, 2009 includes \$11.8 million of foreign exchange losses related to short-term loans from our Canadian operations, offset by the recognition of a \$2.7 million gain on the retirement of debt. The year ended December 31, 2010 includes \$2.6 million of foreign exchange losses related to the repayment of a long-term loan to our Canadian operations. The year ended December 31, 2011 includes a \$5.8 million gain on bargain purchase related to our Singer acquisition.
- (3) The period from January 1 to October 19, 2007 includes a \$2.9 million write off of unamortized debt issuance costs associated with the 2024 Notes that was classified as short term debt and \$2.7 million write off of debt issuance costs associated with our prior credit facility upon entering into an amended revolving credit facility relating to that facility during the first quarter of 2007. The year ended December 31, 2011 includes a \$1.1 million write off of debt issuance costs associated with our prior credit facility upon entering into an amended revolving credit facility on March 14, 2011.
- (4) The period from January 1 to October 19, 2007 includes a \$3.9 million income tax benefit as a result of a favorable settlement from an Internal Revenue Service examination. The year ended December 31, 2009 includes a \$92.7 million tax expense related to the establishment of a valuation allowance against the Company's US deferred tax assets and a \$14.5 million income tax charge on the sale of our joint venture in India. The year ended December 31, 2011 includes income tax benefits of \$18.0 million relating to the purchase accounting impact of the Turret and Singer acquisitions.

Table of Contents

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis should be read in conjunction with Item 6. Selected Financial Data and the audited Consolidated Financial Statements of Ryerson Holding Corporation and Subsidiaries and the Notes thereto in Item 8. Financial Statements and Supplementary Data. This discussion contains forward-looking statements that involve risks and uncertainties. See the section entitled Special Note Regarding Forward-Looking Statements. Our actual results and the timing of selected events could differ materially from those discussed in these forward-looking statements as a result of certain factors, including those discussed in Item 1A. Risk Factors and elsewhere in this Form 10-K.

Overview

Business

Ryerson Holding Corporation (Ryerson Holding), a Delaware corporation, is the parent company of Ryerson Inc. (Ryerson). Ryerson Holding is 99% owned by affiliates of Platinum Equity, LLC (Platinum).

On October 19, 2007, the merger (the Platinum Acquisition) of Rhombus Merger Corporation (Merger Sub), a Delaware corporation and a wholly-owned subsidiary of Ryerson Holding, with and into Ryerson, was consummated in accordance with the Agreement and Plan of Merger, dated July 24, 2007, by and among Ryerson, Ryerson Holding and Merger Sub (the Merger Agreement). Upon the closing of the Platinum Acquisition, Ryerson ceased to be a publicly traded company and became a wholly-owned subsidiary of Ryerson Holding.

Ryerson conducts materials distribution operations in the United States through its wholly-owned direct subsidiary Joseph T. Ryerson & Son, Inc. (JT Ryerson), in Canada through its indirect wholly-owned subsidiary Ryerson Canada, Inc., a Canadian corporation (Ryerson Canada), in China through its indirect wholly-owned subsidiary Ryerson China Limited (Ryerson China) and in Mexico through its indirect wholly-owned subsidiary Ryerson Metals de Mexico, S. de R.L. de C.V., a Mexican corporation (Ryerson Mexico). Unless the context indicates otherwise, Ryerson Holding, Ryerson, JT Ryerson, Ryerson Canada, Ryerson China, and Ryerson Mexico together with their subsidiaries, are collectively referred to herein as Ryerson Holding, we, us, our, or the Company.

In addition to our United States, Canada, China and Mexico operations, we conducted materials distribution operations in India through Tata Ryerson Limited, a joint venture with the Tata Iron & Steel Corporation, an integrated steel manufacturer in India until July 10, 2009 when we sold our 50% investment to our joint venture partner, Tata Steel Limited.

Industry and Operating Trends

We purchase large quantities of metal products from primary producers and sell these materials in smaller quantities to a wide variety of metals-consuming industries. More than one-half of the metals products sold are processed by us by burning, sawing, slitting, blanking, cutting to length or other techniques. We sell our products and services to many industries, including machinery manufacturers, metals fabricators, electrical machinery, transportation equipment, construction, wholesale distributors, and metals mills and foundries. Revenue is recognized upon delivery of product to customers. The timing of shipment is substantially the same as the timing of delivery to customers given the proximity of our distribution sites to our customers.

Sales, cost of materials sold, gross profit and operating expense control are the principal factors that impact our profitability:

Net Sales. Our sales volume and pricing is driven by market demand, which is largely determined by overall industrial production and conditions in specific industries in which our customers operate. Sales prices are also primarily driven by market factors such as overall demand and availability of product. Our net sales include revenue from product sales, net of returns, allowances, customer discounts and incentives.

Cost of materials sold. Cost of materials sold includes metal purchase and in-bound freight costs, third-party processing costs and direct and indirect internal processing costs. The cost of materials sold fluctuates with our sales volume and our ability to purchase metals at competitive prices. Increases in sales volume generally enable us both to improve purchasing leverage with suppliers, as we buy larger quantities of metals inventories, and to reduce operating expenses per ton sold.

Gross profit. Gross profit is the difference between net sales and the cost of materials sold. Our sales prices to our customers are subject to market competition. Achieving acceptable levels of gross profit is dependent on our acquiring metals at competitive prices, our ability to manage the impact of changing prices and efficiently managing our internal and external processing costs.

Table of Contents

Operating expenses. Optimizing business processes and asset utilization to lower fixed expenses such as employee, facility and truck fleet costs which cannot be rapidly reduced in times of declining volume, and maintaining low fixed cost structure in times of increasing sales volume, have a significant impact on our profitability. Operating expenses include costs related to warehousing and distributing our products as well as selling, general and administrative expenses.

The metals service center industry is generally considered cyclical with periods of strong demand and higher prices followed by periods of weaker demand and lower prices due to the cyclical nature of the industries in which the largest consumers of metals operate. However, domestic metals prices are volatile and remain difficult to predict due to its commodity nature and the extent which prices are affected by interest rates, foreign exchange rates, energy prices, international supply/demand imbalances, surcharges and other factors.

Results of Operations

	Year Ended December 31, 2011		Year Ended December 31, 2010		Year Ended December 31, 2009	
		% of Net Sales		% of Net Sales		% of Net Sales

Net loss attributable to Ryerson Holding Corporation	\$ (8.1)	(0.2)%	\$ (104.0)	(2.6)%	\$ (190.7)	(6.3)%

Comparison of the year ended December 31, 2010 with the year ended December 31, 2011**Net Sales**

Net sales increased 21.4% to \$4.7 billion in 2011 as compared to \$3.9 billion in 2010. Tons sold per ship day were 9,655 in 2011 as compared to 8,972 in 2010. Volume increased 8.0% in 2011 as improvement in the manufacturing sector of the economy favorably impacted all of our product lines. The average selling price per ton increased in 2011 to \$1,944 from \$1,730 in 2010 reflecting the improvement in market conditions compared to 2010. Average selling prices per ton increased for all of our product lines in 2011 with the largest increase in our carbon plate and carbon long product lines.

Table of Contents

Cost of Materials Sold

Cost of materials sold increased 21.3% to \$4.1 billion in 2011 compared to \$3.4 billion in 2010. The increase in cost of materials sold in 2011 compared to 2010 was due to the increase in tons sold resulting from the improvement in the economy along with increases in mill prices. The average cost of materials sold per ton increased to \$1,673 in 2011 from \$1,490 in 2010. The average cost of materials sold for our carbon plate and carbon long product lines increased more than our other products, in line with the change in average selling price per ton.

During 2011, LIFO expense was \$49 million, primarily related to an increase in the cost of carbon steel. During 2010, LIFO expense was \$52 million primarily related to increases in the costs of stainless and carbon steel.

Gross Profit

Gross profit as a percentage of sales was 13.9% in both 2011 and 2010. Gross profit increased 22.0% to \$658.8 million in 2011 as compared to \$539.8 million in 2010.

Operating Expenses

Operating expenses as a percentage of sales decreased to 11.8% in 2011 from 13.4% in 2010. Operating expenses in 2011 increased \$40.4 million from \$519.7 million in 2010 primarily due to the following reasons:

higher delivery costs of \$11.9 million resulting from higher volume,

higher salaries and wages of \$11.8 million,

higher facility costs of \$4.8 million,

higher outside consultant costs of \$4.3 million,

the \$11.1 million restructuring charge in 2011,

the \$9.3 million impairment charges on fixed assets and goodwill included in 2011 results, and

the gain on insurance settlement of \$2.6 million in 2010.

These changes were partially offset by:

the \$12.0 million restructuring and other charges along with the \$2.0 million pension curtailment loss in 2010, and

the impairment charge of \$1.4 million in 2010 to reduce the carrying value of certain assets to their net realizable value.

On a per ton basis, operating expenses were \$230 per ton in 2011 compared to \$231 per ton in 2010.

Operating Profit

Edgar Filing: Ryerson Holding Corp - Form 10-K

As a result of the factors above, in 2011 we reported an operating profit of \$98.7 million, or 2.1% of sales, compared to an operating profit of \$20.1 million, or 0.5% of sales, in 2010.

Other Expenses

Interest and other expense on debt increased to \$123.1 million in 2011 from \$107.5 million in 2010, primarily due to increased interest expense associated with our Ryerson Holding Notes. The Ryerson Holding Notes were issued on January 29, 2010 resulting in twelve months of interest expense in 2011 compared to eleven months in 2010. The interest rate on the Ryerson Holding Notes also increased from 14.50% at issuance to 15.50% at November 1, 2010 until July 31, 2011 and then to 16.50% at August 1, 2011. In addition, interest expense increased due to a higher level of borrowing on our credit facility and to recording a charge of \$1.1 million in the first quarter of 2011 to write off debt issuance costs associated with our prior credit facility upon entering into an amended revolving credit facility. Other income and (expense), net was income of \$4.6 million in 2011 as compared to expense of \$3.2 million in 2010. The year 2011 included a \$5.8 million bargain purchase gain on our acquisition of Singer Steel Company (Singer). The year 2010 was negatively impacted by \$2.6 million of foreign exchange loss realized upon the repayment of a long-term loan to our Canadian operations.

Table of Contents

Provision for Income Taxes

The Company recorded an income tax benefit of \$11.0 million in 2011 compared to an income tax expense of \$13.1 million in 2010. The \$11.0 million income tax benefit in 2011 primarily relates to \$18.0 million of tax benefits relating to the purchase accounting impact of the acquisitions of Singer and Turret Steel Industries Inc., Sunbelt-Turret Steel, Inc., Wilcox-Turret Cold Drawn, Inc., Imperial Trucking Company, LLC (collectively, Turret) net of foreign tax expense. The \$13.1 million income tax expense in 2010 primarily relates to additional valuation allowance recorded against deferred tax assets due to changes in the deferred tax asset amounts, adjustments to reflect the filing of the Company's 2009 federal income tax return and to foreign income tax expense.

Noncontrolling Interest

Ryerson China incurred a loss in 2011. The portion of the loss attributable to the noncontrolling interest in Ryerson China was \$0.7 million for 2011. The portion of the income attributable to the noncontrolling interest in Ryerson China was \$0.3 million for 2010.

Comparison of the year ended December 31, 2009 with the year ended December 31, 2010

Net Sales

Net sales increased 27.1% to \$3.9 billion in 2010 as compared to \$3.1 billion in 2009. Tons sold per ship day were 8,972 in 2010 as compared to 7,496 in 2009. Volume increased 19.7% in 2010 as improvement in the manufacturing sector of the economy favorably impacted all of our product lines. The average selling price per ton increased in 2010 to \$1,730 from \$1,630 in 2009 reflecting the improvement in market conditions compared to 2009. Average selling prices per ton increased for all of our product lines in 2010 with the largest increase in our stainless steel product line.

Cost of Materials Sold

Cost of materials sold increased 28.6% to \$3.4 billion in 2010 compared to \$2.6 billion in 2009. The increase in cost of materials sold in 2010 compared to 2009 was due to the increase in tons sold resulting from the improvement in the economy along with increases in mill prices. The average cost of materials sold per ton increased to \$1,490 in 2010 from \$1,388 in 2009. The average cost of materials sold for our stainless steel product line increased more than our other products, in line with the change in average selling price per ton.

During 2010, LIFO expense was \$52 million, primarily related to increases in the costs of stainless and carbon steel. During 2009, LIFO income was \$174 million primarily related to decreases in inventory prices.

Gross Profit

Gross profit as a percentage of sales was 13.9% in 2010 as compared to 14.9% in 2009. While revenue per ton increased in 2010 as compared to 2009, our cost of materials sold per ton increased at a faster pace resulting in lower gross margins. Gross profit increased 18.4% to \$539.8 million in 2010 as compared to \$456.1 million in 2009.

Operating Expenses

Operating expenses as a percentage of sales decreased to 13.4% in 2010 from 16.3% in 2009. Operating expenses in 2010 increased \$21.9 million from \$497.8 million in 2009 primarily due to the following reasons:

increased bonus and commission expenses of \$14.4 million resulting from increased profitability,

higher salaries and wages of \$10.0 million and higher employee benefit costs of \$6.7 million,

higher delivery costs of \$7.9 million resulting from higher volume,

Edgar Filing: Ryerson Holding Corp - Form 10-K

higher facility costs of \$7.6 million primarily due to higher operating supply costs,

the \$12.0 million restructuring and other charges along with the \$2.0 million pension curtailment loss in 2010, and

the \$1.4 million impairment charges on fixed assets included in 2010 results.

These cost increases were partially offset by:

the impairment charge of \$19.3 million in 2009 to reduce the carrying value of certain assets to their net realizable value,

lower reorganization costs of \$14.7 million in 2010 excluding the \$12.0 million restructuring and other charge,

lower bad debt expense of \$5.5 million, and

lower legal expenses of \$3.0 million.

Table of Contents

On a per ton basis, 2010 operating expenses decreased to \$231 per ton from \$265 per ton in 2009 due to the relatively greater increase in volume being partially offset by higher operating expenses.

Operating Profit (Loss)

As a result of the factors above, in 2010 we reported an operating profit of \$20.1 million, or 0.5% of sales, compared to an operating loss of \$41.7 million, or 1.4% of sales, in 2009.

Other Expenses

Interest and other expense on debt increased to \$107.5 million in 2010 from \$72.9 million in 2009 primarily due to the interest expense associated with our 14 1/2% Senior Discount Notes due 2015 (the Ryerson Holding Notes), which were issued in the first quarter of 2010 as well as to higher amortization of credit facility issuance costs in China and higher average credit agreement borrowings in the U.S. as compared to the prior year. Other income and (expense), net was an expense of \$3.2 million in 2010 compared to expense of \$10.2 million in 2009. The year 2010 was negatively impacted by \$2.6 million of foreign exchange loss realized upon the repayment of a long-term loan to our Canadian operations. The year 2009 was negatively impacted by \$11.8 million of foreign exchange losses related to short-term loans from our Canadian operations, partially offset by the recognition of a \$2.7 million gain on the retirement of a portion of the Ryerson Notes we repurchased at a discount.

Provision for Income Taxes

Income tax expense was \$13.1 million in 2010 as compared to \$66.9 million in 2009. The \$13.1 million income tax expense in 2010 primarily relates to additional valuation allowance recorded against deferred tax assets due to changes in the deferred tax asset amounts, adjustments to reflect the filing of the Company's 2009 federal income tax return and to foreign income tax expense. During 2009, the Company recorded a charge of \$92.7 million to establish a valuation allowance against its U.S. deferred tax assets, as the Company determined that it was more-likely-than-not that it would not realize the full value of a portion of its U.S. deferred tax assets. In 2009, we also incurred a \$14.5 million income tax charge and an \$8.5 million capital gains withholding tax in India on the sale of our joint venture interest. Partially offsetting the charges in 2009 is the tax benefit recognized for losses at the statutory tax rates and an \$8.5 million foreign tax credit in the jurisdictions of our foreign subsidiaries.

Noncontrolling Interest

The portion of the income attributable to the noncontrolling interest in Ryerson China was \$0.3 million for 2010. Ryerson China incurred a loss in 2009. The portion of the loss attributable to the noncontrolling interest in Ryerson China was \$1.5 million for 2009.

Liquidity and Capital Resources

The Company's primary sources of liquidity are cash and cash equivalents, cash flows from operations and borrowing availability under our \$1.35 billion revolving credit facility agreement that matures on the earliest of (a) March 14, 2016, (b) the date that occurs 90 days prior to the scheduled maturity date of the Floating Rate Senior Secured Notes due November 1, 2014 (2014 Notes), if the 2014 Notes are then outstanding and (c) the date that occurs 90 days prior to the scheduled maturity date of the 12% Senior Secured Notes due November 1, 2015 (2015 Notes) (together, with the 2014 Notes, the Ryerson Notes), if the 2015 Notes are then outstanding (as amended, the Ryerson Credit Facility). Its principal source of operating cash is from the sale of metals and other materials. Its principal uses of cash are for payments associated with the procurement and processing of metals and other materials inventories, costs incurred for the warehousing and delivery of inventories and the selling and administrative costs of the business, capital expenditures, and for interest payments on debt.

The following table summarizes the Company's cash flows:

	Year Ended December 31,		
	2011	2010	2009
	(In millions)		
Net cash provided by (used in) operating activities	\$ 54.5	\$ (198.7)	\$ 284.9
Net cash provided by (used in) investing activities	(115.0)	(44.4)	32.1

Edgar Filing: Ryerson Holding Corp - Form 10-K

Net cash provided by (used in) financing activities	57.9	185.1	(342.4)
Effect of exchange rates on cash	1.7	5.6	10.0
Net decrease in cash and cash equivalents	\$ (0.9)	\$ (52.4)	\$ (15.4)

The Company had cash and cash equivalents at December 31, 2011 of \$61.7 million, compared to \$62.6 million at December 31, 2010 and \$115.0 million at December 31, 2009. The Company had \$1,316 million and \$1,211 million of total debt outstanding, a debt-to-capitalization ratio of 125% and 118% and \$274 million and \$317 million available under the Ryerson Credit Facility at December 31, 2011 and 2010, respectively. The Company had total liquidity (defined as cash and cash equivalents plus

Table of Contents

availability under the Ryerson Credit Facility and foreign debt facilities) of \$358 million at December 31, 2011 versus \$394 million at December 31, 2010. Total liquidity is a non-GAAP financial measure. We believe that total liquidity provides additional information for measuring our ability to fund our operations. Total liquidity does not represent, and should not be used as a substitute for, net income or cash flows from operations as determined in accordance with GAAP and total liquidity is not necessarily an indication of whether cash flow will be sufficient to fund our cash requirements. At December 31, 2009, the Company had \$754 million of total debt outstanding, a debt-to-capitalization ratio of 83% and \$268 million available under the Ryerson Credit Facility.

Below is a reconciliation of cash and cash equivalents to total liquidity:

	December 31, 2011	December 31, 2010 (In millions)	December 31, 2009
Cash and cash equivalents	\$ 62	\$ 63	\$ 115
Availability on Ryerson Credit Facility and foreign debt facilities	296	331	276
Total liquidity	\$ 358	\$ 394	\$ 391

Of the total cash and cash equivalents, as of December 31, 2011, \$42.4 million was held in subsidiaries outside the United States which is deemed to be permanently reinvested. Ryerson does not currently foresee a need to repatriate funds from its non-U.S. subsidiaries. Although Ryerson has historically satisfied needs for more capital in the U.S. through debt or equity issuances, Ryerson could elect to repatriate funds held in foreign jurisdictions. This alternative could result in higher effective tax rates.

During the year ended December 31, 2011, net cash provided by operating activities was \$54.5 million. During the year ended December 31, 2010, net cash used by operating activities was \$198.7 million. During the year ended December 31, 2009, net cash provided by operating activities was \$284.9 million. Net loss was \$8.8 million, \$103.7 million and \$192.2 million for the years ended December 31, 2011, 2010 and 2009, respectively. Cash provided by operating activities was \$54.5 million during the year ended December 31, 2011 and was primarily the result of a decrease in inventories of \$92.9 million resulting from increased sales, partially offset by a decrease in accounts payable of \$71.7 million. Cash used by operating activities was \$198.7 million during the year ended December 31, 2010 and was primarily the result of an increase in inventories of \$170.9 million resulting from higher inventory purchases to support increased sales levels, an increase in accounts receivable of \$137.5 million reflecting higher sales levels, partially offset by an increase in accounts payable of \$102.3 million. Cash provided by operating activities of \$284.9 million during the year ended December 31, 2009 was primarily the result of a decrease in inventories of \$226.9 million resulting from management's efforts to reduce inventory in a weak economic environment, a decrease in accounts receivable of \$142.4 million reflecting lower volume in 2009 and a decrease in taxes receivable of \$43.2 million.

Net cash used by investing activities was \$115.0 million and \$44.4 million in 2011 and 2010, respectively. Net cash provided by investing activities \$32.1 million in 2009. Capital expenditures for the years ended December 31, 2011, 2010 and 2009 were \$47.0 million, \$27.0 million and \$22.8 million, respectively. The Company sold property, plant and equipment generating cash proceeds of \$11.3 million, \$5.5 million and \$18.4 million during the years ended December 31, 2011, 2010 and 2009, respectively. In 2011 and 2010, the Company made several acquisitions, resulting in cash outflows of \$95.2 million and \$12.0 million, respectively. The Company sold its 50 percent investment in Tata Ryerson Limited to its joint venture partner, Tata Steel Limited, during the third quarter of 2009, generating cash proceeds of \$49.0 million.

Net cash provided in financing activities was \$57.9 million for the year ended December 31, 2011, primarily related to credit facility borrowings to finance accounts receivable and inventory to support increased sales levels in 2011. Net cash provided in financing activities was \$185.1 million for the year ended December 31, 2010, primarily related to the issuance of the Ryerson Holding Notes and credit facility borrowings to finance accounts receivable and inventory to support increased sales levels in 2010, offset by a \$213.8 million dividend paid to our stockholders. We also acquired Van Shung Chong Holdings Limited's (VSC), our former joint venture partner, remaining 20 percent ownership in Ryerson China for \$17.5 million. Net cash used in financing activities was \$342.4 million for the year ended December 31, 2009, primarily related to credit facility repayments made possible from lower working capital requirements as well as a \$56.5 million dividend paid to our stockholders.

We believe that cash flow from operations and proceeds from the Ryerson Credit Facility will provide sufficient funds to meet our contractual obligations and operating requirements in the normal course of business.

Total Debt

Edgar Filing: Ryerson Holding Corp - Form 10-K

As a result of the net cash used in operating activities, total debt, less unamortized discount in the Consolidated Balance Sheet increased to \$1,316 million at December 31, 2011 from \$1,211 million at December 31, 2010.

Table of Contents

Total debt outstanding as of December 31, 2011 consisted of the following amounts: \$520.0 million borrowing under the Ryerson Credit Facility, \$102.9 million under the 2014 Notes, \$368.7 million under the 2015 Notes, \$292.6 million under the Ryerson Holding Notes, and \$32.0 million of foreign debt. Availability at December 31, 2011 and 2010 under the Ryerson Credit Facility was \$274 million and \$317 million, respectively. Discussion of our outstanding debt follows.

Ryerson Credit Facility

On March 14, 2011, Ryerson amended and restated its \$1.35 billion revolving credit facility agreement (as amended, the Ryerson Credit Facility) which extends the maturity date to the earliest of (a) March 14, 2016, (b) the date that occurs 90 days prior to the scheduled maturity date of the Floating Rate Senior Secured Notes due November 1, 2014 (2014 Notes), if the 2014 Notes are then outstanding and (c) the date that occurs 90 days prior to the scheduled maturity date of the 12% Senior Secured Notes due November 1, 2015 (2015 Notes) (together, with the 2014 Notes, the Ryerson Notes), if the 2015 Notes are then outstanding. At December 31, 2011, Ryerson had \$520.0 million of outstanding borrowings, \$22 million of letters of credit issued and \$274 million available under the \$1.35 billion Ryerson Credit Facility compared to \$457.3 million of outstanding borrowings, \$24 million of letters of credit issued and \$317 million available at December 31, 2010. Total credit availability is limited by the amount of eligible accounts receivable and inventory pledged as collateral under the agreement insofar as the Company is subject to a borrowing base comprised of the aggregate of these two amounts, less applicable reserves. Eligible accounts receivable, at any date of determination, are comprised of the aggregate value of all accounts directly created by a borrower in the ordinary course of business arising out of the sale of goods or the rendition of services, each of which has been invoiced, with such receivables adjusted to exclude various ineligible accounts, including, among other things, those to which a borrower does not have sole and absolute title and accounts arising out of a sale to an employee, officer, director, or affiliate of a borrower. The weighted average interest rate on the borrowings under the Ryerson Credit Facility was 2.4 percent and 2.1 percent at December 31, 2011 and 2010, respectively.

Amounts outstanding under the Ryerson Credit Facility bear interest at a rate determined by reference to the base rate (Bank of America's prime rate) or a LIBOR rate or, for the Company's Canadian subsidiary which is a borrower, a rate determined by reference to the Canadian base rate (Bank of America-Canada Branch's Base Rate for loans in U.S. Dollars in Canada) or the BA rate (average annual rate applicable to Canadian Dollar bankers' acceptances) or a LIBOR rate and the Canadian prime rate (Bank of America-Canada Branch's Prime Rate). The spread over the base rate and Canadian prime rate is between 0.75% and 1.50% and the spread over the LIBOR and for the bankers' acceptances is between 1.75% and 2.50%, depending on the amount available to be borrowed. Overdue amounts and all amounts owed during the existence of a default bear interest at 2% above the rate otherwise applicable thereto. The Company also pays commitment fees on amounts not borrowed at a rate between 0.375% and 0.50% depending on the average borrowings as a percentage of the total \$1.35 billion agreement during a rolling three month period.

Borrowings under the Ryerson Credit Facility are secured by first-priority liens on all of the inventory, accounts receivable, lockbox accounts and related assets of Ryerson, subsidiary borrowers and certain other U.S. subsidiaries of Ryerson that act as guarantors.

The Ryerson Credit Facility contains covenants that, among other things, restrict Ryerson with respect to the incurrence of debt, the creation of liens, transactions with affiliates, mergers and consolidations, sales of assets and acquisitions. The Ryerson Credit Facility also requires that, if availability under such facility declines to a certain level, Ryerson maintain a minimum fixed charge coverage ratio as of the end of each fiscal quarter.

The Ryerson Credit Facility contains events of default with respect to, among other things, default in the payment of principal when due or the payment of interest, fees and other amounts after a specified grace period, material misrepresentations, failure to perform certain specified covenants, certain bankruptcy events, the invalidity of certain security agreements or guarantees, material judgments and the occurrence of a change of control of Ryerson. If such an event of default occurs, the lenders under the Ryerson Credit Facility will be entitled to various remedies, including acceleration of amounts outstanding under the Ryerson Credit Facility and all other actions permitted to be taken by secured creditors.

The lenders under the Ryerson Credit Facility have the ability to reject a borrowing request if any event, circumstance or development has occurred that has had or could reasonably be expected to have a material adverse effect on Ryerson. If Ryerson or any significant subsidiaries of the other borrowers becomes insolvent or commences bankruptcy proceedings, all amounts borrowed under the Ryerson Credit Facility will become immediately due and payable.

Proceeds from borrowings under the Ryerson Credit Facility and repayments of borrowings thereunder that are reflected in the Consolidated Statements of Cash Flows represent borrowings under the Company's revolving credit agreement with original maturities greater than three months. Net proceeds (repayments) under the Ryerson Credit Facility represent borrowings under the Ryerson Credit Facility with original maturities less than three months.

Table of Contents

Ryerson Holding Notes

On January 29, 2010, Ryerson Holding issued \$483 million aggregate principal amount at maturity of 14 1/2% Senior Discount Notes due 2015. No cash interest accrues on the Ryerson Holding Notes. The Ryerson Holding Notes had an initial accreted value of \$455.98 per \$1,000 principal amount and will accrete from the date of issuance until maturity on a semi-annual basis. The accreted value of each Ryerson Holding Note increased from the date of issuance until October 31, 2010 at a rate of 14.50%. Thereafter the interest rate increased by 1% (to 15.50%) until July 31, 2011, an additional 1.00% (to 16.50%) on August 1, 2011 until April 30, 2012, and increases by an additional 0.50% (to 17.00%) on May 1, 2012 until the maturity date. Interest compounds semi-annually such that the accreted value will equal the principal amount at maturity of each note on that date. At December 31, 2011, the accreted value of the Ryerson Holding Notes was \$292.6 million. The Ryerson Holding Notes are not guaranteed by any of Ryerson Holding's subsidiaries and are secured by a first-priority security interest in the capital stock of Ryerson. The Ryerson Holding Notes rank equally in right of payment with all of Ryerson Holding's senior debt and senior in right of payment to all of Ryerson Holding's subordinated debt. The Ryerson Holding Notes are effectively junior to Ryerson Holding's other secured debt to the extent of the collateral securing such debt (other than the capital stock of Ryerson). Because the Ryerson Holding Notes are not guaranteed by any of Ryerson Holding's subsidiaries, the notes are structurally subordinated to all indebtedness and other liabilities (including trade payables) of Ryerson Holding's subsidiaries, including Ryerson.

The Ryerson Holding Notes contain customary covenants that, among other things, limit, subject to certain exceptions, Ryerson Holding's ability to incur additional indebtedness, pay dividends on its capital stock or repurchase its capital stock, make certain investments or other restricted payments, create liens or use assets as security in other transactions, enter into sale and leaseback transactions, merge, consolidate or transfer or dispose of substantially all of Ryerson Holding's assets, and engage in certain transactions with affiliates.

The Ryerson Holding Notes are redeemable, at our option, in whole or in part, at any time at specified redemption prices. We are required to redeem the Ryerson Holding Notes upon the receipt of net proceeds of certain qualified equity issuances, specified change of controls and/or specified receipt of dividends.

The terms of the Ryerson Notes (discussed below) restrict Ryerson from paying dividends to Ryerson Holding. Subject to certain exceptions, Ryerson may only pay dividends to Ryerson Holding to the extent of 50% of future net income, once prior losses are offset. In the event Ryerson is restricted from providing Ryerson Holding with sufficient distributions to fund the retirement of the Ryerson Holding Notes at maturity, Ryerson Holding may default on the Ryerson Holding Notes unless other sources of funding are available.

Pursuant to a registration rights agreement, Ryerson Holding agreed to file with the SEC by October 26, 2010, a registration statement with respect to an offer to exchange each of the Ryerson Holding Notes for a new issue of Ryerson Holding's debt securities registered under the Securities Act, with terms substantially identical to those of the Ryerson Holding Notes and to consummate an exchange offer no later than February 23, 2011. Ryerson Holding completed the exchange offer on December 7, 2010. As a result of completing the exchange offer, Ryerson Holding satisfied its obligations under the registration rights agreement covering the Ryerson Holding Notes.

Ryerson Notes

On October 19, 2007, Ryerson issued the Ryerson Notes. The 2014 Notes bear interest at a rate, reset quarterly, of LIBOR plus 7.375% per annum. The 2015 Notes bear interest at a rate of 12% per annum. The Ryerson Notes are fully and unconditionally guaranteed on a senior secured basis by certain of Ryerson's existing and future subsidiaries (including those existing and future domestic subsidiaries that are co-borrowers or guarantee obligations under the Ryerson Credit Facility).

At December 31, 2011, \$368.7 million of the 2015 Notes and \$102.9 million of the 2014 Notes remain outstanding. During 2011, \$7.5 million principal amount of the 2015 Notes were repurchased for \$7.7 million and retired, resulting in the recognition of a \$0.2 million loss within other income and (expense), net on the consolidated statement of operations. During 2009, \$6.0 million principal amount of the 2015 Notes were repurchased for \$3.3 million and retired, resulting in the recognition of a \$2.7 million gain within other income and (expense), net on the consolidated statement of operations.

The Ryerson Notes and guarantees are secured by a first-priority lien on substantially all of Ryerson and its guarantors' present and future assets located in the United States (other than receivables, inventory, related general intangibles, certain other assets and proceeds thereof) including equipment, owned real property interests valued at \$1 million or more, and all present and future shares of capital stock or other equity interests of each of Ryerson and its guarantors' directly owned domestic subsidiaries and 65% of the present and future shares of capital stock or other equity interests, of each of Ryerson and its guarantor's directly owned foreign restricted subsidiaries, in each case subject to certain exceptions and customary permitted liens. The Ryerson Notes and guarantees are secured on a second-priority basis by a lien on the assets that secure Ryerson's obligations under the Ryerson Credit Facility. The Ryerson Notes contain customary covenants that, among other things, limit, subject

Edgar Filing: Ryerson Holding Corp - Form 10-K

to certain exceptions, Ryerson's ability, and the ability of its restricted subsidiaries, to incur additional indebtedness, pay dividends on its capital stock or repurchase its capital stock, make investments, sell assets, engage in acquisitions, mergers or consolidations or create liens or use assets as security in other transactions. Subject to certain exceptions, Ryerson may only pay dividends to Ryerson Holding to the extent of 50% of future net income, once prior losses are offset.

Table of Contents

The Ryerson Notes became redeemable by Ryerson, in whole or in part, at any time on or after November 1, 2011 at specified redemption prices. If a change of control occurs, Ryerson must offer to purchase the Ryerson Notes at 101% of their principal amount, plus accrued and unpaid interest.

Pursuant to a registration rights agreement, Ryerson agreed to file with the SEC by July 15, 2008 a registration statement with respect to an offer to exchange each of the notes for a new issue of our debt securities registered under the Securities Act, with terms substantially identical to those of the Ryerson Notes and to consummate an exchange offer no later than November 12, 2008. Ryerson did not consummate an exchange offer by November 12, 2008 and therefore, was required to pay additional interest to the holders of the Ryerson Notes. As a result, Ryerson paid an additional approximately \$0.6 million in interest to the holders of the Ryerson Notes with the interest payment on May 1, 2009. Ryerson completed the exchange offer on April 9, 2009. Upon completion of the exchange offer, Ryerson's obligation to pay additional interest ceased.

Foreign Debt

At December 31, 2011, Ryerson China's total foreign borrowings were \$32.0 million, of which, \$30.1 million was owed to banks in Asia at a weighted average interest rate of 6.2% secured by inventory and property, plant and equipment. Ryerson China also owed \$1.9 million at December 31, 2011 to other parties at a weighted average interest rate of 0.9%. Of the total borrowings of \$19.7 million outstanding at December 31, 2010, \$17.9 million was owed to banks in Asia at a weighted average interest rate of 4.3% secured by inventory and property, plant and equipment. Ryerson China also owed \$1.8 million at December 31, 2010 to other parties at a weighted average interest rate of 1.0%. Availability under the foreign credit lines was \$22 million and \$14 million at December 31, 2011 and 2010, respectively. Letters of credit issued by our foreign subsidiaries totaled \$6 million and \$7 million at December 31, 2011 and 2010, respectively.

\$150 Million 8 1/4% Senior Notes due 2011

On December 15, 2011, the maturity date for our 8 1/4% Senior Notes due 2011, all outstanding 2011 Notes were paid in full and cancelled.

Pension Funding

The Company made contributions of \$43.9 million in 2011, \$46.6 million in 2010, and \$7.5 million in 2009 to improve the Company's pension plans funded status. At December 31, 2011, as reflected in NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Note 10: Employee Benefits pension liabilities exceeded plan assets by \$359 million. The Company anticipates that it will have a minimum required pension contribution of approximately \$51 million in 2012 under the Employee Retirement Income Security Act of 1974 (ERISA) and Pension Protection Act (PPA) in the U.S and the Ontario Pension Benefits Act. Future contribution requirements depend on the investment returns on plan assets, the impact of discount rates on pension liabilities, and changes in regulatory requirements. The Company is unable to determine the amount or timing of any such contributions required by ERISA or whether any such contributions would have a material adverse effect on the Company's financial position or cash flows. The Company believes that cash flow from operations and the Ryerson Credit Facility described above will provide sufficient funds to make the minimum required contribution in 2012.

Income Tax Payments

The Company received income tax refunds of \$3.1 million, \$46.8 million and \$29.1 million in 2011, 2010 and 2009, respectively.

Off-Balance Sheet Arrangements

In the normal course of business with customers, vendors and others, we have entered into off-balance sheet arrangements, such as letters of credit, which totaled \$28 million as of December 31, 2011. Additionally, other than normal course long-term operating leases included in the following Contractual Obligations table, we do not have any material off-balance sheet financing arrangements. None of these off-balance sheet arrangements are likely to have a material effect on our current or future financial condition, results of operations, liquidity or capital resources.

Table of Contents**Contractual Obligations**

The following table presents contractual obligations at December 31, 2011:

	00000000	00000000	00000000	00000000	00000000
	Total	Less than 1 year	Payments Due by Period		After 5 years
			1 3 years	4 5 years	
			(In millions)		
Contractual Obligations(1)					
Floating Rate Notes	\$ 103	\$	\$ 103	\$	\$
Fixed Rate Long Term Notes	369			369	
Senior Discount Notes	483			483	
Ryerson Credit Facility	520			520	
Foreign Debt	32	32			
Interest on Floating Rate Notes, Fixed Rate Notes, Ryerson Credit Facility and Foreign Debt (2)	237	65	128	44	
Purchase Obligations (3)	56	56			
Capital Leases	1		1		
Operating Leases	126	23	36	26	41
Total	\$ 1,927	\$ 176	\$ 268	\$ 1,442	\$ 41

- (1) The contractual obligations disclosed above do not include our potential future pension funding obligations (see previous discussion under Pension Funding caption).
- (2) Interest payments related to the variable rate debt were estimated using the weighted average interest rate for the Ryerson Credit Facility and the 2014 Notes.
- (3) The purchase obligations with suppliers are entered into when we receive firm sales commitments with certain of our customers.

Capital Expenditures

Capital expenditures during 2011, 2010 and 2009 totaled \$47.0 million, \$27.0 million and \$22.8 million, respectively. Capital expenditures were primarily for machinery and equipment.

The Company anticipates capital expenditures, excluding acquisitions, to be approximately \$55 million in 2012. The increased spending over prior years includes improvement in the Company's North American processing capabilities and expansion in emerging markets.

Restructuring**2011**

In October 2011, the Company implemented a reorganization plan that reduced headcount by 292 employees resulting in a restructuring charge of \$9.8 million recorded in the fourth quarter. The Company reduced headcount in a continued effort to decentralize functions to its regions as well as to execute management's strategy of focusing on long and fabricated product sales. The charge consists of restructuring expenses of \$8.4 million for employee-related costs, primarily severance, and additional non-cash pensions and other post-retirement benefit costs totaling \$1.4 million. In the fourth quarter of 2011, the Company paid \$4.0 million in employee costs related to this restructuring. The remaining \$4.4 million balance is expected to be paid in 2012.

In 2011, the Company recorded an additional charge of \$1.3 million related to the closure of one of its facilities for which it had recorded a charge of \$12.5 million in the fourth quarter of 2010. The charge consists of additional employee-related costs, primarily severance. In 2011, the Company paid \$1.3 million in employee costs related to this facility closure. The remaining \$0.1 million balance is expected to be paid in 2012.

Edgar Filing: Ryerson Holding Corp - Form 10-K

During 2011, the Company paid the remaining \$0.2 million of tenancy and other costs related to the exit plan liability recorded on October 19, 2007, as part of the Platinum Acquisition.

2010

During 2010, the Company paid \$0.7 million related to the exit plan liability recorded on October 19, 2007, as part of the Platinum Acquisition.

Table of Contents

In the fourth quarter of 2010, the Company recorded a \$12.5 million charge related to the closure of one of its facilities. The charge consists of restructuring expenses of \$0.4 million for employee-related costs, including severance for 66 employees, and additional non-cash pensions and other post-retirement benefits costs totaling \$12.1 million. Included in the non-cash pension charge is a pension curtailment loss of \$2.0 million. In the fourth quarter of 2010, the Company paid \$0.3 million in employee costs related to this facility closure.

2009

During 2009, the Company paid \$6.4 million related to the exit plan liability recorded on October 19, 2007, as part of the Platinum Acquisition. The Company also recorded a \$0.3 million reduction to the exit plan liability primarily due to lower property taxes on closed facilities than estimated in the initial restructuring plan.

Other Charges

In the fourth quarter of 2010, the Company also recorded a charge of \$1.5 million for costs related to the retirement of its former Chief Executive Officer, which is recorded within the Restructuring and other charges line of the consolidated statement of operations.

Deferred Tax Amounts

At December 31, 2011, the Company had a net deferred tax liability of \$95 million comprised primarily of a deferred tax asset of \$139 million related to pension liabilities, a deferred tax asset related to postretirement benefits other than pensions of \$54 million, \$30 million of Alternative Minimum Tax (AMT) credit carryforwards, and deferred tax assets of \$76 million related to federal, local and foreign loss carryforwards, offset by a valuation allowance of \$152 million, and deferred tax liabilities of \$114 million related to fixed assets and \$131 million related to inventory.

The Company's deferred tax assets include \$60 million related to US federal net operating loss (NOL) carryforwards, \$12 million related to state NOL carryforwards and \$4 million related to foreign NOL carryforwards, available at December 31, 2011.

In accordance with FASB ASC 740, *Income Taxes*, the Company assesses the realizability of its deferred tax assets. The Company records a valuation allowance when, based upon the evaluation of all available evidence, it is more-likely-than-not that all or a portion of the deferred tax assets will not be realized. In making this determination, we analyze, among other things, our recent history of earnings, the nature and timing of reversing book-tax temporary differences, tax planning strategies and future income. After considering both the positive and negative evidence available, in the second quarter of 2009, the Company determined that it was more-likely-than-not that it would not realize a portion of its U.S. deferred tax assets. As a result, the Company established a valuation allowance against a portion of its U.S. deferred tax assets. The Company has maintained a valuation allowance against a portion of its U.S. deferred tax assets since that time. As of December 31, 2009, the Company had a valuation allowance of \$98.8 million, an increase of \$98.6 million from the prior year. Of the \$98.6 million increase during 2009, \$92.7 million was charged to the income tax provision and \$5.9 million was charged to other comprehensive income. As of December 31, 2010, the valuation allowance was \$136.6 million, an increase of \$37.8 million from the prior year. Of the \$37.8 million increase during 2010, \$36.5 million was charged to the income tax provision, \$4.4 million was charged to other comprehensive income and \$3.1 million reflected a decrease in net deferred tax assets for which a valuation allowance was fully provided. As of December 31, 2011, the valuation allowance was \$151.7 million, an increase of \$15.1 million from the prior year. Of the \$15.1 million increase during 2011, \$11.7 million was credited to the income tax provision predominantly due to the impact of purchase accounting for the Singer and Turret acquisitions and \$26.8 million was charged to other comprehensive income predominantly due to increases in our unfunded pension liability.

Critical Accounting Estimates

Preparation of this Form 10-K requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of sales and expenses during the reporting period. Our critical accounting policies, including the assumptions and judgments underlying them, are disclosed in Item 8 under the caption

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Note 1: Statement of Accounting and Financial Policies. These policies have been consistently applied and address such matters as revenue recognition, depreciation methods, inventory valuation, asset impairment recognition and pension and postretirement expense. While policies associated with estimates and judgments may be affected by different assumptions or conditions, we believe our estimates and judgments associated with the reported amounts are appropriate in the circumstances. Actual results may differ from those estimates.

We consider the policies discussed below as critical to an understanding of our financial statements, as application of these policies places the most significant demands on management's judgment, with financial reporting results relying on estimation of matters that are uncertain.

Table of Contents

Provision for allowances, claims and doubtful accounts: We perform ongoing credit evaluations of customers and set credit limits based upon review of the customers' current credit information and payment history. We monitor customer payments and maintain a provision for estimated credit losses based on historical experience and specific customer collection issues that we have identified. Estimation of such losses requires adjusting historical loss experience for current economic conditions and judgments about the probable effects of economic conditions on certain customers. We cannot guarantee that the rate of future credit losses will be similar to past experience. Provisions for allowances and claims are based upon historical rates, expected trends and estimates of potential returns, allowances, customer discounts and incentives. We consider all available information when assessing the adequacy of the provision for allowances, claims and doubtful accounts.

Inventory valuation: Our inventories are valued at cost, which is not in excess of market. Inventory costs reflect metal and in-bound freight purchase costs, third-party processing costs and internal direct and allocated indirect processing costs. Cost is primarily determined by the LIFO method. We regularly review inventory on hand and record provisions for obsolete and slow-moving inventory based on historical and current sales trends. Changes in product demand and our customer base may affect the value of inventory on hand which may require higher provisions for obsolete inventory.

Deferred tax asset: We record operating loss and tax credit carryforwards and the estimated effect of temporary differences between the tax basis of assets and liabilities and the reported amounts in the Consolidated Balance Sheet. We follow detailed guidelines in each tax jurisdiction when reviewing tax assets recorded on the balance sheet and provide for valuation allowances as required. Deferred tax assets are reviewed for recoverability based on historical taxable income, the expected reversals of existing temporary differences, tax planning strategies and on forecasts of future taxable income. The forecasts of future taxable income require assumptions regarding volume, selling prices, margins, expense levels and industry cyclicality. If we are unable to generate sufficient future taxable income in certain tax jurisdictions, we will be required to record additional valuation allowances against our deferred tax assets related to those jurisdictions.

Long-lived Assets and Other Intangible Assets: Long-lived assets held and used are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. We estimate the future cash flows expected to result from the use of the asset and its eventual disposition. If the sum of the expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the asset, an impairment is recognized. Any related impairment loss is calculated based upon comparison of the fair value to the carrying value of the asset. Separate intangible assets that have finite useful lives are amortized over their useful lives. An impaired intangible asset would be written down to fair value, using the discounted cash flow method.

Goodwill: In assessing the recoverability of our goodwill and other intangibles we must make assumptions regarding estimated future cash flows and other factors to determine the fair value of the respective assets. We perform an annual review in the fourth quarter of each year, or more frequently if indicators of potential impairment exist, to determine if the carrying value of the recorded goodwill is impaired. Our impairment review is a two-step process. In step one, we compare the fair value of the reporting unit in which goodwill resides to its carrying value. If the carrying amount exceeds the fair value, the second step of the goodwill impairment test is performed to measure the amount of the impairment loss, if any. We estimate the reporting unit's fair value using an income approach based on discounted future cash flows that requires us to estimate income from operations based on projected results and discount rates based on a weighted average cost of capital of comparable companies. The income approach is subject to a comparison for reasonableness to a market approach at the date of valuation. If these estimates or their related assumptions for commodity prices and demand change in the future, we may be required to record impairment charges for these assets not previously recorded. The Company cannot predict the occurrence of events that might adversely affect the reported value of goodwill.

Pension and postretirement benefit plan assumptions: We sponsor various benefit plans covering a substantial portion of its employees for pension and postretirement medical costs. Statistical methods are used to anticipate future events when calculating expenses and liabilities related to the plans. The statistical methods include assumptions about, among other things, the discount rate, expected return on plan assets, rate of increase of health care costs and the rate of future compensation increases. Our actuarial consultants also use subjective factors such as withdrawal and mortality rates when estimating expenses and liabilities. The discount rate used for U.S. plans reflects the market rate for high-quality fixed-income investments on our annual measurement date (December 31) and is subject to change each year. The discount rate was determined by matching, on an approximate basis, the coupons and maturities for a portfolio of corporate bonds (rated Aa or better by Moody's Investor Services or AA or better by Standard and Poor's) to the expected plan benefit payments defined by the projected benefit obligation. The discount rates used for plans outside the U.S. are based on a combination of relevant indices regarding corporate and government securities, the duration of the liability and appropriate judgment. The assumptions used in the actuarial calculation of expenses and liabilities may differ materially from actual results due to changing market and economic conditions, higher or lower withdrawal rates or longer or shorter life spans of participants. These differences may result in a significant impact on the amount of pension or postretirement benefit expense we may record in the future.

Table of Contents

Legal contingencies: We are involved in a number of legal and regulatory matters including those discussed in Item 8 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Note 11: Commitments and Contingencies. We determine whether an estimated loss from a loss contingency should be accrued by assessing whether a loss is deemed probable and can be reasonably estimated. We analyze our legal matters based on available information to assess potential liability. We consult with outside counsel involved in our legal matters when analyzing potential outcomes. We cannot determine at this time whether any potential liability related to this litigation would materially affect our financial position, results of operations or cash flows.

Recent Accounting Pronouncements

Recent accounting pronouncements are discussed within Item 8 in the NOTES TO CONSOLIDATED FINANCIAL STATEMENTS Note 1: Statement of Accounting and Financial Policies.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest rate risk

We are exposed to market risk related to our fixed-rate and variable-rate long-term debt. Market risk is the potential loss arising from adverse changes in market rates and prices, such as interest rates. Changes in interest rates may affect the market value of our fixed-rate debt. The estimated fair value of our long-term debt and the current portions thereof using quoted market prices of Company debt securities recently traded and market-based prices of similar securities for those securities not recently traded was \$1,226 million at December 31, 2011 and \$1,206 million at December 31, 2010 as compared with the carrying value of \$1,316 million and \$1,211 million at December 31, 2011 and 2010, respectively.

A hypothetical 1% increase in interest rates on variable rate debt would have increased interest expense in 2011 by approximately \$6.5 million.

Foreign exchange rate risk

We are subject to exposure from fluctuations in foreign currencies. We use foreign currency exchange contracts to hedge our Canadian subsidiaries variability in cash flows from the forecasted payment of currencies other than the functional currency. The Canadian subsidiaries foreign currency contracts were principally used to purchase U.S. dollars. We had foreign currency contracts with a U.S. dollar notional amount of \$4.9 million outstanding at December 31, 2011 and a liability value of \$0.1 million. We do not currently account for these contracts as hedges but rather mark these contracts to market with a corresponding offset to current earnings.

Commodity price risk

Metal prices can fluctuate significantly due to several factors including changes in foreign and domestic production capacity, raw material availability, metals consumption and foreign currency rates. Declining metal prices could reduce our revenues, gross profit and net income. From time to time, we may enter into fixed price sales contracts with our customers for certain of our inventory components. We may enter into metal commodity futures and options contracts to reduce volatility in the price of these metals. We do not currently account for these contracts as hedges, but rather mark these contracts to market with a corresponding offset to current earnings. As of December 31, 2011, we had 276 tons of nickel futures or option contracts, 5,780 tons of hot roll steel coil option contracts, and 1,210 tons of aluminum price swaps outstanding with a liability value of \$0.7 million, a value of zero, and a liability value of \$0.2 million, respectively.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders of Ryerson Holding Corporation

We have audited the accompanying consolidated balance sheets of Ryerson Holding Corporation and Subsidiary Companies (the Company) as of December 31, 2011 and 2010 and the related consolidated statements of operations, stockholders' equity, and cash flows for the years ended December 31, 2011, 2010 and 2009. Our audits also included the financial statement schedules listed in the index to the consolidated financial statements. These financial statements and schedules are the responsibility of management of the Company. Our responsibility is to express an opinion on these financial statements and schedules based on our audits.

We conducted our audits in accordance with auditing standards of the Public Company Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company at December 31, 2011 and 2010, and the consolidated results of its operations and its cash flows, for the years ended December 31, 2011, 2010 and 2009 in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedules, when considered in relation to the basic financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1: Statement of Accounting and Financial Policies

Business Description and Basis of Presentation. Ryerson Holding Corporation (Ryerson Holding), a Delaware corporation, is the parent company of Ryerson Inc. (Ryerson), a Delaware corporation. Ryerson Holding is 99% owned by affiliates of Platinum Equity, LLC (Platinum).

On October 19, 2007, the merger (the Platinum Acquisition) of Rhombus Merger Corporation (Merger Sub), a Delaware corporation and a wholly-owned subsidiary of Ryerson Holding, with and into Ryerson, was consummated in accordance with the Agreement and Plan of Merger, dated July 24, 2007, by and among Ryerson, Ryerson Holding and Merger Sub (the Merger Agreement). Upon the closing of the Platinum Acquisition, Ryerson became a wholly-owned subsidiary of Ryerson Holding.

Ryerson conducts materials distribution operations in the United States through its wholly-owned direct subsidiary Joseph T. Ryerson & Son, Inc. (JT Ryerson), in Canada through its indirect wholly-owned subsidiary Ryerson Canada, Inc., a Canadian corporation (Ryerson Canada) and in Mexico through its indirect wholly-owned subsidiary Ryerson Metals de Mexico, S. de R.L. de C.V., a Mexican corporation (Ryerson Mexico). In addition to our North American operations, we conduct materials distribution operations in China through Ryerson China Limited (Ryerson China), formerly named VSC-Ryerson China Limited, a company in which we have a 100% ownership percentage subsequent to the purchase on July 12, 2010 of the remaining 20 percent interest previously owned by Van Shung Chong Holdings Limited (VSC) (see Note 2). We conducted material distribution operations in India through Tata Ryerson Limited, a joint venture with Tata Steel Limited, an integrated steel manufacturer in India through July 10, 2009, the date on which we sold our ownership interest to our joint venture partner (see Note 15). Unless the context indicates otherwise, Ryerson Holding, Ryerson, JT Ryerson, Ryerson Canada, Ryerson China and Ryerson Mexico together with their subsidiaries, are collectively referred to herein as Ryerson Holding, we, us, our, or the Company.

Principles of Consolidation. The Company consolidates entities in which it owns or controls more than 50% of the voting shares. All significant intercompany balances and transactions have been eliminated in consolidation. Additionally, variable interest entities that do not have sufficient equity investment to permit the entity to finance its activities without additional subordinated support from other parties or whose equity investors lack the characteristics of a controlling financial interest for which the Company is the primary beneficiary are included in the consolidated financial statements. There were no such variable entities that were required to be consolidated as of December 31, 2011 or 2010.

Business Segments. Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 280, *Segment Reporting* (ASC 280), establishes standards for reporting information on operating segments in interim and annual financial statements. Our Chief Executive Officer, together with the Operating Committee selected by our Board of Directors, serve as our Chief Operating Decision Maker (CODM). Our CODM reviews our financial information for purposes of making operational decisions and assessing financial performance. The CODM views our business globally as metals service centers. We have one operating and reportable segment, metal service centers, in accordance with the criteria set forth in ASC 280.

Use of Estimates. The preparation of financial statements in conformity with Generally Accepted Accounting Principles in the United States requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and related notes to the financial statements. Changes in such estimates may affect amounts reported in future periods.

Equity Investments. Investments in affiliates in which the Company's ownership is 20% to 50% are accounted for by the equity method. Equity income is reported in Cost of materials sold in the Consolidated Statements of Operations. Equity income during the years ended December 31, 2011, 2010 and 2009 totaled \$0.1 million, zero and \$0.7 million, respectively.

Revenue Recognition. Revenue is recognized in accordance with FASB ASC 605, *Revenue Recognition*. Revenue is recognized upon delivery of product to customers. The timing of shipment is substantially the same as the timing of delivery to customers given the proximity of the Company's distribution sites to its customers. Revenue is recorded net of returns, allowances, customer discounts and incentives. Sales taxes collected from customers and remitted to governmental authorities are accounted for on a net (excluded from revenues) basis.

Table of Contents

Provision for allowances, claims and doubtful accounts. We perform ongoing credit evaluations of customers and set credit limits based upon review of the customers' current credit information and payment history. The Company monitors customer payments and maintains a provision for estimated credit losses based on historical experience and specific customer collection issues that the Company has identified. Estimation of such losses requires adjusting historical loss experience for current economic conditions and judgments about the probable effects of economic conditions on certain customers. The Company cannot guarantee that the rate of future credit losses will be similar to past experience. Provisions for allowances and claims are based upon historical rates, expected trends and estimates of potential returns, allowances, customer discounts and incentives. The Company considers all available information when assessing the adequacy of the provision for allowances, claims and doubtful accounts.

Shipping and Handling Fees and Costs. Shipping and handling fees billed to customers are classified in Net Sales in our Consolidated Statement of Operations. Shipping and handling costs, primarily distribution costs, are classified in Warehousing, delivery, selling, general and administrative expenses in our Consolidated Statement of Operations. These costs totaled \$94.8 million, \$82.1 million and \$73.0 million for the years ended December 31, 2011, 2010 and 2009, respectively.

Benefits for Retired Employees. The Company recognizes the funded status of its defined benefit pension and other postretirement plans in the Consolidated Balance Sheets, with changes in the funded status recognized through accumulated other comprehensive income (loss), net of tax, in the year in which the changes occur. The estimated cost of the Company's defined benefit pension plan and its postretirement medical benefits are determined annually after considering information provided by consulting actuaries. Key factors used in developing estimates of these liabilities include assumptions related to discount rates, rates of return on investments, future compensation costs, healthcare cost trends, benefit payment patterns and other factors. The cost of these benefits for retirees is accrued during their term of employment. Pensions are funded primarily in accordance with the requirements of the Employee Retirement Income Security Act (ERISA) of 1974 and the Pension Protection Act of 2006 into a trust established for the Ryerson Pension Plan. Costs for retired employee medical benefits are funded when claims are submitted. Certain salaried employees are covered by a defined contribution plan, for which the cost is expensed in the period earned.

Cash Equivalents. Cash equivalents reflected in the financial statements are highly liquid, short-term investments with original maturities of three months or less that are an integral part of the Company's cash management portfolio. Checks issued in excess of funds on deposit at the bank represent book overdrafts and are reclassified to accounts payable. Amounts reclassified totaled \$49.3 million and \$32.3 million at December 31, 2011 and 2010, respectively.

Inventory Valuation. Inventories are stated at the lower of cost or market value. We use the last-in, first-out (LIFO) method for valuing our domestic inventories. We use the weighted-average cost and the specific cost methods for valuing our foreign inventories.

Property, Plant and Equipment. Property, plant and equipment, including land use rights, are depreciated for financial reporting purposes using the straight-line method over the estimated useful lives of the assets. The provision for depreciation in all periods presented is based on the following estimated useful lives of the assets:

Land improvements	20 years
Buildings	45 years
Machinery and equipment	15 years
Furniture and fixtures	10 years
Transportation equipment	6 years
Land use rights	50 years

Expenditures for normal repairs and maintenance are charged against income in the period incurred.

Goodwill. In accordance with FASB ASC 350, *Intangibles - Goodwill and Other* (ASC 350), goodwill is reviewed at least annually for impairment using a two-step approach. In the first step, the Company tests for impairment of goodwill by estimating the fair values of its reporting units using the present value of future cash flows approach, subject to a comparison for reasonableness to a market approach at the date of valuation. If the carrying amount exceeds the fair value, the second step of the goodwill impairment test is performed to measure the amount of the impairment loss, if any. In the second step the implied fair value of the goodwill is estimated as the fair value of the reporting unit used in the first step less the fair value of all other net tangible and intangible assets of the reporting unit. If the carrying amount of goodwill exceeds its implied fair value, an impairment loss is recognized in an amount equal to that excess, not to exceed the carrying amount of the goodwill. In addition, goodwill of a reporting unit is tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value.

Table of Contents

Long-lived Assets and Other Intangible Assets. Long-lived assets held and used by the Company are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company estimates the future cash flows expected to result from the use of the asset and its eventual disposition. If the sum of the expected future cash flows (undiscounted and without interest charges) is less than the carrying amount of the asset, an impairment is recognized. Any related impairment loss is calculated based upon comparison of the fair value to the carrying value of the asset. Separate intangible assets that have finite useful lives are amortized over their useful lives. An impaired intangible asset would be written down to fair value, using the discounted cash flow method.

Deferred financing costs associated with the issuance of debt are being amortized using the effective interest method over the life of the debt.

Income Taxes. Deferred tax assets or liabilities reflect temporary differences between amounts of assets and liabilities for financial and tax reporting. Such amounts are adjusted, as appropriate, to reflect changes in enacted tax rates expected to be in effect when the temporary differences reverse. A valuation allowance is established to offset any deferred tax assets if, based upon the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. The determination of the amount of a valuation allowance to be provided on recorded deferred tax assets involves estimates regarding (1) the timing and amount of the reversal of taxable temporary differences, (2) expected future taxable income, (3) the impact of tax planning strategies and (4) the ability to carry back deferred tax assets to offset prior taxable income. In assessing the need for a valuation allowance, the Company considers all available positive and negative evidence, including past operating results, projections of future taxable income and the feasibility of ongoing tax planning strategies. The projections of future taxable income include a number of estimates and assumptions regarding volume, pricing, costs and industry cyclicality.

Significant judgment is required in determining income tax provisions and in evaluating tax positions. In the normal course of business, the Company and its subsidiaries are examined by various Federal, State and foreign tax authorities. The Company records the impact of a tax position, if that position is more likely than not to be sustained on audit, based on the technical merits of the position. The Company regularly assesses the potential outcomes of these examinations and any future examinations for the current or prior years in determining the adequacy of our provision for income taxes. The Company continually assesses the likelihood and amount of potential adjustments and adjusts the income tax provision, the current tax liability and deferred taxes in the period in which the facts that give rise to a revision become known.

The Company recognizes the benefit of tax positions when a benefit is more likely than not (i.e. greater than 50% likely) to be sustained on its technical merits. Recognized tax benefits are measured at the largest amount that is more likely than not to be sustained, based on cumulative probability, in final settlement of the position. The Company recognizes interest and penalties related to unrecognized tax benefits as a component of income tax expense.

Earnings Per Share Data. As the Company's stock is not publicly traded, earnings (loss) per common share data is excluded from presentation.

Foreign Currency. The Company translates assets and liabilities of its foreign subsidiaries, where the functional currency is the local currency, into U.S. dollars at the current rate of exchange on the last day of the reporting period. Revenues and expenses are translated at the average monthly exchange rates prevailing during the year.

For foreign currency transactions, the Company translates these amounts to the Company's functional currency at the exchange rate effective on the invoice date. If the exchange rate changes between the time of purchase and the time actual payment is made, a foreign exchange transaction gain or loss results which is included in determining net income (loss) for the year. The Company recognized \$0.8 million, \$2.7 million and \$14.9 million of exchange losses for the years ended December 31, 2011, 2010 and 2009, respectively. These amounts are primarily classified in Other income and (expense), net in our Consolidated Statements of Operations.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (ASU) 2010-6, *Improving Disclosures About Fair Value Measurements* (ASU 2010-6), which requires reporting entities to make new disclosures about recurring or nonrecurring fair-value measurements including significant transfers into and out of Level 1 and Level 2 fair value measurements and information on purchases, sales, issuances, and settlements on a gross basis in the reconciliation of Level 3 fair value measurements. ASU 2010-6 is effective for interim and annual reporting periods beginning after December 15, 2009, except for Level 3 reconciliation disclosures which are effective for interim and annual periods beginning after December 15, 2010. We adopted the requirements within ASU 2010-6 as of January 1, 2010, except for the Level 3 reconciliation disclosures which we adopted as of January 1, 2011. The adoption did not have a material impact on our financial statements.

In December 2010, the FASB issued ASU 2010-28, *When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts*. This ASU updates ASC Topic 350, *Intangibles Goodwill and Other* to amend the criteria for performing Step 2 of the goodwill impairment test for reporting units with zero or negative carrying amounts and requires performing Step 2 if qualitative factors

Edgar Filing: Ryerson Holding Corp - Form 10-K

indicate that it is more likely than not that a goodwill impairment exists. The ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2010. We adopted this guidance prospectively on January 1, 2011. The Company does not have any reporting units with zero or negative carrying amounts as of December 31, 2011.

In December 2010, the FASB issued ASU 2010-29, *Disclosure of Supplementary Pro Forma Information for Business Combinations* to specify that if a company presents comparative financial statements, it should disclose revenue and earnings of the combined entity as though the business combination that occurred during the current period, occurred at the beginning of the comparable prior annual reporting period only. This guidance is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010. Early adoption is permitted. We adopted this guidance prospectively on January 1, 2011. The adoption did not have a material impact on our financial statements.

Table of Contents

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amends ASC 820, *Fair Value Measurements* (ASC 820), providing a consistent definition and measurement of fair value, as well as similar disclosure requirements between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles, clarifies the application of existing fair value measurement and expands the ASC 820 disclosure requirements, particularly for Level 3 fair value measurements. The revised guidance is effective for interim and annual periods beginning after December 15, 2011 and early application by public entities is prohibited. We do not expect this pronouncement to have a material effect on our consolidated financial statements.

In June 2011, the FASB issued ASU 2011-05, *Comprehensive Income (ASC Topic 220): Presentation of Comprehensive Income* (ASU 2011-05). Under ASU 2011-05, entities are required to present total comprehensive income either in a single, continuous statement of comprehensive income or in two separate but consecutive statements. Under the single-statement approach, entities must include the components of net income, a total for net income, the components of other comprehensive income and a total for comprehensive income. Under the two-statement approach, entities must report an income statement and, immediately following, a statement of other comprehensive income. The amendments in ASU 2011-05 do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. ASU 2011-05 should be applied retrospectively. The provisions for this pronouncement are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, with early adoption permitted. We will adopt this pronouncement for our fiscal year beginning January 1, 2012. In December 2011, the FASB issued ASU 2011-12, *Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in ASU 2011-5* which deferred the requirement from the June 2011 guidance that related to the presentation of reclassification adjustments. The amendment will allow the FASB time to redeliberate whether to present on the face of the financial statements the effects of reclassifications out of accumulated other comprehensive income on the components of net income and other comprehensive income for all periods presented. The adoption of ASU 2011-05 is not expected to have a material effect on the Company's consolidated financial statements, but requires a change in the presentation of the Company's comprehensive income from the notes of the consolidated financial statements, where it is currently disclosed, to the face of the consolidated financial statements.

In September 2011, the FASB issued ASU 2011-08, *Intangibles - Goodwill and Other (Topic 350): Testing Goodwill for Impairment* (ASU 2011-08). ASU 2011-08 allows an entity to make an initial qualitative evaluation, based on the entity's events and circumstances, to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. The results of this qualitative assessment determine whether it is necessary to perform the currently required two-step impairment test. The new guidance also expands upon the examples of events and circumstances that an entity should consider between annual impairment tests in determining whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. The new guidance is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011 with early adoption permitted. We do not expect this pronouncement to have a material effect on our consolidated financial statements.

In September 2011, the FASB issued ASU 2011-09, *Compensation - Retirement Benefits - Multiemployer Plans (Subtopic 715-80)* (ASU 2011-09) to improve transparency and increase awareness of the commitments and risks involved with participation in multiemployer plans. The new accounting guidance requires employers participating in multiemployer plans to provide additional quantitative and qualitative disclosures to provide users with more detailed information regarding an employer's involvement in multiemployer plans. The provisions of this new guidance are effective for annual periods beginning with fiscal years ending after December 15, 2011, with early adoption permitted. We have reviewed our level of participation in multiemployer plans and determined that the impact of adopting this guidance is not material to our financial statements.

Note 2: Acquisitions**Singer Steel Company**

On March 14, 2011, the Company acquired all the issued and outstanding capital stock of Singer Steel Company (Singer). Singer is a full-service steel value-added processor with state-of-the-art processing equipment. We believe that Singer's capabilities strongly enhance Ryerson's offering in the Midwest and Northeast United States.

The fair value of the consideration totaled \$23.6 million on the acquisition date, which consisted of the following:

Consideration
(In millions)

Edgar Filing: Ryerson Holding Corp - Form 10-K

Cash	\$	20.0
Holdback (1)		3.6
Total	\$	23.6

- (1) Any remaining holdback amount not used for undisclosed obligations is payable to the seller within 18 months from the acquisition date.

Table of Contents

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date. The Company used a third-party valuation firm to estimate the fair values of the property, plant and equipment and intangible assets. Inventory was valued by the Company using acquisition date fair values of the metals.

	At March 14, 2011 (In millions)
Cash	\$ 0.3
Restricted cash	6.5
Accounts receivable	7.3
Inventory	16.3
Property, plant, and equipment	8.2
Intangible assets	4.3
Other assets	0.2
 Total identifiable assets acquired	 43.1
 Current liabilities	 11.4
Deferred tax liabilities	2.3
 Total liabilities assumed	 13.7
 Net identifiable assets acquired	 29.4
Bargain purchase	(5.8)
 Net assets acquired	 \$ 23.6

The fair value of accounts receivables acquired is \$7.3 million, with a gross amount of \$7.8 million. The Company expects \$0.5 million to be uncollectible.

Of the \$4.3 million of acquired intangible assets, \$2.2 million was assigned to customer relationships with a useful life of 7 years, \$1.7 million was assigned to trademarks with a useful life of 5 years and \$0.4 million was assigned to a license agreement with a useful life of 7 years.

The transaction resulted in a bargain purchase primarily due to the fair value of acquired intangible assets and higher inventory valuation related to rising metals prices. The gain is included in other income and (expense), net in the Statement of Operations. The Company has recognized \$0.4 million in acquisition-related fees, which is included in warehousing, delivery, selling, general and administrative expenses.

Included in the 2011 financial results is \$36.1 million of revenue and \$9.4 million (includes the \$5.8 million bargain purchase gain) of net income from Singer since the acquisition date.

Turret Steel

On December 9, 2011, the Company acquired all the issued and outstanding capital stock of Turret Steel Industries, Inc., Sunbelt-Turret Steel, Inc., Wilcox-Turret Cold Drawn, Inc., and Imperial Trucking Company, LLC (collectively, Turret). Turret is a premier distributor of Special Bar Quality Carbon and Alloy bar products. We believe that Turret's product offerings strongly enhance Ryerson's strategy of increasing its presence in long and fabricated products.

Ryerson acquired Turret for a cash purchase price of \$79.0 million, plus assumption of approximately \$6.5 million of debt on the acquisition date. A total of \$1.7 million of the \$79.0 million cash purchase price has been held back and will be paid to the seller within 120 days of the acquisition date. The terms of the agreement also include deferred cash consideration payouts, totaling a maximum of \$36.0 million over a period of 5 years, which are contingent on the seller's continued employment with Ryerson as well as the financial performance of Turret. The deferred cash consideration will be recognized as compensation expense and recorded as it is incurred over the five year period.

Table of Contents

The following table summarizes the preliminary estimated fair values of the assets acquired and liabilities assumed at the acquisition date. The Company used a third-party valuation firm to estimate the fair values of the property, plant and equipment and intangible assets. Inventory was valued by the Company using acquisition date fair values of the metals.

	At December 9, 2011	
	(In millions)	
Cash	\$	1.8
Accounts receivable		12.0
Inventory		26.7
Property, plant, and equipment		2.9
Intangible assets		44.5
Goodwill		25.1
Other assets		0.9
Total identifiable assets acquired		113.9
Current liabilities		16.8
Deferred tax liabilities		18.1
Total liabilities assumed		34.9
Net assets acquired	\$	79.0

The fair value of accounts receivables acquired is \$12.0 million, with a gross amount of \$12.3 million. The Company expects \$0.3 million to be uncollectible.

Of the \$44.5 million of acquired intangible assets, \$27.2 million was assigned to customer relationships with useful lives between 7 and 11 years, \$17.0 million was assigned to trademarks with a useful life of 20 years and \$0.3 million was assigned to a covenants not to compete with a useful life of 7 years. The Company recognized \$25.1 million of goodwill, reflecting management's expected synergies.

The Company has recognized \$0.4 million in acquisition-related fees, which is included in warehousing, delivery, selling, general and administrative expenses.

Included in the 2011 financial results is \$5.6 million of revenue and \$17.0 million of net income, which includes \$16.6 million of tax benefits, from Turret since the acquisition date.

The following unaudited pro forma information presents consolidated results of operations for the year ended December 31, 2011 and 2010 as if the acquisitions of Singer and Turret on March 14, 2011 and December 9, 2011, respectively, had occurred on January 1, 2010:

	Pro Forma	
	Year Ended December 31,	
	2011	2010
Net sales	\$ 4,866.8	\$ 4,031.1
Net loss attributable to Ryerson Holding Corporation	(23.1)	(102.1)

The 2011 supplemental pro forma net income (loss) was adjusted to exclude the \$5.8 million bargain purchase gain and \$18.0 million of tax benefits realized in 2011 as they are nonrecurring items.

On January 26, 2010, the Company acquired, through its subsidiary JT Ryerson, all of the issued and outstanding capital stock of Texas Steel Processing, Inc. (TSP), a steel plate processor based in Houston, Texas. The acquisition is not material to our consolidated financial statements.

Edgar Filing: Ryerson Holding Corp - Form 10-K

On August 4, 2010, the Company acquired, through its subsidiary JT Ryerson, all of the issued and outstanding capital stock of SFI-Gray Steel Inc. (SFI), a steel plate processor based in Houston, Texas. The acquisition is not material to our consolidated financial statements.

On July 12, 2010, we acquired VSC s remaining 20 percent ownership in Ryerson China for \$17.5 million. As a result, Ryerson China is now an indirect wholly-owned subsidiary of Ryerson Holding. The acquisition is not material to our consolidated financial statements.

Table of Contents

The table below summarizes the effects of the changes in the Company's ownership interest in Ryerson China on the equity attributable to Ryerson Holding stockholders for the year ended December 31, 2010:

Net Loss Attributable to Ryerson Holding and Transfers to the	Year Ended
Noncontrolling Interest	December 31,
	2010
Net loss attributable to Ryerson Holding Corporation	\$ (104.0)
Transfers to the noncontrolling interest	
Decrease in Ryerson Holding's Capital in Excess of Par Value	(4.8)
Change in equity from net loss attributable to Ryerson Holding Corporation and transfers to noncontrolling interest	\$ (108.8)

Note 3: Restricted Cash

On October 19, 2007, prior to the Platinum Acquisition, the Company deposited \$5.0 million in a trust account to fund payments arising from the Platinum Acquisition, primarily payments to the Predecessor Board of Directors. This trust account was closed in 2011 and the \$1.8 million balance at December 31, 2010 was returned to the Company's general funds. As part of one of our note indentures, proceeds from the sale of property, plant, and equipment are deposited in a restricted cash account. Cash can be withdrawn from this restricted account upon meeting certain requirements. The balance in this account was \$0.9 million and \$6.6 million at December 31, 2011 and 2010, respectively. In addition, Ryerson China has a restricted cash balance of \$0.3 million and \$2.3 million as of December 31, 2011 and 2010, respectively, which is primarily related to letters of credit that can be presented for product material purchases. We also have cash restricted for purposes of covering letters of credit that can be presented for potential insurance claims, which totaled \$4.1 million and \$4.9 million as of December 31, 2011 and 2010, respectively.

Note 4: Inventories

Inventories were classified at December 31, 2011 and 2010 as follows:

	At December 31,	
	2011	2010
	(In millions)	
In process and finished products	\$ 732.4	\$ 783.4

If current cost had been used to value inventories, such inventories would have been \$29 million higher than reported at December 31, 2011. If current cost had been used to value inventories, such inventories would have been \$20 million lower than reported at December 31, 2010. Approximately 88% and 86% of inventories are accounted for under the LIFO method at December 31, 2011 and 2010, respectively. Non-LIFO inventories consist primarily of inventory at our foreign facilities using the weighted-average cost and the specific cost methods. Substantially all of our inventories consist of finished products.

Note 5: Property, Plant and Equipment

Property, plant and equipment consisted of the following at December 31, 2011 and 2010:

	At December 31,	
	2011	2010
	(In millions)	
Land and land improvements	\$ 100.5	\$ 104.0
Buildings and leasehold improvements	189.1	191.9
Machinery, equipment and other	305.9	285.1

Edgar Filing: Ryerson Holding Corp - Form 10-K

Construction in progress	15.6	2.4
Total	611.1	583.4
Less: Accumulated depreciation	(131.4)	(104.2)
Net property, plant and equipment	\$ 479.7	\$ 479.2

The Company recorded \$7.8 million, \$1.4 million and \$19.3 million of impairment charges in 2011, 2010 and 2009, respectively, related to fixed assets. The impairment charge recorded in 2011 and 2010 related to certain assets held for sale in order to recognize the assets at their fair value less cost to sell in accordance with FASB ASC 360-10-35-43, *Property, Plant and Equipment - Other Presentation Matters*. Of the \$19.3 million impairment charge recorded in 2009, \$1.8 million related to certain assets that we

Table of Contents

determined did not have a recoverable carrying value based on the projected undiscounted cash flows and \$17.5 million related to certain assets held for sale in order to recognize the assets at their fair value less cost to sell. The fair values of each property were determined based on appraisals obtained from a third party, pending sales contracts or recent listing agreements with third party brokerage firms. The Company had \$10.0 million and \$14.3 million of assets held for sale, classified within Other current assets as of December 31, 2011 and 2010, respectively.

Note 6: Intangible Assets

The following summarizes the components of intangible assets at December 31, 2011 and 2010:

	At December 31, 2011			At December 31, 2010		
	Gross Carrying Amount	Accumulated Amortization	Net	Gross Carrying Amount	Accumulated Amortization	Net
Amortized intangible assets						
Customer relationships	\$ 46.1	\$ (5.7)	\$ 40.4	\$ 16.6	\$ (3.9)	\$ 12.7
Developed technology / product know-how	1.9	(0.5)	1.4	1.9	(0.1)	1.8
Non-compete agreements	1.4	(0.3)	1.1	1.3	(0.3)	1.0
Trademarks	19.5	(0.5)	19.0	0.8	(0.1)	0.7
Licenses	0.4	(0.1)	0.3			
Total intangible assets	\$ 69.3	\$ (7.1)	\$ 62.2	\$ 20.6	\$ (4.4)	\$ 16.2

Amortization expense related to intangible assets for the years ended December 31, 2011, 2010 and 2009 was \$2.7 million, \$1.7 million and \$1.3 million, respectively.

Other intangible assets are amortized over a period between 5 and 20 years. Estimated amortization expense related to intangible assets at December 31, 2011, for each of the years in the five year period ending December 31, 2016 and thereafter is as follows:

	Estimated Amortization Expense (In millions)
For the year ended December 31, 2012	\$ 5.9
For the year ended December 31, 2013	5.9
For the year ended December 31, 2014	5.9
For the year ended December 31, 2015	5.5
For the year ended December 31, 2016	4.8
For the years ended thereafter	34.2

Note 7: Goodwill

The following is a summary of changes in the carrying amount of goodwill for the years ended December 31, 2011 and 2010:

	Carrying Amount (In millions)
Balance at January 1, 2010	\$ 71.0
Acquisitions and adjustments to purchase price	1.9
Changes due to foreign currency translation	0.4
Balance at December 31, 2010	\$ 73.3
Acquisitions and adjustments to purchase price	24.7

Edgar Filing: Ryerson Holding Corp - Form 10-K

Impairment charge	(1.5)
Changes due to foreign currency translation	(0.2)
Balance at December 31, 2011	\$ 96.3

In 2010, the Company recognized \$5.9 million of goodwill related to the TSP and SFI acquisitions. The goodwill balance for TSP, \$3.1 million, is not deductible for income tax purposes. The goodwill balance for SFI, \$2.8 million, is deductible for income tax purposes. The Company made adjustments to the purchase price of \$4.0 million during the year ended December 31, 2010.

In 2011, the Company recognized \$25.1 million of goodwill related to the Turret acquisition, which is not deductible for income tax purposes. The Company made purchase price adjustments of \$0.4 million during the year ended December 31, 2011.

Table of Contents

As a result of our annual goodwill impairment test, the Company concluded that the carrying value of one of its reporting units exceeded its fair value. As required by the second step of the impairment test, the Company performed an allocation of the fair value to all the assets and liabilities of the reporting unit, including identifiable intangible assets, based on their fair values, to determine the implied fair value of goodwill. Accordingly, the Company recorded a goodwill impairment charge of \$1.5 million in 2011 for the difference between the carrying value of the goodwill in the reporting unit and its implied fair value. The impairment resulted from a combination of factors, including the global economic downturn, a decline in margins for the reporting unit, which led to reductions in the Company's projected operating results and estimated future cash flows related to the reporting unit in future periods.

The fair values of the Company's other reporting units exceeded their estimated carrying values and therefore goodwill in those reporting units was not impaired. The fair values of the reporting units were estimated using an average of a market approach and an income approach as this combination is deemed to be the most indicative of our fair value in an orderly transaction between market participants and is consistent with the methodology used for the goodwill impairment test in the prior year. We have not incurred any goodwill impairment losses in prior years.

Note 8: Restructuring and Other Charges

The following summarizes restructuring accrual activity for the years ended December 31, 2011, 2010 and 2009:

	Employee Related Costs	Tenancy and Other Costs (In millions)	Total Restructuring Costs
Balance at January 1, 2009	\$ 6.2	\$ 1.5	\$ 7.7
Adjustment to plan liability		(0.3)	(0.3)
Cash payments	(6.1)	(0.3)	(6.4)

Cash payments	(5.3)	(0.2)	(5.5)
Adjustments for pension and other post-retirement termination non-cash charges	(1.4)		(1.4)
Balance at December 31, 2011	\$ 4.5	\$	\$ 4.5

2011

In October 2011, the Company implemented a reorganization plan that reduced headcount by 292 employees resulting in a restructuring charge of \$9.8 million recorded in the fourth quarter. The Company reduced headcount in a continued effort to decentralize functions to its regions as well as to execute management's strategy of focusing on long and fabricated product sales. The charge consists of restructuring expenses of \$8.4 million for employee-related costs, primarily severance, and additional non-cash pensions and other post-retirement benefit costs totaling \$1.4 million. In the fourth quarter of 2011, the Company paid \$4.0 million in employee costs related to this restructuring. The remaining \$4.4 million balance is expected to be paid in 2012.

Table of Contents

In 2011, the Company recorded an additional charge of \$1.3 million related to the closure of one of its facilities for which it had recorded a charge of \$12.5 million in the fourth quarter of 2010. The charge consists of additional employee-related costs, primarily severance. In 2011, the Company paid \$1.3 million in employee costs related to this facility closure. The remaining \$0.1 million balance is expected to be paid in 2012.

During 2011, the Company paid the remaining \$0.2 million of tenancy and other costs related to the exit plan liability recorded on October 19, 2007, as part of the Platinum Acquisition.

2010

During 2010, the Company paid \$0.7 million related to the exit plan liability recorded on October 19, 2007, as part of the Platinum Acquisition.

In the fourth quarter of 2010, the Company recorded a \$12.5 million charge related to the closure of one of its facilities. The charge consists of restructuring expenses of \$0.4 million for employee-related costs, including severance for 66 employees, and additional non-cash pensions and other post-retirement benefits costs totaling \$12.1 million. Included in the non-cash pension charge is a pension curtailment loss of \$2.0 million. In the fourth quarter of 2010, the Company paid \$0.3 million in employee costs related to this facility closure.

2009

During 2009, the Company paid \$6.4 million related to the exit plan liability recorded on October 19, 2007, as part of the Platinum Acquisition. The Company also recorded a \$0.3 million reduction to the exit plan liability primarily due to lower property taxes on closed facilities than estimated in the initial restructuring plan.

Other Charges

In the fourth quarter of 2010, the Company also recorded a charge of \$1.5 million for costs related to the retirement of its former Chief Executive Officer, which is recorded within the Restructuring and other charges line of the consolidated statement of operations.

Note 9: Debt

Long-term debt consisted of the following at December 31, 2011 and 2010:

	At December 31,	
	2011	2010

For the year ended December 31, 2012	\$ 32.0
For the year ended December 31, 2013	
For the year ended December 31, 2014	102.9
For the year ended December 31, 2015	1,371.7
For the year ended December 31, 2016	
For the years ended thereafter	

Ryerson Credit Facility

On March 14, 2011, Ryerson amended and restated its \$1.35 billion revolving credit facility agreement (as amended, the Ryerson Credit Facility) which extends the maturity date to the earliest of (a) March 14, 2016, (b) the date that occurs 90 days prior to the scheduled maturity date of the Floating Rate Senior Secured Notes due November 1, 2014 (2014 Notes), if the 2014 Notes are then outstanding and (c) the date that occurs 90 days prior to the scheduled maturity date of the 12% Senior Secured Notes due November 1, 2015 (2015 Notes) (together, with the 2014 Notes, the Ryerson Notes), if the 2015 Notes are then outstanding. At December 31, 2011, Ryerson had \$520.0 million of outstanding borrowings, \$22 million of letters of credit issued and \$274 million available under the \$1.35 billion Ryerson Credit Facility compared to \$457.3 million of outstanding borrowings, \$24 million of letters of credit issued and \$317 million available at December 31, 2010. Total credit availability is limited by the amount of eligible accounts receivable and inventory pledged as collateral under the agreement insofar as the Company is subject to a borrowing base comprised of the aggregate of these two amounts, less applicable reserves. Eligible accounts receivable, at any date of determination, are comprised of the aggregate value of all accounts directly created by a borrower in the ordinary course of business arising out of the sale of goods or the rendition of services, each of which has been invoiced, with such receivables adjusted to exclude various ineligible accounts, including, among other things, those to which a borrower does not have sole and absolute title and accounts arising out of a sale to an employee, officer, director, or affiliate of a borrower. The weighted average interest rate on the borrowings under the Ryerson Credit Facility was 2.4 percent and 2.1 percent at December 31, 2011 and 2010, respectively.

Amounts outstanding under the Ryerson Credit Facility bear interest at a rate determined by reference to the base rate (Bank of America's prime rate) or a LIBOR rate or, for the Company's Canadian subsidiary which is a borrower, a rate determined by reference to the Canadian base rate (Bank of America-Canada Branch's Base Rate for loans in U.S. Dollars in Canada) or the BA rate (average annual rate applicable to Canadian Dollar bankers' acceptances) or a LIBOR rate and the Canadian prime rate (Bank of America-Canada Branch's Prime Rate). The spread over the base rate and Canadian prime rate is between 0.75% and 1.50% and the spread over the LIBOR and for the bankers' acceptances is between 1.75% and 2.50%, depending on the amount available to be borrowed. Overdue amounts and all amounts owed during the existence of a default bear interest at 2% above the rate otherwise applicable thereto. The Company also pays commitment fees on amounts not borrowed at a rate between 0.375% and 0.50% depending on the average borrowings as a percentage of the total \$1.35 billion agreement during a rolling three month period.

Borrowings under the Ryerson Credit Facility are secured by first-priority liens on all of the inventory, accounts receivable, lockbox accounts and related assets of Ryerson, subsidiary borrowers and certain other U.S. subsidiaries of Ryerson that act as guarantors.

The Ryerson Credit Facility contains covenants that, among other things, restrict Ryerson with respect to the incurrence of debt, the creation of liens, transactions with affiliates, mergers and consolidations, sales of assets and acquisitions. The Ryerson Credit Facility also requires that, if availability under such facility declines to a certain level, Ryerson maintain a minimum fixed charge coverage ratio as of the end of each fiscal quarter.

The Ryerson Credit Facility contains events of default with respect to, among other things, default in the payment of principal when due or the payment of interest, fees and other amounts after a specified grace period, material misrepresentations, failure to perform certain specified covenants, certain bankruptcy events, the invalidity of certain security agreements or guarantees, material judgments and the occurrence of a change of control of Ryerson. If such an event of default occurs, the lenders under the Ryerson Credit Facility will be entitled to various remedies, including acceleration of amounts outstanding under the Ryerson Credit Facility and all other actions permitted to be taken by secured creditors.

The lenders under the Ryerson Credit Facility have the ability to reject a borrowing request if any event, circumstance or development has occurred that has had or could reasonably be expected to have a material adverse effect on Ryerson. If Ryerson or any significant subsidiaries of the other borrowers becomes insolvent or commences bankruptcy proceedings, all amounts borrowed under the Ryerson Credit Facility will

become immediately due and payable.

Table of Contents

Proceeds from borrowings under the Ryerson Credit Facility and repayments of borrowings thereunder that are reflected in the Consolidated Statements of Cash Flows represent borrowings under the Company's revolving credit agreement with original maturities greater than three months. Net proceeds (repayments) under the Ryerson Credit Facility represent borrowings under the Ryerson Credit Facility with original maturities less than three months.

Ryerson Holding Notes

On January 29, 2010, Ryerson Holding issued \$483 million aggregate principal amount at maturity of 14 1/2% Senior Discount Notes due 2015. No cash interest accrues on the Ryerson Holding Notes. The Ryerson Holding Notes had an initial accreted value of \$455.98 per \$1,000 principal amount and will accrete from the date of issuance until maturity on a semi-annual basis. The accreted value of each Ryerson Holding Note increased from the date of issuance until October 31, 2010 at a rate of 14.50%. Thereafter the interest rate increased by 1% (to 15.50%) until July 31, 2011, an additional 1.00% (to 16.50%) on August 1, 2011 until April 30, 2012, and increases by an additional 0.50% (to 17.00%) on May 1, 2012 until the maturity date. Interest compounds semi-annually such that the accreted value will equal the principal amount at maturity of each note on that date. At December 31, 2011, the accreted value of the Ryerson Holding Notes was \$292.6 million. The Ryerson Holding Notes are not guaranteed by any of Ryerson Holding's subsidiaries and are secured by a first-priority security interest in the capital stock of Ryerson. The Ryerson Holding Notes rank equally in right of payment with all of Ryerson Holding's senior debt and senior in right of payment to all of Ryerson Holding's subordinated debt. The Ryerson Holding Notes are effectively junior to Ryerson Holding's other secured debt to the extent of the collateral securing such debt (other than the capital stock of Ryerson). Because the Ryerson Holding Notes are not guaranteed by any of Ryerson Holding's subsidiaries, the notes are structurally subordinated to all indebtedness and other liabilities (including trade payables) of Ryerson Holding's subsidiaries, including Ryerson.

The Ryerson Holding Notes contain customary covenants that, among other things, limit, subject to certain exceptions, Ryerson Holding's ability to incur additional indebtedness, pay dividends on its capital stock or repurchase its capital stock, make certain investments or other restricted payments, create liens or use assets as security in other transactions, enter into sale and leaseback transactions, merge, consolidate or transfer or dispose of substantially all of Ryerson Holding's assets, and engage in certain transactions with affiliates.

The Ryerson Holding Notes are redeemable, at the option of Ryerson Holding, in whole or in part, at any time at specified redemption prices. The Ryerson Holding Notes are required to be redeemed upon the receipt of net proceeds of certain qualified equity issuances, specified change of controls and/or specified receipt of dividends.

The terms of the Ryerson Notes (discussed below) restrict Ryerson from paying dividends to Ryerson Holding. Subject to certain exceptions, Ryerson may only pay dividends to Ryerson Holding to the extent of 50% of future net income, once prior losses are offset. In the event Ryerson is restricted from providing Ryerson Holding with sufficient distributions to fund the retirement of the Ryerson Holding Notes at maturity, Ryerson Holding may default on the Ryerson Holding Notes unless other sources of funding are available.

Pursuant to a registration rights agreement, Ryerson Holding agreed to file with the SEC by October 26, 2010, a registration statement with respect to an offer to exchange each of the Ryerson Holding Notes for a new issue of Ryerson Holding's debt securities registered under the Securities Act, with terms substantially identical to those of the Ryerson Holding Notes and to consummate an exchange offer no later than February 23, 2011. Ryerson Holding completed the exchange offer on December 7, 2010. As a result of completing the exchange offer, Ryerson Holding satisfied its obligations under the registration rights agreement covering the Ryerson Holding Notes.

Ryerson Notes

On October 19, 2007, Merger Sub issued the Ryerson Notes. The 2014 Notes bear interest at a rate, reset quarterly, of LIBOR plus 7.375% per annum. The 2015 Notes bear interest at a rate of 12% per annum. The Ryerson Notes are fully and unconditionally guaranteed on a senior secured basis by certain of Ryerson's existing and future subsidiaries (including those existing and future domestic subsidiaries that are co-borrowers or guarantee obligations under the Ryerson Credit Facility).

At December 31, 2011, \$368.7 million of the 2015 Notes and \$102.9 million of the 2014 Notes remain outstanding. During 2011, \$7.5 million principal amount of the 2015 Notes were repurchased for \$7.7 million and retired, resulting in the recognition of a \$0.2 million loss within other income and (expense), net on the consolidated statement of operations. During 2009, \$6.0 million principal amount of the 2015 Notes were repurchased for \$3.3 million and retired, resulting in the recognition of a \$2.7 million gain within other income and (expense), net on the consolidated statement of operations.

The Ryerson Notes and guarantees are secured by a first-priority lien on substantially all of Ryerson and its guarantors' present and future assets located in the United States (other than receivables, inventory, related general intangibles, certain other assets and proceeds thereof) including

Edgar Filing: Ryerson Holding Corp - Form 10-K

equipment, owned real property interests valued at \$1 million or more, and all present and future shares of capital stock or other equity interests of each of Ryerson and its guarantors directly owned domestic subsidiaries and 65% of the

Table of Contents

present and future shares of capital stock or other equity interests, of each of Ryerson and its guarantor's directly owned foreign restricted subsidiaries, in each case subject to certain exceptions and customary permitted liens. The Ryerson Notes and guarantees are secured on a second-priority basis by a lien on the assets that secure Ryerson's obligations under the Ryerson Credit Facility. The Ryerson Notes contain customary covenants that, among other things, limit, subject to certain exceptions, Ryerson's ability, and the ability of its restricted subsidiaries, to incur additional indebtedness, pay dividends on its capital stock or repurchase its capital stock, make investments, sell assets, engage in acquisitions, mergers or consolidations or create liens or use assets as security in other transactions. Subject to certain exceptions, Ryerson may only pay dividends to Ryerson Holding to the extent of 50% of future net income, once prior losses are offset.

The Ryerson Notes became redeemable by Ryerson, in whole or in part, at any time on or after November 1, 2011 at specified redemption prices. If a change of control occurs, Ryerson must offer to purchase the Ryerson Notes at 101% of their principal amount, plus accrued and unpaid interest.

Pursuant to a registration rights agreement, Ryerson agreed to file with the SEC by July 15, 2008 a registration statement with respect to an offer to exchange each of the notes for a new issue of our debt securities registered under the Securities Act, with terms substantially identical to those of the Ryerson Notes and to consummate an exchange offer no later than November 12, 2008. Ryerson did not consummate an exchange offer by November 12, 2008 and therefore, was required to pay additional interest to the holders of the Ryerson Notes. As a result, Ryerson paid an additional approximately \$0.6 million in interest to the holders of the Ryerson Notes with the interest payment on May 1, 2009. Ryerson completed the exchange offer on April 9, 2009. Upon completion of the exchange offer, Ryerson's obligation to pay additional interest ceased.

\$150 Million 8 1/4% Senior Notes due 2011

On December 15, 2011, the maturity date for our 8 1/4% Senior Notes due 2011, all outstanding 2011 Notes were paid in full and cancelled.

Foreign Debt

At December 31, 2011, Ryerson China's total foreign borrowings were \$32.0 million, of which, \$30.1 million was owed to banks in Asia at a weighted average interest rate of 6.2% secured by inventory and property, plant and equipment. Ryerson China also owed \$1.9 million at December 31, 2011 to other parties at a weighted average interest rate of 0.9%. Of the total borrowings of \$19.7 million outstanding at December 31, 2010, \$17.9 million was owed to banks in Asia at a weighted average interest rate of 4.3% secured by inventory and property, plant and equipment. Ryerson China also owed \$1.8 million at December 31, 2010 to other parties at a weighted average interest rate of 1.0%. Availability under the foreign credit lines was \$22 million and \$14 million at December 31, 2011 and 2010, respectively. Letters of credit issued by our foreign subsidiaries totaled \$6 million and \$7 million at December 31, 2011 and 2010, respectively.

Note 10: Employee Benefits

The Company accounts for its pension and postretirement plans in accordance with FASB ASC 715, *Compensation - Retirement Benefits* (ASC 715). In addition to requirements for an employer to recognize in its consolidated balance sheet an asset for a plan's overfunded status or a liability for a plan's underfunded status and to recognize changes in the funded status of a defined benefit postretirement plan in the year in which the changes occur, ASC 715 requires an employer to measure a plan's assets and its obligations that determine its funded status as of the end of the employer's fiscal year.

Prior to January 1, 1998, the Company's non-contributory defined benefit pension plan covered certain employees, retirees and their beneficiaries. Benefits provided to participants of the plan were based on pay and years of service for salaried employees and years of service and a fixed rate or a rate determined by job grade for all wage employees, including employees under collective bargaining agreements.

Effective January 1, 1998, the Company froze the benefits accrued under its defined benefit pension plan for certain salaried employees and instituted a defined contribution plan. Effective March 31, 2000, benefits for certain salaried employees of J. M. Tull Metals Company and AFCO Metals, subsidiaries that were merged into JT Ryerson, were similarly frozen, with the employees becoming participants in the Company's defined contribution plan. Salaried employees who vested in their benefits accrued under the defined benefit plan at December 31, 1997 and March 31, 2000, are entitled to those benefits upon retirement. For the years ended December 31, 2011, 2010 and 2009, expense recognized for its defined contribution plans was \$7.0 million, \$8.6 million and \$4.2 million, respectively. The Company temporarily froze company matching 401(k) contributions beginning in February 2009 through January 22, 2010, resulting in the decrease in expense in 2009 as compared to 2011 and 2010. Effective January 22, 2010, the Company resumed matching 401(k) contributions.

In February and December 2009, the Company amended the terms of two of our Canadian post-retirement medical and life insurance plans which effectively eliminated benefits to a group of employees unless these individuals agreed to retire by October 1,

Table of Contents

2010. These actions meet the definition of a curtailment under FASB ASC 715-30-15 and resulted in a curtailment gain of \$2.0 million for the year ended December 31, 2009.

In the fourth quarter of 2010, the Company announced the closure of one of its facilities, which significantly reduced the expected years of future service of active accruing participants in the Company's defined benefit pension plan. As a result, the Company recorded a pension curtailment loss of \$2.0 million in 2010.

The Company has other deferred employee benefit plans, including supplemental pension plans, the liability for which totaled \$16.0 million and \$16.1 million at December 31, 2011 and 2010, respectively.

Summary of Assumptions and Activity

The tables included below provide reconciliations of benefit obligations and fair value of plan assets of the Company plans as well as the funded status and components of net periodic benefit costs for each period related to each plan. The Company uses a December 31 measurement date to determine the pension and other postretirement benefit information. For the year 2010, the Company had an additional measurement date of November 18 for our U.S. pension plan due to the announced closure of one of its facilities as discussed above. The assumptions used to determine benefit obligations at the end of the periods and net periodic benefit costs for the Pension Benefits for U.S. plans were as follows:

	Year Ended December 31, 2011	November 18 to December 31, 2010	January 1 to November 17, 2010	Year Ended December 31, 2009
Discount rate for calculating obligations	4.90%	5.35%	N/A	5.80%
Discount rate for calculating net periodic benefit cost	5.35	5.40	5.80%	6.30
Expected rate of return on plan assets	8.75	8.75	8.75	8.75
Rate of compensation increase	3.00	3.00	4.00	4.00

The expected rate of return on U.S. plan assets is 8.75% for 2012.

The assumptions used to determine benefit obligations at the end of the periods and net periodic benefit costs for the Other Postretirement Benefits, primarily health care, for U.S. plans were as follows:

	Year Ended December 31,		
	2011	2010	2009
Discount rate for calculating obligations	4.60%	5.25%	5.70%
Discount rate for calculating net periodic benefit cost	5.25	5.70	6.30
Rate of compensation increase benefit obligations	3.00	3.00	4.00
Rate of compensation increase net periodic benefit cost	3.00	4.00	4.00

The assumptions used to determine benefit obligations at the end of the periods and net periodic benefit costs for the Pension Benefits for Canadian plans were as follows:

	Year Ended December 31,		
	2011	2010	2009
Discount rate for calculating obligations	4.75%	5.25%	5.75%
Discount rate for calculating net periodic benefit cost	5.25	5.75	7.50
Expected rate of return on plan assets	7.00	7.00	7.00
Rate of compensation increase	3.50	3.50	3.50

The expected rate of return on Canadian plan assets is 6.50% for 2012.

Edgar Filing: Ryerson Holding Corp - Form 10-K

The assumptions used to determine benefit obligations at the end of the periods and net periodic benefit costs for the Other Postretirement Benefits, primarily healthcare, for Canadian plans were as follows:

	Year Ended December 31,		
	2011	2010	2009
Discount rate for calculating obligations	4.80%	5.25%	5.75%
Discount rate for calculating net periodic benefit cost	5.25	5.75	7.50
Rate of compensation increase	3.50	3.50	3.50

For measurement purposes for U.S. plans at December 31, 2011, the annual rate of increase in the per capita cost of covered health care benefits was 8.0 percent for all participants, grading down to 5 percent in 2017, the level at which it is expected to remain. For measurement purposes for U.S. plans at December 31, 2010, the annual rate of increase in the per capita cost of covered health care benefits was 8.5 percent for all participants, grading down to 5 percent in 2017, the level at which it is expected to remain. For measurement purposes for U.S. plans at December 31, 2009, the annual rate of increase in the per capita cost of covered health care benefits was 9 percent for all participants, grading down to 5 percent in 2017, the level at which it is expected to remain. For measurement purposes for Canadian plans at December 31, 2011, the annual rate of increase in the per capita cost of covered health care benefits was 12 percent per annum, grading down to 5 percent in 2023, the level at which it is expected to remain. For measurement purposes for Canadian plans at December 31, 2010, the annual rate of increase in the per capita cost of covered health care benefits was 12 percent per annum, grading down to 5 percent in 2023, the level at which it is expected to remain. For measurement purposes for Canadian plans at December 31, 2009, the annual rate of increase in the per capita cost of covered health care benefits was 12 percent per annum, grading down to 5 percent in 2023, the level at which it is expected to remain.

The components of the Company's net periodic benefit cost for the years ended December 31, 2011, 2010 and 2009 are as follows:

	Year Ended December 31,					
	Pension Benefits			Other Benefits		
	2011	2010	2009	2011	2010	2009
(In millions)

Net periodic benefit cost (credit)	\$ 5	\$ 15	\$ (2)	\$ 6	\$ 10	\$ 9

Table of Contents

The assumed health care cost trend rate has an effect on the amounts reported for the health care plans. For purposes of determining net periodic benefit cost for U.S plans, the annual rate of increase in the per capita cost of covered health care benefits was 8.5 percent for all participants for the year ended December 31, 2011, grading down to 5 percent in 2017. For purposes of determining net periodic benefit cost for Canadian plans, the annual rate of increase in the per capita cost of covered health care benefits was 12 percent for the year ended December 31, 2011, grading down to 5 percent in 2023. A one-percentage-point change in the assumed health care cost trend rate would have the following effects:

	1% increase	1% decrease
	(In millions)	
Effect on service cost plus interest cost	\$ 0.6	\$ (0.5)
Effect on postretirement benefit obligation	5.7	(4.6)

Pension Trust Assets

The expected long-term rate of return on pension trust assets is 6.50% to 8.75% based on the historical investment returns of the trust, the forecasted returns of the asset classes and a survey of comparable pension plan sponsors.

The Company's pension trust weighted-average asset allocations at December 31, 2011 and 2010, by asset category are as follows:

	Trust Assets at December 31,	
	2011	2010
Equity securities	62%	63%
Debt securities	22	27
Real Estate	3	1
Other	13	9
Total	100.0%	100.0%

The Board of Directors of Ryerson has general supervisory authority over the Pension Trust Fund and approves the investment policies and plan asset target allocation. An internal management committee provides on-going oversight of plan assets in accordance with the approved policies and asset allocation ranges and has the authority to appoint and dismiss investment managers. The investment policy objectives are to maximize long-term return from a diversified pool of assets while minimizing the risk of large losses, and to maintain adequate liquidity to permit timely payment of all benefits. The policies include diversification requirements and restrictions on concentration in any one single issuer or asset class. The currently approved asset investment classes are cash; fixed income; domestic equities; international equities; real estate; private equities and hedge funds of funds. Company management allocates the plan assets among the approved investment classes and provides appropriate directions to the investment managers pursuant to such allocations. The approved target ranges and allocations as of the December 31, 2011 and 2010 measurement dates were as follows:

	000000 Range	000000 Target
Equity securities	35-85%	74%
Debt securities	10-30	12
Real Estate	0-10	9
Other	0-10	5
Total		100%

Table of Contents

The Company switched investment manager firms during 2011 which resulted in a change in the types of pension assets held at December 31, 2011 compared to December 31, 2010.

The fair value of Ryerson's pension plan assets at December 31, 2011 by asset category are as follows. See Note 17 for the definitions of Level 1, 2, and 3 fair value measurements.

Securities listed on one or more national securities exchanges are valued at their last reported sales price on the date of valuation. If no sale occurred on the valuation date, the security is valued at the mean of the last bid and ask prices on the valuation date.

Corporate and government bonds which are not listed or admitted to trading on any securities exchanges are valued at the average mean of the last bid and ask prices on the valuation date based on quotations supplied by recognized quotation services or by reputable broker dealers.

The non-publicly traded securities, other securities or instruments for which reliable market quotations are not available are valued at each investment manager's discretion. Valuations will depend on facts and circumstances known as of the valuation date and application of certain valuation methods.

Contributions

The Company contributed \$43.9 million, \$46.6 million and \$7.5 million for the years ended December 31, 2011, 2010 and 2009, respectively, to improve the funded status of the plans. The Company anticipates that it will have a minimum required pension contribution funding of approximately \$51 million in 2012.

Estimated Future Benefit Payments

	(In millions)	
2012	\$ 54.7	\$ 14.4
2013	55.3	14.3
2014	55.7	13.0
2015	56.3	12.4
2016	56.9	11.9
2017-2021	290.3	50.0

Multiemployer Pension and Other Postretirement Plans

Ryerson participates in two multiemployer pension plans covering 80 employees at 5 locations. Total contributions to the plans were \$0.4 million, \$0.4 million and \$0.5 million for the years ended December 31, 2011, 2010, and 2009, respectively. Ryerson's contributions represent less than 5% of the total contributions to the plans. Ryerson maintains positive employee relations at all locations. The Company's participation in these plans is not material to our financial statements.

Table of Contents

Note 11: Commitments and Contingencies

Lease Obligations & Other

The Company leases buildings and equipment under noncancellable operating leases expiring in various years through 2025. Future minimum rental commitments are estimated to total \$125.9 million, including approximately \$23.6 million in 2012, \$19.6 million in 2013, \$16.0 million in 2014, \$13.9 million in 2015, \$11.9 million in 2016 and \$40.9 million thereafter.

Rental expense under operating leases totaled \$30.5 million, \$25.6 million and \$25.4 million for the years ended December 31, 2011, 2010 and 2009, respectively.

To fulfill contractual requirements for certain customers in 2011, the Company has entered into certain fixed-price noncancellable contractual obligations. These purchase obligations which will all be paid in 2012 aggregated to \$56.1 million at December 31, 2011.

Concentrations of Various Risks

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, available-for-sale investments, derivative instruments, accounts payable, and notes payable. In the case of cash, accounts receivable and accounts payable, the carrying amount on the balance sheet approximates the fair values due to the short-term nature of these instruments. The available-for-sale investments in common stock are adjusted to fair value each period with unrealized gains and losses recorded within accumulated other comprehensive income. The derivative instruments are marked to market each period. Based on borrowing rates available to the Company for loans with similar terms, the carrying value of notes payable approximates the fair values.

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of derivative financial instruments and trade accounts receivable. Our derivative financial instruments are contracts placed with major financial institutions. Credit is generally extended to customers based upon an evaluation of each customer's financial condition, with terms consistent in the industry and no collateral required. Concentrations of credit risk with respect to trade accounts receivable are limited due to the large number of customers and their dispersion across geographic areas.

The Company has signed supply agreements with certain vendors which may obligate the Company to make cash deposits based on the spot price of aluminum at the end of each month. These cash deposits offset amounts payable to the vendor when inventory is received. We made no cash deposits for the year ended December 31, 2011. We have an exposure of \$2.6 million at December 31, 2011.

Approximately 16% of our total labor force is covered by collective bargaining agreements. There are collective bargaining agreements that will expire in fiscal 2012, which cover approximately 6% of our total labor force. We believe that our overall relationship with our employees is good.

Litigation

From time to time, we are named as a defendant in legal actions incidental to our ordinary course of business. We do not believe that the resolution of these claims will have a material adverse effect on our financial position, results of operations or cash flows. We maintain liability insurance coverage to assist in protecting our assets from losses arising from or related to activities associated with business operations.

In October 2011, the United States Environmental Protection Agency named us as one of more than 100 businesses that may be a potentially responsible party for the Portland Harbor Superfund Site (Portland Harbor). We do not currently have sufficient information available to us to determine the total cost of any required investigation or remediation of the Portland Harbor site. Management cannot predict the ultimate outcome of this matter or estimate a range of potential loss at this time.

During the year ended December 31, 2010, the Company received \$2.6 million related to the settlement of an insurance claim. Based on a 2003 agreement between Ispat International N.V. and Ispat Inland, Inc. (collectively, Ispat) and Ryerson, Ryerson assigned its environmental insurance policy issued by Kemper Environmental Ltd (Kemper) to Ispat and Ispat agreed to use commercially reasonable efforts to pursue certain claims against Kemper. Ryerson received a letter from ArcelorMittal, the successor in interest by merger to Ispat, in 2010 stating it had reached a settlement with Kemper Environmental Ltd. relating to a 2005 claim and that Ryerson would receive \$2.6 million as its agreed upon share of the settlement. The Company received the \$2.6 million in 2010 and in accordance with ASC 450-30, the Company recognized the gain upon its realization.

Edgar Filing: Ryerson Holding Corp - Form 10-K

On April 22, 2002, Champagne Metals, an Oklahoma metals service center that processes and sells aluminum products, sued us and six other metals service centers in the United States District Court for the Western District of Oklahoma. Champagne Metals alleged a conspiracy among the defendants to induce or coerce aluminum suppliers to refuse to designate it as a distributor in violation of federal and state antitrust laws and tortious interference with business and contractual relations. The complaint sought damages with the exact amount to be determined at trial. Champagne Metals also sought treble damages on its antitrust claims and sought punitive damages in addition to actual damages on its other claim. On May 12, 2009, the parties resolved all matters by agreement. Under the terms of this agreement we made a cash payment of \$2.6 million to Champagne Metals. On June 12, 2009 the matter was dismissed with prejudice.

Table of Contents

There are various claims and pending actions against the Company. The amount of liability, if any, for those claims and actions at December 31, 2011 is not determinable but, in the opinion of management, such liability, if any, will not have a material adverse effect on the Company's financial position, results of operations or cash flows.

Note 12: Comprehensive Income

The following sets forth the components of comprehensive income:

	Year Ended December 31,		
	2011	2010	2009
	(In millions)		
Net loss	\$ (8.8)	\$ (103.7)	\$ (192.2)
Other comprehensive income (loss):			
Foreign currency translation adjustments	(1.3)	11.1	27.8
Changes in unrecognized benefit costs, net of tax benefit of \$1.5 in 2011, tax benefit of \$0.7 in 2010 and tax benefit of \$1.8 in 2009	(65.2)	(18.3)	(17.0)
Unrealized gain on available-for-sale investment	(9.8)	5.4	
Total comprehensive loss	\$ (85.1)	\$ (105.5)	\$ (181.4)
Less: comprehensive income (loss) attributable to noncontrolling interest	(0.5)	0.4	(1.7)
Comprehensive loss attributable to Ryerson Holding Corporation	\$ (84.6)	\$ (105.9)	\$ (179.7)

Note 13: Related Parties

The Company pays an affiliate of Platinum an annual monitoring fee of up to \$5.0 million pursuant to a corporate advisory services agreement. The monitoring fee was \$5.0 million for the years ended December 31, 2011, 2010 and 2009.

We declared and paid a dividend of \$56.5 million and \$213.8 million to our stockholders in July 2009 and January 2010, respectively.

Note 14: Sales by Product

The Company derives substantially all of its sales from the distribution of metals. The following table shows the Company's percentage of sales by major product line:

Product Line	Year Ended December 31,		
	2011	2010	2009
	(Percentage of Sales)

Aluminum Long	4	4	4
Other	4	4	9
Total	100%	100%	100%

Edgar Filing: Ryerson Holding Corp - Form 10-K

No customer accounted for more than 2 percent of Company sales for the years ended December 31, 2011, 2010 and 2009. The top ten customers accounted for less than 11 percent of its sales for the year ended December 31, 2011. A significant majority of the Company's sales are attributable to its U.S. operations and a significant majority of its long-lived assets are located in the United States. The only operations attributed to foreign countries relate to the Company's subsidiaries in Canada, China and Mexico, which in aggregate comprised 14 percent of the Company's sales during the years ended December 31, 2011, 2010 and 2009; Canadian, Chinese and Mexican assets were 15 percent, 15 percent and 17 percent of total Company assets at December 31, 2011, 2010 and 2009, respectively.

Table of Contents**Note 15: Other Matters***Equity Investments*

Tata Ryerson Limited. The Company sold its 50 percent interest in Tata Ryerson Limited, a joint venture with Tata Steel Limited, an integrated steel manufacturer in India on July 10, 2009 to its joint venture partner. Tata Ryerson Limited, which was formed in 1997, is a metals service center and processor with processing facilities at Jamshedpur, Faridabad, and Ranjangaon, India. Prior to the sale, the Company accounted for this joint venture under the equity method of accounting. The Company received proceeds of \$49 million for the transaction and recognized a pre-tax gain of approximately \$0.5 million in the third quarter of 2009. The Company's investment in this joint venture was not material to the Company's consolidated financial position or results of operations.

Automated Laser Fabrication Co., LLC. In 2011, the Company invested \$0.8 million in Automated Laser Fabrication Co., LLC (ALF) for a 38 percent equity interest. ALF is a steel processing company located in Streetsboro, Ohio. The Company accounts for this investment under the equity method of accounting. The Company's investment in this joint venture is not considered material to the Company's consolidated financial position or results of operations.

Note 16: Compensation Plan**Participation Plan**

In 2009, Ryerson Holding adopted the 2009 Participation Plan (as amended and restated, the Plan). The purpose of the Plan is to provide incentive compensation to key employees of the Company by granting performance units. The value of the performance units is related to the appreciation in the value of the Company from and after the date of grant and the performance units vest over a period specified in the applicable award agreement, which typically vest over 44 months. The Plan may be altered, amended or terminated by the Company at any time. All performance units will terminate upon termination of the Plan or expiration on February 15, 2014. Participants in the Plan may be entitled to receive compensation for their vested units if certain performance-based qualifying events occur during the participant's employment with the Company or during a short period following the participant's death.

There are two qualifying events defined in the Plan: (1) A qualifying sale event in which there is a sale of some or all of the stock of Ryerson Holding then held by Ryerson Holding's principal stockholders and (2) A qualifying distribution in which Ryerson Holding pays a cash dividend to its principal stockholders. Upon the occurrence of a Qualifying Event, participants with vested units may receive an amount equal to the difference between: (i) the value (as defined by the Plan) of the units on the date of the qualifying event, and (ii) the value of the units assigned on the date of grant. No amounts are due to participants until the total cash dividends and net proceeds from the sale of common stock to Ryerson Holding's principal stockholder exceeds \$875 million. Upon termination, with or without cause, units are forfeited, except in the case of death, as described in the Plan. As of December 31, 2011, 87,500,000 units have been authorized and granted, 32,812,500 units have been forfeited and 54,687,500 units have vested as of the date hereof. The Company is accounting for this Plan in accordance with FASB ASC 718,

Compensation Stock Compensation (ASC 718). Since the occurrence of future qualifying events is not determinable or estimable, no liability or expense has been recognized to date. The fair value of the performance units are based upon cash dividends to and net proceeds from sales of common stock of Ryerson Holding by its principal stockholders through the end of each period that have occurred or are probable. The fair value of the performance units on their grant date in 2009 and at December 31, 2011 and 2010, which included cash dividends of \$213.8 million paid in 2010 and \$56.5 million paid in 2009, was zero.

Note 17: Derivatives and Fair Value Measurements**Derivatives**

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks managed by using derivative instruments are interest rate risk, foreign currency risk, and commodity price risk. Interest rate swaps are entered into to manage interest rate risk associated with the Company's floating-rate borrowings. We use foreign currency exchange contracts to hedge our Canadian subsidiaries' variability in cash flows from the forecasted payment of currencies other than the functional currency. From time to time, we may enter into fixed price sales contracts with our customers for certain of our inventory components. We may enter into metal commodity futures and options contracts periodically to reduce volatility in the price of metals. We may also enter into natural gas price swaps to manage the price risk of forecasted purchases of natural gas. The Company currently does not account for its derivative contracts as hedges but rather marks them to market with a corresponding offset to current earnings. The Company regularly reviews the creditworthiness of its derivative counterparties and does not expect to incur a significant loss from the failure of any counterparties to perform under any agreements.

Table of Contents

The following table summarizes the location and fair value amount of our derivative instruments reported in our consolidated balance sheet as of December 31, 2011 and 2010:

	Asset Derivatives				Liability Derivatives			
	December 31, 2011		December 31, 2010		December 31, 2011		December 31, 2010

Total derivatives		\$ 0.1		\$ 0.7		\$ 1.1		\$ 1.2

The Company's interest rate forward contract had a notional amount of \$100 million as of December 31, 2010. The interest rate forward contract expired in July 2011. As of December 31, 2011 and 2010, the Company's foreign currency exchange contracts had a U.S. dollar notional amount of \$4.9 million and \$7.1 million, respectively. As of December 31, 2011 and 2010, the Company had 276 tons and 1,345 tons, respectively, of nickel futures or option contracts related to forecasted purchases. The Company entered into a natural gas price swap during 2010, which had a notional amount of 225,000 million British thermal units (mmbtu) as of December 31, 2010. The natural gas contract expired in March 2011. As of December 31, 2011 and 2010, the Company had 5,780 tons and 2,325 tons, respectively, of hot roll steel coil option contracts related to forecasted purchases. The Company has aluminum price swaps related to forecasted purchases, which had a notional amount of 1,210 tons and 64 tons as of December 31, 2011 and 2010, respectively.

The following table summarizes the location and amount of gains and losses reported in our consolidated statement of operations for the years ended December 31, 2011, 2010 and 2009:

Table of Contents**Fair Value Measurements**

As permitted by ASC 820-10-65-1, the Company adopted the nonrecurring fair value measurement disclosures for nonfinancial assets and liabilities. To increase consistency and comparability in fair value measurements, ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels as follows:

1. Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access as of the reporting date.
2. Level 2 inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.
3. Level 3 unobservable inputs, such as internally-developed pricing models for the asset or liability due to little or no market activity for the asset or liability.

The following table presents assets and liabilities measured and recorded at fair value on our Consolidated Balance Sheets on a recurring basis and their level within the fair value hierarchy as of December 31, 2011:

Table of Contents

The fair value of each derivative contract is determined using Level 2 inputs and the market approach valuation technique, as described in ASC 820. The Company has various commodity derivatives to lock in nickel prices for varying time periods. The fair value of these derivatives is determined based on the spot price each individual contract was purchased at and compared with the one-month daily average actual spot price on the London Metals Exchange for nickel on the valuation date. The Company also has commodity derivatives to lock in hot roll coil and aluminum prices for varying time periods. The fair value of these derivatives is determined based on the spot price each individual contract was purchased at and compared with the one-month daily average actual spot price on the New York Mercantile Exchange for the commodity on the valuation date. The Company also had an interest rate swap to fix a portion of the Company's interest payments on its debt obligations prior to its expiration on July 15, 2011. The interest rate swap had a notional amount of \$100 million and fixed a portion of our interest payments at an interest rate of 1.59%. The interest rate swap was valued using estimated future one-month LIBOR interest rates as compared to the fixed interest rate of 1.59%. In addition, the Company has numerous foreign exchange contracts to hedge our Canadian subsidiaries' variability in cash flows from the forecasted payment of currencies other than the functional currency, the Canadian dollar. The Company defines the fair value of foreign exchange contracts as the amount of the difference between the contracted and current market value at the end of the period. The Company estimates the current market value of foreign exchange contracts by obtaining month-end market quotes of foreign exchange rates and forward rates for contracts with similar terms. The Company uses the exchange rates provided by Reuters. Each contract term varies in the number of months, but on average is between 3 to 12 months in length.

The following table presents assets and liabilities measured and recorded at fair value on our Consolidated Balance Sheets on a non-recurring basis and their level within the fair value hierarchy as of December 31, 2011:

	At December 31, 2011		
	Level 1	Level 2	Level 3
(In millions)

Other current assets – assets held for sale (Note 5)	\$	\$ 10.0	\$

The following table presents assets and liabilities measured and recorded at fair value on our Consolidated Balance Sheets on a non-recurring basis and their level within the fair value hierarchy as of December 31, 2010:

	At December 31, 2010		
	Level 1	Level 2	Level 3
(In millions)			
Assets			
Other current assets – assets held for sale (Note 5)	\$	\$ 14.3	\$

The carrying and estimated fair values of the Company's financial instruments at December 31, 2011 and 2010 were as follows:

	At December 31, 2011		At December 31, 2010	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
(In millions)				
Cash and cash equivalents	\$ 61.7	\$ 61.7	\$ 62.6	\$ 62.6
Receivables less provision for allowances, claims and doubtful accounts	513.9	513.9	497.9	497.9
Accounts payable	245.1	245.1	287.5	287.5
Long-term debt, including current portion	1,316.2	1,225.7	1,211.3	1,206.2

The estimated fair value of the Company's cash and cash equivalents, receivables less provision for allowances, claims and doubtful accounts and accounts payable approximate their carrying amounts due to the short-term nature of these financial instruments. The estimated fair value of the Company's long-term debt and the current portions thereof is determined by using quoted market prices of Company debt securities, where available, and from analyses performed using current interest rates considering credit ratings and the remaining terms of maturity.

Available-For-Sale Investments

Edgar Filing: Ryerson Holding Corp - Form 10-K

The Company has classified investments made during 2010 as available-for-sale at the time of their purchase. Investments classified as available-for-sale are recorded at fair value with the related unrealized gains and losses included in accumulated other comprehensive income. Management evaluates investments in an unrealized loss position on whether an other-than-temporary impairment has occurred on a periodic basis. Factors considered by management in assessing whether an other-than-temporary impairment has occurred include: the nature of the investment; whether the decline in fair value is attributable to specific adverse

Table of Contents

conditions affecting the investment; the financial condition of the investee; the severity and the duration of the impairment; and whether we intend to sell the investment or will be required to sell the investment before recovery of its amortized cost basis. When it is determined that an other-than-temporary impairment has occurred, the investment is written down to its market value at the end of the period in which it is determined that an other-than-temporary decline has occurred. The investment has been in a gross unrealized loss position for less than twelve months. Management does not intend to sell the investment before recovery of its amortized cost basis. Realized gains and losses are recorded within the statement of operations upon sale of the security and are based on specific identification.

The Company's available-for-sale securities as of December 31, 2011 can be summarized as follows:

	Cost	At December 31, 2011		Fair Value
		Gross Unrealized Gains	Gross Unrealized Losses	
(In millions)				
Common stock	\$ 14.8	\$	\$ (4.4)	\$ 10.4

The Company's available-for-sale security as of December 31, 2010 can be summarized as follows:

	Cost	At December 31, 2010		Fair Value
		Gross Unrealized Gains	Gross Unrealized Losses	
(In millions)				
Common stock	\$ 14.8	\$ 5.4	\$	\$ 20.2

There is no maturity date for this investment and there have been no sales for the years ended December 31, 2011 or 2010.

Note 18: Income Taxes

The elements of the provision (benefit) for income taxes were as follows:

	Year Ended December 31,		
	2011	2010	2009
(In millions)			
Loss before income tax:			
U.S.	\$ (14.8)	\$ (84.1)	\$ (106.7)

	0.6	(45.7)	10.7
Deferred income taxes	(11.6)	58.8	56.8
Total tax provision (benefit)	\$ (11.0)	\$ 13.1	\$ 67.5

Table of Contents

Income taxes differ from the amounts computed by applying the federal tax rate as follows:

	Year Ended December 31,		
	2011	2010	2009
	(In millions)		
Federal income tax expense (benefit) computed at statutory tax rate of 35%	\$ (6.9)	\$ (31.7)	\$ (43.6)
Additional taxes or credits from:			
State and local income taxes, net of federal income tax effect	2.0	(0.4)	(1.3)
Foreign tax credit			(8.5)
Non-deductible expenses and non-taxable income	(1.1)	0.7	1.5
Domestic production activities		2.1	(1.3)
Foreign income not includable in federal taxable income	5.8	5.5	5.6
Indian taxes			8.3
Tax on sale of foreign joint venture			14.5
Valuation allowance (reversals)	(11.7)	36.5	92.7
All other, net	0.9	0.4	(0.4)
 Total income tax provision (benefit)	 \$ (11.0)	 \$ 13.1	 \$ 67.5

Table of Contents

The components of the deferred income tax assets and liabilities arising under FASB ASC 740, *Income Taxes* (ASC 740) were as follows:

	At December 31,	
	2011	2010
	(In millions)	
Deferred tax assets:		
AMT tax credit carryforwards	\$ 30	\$ 38
Post-retirement benefits other than pensions	54	67
Federal and foreign net operating loss carryforwards	64	42
State net operating loss carryforwards	12	12
Pension liability	139	120
Other deductible temporary differences	22	21
Less: valuation allowances	(152)	(137)
	\$ 169	\$ 163
Deferred tax liabilities:		
Fixed asset basis difference	\$ 114	\$ 115
Inventory basis difference	131	135
Other intangibles	19	1
	264	251
Net deferred tax liability	\$ (95)	\$ (88)

The Company had available at December 31, 2011, federal AMT credit carryforwards of approximately \$30 million, which may be used indefinitely to reduce regular federal income taxes.

The Company's deferred tax assets also include \$60 million related to US federal net operating loss (NOL) carryforwards which expire in 20 years, \$12 million related to state NOL carryforwards which expire generally in 3 to 15 years and \$4 million related to foreign NOL carryforwards which expire in 3 to 5 years, available at December 31, 2011.

Earnings from the Company's foreign subsidiaries are considered to be indefinitely reinvested and, accordingly, no provision for U.S. Federal and state income taxes or foreign withholding tax has been made in our Consolidated Financial Statements. A distribution of these non-U.S. earnings in the form of dividends or otherwise would subject the Company to both U.S. Federal and state income taxes, as adjusted for tax credits and foreign withholding taxes. A determination of the amount of any unrecognized deferred income tax liability on the undistributed earnings is not practicable. At December 31, 2011, the Company had approximately \$50.4 million of undistributed foreign earnings. The Company has not recognized any U.S. tax expense on \$41.9 million of these earnings since it intends to reinvest the earnings outside the U.S. for the foreseeable future.

The Company's foreign subsidiaries in Canada and China held approximately \$43 million in cash and short term investments at the end of 2011 that, if repatriated, would cause the Company to accrue additional US income taxes. The Company does not intend to repatriate these funds.

Table of Contents

The Company accounts for uncertain income tax positions in accordance with ASC 740. A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows:

	Unrecognized Tax Benefits (In millions)
Unrecognized tax benefits balance at January 1, 2009	\$ 5.1
Gross increases tax positions in prior periods	0.1
Settlements and closing of statute of limitations	(0.2)
Unrecognized tax benefits balance at December 31, 2009	\$ 5.0
Gross increases tax positions in prior periods	1.6
Settlements and closing of statute of limitations	(0.2)
Unrecognized tax benefits balance at December 31, 2010	\$ 6.4
Gross increases tax positions in prior periods	1.5
Settlements and closing of statute of limitations	(0.9)
Unrecognized tax benefits balance at December 31, 2011	\$ 7.0

Ryerson and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state and foreign jurisdictions. The Company has substantially concluded all U.S. federal income tax matters for years through 2009. Substantially all state and local income tax matters have been concluded through 2006. However, a change by a state in subsequent years would result in an insignificant change to the Company's state tax liability. The Company has substantially concluded foreign income tax matters through 2006 for all significant foreign jurisdictions.

We recognize interest and penalties related to uncertain tax positions in income tax expense. As of December 31, 2011 and 2010, we had approximately \$0.7 million and \$0.4 million of accrued interest related to uncertain tax positions, respectively. Total amount of unrecognized tax benefits that would affect our effective tax rate if recognized is \$3.8 million and \$2.7 million as of December 31, 2011 and 2010, respectively. Although a larger portion of the unrecognized tax benefit may affect the effective tax rate, currently, the benefit would be in the form of a deferred tax asset fully offset by a valuation allowance.

Note 19: Subsequent Events

On February 17, 2012, the Company acquired 50% of the issued and outstanding capital stock of Acofran Acos E Metais LTDA, a metals distributor located in Sao Paulo, Brazil. The acquisition is not material to our consolidated financial statements.

Table of Contents

SCHEDULE I CONDENSED FINANCIAL INFORMATION OF REGISTRANT

RYERSON HOLDING CORPORATION

NOTES TO FINANCIAL STATEMENTS

(In millions)

Note 1: Basis of presentation

In the parent company only financial statements, the Company's investment in subsidiaries is stated at cost plus equity in undistributed earnings of subsidiaries since the date of acquisition. The Company's share of net income of its unconsolidated subsidiaries is included in consolidated income using the equity method. The parent company only financial statements should be read in conjunction with the Company's consolidated financial statements.

Note 2: Debt

On January 29, 2010, Ryerson Holding issued \$483 million aggregate principal amount at maturity of 14 1/2% Senior Discount Notes due 2015. No cash interest accrues on the Ryerson Holding Notes. The Ryerson Holding Notes had an initial accreted value of \$455.98 per \$1,000 principal amount and will accrete from the date of issuance until maturity on a semi-annual basis. The accreted value of each Ryerson Holding Note increased from the date of issuance until October 31, 2010 at a rate of 14.50%. Thereafter the interest rate increased by 1% (to 15.50%) until July 31, 2011, an additional 1.00% (to 16.50%) on August 1, 2011 until April 30, 2012, and increases by an additional 0.50% (to 17.00%) on May 1, 2012 until the maturity date. Interest compounds semi-annually such that the accreted value will equal the principal amount at maturity of each note on that date. At December 31, 2011, the accreted value of the Ryerson Holding Notes was \$292.6 million. The Ryerson Holding Notes are not guaranteed by any of Ryerson Holding's subsidiaries and are secured by a first-priority security interest in the capital stock of Ryerson. The Ryerson Holding Notes rank equally in right of payment with all of Ryerson Holding's senior debt and senior in right of payment to all of Ryerson Holding's subordinated debt. The Ryerson Holding Notes are effectively junior to Ryerson Holding's other secured debt to the extent of the collateral securing such debt (other than the capital stock of Ryerson). Because the Ryerson Holding Notes are not guaranteed by any of Ryerson Holding's subsidiaries, the notes are structurally subordinated to all indebtedness and other liabilities (including trade payables) of Ryerson Holding's subsidiaries, including Ryerson.

The Ryerson Holding Notes contain customary covenants that, among other things, limit, subject to certain exceptions, Ryerson Holding's ability to incur additional indebtedness, pay dividends on its capital stock or repurchase its capital stock, make certain investments or other restricted payments, create liens or use assets as security in other transactions, enter into sale and leaseback transactions, merge, consolidate or transfer or dispose of substantially all of Ryerson Holding's assets, and engage in certain transactions with affiliates.

The Ryerson Holding Notes are redeemable, at our option, in whole or in part, at any time at specified redemption prices. We are required to redeem the Ryerson Holding Notes upon the receipt of net proceeds of certain qualified equity issuances, specified change of controls and/or specified receipt of dividends.

The terms of the Ryerson Notes (discussed below) restrict Ryerson from paying dividends to Ryerson Holding. Subject to certain exceptions, Ryerson may only pay dividends to Ryerson Holding to the extent of 50% of future net income, once prior losses are offset. In the event Ryerson is restricted from providing Ryerson Holding with sufficient distributions to fund the retirement of the Ryerson Holding Notes at maturity, Ryerson Holding may default on the Ryerson Holding Notes unless other sources of funding are available.

Pursuant to a registration rights agreement, Ryerson Holding agreed to file with the SEC by October 26, 2010, a registration statement with respect to an offer to exchange each of the Ryerson Holding Notes for a new issue of Ryerson Holding's debt securities registered under the Securities Act, with terms substantially identical to those of the Ryerson Holding Notes and to consummate an exchange offer no later than February 23, 2011. Ryerson Holding completed the exchange offer on December 7, 2010. As a result of completing the exchange offer, Ryerson Holding satisfied its obligations under the registration rights agreement covering the Ryerson Holding Notes.

Note 3: Guarantee

Ryerson Holding has guaranteed \$35 million of loans made between three of its wholly-owned subsidiaries. These loans are payable on demand.

Note 4: Dividends from subsidiaries

Cash dividends paid to Ryerson Holding Corporation from the Company's consolidated subsidiaries were zero for the years ended December 31, 2011 and 2010 and \$35.0 million for the year ended December 31, 2009.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 15d-15(b), we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of December 31, 2011.

Management's Annual Report on Internal Control Over Financial Reporting

Edgar Filing: Ryerson Holding Corp - Form 10-K

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act). Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of published financial statements in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Table of Contents

Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2011. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control Integrated Framework*. Based on our assessment, we believe that as of December 31, 2011, our internal control over financial reporting was effective based on criteria set forth by COSO in *Internal Control Integrated Framework*.

This report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to the exemption provided to issuers that are not large accelerated filers nor accelerated filers under the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Changes in Internal Control over Financial Reporting

There have been no changes in the Company's internal controls over financial reporting that has materially affected or is reasonably likely to materially affect the Company's internal controls over financial reporting during the quarter ended December 31, 2011.

ITEM 9B. OTHER INFORMATION.

None.

PART III**ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.****Directors and Executive Officers**

Officers are elected by the Board of Directors of Ryerson Holding.

Set forth below are the executive officers and directors of Ryerson Holding as of March 1, 2012, and the age of each as of such date. Their principal occupations at present and during the past five years, including positions and offices held with the Company or a significant subsidiary or affiliate of the Company or outside of Ryerson Holding, are shown below.

Name	Age	Position
Robert L. Archambault	47	Director
Eva M. Kalawski	56	Director
Jacob Kotzubei	43	Director
Mary Ann Sigler	57	Director
Michael C. Arnold	55	Chief Executive Officer and President
Terence R. Rogers	52	Chief Financial Officer

Biographies of Directors

Robert L. Archambault has been a director of Ryerson Holding since April 2010. Mr. Archambault joined Platinum in 1997 and is a Partner at the firm. Mr. Archambault served as the Chief Executive Officer of Ryerson from October 2007 to August 2008. Prior to joining Platinum, Mr. Archambault worked at Pilot Software, Inc., where he held the positions of VP Business Development, VP Professional Services and VP Channels, Americas. Mr. Archambault received a B.S. in Management from New York Maritime College. Mr. Archambault served as acting president of Ryerson from October 2007 through August 2008 and his familiarity with Ryerson and its business has led the Board of Directors to conclude that he has the necessary expertise to serve as a director of the Company.

Eva M. Kalawski has been a director of Ryerson Holding and Ryerson since July 2007. Ms. Kalawski joined Platinum in 1997, is a Partner and serves as the firm's General Counsel and Secretary. Ms. Kalawski serves or has served as an officer and/or director of many of Platinum's portfolio companies. Ms. Kalawski's expertise and experience managing the legal operations of many portfolio companies has led the Board of Directors to conclude she has the background and skills necessary to serve as a director of the Company. Prior to joining Platinum in 1997,

Edgar Filing: Ryerson Holding Corp - Form 10-K

Ms. Kalawski was Vice President of Human Resources, General Counsel and Secretary for Pilot Software, Inc. Ms. Kalawski earned a Bachelor's Degree in Political Science and French from Mount Holyoke College and a Juris Doctor from Georgetown University Law Center.

Jacob Kotzubei has been a director of Ryerson Holding since January 2010 and a director of Ryerson since October 2007. Mr. Kotzubei joined Platinum in 2002 and is a Partner at the firm. Mr. Kotzubei serves as an officer and/or director of a number of Platinum's portfolio companies. Prior to joining Platinum in 2002, Mr. Kotzubei worked for 4 1/2 years for Goldman Sachs' Investment Banking Division in New York City. Previously, he was an attorney at Sullivan & Cromwell LLP in New York City, specializing in mergers and acquisitions. Mr. Kotzubei received a Bachelor's degree from Wesleyan University and holds a Juris Doctor from Columbia University School of Law where he was elected a member of the Columbia Law Review. Mr. Kotzubei's experience in executive management oversight, private equity, capital markets and transactional matters has led the Board of Directors to conclude that he has the varied expertise necessary to serve as a director of the Company.

Table of Contents

Mary Ann Sigler has been a director of Ryerson Holding since January 2010 and of Ryerson since March 2009. Ms. Sigler is the Chief Financial Officer of Platinum. Ms. Sigler joined Platinum in 2004 and is responsible for overall accounting, tax, and financial reporting as well as managing strategic planning projects for the firm. Prior to joining Platinum, Ms. Sigler was with Ernst & Young LLP for 25 years where she was a partner. Ms. Sigler has a B.A. in Accounting from California State University Fullerton and a Masters in Business Taxation from the University of Southern California. Ms. Sigler's experience in accounting and strategic planning matters has led the Board of Directors to conclude that she has the requisite qualifications to serve as a director of the Company and facilitate its continued growth.

Biographies of Executive Officers

Michael C. Arnold has been Chief Executive Officer and President of Ryerson Holding and Ryerson since January 2011. Prior to joining Ryerson, he served as executive vice president and president for The Timken Company (Timken) from 2007 to 2010 and president of Timken's Bearings and Power Transmission Group from 2007 to 2010. Timken is a global company that manufactures steel, bearings and related components. Mr. Arnold earned a Bachelor's degree in Mechanical Engineering and an MBA in sales and marketing from the University of Akron.

Terence R. Rogers has been Chief Financial Officer of Ryerson Holding since January 2010 and Chief Financial Officer of Ryerson since October 2007. He was Vice President Finance of Ryerson from September 2001 to October 2007 and Treasurer of Ryerson from February 1999 to October 2007. Mr. Rogers earned a B.S. in Accounting from Illinois State University and an MBA in Finance from the University of Michigan.

Section 16(a) Beneficial Owner Reporting Compliance

The Company does not have any class of equity securities registered pursuant to Section 12 of the Securities Exchange Act of 1934, as amended.

Code of Ethics

Our Board of Directors has adopted a Code of Ethics that contains the ethical principles by which our chief executive officer, chief financial officer and general counsel, among others, are expected to conduct themselves when carrying out their duties and responsibilities. A copy of our Code of Ethics may be found on our website at www.ryerson.com. Our website is not incorporated by reference into this Annual Report. We will provide a copy of our Code of Ethics to any person, without charge, upon request, by writing to the Compliance Officer, Ryerson Holding Corporation, 227 West Monroe Street, 27th Floor, Chicago, Illinois 60606 (telephone number (312) 292-5000). We intend to satisfy the disclosure requirement under Item 5.05 of Form 8-K regarding an amendment to, or waiver from, a provision of our Code of Ethics by posting such information on our website at www.ryerson.com or by filing a Form 8-K with the SEC.

Director Independence

At this time, we are not subject to the independence requirements of any applicable listing standards. Accordingly, we have not assessed the independence of our Board of Directors. None of our directors are independent, however, for audit committee purposes.

Compensation Committee Interlocks and Insider Participation

We do not currently have a designated compensation committee. None of our executive officers has served as a member of the board of directors or compensation committee of any entity that has an executive officer serving as a member of our Board of Directors.

Audit Committee

In September 2010, we formed an audit committee of the Board of Directors consisting of Ms. Sigler and Mr. Kotzubei. Prior to this time, our Board of Directors acted as a group to perform the functions of an audit committee. Our Board of Directors has determined that Ms. Sigler and Mr. Kotzubei have accounting or related financial management expertise and qualify as audit committee financial experts as defined in the rules and regulations promulgated under the Exchange Act (additional information regarding relevant experience is presented above in Biographies of Directors.) Our Audit Committee (i) monitors the integrity of our financial statements, our compliance with legal and regulatory requirements, our independent registered public accounting firm's qualifications and independence, and the performance of our internal audit function and independent registered public accounting firm, (ii) assumes direct responsibility for the appointment, compensation, retention and oversight of the work of any independent registered public accounting firm engaged for the purpose of performing any audit, review or attest services and for dealing directly with any such accounting firm, (iii) provides a medium for consideration of matters relating to any audit issues and (iv) will prepare the audit committee report that the rules require be included in our filings with the SEC.

Table of Contents

Audit Committee Report

Management is responsible for the preparation, presentation and integrity of Ryerson Holding's consolidated financial statements and the reporting process including Ryerson Holding's internal controls over financial reporting and their effectiveness. The independent registered public accounting firm of Ernst and Young, LLP (E&Y) is responsible for performing an independent audit of Ryerson Holding's consolidated financial statements. The Audit Committee's responsibility is to monitor and oversee these activities and processes. In this context, the Audit Committee reports as follows:

1. The Audit Committee has reviewed and discussed with management Ryerson Holding's consolidated financial statements for the year ended December 31, 2011 and management has represented that the consolidated financial statements were prepared in accordance with generally accepted accounting principles;
2. The Audit Committee also met privately with E&Y, and discussed issues deemed significant by E&Y including the matters required to be discussed by Statement on Auditing Standards No. 61 (*Communications with Audit Committees*);
3. The Audit Committee received the written disclosures and the letter from E&Y required by applicable requirements of Public Company Accounting Oversight Board regarding E&Y's communications with the audit committee concerning independence, and has discussed with E&Y its independence from Ryerson Holding and its management; and

Based on the reviews and discussions referred above, the Audit Committee has recommended that the audited financial statements referred to above be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011 for filing with the Securities and Exchange Commission.

Respectfully submitted by the Audit Committee:

Mary Ann Sigler, Chair

Jacob Kotzubei

ITEM 11. EXECUTIVE COMPENSATION. Compensation Discussion and Analysis

Compensation Overview and Objectives

As a private company, our compensation decisions with respect to our named executive officers have historically been based on the goal of achieving performance at levels necessary to provide meaningful returns to our primary stockholder upon an ultimate liquidity event. To this end, our compensation decisions in 2011 were primarily based on the goal of recruiting, retaining, and motivating individuals who can help us meet and exceed our financial and operational goals.

Determination of Compensation

Ryerson Board of Directors (the Ryerson Board), in consultation with us was principally responsible for establishing and making decisions with respect to our compensation and benefit plans generally in 2011, including all compensation decisions relating to our named executive officers. The following individuals served as our named executive officers in 2011: (i) Michael C. Arnold, our President and Chief Executive Officer, (ii) Matthias Heilmann, our former Chief Operating Officer who left the Company on January 31, 2012, and (iii) Terence R. Rogers, our Chief Financial Officer.

In determining the levels and mix of compensation, the Ryerson Board has not generally relied on formulaic guidelines but rather sought to maintain a flexible compensation program that allowed it to adapt components and levels of compensation to motivate and reward individual

Edgar Filing: Ryerson Holding Corp - Form 10-K

executives within the context of our desire to maximize stockholder value. Subjective factors considered in compensation determinations included an executive's skills and capabilities, contributions as a member of the executive management team, contributions to our overall performance, and whether the total compensation potential and structure was sufficient to ensure the retention of an executive when considering the compensation potential that may be available elsewhere. In making its determination, the Ryerson Board has not undertaken any formal benchmarking or reviewed any formal surveys of compensation for our competitors. The Ryerson Board consulted with each of our named executive officers during the first few months of 2011 for recommendations regarding annual bonus targets and other compensation matters (including their own) and for financial analysis concerning the impact of various benefits and compensations structures. The Ryerson Board had no formal, regularly scheduled meetings to set compensation policy and instead met as circumstances required from time to time.

The Ryerson Board considered the slow pace of the economic recovery and its impact on our business as the biggest factor impacting compensation decisions during 2011. The Ryerson Board weighed the conflicting goals of providing an attractive and competitive compensation package against making appropriate adjustments to our cost structure in recognition of this slow recovery. The Ryerson Board considered the impact on employee morale and potential loss of key employees versus the desire to contain costs. The Ryerson Board believes that its compensation decisions in 2011 accomplished both goals.

Table of Contents

Components of Compensation for 2011

The compensation provided to our named executive officers in 2011 consisted of the same elements generally available to our non-executive employees, including base salary, bonuses, perquisites and retirement and other benefits, each of which is described in more detail below. Additionally, our named executive officers participated in a long-term incentive program, also described in more detail below.

Base Salary

The base salary payable to each named executive officer was intended to provide a fixed component of compensation reflecting the executive's skill set, experience, role, and responsibilities, as well as recruit well-qualified executives. In determining base salary for any particular year, the Ryerson Board generally considered, among other factors, competitive market practice, individual performance for the prior year, the mix of fixed compensation to overall compensation, and any minimum guarantees afforded to the named executive officer pursuant to any agreement. Effective May 16, 2011, Mr. Heilmann received a 5% increase and Mr. Rogers received a 3% increase in annual base salary in recognition of their superior performance tempered by the gradual nature of the economic recovery during 2010.

Annual Bonus

Ryerson maintains the Ryerson Annual Incentive Plan (the "AIP"), pursuant to which our key managers (including our named executive officers) were eligible to receive a performance-based cash bonus tied to our achievement of specified financial performance targets in 2011. Each participant's threshold and target performance measures, as well as each participant's target award (expressed as a percentage of the participant's base salary) were established by the Ryerson Board. No cash AIP bonuses were payable unless we achieved the threshold set for the performance period. The Ryerson Board generally viewed the use of cash AIP bonuses as an effective means to compensate our named executive officers for achieving our annual financial goals and to provide meaningful returns to our primary stockholder upon a future liquidity event. The target AIP bonuses for Messrs. Arnold, Heilmann and Rogers were 100%, 100% and 75% of their respective base salaries for 2011. In early 2011, the Ryerson Board set and communicated the performance targets to the named executive officers. The target AIP bonus levels were set to reflect the relative responsibility for our performance and to appropriately allocate the total cash opportunity between base salary and incentive based compensation.

For 2011, the Ryerson Board determined that a combination of EBITDAR excluding last in, first out ("LIFO") inventory accounting expense and economic value added ("EVA") should be used as the performance measure for determining the cash AIP bonus payable to our named executive officers. EBITDAR is the amount by which our 2011 earnings before interest, tax, depreciation, amortization, and reorganization expenses less LIFO expense plus adjustments established by the Ryerson Board, if any; EVA is the amount by which (i) EBITDAR plus adjustments established by the Ryerson Board, if any, exceeded (ii) a carrying cost of capital applied to certain of our assets. The Ryerson Board chose these factors as the appropriate performance measures to motivate our key executives, including the named executive officers, to maximize earnings by more effectively utilizing and managing our assets. Fifty percent (50%) of each named executive officer's bonus opportunity for 2011 was based on the EBITDAR during 2011 and the remaining fifty percent (50%) was based on the EVA during 2011.

For 2011, threshold EBITDAR was set at approximately \$203 million, target EBITDAR was set at \$264 million, and maximum EBITDAR was \$340 million. For 2011, the actual EBITDAR for AIP purposes was \$225 million, which was in excess of threshold EBITDAR and resulted in cash bonuses of approximately 65.5% of each individual's target. For 2011, threshold EVA was set at approximately \$(14) million, target EVA was set at approximately \$23 million and maximum EVA was set at \$59 million. For 2011, the actual EVA for AIP purposes was \$(13) million, which was in excess of threshold EVA and resulted in cash bonuses of approximately 51.3% of each individual's target AIP percentage being paid to each of our named executive officers for 2011. Overall, the cash bonuses paid to each of our named executive officers pursuant to the AIP in respect of service during 2011 were approximately 58.4% of each individual's target AIP percentage. Total 2011 bonus amounts for each of our named executive officers are set forth below in the Summary Compensation Table in the Non-Equity Incentive Plan Compensation column.

Long Term Incentive Bonus

In February of 2009, Ryerson Holding adopted the Rhombus Holding Corporation 2009 Participation Plan (the "Participation Plan"), designed to provide incentive to key employees, including our named executive officers, to maximize our performance and to provide maximum returns to our stockholders. Under the Participation Plan, participants are granted performance units, the value of which appreciate when and as the value of Ryerson Holding Corporation increases from and after the date of grant, and it is this appreciation in value which is the basis upon which incentive compensation may become payable upon the occurrence of certain qualifying events, which are described below. The Compensation Committee for the Participation Plan determines who is eligible to receive an award, the size and timing of the award, and the value of the award at the time of grant. The maximum number of performance units that may be awarded under the Participation Plan is 87,500,000. The

Edgar Filing: Ryerson Holding Corp - Form 10-K

performance units generally mature over a 44-month period of time which the Compensation Committee believes acts as an incentive for participants to remain in our employ and to strive to create value throughout the investment cycle. Subject to certain thresholds, payment on the performance units is contingent

Table of Contents

upon the occurrence of either (i) a sale of some or all of Ryerson Holding Corporation's common stock by its stockholders, or (ii) Ryerson Holding Corporation's payment of a cash dividend. The Participation Plan will expire February 15, 2014 and all performance units will terminate upon the expiration of the Participation Plan. Performance units are generally forfeited upon a participant's termination of employment. As of December 31, 2011, each of Messrs. Heilmann and Rogers held grants of 8,750,000 performance units. No performance units were granted in 2011, though Mr. Arnold is eligible to receive a number of performance units that represent 1% of the management allocation pursuant to his employment letter (described below).

Retirement Benefits

Ryerson currently sponsors both a qualified defined benefit pension plan and a nonqualified supplemental pension plan, both of which were frozen as of December 31, 1997. These plans are described in further detail below under the caption "Narrative Disclosure of the Pension Benefits Table."

Ryerson's tax-qualified employee savings and retirement plan (401(k) Plan) covers certain full- and part-time employees, including our named executive officers. Under the 401(k) Plan, employees may elect to reduce their current compensation up to the statutorily prescribed annual limit and have the amount of such reduction contributed to the 401(k) Plan. The Ryerson Board believes that the 401(k) Plan provides an important and highly valued means for employees to save for retirement.

The Ryerson Board reviewed the basic 401(k) match in 2011 and concluded that it was competitive as compared to other employers. We matched 4% of the named executive officers' contributed base salary and 50% of the contributions of the 5th and 6th percent of base salary. All of our named executive officers participated in the 401(k) Plan on the same basis as our other employees in 2011.

Ryerson also maintains a nonqualified savings plan, which is an unfunded, nonqualified plan that allows highly compensated employees who make the maximum annual 401(k) contributions allowed by applicable law to the 401(k) Plan to make additional deferrals in excess of the statutory limits. We match up to 4% of all contributed base salary of the participants. The Ryerson Board believes that our nonqualified savings plan provides an enhanced opportunity for our eligible employees, including our named executive officers, to plan for and meet their retirement savings needs. Mr. Rogers participated in this plan on the same terms as other eligible employees.

Perquisites and Other Benefits

Mr. Heilmann's offer letter provided for 12 months housing and payments pursuant to the relocation policy which provided for payment of or reimbursement for certain expenses such as moving expenses, buying or selling a home, and tax gross-up. The Board of Directors believed that Mr. Heilmann should not suffer any adverse financial impact due to his relocation from California to Illinois.

Employment/Severance, Non-compete, and Non-solicitation Agreements

The employment letter with Mr. Arnold provides an annual base salary of \$750,000 per year and has a target annual bonus opportunity equal to 100% of his base salary, based on the achievement of targets established pursuant to our Annual Incentive Plan. Additionally, Mr. Arnold is eligible to receive an allocation of a number of performance units under the Amended and Restated Rhombus Holding Corporation 2009 Participation Plan that represents 1% of the management allocation. The Offer Letter also provides that we and Mr. Arnold will work together to structure an additional incentive compensation arrangement that will entitle Mr. Arnold to an after-tax economic return of between \$2.8 and \$3.2 million upon the occurrence of a liquidity event.

In the event that Mr. Arnold's employment is terminated by us without cause, he will, subject to his execution of a general release in favor of us and our affiliates, be entitled to continue to receive his base salary for the lesser of (i) 52 weeks following such termination, and (ii) the date on which Mr. Arnold secures employment, either as an employee or independent contractor, with Platinum or any of its affiliates.

During 2011, the terms of employment for Mr. Rogers were governed by an employment/severance, non-compete, confidentiality, and similar arrangements with us, pursuant to which Mr. Rogers will continue to serve as Chief Financial Officer, which set his title, base salary, target cash AIP bonus, and other compensation elements, and impose post-termination confidentiality, non-compete, and non-solicitation obligations that apply following the termination of an executive's employment for any reason. Additionally, Mr. Rogers' employment agreement provided for severance upon a termination by us without cause or by him for good reason.

The employment letter with Mr. Heilmann provided for base salary of \$350,000 and a target AIP bonus of 100% of base salary. Additionally, the letter provided that we provide Mr. Heilmann with temporary housing and relocation expenses in connection with his move from California to Chicago. Because Mr. Heilmann's employment was terminated for reasons other than cause, he is entitled to receive an enhanced 52 weeks of

Edgar Filing: Ryerson Holding Corp - Form 10-K

severance pay based on his weekly base pay rate and to receive medical and dental benefits pursuant to our Severance Plan. Mr. Heilmann is subject to invention assignment provisions and confidentiality provisions which run for a 3 year period following any termination of employment, as well as post-termination non-compete and non-solicitation covenants which run for a 12 month period following any termination.

Table of Contents

The Ryerson Board believes that employment agreements with our named executive officers are valuable tools to both enhance our efforts to retain these executives and to protect our competitive and confidential information. The estimates of the value of the benefits potentially payable under these agreements upon a termination of employment, are set out below under the captions Potential Payments Upon Termination or Change in Control.

Compensation Risk Management

We have reviewed our compensation policies and practices and have determined that those policies and practices do not subject us to any material risk.

Executive Compensation

The following table shows compensation of our principal executive officer, our principal financial officer, and one other executive officer.

2011 Summary Compensation Table

Name and Principal Position	Year	Salary (\$)	Non Equity Incentive Plan Compensation (\$)	Change in Pension and Nonqualified Deferred Compensation Earnings (\$) (3)	All other Compensation (\$) (4)	Total (\$)
Michael C. Arnold President and Chief Executive Officer (1)	2011	721,160	437,970	0	9,801	1,168,931
Robert L. Archambault Interim Principal Executive Officer (2)	2011	0	0	0	0	0
Terence R. Rogers Chief Financial Officer	2011	354,620	148,948	6,765	16,313	526,646
	2010	333,951	179,159 0	6,513	20,579	540,202
	2009	292,322		5,885	12,001	310,208
Matthias L. Heilmann Chief Operating Officer (5)	2011	384,068	224,718	0	18,547	627,333
	2010	359,649	257,250	0	93,956	710,855
	2009	287,964	0	0	499,659	787,623

- (1) Our Board elected Michael C. Arnold as our President and Chief Executive Officer on January 10, 2011.
- (2) During the period from January 1, 2011 until Mr. Arnold's election, Mr. Robert L. Archambault would have performed the functions typically vested in a principal executive officer. We did not pay Mr. Archambault any compensation for this service. Note that we pay an annual monitoring fee to Platinum (described in Note 13 in Item 8) where Mr. Archambault is a partner.
- (3) Shows the aggregate change in the actuarial present value of the named executive officer's accumulated benefit under our qualified pension plan and supplemental pension plan, from December 31, 2010 (the pension plan measurement date used for financial statement reporting purposes with respect to our audited financial statements for 2010) to December 31, 2011 (the pension plan measurement date used for financial statement reporting purposes with respect to our audited financial statements for 2011). We do not pay above-market or preferential earnings on compensation deferred under our nonqualified defined contribution plan or the nonqualified savings plan.
- (4) In 2011, we contributed to our qualified savings plan \$9,801, \$12,252 and \$12,250 for Messrs. Arnold, Heilmann, and Rogers, respectively, and contributed \$4,063 to the non-qualified plan account for Mr. Rogers. Mr. Heilmann's other compensation also includes

Edgar Filing: Ryerson Holding Corp - Form 10-K

\$6,295 for housing and relocation expenses.

- (5) Mr. Heilmann's employment with us terminated effective January 31, 2012, as a result of our election to eliminate our Chief Operating Officer position.

Robert L. Archambault	AIP	03/29/11	0	0	0
Terence R. Rogers	AIP	03/29/11	131,000	263,000	526,000
Mathias Heilmann	AIP	03/29/11	193,000	385,000	770,000

* AIP = Ryerson Annual Incentive Plan

Relating to Summary Compensation Table and**Grants of Plan-based Awards Table****Employment Agreements**

Ryerson is a party to a letter with Mr. Arnold, which provides for base salary of \$750,000 and a target AIP bonus of 100% of base salary. Mr. Arnold is eligible to receive an allocation of a number of performance units under the Amended and Restated Rhombus Holding Corporation 2009 Participation Plan that represents 1% of the management allocation. The letter agreement also provides that we and Mr. Arnold will work together to structure an additional incentive compensation arrangement that will entitle Mr. Arnold to an after-tax economic return of between \$2.8 and \$3.2 million upon the occurrence of a liquidity event.

In the event that Mr. Arnold's employment is terminated by us without cause, he will, subject to his execution of a general release in favor of us and our affiliates, be entitled to continue to receive his base salary for the lesser of (i) 52 weeks following such termination, and (ii) the date on which Mr. Arnold secures employment, either as an employee or independent contractor, with Platinum or any of its affiliates.

During 2011, the terms of employment for Mr. Rogers were governed by an employment agreement, pursuant to which Mr. Rogers will continue to serve as Chief Financial Officer. The employment agreement sets a minimum base salary and target bonus, but the compensation paid to him exceeded the minimum amounts provided in the employment agreement. The employment agreement contains customary confidentiality and invention assignment provisions and also contains customary post-termination, non-compete and non-solicit covenants which generally run for a 24 month period following any termination. The agreement provided that Mr. Rogers would be entitled to base salary and medical and dental coverage for a period of two years following termination provided that he does not violate the non-compete or confidentiality terms of his employment agreement. The agreement also provides he would be entitled to a payment equal to two times the average of the last three bonuses paid.

Ryerson is a party to an employment letter with Mr. Heilmann, which provides for base salary of \$350,000 and a target AIP bonus of 100% of base salary. Additionally, the letter provided Mr. Heilmann with temporary housing and relocation expenses in connection with his move from California to Illinois. Mr. Heilmann is subject to invention assignment provisions and confidentiality provisions which run for a 3 year period following any termination of employment, as well as post-termination non-compete and non-solicitation covenants which run for a 12 month period following any termination.

Outstanding Equity Awards at Fiscal Year-End 2011

There were no outstanding equity awards at fiscal year-end 2011.

Table of Contents**Pension Benefits**

Name	Plan Name	Number of Years Credited Service #(1)	Present Value of Accumulated Benefit \$(2)
Michael C. Arnold	Pension Plan	0	0
Robert L. Archambault	Pension Plan	0	0
Terence R. Rogers	Pension Plan	3.67	50,947
Matthias Heilmann	Pension Plan	0	0

- (1) Computed as of December 31, 2011, the same pension plan measurement date used for financial statement reporting purposes with respect to our audited financial statements for the last completed fiscal year.
- (2) The actuarial present value of the named executive officer's accumulated benefit under the relevant plan, assuming retirement at age 65 with at least 5 years of credited service, computed as of December 31, 2011, the same pension plan measurement date used for financial statement reporting purposes with respect to our audited financial statements for the last completed fiscal year. The valuation method and material assumptions applied in quantifying the present value of the current accrued benefits under each of the pension plan and the supplemental pension plan are: the discount rate used to value the present value of accumulated benefits is 4.90%.

Narrative Disclosure of the Pension Benefits Table

We froze benefit and service accruals under both our qualified pension plan and our nonqualified supplemental pension plan, effective as of December 31, 1997 and most participants, including our named executive officers, no longer accrue any benefit under these plans.

Qualified Pension Plan

Full pension benefits are payable to eligible employees who, as of the date of separation from employment, are (i) age 65 or older with at least 5 years of vesting service, (ii) age 55 or older with at least 10 years of vesting service, or (iii) any age with at least 30 years of vesting service. Benefits may be reduced depending on age and service when an individual retires and/or chooses to have benefit payments begin. Benefits are reduced under (ii) above if voluntary retirement commences prior to the employee reaching age 62 with at least 15 years of vesting service. Benefits are not reduced if the age and service conditions under (i) or (iii) are met.

In general, benefits for salaried employees are based on two factors: (i) years of benefit service prior to the freeze date of the pension benefit, and (ii) average monthly earnings, based on the highest 36 months of earnings during the participant's last ten years of service prior to the freeze date of the participant's pension benefit.

Nonqualified Deferred Compensation

Name	Executive Contributions in Last Fiscal Year (\$)	Registrant Contributions in Last Fiscal Year (\$)	Aggregate Earnings in Last Fiscal Year \$(2)	Aggregate Balance at Last Fiscal Year End (\$)
Michael C. Arnold (1)	0	0	0	0
Robert L. Archambault (1)	0	0	0	0
Terence R. Rogers	4,063	6,842	1,032	79,331
Matthias Heilmann (1)	0	3,293	53	4,216

(1) Messrs. Arnold, Archambault and Heilmann are not eligible for pension benefits.

(2)

Edgar Filing: Ryerson Holding Corp - Form 10-K

All account balances are deferred to a cash account which is credited with interest at the rate paid by our 401(k) savings plan's Managed Income Portfolio Fund II fund, which in 2011 ranged from 0.10% to 0.14%, compounded monthly. The amounts reported in this column consist of interest earned on such deferred cash accounts.

Table of Contents**Narrative Disclosure of Nonqualified Deferred Compensation**

The Internal Revenue Code imposes annual limits on employee contributions to our 401(k) Plan. Our nonqualified savings plan is an unfunded, nonqualified plan that allows highly compensated employees who make the maximum annual 401(k) contributions to defer, on a pre-tax basis, amounts in excess of the limits applicable to deferrals under our 401(k) Plan. Our nonqualified savings plan allows deferred amounts to be notionally invested in the Managed Income Portfolio Fund II (or any successor fund) that is available to the participants in our 401(k) Plan.

Generally, each of our named executive officers is eligible for, and participates in, our nonqualified savings plan. Our named executive officers will be entitled to the vested balance of their respective accounts when they retire or otherwise terminate employment. Participants are generally permitted to choose whether the benefits paid following their retirement will be paid in a lump sum or installments, with all amounts to be paid by the end of the calendar year in which the employee reaches age 75. For participants terminating employment for reasons other than retirement, the account balance is payable in a lump sum by no later than 60 days after the 1-year anniversary of the termination of employment.

Potential Payments Upon Termination or Change in Control

Each of our named executive officers have entered into employment agreements, the material terms of which have been summarized above in the Narrative Disclosure Relating to the Summary Compensation Table. Upon certain terminations of employment, our named executive officers are entitled to payments of compensation and certain benefits. The table below reflects the amount of compensation and benefits payable to each named executive officer in the event of (i) termination for cause or without good reason (voluntary termination), (ii) termination other than for cause or with good reason (involuntary termination), (iii) termination by reason of an executive's death or disability, or (iv) a change in control. The amounts shown assume that the applicable triggering event occurred on December 31, 2011, and therefore, are estimates of the amounts that would be paid to the named executive officers upon the occurrence of such triggering event. Mr. Archambault would not have been entitled to any compensation upon the occurrence of any of the triggering events described in this paragraph.

Name	Reason for Termination	Cash Severance (\$)	Continued Welfare Benefits (\$)	Total (\$)
Mr. Arnold	Voluntary	0	0	0
	Involuntary	750,000(1)	0	750,000
	Death or Disability	0	0	0
	Change in Control (2)(3)	0	0	0
Mr. Rogers	Voluntary	79,331	0	79,331
	Involuntary	1,055,239(4)	23,283	1,078,522
	Death or Disability	79,331	0	79,331
	Change in Control (3)	0	0	0
Mr. Heilmann	Voluntary	4,216	0	4,216
	Involuntary	389,037(5)	11,681	400,718
	Death or Disability	4,216	0	4,216
	Change in Control (3)	0	0	0

- (1) Consists of 52 weeks of severance pay based on weekly base pay rate.
- (2) We have an obligation to structure an additional compensation arrangement that will entitle Mr. Arnold to an after-tax economic return of between \$2.8 million and \$3.2 million upon the occurrence of a liquidity event. However, no arrangement has been negotiated to date.
- (3) The participation units held by Messrs. Rogers and Heilmann would not have been entitled to any consideration had a change in control occurred on December 31, 2011. As of the date hereof, no participation units have been awarded to Mr. Arnold.
- (4) Consists of payment of two times the base salary and two times the average of the bonus earned for the three prior years and payment of his nonqualified deferred compensation balance of \$79,331.
- (5) Consists of 52 weeks of severance pay based on weekly base pay rate and payment of his nonqualified deferred compensation balance of \$4,216.

DIRECTOR COMPENSATION

We did not pay our current directors any compensation for serving on the Board of Directors during 2011.

Table of Contents**COMPENSATION COMMITTEE REPORT**

Our Board of Directors has reviewed and discussed the Compensation Discussion and Analysis. Based on this review and these discussions, our Board of Directors determined that the Compensation Discussion and Analysis be included in this Form 10-K.

Respectfully submitted by the Board of Directors:

Robert L. Archambault

Eva M. Kalawski

Jacob Kotzubei

Mary Ann Sigler

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

99% of our issued and outstanding capital stock is beneficially owned by Platinum. We do not have any equity compensation plans under which our securities may be issued.

The following table sets forth certain information regarding the beneficial ownership of Ryerson Holding common stock as of March 1, 2012. None of our directors or executive officers beneficially owns any Ryerson common stock.

Beneficial ownership is determined in accordance with the rules and regulations of the SEC. Except as indicated in the footnotes to this table and subject to applicable community property laws, the persons named in the table have sole voting and investment power with respect to all shares of common stock listed as beneficially owned by them. As of March 1, 2012, there were nine registered holders of Ryerson Holding common stock.

Beneficial Owner	Shares Beneficially Owned	
	Number	Percent
Platinum (1)(2)	4,950,000	99%
Moelis (3)(4)	50,000	1%

- (1) Consists of (i) 711,236.84 shares of common stock held by Platinum Equity Capital Partners, L.P.; (ii) 132,868.42 shares of common stock held by Platinum Equity Capital Partners-PF, L.P.; (iii) 195,394.74 shares of common stock held by Platinum Equity Capital Partners-A, L.P.; (iv) 2,211,674 shares of common stock held by Platinum Equity Capital Partners II, L.P.; (v) 358,366 shares of common stock held by Platinum Equity Capital Partners-PF II, L.P.; (vi) 350,460 shares of common stock held by Platinum Equity Capital Partners-A II, L.P.; and (vii) 990,000 shares of common stock held by Platinum Rhombus Principals, LLC. Platinum is the beneficial owner of each of the Platinum entities listed above and Tom Gores is the Chairman and Chief Executive Officer of Platinum Equity, LLC, which, through its affiliates, manages Platinum. Mr. Gores may be deemed to share voting and investment power with respect to all shares of common stock of Ryerson Holding held beneficially by Platinum. Mr. Gores disclaims beneficial ownership of all shares of common stock of Ryerson Holding that are held by each of the Platinum entities listed above with respect to which Mr. Gores does not have a pecuniary interest therein. Eva M. Kalawski, Mary Ann Sigler, Jacob Kotzubei and Robert L. Archambault are directors of Ryerson Holding and each disclaims beneficial ownership of any shares of common stock of Ryerson Holding that they may be deemed to beneficially own because of their affiliation with Platinum, except to the extent of any pecuniary interest therein.
- (2) Address is 360 North Crescent Drive, Beverly Hills, California 90210.
- (3) Consists of (i) 46,448 shares of common stock held by Moelis Capital Partners Opportunity Fund I, LP and (ii) 3,552 shares of common stock held by Moelis Capital Partners Opportunity Fund I-A, LP. Moelis & Company Holdings LLC is the beneficial owner of each of the

Edgar Filing: Ryerson Holding Corp - Form 10-K

Moelis entities listed above (together with all other affiliated investment funds, Moelis) and Kenneth D. Moelis is the Chief Executive Officer of Moelis.

(4) Address is 399 Park Avenue, 5th Floor, New York, New York 10022.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

Services Agreement

JT Ryerson, one of our subsidiaries, is party to a corporate advisory services agreement (the Services Agreement) with Platinum Equity Advisors, LLC (Platinum Advisors), an affiliate of Platinum. Under the terms of the Services Agreement, Platinum Advisors provides to JT Ryerson certain general business, management, administrative and financial advice. In consideration of these and other services, JT Ryerson pays an annual advisory fee to Platinum Advisors of no greater than \$5 million. The Services Agreement will continue in effect until terminated by Platinum Advisors. In addition to the fees paid to Platinum Advisors pursuant to the Services Agreement, JT Ryerson will pay Platinum s out-of-pocket expenses incurred in connection with providing management services to JT Ryerson.

Table of Contents

Participation Plan

In 2009, Ryerson Holding adopted the 2009 Participation Plan (as amended and restated, the Plan). The purpose of the Plan is to provide incentive compensation to key employees of the Company by granting performance units. The value of the performance units is related to the appreciation in the value of the Company from and after the date of grant and the performance units vest over a period specified in the applicable award agreement, which typically vest over 44 months. The Plan may be altered, amended or terminated by the Company at any time. All performance units will terminate upon termination of the Plan or expiration on February 15, 2014. Participants in the Plan may be entitled to receive compensation for their vested units if certain performance-based qualifying events occur during the participant's employment with the Company or during a short period following the participant's death.

There are two qualifying events defined in the Plan: (1) A qualifying sale event in which there is a sale of some or all of the stock of Ryerson Holding then held by Ryerson Holding's principal stockholders and (2) A qualifying distribution in which Ryerson Holding pays a cash dividend to its principal stockholders. Upon the occurrence of a Qualifying Event, participants with vested units may receive an amount equal to the difference between: (i) the value (as defined by the Plan) of the units on the date of the qualifying event, and (ii) the value of the units assigned on the date of grant. No amounts are due to participants until the total cash dividends and net proceeds from the sale of common stock to Ryerson Holding's principal stockholder exceeds \$875 million. Upon termination, with or without cause, units are forfeited, except in the case of death, as described in the Plan. As of December 31, 2011, 87,500,000 units have been authorized and granted, 32,812,500 units have been forfeited and 54,687,500 units have vested as of the date hereof. The Company is accounting for this Plan in accordance with FASB ASC 718, *Compensation - Stock Compensation* (ASC 718). Since the occurrence of future qualifying events is not determinable or estimable, no liability or expense has been recognized to date. The fair value of the performance units are based upon cash dividends to and net proceeds from sales of common stock of Ryerson Holding by its principal stockholders through the end of each period that have occurred or are probable. The fair value of the performance units on their grant date in 2009 and at December 31, 2011 and 2010, which included cash dividends of \$213.8 million paid in 2010 and \$56.5 million paid in 2009, was zero.

Dividend Payments

On January 29, 2010, we paid a cash dividend in an aggregate amount of approximately \$213.8 million to our stockholders with the proceeds from the issuance of the Ryerson Holding Notes.

Policies and Procedures Regarding Transactions with Related Persons

Any transaction of the Company that is required to be reported under Item 404(a) of Regulation S-K is disclosed to the full board of directors and is reviewed and approved in accordance with applicable law. In addition, our indenture governing our notes contains provisions restricting our ability to enter into transactions with affiliates. Any such transaction must be made on terms no less favorable to us than it would be if we entered into a similar relationship with an unaffiliated third party. Other than the provisions in the indenture governing our notes, we do not have written policies and procedures evidencing the foregoing. The entire board is responsible for overseeing the application of these policies and procedures.

The information called for by this Item 13 with respect to director independence is set forth above under the caption Item 10. Directors, Executive Officers and Corporate Governance Director Independence.

Table of Contents**ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES.**

Ernst & Young LLP has served as the independent registered public accounting firm for the Company since 2006. The Board of Directors has pre-approved all audit and non-audit services provided by Ernst & Young LLP. Ernst & Young LLP's fees for the years ended December 31, 2011 and 2010 were as follows:

	For the year ended December 31,	
	2011	2010
Audit Fees ⁽¹⁾	\$ 2,947,500	\$ 3,555,000
Audit-Related Fees ⁽²⁾	2,000	2,000
Tax Fees ⁽³⁾	132,898	171,651
All Other Fees ⁽⁴⁾		
Total	\$ 3,082,398	\$ 3,728,651

- (1) Audit Fees consisted of work performed for the audit of financial statements, quarterly financial statement reviews, and filings with the SEC.
- (2) Audit-Related Fees consisted of services that are traditionally performed by the independent auditor, including compliance-related matters, that are not specifically classified as audit fees.
- (3) Tax Fees consisted of all services performed by the independent auditor's tax personnel, except those related to the audit of financial statements and consisted of the following tax assistance with respect to loans from Ryerson Canada to Ryerson China as well as transfer pricing relative to service charges from Ryerson to Ryerson Canada; Tax assistance related to the Company's additional investment in Ryerson China in 2010; Tax assistance with the Company's response to Internal Revenue Service information document requests.
- (4) In 2011 and 2010, there were no fees billed by Ernst & Young LLP for services provided other than those described in the three preceding footnotes.

Pre-approval Policies

The Audit Committee must pre-approve any audit or any permissible non-audit services to be provided by the independent registered public accounting firm. The Audit Committee has established pre-approval policies and procedures. Permissible non-audit services are services allowed under SEC regulations. The Audit Committee may pre-approve certain specific categories of permissible non-audit services up to an annual budgeted dollar limit. If any permissible non-audit services do not fall within a pre-approved category or exceed the approved fees or budgeted amount, the services and the additional fees have to be pre-approved by the Audit Committee on a project-by-project basis. No required pre-approvals were waived or approved after the services commenced. Before approving the services described under Tax Fees above, the Audit Committee reviewed whether the independent registered public accounting firm could provide those services and maintain its independence. The Audit Committee approved 100% of the audit-related and tax fees for 2011 and 2010.

Other Policies

The Audit Committee has adopted policies to ensure the independence of the Company's independent registered public accounting firm, including policies on employment of audit firm employees and audit partner rotation.
