REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Employee Benefit Plans Committee and

Members of The Boeing Company Voluntary Investment Plan

The Boeing Company

Chicago, Illinois

We have audited the accompanying statements of net assets available for benefits of The Boeing Company Voluntary Investment Plan (the Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010, and the change in net assets available for benefits for the year ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules listed in the table of contents are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These schedules are the responsibility of the Plan s management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic 2011 financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

THE BOEING COMPANY VOLUNTARY INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2011 AND 2010 AND FOR THE YEAR ENDED DECEMBER 31, 2011

1. DESCRIPTION OF PLAN

The following description of The Boeing Company Voluntary Investment Plan (the VIP or the Plan) provides only general information. Participants, as defined by the Plan (Members), should refer to the Plan document for a more complete description of the Plan s provisions.

General The Plan is a defined contribution savings plan designed to provide Members with a means of making regular savings to provide additional security for their retirement. Effective September 30, 2011, the net assets and liabilities of a defined contribution profit-sharing plan, The Boeing Company Employee Financial Security Plan (FSP), were transferred into the Plan. The FSP balances provide for salary continuation during extended illness of certain bargaining units of active employees or disbursement of remaining account balance at termination. An employee becomes eligible to participate on the first day of employment.

Eligible employees (non-union or represented by a collective bargaining agent that has negotiated for its members to be eligible for automatic enrollment) who are hired or rehired on or after January 1, 2010, will automatically become Members.

The assets of the Plan, excluding loans and receivables, are held in The Boeing Company Employee Savings Plans Master Trust (the Master Trust). State Street Bank and Trust Company (SSBT) serves as trustee for the Master Trust. The Employee Benefit Plans Committee controls and manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions Members may elect to contribute to the Plan from pretax, after-tax, or a combination of both and subject to statutory limitations, between 1% and 25% of their base compensation. Certain eligible employees are allowed to make catch-up contributions. This provision is available to Members of age 50 or older during the plan year and who contribute either at least 8% in pretax contributions or have reached a specified limit for the plan year. The Plan also accepts certain rollover contributions.

Under the terms of the Plan, The Boeing Company (the Company or Boeing) does make matching and Company contributions for eligible Members. Members should refer to the Plan document for details.

Members may elect to change contribution percentages to be effective the next pay period after the request is received, or as soon as administratively possible. The allocation of both their contributions and employer contributions to the funds may be changed at any time and become effective on the day of the change or the next business day according to the time of the request for a change in relation to the stock market close of business.

Members Accounts Individual accounts are maintained for each Plan Member. Each Member s account is credited with the Member s contribution and Company s contribution, allocations of Plan earnings (losses) from the funds in which the account is invested, and charged with an allocation of certain administrative and investment-related expenses, and Member specific charges, if applicable. Allocations are based on Member earnings or account balances, as defined by the Plan document. The benefit to which a Member is entitled is the benefit that can be provided from the Member s account.

Investment Funds Upon enrollment in the Plan, Members may direct their contributions and any employer-matching contributions to 19 of the investment funds in the Master Trust. These 19 investment funds consisted of common/collective trusts, separately managed U.S. equity accounts, separately managed non-U.S. equity accounts, a stable value fund (composed of six synthetic guaranteed investment contracts (synthetic GICs)), and Boeing common stock, which is the Boeing Employee Stock Option Plan Stock Fund, a dividend payout program, as of December 31, 2011. Investment funds are valued daily and Members may elect to change their investment allocations on a daily basis.

Vesting Member contributions, both pretax and after-tax, employer-matching contributions, profit-sharing contributions, and earnings on those contributions are immediately vested.

Withdrawals Members may elect to withdraw all or a portion of their own pretax contribution accounts, after-tax contribution accounts, employer-matching accounts, profit-sharing accounts, and rollover accounts at any time on or after the day the Member attains age 59-1/2. If a Member is under age 59-1/2, withdrawals from pretax contribution accounts are subject to certain hardship rules as provided by the Plan. If a Member takes a hardship withdrawal, the Member may continue contributions to the Plan; however, employer-matching contributions will be suspended for six months following the withdrawal.

In addition, a Member may elect to withdraw all or part of his or her employer-matching account before the Member attains age 59-1/2, but only if the Member has attained his or her fifth anniversary of employment. If such a withdrawal is made, employer-matching contributions will be suspended for six months following the withdrawal. Company contributions may be fully withdrawn upon termination of employment. Withdrawals of after-tax contributions and rollover contributions can be made at any time.

Finally, in the event of illness or injury and if a Member has used all of his or her regular sick leave benefits, a Member with a FSP balance may elect to withdraw, subject to Plan requirements, all or a portion of his or her FSP account balance.

Loans Members are permitted to borrow a minimum of \$1,000, up to a maximum of the lesser of \$50,000 or 50% of the total value of their total vested account balance, excluding a Member s FSP balance, at the time of the loan issuance and may have two loans outstanding within the Company s savings plans at any time. Loans may be additionally limited in accordance with the Plan provisions. The interest rate on new loans is set every month and is equal to the prime rate published in the Wall Street Journal as of the last business day of the calendar month, immediately preceding the date of the loan. Interest rates on outstanding loans ranged from 2% to 9.8% at December 31, 2011, with loans maturing at various dates through December 2031.

Loan repayment is made through regular payroll deductions for a period of up to 60 months for general loans and over a longer period for loans used to finance the purchase of a principal residence. If a Member semployment terminates for any reason, and the loan balances are not paid in full by the termination date, the Member may continue to make monthly loan repayments until the loan is scheduled to be paid off. A loan will continue to be subject to default if a payment has not been made for 90 days, an outstanding loan balance remains 30 days after the scheduled payoff date, or the Member takes a full distribution of their net account balance before the loan is paid off. If the loan defaults, the loan balance will become taxable income to the Member. Member loans are measured at their unpaid principal balance, plus any accrued but unpaid interest.

Benefit Payments On termination of service, a Member may elect to receive a lump-sum amount equal to the value of the Member s vested interest in his or her account; a partial payment amount; or monthly, quarterly, semiannual, or annual installments of a fixed dollar amount or for a specific number of years, up to 10 years. Generally, a Member may also elect to have all or a portion of his or her Boeing Stock Fund balance paid in shares and/or cash. A Member also has the option to elect an annuity contract. If a Member makes no election, annual distributions of the required minimum amount will begin after age 70-1/2.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Valuation of Investments Investments in the Master Trust are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. The Master Trust s investments are valued as follows:

Common stock, including Boeing Common stock, preferred stock, and other exchange traded derivatives traded in active markets on national and international exchanges are primarily valued using a market approach based on the closing market prices of identical instruments on the last trading day of the year. The other exchange traded derivatives are included in other receivables and other liabilities on the Master Trust financial statements.

Forwards and spot currency contracts are valued using spot foreign currency exchange rates if the contract length is two days or less and an interpolated rate is used for any contracts with a length greater than two days. Forwards and spot currency contracts are included in other receivables and other liabilities on the Master Trust financial statements.

Mutual funds, which are registered investment companies, are valued using a market approach based on quoted market prices to represent the net asset value on the last trading day of the year.

Investments in common/collective trust funds are valued based on the year-end unit value; unit values were determined by the issuer or Third Party Administrator by dividing the fair values of the total net assets at year-end by the outstanding units. The fair values of the total net assets are determined by the nature of the underlying investments. Each underlying investment is valued at fair value in accordance with the valuation description associated with its investment type. Units in common/collective trust funds, which hold benefit-responsive contracts, are priced based upon fair value of the underlying investment. Funds which hold Guaranteed Investment Contracts (GICs) are fair valued and then adjusted to contract value. The fair value of traditional

GICs is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated swap rate as of year-end. The fair values of the fixed-income securities underlying the fund are valued based on the pricing methodology for fixed-income securities stated below. There were no unfunded commitments, no restrictions on redemption frequency and no advance notice periods required for redemption.

Synthetic GICs are stated at fair value and then adjusted to contract value. There are no reserves against contract value for credit risk of the contract issuer. The fixed-income securities underlying the contracts were valued using prices provided by SSBT, which are based on the pricing methodology stated below for fixed-income securities.

Fixed-income securities, the majority of which are not exchange-traded but are traded in active markets, are primarily valued using a market approach with observable inputs, such as observable trade prices, multiple broker-dealer quotations, related yield curves, and other assumptions about the security (prepayment projections, cash flows, and other security characteristics) and valued as of the last trading day of the year. Fixed-income securities having a delayed future settlement such as To Be Announced securities (TBAs) are valued similarly to fixed-income securities in active markets. TBAs are included in synthetic GICs and payables for securities purchased on the Master Trust financial statements.

Securities traded in markets that are not considered active could be valued using unobservable inputs, such as less recent trade prices, single broker-dealer quotations, related yield curves, and other assumptions about the security.

Investments in limited partnerships are recorded based upon the year-end valuations provided by the partnerships. Among the factors considered by the partnerships in determining the fair value are developments since the acquisition of the underlying investments, the financial condition and operating results of the underlying investments, the long-term potential of each of the underlying investment s businesses, market comparable analysis, the foreign exchange rate for each of the underlying foreign investments, and other factors generally pertinent to the valuation of the underlying investments. There are no unfunded commitments

In accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 946-210-45 through 946-210-55, the synthetic GICs are included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract-value basis.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. The net appreciation/depreciation in fair value of investments includes both realized and unrealized gains or losses and is calculated as the difference between the fair value of the assets as of the beginning of the plan year or the purchase date in the current year and either the sales price or the end-of-year fair value.

Benefits Benefits are recorded when paid.

Expenses Necessary and proper expenses of the Plan are paid from the Plan assets at the Master Trust level, except for those expenses the Company is required by law or chooses to pay.

Loans Receivable from Members Loans receivable from Members are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Recently Adopted Accounting Guidance In January 2010, the FASB issued Accounting Standards Update (ASU) 2010-06, *Fair Value Measurements and Disclosures*, which amends ASC 820, *Fair Value Measurements and Disclosures*, adding a new disclosure requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis. The requirement was effective for fiscal years beginning after December 15, 2010. The adoption in 2011 did not materially affect the financial statements.

Recent Accounting Guidance Not Yet Adopted In May 2011, the FASB issued ASU No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, which amends ASC 820. ASU 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. The adoption will not have a material effect on the statement of net assets available for benefits and statement of changes in net assets available for benefits. Plan management has not determined the impact on the disclosures in the financial statements.

3. SYNTHETIC GUARANTEED INVESTMENT CONTRACTS

For the plan years ended December 31, 2011 and 2010, the Master Trust included the VIP Stable Value Fund (VIP SVF), which is managed by Dwight Asset Management Company LLP (Dwight). The VIP SVF holds six synthetic GICs, issued by Bank of America, ING Life Insurance and Annuity Company, Natixis Financial Products, Pacific Life Insurance Company, Prudential Fixed Income Management, and Royal Bank of Canada (collectively, the wrap providers).

A synthetic GIC, also known as a wrap contract, is an investment contract issued by an insurance company or other financial institution, backed by diversified bond portfolios that are owned by the VIP SVF. These contracts provide that realized and unrealized gains and losses on the underlying assets are not reflected immediately in the net assets of the VIP SVF, but rather are amortized, at a maximum over the duration of the underlying assets, through adjustments to the future interest-crediting rate. Primary variables impacting the future crediting rate of the wrap contracts include current yield of the underlying assets within the wrap contract, duration of the underlying assets covered by the wrap contract, and the existing difference between market value and contract value of the underlying assets within the wrap contract. The issuer guarantees that all qualified participant withdrawals will occur at contract value (or book value), which represents contributions made under the contract, plus earnings, less withdrawals made under the contract and administrative expenses.

The synthetic GICs are included in the Master Trust financial statements at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. There are no reserves against contract value for credit risk of the contract issuer. The fixed-income securities underlying the contracts are valued using prices provided by SSBT, which are based on the valuation methodology stated in Note 2.

- 8 -

The assets underlying the synthetic GICs are owned by the VIP SVF, which is part of the Master Trust; SSBT is the custodian for the Master Trust assets. The underlying assets of the synthetic GICs are invested in diversified bond portfolios managed by BlackRock Financial Management Inc., ING Investment Management Co., JPMorgan Asset Management, Pacific Investment Management Company, Prudential Fixed Income Management, and Western Asset Management Co. In addition to the diversified bond portfolios, Dwight oversees an allocation to a cash component, which is invested in SSBT s Short-Term Investment Fund.

The wrap providers are each contractually obligated to pay the principal and specified interest rate that is guaranteed to the VIP SVF, respectively. The respective interest-crediting rates are each based on a formula agreed upon with each issuer; each one may not be less than 0%. Such interest rates are reviewed and reset on a quarterly basis. Synthetic GICs provide prospective crediting interest rates which are adjusted quarterly based on the interest earnings, fair value, and duration of the underlying diversified bond portfolios. The crediting rate of each contract in any given quarter will reflect market experience from the previous quarter. The wrap providers may not terminate the contracts at any amount less than contract value.

Certain events, such as a Plan termination or a Plan merger outside the Master Trust initiated by the Company, could limit the ability of the VIP SVF to transact at contract value or may allow for the termination of the wrapper contract at less than contract value. The Company does not believe that any events are probable that could limit the ability of the VIP SVF to transact at contract value.

The average yields of the VIP SVF for the years ended December 31, 2011 and 2010, are as follows:

	2011	2010
Average yields:		
Based on annualized earnings (1)	1.64%	2.65%
Based on interest rate credited to participants (2)	2.72	3.18

- (1) Computed by dividing the annualized one-day actual earnings of the VIP SVF on the last day of the plan year by the fair value of the investments of the VIP SVF on the same date.
- (2) Computed by dividing the annualized one-day earnings credited to participants in the VIP SVF on the last day of the plan year by the fair value of the investments of the VIP SVF on the same date.

4. MASTER TRUST

The Master Trust is composed of 19 investment funds. The assets are invested and records are maintained by each investment fund option. Funds are allocated to the participating plans in accordance with the Plan provisions and participant allocation elections. The allocation of net assets available for benefits is based on the respective number of units held by the plans members as of year-end. The allocation of the changes in net assets available for benefits is calculated daily based on the units held by the plans members as of that day s end.

At December 31, 2011, the assets of the following plan comprised the Master Trust:

The Boeing Company Voluntary Investment Plan Effective September 30, 2011, The Boeing Company Employee Financial Security Plan was merged into the Plan.

-9-

At December 31, 2010, the assets of the following plans were combined in the Master Trust:

The Boeing Company Voluntary Investment Plan

The Boeing Company Employee Financial Security Plan

The Plan s interest in the Master Trust was \$33,086,148,540 and \$30,695,409,007 representing 100% and 97% of the Master Trust s net assets at December 31, 2011 and 2010, respectively.

Although the Plan is the only participating plan in the Master Trust as of December 31, 2011, the Company intends to keep the Master Trust for potential future acquired plans and file a Form 5500 as a master trust.

- 10 -

The Master Trust s statements of net assets available for benefits as of December 31, 2011 and 2010, are as follows:

\$ 12,148,046,131 \$ 12,983,693,664

Net investment income and investment and administration expenses for the Master Trust for the year ended December 31, 2011, is as follows:

Appreciation of investments:	
Common/collective trusts	\$ (78,521,544)
Common and preferred stock	(172,191,299)
Mutual funds	(2,868,874)
Boeing common stock	594,488,843
Fixed-income securities	(73,212)
Partnerships	(2,656,275)
Net appreciation of investments	338,177,639
Interest income	352,870,415
Dividend income	170,815,374
Investment income	523,685,789
Net investment income	\$ 861,863,428
Investment and administration expenses	\$ 67,520,713

The net appreciation in fair value of investments, investment income, and investment and administration expenses included in the Net Master Trust Activity of the Plan were \$390,252,934, \$516,332,065, and \$66,066,386, respectively for the year ended December 31, 2011.

5. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 for financial assets and financial liabilities are described below:

Basis of Fair Value Measurement:

Level 1 Values are based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. An active market is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 Values are based on (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in nonactive markets; or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.

Level 3 Values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

The following tables set forth by level within the fair value hierarchy a summary of Master Trust investments by classes of assets and liabilities on the basis of the nature and risk of the investments measured at fair value on a recurring basis as of December 31, 2011 and 2010, respectively. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan s policy is to recognize significant transfers between levels at the beginning of the reporting period.

Total Master Trust investment assets at fair value classified within Level 3 were \$49,537,605 and \$55,449,976 as of December 31, 2011 and 2010, respectively, which primarily consists of fixed-income securities underlying the synthetic GICs and an investment in a partnership. Such amounts were 0.16% and 0.18% of Total investment assets in the Master Trust's statements of net assets available for benefits as of December 31, 2011 and 2010, respectively.

For the years ended December 31, 2011 and 2010, there were no significant transfers in or out of Levels 1 or 2.

Level 3 Gains and Losses A summary of changes in the fair value of the Master Trust s Level 3 investment assets for the years ended December 31, 2011 and 2010, is as follows:

		Svi	nthetic GICs:	Sv	nthetic GICs:	nthetic GICs:

(1) Amounts include accreted interest income on fixed income securities

The net unrealized gain (loss) on Level 3 investment assets still held as of December 31, 2011 and 2010, were \$0 and \$95,286 for corporate bonds, \$0 and \$0 for common and preferred stock, \$14,670 and \$4,602 for other assets, \$512,546 and \$92,874 for U.S. government and agency securities, \$(16,722) and \$102,706 for mortgage backed and asset backed securities and \$(756,454) and \$382,029 for partnerships, respectively.

6. DERIVATIVE FINANCIAL INSTRUMENTS

ASC 815, *Derivatives and Hedging*, requires disclosures to enable investors to understand how and why derivatives are used, accounted for, and affect the results of operations and financial position. Derivative instruments held by the Master Trust are not designated as hedging instruments under ASC 815.

- 16 -

As of December 31, 2011 and 2010, the Master Trust has invested in derivative contracts which are reflected on the Master Trust s statements of net assets available for benefits as follows:

	Foreign Currency	Equity	Future Settlement	Total
December 31, 2011	·	• •		
Assets:				
Synthetic GICs:

Realized gains and losses and the change in unrealized gains and losses are reflected in the Master Trust statement of changes in net assets available for benefits as net appreciation or depreciation in the fair value of investments. The effect of derivative contracts realized gains and losses and the change in unrealized gains and losses for the year ended December 31, 2011, are reflected in the following table:

	Foreign Currency	Equity	Total
December 31, 2011		1	
Net gains (losses):			
Forward contracts	\$ (1,049,272)	\$	\$ (1,049,272)
Futures	(9,562)	1,264,235	1,254,673
Total net gains (losses)	\$ (1,058,834)	\$ 1,264,235	\$ 205,401

TBAs are included in the synthetic GICs and adjusted to contract value. As such, there is no gain/(loss) on the statement of changes in net assets available for benefits related to TBAs.

The following table summarizes the gross notional value of derivative contracts outstanding as of December 31, 2011 and 2010. The gross notional amounts give an indication of the volume of the Master Trust s derivative activity and significantly exceed the net notional value of the derivative investments, which is more representative of the economic exposure associated with derivatives in the Master Trust.

		Future				
	Foreign Currency	Equity	Settlement	Total

Total	\$ 19,218,211	\$ 139,862,555	\$ 5,028,125,996	\$ 5,187,206,762		

Derivatives are generally used to achieve the desired market exposure of a security, index or currency, or adjust portfolio duration. Derivative contracts are instruments that derive their value from underlying assets, indices, reference interest rates, or a combination of these factors. Refer to Note 2 for further description of how derivative instruments are valued. Certain cash instruments, such as mortgage-backed TBAs meet the definition of a derivative instrument under U.S. GAAP. A derivative instrument could be a contract negotiated on behalf of the Master Trust and a specific counterparty; this would typically be referred to as an OTC contract, such as forward contracts and TBAs. Alternatively, a derivative instrument, such as futures, could be listed and traded on an exchange and referred to as exchange traded.

Edgar Filing: BOEING CO - Form 11-K

Table of Contents

Inherent in the use of OTC derivatives, the Master Trust is exposed to counterparty credit risk on all open OTC positions. Counterparty credit risk is the risk that a derivative counterparty may fail to meet its payment obligation under the derivative contract. As of December 31, 2011 and 2010, the Master Trust counterparty risk was not deemed to be significant, when evaluating counterparty exposure outright with each counterparty.

Foreign Currency Risk Currency risk is the risk of a change in market value due to the change in foreign currency exchange rates. Generally, currency futures and forward contracts are used to achieve the desired currency exposure, or generate value-added performance. Foreign currency futures and forwards are agreements between two parties to buy and sell a set of currencies at a set exchange rate on a specified future date.

Equity Risk Equity risk is the risk of a change in market value of assets due to the change in equity or equity index prices. Equity futures are generally used to achieve the desired market exposure of a security or index or rebalance the total portfolio to the target asset allocation. An equity futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date.

Future Settlement Risk Future settlement risk is the risk of not receiving the asset or associated gains specified in the contract. Associated gains are derived from the change in market value of the contract due to a change in price of the underlying security. Mortgage TBAs are used to achieve the desired market exposure of a security or asset class or adjust portfolio duration. A TBA is a contract for the purchase or sale of agency mortgage-backed securities to be delivered at a future agreed-upon date.

The disclosures included in this footnote were omitted from the previously issued 2010 financial statements.

7. PLAN AMENDMENTS

Effective September 30, 2011, the FSP merged into the Plan.

Effective September 15, 2011, the Global Aeronautica, LLC 401(k) Plan (Global Aeronautica) and the eXMeritus Software Federal Systems, Inc. 401(k) Plan (eXMeritus) were merged into the Plan. Transferred employees are eligible to participate in the Plan coinciding with the date their former plan was frozen.

Effective November 12, 2010, the Plan was amended to comply with the Heroes Earnings Assistance and Relief Tax Act of 2008. Members should refer to the Plan document for details.

Effective July 2, 2010, the Plan was amended and matching and Company contributions are no longer available for certain employees of Boeing Service Company and Boeing Defense, Space & Security.

Effective April 5, 2010, the Plan was amended to provide a rebalancing provision, whereby certain Members can elect to rebalance their account balances automatically, on either a monthly or quarterly basis, to align the allocation of their account balances to their investment elections.

Effective January 1, 2010, the Plan was amended to allow automatic enrollment for all new hires, both union and non-union.

Effective January 1, 2010, the Plan was amended to permit employer matching contributions be made in the form of employer stock. The unit price is determined on the day that the contributions post to a members account and can be divested and reinvested in an alternative investment.

8. ASSETS TRANSFERRED FROM ANOTHER PLAN

Upon the merger of the FSP, effective September 30, 2011, all assets and liabilities of the FSP were transferred to the Plan. The fair value of the assets transferred totaled \$934,136,088.

Upon the merger of Global Aeronautica and eXMeritus, effective September 15, 2011, all assets and liabilities of Global Aeronautica and eXMeritus were transferred to the Plan. The fair value of the assets transferred totaled \$8,298,003 and \$890,581, respectively.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2011 and 2010, to Form 5500:

	2011	2010
Net assets available for benefits per the financial statements	\$ 33,257,749,331	\$ 31,012,055,324
Amounts allocated to withdrawing Members	(5,036,005)	(3,966,311)
Adjustment from contract value to fair value for fully		
benefit-responsive investment contracts	503,020,047	345,506,326
Net assets available for benefits per Form 5500	\$ 33.755.733.373	\$ 31.353.595.339

The following is a reconciliation of total additions per the financial statements for the year ended December 31, 2011, to total income per Form 5500:

Statement of changes in net assets available for benefits:	
Total additions per the financial statements	\$ 2,961,791,191
Adjustment from contract value to fair value for fully benefit-responsive	
investment contracts December 31, 2011	503,020,047
Adjustment from contract value to fair value for fully benefit-responsive	
investment contracts December 31, 2010	(345,506,326)
Total income per Form 5500	\$ 3,119,304,912

The following is a reconciliation of benefits paid to Members per the financial statements for the year ended December 31, 2011, to Form 5500:

Benefits paid to Members per the financial stat	ements	\$ 1,659,421,856
Amounts allocated to withdrawing Members	December 31, 2011	5,036,005
Amounts allocated to withdrawing Members	December 31, 2010	(3,966,311)
Amounts deemed distributions of Member loan 5500	ns as reflected in the Form	(12,622,344)
Benefits paid to Members per Form 5500		\$ 1,647,869,206

Amounts allocated to withdrawing Members are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, but not yet paid as of that date.

Amounts deemed distributions of Member loans as reflected in the Form 5500 are for loans that Members failed to make a payment within 90 days of receipt of the last loan payment made or Members who failed to repay the loan in full within 30 days after the end of the repayment period for the year ended December 31, 2011.

10. SIGNIFICANT INVESTMENTS

At the direction of the participating members of the Master Trust plans, the Master Trust has invested in the following funds, representing 5% or more of net assets available for benefits as of December 31, 2011 and 2010, stated at fair value:

	2011	2010
SSBT Flagship S&P 500 Index Fund Series A	\$	\$ 4,564,126,033
SSBT Flagship S&P 500 Index Non-Lending Series Fund Class A	4,585,780,718	
Boeing common stock	5,270,316,180	4,584,971,885
SSBT Bond Market Index Fund Series A		2,270,924,768
SSBT Bond Market Index Non-Lending Series Fund Class A	2,589,401,611	
SSBT Global All Cap Equity ex-US Index Securities		
Lending Series Fund Class I		1,980,000,440
SSBT Global All Cap Equity ex-US Index		
Non-Lending Series Fund Class A	1,862,715,249	

11. RELATED-PARTY TRANSACTIONS

Certain Master Trust investments are managed by SSBT. SSBT is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The investment management fees for the Plan are paid at the Master Trust level and included as a reduction of the return earned on each investment.

As of December 31, 2011 and 2010, the Plan held 71,851,618 and 70,260,339 shares of common stock of the Company, with a cost basis of \$4,391,216,868 and \$4,173,603,175 and recorded dividend income of \$118,699,188 and \$118,674,444, respectively, during the years then ended.

12. PROHIBITED TRANSACTIONS

On January 3, 2011, a reportable nonexempt party-in-interest transaction existed. Plan assets were inadvertently used to make a duplicate payment to a third-party provider. The Plan was corrected according to the guiding principles of the Department of Labor s Voluntary Fiduciary Correction Program (DOL s VFCP), which involved remitting the total principal amount of \$4,662 and associated lost earnings in the amount of \$13 to the Plan on January 18, 2011, March 3, 2011, and May 26, 2011.

On December 15, 2010, a reportable nonexempt party-in-interest transaction existed. Kestrel plan assets were inadvertently used to pay expenses that should have been paid by the plan sponsor prior to merging assets into the Plan. The Plan was corrected according to the guiding principles of the DOL s VFCP, which involved remitting the principal amount of \$1,602 and associated lost earnings in the amount of \$24 to the Plan on June 16, 2011.

13. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter, dated December 10, 2003, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. On November 20, 2009, a request for a letter of determination was filed with the IRS. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes the Plan s tax-exempt status has not been affected and no provision for income taxes has been included in the Plan s financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2005.

14. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination of the Plan, both Members and Company contributions, including any income earned, will be distributed to the Members.

15. SUBSEQUENT EVENTS

On February 14, 2012, the Plan was amended and effective May 15, 2012, the Boeing Helena, Inc. 401(k) Plan and Trust and the Solutions Made Simple, Inc. 401(k) Profit Sharing Plan merged into the Plan.

On February 14, 2012, the Plan was amended and effective June 15, 2012, the Argon ST, Inc 401(k) Profit Sharing Plan & Trust and the Digital Receive Technology, Inc. 401(k) Plan merged into the Plan.
