PROXY STATEMENT

This Proxy Statement and the accompanying form of proxy are being sent to the stockholders of Flotek Industries, Inc. (the **Company**), a Delaware corporation, in connection with the solicitation by the Board of Directors of the Company (the **Board**) of proxies to be voted at the Annual Meeting of Stockholders of the Company (the **Meeting**) to be held at 2:00 p.m. (local time) on Friday, May 18, 2012, at the corporate offices of the Company at 2930 W. Sam Houston Pkwy. N., Suite 300, Houston, Texas 77043 and at any adjournments thereof.

The Notice of Meeting, this Proxy Statement and the accompanying form of proxy are first being mailed to the stockholders on or about April 23, 2012. The 2011 Annual Report of the Company has been furnished to the stockholders with this Proxy Statement.

Important Notice Regarding the Availability of Proxy Materials for the Stockholder Meeting to be held on May 18, 2012. The proxy statement and annual report to security holders are available at www.flotekind.com/proxymaterials.

You may obtain directions to attend the Meeting and vote in person by contacting our investor relations department at (713) 849-9911.

At the Meeting, stockholders will be asked (i) to consider and vote upon the election of six nominees to serve on the Board; (ii) to consider and vote upon the approval of the 2012 Employee Stock Purchase Plan (the **2012 ESPP**); (iii) to consider and vote upon the ratification of the selection of the independent registered accounting firm; and (iv) to consider and take action upon such other matters as may properly come before the Meeting.

VOTING SECURITIES

The Board has fixed the close of business on March 30, 2012, as the record date for the determination of stockholders entitled to notice of, and to vote at, the Meeting. At the close of business on such date, there were outstanding and entitled to vote 51,431,401 shares of common stock, \$0.0001 par value per share (**Common Stock**) of the Company, which is the Company's only authorized and outstanding class of stock entitled to vote at the Meeting.

Holders of at least one-third of the outstanding shares of Common Stock are required to be represented at the Meeting, in person or by proxy, to constitute a quorum. Abstentions and broker non-votes represented by submitted proxies will be included in the calculation of the number of the shares present at the Meeting for the purposes of determining a quorum. **Broker non-votes** means shares held of record by a broker that are not voted on a matter because the broker has not received voting instructions from the beneficial owner of the shares and either lacks or declines to exercise the authority to vote the shares in its discretion.

Each outstanding share of Common Stock as of the record date is entitled to one vote. There will be no cumulative voting of shares for any matter voted upon at the Meeting.

Proposal 1 Directors are elected by a plurality of the votes cast at the Meeting, and the six nominees who receive the most votes will be elected. Please note that the New York Stock Exchange (**NYSE**) rules that guide how brokers vote your stock have changed. Your brokerage firm or other nominee may no longer vote your shares with respect to Proposal 1 without specific instructions from you as to how to

Table of Contents

vote with respect to the election of each of the six nominees for director, because the election of directors is no longer considered a routine matter under the NYSE rules. Abstentions and broker non-votes represented by submitted proxies will not be taken into account in determining the outcome of the election of directors.

Proposal 2 To approve the 2012 ESPP, the affirmative vote of a majority of the voting power of the shares present in person or represented by proxy at the Meeting and entitled to vote on the matter will be required to adopt the proposal. Abstentions will, therefore, have the same effect as negative votes. Broker non-votes will have no effect for the purpose of determining whether the proposal has been approved.

Proposal 3 To be approved, this proposal regarding ratification of the selection of our independent registered accounting firm must receive an affirmative vote of a majority of the total votes cast with respect to this proposal at the Meeting. This means that the votes that our stockholders cast FOR this proposal must exceed the votes that our stockholders cast AGAINST this proposal at the Meeting. However, your vote will not be binding on the Board or the Company. Proposal 3 is considered a routine matter under the NYSE rules and, therefore, brokerage firms and nominees that are members of the NYSE have the authority under those rules to vote their customers' unvoted shares on Proposal 3 if their customers have not furnished voting instructions within a specified period of time prior to the Meeting.

Accordingly, broker non-votes represented by submitted proxies will be taken into account in determining the outcome of this proposal; abstentions will be counted as a vote against this proposal.

If the enclosed form of proxy is properly executed and returned to the Company prior to or at the Meeting and is not revoked prior to its exercise, all shares of Common Stock represented thereby will be voted at the Meeting and, where instructions have been given by a stockholder, will be voted in accordance with such instructions.

Any stockholder executing a proxy which is solicited hereby has the power to revoke it prior to its exercise. Revocation may be made by attending the Meeting and voting the shares of Common Stock in person or by delivering to the Secretary of the Company at the principal executive offices of the Company located at 2930 W. Sam Houston Parkway N., Suite 300, Houston, Texas 77043, prior to exercise of the Proxy, a written notice of revocation or a later-dated, properly executed proxy.

The solicitation of proxies will be by mail, but proxies also may be solicited by telephone, telegram or in person by directors, officers and other employees of the Company. The Company will bear all costs of soliciting proxies. In order to solicit proxies, the Company will also request financial institutions, brokerage houses, custodians, nominees and fiduciaries to forward proxy materials to the beneficial owners of shares of Common Stock as of the record date and will reimburse such persons for their reasonable expenses of forwarding the proxy materials in accordance with customary practice.

PROPOSAL 1: ELECTION OF DIRECTORS

Board of Directors

The members of the Board serve one-year terms. Directors are elected by a plurality of the votes cast. Abstentions and broker non-votes will be disregarded and have no effect on the outcome of the election of directors.

Recommendation: Proxies

The Board recommends a vote FOR each of the nominees named below. The persons named in the enclosed proxy card will vote all shares over which they have discretionary authority FOR the election of the nominees named below. Although our Board does not anticipate that any of the nominees will be unable to serve, if such a situation should arise prior to the Meeting, the appointed persons will use their discretionary authority pursuant to the proxy and vote in accordance with their best judgment.

Number of Directors

The Board has nominated six directors for election to the Board at the Meeting.

The Board believes that it is necessary for each of the Company's directors to possess many qualities and skills that enable them to understand the complexities of the Company's business and effectively guide the management and direction of the Company. When searching for new candidates, the Corporate Governance and Nominating Committee considers the evolving needs of the Board and searches for candidates that fill current or anticipated future vacancies.

The Board also believes that all directors must possess a considerable amount of business management and educational experience. The Corporate Governance and Nominating Committee first considers a candidate's management experience and then considers issues of judgment, background, stature, conflicts of interest, integrity, ethics and commitment to the goal of maximizing stockholder value when considering director candidates. The Corporate Governance and Nominating Committee also focuses on issues of diversity, such as diversity of gender, race and national origin, education, professional experience and differences in viewpoints and skills. The Corporate Governance and Nominating Committee

does not have a formal policy with respect to diversity; however, the Board and the Corporate Governance and Nominating Committee believe that it is essential that the Board members represent diverse viewpoints. In considering candidates for the Board, the Corporate Governance and Nominating Committee considers the entirety of each candidate's credentials in the context of these standards. With respect to the nomination of continuing directors for re-election, the individual's contributions to the Board are also considered.

All of our directors bring to our Board a wealth of executive leadership experience derived from their service as executives and, in most cases, chief executive officers of large corporations. They also bring extensive board of director experience. Certain individual qualifications and skills of our directors that contribute to the Board's effectiveness as a whole are described in the following paragraphs.

BOARD OF DIRECTORS AND COMMITTEES OF THE BOARD

Meeting Attendance

During 2011, the Board held 12 meetings of the full Board and 20 meetings of committees. The Corporate Governance and Nominating Committee held two meetings, the Compensation Committee held 13 meetings and the Audit Committee held 5 meetings. Each director attended at least 75% of the aggregate number of meetings of the Board and committees of the Board on which he served.

The Company does not have a formal policy requiring members of the Board to attend the Annual Meeting, although all directors are strongly encouraged to attend. Of the Directors then in office, Messrs. Chisholm, Hern, McGuire, Reiland, and Wilson attended the last Annual Meeting of Stockholders.

Executive Sessions

Pursuant to the Company's Corporate Governance Guidelines, non-management directors of the Board are required to meet on a regularly scheduled basis without the presence of management. The Lead Director chairs these sessions. During 2011, the non-management directors met in five executive sessions without management present.

Director Independence

The Board has determined that each of the current directors except for Mr. Chisholm is independent as that term is defined by rules of the NYSE and, in the case of the Audit Committee, the Securities and Exchange Commission (the SEC). Mr. Chisholm is not an independent director since he is currently the President and Chief Executive Officer of the Company.

None of the non-employee directors have any relationship with the Company other than as a director and stockholder, or any transaction or arrangement that interferes with each director's independence.

Risk Management

The Board has an active role, as a whole and at the committee level, in overseeing management of the Company's risks. The Board regularly reviews information regarding the Company's credit, liquidity and operations, as well as the risks associated with each. The Company's Compensation Committee is responsible for overseeing the management of risks relating to the Company's executive compensation plans and arrangements. The Audit Committee oversees management of financial risks. The Corporate Governance and Nominating Committee manages risks associated with Board independence and potential conflicts of interest. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board is regularly informed through committee reports about all identified Company risks.

Board Committees

Edgar Filing: FLOTEK INDUSTRIES INC/CN/ - Form DEF 14A

The Board has established an Audit Committee, a Compensation Committee and a Corporate Governance and Nominating Committee. The Audit, Compensation and Corporate Governance and Nominating committees are composed entirely of independent directors as defined under the New York Stock Exchange Listed Company Manual and the Company's Corporate Governance Guidelines. The charters of each committee are available on the Company's website at www.flotekind.com.

Compensation Risk

The role of the Compensation Committee in risk oversight includes review of risks arising from our compensation policies, practices and programs as well as the mitigating controls, to determine whether any such risks are material to the Company. The Compensation Committee has reviewed these matters and believes that the mix of compensation elements and the design of those elements along with sound governance practices do not encourage employees to take excessive risks that might have a material adverse effect on us. Specifically:

The Company has strong internal financial controls that are assessed by the Company's independent public accountants annually in addition to their audits of the Company's financial statements.

Base salaries are consistent with market practice and employees' responsibility so that employees are not motivated to take excessive risks to attain a reasonable level of financial security.

The determination of incentive awards is based on well-defined financial measures. There is a maximum cash incentive opportunity for each Named Executive Officer, and the Committee retains discretion to adjust bonuses to eliminate anomalous or inappropriate outcomes.

Long-term incentives are designed to provide appropriate awards for successful long-term outcomes, and effectively align realized compensation with returns realized by investors.

Compensation Committee Consultant

In 2011, the Compensation Committee directly retained a nationally-recognized firm, BDO USA LLP (BDO), as its independent compensation consultant, to provide advice and recommendations on the amount and form of executive and director compensation.

Corporate Governance and Nominating Committee

The Corporate Governance and Nominating Committee met two times in 2011. The Corporate Governance and Nominating Committee's primary functions are to:

Review, at least annually, the structure of the Board to assure that the proper skills and experience are represented on the Board;

Recommend to the full Board candidates to fill vacancies on the Board as they occur;

Recommend, prior to each annual stockholder meeting, a slate of nominees for election or reelection as directors by the stockholders at the annual meeting;

Identify individuals qualified to serve as potential Board members, consistent with criteria approved by the Board;

Select, evaluate, retain, and where appropriate, terminate any search firm to be used to identify qualified director candidates;

Evaluate current directors for re-nomination to the Board or re-appointment to any Board committees, and assess the performance of such directors;

Periodically review the composition of the Board and its committees in light of the current challenges and needs of the Board, the Company and each committee of the Board, and determine whether it may be appropriate to add or remove individuals;

Consider rotation of the Chairman and members of the committees of the Board;

Consider candidates to serve as Board members that are submitted by stockholders of the Company;

Periodically make recommendations to the Board with respect to the size of the Board;

Review criteria and policies relating to director independence, service and tenure;

Edgar Filing: FLOTEK INDUSTRIES INC/CN/ - Form DEF 14A

Recommend to the Board the membership of the Audit and Compensation Committees, including their Chairpersons;

Periodically make recommendations to the Board with respect to the compensation of Board members;

Make recommendations to the Board regarding corporate governance matters and practices, including formulating and periodically reviewing Corporate Governance Guidelines to be adopted by the Board;

Be responsible for any tasks assigned to the Corporate Governance and Nominating Committee in the Company's Corporate Governance Guidelines;

Oversee compliance with the Company's Corporate Governance Guidelines or Code of Business Conduct and Ethics and report on such compliance to the Board;

Table of Contents

Review and consider any requests for waivers of the Company's Corporate Governance Guidelines or Code of Business Conduct and Ethics for the Company's directors, executive officers and other senior financial officers, and make a recommendation to the Board with respect to such request for a waiver;

Review potential conflicts of interest involving directors and determine whether such director or directors may vote on any issue as to which there may be a conflict;

Review all related party transactions and determine whether such transactions are appropriate for the Company to undertake and, if so, approve such transactions;

Review periodically with the Company's counsel, in light of changing conditions, new legislation and other developments, the Company's Code of Business Conduct and Ethics and make recommendations to the Board for such changes as the Corporate Governance and Nominating Committee shall deem appropriate; and

Review executive development and executive succession plans, including succession planning strategies for the Company's senior management positions.

When identifying and evaluating candidates, the Corporate Governance and Nominating Committee first determines whether there are any evolving needs of the Board that require an expert in a particular field. The Corporate Governance and Nominating Committee may retain a third-party search firm to assist the Committee in locating qualified candidates that meet the needs of the Board at that time. Generally, a retained search firm would provide information on a number of candidates, which the Corporate Governance and Nominating Committee would discuss. The Corporate Governance and Nominating Committee chairman and some or all of the members of the Corporate Governance and Nominating Committee will interview potential candidates that meet the needs of the Board, possess the qualifications sought, and meet the independence standards required by the NYSE and as set forth by the Company's Corporate Governance Guidelines. The Corporate Governance and Nominating Committee will then recommend the nomination of candidates to the Board. Director nominees may be identified by the Corporate Governance and Nominating Committee through current board members, officers, stockholders or other persons.

Any stockholder desiring to submit a nomination to the Board should send the recommendation in writing, together with appropriate background and contact information, to the Secretary of the Company at the address of the Company's principal executive offices. The Board has not established formal minimum qualifications for a director nominee and evaluates any nominee, including those recommended by stockholders, on a case-by-case basis. The Board has adopted a charter for the Corporate Governance and Nominating Committee, a copy of which is available on our website (www.flotekind.com) and in print to any stockholder who requests it.

Code of Business Conduct and Ethics

The Code of Business Conduct and Ethics of the Company applies to our directors, executive officers and to all other employees and is available on our website (www.flotekind.com) and in print to any stockholder who requests it.

Compensation Committee Interlocks and Insider Participation

Messrs. Hern, Reiland, McGuire and Wilson served on the Compensation Committee during 2011. No current member of the Compensation Committee is a current or former officer or employee of the Company or had any relationship requiring disclosure under applicable SEC rules. Additionally, none of the Company's executive officers served as a director or member of the compensation committee of another entity, one of whose executive officers served as a director or member of the Company's Compensation Committee.

Transactions with Related Persons

The Company recognizes that related person transactions can present potential or actual conflicts of interest and it is the Company's preference that related person transactions are avoided as a general matter. However, the Company also recognizes that there are situations, including certain transactions negotiated on an arm's length basis, where related person transactions may be in, or may not be inconsistent with, the best interests of the Company and its stockholders. Therefore, the Corporate Governance and Nominating Committee of the Board will review, ratify or approve, as necessary, any

Table of Contents

related person transaction prior to the transaction being entered into, or ratify any related person transaction that has not been previously approved, in which a director, executive officer, five percent owner or immediate family member of any such person has a material interest.

During 2011, the Company did not participate in any transactions in which any of the director nominees, executive officers, nor any of their immediate family members, had a direct or indirect material interest.

Board Leadership Structure

Mr. Chisholm, the Company's President and Chief Executive Officer, has served as Chairman of the Board since July 13, 2010. The Board believes that the Company's President and Chief Executive Officer is best situated to serve as Chairman because he is the director most familiar with the Company's business and industry, and most capable of effectively identifying strategic priorities and leading the discussion and execution of strategy. Independent directors and management have different perspectives and roles in strategic development. The Company's independent directors bring experience, oversight and expertise from outside the company and industry, while the President brings company-specific experience and expertise. The Board believes that the combined role of Chairman of the Board and President/Chief Executive Officer promotes strategic development and execution, and facilitates

information flow between management and the Board, which are essential to effective governance.

One of the key responsibilities of the Board is to develop strategic direction and hold management accountable for the execution of the strategy developed. The Board believes the combined role of Chairman and President/Chief Executive Officer is consistent with the best interests of stockholders as it provides the appropriate balance between strategic development and independent oversight of management.

Section 16(a) Beneficial Ownership Reporting Compliance

Pursuant to Section 16(a) of the Securities Exchange Act of 1934 (the Exchange Act) and the rules issued thereunder, the Company's directors and executive officers are required to file with the SEC reports of ownership and changes in ownership of Common Stock. Copies of such forms are required to be filed with the Company. Based solely on its review of copies of such reports furnished to the Company, the Company believes that the directors and executive officers were in compliance with the filing requirements of Section 16(a) during the most recent fiscal year, except that (1) Mr. Chisholm did not timely file one Form 4 in 2011 reflecting one transaction, (2) Mr. Reiland did not timely file one Form 4 in 2011 reflecting one transaction, and (3) Mr. Fisher did not file one Form 4 in 2011 reflecting one transaction.

COMPENSATION DISCUSSION AND ANALYSIS

The following discussion of executive compensation contains descriptions of various employment-related agreements and employee benefit plans. Introduction

Flotek is a global supplier of drilling and production-related products and services, including oilfield chemicals and down-hole drilling and down-hole production tools used in the oil, gas and mining industries. In the period between 2005 and 2007, the Company enjoyed singular success, returning compound annual growth of 156% and increasing its market capitalization to almost \$1 billion.

By 2008, however, as a result of the cyclical downturn that impacted the entire energy services business as well as, among other factors, the Company's over-leveraged balance sheet, Flotek was on the verge of financial insolvency. Over the next year, the CEO and a major portion of the board of directors resigned, and Flotek was notified by the NYSE that its 30-day average market capitalization and its shareholder equity were both below the NYSE's \$50 million listing standard threshold.

Based on the belief in the potential of the Company's product offerings, in particular its patented chemicals business, the Board undertook an aggressive rebuilding campaign beginning with the appointment of John Chisholm as Interim President in August 2009 and with the subsequent appointment of new board members. Under the new leadership team, the Company:

- Improved operations, reduced expenses, adopted new marketing strategies, expanded international market presence and avoided costly court-assisted restructuring.

- Returned to profitability and restructured its balance sheet. The Company reduced overall debt by \$73.5 million from January 2011 through January 2012. The Company's overall debt balance as of December 31, 2011 was reduced to \$108.1 million from \$145.6 million as of December 31, 2010. Additionally, the Company repurchased \$36.0 million, the full balance, of the Company's 2010 5.25% Convertible Senior Secured Notes due 2028 on January 5, 2012.

- Received notice from the NYSE that it had regained compliance with listing standards and attained market capitalization of approximately \$500 million by the 2011 fiscal year-end.

The tables below illustrate the magnitude of the Company's dramatic recovery.

Through early 2011, circumstances demanded that the Compensation Committee and the Board of Directors consider and enact extraordinary measures in order to offer compensation opportunities designed to attract and retain a highly-qualified leadership team dedicated to the Company's recovery and to establish a strong foundation for future growth. A clear way forward was established and by the third quarter of 2011, the Compensation Committee of the Board engaged a compensation consultant, made a deliberate review of compensation strategies and

objectives, reviewed and recommended changes to the President's employment agreement, reviewed and updated the composition of the compensation peer group, and, effective in 2012, restructured and refined executive annual cash bonus opportunities and annual grants of equity to be consistent with industry norms and generally-accepted best practices and focused on linking executives' compensation opportunities to results that deliver value to stockholders.

Compensation Committee

The Compensation Committee has overall responsibility for the approval, evaluation and oversight of the Company's compensation and benefit plans, policies and programs. The primary function of the Compensation Committee is to assist the Board in fulfilling its responsibilities relating to the compensation of the Company's named executive officers and outside directors. The primary responsibilities of the Compensation Committee include, (i) annually reviewing the Company's general compensation policies with respect to named executive officers and directors, (ii) annually reviewing and approving the corporate goals and objectives relevant to the compensation of our executive officers, evaluating our officers' performance in light of these goals, and approving or recommending to the Board compensation levels based on these evaluations, (iii) producing a committee report on executive compensation as required by the SEC to be included or incorporated by reference in our proxy statement or other applicable SEC filings, and (iv) recommending the compensation program applicable to the Company's outside directors.

The Company's Board appoints Compensation Committee members and Chairman annually, and these appointees continue to be members until their successors are elected and qualified or until their earlier resignation or removal. Any member of the Compensation Committee may be removed, with or without cause, by our Board. The Board appoints members to the Compensation Committee considering criteria such as experience in compensation matters, familiarity with our management and other key personnel, understanding of public company compensation issues, time availability necessary to fulfill committee responsibilities and independence and other regulatory requirements

Each member of the Compensation Committee is considered to be (1) independent under the currently applicable listing standards of the NYSE; (2) a non-employee director within the meaning of Rule 16b-3 under the Securities and Exchange Act of 1934, as amended; and (3) an outside director within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended.

Table of Contents

The Compensation Committee's function is more fully described in its charter. The Compensation Committee will continue to review and assess the adequacy of the charter and recommend any proposed changes to the Board for approval on an annual basis.

The Compensation Committee works with the Company's Chief Executive Officer and President to establish an agenda for each meeting of the Compensation Committee and to prepare meeting materials. The Compensation Committee on occasion meets with the Company's Chief Executive Officer and President and other executives to obtain recommendations with respect to the Company's compensation programs, practices and packages for executives, other employees and directors. Although management makes recommendations to the Compensation Committee on executive compensation, the Compensation Committee is not bound by and does not always accept management's recommendations. The Compensation Committee has historically sought input from an independent compensation consultant prior to making any final determinations. Our President attends some of the Compensation Committee meetings, but the Compensation Committee also regularly holds executive sessions not attended by members of management or non-independent directors.

Outside corporate counsel, and other members of our management and outside advisors may be invited to attend all or a portion of a Compensation Committee meeting depending on the nature of the matters to be discussed. Only members of the Compensation Committee may vote on items before the Compensation Committee.

Our Compensation Committee may retain, at our expense, independent compensation consultants in the consideration of executive compensation matters. The Compensation Committee meets with the compensation consultants, both in and outside of the presence of our management, to review findings and recommendations regarding executive compensation and considers those findings and recommendations in determining and making adjustments to our executive compensation program. Commencing in the second quarter of 2011, the Compensation Committee engaged BDO USA, LLP (referred to herein as the "Compensation Consultant" or "BDO") to assist in fulfilling its responsibilities as assigned by the Chairman of the Compensation Committee. In considering an engagement with BDO, the

Committee concluded that BDO should be considered "independent" because:

BDO currently provides only compensation consulting services to Flotek;

The fees paid to BDO for compensation consulting services are a small fraction of 1% of BDO's worldwide revenues;

BDO has in place policies to prevent a conflict of interest including a requirement that no employee of BDO have any ownership interest in Flotek; and

There is no business or personal relationship between BDO's compensation consultant and Flotek or any of its officers or board members.

Under the direction of the Chairman of the Compensation Committee, the Compensation Consultant provides information regarding compensation trends in the energy services industry, relative compensation for similarly-situated executive officers in the industry, the structure of our cash and equity incentive awards and the structure of the compensation program for outside directors. In addition, at the Compensation Committee's request, the Compensation Consultant worked with management to prepare materials for review by the Compensation Committee and made recommendations regarding the Compensation Committee's calendar and has provided assistance in the composition of this Compensation Discussion and Analysis.

Compensation Philosophy

We operate in a very competitive environment. Our principal competitors are larger, more established providers of services in our industry and, because of their size, generally have more significant resources than we do. In order to successfully compete in this environment, we must be able to attract and retain highly skilled employees with well-developed management, operational and marketing skills. The Company has been successful in developing and retaining a highly-qualified management team by offering compensation that is equitable, reasonably competitive with what we believe they might earn elsewhere based on our understanding of market practices, and closely tied to performance through our annual salary review process, our annual cash bonus plan, and grants of stock options and other forms of equity-based opportunities from our Equity Incentive Plan or "EIP".

Table of Contents

In general, our executive compensation programs are designed to achieve the following objectives:

- Attract and retain talented and experienced executives with the skills necessary to run and grow our existing business segments;
- Align the interests of our executive officers with those of stockholders to increase the value of our enterprise;
- Motivate and reward executives whose knowledge, skills and performance are critical to our success;
- Demonstrate fairness among the executive management team by recognizing the contributions each executive makes to our success;
- Provide accountability for the executives' performance to the Board;
- Encourage a shared commitment among executives by coordinating Company and individual business unit targets and objectives; and
- Encourage executives to meet non-financial goals that the Board believes are necessary for the success of the Company.

As we endeavor to evaluate the adequacy of our overall executive compensation program, our Compensation Committee works with the Compensation Consultant to evaluate and compare certain elements of total compensation against a

group of similar publicly-traded energy services companies (the Compensation Peer Group). We evaluate each element of compensation (base salary, cash bonus incentive compensation and equity compensation), as well as the total of all compensation elements. While the Compensation Consultant's information on peer practices is used to assess the adequacy of the Company's total compensation opportunities, the Compensation Committee does not target any percentile level of the peer data as a benchmark for setting pay opportunities.

In regard to the use of peer company data in setting compensation opportunities, we would prefer to define the market for our executive talent using a sizeable group of companies that are comparable to us in both size and line of business. However, there are not sufficient companies that compare to us in size and line of business to comprise such a peer group. Therefore, as we evaluate the adequacy of our compensation programs, the Compensation Committee considers data in regard to our Compensation Peer Group and, when required, data from published survey sources as well as information from our directors, management and our Compensation Consultant based on their collective understanding of industry practices. The companies that comprised our Compensation Peer Group in 2011 included the following:

Basic Energy Services, Inc.	Matrix Service Company
Bolt Technology Corporation	Newpark Resources, Inc.
Carbo Ceramics, Inc.	Parker Drilling, Inc.
CE Franklin, Ltd.	Pioneer Drilling, Inc.
Dawson Geophysical, Inc.	Team, Inc.
Geokinetics Inc.	Tesco Corporation
Layne Christensen, Inc.	Tetra Technologies, Inc.
Lufkin Industries, Inc.	Union Drilling, Inc.

The peer group was reviewed and amended in 2011 to replace companies that are no longer publicly traded and to add companies of appropriate size that reflect, in the Committee's opinion, the market for executive talent in the energy services business. The

Compensation Committee intends to continually monitor the composition of the Compensation Peer Group to assure that it provides a useful representation of the market for leadership talent in which the Company competes.

Executive Officer Compensation

Principal Elements of Compensation of Our Named Executive Officers

The principal elements of the compensation package offered to our executive officers consist of:

- Base salary;
- Cash bonus incentive compensation under the terms of the Company's annual incentive plan; and
- Equity compensation generally in the form of stock option or restricted stock grants under the terms of our 2005, 2007 and 2010 Long Term Incentive Plans.

Some, but not all of the named executive officers participate in certain limited perquisite programs as described later in this discussion. Group insurance programs and the Company's 401(k) Plan is available to all named executive officers only on the same basis as all other employees of the Company.

Allocation of Compensation among the Principal Components

The Compensation Committee has not established formulas for allocating compensation between compensation elements at this time. Rather, the Compensation Committee reviews compensation structures of companies in our Compensation Peer Group, historical compensation for the participant, the participant's responsibilities, the performance of the participant and the Company on goals approved by the Committee, and the individual circumstances of senior executives when determining the mix of base salary, cash bonus percentages, and annual equity award opportunities. As a result, the Compensation Committee may apply a different mix of base salary, cash bonus incentive compensation

and equity compensation to different executive officer positions. The Company's historical objectives have been to make executives' overall compensation opportunity significantly contingent on operational and financial performance.

Base Salary

The Company reviews base salaries for the Chief Executive Officer and President and other executive officers annually to determine if a change is appropriate. In reviewing base salaries, several factors are considered including a comparison to base salaries paid for comparable positions in the Compensation Peer Group, the relationship among base salaries paid within the Company and individual experience and performance. The Company's intent is to fix base salaries at levels consistent with comparable industry positions, Company performance and remunerative objectives, including the ability to attract, motivate and retain highly talented individuals in a competitive environment while retaining an appropriate balance between fixed and performance-contingent compensation elements.

Chairman of the Board, President and Chief Executive Officer

Mr. Chisholm is compensated under a Services Agreement that pays two entities controlled by Mr. Chisholm (the Chisholm Companies) as an independent contractor. In addition, Mr. Chisholm entered into an agreement with the Company under which he also became an employee of the Company. In May 2011, the Company amended Mr. Chisholm's services agreement to increase these monthly payments, in the aggregate, from \$42,000 to \$50,167 as compensation for his services. In addition, in November 2011, the Company agreed to pay Mr. Chisholm a monthly salary of \$4,000.

Annual Bonus Compensation

Under the terms of the 2010 Management Incentive Plan (MIP), named executive officers and other leadership employees had the opportunity to earn annual cash incentives based on the achievement of Company performance as measured by Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA). Adjusted EBITDA results may be adjusted to recognize stock compensation, financing transaction costs (whether paid in cash or not), and other noncash or nonrecurring charges not directly related to the ongoing operations of the Company. Determination of Adjusted EBITDA is based solely on the judgment of the Audit Committee of the Board of Directors. In 2011, target performance was achieved, Mr. Chisholm would earn a bonus equal to 60% of his salary while other officers could earn 50% of their salary. Further, if Adjusted EBITDA results attained only a minimum-defined level, 80% of target bonuses would be earned, and if Adjusted EBITDA

results achieved a maximum defined level, 125% of target bonuses would be earned.

Executives were given the opportunity to elect to receive 50% of their target bonus in restricted shares of Flotek Common Stock awarded conditionally at the beginning of the year based on the fair market value of the Common Stock on the date of grant subject to the agreement that none of the shares would vest if minimum performance was not achieved and that any bonus earned in excess of 50% of the target amount would be paid in cash. All named executive officers elected to receive 50% of their target award in equity receiving a number of shares equal to 50% of target bonus divided by \$8.52, the fair market value of the Company's Common Stock on June 3, 2011.

The table below shows the range of bonus opportunities based on various EBITDA results, the actual EBITDA result and bonus amounts earned as a result of the Company's 2011 performance.

	Minimum	Target	Maximum	Actual*
John W. Chisholm	\$ 312,000	\$ 390,000	\$ 487,500	\$ 487,500
Steven A. Reeves	\$ 118,000	\$ 147,500	\$ 184,375	\$ 184,375
Jesse E. Neyman	\$ 108,000	\$ 135,000	\$ 168,750	\$ 168,750
Johnna D. Kokenge	\$ 102,000	\$ 127,500	\$ 159,375	\$ 159,375

* As described above, a portion of earned value of bonuses took the form of restricted stock if elected by the executive. Such shares vested upon certification by the Compensation Committee of the Board that performance requirements for vesting were met. The number of shares associated with this election were: John W. Chisholm 22,887 shares; Steve A. Reeves 8,656 shares; Jesse E. Neyman 7,923 shares; and Johnna D. Kokenge 7,923 shares.

John W. Chisholm	22,887
Steven A. Reeves	8,656
Jesse E. Neyman	7,923
Johnna D. Kokenge	7,923

In addition to the bonus opportunities and earnings described above, a special, one-time opportunity was established in regard to Ms. Kokenge. Under the terms approved by the Compensation Committee, Ms. Kokenge could earn a supplemental bonus in the amount of \$20,000 if the Company's Enterprise Resource Planning system (ERP) was successfully implemented by October 1, 2011. In November 2011 the Committee awarded to Ms. Kokenge the \$20,000 ERP system bonus.

The MIP provides that the Compensation Committee may approve discretionary bonus awards. In evaluating the performance of the Company and named executive officers in 2011, the Compensation Committee agreed that 2011 bonus targets and maximum payment limits were set conservatively early during the year when the Company's near-term potential remained unclear. When presented with amounts earned under the program as shown above, the Compensation Committee did not believe that such amounts were adequate compensation for a management team that had saved the Company from court-ordered restructuring and delivered extraordinary earnings and cash flow that will fuel future growth. On this basis, the Compensation Committee approved the following supplemental bonus amounts that, in general, were deemed, in combination with the amounts disclosed above, to be consistent with amounts that would have been earned if a fully-competitive bonus opportunity had been approved at the beginning of the year.

2011 Executive Supplemental Bonus

John W. Chisholm	\$ 285,000

2011 Equity Compensation

The historical practice of the Compensation Committee has been to grant restricted stock and/or options to attract, retain, motivate and reward employees and executive officers, and to encourage ownership in the Company. The grant value of awards is normally determined by the Compensation Committee based on its understanding of competitive practices, internal equity considerations, performance, and the potential of the employee. In 2011, particular focus was placed on executives' performance in executing a strategy that would position the Company for the future, the need to retain a management team with a proven track record and to award a significant contingent equity ownership opportunity to maintain focus on long-term results.

In April 2011 grants of restricted stock were awarded to Messrs. Chisholm and Reeves and Ms. Kokenge. These restricted shares will vest two years from the date of grant if: (1) the executive is employed on the vesting date; (2) if the minimum level of Adjusted EBITDA (as defined in the award agreements) required for bonuses to be earned under the Company's 2011 MIP is achieved; and (3) certain of the Company's lenders do not disapprove of the awards. The approval of these lenders of these grants was obtained. The number of shares granted was as follows:

Restricted Shares

John W. Chisholm	200,000
Steven A. Reeves	50,000
Johnna D. Kokenge	50,000

In April 2011 grants of nonqualified stock options with a term of six years were awarded to executive officers as shown below. The options are scheduled to vest on the second anniversary of their grant date, but may be forfeited for the same reasons that 2011 restricted stock awards might be forfeited as discussed above.

Options

John W. Chisholm	400,000
Steven A. Reeves	200,000
Jesse E. Neyman	100,000
Johnna D. Kokenge	200,000

All stock-based payments awarded by the Compensation Committee have been reflected in our consolidated financial statements based on the applicable accounting guidance in Accounting Standards Codification (ASC) Topic 718, *Compensation Stock Compensation*. Costs resulting from all stock-based payment transactions are recognized in the financial statements based on a fair value measurement method. The Company utilizes the Black-Scholes option-pricing model to estimate the award's grant-date fair value, and recognize compensation expense on a straight-line basis over the vesting period.

Employment and Separation Agreements

John W. Chisholm Services Agreement

On November 10, 2010, Flotek and a company controlled by John W. Chisholm, President and Chairman of the Board of Directors (the Chisholm Company), entered into the Second Amended and Restated Service Agreement (the Service Agreement), pursuant to which the Chisholm Company agreed to continue to provide the services of Mr. Chisholm to Flotek. If the Service Agreement is terminated by Flotek without Cause or by the Chisholm Company for any reason as an integral part of or within six months after a Change of Control (as defined in the Service Agreement), the Chisholm Company will be entitled to receive severance compensation equal to two times the base compensation and target bonus in effect for the year in which the Change of Control occurs. If the Service Agreement is terminated by Flotek with Cause, or due to the death or disability of Mr. Chisholm, the Chisholm Company will be entitled to receive the base compensation earned and payable through the date of termination. The Service Agreement also contains certain non-solicitation restrictions for a period of 24 months following the date of termination of the Service Agreement.

Pursuant to the terms of the Letter Agreement, Flotek will pay Mr. Chisholm a monthly salary that may be adjusted from time-to-time. In addition to the foregoing, Mr. Reeves is entitled to certain other perquisites, annual bonuses in accordance with the Company's management incentive plan, and reimbursement for reasonable expenses.

M. Kevin Fisher Employment Agreement

On November 30, 2011, the Company and Mr. Fisher entered into an Employment Agreement in connection with his election as Executive Vice President, Business Development and Marketing of the Company.

Other Benefits

The Company believes establishing a competitive benefit package for employees is an important factor in attracting and retaining highly qualified personnel. Named executive officers are eligible to participate in all of our employee benefit plans, including medical, dental & vision care programs, Company-paid

Table of Contents

accidental death, dismemberment & life insurance, and Flotek's 401(k) plan, on the same basis as other employees. During the first quarter of 2009, the Company provided a matching contribution on employee contributions of up to 4% of eligible compensation subject to statutory limits. Effective in April 2009 the matching contributions were suspended through December 31, 2010. As of January 1, 2011, the Company reinstated the 401(k) matching program for 50% of employee contributions made, up to 4% of qualified employee compensation contributions. The Company does not offer pension or retirement benefits other than the 401(k) plan. The Company's international employees may have slightly different employee benefit plans than those offered domestic employees, typically as a result of legal requirements of the specific country.

Perquisites

The perquisites received by each senior executive are determined by past practices. The specific perquisites available to some of the Company's named executives include:

Mr. Steven A. Reeves is provided the use of a Company-owned vehicle and provided a fuel allowance.

Mr. M. Kevin Fisher is provided a vehicle allowance.

Tax and Accounting Implications

Deductibility of Executive Compensation

The Compensation Committee is aware of the provisions of Section 162(m) of the Internal Revenue Code which provides that the Company may not deduct for federal income tax purposes annual compensation in excess of \$1 million paid to certain employees. Performance-based compensation paid pursuant to stockholder-approved plans is not subject to the deduction limit as long as such compensation is approved by outside directors within the meaning of Section 162(m) of the Code.

The Compensation Committee makes every reasonable effort to structure and administer executive compensation opportunities so that compensation will not be subject to the Section 162(m) deduction limit. However, the Compensation Committee may from time to time approve payments and equity awards that cannot be

deducted in order to maintain flexibility in structuring appropriate compensation opportunities in the interest of stockholders.

Accounting for Stock-Based Compensation

The Company accounts for stock-based payments in accordance with the requirements of Accounting Standards Codification (ASC) Topic 718. Under this accounting pronouncement, the Company is required to value unvested stock options granted under the fair value method and expense those amounts in the income statement over the stock option's remaining vesting period. The Company considers the expenses associated with the grant of options and other long-term incentive awards in granting such awards.

Section 409A

To the extent we permit executives to defer compensation or we commit to deliver compensation at a later date than when earned and vested, we make every attempt to meet the requirements of Section 409A of the Internal Revenue Code. Failure to satisfy the Section 409A requirements could subject the executives receiving deferred compensation to a 20% excise tax.

2012 Compensation Decisions

On March 5, 2012 Mr. Chisholm was appointed Chief Executive Officer of the Company and, in connection with this appointment, Mr. Chisholm and the Company entered into an amended Services Agreement with companies affiliated with Mr. Chisholm (the Chisholm Companies) and a new letter agreement with Mr. Chisholm that establishes a salary, the right to participate in employee benefits programs, and subjects Mr. Chisholm to certain non-competition obligations should his employment with the Company terminate.

The principal changes to the amended Chisholm Companies Services Agreement were:

A change in the term of the agreement to three years, with an automatic extension in the term on a monthly basis.

Edgar Filing: FLOTEK INDUSTRIES INC/CN/ - Form DEF 14A

The elimination of a single-trigger severance provision in the prior agreement that would have allowed Mr. Chisholm to terminate the agreement following a change in control of the Company and

receive severance payments even if the reason for the termination was not for good reason .

The addition of a best net provision providing that if payments and benefits to Mr. Chisholm under the Services Agreement, together with any other payments which Chisholm and/or his affiliates has the right to receive from the Company and its affiliates, would constitute a parachute payment (as defined in Section 280G of the Internal Revenue Code of 1986), the payments and benefits payable pursuant to the Services Agreement or otherwise shall be either (i) reduced (but not below zero) so that the aggregate present value of all such payments and benefits received by Chisholm and his affiliates from the Company and its affiliates for purpose of Section 280G shall be \$1.00 less than three times Chisholm's base amount (as defined in Section 280G of the Code) and so that no portion of such payments received by Chisholm and his affiliates for purposes of Section 280G shall be subject to the excise tax imposed by Section 4999 of the Code, or (ii) paid in full, whichever produces the better net after-tax result for Chisholm, the Chisholm Companies, and his other affiliates (taking into account any applicable excise tax under Section 4999 of the Code and any applicable income tax).

2012 Salary Increases

Following a review of market data and the Company's 2011 performance and in connection with Mr. Chisholm's appointment as CEO, the following base compensation amounts were approved by the Compensation Committee on March 5, 2012:

John W. Chisholm	\$ 695,000*
Steven A. Reeves	\$ 324,500
Jesse E. Neyman	\$ 292,950
Johnna D. Kokenge	\$ 277,950

* Includes amounts paid to the Chisholm Companies under the Services Agreement and salary paid under the letter agreement with Mr. Chisholm.

2012 Management Incentive Compensation Program (MIP)

In connection with the restructuring of compensation programs to improve the correlation of compensation opportunities and Company performance and to provide opportunities that are more consistent with market norms, the target opportunities for the Named Executive Officers were adjusted to the levels shown below:

	Percent of Base Compensation
John W. Chisholm	80%
Steven A. Reeves	60%
M. Kevin Fisher	60%
Jesse E. Neyman	50%
Johnna D. Kokenge	55%

Bonuses will be earned under this program to the extent that 2012 Adjusted EBITDA targets are achieved. Fifty percent of the target amount is earned if a defined level of Adjusted EBITDA is achieved, 100% is earned if target Adjusted EBITDA is achieved, and 200% of target is earned if a maximum level of Adjusted EBITDA is achieved with bonus adjusted for Adjusted EBITDA between these thresholds on a linear basis, however, the Compensation Committee reserves discretion to make adjustment to equitably reduce the amount of the MIP bonuses to reflect developments, events, or actions which were not anticipated by the Compensation Committee when the MIP was established.

Named Executive Officers were offered the opportunity to elect to receive one-half of the target value of their 2012 MIP opportunity in the form of restricted shares of the Company's common stock which is forfeitable if and to the extent that target Adjusted EBITDA is not achieved. All named Executive Officers elected to receive 50% of their target award in equity receiving a number of shares equal to 50% of target bonus divided by \$11.04, the fair market value of the Company's Common Shares on March 7, 2012.

Table of Contents*2012 Long-Term Incentive Program*

In order to address the Company's objectives of retaining critical talent and increasing the amount of the long-term incentive opportunity that is contingent on the performance of the Company, the Compensation Committee first established 2012 target grant values in regard to each Named Executive Officers, expressed as a percentage of Base Compensation, as follows:

	Percent of Base Compensation
John W. Chisholm	215%
Steven A. Reeves	175%
M. Kevin Fisher	175%
Jesse E. Neyman	90%
Johnna D. Kokenge	125%

Thirty percent of the target grant value of the 2012 long-term incentive opportunity was granted on March 7, 2012 in the form of restricted shares based on the fair market value of the shares as of that date \$11.04, which shares vest ratably over a three-year period. The Named Executive Officer will have the opportunity to receive the grant of shares of Company common stock based on the issuance to that Named Executive Officer of performance units with respect to the remaining seventy percent of the target grant value. The number of performance units issued to the recipient is determined by dividing seventy percent of the target grant value by the fair market value of the shares as of the date \$11.04 of the establishment of this opportunity. Shares of Company common stock will be issued with respect to these performance units to the extent that 2012

Adjusted EBITDA targets under the MIP are achieved. A number of shares of Company common stock equal to forty percent of the number of performance units will issued if the minimum amount of Adjusted EBITDA is achieved, a number of shares of Company common stock equal to 100% of the number of performance units will issued if the target amount of Adjusted EBITDA is achieved, and a number of shares of Company common stock equal to 200% of the number of performance units will issued if the maximum level of Adjusted EBITDA is achieved. If Adjusted EBITDA between these thresholds are achieved, the number of shares will be adjusted on a linear basis. Vesting of earned performance units occurs ratably over three years commencing with the date of grant; however, if maximum Adjusted EBITDA performance is achieved, vesting occurs ratably over two years commencing with the date of grant.

**PROPOSAL 2: APPROVAL OF THE
2012 EMPLOYEE STOCK PURCHASE PLAN**

The Company is asking stockholders to approve the adoption of the Flotek Industries, Inc. 2012 Employee Stock Purchase Plan (the 2012 ESPP), the material terms of which are more fully described below. The Company's Board of Directors approved the ESPP on April 11, 2012, subject to the stockholder approval solicited by this Proxy Statement. If approved by our stockholders 500,000 shares of Flotek common stock will be reserved for issuance thereunder. The 2012 ESPP will be effective upon its approval by our stockholders.

The Company's stockholders are being asked to approve the 2012 ESPP and the Board's reservation of shares under the 2012 ESPP for the purpose of qualifying such shares for special tax treatment under Section 423 of the Internal Revenue Code of 1986, as amended (the Code).

Summary of the 2012 ESPP

The principal features of the 2012 ESPP are summarized below. The following summary of the 2012 ESPP does not purport to be a complete description of all the provisions of the 2012 ESPP. It is qualified in its entirety by reference to the complete text of the 2012 ESPP, which is in Exhibit A of this proxy statement. Any Flotek stockholder who wishes to obtain a copy of the 2012 ESPP may do so upon written request to the Company's Corporate Secretary at our principal executive offices.

General

The purpose of the 2012 ESPP is to provide the employees of the Company and the Company's subsidiaries with an opportunity to purchase our common stock through accumulated payroll deductions.

Administration

The 2012 ESPP is administered by the Board, or a committee appointed by the Board. The Board has full power to interpret the 2012 ESPP, and the decisions of the Board, or the committee if applicable, are final and binding upon all participants.

Eligibility

Any employee of the Company or any subsidiary of the Company on a given Offering Date (as defined below) (other than a highly compensated employee within the meaning of Section 423(b)(4)(D) of the Code) will be eligible to participate in the 2012 ESPP beginning on that Offering Date, subject to the administrative rules established by the Board. An employee is generally defined as an individual who is an employee of the Company or its subsidiaries for tax purposes who is regularly employed for at least 20 hours per week. However, no employee is eligible to participate in the 2012 ESPP to the extent that, immediately after the grant, that employee would own capital stock of the Company and/or hold outstanding options to purchase such stock possessing 5% or more of the total combined voting power or value of all classes of the capital stock of the Company or of any subsidiary, or to the extent that his or her rights to purchase stock under all employee stock purchase plans of the Company and its subsidiaries accrue at a rate which exceeds \$25,000 worth of stock (determined at the fair market value of the shares at the time such option is granted) for each calendar year in which such option is outstanding at any time. As of March 30, 2012, approximately 400 Flotek employees, including 4 executive officers, were eligible to participate in the 2012 ESPP.

Participation in an Offering

The 2012 ESPP is implemented by offering periods lasting for three months (an Offering Period, with the first day of each such period the Offering Date). If stockholders approve the 2012 ESPP, the first three-month Offering Period will begin on October 1, 2012, with subsequent Offering Periods commencing on January 1, April 1, July 1 and October 1 of each year. Common stock is purchased under the 2012 ESPP every three months on the last day of each Offering Period (a Purchase Date), unless the participant becomes ineligible to participate, withdraws from the 2012 ESPP or terminates employment prior to such date. To participate in the 2012 ESPP, each eligible employee must authorize contributions pursuant to the 2012 ESPP, which shall be made only by payroll

Table of Contents

deductions. Such payroll deductions may not exceed 10% (or such other limit as the Board may establish prior to the start of the applicable Offering Period) of a participant's eligible compensation (limited to salary and/or wages) and are also subject to the limitations discussed above. A participant may increase or decrease his or her rate of contribution through payroll deductions at the beginning of an Offering Period, but at no time may such rate of contribution exceed 10%.

On the Offering Date of each Offering Period, each eligible employee participating in such Offering Period will be granted an option to purchase on the Purchase Date for such Offering Period (at the applicable Purchase Price, as defined below) up to a number of shares of the Company's common stock determined by dividing such employee's payroll deductions accumulated during an Offering Period and retained in the participant's account as of the Purchase Date for such Offering Period by the applicable Purchase Price. Subject also to the limitations discussed above, an employee may not purchase more than 1,000 shares of common stock in any Offering Period.

Purchase Price; Shares Purchased.

Shares of common stock may be purchased under the 2012 ESPP at a Purchase Price equal to 85% of the fair market value of the common stock on the Purchase Date; however, the Board has the discretion to adjust the purchase price in the future. On March 30, 2012, the closing price per share of Flotek common stock was \$12.02. The number of whole shares of common stock a participant purchases in each Offering Period is determined by dividing the total amount of the participant's contributions during that Offering Period by the Purchase Price, subject to the 1,000 share limit.

Termination of Employment

Termination of a participant's employment for any reason, including death, automatically cancels his or her option and participation in the 2012 ESPP. In such event, the contributions credited to the participant's account will be returned without interest to him or her (or in the case of death, to the person or persons entitled to those contributions).

Adjustments upon Changes in Capitalization, Dissolution, Liquidation, Merger, Acquisition or Asset Sale

Subject to any required action by the stockholders of the Company, in the event that Flotek common stock is changed by reason of any stock split, reverse stock split, stock dividend, combination, reclassification or other similar changes in our capital structure effected without the receipt of consideration, appropriate proportional adjustments may be made in the number of shares of stock subject to the 2012 ESPP, the number of shares of stock to be purchased pursuant to an option, the maximum number of shares of stock that may be purchased by a participant in an Offering Period and the price per share of common stock covered by an option. Any such adjustment will be made by the Board, whose determination shall be conclusive and binding. In the event of a dissolution or liquidation of the Company, any Offering Period then in progress will be terminated immediately prior to the consummation of such action, unless otherwise provided by the Board. In the event of a proposed sale of all or substantially all of the assets of the Company or the merger or consolidation of the Company with another company, or the acquisition of more than 50% of the shares of voting stock of the Company then outstanding by certain persons, each outstanding option shall be assumed or an equivalent option substituted by the successor corporation or a parent or subsidiary of the successor corporation. In the event that the successor corporation refuses to assume or substitute for the outstanding options, each Offering Period then in progress will be accelerated to a New Purchase Date that is set before the date of the Company's proposed sale or merger. The participant's option shall be exercised automatically on the New Purchase Date, unless the participant has previously withdrawn from the Offering Period in accordance with the 2012 ESPP.

Amendment and Termination of the Plan.

The Board may terminate or amend the 2012 ESPP at any time and for any reason, subject to the exceptions set forth in the 2012 ESPP. The Company will obtain any necessary stockholder approvals to comply with Section 423 of the Code, securities laws and regulations and stock exchange requirements. The 2012 ESPP will continue until May 18, 2022, unless otherwise terminated by the Board.

Table of Contents

Withdrawal

Generally, a participant may withdraw from the 2012 ESPP by giving written notice to the Company. A participant's withdrawal from an Offering Period will not affect his or her eligibility to participate in succeeding Offering Periods.

New Plan Benefits

Because benefits under the 2012 ESPP will depend on employees' elections to participate and the fair market value of Flotek common stock at various future dates, it is not possible to determine the benefits that will be received by executive officers and other employees if the 2012 ESPP is approved by the stockholders. Non-employee directors are not eligible to participate in the 2012 ESPP.

U.S. Federal Income Tax Consequences

If the Company's stockholders approve this proposal, the 2012 ESPP, and the right of participants to make purchases thereunder, is intended to qualify as an employee stock purchase plan under the provisions of Section 423 of the Code. Under those provisions, no income will be taxable to a participant until the shares purchased under the 2012 ESPP are sold or otherwise disposed of. Upon sale or other disposition of the shares, the participant will generally be subject to tax and the amount of the tax will depend upon whether the holding period(s) set forth in Section 423 of the Code have been satisfied. If the shares are sold or otherwise disposed of more than two years from the applicable Offering Date and more than one year from the date of transfer of the shares to the participant, then the participant generally will recognize ordinary income measured as the lesser of (i) the excess of the amount received upon such sale or disposition over the Purchase Price, or (ii) an amount equal to 15% of the fair market value of the shares as of the Offering Date. Any additional gain should be treated as long-term capital gain. If the

shares are sold or otherwise disposed of before the expiration of this holding period, the participant will recognize ordinary income generally as measured by the excess of the fair market value of the shares on the date the shares are purchased over the purchase price. Any additional gain or loss on such sale or disposition will be long-term or short-term capital gain or loss, depending on the holding period. The Company is not entitled to a deduction for amounts taxed as ordinary income or capital gain to a participant except ordinary income is recognized by participants upon a sale or disposition of shares prior to the expiration of the holding period(s) described above. In all other cases, no deduction is allowed to the Company.

The foregoing is only a summary of the effect of U.S. federal income taxation upon participants and the Company with respect to the 2012 ESPP based upon the U.S. federal income tax laws in effect as of the date of this proxy statement. It is not intended to be exhaustive and does not discuss the tax consequences arising in the context of the employee's death or the income tax laws of any municipality, state or foreign country in which the employee's income or gain may be taxable or the gift, estate, or any tax law other than U.S. federal income tax law. Because individual circumstances may vary, the Company advises all recipients to consult their own tax advisor concerning the tax implications of participation in the 2012 ESPP.

Approval of the 2012 ESPP requires the affirmative vote of a majority of the shares of Flotek common stock present in person or represented by proxy and entitled to be voted on the proposal at the annual meeting.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR PROPOSAL NO. 2 TO APPROVE THE FLOTEK INDUSTRIES, INC. 2012 EMPLOYEE STOCK PURCHASE PLAN.

A participant's payroll deductions shall remain in effect for all future Offering Periods unless changed by the participant.

(b) Payroll deductions shall commence on the first full payroll following an Offering Date and shall end on the last payroll paid on or prior to the Purchase Date of the Offering Period to which the Enrollment Documents are applicable, unless sooner terminated by the participant as provided in Section 10.

6. **Method of Payment of Contributions.**

(a) A participant shall elect to have payroll deductions made on each payday during the Offering Period in an amount not less than one percent (1%) and not more than ten percent (10%) (or such greater percentage as the Board may establish from time to time before an Offering Date) of such participant's Compensation on each payday during the Offering Period. All payroll deductions made by a participant shall be credited to his or her account under the Plan. A participant may not make any additional payments into such account.

(b) A participant may discontinue his or her participation in the Plan as provided in Section 10.

(c) Notwithstanding the foregoing, to the extent necessary to comply with Section 423(b)(8) of the Code and Section 3(b) herein, a participant's payroll deductions may be decreased during any Offering Period scheduled to end during the current calendar year to 0%. Payroll deductions shall re-commence at the rate provided in such participant's Enrollment Documents at the beginning of the first Offering Period that is scheduled to end in the following calendar year, unless terminated by the participant as provided in Section 10.

7. **Grant of Option.**

(a) On each Offering Date of each Offering Period, each eligible Employee participating in such Offering Period shall be granted an option to purchase on the Purchase Date a number of Shares of the Company's Common Stock determined by dividing such Employee's Contributions accumulated prior to such Purchase Date and retained in the participant's account as of the Purchase Date by the applicable Purchase Price; provided however that the maximum number of Shares an Employee may purchase during each Offering Period shall be 1,000 Shares (subject to any adjustment pursuant to Section 18 below), and provided further that such purchase shall be subject to the limitations set forth in Sections 3(b) and 12.

Table of Contents

(b) The fair market value of the Company's Common Stock on a given date (the Fair Market Value) shall be determined by the Board in its discretion based on the closing sales price of the Common Stock on the New York Stock Exchange for such date (or, in the event that the Common Stock is not traded on such date, on the immediately preceding trading date).

8. **Exercise of Option.** Unless a participant withdraws from the Plan as provided in Section 10, his or her option for the purchase of Shares will be exercised automatically on the Purchase Date of an Offering Period, and the maximum number of Shares subject to the option will be purchased at the applicable Purchase Price with the accumulated Contributions in his or her account. Fractional Shares shall be issued, as necessary. The Shares purchased upon exercise of an option hereunder shall be deemed to be transferred to the participant on the Purchase Date. During his or her lifetime, a participant's option to purchase Shares hereunder is exercisable only by him or her.

9. **Delivery.** As promptly as practicable after a Purchase Date, the number of Shares purchased by each participant upon exercise of his or her option shall be deposited into an account established in the participant's name with the Designated Broker. Any payroll deductions accumulated in a participant's account that are not applied toward the purchase of Shares on a Purchase Date due to limitations imposed by the Plan shall be returned to the participant.

10. **Voluntary Withdrawal; Termination of Employment.**

(a) A participant may withdraw all but not less than all the Contributions credited to his or her account under the Plan at any time prior to a Purchase Date by submitting a completed Notice of Withdrawal form to the Company's Human Resources Department or electronically completing the required documentation provided by the Company through the Designated Broker, as directed by the Company's Human Resources Department. All of the participant's Contributions credited to his or her account will be paid to him or her promptly after receipt of his or her notice of withdrawal and his or her option for the current period will be automatically terminated, and no further Contributions for the purchase of Shares will be made during the Offering Period.

(b) Upon termination of the participant's Continuous Status as an Employee prior to the Purchase Date of an Offering Period for any reason, whether voluntary or involuntary, including retirement or death, the Contributions credited to his or her account will be returned to him or her or, in the case of his or her death, to the person or persons entitled thereto under Section 14, and his or her option will be automatically terminated.

(c) In the event an Employee fails to remain in Continuous Status as an Employee of the Company for at least twenty (20) hours per week during the Offering Period in which the employee is a participant, he or she will be deemed to have elected to withdraw from the Plan and the Contributions credited to his or her account will be returned to him or her and his or her option terminated.

(d) A participant's withdrawal from an offering will not have any effect upon his or her eligibility to participate in a succeeding offering or in any similar plan that may hereafter be adopted by the Company.

11. **Interest.** No interest shall accrue on the Contributions of a participant in the Plan.

12. **Stock.**

(a) Subject to adjustment as provided in Section 18, the maximum number of Shares that shall be made available for sale under the Plan shall be 500,000 Shares. If the Board determines that, on a given Purchase Date, the number of shares with respect to which options are to be exercised may exceed (1) the number of shares of Common Stock that were available for sale under the Plan on the Offering Date of the applicable Offering Period, or (2) the number of shares available for sale under the Plan on such Purchase Date, the Board may in its

sole discretion provide (x) that the Company shall make a pro rata allocation of the Shares of Common Stock available for purchase on such Offering Date or Purchase Date, as applicable, in as uniform a manner as shall be practicable and as it shall determine in its sole discretion to be equitable among all participants exercising options to purchase Common Stock on such Purchase Date, and continue the Plan as then in effect, or (y) that the Company shall make a pro rata allocation of the Shares available for purchase on such Offering Date or Purchase Date, as applicable, in as uniform a manner as shall be practicable and as it shall determine in its sole discretion to be equitable among all participants exercising options to purchase Common Stock on such Purchase Date, and terminate the Plan pursuant to Section 19 below. The Company may make a pro rata allocation of the Shares available on an Offering Date of any applicable Offering Period pursuant to the preceding sentence, notwithstanding any authorization of additional Shares for issuance under the Plan by the Company's stockholders subsequent to such Offering Date.

(b) The participant shall have no interest or voting right in Shares covered by his or her option until such option has been exercised.

(c) Shares to be delivered to a participant under the Plan will be registered in the name of the participant or in the name of the participant and his or her spouse.

13. **Administration.** The Board, or a committee named by the Board, shall supervise and administer the Plan and shall have full power to adopt, amend and rescind any rules deemed desirable and appropriate for the administration of the Plan and not inconsistent with the Plan, to construe and interpret the Plan, and to make all other determinations necessary or advisable for the administration of the Plan.

14. **Designation of Beneficiary.**

(a) A participant may designate a beneficiary who is to receive any Shares and cash, if any, from the participant's account under the Plan in the event of such participant's death subsequent to the end of an Offering Period but prior to delivery to him or her of such Shares and cash. In addition, a participant may designate a beneficiary who is to receive any cash from the participant's account under the Plan in the event of such participant's death prior to the Purchase Date of an Offering Period. If a participant is married and the designated beneficiary is not the spouse, spousal consent shall be required for such designation to be effective. Beneficiary designations under this Section 14(a) shall be made as directed by the Human Resources Department of the Company, which may require electronic submission of the required documentation with the Designated Broker.

(b) Such designation of beneficiary may be changed by the participant (and his or her spouse, if any) at any time by submission of the required notice, which required notice may be electronic. In the event of the death of a participant and in the absence of a beneficiary validly designated under the Plan who is living at the time of such participant's death, the Company shall deliver such Shares and/or cash to the executor or administrator of the estate of the participant, or if no such executor or administrator has been appointed (to the knowledge of the Company), the Company, in its discretion, may deliver such Shares and/or cash to the spouse or to any one or more dependents or relatives of the participant, or if no spouse, dependent or relative is known to the Company, then to such other person as the Company may designate.

15. **Transferability.** Neither Contributions credited to a participant's account nor any rights with regard to the exercise of an option or to receive Shares under the Plan may be assigned, transferred, pledged or otherwise disposed of in any way (other than by will, the laws of descent and distribution, or as provided in Section 14) by the participant. Any such attempt at assignment, transfer, pledge or other disposition shall be without effect, except that the Company may treat such act as an election to withdraw funds in accordance with Section 10.

16. **Use of Funds.** All Contributions received or held by the Company under the Plan may be used by the Company for any corporate purpose, and the Company shall not be obligated to segregate such Contributions.

Table of Contents

17. **Reports.** Individual accounts will be maintained for each participant in the Plan. Statements of account will be provided to participating Employees by the Company or the Designated Broker at least annually, which statements will set forth the amounts of Contributions, the per Share Purchase Price, the number of Shares purchased and the remaining cash balance, if any.

18. **Adjustments Upon Changes in Capitalization; Corporate Transactions.**

(a) **Adjustment.** Subject to any required action by the stockholders of the Company, the number of Shares covered by each option under the Plan that has not yet been exercised, the number of Shares that have been authorized for issuance under the Plan but have not yet been placed under option (collectively, the Reserves), the maximum number of Shares of Common Stock that may be purchased by a participant in an Offering Period, the number of Shares of Common Stock set forth in Section 12(a)(i) above, and the price per Share of Common Stock covered by each option under the Plan that has not yet been exercised, shall be proportionately adjusted for any increase or decrease in the number of issued Shares resulting from a stock split, reverse stock split, stock dividend, combination or reclassification of the Common Stock (including any such change in the number of Shares of Common Stock effected in connection with a change in domicile of the Company), or any other increase or decrease in the number of Shares effected without receipt of consideration by the Company; provided however that conversion of any convertible securities of the Company shall not be deemed to have been effected without receipt of consideration. Such adjustment shall be made by the Board, whose determination in that respect shall be final, binding and conclusive. Except as expressly provided herein, no issue by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of Shares subject to an option.

(b) **Corporate Transactions.** In the event the stockholders of the Company approve a plan of complete dissolution or liquidation of the Company, any Offering Period then in progress will terminate immediately prior to the consummation of such action, unless otherwise provided by the Board. In the event of a Corporate Transaction, each option outstanding under the Plan shall be assumed or an equivalent option shall be substituted by the successor corporation or a parent or subsidiary of such successor corporation. In the event that the successor corporation refuses to assume or substitute for outstanding options, each Offering Period then in progress shall be shortened and a new Purchase Date shall be set (the New Purchase Date), as of which date any Offering Period then in progress will terminate. The New Purchase Date shall be on or before the date of consummation of the transaction and the Board shall notify each participant in writing, at least ten (10) days prior to the New Purchase Date, that the Purchase Date for his or her option has been changed to the New Purchase Date and that his or her option will be exercised automatically on the New Purchase Date, unless prior to such date he or she has withdrawn from the Offering Period as provided in Section 10. For purposes of this Section 18, an option granted under the Plan shall be deemed to be assumed, without limitation, if, at the time of issuance of the stock or other consideration upon a Corporate Transaction, each holder of an option under the Plan would be entitled to receive upon exercise of the option the same number and kind of shares of stock or the same amount of property, cash or securities as such holder would have been entitled to receive upon the occurrence of the transaction if the holder had been, immediately prior to the transaction, the holder of the number of Shares of Common Stock covered by the option at such time (after giving effect to any adjustments in the number of Shares covered by the option as provided for in this Section 18); provided however that if the consideration received in the transaction is not solely common stock of the successor corporation or its parent (as defined in Section 424(e) of the Code), the Board may, with the consent of the successor corporation, provide for the consideration to be received upon exercise of the option to be solely common stock of the successor corporation or its parent equal in Fair Market Value to the per Share consideration received by holders of Common Stock in the transaction.

The Board may, if it so determines in the exercise of its sole discretion, also make provision for adjusting the Reserves, as well as the price per Share of Common Stock covered by each outstanding option, in the event that the Company effects one or more reorganizations, recapitalizations, rights offerings or other increases or

reductions of Shares of its outstanding Common Stock, and in the event of the Company's being consolidated with or merged into any other corporation.

19. **Amendment or Termination.**

(a) The Board may at any time and for any reason terminate or amend the Plan. Except as provided in Section 18, no such termination of the Plan may affect options previously granted, provided that the Plan or an Offering Period may be terminated by the Board on a Purchase Date or by the Board's setting a new Purchase Date with respect to an Offering Period then in progress if the Board determines that termination of the Plan and/or the Offering Period is in the best interests of the Company and the stockholders or if continuation of the Plan and/or the Offering Period would cause the Company to incur adverse accounting charges as a result of a change after the effective date of the Plan in the generally accepted accounting rules applicable to the Plan. Except as provided in Section 18 and in this Section 19, no amendment to the Plan shall make any change in any option previously granted that adversely affects the rights of any participant. In addition, to the extent necessary to comply with Rule 16b-3 under the Exchange Act, or under Section 423 of the Code (or any successor rule or provision or any applicable law or regulation), the Company shall obtain stockholder approval in such a manner and to such a degree as so required.

(b) Without stockholder consent and without regard to whether any participant rights may be considered to have been adversely affected, the Board (or its committee) shall be entitled to change the Offering Periods, limit the frequency and/or number of changes in the amount withheld during an Offering Period, establish the exchange ratio applicable to amounts withheld in a currency other than U.S. dollars, permit payroll withholding in excess of the amount designated by a participant in order to adjust for delays or mistakes in the Company's processing of properly completed withholding elections, establish reasonable waiting and adjustment periods and/or accounting and crediting procedures to ensure that amounts applied toward the purchase of Common Stock for each participant properly correspond with amounts withheld from the participant's Compensation, and establish such other limitations or procedures as the Board (or its committee) determines in its sole discretion advisable that are consistent with the Plan.

20. **Notices.** All notices or other communications by a participant to the Company under or in connection with the Plan shall be deemed to have been duly given when received in the form specified by the Company at the location, or by the person, designated by the Company for the receipt thereof.

21. **Conditions Upon Issuance of Shares.** Shares shall not be issued with respect to an option unless the exercise of such option and the issuance and delivery of such Shares pursuant thereto shall comply with all applicable provisions of law, domestic or foreign, including, without limitation, the Securities Act of 1933, as amended, the Exchange Act, the rules and regulations promulgated thereunder, applicable state securities laws and the requirements of any stock exchange upon which the Shares may then be listed, and shall be further subject to the approval of counsel for the Company with respect to such compliance.

As a condition to the exercise of an option, the Company may require the person exercising such option to represent and warrant at the time of any such exercise that the Shares are being purchased only for investment and without any present intention to sell or distribute such Shares if, in the opinion of counsel for the Company, such a representation is required by any of the aforementioned applicable provisions of law.

22. **Term of Plan; Effective Date.** The Plan shall become effective upon approval by the Company's stockholders, which approval must be within twelve (12) months after the date the Plan is adopted by the Board. No option to purchase Shares of the Company's Common Stock hereunder will be granted unless and until the Plan has been approved by the Company's stockholders. The Plan shall continue in effect for a term of ten (10) years from the effective date unless sooner terminated under Section 19.

23. **Additional Restrictions of Rule 16b-3.** The terms and conditions of options granted hereunder to, and the purchase of Shares by, persons subject to Section 16 of the Exchange Act shall comply with the applicable

Table of Contents

provisions of Rule 16b-3. This Plan shall be deemed to contain, and such options shall contain, and the Shares issued upon exercise thereof shall be subject to, such additional conditions and restrictions as may be required by Rule 16b-3 to qualify for the maximum exemption from Section 16 of the Exchange Act with respect to Plan transactions.

24. **Notice of Disposition of Shares.** Each participant shall notify the Company in writing if the participant disposes of any of the Shares purchased on the Purchase Date of any Offering Period if such disposition occurs within two (2) years from the Offering Date or within one (1) year from the Purchase Date on which such shares were purchased and the Shares are not held by the Designated Broker. The Company may place a legend on any certificate representing Shares acquired pursuant to this Plan requesting the Company's transfer agent to notify the Company of any transfer of the Shares. The obligation of the participant to provide such notice shall continue notwithstanding the placement of any such legend on the certificates.
