In addition, the company faces competition from other real estate companies including other REITs, private real estate funds, domestic and foreign financial institutions, life insurance companies, pension trusts, partnerships, individual investors and others that may have greater financial resources or access to capital than the company does or that are willing to acquire properties in transactions which are more highly leveraged or are less attractive from a financial viewpoint than the company is willing to pursue. In addition, competition from observatory and/or broadcasting operations in the new property currently under construction at One World Trade Center and, to a lesser extent, from the existing observatory at Rockefeller Center and the existing broadcasting facility at Four Times Square, could have a negative impact on revenues from the company's observatory operations and/or broadcasting revenues. Adverse impacts on domestic travel and changes in foreign currency exchange rates may also decrease demand in the future, which could have a material adverse effect on the company's results of operations, financial condition and ability to make distributions to the company's stockholders. Additionally, completion of the new Vornado Tower currently under construction at 15 Penn Plaza may provide a significant source of competition for office and retail tenants, due to its close proximity to the Empire State Building. If the company's competitors offer space at rental rates below current market rates, below the rental rates the company currently charges the company's tenants, in better locations within the company's markets or in higher quality facilities, the company may lose potential tenants and may be pressured to reduce its rental rates below those it currently charges in order to retain tenants when the company's tenants' leases expire.

## **Employees**

As of June 30, 2012, the company had approximately 595 employees, 98 of whom were managers and professionals. There are currently collective bargaining agreements which cover the workforce that services all of the company's office properties.

## **Offices**

The company's principal executive offices are located at One Grand Central Place, 60 East 42nd Street, New York, New York 10165. In addition, the company has six additional regional leasing and property management offices in Manhattan and the greater New York metropolitan area. The company's current facilities are adequate for its present and future operations, although the company may add regional offices or relocate its headquarters, depending upon the company's future operations.

## **Legal Proceedings**

From time to time, the company is party to various lawsuits, claims for negligence and other legal proceedings that arise in the ordinary course of the company's business. Except as described below, the company is not currently a party, as plaintiff or defendant, to any legal proceedings which, individually or in the aggregate, would be expected to have a material effect on the company's business, financial condition or results of operations if determined adversely to the company.

In March 2012, five putative class actions, or the Class Actions, were filed in New York State Supreme Court, New York County by participants in Empire State Building Associates L.L.C. and several other entities supervised by the supervisor (on March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and March 19, 2012). The plaintiffs assert claims against Malkin Holdings LLC, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc., Malkin Construction Corp., Anthony E. Malkin, Peter L. Malkin, the Helmsley estate, the operating partnership and the company for breach of fiduciary duty, unjust enrichment, and/or aiding and abetting breach of fiduciary duty. They allege, among other things, that the terms of the transaction and the process by which it was structured (including the valuation that was employed) are unfair to the participants, the consolidation provides excessive benefits to the Malkin Holdings group and the then-draft prospectus/consent solicitation filed with the SEC failed to make adequate disclosure to permit a fully informed decision about the proposed transaction. The complaints seek money damages and injunctive relief preventing the proposed transaction. The actions were consolidated and co-lead plaintiffs' counsel were

## **Table of Contents**

appointed by the New York State Supreme Court by order dated June 26, 2012. Furthermore, an underlying premise of the Class Actions, as noted in discussions among plaintiffs counsel and defendants' counsel, was that the consolidation had been structured in such a manner that would cause the subject LLC participants immediately to incur substantial tax liabilities.

The parties entered into a Stipulation of Settlement dated September 28, 2012, resolving the Class Actions. The Stipulation of Settlement recites that the consolidation was approved by overwhelming consent of the participants in the private entities. The Stipulation of Settlement states that counsel for the plaintiff class satisfied themselves that they have received adequate access to relevant information, including the independent valuer's valuation process and methodology, that the disclosures in the Registration Statement on Form S-4, as amended, are appropriate, that the transaction presents potential benefits, including the opportunity for liquidity and capital appreciation, that merit the participants' serious consideration and that each of named class representatives intends to support the transaction as modified. The Stipulation of Settlement further states that counsel for the plaintiff class are satisfied that the claims regarding tax implications, enhanced disclosures, appraisals and exchange values of the properties that would be consolidated into the company, and the interests of the participants in the subject LLCs and the private entities, have been addressed adequately, and they have concluded that the settlement pursuant to the Stipulation of Settlement and opportunity to consider the proposed transaction on the basis of revised consent solicitations are fair, reasonable, adequate and in the best interests of the plaintiff class.

The defendants in the Stipulation of Settlement denied that they committed any violation of law or breached any of their duties and did not admit that they had any liability to the plaintiffs.

The terms of the settlement include, among other things (i) a payment of \$55 million, with a minimum of 80% in cash and maximum of 20% in freely-tradable shares of common stock and/or freely-tradable operating partnership units (all of which will be paid by the Malkin Holdings group (provided that no member of the Malkin Holdings group that would become a direct or indirect subsidiary of the company in the consolidation will have any liability for such payment) and the Helmsley estate and certain participants in the private entities who agree to contribute) to be distributed, after reimbursement of plaintiffs' counsel's court-approved expenses and payment of plaintiffs' counsel's court-approved attorneys' fees and, in the case of shares of common stock and/or operating partnership units, after the termination of specified lock-up periods, to participants in the subject LLCs and the private entities pursuant to a plan of allocation to be prepared by counsel for plaintiffs; (ii) defendants' agreement that (a) the IPO will be on the basis of a firm commitment underwriting; (b) if, during the solicitation period, any of the three subject LLC's percentage of total exchange value is lower than what is stated in the final prospectus/consent solicitation by 10% or more, such decrease will be promptly disclosed by defendants to investors in the subject LLCs; and (c) unless total gross proceeds of \$600,000,000 are raised in the IPO, defendants will not proceed with the transaction without further approval of the subject LLCs; and (iii) defendants' agreement to make additional disclosures in this prospectus/consent solicitation regarding certain matters (which are included herein). Defendants have also acknowledged the work of plaintiffs and their counsel was a material factor in defendants' implementation of the change in the consolidation that, as originally proposed, would have required the exchange of participation interests for Class A common stock, which are taxable on receipt, and that now permits participants instead to elect to receive operating partnership units and Class B common stock, which permit tax deferral. Participants in the subject LLCs and private entities will not be required to bear any portion of the settlement payment. The payment in settlement of the Class Actions will be made by the Helmsley estate and the Malkin Holdings group (provided that no member of the Malkin Holdings group that would become a direct or indirect subsidiary of the company in the consolidation will have any liability for such payment) and certain participants in the private entities who agree to contribute. The company and the operating partnership will not bear any of the settlement payment.

The settlement further provides for the certification of a class of participants in the three subject LLCs and all of the private entities, other than defendants and other related persons and entities, and a release of any claims of the members of the class against defendants and related persons and entities, as well as underwriters and other

**Table of Contents**

advisors. The release in the settlement excludes certain claims, including but not limited to, claims arising from or related to any supplement to the Registration Statement on Form S-4 that is declared effective to which the plaintiffs' counsel objects in writing, which objection will not be unreasonably made or delayed, so long as plaintiffs' counsel has had adequate opportunity to review such supplement. Members of the putative class have the right to opt out of the monetary portion of the settlement, but not the portion providing for equitable relief. The settlement is subject to court approval. It is not effective until such court approval is final, including the resolution of any appeal. Defendants continue to deny any wrongdoing or liability in connection with the allegations in the Class Actions.

**Table of Contents**

**POLICIES WITH RESPECT TO CERTAIN ACTIVITIES**

*The following is a discussion of certain of the company's investment, financing and other policies. These policies have been determined by the company's board of directors and, in general, may be amended and revised from time to time at the discretion of the company's board of directors without notice to or a vote of the stockholders.*

**Investment Policies**

***Investment in Real Estate or Interests in Real Estate***

The company will conduct all of its investment activities through the operating partnership and its affiliates. The company's investment objectives are to increase cash flow available for distribution to its stockholders and holders of operating partnership units, increase the value of the company's properties and maximize long-term stockholder value through stable dividends and share appreciation. The company has not established a specific policy regarding the relative priority of these investment objectives. For a discussion of the properties and the company's acquisition and other strategic objectives, see "The Company Business and Properties."

The company expects to pursue its investment objectives primarily through the ownership and operation, directly or indirectly, by the operating partnership of the properties that the company will own following the consolidation. The company intends to focus primarily on Manhattan and greater New York metropolitan area office properties and, in addition, office and multi-tenanted retail properties in Manhattan and the greater New York metropolitan area. Future investment or redevelopment activities will not be limited to any geographic area, product type or to a specified percentage of the company's assets. While the company may diversify in terms of property locations, size and market or submarket, the company does not have any limit on the amount or percentage of its assets that may be invested in any one property or any one geographic area. The company intends to engage in such future investment or development activities in a manner that is consistent with the maintenance of the company's qualification as a REIT for U.S. federal income tax purposes commencing with its taxable year ending December 31, 2013. The company does not have a specific policy to acquire assets primarily for capital gain or primarily for income. In addition, the company may purchase or lease income-producing commercial and other types of properties for long-term investment, expand and improve the properties it presently owns or other acquired properties, or sell such properties, in whole or in part, when circumstances warrant.

The company may also participate with third parties in property ownership, through joint ventures or other types of co-ownership, if it determines that doing so would be the most effective means of raising capital. The company will not, however, enter into a joint venture or other partnership arrangement to make an investment that would not otherwise meet its investment policies. The company also may acquire real estate or interests in real estate in exchange for the issuance of common stock, operating partnership units, preferred stock or options to purchase stock.

Equity investments in acquired properties may be subject to existing mortgage financing and other indebtedness or to new indebtedness which may be incurred in connection with acquiring or refinancing these investments. Principal and interest on the company's debt will have a priority over any dividends with respect to the company's common stock. Investments are also subject to the company's policy not to be treated as an investment company under the Investment Company Act of 1940, as amended, or the 1940 Act.

***Investments in Real Estate Mortgages***

The company's current portfolio consists entirely of, and the company's business objectives emphasize, equity investments in commercial real estate. Although the company does not presently intend to invest in mortgages or deeds of trust, other than in a manner that is ancillary to an equity investment, the company may elect, in its discretion, to invest in mortgages and other types of real estate interests, including, without limitation,

## **Table of Contents**

participating or convertible mortgages; provided, in each case, that such investment is consistent with the company's qualification as a REIT. Investments in real estate mortgages run the risk that one or more borrowers may default under certain mortgages and that the collateral securing certain mortgages may not be sufficient to enable the company to recoup its full investment.

### ***Investments in Securities of or Interests in Persons Primarily Engaged in Real Estate Activities and Other Issuers***

Subject to the company's qualification as a REIT, the company may invest in securities of other REITs, other entities engaged in real estate activities or securities of other issuers, including for the purpose of exercising control over such entities. The company does not currently have any policy limiting the types of entities in which it may invest or the proportion of assets to be so invested, whether through acquisition of an entity's common stock, limited liability or partnership interests, interests in another REIT or entry into a joint venture. The company intends to invest primarily in entities that own commercial real estate. The company has no current plans to invest in entities that are not engaged in real estate activities. The company's investment objectives are to maximize the cash flow of the company's investments, acquire investments with growth potential and provide cash distributions and long-term capital appreciation to the company's stockholders through increases in the value of the company. The company has not established a specific policy regarding the relative priority of these investment objectives.

### ***Investment in Other Securities***

Other than as described above, the company does not intend to invest in any additional securities such as bonds, preferred stock or common stock.

## **Dispositions**

The company from time to time dispose of properties if, based upon the company's management's periodic review of the company's portfolio, the company's board of directors determines such action would be in the company's best interest. In addition, the company may elect to enter into joint ventures or other types of co-ownership with respect to properties that it already owns, either in connection with acquiring interests in other properties (as discussed above in "Investment in Real Estate or Interests in Real Estate") or from investors to raise equity capital. Certain members of the company's senior management team who hold operating partnership units may have their decision as to the desirability of a proposed disposition influenced by the tax consequences to them resulting from the disposition of a certain property. In addition, the company may be obligated to indemnify certain investors, including members of the company's senior management team, against adverse tax consequences to them in the event that the company sells or disposes of certain properties in taxable transactions. See "Risk Factors" "Risks Related to the Tax Consequences of the Consolidation" Tax consequences to holders of operating partnership units upon a sale or refinancing of the company's properties may cause the interests of certain members of the company's senior management team to differ from your own.

## **Financing Policies**

The company expects to employ leverage in the company's capital structure in amounts determined from time to time by the company's board of directors. Although the company's board of directors has not adopted a policy that limits the total amount of indebtedness that the company may incur, it will consider a number of factors in evaluating the company's level of indebtedness from time to time, as well as the amount of such indebtedness that will be either fixed or variable rate. The company's charter and bylaws do not limit the amount or percentage of indebtedness that the company may incur nor do they restrict the form in which the company's indebtedness will be taken (including recourse or non-recourse debt, cross collateralized debt, etc.). The company's board of directors may from time to time modify the company's debt policy in light of the then-current economic conditions, relative costs of debt and equity capital, market values of the company's properties,

---

## **Table of Contents**

general market conditions for debt and equity securities, fluctuations in the market price of the company's Class A common stock, growth and acquisition opportunities and other factors.

To the extent the company's board of directors determines to obtain additional capital, the company may, without stockholder approval, issue debt or equity securities, including additional operating partnership units, retain earnings (subject to the distribution requirements applicable to REITs under the Code) or pursue a combination of these methods. As long as the operating partnership is in existence, the proceeds of all equity capital raised by the company will be contributed to the operating partnership in exchange for additional interests in the operating partnership, which will dilute the ownership interests of the limited partners in the operating partnership.

### **Conflict of Interest Policies**

Conflicts of interest could arise in the future as a result of the relationships between the company and the company's affiliates, on the one hand, and the operating partnership or any partner thereof, on the other. The operating partnership intends to enter into a tax protection agreement with Anthony E. Malkin and Peter L. Malkin pursuant to which the operating partnership will agree to indemnify the Wien group, and one additional third party investor in Metro Center (who was one of the original landowners and was involved in the development of the property) against certain tax liabilities if those tax liabilities result from (i) the operating partnership's sale, transfer, conveyance or other taxable disposition of four specified properties (First Stamford Place, Metro Center, 10 Bank Street and 1542 Third Avenue, which collectively represent approximately 1.99% of the aggregate exchange value) to be acquired by the operating partnership in the consolidation, for a period of 12 years with respect to First Stamford Place and for the later of (x) eight years or (y) the death of both of Peter L. Malkin and Isabel W. Malkin, who are 78 and 75 years old, respectively, for the three other properties, (ii) the operating partnership's failing to maintain until maturity the indebtedness secured by these properties or failing to use commercially reasonable efforts to refinance such indebtedness upon maturity in an amount equal to the principal balance of such indebtedness, or, if the operating partnership is unable to refinance such indebtedness at its current principal amount, at the highest principal amount possible or (iii) the operating partnership failing to make available to any of these investors the opportunity to guarantee, or otherwise bear the risk of loss, for U.S. federal income tax purposes, of their allocable share of \$160 million of aggregate indebtedness meeting certain requirements, until such investor owns less than the aggregate number of operating partnership units and shares of common stock equal to 50% of the aggregate number of such units and such investor received in the consolidation. The operating partnership estimates that if all of its assets subject to the tax protection agreement were sold in a taxable transaction immediately after the IPO, the amount of the operating partnership's indemnification obligations (based on tax rates applicable for the taxable year ending December 31, 2012, and exchange values, and including additional payments to compensate the indemnified partners for additional tax liabilities resulting from the indemnification payments) would be approximately \$97.7 million.

The company does not presently intend to sell or take any other action which would result in a tax protection payment with respect to the properties covered by the tax protection agreement. The tax protection agreement will not apply to a third-party portfolio transaction. See The Consolidation Description of the Tax Protection Agreement.

In addition, Anthony E. Malkin, together with the Malkin Family, has outside business interests which include ownership interests in the excluded properties and excluded businesses which the company is not acquiring. The company's directors and officers have duties to the company under applicable Maryland law in connection with their management of the company. At the same time, the company has fiduciary duties, as a general partner, to the operating partnership and to the limited partners under Delaware law in connection with the management of the operating partnership. The company's duties as a general partner to the operating partnership and its partners may come into conflict with the duties of the company's directors and officers to the company. Unless otherwise provided for in the relevant partnership agreement, Delaware law generally requires a general partner of a Delaware limited partnership to adhere to fiduciary duty standards under which it owes its

## **Table of Contents**

limited partners the highest duties of loyalty and care and which generally prohibits such general partner from taking any action or engaging in any transaction as to which it has a conflict of interest. The limited partners of the operating partnership have agreed that in the event of such a conflict, the company will fulfill the company's fiduciary duties to such limited partners by acting in the best interests of the company's stockholders.

Additionally, the operating partnership agreement expressly limits the company's liability by providing that neither the general partner of the operating partnership, nor any of its directors or officers, will be liable or accountable in damages to the operating partnership, the limited partners or assignees for errors in judgment, mistakes of fact or law or for any act or omission if the company, or such director or officer, acted in good faith. In addition, the operating partnership is required to indemnify the company, the company's affiliates and each of the company's respective officers, directors and employees and any person the company may designate from time to time in the company's sole and absolute discretion, including present and former members, managers, shareholders, directors, limited partners, general partners, officers or controlling persons of the supervisor, to the fullest extent permitted by applicable law against any and all losses, claims, damages, liabilities (whether joint or several), expenses (including, without limitation, attorneys' fees and other legal fees and expenses), judgments, fines, settlements and other amounts arising from any and all claims, demands, actions, suits or proceedings, civil, criminal, administrative or investigative, that relate to the operations of the operating partnership, provided that the operating partnership will not indemnify such person for (i) willful misconduct or a knowing violation of the law, (ii) any transaction for which such person received an improper personal benefit in violation or breach of any provision of the operating partnership agreement, or (iii) in the case of a criminal proceeding, the person had reasonable cause to believe the act or omission was unlawful.

The provisions of Delaware law that allow the common law fiduciary duties of a general partner to be modified by an operating partnership agreement have not been resolved in a court of law, and the company has not obtained an opinion of counsel covering the provisions set forth in the operating partnership agreement that purport to waive or restrict the company's fiduciary duties that would be in effect under common law were it not for the operating partnership agreement.

The company's charter and bylaws do not restrict any of its directors, officers, stockholders or affiliates from having a pecuniary interest in an investment or transaction that the company has an interest in or from conducting, for their own account, business activities of the type the company conducts. The company has, however, adopted certain policies designed to eliminate or minimize certain potential conflicts of interest. Specifically, the company will adopt a code of business conduct and ethics that prohibits conflicts of interest between the company's officers, employees and directors on the one hand, and the company on the other hand, except in compliance with the policy. The company's code of business conduct and ethics will state that a conflict of interest exists when a person's private interest interferes with the company's interest. For example, a conflict of interest will arise when any of the company's employees, officers or directors or any immediate family member of such employee, officer or director receives improper personal benefits as a result of his or her position with the company. The company's code of business conduct and ethics will also limit the company's employees, officers and directors from engaging in any activity that is competitive with the business activities and operations of the company, except as disclosed in this prospectus/consent solicitation. In addition, the company's code of business conduct and ethics will also restrict the ability of its employees, officers and directors to participate in a joint venture, partnership or other business arrangement with the company, except in compliance with the policy. Waivers of the company's code of business conduct and ethics will be required to be disclosed in accordance with NYSE and Securities and Exchange Commission requirements. In addition, the company will adopt corporate governance guidelines to assist the company's board of directors in the exercise of its responsibilities and to serve the company's interests and those of its stockholders. In addition, certain provisions of Maryland law are also designed to minimize conflicts. However, the company cannot assure you these policies or provisions of law will always succeed in eliminating the influence of such conflicts. If they are not successful, decisions could be made that might fail to reflect fully the interests of all stockholders.

## **Table of Contents**

Except with respect to the option properties, excluded properties, excluded businesses and certain non-real estate family investments owned and managed by Anthony E. Malkin and Peter L. Malkin, together with the Malkin Family, none of the company's senior management team will be permitted to compete with the company during their employment with the company.

### **Policies with Respect to Other Activities**

The company has authority to offer common stock, operating partnership units, preferred stock, options to purchase stock or other securities in exchange for property, repurchase or otherwise acquire the company's common stock or other securities in the open market or otherwise, and the company may engage in such activities in the future. As described in Description of Operating Partnership Units and the Partnership Agreement of the Operating Partnership, the company expects, but is not obligated, to issue common stock to holders of operating partnership units upon exercise of their redemption rights. Except in connection with the consolidation or pursuant to the company's equity incentive plan, the company has not issued common stock, units or any other securities in exchange for property or any other purpose, although, as discussed above in

Investment in Real Estate or Interests in Real Estate, the company may elect to do so. After the consummation of the consolidation, the company's board of directors has no present intention of causing the company to repurchase any common stock, although the company may do so in the future. The company may issue preferred stock from time to time, in one or more series, as authorized by the company's board of directors without the need for stockholder approval. See Description of Capital Stock. The company has not engaged in trading, underwriting or agency distribution or sale of securities of other issuers other than the operating partnership and do not intend to do so. At all times, the company intends to make investments in a manner consistent with the qualification as a REIT unless the board of directors determines that it is no longer in the company's best interest to qualify as a REIT. The company has not made any loans to third parties, although the company may make loans to third parties, including, without limitation, to joint ventures in which the company participates. The company intends to make investments in such a way that it will not be treated as an investment company under the 1940 Act.

### **Reporting Policies**

The company intends to make available to the company's stockholders the company's annual reports, including the company's audited financial statements. After the IPO, the company will become subject to the information reporting requirements of the Exchange Act. Pursuant to those requirements, the company will be required to file annual and periodic reports, proxy statements and other information, including audited financial statements, with the SEC.

## **Table of Contents**

### **CERTAIN PROVISIONS OF THE MARYLAND GENERAL CORPORATION LAW AND THE COMPANY'S CHARTER AND BYLAWS**

*The following is a summary of certain provisions of Maryland law applicable to the company and of the company's charter and bylaws. For a complete description, the company refers you to the MGCL and the company's charter and bylaws. This summary does not purport to be complete and is qualified in its entirety by reference to Maryland law and the company's charter and bylaws. Copies of the company's charter and bylaws are filed as exhibits to the registration statement of which is prospectus is a part. See *Where You Can Find More Information*.*

#### **The Company's Board of Directors**

The company's charter and bylaws provide that the number of directors the company has may be established by the company's board of directors but that the number may not be less than the minimum number required by the MGCL nor more than 15. The company's charter and bylaws currently provide that, except as may be provided by the board of directors in setting the terms of any class or series of preferred stock, any vacancy may be filled only by a majority of the remaining directors, even if the remaining directors do not constitute a quorum, and any individual elected to fill such vacancy will serve for the remainder of the full term of the directorship in which the vacancy occurred and until a successor is duly elected and qualifies.

Each of the company's directors is elected by the company's stockholders to serve until the next annual meeting and until his or her successor is duly elected and qualifies. Holders of shares of common stock will have no right to cumulative voting in the election of directors. Consequently, at each annual meeting of stockholders, the holders of a majority of the shares of common stock entitled to vote will be able to elect all of the company's directors at any annual meeting. Directors are elected by a plurality of all votes cast in the election of directors.

#### **Removal of Directors**

The company's charter provides that subject to the rights of holders of one or more classes or series of preferred stock to elect or remove one or more directors, any director or the entire board of directors may be removed only for cause and only by the affirmative vote of stockholders entitled to cast at least two-thirds of the votes entitled to be cast generally in the election of directors. Cause means, with respect to any particular director, a conviction of a felony or a final judgment of a court of competent jurisdiction holding that such director caused demonstrable, material harm to the company through bad faith or active and deliberate dishonesty. This provision, when coupled with the exclusive power of the company's board of directors to fill vacancies on the company's board of directors, precludes stockholders from (1) removing incumbent directors except upon a substantial affirmative vote and for cause and (2) filling the vacancies created by such removal with their own nominees.

#### **Policy on Majority Voting**

The company's board of directors will adopt a policy regarding the election of directors in uncontested elections. Pursuant to such policy, in an uncontested election of directors, any nominee who receives a greater number of votes affirmatively withheld from his or her election than votes for his or her election will, within two weeks following certification of the stockholder vote by the company, submit a written resignation offer to the company's board of directors for consideration by the company's Nominating and Corporate Governance Committee. The company's Nominating and Corporate Governance Committee will consider the resignation offer and, within 60 days following certification by the company of the stockholder vote with respect to such election, make a recommendation to the company's board of directors concerning the acceptance or rejection of the resignation offer. The company's board of directors will take formal action on the recommendation no later than 90 days following certification of the stockholder vote by the company. The company will publicly disclose, in a Form 8-K filed with the SEC, the decision of the company's board of directors. The company board of

## **Table of Contents**

directors will also provide an explanation of the process by which the decision was made and, if applicable, its reason or reasons for rejecting the tendered resignation.

### **Business Combinations**

Under the MGCL, certain business combinations (including a merger, consolidation, share exchange or, in certain circumstances, an asset transfer or issuance or reclassification of equity securities) between a Maryland corporation and an interested stockholder (defined generally as any person who beneficially owns, directly or indirectly, 10% or more of the voting power of the corporation's outstanding voting stock or an affiliate or associate of the corporation who, at any time within the two-year period prior to the date in question, was the beneficial owner of 10% or more of the voting power of the then outstanding stock of the corporation) or an affiliate of such an interested stockholder are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder. Thereafter, any such business combination must be recommended by the board of directors of such corporation and approved by the affirmative vote of at least (1) 80% of the votes entitled to be cast by holders of outstanding voting stock of the corporation and (2) two-thirds of the votes entitled to be cast by holders of voting stock of the corporation other than shares held by the interested stockholder with whom (or with whose affiliate) the business combination is to be effected or held by an affiliate or associate of the interested stockholder, unless, among other conditions, the corporation's common stockholders receive a minimum price (as defined in the MGCL) for their shares and the consideration is received in cash or in the same form as previously paid by the interested stockholder for its shares. A person is not an interested stockholder under the statute if the board of directors approved in advance the transaction by which the person otherwise would have become an interested stockholder. The board of directors may provide that its approval is subject to compliance with any terms and conditions determined by it.

These provisions of the MGCL do not apply, however, to business combinations that are approved or exempted by a board of directors prior to the time that the interested stockholder becomes an interested stockholder. Pursuant to the statute, the company's board of directors has by resolution exempted business combinations between the company and any other person, provided that such business combination is first approved by the company's board of directors (including a majority of the company's directors who are not affiliates or associates of such person) and, consequently, the five-year prohibition and the supermajority vote requirements will not apply to business combinations between the company and any person as described above. As a result, any person described above may be able to enter into business combinations with the company that may not be in the best interest of the company's stockholders without compliance by the company with the supermajority vote requirements and other provisions of the statute.

The company cannot assure you its board of directors will not opt to be subject to such business combination provisions in the future. However, an alteration or repeal of the resolution described above will not have any effect on any business combinations that have been consummated or upon any agreements existing at the time of such modification or repeal. If the company's board of directors opted back into the business combination statute or failed to first approve a business combination, the business combination statute may discourage others from trying to acquire control of the company and increase the difficulty of consummating any offer.

### **Control Share Acquisitions**

The MGCL provides that control shares of a Maryland corporation acquired in a control share acquisition have no voting rights except to the extent approved by the affirmative vote of two-thirds of the votes entitled to be cast on the matter, excluding shares of stock in a corporation in respect of which any of the following persons is entitled to exercise or direct the exercise of the voting power of such shares in the election of directors: (i) a person who makes or proposes to make a control share acquisition, (ii) an officer of the corporation or (iii) an employee of the corporation who is also a director of the corporation. Control shares are voting shares of stock which, if aggregated with all other such shares of stock previously acquired by the

## **Table of Contents**

acquirer, or in respect of which the acquirer is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquirer to exercise voting power in electing directors within one of the following ranges of voting power: (A) one-tenth or more but less than one-third; (B) one-third or more but less than a majority; or (C) a majority or more of all voting power. Control shares do not include shares that the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. A control share acquisition means the acquisition, directly or indirectly, of ownership of, or the power to direct the exercise of voting power with respect to, issued and outstanding control shares, subject to certain exceptions.

A person who has made or proposes to make a control share acquisition, upon satisfaction of certain conditions (including an undertaking to pay expenses and making an acquiring person statement as described in the MGCL), may compel the corporation to call a special meeting of stockholders to be held within 50 days of demand to consider the voting rights of the shares. If no request for a meeting is made, the corporation may itself present the question at any stockholders meeting.

If voting rights are not approved at the meeting or if the acquiring person does not deliver an acquiring person statement as required by the statute, then, subject to certain conditions and limitations, the corporation may redeem any or all of the control shares (except those for which voting rights have previously been approved) for fair value determined, without regard to the absence of voting rights for the control shares, as of the date of the last control share acquisition by the acquirer or of any meeting of stockholders at which the voting rights of such shares are considered and not approved. If voting rights for control shares are approved at a stockholders meeting and the acquirer becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the shares as determined for purposes of such appraisal rights may not be less than the highest price per share paid by the acquirer in the control share acquisition.

The control share acquisition statute does not apply to (1) shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction or (2) acquisitions approved or exempted by the charter or bylaws of the corporation.

The company's bylaws contain a provision exempting from the control share acquisition statute any acquisitions by any person of shares of the company's stock. There is no assurance that such provision will not be amended or eliminated at any time in the future.

## **Subtitle 8**

Subtitle 8 of Title 3 of the MGCL permits a Maryland corporation with a class of equity securities registered under the Exchange Act and at least three independent directors to elect to be subject, by provision in its charter or bylaws or a resolution of its board of directors and notwithstanding any contrary provision in the charter or bylaws, to any or all of five provisions:

a classified board;

a two-thirds vote requirement for removing a director;

a requirement that the number of directors be fixed only by vote of the directors;

a requirement that a vacancy on the board be filled only by the remaining directors and for the remainder of the full term of class of directors in which the vacancy occurred; and

a majority requirement for the calling of a special meeting of stockholders.

The company's charter provides that, at such time as the company is able to make a Subtitle 8 election, vacancies on the company's board may be filled only by the remaining directors and for the remainder of the full term of the directorship in which the vacancy occurred. Through provisions in the company's charter and bylaws

## **Table of Contents**

unrelated to Subtitle 8, the company already (1) requires the affirmative vote of stockholders entitled to cast not less than two-thirds of all of the votes entitled to be cast on the matter for the removal of any director from the board, which removal also requires cause, (2) vests in the board the exclusive power to fix the number of directorships and (3) requires, unless called by the chairman of the company's board of directors, the company's chief executive officer, the company's president or the company's board of directors, the written request of stockholders entitled to cast not less than a majority of all votes entitled to be cast on any matter at such a meeting to call a special meeting.

### **Meetings of Stockholders**

Pursuant to the company's bylaws, a meeting of the company's stockholders for the election of directors and the transaction of any business will be held annually at a date, time and place set by the company's board of directors beginning in 2013. The chairman of the company's board of directors, the company's chief executive officer, the company's president or the company's board of directors may call a special meeting of the company's stockholders. Subject to the provisions of the company's bylaws, a special meeting of the company's stockholders will also be called by the company's secretary upon the written request of the stockholders entitled to cast not less than a majority of all the votes entitled to be cast on any matter that may be properly considered at a meeting of stockholders and containing the information required in the company's bylaws.

### **Amendments to the Company's Charter and Bylaws**

Except for amendments to the provisions of the company's charter relating to the removal of directors, the restrictions on ownership and transfer of the company's shares of stock and the vote required to amend these provisions (each of which must be advised by the company's board of directors and approved by the affirmative vote of the stockholders entitled to cast not less than two-thirds of all the votes entitled to be cast on the matter), the company's charter generally may be amended only with the approval of the company's board of directors and the affirmative vote of the stockholders entitled to cast not less than a majority of all of the votes entitled to be cast on the matter. However, the board of directors, without stockholder approval, has the power under the company's charter to amend the charter from time to time to increase or decrease the aggregate number of shares of stock or the number of shares of stock of any class or series that the company is authorized to issue, to authorize the company to issue authorized but unissued shares of its common stock or preferred stock and to classify and reclassify any unissued shares of common stock or preferred stock into one or more classes or series of stock and set the terms of such newly classified or reclassified shares. See Description of Capital Stock Power to Increase or Decrease Authorized Shares of Common Stock and Issue Additional Shares of Common and Preferred Stock and Power to Reclassify the Company's Unissued Shares of Stock.

The company's board of directors has the exclusive power to adopt, alter or repeal any provision of the company's bylaws and to make new bylaws.

### **Dissolution of the Company**

The dissolution of the company must be declared advisable by a majority of the company's entire board of directors and approved by the affirmative vote of the stockholders entitled to cast not less than a majority of all of the votes entitled to be cast on the matter.

### **Advance Notice of Director Nominations and New Business**

The company's bylaws provide that, with respect to an annual meeting of stockholders, nominations of individuals for election to the company's board of directors and the proposal of other business to be considered by stockholders may be made only (1) pursuant to the company's notice of the meeting, (2) by or at the direction of the company's board of directors or (3) by a stockholder who is a stockholder of record both at the time of giving the notice required by the company's bylaws and at the time of the meeting, who is entitled to vote at the

## **Table of Contents**

meeting in the election of each individual so nominated or on such other business and who has complied with the advance notice provisions set forth in the company's bylaws.

With respect to special meetings of stockholders, only the business specified in the company's notice of meeting may be brought before the meeting. Nominations of individuals for election to the company's board of directors may be made only (1) by or at the direction of the company's board of directors or (2) provided, that the meeting has been called in accordance with the company's bylaws for the purpose of electing directors, by a stockholder who is a stockholder of record both at the time of giving the notice required by the company's bylaws and at the time of the meeting, who is entitled to vote at the meeting in the election of each individual so nominated and who has complied with the advance notice provisions set forth in the company's bylaws.

The purpose of requiring stockholders to give the company advance notice of nominations and other business is to afford the company's board of directors a meaningful opportunity to consider the qualifications of the proposed nominees and the advisability of any other proposed business and, to the extent deemed necessary or desirable by the company's board of directors, to inform stockholders and make recommendations about such qualifications or business, as well as to provide a more orderly procedure for conducting meetings of stockholders. Although the company's bylaws do not give the company's board of directors any power to disapprove stockholder nominations for the election of directors or proposals recommending certain action, they may have the effect of precluding a contest for the election of directors or the consideration of stockholder proposals if proper procedures are not followed and of discouraging or deterring a third party from conducting a solicitation of proxies to elect its own slate of directors or to approve its own proposal without regard to whether consideration of such nominees or proposals might be harmful or beneficial to the company and the company's stockholders.

### **Anti-Takeover Effect of Certain Provisions of Maryland Law and of the Company's Charter and Bylaws**

The company's charter and bylaws and Maryland law contain provisions that may delay, defer or prevent a change in control or other transaction that might involve a premium price for the company's shares of common stock or otherwise be in the best interests of the company's stockholders, including restrictions on ownership and transfer of the company's stock and advance notice requirements for director nominations and stockholder proposals. Likewise, if the provision in the bylaws opting out of the control share acquisition provisions of the MGCL were rescinded or if the company were to opt into the business combination provisions of the MGCL or the classified board or other provisions of Subtitle 8, these provisions of the MGCL could have similar anti-takeover effects.

### **Interested Director and Officer Transactions**

Pursuant to the MGCL, a contract or other transaction between the company and a director or between the company and any other corporation or other entity in which any of the company's directors is a director or has a material financial interest is not void or voidable solely on the grounds of such common directorship or interest, the presence of such director at the meeting at which the contract or transaction is authorized, approved or ratified or the counting of the director's vote in favor thereof, if:

the fact of the common directorship or interest is disclosed or known to the company's board of directors or a committee of the company's board, and the company's board or committee authorizes, approves or ratifies the contract or transaction by the affirmative vote of a majority of disinterested directors, even if the disinterested directors constitute less than a quorum;

the fact of the common directorship or interest is disclosed or known to the company's stockholders entitled to vote thereon, and the contract or transaction is authorized, approved or ratified by a majority of the votes cast by the stockholders entitled to vote other than the votes of shares owned of record or beneficially by the interested director or corporation or other entity; or

the contract or transaction is fair and reasonable to the company.

## **Table of Contents**

Upon the closing of the IPO, the company intends to adopt a policy that requires all contracts and transactions between the company or any of the company's subsidiaries, on the one hand, and any of the company's directors or named executive officers or any entity in which such director or named executive officer is a director or has a material financial interest, on the other hand, to be approved by the affirmative vote of a majority of the disinterested directors, even if less than a quorum. Where appropriate in the judgment of the disinterested directors, the company's board of directors may obtain a fairness opinion or engage independent counsel to represent the interests of non-affiliated security holders, although the company's board of directors will have no obligation to do so.

### **Indemnification and Limitation of Directors and Officers Liability**

Maryland law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages except for liability resulting from actual receipt of an improper benefit or profit in money, property or services or active and deliberate dishonesty established by a final judgment as being material to the cause of action. The company's charter contains such a provision and eliminates the liability of the company's directors and officers to the maximum extent permitted by Maryland law.

The MGCL requires a Maryland corporation (unless its charter provides otherwise, which the company's charter does not) to indemnify a director or officer who has been successful, on the merits or otherwise, in the defense of any proceeding to which he or she is made or threatened to be made a party by reason of his or her service in that capacity. The MGCL permits a Maryland corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses actually incurred by them in connection with any proceeding to which they may be made or threatened to be made a party by reason of their service in those or other capacities unless it is established that:

the act or omission of the director or officer was material to the matter giving rise to the proceeding and (1) was committed in bad faith or (2) was the result of active and deliberate dishonesty;

the director or officer actually received an improper personal benefit in money, property or services; or

in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful. Under the MGCL, a Maryland corporation may not indemnify a director or officer in a suit by or in the right of the corporation or in any proceeding charging improper personal benefit in which the director or officer was adjudged liable on the basis that personal benefit was improperly received. A court may order indemnification if it determines that the director or officer is fairly and reasonably entitled to indemnification, even though the director or officer did not meet the prescribed standard of conduct or was adjudged liable on the basis that personal benefit was improperly received. However, indemnification for an adverse judgment in a suit by the corporation or in its right, or for a judgment of liability on the basis that personal benefit was improperly received, is limited to expenses.

In addition, the MGCL permits a Maryland corporation to advance reasonable expenses to a director or officer upon the corporation's receipt of:

a written affirmation by the director or officer of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification by the corporation; and

a written undertaking by the director or officer or on the director's or officer's behalf to repay the amount paid or reimbursed by the corporation if it is ultimately determined that the director or officer did not meet the standard of conduct.

## **Table of Contents**

The company's charter and bylaws obligate the company, to the maximum extent permitted by Maryland law in effect from time to time, to indemnify and, without requiring a preliminary determination of the ultimate entitlement to indemnification, pay or reimburse reasonable expenses in advance of final disposition of a proceeding to:

any present or former director or officer who is made, or threatened to be made, a party to the proceeding by reason of his or her service in that capacity; or

any individual who, while a director or officer of the company and at the company's request, serves or has served another corporation, real estate investment trust, partnership, limited liability company, joint venture, trust, employee benefit plan or any other enterprise as a director, officer, partner, member, manager or trustee of such corporation, real estate investment trust, partnership, limited liability company, joint venture, trust, employee benefit plan or other enterprise and who is made, or threatened to be made, a party to the proceeding by reason of his or her service in that capacity.

The company's charter and bylaws also permit the company, with the approval of the company's board of directors, to indemnify and advance expenses to members, managers, shareholders, directors, limited partners, general partners, officers or controlling persons of the predecessor in their capacities as such.

Upon completion of the IPO, the company intends to enter into indemnification agreements with each of the company's directors, executive officers, chairman emeritus and certain other parties, providing for the indemnification by the company for certain liabilities and expenses incurred as a result of actions brought, or threatened to be brought, against (i) the company's directors, executive officers and chairman emeritus and (ii) the company's executive officers, chairman emeritus and certain other parties who are former members, managers, shareholders, directors, limited partners, general partners, officers or controlling persons of the predecessor in their capacities as such. Insofar as the foregoing provisions permit indemnification of directors, officers or persons controlling the company for liability arising under the Securities Act, the company has been informed that, in the opinion of the SEC, this indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

## **REIT Qualification**

The company's charter provides that the company's board of directors may revoke or otherwise terminate the company's REIT election, without approval of the company's stockholders, if it determines that it is no longer in the company's best interests to continue to qualify as a REIT.

**Table of Contents**

**DESCRIPTION OF OPERATING PARTNERSHIP UNITS AND THE PARTNERSHIP AGREEMENT OF THE OPERATING PARTNERSHIP**

*The following is a summary of the material terms of the operating partnership units and the material provisions of the operating partnership agreement, a copy of which is filed as an exhibit to the registration statement of which this prospectus/consent solicitation is a part. The following description does not purport to be complete and is subject to and qualified in its entirety by reference to applicable provisions of the Delaware Revised Uniform Limited Partnership Act, as amended, and the operating partnership agreement. See Where You Can Find More Information. For the purposes of this section, references to the general partner refer to Empire State Realty Trust, Inc.*

**General**

The operating partnership is a Delaware limited partnership that was formed on November 28, 2011. The company is the sole general partner of the operating partnership. Pursuant to the operating partnership agreement, the company has, subject to certain protective rights of limited partners described below, full, exclusive and complete responsibility and discretion in the management and control of the operating partnership, including the ability to cause the partnership to enter into certain major transactions including a merger of the operating partnership or a sale of substantially all of the assets of the operating partnership. The limited partners have no power to remove the general partner without the general partner's consent.

The company may not conduct any business without the consent of a majority of the limited partners other than in connection with the ownership, acquisition and disposition of partnership interests, the management of the business of the operating partnership, the company's operation as a reporting company with a class of securities registered under the Exchange Act, the offering, sale syndication, private placement or public offering of stock, bonds, securities or other interests, financing or refinancing of any type related to the operating partnership or its assets or activities and such activities as are incidental to those activities discussed above. In general, the company must contribute any assets or funds that the company acquires to the operating partnership in exchange for additional partnership interests. The company may, however, in the company's sole and absolute discretion, from time to time hold or acquire assets in the company's own name or otherwise other than through the operating partnership so long as the company takes commercially reasonable measures that the economic benefits and burdens of such property are otherwise vested in the operating partnership. The company and its affiliates may also engage in any transactions with the operating partnership on such terms as the company may determine in its sole and absolute discretion.

The company is under no obligation to give priority to the separate interests of the limited partners or the company's stockholders in deciding whether to cause the operating partnership to take or decline to take any actions. If there is a conflict between the interests of the company's stockholders on the one hand and the limited partners on the other, the company will endeavor in good faith to resolve the conflict in a manner not adverse to either the company's stockholders or the limited partners. The company is not liable under the operating partnership agreement to the operating partnership or to any partner for monetary damages for losses sustained, liabilities incurred, or benefits not derived by limited partners in connection with such decisions, provided that the company has acted in good faith.

Upon completion of the consolidation and the IPO, substantially all of the company's business activities, including all activities pertaining to the acquisition and operation of properties, must be conducted through the operating partnership, and the operating partnership must be operated in a manner that will enable the company to satisfy the requirements for qualification as a REIT.

---

## **Table of Contents**

### **Operating Partnership Units**

Interests in the operating partnership are denominated in units of limited partnership interest. Following the IPO and the consolidation, the operating partnership will have two classes of limited partnership interest – operating partnership units and LTIP units. The operating partnership units will have four series – Series PR operating partnership units, Series ES operating partnership units, Series 60 operating partnership units and Series 250 operating partnership units. The Series ES operating partnership units will be issued to participants in Empire State Building Associates L.L.C., the Series 60 operating partnership units will be issued to participants in 60 East 42<sup>nd</sup> St. Associates L.L.C. and the Series 250 operating partnership units will be issued to participants in 250 West 57<sup>th</sup> St. Associates L.L.C., in each case except for the Wien group. The operating partnership intends to apply to have the Series ES operating partnership units, Series 60 operating partnership units and Series 250 operating partnership units listed on the New York Stock Exchange under the symbols ESBA, OGCP, and FISK, respectively. The Series PR operating partnership units will be issued to the participants in the private entities and the Wien group and will not be listed on a national securities exchange. The company will only hold Series PR operating partnership units. Other than with respect to the transfer restrictions applicable to the Series PR operating partnership units as described below under Transferability of Operating Partnership Units; Extraordinary Transactions and that the Series PR operating partnership units will not be listed on a national securities exchange, each of the series of operating partnership units has identical rights as to distributions, liquidation and other rights as a limited partner in the operating partnership. The four series vote together as a single class on all matters on which the holders of operating partnership units have the right to approve, as described below. The separate series were created because there are unique U.S. federal income tax consequences to a participant that receives listed operating partnership units of a particular series (as compared to ownership of operating partnership units of another series) depending on the subject LLC in which they had an interest and the tax aspects of the property contributed by such entity. By issuing the operating partnership units in separate series, each of the operating partnership units in a series that will be trading on the New York Stock Exchange is expected to be uniform with other operating partnership units of that series with regard to distributions, liquidation and other rights as a limited partner in the operating partnership. The company may, without the consent of the limited partners, delist some or all of the operating partnership units from the national securities exchange on which such operating partnership units are admitted to trading.

### **Management Liability and Indemnification**

Neither the company nor the company's directors and officers are liable to the operating partnership, the limited partners or assignees for losses sustained, liabilities incurred or benefits not derived as a result of errors in judgment or mistakes of fact or law or of any act or omission, so long as such person acted in good faith. The operating partnership agreement provides for indemnification of the company, its affiliates and each of the company's respective officers, directors, employees and any persons the company may designate from time to time in its sole and absolute discretion, including present and former members, managers, shareholders, directors, limited partners, general partners, officers or controlling persons of the supervisor, to the fullest extent permitted by applicable law against any and all losses, claims, damages, liabilities (whether joint or several), expenses (including, without limitation, attorneys' fees and other legal fees and expenses), judgments, fines, settlements and other amounts arising from any and all claims, demands, actions, suits or proceedings, civil, criminal, administrative or investigative, that relate to the operations of the operating partnership, provided that the operating partnership will not indemnify such person, for (i) willful misconduct or a knowing violation of the law, (ii) any transaction for which such person received an improper personal benefit in violation or breach of any provision of the operating partnership agreement, or (iii) in the case of a criminal proceeding, the person had reasonable cause to believe the act or omission was unlawful, as set forth in the operating partnership agreement (subject to the exceptions described below under Fiduciary Responsibilities ).

## **Table of Contents**

### **Fiduciary Responsibilities**

The company's directors and officers have duties under applicable Maryland law to manage the company in a manner consistent with the company's best interests. At the same time, the general partner of the operating partnership has fiduciary duties to manage the operating partnership in a manner beneficial to the operating partnership and its partners. The company's duties, as the general partner, to the operating partnership and its limited partners, therefore, may come into conflict with the duties of the company's directors and officers to the company and its stockholders. The company will be under no obligation to give priority to the separate interests of the limited partners of the operating partnership or the company's stockholders in deciding whether to cause the operating partnership to take or decline to take any actions. The limited partners of the operating partnership have agreed that in the event of a conflict in the duties owed by the company's directors and officers to the company and its stockholders and the fiduciary duties owed by the company, in its capacity as general partner of the operating partnership, to such limited partners, the company will fulfill its fiduciary duties to such limited partners by acting in the best interests of the company's stockholders.

The limited partners of the operating partnership expressly acknowledged that the company is acting for the benefit of the operating partnership, the limited partners and the company's stockholders collectively.

### **LTIP Units**

Upon completion of the IPO, the company may cause the operating partnership to issue LTIP units to the company's independent directors, executive officers (other than Anthony E. Malkin) and certain other employees. These LTIP units will be subject to certain vesting requirements. In general, LTIP units are a class of partnership units in the operating partnership and will receive the same quarterly per unit profit distributions as the other outstanding units in the operating partnership. The rights, privileges, and obligations related to each series of LTIP units will be established at the time the LTIP units are issued. As profits interests, LTIP units initially will not have full parity, on a per unit basis, with the operating partnership's common units with respect to liquidating distributions. Upon the occurrence of specified events, LTIP units can over time achieve full parity with operating partnership units and therefore accrete to an economic value for the holder equivalent to operating partnership units. If such parity is achieved, vested LTIP units may be converted on a one-for-one basis into Series PR operating partnership units, which in turn are exchangeable by the holder for cash or, at the company's election shares of the company's Class A common stock on a one-for-one basis, company's election. However, there are circumstances under which LTIP units will not achieve parity with operating partnership units, and until such parity is reached, the value that a participant could realize for a given number of LTIP units will be less than the value of an equal number of shares of the company's Class A common stock and may be zero.

### **Distributions**

The operating partnership agreement provides that the company may cause the operating partnership to make quarterly (or more frequent) distributions of all, or such portion as the company may in the company's sole and absolute discretion determine, of available cash (which is defined to be cash available for distribution as determined by the general partner) (i) first, with respect to any operating partnership units and LTIP units that are entitled to any preference in accordance with the rights of such operating partnership unit or LTIP unit (and, within such class, *pro rata* according to their respective percentage interests) and (ii) second, with respect to any operating partnership units and LTIP units that are not entitled to any preference in distribution, in accordance with the rights of such class of operating partnership unit or LTIP units (and, within such class, *pro rata* in accordance with their respective percentage interests).

### **Allocations of Net Income and Net Loss**

Net income and net loss of the operating partnership are determined and allocated with respect to each fiscal year of the operating partnership as of the end of the year. Except as otherwise provided in the operating

**Table of Contents**

partnership agreement, an allocation of a share of net income or net loss is treated as an allocation of the same share of each item of income, gain, loss or deduction that is taken into account in computing net income or net loss. Except as otherwise provided in the operating partnership agreement, net income and net loss are allocated to the holders of operating partnership units or LTIP units holding the same class or series of operating partnership units or LTIP units in accordance with their respective percentage interests in the class or series at the end of each fiscal year. In particular, upon the occurrence of certain specified events, the operating partnership will revalue its assets and any net increase in valuation will be allocated first to the holders of LTIP units to equalize the capital accounts of such holders with the capital accounts of operating partnership unit or LTIP units holders. See Management Equity Incentive Plan. The operating partnership agreement contains provisions for special allocations intended to comply with certain regulatory requirements, including the requirements of Treasury Regulations Sections 1.704-1(b) and 1.704-2. Except as otherwise required by the operating partnership agreement or the Code and the Treasury Regulations, each operating partnership item of income, gain, loss and deduction is allocated among the limited partners of the operating partnership for U.S. federal income tax purposes in the same manner as its correlative item of book income, gain, loss or deduction is allocated pursuant to the operating partnership agreement. In addition, under Section 704(c) of the Code, items of income, gain, loss and deduction with respect to appreciated or depreciated property which is contributed to a partnership, such as the operating partnership, in a tax-free transaction must be specially allocated among the partners in such a manner so as to take into account such variation between tax basis and fair market value. The operating partnership will allocate tax items to the holders of operating partnership units or LTIP units taking into consideration the requirements of Section 704(c). See U.S. Federal Income Tax Considerations.

The company, as the general partner of the operating partnership, has sole discretion to ensure that allocations of income, gain, loss and deduction of the operating partnership are in accordance with the interests of the partners as determined under the Code and all matters concerning allocations of tax items not expressly provided for in the operating partnership agreement may be determined by the company in its sole discretion. In addition, the company, as general partner of the operating partnership, may adopt such conventions and methods of accounting for determining asset values, basis and identities of partners for proper administration of the operating partnership and to preserve the uniformity of each series of operating partnership units that will be traded on the New York Stock Exchange.

**Redemption Rights**

After 12 months of becoming a holder of operating partnership units (including any LTIP units that are converted into Series PR operating partnership units), each limited partner of the operating partnership will have the right, subject to the terms and conditions set forth in the operating partnership agreement, to require the operating partnership to redeem all or a portion of the operating partnership units held by such limited partner in exchange for a cash amount equal to the number of tendered operating partnership units multiplied by the price of a share of the company's Class A common stock (determined in accordance with, and subject to adjustment under, the terms of the operating partnership agreement), unless the terms of such operating partnership units or a separate agreement entered into between the operating partnership and the holder of such operating partnership units provide that they are not entitled to a right of redemption or provide for a shorter or longer period before such limited partner may exercise such right of redemption or impose conditions on the exercise of such right of redemption. On or before the close of business on the fifth business day after the company receives a notice of redemption, the company may, in the company's sole and absolute discretion, but subject to the restrictions on the ownership of the company's common stock imposed under the company's charter and the transfer restrictions and other limitations thereof, elect to acquire some or all of the tendered operating partnership units from the tendering partner in exchange for shares of the company's Class A common stock, based on an exchange ratio of one share of the company's Class A common stock for each operating partnership unit (subject to anti-dilution adjustments provided in the operating partnership agreement). It is the company's current intention to exercise this right in connection with any exchange of operating partnership units.

---

## **Table of Contents**

### **Transferability of Operating Partnership Units; Extraordinary Transactions**

The company will not be able to withdraw voluntarily from the operating partnership or transfer the company's interest in the operating partnership, including the company's limited partner interest unless the transfer is made in connection with (i) any merger, consolidation or other combination in which, following the consummation of such transaction, the equity holders of the surviving entity are substantially identical to the company's stockholders, (ii) a transfer to a qualified REIT subsidiary or (iii) as otherwise expressly permitted under the operating partnership agreement. The operating partnership agreement permits the company to engage in a merger, consolidation or other combination, or sale of substantially all of the company's assets if:

the company receives the consent of a majority in interest of the limited partners (excluding the company);

following the consummation of such transaction, substantially all of the assets of the surviving entity consist of partnership units; or

as a result of such transaction all limited partners will receive, or will have the right to receive, for each partnership unit an amount of cash, securities or other property equal in value to the greatest amount of cash, securities or other property paid in the transaction to a holder of one share of the company's Class A common stock, provided that if, in connection with the transaction, a purchase, tender or exchange offer shall have been made to and accepted by the holders of more than 50% of the outstanding shares of the company's common stock, each holder of partnership units shall be given the option to exchange its partnership units for the greatest amount of cash, securities or other property that a limited partner would have received had it exercised its redemption right (described above) and received shares of the company's Class A common stock immediately prior to the expiration of the offer.

With certain limited exceptions, the limited partners who own Series PR operating partnership units or LTIP units may not transfer their interests in the operating partnership, in whole or in part, without the company's prior written consent, which consent may be withheld in the company's sole and absolute discretion. Except with the company's consent to the admission of the transferee as a limited partner with respect to Series PR operating partnership units or LTIP units, no transferee of such units shall have any rights by virtue of the transfer other than the rights of an assignee, and will not be entitled to vote or effect a redemption with respect to such partnership units in any matter presented to the limited partners for a vote. The company, as general partner, will have the right to consent to the admission of a transferee of the interest of a limited partner with respect to Series PR operating partnership units or LTIP units, which consent may be given or withheld by the company in the company's sole and absolute discretion. To the extent they remain listed on a national securities exchange, Series ES operating partnership units, Series 60 operating partnership units and Series 250 operating partnership units generally will be freely transferable, and any transferee of such units will be admitted to the partnership with respect to such units. Notwithstanding the foregoing, transfers of operating partnership units and admission of transferees to the partnership are subject to certain limitations described in the partnership agreement.

### **Issuance of Common Stock and Additional Partnership Interests**

Pursuant to the operating partnership agreement, upon the issuance of the company's stock other than in connection with a exchange of operating partnership units, the company will generally be obligated to contribute or cause to be contributed the cash proceeds or other consideration received from the issuance to the operating partnership in exchange for, in the case of common stock, operating partnership units or, in the case of an issuance of preferred stock, preferred operating partnership units with designations, preferences and other rights, terms and provisions that are substantially the same as the designations, preferences and other rights, terms and provisions of the preferred stock. In addition, the company may cause the operating partnership to issue additional operating partnership units or other partnership interests and to admit additional limited partners to the operating partnership from time to time, on such terms and conditions and for such capital contributions as the company may establish in the company's sole and absolute discretion, without the approval or consent of any

## **Table of Contents**

limited partner, including: (i) upon the conversion, redemption or exchange of any debt, units or other partnership interests or other securities issued by the operating partnership; (ii) for less than fair market value; or (iii) in connection with any merger of any other entity into the operating partnership.

### **Tax Matters**

Pursuant to the operating partnership agreement, the general partner is the tax matters partner of the operating partnership and has certain other rights relating to tax matters. Accordingly, as both the general partner and tax matters partner, the company has authority to handle tax audits and to make tax elections under the Code, in each case, on behalf of the operating partnership.

### **Term**

The term of the operating partnership commenced on November 28, 2011 and will continue perpetually, unless earlier terminated in the following circumstances:

a final and non-appealable judgment is entered by a court of competent jurisdiction ruling that the general partner is bankrupt or insolvent, or a final and non-appealable order for relief is entered by a court with appropriate jurisdiction against the general partner, in each case under any federal or state bankruptcy or insolvency laws as now or hereafter in effect, unless, prior to the entry of such order or judgment, a majority in interest of the remaining outside limited partners agree in writing, in their sole and absolute discretion, to continue the business of the operating partnership and to the appointment, effective as of a date prior to the date of such order or judgment, of a successor general partner;

an election to dissolve the operating partnership made by the general partner in its sole and absolute discretion, with or without the consent of a majority in interest of the outside limited partners;

entry of a decree of judicial dissolution of the operating partnership pursuant to the provisions of the Delaware Revised Uniform Limited Partnership Act;

the occurrence of any sale or other disposition of all or substantially all of the assets of the operating partnership or a related series of transactions that, taken together, result in the sale or other disposition of all or substantially all of the assets of the operating partnership;

the redemption (or acquisition by the general partner) of all operating partnership units that the general partner has authorized other than those held by the company; or

the incapacity or withdrawal of the general partner, unless all of the remaining partners in their sole and absolute discretion agree in writing to continue the business of the operating partnership and to the appointment, effective as of a date prior to the date of such incapacity, of a substitute general partner.

### **Amendments to the Operating Partnership Agreement**

Amendments to the operating partnership agreement may only be proposed by the general partner. Generally, the operating partnership agreement may be amended with the general partner's approval and the approval of the limited partners holding a majority of all outstanding limited partner units (excluding limited partner units held by the company or its subsidiaries). Certain amendments that would, among other things, have the following effects, must be approved by each partner adversely affected thereby:

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

convert a limited partner's interest into a general partner's interest (except as a result of the general partner acquiring such interest);

modify the limited liability of a limited partner;

alter the rights of any partner to receive the distributions to which such partner is entitled (subject to certain exceptions);

**Table of Contents**

alter or modify the redemption rights provided by the operating partnership agreement; or

alter or modify the provisions governing transfer of the general partner's partnership interest.

Notwithstanding the foregoing, the company will have the power, without the consent of the limited partners, to amend the operating partnership agreement as may be required to:

add to the company's obligations or surrender any right or power granted to the company or any of its affiliates for the benefit of the limited partners;

reflect the admission, substitution, or withdrawal of partners or the termination of the operating partnership in accordance with the operating partnership agreement and to cause the operating partnership or the operating partnership's transfer agent to amend its books and records to reflect the operating partnership unit and LTIP unit holders in connection with such admission, substitution or withdrawal;

reflect a change that is of an inconsequential nature or does not adversely affect the limited partners as such in any material respect, or to cure any ambiguity, correct or supplement any provision in the operating partnership agreement not inconsistent with the law or with other provisions, or make other changes with respect to matters arising under the operating partnership agreement that will not be inconsistent with the law or with the provisions of the operating partnership agreement;

satisfy any requirements, conditions, or guidelines contained in any order, directive, opinion, ruling or regulation of a U.S. federal or state agency or contained in U.S. federal or state law;

set forth or amend the designations, preferences, conversion or other rights, voting powers, duties restrictions, limitations as to distributions, qualifications or terms or conditions of redemption of the holders of any additional partnership units issued or established pursuant to the operating partnership agreement;

reflect such changes as are reasonably necessary for the company to maintain or restore the company's qualification as a REIT, to satisfy the REIT requirements or to reflect the transfer of all or any part of a partnership interest among the company and any qualified REIT subsidiary or entity that is disregarded as an entity separate from the general partner for U.S. federal income tax purposes;

modify either or both the manner in which items of net income or net loss are allocated or the manner in which capital accounts are computed (but only to the extent set forth in the operating partnership agreement, or to the extent required by the Code or applicable income tax regulations under the Code);

to facilitate the trading of the Series ES operating partnership units, Series 60 operating partnership units or Series 250 operating partnership units (including any division of such classes or other actions to facilitate the uniformity of tax consequences within each such operating partnership units listed on a national securities exchange);

comply with any rules, regulation, guideline or requirement of any national securities exchange on which the Series ES operating partnership units, Series 60 operating partnership units or Series 250 operating partnership units are or will be listed;

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

issue additional partnership interests;

reflect the admission, substitution, termination or withdrawal of the general partner and limited partners or an increase or decrease in either the general partner's or limited partner's DRO Amount (as defined in the operating partnership agreement) in accordance with the operating partnership agreement;

impose restrictions on the transfer of operating partnership units if the general partner of the operating partnership receives an opinion of counsel reasonably to the effect that such restrictions are necessary in order to comply with any federal or state securities laws or regulations applicable to the operating partnership or the operating partnership units; and

**Table of Contents**

reflect any other modification to the operating partnership agreement as is reasonably necessary for the business or operations of the operating partnership or the general partner of the operating partnership and which does not otherwise require the consent of each partner adversely affected.

Certain provisions affecting the company's rights and duties as general partner, either directly or indirectly (*e.g.*, restrictions relating to certain extraordinary transactions involving the company or the operating partnership) may not be amended without the approval of a majority of the limited partnership units (excluding limited partnership units held by the company).

**Table of Contents**

**BUSINESS OF THE SUBJECT LLCs**

The following discussion describes the current business of the subject LLCs and the terms upon which the properties in which the subject LLCs own an interest are leased.

**General**

The three subject LLCs are publicly-registered limited liability companies originally formed as partnerships by Lawrence A. Wien and Peter L. Malkin, affiliates of the supervisor, from 1953 to 1961. Each of these subject LLCs was formed to acquire the fee title or long-term ground lease interest in an office property located in New York, New York and to lease the property to an operating lessee, which operates the property. As lessor, each subject LLC receives from its operating lessee fixed base rent (and, in the case of 60 East 42nd St. Associates L.L.C. and 250 West 57th St. Associates L.L.C., primary additional rent) and overage rent (based on a percentage of the operating lessee's profits). Each operating lessee was formed initially as a partnership, the partners of which included Lawrence A. Wien and Harry B. Helmsley, and later converted to a limited liability company. The supervisor provides supervisory and other services for each subject LLC, each operating lessee and the other private entities. The private entities, including the operating lessees, were formed between 1953 and 2008 and own office properties, in one case with adjacent vacant land including development approvals, and retail properties.

In 1953, 250 West 57th St. Associates L.L.C. acquired fee title to 250 West 57th Street and the land thereunder, located at 250 West 57th Street, New York, New York. In 1958, 60 East 42nd St. Associates L.L.C. acquired fee title to One Grand Central Place and the land thereunder, located at One Grand Central Place, New York, New York. In 2002, Empire State Building Associates L.L.C. acquired the fee title to the Empire State Building and the land thereunder, located at 350 Fifth Avenue, New York, New York. The subject LLCs raised capital of \$43.6 million in three public offerings registered with the SEC, and as of June 30, 2012, had 4,322 participants.

**Investment Policies**

Each subject LLC was organized to acquire a single property or long-term ground lease which was to be net leased to an operating lessee formed for the purposes of operating the property. While each subject LLC generally holds its interest in its property for a long-term investment, a subject LLC may dispose of its interest in the property if the supervisor, with consent of the participants, deems such disposition to be in its best interests. The supervisor does not believe that a transfer of the subject LLC's property interest in an individual sale would be in the best interest of the subject LLC, because it believes a buyer would discount substantially the value of the subject LLC's interest if sold without the operating lessee in view of these factors:

- (a) The subject LLC has no say in property operations, improvements, leasing, repairs, maintenance or the other decisions which govern operation of real estate;
- (b) The operating lessee controls the application of property cash flow and thus the amount of overage rent payable each year to such buyer;
- (c) A subject LLC cannot decide whether to take steps to maximize the value of the property or to undertake improvements or repairs and maintenance;
- (d) A subject LLC also cannot determine to obtain additional financing to maximize cash flows and therefore distributions unless the operating lessee also agrees to the financing, because, in view of the operating lessee's rights under the operating lease, lenders generally require in connection with any significant financing that the operating lessee subordinate its interest to the financing; and
- (e) The operating lease remains in effect in each case for a term, including agreed renewals, which currently ranges from 74 to 91 years, and the operating lease is likely to be required to be extended in order to obtain the operating lessee's necessary cooperation for property improvements and financing as noted above.

**Table of Contents**

Accordingly, the supervisor does not believe that original investors in the subject LLCs contemplated that the subject LLCs would sell the property without an agreement of the operating lessee to join in the sale.

There is no precedent for the supervisor submitting for consent for a sale of a two-tier ownership structure unless the sale included both the lessor and the operating lessee. The supervisor believes that in view of fact that the subject LLCs own the interest in the property, but the operating lessees operate the properties, it would not be in the best interests of the subject LLCs to sell their interests in the properties separate from a sale by the operating lessees. In each case, unless the supervisor determined the proceeds should be reinvested, the proceeds would be distributed between the subject LLC and the operating lessee in accordance with their agreement at the time of such sale. Any proceeds from such disposition that were not reinvestment would be distributed to the participants in the subject LLC according to the terms of the operating agreements governing the subject LLC. Each subject LLC generally intended to hold its interest in its property for an indefinite period.

**Description of Properties**

***The Empire State Building, New York, New York***

Empire State Building Associates L.L.C. acquired a master operating leasehold interest in the Empire State Building through a public partnership in 1961 and acquired the fee title to this property in 2002. The supervisor removed the prior managing and leasing agent and gained full control of the day-to-day management of the property in August 2006. The building comprises premier office space, a concourse, lower lobby, two observatories, broadcasting facilities and ground-floor retail space. It occupies the entire blockfront from 33rd Street to 34th Street on Fifth Avenue, anchoring the east side of the 34th street corridor in midtown Manhattan, located within walking distance of multiple parking garages, world-class shopping, dining and lodging. The Empire State Building was built in 1931. The 102-story building comprises 2,682,458 rentable square feet of office space and 163,655 rentable square feet of retail space (including the observatory and broadcasting operations) and is constructed of concrete, steel, masonry and stone. Its close proximity to mass transportation includes numerous subway lines; and bus routes; Pennsylvania Station; Grand Central Terminal; the Port Authority Bus Terminal; and PATH train services. In-building services and amenities include a visitor reception desk, bank equipped with an ATM, FedEx/Kinko's, Starbucks, upscale cocktail lounge and a variety of specialty stores and eat-in or take-out dining facilities within the retail arcade. As part of the supervisor's effort to increase the quality of its tenants, since 2007 the supervisors has embarked on a renovation and repositioning program over time to aggregate smaller office spaces to facilitate re-leasing of larger blocks of space to higher credit-quality tenants for longer lease terms and at higher rents. As of June 30, 2012, the building's five largest tenants based on annualized base rent were LF USA, Inc., an affiliate of Li & Fung, a global supply chain management firm; Coty, Inc., a leading global fragrance and beauty company; the Federal Deposit Insurance Corporation; Host Services of New York, a leader in creating dining and shopping concessions for travel venues; and Walgreen Eastern Co., a New York City-based pharmacy. Other tenants include Funaro & Co., an accounting services firm; Kaltex North America, Inc., a subsidiary of the Mexican textiles company Grupo Kaltex; LinkedIn, an online professional network; Noven Pharmaceuticals, Inc., a specialty pharmaceutical company; People's Daily Online USA, an online Chinese newspaper; Taylor Global, Inc., a public relations firm; The Freeh Group, an independent global risk management firm; Turkish Airlines, the national flag carrier of Turkey; and World Monuments Fund, a not-for-profit organization dedicated to preserving and protecting endangered ancient and historic sites around the world.

The Empire State Building offers panoramic views of New York and neighboring states from its world-famous 86th and 102nd floor observatories that draw millions of visitors per year. For the years ended December 31, 2007 through December 31, 2011 and for the six months ended June 30, 2012, the number of visitors to the observatories was approximately 3.67 million, 4.03 million, 3.75 million, 4.03 million, 4.06 million and 1.90 million, respectively. For the years ended December 31, 2007 through December 31, 2011, Empire State Building Associates L.L.C. increased the average ticket revenue per admission from \$15.47 to \$17.96 and for the six months ended June 30, 2012, the average ticket revenue per admission was \$19.39. The

**Table of Contents**

86th floor observatory has a 360-degree outdoor deck as well as indoor viewing galleries to accommodate guests day and night, all year-round. The 102nd floor observatory is entirely indoors and offers a 360-degree view of New York City from 1,250 feet above ground. Observatory visitors enter the building via its main entrance on Fifth Avenue. Visitors proceed directly up dedicated escalators to the second floor and through security to purchase various ticket options at the cashier or to retrieve tickets purchased online at Empire State Building Associates L.L.C.'s ticket kiosks. While waiting to gain access to the elevators, guests are entertained by a multi-media exhibit on sustainability and energy efficiency, which may be accessed in eight languages and is designed to inform and inspire the visitors. Also on the second floor, guests may purchase multilingual audio tours and viewer maps from Empire State Building Associates L.L.C.'s licensee and be photographed by the licensee. There is a separately ticketed and independently owned and operated tour simulator under lease operating under the name NY Skyride. Visitors then proceed to one of six elevators to the 80th floor, where they are entertained by an exhibit operated by the NY skyscraper museum, The Race to the Top, which chronicles the construction of the building. They then have the opportunity to take one of two elevators or to walk up the stairs to the 86th floor observatory, which offers indoor and outdoor viewing areas. From the 86th floor, guests who have purchased an additional ticket may take an elevator to the fully enclosed 102nd floor observatory. Visitors then return first to the 86th floor and then to the 80th floor where they must exit through Empire: The Store, the official Empire State Building souvenir shop operated by Empire State Building Associates L.L.C.'s licensee HMS Host. Finally, they take the elevator to the second floor where they have the opportunity to purchase their photograph and ride one of two dedicated escalators to the lobby at the main entrance on Fifth Avenue, where they exit the building; by the end of 2012, they will also have the opportunity to exit through Empire State Building Associates L.L.C.'s tenant Walgreens, which will shortly expand its ground floor retail space to the 2<sup>nd</sup> floor with direct frontage to the observatory's exit path. Empire State Building Associates L.L.C. generated approximately \$39.9 million and \$80.6 million in revenue from its observatory operations for the six months ended June 30, 2012 and the year ended December 31, 2011, respectively.

Empire State Building Associates L.L.C.'s observatory business is subject to tourism trends and weather, and therefore does experience some seasonality. Over the past ten years, the number of visitors to the observatory, on average, has been slightly higher in the third quarter and slightly lower in the first quarter of each year. The Empire State Building's observatory has maintained stable performance levels over the past ten years, despite changing competitive dynamics and economic conditions. Total revenue and operating income from the observatory's operations have exhibited positive growth in all but two years from 2001 to 2011 (2001 and 2009), representing a compound annual growth rate for total revenue and operating income (including concessions revenue) of 12.4% and 12.5%, respectively. In addition, the average ticket revenue per admission has increased for each of the 12 years from 2000 to 2011 at a compound annual growth rate of 9.3% and the growth rate during each of those years, on a year over year basis, has never been negative. In the year ended December 31, 2011, the observatory experienced record admissions of over 4.06 million visitors and approximately \$80.6 million of total revenue. The observatory has demonstrated strong performance despite competitive pressures as total revenue and operating income (including concessions revenue) increased by over 25.0% in 2005 and over 11.0% in 2006, despite the opening of the Top of the Rock observation deck at Rockefeller Center in November 2005. The Empire State Building's observatory has also fared well during the recent recession. Despite a 7.0% decrease in the number of visitors as compared to 2008, 2009 admissions were still 2.0% higher than 2007 and the average ticket revenue per admission increased by 6.9% over 2008's record level.

In addition to being a top New York City tourist attraction, the Empire State Building is also the center of the New York Tri-State region's broadcasting operations. During the six months ended June 30, 2012 and the year ended December 31, 2011, Empire State Building Associates L.L.C.'s broadcasting licenses and related leased space generated approximately \$10.9 million and \$20.6 million, respectively. Various entities transmit from Empire State Building Associates L.L.C.'s building setbacks and surfaces and Empire State Building Associates L.L.C.'s broadcasting mast which rises 230 feet from the ceiling deck of the 103rd floor. Over 150 antennae provide a variety of point-to-point radio and data communications services and support delivery of broadcasting signals to cable and satellite systems and directly to television and radio receivers. As of June 30, 2012, 35 television and radio broadcasters were licensed to use Empire State Building Associates L.L.C.'s broadcasting

---

**Table of Contents**

facilities and served the greater New York metropolitan designated market area, which includes New York, New Jersey and Connecticut. As of June 30, 2012, Empire State Building Associates L.L.C. leased approximately 88,078 square feet to broadcasting tenants in the aggregate. Tenants that utilize Empire State Building Associates L.L.C.'s broadcasting services receive the right to use the broadcasting facilities and also to lease transmitter space in the Empire State Building. In addition, the broadcasting licenses and related leased space are long-term and require that tenants pay substantially all maintenance expenses. The average remaining term of such license fees is approximately 6.8 years. Empire State Building Associates L.L.C.'s broadcasting tenants, based on annualized broadcasting revenue, include, among others, FOX, CBS, ABC, NBC and WPIX, as well as many of the major radio stations in Manhattan and the greater New York metropolitan area.

Empire State Building Company L.L.C. also licenses the trademarked Empire State Building name and image for movies, television, promotional and advertising purposes and offer portions of the building for rent for private events. The primary benefit of such arrangements is the opportunity to build Empire State Building brand awareness through co-branding with well-respected brands and causes. Empire State Building Company L.L.C. also enters into agreements through its Empire State Building Lighting Partner program, which give selected applicants the privilege of choosing a lighting scheme for the tower on a certain date in exchange for publicity and attention through their organization's networks. The Empire State Building has an extensive social media presence including a highly-visited website (on which Empire State Building Company L.L.C. controls ticket sales to the observatories and offers a growing range of tourist-related attraction sales), Facebook page and Twitter account.

The building and certain aspects of its interior are designated landmarks of the New York City Landmarks Preservation Committee. The building was designated as a National Historic Landmark in 1986. In a national survey conducted in 2007, it was rated number one above the White House and the Washington Monument on the List of America's Favorite Architecture according to the American Institute of Architects. The Empire State Building is an Energy Star building and has been awarded LEED EBOM-Gold certification. The Empire State Building's energy retrofit program will result in significant energy cost savings annually and significant expense savings for Empire State Building Company L.L.C.'s tenants, which the supervisor believes has enhanced its desirability to prospective tenants. Empire State Building Company L.L.C. recently entered into a two-year contract to purchase wind power to provide 100% of the Empire State Building's energy. The Empire State Building is the recipient of numerous awards. In 2012, the Empire State Building won the U.S. Environmental Protection Agency: 2011-2012 Green Power Leadership Award and the LEED Interior Design and Construction Gold for the pre-built spaces on floors 53 and 75. The Building Owners and Managers Association of Greater New York, Inc., or BOMA, and BOMA Mid-Atlantic Region named the Empire State Building as the 2011 Regional TOBY award Winner for Middle Atlantic Regional Outstanding Building of the Year and as the 2009-2010 Pinnacle Award winner for the Historical Building of the Year, honoring a commitment to the preservation of historical integrity while taking full advantage of the improvements of the modern era. Additionally, in 2010, the Empire State Building won the MASTerworks Best Restoration award from the Municipal Arts Society for the restoration of a historically significant commercial, residential or institutional building and/or publicly accessible lobby; the National Trust for Historic Preservation National Preservation Honor Award recognizing the efforts of individuals, nonprofit organizations, public agencies and corporations whose skill and determination have given new meaning to their communities through preservation; the Preservation League of New York State Project's Excellence in Historic Preservation Award celebrating the outstanding leadership of public officials and individuals in the field of preservation; and the New York Landmarks and Conservancy's Lucy G. Moses Preservation Award for outstanding preservation efforts. Prior to 2010, the Sustainable Buildings Industry Council awarded the Empire State Building the 2009 Beyond Green High Performance Building Award recognizing the exceptional contributions its members make to sustainability across the United States.

Since the supervisor gained full control of the day-to-day management of the Empire State Building in August 2006, Empire State Building Associates L.L.C. and Empire State Building Company L.L.C. have invested a total of approximately \$149.0 million through the restoration and renovation program at the property through June 30, 2012. The company currently estimates that between \$185.0 million and \$225.0 million of

**Table of Contents**

additional capital is needed to complete this renovation program, which the company expects to complete substantially by the end of 2016. These estimates are based on the supervisor's current budgets (which do not include tenant improvement and leasing commission costs) and are subject to change. Empire State Building Associates L.L.C.'s renovation program at the property has taken substantial time to design and implement due to many factors, including the overall scale of the program, the market timing of re-leasing upgraded spaces to existing and prospective tenants, Empire State Building Associates L.L.C.'s desire to minimize existing tenant disruptions, and the need to obtain consents of participants to complete financings. The following table summarizes the status of major improvements Empire State Building Associates L.L.C. has completed, those that are currently in process, and those that Empire State Building Associates L.L.C. expects to complete in the future:

|   | Completed | In Process | To Be Completed |
|---|-----------|------------|-----------------|
| Lobby restoration and upgrade   | x         |            |                 |
| Renovate 2nd floor observatory ticketing area   | x         |            |                 |
| Renovate 86th floor observatory   | x         |            |                 |
| Observatory exhibits  | x         |            |                 |
| Energy efficiency retrofits including   |           |            |                 |
| - building automated controls   | x         |            |                 |
| - chiller plant retrofit  | x         |            |                 |
| - window retrofits  | x         |            |                 |
| - radiator barriers   | x         |            |                 |
| Lower level reconfiguration and new building office   | x         |            |                 |
| Renovate 102 <sup>nd</sup> floor observatory  |           | x          |                 |
| Renovate and provide cooling to public corridors  |           | x          |                 |
| Renovate public bathrooms   |           | x          |                 |
| Elevator modernization  |           | x          |                 |
| Elevator shaft wall repairs   |           | x          |                 |
| Exterior waterproofing and roofs  |           | x          |                 |
| Electrical power and distribution   |           | x          |                 |
| Building wide sprinklers to comply with Local Law 26  |           | x          |                 |
| Additional energy efficiency retrofits including new air handling units, heat exchangers, steam turbine retrofits |           | x          |                 |
| Tower lighting replacement  |           | x          |                 |
| Security system enhancements  |           | x          |                 |
| Temporary exterior construction hoist   |           | x          |                 |
| Enhancement to observatory exhibit  |           |            | x               |
| New tenants-only conference center  |           |            | x               |
| New tenants-only fitness center   |           |            | x               |

The observatory and broadcasting businesses at the Empire State Building are subject to competition from existing observatories and broadcasting space and others that may be constructed in the future. In addition, competition from observatory and broadcasting operations in the new property currently under construction at One World Trade Center and, to a lesser extent, from the existing observatory at Rockefeller Center and the existing broadcasting facility at Four Times Square, could have a negative impact on revenues from Empire State Building Associates L.L.C.'s broadcasting and observatory operations. Empire State Building Associates L.L.C.'s broadcast television and radio licensees face competition from advances in technologies and alternative methods of content delivery in their respective industries, as well as from changes in consumer behavior driven by new technologies and methods of content delivery, which may reduce the demand for over-the-air broadcast licenses in the future. New government regulations affecting broadcasters, including the implementation of the FCC's National Broadband Plan, or the Plan, might also affect Empire State Building Associates L.L.C.'s results of operations by reducing the demand for broadcast licenses.

**Table of Contents**

*Empire State Building Primary Tenants*

The following table summarizes information regarding the primary tenants of the Empire State Building as of June 30, 2012:

| Tenant                                | Principal Nature of Business | Lease Expiration | Date of Earliest Termination Option | Renewal Options               | Total Leased Square Feet | Percent of Property Square Feet <sup>(1)</sup> | Annualized Base Rent <sup>(2)</sup> | Percent of Property Annualized Base Rent | Annualized Base Rent Per Square Foot |
|---------------------------------------|------------------------------|------------------|-------------------------------------|-------------------------------|--------------------------|--|-------------------------------------|--|--------------------------------------|

- (1) Excludes (i) 123,436 rentable square feet attributable to building management use and tenant amenities and (ii) 71,054 square feet of space attributable to the observatory.
- (2) Annualized base rent is calculated by multiplying (i) base rental payments (defined as cash base rents (before abatements and free rent)) for the month ended June 30, 2012 for leases commenced as of June 30, 2012, by (ii) 12. Total abatements and free rent with respect to leases in effect as of June 30, 2012 for the 12 months ending June 30, 2013 are \$4,409,098. Total annualized base rent, net of abatements and free rent is \$74,618,427.
- (3) In January 2011, LF USA signed a lease that increased their total square footage at the Empire State Building to 482,399 square feet, representing an additional \$18,813,561 of annualized based rent, or annualized base rent per square foot of \$39.00. 308,233 of this square footage has commenced as of June 30, 2012. LF USA also signed a lease in November 2011 (which is not reflected in the above table) for an additional 106,545 square feet that increased their total square footage at the Empire State Building to 588,944 square feet.
- (4) Coty signed an amendment to their lease in April 2012 (which is not reflected in the above table) for an additional 118,792 square feet that increased their total square footage at the Empire State Building to 313,073 square feet.
- (5) The lease will expire 15 years and four months following substantial completion of certain expansion space pursuant to the First Lease Modification and Extension Agreement, as of August 15, 2011, between Empire State Building Company L.L.C. and Walgreen Eastern Co., Inc.
- (6) LinkedIn signed an amendment to their lease in June 2012 (which is not reflected in the above table) for an additional 10,396 square feet that increased their total square footage at the Empire State Building to 42,138 square feet.

**Table of Contents***Empire State Building Lease Expirations*

The following table sets forth the lease expirations for leases in place at the Empire State Building as of June 30, 2012 and for each of the ten full calendar years beginning with the year ending December 31, 2013 and thereafter. Unless otherwise stated in the footnotes, the information set forth in this table assumes that tenants exercise no renewal options or early termination rights. As of June 30, 2012, the weighted average remaining lease term for the property was eight years and 10 months.

| Year of Lease Expiration <sup>(1)</sup>                 | Number of Leases Expiring | Square Footage of Leases Expiring <sup>(2)</sup> | Percent of Property Square Feet | Annualized Base Rent <sup>(3)</sup> | Percent of Property Annualized Base Rent <sup>(4)</sup> | Annualized Base Rent Per Leased Square Foot |

(1) Excludes broadcasting licenses and observatory operations.

(2) Office property measurements are based on the Real Estate Board of New York measurement standards; retail property measurements are based on useable square feet. Excludes (i) 123,436 rentable square feet attributable to building management use and tenant amenities and (ii) 71,054 square feet of space attributable to the observatory.

(3) Annualized base rent is calculated by multiplying (i) base rental payments (defined as cash base rents (before abatements and free rent)) for the month ended June 30, 2012 for leases commenced as of June 30, 2012, by (ii) 12. Total abatements and free rent with respect to leases in effect as of June 30, 2012 for the 12 months ending June 30, 2013 are \$4,409,098. Total annualized base rent, net of abatements and free rent is \$74,618,427.

(4) Represents the percentage of annualized base rent of office and ground-floor retail leases at the Empire State Building.

(5) Does not include any leases which expired in June 2012.

**Table of Contents***Empire State Building Percent Leased and Base Rent*

The following table sets forth the percent leased, annualized base rent per leased square foot and net effective base rent per leased square foot for the Empire State Building as of the dates indicated below:

| <b>Date</b>       | <b>Percentage Leased<sup>(1),(2)</sup></b> | <b>Annualized Base Rent per Leased Square Foot<sup>(3)</sup></b> | <b>Net Effective Annual Base Rent per Leased Square Foot<sup>(4)</sup></b> |
|-------------------|--|--|--|
| June 30, 2012     | 66.0%                                      | \$ 42.04   | \$ 42.07   |
| December 31, 2011 | 67.6%                                      | \$ 39.75   | \$ 39.37   |
| December 31, 2010 | 66.2%                                      | \$ 35.68   | \$ 35.04   |
| December 31, 2009 | 68.5%                                      | \$ 34.95   | \$ 34.10   |
| December 31, 2008 | 69.0%                                      | \$ 32.41   | \$ 31.82   |
| December 31, 2007 | 70.2%                                      | \$ 27.96   | \$ 27.29   |

- (1) Based on leases commenced as of the dates indicated above and calculated as rentable square feet less available square feet divided by rentable square feet.
- (2) As part of the supervisor's effort to increase the credit quality of its tenants, the supervisor has been aggregating smaller office spaces to facilitate re-leasing of larger blocks of space to higher credit-quality tenants for longer lease terms and at higher rents. As a result, percent leased has decreased from December 31, 2007 through June 30, 2012.
- (3) Annualized base rent per leased square foot is calculated by dividing (i) base rental payments (defined as cash base rent (before abatements and free rent)) for the month ended as of the dates indicated above multiplied by 12, by (ii) square footage under commenced leases as of the dates indicated above.
- (4) Net effective annual base rent per leased square foot represents (i) the contractual base rent for leases in place as of the dates indicated above, calculated on a straight-line basis to amortize free rent periods and abatements, but without regard to tenant improvement allowances and leasing commissions, divided by (ii) square footage under commenced leases as of the same date.

The Empire State Building and improvements to the property are being depreciated on a straight-line basis over their estimated useful lives of 39 years. The current real estate tax rate for the Empire State Building is \$101.52 per \$1,000 of assessed value. Real estate taxes for the years ended December 31, 2011 and 2010 were \$30,009,908 and \$27,664,886, respectively. In the opinion of the supervisor, the Empire State Building is adequately covered by insurance.

*Empire State Building Operating Lease*

Empire State Building Company L.L.C. operates the property pursuant to a sublease with Empire State Building Associates L.L.C. The sublease included an initial term which expired on January 4, 1992 with renewal options to January 4, 2076, which renewals have been exercised by Empire State Building Company L.L.C. As the operating lessee, Empire State Building Company L.L.C. is required to pay Empire State Building Associates L.L.C. a fixed annual basic rent in the amount of \$6,018,750 through January 4, 2013, and after such date, \$5,895,625 through the expiration of all renewal terms. Under the sublease, Empire State Building Company L.L.C. also pays an additional rent of 50% of its net operating profit (as defined in the sublease) in excess of \$1,000,000 for each lease year. Empire State Building Company L.L.C. is additionally required to pay for all operating and maintenance expenses, real estate taxes, and necessary repairs and replacements, and keep the property adequately insured against fire and accident. Pursuant to a modification to the sublease, the basic rent was increased to cover debt service relating to the secured term loan, up to the maximum principal amount as to which the operating lessee has consented. The supervisor provides supervisory and other services for Empire State Building Company L.L.C. and Empire State Building Associates L.L.C.

*One Grand Central Place, New York, New York*

60 East 42nd St. Associates L.L.C. made a convertible mortgage on One Grand Central Place in 1954 through a public partnership and subsequently acquired fee title to the property in 1958. The supervisor removed the prior managing and leasing agent and gained full control of the day-to-day management of the property in November 2002. The building comprises premier office space and lower-level and ground-floor retail space. It is

**Table of Contents**

located on 42nd Street, between Park and Madison Avenues, directly across the street from Grand Central Terminal, located within walking distance of multiple parking garages, world-class shopping, dining and lodging. One Grand Central Place was built in 1930. The 55-story building comprises 1,180,095 rentable square feet of office space and 68,451 rentable square feet of retail space and is constructed of concrete, steel and masonry. Its close proximity to mass transportation includes numerous subway lines and bus routes; Grand Central Terminal; and the Times Square Shuttle. In-building services and amenities include on-site building management office; 24/7 attended lobby; a multi-media conference center; messenger center for the exclusive use of building tenants; a visitor center for convenient and efficient access for building visitors; bank, newsstand and dining facilities; and additional conveniences in the building's retail arcade. As part of an effort to increase the quality of tenants, the supervisor has embarked on a renovation and repositioning program over time to aggregate smaller office spaces to facilitate re-leasing of larger blocks of space to higher credit-quality tenants for longer lease terms and at higher rents. The supervisor has implemented a program to pre-build modern office suites with efficient layouts which are leased to higher credit-quality tenants for longer lease terms. As of June 30, 2012, the building's five largest third-party tenants, based on annualized base rent were JP Morgan Chase Bank, a global financial services firm; Bank of America, N.A., a global financial services firm; Charles Schwab & Co., Inc., a retail brokerage service provider; and Sunbelt Beverage Co., a wine and spirits wholesaler; and Stark Business Solutions, a builder of premium office suites.

One Grand Central Place was the recipient of the BOMA 2010 Pinnacle Award for the Operating Building of the Year, in recognition of outstanding operations including energy management, emergency preparedness, environmental compliance, community impact, tenant relations, operational standards, training excellence and overall attractiveness, and in 2007, BOMA named One Grand Central Place as the Pinnacle Award winner for the Historical Building of the Year award, honoring a commitment to the preservation of historical integrity while taking full advantage of the improvements of the modern era.

Since the supervisor gained full control of the day-to-day management of One Grand Central Place in November 2002, 60 East 42nd St. Associates L.L.C. and Lincoln Building Associates L.L.C. have invested approximately \$28.0 million through the restoration and renovation program at the property through June 30, 2012. The supervisor expects to complete the renovation program by 2013. The renovation program at the property has taken substantial time to design and implement due to many factors, including the overall scale of the program, the market timing of re-leasing upgraded spaces to existing and prospective tenants, the desire to minimize existing tenant disruptions, and the need to obtain consents of participants to complete financings. The following table summarizes the status of major improvements that have been completed, those that are currently in process, and those that the supervisor expects to complete in the future:

|  | Completed | In Process | To Be Completed |
|--|-----------|------------|-----------------|
| Lobby restoration and upgrade                        | x         |            |                 |
| Renovate and provide cooling to public corridors     | x         |            |                 |

| <b>Total/Weighted Average</b>   |  |                         |                                     |                 | <b>186,813</b>           | <b>15.0%</b>                                   | <b>\$ 11,004,356</b>                | <b>23.4%</b>                        | <b>\$ 58.91</b>                             |

(1) Excludes 32,123 rentable square feet attributable to building management use and tenant amenities.

(2) Annualized base rent is calculated by multiplying (i) base rental payments (defined as cash base rents (before abatements and free rent)) for the month ended June 30, 2012 for leases commenced as of June 30, 2012, by (ii) 12. Total abatements and free rent with respect to leases in effect as of June 30, 2012 for the 12 months ending June 30, 2013 are \$205,468. Total annualized base rent, net of abatements and free rent is \$46,880,485.

(3) Termination option applies only to 5,201 rentable square feet.

**Table of Contents**

*One Grand Central Place Lease Expirations*

The following table sets forth the lease expirations for leases in place at One Grand Central Place as of June 30, 2012 and for each of the ten full calendar years beginning with the year ending December 31, 2013 and thereafter. Unless otherwise stated in the footnotes, the information set forth in this table assumes that tenants exercise no renewal options or early termination rights. As of June 30, 2012, the weighted average remaining lease term for the property was four years and eight months.

| Year of Lease Expiration                                | Number of Leases Expiring | Square Footage of Leases Expiring <sup>(1)</sup> | Percent of Property Square Feet | Annualized Base Rent <sup>(2)</sup> | Percent of Property Annualized Rent <sup>(3)</sup> | Annualized Base Rent per Leased Square Foot |

- (1) Office property measurements are based on the Real Estate Board of New York measurement standards; retail property measurements are based on useable square feet. Excludes 32,123 rentable square feet attributable to building management use and tenant amenities.
  - (2) Annualized base rent is calculated by multiplying (i) base rental payments (defined as cash base rents (before abatements and free rent)) for the month ended June 30, 2012 for leases commenced as of June 30, 2012, by (ii) 12. Total abatements and free rent with respect to leases in effect as of June 30, 2012 for the 12 months ending June 30, 2013 are \$205,468. Total annualized base rent, net of abatements and free rent is \$46,880,485.
  - (3) Represents the percentage of annualized base rent of office and ground-floor retail leases at One Grand Central Place.
  - (4) Includes one lease that expired during June 2012 representing an aggregate of 3,052 rentable square feet and \$128,184 of annualized base rent.
- One Grand Central Place Percent Leased and Base Rent*

The following table sets forth the percent leased, annualized base rent per leased square foot and net effective base rent per leased square foot for One Grand Central Place as of the dates indicated below:

| Date              | Percentage Leased <sup>(1), (2)</sup> | Annualized Base Rent per Leased Square Foot <sup>(3)</sup> | Net Effective Annual Base Rent per Leased Square Foot <sup>(4)</sup> |
|-------------------|---------------------------------------|--|--|
| June 30, 2012     | 79.2%                                 | \$ 47.63   | \$ 46.98   |
| December 31, 2011 | 79.6%                                 | \$ 47.58   | \$ 47.36   |
| December 31, 2010 | 80.4%                                 | \$ 46.34   | \$ 46.11   |
| December 31, 2009 | 76.8%                                 | \$ 45.06   | \$ 44.82   |

**Table of Contents**

- (1) Based on leases commenced as of the dates indicated above and calculated as rentable square feet less available square feet divided by rentable square feet.
- (2) As part of the an effort to increase the credit quality of tenants, the supervisor has been aggregating smaller office spaces to facilitate re-leasing of larger blocks of space to higher credit-quality tenants for longer lease terms at higher rents. As a result, percent leased has decreased from December 31, 2007 through June 30, 2012.
- (3) Annualized base rent per leased square foot is calculated by dividing (i) base rental payments (defined as cash base rent (before abatements)) for the month ended as of the dates indicated above multiplied by 12, by (ii) square footage under commenced leases as of the dates indicated above.
- (4) Net effective annual base rent per leased square foot represents (i) the contractual base rent for leases in place as of the dates indicated above, calculated on a straight-line basis to amortize free rent periods and abatements, but without regard to tenant improvement allowances and leasing commissions, divided by (ii) square footage under commenced leases as of the same date.

One Grand Central Place and improvements to the property are being depreciated on a straight-line basis over their estimated useful lives of 39 years. The current real estate tax rate for One Grand Central Place is \$101.52 per \$1,000 of assessed value. Real estate taxes for the years ended December 31, 2011 and December 31, 2010 were \$10,928,078 and \$10,594,397, respectively. In the opinion of the supervisor, One Grand Central Place is adequately covered by insurance.

*One Grand Central Place Operating Lease*

Lincoln Building Associates L.L.C. leases the property from 60 East 42nd St. Associates L.L.C. pursuant to an operating lease currently set to expire on September 30, 2033, and pursuant to such lease, Lincoln Building Associates L.L.C. operates the property. In connection with the renovation program at One Grand Central Place, in 1999, 60 East 42<sup>nd</sup> St. Associates L.L.C. authorized the agents to grant to Lincoln Building Associates L.L.C., upon completion of the renovation program, the right to further extensions of the operating lease to 2083. In connection with the approval of an increase in the estimated cost of the renovation program in 2004, the lease is expected to be extended beyond 2083, based on the net present benefit to 60 East 42<sup>nd</sup> St. Associates L.L.C. of the improvements made. The granting of such operating lease extension rights upon completion of the renovation program is expected to trigger a New York State transfer tax under current tax rules, which will be paid from mortgage proceeds and/or Lincoln Building Associates L.L.C. s operating cash flow. As lessee, Lincoln Building Associates L.L.C. pays to 60 East 42nd St. Associates L.L.C. annual basic rent equal to the sum of \$24,000 plus the constant annual mortgage charges on all mortgages, and annual additional rent, or additional rent, equal to the lesser of Lincoln Building Associates L.L.C. s net operating income (as defined in the operating lease) for the lease year or \$1,053,800. Under the operating lease, Lincoln Building Associates L.L.C. pays further additional rent equal to 50% of any remaining balance of its net operating income. The operating lease also requires an advance against additional rent equal to an annual basis, the lesser of (x) Lincoln Building associates L.L.C. s net operating increase for the preceding lease year or (y) \$1,053,800. The supervisor provides supervisory and other services for Lincoln Building Associates L.L.C. and 60 East 42nd St. Associates L.L.C.

*250 West 57th Street, New York, New York*

250 West 57th St. Associates L.L.C. acquired fee title to 250 West 57th Street through a public partnership in 1953. The supervisor removed the prior managing and leasing agent and gained full control of the day-to-day management of the property in November 2002. The building comprises premier office space and ground-floor and lower-level retail space. It occupies the entire blockfront of 57th Street between Broadway and Eighth Avenue, close to Columbus Circle and the new media headquarters concentration in New York City, including Time Warner, Random House and Hearst Corporation, and is located within walking distance of multiple parking garages, world-class shopping, dining and lodging. 250 West 57th Street was built in 1921. The 26-story building comprises 476,574 rentable square feet of office space and 52,247 rentable square feet of retail space and is constructed of concrete, steel, masonry and terra cotta. Its close proximity to mass transportation includes direct access to numerous subway lines and bus routes. In-building services and amenities include on-site building management office; concierge desk; 24/7 attended lobby; specialty retail stores; a drug store; and a barber shop. As part of an effort to increase the quality of tenants, the supervisor has embarked on a renovation and

**Table of Contents**

repositioning program over time to aggregate smaller office spaces to facilitate re-leasing of larger blocks of space to higher credit-quality tenants for longer lease terms and at higher rents. The supervisor has implemented a program to pre-build modern office suites with efficient layouts which are leased to higher credit-quality tenants for longer lease terms. As of June 30, 2012, the building's five largest tenants based on annualized base rent were The TJX Companies, Inc., a discount retailer of apparel and home fashions; Duane Reade, a New York-based pharmacy chain owned by Walgreen Co.; the Gap, Inc., a specialty retailer offering clothing, accessories and personal care products; N.S. Binstock, Inc., a leading talent agency; and NIP Training Institute, a provider of psychoanalytic treatment and training for clinicians.

Since the supervisor gained full control of the day-to-day management of 250 West 57th Street in November 2002, 250 West 57th St. Associates L.L.C. and Fisk Building Associates L.L.C. have invested approximately \$34.0 million through the restoration and renovation program at the property through June 30, 2012. The supervisor expects to complete the renovation program by 2013. The renovation program at the property has taken substantial time to design and implement due to many factors, including the overall scale of the program, the market timing of re-leasing upgraded spaces to existing and prospective tenants, the desire to minimize existing tenant disruptions, and the need to obtain consents of participants to complete financings. The following table summarizes the status of major improvements that have been completed, those that are currently in process, and those that the supervisor expects to complete in the future:

|  | <b>Completed</b> | <b>In Process</b> | <b>To Be Completed</b> |
|--|------------------|-------------------|------------------------|
| Lobby renovation                                     | x                |                   |                        |
| Renovate public corridors                            | x                |                   |                        |
| Renovate public bathrooms                            | x                |                   |                        |
| New windows  | x                |                   |                        |
| Conversion of second floor to retail space           | x                |                   |                        |
| Chiller replacement                                  | x                |                   |                        |
| Electrical upgrades                                  | x                |                   |                        |
| Replace fire alarm system                            | x                |                   |                        |
| Upgrade finishes in public corridors                 |                  | x                 |                        |
| Restore façade                                       |                  | x                 |                        |
| Building wide sprinklers to comply with Local Law 26 |                  | x                 |                        |
| Energy efficiency retrofits                          |                  | x                 |                        |
| Freight elevator modernization                       |                  | x                 |                        |
| New cooling tower                                    |                  |                   | x                      |
| <i>250 West 57th Street Primary Tenants</i>          |                  |                   |                        |

No tenant occupies 10% or more of the aggregate rentable square footage in 250 West 57th Street.

**Table of Contents***250 West 57th Street Lease Expirations*

The following table sets forth the lease expirations for leases in place at 250 West 57th Street as of June 30, 2012 and for each of the ten full calendar years beginning with the year ending December 31, 2013 and thereafter. Unless otherwise stated in the footnotes, the information set forth in this table assumes that tenants exercise no renewal options or early termination rights.

| <b>Year of Lease Expiration</b>                           | <b>Number of Leases Expiring</b> | <b>Square Footage of Leases Expiring</b> | <b>Percent of Property Square Feet</b> | <b>Annualized Base Rent<sup>(1)</sup></b> | <b>Percent of Property Annualized Base Rent</b> | <b>Annualized Base Rent Per Leased Square Foot</b> |

(1) Annualized base rent is calculated by multiplying (i) base rental payments (defined as cash base rents (before abatements and free rent)) for the month ended June 30, 2012 for leases commenced as of June 30, 2012, by (ii) 12. Total abatements and free rent with respect to leases in effect as of June 30, 2012 for the 12 months ending June 30, 2013 are \$68,933. Total annualized base rent, net of abatements and free rent is \$21,225,742.

*250 West 57th Street Percent Leased Base Rent*

The following table sets forth the percent leased, annualized base rent per leased square foot and net effective base rent per leased square foot for West 57th Street as of the dates indicated below:

| <b>Date</b>       | <b>Percentage Leased<sup>(1), (2)</sup></b> | <b>Annualized Base Rent per Leased Square Foot<sup>(3)</sup></b> | <b>Net Effective Annual Base Rent per Leased Square Foot<sup>(4)</sup></b> |
|-------------------|---|--|--|

(1) Based on leases commenced as of the dates indicated above and calculated as rentable square feet less available square feet divided by rentable square feet.

(2)

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

As part of an effort to increase the quality of tenants, the supervisor has been aggregating smaller office spaces to allow for re-leasing of larger blocks of space to higher credit-quality tenants for longer lease terms at higher rents.

- (3) Annualized base rent per leased square foot is calculated by dividing (i) base rental payments (defined as cash base rent (before abatements)) for the month ended as of the dates indicated above multiplied by 12, by (ii) square footage under commenced leases as of the dates indicated above.
- (4) Net effective annual base rent per leased square foot represents (i) the contractual base rent for leases in place as of the dates indicated above, calculated on a straight-line basis to amortize free rent periods and abatements, but without regard to tenant improvement allowances and leasing commissions, divided by (ii) square footage under commenced leases as of the same date.

250 West 57th Street and improvements to the property are being depreciated on a straight-line basis over their estimated useful lives of 39 years. The current real estate tax rate for 250 West 57th Street is \$101.52 per \$1,000 of assessed value. Real estate taxes for the years ended December 31, 2011 and December 31, 2010 were \$4,156,415 and \$3,945,185, respectively. In the opinion of the supervisor, 250 West 57th Street is adequately covered by insurance.

**Table of Contents***250 West 57th Street Operating Lease*

Fisk Building Associates L.L.C. leases the property from 250 West 57th St. Associates L.L.C. pursuant to an operating lease, as modified, which is currently set to expire on September 30, 2028, with an additional renewal option to September 30, 2053, which option Fisk Building Associates L.L.C. has exercised. Fisk Building Associates L.L.C. has also been granted options to extend the operating lease for two additional 25-year renewal terms expiring in 2103. The lease provides for an annual basic rent payable by Fisk Building Associates L.L.C. to 250 West 57th St. Associates L.L.C. equal to the sum of the constant annual to mortgage charges on all mortgages, plus \$28,000. The lease also provides for payments of primary overage rent equal Fisk Building Associates L.L.C.'s net operating profit (as defined in the lease) in each lease year up to a maximum of \$752,000, and secondary overage rent subsequent to September 30 of the amount equal to 50% of the excess of the of the net operating profit in excess of \$752,000, less a certain amount representing interest on certain borrowed funds. The supervisor provides supervisory and other services for Fisk Building Associates L.L.C. and 250 West 57th St. Associates L.L.C.

**Financing**

The organizational documents of each subject LLC contain restrictions on the subject LLCs' authority to borrow. Participants holding 100% of the outstanding participation interests in Empire State Building Associates L.L.C. and 60 East 42nd St. Associates L.L.C. must approve a financing and the participants holding greater than 75% of the outstanding participation interests in at least eight out of the ten participating groups of 250 West 57th St. Associates L.L.C. must approve a financing. If holders of 80% of the participation interests in any of the three participating groups in Empire State Building Associates L.L.C. or holders of 90% of the participation interests in any of the seven participating groups in 60 East 42nd St. Associates L.L.C. approve a financing, the agent of each participating group will be entitled to purchase the participation interests of any participants that voted against a financing. If the agent purchases these participation interests, the requirement for consent of participants holding 100% of the participation interests will be satisfied. In addition, if the operating lessees' interest in the property will be securing the loan or will be subordinated to the loan, the operating lessee may be required to approve any financing which will require consent of its participants. As of June 30, 2012, the subject LLCs had a ratio of total indebtedness to total assets of 7.50% - 14.06%.

On July 26, 2011, Empire State Building Associates L.L.C. entered into a three-year term loan or the secured term loan, with institutional lenders, including HSBC Bank USA, National Association as agent and HSBC Bank USA, National Association and DekaBank Deutsche Girozentrale as lead arrangers. The secured term loan is secured by a mortgage on the Empire State Building. The secured term loan was amended by the First Amendment to Loan Agreement, Ratification of Loan Documents and Omnibus Amendment dated as of November 2, 2011 to provide for additional commitments from Capital One, National Association and Bank of America, N.A. so that, collectively, the loan was increased to \$300.0 million. No additional funds were drawn at the time of the modification.

The lenders provided Empire State Building Associates L.L.C. with an advance of \$159.0 million (of which \$92.0 million refinanced existing indebtedness), and subject to the conditions set forth in the secured term loan (as amended), agreed to provide Empire State Building Associates L.L.C. with additional advances of up to \$141.0 million, of which \$60.0 million was subsequently advanced. The loan agreement was amended on October 11, 2012 to increase the aggregate commitments to \$500.0 million. A condition to the lenders' obligation to loan the additional amounts is that the loan-to-value (as defined) based on an updated appraisal does not exceed 50%. Any further advances under the secured term loan are subject to the consent of Empire State Building Company L.L.C.

Pursuant to the terms of the secured term loan agreement, Empire State Building Associates L.L.C. and Empire State Building Company L.L.C. entered into an amendment dated July 26, 2011 to the sublease ( Third Modification of Sublease ) pursuant to which (i) Empire State Building Company L.L.C. consented to the advance of up to \$159.0 million under the secured term loan and (ii) in accordance with the terms of the existing sublease agreement, which terminates on January 4, 2076, between Empire State Building Company L.L.C. and

## **Table of Contents**

Empire State Building Associates L.L.C., the basic rent payable by Empire State Building Company L.L.C. was increased by an amount equal to the debt service on the portion of the borrowing from the secured term loan associated with improvements (excluding any principal payable upon maturity). The original basic rent payable by Empire State Building Company L.L.C. is more than sufficient to pay the debt service on the portion of the borrowing associated with purchasing the fee position in 2002. Empire State Building Company L.L.C. and ESB Observatory LLC, a subsidiary of Empire State Building Company L.L.C., also entered into subordination agreements with the agent on behalf of the lenders pursuant to which the sublease and the lease of the observatory were subordinated to the mortgage securing the secured term loan. As a result, the sublease and the observatory lease can be terminated in connection with a foreclosure by secured term loan lenders.

Subject to the terms and conditions of the secured term loan agreement, the outstanding principal amount of the secured term loan shall bear interest at a rate equal to 2.5% per annum above 30-day LIBOR, unless such rate is not available, in which event the secured term loan would bear interest at 2.5% per annum in excess of (i) HSBC's prime rate or (ii) the BBA LIBOR Daily Floating Rate. In connection with this loan, Empire State Building Associates L.L.C. issued promissory notes, a mortgage encumbering the Empire State Building in favor of the agent for the lenders, and other customary security and other loan documents. The maturity date of this loan is July 26, 2014, which Empire State Building Associates L.L.C. may extend to July 26, 2015 and thereafter to July 26, 2016, in each case upon payment of an extension fee of 0.25% of the total availability under the secured term loan agreement at the time of such extension. Such extensions are subject to customary conditions, including the satisfaction of certain loan-to-value and debt yield ratios and the absence of an event of default.

The initial advance was used to pay and discharge then existing secured mortgage loans relating to the Empire State Building and to fund operations and working capital requirements related to the Empire State Building (including for improvements), including reimbursements to Empire State Building Company L.L.C. for expenditures relating to improvements previously incurred by Empire State Building Company L.L.C., and certain other general entity purposes permitted in the secured term loan including costs of the financing. On each of April 6, 2012 and July 9, 2012, an additional \$30.0 million was drawn on this loan.

Payment obligations relating to the secured term loan may be accelerated upon the occurrence of an event of default under the secured term loan agreement. Events of default under the secured term loan agreement include, subject in some cases to specified cure periods: payment defaults; failure by Empire State Building Associates L.L.C. to pay taxes; failure to keep certain insurance policies in effect; breaches of representations and covenants contained in the mortgage; defaults in the observance or performance of covenants; inaccuracy of representations and warranties in any material respect; bankruptcy and insolvency related defaults; and the entry of one or more final judgments for the payment of more than \$1.0 million that are not satisfied within 30 days.

The secured term loan agreement contains affirmative and negative covenants customary for financings of this type. Negative covenants in the secured term loan agreement limit Empire State Building Associates L.L.C.'s ability, subject to certain exceptions, to transfer all or substantially all of its property; incur indebtedness and liens; dissolve, liquidate or enter into mergers or similar transactions; change its line of business; cancel debt; enter into transactions with affiliates; rezone its property; sell its assets; make certain distributions to investors; and change its organizational documents. Empire State Building Associates L.L.C. must also maintain a debt yield as specified in the secured term loan agreement.

Empire State Building Associates L.L.C. as both the fee owner and the ground lessor of the Empire State Building are mortgagors and their respective estates are therefore mortgaged. Empire State Building Company L.L.C. and the observatory tenant agreed to subordinate their respective leasehold interest to the mortgage. Accordingly, in the event of a foreclosure, their leasehold estates could be terminated.

## **Competition**

The competitive environment in which the subject LLCs operate is substantially similar to that of the company. See The Company Business and Properties.

**Table of Contents****MANAGEMENT****The Company's Directors, Director Nominees and Senior Management Team**

Currently, the company has one director, Anthony E. Malkin. Upon completion of the consolidation and the IPO, the company's board of directors will consist of seven members, including the independent director nominees named below who will become directors upon completion of the IPO. Each of the company's directors is elected by the company's stockholders to serve until the next annual meeting of the company's stockholders and until his or her successor is duly elected and qualifies. Of the seven directors, the company expects that the company's board of directors will determine that each of them other than Anthony E. Malkin will be considered independent in accordance with the requirements of the NYSE. The first annual meeting of the company's stockholders after the IPO will be held in 2013. The company's charter and bylaws provide that a majority of the entire board of directors may at any time increase or decrease the number of directors. However, unless the company's charter and bylaws are amended, the number of directors may never be less than the minimum number required by the MGCL nor more than 15. The company's Chairman Emeritus may attend meetings but will not have voting status. Subject to rights pursuant to any employment agreements, officers serve at the pleasure of the company's board of directors.

The following table sets forth certain information concerning the individuals who will be the company's executive officers, directors, director nominees and certain other senior officers upon the completion of the IPO:

| Name                     | Age | Position  |
|--------------------------|-----|---|
| Anthony E. Malkin**      | 50  | Chairman of the company's Board of Directors, Chief Executive Officer and President |
| Peter L. Malkin          | 78  | Chairman Emeritus   |
| William H. Berkman       | 47  | Director Nominee*   |
| Alice M. Connell         | 66  | Director Nominee*   |
| Thomas J. DeRosa         | 54  | Director Nominee*   |
| Steven J. Gilbert        | 65  | Director Nominee*   |
| S. Michael Giliberto     | 62  | Director Nominee*   |
| Lawrence E. Golub        | 53  | Director Nominee*   |
| David A. Karp**          | 53  | Executive Vice President, Chief Financial Officer and Treasurer                     |
| Thomas P. Durels**       | 51  | Executive Vice President and Chief of Property Operations and Leasing               |
| Thomas N. Keltner, Jr.** | 66  | Executive Vice President, General Counsel and Secretary                             |

\* The company expects the company's board of directors to determine that this director is independent for purposes of the NYSE corporate governance listing standards.

\*\* Denotes the company's expected named executive officers.

The following sets forth biographical information concerning the individuals who will be the company's executive officers, directors, director nominees and certain other senior officers upon the completion of the IPO.

*Anthony E. Malkin* is the company's Chairman, Chief Executive Officer and President. Anthony E. Malkin joined his father and the company's Chairman Emeritus, Peter L. Malkin, as a principal of the supervisor in 1989 and may be deemed to be the company's promoter. As Chief Executive Officer and President, Anthony E. Malkin oversees all acquisitions, capital markets activities, leasing and corporate strategy. Prior to joining the supervisor, Anthony E. Malkin worked for Chemical Venture Partners, L.P. (now CCMP Capital Advisors, LLC), a then-recently formed venture capital and leveraged buyout affiliate of Chemical Financial Corporation and then briefly on his own to consult with and purchase small businesses. Anthony E. Malkin is a member of the Urban Land Institute, the Real Estate Roundtable, the Board of Governors of the Real Estate Board of New York, the Committee Encouraging Corporate Philanthropy, the Advisory Council of the National Resource Defense Council's Center for Market Innovation and the Advisory Council of the Harvard Stem Cell Institute. Anthony E. Malkin is also member of the board of directors of Greenwood Resources, Inc., a sustainable forestry

**Table of Contents**

management company and a member of the advisory board of MissionPoint Capital Partners, a private investment firm focused on companies in the clean energy, energy efficiency and environmental finance sectors. Anthony E. Malkin guest lectures on real estate and family businesses at the McIntire School of Commerce at the University of Virginia. Anthony E. Malkin received a bachelor's degree cum laude, General Studies, from Harvard College. Anthony E. Malkin was selected to serve as the Chairman of the company's Board of Directors based on his real estate experience, his network of industry relationships and his comprehensive knowledge of the company's business as the president of the supervisor.

*Peter L. Malkin* is the company's Chairman Emeritus. Peter L. Malkin joined his father-in-law and the company's co-founder, Lawrence A. Wien, as a principal of the supervisor in 1958, and was responsible for the syndication of property acquisition transactions completed by the supervisor. Peter L. Malkin is the founding chairman and currently a director of the Grand Central Partnership, a director of The 34th Street Partnership and a director of The Fashion Center Business Improvement District, each of which is a not-for-profit organization that provides supplemental public safety, sanitation and capital improvement services to a designated area in midtown Manhattan. Peter L. Malkin is also a member of the Executive Committee of the Board of Directors of Lincoln Center for the Performing Arts, (the longest serving board member of that institution), Chairman of the Dean's Council of the John F. Kennedy School of Government at Harvard University, Co-Chair Emeritus of The Real Estate Council of the Metropolitan Museum of New York, founder and Honorary Co-Chair of the Committee Encouraging Corporate Philanthropy, a Director Emeritus of U.S. Trust Corporation, a member of the Advisory Committee of the Greenwich Japanese School, a partner in the New York City Partnership and Chamber of Commerce and a director of the Realty Foundation of New York. Peter L. Malkin received a bachelor's degree summa cum laude, Phi Beta Kappa, from Harvard College and a law degree magna cum laude from Harvard Law School.

*William H. Berkman* will serve as a member of the company's Board of Directors upon completion of the IPO. Mr. Berkman is currently the Managing Partner of Associated Partners, L.P. and Liberty Associated Partners, L.P., both of which are private investment funds which focus on communications infrastructure including towers for wireless services, and has served in these capacities since 2007 and 2001, respectively. Mr. Berkman also serves on the Board of Directors of Associated Partners GP Limited, the general partner of Associated Partners, L.P. He also served as the Chairman of the Board of Directors of CURRENT Group, LLC, a commercial fully-integrated broadband over power line (BPL) communications solutions provider, until 2011. Mr. Berkman held various executive positions at Associated Group, Inc., a public company that owned and operated various communications businesses, from 1994 to 2000, until it was sold to Liberty Media Corporation. Formerly, Mr. Berkman was the co-founder of Teligent, Inc., a wireless broadband company, of which he was a Director until 2000. Mr. Berkman also co-founded Mobilcom, S.A. de C.V., a Mexican wireless operator subsequently sold to Nextel. Mr. Berkman has served on a variety of public company boards, including the Board of Directors of IAC/InterActive Corp. (NASDAQ: IACI), an internet company, for which he served as a director from 2006 until 2008. In addition, Mr. Berkman holds patents for a variety of communications systems and components. Mr. Berkman received a bachelor's degree from Harvard College. Mr. Berkman was selected to serve as a member of the company's Board of Directors because of his experience as an investor and operator and as a director of publicly traded companies.

*Alice M. Connell* will serve as a member of the company's Board of Directors upon completion of the IPO. Ms. Connell is currently Managing Principal for Bay Hollow Associates, LLC, a commercial real estate consulting firm founded in late 2009, whose services are primarily targeted to both institutional investors and private owners. Prior to co-founding Bay Hollow, Ms. Connell was the President and Chief Executive Officer of AM Connell Associates LLC, a commercial real estate advisory firm established in 2007. She held a series of senior positions with TIAA-CREF from 1970 to December 2006, most recently as Managing Director, Head of Portfolio Strategy and Management for both the Commercial Mortgage and Private Equity Real Estate Fund portfolios. Since 2009, Ms. Connell has served as a member of the board of directors of Apollo Commercial Real Estate Finance, Inc. (NYSE: ARI), a commercial real estate finance company. Ms. Connell was elected Trustee of the Urban Land Institute (ULI) three times, most recently in May 2009, and serves as a member of its Audit

**Table of Contents**

Committee and its Urban Development- Mixed Use Council. Ms. Connell is also the Founder and former Chair of ULI New York's District Council, and she is currently a board member or member of the advisory committee of several real estate industry organizations, including the International Advisory Board of EuroHypo A.G. since 2004, the Real Estate Advisory Committee of the New York Common Retirement Fund since June 2007, the Investment Committee of QS REP since 2009, and the Advisory Committees of both Parmenter Realty Partners and Park Madison Partners since 2009 and 2008, respectively. In November 2009, Ms. Connell joined the board of directors of RREEF America III as an independent director. From 2004 to 2007, she was a member of the Executive Committee of the Zell-Lurie Real Estate Center of the Wharton School at the University of Pennsylvania. In 2003, she was honored by Women Executives in Real Estate (WX) as their Real Estate Woman of the Year; she also served on WX's board of directors from 2004 to 2006. Ms. Connell received a bachelor's degree magna cum laude from St. Bonaventure University and a master's degree from New York University. Ms. Connell was selected to serve as a member of the company's board of directors because of her experience with, and strong record of success investing in, real estate-related assets.

*Steven J. Gilbert* will serve as a member of the company's Board of Directors upon completion of the IPO. Mr. Gilbert has over 40 years of experience in private equity investing, investment banking and law, and he has invested in and managed numerous companies during his career. Mr. Gilbert currently serves as Chairman of the Board of Directors of Gilbert Global Equity Partners, L.P., a private equity fund, Vice Chairman of the Executive Board of MidOcean Capital Partners, L.P., a private equity firm, and Director of MBIA, Inc. (NYSE: MBI), a provider of financial guarantee insurance, fixed-income asset management and other specialized financial services, and has served in these capacities since 1998, 2005 and 2011, respectively. He was previously Vice Chairman of Stone Tower Capital, a leading independent investment manager, from 2010 to 2012 and Chairman and Senior Managing Director of SUN Group (USA), an investment firm, from 2007 to 2009. Within the past five years, Mr. Gilbert has served as Chairman of the Board of Directors of DURA Automotive Systems, Inc., an independent designer and manufacturer of driver control systems, CPM Holdings, Inc. (HKG: 0906), a manufacturer of process equipment used for oilseed and animal feed production, and True Temper Sports, Inc., a manufacturer of golf shafts and precision sports equipment, and as Director of Olympus Re, a reinsurance company, as well as several privately held companies. Mr. Gilbert is a member of the Writer's Guild of America (East) and the Council on Foreign Relations, a Trustee of the New York University Langone Medical Center, and a Director of the Lauder Institute at the University of Pennsylvania. Mr. Gilbert received a bachelor's degree in economics from the Wharton School at the University of Pennsylvania, a law degree from the Harvard Law School, and an M.B.A. from Harvard Business School. Mr. Gilbert was selected to serve as a member of the company's Board of Directors based on his extensive experience leading companies in the financial services industry and serving as a director of publicly traded companies.

*S. Michael Giliberto* will serve as a member of the company's Board of Directors upon completion of the IPO. Mr. Giliberto currently consults with investment management firms and has produced the Giliberto-Levy Commercial Mortgage Performance Index, an index that measures the investment performance of institutional-grade commercial mortgage whole loans, since 1993. He previously served as Director of Portfolio Strategy and Senior Portfolio Manager at J.P. Morgan Asset Management from 2002 to 2010, and before that, he served as the head of Real Estate Research at J.P. Morgan Investment Management from 1996 to 2002. Prior to joining J.P. Morgan, Mr. Giliberto worked at Lehman Brothers, Inc. in the Fixed-Income Research department from 1993 to 1996 and at Salomon Brothers Inc. in the Real Estate Research department from 1989 to 1992. Before his career in the financial services industry, Mr. Giliberto was a professor in the Real Estate and Urban Land Economics Department at Southern Methodist University in Dallas, Texas. Mr. Giliberto has authored multiple publications about real estate investment, performance, asset allocation and capital markets, and he has been an Adjunct Professor at Columbia University's Graduate School of Business since 2008. In the past, he has served on the Real Estate Information Standards Board, and he was a Director of the Pension Real Estate Association, where he served as Treasurer and Chairman and was awarded the 1996 Graaskamp Award for research excellence. Mr. Giliberto received a bachelor's degree from Harvard College, a masters degree in business economics from the University of Hartford, a Ph.D in finance from the University of Washington, and holds the Counselor of Real Estate designation and is a Fellow of the Royal Institution of Chartered Surveyors. Mr. Giliberto was

**Table of Contents**

selected to serve as a member of the company's Board of Directors based on his extensive experience in real estate investment and finance.

*Lawrence E. Golub* will serve as a member of the company's Board of Directors upon completion of the IPO. Mr. Golub is currently Chief Executive Officer of Golub Capital, a credit asset manager that he founded in 1994, where he serves on the investment committee for each of the firm's credit strategies and is responsible for the overall management of the firm. Mr. Golub also serves as Chairman of the Board of Directors of Golub Capital BDC, Inc. (NASDAQ: GBDC), a business development company that makes debt and minority equity investments in middle-market companies, and has served in this capacity since 2009. Mr. Golub previously spent ten years as a principal investor and investment banker, including as a Managing Director of the Risk Merchant Bank at Bankers Trust Company and as a Managing Director of Wasserstein Perella Co., Inc., where he established that firm's capital markets group and debt restructuring practice. Prior to those positions, he served as an officer of Allen & Company Incorporated, where he engaged in principal investing, mergers and acquisitions advisory engagements and corporate finance transactions. Mr. Golub, a former White House Fellow, is active in charitable and civic organizations. He is one of three private members of the Financial Control Board of the State of New York, treasurer of the White House Fellows Foundation, President of the Harvard University J.D./M.B.A. Alumni Association and was a member of the Harvard University Committee on Science and Engineering. He served for over 15 years as a trustee of Montefiore Medical Center, the university hospital of the Albert Einstein Medical School. He was also chairman of Mosholu Preservation Corporation, a developer and manager of low income housing in the Bronx. Mr. Golub received a bachelor's degree from Harvard College, an M.B.A. from Harvard Business School, where he was selected as a Baker Scholar, and a law degree from Harvard Law School, where he served as an editor of the Harvard Law Review. Mr. Golub was selected to serve as a member of the company's Board of Directors based on his experience in the financial services industry and as a director of a publicly traded company.

*Thomas J. DeRosa* will serve as a member of the company's Board of Directors upon completion of the IPO. Mr. DeRosa is currently a private investor based in Aspen, Colorado. Previously, he served as the Vice Chairman and Chief Financial Officer of the Rouse Company, a leading owner, operator and developer of commercial real estate and master planned residential communities, from September 2002 until November 2004 when it was merged with General Growth Properties, Inc. (NYSE: GGP). Prior to joining the Rouse Company, Mr. DeRosa spent over 20 years in investment banking. From 1992 to September 2002, Mr. DeRosa held various positions at Deutsche Bank AG (NYSE: DB), including Global Co-Head of the Health Care Investment Banking Group, and at Alex Brown & Sons, including Managing Director of the Real Estate Investment Banking Group. Since 2005, Mr. DeRosa has served as a member of the board of directors of Health Care REIT, Inc. (NYSE: HCN), a real estate investment trust that invests in senior living and health care real estate, and of CBL & Associates Properties, Inc. (NYSE: CBL), a real estate investment trust that invests in mall properties, since 2010. Mr. DeRosa also served as a member of the board of directors of Dover Corporation (NYSE: DOV), a manufacturer and service provider for a broad range of specialized products and components, from 2007 to 2010. Mr. DeRosa is also a member of the Board of Directors of Georgetown University and Value Retail PLC, a U.K.-based owner, operator and developer of luxury outlet shopping villages in Europe. Mr. DeRosa received a bachelor's degree from Georgetown University and an M.B.A. from Columbia University. Mr. DeRosa was selected to serve as a member of the company's Board of Directors because of his extensive experience as a director of public NYSE listed companies, including real estate investment trusts.

*David A. Karp* is the company's Executive Vice President and Chief Financial Officer and Treasurer. Mr. Karp joined the supervisor in November 2011 and is responsible for activities relating to finance, capital markets, investor relations and administration. Prior to joining the supervisor from February 2006 to February 2011, Mr. Karp served as Managing Director and Chief Financial Officer, and from February 2009 to February 2011, he served as Chief Operating Officer of Forum Partners Investment Management, a global real estate private equity firm, where he was responsible for both firm-level and fund-level financial management and strategy, including risk management, treasury, foreign exchange and interest rate hedging, budgeting and debt financing. From January 1996 to August 2005, Mr. Karp served as President, Chief Operating Officer and Chief

---

## **Table of Contents**

Financial Officer of Falcon Financial Investment Trust (NASDAQ: FLCN), a publicly traded real estate investment trust and its predecessor. Mr. Karp received a bachelor's degree summa cum laude in Economics, Phi Beta Kappa, from the University of California, Berkeley and an M.B.A. in Finance and Real Estate from the Wharton School at the University of Pennsylvania.

*Thomas P. Durels* is the company's Executive Vice President and Chief of Property Operations and Leasing. Mr. Durels joined the supervisor in 1990 and is responsible for the company's real estate activities, including property redevelopment, repositioning, leasing, management and construction. Mr. Durels also supervises the company's acquisition staff and oversees the development of Metro Tower. Prior to joining the supervisor, from February 1984 to April 1990, he served as Assistant Vice President - Engineering and Construction at Helmsley Spear, Inc., where Mr. Durels was responsible for construction and engineering of office, hotel, residential and retail properties, and he was also a licensed real estate salesperson, specializing in the sale of investment properties. Mr. Durels is a member of the Real Estate Board of New York, the Urban Land Institute and the Young Men's and Women's Real Estate Association, for which he served as Treasurer in 2003. Mr. Durels received a bachelor's degree in Mechanical Engineering from Lehigh University.

*Thomas N. Keltner, Jr.* is the company's Executive Vice President, General Counsel and Secretary. Mr. Keltner joined the supervisor in 1978 and became its general counsel in 1997, and is responsible for leading a legal staff that provides and coordinates legal services in the supervisor's transaction, compliance, and litigation matters. Mr. Keltner has served as a chair and/or member of bar association committees on both real estate and business entities, and he is a member of the Real Estate Board of New York and the New York Advisory Board of the Stewart Title Insurance Company. From 1974 to 1975, he served as law clerk to Judge Alfred P. Murrah, U.S. Court of Appeals (10th Circuit). Mr. Keltner received a bachelor's degree cum laude from Harvard College and a law degree as a Stone Scholar from Columbia Law School.

## **Corporate Governance Profile**

The company has structured its corporate governance in a manner the company believes closely aligns its interests with those of its stockholders. Notable features of the company's corporate governance structure include the following:

the company's board of directors is not staggered, with each of the company's directors subject to re-election annually;

of the seven persons who will serve on the company's board of directors immediately after the completion of the consolidation and the IPO, the company expects that the company's board of directors will determine that six, or approximately 85%, of the company's directors are independent for purposes of the NYSE's corporate governance listing standards and Rule 10A-3 under the Securities Exchange Act of 1934, as amended, or the Exchange Act;

the company anticipates that at least one of the company's directors will qualify as an audit committee financial expert as defined by the Securities and Exchange Commission, or the SEC;

the company has opted out of the business combination and control share acquisition statutes in the MGCL; and

the company does not have a stockholder rights plan.

The company's business is managed by the company's senior management team, subject to the supervision and oversight of the company's board of directors, which has established investment policies described under "Policies with Respect to Certain Activities - Investment Policies" for the company's senior management team to follow in its day-to-day management of the company's business. The company's directors will stay informed about the company's business by attending meetings of the company's board of directors and its committees and through supplemental reports and communications. The company's independent directors will meet regularly in executive sessions without the presence of the company's corporate officers or non-independent directors.

## **Table of Contents**

### **The Board's Leadership Structure**

The company's board of directors understands there is no single, generally accepted approach to providing board leadership and that given the dynamic and competitive environment in which the company operates, the appropriate leadership may vary as circumstances warrant. The company's board of directors currently believes it is in the company's best interests to have Anthony E. Malkin serve as Chairman of the company's Board of Directors, Chief Executive Officer and President. The company's board of directors believes combining these roles promotes effective leadership and provides the clear focus needed to execute the company's business strategies and objectives.

The company's board of directors intends to appoint a lead independent director upon completion of the IPO. The lead independent director's duties will include chairing executive sessions of the independent directors, facilitating communications and resolving conflicts between the independent directors, other members of the company's board of directors and the management of the company, and consulting with and providing counsel to the company's chief executive officer as needed or requested. It is expected that the lead independent director will be rotated among the company's independent directors every two years.

### **The Board's Role in Risk Oversight**

The company's board of directors will play an active role in overseeing management of the company's risks. Upon completion of the IPO, the committees of the company's board of directors will assist the company's full board in risk oversight by addressing specific matters within the purview of each committee. The company's audit committee will focus on oversight of financial risks relating to the company; the company's compensation committee will focus primarily on risks relating to executive compensation plans and arrangements; and the company's nominating and corporate governance committee will focus on reputational and corporate governance risks relating to the company including the independence of the company's board of directors. While each committee will be responsible for evaluating certain risks and overseeing the management of such risks, the company's full board of directors plans to keep itself regularly informed regarding such risks through committee reports and otherwise. The company believes the leadership structure of the company's board of directors supports effective risk management and oversight.

### **Board Committees**

Upon completion of the IPO, the company's board of directors will form an audit committee, a compensation committee and a nominating and corporate governance committee and adopt charters for each of these committees. Each of these committees will have three directors and will be composed exclusively of independent directors, as defined by the listing standards of the NYSE. Moreover, the compensation committee will be composed exclusively of individuals intended to be, to the extent provided by Rule 16b-3 of the Exchange Act, non-employee directors and will, at such times as the company are subject to Section 162(m) of the Code, qualify as outside directors for purposes of Section 162(m) of the Code.

#### ***Audit Committee***

The audit committee will be comprised of Alice M. Connell, Thomas J. DeRosa and S. Michael Giliberto, each of whom will be an independent director and financially literate under the rules of the NYSE. Alice M. Connell will chair the company's audit committee and Thomas J. DeRosa will serve as the company's audit committee financial expert, as that term is defined by the applicable SEC regulations.

The audit committee assists the company's board of directors in overseeing:

the company's financial reporting, auditing and internal control activities, including the integrity of the company's financial statements;

**Table of Contents**

the company's compliance with legal and regulatory requirements and ethical behavior;

the independent auditor's qualifications and independence;

the performance of the company's internal audit function and independent auditor; and

the preparation of audit committee reports.

The audit committee is also responsible for engaging the company's independent registered public accounting firm, reviewing with the independent registered public accounting firm the plans and results of the audit engagement, approving professional services provided by the independent registered public accounting firm, reviewing the independence of the independent registered public accounting firm, considering the range of audit and non-audit fees and reviewing the adequacy of the company's internal accounting controls.

***Compensation Committee***

The compensation committee will be comprised of William H. Berkman, Thomas J. DeRosa and Steven J. Gilbert, each of whom will be an independent director. William H. Berkman will chair the company's compensation committee.

The principal functions of the compensation committee will be to:

review and approve on an annual basis the corporate goals and objectives relevant to the compensation paid by the company to the company's president and chief executive officer and the other members of the company's senior management team, evaluate the company's president and chief executive officer's performance and the other members of the company's senior management team's performance in light of such goals and objectives and, either as a committee or together with the company's independent directors (as directed by the board of directors), determine and approve the remuneration of the company's chief executive officer and the other members of the company's senior management team based on such evaluation;

oversee any equity-based remuneration plans and programs;

assist the board of directors and the chairman in overseeing the development of executive succession plans;

determine from time to time the remuneration for the company's non-executive directors; and

prepare compensation committee reports.

***Nominating and Corporate Governance Committee***

The nominating and corporate governance committee will be comprised of William H. Berkman and Lawrence E. Golub, each of whom will be an independent director. Lawrence E. Golub will chair the company's nominating and corporate governance committee.

The nominating and corporate governance committee will be responsible for:

providing counsel to the board of directors with respect to the organization, function and composition of the board of directors and its committees;

overseeing the self-evaluation of the board of directors as a whole and of the individual directors and the board's evaluation of management and report thereon to the board;

periodically reviewing and, if appropriate, recommending to the board of directors changes to, the company's corporate governance policies and procedures;

## **Table of Contents**

identifying and recommending to the board of directors potential director candidates for nomination; and

recommending to the full board of directors the appointment of each of the company's executive officers.

### **Code of Business Conduct and Ethics**

Upon completion of the IPO, the company's board of directors will establish a code of business conduct and ethics that applies to the company's directors and officers. Among other matters, the company's code of business conduct and ethics will be designed to deter wrongdoing and to promote:

honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;

full, fair, accurate, timely and understandable disclosure in the company's SEC reports and other public communications;

compliance with applicable governmental laws, rules and regulations;

prompt internal reporting of violations of the code to appropriate persons identified in the code; and

accountability for adherence to the code.

Any waiver of the code of business conduct and ethics for the company's directors or officers may be made only by the company's board of directors or one of the company's board committees and will be promptly disclosed as required by law or stock exchange regulations.

### **Director Compensation**

In order to align the interests of the company's independent directors and stockholders, the company will award each independent director a one-time grant of \$150,000 in LTIP units and/or restricted shares of the company's Class A common stock (at such director's election) under the company's equity incentive plan, effective upon completion of the IPO, which will vest pro rata on an annual basis over a period of three years, subject to acceleration in the event an independent director has a termination of service on account of death, "disability" or in the event of a change in control and subsequent termination of service thereafter (each of the foregoing terms as defined in the company's equity incentive plan). Each independent director will also receive an annual base retainer for his or her services of \$150,000. The annual base retainer will be paid 40% in cash and 60% in LTIP units and/or restricted shares of the company's Class A common stock (at such director's election) under the company's equity incentive plan, which will vest pro rata on an annual basis over a period of three years, provided that, each independent director may elect to receive up to 100% of the annual base retainer in the form of LTIP units and/or restricted shares of the company's Class A common stock under the company's equity incentive plan. The independent director who is appointed as the lead independent director will receive an additional annual cash retainer of \$22,500. The chair of the audit committee, compensation committee and nominating and corporate governance committee of the company's board of directors will receive an additional annual cash retainer of \$15,000, \$12,500 and \$10,000, respectively. In addition, each independent director who serves on the audit, compensation and nominating and corporate governance committee of the company's board of directors, other than in the capacity of chair, will receive an additional annual cash retainer of \$5,000 per committee, up to a maximum of \$10,000 per annum. Independent directors and committee members will generally not be eligible to receive fees for attending meetings of the company's board of directors or meetings of committees of the company's board of directors. However, to the extent that the company's board of directors or a particular committee of the company's board of directors meets in excess of eight times per annum, the independent directors or committee members, as applicable, will receive a fee of \$1,500 for attending each meeting of the company's board of directors or meeting of the committee of the company's board of directors in excess of such threshold. The company will also reimburse each of its independent directors for his or her travel

**Table of Contents**

expenses incurred in connection with his or her attendance at full board of directors and committee meetings. The company has not made any payments to any of its independent director nominees to date. A member of the company's board of directors who is also an employee or affiliate of the company is referred to as an executive director. Executive directors will not receive compensation for serving on the company's board of directors.

The company intends to adopt stock ownership guidelines for its independent directors. Pursuant to the guidelines, the company's independent directors will be required to hold a number of shares of the company's Class A common stock (including LTIP units) having a market value equal to or greater than five times the portion of the annual base retainer which is eligible to be paid in cash. Each independent director will have five years from the later of the date of the completion of the IPO and the date of such director's election to the company's board of directors to attain compliance with the stock ownership requirements.

**Executive Compensation**

***Compensation Discussion and Analysis***

The company believes the primary goal of executive compensation is to attract and retain the best executive talent in a way that allows the company to align the interests of the company's senior management team with those of the company's stockholders. The company's board of directors has not yet formed the company's compensation committee. Accordingly, the company has not adopted compensation policies with respect to, among other things, setting base salaries, awarding bonuses or making future grants of equity awards to the company's senior management team. The company anticipates the compensation committee, once formed, will design a compensation program that rewards, among other things, favorable stockholder returns, share appreciation, the company's competitive position within its segment of the real estate industry and each member of the company's senior management team's long-term career contributions to the company. The company expects compensation incentives designed to further these goals will take the form of annual cash compensation and equity awards, and long-term cash and equity incentives measured by objective and individual performance targets to be established by the compensation committee. In addition, the company's compensation committee may determine to make awards to new executive officers in order to attract talented professionals to serve the company. The company will pay base salaries and annual bonuses to its executive officers and expects to make grants of awards under the company's equity incentive plan to certain members of the company's senior management team (other than Anthony E. Malkin), effective upon completion of the IPO. These awards under the company's equity incentive plan will be granted to recognize such individuals' efforts on the company's behalf in connection with the company's formation and the IPO and to provide a retention element to their compensation.

The company has retained FPL Associates LP, a compensation consulting firm, to provide advice regarding the executive compensation program for the company's senior management team following the completion of the IPO. FPL Associates LP has not performed and does not currently provide any other services to management, the company or its predecessor. The company has requested that FPL Associates LP provide analysis and recommendations regarding base salaries, annual bonuses and long-term incentive compensation for the company's executive management team, and a director compensation program for non-employee members of the company's board of directors.

***Compensation of Named Executive Officers***

Because the company was only recently organized, meaningful individual compensation information is not available for prior periods. The following table sets forth the annualized base salary and other compensation that would have been paid in 2012 to the company's chief executive officer, the company's chief financial officer and the two other most highly compensated members of the company's senior management team, whom the company refer to collectively as the company's named executive officers, assuming they were executive officers for all of 2012. Other than with respect to the annual base salary and target cash bonus of Mr. Karp, which the company negotiated with him after receiving advice from FPL Associates LP, the company's compensation consultant, the anticipated 2012 compensation for each of the company's named executive officers listed in the table below was

**Table of Contents**

determined by the company based on a review of publicly disclosed compensation packages of executives of other public real estate companies and other information provided to the company by FPL Associates LP. While the table below accurately reflects the company's current expectations with respect to 2012 named executive officer compensation, actual 2012 compensation for these officers may be increased or decreased, including through the use of compensation components not currently contemplated or described herein. The company expects to disclose actual 2012 compensation for the company's named executive officers in 2013, to the extent required by applicable SEC disclosure rules.

- (1) Salary amounts are annualized for the year ending December 31, 2012 based on the expected base salary levels to be effective upon consummation of the IPO.
- (2) Any cash bonus awards and stock awards will be determined in the sole discretion of the company's compensation committee based upon such factors to be established by the compensation committee, including objective and individual performance targets. The company anticipates that its compensation committee will initially establish performance targets for the 2013 fiscal year during 2013. The company anticipates that the target bonus with respect to the company's named executive officers' cash bonuses will be based on 200%, 78%, 78%, and 45% of Mr. Malkin's, Mr. Karp's, Mr. Durels' and Mr. Keltner's respective annual base salaries.
- (3) Stock awards have not yet been granted to the company's named executive officers but upon completion of the IPO, assuming the company receives gross proceeds from the IPO of \$1,000,000,000 (excluding the underwriters' option to purchase additional shares of the company's Class A common stock), and assuming an IPO price of \$10 per share, the company expects to grant 114,500 units/shares (of which 85,875 units/shares will be subject to time-based vesting and 28,625 shares/units will be subject to performance-based vesting), 395,700 units/shares (of which 296,775 units/shares will be subject to time-based vesting and 98,925 shares/units will be subject to performance-based vesting) and 252,800 units/shares (of which 189,600 units/shares will be subject to time-based vesting and 63,200 shares/units will be subject to performance-based vesting) to each of Messrs. Karp, Durels and Keltner, respectively. The units/shares subject to performance-based vesting represent the maximum number of units/shares subject to such awards that may vest, assuming the highest performance hurdles are achieved and all of the units/shares subject to such awards ultimately vest. For additional information regarding the IPO grant calculation, see IPO Grants Under the Company's Equity Incentive Plan. In addition, the company anticipates that its officers' target long-term equity incentive awards will be based on 150%, 100%, 100%, and 40% of Mr. Malkin's, Mr. Karp's, Mr. Durels' and Mr. Keltner's respective aggregate annual base salaries and target cash bonuses.
- (4) The company expects that its full-time employees, including the company's named executive officers, will be eligible to participate in health and welfare benefit plans, such as medical, dental and other health related benefits. In addition, Mr. Malkin, pursuant to his employment agreement, will be entitled to a company-owned or leased automobile and a driver, and reimbursement of certain professional expenses. See Employment Agreement.
- (5) Amounts shown in this column do not include (i) the value of the LTIP unit/restricted Class A common stock grants (described in Note 3 above) that are expected to be granted to the company's named executive officers (other than Anthony E. Malkin) in connection with the IPO or (ii) the value of the perquisites or other personal benefits the company's named executive officers will receive.

## **Table of Contents**

### **IPO Grants Under the Company's Equity Incentive Plan**

Upon completion of the IPO, the company expects to grant LTIP units and/or restricted shares of its Class A common stock (at the grantee's discretion) to the company's independent directors, executive officers (other than Anthony E. Malkin) and certain other employees, which will be subject to time-based and performance-based vesting over a three to four year period. The aggregate number of LTIP units/shares the company intends to grant to such individuals, including a total of 90,000 LTIP units and/or restricted shares of the company's Class A common stock which the company intends to grant to its independent directors, will be in an amount equal to 1.8% of the gross proceeds raised in the IPO (excluding the underwriters' option to purchase additional shares of the Class A common stock) divided by the IPO price. Assuming the company receives gross proceeds from the IPO of \$1,000,000,000 (excluding the underwriters' option to purchase additional shares of the Class A common stock), and assuming an IPO price of \$10 per share, the aggregate number of LTIP units and/or restricted shares of the Class A common stock the company intends to grant to its independent directors, executive officers (other than Anthony E. Malkin) and certain other employees will be 1,800,000 units/shares and will have an aggregate dollar value of \$18,000,000.

### **Employment Agreement**

Upon completion of the IPO, the company intends to enter into a written employment agreement with Anthony E. Malkin. The company anticipates that the employment agreement for Mr. Malkin will have an initial term of three years. The employment agreement will provide for up to two automatic one-year extensions thereafter, unless either party provides at least 60 days notice of non-renewal prior to the expiration of the then current term. The employment agreement will require Mr. Malkin to devote a majority of his business time and attention to the performance of his duties under the employment agreement, except as describe below.

The company anticipates that Mr. Malkin's employment agreement will provide for:

an annual base salary of \$500,000, subject to further increases on an annual basis in the discretion of the compensation committee of the company's board of directors,

after the company's 2012 fiscal year, eligibility for annual cash performance bonuses based on the satisfaction of objective and individual performance goals established by the compensation committee of the company's board of directors (with a target bonus based on 200% of Mr. Malkin's annual base salary), or the annual bonus,

participation in the company's long-term incentive program, including grants under the company's equity incentive plan, as well as other incentive, savings and 401(k) or other retirement plans applicable generally to the company's senior executives, provided that, other than with respect to the grants upon completion of the IPO, described above, the amount of awards granted to Mr. Malkin under the company's equity incentive plan will be no less than that granted to other senior executives and shall be reasonable in light of the contribution made, or expected to be made, by Mr. Malkin for the period for which such grant is made,

participation in all of the company's benefit plans and entitlement to receive benefits and perquisites, which shall be at a level no less favorable than those provided to the company's other senior executives,

a company-owned or leased automobile and a driver,

administrative assistance and office space for Mr. Malkin and services reasonably acceptable to him, so long as Mr. Malkin is providing services to the company in any capacity, and

reimbursement of all reasonable professional expenses relating to the negotiation and documentation of the employment agreement and other agreements entered into by Mr. Malkin in connection with the IPO and the consolidation.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

The company anticipates that Mr. Malkin's employment agreement will provide that upon a termination of employment (i) by the company for any reason other than for cause or by Mr. Malkin for good reason (each

**Table of Contents**

as defined in the employment agreement) or (ii) in either event described under clause (i) of this paragraph within two years following a change in control (as defined in the company's equity incentive plan), Mr. Malkin will be entitled to the following severance payments and benefits, subject to Mr. Malkin's and the company's execution of a mutual release of claims in the form provided for in the employment agreement:

annual base salary, annual bonus for prior fiscal years and other benefits earned but unpaid (including payment for accrued, but unused vacation days and reimbursement for business expenses incurred) prior to the date of termination,

an amount equal to the sum of Mr. Malkin's then-current annual base salary plus the greater of his target annual bonus for the termination year and the average annual bonus paid to Mr. Malkin over the three most-recently completed fiscal years, multiplied by two (three, in the case of a termination in connection with a change in control (as described under clause (ii) above)),

a pro-rated annual bonus for the year in which the termination of employment occurs, calculated based on actual performance for the entire performance period and calculated and paid at the end of the performance period without the exercise of any negative discretion,

a monthly payment equal to the difference between the monthly COBRA premium cost and the premium cost to Mr. Malkin as if he was the company's employee following Mr. Malkin's termination of employment, and

100% of the unvested equity awards granted pursuant to the equity incentive plan subject to time-based vesting shall immediately vest. Any equity awards subject to performance-based vesting that have not yet been earned but may do so based on the achievement of certain performance criteria may vest at the greater of the target amount of awards (if applicable) and a pro-rata amount based on performance from the commencement of the performance period through the date of termination (or in the case of a termination in connection with a change in control (as described under clause (ii) above), 100% of the unvested equity awards granted pursuant to the equity incentive plan subject to performance-based vesting shall vest to the extent the underlying performance requirements have been met at such time). Any stock option then held by Mr. Malkin will remain exercisable for at least three years following such termination, but in no event later than the actual expiration of the stock option term.

The company anticipates that Mr. Malkin's employment agreement will also provide that Mr. Malkin or his estate will be entitled to certain severance benefits in the event of his death or disability (as defined in the employment agreement). Specifically, Mr. Malkin, or, in the event of his death, his beneficiaries will receive:

annual base salary, annual bonus for prior fiscal years and other benefits earned but unpaid (including payment for accrued, but unused vacation days and reimbursement for business expenses incurred) prior to the date of termination,

a pro-rated annual bonus for the year in which the termination of employment occurs, calculated based on actual performance for the entire performance period and calculated and paid at the end of the performance period without the exercise of any negative discretion,

100% of the unvested equity awards granted pursuant to the equity incentive plan subject to time-based vesting shall immediately vest. Any equity awards that have not yet been earned but may do so based on the achievement of certain performance criteria may vest at the greater of the target amount of awards (if applicable) and a pro-rata amount based on performance from the commencement of the performance period through the date of termination. Any stock option then held by Mr. Malkin will remain exercisable for at least three years following such termination, but in no event later than the actual expiration of the stock option term.

## **Table of Contents**

The company anticipates that Mr. Malkin's employment agreement will provide that upon a termination of employment (i) by the company for cause or by Mr. Malkin for any reason other than good reason (each as defined in the employment agreement) or (ii) by notice of non-renewal of the employment agreement, subject to Mr. Malkin's and the company's execution of a mutual release of claims in the form provided for in the employment agreement:

Mr. Malkin will be entitled to his annual base salary and other benefits earned but unpaid (including payment for accrued, but unused vacation days and reimbursement for business expenses incurred) prior to the date of termination,

other than in connection with a termination of employment by the company for cause (as defined in the employment agreement), Mr. Malkin will be entitled to any earned but unpaid annual bonus for prior fiscal years, and

100% of all unvested (and in connection with a termination of employment by the company for cause (as defined in the employment agreement), 100% of all vested and unvested) equity awards granted pursuant to the equity incentive plan shall be forfeited by Mr. Malkin.

Mr. Malkin shall not be required to seek other employment or attempt to reduce severance payments. Severance benefits are not subject to any offset, except benefit coverage shall cease upon Mr. Malkin's eligibility for substantially similar or improved replacement health coverage from a successor employer.

In the event that any amount payable to Mr. Malkin is determined to be an excess parachute payment under Section 280G of the Code, such amount will be reduced to one dollar less than the threshold amount that would trigger an excise tax under Section 280G of the Code.

Although the company anticipates that the employment agreement will require Mr. Malkin to devote a majority of his business time and attention to the performance of his duties under the employment agreement, Mr. Malkin may (i) serve on the board of one or more business corporations identified by Mr. Malkin and with the consent of the company's board of directors (such consent not to be unreasonably withheld), (ii) participate in charitable, civic, educational, professional, community or industry affairs, and (iii) manage his and his family's personal investments (including the excluded properties and excluded businesses), including providing services to or maintaining a family office for purposes of managing such investments, provided that Mr. Malkin does not manage the investments or assets of any unrelated third party. See

Related Party Transactions Excluded Properties and Businesses for more information regarding Mr. Malkin's right to devote a portion of his business time and attention to the management of the excluded properties and excluded businesses.

The company anticipates that the employment agreement will also contain standard confidentiality and mutual non-disparagement provisions, which will apply indefinitely, and non-competition and non-solicitation provisions, which will apply during the term of the employment agreement and will continue for a period of two years following the termination of Mr. Malkin's employment.

All disputes, except equitable enforcement of restrictive covenants, under the employment agreement will be resolved by arbitration in accordance with the rules of the American Arbitration Association in New York City. The company will agree to pay all costs of the arbitration except, if applicable, Mr. Malkin's petitioner's filing fee. If an arbitrator determines that Mr. Malkin has prevailed on the issues in dispute in the arbitration, the company will pay or reimburse any reasonable expenses, including reasonable attorney's fees which Mr. Malkin incurs in such arbitration.

## Table of Contents

### **Change in Control Severance Agreements**

Upon completion of the IPO, the company intends to enter into written change in control severance agreements with Messrs. Karp, Durels and Keltner. The change in control severance agreements will terminate two years after the date of any written notice of termination from the company to the applicable executive officer; provided, that if a change in control (as defined in the company's equity incentive plan) occurs while the agreement is still operative, any written notice to the executive officer terminating the agreement will not be effective prior to the second anniversary of the "change in control" (as defined in the company's equity incentive plan).

The company anticipates that the change in control severance agreements will provide that upon a termination of employment by the company for any reason other than for "cause" or by the applicable executive officer for "good reason" (each as defined in the change in control severance agreements), within two years following a "change in control" (as defined in the company's equity incentive plan), the applicable executive officer will be entitled to the following severance payments and benefits, subject to the executive officer's execution of a release of claims in the form provided for in the change in control severance agreement:

annual base salary, annual bonus for prior fiscal years and other benefits earned but unpaid (including payment for accrued, but unused vacation days and reimbursement for business expenses incurred) prior to the date of termination,

an amount equal to the sum of the executive officer's then-current annual base salary plus the greater of his then-current target cash bonus and the average bonus earned over the three most-recently completed fiscal years, multiplied by two,

a pro-rated annual bonus for the year in which the termination of employment occurs, calculated based on actual performance for the entire performance period and calculated and paid at the end of the performance period without the exercise of any negative discretion,

a monthly payment equal to the difference between the monthly COBRA premium cost and the premium cost to the executive officer as if he was the company's employee for each month of COBRA eligibility, and

100% of the unvested equity awards granted pursuant to the equity incentive plan subject to time-based vesting shall immediately vest and 100% of the unvested equity awards granted pursuant to the equity incentive plan subject to performance-based vesting shall vest to the extent the underlying performance requirements have been met at such time.

The company anticipates that the change in control severance agreements will provide that upon a termination of employment by the company for cause or by the executive officer for any reason other than "good reason" (each as defined in the change in control severance agreements), the applicable executive officer will be entitled to his accrued and unpaid annual base salary through the date of termination, annual bonus for prior fiscal years (other than in connection with a termination for "cause" (as defined in the change in control severance agreements)) and other benefits earned but unpaid (including payment for accrued, but unused vacation days and reimbursement for business expenses incurred) prior to the date of termination.

The company anticipates that the change in control severance agreements will provide that the executive officers shall not be required to seek other employment or attempt to reduce severance payments. Severance benefits are not subject to any offset, except benefit coverage shall cease upon the applicable executive officer's eligibility for substantially similar or improved replacement health coverage from a successor employer.

In the event that any amount payable to an executive officer is determined to be an excess parachute payment under Section 280G of the Code, such amount will be reduced to one dollar less than the threshold amount that would trigger an excise tax under Section 280G of the Code.

The company anticipates that the change in control severance agreements will also contain standard confidentiality provisions, which will apply indefinitely, and non-competition and non-solicitation provisions,

## **Table of Contents**

which will apply during the term of the agreements and will continue for a period of two years following such termination of employment. The company anticipates that the change in control severance agreements will also contain mutual non-disparagement provisions, which will apply indefinitely.

All disputes, except equitable enforcement of restrictive covenants, under the change in control severance agreements will be resolved by arbitration in accordance with the rules of the American Arbitration Association in New York City. The company will agree to pay all costs of the arbitration except, if applicable, the executive officer's petitioner's filing fee. If an arbitrator determines that the applicable executive officer has prevailed on the issues in dispute in the arbitration, the company will pay or reimburse any reasonable expenses, including reasonable attorney's fees which the executive officer incurs in such arbitration.

### **401(k) Plan**

The company intends to adopt a tax-qualified 401(k) Retirement Savings Plan, or the 401(k) Plan. All eligible employees will be able to participate in the company's 401(k) plan, including the company's named executive officers. The company intends to provide this plan to help the company's employees save some amount of their cash compensation for retirement in a tax efficient manner. Under the company's 401(k) plan, employees will be eligible to defer a portion of their salary, and the company expects to match a portion of each eligible employee's contributions. The company does not intend to provide an option for the company's employees to invest in the company's Class A common stock through the company's 401(k) plan.

### **Equity Incentive Plan**

Prior to the completion of the IPO, the company will adopt an equity incentive plan to provide incentive distributions to members of the company's senior management team, the company's independent directors, advisers, consultants and other personnel. Unless terminated earlier or renewed, the company's equity incentive plan will be in effect until the tenth anniversary of the date it is approved by the company's board of directors, but will continue to govern unexpired awards. The company's equity incentive plan provides for grants of stock options, shares of restricted Class A common stock, phantom shares, dividend equivalent rights and other equity-based awards, including LTIP Units.

The company's equity incentive plan is administered by the compensation committee appointed for such purposes. The compensation committee, as appointed by the company's board of directors, has the full authority to (i) authorize the granting of awards to eligible persons, (ii) determine the eligibility of directors, members of the company's senior management team, advisers, consultants and other personnel to receive an equity award, (iii) determine the number of shares of Class A common stock to be covered by each award (subject to the individual participant limitations provided in the company's equity incentive plan), (iv) determine the terms, provisions and conditions of each award (which may not be inconsistent with the terms of the company's equity incentive plan), (v) prescribe the form of instruments evidencing such awards, (vi) make recommendations to the company's board of directors with respect to equity awards that are subject to board approval and (vii) take any other actions and make all other determinations that it deems necessary or appropriate in connection with the company's equity incentive plan or the administration or interpretation thereof. In connection with this authority, the compensation committee may, among other things, establish performance goals that must be met in order for awards to be granted or to vest, or for the restrictions on any such awards to lapse. From and after the consummation of the IPO, the compensation committee will consist solely of independent directors, each of whom is intended to be, to the extent required by Rule 16b-3 under the Exchange Act, a non-employee director and will, at such times as the company are subject to Section 162(m) of the Code and intend for awards to be treated as performance-based compensation for purposes of Section 162(m), qualify as an outside director for purposes of Section 162(m) of the Code, or, if no committee exists, the board of directors.

---

**Table of Contents***Available Shares*

The company's equity incentive plan provides for grants of stock options, shares of restricted Class A common stock, phantom shares, dividend equivalent rights and other equity-based awards up to an aggregate of 5% of the issued and outstanding shares of the company's common stock as of the later of the date of the IPO or the last closing date of any shares of the company's Class A common stock sold pursuant to the underwriters' exercise of their option to purchase additional shares (on a fully diluted basis (assuming, if applicable, the exercise of all outstanding stock options, the conversion of all warrants and convertible securities into shares of Class A common stock and the exchange of all outstanding operating partnership units into shares of Class A common stock) and including shares to be sold pursuant to the underwriters' exercise of their option to purchase up to an additional shares of the company's Class A common stock), but excluding any shares issued or issuable under the company's equity incentive plan. If an award granted under the company's equity incentive plan expires, is forfeited or terminates, the shares of the company's Class A common stock subject to any portion of the award that expires, is forfeited or terminates without having been exercised or paid, as the case may be, will again become available for the issuance of additional awards. Unless previously terminated by the company's board of directors, no new award may be granted under the company's equity incentive plan after the tenth anniversary of the earlier of date that such plan was approved by the company's board of directors or the holders of the company's common stock. Upon the completion of the IPO, the company will grant LTIP units and/or shares of the company's restricted Class A common stock to the company's independent directors, executive officers (other than Anthony E. Malkin) and other employees under the company's equity incentive plan, which will be subject to certain vesting requirements. See *IPO Grants Under the Company's Equity Incentive Plan*.

To the extent the compensation committee deems appropriate, it will establish performance criteria and satisfy such other requirements as may be applicable in order to satisfy the requirements for performance-based compensation under Section 162(m) of the Code.

*Awards Under the Plan*

*Stock Options.* The terms of specific stock options, including whether stock options shall constitute incentive stock options for purposes of Section 422(b) of the Code, shall be determined by the compensation committee. The exercise price of a stock option shall be determined by the committee and reflected in the applicable award agreement. The exercise price with respect to stock options may not be lower than 100% (110% in the case of an incentive stock option granted to a 10% stockholder, if permitted under the company's equity incentive plan) of the fair market value of the company's Class A common stock on the date of grant. Each stock option will be exercisable after the period or periods specified in the award agreement, which will generally not exceed ten years from the date of grant (or five years in the case of an incentive stock option granted to a 10% stockholder, if permitted under the company's equity incentive plan). Incentive stock options may only be granted to the company's employees and employees of the company's subsidiaries. Stock options will be exercisable at such times and subject to such terms as determined by the compensation committee. The company may also grant stock appreciation rights, which are stock options that permit the recipient to exercise the stock option without payment of the exercise price and to receive shares of Class A common stock (or cash or a combination of the foregoing) with a fair market value equal to the excess of the fair market value of the shares of the company's Class A common stock with respect to which the stock option is being exercised over the exercise price of the stock option with respect to those shares. The exercise price with respect to stock appreciation rights may not be lower than 100% of the fair market value of the company's Class A common stock on the date of grant.

*Shares of Restricted Common Stock.* A restricted stock award is an award of shares of Class A common stock that is subject to restrictions on transferability and such other restrictions the compensation committee may impose at the date of grant. Grants of shares of restricted Class A common stock will be subject to vesting schedules and other restrictions as determined by the compensation committee. The restrictions may lapse separately or in combination at such times, under such circumstances, including, without limitation, a specified period of employment or the satisfaction of pre-established criteria, in such installments or otherwise, as the compensation committee may determine. Except to the extent restricted under the award agreement relating to

## **Table of Contents**

the shares of restricted Class A common stock, a participant granted shares of restricted Class A common stock has all of the rights of a stockholder, including, without limitation, the right to vote and the right to receive dividends on the shares of restricted Class A common stock. Although dividends may be paid on shares of restricted Class A common stock, whether or not vested, at the same rate and on the same date as on shares of the company's Class A common stock (unless otherwise provided in an award agreement), holders of shares of restricted Class A common stock are prohibited from selling such shares until they vest.

*Phantom Shares.* A phantom share represents a right to receive the fair market value of a share of Class A common stock, or, if provided by the compensation committee, the right to receive the fair market value of a share of Class A common stock in excess of a base value established by the compensation committee at the time of grant. Phantom shares may generally be settled in cash or by transfer of shares of Class A common stock (as may be elected by the participant or the compensation committee or as may be provided by the compensation committee at grant). The compensation committee may, in its discretion and under certain circumstances (taking into account, without limitation, Section 409A of the Code), permit a participant to receive as settlement of the phantom shares installment payments over a period not to exceed ten years.

*Dividend Equivalents.* A dividend equivalent is a right to receive (or have credited) the equivalent value (in cash or shares of common stock) of dividends paid on shares of common stock otherwise subject to an award. The compensation committee may provide that amounts payable with respect to dividend equivalents shall be converted into cash or additional shares of common stock. The compensation committee will establish all other limitations and conditions of awards of dividend equivalents as it deems appropriate.

*Other Share-Based Awards.* The company's equity incentive plan authorizes the granting of other awards based upon shares of the company's Class A common stock (including the grant of securities convertible into shares of Class A common stock and the grant of LTIP units), subject to terms and conditions established at the time of grant. LTIP units are awards of units of the company's operating partnership intended to constitute profits interests within the meaning of the relevant IRS guidance, which may be convertible on a one-for-one basis into the company's Series PR operating partnership units. See Description of Operating Partnership Units and the Partnership Agreement of the Operating Partnership LTIP Units.

The company intends to file with the SEC a Registration Statement on Form S-8 covering the shares of the company's Class A common stock issuable under the company's equity incentive plan.

### *Change in Control*

Under the company's equity incentive plan, a change in control is defined as the occurrence of any of the following events: (i) the acquisition of more than 50% of the company's then outstanding shares of common stock or the combined voting power of the company's outstanding securities by any person; (ii) the sale or disposition of all or substantially all of the company's assets, other than certain sales and dispositions to entities owned by the company's stockholders; (iii) a merger, consolidation or statutory share exchange where the company's stockholders immediately prior to such event hold less than 50% of the voting power of the surviving or resulting entity; (iv) during any consecutive twenty-four calendar month period, the members of the company's board of directors at the beginning of such period, the incumbent directors, cease for any reason (other than due to death) to constitute at least a majority of the members of the company's board (for these purposes, any director whose election or nomination for election was approved or ratified by a vote of at least a majority of the incumbent directors shall be deemed to be an incumbent director); or (v) stockholder approval of a plan or proposal for the company's liquidation or dissolution.

Upon a change in control, the compensation committee may make such adjustments as it, in its discretion, determines are necessary or appropriate in light of the change in control, but only if the compensation committee determines that the adjustments do not have an adverse economic impact on the participants (as determined at the time of the adjustments).

## **Table of Contents**

### *Amendments and Termination*

The company's board of directors may amend, suspend, alter or discontinue the company's equity incentive plan but cannot take any action that would impair the rights of an award recipient with respect to an award previously granted without such award recipient's consent unless such amendments are required in order to comply with applicable laws. The company's board of directors may not amend the company's equity incentive plan without stockholder approval in any case in which amendment in the absence of such approval would cause the company's equity incentive plan to fail to comply with any applicable legal requirement or applicable exchange or similar requirement, such as an amendment that would:

other than through adjustment as provided in the company's equity incentive plan, increase the total number of shares of Class A common stock reserved for issuance under the company's equity incentive plan;

materially expand the class of directors, officers, employees, consultants and advisors eligible to participate in the company's equity incentive plan;

reprice any stock options under the company's equity incentive plan; or

otherwise require such approval.

### **Limitation of Liability and Indemnification**

Maryland law permits a Maryland corporation to include in its charter a provision limiting the liability of its directors and officers to the corporation and its stockholders for money damages, except for liability resulting from (1) actual receipt of an improper benefit or profit in money, property or services or (2) active and deliberate dishonesty established by a final judgment as being material to the cause of action. The company's charter contains such a provision and eliminates the liability of the company's directors and officers to the maximum extent permitted by Maryland law. For further details with respect to the limitation on the liability of the company's directors and officers, the indemnification of the company's directors and officers and the relevant provisions of the MGCL, see "Certain Provisions of the Maryland General Corporation Law and the Company's Charter and Bylaws: Indemnification and Limitation of Directors' and Officers' Liability." In addition, the company's directors and officers will be entitled to indemnification under the partnership agreement of the company's operating partnership; for further details see "Description of Operating Partnership Units and the Partnership Agreement of the Operating Partnership: Management Liability and Indemnification."

The company will obtain a policy of insurance under which the company's directors and officers will be insured, subject to the limits of the policy, against certain losses arising from claims made against such directors and officers by reason of any acts or omissions covered under such policy in their respective capacities as directors or officers, including certain liabilities under the Securities Act. Additionally, the company intends to enter into indemnification agreements with each of the company's directors, executive officers, chairman emeritus and certain other parties upon the closing of the IPO, which will require, among other things, that the company maintain a comparable "tail" directors' and officers' liability insurance policy for six years after each director or executive officer ceases to serve in such capacity.

### **Rule 10b5-1 Sales Plans**

The company's directors and officers may adopt written plans, known as Rule 10b5-1 plans, in which they will contract with a broker to buy or sell shares of the company's Class A common stock on a periodic basis. Under a Rule 10b5-1 plan, a broker executes trades pursuant to parameters established by the director or officer when entering into the plan, without further direction from them. The director or officer may amend a Rule 10b5-1 plan in some circumstances and may terminate a plan at any time. The company's directors and officers also may buy or sell additional shares outside of a Rule 10b5-1 plan when they are not in possession of material non-public information subject to compliance with the terms of the company's insider trading policy. Prior to one year after the date of the completion of the IPO (subject to potential extension, early termination and certain

**Table of Contents**

other conditions contained in the lock-up agreement) with respect to the company's senior management team, the sale of any shares under such plan will be subject to the lock-up agreement that the director or executive officer has entered into with the underwriters.

**Compensation Committee Interlocks and Insider Participation**

No member of the compensation committee is a current or former officer or employee of the company or any of its subsidiaries. None of the company's named executive officers serves as a member of the board of directors or compensation committee of any company that has one or more of its executive officers serving as a member of the company's board of directors or compensation committee.

**Table of Contents**

**PRINCIPAL STOCKHOLDERS OF THE COMPANY**

The following table sets forth certain information regarding the beneficial ownership of shares of the company's common stock and shares of the company's common stock into which operating partnership units are exchangeable immediately following the completion of the consolidation and the IPO for:

the company's directors and each of the director nominees;

each of the company's named executive officers;

each person who is expected to be the beneficial owner of 5% or more of the company's outstanding common stock immediately following the completion of the IPO; and

all of the company's directors, director nominees and executive officers as a group.

In accordance with SEC rules, each listed person's beneficial ownership includes:

all shares the investor actually owns beneficially or of record;

all shares over which the investor has or shares voting or dispositive control (such as in the capacity as a general partner of an investment fund); and

all shares the investor has the right to acquire within 60 days (such as shares of restricted Class A common stock that are currently vested or which are scheduled to vest within 60 days).

Unless otherwise indicated, all shares are owned directly, and the indicated person has sole voting and investment power. Unless otherwise indicated in the footnotes to the table below, the business address of the stockholders listed below is the address of the company's principal executive office, Empire State Realty Trust, Inc., One Grand Central Place, New York, New York. No shares beneficially owned by any executive officer, director or director nominee have been pledged as security.

\* Represents less than 1% of the number of shares of common stock outstanding upon the closing of the IPO.

\*\* Represents less than 1% of the number of shares of common stock and operating partnership units, including LTIP units/shares of restricted Class A common stock outstanding immediately after the closing of the consolidation and the IPO.

(1) Assumes a total of 238,746,826 shares of common stock outstanding immediately after the closing of the consolidation and the IPO. The number of shares outstanding is based on the number of votes (i.e., each share of Class B common stock is treated as 50 shares of common stock for this purpose). The number of shares of common stock assumes that each participant in the subject LLCs elects to receive Class A common stock, Class B common stock and operating partnership units in the same proportion as participants (other than

**Table of Contents**

the Malkin Holdings group and the Helmsley estate) in the private entities and that net proceeds from the IPO are used as set forth in the pro forma financial statements (unaudited) of the company. The total number of shares of common stock outstanding used in calculating this percentage assumes that none of the operating partnership units held by other persons are exchanged for shares of Class A common stock.

- (2) Assumes a total of 440,635,690 shares of the company's common stock and operating partnership units are outstanding immediately after the closing of the consolidation and the IPO comprised of 132,856,817 shares of Class A common stock, including 1,800,000 LTIP units and/or shares of restricted Class A common stock and 2,117,800 shares of Class B common stock, which may be exchanged on a one-for-one basis for shares of the company's Class A common stock and 305,661,073 operating partnership units which may be exchanged for cash or, at the company's option, shares of Class A common stock on a one-for-one basis beginning 12 months after the closing of the IPO and LTIP units. In addition, share amounts for individuals, directors, director nominees and executive officers as a group assume that all operating partnership units, including LTIP units, held by the person are exchanged for shares of Class A common stock.
- (3) Peter L. Malkin and Anthony E. Malkin will hold only Series PR operating partnership units.
- (4) Includes 583,616 shares of Class A common stock, 716,213 shares of Class B common stock and 35,204,870 operating partnership units which are expected to be issued in the consolidation to (i) family limited liability companies and trusts for which Anthony E. Malkin has sole voting and investment power as sole manager or sole trustee, as applicable, and of which Anthony E. Malkin disclaims beneficial ownership of such shares and units except to the extent of his pecuniary interest therein and/or (ii) family trusts for which Anthony E. Malkin has shared voting and investment power as trustee with others, and of which Anthony E. Malkin disclaims beneficial ownership of such shares and units except to the extent of his pecuniary interest therein. Anthony E. Malkin will have the right to vote 36,394,253 shares of Common Stock (including 50 votes for each share of Class B common stock), which will represent approximately 15.2% of the number of shares of the outstanding common stock (including 50 votes for each share of Class B common stock). The Malkin Holdings group will beneficially own 754,878 shares of Class A common stock, 1,443,267 shares of Class B common stock and 70,885,496 operating partnership units, which are expected to be issued in the consolidation. The Malkin Holdings group will have the right to vote 72,918,219 shares of common stock (including 50 votes for each share of Class B common stock), which will represent approximately 30.5% of the number of shares of the company's outstanding common stock.
- (5) Includes 26,899 shares of Class A common stock, 308,776 shares of Class B common stock and 16,947,231 operating partnership units which are expected to be issued in the consolidation to (i) trusts for which Peter L. Malkin has sole voting and investment power as sole manager or sole trustee, as applicable, and of which Peter L. Malkin disclaims beneficial ownership of such shares and units except to the extent of his pecuniary interest therein and/or (ii) family trusts for which Peter L. Malkin has shared voting and investment power as trustee with others, and of which Peter L. Malkin disclaims beneficial ownership of such shares and units except to the extent of his pecuniary interest therein. Peter L. Malkin will have the right to vote 15,465,705 shares of Common Stock (including 50 votes for each share of Class B common stock), which will represent approximately 6.5% of the number of shares of the outstanding common stock (including 50 votes for each share of Class B common stock).
- (6) The Helmsley estate would have received 102,862,312 shares of common stock on a fully diluted basis prior to its receipt of cash pursuant to the cash election. The number of shares of common stock beneficially owned by the Helmsley estate assumes the Helmsley estate receives cash in lieu of 69,360,195 shares of common stock on exercise of its cash election and does not give effect to any additional cash that the Helmsley estate may receive as a result of any exercise of the underwriters' option to purchase additional shares of the company's Class A common stock in the IPO.

The company currently has outstanding 1,000 shares of common stock, all of which are owned by Anthony E. Malkin, the company's Chairman, Chief Executive Officer and President. Upon completion of the IPO, the company will repurchase all 1,000 shares of Class A common stock from Anthony E. Malkin at cost of \$0.10 per share.

**Table of Contents****RELATED PARTY TRANSACTIONS****Transactions Relating to the Consolidation**

Following the consolidation, certain executives of the supervisor will be members of the senior management team and Anthony E. Malkin, an executive and principal of the supervisor, will be Chairman, Chief Executive Officer, President and a director of the company. These executives and the Malkin Holdings group hold interests in the subject LLCs, the private entities and the management companies. Upon completion of the consolidation, the Malkin Holdings group will receive, in exchange for their interests in the subject LLCs and private entities, including their override interests, 73,078,153 shares of Class A common stock and Class B common stock and operating partnership units having an aggregate value, based on the exchange value of \$730,781,533, which they will receive in accordance with the allocation of exchange value based on the Appraisal of the independent valuer. The amounts allocated to the Malkin Holdings group are based on the hypothetical \$10 per share exchange value that the supervisor arbitrarily assigned for illustrative purposes, and consist of their interests as participants which will be allocated to them on the same basis as other participants; their interests as holders of override interests which will be allocated to them in accordance with the subject LLCs and private entities organizational documents; and their interests in the management companies, which will be allocated to them in accordance with the valuations of the management companies by the independent valuer. This is in addition to shares of Class A common stock issuable in respect of the voluntary pro rata reimbursement program consented to by participants in the subject LLCs and its share of distributions of any cash available for distribution from the subject LLCs prior to the consolidation. The Helmsley estate will receive Class A common stock, Class B common stock and/or operating partnership units and cash having an aggregate exchange value of \$1,028,623,118. The Helmsley estate has exercised the cash option as to all of the operating partnership units issuable to it by the private entities in the consolidation (which based on the exchange values represents 24.59% of the common stock on a fully-diluted basis) and will receive Class A common stock, Class B common stock and/or operating partnership units to the extent that the cash available for this purpose is insufficient to pay all of the consideration in cash. The Helmsley estate is expected to receive a substantial portion of the proceeds from the IPO pursuant to the cash election. The Helmsley estate will also receive an amount equal to any New York City transfer tax savings resulting from its status as a charitable organization. In addition, the company and the Helmsley estate have agreed that if the IPO is upsized after the effective time of the registration statement filed in connection with the IPO or if the underwriters in the IPO exercise their option to purchase additional shares of Class A common stock, all additional net proceeds from the sale of shares of Class A common stock issued by the company in such upsized option will be allocated solely to the Helmsley estate for purposes of the consolidation at the same value as the cash option described above. For more information on transactions in connection with the consolidation, see The Consolidation.

**Tax Protection Agreement**

The operating partnership intends to enter into a tax protection agreement with Peter L. Malkin and Anthony E. Malkin pursuant to which the operating partnership will agree to indemnify the Wien group and an additional third party investor in Metro Center (who was one of the original landowners and was involved in the development of the property) against certain tax liabilities if those tax liabilities result from (i) the operating partnership's sale, transfer, conveyance or other taxable disposition of four specified properties (First Stamford Place, Metro Center, 10 Bank Street and 1542 Third Avenue, which collectively represent approximately 1.99% of the aggregate exchange value) to be acquired by the operating partnership in the consolidation, for a period of 12 years with respect to First Stamford Place and for the later of (x) eight years or (y) the death of both of Peter L. Malkin and Isabel W. Malkin, who are 78 and 75 years old, respectively, for the three other properties, (ii) the operating partnership's failing to maintain until maturity the indebtedness secured by these properties or failing to use commercially reasonable efforts to refinance such indebtedness upon maturity in an amount equal to the principal balance of such indebtedness, or, if the operating partnership is unable to refinance such indebtedness at its current principal amount, at the highest principal amount possible, or (iii) the operating partnership's failing to make available to any of these investors the opportunity to guarantee, or otherwise bear the risk of loss, for U.S. federal income tax purposes, of their allocable share of \$160 million of aggregate indebtedness meeting certain

## **Table of Contents**

requirements, until such investor owns less than the aggregate number of operating partnership units and shares of common stock equal to 50% of the aggregate number of such units and shares such investor received in the consolidation.

The operating partnership estimates that if all of its assets subject to the tax protection agreement were sold in a taxable transaction immediately after the IPO, the amount of the operating partnership's indemnification obligations (based on tax rates applicable for the taxable year ending December 31, 2012, and exchange values, and including additional payments to compensate the indemnified partners for additional tax liabilities resulting from the indemnification payments) would be approximately \$97.7 million.

The company does not presently intend to sell or take any other action which would result in a tax protection payment with respect to the properties covered by the tax protection agreement. The tax protection agreement will not apply to a third-party portfolio transaction. See The Consolidation Description of the Tax Protection Agreement.

## **Partnership Agreement**

Concurrently with the completion of the IPO, the company will enter into the operating partnership agreement with the various persons receiving operating partnership units in the consolidation, including certain members of the company's senior management team and participants in the private entities and equity holders in the management companies. As a result, such persons will become limited partners of the operating partnership. See Description of Operating Partnership Units and the Partnership Agreement of the Operating Partnership.

Pursuant to the operating partnership agreement, limited partners of the operating partnership will have rights beginning 12 months after the completion of the IPO to require the operating partnership to redeem all or part of their operating partnership units for cash equal to the then-current market value of an equal number of shares of the company's Class A common stock (determined in accordance with and subject to adjustment under the partnership agreement), or, at the company's election, to exchange their operating partnership units for shares of the company's Class A common stock on a one-for-one basis subject to certain adjustments and the restrictions on ownership and transfer of the company's stock set forth in the company's charter and described under the section entitled Description of Capital Stock Restrictions on Ownership and Transfer.

## **Registration Rights**

Upon completion of the IPO and the consolidation, the company will enter into a registration rights agreement with certain persons receiving shares of the company's common stock or operating partnership units in the consolidation, including certain members of the company's senior management team. Under the terms of the registration rights agreement, the participants in the consolidation, including the Helmsley estate, will receive rights to have shares of common stock held by them registered for resale under the Securities Act and the Malkin Family and the Helmsley estate will have rights to demand underwritten offerings with respect to such resales. See The Consolidation Registration Rights Agreement.

## **Employment Agreement and Change in Control Severance Agreements**

The company intends to enter into an employment agreement with Anthony E. Malkin that will become effective upon the consummation of the IPO. This agreement will provide for salary, bonuses and other benefits, including among other things, severance benefits upon a termination of employment under certain circumstances and the issuance of equity awards. See Management Employment Agreement. In addition, the company intends to enter into change in control severance agreements with David A. Karp, Thomas P. Durels and Thomas N. Keltner, Jr. that will become effective upon the consummation of the IPO. See Management Change in Control Severance Agreements.

## **Table of Contents**

### **Indemnification of the Company's Directors and Officers**

Upon completion of the IPO, the company intends to enter into indemnification agreements with each of the company's directors, executive officers, chairman emeritus and certain other parties, providing for the indemnification by the company for certain liabilities and expenses incurred as a result of actions brought, or threatened to be brought, against (i) the company's directors, executive officers and chairman emeritus and (ii) the company's executive officers, chairman emeritus and certain other parties who are former members, managers, shareholders, directors, limited partners, general partners, officers or controlling persons of the supervisor in their capacities as such as described in Management Limitation of Liability and Indemnification.

### **Option Agreements**

The company has entered into the option agreements with certain of the private entities supervised by the supervisor granting the company the right to acquire each of the following two option properties or interests therein.

#### **112-122 West 34th Street**

Pursuant to the company's option agreements for 112-122 West 34th Street, the company may acquire from 112 West 34th Street Associates L.L.C. and 112 West 34th Street Company Associates L.L.C. their rights in the property, on or before the later of (i) 12 months after the company receive notice of a settlement or a final, non-appealable judgment of certain ongoing litigation with respect to the property or (ii) six months after the completion of independent valuations described below, but in no event later than seven years from the completion of the IPO. The purchase price will be based on an appraisal by independent third parties, unless the company and the owners of 112-122 West 34th Street, with the consent of the Helmsley estate, agree to a negotiated price, and unless the litigation related to 112-122 West 34th Street is resolved prior to the closing of the consolidation, in which case investors in 112 West 34th Street Associates L.L.C. and 112 West 34th Street Company Associates L.L.C. will receive consideration in connection with the consolidation on the same basis as participants in other entities contributing properties in connection with the consolidation. The company has agreed that Anthony E. Malkin, the company's Chairman, Chief Executive Officer and President, will not participate in the negotiations and valuation process on the company's behalf. One or more of the company's independent directors will lead the appraisal or negotiation process on the company's behalf and a majority of the company's independent directors must approve the price and terms of the acquisition of interests in the company's option property. The purchase price is payable in a combination of cash, shares of the company's common stock and operating partnership units, but the Helmsley estate will have the right to elect to receive all cash. As a result of the ongoing litigation, the company cannot predict when or if the company will acquire this property.

#### **1400 Broadway**

Pursuant to the company's option agreement for 1400 Broadway, the company may acquire from 1400 Broadway Associates L.L.C. its rights in the property, on or before the later of (i) 12 months after the company receive notice of a settlement or a final, non-appealable judgment of certain ongoing litigation with respect to the property or (ii) six months after the completion of independent valuations described below, but in no event later than seven years from the completion of the IPO. The purchase price will be based on an appraisal by independent third parties, unless the company and the owners of 1400 Broadway, with the consent of the Helmsley estate, agree to a negotiated price, and unless the litigation related to 1400 Broadway is resolved prior to the closing of the consolidation, in which case investors in 1400 Broadway Associates L.L.C. will receive consideration in connection with the consolidation on the same basis as participants in other entities contributing properties in connection with the consolidation. The company has agreed that Anthony E. Malkin, the company's Chairman, Chief Executive Officer and President, will not participate in the negotiations and valuation process on the company's behalf. One or more of the company's independent directors will lead the appraisal or

## **Table of Contents**

negotiation process on the company's behalf and a majority of the company's independent directors must approve the acquisition of interests in the company's option property. The purchase price is payable in a combination of cash, shares of the company's common stock and operating partnership units, but the Helmsley estate will have the right to elect to receive all cash. As a result of the ongoing litigation, the company cannot predict when or if the company will acquire this property.

Concurrently with the consummation of the IPO, the company intends to enter into management agreements with respect to each of the option properties.

## **Cash Amounts**

As permitted under the contribution agreements and merger agreements entered into by the company and the subject LLCs, private entities or the management companies, as applicable, the subject LLCs, private entities and the management companies will declare final distributions to the participants in such entities, including members of the company's senior management team and certain of their affiliates and related persons, in the amount of approximately \$        in the aggregate (which amount is the company's estimate based on the company's historical combined balance sheet as of June 30, 2012), of which \$        will be paid to the Malkin Family, including Anthony E. Malkin and Peter L. Malkin, in accordance with their ownership interests in each applicable subject LLC, private entity and management company. These amounts are in addition to the consideration to be received by the Malkin Holdings group in the consolidation, as set forth elsewhere in this prospectus/consent solicitation. The company anticipates this amount will be lower on the date the subject LLCs and private entities declare their respective final distributions due to expenses they will incur and pay in operating their business prior to such declaration date. The contribution agreements and merger agreements provide that the subject LLCs, private entities and management companies may distribute their cash (in the case of the existing entities, excluding from such distributable cash, any reserves on deposit with lenders for escrow accounts; amounts attributable to certain prepayments of rent, management fees or other income streams or expense reimbursements; and amounts held by the existing entities as security deposits or amounts otherwise required to be reserved by the existing entities pursuant to existing agreements with third parties) to their participants in accordance with the provisions of such entities' organizational documents; provided that cash will only be distributed by any entity to the extent that it exceeds the normalized level of net working capital for such entity, as determined by the supervisor (determined based on the most recent quarterly financial statements). Such payments will not be made from the net proceeds of the IPO.

## **Excluded Properties and Businesses**

In addition to the interests in the properties being acquired from the subject LLCs and the private entities or entities organized by them, the Malkin Family owns non-controlling interests in, and Anthony E. Malkin and Peter L. Malkin control the general partners or managers of, the entities that own interests in six multi-family properties, five net leased retail properties, one former post office property which is subject to rezoning before it will be converted into a single tenant retail property, and a development parcel that is zoned for residential use. The Malkin Family also owns non-controlling interests in one Manhattan office property, two Manhattan retail properties and several retail properties outside of Manhattan, none of which will be contributed to the company in the consolidation. The non-controlling interests described above are referred to collectively herein as the excluded properties. In addition, the Malkin Family owns interests in six mezzanine and senior equity funds, two industrial funds, five residential property managers and a registered broker dealer, none of which will be contributed to the company in the consolidation, and which is referred to collectively herein as the excluded businesses. The Malkin Family owns certain non-real estate family investments that will not be contributed to the company in the consolidation. The company does not believe that the excluded properties or the excluded businesses are consistent with its portfolio geographic or property type composition, management or strategic direction.

Pursuant to management agreements with the owners of interests in those excluded properties and services agreements with the five residential property managers and the managers of certain other excluded businesses

## **Table of Contents**

which historically were managed by the supervisor and its affiliates, the company will be designated as the manager of the excluded properties and will provide services to the existing managers of the other excluded businesses (other than with respect to the registered broker dealer). As the manager or service provider, the company will be paid a management or other fee with respect to those excluded properties and excluded businesses (other than with respect to the registered broker dealer) where the supervisor and its affiliates had previously received a management fee on the same terms as the fee paid to the supervisor and its affiliates, and reimbursed for the company's costs in providing the management and other services to those excluded properties and businesses where the supervisor and its affiliates had not previously received a management fee. The company's management of the excluded properties and provision of services to the five residential property managers and the existing manager of the other excluded businesses will represent a minimal portion of the company's overall business. There is no established time period in which the company will manage such properties or provide services to the five residential property managers and the existing managers of the other excluded businesses and Peter L. Malkin and Anthony E. Malkin expect to sell certain of these properties or unwind certain of these businesses over time.

### **Reimbursement of Pre-Closing Transaction Costs**

As part of the contribution and option agreements, the company will reimburse expenses incurred in connection with the consolidation and the IPO that have been paid by subject LLCs, the private entities and the option entities to each applicable subject LLC, private entity and the option entities, and of which \$\_\_\_\_\_ will be paid to the Malkin Holdings group, including Anthony E. Malkin and Peter L. Malkin, in accordance with their ownership interests in each applicable subject LLC and private entity and the supervisor. These amounts are in addition to the consideration to be received by the Malkin Holdings group in the consolidation, as set forth elsewhere in this prospectus/consent solicitation.

### **Repayment of Loan to Existing Entity**

The company expects to use a portion of the net proceeds from the IPO to repay a loan in the amount of \$3.6 million made in connection with 500 Mamaroneck Avenue to fund leasing costs at the property, of which approximately \$1.2 million of such loan was made by Anthony E. Malkin and Peter L. Malkin.

### **Releases of Guarantees**

Peter L. Malkin and Anthony E. Malkin will be released from or otherwise indemnified for liabilities arising under certain guarantees and indemnities with respect to approximately \$1.11 billion of mortgage loans (including currently undrawn amounts) on the company's properties, which will be assumed by the company upon closing of the consolidation in respect of obligations arising after the closing. The guarantees and indemnities with respect to mortgage loans of many of the existing entities, including the subject LLCs, were undertaken by Messrs. Malkin and Malkin to meet a conventional lender requirement which became standard only long after such entities were formed. In each case, Messrs. Malkin and Malkin provided such guarantee while serving in a representative capacity as an agent or member of a subject LLC or private entity which was then seeking a mortgage loan. The lender required such guarantee, and no party was available or willing to provide it except Messrs. Malkin and Malkin. They received no compensation for the guarantee and provided it as an accommodation to benefit such subject LLC or private entity in obtaining financing. The guarantees and indemnities with respect to all of the indebtedness are, in most instances, limited to losses incurred by the applicable lender arising from acts such as fraud, misappropriation of funds, intentional breach, bankruptcy and certain environmental matters. In connection with the company's assumption of these mortgage loans, it will seek to have the guarantors and/or indemnitors released from these guarantees and indemnities and to have the company's operating partnership assume any such guarantee and indemnity obligations as replacement guarantor and/or indemnitor. To the extent lenders do not consent to the release of these guarantors and/or indemnitors, and they remain guarantors and/or indemnitors on assumed indebtedness following the IPO and the consolidation, the operating partnership will enter into indemnification agreements with the guarantors and/or indemnitors pursuant

## **Table of Contents**

to which the operating partnership will be obligated to indemnify such guarantors and/or indemnitors for any amounts paid by them under guarantees and/or indemnities with respect to the assumed indebtedness.

The company believes that since the mortgage loans relating to these guarantees and indemnities will be assumed by the company upon closing of the consolidation, and it will have greater financial resources than the individual property owning entities which are subject to the mortgage loans, it is appropriate, and consistent with market practice, for Messrs. Malkin and Malkin to be indemnified by the company's operating partnership if the lenders do not consent to the release of these guarantors and/or indemnitors. Under the organizational documents of the subject LLCs and private entities and applicable law, Messrs. Malkin and Malkin are already generally entitled to indemnification from the participants in the subject LLCs and the private entities for liabilities incurred by them in good faith and not arising out of their own willful misconduct or gross negligence, including any such liabilities under these guarantees and indemnities. In addition, in connection with future mortgage loans that the company would enter into in connection with future property acquisitions or refinancing of the company's properties, the company intends to enter into any necessary guarantees directly and neither Messrs. Malkin and Malkin nor any of the company's other directors, executive officers or stockholders would be expected to enter into such guarantees.

### **IPO Grants Under the Company's Equity Incentive Plan**

Prior to the completion of the IPO, the company will adopt an equity incentive plan. The company's equity incentive plan provides for the grant of incentive awards to the company's senior management team, the company's independent directors, advisers, consultants and other personnel. Assuming the company receives gross proceeds from the IPO of \$1,000,000,000 (excluding the underwriters' option to purchase additional shares of the Class A common stock), and assuming an IPO price of \$10 per share, the company intends to grant an aggregate of 1,800,000 LTIP units/shares of restricted Class A common stock to the company's independent directors, executive officers (other than Anthony E. Malkin) and certain other employees upon completion of the IPO, and intends to authorize and reserve an additional 18,200,000 shares of the company's Class A common stock for issuance under the company's equity incentive plan. See Management IPO Grants Under the Company's Equity Incentive Plan.

The company anticipates that the company will file a registration statement with respect to the shares of the company's Class A common stock issuable under the company's equity incentive plan following the consummation of the IPO. Shares of the company's Class A common stock covered by this registration statement, including shares of the company's Class A common stock issuable upon the exercise of options or restricted shares of the company's Class A common stock, will be eligible for transfer or resale without restriction under the Securities Act unless held by affiliates. See Management Equity Incentive Plan.

**Table of Contents**

**FIDUCIARY RESPONSIBILITY**

**Directors and Officers of the Company**

The company's directors and officers have duties under applicable Maryland law to manage the company in a manner consistent with the company's best interests. At the same time, the general partner of the operating partnership has fiduciary duties to manage the operating partnership in a manner beneficial to the operating partnership and its partners. The company's duties, as the general partner, to the operating partnership and its limited partners, therefore, may come into conflict with the duties of the company's directors and officers to the company and its stockholders. The company will be under no obligation to give priority to the separate interests of the limited partners of the operating partnership or the company's stockholders in deciding whether to cause the operating partnership to take or decline to take any actions. The limited partners of the operating partnership have agreed that in the event of a conflict in the duties owed by the company's directors and officers to the company and its stockholders and the fiduciary duties owed by the company, in its capacity as general partner of the operating partnership, to such limited partners, the company will fulfill its fiduciary duties to such limited partners by acting in the best interests of the company's stockholders.

The limited partners of the operating partnership expressly acknowledged that the company is acting for the benefit of the operating partnership, the limited partners and the company's stockholders collectively.

**Supervisor of the Subject LLCs and Agent for Participants**

The operating agreement of each subject LLC appoints the supervisor to provide supervisory and other services for the subject LLC. The supervisor is accountable to the subject LLC as a fiduciary and owes the subject LLCs a duty of loyalty and a duty of care. The supervisor's fiduciary duty to the subject LLCs also runs to the participants, as holders of participation interests in the membership interests of the subject LLCs. The supervisor is required to exercise good faith and fair dealing in providing supervisory and other services. The operating agreement of each subject LLC does not limit the liability of the supervisor in connection with providing supervisory and other services to the subject LLC.

The agents hold their membership interests in the subject LLCs as agents for their participants. The agent for each participating group is a fiduciary for the participants in its participating group and owes such participants a duty of loyalty and a duty of care. In connection with these duties, the agent is required to exercise good faith and fair dealing in conducting the affairs of the subject LLC on behalf of its participating group. Each participating agreement for Empire State Building Associates L.L.C. provides that an agent may be personally liable for liabilities under the Securities Act. Each participating agreement for the subject LLCs provides that the agent of a participating group shall not be personally liable for any act performed in good faith or for anything save their willful misconduct or gross negligence. Each participating agreement provides that the participants in a participating group shall indemnify the agent, in proportion to their participation interests, against any liability to which the agent may be subject by reason of having the participating group's interest in a subject LLC in their name. Each participating agreement for Empire State Building Associates L.L.C. provides that the participants in a participating group need not indemnify an agent who incurs a loss or liability as a result of his bad faith or contravention of such participating agreement.

Insofar as the foregoing provisions permit indemnification for liability arising under the Securities Act, the company has been informed that, in the opinion of the SEC, this indemnification is against public policy as expressed in the Securities Act and therefore is unenforceable.

**Table of Contents****DESCRIPTION OF CAPITAL STOCK**

*The following is a summary of the rights and preferences of the company's capital stock. While the company believes the following description covers the material terms of its securities, the description does not purport to be complete and is subject to and is qualified in its entirety by reference to the MGCL and the company's charter and bylaws. The company encourages you to read carefully this entire prospectus, the company's charter and bylaws and the other documents the company refers to for a more complete understanding of the company's securities. Copies of the company's charter and bylaws are filed as exhibits to the registration statement of which this prospectus/consent solicitation is a part. See [Where You Can Find More Information](#).*

**General**

The company's charter provides that it may issue up to 400,000,000 shares of Class A common stock, \$0.01 par value per share, which is referred to herein as the Class A common stock, up to 50,000,000 shares of Class B common stock, \$0.01 par value per share, which is referred to herein as the Class B common stock and, together with the Class A common stock, is referred to herein as the common stock, and up to 50,000,000 shares of preferred stock, \$0.01 par value per share. The company's charter authorizes the board of directors to amend the company's charter from time to time to increase or decrease the aggregate number of authorized shares of stock or the number of shares of stock of any class or series that the company has authority to issue without stockholder approval. After giving effect to the consolidation and the IPO, assuming the company receives gross proceeds from the IPO of \$1,000,000,000 (excluding the underwriters' option to purchase additional shares of the Class A common stock), assuming an IPO price of \$10 per share, and assuming the grant of 1,800,000 LTIP units and/or restricted shares of Class A common stock to the company's independent directors, executive officers (other than Anthony E. Malkin) and certain other employees upon completion of the IPO, 132,856,817 shares of Class A common stock (147,856,817 shares if the underwriters' option to purchase up to 15,000,000 additional shares of Class A common stock is exercised in full) and 2,117,800 shares of Class B common stock will be issued and outstanding on a fully diluted basis and no shares of preferred stock will be issued and outstanding. Under Maryland law, stockholders are not generally liable for the company's debts or obligations solely as a result of their status as stockholders.

**Shares of Common Stock**

All of the shares of Class A common stock and Class B common stock issued in the consolidation will be duly authorized, validly issued, fully paid and nonassessable. Subject to the preferential rights of any other class or series of the company's stock and to the provisions of the company's charter regarding the restrictions on ownership and transfer of the company's stock, holders of shares of common stock are entitled to receive dividends on such shares of common stock out of assets legally available therefore if, as and when authorized by the company's board of directors and declared by the company, and the holders of shares of common stock are entitled to share ratably in the company's assets legally available for distribution to the company's stockholders in the event of the company's liquidation, dissolution or winding up after payment of or adequate provision for all the company's known debts and liabilities.

Subject to the provisions of the company's charter regarding the restrictions on ownership and transfer of the company's stock and except as may otherwise be specified in the company's charter, each outstanding share of Class A common stock entitles the holder thereof to one vote, and each outstanding share of Class B common stock entitles the holder thereof to 50 votes on all matters on which the stockholders of Class A common stock are entitled to vote, including the election of directors, and, except as provided with respect to any other class or series of stock, the holders of shares of Class A common stock and Class B common stock will vote together as a single class and will possess the exclusive voting power. The Class B common stock provides its holder with a voting right that is no greater than if such holder had received solely Class A common stock in the consolidation. Each share of Class B common stock has the same economic interest as a share of Class A common stock, and one share of Class B common stock and 49 operating partnership units together represent a similar economic value as 50 shares of Class A common stock. There is no cumulative voting in the election of the company's directors, which means that the stockholders entitled to cast a majority of the votes of the outstanding shares of common stock can elect all of the directors then standing for election, and the holders of the remaining shares

## **Table of Contents**

will not be able to elect any directors. Directors are elected by a plurality of all the votes cast in the election of directors. Under a plurality voting standard, directors who receive the greatest number of votes cast in their favor are elected to the board of directors. Please see Certain provisions of the Maryland General Corporation Law and the Company's Charter and Bylaws Policy on Majority Voting.

Holders of shares of common stock have no preference, conversion, exchange, sinking fund or redemption rights (other than as described below with respect to the Class B common stock), have no preemptive rights to subscribe for any securities of the company and generally have no appraisal rights unless the company board of directors determines that appraisal rights apply, with respect to all or any such classes or series of stock, to one or more transactions occurring after the date of such determination in connection with which holders of such shares would otherwise be entitled to exercise appraisal rights. Subject to the provisions of the company's charter regarding the restrictions on ownership and transfer of the company's stock and except as otherwise provided in the company's charter, shares of common stock will have equal dividend, liquidation and other rights. One share of Class B common stock may be converted into one share of Class A common stock at any time, and one share of Class B common stock is subject to automatic conversion into one share of Class A common stock upon a direct or indirect transfer of such share of Class B common stock held by the holder of Class B common stock (or a permitted transferee thereof) to a person other than a permitted transferee. Shares of Class B common stock are also subject to automatic conversion upon certain direct or indirect transfers of operating partnership units held by the holder of such Class B common stock at a ratio of one share of Class B common stock for every 49 operating partnership units transferred to a person other than a permitted transferee. A permitted transferee with respect to a person is defined in the company's charter as a family member, affiliate or controlled entity of such person.

Under the MGCL, a Maryland corporation generally cannot dissolve, amend its charter, merge or consolidate with another entity, sell all or substantially all of its assets or engage in a share exchange unless the action is approved by the affirmative vote of stockholders entitled to cast at least two-thirds of the votes entitled to be cast on the matter unless a lesser percentage (but not less than a majority of all of the votes entitled to be cast on the matter) is specified in the corporation's charter. The company's charter provides that these actions (other than certain amendments to the provisions of the company charter related to the removal of directors, the restrictions on ownership and transfer of the company's stock and the vote required to amend these provisions) may be approved by a majority of all of the votes entitled to be cast on the matter.

### **Power to Reclassify the Company's Unissued Shares of Stock**

The company's charter authorizes the company's board of directors to classify and reclassify any unissued shares of common or preferred stock into other classes or series of stock. Prior to issuance of shares of each class or series, the company's board of directors is required by Maryland law and by the company's charter to set, subject to the provisions of the company's charter regarding restrictions on ownership and transfer of the company's stock, the preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms and conditions of redemption for each class or series. Therefore, the company's board of directors could authorize the issuance of shares of common or preferred stock with terms and conditions that may have the effect of delaying, deferring or preventing a change in control or other transaction that might involve a premium price for the company's shares of common stock or otherwise be in the best interest of the company's stockholders. No shares of preferred stock are presently outstanding, and the company has no present plans to issue any shares of preferred stock.

### **Power to Increase or Decrease Authorized Shares of Common Stock and Issue Additional Shares of Common and Preferred Stock**

The company believes the power of the company's board of directors to amend the company's charter from time to time to increase or decrease the number of authorized shares of stock, to issue additional authorized but unissued shares of common or preferred stock and to classify or reclassify unissued shares of common or preferred stock and thereafter to issue such classified or reclassified shares of stock will provide the company with increased flexibility in structuring possible future financings and acquisitions and in meeting other needs

## **Table of Contents**

that might arise. The additional classes or series, as well as the additional shares of common stock, will be available for issuance without further action by the company's stockholders, unless such approval is required by applicable law or the rules of any stock exchange or automated quotation system on which the company's securities may be listed or traded. Although the company's board of directors does not intend to do so, it could authorize the company to issue a class or series of stock that may, depending upon the terms of the particular class or series, delay, defer or prevent a change in control or other transaction that might involve a premium price for the company's shares of common stock or otherwise be in the company's best interest.

### **Restrictions on Ownership and Transfer**

In order for the company to qualify as a REIT under the Code, the company's shares of stock must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months (other than the first year for which an election to be a REIT has been made) or during a proportionate part of a shorter taxable year. In addition, no more than 50% of the value of the outstanding shares of stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the Code to include certain entities) during the last half of any taxable year (other than the first year for which an election to be a REIT has been made). To qualify as a REIT, the company must satisfy other requirements as well. See U.S. Federal Income Tax Considerations Requirements for Qualification General.

The company's charter contains restrictions on the ownership and transfer of the company's shares of common stock and other outstanding shares of stock. The relevant sections of the company's charter provide that no person or entity may own, or be deemed to own, by virtue of the applicable constructive ownership provisions of the Code, more than 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of the company's common stock (the common stock ownership limit), or 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of all classes or series of the company's capital stock (the aggregate stock ownership limit). The common stock ownership limit and the aggregate stock ownership limit are collectively referred to herein as the ownership limits. A person or entity that, but for operation of the ownership limits or another restriction on ownership and transfer of the company's stock as described below, would beneficially own or be deemed to beneficially own, by virtue of the applicable constructive ownership provisions of the Code, shares of the company's stock and/or, if appropriate in the context, a person or entity that would have been the record owner of such shares of the company's stock is referred to as a prohibited owner.

The constructive ownership rules under the Code are complex and may cause shares of stock owned actually or constructively by a group of related individuals and/or entities to be owned constructively by one individual or entity. As a result, the acquisition of less than 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of the company's common stock or 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of all classes or series of the company's stock (or the acquisition of an interest in an entity that owns, actually or constructively, shares of the company's stock) by an individual or entity, could, nevertheless, cause that individual or entity, or another individual or entity, to own constructively in excess of the ownership limits.

The company's board of directors may, in its sole discretion and subject to the receipt of such certain representations, covenants and undertakings deemed reasonably necessary by the board, prospectively or retroactively, exempt a person from the ownership limits and establish an excepted holder limit for such person. However, the company's board of directors may not exempt any person whose ownership of the company's outstanding stock would result in the company's being closely held within the meaning of Section 856(h) of the Code (without regard to whether the ownership interest is held during the last half of a taxable year) or otherwise would result in the company's failing to qualify as a REIT. In order to be considered by the board of directors for exemption, a person also must provide the company's board of directors with information and undertakings deemed satisfactory to the company's board of directors that such person does not own, actually or constructively, an interest in one of the company's tenants (or a tenant of any entity which the company owns or controls) that would cause the company to own beneficially or constructively more than a 9.9% interest in the

## **Table of Contents**

tenant if the income derived by the company from such tenant would reasonably be expected to equal or exceed the lesser of (i) one percent of the company's gross income (as determined for purposes of Section 856(c) of the Code) or (ii) an amount that would cause the company to fail to satisfy any of the gross income requirements of Section 856(c) of the Code. The person seeking an exemption must provide representations and undertakings to the satisfaction of the company's board of directors that it will not violate these restrictions. The person also must agree that any violation or attempted violation of these restrictions will result in the automatic transfer to a trust of the shares of stock causing the violation. As a condition of its waiver, the company's board of directors may require an opinion of counsel or IRS ruling satisfactory to the company's board of directors with respect to the company's qualification as a REIT.

In connection with the waiver of the ownership limits, creating an excepted holder limit or at any other time, the company's board of directors may, in its sole and absolute discretion, from time to time increase or decrease the ownership limits subject to the restrictions in the paragraph above; provided, however, that the ownership limits may not be decreased or increased if, after giving effect to such decrease or increase, five or fewer persons could own or beneficially own in the aggregate, more than 49.9% in value of the company's shares then outstanding. Prior to the modification of the ownership limits, the company's board of directors may require such opinions of counsel, affidavits, undertakings or agreements as it may deem necessary or advisable in order to determine or ensure the company's qualification as a REIT. Reduced ownership limits will not apply to any person or entity whose percentage ownership in the company's shares of common stock or stock of all classes and series, as applicable, is in excess of such decreased ownership limits until such time as such person's or entity's percentage ownership of the company's common stock or stock of all classes and series, as applicable, equals or falls below the decreased ownership limits, but any further acquisition of shares of the company's common stock or stock of all classes and series, as applicable, in excess of such percentage ownership of the company's shares of common stock or total shares of stock will be in violation of the ownership limits.

The company's charter further prohibits:

any person from beneficially or constructively owning (taking into account applicable attribution rules under the Code) shares of the company's stock that would result in the company's being closely held under Section 856(h) of the Code or otherwise cause the company to fail to qualify as a REIT;

any person from beneficially or constructively owning shares of the company's stock to the extent that such ownership would result in the company owning (directly or indirectly) more than a 9.9% interest in one of the company's tenants (or a tenant of any entity which the company owns or controls) if the income derived by the company (either directly or indirectly through one or more partnerships or limited liability companies) from such tenant would reasonably be expected to equal or exceed the lesser of (a) one percent of the company's gross income (as determined for purposes of Section 856(c) of the Code) or (b) an amount that would cause the company to fail to satisfy any of the gross income requirements of Section 856(c) of the Code; and

any person from transferring the company's shares of stock if such transfer would result in the company's shares of stock being beneficially owned by fewer than 100 persons (determined, as a general matter, without reference to any attribution rules).

Any person who acquires or attempts or intends to acquire beneficial or constructive ownership of shares of the company's stock that will or may violate the ownership limits or any of the foregoing restrictions on ownership and transfer will be required to give written notice immediately to the company (or, in the case of a proposed or attempted acquisition, at least 15 days prior written notice to the company) and provide the company with such other information as the company may request in order to determine the effect of such transfer on the company's qualification as a REIT. These restrictions on ownership and transfer will not apply if the company's board of directors determines that it is no longer in the company's best interests to qualify as a REIT or that compliance with such provisions is no longer required for REIT qualification.

---

**Table of Contents**

If any transfer of shares of the company's stock would result in shares of the company's stock being beneficially owned by fewer than 100 persons, such transfer will be null and void and the intended transferee will acquire no rights in such shares. In addition, if any purported transfer of shares of the company's stock or any other event would otherwise result in any person violating the ownership limits or such other limit established by the company's board of directors or in the company's being closely held under Section 856(h) of the Code or otherwise failing to qualify as a REIT or in the company's owning (directly or indirectly) more than a 9.9% interest in one of the company's tenants (or a tenant of any entity which the company owns or controls) if the income derived by the company from such tenant would reasonably be expected to equal or exceed the lesser of (i) one percent of the company's gross income (as determined for purposes of Section 856(c) of the Code) or (b) an amount that would cause the company to fail to satisfy any of the gross income requirements of Section 856(c) of the Code, then generally that number of shares (rounded up to the nearest whole share) that would cause the company to violate such restrictions will be automatically transferred to, and held by, a trust for the exclusive benefit of one or more charitable organizations selected by the company and the intended transferee will acquire no rights in such shares. The automatic transfer will be effective as of the close of business on the business day prior to the date of the violative transfer or other event that results in a transfer to the trust. Any dividend or other distribution paid to the prohibited owner, prior to the company's discovery that the shares had been automatically transferred to a trust as described above, must be repaid to the trustee upon demand for the benefit of the charitable beneficiary of the trust. If the transfer to the trust as described above is not automatically effective, for any reason, to prevent violation of the applicable ownership limits or the company's being closely held under Section 856(h) of the Code or otherwise failing to qualify as a REIT, then the company's charter provides that the transfer of the shares will be null and void.

Shares of stock transferred to the trustee are deemed offered for sale to the company, or the company's designee, at a price per share equal to the lesser of (i) the price paid by the prohibited owner for the shares (or, in the event of a gift, devise or other such transaction, the last reported sales price reported on the NYSE (or other applicable exchange) on the day of the event which resulted in the transfer of such shares of stock to the trust) and (ii) the market price on the date the company, or the company's designee, accepts such offer. The company has the right to accept such offer until the trustee has sold the shares of the company's stock held in the trust pursuant to the clauses discussed below. Upon a sale to the company, the interest of the charitable beneficiary in the shares sold terminates, the trustee must distribute the net proceeds of the sale to the prohibited owner but the trustee may reduce the amount payable to the prohibited owner by the amount of dividends and other distributions which have been paid to the prohibited owner and are owed by the prohibited owner to the trustee. To the extent the prohibited owner would receive an amount for such shares that exceeds the amount that such prohibited owner would have been entitled to receive had the trustee sold the shares held in the trust to a third party, such excess shall be retained by the trustee for the benefit of the charitable beneficiary.

If the company does not buy the shares, the trustee must, within 20 days of receiving notice from the company of the transfer of shares to the trust, sell the shares to a person designated by the trustee who could own the shares without violating the ownership limitations set forth in the charter. Upon such sale, the trustee must distribute to the prohibited owner an amount equal to the lesser of (i) the price paid by the prohibited owner for the shares (or, in the event of a gift, devise or other such transaction, the last reported sales price reported on the NYSE (or other applicable exchange) on the day of the event which resulted in the transfer of such shares of stock to the trust) and (ii) the sales proceeds (net of commissions and other expenses of sale) received by the trustee for the shares. The trustee will reduce the amount payable to the prohibited owner by the amount of dividends and other distributions which have been paid to the prohibited owner and are owed by the prohibited owner to the trustee. Any net sales proceeds in excess of the amount payable to the prohibited owner will be immediately paid to the beneficiary of the trust and any dividend or other distribution paid to trustee shall be held in trust for the charitable beneficiary. In addition, if, prior to discovery by the company that shares of stock have been transferred to a trust, such shares of stock are sold by a prohibited owner, then such shares will be deemed to have been sold on behalf of the trust and to the extent that the prohibited owner received an amount for such shares that exceeds the amount that such prohibited owner was entitled to receive, such excess amount will be paid to the trustee upon demand. The prohibited owner has no rights in the shares held by the trustee.

## **Table of Contents**

The trustee will be designated by the company and will be unaffiliated with the company and with any prohibited owner. Prior to the sale of any shares by the trust, the trustee will receive, in trust for the beneficiary of the trust, all dividends and other distributions paid by the company with respect to the shares held in trust and may also exercise all voting rights with respect to the shares held in trust. These rights will be exercised for the exclusive benefit of the beneficiary of the trust. Any dividend or other distribution paid prior to the company's discovery that shares of stock have been transferred to the trust will be paid by the recipient to the trustee upon demand. Any dividend or other distribution authorized but unpaid will be paid when due to the trustee.

Subject to Maryland law, effective as of the date that the shares have been transferred to the trust, the trustee will have the authority, at the trustee's sole discretion:

to rescind as void any vote cast by a prohibited owner prior to the company's discovery that the shares have been transferred to the trust; and

to recast the vote in accordance with the desires of the trustee acting for the benefit of the beneficiary of the trust. However, if the company has already taken irreversible corporate action, then the trustee may not rescind and recast the vote.

In addition, if the company's board of directors or other permitted designees determine in good faith that a proposed transfer would violate the restrictions on ownership and transfer of the company's shares of stock set forth in the company's charter, the company's board of directors or other permitted designees will take such action as it deems or they deem advisable to refuse to give effect to or to prevent such transfer, including, but not limited to, causing the company to redeem the shares of stock, refusing to give effect to the transfer on the company's books or instituting proceedings to enjoin the transfer.

Every owner of 5% or more (or such lower percentage as required by the Code or the regulations promulgated thereunder) of the company's stock, within 30 days after the end of each taxable year, is required to give the company written notice, stating the stockholder's name and address, the number of shares of each class and series of the company's stock that the stockholder beneficially owns and a description of the manner in which the shares are held. Each such owner must provide the company with such additional information as the company may request in order to determine the effect of the stockholder's beneficial ownership on the company's qualification as a REIT and to ensure compliance with the ownership limits. In addition, each stockholder must provide the company with such information as the company may request in good faith in order to determine the company's qualification as a REIT and to comply with the requirements of any taxing authority or governmental authority or to determine such compliance.

Any certificates, or written statements of information delivered in lieu of certificates, representing shares of the company's stock will bear a legend referring to the restrictions described above.

These restrictions on ownership and transfer will not apply if the company's board of directors determines that it is no longer in the company's best interests to qualify as a REIT or that compliance with such provisions is no longer required for REIT qualification.

These ownership limits could delay, defer or prevent a transaction or a change in control that might involve a premium price for the company's common stock or otherwise be in the best interest of the company's stockholders.

### **Transfer Agent and Registrar**

The company expects the transfer agent and registrar for the company's shares of common stock to be American Stock Transfer & Trust Company, LLC.

**U.S. FEDERAL INCOME TAX CONSIDERATIONS**

The following is a summary of the material U.S. federal income tax consequences relating to the consolidation, the voluntary pro rata reimbursement program for the former property manager and leasing agent legal proceedings, a third-party portfolio transaction, the company's qualification and taxation as a REIT, and the acquisition, holding, and disposition of operating partnership units and the company's common stock. Except to the limited extent discussed below, this summary does not address the tax consequences relating to any amounts, whether cash or securities, received by a participant as a result of the Stipulation of Settlement resolving the Class Actions. For purposes of this section under the heading U.S. Federal Income Tax Considerations, references to the company, mean only Empire State Realty Trust, Inc. and not its subsidiaries or other lower-tier entities, except as otherwise indicated. You are urged to both review the following discussion and to consult your tax advisor to determine the effects of the consolidation, the voluntary pro rata reimbursement program for the former property manager and leasing agent legal proceedings, a third-party portfolio transaction, and ownership and disposition of operating partnership units and the company's shares on your individual tax situation, including any state, local or non-U.S. tax consequences.

This summary is based upon the Code, the regulations promulgated by the U.S. Treasury Department, or the Treasury Regulations, current administrative interpretations and practices of the IRS (including administrative interpretations and practices expressed in private letter rulings which are binding on the IRS only with respect to the particular taxpayers who requested and received those rulings) and judicial decisions, all as currently in effect, and all of which are subject to differing interpretations or to change, possibly with retroactive effect. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below. Except to the extent described below, no advance ruling has been or will be sought from the IRS regarding any matter discussed in this summary.

This summary is also based upon the assumption that the operation of the company, and of its subsidiaries and other lower-tier and affiliated entities, will in each case be in accordance with its applicable organizational documents or partnership agreements. This summary does not discuss the impact that U.S. state and local taxes and taxes imposed by non-U.S. jurisdictions could have on the matters discussed in this summary, except to the limited extent discussed below. In addition, this summary assumes that you will hold the company's common stock or operating partnership units as a capital asset, which generally means as property held for investment. This summary is for general information only, and does not purport to discuss all aspects of U.S. federal income taxation that may be important to a particular participant in light of the participant's investment or tax circumstances, or to participants subject to special tax rules, such as:

U.S. expatriates;

persons who mark-to-market the company's common stock;

subchapter S corporations;

U.S. persons, as defined below, whose functional currency is not the U.S. dollar;

financial institutions;

insurance companies;

broker-dealers;

regulated investment companies, or RICs ;

REITs;

trusts and estates;

holders who receive common stock through the exercise of employee stock options or otherwise as compensation;

persons holding common stock as part of a straddle, hedge, conversion transaction, synthetic security or other integrated investment

---

**Table of Contents**

persons subject to the alternative minimum tax provisions of the Code;

persons holding their interest through a partnership or similar pass-through entity;

persons holding a 10% or more (by vote or value) beneficial interest in the company and, except to the extent discussed below:

tax-exempt organizations and

non-U.S. persons who hold common stock (a non-U.S. stockholder ) or operating partnership units, as defined below. For purposes of this summary, a U.S. person is a participant who for U.S. federal income tax purposes is:

a citizen or resident of the U.S.;

a corporation (including an entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the U.S. or of a political subdivision thereof (including the District of Columbia);

an estate whose income is subject to U.S. federal income taxation regardless of its source or

any trust if (1) a U.S. court is able to exercise primary supervision over the administration of such trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (2) it has a valid election in place to be treated as a U.S. person.

A non-U.S. person who holds common stock or operating partnership units is a participant who is neither a U.S. person nor an entity that is treated as a partnership for U.S. federal income tax purposes. The U.S. federal, state, local, and foreign tax consequences to a non-U.S. person of the consolidation and holding operating partnership units are complex and will depend on certain facts, including whether the series of operating partnership units received by such non-U.S. holder are regularly traded on an established securities market. Accordingly, non-U.S. holders are urged to consult with their tax advisor regarding the U.S. federal, state, local, and foreign tax consequences of the consolidation and the holding of operating partnership units in light of their particular circumstances.

THE U.S. FEDERAL INCOME TAX TREATMENT OF THE CONSOLIDATION, THE VOLUNTARY PRO RATA REIMBURSEMENT PROGRAM FOR THE FORMER PROPERTY MANAGER AND LEASING AGENT LEGAL PROCEEDINGS, A THIRD-PARTY PORTFOLIO TRANSACTION, AND OF HOLDERS OF OPERATING PARTNERSHIP UNITS AND COMMON STOCK DEPENDS IN SOME INSTANCES ON DETERMINATIONS OF FACT AND INTERPRETATIONS OF COMPLEX PROVISIONS OF U.S. FEDERAL INCOME TAX LAW FOR WHICH NO CLEAR PRECEDENT OR AUTHORITY MAY BE AVAILABLE. IN ADDITION, THE TAX CONSEQUENCES OF THE CONSOLIDATION, THE VOLUNTARY PRO RATA REIMBURSEMENT PROGRAM FOR THE FORMER PROPERTY MANAGER AND LEASING AGENT LEGAL PROCEEDINGS, A THIRD-PARTY PORTFOLIO TRANSACTION, AND HOLDING OPERATING PARTNERSHIP UNITS AND COMMON STOCK TO ANY PARTICULAR PARTICIPANT WILL DEPEND ON THE PARTICIPANT'S PARTICULAR TAX CIRCUMSTANCES. AMONG OTHER THINGS, THE CONSOLIDATION MAY HAVE SIGNIFICANT AND ADVERSE TAX CONSEQUENCES TO YOU, EVEN IF YOU RECEIVE OPERATING PARTNERSHIP UNITS. YOU ARE URGED TO CONSULT YOUR TAX ADVISOR REGARDING THE U.S. FEDERAL, STATE, LOCAL, AND FOREIGN INCOME AND OTHER TAX CONSEQUENCES TO YOU, IN LIGHT OF YOUR PARTICULAR INVESTMENT OR TAX CIRCUMSTANCES, OF THE CONSOLIDATION, THE VOLUNTARY PRO RATA REIMBURSEMENT PROGRAM FOR THE FORMER PROPERTY MANAGER AND LEASING AGENT LEGAL PROCEEDINGS, A THIRD-PARTY PORTFOLIO TRANSACTION, AND OF ACQUIRING, HOLDING, AND DISPOSING OF OPERATING PARTNERSHIP UNITS AND COMMON STOCK.

---

## **Table of Contents**

### **U.S. Federal Income Tax Consequences of the Consolidation**

The following discussion assumes that the operating partnership is treated as a partnership and not as a publicly traded partnership taxable as a corporation (as described below) for U.S. federal income tax purposes.

#### ***General***

The intended U.S. federal income tax consequences of the consolidation to a participant will depend on the type of consideration the participant receives in the consolidation. If a participant receives a combination of operating partnership units and shares of common stock in the consolidation, the U.S. federal income tax consequences of the consolidation to such participant generally depend on whether the fair market value of the shares of common stock received by the participant exceeds such participant's reimbursement amount (as defined below). For any participant who receives operating partnership units in the consolidation, the fair market value of any shares of common stock (taking into account shares of common stock deemed to be received in connection with the voluntary pro rata reimbursement program, as described below) that such participant also receives that do not exceed the participant's reimbursement amount is referred to as reimbursement shares of common stock, and any shares of common stock (taking into account shares of common stock deemed to be received in connection with the voluntary pro rata reimbursement program, as described below) that such participant receives in excess of such participant's reimbursement amount is referred to as excess shares of common stock.

It is expected that the consolidation should be treated for U.S. federal income tax purposes as follows:

- (i) If you receive solely shares of Class A common stock, the consolidation should be treated as a taxable sale of your participation interest in which gain or loss is fully recognized. See Receipt of Common Stock Solely Class A Common Stock.
- (ii) If you receive solely operating partnership units, or if you receive a combination of (a) operating partnership units and (b) shares of common stock that do not exceed your allocable share of certain qualified capital expenditures of the subject LLC as described below under Receipt of Operating Partnership Units (the reimbursement amount), the subject LLC should be treated as contributing its property to the operating partnership in exchange for operating partnership units and reimbursement common stock as a reimbursement of qualified capital expenditures in a tax-deferred contribution, and the subject LLC should be treated as distributing operating partnership units and reimbursement common stock to you in a tax-deferred distribution. See Receipt of Operating Partnership Units.
- (iii) If you receive a combination of (a) operating partnership units and (b) shares of common stock in excess of your reimbursement amount, you should be treated as first selling a portion of your participation interest for such excess shares of common stock in a transaction in which gain or loss is recognized. Following such sale, the subject LLC should be treated as contributing the portion of its property not attributable to participation interests otherwise treated as having been sold to the operating partnership in exchange for operating partnership units and reimbursement common stock as a reimbursement of qualified capital expenditures in a tax-deferred contribution, and the subject LLC should be treated as distributing operating partnership units and reimbursement shares of common stock equal to your reimbursement amount to you in a tax-deferred distribution. See Receipt of Common Stock Excess Common Stock.

If you receive solely shares of common stock in the consolidation, you will be deemed to have consented to treat the consolidation as a sale of your participation interest in exchange for such shares of common stock for U.S. federal income tax purposes. If you receive a combination of (a) operating partnership units and (b) common stock in excess of your reimbursement amount in the consolidation, upon receipt of such excess shares of common stock, you will be deemed to have consented to treat the consolidation as a sale of a portion of your participation interest in exchange for such excess shares of common stock for U.S. federal income tax purposes. When a partnership contributes all of its assets to another partnership and liquidates, the Treasury Regulations generally allow a partner in the liquidating partnership who receives consideration other than an

---

**Table of Contents**

interest in the surviving partnership to consent to be treated as if such partner sold all or a portion of its interest in the liquidating partnership for such other consideration. However, the Treasury Regulations do not specifically indicate whether such partner can be deemed to consent to treat the transaction as a sale of a portion of its partnership interest in exchange for only a portion of such additional consideration, with the remaining portion being treated as a reimbursement of qualified capital expenditure. The remainder of this discussion assumes that such parties can so consent. If, however, the IRS were to challenge the treatment of the consolidation as a sale of your participation interest only to the extent of the excess shares of common stock that you receive, you could recognize a greater amount of gain than the amount described herein.

If you consent to the voluntary pro rata reimbursement program, you may be treated as receiving shares of common stock that you would otherwise receive in the consolidation and immediately transferring such shares of common stock to the supervisor as a reimbursement payment. For this purpose, even if you elect to receive solely operating partnership units in the consolidation, you should be treated as receiving shares of common stock equal to the amount that you are treated as transferring to the supervisor as a reimbursement payment. Accordingly, the gain or loss that you recognize in the consolidation transaction should take into account your deemed receipt of such common stock. You should be entitled to deduct the value of the shares of common stock that you are deemed to pay to the supervisor as an expense associated with your participation interest in your subject LLC. This deduction should offset the amount of gain you recognize, or increase the amount of losses you would otherwise recognize, as a result of your deemed receipt of shares of common stock. However, this deduction may be subject to certain limitations depending on your individual circumstances and may be required to be capitalized, and you should consult with your tax advisor regarding your ability to utilize all or a portion of this deduction for U.S. federal income tax purposes. See U.S. Federal Income Tax Considerations U.S. Federal Income Tax Considerations of the Voluntary Pro Rata Reimbursement Program for the Former Property Manager and Leasing Agent Legal Proceedings.

***Receipt of Common Stock***

***Solely Class A Common Stock.*** If you elect to receive solely Class A common stock in exchange for your participation interest, as a general matter, you will recognize gain or loss for U.S. federal income tax purposes with respect to your participation interest equal to the amount by which the value of any shares of Class A common stock you receive in connection with the consolidation, plus the amount of liabilities allocable to your participation interest, exceeds your tax basis. You generally will recognize phantom income (*i.e.*, income or gain in excess of the value of any shares of Class A common stock you receive) if you have a negative capital account with respect to your participation interest. As a result, the amount of gain you recognize in connection with the consolidation, or even any resulting U.S. federal income tax liability, may exceed the value of Class A common stock that you receive in connection with the consolidation. The supervisor believes that participants in 60 East 42nd St. Associates L.L.C. who have held their participation interests since the subject LLC's original investment had a negative capital account of approximately \$22,500 per original \$10,000 investment and participants in 250 West 57th St. Associates L.L.C. who have held their participation interests since the subject LLC's original investment had a negative capital account of approximately \$14,000 per original \$10,000 investment as of December 31, 2011.

***Excess Common Stock.*** If you are treated as selling a portion of your participation interest for U.S. federal income tax purposes because you receive a combination of operating partnership units and excess shares of common stock in the consolidation, you generally should recognize gain or loss with respect to such portion of your participation interest sold equal to the difference between your amount realized (which generally will equal the fair market value of any excess shares of common stock you receive in connection with the consolidation, plus your share of liabilities allocated to the portion of your participation interest that is treated as sold) and your adjusted tax basis in the portion of your participation interest treated as sold. For those purposes, your adjusted tax basis in your participation interest and your share of liabilities from such subject LLC must be allocated between (a) the portion of your participation interest treated as sold for such excess shares of common stock and (b) the portion of your participation interest for which you are deemed to receive a liquidating distribution of

---

## **Table of Contents**

operating partnership units and reimbursement shares of common stock from your subject LLC. In most circumstances, your adjusted tax basis and your share of liabilities should be allocated between the two portions of your participation interest based on their relative fair market values. However, the applicable allocation rules are complex, and you are urged to consult with your tax advisor regarding the tax consequences of receiving a combination of operating partnership units and excess shares of common stock in the consolidation.

*Character of Gain Recognized.* Except as described in the following paragraph, and provided you are a U.S. individual participation interest holder, gain that you recognize, computed as described above, generally will be capital gain and will be treated as long term capital gain subject to a maximum U.S. federal income tax rate of 20% for non-corporate holders with respect to taxable years beginning after December 31, 2012, except to the extent such gain is attributable to the recapture of your share of prior real estate depreciation, in which case such gain is currently subject to a maximum U.S. federal income tax rate of 25% for non-corporate holders, in each case, provided you have a holding period in your participation interest of more than one year. In addition, if you acquired your participation interest after December 31, 2000 and you have a holding period in your participation interest of more than five years, gain that you recognize with respect to your participation interest may be eligible for a maximum U.S. federal income tax rate of 18% applicable to non-corporate holders for taxable years beginning after December 31, 2012, except to the extent that such gain is attributable to the recapture of your share of prior real estate depreciation, as described above.

Notwithstanding the general rule that any gain or loss you recognize will be capital gain or loss, you may recognize ordinary income or loss under the special rules of Section 751(a) of the Code. Under Section 751(a), you generally will recognize ordinary income (or loss) with respect to a sale of all or a portion of your participation interest to the extent that the amount realized (*i.e.*, the fair market value of the shares of common stock received for your participation interests, increased by the liabilities allocable to such participation interests) is attributable to any of your subject LLC's inventory and unrealized receivables (customarily referred to as hot assets). For this purpose, unrealized receivables are defined generally as rights to receive payment for goods and services to the extent not already recognized in income, as well as certain amounts of ordinary income the subject LLC would recognize if it sold its properties for fair market value (for example, depreciation recapture under Code Section 1245 attributable to depreciable non-real estate assets that have a fair market value in excess of their tax basis). The amount of ordinary income or loss recognized under Section 751(a) of the Code is generally equal to the amount of income or loss from hot assets that would be allocated to you if your subject LLC sold all of its assets for fair market value in a fully-taxable transaction. It is anticipated that a small portion of any gain you recognize in the consolidation may be treated as ordinary income under Section 751(a) of the Code.

*Basis in Common Stock.* As a general matter, if you receive shares of common stock of the company in the consolidation as part of a sale of all of your participation interest, or if you receive excess shares of common stock in the consolidation as part of a sale of a portion of your participation interest, you will have an initial aggregate tax basis in those shares equal to the aggregate fair market value of those shares on the date of the consolidation, and your holding period in such shares generally will begin on the day after the consolidation.

### ***Receipt of Operating Partnership Units***

*General.* It is intended that the exchange of participation interests solely for operating partnership units generally should be treated as a tax-deferred exchange for U.S. federal income tax purposes. Accordingly, if you receive solely operating partnership units in exchange for your participation interests, gain should generally not be recognized with respect to the operating partnership units received for U.S. federal income tax purposes unless (i) the disguised sale rules of the Code apply, (ii) you are deemed to receive a distribution of cash in excess of your tax basis under Sections 731 and 752(b) of the Code due to a reduction in your share of partnership liabilities, or (iii) you have at-risk recapture income under Section 465(e) of the Code.

Section 731(a) of the Code generally provides that, when a partnership distributes money and other property to a partner, the partner does not recognize gain except to the extent that the amount of money exceeds the

**Table of Contents**

partner's basis in the partner's partnership interest. Section 731(c) of the Code generally provides that marketable securities are treated as cash for purposes of Section 731 of the Code, subject to certain exceptions. Among the exceptions, the Treasury Regulations provide that a marketable security distributed by a partnership is not treated as cash for purposes of Section 731 of the Code if (i) the security was acquired by the partnership in a nonrecognition transaction (*i.e.*, a transaction in which gain is not recognized in whole or in part for U.S. federal income tax purposes), (ii) less than 20% of the property transferred by the partnership in the nonrecognition transaction by value consisted of cash and/or marketable securities, and (iii) the partnership distributed the security within five years of the date the partnership acquired the security (the Marketable Securities Exception). The operating partnership units acquired by the subject LLC and distributed to participants will be treated as marketable securities for this purpose because certain operating partnership units will be listed on the NYSE following the IPO. However, the deemed distribution of operating partnership units from the subject LLC to participants should qualify for the Marketable Securities Exception. As a result, Section 731(c) of the Code should not cause a participant who receives solely operating partnership units to recognize gain for U.S. federal income tax purposes.

*Receipt of Reimbursement Shares of Common Stock.* It is intended that the receipt of reimbursement shares of common stock by a participant generally should be treated as (i) a distribution of such reimbursement shares of common stock from the operating partnership to the subject LLC in reimbursement of certain capital expenditures incurred by the subject LLC during the two years preceding the consolidation and (ii) a liquidating distribution of such reimbursement shares of common stock (along with operating partnership units that you receive in the consolidation) by the subject LLC to you.

As noted above, under Section 731(a) of the Code, a partner in a partnership who receives a distribution from the partnership does not generally recognize gain unless the partner receives cash, or marketable securities treated as cash under Section 731(c) of the Code, in excess of such partner's basis in its interest in the partnership. Although reimbursement shares of common stock are likely to be treated as marketable securities for this purpose, it is intended that any reimbursement shares of common stock distributed to any participant should qualify for the Marketable Securities Exception because such shares of common stock should be transferred from the operating partnership to the subject LLC in a nonrecognition transaction and should meet the other requirements applicable to this exception, described above. See *Receipt of Operating Partnership Units - General*. Accordingly, under these rules, you should not recognize gain or loss from your receipt of any reimbursement shares of common stock.

If you receive any reimbursement shares of common stock, your basis in your operating partnership units and your basis in any reimbursement shares of common stock that you receive generally should be determined by reference to the adjusted tax basis of such operating partnership units and any such shares of common stock in the hands of the subject LLC. However, to the extent that the aggregate basis, to your subject LLC, of such operating partnership units and any reimbursement shares of common stock that you receive is different than the basis of your participation interest (without taking into account the basis of any portion of your participation interest treated as sold for excess shares of common stock), the basis of such operating partnership units and any such shares of common stock generally should be adjusted to take into account such difference in the manner provided under applicable Treasury Regulations. Although not entirely clear under current law, it is generally expected that your subject LLC's adjusted tax basis in any reimbursement shares of common stock should be equal to the fair market value of such shares of common stock. Your basis in your operating partnership units and any reimbursement shares of common stock that you receive may also be adjusted to take into account any change in your allocable share of liabilities, as described under *Receipt of Operating Partnership Units - Relief from Liabilities and Share of Liabilities*. You should consult your tax advisor regarding the adjusted tax basis of any reimbursement shares of common stock you receive in the consolidation.

*Potential Application of the Disguised Sale Regulations.* Section 707(a)(2)(B) of the Code and the Treasury Regulations thereunder (referred to herein as the *Disguised Sale Regulations*) generally provide that, unless one of certain prescribed exceptions is applicable, a partner's contribution of property to a partnership and a simultaneous or subsequent transfer of money or other consideration (including the assumption of or taking

---

**Table of Contents**

subject to a liability) by the partnership to the partner within two years of such contribution will be presumed to be a sale, in whole or in part, of such property by the partner to the partnership unless the facts and circumstances clearly establish that the transfers do not constitute a sale. The Disguised Sale Regulations also provide, however, that if more than two years have passed between the transfer of money or other consideration and the contribution of property, the transactions will be presumed not to be a sale unless the facts and circumstances clearly establish that the transfers constitute a sale. In general, a payment that is dependent on the entrepreneurial risks of partnership operations is not treated as part of a disguised sale. As further discussed below, it is intended that the Disguised Sale Regulations should not apply to (i) the assumption of liabilities of your subject LLC by the operating partnership in the consolidation, (ii) the receipt by the subject LLC of operating partnership units and reimbursement shares of common stock in exchange for its assets and the liquidation of the subject LLC and corresponding distribution to you of operating partnership units and reimbursement shares of common stock (iii) actual distributions of operating cash flow to you following the consolidation, or (iv) to any redemption of your operating partnership units by the operating partnership. Nonetheless, there can be no assurance that the IRS might not seek to contend that the Disguised Sale Regulations will apply to these transactions and/or to certain other circumstances. In particular, the IRS could contend that your receipt of reimbursement shares, the assumption by the operating partnership of your subject LLC's liabilities, or certain other distributions with respect to your operating partnership units during the two-year period following the consolidation are taxable as consideration received in a disguised sale under the Disguised Sale Regulations.

The Disguised Sale Regulations provide that distributions from a partnership to a partner in connection with a contribution by the partner to the partnership are not treated as a disguised sale to the extent that such distributions do not exceed the amount of certain qualified capital expenditures incurred by the partner. For this purpose, qualified capital expenditures generally include capital expenditures that (i) are incurred by the partner during the two-year period preceding the contribution by the partner to the partnership, (ii) are incurred with respect to property contributed by the partner to the partnership, and (iii) do not exceed 20 percent of the fair market value of such property at the time of such contribution. Qualified capital expenditures may exceed the limitation described in clause (iii), however, if the fair market value of the contributed property does not exceed 120% of the partner's adjusted basis in the property at the time of the contribution. Any reimbursement shares of common stock you receive, as well as any cash your subject LLC receives as a reimbursement of any consolidation expenses paid by it, are intended to qualify for this exception from the Disguised Sale Regulations, and subject to the discussion below, should not be treated as part of a disguised sale.

Although the operating partnership's assumption of a subject LLC's liabilities (or the taking by the operating partnership of the property of a subject LLC subject to any such liability) constitutes a transfer by the operating partnership to the subject LLC, no disguised sale should result where the liabilities assumed or taken subject to by the operating partnership constitute qualified liabilities. Qualified liabilities generally include, among others, (i) a liability that was incurred by a subject LLC more than two years prior to the consolidation and that has encumbered the subject LLC's property throughout such two year period, (ii) a liability properly allocated to qualified capital expenditures with respect to the subject LLC's property, and (iii) a liability incurred in the ordinary course of the trade or business in which the property of the subject LLC was used. Furthermore, no disguised sale should result from the operating partnership's assumption of a subject LLC's liabilities (or the taking by the operating partnership of the property of a subject LLC subject to any such liability) even if the assumed liabilities do not constitute qualified liabilities provided your share of operating partnership liabilities immediately following the transfer, excluding any qualified liabilities assumed by the operating partnership from your subject LLC or otherwise allocated to you prior to the consolidation, is not less than your share of the subject LLC's liabilities immediately prior to the transfer (applying certain special liability allocation rules).

As an example, if, within two years prior to the consolidation, you received a distribution of proceeds from a financing by a subject LLC whose property is being contributed, your receipt of operating partnership units in exchange for participation interests in such subject LLC may be treated as a disguised sale if such liability is considered to not be a qualified liability and you do not maintain a sufficient share of operating partnership liabilities for purposes of the Disguised Sale Regulations as described in the preceding paragraph.

---

**Table of Contents**

In addition, certain ambiguities exist with respect to the interaction of the capital expenditure reimbursement rules and the qualified liability rules of the Disguised Sale Regulations; specifically as to whether the reimbursement of qualified capital expenditures needs to be reduced by liabilities used to fund such capital expenditures that are otherwise treated as qualified liabilities. Accordingly, although the operating partnership intends to treat any such liability of a subject LLC as a qualified liability, to the extent any participant's reimbursement amount includes capital expenditures funded with the proceeds of such a liability incurred by a subject LLC, and such participant receives reimbursement shares, such participant could be subject to the Disguised Sale Regulations to the extent the IRS were to successfully assert that such a liability is not a qualified liability and such participant does not otherwise maintain a sufficient share of operating partnership liabilities for purposes of the Disguised Sale Regulations as described above.

With respect to any actual cash distributions by the operating partnership within two years of the consolidation, the Disguised Sale Regulations provide that payments to partners that constitute operating cash flow distributions generally are presumed not to be a part of a sale of property to the partnership, even if they occur within two years of the contribution to the partnership. Distributions to a partner during a particular year qualify as operating cash flow distributions for this purpose so long as the total amount of distributions to such partner do not exceed the product of the partnership's net cash flow from operations for the year multiplied by the partner's applicable percentage share of overall profits for that year, or, if less, for the life of the partnership. It is not clear whether the operating cash flow safe harbor will apply to distributions to the holders of operating partnership units. The operating partnership generally intends to take the position that distributions with respect to your operating partnership units during the two-year period following the closing of the consolidation (including any redemption of operating partnership units prior to the second anniversary of the consolidation, as described herein) are not taxable as consideration received in a disguised sale because such distributions, as well as any other redemption payments, will be subject to the entrepreneurial risks of the operating partnership, and accordingly, any regulatory presumption regarding disguised sale treatment should likely be rebuttable. However, the operating partnership may, under the Disguised Sale Regulations, be required to disclose such distributions, as well as any redemption payments, to the IRS, to the extent the operating partnership determines that they are not eligible for any safe harbor. Moreover, there can be no guarantee that circumstances will not change and that the operating partnership will not make one or more extraordinary cash distributions and/or distributions of other property to all holders of operating partnership units that could be viewed as part of a disguised sale to the extent received by a holder of operating partnership units that was a participant.

If the IRS is successful in arguing that either a distribution or a redemption is a disguised sale, any such disguised sale may qualify as an installment sale under Section 453 of the Code, and thus you may be entitled to defer any taxable gain until the date of the deemed payment. However, other general tax principles applicable in the case of installment sales would apply. For example, interest expense and interest income may be imputed for U.S. federal income tax purposes to you and the operating partnership, respectively, and you may be required under Section 453A of the Code to pay interest to the IRS (at the U.S. federal underpayment rate) on the amount of deferred tax attributable to such deemed installment sale.

To the extent the Disguised Sale Regulations apply to any portion of a participant's transfer of participation interests to the operating partnership, such transfer should be treated as a sale by the participant and a purchase of such participation interest by the operating partnership directly from the participant as described above in General.

*Relief from Liabilities and Share of Liabilities.* Your share of liabilities associated with your participation interest in a subject LLC has a significant impact on the U.S. federal income tax consequences to you regardless of whether you receive solely shares of Class A common stock for your participation interests in the consolidation or if you receive operating partnership units in the consolidation. In addition, if you receive operating partnership units in the consolidation, your share of the operating partnership's liabilities will also have a significant impact on the U.S. federal income tax consequences to you following the consolidation. The following is a general summary of the rules for determining your share of liabilities. Due to the complexity of the rules under which partnership liabilities are allocated, you are strongly encouraged to consult your tax advisor regarding the application of these rules to your particular circumstances.

---

**Table of Contents**

A partner's share of the liabilities of a partnership is determined under Section 752 of the Code and the Treasury Regulations thereunder. In general, each liability of a partnership is allocated to those partners who bear the economic risk of loss if each liability is not paid by the partnership, whether they bear the risk of loss as general partners of the partnership, by contract, by reason of being the lender to the partnership with respect to such liability or otherwise. In general, liabilities for which no partner bears the economic risk of loss, so-called nonrecourse liabilities, are allocated among the partners in three tiers: *first*, among the partners in accordance with their share of partnership minimum gain; *second*, in proportion to the taxable gain that would be allocated under Section 704(c) of the Code (or under the principles of Section 704(c)) if the assets of the partnership subject to the nonrecourse liabilities were sold for an amount equal to the nonrecourse liabilities; and *third*, generally speaking, in proportion to the partners' interests in partnership profits. The operating partnership anticipates that participants should receive allocations of liabilities under the second and third tiers.

If you receive operating partnership units in the consolidation and do not receive excess shares of common stock, you will be deemed to receive a constructive distribution of money from the operating partnership under Section 752(b) of the Code to the extent, if any, that (i) your share of the subject LLC's liabilities immediately prior to the consolidation exceeds (ii) your share of the operating partnership's liabilities immediately after the consolidation. If you receive operating partnership units and excess shares of common stock in the consolidation, as discussed above, your allocable share of your subject LLC's liabilities will be allocated between the portion of your participation interest treated as sold for excess shares of common stock and the remaining portion of your participation interest. Following such allocation, you will be deemed to receive a constructive distribution of money from the operating partnership under Section 752(b) of the Code to the extent, if any, that (i) the share of liabilities allocated to the portion of your participation interest not treated as sold exceeds (ii) your share of the operating partnership's liabilities immediately after the consolidation.

As noted above, a partner's share of partnership liabilities is determined under Section 752 of the Code and the Treasury Regulations thereunder, with different allocation rules applying depending on whether the liability is recourse or nonrecourse. A reduction in a partner's share of partnership liabilities is treated as a deemed cash distribution to such partner. Such deemed distribution will first decrease your adjusted tax basis in your operating partnership units, and the excess will be treated as a gain from the sale or exchange of your operating partnership units.

In general, after the consolidation, if you receive operating partnership units, to the extent the current mortgage debt on your subject LLC's property is maintained, or such mortgage debt is refinanced with similar mortgage debt, your share of the operating partnership's liabilities may be an amount sufficient to avoid your recognizing gain for U.S. federal income tax purposes as a result of a reduction in your allocable share of liabilities in the consolidation. The operating partnership generally expects to take into account certain built-in gain on contributed properties to maximize the nonrecourse liabilities allocated to the partners of the subject LLCs contributing such properties, and it is expected that you will initially be allocated an amount of liabilities sufficient to avoid the recognition of taxable gain. However, there can be no assurance that this will be the case and you should consult your tax advisor in this regard.

The operating partnership may apply some of the proceeds of the IPO to reduce a portion of the operating partnership's indebtedness, including indebtedness secured by properties currently owned by the subject LLCs. Over time, property depreciation, capital improvements made to properties, and debt amortization and repayment may reduce your share of the operating partnership's liabilities. In addition, the operating partnership's commitment pursuant to the tax protection agreement entered into with Peter L. Malkin and Anthony E. Malkin for the benefit of the Wien group (and an additional third party investor in Metro Center who was one of the original landowners and was involved in the development of the property) could result in less operating partnership liabilities being available to be allocated to participants. A reduction in your share of the operating partnership's liabilities (either as a result of the consolidation, from debt pay downs, or over time) that exceeds your U.S. federal income tax basis in your operating partnership units is treated as taxable gain from the sale or exchange of your operating partnership units.

**Table of Contents**

You should consult your tax advisor to determine the effect of the consolidation and your ownership of operating partnership units on your allocable share of partnership liabilities (including the tax consequences to you of the exchange and ownership of operating partnership units under Section 752 of the Code).

*Possible At-Risk Recapture Under Section 465(e).* Under Section 465 of the Code, a taxpayer's ability to use losses to offset taxable income is limited by rules that are referred to as the at-risk rules. In addition, the at-risk rules may require a taxpayer to recapture losses that were previously taken by the taxpayer with respect to an activity if the taxpayer's at-risk amount for the activity falls below zero at the close of the taxable year. Losses are recaptured by including the amount of the losses previously taken by the taxpayer in the taxpayer's taxable income for the year of the recapture. The at-risk rules are only applicable to taxpayers who are individuals, trusts, estates, and certain closely-held corporations.

The identification and scope of an activity and the calculation of the at-risk amount under the at-risk rules are highly complex and can involve uncertainties. Generally, a taxpayer's at-risk amount for an activity is the amount of the taxpayer's investment in the activity, which is increased by the taxpayer's income from the activity and the taxpayer's share of the qualified nonrecourse financing, as defined in Section 465(b)(6) of the Code, with respect to the activity, and reduced by the taxpayer's losses and distributions from the activity. It is possible that the consolidation and/or the operating partnership's repayment or refinancing of some outstanding indebtedness that constitutes qualified nonrecourse financing could cause a participant's at-risk amount to be reduced below zero, which could, in turn, cause the participant to recognize taxable income as a result of the Section 465(e) recapture provisions. The definition of qualified nonrecourse financing is different from, and sometimes more restrictive than, the definition of nonrecourse liabilities for purposes of determining a partner's basis in its partnership interest, discussed above. It is therefore possible that a participant could incur a reduction in its share of qualified nonrecourse financing that causes it to recognize taxable income under the Section 465(e) recapture rules even if the participant does not have a reduction in its nonrecourse liabilities that causes it to recognize gain as the result of a deemed cash distribution, as described above. Each participant is urged to consult its tax advisor regarding the application of the Section 465(e) recapture rules to the participant in the consolidation.

***Use of Suspended Losses***

The basis rules under Section 704(d) of the Code or the at-risk rules under Section 465 may have prevented you from deducting all or a portion of your distributive share of any partnership losses attributable to your subject LLC. These limitations are applied separately and in sequence. Losses previously suspended under Section 704(d) will not be available to offset any gain that you recognize with respect to your participation interest. Losses previously allowed under Section 704(d) but suspended under Section 465, by contrast, generally may be used to offset gain that you recognize with respect to your participation interest to the extent that the gain gives you a positive at-risk basis in your participation interest.

Any gain that you recognize with respect to your participation interests will generally be treated as passive activity income (except to the extent attributable to any activity of a subject LLC that is not a passive activity with respect to you), and thus may be offset, as applicable, by any passive activity losses that you incur in the taxable year in which the consolidation occurs or by suspended passive activity losses from prior years (*i.e.*, losses previously allowed under Sections 704(d) and 465 of the Code, but disallowed under Section 469). In addition, suspended passive activity losses associated with your participation interests, if any, may be eligible for treatment as losses that are not from a passive activity. You are urged to consult your tax advisor with regard to potential passive activity losses associated with your participation interests and the impact of recognizing such losses in connection with your exchange of participation interests in the consolidation.

***Termination of the Subject LLCs***

As a result of the consolidation, the taxable year of each subject LLC will end. The subject LLCs will issue to each participant an IRS Schedule K-1 reflecting such participant's share of all income, gain, loss, deduction

## **Table of Contents**

and credit of the subject LLC for the period ending on the date of the consolidation (including any amounts attributable to overage rent that will have accrued through the date of the closing of the consolidation), and each participant will be required to take such items into account for the participant's taxable year that includes the consolidation.

### ***Withholding Considerations for Participants***

Under certain circumstances, you may be subject to information reporting and backup withholding in connection with the consolidation. Backup withholding generally will not apply if you are an exempt entity, or if you furnish a correct taxpayer identification number and certify on IRS Form W-9, or an appropriate substitute form, that you are not subject to backup withholding. Any amounts withheld under the backup withholding rules will be allowed as a refund or credit against a participant's U.S. federal income tax liability, provided such participant furnishes the required information to the IRS. In addition, the Code provides that the transferee of a U.S. real property interest, or USRPI, must withhold 10% of the amount realized by the transferor of such an interest if the transferor is a foreign person. It is likely that the participation interests are subject to withholding as USRPIs under the Code. As a result, the operating partnership intends to withhold 10% of the amount realized by you in connection with the consolidation unless you timely provide the operating partnership with a certificate of your non-foreign status, or FIRPTA Affidavit, in the form provided with the accompanying materials, or another certificate that relieves the operating partnership of its obligation to withhold under the Code and Treasury Regulations.

Amounts withheld from you do not constitute an additional tax, but rather are credited against your U.S. federal income tax liability, or otherwise refundable, provided you furnish the required information to the IRS in a timely manner.

### ***New York State and New York City Personal Income Tax Considerations***

To the extent that you do not recognize gain in the consolidation for U.S. federal income tax purposes, you also generally should not recognize gain for purposes of the New York State personal income tax and, if applicable, the New York City personal income tax. If you are an individual or a partnership for New York State personal income tax purposes, any gain that you recognize with respect to your participation interests will generally be treated as New York source income for purposes of the New York State personal income tax. As a result, you (or, if you are a partnership, any of your partners who are individuals) will generally be subject to New York State personal income tax on such gain even if you are treated as a New York nonresident for purposes of the New York State personal income tax. If you are a resident of another U.S. state, you may be entitled to credit all or a portion of any New York State personal income tax that you pay as a result of the consolidation against any income taxes that you pay in your state of residence, depending on the laws of such state. The New York City personal income tax should not apply to individuals who are treated as New York City nonresidents for purposes of the tax. You are urged to consult with your tax advisor regarding the state and local tax consequences of the consolidation.

### ***U.S. Federal Income Tax Considerations of the Voluntary Pro Rata Reimbursement Program for the Former Property Manager and Leasing Agent Legal Proceedings***

The following is a general summary of certain U.S. federal income tax considerations that you should take into account in connection with the voluntary pro rata reimbursement program for the former property manager and leasing agent legal proceedings expenses.

Although not entirely clear, if you consent to the voluntary pro rata reimbursement program, you should be treated for U.S. federal income tax purposes as if you received any distributions from your subject LLC that you forego as a result of such consent and transferred such distributions to the supervisor as a reimbursement payment. You should be entitled to deduct the amount of this deemed payment as an expense associated with your participation interest in your subject LLC. This deduction is generally expected to offset any income

## **Table of Contents**

allocations that are attributable to the distribution you forego as a result of providing your consent. However, this deduction may be subject to certain limitations depending on your individual circumstances and may be required to be capitalized, and you should consult with your tax advisor regarding your ability to utilize all or a portion of this deduction for U.S. federal income tax purposes.

Although not entirely clear, if you consent to the voluntary pro rata reimbursement program, your subject LLC participates in the consolidation and any distributions that you forego as a result of such consent have not been paid at the time of the consolidation, you should be treated as receiving the shares of common stock that you would otherwise receive in the consolidation and immediately transferring such shares of common stock to the supervisor as a reimbursement payment. For this purpose, even if you elect to receive solely operating partnership units in the consolidation, you should be treated as receiving shares of common stock equal to the amount of common stock that you are treated as transferring to the supervisor as a reimbursement payment. Accordingly, the gain or loss that you recognize in the consolidation transaction should take into account your deemed receipt of such common stock. See U.S. Federal Income Tax Consequences of the Consolidation. You should be entitled to deduct the amount of the value of the shares of common stock that you are deemed to pay to the supervisor as an expense associated with your participation interest in your subject LLC. This deduction should offset the amount of gain you recognize, or increase the amount of losses you would otherwise recognize, as a result of your deemed receipt of shares of common stock. However, this deduction may be subject to certain limitations depending on your individual circumstances and may be required to be capitalized, and you should consult with your tax advisor regarding your ability to utilize all or a portion of this deduction for U.S. federal income tax purposes.

### **U.S. Federal Income Tax Consequences of a Third-Party Portfolio Transaction**

Although the structure that will be used in a third-party portfolio transaction will depend on the circumstances of the transaction, the supervisor expects that it may not be possible to structure a third-party portfolio transaction as a tax-deferred transaction. To the extent that a third-party portfolio transaction is treated as a sale by your subject LLC of its underlying property for cash consideration, your subject LLC would likely recognize gain or loss equal to the difference between the amount of cash received, plus any liabilities that are assumed in the sale, and your subject LLC's adjusted basis in the property. Any such gain or loss would be allocated between you and the other holders of participation interests in your subject LLC pursuant to the terms of your subject LLC's partnership agreement. In addition, you may recognize additional gain or loss when your subject LLC distributes the cash consideration in liquidation of your participation interest. Any gain or loss that you recognize in connection with the liquidating distribution would generally have the character described above under U.S. Federal Income Tax Consequences of the Consolidation Character of Gain Recognized. However, notwithstanding the foregoing, a third-party portfolio transaction could have a different structure than described above, which could affect the U.S. federal income tax consequences of the transaction to you. Alternatively, to the extent that, in connection with a third-party portfolio transaction, you are treated as selling all or a portion of your participation interest, the U.S. federal income tax consequences to you will generally be described in U.S. Federal Income Tax Consequences of the Consolidation Receipt of Common Stock and U.S. Federal Income Tax Consequences of the Consolidation Character of Gain Recognized.

### **U.S. Federal Income Tax Considerations Regarding the Stipulation of Settlement Resolving the Class Actions**

It is expected that the amount of any cash and the fair market value of any securities received by a participant as a result of the Stipulation of Settlement resolving the Class Actions should be recognized as income upon receipt by such participant. Participants receiving amounts as a result of the Stipulation of Settlement must consult with their tax advisor to determine the tax consequences of the receipt of such amounts, including the character of such income resulting from such receipt.

## **Table of Contents**

### **Taxation of the Company**

The company intends to elect and to qualify to be taxed as a REIT under the Code, commencing with its taxable year ending December 31, 2013. The company believes it has been organized and the company intends to operate in a manner that will allow the company to qualify for taxation as a REIT under the Code commencing with its taxable year ending December 31, 2013.

The law firm of Clifford Chance US LLP has acted as the company's counsel in connection with the IPO. The company will receive the opinion of Clifford Chance US LLP prior to effectiveness of the registration statement on Form S-11 to the effect that, commencing with the company's taxable year ending December 31, 2013, the company will be organized in conformity with the requirements for qualification and taxation as a REIT under the Code, and the company's proposed method of operation will enable it to meet the requirements for qualification and taxation as a REIT under the Code. The opinion of Clifford Chance US LLP will be based on various assumptions relating to the company's organization and operation, including that all factual representations and statements set forth in all relevant documents, records and instruments are true and correct, all actions described herein are completed in a timely fashion and that the company will at all times operate in accordance with the method of operation described in the company's organizational documents and registration statement. Additionally, the opinion of Clifford Chance US LLP is conditioned upon factual representations and covenants made by the company's management regarding the company's organization, assets, and present and future conduct of the company's business operations and other items regarding the company's ability to meet the various requirements for qualification as a REIT, and assumes that such representations and covenants are accurate and complete and that the company will take no action that could adversely affect the company's qualification as a REIT. Although the company believes it will be organized and intends to operate so that the company will qualify as a REIT commencing with its taxable year ending December 31, 2013, given the highly complex nature of the rules governing REITs, the ongoing importance of factual determinations, and the possibility of future changes in the company's circumstances or applicable law, no assurance can be given by Clifford Chance US LLP or the company that the company will so qualify for any particular year. Clifford Chance US LLP will have no obligation to advise the company or the holders of Class A common stock of any subsequent change in the matters stated, represented or assumed, or of any subsequent change in the applicable law. You should be aware that opinions of counsel are not binding on the IRS or any court, and no assurance can be given that the IRS will not challenge the conclusions set forth in such opinions.

Qualification and taxation as a REIT depend on the company's ability to meet, on a continuing basis, through actual operating results, distribution levels, and diversity of stock ownership, various qualification requirements imposed upon REITs by the Code, the compliance with which will not be reviewed by Clifford Chance US LLP. In addition, the company's ability to qualify as a REIT depends in part upon the operating results, organizational structure and entity classification for U.S. federal income tax purposes of certain entities in which the company invests. The company's ability to qualify as a REIT for a particular year also requires that the company satisfy certain asset and income tests during such year, some of which depend upon the fair market values of assets in which the company directly or indirectly own an interest. Such values may not be susceptible to a precise determination. Accordingly, no assurance can be given that the actual results of the company's operations for any taxable year will satisfy such requirements for qualification and taxation as a REIT.

### ***Certain Tax Considerations Related to the Consolidation***

In connection with the consolidation, Malkin Properties CT and Malkin Construction will merge with and into the company in a transaction that is intended to be treated as a tax-deferred reorganization under the Code. If each of the mergers qualifies as a reorganization for U.S. federal income tax purposes, the company will succeed to the earnings and profits of Malkin Properties CT and Malkin Construction, and the company's tax basis of those assets acquired from Malkin Properties CT and Malkin Construction will be determined by reference to the tax basis of the asset in the hands of, as relevant, Malkin Properties CT and Malkin Construction.

Each of Malkin Properties CT and Malkin Construction has elected to be treated as an S Corporation for U.S. federal income tax purposes under Section 1361 of the Code. If the merger of either or both of Malkin

---

**Table of Contents**

Properties CT and Malkin Construction into the company does not qualify as a reorganization for U.S. federal income tax purposes, and if such corporation failed to qualify as an S corporation for U.S. federal income tax purposes, such merger would generally be treated as a sale by such corporation of its assets to the company in a taxable transaction, and the company would succeed to any tax liability of such corporation with respect to such gain. Assuming that Malkin Properties CT and Malkin Construction, as the case may be, qualified as an S corporation at the time of the merger and had not otherwise succeeded to any such tax liabilities or to the assets of a subchapter C corporation in a carryover basis transaction, such corporation generally would not have any such U.S. federal income tax liability from the merger. However, in such event, such corporation may have certain state and local tax liabilities, and the company would succeed to any such tax liabilities as the legal successor-in-interest to such corporation. If either or both of such mergers do not qualify as a reorganization for U.S. federal income tax purposes, as a general matter, the company would not succeed to the earnings and profits of the merging corporation and the company's tax basis in the assets it acquires from such corporation would not be determined by reference to the tax basis of the asset in the hands of such corporation, regardless of whether such corporation qualified as an S corporation.

In addition, the U.S. federal income tax treatment of the consolidation could affect the company's ability to qualify as a REIT, as discussed below under [Taxation of REITs Requirements for Qualification General](#) and [Taxation of REITs Requirements for Qualification Tax on Built-In Gains](#).

***Taxation of REITs in General***

As indicated above, the company's qualification and taxation as a REIT for a particular year depend upon its ability to meet, on a continuing basis during such year, through actual results of operations, distribution levels, diversity of share ownership and various qualification requirements imposed upon REITs by the Code. The material qualification requirements are summarized below under [Requirements for Qualification General](#). While the company intends to operate so that it qualifies as a REIT, no assurance can be given that the IRS will not challenge the company's qualification as a REIT, or that the company will be able to operate in accordance with the REIT requirements in the future. See [Failure to Qualify](#).

Provided that the company qualifies as a REIT, the company will generally be entitled to a deduction for dividends that it pays and therefore will not be subject to U.S. federal corporate income tax on its net taxable income that is currently distributed to the company's stockholders. This treatment substantially eliminates the [double taxation](#) at the corporate and stockholder levels that generally results from investment in a corporation. Rather, income generated by a REIT generally is taxed only at the stockholder level upon a distribution of dividends by the REIT.

Net operating losses, foreign tax credits and other tax attributes of a REIT generally do not pass through to the stockholders of the REIT, subject to special rules for certain items such as capital gains recognized by REITs. See [Taxation of Stockholders](#).

If the company qualifies as a REIT, it will nonetheless be subject to U.S. federal income tax as follows:

The company will be taxed at regular corporate rates on any undistributed income, including undistributed net capital gains.

The company may be subject to the [alternative minimum tax](#) on the company's items of tax preference, if any.

If the company has net income from prohibited transactions, which are, in general, sales or other dispositions of property held primarily for sale to customers in the ordinary course of business, other than foreclosure property, as described below, such income will be subject to a 100% tax. See [Requirements for Qualification Prohibited Transactions](#), and [Requirements for Qualification Foreclosure Property](#), below.

## Table of Contents

If the company elects to treat property that the company acquires in connection with a foreclosure of a mortgage loan or leasehold as foreclosure property, the company may thereby avoid (1) the 100% tax on gain from a resale of that property (if the sale would otherwise constitute a prohibited transaction), and (2) the inclusion of any income from such property not qualifying for purposes of the REIT gross income tests discussed below, but the income from the sale or operation of the property may be subject to corporate income tax at the highest applicable rate (currently 35%).

If the company fails to satisfy the 75% gross income test or the 95% gross income test, as discussed below, but nonetheless maintain the company's qualification as a REIT because other requirements are met, the company will be subject to a 100% tax on an amount equal to (1) the greater of (A) the amount by which the company fails the 75% gross income test or (B) the amount by which the company fails the 95% gross income test, as the case may be, multiplied by (2) a fraction intended to reflect the company's profitability.

If the company fails to satisfy any of the REIT asset tests, as described below, other than a failure of the 5% or 10% REIT assets tests that does not exceed a statutory *de minimis* amount as described more fully below, but the company's failure is due to reasonable cause and not due to willful neglect and the company nonetheless maintains its REIT qualification because of specified cure provisions, the company will be required to pay a tax equal to the greater of \$50,000 or the highest corporate tax rate (currently 35%) of the net income generated by the non-qualifying assets during the period in which the company failed to satisfy the asset tests.

If the company fails to satisfy any provision of the Code that would result in the company's failure to qualify as a REIT (other than a gross income or asset test requirement) and that violation is due to reasonable cause, the company may retain the company's REIT qualification, but the company will be required to pay a penalty of \$50,000 for each such failure.

If the company fails to distribute on an annual basis at least the sum of (1) 85% of the company's REIT ordinary income for such year, (2) 95% of the company's REIT capital gain net income for such year and (3) any undistributed taxable income from prior periods, or the required distribution, the company will be subject to a 4% excise tax on the excess of the required distribution over the sum of (A) the amounts actually distributed (taking into account excess distributions from prior years), plus (B) retained amounts on which U.S. federal income tax is paid at the corporate level.

The company may be required to pay monetary penalties to the IRS in certain circumstances, including if the company fails to meet record-keeping requirements intended to monitor the company's compliance with rules relating to the composition of the company's stockholders, as described below in Requirements for Qualification General.

The company may be subject to a 100% excise tax on some items of income and expense that are directly or constructively paid between the company, the company's tenants and/or any TRSs if and to the extent that the IRS successfully adjusts the reported amounts of these items.

If the company acquires appreciated assets from a subchapter C corporation (generally a corporation that is not a REIT, an RIC or an S corporation) in a transaction in which the adjusted tax basis of the assets in the company's hands is determined by reference to the adjusted tax basis of the assets in the hands of the subchapter C corporation, the company will be subject to tax on such appreciation at the highest corporate income tax rate then applicable if the company subsequently recognizes gain on a disposition of any of the assets during the 10-year period following the company's acquisition of the assets from the subchapter C corporation. The results described in this paragraph assume that the subchapter C corporation will not elect, in lieu of this treatment, to be subject to an immediate tax when the company acquires the assets. See Tax on Built-in Gains below.

The company may elect to retain and pay income tax on the company's net long-term capital gain. In that case, a stockholder would include the stockholder's proportionate share of the company's undistributed long-term capital gain (to the extent the company makes a timely designation of such

## **Table of Contents**

gain to the stockholder) in the stockholder's income, would be deemed to have paid the tax that the company paid on such gain, and would be allowed a credit for the stockholder's proportionate share of the tax deemed to have been paid, and an adjustment would be made to increase the stockholder's basis in the common stock. Stockholders that are U.S. corporations will also appropriately adjust their earnings and profits for the retained capital gain in accordance with Treasury Regulations to be promulgated.

The company will have subsidiaries or own interests in other lower-tier entities that are taxable C corporations, including Observatory TRS, Holding TRS, and any other TRSs, the earnings of which could be subject to U.S. federal corporate income tax. In addition, the company and the company's subsidiaries may be subject to a variety of taxes other than U.S. federal income tax, including payroll taxes and state, local, and foreign income, transfer, franchise, property and other taxes. The company could also be subject to tax in situations and on transactions not presently contemplated.

## **Requirements for Qualification**

### ***General***

The Code defines a REIT as a corporation, trust or association:

- (1) that is managed by one or more trustees or directors;
- (2) the beneficial ownership of which is evidenced by transferable shares, or by transferable certificates of beneficial interest;
- (3) that would be taxable as a domestic corporation but for the special Code provisions applicable to REITs;
- (4) that is neither a financial institution nor an insurance company subject to specific provisions of the Code;
- (5) the beneficial ownership of which is held by 100 or more persons during at least 335 days of a taxable year of 12 months, or during a proportionate part of a taxable year of less than 12 months;
- (6) in which, during the last half of each taxable year, not more than 50% in value of the outstanding stock is owned, directly or indirectly, by five or fewer individuals (as defined in the Code to include specified entities);
- (7) that makes an election to be a REIT for the current taxable year or has made such an election for a previous taxable year that has not been terminated or revoked;
- (8) that has no earnings and profits from any non-REIT taxable year as of a successor to any subchapter C corporation at the close of any taxable year;
- (9) that uses the calendar year for U.S. federal income tax purposes; and
- (10) that meets other tests described below, including with respect to the nature of its income and assets and the amount of its distributions.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

The Code provides that conditions (1) through (4) must be met during the entire taxable year, and that condition (5) must be met during at least 335 days of a taxable year of 12 months, or during a proportionate part of a shorter taxable year. Conditions (5) and (6) do not need to be satisfied for the first taxable year for which an election to become a REIT has been made. The company's charter provides restrictions regarding the ownership and transfer of the company's shares, which are intended, among other purposes, to assist the company in satisfying the share ownership requirements described in conditions (5) and (6) above. The company intends to monitor the beneficial owners of the company's stock to ensure that the company's stock is at all times

**Table of Contents**

beneficially owned by 100 or more persons, but no assurance can be given that the company will be successful in this regard. For purposes of condition (6), an individual generally includes a supplemental unemployment compensation benefit plan, a private foundation, or a portion of a trust permanently set aside or used exclusively for charitable purposes, but does not include a qualified pension plan or profit sharing trust.

To monitor compliance with the share ownership requirements, the company is required to maintain records regarding the actual ownership of the company's shares. To do so, the company must demand written statements each year from the record holders of significant percentages of the company's stock in which the record holders are to disclose the actual owners of the shares (*i.e.*, the persons required to include in gross income the dividends paid by the company). A list of those persons failing or refusing to comply with this demand must be maintained as part of the company's records. Failure by the company to comply with these record-keeping requirements could subject the company to monetary penalties. If the company satisfies these requirements and after exercising reasonable diligence would not have known that condition (6) is not satisfied, the company will be deemed to have satisfied such condition. A stockholder that fails or refuses to comply with the demand is required by Treasury Regulations to submit a statement with the stockholder's tax return disclosing the actual ownership of the shares and other information.

With respect to condition (8), the company believes it will not initially have any earnings and profits from any non-REIT taxable year or as a successor to any subchapter C corporation. As described above in the section entitled *The Consolidation* and under *Certain Tax Considerations Related to the Consolidation*, in connection with the IPO, the company will acquire Malkin Properties CT and Malkin Construction in a transaction pursuant to which the company will succeed to the earnings and profits of the corporations. The company believes that such corporations are S corporations that have distributed all accumulated earnings and profits and therefore will not cause the company to have any non-REIT earnings and profits. If, however, either Malkin Properties CT or Malkin Construction did not, at any time, qualify as an S Corporation, or otherwise succeeded to the earnings and profits of a subchapter C Corporation, and assuming that either or both of the mergers qualified as a reorganization for U.S. federal income tax purposes, the company generally would succeed to the subchapter C earnings and profits of Malkin Properties CT and/or Malkin Construction. In such case, the company would be required to distribute any such earnings and profits by the close of the taxable year in which the mergers occur or the company would fail to qualify as a REIT.

With respect to condition (9), the company intends to adopt December 31 as the company's taxable year-end and thereby satisfy this requirement.

***Effect of Subsidiary Entities***

*Ownership of Partnership Interests.* In the case of a REIT that is a partner in a partnership, Treasury Regulations provide that the REIT is deemed to own its proportionate share of the partnership's assets and to earn its proportionate share of the partnership's gross income based on its *pro rata* share of capital interests in the partnership for purposes of the asset and gross income tests applicable to REITs, as described below. However, solely for purposes of the 10% value test described below, the determination of a REIT's interest in partnership assets will be based on the REIT's proportionate interest in any securities issued by the partnership, excluding, for these purposes, certain excluded securities as described in the Code. In addition, the assets and gross income of the partnership generally are deemed to retain the same character in the hands of the REIT. Thus, the company's proportionate share of the assets and items of income of partnerships in which the company owns an equity interest (including the company's interest in the company's operating partnership and its equity interests in any lower-tier partnerships), is treated as the company's assets and items of income for purposes of applying the REIT requirements described below. Consequently, to the extent that the company directly or indirectly holds a preferred or other equity interest in a partnership, the partnership's assets and operations may affect the company's ability to qualify as a REIT, even though the company may have no control, or only limited influence, over the partnership.

As discussed in greater detail in *Tax Aspects of Investments in Partnerships* below, an investment in a partnership involves special tax considerations. For example, it is possible that the IRS could treat a subsidiary

**Table of Contents**

partnership as a corporation for U.S. federal income tax purposes. In this case, the subsidiary partnership would be subject to entity-level tax and the character of the company's assets and items of gross income would change, possibly causing the company to fail the requirements to qualify as a REIT. See [Tax Aspects of Investments in Partnerships Entity Classification](#) and [Failure to Qualify](#) below. In addition, special rules apply in the case of appreciated or depreciated property that is contributed to a partnership in exchange for an interest in the partnership. In general terms, these rules require that certain items of income, gain, loss and deduction associated with the contributed property be allocated to the contributing partner for U.S. federal income tax purposes. These rules could adversely affect the company, for example, by requiring that a lower amount of depreciation deductions be allocated to the company, which in turn would cause the company to have a greater amount of taxable income without a corresponding increase in cash and result in a greater portion of the company's distributions being taxed as dividend income. See [Tax Aspects of Investments in Partnerships Tax Allocations with Respect to Partnership Properties](#) below.

*Disregarded Subsidiaries.* If a REIT owns a corporate subsidiary that is a qualified REIT subsidiary, that subsidiary is disregarded for U.S. federal income tax purposes, and all assets, liabilities and items of income, deduction and credit of the subsidiary are treated as assets, liabilities and items of income, deduction and credit of the REIT, including for purposes of the gross income and asset tests applicable to REITs as summarized below. A qualified REIT subsidiary is any corporation, other than a TRS, as described below under [Requirements for Qualification Effect of Subsidiary Entities Taxable REIT Subsidiaries](#), that is wholly owned by a REIT, or by other disregarded subsidiaries, or by a combination of the two. Single member limited liability companies that are wholly owned by a REIT are also generally disregarded as separate entities for U.S. federal income tax purposes, including for purposes of the REIT gross income and asset tests. Disregarded subsidiaries, along with partnerships in which the company holds an equity interest, are sometimes referred to herein as pass-through subsidiaries.

In the event that a disregarded subsidiary ceases to be wholly owned by the company—for example, if any equity interest in the subsidiary is acquired by a person other than the company or another disregarded subsidiary of the company—the subsidiary's separate existence would no longer be disregarded for U.S. federal income tax purposes. Instead, it would have multiple owners and would be treated as either a partnership or a taxable corporation. Such an event could, depending on the circumstances, adversely affect the company's ability to satisfy the various asset and gross income tests applicable to REITs, including the requirement that REITs generally may not own, directly or indirectly, more than 10% of the value or voting power of the outstanding securities of another corporation. See [Requirements for Qualification Asset Tests](#) and [Requirements for Qualification Gross Income Tests](#).

*Taxable REIT Subsidiaries.* A REIT generally may jointly elect with a subsidiary corporation, whether or not wholly owned, to treat the subsidiary corporation as a TRS. The separate existence of a TRS or other taxable corporation, unlike a disregarded subsidiary as discussed above, is not ignored for U.S. federal income tax purposes. Accordingly, such an entity would generally be subject to corporate U.S. federal, state, local and income and franchise taxes on its earnings, which may reduce the cash flow generated by the company and the company's subsidiaries in the aggregate, and the company's ability to make distributions to the company's stockholders. Observatory TRS and Holding TRS will each elect to be treated as a corporation for U.S. federal income tax purposes, and the company intends to jointly elect with each of Observatory TRS and Holding TRS, respectively, for each to be treated as a TRS. This will allow Observatory TRS and Holding TRS to invest in assets and engage in activities that could not be held or conducted directly by the company without jeopardizing its qualification as a REIT.

For purposes of the gross income and asset tests applicable to REITs, a REIT is not treated as holding the assets of a TRS or other taxable subsidiary corporation or as receiving any income that the subsidiary earns. Rather, the stock issued by the subsidiary is an asset in the hands of the REIT, and the REIT recognizes as income the dividends that it receives from the subsidiary. This treatment can affect the gross income and asset test calculations that apply to the REIT, as described below. Because a REIT does not include the assets and

**Table of Contents**

income of such subsidiary corporations in determining the REIT's compliance with the REIT requirements, such entities may be used by the parent REIT to undertake indirectly activities that a REIT, due to the requirements applicable to REITs, might otherwise not be able to undertake directly or through pass-through subsidiaries (or, if such activities could be undertaken, it would only be in a commercially unfeasible manner) such as, for example, activities that give rise to certain categories of income such as management fees. See Requirements for Qualification Annual Distribution Requirements.

Certain restrictions imposed on TRSs are intended to ensure that such entities will be subject to appropriate levels of U.S. federal income taxation. First, if a TRS has a debt to equity ratio as of the close of the taxable year exceeding 1.5 to 1, it may not deduct interest payments made in any year to an affiliated REIT to the extent that such payments exceed, generally, 50% of the TRS's adjusted taxable income for that year (although the TRS may carry forward to, and deduct in, a succeeding year the disallowed interest amount if the 50% test is satisfied in that year). In addition, if amounts are paid to a REIT or deducted by a TRS due to transactions between a REIT, its tenants and/or a TRS, that exceed the amount that would be paid to or deducted by a party in an arm's-length transaction, the REIT generally will be subject to an excise tax equal to 100% of such excess.

Rents received by the company that include amounts for services furnished by a TRS to any of the company's tenants will not be subject to the excise tax if such amounts qualify for the safe harbor provisions contained in the Code. Safe harbor provisions are provided where (1) amounts are excluded from the definition of impermissible tenant service income as a result of satisfying a 1% de minimis exception; (2) a TRS renders a significant amount of similar services to unrelated parties and the charges for such services are substantially comparable; (3) rents paid to the company by tenants leasing at least 25% of the net leasable space at a property that are not receiving services from the TRS are substantially comparable to the rents paid to the company by tenants leasing comparable space at such property and that are receiving such services from the TRS (and the charge for the services is separately stated); or (4) the TRS's gross income from the service is not less than 150% of the TRS's direct cost of furnishing the service. The company intends that Holding TRS and/or its wholly owned subsidiaries will provide certain services to the company's tenants following the consolidation. Although the company intends to operate Holding TRS in a manner that does not cause the company to be subject to the excise tax discussed above, there is no assurance that the company will be successful in this regard.

***Gross Income Tests***

In order to maintain the company's qualification as a REIT, the company annually must satisfy two gross income tests. First, at least 75% of the company's gross income for each taxable year, excluding gross income from sales of inventory or dealer property in prohibited transactions and certain hedging and foreign currency transactions, must be derived from investments relating to real property or mortgages on real property, including rents from real property, dividends received from and gain from the disposition of shares of other REITs, interest income derived from mortgage loans secured by real property (including certain types of mortgage-backed securities), and gains from the sale of real estate assets, as well as income from certain kinds of temporary investments. Second, at least 95% of the company's gross income in each taxable year, excluding gross income from prohibited transactions and certain hedging and foreign currency transactions, must be derived from some combination of income that qualifies under the 75% income test described above, as well as other dividends, interest, and gain from the sale or disposition of stock or securities, which need not have any relation to real property.

For purposes of the 75% and 95% gross income tests, a REIT is deemed to have earned a proportionate share of the income earned by any partnership, or any limited liability company treated as a partnership for U.S. federal income tax purposes, in which it owns an interest, which share is determined by reference to its capital interest in such entity, and is deemed to have earned the income earned by any qualified REIT subsidiary.

Rents received by the company will qualify as rents from real property in satisfying the 75% gross income test described above only if several conditions are met, including the following. The rent must not be based in

**Table of Contents**

whole or in part on the income or profits of any person. However, an amount will not be excluded from rents from real property solely by reason of being based on a fixed percentage or percentages of receipts or sales or being based on the net income or profits of a tenant which derives substantially all of its income with respect to such property from subleasing of substantially all of such property, to the extent that the rents paid by the sublessees would qualify as rents from real property, if earned directly by the company. If rent is partly attributable to personal property leased in connection with a lease of real property, the portion of the total rent that is attributable to the personal property will not qualify as rents from real property unless it constitutes 15% or less of the total rent received under the lease. Moreover, for rents received to qualify as rents from real property, the company generally must not operate or manage the property or furnish or render certain services to the tenants of such property, other than through an independent contractor who is adequately compensated and from which the company derives no income, or through a TRS. The company is permitted, however, to perform services that are usually or customarily rendered in connection with the rental of space for occupancy only and are not otherwise considered rendered to the occupant of the property. In addition, the company may directly or indirectly provide non-customary services to tenants of the company's properties if the gross income from such services does not exceed 1% of the total gross income from the property for the relevant taxable year. In such a case, only the amounts for non-customary services are not treated as rents from real property and the provision of the services does not disqualify the rents from treatment as rents from real property. If, however, the gross income from such non-customary services exceeds this 1% threshold, none of the gross income derived from the property for the relevant property is treated as rents from real property. For purposes of this test, the gross income received from such non-customary services is deemed to be at least 150% of the direct cost of providing the services. Moreover, the company is permitted to provide services to tenants through a TRS without disqualifying the rental income received from tenants as rents from real property. While the company will provide services to the company's tenants directly following the consolidation in a manner consistent with the company's qualification as a REIT, the company intends to also cause Holding TRS and/or its wholly owned subsidiaries to provide certain other services following the consolidation. Also, rental income will qualify as rents from real property only to the extent it is not treated as unrelated party rent, which generally includes rent from a tenant if the company directly or indirectly (through application of certain constructive ownership rules) owns, (1) in the case of any tenant which is a corporation, stock possessing 10% or more of the total combined voting power of all classes of stock entitled to vote, or 10% or more of the total value of shares of all classes of stock of such tenant, or (2) in the case of any tenant which is not a corporation, an interest of 10% or more in the assets or net profits of such tenant. However, rental payments from a TRS will qualify as rents from real property even if the company owns more than 10% of the total value or combined voting power of the TRS if at least 90% of the property is leased to unrelated tenants and the rent paid by the TRS is substantially comparable to the rent paid by the unrelated tenants for comparable space.

Income from admissions to the Empire State Building observatory, and certain other income generated by the observatory, would not likely be qualifying income for purposes of the REIT gross income tests. The company will jointly elect with Observatory TRS, the current lessee and operator of the observatory, which will be wholly owned by the operating partnership following the completion of the IPO, for Observatory TRS to be treated as a TRS of the company's for U.S. federal income tax purposes following the completion of the IPO. Observatory TRS will lease the Empire State Building observatory from the operating partnership pursuant to an existing lease that provides for fixed base rental payments and variable rental payments equal to certain percentages of Observatory TRS's gross receipts from the operation of the observatory. Given the unique nature of the real estate comprising the observatory, the company does not believe that there is any space in the Empire State Building or in the same geographic area as the Empire State Building that would likely be considered sufficiently comparable to the observatory for the purpose of applying the exception to related party rent described above. The company has received from the IRS a private letter ruling that the rent that the operating partnership will receive from Observatory TRS pursuant to the lease described above will be qualifying income for purposes of the REIT gross income tests.

In addition, following completion of the offering the operating partnership will acquire various license agreements (i) granting certain third party broadcasters the right to use space on the tower on the top of the

---

**Table of Contents**

Empire State Building for certain broadcasting and other communication purposes and (ii) granting certain third party vendors the right to operate concession stands in the observatory. The company has received from the IRS a private letter ruling that the license fees that the operating partnership will receive under these agreements will be treated as rental payments for the use of real property and therefore as qualifying income for purposes of the REIT gross income tests.

The company is entitled to rely upon these rulings only to the extent that the company did not misstate or omit a material fact in the ruling request and that the company continues to operate in the future in accordance with the material facts described in such request, and no assurance can be given that the company will always be able to do so. If the company was not able to treat the rent that the operating partnership receives from Observatory TRS as qualifying income for purposes of the REIT gross income tests, the company would be required to restructure the manner in which it operates the observatory, which would likely require the company to cede operating control of the observatory by leasing the observatory to an affiliate or third party operator. If the company was not able to treat the license fees that the operating partnership will receive from the license agreements described above as qualifying income for purposes of the REIT gross income tests, the company would be required to enter into the license agreements described above through a TRS, which would cause the license fees to be subject to U.S. federal income tax and accordingly reduce the amount of the company's cash flow available to be distributed to the company's stockholders. In either case, if the company is not able to appropriately restructure the company's operations in a timely manner, the company would likely realize significant income that does not qualify for the REIT gross income tests, which could cause the company to fail to qualify as a REIT.

Unless the company determines that the resulting non-qualifying income under any of the following situations, taken together with all other non-qualifying income earned by the company in the taxable year, will not jeopardize the company's qualification as a REIT, the company does not intend to:

charge rent for any property that is based in whole or in part on the income or profits of any person, except by reason of being based on a fixed percentage or percentages of receipts or sales, as described above;

rent any property to a related party tenant, including Observatory TRS, Holding TRS, or any other TRS, unless the rent from the lease to the TRS would qualify for the special exception from the related party tenant rule applicable to certain leases with a TRS;

derive rental income attributable to personal property other than personal property leased in connection with the lease of real property, the amount of which no more than 15% of the total rent received under the lease; or

directly perform services considered to be non-customary or rendered to the occupant of the property.

The company may receive distributions from Observatory TRS, Holding TRS, and any other TRSs or other C corporations that are neither REITs nor qualified REIT subsidiaries. These distributions will be classified as dividend income to the extent of the earnings and profits of the distributing corporation. Such distributions will generally constitute qualifying income for purposes of the 95% gross income test, but not for purposes of the 75% gross income test. Any dividends received by the company from a REIT, however, will be qualifying income for purposes of both the 95% and 75% gross income tests.

Interest income constitutes qualifying mortgage interest for purposes of the 75% gross income test, as described above, to the extent that the obligation is secured by a mortgage on real property. If the company receives interest income with respect to a mortgage loan that is secured by both real property and other property, and the highest principal amount of the loan outstanding during a taxable year exceeds the fair market value of the real property on the date that the company acquired or originated the mortgage loan, the interest income will be apportioned between the real property and the other property, and the company's income from the loan will qualify for purposes of the 75% gross income test only to the extent that the interest is allocable to the real

---

**Table of Contents**

property. Although not currently anticipated, the company may, on a selective basis, opportunistically make real estate-related debt investments, provided that the underlying real estate meets the company's criteria for direct investment. Under recent IRS guidance, the company would be required to treat a portion of the gross income derived from a mortgage loan that is acquired at a time when the fair market value of the real property securing the loan is less than the loan's face amount and there are other assets securing the loan as non-qualifying income for the 75% gross income test even if the company's acquisition price for the loan (that is, the fair market value of the loan at the time that the company acquired it) is less than the value of the real property securing the loan. Even if a loan is not secured by real property or is undersecured, the income that it generates may nonetheless also qualify for purposes of the 95% gross income test.

In addition, although not currently anticipated, the company's opportunistic real estate-related debt investments may include mezzanine loans secured by equity interests in a pass-through entity that directly or indirectly owns retail real estate assets. The IRS issued Revenue Procedure 2003-65, or the Revenue Procedure, which provides a safe harbor pursuant to which a mezzanine loan, if it meets each of the requirements contained in the Revenue Procedure, will be treated by the IRS as a real estate asset for purposes of the REIT asset tests, and interest derived from it will be treated as qualifying mortgage interest for purposes of the 75% gross income test (described above). Although the Revenue Procedure provides a safe harbor on which taxpayers may rely, it does not prescribe rules of substantive tax law. Mezzanine loans that the company acquires may not meet all of the requirements for reliance on this safe harbor. Hence, there can be no assurance that the IRS will not challenge the qualification of such assets as real estate assets or the interest generated by these loans as qualifying income under the 75% gross income test (described above).

To the extent that the terms of a loan provide for contingent interest that is based on the cash proceeds realized upon the sale of the property securing the loan, income attributable to the participation feature will be treated as gain from sale of the underlying property, which generally will be qualifying income for purposes of both the 75% and 95% gross income tests, provided that the property is not inventory or dealer property.

The company expects to earn fees from certain construction services the company will provide to the company's tenants and other third parties. Gross income from such services generally may only constitute qualifying income for purposes of the 75% and 95% gross income tests to the extent that it is attributable to construction services provided to the company's tenants in connection with the entering into or renewal of a lease. In addition, construction services provided to the company's tenants other than in such circumstances might constitute non-customary services. As a result, to the extent that the company provides construction services to third parties or to tenants other than in connection with the entering into or renewal of a lease, the company expects to provide such services through Holding TRS or another TRS, which will be subject to full corporate tax with respect to such income.

***Hedging Transactions***

The company may enter into hedging transactions with respect to one or more of the company's assets or liabilities. Hedging transactions could take a variety of forms, including interest rate swap agreements, interest rate cap agreements, options, futures contracts, forward rate agreements or similar financial instruments. Except to the extent provided by Treasury Regulations, any income from a hedging transaction the company enters into (1) in the normal course of the company's business primarily to manage risk of interest rate or price changes or currency fluctuations with respect to borrowings made or to be made, or ordinary obligations incurred or to be incurred, to acquire or carry real estate assets, which the company clearly identifies as specified in Treasury Regulations before the close of the day on which it was acquired, originated, or entered into, including gain from the sale or disposition of such a transaction, or (2) primarily to manage risk of currency fluctuations with respect to any item of income or gain that would be qualifying income under the 75% or 95% income tests which is clearly identified as such before the close of the day on which it was acquired, originated, or entered into, will not constitute gross income for purposes of the 75% or 95% gross income test. To the extent that the company enters into other types of hedging transactions, the income from those transactions is likely to be treated as

---

**Table of Contents**

non-qualifying income for purposes of both of the 75% and 95% gross income tests. The company intends to structure any hedging transactions in a manner that does not jeopardize the company's qualification as a REIT.

***Failure to Satisfy the Gross Income Tests***

The company intends to monitor the company's sources of income, including any non-qualifying income received by the company, so as to ensure the company's compliance with the gross income tests. If the company fails to satisfy one or both of the 75% or 95% gross income tests for any taxable year, the company may still qualify as a REIT for the year if the company is entitled to relief under applicable provisions of the Code. These relief provisions will generally be available if the failure of the company to meet these tests was due to reasonable cause and not due to willful neglect and, following the identification of such failure, the company sets forth a description of each item of the company's gross income that satisfies the gross income tests in a schedule for the taxable year filed in accordance with the Treasury Regulations. It is not possible to state whether the company would be entitled to the benefit of these relief provisions in all circumstances. If these relief provisions are inapplicable to a particular set of circumstances involving the company, the company will not qualify as a REIT. As discussed above under

Taxation of the Company Taxation of REITs in General, even where these relief provisions apply, a tax would be imposed upon the profit attributable to the amount by which the company fails to satisfy the particular gross income test.

***Asset Tests***

At the close of each calendar quarter the company must also satisfy four tests relating to the nature of the company's assets. First, at least 75% of the value of the company's total assets must be represented by some combination of real estate assets, cash, cash items, U.S. government securities, and, under some circumstances, stock or debt instruments purchased with new capital. For this purpose, real estate assets include interests in real property, such as land, buildings, leasehold interests in real property, stock of other REITs, and certain kinds of mortgage-backed securities and mortgage loans. Assets that do not qualify for purposes of the 75% asset test are subject to the additional asset tests described below.

Second, the value of any one issuer's securities owned by the company may not exceed 5% of the value of the company's total assets. Third, the company may not own more than 10% of any one issuer's outstanding securities, as measured by either voting power or value. Fourth, the aggregate value of all securities of Observatory TRS, Holding TRS, and any other TRSs held by the company may not exceed 25% of the value of the company's total assets.

The 5% and 10% asset tests do not apply to securities of TRSs, qualified REIT subsidiaries or securities that are real estate assets for purposes of the 75% asset test described above. In addition, the 10% value test does not apply to certain straight debt and other excluded securities, as described in the Code including, but not limited to, any loan to an individual or estate, any obligation to pay rents from real property and any security issued by a REIT. For these purposes, (1) a REIT's interest as a partner in a partnership is not considered a security; (2) any debt instrument issued by a partnership (other than straight debt or another security that is excluded from the 10% value test) will not be considered a security issued by the partnership if at least 75% of the partnership's gross income is derived from sources that would qualify for the 75% gross income test; and (3) any debt instrument issued by a partnership (other than straight debt or another excluded security) will not be considered a security issued by the partnership to the extent of the REIT's interest as a partner in the partnership. For purposes of the 10% value test, straight debt means a written unconditional promise to pay on demand on a specified date a sum certain in money if (i) debt is not convertible, directly or indirectly, into stock, (ii) the interest rate and interest payment dates are not contingent on profits, the borrower's discretion, or similar factors other than certain contingencies relating to the timing and amount of principal and interest payments, as described in the Code and (iii) in the case of an issuer that is a corporation or a partnership, securities that otherwise would be considered straight debt will not be so considered if the company, and any of the company's controlled taxable REIT subsidiaries, as defined in the Code, hold any securities of the corporate or partnership

---

**Table of Contents**

issuer which (a) are not straight debt or other excluded securities (prior to the application of this rule), and (b) have an aggregate value greater than 1% of the issuer's outstanding securities (including, for the purposes of a partnership issuer, its interest as a partner in the partners).

As mentioned above, although not currently contemplated, the company may, on a selective basis, opportunistically make real estate-related debt investments, provided the underlying real estate meets the company's criteria for direct investment. A real estate mortgage loan that the company owns generally will be treated as a real estate asset for purposes of the 75% asset test if, on the date that the company acquires or originates the mortgage loan, the value of the real property securing the loan is equal to or greater than the principal amount of the loan. Furthermore, under recent IRS guidance, unlike the rules described above that are applicable to the gross income tests, the company would not be required to treat any portion of a mortgage loan as non-qualifying for the 75% asset test if at the time that the company acquires the loan the company's acquisition price for the loan (that is, the fair market value of the loan at the time that the company acquired it) does not exceed the fair market value of the real property securing the loan. Furthermore, although modifications of a loan held by the company generally may be treated as an acquisition of a new loan for U.S. federal income tax purposes, a modification would not be treated as an acquisition of a new loan for this purpose provided that the modification is occasioned by a default or a significant risk of default.

After initially meeting the asset tests at the close of a quarter, the company will not lose the company's qualification as a REIT for failure to satisfy the asset tests at the end of a later quarter solely by reason of changes in asset values (including a failure caused solely by change in the foreign currency exchange rate used to value a foreign asset). If the company fails to satisfy the asset tests because the company acquires or increases the company's ownership interest in securities during a quarter, the company can cure this failure by disposing of the non-qualifying assets within 30 days after the close of that quarter. If the company fails the 5% asset test, the 10% vote test, or the 10% value test at the end of any quarter, and such failure is not cured within 30 days thereafter, the company may dispose of sufficient assets (generally, within six months after the last day of the quarter in which the company's identification of the failure to satisfy those asset tests occurred) to cure the violation, provided that the non-permitted assets do not exceed the lesser of 1% of the company's assets at the end of the relevant quarter or \$10,000,000. If the company fails any of the other asset tests, or the company's failure of the 5% and 10% asset tests is in excess of the *de minimis* amount described above, as long as the failure was due to reasonable cause and not willful neglect, the company is permitted to avoid disqualification as a REIT, after the 30-day cure period, by taking steps including the disposition of sufficient assets to meet the asset tests (generally within six months after the last day of the quarter in which the company's identification of the failure to satisfy the REIT asset test occurred), and paying a tax equal to the greater of \$50,000 or 35% of the net income generated by the non-qualifying assets during the period in which the company failed to satisfy the relevant asset test.

The company believes its holdings of securities and other assets will comply with the foregoing REIT asset requirements, and the company intends to monitor compliance with such tests on an ongoing basis. There can be no assurance, however, that the company will be successful in this effort. Moreover, the values of some of the company's assets, including the securities of Observatory TRS, Holding TRS, and any other TRSs or other non-publicly traded investments, may not be susceptible to a precise determination and are subject to change in the future. Furthermore, the proper classification of an instrument as debt or equity for U.S. federal income tax purposes may be uncertain in some circumstances, which could affect the application of the REIT asset tests. Accordingly, there can be no assurance that the IRS will not contend that the company's assets do not meet the requirements of the REIT asset tests.

---

## Table of Contents

### *Annual Distribution Requirements*

In order to qualify as a REIT, the company is required to distribute dividends, other than capital gain dividends, to the company's stockholders in an amount at least equal to:

(1) the sum of:

90% of the company's REIT taxable income (computed without regard to the deduction for dividends paid and net capital gains), and

90% of the net income from foreclosure property (after tax), as described below, and recognized built-in gain, as discussed above, minus

(2) the sum of specified items of non-cash income that exceeds a percentage of the company's income.

These distributions must be paid in the taxable year to which they relate, or in the following taxable year if such distributions are declared in October, November or December of the taxable year, are payable to stockholders of record on a specified date in any such month, and are actually paid before the end of January of the following year. Such distributions are treated as both paid by the company and received by each stockholder on December 31 of the year in which they are declared. In addition, at the company's election, a distribution for a taxable year may be declared before the company timely files its tax return for the year, provided the company pays such distribution with or before the company's first regular dividend payment after such declaration, provided that such payment is made during the 12-month period following the close of such taxable year. These distributions are taxable to the company's stockholders in the year in which paid, even though the distributions relate to the company's prior taxable year for purposes of the 90% distribution requirement.

In order for distributions to be counted towards the company's distribution requirement, and to give rise to a tax deduction to the company, they must not be preferential dividends. A dividend is not a preferential dividend if it is *pro rata* among all outstanding shares of stock within a particular class, and is in accordance with the preferences among the company's different classes of stock as set forth in the company's organizational documents.

To the extent that the company distributes at least 90%, but less than 100%, of the company's REIT taxable income, as adjusted, the company will be subject to tax at ordinary corporate tax rates on the retained portion. In addition, the company may elect to retain, rather than distribute, the company's net long-term capital gains and pay tax on such gains. In this case, the company would elect to have the company's stockholders include their proportionate share of such undistributed long-term capital gains in their income and receive a corresponding credit for their proportionate share of the tax paid by the company. The company's stockholders would then increase their adjusted basis in the company's stock by the difference between the designated amounts included in their long-term capital gains and the tax deemed paid with respect to their proportionate shares.

If the company fails to distribute on an annual basis at least the sum of (1) 85% of the company's REIT ordinary income for such year, (2) 95% of the company's REIT capital gain net income for such year and (3) any undistributed taxable income from prior periods, the company will be subject to a nondeductible 4% excise tax on the excess of such amount over the sum of (A) the amounts actually distributed (taking into account excess distributions from prior periods) and (B) the amounts of income retained on which the company has paid corporate income tax. The company intends to distribute the company's net income to the company's stockholders in a manner that satisfies the REIT 90% distribution requirement and that protects the company from being subject to U.S. federal income tax on the company's income and the 4% nondeductible excise tax.

It is possible that the company, from time to time, may not have sufficient cash to meet the REIT distribution requirements due to timing differences between (1) the actual receipt of cash, including the receipt of distributions from any partnership subsidiaries and (2) the inclusion of items in income by the company for U.S. federal income tax purposes. In the event that such timing differences occur, in order to meet the distribution requirements, it might be necessary to arrange for short-term, or possibly long-term, borrowings, or to pay

## **Table of Contents**

dividends in the form of taxable in-kind distributions of property, including taxable stock dividends. In the case of a taxable stock dividend, stockholders would be required to include the dividend as income and would be required to satisfy the tax liability associated with the distribution with cash from other sources including sales of the Class A common stock. Both a taxable stock distribution and sale of Class A common stock resulting from such distribution could adversely affect the price of the Class A common stock.

The company may be able to rectify a failure to meet the distribution requirements for a year by paying deficiency dividends to stockholders in a later year, which may be included in the company's deduction for dividends paid for the earlier year. In this case, the company may be able to avoid losing the company's REIT qualification. However, the company will be required to pay interest and a penalty based on the amount of any deduction taken for deficiency dividends.

### ***Tax on Built-In Gains***

If the company acquires appreciated assets from a subchapter C corporation in a transaction in which the adjusted tax basis of the assets in the company's hands is determined by reference to the adjusted tax basis of the assets in the hands of the subchapter C corporation (a carry-over basis transaction), and if the company subsequently disposes of any such assets during the 10 year period following the acquisition of the assets from the subchapter C corporation, the company will be subject to tax at the highest corporate tax rates on any gain from such assets to the extent of the excess of the fair market value of the assets on the date that they were contributed to the company over the basis of such assets on such date, which is referred to as built-in gains. However, the built-in gains tax will not apply if the subchapter C corporation elects to be subject to an immediate tax when the asset is acquired by the company.

As discussed under **Certain Tax Considerations Related to the Consolidations**, the company intends that the merger of Malkin Properties CT and Malkin Construction with and into the company will be carry-over basis transactions for U.S. federal income tax purposes. Assuming that both Malkin Properties CT and Malkin Construction have at all times qualified as S Corporations and have not otherwise acquired assets of a subchapter C Corporation in a carry over basis transaction, the company will not be treated as acquiring assets from a subchapter C Corporation in a carry-over basis transaction as a result of the mergers. If, however, either Malkin Properties CT or Malkin Construction did not, at any time, qualify as an S Corporation, or otherwise acquired assets of a subchapter C Corporation in a carry-over transaction, and assuming that either or both of the mergers qualified as a reorganization for U.S. federal income tax purposes, the assets that the company acquires from such entities could be subject to the built-in gains tax.

### ***Recordkeeping Requirements***

The company is required to maintain records and request on an annual basis information from specified stockholders. These requirements are designed to assist the company in determining the actual ownership of the company's outstanding stock and maintaining the company's qualification as a REIT.

### ***Prohibited Transactions***

Net income the company derives from a prohibited transaction is subject to a 100% tax. The term prohibited transaction generally includes a sale or other disposition of property (other than foreclosure property) that is held as inventory or primarily for sale to customers in the ordinary course of a trade or business by a REIT, by a lower-tier partnership in which the REIT holds an equity interest or by a borrower that has issued a shared appreciation mortgage or similar debt instrument in the REIT. The company intends to conduct the company's operations so that no asset owned by the company or the company's pass-through subsidiaries will be held as inventory or primarily for sale to customers, and that a sale of any assets owned by the company directly or through a pass-through subsidiary will not be in the ordinary course of business. However, whether property is held as inventory or primarily for sale to customers in the ordinary course of a trade or business depends on the particular facts and circumstances. No assurance can be given that any particular property in

**Table of Contents**

which the company holds a direct or indirect interest will not be treated as property held as inventory or primarily for sale to customers, or that certain safe-harbor provisions of the Code discussed below that prevent such treatment will apply. The 100% tax will not apply to gains from the sale of property by Observatory TRS, Holding TRS, or any other TRS or other taxable corporation, although such income will be subject to tax in the hands of the corporation at regular corporate income tax rates.

The Code provides a safe harbor that, if met, allows the company to avoid being treated as engaged in a prohibited transaction. In order to meet the safe harbor, among other things, (i) the company must have held the property for at least two years for the production of rental income (and, in the case of property which consists of land or improvements not acquired through foreclosure, the company must have held the property for two years for the production of rental income), (ii) the company capitalized expenditures on the property in the two years preceding the sale that are less than 30% of the net selling price of the property, and (iii) the company (a) has seven or fewer sales of property (excluding certain property obtained through foreclosure) for the year of sale or (b) either (I) the aggregate tax basis of property sold during the year of sale is 10% or less of the aggregate tax basis of all of the company's assets as of the beginning of the taxable year, or (II) the aggregate fair market value of property sold during the year of sale is 10% or less of the aggregate fair market value of all of the company's assets as of the beginning of the taxable year, and (III) in the case of either (I) or (II), substantially all of the marketing and development expenditures with respect to the property sold are made through an independent contractor from whom the company derives no income. For these purposes, the sale of more than one property to one buyer as part of one transaction constitutes one sale.

***Foreclosure Property***

Foreclosure property is real property (including interests in real property) and any personal property incident to such real property (1) that is acquired by a REIT as a result of the REIT having bid on the property at foreclosure, or having otherwise reduced the property to ownership or possession by agreement or process of law, after there was a default (or default was imminent) on a lease of the property or a mortgage loan held by the REIT and secured by the property, (2) for which the related loan or lease was made, entered into or acquired by the REIT at a time when default was not imminent or anticipated and (3) for which such REIT makes a proper election to treat the property as foreclosure property. REITs generally are subject to tax at the maximum corporate rate (currently 35%) on any net income from foreclosure property, including any gain from the disposition of the foreclosure property, other than income that would otherwise be qualifying income for purposes of the 75% gross income test. Any gain from the sale of property for which a foreclosure property election has been made will not be subject to the 100% tax on gains from prohibited transactions described above, even if the property would otherwise constitute inventory or dealer property in the hands of the selling REIT.

To the extent that the company acquires non-performing or distressed debt secured by retail real estate assets with a view to subsequently taking control of the collateral (*i.e.*, loan-to-own investments), any property that the company acquires through such a transaction will not qualify to be treated as foreclosure property because it will not satisfy condition (2) in the preceding paragraph. However, provided that the income generated by such property is qualifying income for purposes of the 75% gross income test, such income will not be subject to tax at the maximum corporate rate assuming that it is currently distributed to the company's stockholders. See Requirements for Qualification Annual Distribution Requirements.

***Failure to Qualify***

In the event that the company violates a provision of the Code that would result in the company's failure to qualify as a REIT, the company may nevertheless continue to qualify as a REIT. Specified relief provisions will be available to the company to avoid such disqualification if (1) the violation is due to reasonable cause and not due to willful neglect, (2) the company pays a penalty of \$50,000 for each failure to satisfy a requirement for qualification as a REIT and (3) the violation does not include a violation under the gross income or asset tests described above (for which other specified relief provisions are available). This cure provision reduces the instances that could lead to the company's disqualification as a REIT for violations due to reasonable cause. If

## **Table of Contents**

the company fails to qualify for taxation as a REIT in any taxable year and none of the relief provisions of the Code apply, the company will be subject to tax, including any applicable alternative minimum tax, on the company's taxable income at regular corporate rates. Distributions to the company's stockholders in any year in which the company is not a REIT will not be deductible by the company, nor will they be required to be made. In this situation, to the extent of current and accumulated earnings and profits, and, subject to limitations of the Code, dividends in the hands of the company's corporate U.S. stockholders may be eligible for the dividends received deduction. Unless the company is entitled to relief under the specific statutory provisions, the company will also be disqualified from re-electing to be taxed as a REIT for the four taxable years following the year during which qualification was lost. It is not possible to state whether the company will be entitled to statutory relief in all circumstances.

### **Tax Aspects of Investments in Partnerships**

#### ***General***

The company will hold investments through entities that are classified as partnerships for U.S. federal income tax purposes, including the company's interest in the operating partnership and equity interests in lower-tier partnerships. In general, partnerships are pass-through entities that are not subject to U.S. federal income tax. Rather, partners are allocated their proportionate shares of the items of income, gain, loss, deduction and credit of a partnership, and are subject to tax on these items without regard to whether the partners receive a distribution from the partnership. The company will include in its income the company's proportionate share of these partnership items for purposes of the various REIT income tests, based on the company's capital interest in such partnerships. Moreover, for purposes of the REIT asset tests, the company will include the company's proportionate share of assets held by subsidiary partnerships, based on the company's capital interest in such partnerships (other than for purposes of the 10% value test, for which the determination of the company's interest in partnership assets will be based on the company's proportionate interest in any securities issued by the partnership excluding, for these purposes, certain excluded securities as described in the Code). Consequently, to the extent that the company holds an equity interest in a partnership, the partnership's assets and operations may affect the company's ability to qualify as a REIT, even though the company may have no control, or only limited influence, over the partnership.

#### ***Entity Classification***

The investment by the company in partnerships involves special tax considerations, including the possibility of a challenge by the IRS of the status of any of the company's subsidiary partnerships as a partnership, as opposed to an association taxable as a corporation, for U.S. federal income tax purposes. If any of these entities were treated as an association for U.S. federal income tax purposes, it would be taxable as a corporation and, therefore, could be subject to an entity-level tax on its income.

Pursuant to Section 7704 of the Code, a partnership that does not elect to be treated as a corporation nevertheless will be treated as a corporation for U.S. federal income tax purposes if it is a publicly traded partnership and it does not receive at least 90% of its gross income from certain specified sources of qualifying income within the meaning of that section. A publicly traded partnership is any partnership (i) the interests in which are traded on an established securities market or (ii) the interests in which are readily tradable on a secondary market or the substantial equivalent thereof. The Series ES operating partnership units, Series 60 operating partnership units and Series 250 operating partnership units of the operating partnership will be traded on the NYSE and therefore the operating partnership will be a publicly traded partnership. Accordingly, the operating partnership will be taxed as a corporation unless at least 90% of its gross income consists of qualifying income under Section 7704 of the Code for each of its taxable years. Qualifying income for purpose of the qualifying income exception is generally real property rents and other types of passive income. The company believes the operating partnership will have and both the company and the operating partnership have represented to Clifford Chance US LLP in connection with its REIT qualification opinion that the operating partnership will have sufficient qualifying income so that it will be taxed as a partnership, even though it will be

**Table of Contents**

a publicly traded partnership. The income requirements applicable to the company to qualify as a REIT under the Code and the definition of qualifying income under the publicly traded partnership rules are very similar. Although differences exist between these two income tests, the company does not believe that these differences would cause the operating partnership not to satisfy the 90% gross income test applicable to publicly traded partnerships.

If at the end of any taxable year the operating partnership fails to meet the qualifying income exception, it may still qualify as a partnership if it is otherwise entitled to relief under the Code for an inadvertent termination of partnership status. This relief will be available if (i) the failure is cured within a reasonable time after discovery, (ii) the failure is determined by the IRS to be inadvertent, and (iii) the operating partnership agrees to make such adjustments (including adjustments with respect to its partners) or to pay such amounts as are required by the IRS. It is not possible to state whether the operating partnership would be entitled to this relief in any or all circumstances. It also is not clear under the Code whether this relief is available for the operating partnership's first taxable year as a publicly traded partnership. If this relief provision is inapplicable to a particular set of circumstances, the operating partnership will not qualify as a partnership for U.S. federal income tax purposes. Moreover, if this relief provision applies and the operating partnership retains its partnership status, it or the holders of operating partnership (during the failure period) will be required to pay such amounts as are determined by the IRS.

Moreover, if the operating partnership fails to meet the qualifying income exception, other than a failure that is determined by the IRS to be inadvertent and that is cured within a reasonable time after discovery as described above, and therefore was taxable as a corporation for U.S. federal income tax purposes, the character of the company's assets and items of the company's gross income would change and would preclude the company from satisfying the REIT asset tests (particularly the tests generally preventing a REIT from owning more than 10% of the voting securities, or more than 10% of the value of the securities, of a corporation) and the gross income tests as discussed in Requirements for Qualification Asset Tests and Requirements for Qualification Gross Income Tests above, and in turn would prevent the company from qualifying as a REIT. See Failure to Qualify, below, for a discussion of the effect of the company's failure to meet these tests for a taxable year. In addition, any change in the status of any of the company's subsidiary partnerships for tax purposes might be treated as a taxable event, in which case the company could have taxable income that is subject to the REIT distribution requirements without receiving any cash.

***Tax Allocations with Respect to Partnership Properties***

The operating partnership agreement generally provides that items of operating income and loss will be allocated to the holders of units in proportion to the number of units held by each holder. If an allocation of partnership income or loss does not comply with the requirements of Section 704(b) of the Code and the Treasury Regulations thereunder, the item subject to the allocation will be reallocated in accordance with the partners' interests in the partnership. This reallocation will be determined by taking into account all of the facts and circumstances relating to the economic arrangement of the partners with respect to such item. The operating partnership's allocations of income and loss are intended to comply with the requirements of Section 704(b) of the Code of the Treasury Regulations promulgated under this section of the Code.

Under Section 704(c) of the Code, income, gain, loss and deduction attributable to appreciated or depreciated property that is contributed to a partnership in exchange for an interest in the partnership must be allocated for tax purposes in a manner such that the contributing partner is charged with, or benefits from, the unrealized gain or unrealized loss associated with the property at the time of the contribution. The amount of the unrealized gain or unrealized loss is generally equal to the difference between the fair market value, or book value, of the contributed property and the adjusted tax basis of such property at the time of the contribution (a book-tax difference). Such allocations are solely for U.S. federal income tax purposes and do not affect partnership capital accounts or other economic or legal arrangements among the partners.

## **Table of Contents**

In connection with the consolidation, appreciated property will be acquired by the operating partnership in exchange for interests in the operating partnership. The operating partnership agreement requires that allocations with respect to such acquired property be made in a manner consistent with Section 704(c) of the Code. Treasury Regulations issued under Section 704(c) of the Code provide partnerships with a choice of several methods of allocating book-tax differences. Under the tax protection agreement, the operating partnership has agreed to use the traditional method for accounting for book-tax differences for the properties acquired by the operating partnership in the consolidation. Under the traditional method, which is the least favorable method from the company's perspective, the carryover basis of the acquired properties in the hands of the operating partnership (1) may cause the company to be allocated lower amounts of depreciation and other deductions for tax purposes than would be allocated to the company if all of the acquired properties were to have a tax basis equal to their fair market value at the time of acquisition and (2) in the event of a sale of such properties, could cause the company to be allocated gain in excess of the company's corresponding economic or book gain (or taxable loss that is less than the company's economic or book loss), with a corresponding benefit to the partners transferring such properties to the operating partnership for interests in the operating partnership. Therefore, the use of the traditional method could result in the company's having taxable income that is in excess of the company's economic or book income as well as the company's cash distributions from the operating partnership, which might adversely affect the company's ability to comply with the REIT distribution requirements or result in a greater portion of the company's distributions being treated as taxable dividend income.

### **Taxation of Stockholders**

#### ***Taxation of Taxable U.S. Stockholders***

This section summarizes the taxation of U.S. stockholders that are not tax-exempt organizations.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds the company's stock, the U.S. federal income tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. A partner of a partnership holding common stock should consult its tax advisor regarding the U.S. federal income tax consequences to the partner of the acquisition, ownership and disposition of the company's stock by the partnership.

*Distributions.* Provided that the company qualifies as a REIT, distributions made to the company's taxable U.S. stockholders out of the company's current or accumulated earnings and profits, and not designated as capital gain dividends, will generally be taken into account by them as ordinary dividend income and will not be eligible for the dividends received deduction for corporations. In determining the extent to which a distribution with respect to common stock constitutes a dividend for U.S. federal income tax purposes, the company's earnings and profits will be allocated first to distributions with respect to the company's preferred stock, if any is outstanding, and then to the company's common stock.

In addition, distributions from the company that are designated as capital gain dividends will be taxed to U.S. stockholders as long-term capital gains, to the extent that they do not exceed the company's actual net capital gain for the taxable year, without regard to the period for which the U.S. stockholder has the stock. To the extent that the company elects under the applicable provisions of the Code to retain the company's net capital gains, U.S. stockholders will be treated as having received, for U.S. federal income tax purposes, the company's undistributed capital gains as well as a corresponding credit for taxes paid by the company on such retained capital gains.

U.S. stockholders will increase their adjusted tax basis in the company's common stock by the difference between their allocable share of such retained capital gain and their share of the tax paid by the company. Corporate U.S. stockholders may be required to treat up to 20% of some capital gain dividends as ordinary income. Long-term capital gains are generally taxable at maximum U.S. federal rates of 20% in

**Table of Contents**

the case of noncorporate U.S. stockholders for taxable years beginning after December 31, 2012, and 35% for corporations. Capital gains attributable to the sale of depreciable real property held for more than 12 months are subject to a 25% maximum U.S. federal income tax rate for noncorporate U.S. stockholders, to the extent of previously claimed depreciation deductions.

A portion of the company's distributions may be treated as a return of capital for U.S. federal income tax purposes. As a general matter, a portion of the company's distributions will be treated as a return of capital for U.S. federal income tax purposes if the aggregate amount of the company's distributions for a year exceeds the company's current and accumulated earnings and profits for that year. To the extent that a distribution is treated as a return of capital for U.S. federal income tax purposes, it will reduce a holder's adjusted tax basis in the holder's shares, and to the extent that it exceeds the holder's adjusted tax basis will be treated as gain resulting from a sale or exchange of such shares. As a general matter, any such gain will be long-term capital gain if the shares have been held for more than one year. In addition, any dividend declared by the company in October, November or December of any year and payable to a U.S. stockholder of record on a specified date in any such month will be treated as both paid by the company and received by the U.S. stockholder on December 31 of such year, provided that the dividend is actually paid by the company before the end of January of the following calendar year.

To the extent that the company has available net operating losses and capital losses carried forward from prior tax years, such losses may reduce the amount of distributions that must be made in order to comply with the REIT distribution requirements. See Requirements for Qualification Annual Distribution Requirements. Such losses, however, are not passed through to U.S. stockholders and do not offset income of U.S. stockholders from other sources, nor do they affect the character of any distributions that are actually made by the company, which are generally subject to tax in the hands of U.S. stockholders to the extent that the company has current or accumulated earnings and profits.

*Dispositions of Common Stock.* In general, a U.S. stockholder will realize gain or loss upon the sale, redemption or other taxable disposition of common stock in an amount equal to the difference between the sum of the fair market value of any property and the amount of cash received in such disposition and the U.S. stockholder's adjusted tax basis in the common stock at the time of the disposition. A U.S. stockholder's adjusted tax basis

## **Table of Contents**

generally will equal the U.S. stockholder's acquisition cost, increased by the excess of net capital gains deemed distributed to the U.S. stockholder (as discussed above), less tax deemed paid on it and reduced by returns of capital. In general, capital gains recognized by individuals and other noncorporate U.S. stockholders upon the sale or disposition of shares of common stock will be subject to a maximum U.S. federal income tax rate of 20% for taxable years beginning after December 31, 2012, if common stock is held for more than 12 months, and will be taxed at ordinary income rates (of up to 39.6% with respect to taxable years beginning after December 31, 2012) if common stock is held for 12 months or less. In addition, for taxable years beginning after December 31, 2012, a maximum U.S. federal income tax rate of 18% generally applies to gain from dispositions of shares of common stock by individuals and other noncorporate U.S. stockholders if the common stock is held for more than five years. Gains recognized by U.S. stockholders that are corporations are subject to U.S. federal income tax at a maximum rate of 35%, whether or not classified as long-term capital gains. The IRS has the authority to prescribe, but has not yet prescribed, regulations that would apply a capital gain tax rate of 25% (which is generally higher than the long-term capital gain tax rates for noncorporate holders) to a portion of capital gain realized by a noncorporate holder on the sale of REIT stock or depositary shares that would correspond to the REIT's unreaptured Section 1250 gain.

Prospective stockholders are advised to consult their tax advisors with respect to their capital gain tax liability. Capital losses recognized by a U.S. stockholder upon the disposition of common stock held for more than one year at the time of disposition will be considered long-term capital losses, and are generally available only to offset capital gain income of the U.S. stockholder but not ordinary income (except in the case of noncorporate taxpayers, who may offset up to \$3,000 of ordinary income each year). In addition, any loss upon a sale or exchange of shares of common stock by a U.S. stockholder who has held the shares for six months or less, after applying holding period rules, will be treated as a long-term capital loss to the extent of distributions received from the company that were required to be treated by the U.S. stockholder as long-term capital gain.

If a U.S. stockholder recognizes a loss upon a subsequent disposition of common stock in an amount that exceeds a prescribed threshold, it is possible that the provisions of recently adopted Treasury Regulations involving reportable transactions could apply, with a resulting requirement to separately disclose the loss generating transactions to the IRS. Although these regulations are directed towards tax shelters, they are written quite broadly, and apply to transactions that would not typically be considered tax shelters. Significant penalties apply for failure to comply with these requirements. You should consult your tax advisors concerning any possible disclosure obligation with respect to the receipt or disposition of common stock, or transactions that might be undertaken directly or indirectly by the company. Moreover, you should be aware that the company and other participants in transactions involving the company (including the company's advisors) might be subject to disclosure or other requirements pursuant to these regulations.

*Passive Activity Losses and Investment Interest Limitations.* Distributions made by the company and gain arising from the sale or exchange by a U.S. stockholder of common stock will not be treated as passive activity income. As a result, U.S. stockholders will not be able to apply any passive losses against income or gain relating to the common stock. Distributions made by the company, to the extent they do not constitute a return of capital, generally will be treated as investment income for purposes of computing the investment interest limitation. A U.S. stockholder that elects to treat capital gain dividends, capital gains from the disposition of stock or qualified dividend income as investment income for purposes of the investment interest limitation will be taxed at ordinary income rates on such amounts.

*Expansion of Medicare Tax.* Under recently enacted legislation, in certain circumstances, certain U.S. stockholders that are individuals, estates, and trusts pay a 3.8% tax on net investment income, which includes, among other things, dividends on and gains from the sale or other disposition of shares, effective for taxable years beginning after December 31, 2012. Prospective U.S. stockholders should consult their tax advisors regarding this new legislation.

### ***Taxation of Tax-Exempt U.S. Stockholders***

U.S. tax-exempt entities, including qualified employee pension and profit sharing trusts and individual retirement accounts, generally are exempt from U.S. federal income taxation. However, they are subject to taxation on their unrelated business taxable income, which is referred to in this registration statement as unrelated business taxable income, or UBTI. Although many investments in real estate may generate UBTI, the IRS has

**Table of Contents**

ruled that dividend distributions from a REIT to a tax-exempt entity do not constitute UBTI. Based on that ruling, and provided that (1) a tax-exempt U.S. stockholder has not held the common stock as debt financed property within the meaning of the Code (*i.e.*, where the acquisition or ownership of the property is financed through a borrowing by the tax-exempt stockholder), and (2) the common stock is not otherwise used in an unrelated trade or business, distributions from the company and income from the sale of the common stock generally should not give rise to UBTI to a tax-exempt U.S. stockholder.

Tax-exempt U.S. stockholders that are social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts, and qualified group legal services plans exempt from U.S. federal income taxation under Sections 501(c)(7), (c) (9), (c)(17) and (c)(20) of the Code, respectively, are subject to different UBTI rules, which generally will require them to characterize distributions from the company as UBTI unless they are able to properly claim a deduction for amounts set aside or placed in reserve for specific purposes so as to offset the income generated by their investment in the common stock. These prospective investors should consult their tax advisors concerning these set aside and reserve requirements.

In certain circumstances, a pension trust (1) that is described in Section 401(a) of the Code, (2) is tax exempt under Section 501(a) of the Code, and (3) that owns more than 10% of the company's stock could be required to treat a percentage of the dividends from the company as UBTI if the company is a pension-held REIT. The company will not be a pension-held REIT unless (1) either (A) one pension trust owns more than 25% of the value of the company's stock, or (B) a group of pension trusts, each individually holding more than 10% of the value of the company's stock, collectively owns more than 50% of such stock and (2) the company would not have qualified as a REIT but for the fact that Section 856(h)(3) of the Code provides that stock owned by such trusts shall be treated, for purposes of the requirement that not more than 50% of the value of the outstanding stock of a REIT is owned, directly or indirectly, by five or fewer individuals (as defined in the Code to include certain entities), as owned by the beneficiaries of such trusts.

Tax-exempt U.S. stockholders are urged to consult their tax advisors regarding the U.S. federal, state, local and foreign tax consequences of the acquisition, ownership and disposition of the company's stock.

***Taxation of Non-U.S. Stockholders***

The following is a summary of certain U.S. federal income tax consequences of the acquisition, ownership and disposition of the common stock applicable to non-U.S. stockholders. The discussion is based on current law and is for general information only. It addresses only selective and not all aspects of U.S. federal income taxation.

***Ordinary Dividends.*** The portion of dividends received by non-U.S. stockholders payable out of the company's earnings and profits that are not attributable to gains from sales or exchanges of U.S. real property interests and which are not effectively connected with a U.S. trade or business of the non-U.S. stockholder generally will be treated as ordinary income and will be subject to U.S. federal withholding tax at the rate of 30%, unless reduced or eliminated by an applicable income tax treaty. Under some treaties, however, lower rates generally applicable to dividends do not apply to dividends from REITs.

In general, non-U.S. stockholders will not be considered to be engaged in a U.S. trade or business solely as a result of their ownership of the company's stock. In cases where the dividend income from a non-U.S. stockholder's investment in the common stock is treated as effectively connected with the non-U.S. stockholder's conduct of a U.S. trade or business, the non-U.S. stockholder generally will be subject to U.S. federal income tax at graduated rates, in the same manner as U.S. stockholders are taxed with respect to such dividends, and may also be subject to the 30% branch profits tax (unless reduced or eliminated by an applicable income tax treaty) on the income after the application of the income tax in the case of a non-U.S. stockholder that is a corporation.

***Non-Dividend Distributions.*** Unless (1) the common stock constitutes a U.S. real property interest, or USRPI, or (2) either (A) the non-U.S. stockholder's investment in the common stock is effectively connected

---

## Table of Contents

with a U.S. trade or business conducted by such non-U.S. stockholder (in which case the non-U.S. stockholder will be subject to the same treatment as U.S. stockholders with respect to such gain) or (B) the non-U.S. stockholder is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and has a tax home in the United States (in which case the non-U.S. stockholder will be subject to a 30% tax on the individual's net capital gain for the year), distributions by the company which are not treated as dividends for U.S. federal income tax purposes (*i.e.*, not treated as being paid out of the company's current and accumulated earnings and profits) will not be subject to U.S. federal income tax. If it cannot be determined at the time at which a distribution is made whether or not the distribution will constitute a dividend for U.S. federal income tax purposes, the distribution will be subject to withholding at the rate applicable to dividends. However, the non-U.S. stockholder may seek a refund from the IRS of any amounts withheld if it is subsequently determined that the distribution was, in fact, in excess of the company's current and accumulated earnings and profits and, therefore, did not constitute a dividend for U.S. federal income tax purposes. In addition, if the company's common stock constitutes a USRPI, as described below, distributions by the company in excess of the sum of the company's earnings and profits plus the non-U.S. stockholder's adjusted tax basis in the common stock will be taxed under the Foreign Investment in Real Property Tax Act of 1980, or FIRPTA, at the rate of tax, including any applicable capital gains rates, that would apply to a U.S. stockholder of the same type (*e.g.*, an individual or a corporation, as the case may be), and the collection of the tax will be enforced by a withholding tax (at a rate of 10%) of the amount by which the distribution exceeds the stockholder's share of the company's earnings and profits plus the stockholder's adjusted basis in the company's stock. As discussed below, the company expects that the Class A common stock will not be treated as a USRPI in the hands of a non-U.S. stockholder who holds less than 5% of the Class A common stock.

Because it will not generally be possible for the company to determine the extent to which a distribution will be from the company's current or accumulated earnings and profits at the time the distribution is made, the company intends to withhold and remit to the IRS 30% of distributions to non-U.S. stockholders (other than distributions that are deemed to be attributable to USRPI capital gains, as described in greater detail below) unless (i) a lower treaty rate applies and the non-U.S. stockholder files an IRS Form W-8BEN evidencing eligibility for that reduced treaty rate with the company; or (ii) the non-U.S. stockholder files an IRS Form W-8ECI with the company claiming that the distribution is income effectively connected with the non-U.S. stockholder's trade or business. However, if the company determines that any of the company's stock held by a non-U.S. stockholder is likely to be treated as a USRPI, the company intends to withhold and remit to the IRS at least 10% of distributions on such stock even if a lower rate would apply under the preceding discussion.

*Capital Gain Dividends.* Under FIRPTA, a distribution made by the company to a non-U.S. stockholder, to the extent attributable to gains from dispositions of USRPIs held by the company directly or through pass-through subsidiaries, or USRPI capital gains, will be considered effectively connected with a U.S. trade or business of the non-U.S. stockholder and will be subject to U.S. federal income tax at the rates applicable to U.S. stockholders, without regard to whether the distribution is designated as a capital gain dividend. In addition, the company will be required to withhold tax equal to 35% of the amount of any distribution to the extent it is attributable to USRPI capital gains. Distributions subject to FIRPTA may also be subject to a 30% branch profits tax in the hands of a non-U.S. stockholder that is a corporation. However, this 35% withholding tax will not apply to any distribution with respect to any class of the company's stock which is regularly traded on an established securities market located in the United States (as defined by applicable Treasury Regulations) if the non-U.S. stockholder did not own more than 5% of such class of stock at any time during the one-year period ending on the date of such dividend. Instead, any such distribution will be treated as a distribution subject to the rules discussed above under Taxation of Stockholders Taxation of Non-U.S. Stockholders Ordinary Dividends. Also, the branch profits tax will not apply to such a distribution.

A distribution is not attributable to USRPI capital gain if the company held the underlying asset solely as a creditor, although the holding of a shared appreciation mortgage loan would not be solely as a creditor. Capital gain dividends received by a non-U.S. stockholder from a REIT that are not attributable to USRPI capital gains are generally not subject to U.S. federal income or withholding tax, unless either (1) the non-U.S. stockholder's

**Table of Contents**

investment in the common stock is effectively connected with a U.S. trade or business conducted by such non-U.S. stockholder (in which case the non-U.S. stockholder will be subject to the same treatment as U.S. stockholders with respect to such gain) or (2) the non-U.S. stockholder is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and has a tax home in the United States (in which case the non-U.S. stockholder will be subject to a 30% tax on the individual's net capital gain for the year). The company intends to withhold and remit to the IRS 35% of a distribution to a non-U.S. stockholder only to the extent that such distribution is attributable to USRPI capital gains. The amount withheld is creditable against the non-U.S. stockholder's U.S. federal income tax liability or refundable when the non-U.S. stockholder properly and timely files a tax return with the IRS.

*Dispositions of the Common Stock.* Unless the common stock constitutes a USRPI, a sale of the stock by a non-U.S. stockholder generally will not be subject to U.S. federal income taxation under FIRPTA. The stock will not be treated as a USRPI if less than 50% of the company's assets throughout a prescribed testing period consist of interests in real property located within the United States, excluding, for this purpose, interests in real property solely in a capacity as a creditor. However, the company expects that more than 50% of the company's assets will consist of interests in real property located in the United States.

Still, the common stock nonetheless will not constitute a USRPI if the company is a domestically controlled qualified investment entity. A REIT is a domestically controlled qualified investment entity if, at all times during a specified testing period (generally the lesser of the five-year period ending on the date of disposition of its shares of common stock or the period of existence), less than 50% in value of its outstanding stock is held directly or indirectly by non-U.S. stockholders. The company expects to be a domestically controlled qualified investment entity and, therefore, the sale of the common stock should not be subject to taxation under FIRPTA. Because the company's stock will be publicly traded, however, no assurance can be given that the company will be, or that if the company is, that the company will remain, a domestically controlled qualified investment entity.

Specific wash sale rules applicable to sales of shares in a REIT could result in gain recognition, taxable under FIRPTA, upon the sale of the common stock. These rules would apply if a non-U.S. stockholder (1) disposes of the common stock within a 30-day period preceding the ex-dividend date of a distribution, any portion of which, but for the disposition, would have been taxable to such non-U.S. stockholder as gain from the sale or exchange of a USRPI, (2) is treated as acquiring, or as entering into a contract or option to acquire, other shares of the common stock during the 61-day period that begins 30 days prior to such ex-dividend date, and (3) if shares of the Class A common stock are regularly traded on an established securities market in the United States, such non-U.S. stockholder has owned more than 5% of the Class A common stock at any time during the one-year period ending on the date of such distribution.

In the event that the company does not constitute a domestically controlled qualified investment entity, a non-U.S. stockholder's sale of the Class A common stock nonetheless will generally not be subject to tax under FIRPTA as a sale of a USRPI, provided that (1) the Class A common stock is regularly traded on an established securities market located in the United States (as defined by applicable Treasury Regulations), and (2) the selling non-U.S. stockholder owned, actually or constructively, 5% or less of the company's outstanding Class A common stock at all times during the five-year period ending on the date of sale. Holders of Class B common stock should consult their tax advisor regarding the impact of their ownership of Class B common stock upon the FIRPTA consequences related to their ownership of Class A common stock and regarding the FIRPTA consequences of owning Class B common stock generally.

If gain on the sale of the common stock were subject to taxation under FIRPTA, the non-U.S. stockholder would be subject to the same treatment as a U.S. stockholder with respect to such gain, including applicable alternative minimum tax (and a special alternative minimum tax in the case of non-resident alien individuals), and the purchaser of the stock could be required to withhold 10% of the purchase price and remit such amount to the IRS.

---

## **Table of Contents**

Gain from the sale of the common stock that would not otherwise be subject to FIRPTA will nonetheless be taxable in the United States to a non-U.S. stockholder in two cases: (1) if the non-U.S. stockholder's investment in the common stock is effectively connected with a U.S. trade or business conducted by such non-U.S. stockholder, the non-U.S. stockholder will be subject to the same treatment as a U.S. stockholder with respect to such gain, or (2) if the non-U.S. stockholder is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year and has a tax home in the United States, the nonresident alien individual will be subject to a 30% tax on the individual's capital gain.

### ***Backup Withholding and Information Reporting***

The company will report to the company's U.S. stockholders and the IRS the amount of dividends paid during each calendar year and the amount of any tax withheld. Under the backup withholding rules, a U.S. stockholder may be subject to backup withholding (at a rate of 31% for taxable years beginning after December 31, 2012) with respect to dividends paid, unless the holder (1) is a corporation or comes within other exempt categories and, when required, demonstrates this fact or (2) provides a taxpayer identification number or social security number, certifies under penalties of perjury that such number is correct and that such holder is not subject to backup withholding and otherwise complies with applicable requirements of the backup withholding rules. A U.S. stockholder that does not provide his or her correct taxpayer identification number or social security number may also be subject to penalties imposed by the IRS. In addition, the company may be required to withhold a portion of capital gain distribution to any U.S. stockholder who fails to certify its non-foreign status.

The company must report annually to the IRS and to each non-U.S. stockholder the amount of dividends paid to such holder and the tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the non-U.S. stockholder resides under the provisions of an applicable income tax treaty. A non-U.S. stockholder may be subject to backup withholding unless applicable certification requirements are met.

Payment of the proceeds of a sale of the common stock within the United States is subject to both backup withholding and information reporting requirements unless the beneficial owner certifies under penalties of perjury that it is a non-U.S. stockholder (and the payor does not have actual knowledge or reason to know that the beneficial owner is a United States person) or the holder otherwise establishes an exemption. Payment of the proceeds of a sale of the common stock conducted through certain United States related financial intermediaries is subject to information reporting requirements (but not backup withholding) unless the financial intermediary has documentary evidence in its records that the beneficial owner is a non-U.S. stockholder and specified conditions are met or an exemption is otherwise established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against such holder's U.S. federal income tax liability, provided the required information is furnished to the IRS.

### ***Foreign Accounts***

Federal legislation (referred to as FATCA) may, pursuant to proposed Treasury Regulations and other guidance, impose withholding taxes on U.S. source payments made after December 31, 2013 to foreign financial institutions and certain other non-U.S. entities and disposition proceeds of U.S. securities realized after December 31, 2016. Under FATCA, the failure to comply with additional certification, information reporting and other specified requirements could result in withholding tax being imposed on payments of dividends and sales proceeds to U.S. stockholders who own shares of the common stock through foreign accounts or foreign intermediaries and to certain non-U.S. stockholders. FATCA imposes a 30% withholding tax on dividends on, and gross proceeds from the sale or other disposition of, the common stock paid to a foreign financial institution or to a foreign entity other than a financial institution, unless (i) the foreign financial institution undertakes

## **Table of Contents**

certain diligence and reporting obligations or (ii) the foreign entity that is not a financial institution either certifies it does not have any substantial U.S. owners or furnishes identifying information regarding each substantial U.S. owner. If the payee is a foreign financial institution, as a general matter, it must enter into an agreement with the U.S. Treasury requiring, among other things, that it undertake to identify accounts held by certain U.S. persons or U.S.-owned foreign entities, annually report certain information about such accounts, and withhold 30% on payments to account holders whose actions prevent it from complying with these reporting and other requirements. The proposed regulations and other guidance relating to FATCA will not be effective until reflected in final regulations. There can be no assurance either as to when these final regulations will be issued or as to the particular form that the final regulations might take. Prospective stockholders should consult their tax advisors regarding this legislation.

### ***State, Local and Foreign Taxes***

The company and its subsidiaries and stockholders may be subject to state, local and foreign taxation in various jurisdictions, including those in which they or the company transacts business, own property or reside. The company will likely own interests in properties located in a number of jurisdictions, and the company may be required to file tax returns and pay taxes in certain of those jurisdictions. The state, local or foreign tax treatment of the company and the company's stockholders may not conform to the U.S. federal income tax treatment discussed above. Any foreign taxes incurred by the company would not pass through to stockholders as a credit against their U.S. federal income tax liability. Prospective investors should consult their tax advisor regarding the application and effect of state, local and foreign income and other tax laws on an investment in the common stock.

### ***Proposed Legislation or Other Actions Affecting REITs***

The rules dealing with U.S. federal income taxation are constantly under review by persons involved in the legislative process and by the IRS and the U.S. Treasury Department. No assurance can be given as to whether, when, or in what form, the U.S. federal income tax laws applicable to the company and its stockholders may be enacted. Changes to the U.S. federal income tax laws and interpretations of U.S. federal tax laws could adversely affect an investment in the common stock.

### **Consequences of Holding Operating Partnership Units**

#### ***General***

For purposes of this discussion, reference to operating partnership units means Series 60, Series 250, and Series ES operating partnership units, unless otherwise indicated. The general tax principles described below apply to all holders of operating partnership units unless otherwise indicated. However, the tax characteristics associated with each series may differ based on the unique and different tax attributes of the property contributed by each subject LLC. Such differences may affect the liquidity and market price of operating partnership units within each series. Participants who will receive operating partnership units in the consolidation are urged to consult with their tax advisor regarding the tax consequences of holding operating partnership units in their particular circumstances, and the potential impact of tax consequences on the liquidity and market price of the operating partnership units received by such participant.

---

**Table of Contents*****Taxation of Holders of Operating Partnership Units on Profits and Losses of the Operating Partnership***

So long as it remains eligible to be taxed as a partnership for U.S. federal income tax purposes, the operating partnership generally will not be subject to U.S. federal income tax. Rather, each holder of operating partnership units in computing its U.S. federal income tax liability for a taxable year will be required to take into account its allocable share of items of the operating partnership's income, gain, loss, deduction and credit for the operating partnership's taxable year ending within or with the taxable year of such holder, regardless of whether the holder has received any distributions. It is possible that the U.S. federal income tax liability of a holder of operating partnership units with respect to its allocable share of the operating partnership's earnings in a particular taxable year could exceed the cash distributions to the holders for the year, thus requiring an out-of-pocket tax payment by the holder. The characterization of an item of income, gain, loss, deduction or credit will generally be determined at the partnership level (rather than at the holder level).

As discussed under *Tax Aspects of Investments in Partnerships Entity Classification*, if the operating partnership were taxable as a corporation (because, for instance, it is a publicly traded partnership and does not satisfy the qualifying income exception described above), the character of the company's assets and items of gross income would change and would preclude the company from satisfying the REIT asset tests (particularly the tests generally preventing a REIT from owning more than 10% of the voting securities, or more than 10% of the value of the securities, of a corporation) and the gross income tests as discussed in *Taxation of the Company Requirements for Qualification Asset Tests* and *Taxation of the Company Requirements for Qualification Gross Income Tests*, and in turn would prevent the company from qualifying as a REIT. See *Failure to Qualify*, for a discussion of the effect of the company's failure to meet these tests for a taxable year. In addition, any change in the status of any subsidiary partnership for tax purposes might be treated as a taxable event, in which case the company could have taxable income that is subject to the REIT distribution requirements without receiving any cash.

Even if the operating partnership meets the 90% qualifying income test, certain other consequences will result from the operating partnership's publicly traded partnership classification which could be adverse to you to the extent you receive operating partnership units in exchange for your participation interests. In particular, under Section 469(k) of the Code, you would be required to apply the passive loss limitations of Section 469 separately to the income and loss from the operating partnership. See *Consequences of Holding Operating Partnership Units Limitations on Deductibility of Certain Losses*.

Treatment of the operating partnership as an association taxable as a corporation or a publicly traded partnership taxable as a corporation would have a material adverse impact on you if you receive operating partnership units in the consolidation. In particular, (i) the exchange of your participation interests for operating partnership units could be a taxable transaction; (ii) the operating partnership would have to pay U.S. federal income tax on its taxable income at regular corporate rates (the maximum effective corporate U.S. federal income tax rate currently is 35%) and cash available for distribution to its partners (including you and the company) would thereby be reduced; (iii) there would be no flow-through from the operating partnership to you of items of income, gain, deduction, loss or credit with the result that most, if not all, of the tax aspects discussed above would not apply to you; (iv) distributions to you from the operating partnership would be taxed as dividends or otherwise treated as distributions by a corporation to its stockholders; and (v) the value of your operating partnership units would be substantially impaired. Moreover, if, at any time after the consolidation, the operating partnership were to be treated as an association taxable as a corporation or a publicly traded partnership taxable as a corporation, among other things, you generally would recognize gain equal to a negative capital account that you have in your operating partnership units at that time (i.e., the amount by which your share of liabilities of the operating partnership exceeds your basis in your operating partnership units).

The following discussion assumes that the operating partnership is treated as a partnership and not a publicly traded partnership taxable as a corporation for U.S. federal income tax purposes.

---

**Table of Contents**

***Income and Deductions in General***

You will report on your U.S. federal income tax return your allocable share of the operating partnership's income, gains, losses, deductions and credits. Such items must be included on your U.S. federal income tax return without regard to whether the operating partnership makes a distribution of cash to you. Accordingly, it is possible that your U.S. federal income tax liability with respect to your allocable share of operating partnership income for a taxable year could exceed your cash distribution for such year.

***Basis of Units; Treatment of Deemed Distributions***

If (taking into account any shares of common stock deemed to be received in connection with the voluntary pro rata reimbursement program) you receive solely operating partnership units in the consolidation, your initial basis in your operating partnership units (your Initial Basis) should generally be equal to your basis in your participation interest immediately before the consolidation. If (taking into account any shares of common stock deemed to be received in connection with the voluntary pro rata reimbursement program) you receive operating partnership units and shares of common stock in the consolidation, your Initial Basis should generally be determined as described above under Receipt of Operating Partnership Units Receipt of Reimbursement Shares of Common Stock. However, your basis in your operating partnership units will be reduced (but not below zero) by all or a portion of the amount of any deemed distribution resulting from a decrease in your allocable share of the operating partnership's liabilities. See Tax Consequences of the Consolidation Receipt of Operating Partnership Units Relief from Liabilities and Share of Liabilities. If you have such a reduction in basis, you can generally expect that distributions of cash by the operating partnership and any deemed distributions resulting from subsequent reductions in your share of the operating partnership liabilities may be taxable to you sooner than would be the case if such basis reduction had not occurred. Such basis reduction would also affect your ability to deduct your share of the operating partnership's tax losses.

Your Initial Basis in your operating partnership units will generally be increased by your share of any of the operating partnership income and gain and any increases in your share of liabilities of the operating partnership, and decreased (but not below zero) by your share of any of the operating partnership losses and any non-deductible expenditures of the operating partnership which are not chargeable to capital, distributions and any decreases in your share of liabilities of the operating partnership.

***Treatment of Operating Partnership Distributions***

Subject to the discussion of the Disguised Sale Regulations above, distributions of money (including for such purposes decreases in your share of the operating partnership's liabilities) by the operating partnership to you following the consolidation generally should not be taxable for U.S. federal income tax purposes to the extent of your adjusted tax basis in your operating partnership units immediately before the distribution. Distributions of money and marketable securities in excess of such adjusted tax basis generally will be considered to be gains from the sale or exchange of the operating partnership units for U.S. federal income tax purposes, although a portion may be taxable as ordinary income. Your share of nonrecourse liabilities of the operating partnership may decrease (thereby resulting in a deemed cash distribution) as a result of repayments or other reductions of the operating partnership debt. See Tax Consequences of the Consolidation Receipt of Operating Partnership Units Relief from Liabilities and Share of Liabilities.

***Allocations of Income, Gain, Loss and Deduction***

Under Section 704(b) of the Code, a partnership's allocation of any item of income, gain, loss or deduction to a partner will be given effect for U.S. federal income tax purposes so long as it has substantial economic effect, or is otherwise allocated in accordance with the partners' interests in the partnership. If the allocation does not satisfy this standard, it will be reallocated among the partners according to their respective interests in the partnership, taking into account all facts and circumstances.

---

**Table of Contents**

Section 706 of the Code provides that items of partnership income and deductions must be allocated between transferors and transferees of operating partnership units. The operating partnership will apply certain assumptions and conventions in an attempt to comply with applicable rules and to report income, gain, loss, deduction and credit to holders of Series 60, Series 250, and Series ES operating partnership units, but these assumptions and conventions may not be in compliance with all aspects of applicable tax requirements. As a result, if you transfer your operating partnership units, you may be allocated income, gain, loss and deductions realized by the operating partnership after the date of transfer. In addition, as a result of such allocation method, you may be allocated taxable income even if you do not receive any distributions.

If the conventions are not allowed by applicable Treasury Regulations (or only apply to transfers of less than all of a holder's operating partnership units) or if the IRS otherwise does not accept the conventions, the IRS may contend that the operating partnership's taxable income or losses must be reallocated among the holders of Series 60, Series 250, Series ES, and Series PR operating partnership units. If such a contention were sustained, certain holders of Series 60, Series 250, and Series ES operating partnership units respective tax liabilities would be adjusted to the possible detriment of such holders of operating partnership units. The Company is authorized to revise the operating partnership's method of allocation between transferors and transferees (as well as among holders of operating partnership units whose interests otherwise could vary during a taxable period).

Under Section 704(c) of the Code, items of income, gain, loss, and deduction with respect to appreciated or depreciated property that is contributed to a partnership in a tax-deferred transaction must be specially allocated, solely for U.S. federal income tax purposes, among the partners in such a manner so as to take into account such variation between tax basis and fair market value (sometimes referred to herein as the Book-Tax Difference). Under such allocations, the Book-Tax Difference will be eliminated by causing the contributing partner to bear the tax burden or benefit associated with the recognition of the unrealized gain or loss (as measured on the date of the contribution attributable to the contributed asset). In this manner, the contributing partner will realize over the life of the contributed asset the deferred tax burden or benefit attributable to such unrealized appreciation or depreciation in value relative to adjusted basis. The Treasury Regulations require the partnership to use a reasonable method for making Section 704(c) allocations. As a result of the consolidation and IPO, the assets of the operating partnership will be established at their fair market values for this purpose. It is anticipated that there will be a substantial positive Book-Tax Difference with respect to much of the operating partnership's assets. The operating partnership will use the traditional method (as described in Section 1.704-3(b) of the Treasury Regulations) for making Section 704(c) allocations with respect to the assets held by the operating partnership immediately after the consolidation. In the event the operating partnership disposes of an asset which was contributed (including property contributed by your subject LLC), income and gain attributable to the Book-Tax Difference of such contributed asset generally will be allocated to you and other participants that contributed such asset and the other holders of operating partnership units generally will be allocated only their share of income and gain attributable to appreciation, if any, occurring after the contribution of the contributed asset. These incremental allocations of income to participants holding Series 60, Series 250, and Series ES operating partnership units could be substantial with respect to the assets contributed by their subject LLC and will not result in additional cash distributions to such operating partnership unit holders, with the result that you may not necessarily receive cash sufficient to pay the taxes attributable to any such income allocated to you.

In addition, under the traditional method, you will be allocated relatively less depreciation (and possibly none) for U.S. federal income tax purposes with respect to any asset contributed by your subject LLC with a Book-Tax Difference. You may also be allocated relatively less depreciation or additional taxable income on sale for U.S. federal income tax purposes with respect to the other assets of the operating partnership with a positive Book-Tax Difference held by the operating partnership at the time of the consolidation. The operating partnership may use methods other than the traditional method with respect to assets with the book-tax difference of assets acquired after the consolidation.

**Table of Contents**

As a result of the foregoing rules regarding allocations of income, gain, loss and deduction, the tax consequences to holders of Series PR, Series 60, Series 250, and Series ES operating partnership units will differ based on the unique and different tax attributes of the property contributed by the subject LLCs that a particular participant was a member of.

***Tax Treatment of Redemption of the Operating Partnership Units***

Your exercise of your right to require the redemption of all or a portion of your operating partnership units pursuant to the operating partnership agreement of limited partnership will generally be treated as a taxable transaction for U.S. federal income tax purposes. It is possible that the amount of gain recognized (or even the U.S. federal income tax liability resulting from such gain) by you upon a redemption of such units could exceed the amount of cash received upon such exercise.

If the operating partnership redeems your operating partnership units for cash that the company contributes to the operating partnership to effect such redemption or the company exercises its right to acquire your operating partnership units for shares of common stock, the transaction should generally be treated for U.S. federal income tax purposes as a taxable sale of such operating partnership units to the company. In that event, you would be treated as realizing an amount equal to the sum of the cash or fair market value of the shares of common stock received in the exchange plus the amount of the operating partnership liabilities allocable to your redeemed operating partnership units at the time of the redemption. The U.S. federal income tax treatment of a redeeming limited partner in the event of sale treatment is discussed more fully below. See Tax Treatment of Disposition of the Operating Partnership Units Generally.

If, instead, the operating partnership chooses to redeem your operating partnership units for cash that is not contributed by the company to effect the redemption, the U.S. federal income tax consequences would generally be the same as described in the previous paragraph, except that in the event the operating partnership redeems less than all of your units, you would not be permitted to recognize any loss occurring on the transaction and you would generally recognize taxable gain only to the extent that the cash, plus the share of the operating partnership liabilities allocable to your redeemed units, exceeded your adjusted basis in all of your operating partnership units immediately before the redemption.

***Tax Treatment of Disposition of the Operating Partnership Units Generally***

If any operating partnership unit is redeemed or otherwise transferred in a manner that is treated as a sale of such unit, the determination of your gain or loss from the sale will be based on the difference between your amount considered realized for U.S. federal income tax purposes and your adjusted tax basis in such operating partnership unit. Upon the sale of any operating partnership unit, your amount realized will be measured by the sum of the cash received plus the fair market value of any property received plus any reduction in your allocable share of the operating partnership's liabilities as a result of such sale. To the extent that the amount of cash received plus the fair market value of any property received plus the reduction in your allocable share of the operating partnership's liabilities exceeds your adjusted tax basis for the operating partnership unit sold, you will recognize gain. It is possible that the amount of gain recognized or even the U.S. federal income tax liability resulting from such gain could exceed the amount of cash received upon such sale.

Except as described below, any gain recognized upon a sale or other disposition of operating partnership units will be treated as gain attributable to the sale or disposition of a capital asset. To the extent, however, that the amount realized upon the sale of any operating partnership unit attributable to your share of, among others, unrealized receivables of the operating partnership (as defined above under Tax Consequences of the Consolidation Receipt of Stock Character of Gain Recognized ) exceeds your basis attributable to those assets, such excess will be treated as ordinary income. In addition, holders of operating partnership units that are individuals, estates or trusts are currently subject to a maximum U.S. federal income tax of 25% on a sale or other disposition of an operating partnership unit in respect of the recapture of real property depreciation deductions taken by the operating partnership, assuming the holder has held such operating partnership units for more than one year.

## **Table of Contents**

As further described herein, under certain circumstances, a transfer of operating partnership units by a holder that also holds shares of Class B common stock will result in all or a portion of such holder's shares of Class B common stock converting to Class A common stock. Such a conversion of Class B common stock for Class A common stock should not result in such holder recognizing gain or loss for U.S. federal income tax purposes.

### ***Limitations on Deductibility of Certain Losses***

In the case of holders of operating partnership units that are individuals, trusts, estates, or certain closely held corporations, the ability to utilize any tax losses generated by the operating partnership may be limited under the at-risk limitation in Section 465 of the Code, the passive activity loss limitation in Section 469 of the Code, the basis limitation of Section 704(d) of the Code, and/or other provisions of the Code. Furthermore, in the case of holders of operating partnership units that are individuals or trusts, the ability to utilize certain specific items of deduction may be limited under certain provisions of the Code. The application of these limitations depends on the exact nature of the operating partnership's future operations and the individual tax positions of the holders of operating partnership units. Participants who will receive operating partnership units in the consolidation are urged to consult with their tax advisor regarding the potential application of these provisions.

### ***Effect of the Consolidation on Depreciation***

Under Section 708(b)(1)(B) of the Code, a partnership is technically terminated for U.S. federal income tax purposes if within a 12-month period there is a sale or exchange of 50% or more of the total interests in partnership capital and profits. The terminated old partnership is deemed to contribute its assets, subject to its liabilities, to a new partnership, and thereafter to distribute the interests in the new partnership to the partners in complete liquidation of the old partnership. The principal tax consequence of such a technical termination is that the new partnership is required to depreciate the carryover tax basis of its property as if it were newly placed in service on the date of termination, which results in the depreciation of the carryover tax basis being recovered over a longer period and less current depreciation. If participants holding participation interests representing 50% or more of the outstanding interests in the capital and profits of a subject LLC receive shares of common stock in a taxable exchange for their participation interests in the consolidation or such taxable exchanges together with other transfers during the prior 12 months equals 50% or more of the capital and profits interests in a subject LLC, such subject LLC should be technically terminated immediately prior to the consolidation. As a result, the operating partnership will be required to re-start the depreciation period for each of its depreciable assets following the consolidation, as described above. However, if a subject LLC is not technically terminated in connection with the consolidation, the properties held by such subject LLC generally will continue to be depreciated over the same remaining period as they would be in the hands of the such subject LLC.

Your allocable share of tax depreciation following the consolidation will also be affected by the special tax allocations required under Section 704(c) of the Code. See *Consequences of Holding Operating Partnership Units* Allocations of Income, Gain, Loss and Deduction.

### ***Withholding on Distributions***

If you fail to provide the operating partnership with a certificate of your non-foreign status which satisfies the requirements of Code and the Treasury Regulations promulgated thereunder or any other certificate that relieves the operating partnership of its withholding obligations under the Code and Treasury Regulations, the operating partnership will be required to withhold U.S. federal income tax on certain income or gain realized by the operating partnership, possibly including any gain arising from the disposition of a USRPI, to the extent of your share of such gain.

Amounts withheld from you do not constitute an additional tax, but rather are credited against your U.S. federal income tax liability. You should consult your tax advisor to ensure compliance with the procedures for exemption from withholding.

**Table of Contents*****Uniformity of Series 60, Series 250, and Series ES Operating Partnership Units***

The tax characteristics associated with each series of operating partnership units will differ based on the unique and different tax attributes of the property contributed by each subject LLC. Accordingly, the tax consequences of holding each series of operating partnership units will differ and may impact the liquidity and market price of each such series. Although within each class of Series 60, Series 250, and Series ES operating partnership units the tax consequences of holding such units are expected to be uniform, because the operating partnership cannot match the transferors and transferees of Series 60, Series 250, and Series ES operating partnership units, the operating partnership will adopt depreciation, amortization and other tax accounting positions with respect to each such series that may not conform with all aspects of existing Treasury Regulations. A successful IRS challenge to those positions could adversely affect the amount of tax benefits available to holders of a particular series. It also could affect the timing of these tax benefits or the amount of gain on the sale of such class of operating partnership units and could have a negative impact on the liquidity and market price of each such series of operating partnership units or result in audit of and adjustments to a holders tax returns.

***Foreign Accounts***

The federal FATCA legislation may, pursuant to proposed Treasury Regulations and other guidance, impose withholding tax at a rate of 30% on U.S. source payments made after December 31, 2013 to foreign financial institutions in respect of accounts of holders of operating partnership units at such financial institutions. Holders of operating partnership units should consult their tax advisors regarding the effect, if any, of this recent legislation on their ownership and disposition of their operating partnership units.

***Expansion of Medicare Tax.*** Under recently enacted legislation, in certain circumstances, certain holders of operating partnership units who are U.S. persons and who are individuals, estates, and trusts are subject to a 3.8% tax on net investment income, which includes, among other things, certain allocations of income from certain partnerships and gains from the sale or other disposition of interests in such partnerships, effective for taxable years beginning after December 31, 2012. Prospective holders of operating partnership units who are U.S. persons should consult their tax advisors regarding this new legislation.

***Administrative Matters***

***Tax Matters Partner.*** The company will act as the operating partnership's tax matters partner. The company will have the authority to act on the operating partnership's behalf in connection with an administrative or judicial review of the operating partnership's items of income, gain, loss, deduction or credit. See Tax Audits below. In addition, the tax matters partner will be authorized to make tax elections on the operating partnership's behalf.

***Section 754 Election.*** The operating partnership currently intends to make the election permitted by Section 754 of the Code. The election, if made, is irrevocable without the consent of the IRS, and would generally require the operating partnership to adjust the tax basis in its assets, or inside basis, attributable to a transferee of operating partnership units under Section 743(b) of the Code to reflect the purchase price of the operating partnership units paid by the transferee. For purposes of this discussion, a transferee holder of operating partnership units' inside basis in the operating partnership's assets will be considered to have two components: (1) such holder's share of the operating partnership's tax basis in its assets inherited from its transferor, or common basis, and (2) any Section 743(b) adjustment to that basis that such transferee holder of operating partnership units is entitled to. Any such Section 743(b) basis adjustment described in the preceding sentence will be solely for the benefit of such transferee and will not impact the tax basis of participants holding operating partnership units in the underlying basis of the operating partnership assets.

If no Section 754 election is made, there will be no adjustment for the transferee of operating partnership units, even if the purchase price of those operating partnership units is higher than such operating partnership

---

**Table of Contents**

units' share of the aggregate tax basis of the operating partnership's assets immediately prior to the transfer. In that case, on a sale of an asset, gain allocable to the transferee would include built-in gain allocable to the transferee at the time of the transfer, which built-in gain would otherwise generally be eliminated if a Section 754 election had been made. Accordingly, the failure of the operating partnership to make a Section 754 election could have a material adverse effect on the liquidity and market price of the Series 60, Series 250, and Series ES operating partnership units, and potentially compromise a participant's ability to sell such operating partnership units.

The calculations under Section 754 of the Code are complex, and there is little legal authority concerning the mechanics of the calculations, particularly in the context of publicly traded partnerships with multiple series of interests. To help reduce the complexity of those calculations and assist the operating partnership in applying the relevant rules in an efficient manner, if it makes the election, the operating partnership will apply certain conventions in determining and allocating basis adjustments relating to transfers of Series 60, Series 250, and Series ES operating partnership units. For example, if the election is made, the operating partnership may apply a convention in which it deems the price paid by a holder of such operating partnership units to be the lowest quoted trading price of such class of operating partnership units during the month in which the purchase occurred, irrespective of the actual price paid. Nevertheless, the use of such conventions may result in basis adjustments that do not exactly reflect a holder's purchase price for its operating partnership units, including less favorable basis adjustments to a holder who paid more than the lowest quoted trading price of the operating partnership units for the month in which the purchase occurred. It is possible that the IRS will successfully assert that any conventions the operating partnership uses do not satisfy the technical requirements of the Code or the Treasury Regulations and thus could require different basis adjustments to be made. If the IRS were to sustain such a position, a transferee of Series 60, Series 250 and Series ES operating partnership units may have adverse tax consequences. This risk could also have a material adverse effect on the liquidity and market value of such classes of publicly traded units and as a result may potentially compromise a participant's ability to sell such operating partnership units.

*Constructive Termination.* Subject to the electing large partnership rules described below, the operating partnership will be considered to have been terminated for U.S. federal income tax purposes if there is a sale or exchange of 50% or more of the total interests in the operating partnership's capital and profits within a 12-month period. A termination would result in the closing of the operating partnership's taxable year for all holders of operating partnership units. In the case of a holder reporting on a taxable year other than the calendar year, the closing of the operating partnership's taxable year may result in more than 12 months of the operating partnership's taxable income or loss being includable in the holder's taxable income for the year of termination. The operating partnership would be required to make new tax elections after a termination, including a new tax election under Section 754 of the Code. A termination could also result in penalties if the operating partnership were unable to determine that the termination had occurred. Moreover, a termination might either accelerate the application of, or subject the operating partnership to, any tax legislation enacted before the termination (including legislation that may be unfavorable to the operating partnership and/or its partners).

*Tax Return Filing Obligations.* Participants should consider potential state and local tax consequences of holding operating partnership units and are urged to consult their tax advisors in this regard. Each direct or indirect partner of a partnership generally is required to file income tax returns and pay tax both in the state or local jurisdiction where the partner resides and each state or local jurisdiction in which the partnership owns real property or does business. Participants holding operating partnership units will likely be required to file state and local tax returns in each of the jurisdictions where the operating partnership currently owns or subsequently acquires real property. In addition, the operating partnership may be required to withhold state or local income tax against distributions otherwise payable to you which are attributable to income derived from property owned or business conducted in a jurisdiction in which you are not a resident. To the extent that you pay income tax with respect to income derived by the operating partnership in a jurisdiction where you are not a resident (or the operating partnership is required to pay such tax on your behalf), you may be entitled to a deduction or credit

## **Table of Contents**

against income tax that would otherwise be owed to your state or local jurisdiction of residence on that same income.

*Information Returns.* The operating partnership has agreed to use reasonable efforts to furnish to you tax information (including Schedule K-1) within 90 days of the close of each taxable year, which describes your allocable share of the operating partnership's income, gain, loss and deduction for its preceding taxable year. Delivery of this information by the operating partnership will be subject to delay in the event of, among other reasons, the late receipt of any necessary tax information from an investment in which the operating partnership holds an interest. In preparing this information, the operating partnership will use various accounting and reporting conventions to determine your allocable share of income, gain, loss and deduction. It is therefore likely that, in any taxable year, the holders of operating partnership units will need to apply for extensions of time to file their tax returns. The IRS may successfully contend that certain of these reporting conventions are impermissible, which could result in an adjustment to your income or loss. If you are not a U.S. person there can be no assurance that this information will meet your jurisdiction's compliance requirements.

*Tax Audits.* Under the Code, adjustments in tax liability with respect to operating partnership items generally will be made at the operating partnership level in a partnership proceeding rather than in separate proceedings with each operating partnership unit holder. The company will represent the operating partnership as the tax matters partner during any audit and in any dispute with the IRS. Each holder of operating partnership units will be informed of the commencement of an audit of the operating partnership. In general, the tax matters partner may enter into a settlement agreement with the IRS on behalf of, and that is binding upon, holders of operating partnership units.

Adjustments resulting from an IRS audit may require each holder of operating partnership units to adjust a prior year's liability, and possibly may result in an audit of its return. Any audit of a holder's return could result in adjustments not related to the operating partnership's returns as well as those related to the operating partnership's returns.

The tax matters partner can extend the statute of limitations for assessment of tax deficiencies against holders of operating partnership units for items in the operating partnership's return. The tax matters partner may bind a holder with less than a 1% profits interest in the operating partnership to a settlement with the IRS unless that holder elects, by filing a statement with the IRS, not to give that authority to the tax matters partner. The tax matters partner may seek judicial review, by which all operating partnership unit holders are bound, of a final partnership administrative adjustment and, if the tax matters partner fails to seek judicial review, judicial review may be sought by any holder having at least a 1% interest in profits or by any group of holders having in the aggregate at least a 5% interest in profits. However, only one action for judicial review will go forward, and each holder of operating partnership units with an interest in the outcome may participate.

*Nominee Reporting.* Persons who hold operating partnership units as nominees for another person are required to furnish to the operating partnership (i) the name, address and taxpayer identification number of the beneficial owner and the nominee; (ii) whether the beneficial owner is (1) a person that is not a U.S. person, (2) a foreign government, an international organization or any wholly-owned agency or instrumentality of either of the foregoing, or (3) a tax exempt entity; (iii) the amount and description of operating partnership units held, acquired or transferred for the beneficial owner; and (iv) specific information including the dates of acquisitions and transfers, means of acquisitions and transfers, and acquisition costs for purchases, as well as the amount of net proceeds from sales.

Brokers and financial institutions are required to furnish additional information, including whether they are U.S. persons and specific information on operating partnership units they acquire, hold or transfer for their own account. A penalty of \$50 per failure, up to a maximum of \$100,000 per calendar year, is imposed by the Code for failure to report that information to the operating partnership. The nominee is required to supply the beneficial owner of the operating partnership units with the information furnished to operating partnership.

---

**Table of Contents**

*Taxable Year.* The operating partnership's tax year end will be on December 31, unless required to adopt an alternative year end as its tax year end. Accordingly, holders of operating partnership units with a tax year end other than December 31 may be required to include more than 12 months of the operating partnership's taxable income or loss in the holder's taxable income if there is a technical termination. See Constructive Termination.

*Elective Procedures for Large Partnerships.* The Code allows large partnerships to elect streamlined procedures for U.S. federal income tax reporting. This election, if made, would reduce the number of items that must be separately stated on the IRS Schedules K-1 that are issued to holders of operating partnership units, and such Schedules K-1 would have to be provided on or before the first March 15 following the close of each taxable year. You would be required to treat all items consistently with their treatment on the IRS Schedule K-1 issued to you by the operating partnership and would have limited rights in connection with audits and tax proceedings with respect to the operating partnership. In addition, this election would prevent the operating partnership from suffering a technical termination (which would close the operating partnership's taxable year) if within a 12 month period there is a sale or exchange of 50% or more of its total interests. If the operating partnership makes such an election, IRS audit adjustments will flow through to operating partnership unit holders for the year in which such adjustments take effect rather than the year to which the adjustments relates. In addition, the operating partnership, rather than the holders of the operating partnership units individually, generally will be liable for any interest and penalties (on a nondeductible basis) that result from such audit adjustment.

*Treatment of Amounts Withheld.* If the operating partnership is required to withhold any U.S. tax on distributions made to any holder of operating partnership units, the operating partnership will pay such withheld amount to the IRS. That payment, if made, will be treated as a distribution of cash to the holder of operating partnership units with respect to whom the payment was made and will reduce the amount of cash to which such holder would otherwise be entitled.

*Backup Withholding.* For each calendar year, the operating partnership will report to you and to the IRS the amount of distributions that it pays, and the amount of tax (if any) that it withholds on these distributions. Under the backup withholding rules, you may be subject to backup withholding tax (at a rate of 31% for taxable years beginning after December 31, 2012) with respect to distributions paid unless (i) you are a corporation or fall within another exempt category and demonstrate this fact when required or (ii) you provide a taxpayer identification number, certify as to no loss of exemption from backup withholding tax and otherwise comply with the applicable requirements of the backup withholding tax rules. If you are an exempt holder, you should indicate your exempt status on a properly completed IRS Form W-8BEN. Backup withholding is not an additional tax; the amount of any backup withholding from a payment to you will be allowed as a credit against your U.S. federal income tax liability and may entitle you to a refund.

If you do not timely provide the operating partnership with IRS Form W-8 or W-9, as applicable, or such form is not properly completed, the operating partnership may become subject to U.S. backup withholding taxes in excess of what would have been imposed had the operating partnership received certifications from all holders. Such excess U.S. backup withholding taxes may be treated by the operating partnership as an expense that will be borne by all holders on a pro rata basis (where the operating partnership is or may be unable to cost efficiently allocate any such excess withholding tax cost specifically to the holders that failed to timely provide the proper U.S. tax certifications).

*Tax Shelter Regulations.* If the operating partnership were to engage in a reportable transaction, the operating partnership (and possibly you and others) would be required to make a detailed disclosure of the transaction to the IRS in accordance with regulations governing tax shelters and other potentially tax-motivated transactions. A transaction may be a reportable transaction based upon any of several factors, including the fact that it is a type of tax avoidance transaction publicly identified by the IRS as a listed transaction or that it produces certain kinds of losses in excess of \$2 million. An investment in the operating partnership may be considered a

**Table of Contents**

reportable transaction if, for example, the operating partnership recognizes certain significant losses in the future. In certain circumstances, a holder of operating partnership units who disposes of an interest in a transaction resulting in the recognition by such holder of significant losses in excess of certain threshold amounts may be obligated to disclose its participation in such transaction. The operating partnership's participation in a reportable transaction also could increase the likelihood that its U.S. federal income tax information return (and possibly your tax return) would be audited by the IRS. Certain of these rules are currently unclear, and it is possible that they may be applicable in situations other than significant loss transactions.

Moreover, if the operating partnership were to participate in a reportable transaction with a significant purpose to avoid or evade tax, or in any listed transaction, you may be subject to (i) significant accuracy-related penalties with a broad scope, (ii) for those persons otherwise entitled to deduct interest on federal tax deficiencies, nondeductibility of interest on any resulting tax liability, and (iii) in the case of a listed transaction, an extended statute of limitations.

Holders of operating partnership units should consult their tax advisors concerning any possible disclosure obligation under the regulations governing tax shelters with respect to the holding or disposition of operating partnership units.

**THE FOREGOING TAX SECTION IS INCLUDED FOR GENERAL INFORMATION ONLY FOR U.S. HOLDERS OF PARTICIPATION INTERESTS, AND IS BASED UPON U.S. FEDERAL INCOME TAX LAW AS OF THE DATE OF THIS PROSPECTUS/CONSENT SOLICITATION STATEMENT. THE PARTICULAR CIRCUMSTANCES OF EACH PARTICIPANT MAY DIFFER, AND, CONSEQUENTLY, THIS DISCUSSION MAY NOT APPLY TO YOU. THIS SECTION DOES NOT DISCUSS TAX CONSEQUENCES OF THE CONSOLIDATION UNDER STATE, LOCAL OR FOREIGN LAW OR THE U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. PERSONS OR TAX-EXEMPT PERSONS. YOU SHOULD CONSULT YOUR TAX ADVISOR AS TO THE SPECIFIC TAX CONSEQUENCES TO YOU RESULTING FROM THE CONSOLIDATION AND THE RECEIPT OF OPERATING PARTNERSHIP UNITS AND/OR COMMON STOCK FOR YOUR PARTICIPATION INTEREST, INCLUDING THE APPLICATION AND EFFECT OF U.S. FEDERAL, STATE, LOCAL AND FOREIGN TAX LAWS.**

**EXPERTS**

Ernst & Young LLP, independent registered public accounting firm, has audited:

- (i) the consolidated balance sheet of Empire State Realty Trust, Inc. at December 31, 2011 as set forth in their report;
- (ii) the balance sheet of Empire State Realty OP, L.P. at June 30, 2012, as set forth in their report;
- (iii) the combined financial statements and financial statement schedules of Empire State Realty Trust, Inc., Predecessor at December 31, 2011 and 2010, and for each of the three years in the period ended December 31, 2011 which, as to the year 2009, is based in part on the reports of Margolin, Winer & Evens LLP, independent registered public accounting firm, as set forth in their reports on the financial statements for the year ended December 31, 2009 for 250 West 57th St. Associates L.L.C., Fisk Building Associates L.L.C., 60 East 42nd St. Associates L.L.C., Lincoln Building Associates L.L.C., and the consolidated financial statements of Empire State Building Associates L.L.C., and the consolidated financial statements of Empire State Building Company L.L.C. and Affiliates;
- (iv) the statements of revenues and certain expenses of 1333 Broadway Associates, L.L.C. for each of the three years in the period ended December 31, 2011 as set forth in their report;
- (v) the statements of revenues and certain expenses of 1350 Broadway Associates, L.L.C. for each of the three years in the period ended December 31, 2011 as set forth in their report;
- (vi) the statements of revenues and certain expenses of 501 Seventh Avenue Associates, L.L.C. for each of the three years in the period ended December 31, 2011 as set forth in their report;
- (vii) the consolidated financial statements of Empire State Building Company L.L.C. and Affiliates as of December 31, 2011 and 2010, and for each of the two years in the period ended December 31, 2011 as set forth in their report;
- (viii) the consolidated financial statements and financial statement schedule of Empire State Building Associates L.L.C. at December 31, 2011 and 2010, and for each of the two years in the period ended December 31, 2011 as set forth in their report;
- (ix) the financial statements and financial statement schedule of 60 East 42nd St. Associates L.L.C. at December 31, 2011 and 2010, and for each of the two years in the period ended December 31, 2011 as set forth in their report;
- (x) the financial statements and financial statement schedule of 250 West 57th St. Associates L.L.C. at December 31, 2011 and 2010, and for each of the two years in the period ended December 31, 2011 as set forth in their report;
- (xi) the financial statements of Lincoln Building Associates L.L.C. at December 31, 2011 and 2010, and for each of the two years in the period ended December 31, 2011 as set forth in their report; and

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

(xii) the financial statements of Fisk Building Associates L.L.C. at December 31, 2011 and 2010 and for each of the two years in the period ended December 31, 2011 as set forth in their report.

The company has included each of the aforementioned financial statements and schedules in this prospectus/consent solicitation statement and elsewhere in the registration statement in reliance on the reports of Ernst & Young LLP and to the extent indicated in (ii) above, the reports of Margolin, Winer & Evens LLP, given on their authority as experts in accounting and auditing.

Margolin, Winer & Evens LLP, independent registered public accounting firm, has audited the consolidated financial statements of Empire State Building Company L.L.C. and Affiliates for the year ended December 31, 2009 as set forth in their report. The company has included the financial statements referred to in this paragraph in this prospectus/consent solicitation and elsewhere in the registration statement in reliance on the report of Margolin, Winer & Evens LLP, given on their authority as experts in accounting and auditing.

**WHERE YOU CAN FIND MORE INFORMATION**

Each subject LLC is subject to the reporting requirements of the Exchange Act, and is required to file reports and other information with the SEC. The company (including the operating partnership) has filed with the SEC a Registration Statement on Form S-4, including exhibits and schedules filed with the registration statement of which this prospectus/consent solicitation is a part, under the Securities Act, with respect to the shares of common stock and operating partnership units offered pursuant to this prospectus/consent solicitation. This prospectus/consent solicitation does not contain all of the information set forth in the registration statement and exhibits and schedules to the registration statement. For further information with respect to the company, the operating partnership and the shares of Class A common stock and operating partnership units, reference is made to the Registration Statement on Form S-4, including the exhibits and schedules to the registration statement. Copies of both registration statements, including the exhibits and schedules to the registration statements, may be examined without charge at the public reference room of the Securities and Exchange Commission, 100 F Street, N.E., Room 1580, Washington, D.C. 20549. Information about the operation of the public reference room may be obtained by calling the SEC at 1-800-SEC-0300. Copies of all or a portion of the registration statements may be obtained from the public reference room of the SEC upon payment of prescribed fees. The company's SEC filings, including its registration statement, are also available to you, free of charge, on the SEC's website at [www.sec.gov](http://www.sec.gov).

As a result of the issuance of common stock and operating partnership units in connection with the consolidation, the company and the operating partnership will become subject to the information and reporting requirements of the Exchange Act and will file periodic reports, proxy statements and will make available to their stockholders, as applicable, and unitholders annual reports containing audited financial information for each year and quarterly reports for the first three quarters of each fiscal year containing unaudited interim financial information.

The accompanying supplement to this prospectus/consent solicitation has been prepared for your subject LLC and will be delivered to you and the other participants in your subject LLC. Upon receipt of a written request by you or your representative so designated in writing, the company will send a copy of any supplement without charge. All requests should be directed to MacKenzie Partners, Inc., 105 Madison Avenue, New York, NY 10016, or call toll free at (888) 410-7850.

Statements contained in this prospectus/consent solicitation or any supplements hereto as to the contents of any contract or other document which is filed as an exhibit to the registration statement are not necessarily complete, and each such statement is qualified in its entirety by reference to the full text of such contract or document.

**Table of Contents**

**Empire State Realty Trust, Inc.**

**Unaudited Pro Forma Financial Information**

**(in thousands)**

*As used in these unaudited pro forma condensed consolidated financial statements, unless the context otherwise requires, we, us, and our company mean the Predecessor (as defined below) for the periods presented and Empire State Realty Trust, Inc. and its consolidated subsidiaries upon consummation of its initial public offering, or the IPO, and the formation transactions defined below.*

Empire State Realty Trust, Inc. (formerly known as Empire Realty Trust, Inc.) is a Maryland corporation formed on July 29, 2011 to acquire the assets of entities owning various controlling and non-controlling interests in real estate assets and the equity interests of certain management businesses controlled and managed by Mr. Peter L. Malkin and Mr. Anthony E. Malkin, or the Sponsors.

Prior to or concurrently with the completion of the IPO, we will engage in a series of formation transactions which we refer to as our formation transactions, pursuant to which we will acquire, through a series of contributions and merger transactions, these assets, interests and businesses. The formation transactions are intended to enable us to (i) combine the ownership of our property portfolio under our operating partnership subsidiary, Empire State Realty OP, L.P. (formerly known as Empire Realty Trust, L.P.), a Delaware limited partnership, or the Operating Partnership; (ii) succeed to the asset management, property management, leasing and construction businesses of the Predecessor; (iii) facilitate the IPO; and (iv) elect to be and qualify as a real estate investment trust, or REIT, for U.S. federal income tax purposes commencing with the taxable year ending December 31, 2013. We will not have any operating activity until the consummation of the IPO and the formation transactions.

Empire State Realty Trust, Inc., Predecessor, or the Predecessor, is not a legal entity but rather a combination of (i) controlling interests in (a) 16 office and retail properties, (b) one development parcel, and (c) certain management companies, which are owned by certain entities that the Sponsors own interests in and control, which we collectively refer to as the controlled entities, and (ii) non-controlling interests in four office properties (which include two of the 16 properties set forth in (i) above), held through entities we collectively refer to as the non-controlled entities, and are presented as equity method investments in our historical combined financial statements. Specifically, the term the Predecessor means (i) Malkin Holdings LLC, a New York limited liability company that acts as the supervisor of, and performs various asset management services and routine administration with respect to, certain of the existing entities (as described below), which we refer to as the supervisor; (ii) the limited liability companies or limited partnerships that currently (a) own, directly or indirectly and either through a fee interest or a long-term leasehold in the underlying land, and/or (b) operate, directly or indirectly and through a fee interest, an operating lease, an operating sublease or an operating sub-sublease, the 18 office and retail properties (which include non-controlling interests in four office properties for which Malkin Holdings LLC acts as the supervisor but that are not consolidated into our predecessor for accounting purposes) and entitled land that will support the development of an approximately 340,000 rentable square foot office building and garage that we will own after the formation transactions described in this prospectus, which we refer to as the existing entities; (iii) Malkin Properties, L.L.C., a New York limited liability company that serves as the manager and leasing agent for certain of the existing entities in Manhattan, which we refer to as Malkin Properties; (iv) Malkin Properties of New York, L.L.C., a New York limited liability company that serves as the manager and leasing agent for certain of the existing entities in Westchester County, New York, which we refer to as Malkin Properties NY; (v) Malkin Properties of Connecticut, Inc., a Connecticut corporation that serves as the manager and leasing agent for certain of the existing entities in the State of Connecticut, which we refer to as Malkin Properties CT; and (vi) Malkin Construction Corp., a Connecticut corporation that is a general contractor and provides services to certain of the existing entities and third parties (including certain tenants at the properties in our portfolio), which we refer to as Malkin Construction. The term the Predecessor's management companies refers to the supervisor, Malkin Properties, Malkin Properties NY, Malkin Properties CT and Malkin Construction, collectively. The Predecessor accounts for its investment in the non-controlled entities under the equity method of accounting.

**Table of Contents**

*Controlled Entities*

As of June 30, 2012, properties that the Sponsors own interests in and control and whose operations are 100% consolidated into the financial statements of the Predecessor include:

Office:

One Grand Central Place, New York, New York

250 West 57th Street, New York, New York

1359 Broadway, New York, New York

First Stamford Place, Stamford, Connecticut

Metro Center, Stamford, Connecticut

383 Main Avenue, Norwalk, Connecticut

500 Mamaroneck Avenue, Harrison, New York

10 Bank Street, White Plains, New York

Fee ownership position of 350 Fifth Avenue (Empire State Building), New York, New York

Fee ownership position of 501 Seventh Avenue, New York, New York

Retail:

10 Union Square, New York, New York

1010 Third Avenue, New York, New York

77 West 55th Street, New York, New York

1542 Third Avenue, New York, New York

69-97 Main Street, Westport, Connecticut

103-107 Main Street, Westport, Connecticut

Land Parcels:

We own entitled land at the Stamford Transportation Center in Stamford, Connecticut, adjacent to one of our office properties, that will support an approximately 340,000 rentable square feet office building and garage.

The acquisition of interests in the Predecessor will be recorded at historical cost at the time of the formation transactions.

*Non-Controlled Entities*

As of June 30, 2012, properties in which the Sponsors own and control non-controlling interests and whose operations are reflected in the Predecessor's combined financial statements as equity interests include:

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Office:

Master operating lease position of 350 Fifth Avenue, New York, New York - Empire State Building

Company L.L.C. Master operating lease position of 1350 Broadway, New York, New York - 1350 Broadway Associates L.L.C. (long term ground lease)

1333 Broadway, New York, New York - 1333 Broadway Associates L.L.C.

Master operating lease position of 501 Seventh Avenue, New York, New York - 501 Seventh Avenue

Associates L.L.C.

All of our business activities will be conducted through the Operating Partnership. We will be the sole general partner of the Operating Partnership. Pursuant to the formation transactions, our Operating Partnership will (i) acquire the assets of, or equity interests in, the controlled entities (including the Predecessor's management

F-6

---

**Table of Contents**

companies), and the non-controlled entities and (ii) assume related debt and other specified liabilities of such assets and businesses, in exchange for shares of our Class A common stock, par value \$0.01 per share, or the Class A common stock; shares of our Class B common stock, par value \$0.01 per share, or the Class B common stock; operating partnership units of the Operating Partnership, or operating partnership units; and/or cash.

We will be a self-administered and self-managed REIT. Additionally, we will form one or more taxable REIT subsidiaries, or TRSs, that will be owned by the Operating Partnership. The TRSs, through several wholly-owned limited liability companies, will conduct third-party services businesses, including the Empire State Building observatory operations, parking facilities, cleaning services, property management and leasing, construction, mortgage brokerage, and property maintenance.

The unaudited pro forma condensed consolidated financial statements assume the approval of the formation transactions by the requisite consent of the participants in Empire State Building Associates L.L.C., 250 West 57<sup>th</sup> Street Associates L.L.C. and 60 East 42<sup>nd</sup> Street Associates L.L.C., which we collectively refer to as the subject LLCs, the closing of the IPO and that prior to or concurrently with the closing of the IPO, we will engage in a series of formation transactions pursuant to which we will acquire, through a series of contributions and merger transactions, 100% of (i) the 18 properties in which the Predecessor owns a controlling or non-controlling interest, (ii) one development parcel in which the Predecessor owns a controlling interest and (iii) the business and assets of the Predecessor management businesses. In the aggregate, these interests, or the Interests, will comprise our ownership of our property portfolio. We will not acquire the Predecessor's affiliates' interests in the option properties, the excluded properties or the excluded businesses (each such term as defined in this prospectus/consent solicitation) (none of which are reflected in the Predecessor's financial statements).

For purposes of these unaudited pro forma condensed consolidated financial statements in this filing, we have assumed that we will acquire the Interests for an aggregate equity value of approximately \$4,182,309. This amount represents the aggregate exchange value as determined by an independent valuation firm, or the independent valuer, for the purpose of allocating equity interests in the 18 office and retail assets, one development parcel and the Predecessor's management companies that are being contributed to our company pursuant to the consolidation. The independent valuer's appraisal was prepared for the purpose of determining these allocations and not for the purpose of establishing the absolute enterprise value of our company in the IPO. However, we have used the independent valuer's appraisal as our preliminary estimate in order to complete the pro forma financial statements for purposes of this filing. The independent valuer's appraisal may be materially different from the market determination of the enterprise value of our company in the IPO. Simultaneously with the filing of the Registration Statement on Form S-4 of which this prospectus/consent solicitation is a part, we also filed a Registration Statement on Form S-11 relating to the IPO. The aggregate consideration for the acquisition of the Interests that will be shown in the pro forma condensed consolidated financial statements included in the prospectus relating to the IPO will reflect an aggregate enterprise value based on the mid-point of the range of initial public offering prices per share set forth in such preliminary prospectus and not the aggregate exchange value as determined by the independent valuer.

The owners of the controlled entities, the non-controlled entities and the Predecessor's management companies will receive shares of our Class A common stock, shares of our Class B common stock, operating partnership units, cash or a combination thereof (all of which is expected to be provided from the net proceeds of the IPO) as consideration for the Interests. The number of shares of common stock and operating partnership units to be issued in the formation transactions will be determined by dividing the enterprise value of our company (which excludes indebtedness) as determined by market conditions at the time of the IPO, or the enterprise value, by the actual IPO price per share, or the IPO price, reduced by the number of shares of common stock and operating partnership units which would have otherwise been issuable to investors in the controlled and non-controlled entities that receive cash.

For purposes of these unaudited pro forma condensed consolidated financial statements, we have assumed that (i) the enterprise value (which excludes indebtedness) is equal to the exchange value; and (ii) the gross proceeds of the IPO will be \$1,000,000 (assuming no exercise of the underwriters' option to purchase additional

## Table of Contents

shares). We cannot make any guarantee as to (i) what the enterprise value of our company in the IPO will be; (ii) what the IPO price will be; or (iii) what the actual gross proceeds in the IPO will be. We are making these assumptions for illustrative purposes only and actual results may materially differ from these assumptions. The formation transactions will be consummated substantially concurrently with the closing of the IPO. The enterprise value (which is based on the IPO price) will be determined by, among other things, market conditions at the time of pricing of the IPO, the historical and future performance of the company and its portfolio of properties and the market's view of the company's net asset value and other valuation metrics. Today, some REITs' common stock trades at a premium to perceived net asset value and others trade at a discount to perceived net asset value. The market's view of the company's net asset value determined in connection with the IPO could be less than the exchange values determined based on the Appraisal. The Appraisal was undertaken in connection with establishing relative value for the purpose of allocation of interests in the company among contributors of interests in the properties and not to establish the value of shares of common stock in the company upon completion of the IPO. In contrast, the pricing of REIT initial public offerings generally takes into account different factors not considered in the Appraisal, including current conditions in the securities markets, investor preferences and the market's view of the company's management team. Additionally, the Appraisal did not take into account transaction costs for the consolidation and the IPO.

The supervisor believes that initial public offering pricing for REIT common stock generally is at a discount to the market price for common stock of well-established, publicly-traded REITs, and that the company's IPO pricing will be no different. For this and other reasons, the supervisor expects that the enterprise value at the pricing of the IPO will be lower than the aggregate exchange value at the pricing of the IPO, and such discount at the pricing of the IPO could be material and substantial. This discount cannot be determined until the pricing of the IPO. As the company continues to develop a track record as a public company, the supervisor believes that the company's trading price following the IPO will be based on, among other things, the company's historical and future performance, its performance relative to its peers, market conditions generally and its continued seasoning in the public markets.

We expect that the net proceeds from the IPO will be approximately \$865,000 after deducting estimated underwriting discounts and commissions and estimated offering expenses and assuming no exercise of the underwriters' option to purchase additional shares. We expect that the net proceeds from the IPO will be used to repay debt, for debt assumption fees, transfer taxes and as cash consideration to (i) non-accredited investors in the private existing entities; and (ii) tax-exempt investors in the private existing entities who elect cash consideration.

Following the completion of the IPO and the formation transactions, we will be the sole general partner of, and own 30.63% of the interests in, the Operating Partnership. We will have control over major decisions, including the decisions related to the sale or refinancing of our properties (subject to certain exceptions). Accordingly, we will consolidate the assets, liabilities and operations of the Operating Partnership. We will contribute the net proceeds of the IPO to the Operating Partnership in exchange for operating partnership units.

We have determined that one of the Predecessor entities, Malkin Holdings LLC, is the acquirer for accounting purposes, and therefore the contribution of, or acquisition by merger in, the controlled entities is considered a transaction between entities under common control since the Sponsors control a majority of the assets of, or equity interests in, each of the controlled entities comprising the Predecessor. As a result, the acquisition of the assets of, or equity interests in, each of the controlled entities will be recorded at the Predecessor's historical cost. The contribution of the assets of, or acquisition by merger in, the four non-controlled entities (including the Predecessor's non-controlling interest in these entities) will be accounted for as an acquisition under the acquisition method of accounting and recognized at the estimated fair value of acquired assets and assumed liabilities on the date of such contribution or acquisition. The fair value of these assets and liabilities has been allocated in accordance with Accounting Standards Codification, or ASC, Section 805-10, *Business Combinations*. Our methodology for allocating the cost of acquisitions to assets acquired and liabilities assumed is based on estimated fair values, replacement cost and appraised values. We

## **Table of Contents**

estimate the fair value of acquired tangible assets (consisting of land, buildings and improvements), identified intangible assets and liabilities (consisting of acquired above-market leases, acquired in-place lease value, acquired below-market leases, in-place management agreements and goodwill) and assumed debt.

Based on these estimates, we allocate the purchase price to the applicable assets and liabilities. The value allocated to in-place leases is amortized over the related lease term and reflected as a decrease to rental income. The value of above- and below-market leases is amortized over the related lease term and reflected as either an increase (for below-market leases) or a decrease (for above-market leases) to rental income. No value has been allocated to in-place management agreements as the fair value of these contracts approximate market. Goodwill is not amortized, but it is evaluated at least annually for impairment. The fair value of the debt assumed is determined using current market interest rates for comparable debt financings and the resulting premium is amortized as a component of interest expense over the remaining loan term. The estimated purchase price of the non-controlled entities for pro forma purposes is based on the assumptions stated above and are solely utilized for illustrative purposes.

The unaudited pro forma condensed consolidated financial statements as of, and for the six months ended June 30, 2012, and for the year ended December 31, 2011, are presented as if (i) the formation transactions, (ii) the IPO, and related use of proceeds; and (iii) certain other miscellaneous adjustments are effective concurrent with the IPO and had all occurred on June 30, 2012, for the unaudited pro forma condensed consolidated balance sheet and on January 1, 2011 for the unaudited pro forma condensed consolidated statements of income and unaudited pro forma condensed consolidated cash flows.

The unaudited pro forma adjustments included herein reflect: (i) combining the properties and the Predecessor's management companies as a result of the acquisition of the assets of the controlled entities (including the non-controlling interests) and the non-controlled entities through contributions and mergers by our company and the Operating Partnership and the issuance of operating partnership units, shares of our Class A common stock and shares of our Class B common stock and the payment of cash to the investors in the controlled and non-controlled entities as part of the formation transactions; (ii) the issuance of shares of our Class A common stock in the IPO; (iii) the costs of entering into, and borrowings under, the secured term loan and the refinancing of existing mortgages secured by the Empire State Building with proceeds from such secured term loan; and (iv) other pro forma adjustments.

Pro forma financial data has been provided under two separate assumptions: (1) all of the private entities, subject LLCs and management companies participate in the consolidation ( Maximum ) and (2) the private entities and the management companies, which have previously entered into agreements to participate in the consolidation and obtained required investor consents, and Empire State Building Associates L.L.C., the participation of which is required as a condition to the consolidation, participate in the consolidation ( Minimum ).

The unaudited pro forma condensed consolidated financial statements should be read in conjunction with the combined historical financial statements of the Predecessor and the non-controlled entities, including the notes thereto, and other financial information and analysis, including the section captioned Management's Discussion and Analysis of Financial Condition and Results of Operations presented elsewhere in this prospectus/consent solicitation. The unaudited pro forma condensed consolidated financial statements (i) are based on available information and assumptions that we deem reasonable; (ii) are presented for informational purposes only; (iii) do not purport to represent our financial position or results of operations or cash flows that would actually have occurred assuming completion of the formation transactions, the IPO and other adjustments described above all had occurred on June 30, 2012, for the pro forma condensed consolidated balance sheet or on January 1, 2011 for the pro forma condensed consolidated statements of income and unaudited pro forma condensed consolidated statement of cash flows; and (iv) do not purport to be indicative of our future results of operations or our financial position.

**Table of Contents****1. Adjustments to the Pro Forma Condensed Consolidated Balance Sheet (in thousands except per share amounts):**

- (A) Represents the unaudited historical condensed balance sheet of Empire State Realty Trust, Inc. as of June 30, 2012. We have had no corporate activity since our formation on July 29, 2011, other than the issuance of 1,000 shares of our common stock in connection with our initial capitalization for \$0.10 per share, which was paid on July 29, 2011. We expect to conduct our business activities through the Operating Partnership upon completion of the IPO and the formation transactions. At such time, we, as the sole general partner of the Operating Partnership, are expected to own 30.63% of the interests in the Operating Partnership and will have responsibility and discretion in the management and control of the Operating Partnership, and the limited partners of the Operating Partnership, in such capacity, will have no authority to transact business for, or participate in the management activities of the Operating Partnership. We will have control over major decisions, including decisions related to the sale or refinancing of our properties (subject to certain exceptions). Accordingly, under generally accepted accounting principles in the United States, or GAAP, we will consolidate the assets, liabilities and results of operations of the Operating Partnership and its subsidiaries. We have filed a registration statement on Form S-11, or the registration statement, with the Securities and Exchange Commission, or the SEC, with respect to a public offering of shares of our Class A common stock (not including shares of our Class A common stock to be included in the underwriters' option to purchase additional shares) simultaneously with this prospectus/consent solicitation. We will contribute the net proceeds of the IPO to the Operating Partnership in exchange for operating partnership units.
- (B) Reflects the historical condensed combined balance sheet of the Predecessor as of June 30, 2012. Because Empire State Realty Trust, Inc., and one of the Predecessor entities, Malkin Holdings LLC, the accounting acquirer, are under common control, the Predecessor's assets, liabilities, and operations will be recorded at their historical cost basis.
- (C) Reflects the acquisition by us of the ownership interests (including the Predecessor's non-controlling interests) in: (i) Empire State Building Company L.L.C. ( Empire State Building Company ); (ii) 1350 Broadway Associates L.L.C. ( 1350 Broadway ); (iii) 1333 Broadway Associates L.L.C. ( 1333 Broadway ); and (iv) 501 Seventh Avenue Associates L.L.C. ( 501 Seventh Avenue ) in exchange for cash, shares of our Class A common stock, shares of our Class B common stock and/or operating partnership units and the assumption of debt on the properties having an assumed aggregate equity value of \$1,077,113 (based on the aggregate exchange value as determined by the independent valuer), representing the controlling interests in the non-controlled entities. Although, the Predecessor is responsible for the day-to-day management of these entities, it has a non-controlling ownership interest in such entities and therefore such ownership interests have been included in the Predecessor's financial statements as equity method investments. After acquisition of the ownership interests in the non-controlled entities (including the Predecessor's non-controlling interests therein), such entities will be 100% owned and consolidated by us. The acquisition of the non-controlled entities will be accounted for as an acquisition under the purchase method of accounting in accordance with ASC 805-10, *Business Combinations*. The acquisition method of accounting was used to allocate the fair value to tangible and identified intangible assets and liabilities acquired. The amounts allocated to net real estate, which includes buildings and building improvements, are depreciated over their estimated useful lives of 39 years. The amounts allocated to tenant improvements are amortized over the lives of the remaining respective lease terms. The amounts allocated to in-place lease assets, above- and below-market leases and to intangible lease assets are amortized over the lives of the respective remaining lease terms. The amount allocated to goodwill was \$869,007 and is not subject to amortization but evaluated at least annually for impairment. As a result of the acquisition method of accounting, the carrying value of the mortgage debt assumed for 1350 Broadway and 1333 Broadway was adjusted to its fair value resulting in a \$15,025 premium. The premium is amortized to interest expense over the remaining lives of the underlying debt instruments.

**Table of Contents**

Certain of the properties we will acquire in the formation transactions are owned in two-tier structures with one entity owning a fee or master leasehold interest in the property and the other entity owning an operating or sub leasehold interest. This structure was implemented at inception to achieve flow through tax treatment. The operating lessee controls the operations of the property with the operating lease structured in a manner that shares net operating results, including capital expenditures and debt service, between these two entities. Two of the operating lessees, Empire State Building Company and 501 Seventh Avenue, are non-controlled entities and only the Predecessor's non-controlling interest in the operations of these two entities are part of the Predecessor's historical operations. In the remainder of these two-tier structures, the operations of both the owner and the operating lessee are part of the historical Predecessor and are consolidated into our predecessor's historical financial statements.

The interests in the Predecessor will be recorded at historical cost at the time of the formation transactions. Using the aggregate exchange values, as of June 30, 2012, on a pro forma basis, the carrying value of our assets is substantially below their fair value. The acquisition of the controlling interests in the non-controlled entities, including the two operating lessees, will be accounted for as an acquisition under the acquisition method of accounting and we will recognize the estimated fair value of the assets and liabilities acquired at the time of the consummation of the formation transactions. When we acquire the controlling interest in the assets of these two non-controlled operating lessees, the operating leases will be cancelled as the operations of the properties will be consolidated into our operations. The purchase price will be allocated to any identified tangible or intangible assets we are acquiring from these two entities. Since the non-controlled operating leases have no interest in the land and base building, the excess of the purchase price over any identified tangible and intangible assets for Empire State Building Company and 501 Seventh Avenue will be recognized as goodwill on our balance sheet.

Using the aggregate exchange values for the acquisition of these two non-controlled operating leaseholds, we expect to record approximately \$869,007 of goodwill. Approximately \$256,023 of the expected goodwill represents the fair value of the observatory operations of the Empire State Building after adjustment for an estimated market rent that the observatory would incur to the property owner, and approximately \$612,984 of the expected goodwill represents the remainder of the excess of the purchase price over identified tangible and intangible assets, of which approximately \$592,205 is attributable to Empire State Building Company and approximately \$20,779 is attributable to 501 Seventh Avenue. Goodwill is not amortized and, therefore, will not affect our future cash flows but may impact our income statement if impaired. Based upon the exchange values as of June 30, 2012, the fair value of the assets of our company subsequently would have to decrease by over 67.8%, or \$2,833,883, for a determination that the goodwill may be impaired.

**Table of Contents**

The allocation of purchase price shown below is based on our preliminary estimates and is subject to change based on the final determination of the fair value of assets and liabilities acquired.

- (12) Represents the consideration paid to acquire the non-controlled entities.  
 (13) Based upon current market rates for similar arrangements, we have determined that the current market rent would be less than the pre-existing contractual rent under the operating lease between one of the Predecessor entities and Empire State Building Company. Accordingly, upon elimination of the leasehold position and the related liability for the above-market lease, we will be recording an estimated gain reflecting the aggregate fair value of this arrangement of approximately \$34,597 upon our acquisition of the equity interests in Empire State Building Company. Based upon current market rates for similar arrangements, we have determined that the current market rent would be in excess of the pre-existing contractual rent under the operating lease between one of the Predecessor entities and 501 Seventh Avenue. Accordingly, upon elimination of the leasehold position and the related asset for the below-market lease, we will be recording an estimated loss reflecting the aggregate fair value of this arrangement of approximately \$2,971 upon our acquisition of the equity interests in the 501 Seventh Avenue. The net amount of approximately \$31,626 has been reflected as an increase in pro forma stockholders' equity on the Pro

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Forma Balance Sheet as of June 30, 2012.

- (D) Reflects the elimination of \$15,600 of real property (residential buildings and land) owned by a controlled entity which will be distributed to the owners of such entity prior to the consummation of the formation transactions and \$14,881 of unsecured debt and accrued interest which will be assumed by the owners of such entity prior to the consummation of the formation transactions.

F-23

**Table of Contents**

- (E) We will distribute promptly following the closing any excess cash held by us at the time of the closing of the consolidation. The cash to be distributed to investors in the existing entities will be (i) any cash held by such entity at the closing in excess of the normalized level of net working capital for such entity, as determined by the supervisor (\$77,704 based on June 30, 2012 cash balances), (ii) the consolidation expenses reimbursed by the company to the existing entities at the closing of the consolidation out of proceeds of the IPO and (iii) overage rent that will have accrued through the date of the closing of the consolidation. This amount may be higher or lower due to earnings and other cash outlays prior to the time of such distributions or payments.
- (F) Reflects the elimination of equity method investments of \$72,997 representing the Predecessor's equity interest in the non-controlled entities.
- (G) Reflects the recognition of capitalized offering costs incurred through June 30, 2012 of \$20,294 as a reduction of total equity.
- (H) Reflects the elimination upon our acquisition of the non-controlled entities of a \$2,322 related party receivable balance representing amounts owed by the non-controlled entities to the Predecessor for offering costs. Reflects the elimination of a \$15,061 related party receivable balance representing amounts owed by a non-controlled entity, Empire State Building Company to the Predecessor for advances to fund tenant improvements. Additionally, reflects the elimination of a \$543 related party receivable balance representing amounts owed by a non-controlled entity to the Predecessor for overage rent from 501 Seventh Avenue.
- (I) Reflects the elimination of \$8,624 and \$2,475 representing related party payables owed by the Predecessor to Empire State Building Company and 501 Seventh Avenue, respectively, for capital expenditures. Additionally, reflects the elimination of a \$1,673 related party payable representing cash held by the Predecessor on behalf of the non-controlled entities designated for distributions.
- (J) To eliminate the assets and liabilities relating to 60 East 42nd St. Associates L.L.C. and 250 West 57th St. Associates L.L.C.
- (K) Reflects assumed gross proceeds in the IPO of \$1,000,000.
- (L) Represents \$135,000 of estimated offering expenses, which includes the underwriting discounts and commissions of \$70,000 and other offering costs of \$65,000 (assuming no exercise of the underwriters' option to purchase additional shares). These costs will be charged against gross offering proceeds upon completion of the IPO. The adjustment on the Minimum Pro Forma Condensed Consolidated Balance Sheet reflects the elimination of \$4,500 of estimated offering expenses relating to 60 East 42nd St. Associates L.L.C. and 250 West 57th St. Associates L.L.C. which will not be incurred.
- (M) As a part of the formation transactions, non-accredited investors, who are not eligible to elect to receive operating partnership units or shares of our common stock and accredited investors that are charitable organizations in certain private existing entities will receive in consideration for their interests in the Predecessor or non-controlled entities cash aggregating \$768,400 in an amount calculated to equal the value of operating partnership units or shares of our common stock that would be issued to these investors under the applicable contribution and merger agreements if they were accredited investors and/or did not make the cash elections, plus, in the case of the Helmsley estate, an amount equal to any New York City transfer tax savings resulting from its status as a charitable organization, or \$23,000. The adjustment on the Minimum Pro Forma Condensed Consolidated Balance Sheet reflects an additional \$16,319 of cash consideration to be received by accredited investors that are charitable organizations in certain private entities relating to the elimination of 60 East 42nd St. Associates L.L.C. and 250 West 57th St. Associates L.L.C.
- (N) We have estimated that we will incur \$83,000 in property transfer taxes as a result of the completion of the formation transactions, which will be accrued upon completion of the IPO and the formation transactions. The adjustment on the Minimum Pro Forma Condensed Consolidated Balance Sheet reflects the elimination of \$11,819 of estimated property transfer taxes relating to 60 East

Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

42nd St. Associates L.L.C. and 250 West 57th St. Associates L.L.C. which will not be incurred.

**Table of Contents**

- (O) Reflects the repayment of a loan in the amount of \$3,600 made in connection with 500 Mamaroneck Avenue to fund leasing costs at the property, of which \$1,174 of such loan was made by Peter L. Malkin and Anthony E. Malkin.
- (P) Reflects \$10,000 of estimated assumption and transfer costs to be incurred in connection with the transfer of mortgage debt from the Predecessor and the non-controlled entities to Empire State Realty OP, L.P. The adjustment on the Minimum Pro Forma Condensed Consolidated Balance Sheet has been updated to reflect the elimination of 60 East 42nd St. Associates L.L.C. and 250 West 57th St. Associates L.L.C. The adjustment on the Minimum Pro Forma Condensed Consolidated Balance Sheet reflects the elimination of \$1,347 of estimated assumption and transfer costs relating to 60 East 42nd St. Associates L.L.C. and 250 West 57th St. Associates L.L.C. which will not be incurred.
- (Q) To reflect the allocation of pro forma total equity as of June 30, 2012 based on the issuance of 132,857 and 2,118 shares of Class A and Class B common stock, respectively in the IPO and the formation transactions and the recording of the non-controlling interest to reflect the issuance of 305,661 operating partnership units to the continuing investors which constitutes part of the equity consideration to be paid to continuing investors in the formation transactions.
- (R) Pro forma basic net book value per share equals pro forma total equity divided by the number of shares of our common stock and operating partnership units to be outstanding after the IPO and the unvested shares of restricted stock and LTIP units, which qualify as participating securities, to be granted upon the closing of the IPO and the formation transactions.
- (S) Pro forma diluted net book value per share equals pro forma total equity divided by the sum of the number of shares of our common stock and operating partnership units to be outstanding after the IPO and the unvested restricted shares of Class A common stock and LTIP units, which qualify as participating securities, to be granted upon the closing of the IPO and the formation transactions, plus an amount computed using the treasury stock method with respect to such restricted shares of Class A common stock and LTIP units which do not qualify as restricted securities.
- (T) We will distribute promptly following the closing any excess cash held by us at the time of the closing of the consolidation. The cash to be distributed to investors in the existing entities will be (i) any cash held by such entity at the closing in excess of the normalized level of net working capital for such entity, as determined by the supervisor (\$71,639 based on June 30, 2012 cash balances), (ii) the consolidation expenses reimbursed by the company to the existing entities at the closing of the consolidation out of proceeds of the IPO and (iii) overage rent that will have accrued through the date of the closing of the consolidation. This amount may be higher or lower due to earnings and other cash outlays prior to the time of such distributions or payments.
- (U) The pro forma condensed consolidated balance sheet has been presented for Empire State Realty Trust, Inc. For the Operating Partnership there would be no change in the total pro forma assets and liabilities however total equity would no longer have corporate equity classifications and instead would reflect pro forma equity to the general partner and the limited partners in the Operating Partnership as follows:

- (V) On September 28, 2012, a Stipulation of Settlement resolving the Class Actions was entered into. The terms of the settlement include, amongst other things, a payment of \$55,000, with a minimum of 80% in cash and a maximum of 20% in freely-tradable shares of common stock and/or operating partnership units after the termination of specified lock-up periods, which affiliates of Malkin Holdings LLC (provided that no entity that would become our direct or indirect subsidiary in the consolidation will have any liability for such payment) and the Estate of Leona M. Helmsley shall cause to be provided, to participants in the public entities and private entities. The settlement is subject to court approval. It is not effective until such court approval is final, including the resolution of any appeal. As the payment is to be made by the principal owners of certain Predecessor entities, \$55,000 will be recorded as settlement expense in the Predecessor Statement of Income when such payment becomes probable, with a corresponding \$55,000 capital contribution to the Predecessor at that time. These amounts result in no net change to total Predecessor equity.

**2. Adjustments to the Pro Forma Condensed Consolidated Statements of Income (in thousands except per share amounts)**

The adjustments to the pro forma condensed consolidated statements of income for the six months ended June 30, 2012 and the year ended December 31, 2011 are as follows:

- (AA) Represents the audited historical condensed statements of income of Empire State Realty Trust, Inc. for the six months ended June 30, 2012 and the year ended December 31, 2011. We have had no corporate activity since our formation on July 29, 2011, other than the issuance of 1,000 shares of Class A common stock in connection with our initial capitalization for \$0.10 per share, which was paid on July 29, 2011. We expect to conduct our business activities through the Operating Partnership upon completion of the IPO and the formation transactions. At such time, we, as the sole general partner of the Operating Partnership, are expected to own 30.63% of the interests of the Operating Partnership and will have responsibility and discretion in the management and control of the Operating Partnership, and the limited partners of the Operating Partnership, in such capacity, will have no authority to transact business for, or participate in the management activities of the Operating Partnership. We will have control over major decisions, including decisions related to the sale or refinancing of our properties (subject to certain exceptions). Accordingly, under GAAP we will consolidate the assets, liabilities and results of operations of the Operating Partnership and its subsidiaries.
- (BB) Reflects the historical condensed statements of income of the Predecessor for the six months ended June 30, 2012 and the year ended December 31, 2011. Because Empire State Realty Trust, Inc., and one of the Predecessor entities, Malkin Holdings LLC, the accounting acquirer, are under common control, the Predecessor's assets, liabilities and operations will be recorded at their historical cost basis.
- (CC) Reflects the acquisition by us of the assets and liabilities (including the Predecessor's non-controlling interests) of: (i) Empire State Building Company L.L.C. ( Empire State Building Company ); (ii) 1350 Broadway Associates L.L.C. ( 1350 Broadway ); (iii) 1333 Broadway Associates L.L.C. ( 1333 Broadway ); and (iv) 501 Seventh Avenue Associates L.L.C. ( 501 Seventh Avenue ), in exchange for cash, shares of our Class A common stock, shares of our Class B common stock and/or operating partnership units and the assumption of debt on the properties having an aggregate equity value of \$1,077,113 (based on the aggregate exchange value as determined by the independent valuer), representing the controlling interests in the non-controlled entities. The Predecessor is responsible for the day-to-day management of these entities, has a non-controlling ownership interest in such entities and therefore such ownership interests have been included in the Predecessor's financial statements as equity method investments. After acquisition of the ownership interests in the non-controlled entities (including the Predecessor's non-controlling interests therein), such entities will be 100% owned and consolidated by us. The acquisition of the non-controlled entities will be accounted for as an acquisition under the purchase method of accounting in accordance with ASC 805-10, *Business Combinations*.

**Table of Contents**

The acquisition method of accounting was used to allocate the fair value to tangible and identified intangible assets and liabilities acquired. The amounts allocated to net real estate, which includes buildings, are depreciated over the estimated useful life of 39 years. The amount allocated to above- and below-market leases and to intangible lease assets are amortized over the lives of the remaining lease terms. The amount allocated to goodwill was \$869,007 and is not subject to amortization but evaluated at least annually for impairment. As a result of the acquisition method of accounting, the carrying value of debt for the acquired non-controlled entities was adjusted to its fair value resulting in a \$15,025 premium. The premium is amortized to interest expense over the remaining lives of the underlying debt instruments.

The pro forma adjustments shown below for the six months ended June 30, 2012 and the year ended December 31, 2011 are based on our preliminary estimates and are subject to change based on the final determination of the fair value of the assets and liabilities acquired.

|  | For The Six Months Ended June 30, 2012           |                               |                               |                                    |                   |

- (3) Pro forma observatory revenue includes \$2,471 and \$4,870 for the six months ended June 30, 2012 and year ended December 31, 2011, respectively, of rental revenue attributable to a retail tenant which operates the concession space in the Empire State Building observatory under its lease expiring in May 2020.
- (4) 1350 Broadway pro forma operating expenses included \$829 and \$1,657 related to the amortization of the below-market ground lease for the six months ended June 30, 2012 and year ended December 31, 2011, respectively.

F-31

**Table of Contents**

- (5) Pro forma operating expenses reflect the elimination of rental expense incurred by Empire State Building Company and 501 Seventh Avenue to our Predecessor for the six months ended June 30, 2012 and the year ended December 31, 2011, respectively.
- (6) Depreciation and amortization has been adjusted to reflect the Pro Forma depreciation and amortization for the six months ended June 30, 2012 and for the year ended December 31, 2011, respectively.
- (7) 1350 Broadway pro forma interest expense included a reduction in interest expense of \$578 and \$751 related to the fair value adjustment on the assumed debt for the six months ended June 30, 2012 and year ended December 31, 2011, respectively.
- (8) 1333 Broadway pro forma interest expense included a reduction in interest expense of \$955 and \$1,864 related to the fair value adjustment on the assumed debt for the six months ended June 30, 2012 and year ended December 31, 2011, respectively.
- (DD) After the acquisition of 501 Seventh Avenue and Empire State Building Company, the historical operating lease arrangements will be eliminated. As a result, rental revenue earned by the Predecessor of \$3,468 and \$5,669 from 501 Seventh Avenue and \$4,813 and \$37,233 from Empire State Building Company, has been eliminated for the six months ended June 30, 2012 and the year ended December 31, 2011, respectively.
- (EE) Supervisory and management fees from the non-controlled entities of \$1,491 and \$1,954 in respect of Empire State Building Company, 1350 Broadway, 1333 Broadway and 501 Seventh Avenue are eliminated in consolidation for pro forma purposes for the six months ended June 30, 2012 and the year ended December 31, 2011, respectively. Other fees from the non-controlled entities of \$1,161 and \$2,096 in respect of Empire State Building Company, 1350 Broadway, 1333 Broadway and 501 Seventh Avenue are eliminated in consolidation for pro forma purposes for the six months ended June 30, 2012 and the year ended December 31, 2011, respectively.
- (FF) Costs charged by the Predecessor and expensed by Empire State Building Company, 1350 Broadway, 1333 Broadway and 501 Seventh Avenue relating to supervisory, management and offering cost reimbursements of \$2,174 and \$3,574 are eliminated from marketing, general and administrative expenses in consolidation for pro forma purposes for the six months ended June 30, 2012 and for the year ended December 31, 2011, respectively.
- (GG) We expect to incur through taxable REIT subsidiaries additional federal, state and local tax expenses of \$6,111 and \$3,969 for the six months ended June 30, 2012 and the year ended December 31, 2011, respectively of which \$4,842 and \$1,874 for the six months ended June 30, 2012 and for the year ended December 31, 2011, respectively, related to the operations of the Empire State Building observatory, and of which \$1,269 and \$2,095 for the six months ended June 30, 2012 and for the year ended December 31, 2011, respectively, related to the operations of our management and construction companies.
- (HH) As a result of the formation transactions general and administrative costs are expected to increase by \$225 and \$450 for the six months ended June 30, 2012 and the year ended December 31, 2011, respectively. The increase is comprised of additional costs relating to cash compensation granted to our non-employee directors. We expect to incur additional general and administrative expenses in excess of our historical general and administrative expenses as a result of becoming a public company, including but not limited to incremental salaries, director s and officer insurance, Sarbanes-Oxley compliance costs, and incremental audit, tax and legal fees. We estimate that these costs could result in incremental general and administrative expenses of \$5,000 to \$6,000 per year. We have not included these expenses in the pro forma condensed consolidated statement of income as such expenses are not current contractual obligations or factually supportable.
- (II) Reflects share-based compensation expense of \$2,344 and \$4,688 for the six months ended June 30, 2012 and the year ended December 31, 2011, respectively, relating to the intended grant of 1,800,000 unvested LTIP units and/or restricted shares of Class A common stock to our independent directors, executive officers (other than Anthony E. Malkin) and certain other employees upon completion of the IPO. The valuation of the restricted shares of Class A common stock was based on the fair value of the Class A common stock, or the \$10.00 per share offering price. The fair value of the LTIP units is based on a valuation method that considers the fair value of the Class A common

**Table of Contents**

stock and any applicable post-vesting transfer restrictions. We recognize the fair value of all share-based awards on a straight-line basis over the requisite service period. We estimated that there would be no forfeitures of the share-based awards.

- (JJ) Reflects \$4,511 and \$10,667 for the six months ended June 30, 2012 and the year ended December 31, 2011, respectively, representing the elimination of acquisition costs incurred by the non-controlled entities in connection with our acquisition of these entities. Additionally reflects the elimination of \$723 and \$2,845 of formation transaction costs included within roll-up expenses for the six months ended June 30, 2012 and the year ended December 31, 2011, respectively.
- (KK) Reflects the decrease in net interest expense for the year ended December 31, 2011 as a result of us entering into a three-year term loan secured by our interest in the Empire State Building on July 26, 2011 as amended November 2, 2011. The lenders provided us with an initial advance of \$159,000 and, subject to certain conditions set forth in the loan agreement, may provide us with additional advances of up to \$141,000. Simultaneously with entering into the secured term loan, we repaid the two existing mortgage debt financings on the Empire State Building which had an aggregate outstanding balance of \$92,000 at the time they were repaid. As a result of this refinancing transaction and the repayment of \$3,600 of unsecured debt (more fully described in Note O above), we expect interest expense on a pro forma basis to decrease by \$2,965 for the year ended December 31, 2011. The pro forma adjustment also includes amortization of capitalized fees of \$2,200 in connection with our secured term loan.

|   | <b>Year ended<br/>December 31, 2011</b> |

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The stockholder of Empire State Realty Trust, Inc.

We have audited the accompanying consolidated balance sheet of Empire State Realty Trust, Inc. (the Company) as of December 31, 2011. This balance sheet is the responsibility of the Company's management. Our responsibility is to express an opinion on this balance sheet based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the balance sheet is free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the balance sheet, assessing the accounting principles used and significant estimates made by management, and evaluating the overall balance sheet presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the balance sheet referred to above presents fairly, in all material respects, the consolidated financial position of Empire State Realty Trust, Inc. at December 31, 2011, in conformity with U.S. generally accepted accounting principles.

**Empire State Realty Trust, Inc.**

**Notes to Consolidated Balance Sheets**

**June 30, 2012 (unaudited) and December 31, 2011**

**NOTE 1. ORGANIZATION**

Empire State Realty Trust, Inc. (formerly known as Empire Realty Trust, Inc.) (the Company) was organized as a Maryland corporation on July 29, 2011. Under its Articles of Incorporation, the Company is authorized to issue up to 1,000 shares of common stock and no shares of preferred stock. The Company was initially capitalized by issuing 1,000 shares of common stock to Anthony E. Malkin, Chairman, President and Chief Executive Officer and of the Company, for a par value of \$0.01 per share. The Company has had no other operations since its formation.

The Company has filed a Registration Statement on Form S-11 with the Securities and Exchange Commission with respect to a proposed initial public offering (the Offering) of Class A common stock, for a par value of \$0.01 per share. The Company will contribute the net proceeds of the Offering for operating partnership units in Empire State Realty OP, L.P., a Delaware limited partnership (formerly known as Empire Realty Trust, L.P.) (the Operating Partnership). In advance of the Offering and as part of the formation transactions of the Operating Partnership, on November 28, 2011, the Company agreed to contribute \$10 for a 50% initial General Partner's interest in the Operating Partnership and Anthony E. Malkin agreed to contribute \$10 for a 50% initial Limited Partner's interest in the Operating Partnership. Anthony E. Malkin's contribution is reflected as a related party receivable. The contributions to the Operating Partnership were funded on March 15, 2012. The Company, as the sole general partner of the Operating Partnership, will have responsibility and discretion in the management and control of the Operating Partnership, and the limited partners of the Operating Partnership, in such capacity, will have no authority to transact business for, or participate in the management activities of the Operating Partnership. Accordingly, the Operating Partnership has been consolidated into this report of Company.

The Operating Partnership will own, manage, operate, acquire and reposition office and retail properties in Manhattan and the greater New York metropolitan area. The Operating Partnership will initially own 12 office properties, six standalone retail properties, and entitled land that will support the development of an office building and garage, all of which will be included in the consolidated financial statements of Company. The Operating Partnership intends to use the net proceeds of the Offering to pay certain holders of interests in the contributing entities of the initial portfolio that are non-accredited investors or who elect to receive cash for their equity interests in certain of such entities; pay fees in connection with the assumption of indebtedness; pay expenses incurred in connection with the Offering and the formation transactions; repay a loan that was made to one of the contributing entities by certain investors in such entity; and for general working capital purposes and to fund potential future acquisitions. The Company will be subject to the risks involved with the ownership and operation of commercial real estate. These include, among others, the risks normally associated with changes in the general economic climate, trends in the retail industry, including creditworthiness of tenants, competition for tenants, changes in tax laws, interest rate levels, the availability of financing, and potential liability under environmental and other laws.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Principles of Consolidation**

The consolidated financial statements include our accounts and those of our subsidiaries, which are wholly-owned or controlled by us. All significant intercompany balances and transactions have been eliminated.

**Income Taxes**

The Company believes that it is organized and will operate in the manner that will allow it to be taxed as a real estate investment trust (REIT) in accordance with the Sections 856 through 860 of the Internal Revenue

**Table of Contents**

**Empire State Realty Trust, Inc.**

**Notes to Consolidated Balance Sheets**

**June 30, 2012 (unaudited) and December 31, 2011**

Code of 1986, as amended, commencing with the taxable year ending December 31, 2013. As a REIT, the Company will generally be entitled to deduction for dividends paid and therefore will not be subject to federal corporate income tax on its net taxable income that is being distributed to its stockholders. REITs are subject to a number of organizational and operational requirements. If the Company fails to qualify as a REIT in any taxable year, the Company will be subject to federal income tax (including any applicable alternative minimum tax) on its taxable income at regular corporate tax rates.

**Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts in the balance sheet and accompanying notes. Actual results could differ from those estimates.

**Offering Costs**

In connection with the Offering, the Company and affiliates of the Company have incurred or will incur accounting fees, legal fees and other professional fees. Such costs will be deducted from the proceeds of the Offering, when it is consummated or expensed, in the period it is determined the transaction is not likely to be consummated.

**NOTE 3. COMMITMENTS AND CONTINGENCIES**

**Option Properties**

The Company has executed option agreements with affiliates of its predecessor granting the Company the right to acquire long-term leasehold and/or sub-leasehold interests in the option properties following the resolution of the ongoing litigation relating to these properties. The option properties will not be contributed to the Company in the formation transactions. Concurrently with the consummation of the Offering, the Company intends to enter into management agreements with respect to each of the option properties. The option properties consist of 112-122 West 34th Street and 1400 Broadway, both office properties in midtown Manhattan. The Company's management team believes that, if acquired, 112-122 West 34th Street and 1400 Broadway would be consistent with its portfolio composition and strategic direction. The purchase price for each of the option properties will be based on an appraisal by independent third parties, unless the Company and the owners of the properties, with the consent of the Helmsley estate (a member of affiliates of Company's predecessor and of the owners of option properties), agree to a negotiated price, and unless the litigation related to these properties is resolved prior to the closing of the consolidation, in which case investors in the entities owning the option properties will receive consideration in connection with the consolidation on the same basis as investors in other entities contributing properties in connection with the consolidation. The Company has agreed that Anthony E. Malkin, its Chairman, Chief Executive Officer and President, will not participate in the negotiations and valuation process on the Company's behalf. One or more of the Company's independent directors will lead the appraisal or negotiation process on its behalf and a majority of its independent directors must approve the price and terms of the acquisition of interests in each of the option properties. The purchase price is payable in a combination of cash, shares of our common stock and operating partnership units, but the Helmsley estate will have the right to elect to receive all cash. The Company's option expires on the later of (i) 12 months after we receive notice of a settlement or a final, non-appealable judgment in relation to certain ongoing litigation with respect to the properties or (ii) six months after the completion of the independent valuation described above, but in no event later than seven years from the completion of this offering.

**Empire State Realty Trust, Inc.**

**Notes to Consolidated Balance Sheets**

**June 30, 2012 (unaudited) and December 31, 2011**

**Litigation**

In March 2012, five putative class actions (the "Class Actions") were filed in New York State Supreme Court, New York County by investors in certain contributing entities of the initial portfolio (on March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and March 19, 2012). The plaintiffs assert claims against Malkin Holdings LLC, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc., Malkin Construction Corp., Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, the Operating Partnership, and the Company for breach of fiduciary duty, unjust enrichment and/or aiding and abetting breach of fiduciary duty. They allege, among other things, that the terms of the transaction and the process by which it was structured (including the valuation that was employed) are unfair to such investors, the consolidation provides excessive benefits to Malkin Holdings LLC and its affiliates and the then-draft prospectus/consent solicitation statement which is part of the registration statement on Form S-4 filed with the SEC relating to the consolidation failed to make adequate disclosure to permit a fully informed decision about the proposed transaction. The complaints seek money damages and injunctive relief preventing the consolidation. The actions were consolidated and co-lead plaintiffs' counsel were appointed by the New York State Supreme Court by order dated June 26, 2012.

The parties entered into a Stipulation of Settlement dated September 28, 2012, resolving the Class Actions. The Stipulation of Settlement recites that the consolidation was approved by overwhelming consent of investors in the private entities. The Stipulation of Settlement states that counsel for the plaintiff class satisfied themselves that they have received adequate access to relevant information, including the independent valuer's valuation process and methodology, that the disclosures in the registration statement on Form S-4, as amended, are appropriate, that the transaction presents potential benefits, including the opportunity for liquidity and capital appreciation, that merit the investors' serious consideration and that each of the named class representatives intends to support the transaction as modified. The Stipulation of Settlement further states that counsel for the plaintiff class are satisfied that the claims regarding tax implications, enhanced disclosures, appraisals and exchange values of the properties that would be consolidated into our company, and the interests of investors in the public entities and the private entities have been addressed adequately, and they have concluded that the settlement pursuant to the Stipulation of Settlement and opportunity to consider the proposed transaction on the basis of revised consent solicitations are fair, reasonable, adequate and in the best interests of the plaintiff class.

Defendants in the Stipulation of Settlement denied that they committed any violation of law or breached any of their duties and did not admit that they had any liability to the plaintiffs.

The terms of the settlement include, among other things (i) a payment of \$55 million, with a minimum of 80% in cash and maximum of 20% in freely-tradable shares of common stock and/or freely-tradable operating partnership units (all of which will be paid by affiliates of Malkin Holdings LLC (provided that no affiliate of Malkin Holdings LLC that would become a direct or indirect subsidiary of the Company in the consolidation will have any liability for such payment) and the Estate of Leona M. Helmsley and certain investors in the private entities who agree to contribute) to be distributed, after reimbursement of plaintiffs' counsel's court-approved expenses and payment of plaintiffs' counsel's court-approved attorneys' fees, and, in the case of the shares of common stock and/or operating partnership units, after the termination of specified lock-up periods, to investors in the public entities and the private entities pursuant to a plan of allocation to be prepared by counsel for plaintiffs; (ii) defendants' agreement that (a) the Offering will be on the basis of a firm commitment underwriting; (b) if, during the solicitation period of the public entities, any of the three public entities' percentage of total exchange value is lower than what is stated in the final prospectus/consent solicitation by 10% or more, such decrease will be promptly disclosed by defendants to investors in the public entities; and (c) unless

**Table of Contents**

**Empire State Realty Trust, Inc.**

**Notes to Consolidated Balance Sheets**

**June 30, 2012 (unaudited) and December 31, 2011**

total gross proceeds of \$600,000,000 are raised in the Offering, defendants will not proceed with the transaction without further approval of the public entities, and (iii) defendants' agreement to make additional disclosures in the prospectus/consent solicitation which is part of the registration statement on Form S-4 regarding certain matters (which are included therein). Investors in the public entities and private entities will not be required to bear any portion of the settlement payment. The payment in settlement of the Class Actions will be made by the Estate of Leona M. Helmsley and affiliates of Malkin Holdings LLC (provided that no affiliate of Malkin Holdings LLC that would become a direct or indirect subsidiary of the Company in the consolidation will have any liability for such payment) and certain investors in the private entities who agree to participate. The Company and the Operating Partnership will not bear any of the settlement payment.

The settlement further provides for the certification of a class of investors in the three public entities and all of the private entities, other than defendants and other related persons and entities, and a release of any claims of the members of the class against defendants and related persons and entities, as well as underwriters in the Offering and other advisors. The release in the settlement excludes certain claims, including but not limited to, claims arising from or related to any supplement to the registration statement on Form S-4 that is declared effective to which the plaintiffs' counsel objects in writing, which objection will not be unreasonably made or delayed, so long as plaintiffs' counsel has had adequate opportunity to review such supplement. Members of the putative class have the right to opt out of the monetary portion of the settlement, but not the portion providing for equitable relief. The settlement is subject to court approval. It is not effective until such court approval is final, including the resolution of any appeal. Defendants continue to deny any wrongdoing or liability in connection with the allegations in the Class Actions.

There is a risk that other third parties will assert claims against the Company or Malkin Holdings LLC, including, without limitation, that Malkin Holdings LLC breached its fiduciary duties to investors in the existing entities or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against the Company or Malkin Holdings LLC.

**NOTE 4. SUBSEQUENT EVENTS**

Except as disclosed in Note 3. Commitment and Contingencies, there have not been any events that have occurred that would require adjustments to or disclosure to the consolidated balance sheets.

**Table of Contents**

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The partners of Empire State Realty OP, L.P.

We have audited the accompanying balance sheet of Empire State Realty OP, L.P. (the Company ) as of March 31, 2012. This balance sheet is the responsibility of the Company s management. Our responsibility is to express an opinion on this balance sheet based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the balance sheet is free of material misstatement. We were not engaged to perform an audit of the Company s internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the balance sheet, assessing the accounting principles used and significant estimates made by management, and evaluating the overall balance sheet presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the balance sheet referred to above presents fairly, in all material respects, the financial position of Empire State Realty OP, L.P. at March 31, 2012, in conformity with U.S. generally accepted accounting principles.

**Empire State Realty OP, L.P.**

**Notes to Balance Sheet**

**June 30, 2012 (unaudited) and March 31, 2012**

**NOTE 1. ORGANIZATION**

Empire State Realty OP L.P. (formerly known as Empire Realty Trust, L.P.) (the Company) was organized as a Delaware limited partnership on November 28, 2011. Empire State Realty Trust, Inc. (formerly known as Empire Realty Trust, Inc.) (ESRT) which was organized as a Maryland corporation on July 29, 2011 agreed to contribute \$10 for a 50% initial General Partner's interest in the Operating Partnership and Anthony E. Malkin agreed to contribute \$10 for a 50% initial Limited Partner's interest in the Company. The contributions to the Company were funded on March 15, 2012.

ESRT has filed a Registration Statement on Form S-11 with the Securities and Exchange Commission with respect to a proposed initial public offering (the Offering) of Class A common stock, for a par value of \$0.01 per share. ESRT will contribute the net proceeds of the Offering for operating partnership units in the Company. ESRT, as the sole general partner of the Company, will have responsibility and discretion in the management and control of the Company, and the limited partners of the Company, in such capacity, will have no authority to transact business for, or participate in the management activities of the Company.

The Company will own, manage, operate, acquire and reposition office and retail properties in Manhattan and the greater New York metropolitan area and will initially own 12 office properties, six standalone retail properties, and entitled land that will support the development of an office building and garage. The Company intends to use the net proceeds of the Offering to pay certain holders of interests in the contributing entities of the initial portfolio that are non-accredited investors or who elect to receive cash for their equity interests in certain of such entities; pay fees in connection with the assumption of indebtedness; pay expenses incurred in connection with the Offering and the formation transactions; repay a loan that was made to one of the contributing entities by certain investors in such entity; and for general working capital purposes and to fund potential future acquisitions. The Company will be subject to the risks involved with the ownership and operation of commercial real estate. These include, among others, the risks normally associated with changes in the general economic climate, trends in the retail industry, including creditworthiness of tenants, competition for tenants, changes in tax laws, interest rate levels, the availability of financing, and potential liability under environmental and other laws.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Income Taxes**

The Company is not subject to federal and state income taxes and, accordingly, makes no provision for federal and state income taxes in the accompanying financial statements. The Company's taxable income or loss is reportable by its partners.

**Use of Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts in the balance sheet and accompanying notes. Actual results could differ from those estimates.

**Offering Costs**

In connection with the Offering, the Company and affiliates of the Company have incurred or will incur accounting fees, legal fees and other professional fees. Such costs will be deducted from the proceeds of the Offering, when it is consummated or expensed, in the period it is determined the transaction is not likely to be consummated.

**NOTE 3. COMMITMENTS AND CONTINGENCIES**

**Option Properties**

The Company has executed option agreements with affiliates of its predecessor granting the Company the right to acquire long-term leasehold and/or sub-leasehold interests in the option properties following the resolution of the ongoing litigation relating to these properties. The option properties will not be contributed to the Company in the formation transactions. Concurrently with the consummation of the Offering, the Company intends to enter into management agreements with respect to each of the option properties. The option properties consist of 112-122 West 34th Street and 1400 Broadway, both office properties in midtown Manhattan. The Company's management team believes that, if acquired, 112-122 West 34th Street and 1400 Broadway would be consistent with its portfolio composition and strategic direction. The purchase price for each of the option properties will be based on an appraisal by independent third parties, unless the Company and the owners of the properties, with the consent of the Helmsley estate (a member of affiliates of Company's predecessor and of the owners of option properties), agree to a negotiated price, and unless the litigation related to these properties is resolved prior to the closing of the consolidation, in which case investors in the entities owning the option properties will receive consideration in connection with the consolidation on the same basis as investors in other entities contributing properties in connection with the consolidation. The Company has agreed that Anthony E. Malkin, Chairman, Chief Executive Officer and President of ESRT, will not participate in the negotiations and valuation process on the Company's behalf. One or more of ESRT's independent directors will lead the appraisal or negotiation process on its behalf and a majority of its independent directors must approve the price and terms of the acquisition of interests in each of the option properties. The purchase price is payable in a combination of cash, shares of our common stock and operating partnership units, but the Helmsley estate will have the right to elect to receive all cash. The Company's option expires on the later of (i) 12 months after we receive notice of a settlement or a final, non-appealable judgment in relation to certain ongoing litigation with respect to the properties or (ii) six months after the completion of the independent valuation described above, but in no event later than seven years from the completion of this offering.

**Litigation**

In March 2012, five putative class actions (the "Class Actions") were filed in New York State Supreme Court, New York County by investors in certain contributing entities of the initial portfolio (on March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and March 19, 2012). The plaintiffs assert claims against Malkin Holdings LLC, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc., Malkin Construction Corp., Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, ESRT, and the Company for breach of fiduciary duty, unjust enrichment and/or aiding and abetting breach of fiduciary duty. They allege, among other things, that the terms of the transaction and the process by which it was structured (including the valuation that was employed) are unfair to such investors, the consolidation provides excessive benefits to Malkin Holdings LLC and its affiliates and the then-draft prospectus/consent solicitation statement which is part of the registration statement on Form S-4 filed with the SEC relating to the consolidation failed to make adequate disclosure to permit a fully informed decision about the proposed transaction. The complaints seek money damages and injunctive relief preventing the consolidation. The actions were consolidated and co-lead plaintiffs' counsel were appointed by the New York State Supreme Court by order dated June 26, 2012.

The parties entered into a Stipulation of Settlement dated September 28, 2012, resolving the Class Actions. The Stipulation of Settlement recites that the consolidation was approved by overwhelming consent of investors in the private entities. The Stipulation of Settlement states that counsel for the plaintiff class satisfied themselves that they have received adequate access to relevant information, including the independent valuer's valuation process and methodology, that the disclosures in the registration statement on Form S-4, as amended,

---

**Table of Contents**

**Empire State Realty OP, L.P.**

**Notes to Balance Sheet**

**June 30, 2012 (unaudited) and March 31, 2012**

are appropriate, that the transaction presents potential benefits, including the opportunity for liquidity and capital appreciation, that merit the investors' serious consideration and that each of the named class representatives intends to support the transaction as modified. The Stipulation of Settlement further states that counsel for the plaintiff class are satisfied that the claims regarding tax implications, enhanced disclosures, appraisals and exchange values of the properties that would be consolidated into ESRT, and the interests of investors in the public entities and the private entities have been addressed adequately, and they have concluded that the settlement pursuant to the Stipulation of Settlement and opportunity to consider the proposed transaction on the basis of revised consent solicitations are fair, reasonable, adequate and in the best interests of the plaintiff class.

Defendants in the Stipulation of Settlement denied that they committed any violation of law or breached any of their duties and did not admit that they had any liability to the plaintiffs.

The terms of the settlement include, among other things (i) a payment of \$55 million, with a minimum of 80% in cash and maximum of 20% in freely-tradable shares of common stock and/or freely-tradable operating partnership units (all of which will be paid by affiliates of Malkin Holdings LLC (provided that no affiliate of Malkin Holdings LLC that would become a direct or indirect subsidiary of ESRT in the consolidation will have any liability for such payment) and the Estate of Leona M. Helmsley and certain investors in the private entities who agree to contribute) to be distributed, after reimbursement of plaintiffs' counsel's court-approved expenses and payment of plaintiffs' counsel's court-approved attorneys' fees, and, in the case of the shares of common stock and/or operating partnership units, after the termination of specified lock-up periods, to investors in the public entities and the private entities pursuant to a plan of allocation to be prepared by counsel for plaintiffs; (ii) defendants' agreement that (a) the Offering will be on the basis of a firm commitment underwriting; (b) if, during the solicitation period of the public entities, any of the three public entities' percentage of total exchange value is lower than what is stated in the final prospectus/consent solicitation by 10% or more, such decrease will be promptly disclosed by defendants to investors in the public entities; and (c) unless total gross proceeds of \$600,000,000 are raised in the Offering, defendants will not proceed with the transaction without further approval of the public entities, and (iii) defendants' agreement to make additional disclosures in the prospectus/consent solicitation which is part of the registration statement on Form S-4 regarding certain matters (which are included therein). Investors in the public entities and private entities will not be required to bear any portion of the settlement payment. The payment in settlement of the Class Actions will be made by the Estate of Leona M. Helmsley and affiliates of Malkin Holdings LLC (provided that no affiliate of Malkin Holdings LLC that would become a direct or indirect subsidiary of ESRT in the consolidation will have any liability for such payment) and certain investors in the private entities who agree to participate. ESRT and the Company will not bear any of the settlement payment.

The settlement further provides for the certification of a class of investors in the three public entities and all of the private entities, other than defendants and other related persons and entities, and a release of any claims of the members of the class against defendants and related persons and entities, as well as underwriters in the Offering and other advisors. The release in the settlement excludes certain claims, including but not limited to, claims arising from or related to any supplement to the registration statement on Form S-4 that is declared effective to which the plaintiffs' counsel objects in writing, which objection will not be unreasonably made or delayed, so long as plaintiffs' counsel has had adequate opportunity to review such supplement. Members of the putative class have the right to opt out of the monetary portion of the settlement, but not the portion providing for equitable relief. The settlement is subject to court approval. It is not effective until such court approval is final, including the resolution of any appeal. Defendants continue to deny any wrongdoing or liability in connection with the allegations in the Class Actions.

There is a risk that other third parties will assert claims against ESRT, the Company or Malkin Holdings LLC, including, without limitation, that the supervisor breached its fiduciary duties to investors in the existing entities or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against ESRT, the Company or Malkin Holdings LLC.

**Report of Independent Registered Public Accounting Firm**

The Partners, Members and Stockholders of Empire State Realty Trust, Inc., Predecessor

We have audited the accompanying combined balance sheets of Empire State Realty Trust, Inc., Predecessor as of December 31, 2011 and 2010, and the related combined statements of income, owners' equity (deficit), and cash flows for each of the three years in the period ended December 31, 2011. Our audits also include the financial statement schedules listed on the Index to Financial Statements included in the Form S-11. These financial statements and schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedules based on our audits. We did not audit the financial statements for the year ended December 31, 2009 for Empire State Building Associates L.L.C., 60 East 42nd St. Associates L.L.C., 250 West 57th St. Associates L.L.C., Lincoln Building Associates L.L.C., and Fisk Building Associates L.L.C., which statements collectively reflect total revenues of \$98,126,000 in 2009. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for Empire State Building Associates L.L.C., 60 East 42nd St. Associates L.L.C., 250 West 57th St. Associates L.L.C., Lincoln Building Associates L.L.C., and Fisk Building Associates L.L.C., is based solely on the reports of the other auditors. Also, the consolidated financial statements for the year ended December 31, 2009 for Empire State Building Company L.L.C. and Affiliates (a non-controlled entity in which the Company has a 23.75% interest), have been audited by other auditors whose report has been furnished to us, and our opinion on the combined financial statements, insofar as it relates to the amounts included for Empire State Building Company L.L.C. and Affiliates, is based solely on the report of the other auditors. In the combined financial statements, the Company's equity in the net income of Empire State Building Company L.L.C. and Affiliates is stated at \$9,572,000 for the year ended December 31, 2009.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits and the reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the combined financial position of Empire State Realty Trust, Inc., Predecessor at December 31, 2011 and 2010, and the combined results of its operations and its cash flows for each of the three years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedules, when considered in relation to the basic combined financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

Empire State Building Associates L.L.C.

(a Limited Liability Company)

We have audited the consolidated statements of income, members' equity and cash flows of Empire State Building Associates L.L.C. ( Associates ) for the year ended December 31, 2009. These consolidated financial statements are the responsibility of Associates' management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. Associates is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Associates' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the results of operations and cash flows of Empire State Building Associates L.L.C. for the year ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

These financial statements are the responsibility of Associates' management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. Associates is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Associates' internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the results of operations and cash flows of 250 West 57th St. Associates L.L.C. for the year ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

Empire State Building Company L.L.C.

New York, New York

We have audited the consolidated statements of income, changes in equity and cash flows of Empire State Building Company L.L.C. (a New York limited liability company) and Affiliates (the Company) for the year ended December 31, 2009. These financial statements are the responsibility of the management of Empire State Building Company L.L.C. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the results of operations and cash flows of Empire State Building Company L.L.C. and Affiliates for the year ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2 to the consolidated financial statements, effective January 1, 2009, the Company adopted the provisions pertaining to noncontrolling interests of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 810, Consolidation, and the provisions pertaining to uncertain tax positions of FASB ASC 740, Income Taxes.

**1. Organization and Description of Business**

*As used in these combined financial statements, unless the context otherwise requires, we, us, and our company mean the Predecessor (as defined below) for the periods presented and Empire State Realty Trust, Inc. and its combined subsidiaries upon consummation of its initial public offering, or IPO, and the formation transactions defined below.*

Empire State Realty Trust, Inc. (formerly known as Empire Realty Trust, Inc.) is a Maryland corporation formed on July 29, 2011 to acquire the assets or equity interests of entities owning various controlling and non-controlling interests in real estate assets and certain management businesses controlled and/or managed by Mr. Peter L. Malkin and Mr. Anthony E. Malkin, or the Sponsors.

Prior to or concurrently with the IPO, we will engage in a series of formation transactions pursuant to which we will acquire, through a series of contributions and merger transactions, these assets, interests and businesses which we refer to as our formation transactions. These acquisitions will be made upon completion of the IPO. The formation transactions are intended to enable us to (i) combine the ownership of our property portfolio under our operating partnership subsidiary, Empire State Realty OP, L.P. (formerly known as Empire Realty Trust, L.P.), a Delaware limited partnership, or the Operating Partnership; (ii) succeed to the asset management, property management, leasing and construction businesses of the predecessor; (iii) facilitate the IPO; and (iv) elect and qualify as a real estate investment trust, or REIT, for U.S. federal income tax purposes commencing with the taxable year ending December 31, 2013. We will not have any operating activity until the consummation of our IPO and the formation transactions. Accordingly, we believe that a discussion of the results of Empire State Realty Trust, Inc. would not be meaningful for the periods covered by these financial statements prior to that acquisition.

***The Predecessor***

The predecessor is not a legal entity but rather a combination of (i) controlling interests in (a) 16 office and retail properties, (b) one development parcel, and (c) certain management companies, which are owned by certain entities that the Sponsors own interests in and control, which we collectively refer to as the controlled entities, and (ii) non-controlling interests in four office properties (which include two of the 16 properties set forth in (i) above), held through entities which we collectively refer to as the non-controlled entities, and are presented as uncombined entities in our combined financial statements. Specifically, the term the predecessor means (i) Malkin Holdings LLC, a New York limited liability company that acts as the supervisor of, and performs various asset management services and routine administration with respect to, certain of the existing entities (as described below), which we refer to as the supervisor ; (ii) the limited liability companies or limited partnerships that currently (a) own, directly or indirectly and either through a fee interest or a long-term leasehold in the underlying land, and/or (b) operate, directly or indirectly and through a fee interest, an operating lease, an operating sublease or an operating sub-sublease, the 18 office and retail properties (which include non-controlling interests in four office properties for which Malkin Holdings LLC acts as the supervisor but that are not consolidated into our predecessor for accounting purposes) and entitled land that will support the development of an approximately 340,000 rentable square foot office building and garage that we will own after the formation transactions described in this prospectus, which we refer to as the existing entities ; (iii) Malkin Properties, L.L.C., a New York limited liability company that serves as the manager and leasing agent for certain of the existing entities in Manhattan, which we refer to as Malkin Properties ; (iv) Malkin Properties of New York, L.L.C., a New York limited liability company that serves as the manager and leasing agent for certain of the existing entities in Westchester County, New York, which we refer to as Malkin Properties NY ; (v) Malkin Properties of Connecticut, Inc., a Connecticut corporation that serves as the manager and leasing agent for certain

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**  
**Notes to Combined Financial Statements (continued)**  
**(amounts in thousands)**

of the existing entities in the State of Connecticut, which we refer to as Malkin Properties CT ; and (vi) Malkin Construction Corp., a Connecticut corporation that is a general contractor and provides services to certain of the existing entities and third parties (including certain tenants at the properties in our portfolio), which we refer to as Malkin Construction. The term the predecessor s management companies refers to the supervisor, Malkin Properties, Malkin Properties NY, Malkin Properties CT and Malkin Construction, collectively. The predecessor accounts for its investment in the non-controlled entities under the equity method of accounting.

*Controlled Entities:*

As of December 31, 2011, properties that the Sponsors own interests in and control, and whose operations are 100% consolidated into the financial statements of the predecessor include:

*Office:*

One Grand Central Place, New York, New York

250 West 57th Street, New York, New York

1359 Broadway, New York, New York

First Stamford Place, Stamford, Connecticut

Metro Center, Stamford, Connecticut

383 Main Avenue, Norwalk, Connecticut

500 Mamaroneck Avenue, Harrison, New York

10 Bank Street, White Plains, New York

Fee ownership position of 350 Fifth Avenue (Empire State Building), New York, New York

Fee ownership position of 501 Seventh Avenue, New York, New York

*Retail:*

10 Union Square, New York, New York

1010 Third Avenue, New York, New York

77 West 55th Street, New York, New York

1542 Third Avenue, New York, New York

69-97 Main Street, Westport, Connecticut

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

103-107 Main Street, Westport, Connecticut

### *Land Parcels:*

We own entitled land at the Stamford Transportation Center in Stamford, Connecticut, adjacent to one of our office properties that will support the development of an approximately 340,000 rentable square foot office building and garage.

The acquisition of interests in our predecessor will be recorded at historical cost at the time of the formation transactions.

F-61

---

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

*Non-Controlled Entities:*

As of December 31, 2011, properties in which the sponsors own and control non-controlling interests and whose operations are reflected in our predecessor's combined financial statements as an equity interest include:

*Office:*

Master operating lease position of 350 Fifth Avenue, New York, New York Empire State Building Company L.L.C.

Master operating lease position of 1350 Broadway, New York, New York 1350 Broadway Associates L.L.C. (long term ground lease)

1333 Broadway, New York, New York 1333 Broadway Associates L.L.C.

Master operating lease position of 501 Seventh Avenue, New York, New York 501 Seventh Avenue Associates L.L.C.

All of our business activities will be conducted through our operating partnership. We will be the sole general partner of our Operating Partnership. Pursuant to the formation transactions, our Operating Partnership will (i) acquire interests in the office and retail properties owned by the controlled entities (including our predecessor management companies) and the non-controlled entities and (ii) assume related debt and other specified liabilities of such assets and businesses, in exchange for shares of our Class A common stock, Class B common stock, operating partnership units, and/or cash.

We will be self-administered and self-managed. Additionally, we will form or acquire one or more taxable REIT subsidiaries, or TRSs, that will be owned by the Operating Partnership. The TRSs, through several wholly-owned limited liability companies, will conduct third-party services businesses, which may include the Empire State Building Observatory, parking facilities, cleaning services, property management and leasing, construction, mortgage brokerage, and property maintenance.

**2. Summary of Significant Accounting Policies**

**Basis of Presentation and Principles of Combination**

The accompanying combined financial statements of the predecessor are prepared in accordance with U.S. generally accepted accounting principles, or GAAP, and with the rules and regulations of the U.S. Securities and Exchange Commission, or the SEC. The effect of all significant intercompany balances and transactions has been eliminated. The combined financial statements include all the accounts and operations of our predecessor. The real estate entities included in the accompanying combined financial statements have been combined on the basis that, for the periods presented, such entities were under common control, common management and common ownership of the Sponsors and/or their affiliates and family members. Equity interests in the combining entities that are not controlled by the Sponsors and/or their affiliates and family members are shown as investments in uncombined entities. We will also acquire these interests. Certain prior year balances have been reclassified in the combined balance sheets to conform with the current year presentation.

In June 2009, the Financial Accounting Standards Board, or FASB, amended the guidance for determining whether an entity is a variable interest entity, or VIE, and requires the performance of a qualitative rather than a quantitative analysis to determine the primary beneficiary of a VIE. Under this guidance, an entity would be required to consolidate a VIE if it has (i) the power to direct the activities that most significantly impact the

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

entity's economic performance and (ii) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE that could be significant to the VIE. Adoption of this guidance on January 1, 2010 did not have a material impact on our combined financial statements.

We will assess the accounting treatment for each investment we may have in the future. This assessment will include a review of each entity's organizational agreement to determine which party has what rights and whether those rights are protective or participating. For all VIEs, we will review such agreements in order to determine which party has the power to direct the activities that most significantly impact the entity's economic performance and benefit. In situations where we or our partner could approve, among other things, the annual budget, the entity's tax return before filing, and leases that cover more than a nominal amount of space relative to the total rentable space at each property, we would not consolidate the investment as we consider these to be substantive participation rights that result in shared power of the activities that would most significantly impact the performance and benefit of such joint venture investment. Such agreements could also contain certain protective rights such as the requirement of partner approval to sell, finance or refinance the investment and the payment of capital expenditures and operating expenditures outside of the approved budget or operating plan.

A non-controlling interest in a consolidated subsidiary is defined as the portion of the equity (net assets) in a subsidiary not attributable, directly or indirectly, to a parent. Non-controlling interests are required to be presented as a separate component of equity in the combined balance sheets and in the combined statements of income by requiring earnings and other comprehensive income to be attributed to controlling and non-controlling interests. As the financial statements of the predecessor have been prepared on a combined basis, there is no non-controlling interest for the periods presented.

**Accounting Estimates**

The preparation of the combined financial statements in accordance with GAAP requires management to use estimates and assumptions that in certain circumstances affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Significant items subject to such estimates and assumptions include allocation of the purchase price of acquired real estate properties among tangible and intangible assets, determination of the useful life of real estate properties and other long-lived assets, valuation and impairment analysis of combined and uncombined commercial real estate properties and other long-lived assets, estimate of percentage of completion on construction contracts, and valuation of the allowance for doubtful accounts. These estimates are prepared using management's best judgment, after considering past, current, and expected events and economic conditions. Actual results could differ from those estimates.

**Real Estate**

Commercial real estate properties are recorded at cost, less accumulated depreciation and amortization. The recorded cost includes cost of acquisitions, development and construction and tenant allowances and improvements. Expenditures for ordinary repairs and maintenance are charged to operations as incurred. Significant replacements and betterments which improve or extend the life of the asset are capitalized. Tenant improvements which improve or extend the life of the asset are capitalized. If a tenant vacates its space prior to the contractual termination of its lease, the unamortized balance of any tenant improvements are written off if they are replaced or have no future value.

**Table of Contents****Empire State Realty Trust, Inc., Predecessor****Notes to Combined Financial Statements (continued)****(amounts in thousands)**

Properties are depreciated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are as follows:

| Category                      | Term   |
|-------------------------------|--|
| Building (fee ownership)      | 39 years   |
| Building improvements         | Shorter of remaining life of the building or useful life |
| Building (leasehold interest) | Lesser of 39 years or remaining term of the lease        |
| Furniture and fixtures        | Four to seven years                                      |
| Tenant improvements           | Shorter of remaining term of the lease or useful life    |

Depreciation expense amounted to \$29,155, \$26,969 and \$23,516 for the years ended December 31, 2011, 2010 and 2009, respectively.

For commercial real estate properties acquired after June 30, 2001, we assess the fair value of acquired tangible and intangible assets (including land, buildings, tenant improvements, above- and below-market leases, origination costs, acquired in-place leases, other identified intangible assets and assumed liabilities in accordance with guidance included in Accounting Standards Codification ( ASC ) 805, Business Combinations ( ASC 805 ) (formerly known as Statement of Financial Accounting Standards ( SFAS ) No. 141 ( SFAS No. 141 ), which was later replaced by SFAS 141 (R)), and allocate the purchase price to the acquired assets and assumed liabilities, including land at appraised value and buildings as if vacant, based on estimated fair values. We assess and consider fair value based on estimated cash flow projections that utilize discount and/or capitalization rates that we deem appropriate, as well as available market information. Estimates of future cash flows are based on a number of factors, including the historical operating results, known and anticipated trends, and market and economic conditions. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant. We also consider an allocation of purchase price of other acquired intangibles, including acquired in-place leases that may have a customer relationship intangible value, including (but not limited to) the nature and extent of the existing relationship with the tenants, the tenant s credit quality and expectations of lease renewals. Based on our acquisitions to date, our allocation to customer relationship intangible assets has been immaterial. Real estate properties acquired prior to July 1, 2001 were accounted for under the provisions of Accounting Principles Board ( APB ) 16 ( APB 16 ) using the purchase method. Under the provisions of APB 16, we did not allocate any of the purchase prices to acquired leases. APB 16 was superseded by SFAS 141 and later SFAS 141(R).

Acquired in-place lease costs (tenant improvements and leasing commissions) are amortized as amortization expense on a straight-line basis over the remaining life of the underlying leases. Acquired in-place lease assets and assumed above- and below-market leases are amortized on a straight-line basis as an adjustment to rental revenue over the remaining term of the underlying leases, including, for below-market leases, fixed option renewal periods, if any. To date, all such acquired lease intangibles were deemed to be immaterial and have been recorded as part of the cost of the acquired building. For below-market leases with fixed option renewal periods, we have applied a minimum threshold of a 10% differential between the fixed rate renewals and estimated market rents when evaluating recording a below-market lease intangible.

Results of operations of properties acquired are included in the combined statements of income from the date of acquisition. Effective January 1, 2009, the date we adopted ASC 805, we were required to expense all acquisition related costs as incurred. Prior to this date, directly related acquisition costs were treated as part of consideration paid and were capitalized. No properties were acquired during the periods presented, nor did we incur any acquisition related costs.

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

Should a tenant terminate its lease, any unamortized acquired in-place lease costs and acquired in-place lease assets and assumed above- and below-market leases associated with that tenant will be written off to amortization expense or rental revenue, as indicated above.

For properties which we construct, we capitalize the cost to acquire and develop the property. The costs to be capitalized include pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs of personnel directly involved and other costs incurred during the period of development.

Construction in progress is stated at cost, which includes the cost of construction, other direct costs and overhead costs attributable to the construction. Interest is capitalized if deemed material. No provision for depreciation is made on construction in progress until such time as the relevant assets are completed and put into use. Construction in progress, which is included in Building and Improvements, was \$7,713 and \$2,973 as of December 31, 2011 and 2010, respectively.

We cease capitalization on the portions of a construction property substantially completed and occupied or held available for occupancy, and capitalize only those costs associated with the portions under construction.

As a part of and concurrently with the IPO and the formation transactions, we will distribute our interest in certain residential buildings and land located in Stamford, Connecticut, which is zoned for residential use and held for future development. These interests have a historical cost of \$15,500 and such residential buildings and land will be distributed to certain of the owners of the predecessor and therefore will not be acquired by us.

A property to be disposed of is reported at the lower of its carrying amount or its estimated fair value, less its cost to sell. Once an asset is held for sale, depreciation expense is no longer recorded and the historic results are reclassified as discontinued operations.

**Investments in Non-Controlled Entities**

We account for our investments under the equity method of accounting where we do not have control but have the ability to exercise significant influence. Under this method, our investments are recorded at cost, and the investment accounts are adjusted for our share of the entities' income or loss and for distributions and contributions. Equity income (loss) from non-controlled entities is allocated based on the portion of the ownership interest that is controlled by the Sponsor in each entity. The agreements may designate different percentage allocations among investors for profits and losses; however, our recognition of the entity's income or loss generally follows the entity's distribution priorities, which may change upon the achievement of certain investment return thresholds.

To the extent that we contributed assets to an entity, our investment in the entity is recorded at cost basis in the assets that were contributed to the entity. Upon contributing assets to an entity, we make a judgment as to whether the economic substance of the transaction is a sale. If so, gain or loss is recognized on the portion of the asset to which the other partners in the entity obtain an interest.

To the extent that the carrying amount of these investments on our combined balance sheets is different than the basis reflected at the entity level, the basis difference would be amortized over the life of the related asset and included in our share of equity in net income of the entity.

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

On a periodic basis, we assess whether there are any indicators that the carrying value of our investments in entities may be impaired on an other than temporary basis. An investment is impaired only if management's estimate of the fair value of the investment is less than the carrying value of the investment on an other than temporary basis. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying value of the investment over the fair value of the investment. None of our investments in non-controlled entities are other than temporarily impaired.

We recognize incentive income in the form of overage fees from certain uncombined entities (which include non-controlled and other properties not included in the predecessor) as income to the extent it has been earned and not subject to a clawback feature.

If our share of distributions and net losses exceeds our investments for certain of the equity method investments and if we remain liable for future obligations of the entity or may otherwise be committed to provide future additional financial support, the investment balances would be presented in the accompanying combined balance sheets as liabilities. The effects of material intercompany transactions with these equity method investments are eliminated. None of the entity debt is recourse to us.

**Impairment of Long-Lived Assets**

Long-lived assets, such as commercial real estate properties and purchased intangible assets subject to amortization, are reviewed for impairment on a property by property basis whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. On a periodic basis, we assess whether there are any indicators that the value of our real estate properties may be impaired or that its carrying value may not be recoverable. If circumstances require that a long-lived asset be tested for possible impairment, we first compare undiscounted cash flows expected to be generated by an asset to the carrying value of the asset. If the carrying value of the long-lived asset is not recoverable on an undiscounted cash flow basis, impairment is recognized to the extent that the carrying value exceeds its fair value. We do not believe that the value of any of our properties and intangible assets were impaired during the years ended December 31, 2011, 2010 and 2009.

**Income Taxes**

We intend to elect and to qualify as a REIT for U.S. federal income tax purposes commencing with the taxable year ending December 31, 2013. So long as we qualify as a REIT, we generally will not be subject to U.S. federal income tax on our net income that we distribute currently to our stockholders. To maintain our qualification as a REIT, we are required under the Internal Revenue Code of 1986, as amended, or the Code to distribute at least 90% of our REIT taxable income (without regard to the deduction for dividends paid and excluding net capital gains) to our stockholders and meet certain other requirements. If we fail to qualify as a REIT in any taxable year, we will be subject to U.S. federal income tax on our taxable income at regular corporate rates. Even if we qualify for taxation as a REIT, we may also be subject to certain state, local and franchise taxes. Under certain circumstances, U.S. federal income and excise taxes may be due on our undistributed taxable income.

During the periods presented, the entities included in the combined financial statements are treated as partnerships or S corporations for U.S. federal and state income tax purposes and, accordingly, are not subject to entity-level tax. Rather, each entity's taxable income or loss is allocated to its owners. Therefore, no provision or liability for U.S. federal or state income taxes has been included in the accompanying combined financial statements.

---

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

Two of the limited liability companies in the combined group have non-real estate income that is subject to New York City unincorporated business tax ( NYCUBT ). In 2011, one of these entities generated a loss for NYCUBT purposes while the other entity generated income. In 2009 and 2010, both entities generated losses for NYCUBT purposes. It is estimated that it is more likely than not that those losses will not provide future benefit.

No provision or liability for U.S. federal, state, or local income taxes has been included in these combined financial statements as current year taxable income as referred to above is fully offset by a NYCUBT net operating loss carry forward from previous years.

We account for uncertain tax positions in accordance with ASC 740, Income Taxes. ASC No. 740-10-65 addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under ASC No. 740-10-65, we may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. ASC No. 740-10-65 also provides guidance on de-recognition, classification, interest and penalties on income taxes and accounting in interim periods and requires increased disclosures. As of December 31, 2011 and 2010, we do not have a liability for uncertain tax positions. Potential interest and penalties associated with such uncertain tax positions are recorded as a component of the income tax provision. As of December 31, 2011, the tax years ended December 31, 2008 through December 31, 2011 remain open for an audit by the Internal Revenue Service. We have not received a notice of audit from the Internal Revenue Service for any of the open tax years.

As of December 31, 2011, the NYCUBT net operating loss carryforward was \$15,290, expiring in the years 2022 to 2031. The carryforwards gave rise to a deferred tax asset of \$612 and \$872 at December 31, 2011 and 2010, respectively. The deferred tax asset was fully reserved by a valuation allowance at December 31, 2011. The valuation allowance decreased by \$261 in 2011 and increased by \$158 in 2010.

**Segment Reporting**

Management has determined that it operates in two reportable segments: a real estate segment and a construction contracting segment. Our real estate segment includes all activities related to the ownership, management, operation, acquisition, repositioning and disposition of our real estate assets, including properties which are accounted for by the equity method. Our construction segment includes all activities related to providing construction services to tenants and to other entities within and outside our company. These two lines of businesses are managed separately because each business requires different support infrastructures, provides different services and has dissimilar economic characteristics such as investments needed, stream of revenues and different marketing strategies. We account for intersegment sales and transfers as if the sales or transfers were to third parties, that is, at current market prices. Although our observatory operations are currently not presented as a segment in our predecessor's historical financial statements since our predecessor has a non-controlling interest in such observatory operations, we anticipate that the operations of our observatory will encompass a reportable segment upon completion of this offering and the formation transactions. We account for intersegment sales and transfers as if the sales or transfers were to third parties, that is, at current market prices.

**Cash and Cash Equivalents**

Cash and cash equivalents consist of cash on hand, demand deposits with financial institutions and short-term liquid investments with original maturities of three months or less when purchased. The majority of

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

our cash and cash equivalents are held at major commercial banks which may at times exceed the Federal Deposit Insurance Corporation limit. To date, we have not experienced any losses on our invested cash.

**Restricted Cash**

Restricted cash consists of amounts held by lenders and/or escrow agents to provide for future real estate tax expenditures and insurance expenditures, tenant vacancy related costs, debt service obligations and amounts held for tenants in accordance with lease agreements such as security deposits, as well as amounts held by our third-party property managers.

**Revenue Recognition**

*Rental Revenue*

Rental revenue includes base rents that each tenant pays in accordance with the terms of its respective lease and is reported on a straight-line basis over the non-cancellable term of the lease which includes the effects of rent steps and rent abatements under the leases. We commence rental revenue recognition when the tenant takes possession of the leased space or controls the physical use of the leased space and the leased space is substantially ready for its intended use. In addition, many of our leases contain fixed percentage increases over the base rent to cover escalations. We account for all of our leases as operating leases. Deferred rent receivables, including free rental periods and leasing arrangements allowing for increased base rent payments are accounted for in a manner that provides an even amount of fixed lease revenues over the respective non-cancelable lease terms. Differences between rental income recognized and amounts due under the respective lease agreements are recognized as an increase or decrease to deferred rents receivable.

The timing of rental revenue recognition is impacted by the ownership of tenant improvements and allowances. When we are the owner of the tenant improvements, revenue recognition commences after both the improvements are completed and the tenant takes possession or control of the space. In contrast, if we determine that the tenant allowances we are funding are lease incentives, then we commence revenue recognition when possession or control of the space is turned over to the tenant. Tenant improvement ownership is determined based on various factors including, but not limited to, whether the lease stipulates how and on what a tenant improvement allowance may be spent, whether the tenant or landlord retains legal title to the improvements at the end of the lease term, whether the tenant improvements are unique to the tenant or general-purpose in nature, and whether the tenant improvements are expected to have any residual value at the end of the lease.

In addition to base rent, our tenants also generally will pay their pro rata share of increases in real estate taxes and operating expenses for the building over a base year. In some leases, in lieu of paying additional rent based upon increases in building operating expenses, the tenant will pay additional rent based upon increases in the wage rate paid to porters over the porters' wage rate in effect during a base year or increases in the Consumer Price Index over the index value in effect during a base year.

We will recognize rental revenue of acquired in-place above- and below-market leases at their fair values over the terms of the respective leases, including, for below-market leases, fixed option renewal periods, if any.

Lease cancellation fees are recognized when the fees are determinable, tenant vacancy has occurred, collectability is reasonably assured, we have no continuing obligation to provide services to such former tenants and the payment is not subject to any conditions that must be met or waived. Total lease cancellation fees for the years ended December 31, 2011, 2010 and 2009 were \$684, \$11,869 and \$4,037, respectively. Such fees are included in other income and fees in our combined statements of income.

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

*Gains on Sale of Real Estate*

We record a gain on sale of real estate when title is conveyed to the buyer and we have no substantial economic involvement with the property. If the sales criteria for the full accrual method are not met, we defer some or all of the gain recognition and accounts for the continued operations of the property by applying the finance, leasing, profit sharing, deposit, installment or cost recovery methods, as appropriate, until the sales criteria are met.

Gains from sales of depreciated properties are included in discontinued operations and the net proceeds from the sale of these properties are classified in the investing activities section of the combined statements of cash flows. During the periods presented, we did not sell any properties.

*Third-Party Management, Leasing and Other Fees*

We earn revenue arising from contractual agreements with affiliated entities of the Sponsors that are not presented as controlled entities. This revenue is recognized as the related services are performed under the respective agreements in place.

*Construction Revenue*

Revenues from construction contracts are recognized under the percentage-of completion method. Under this method, progress towards completion is recognized according to the ratio of incurred costs to estimated total costs. This method is used because management considers the cost-to-cost method the most appropriate in the circumstances.

Contract costs include all direct material, direct labor and other direct costs and an allocation of certain overhead related to contract performance. General and administrative costs are charged to expense as incurred. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Changes in job performance, job conditions and estimated profitability, including those arising from settlements, may result in revisions to costs and income and are recognized in the period in which the revisions are determined.

**Allowance for Doubtful Accounts**

We maintain an allowance against tenant and other receivables and deferred rents receivables for future potential tenant credit losses. The credit assessment is based on the estimated accrued rental revenue that is recoverable over the term of the respective lease. We also maintain an allowance for doubtful accounts for estimated losses resulting from the inability of tenants to make required rent payments. The computation of this allowance is based on the tenants' payment history and current credit status, as well as certain industry or geographic specific credit considerations. If our estimate of collectability differs from the cash received, then the timing and amount of our reported revenue could be impacted. Bad debt expense is included in operating expenses on our combined statements of income and is an offset to allowance for doubtful accounts on our combined balance sheets, of \$1,226, \$2,410 and \$1,705 for the years ended December 31, 2011, 2010, and 2009, respectively.

**Discontinued Operations**

We reclassify material operations related to properties sold during the period or held for sale at the end of the period to discontinued operations for all periods presented. There were no discontinued operations in the periods presented.

---

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

**Deferred Lease Costs**

Deferred lease costs consist of fees and direct costs incurred to initiate and renew leases, are amortized on a straight-line basis over the related lease term and the expense is included in depreciation and amortization in our combined statements of income. Upon the early termination of a lease, unamortized deferred leasing costs are charged to expense.

**Deferred Financing Costs**

Fees and costs incurred to obtain long-term financing have been deferred and are being amortized as a component of interest expense in our combined statements of income over the life of the respective mortgage on the straight-line method which approximates the effective interest method. Unamortized deferred financing costs are expensed when the associated debt is refinanced or repaid before maturity. Costs incurred in seeking debt, which do not close, are expensed in the period in which it is determined that the financing will not close.

**Advertising and Marketing Costs**

Advertising and marketing costs are expensed as incurred. The expense for the years ended December 31, 2011, 2010 and 2009 was \$1,553, \$1,841 and \$2,071, respectively, and is included within operating expenses in our combined statements of income.

**Fair Value**

Fair value is a market-based measurement, not an entity-specific measurement, and is determined based on the assumptions that market participants use in pricing the asset or liability. Under GAAP, we are required to measure certain financial instruments at fair value on a recurring basis. In addition, we are required to measure other financial instruments and balances at fair value on a non-recurring basis (e.g., carrying value of impaired real estate and long-lived assets). We follow the FASB guidance that defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The guidance applies to reported balances that are required or permitted to be measured at fair value under existing accounting pronouncements; accordingly, the standard does not require any new fair value measurements of reported balances. Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date.

The guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

- Level 1:* inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that we have the ability to access at the measurement date.
- Level 2:* inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3:* inputs are unobservable inputs for the asset or liability, which are typically based upon an entity's own assumptions, as there is little if any, related market activity.

---

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety. Changes in assumptions or estimation methodologies can have a material effect on these estimated values. In this regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, may not be realized in an immediate settlement of the instrument.

As of December 31, 2011, 2010, and 2009, we did not have any assets or liabilities subject to Level 1, 2, or 3 fair value measurements.

**Offering Costs**

We have incurred external offering costs of approximately \$10,429 and \$3,083 for the years ended December 31, 2011 and 2010, respectively which are included in deferred costs, net in our combined balance sheets, of which approximately \$4,056 remains accrued and unpaid as of December 31, 2011. Such costs are comprised of accounting fees, legal fees and other professional fees. We have deferred such costs which will be recorded as a reduction of proceeds of the IPO, or expensed as incurred if the IPO is not consummated. Additional offering costs for work done by employees of our supervisor for the years ended December 31, 2011, 2010, and 2009 were incurred and advanced by our supervisor and have been reimbursed to the supervisor by the existing entities. These costs have been included as a component of marketing, general and administrative expenses. Additionally, the non-controlled entities have incurred external offering costs of approximately \$9,008 and \$1,756 for the years ended December 31, 2011 and 2010, respectively, that are not included in our predecessor's historical financial statements. Further, additional offering costs for work done by employees of the supervisor of \$1,210, \$172, and \$0 for the years ended December 31, 2011, 2010, and 2009, respectively, were incurred and advanced by our supervisor and have been reimbursed to our supervisor by the non-controlled entities.

**Recently Adopted Accounting Pronouncements**

In January 2010, the FASB issued ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. ASU No. 2010-06 amends ASC 820 and requires disclosure of details of significant asset or liability transfers in and out of Level 1 and Level 2 measurements within the fair value hierarchy and inclusion of gross purchases, sales, issuances, and settlements in the rollforward of assets and liabilities valued using Level 3 inputs within the fair value hierarchy. The guidance also clarifies and expands existing disclosure requirements related to the disaggregation of fair value disclosures and inputs used in arriving at fair values for assets and liabilities using Level 2 and Level 3 inputs within the fair value hierarchy. These disclosure requirements were effective for interim and annual reporting periods beginning after December 15, 2009. Adoption of this guidance on January 1, 2010, excluding the Level 3 rollforward, did not result in any additional disclosures in our combined financial statements. The gross presentation of the Level 3 rollforward is required for interim and annual reporting periods beginning after December 15, 2010. The adoption of the remainder of this guidance did not have a material impact on our combined financial statements. We did not have any financial instruments that would be materially impacted by this standard as of December 31, 2011.

In December 2010, the FASB issued ASU 2010-29, Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations. This ASU clarifies for which periods supplemental disclosure of pro forma revenue and net income is required when a business combination occurs in

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

the current period. The guidance clarifies that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. In our case, the guidance is in effect for the 2011 annual reporting period. The adoption of this guidance did not have a material impact on our combined financial statements.

In September 2011, the FASB issued a new Accounting Standards Update (ASU) to enhance the disclosure requirements about an employer's participation in a multiemployer pension plan. Employers that participate in a multiemployer pension plan will be required to provide a narrative description of the general nature of the plans and the employer's participation in the plans that would indicate how the risks of these plans are different from single-employer plans and a disclosure of the minimum contributions required by the agreement. For each multiemployer pension plan that is individually significant, employers are required to provide additional disclosures including disaggregation of information. The guidance is effective for annual periods for fiscal years ending after December 15, 2011. See note 9 for additional disclosures required by this guidance.

**New Accounting Pronouncements Not Yet Adopted**

In May 2011 the FASB issued ASU No. 2011-04, Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in US GAAP and International Financial Reporting Standards (IFRS) (ASU 2011-04). ASU 2011-04 represents the converged guidance of the FASB and the IASB (the Boards) on fair value measurements. The collective efforts of the Boards and their staffs, reflected in ASU 2011-04, have resulted in common requirements for measuring fair value and for disclosing information about fair value measurements, including a consistent meaning of the term fair value. The Boards have concluded the common requirements will result in greater comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and IFRS. The amendments in this ASU are required to be applied prospectively, and are effective for interim and annual periods beginning after December 15, 2011. We do not expect that the adoption of ASU 2011-04 will have a significant impact on our combined financial statements.

In June 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-05, Presentation of Comprehensive Income. The update provides an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. In addition, an entity is required to present on the face of the financial statements reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statement(s) where the components of net income and the components of the comprehensive income are presented. The amendments in this update are to be applied retrospectively and are effective for fiscal years beginning after December 15, 2011, except for the amendment to the presentation of reclassifications of items out of accumulated other comprehensive income which the FASB issued a deferral of the effective date on November 8, 2011. We are currently evaluating the impact of adopting this new accounting standards update on our combined financial statements.

**3. Deferred Costs, Net**

Deferred costs, net consisted of the following at December 31, 2011 and 2010:

|                                | 2011             | 2010             |
|--------------------------------|------------------|------------------|
| Leasing costs                  | \$ 69,995        | \$ 49,652        |
| Finance costs                  | 19,503           | 15,453           |
| Offering costs                 | 13,512           | 3,083            |
| Total                          | 103,010          | 68,188           |
| Less: Accumulated amortization | 30,964           | 25,979           |
|                                | <b>\$ 72,046</b> | <b>\$ 42,209</b> |

Amortization expense related to deferred leasing costs was \$6,357, \$7,071 and \$5,811 and deferred financing costs was \$3,247, \$1,983 and \$1,533, for the years ended December 31, 2011, 2010 and 2009, respectively. Non-cash additions to leasing costs were approximately \$6,899 for the year ended December 31, 2011.

***Correction of an Immaterial Error in the Financial Statements***

Our prior period financial results have been adjusted to reflect an immaterial correction which has no impact to the net change in cash reported on the statement of cash flows. During fiscal year 2012, we determined that certain costs related to the structuring of the formation transaction that were previously included in deferred offering costs should have been expensed in the periods incurred. The correction impacted the 2011 and 2010 periods and had accumulated to an amount of \$3,652 as of December 31, 2011. In addition, \$298 of such costs were deferred during the three month period ended March 31, 2012. Adhering to applicable guidance for accounting changes and error corrections, we concluded that the error was not material to any of our prior period financial statements. The correction resulted in immaterial changes to deferred costs and formation transaction expenses for the years ended December 31, 2011 and 2010. We applied the guidance for accounting changes and error corrections and revised our prior period financial statements presented.

The following tables present the effect this correction had on the combined financial statements as of and for the year ended December 31, 2010 and 2011. Additionally, financial information included in the notes to the financial statements that is impacted by the adjustment have been revised, as applicable.

|                          | As of December 31, 2011 |            |             |
|--------------------------|-------------------------|------------|-------------|
|                          | As reported             | Adjustment | As adjusted |
| Deferred costs, net      | \$ 75,698               | \$ (3,652) | \$ 72,046   |
| Owners' equity (deficit) | 4,946                   | (3,652)    | 1,294       |
|                          | As of December 31, 2010 |            |             |
|                          | As reported             | Adjustment | As adjusted |
| Deferred costs, net      | \$ 43,016               | \$ (807)   | \$ 42,209   |
| Owners' equity (deficit) | (10,758)                | (807)      | (11,565)    |

**4. Investments in Non-controlled Entities**

The investments in non-controlled entities consisted of the following at December 31, 2011 and 2010:

| <b>Entity</b>                         | <b>Property</b>               | <b>Nominal % Ownership</b> |
|---------------------------------------|-------------------------------|----------------------------|
| Empire State Building Company, L.L.C. | 350 Fifth Ave, New York, NY   | 23.750%                    |
| 1333 Broadway Associates, L.L.C.      | 1333 Broadway, New York, NY   | 50.000%                    |
| 1350 Broadway Associates, L.L.C.      | 1350 Broadway, New York, NY   | 50.000%                    |
| 501 Seventh Avenue Associates, L.L.C. | 501 Seventh Ave, New York, NY | 20.469%                    |

Empire State Building Company, L.L.C. is the operating lessee of the property at 350 Fifth Avenue. The land and fee owner, Empire State Building Associates L.L.C., is a predecessor controlled entity whose operations are included in our combined financial statements. For the Observatory operations, revenues consist of admission fees to visit the observatory. Revenues from the sale of Observatory tickets are recognized upon admission. Revenues from photography, gifts and other products and services are recognized at the time of sale.

1333 Broadway Associates, L.L.C. owns the fee and leasehold positions at the same address.

1350 Broadway Associates, L.L.C. is the operating lessee of the property at the same address.

501 Seventh Avenue Associates L.L.C. is the operating lessee of the property at the same address. The fee owner, Seventh Avenue Building Associates L.L.C., is a predecessor controlled entity whose operations are included in our combined financial statements.

Our share of income from these entities may exceed nominal ownership percentages based on the achievement of certain income thresholds as set forth in the relevant partnership agreements.

(amounts in thousands)

- (4) Represents the two tranches of the second lien mortgage loan.
- (5) Represents three tranches of the second lien mortgage loan.
- (6) Notes 1 and 2 are *pari passu*.
- (7) Floating at 30 day LIBOR + 2.5%. Loan is secured by the Empire State Building.
- (8) Floating at 30 day LIBOR + 2.0%.
- (9) Prior to January 10, 2012, interest is paid based on a floating rate that is the greater of (i) 6.50% and (ii) prime plus 1%. Effective January 10, 2012, interest is paid based on a floating rate that is greater of (i) 4.25% and (ii) prime plus 1%. Prior to January 5, 2015, we have the option to fix the interest rate on all or any portion of the principal then outstanding, up to three times and in minimum increments of \$5,000 to an annual rate equal to either (i) the greater of (a) 4.75% or (b) 300 basis points in excess of the weekly average yield on United States Treasury Securities adjusted to a maturity closest to January 5, 2015 as most recently made available by the Federal Reserve Board as of two days prior to the effective date of the fixing of the interest rate, and (ii) the greater of (a) 5.00% or (b) 300 basis points in excess of the weekly average yield on United States Treasury Securities adjusted to a maturity closest to January 5, 2015 as most recently made available by the Federal Reserve Board as of 30 days prior to the effective date of the fixing of the interest rate. If option (i) is selected, we will be subject to the payment of pre-payment fees, and if option (ii) is selected, we may prepay the loan without any pre-payment fees.

The carrying amount of the properties collateralizing the mortgage notes payable amounted to \$603,751 and \$561,943 at December 31, 2011 and 2010, respectively.

*Contractual Principal Payments*

Contractual aggregate required principal payments on mortgage notes payable at December 31, 2011 are as follows:

|                                   |                   |
|-----------------------------------|-------------------|
| 2012                              | \$ 11,936         |
| 2013                              | 69,719            |
| 2014                              | 300,442           |
| 2015                              | 81,874            |
| 2016                              | 97,917            |
| Thereafter                        | 359,474           |
| <b>Total principal maturities</b> | <b>\$ 921,362</b> |

The mortgage note payable balance of \$921,362 does not include the accrued interest of \$2,834, at December 31, 2011.

**Unsecured Loan and Notes Payable**

We hold an unsecured loan payable to Peter L. Malkin, one of the Sponsors, with a balance of \$14,743 and \$14,771 as of December 31, 2011 and 2010, respectively. The loan balances include accrued interest of \$55 and \$84, respectively. The loan is payable on demand with interest compounded monthly at the short term Applicable Federal Rate. On November 15, 2011, the loan was transferred to trusts for the benefit of Peter L. Malkin, and the loan was converted to a note. This note bears interest at a rate of 1.2% compounded annually and is due on January 14, 2020. This liability will be distributed to certain owners of the predecessor and will not be assumed by us.

On December 20, 2010, one of the combined entities (500 Mamaroneck, L.P.) entered into a promissory note agreement with the Sponsors ( 2010 Promissory Note ), whereby the latter would lend up to \$3,600 to the entity primarily for tenant improvements. As of December 31, 2010, \$1,200 was borrowed under the agreement. An additional \$1,200 was borrowed in January 2011 and \$800 was borrowed in March 2011. Loans made

**Table of Contents****Empire State Realty Trust, Inc., Predecessor****Notes to Combined Financial Statements (continued)**

(amounts in thousands)

pursuant to the 2010 Promissory Note were payable on demand and earned interest at the rate of 10% per annum, payable at the time of principal repayments. The \$3,200 borrowed under the 2010 Promissory Note, together with applicable interest, was repaid in full on April 21, 2011.

On April 21, 2011, 500 Mamaroneck, L.P. entered into a second promissory note agreement with the Sponsors, as agents for certain investors in 500 Mamaroneck, L.P. ( 2011 Promissory Note ), under which the investors loaned \$3,600 (including \$1,174 from the Sponsors) to 500 Mamaroneck, L.P. From the proceeds of this loan, \$3,200 was used to repay the principal of the 2010 Promissory Note. Loans made pursuant to the 2011 Promissory Note earn interest at the rate of 10% per annum, payable quarterly, beginning July 1, 2011. The loans will mature on the earliest of (i) January 1, 2015, (ii) sale or transfer of title to the property, or (iii) satisfaction of the existing first mortgage loan on the property. Loans made under the 2011 Promissory Note may be repaid without penalty at any time in part or in full, along with all accrued interest.

**6. Accounts Payable and Accrued Expenses**

Accounts payable and accrued expenses consist of the following as of December 31:

|  | 2011             | 2010             |
|--|------------------|------------------|
| Accounts payable and accrued liabilities     | \$ 20,180        | \$ 16,084        |
| Improvements payable                         | 3,932            | 2,983            |
| Other  | 1,195            | 691              |
| <b>Accounts payable and accrued expenses</b> | <b>\$ 25,307</b> | <b>\$ 19,758</b> |

**7. Fair Value of Financial Instruments**

Our estimates of the fair value of financial instruments at December 31, 2011 and 2010 were determined by management using available market information and appropriate valuation methods. Considerable judgment is necessary to interpret market data and develop estimated fair value. The use of different market assumptions or estimation methods may have a material effect on the estimated fair value amounts.

The following table presents the aggregate carrying value of our debt and the corresponding estimates of fair value as of December 31, 2011 and 2010:

|   | 2011               |                   | 2010               |                   |
|---|--------------------|-------------------|--------------------|-------------------|
|   | Carrying<br>Amount | Fair<br>Value     | Carrying<br>Amount | Fair<br>Value     |
| Mortgage notes payable                            | \$ 921,362         | \$ 947,395        | \$ 853,176         | \$ 877,005        |
| Unsecured loans and notes payable related parties | 18,343             | 18,343            | 15,887             | 15,887            |
| <b>Fair value of financial instruments</b>        | <b>\$ 939,705</b>  | <b>\$ 965,738</b> | <b>\$ 869,063</b>  | <b>\$ 892,892</b> |

The fair value of our mortgage notes payable is based on a discounted cash flow model using currently available market rates assuming the loans are outstanding through maturity and considering the loan to value ratios. The unsecured loans and notes payable are carried at amounts which reasonably approximate their fair value at inception.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Cash and cash equivalents, restricted cash, tenant and other receivables, accrued interest payable, due from affiliated companies, due to affiliate companies, deferred revenue, tenant security deposits and accounts payable approximate their fair values because of the short-term nature of these instruments.

**Table of Contents****Empire State Realty Trust, Inc., Predecessor****Notes to Combined Financial Statements (continued)**

(amounts in thousands)

**8. Rental Income**

We lease various office spaces to tenants over terms ranging from one to 19 years. Certain leases have renewal options for additional terms. The leases provide for base monthly rentals and reimbursements for real estate taxes, escalations linked to the consumer price index or common area maintenance known as operating expense escalation. Operating expense reimbursements are reflected in our combined statements of income as tenant expense reimbursement.

At December 31, 2011, we were entitled to the following future contractual minimum lease payments on non-cancellable operating leases to be received which expire on various dates through 2030.

|            |                     |
|------------|---------------------|
| 2012       | \$ 162,328          |
| 2013       | 144,112             |
| 2014       | 127,744             |
| 2015       | 112,276             |
| 2016       | 102,913             |
| Thereafter | 746,390             |
|            | <b>\$ 1,395,763</b> |

Future minimum rent as reflected above includes approximately \$13,002 in 2012, \$11,264 in 2013, \$7,868 in 2014, \$6,255 in each of the years 2015 and 2016 and \$359,811 thereafter from Empire State Building Company L.L.C. (lease term as extended expires on January 4, 2076) and 501 Seventh Avenue Associates L.L.C. (lease term as extended expires on March 31, 2050), who are lessees of two fee lessor positions included in the combined financial statements. The lessees are non-controlled entities and are included in the combined financial statements under the equity method. Upon acquisition by our company, the foregoing rental income will be eliminated in consolidation. For purposes of computing future minimum rent from Empire State Building Company, L.L.C. and 501 Seventh Avenue Associates L.L.C., it was assumed that mortgages maturing during this period will not be refinanced.

The above future minimum lease payments exclude tenant recoveries, amortization of deferred rent receivables and the net accretion of above-below-market lease intangibles. Some leases are subject to termination options generally upon payment of a termination fee. The preceding table is prepared assuming such options are not exercised.

**9. Commitments and Contingencies*****Legal Proceedings***

We are subject to various legal proceedings and claims that arise in the ordinary course of business. These matters are generally covered by insurance. Management believes that the ultimate settlement of these actions will not have a material adverse effect on our combined financial position, results of operations or liquidity.

***Litigation***

Except as described below, we are not presently involved in any material litigation, nor, to our knowledge is any material litigation threatened against us or our properties, other than routine litigation arising in the ordinary course of business such as disputes with tenants. We believe that the costs and related liabilities, if any, which may result from such actions, will not materially affect our combined financial position, operating results or liquidity.

---

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

Five putative class actions have been brought by investors in certain of the existing entities (which were filed on March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and March 19, 2012) (the "Class Actions"). As currently pending in New York State Supreme Court, New York County, each Class Action challenges the proposed consolidation and the IPO. The plaintiffs assert claims against the predecessor's management companies, Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, Empire State Realty OP, L.P., and Empire State Realty Trust, Inc. for breach of fiduciary duty, unjust enrichment and/or aiding and abetting breach of fiduciary duty, alleging, *inter alia*, that the terms of the transaction and the process in which it was structured (including the valuation which was employed) are unfair to the investors in the existing entities, provides excessive benefits to the supervisor and its affiliates and the prospectus/consent solicitation statement which is part of the registration statement on Form S-4 relating to the consolidation fails to make adequate disclosure. The complaints seek money damages and injunctive relief preventing the proposed transaction. On April 3, 2012, plaintiffs moved for consolidation of the actions and for appointment of co-lead counsel.

The Class Actions are in a very preliminary stage, with no responses to the complaints having been filed to date. The outcome of this litigation is uncertain, however, and as a result, we may incur costs associated with defending or settling such litigation or paying any judgment if we lose. In addition, we may be required to pay damage awards or settlements. At this time, we cannot reasonably assess the timing or outcome of this litigation, estimate the amount of loss, or assess its effect, if any, on our financial statements. We believe the Class Actions are baseless and intend to defend them vigorously.

There is a risk that other third parties will assert claims against us or our supervisor, including, without limitation, that our supervisor breached its fiduciary duties to investors in the existing entities or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against us.

***Unfunded Capital Expenditures***

At December 31, 2011, we estimate that we will incur \$82,562 of capital expenditures (including tenant improvements and leasing commissions) on our wholly-owned properties pursuant to existing lease agreements. We expect to fund these capital expenditures with operating cash flow, additional property level mortgage financings and cash on hand. Future property acquisitions may require substantial capital investments for refurbishment and leasing costs. We expect that these financing requirements will be met in a similar fashion.

***Concentration of Credit Risk***

Financial instruments that subject us to credit risk consist primarily of cash, restricted cash, due from affiliated companies, tenant and other receivables and deferred rent receivable.

Included in cash and cash equivalents and restricted cash at December 31, 2011 and 2010 were \$103,867 and \$83,712 of bank balances in excess of amounts insured by the Federal Deposit Insurance Corporation that were held on deposit at one major New York money center bank. In addition, \$67,184 and \$58,094 at December 31, 2011 and 2010, respectively, consisted of money market mutual funds sponsored by that institution. The underlying investments of those funds are divided between short-term United States Treasury securities and a diversified portfolio of other short-term obligations.

***Real Estate Investments***

Our properties are located in Manhattan, New York; Fairfield County, Connecticut; and Westchester County, New York. The latter locations are suburbs of the city of New York. The ability of the tenants to honor

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

the terms of their respective leases is dependent upon the economic, regulatory and social factors affecting the markets in which the tenants operate. We perform ongoing credit evaluations of our tenants for potential credit losses.

***Tenant Credit Evaluations***

Our investments in real estate properties are subject to risks incidental to the ownership and operation of commercial real estate. These risks include, among others, the risks normally associated with changes in general economic conditions, trends in the real estate industry, creditworthiness of tenants, competition of tenants and customers, changes in tax laws, interest rate levels, the availability and cost of financing, and potential liability under environmental and other laws.

Our management performs ongoing credit evaluations of tenants and may require tenants to provide some form of credit support such as corporate guarantees and/or other financial guarantees. Although the tenants operate in a variety of industries, to the extent we have a significant concentration of rental revenue from any single tenant, the inability of that tenant to make its lease payments could have an adverse effect on our company.

***Major Customers and Other Concentrations***

Excluding the revenues we recognized under operating leases with non-controlled entities, for the year ended December 31, 2011, three tenants were major tenants who made up more than 10% of the revenues in the aggregate. These tenants represent approximately 4.23%, 3.31%, 3.24% (total of 10.78%) of 2011 revenues. For the year ended December 31, 2010, three tenants were major tenants who made up more than 10% of the revenues in the aggregate. These tenants represent approximately 5.03%, 3.95% and 3.45% (total of 12.43%) of 2010 revenues. For the year ended December 31, 2009, three tenants were major tenants who made up more than 10% of the revenues in the aggregate. These tenants represent approximately 4.99%, 3.91%, and 2.27% (total of 11.17%) of 2009 revenues.

For the years ended December 31, 2011, four properties accounted for more than 10% of total revenues in the aggregate, and in for both the years ended December 31, 2010 and 2009, three properties accounted for more than 10% of total revenues in the aggregate. For 2011, One Grand Central Place represented approximately 23.55% of total revenues, Empire State Building Associates represented approximately 18.76%, First Stamford Place represented approximately 14.17%, and 250 West 57th Street represented approximately 10.14%. For 2010, One Grand Central Place represented approximately 26.53% of total revenues, First Stamford Place represented approximately 17.00%, and 250 West 57th Street represented approximately 10.01%. For 2009, One Grand Central Place represented approximately 24.48% of total revenues, First Stamford Place represented approximately 16.23%, and 250 West 57th Street represented approximately 12.55%.

***Unionized Work Force***

Each property's maintenance and cleaning staffs are employed under the terms of collective bargaining agreements and have union representation. As of December 31, 2011, all union contracts are current with the exception of Local 30 for building engineers, which have expired. Employees in Local 30 continue to work under the terms of the prior agreements on a temporary basis. It is anticipated that the final contracts will contain provisions for salary adjustments to be made retroactive to the expiration date of the prior contracts.

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

***Asset Retirement Obligations***

We are required to accrue costs that we are legally obligated to incur on retirement of our properties which result from acquisition, construction, development and/or normal operation of such properties. Retirement includes sale, abandonment or disposal of a property. Under that standard, a conditional asset retirement obligation represents a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement is conditional on a future event that may or may not be within a company's control and a liability for a conditional asset retirement obligation must be recorded if the fair value of the obligation can be reasonably estimated. Environmental site assessments and investigations have identified asbestos or asbestos-containing building materials in certain of our properties. As of December 31, 2011, management has no plans to remove or alter these properties in a manner that would trigger federal and other applicable regulations for asbestos removal, and accordingly, the obligations to remove the asbestos or asbestos-containing building materials from these properties have indeterminable settlement dates. As such, we are unable to reasonably estimate the fair value of the associated conditional asset retirement obligation. However ongoing asbestos abatement, maintenance programs and other required documentation are carried out as required and related costs are expensed as incurred.

***Other Environmental Matters***

Certain of our properties have been inspected for soil contamination due to pollutants, which may have occurred prior to our ownership of these properties or subsequently in connection with its development and/or its use. Required remediation to such properties has been completed and as of December 31, 2011, management believes that there are no obligations related to environmental remediation other than maintaining the affected sites in conformity with the relevant authority's mandates and filing the required documents. All such maintenance costs are expensed as incurred.

We expect that resolution of the environmental matters relating to the above will not have a material impact on our business, assets, combined financial condition, results of operations or liquidity. However, we cannot be certain that we have identified all environmental liabilities at our properties, that all necessary remediation actions have been or will be undertaken at our properties or that we will be indemnified, in full or at all, in the event that such environmental liabilities arise.

***Insurance Coverage***

We carry insurance coverage on our properties of types and in amounts with deductibles that we believe are in line with coverage customarily obtained by owners of similar properties.

***Multiemployer Pension and Defined Contribution Plans***

We contribute to a number of multiemployer defined benefit pension plans under the terms of collective-bargaining agreements that cover its union-represented employees. The risks of participating in these multiemployer plans are different from single-employer plans in the following aspects:

Assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers.

If a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

If we choose to stop participating in some of our multiemployer plans, we may be required to pay those plans an amount based on the underfunded status of the plan, referred to as a withdrawal liability.

F-84

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

We participate in various unions. The union which has significant employees and costs is as follows:

**32BJ**

The building employees are covered by multi-employer defined benefit pension plans and post-retirement health and welfare plans. We participate in the Building Service 32BJ, or Union, Pension Plan and Health Plan. The Pension Plan is a multi-employer, non-contributory defined benefit pension plan that was established under the terms of collective bargaining agreements between the Service Employees International Union, Local 32BJ, the Realty Advisory Board on Labor Relations, Inc. and certain other employees. This Pension Plan is administered by a joint board of trustees consisting of union trustees and employer trustees and operates under employer identification number 13-1879376. The Pension Plan year runs from July 1 to June 30. Employers contribute to the Pension Plan at a fixed rate on behalf of each covered employee. Separate actuarial information regarding such pension plans is not made available to the contributing employers by the union administrators or trustees, since the plans do not maintain separate records for each reporting unit. However, on September 28, 2010 and September 28, 2011, the actuary certified that for the plan years beginning July 1, 2010 and July 1, 2011, respectively, the Pension Plan was in critical status under the Pension Protection Act of 2006. The Pension Plan trustees adopted a rehabilitation plan consistent with this requirement. No surcharges have been paid to the Pension Plan as of December 31, 2011. For the years ended December 31, 2011, 2010 and 2009, the Pension Plan received contributions from employers totaling \$201,266, \$193,250 and \$177,669, respectively.

The Health Plan was established under the terms of collective bargaining agreements between the Union, the Realty Advisory Board on Labor Relations, Inc. and certain other employers. The Health Plan provides health and other benefits to eligible participants employed in the building service industry who are covered under collective bargaining agreements, or other written agreements, with the Union. The Health Plan is administered by a Board of Trustees with equal representation by the employers and the Union and operates under employer identification number 13-2928869. The Health Plan receives contributions in accordance with collective bargaining agreements or participation agreements. Generally, these agreements provide that the employers contribute to the Health Plan at a fixed rate on behalf of each covered employee. Pursuant to the contribution diversion provision in the collective bargaining agreements, the collective bargaining parties agreed, beginning January 1, 2009, to divert to the Pension Plan \$1,950 of employer contributions per quarter that would have been due to the Health Plan. Effective October 1, 2010, the diversion of contributions was discontinued. For the years ended December 31, 2011, 2010 and 2009, the Health Plan received contributions from employers totaling \$843,205, \$770,837 and \$705,504, respectively.

**Terms of Collective Bargaining Agreements**

The most recent collective bargaining agreement for Local 32BJ commenced from January 1, 2012 through December 31, 2015 (prior agreement was from January 1, 2008 through December 31, 2011).

**(amounts in thousands)**

**Contributions**

Contributions we made to the multi-employer plans for the years ended December 31, 2011, 2010 and 2009 are included in the table below:

| <b>Benefit Plan</b>                   | <b>2011</b>     | <b>2010</b>     | <b>2009</b>     |
|---------------------------------------|-----------------|-----------------|-----------------|
| Pension Plans (pension and annuity) * | \$ 750          | \$ 728          | \$ 624          |
| Health Plans **                       | 1,899           | 1,850           | 1,471           |
| Other ***                             | 165             | 72              | 84              |
| <b>Total plan contributions</b>       | <b>\$ 2,814</b> | <b>\$ 2,650</b> | <b>\$ 2,179</b> |

\* Pension plans include \$354, \$349 and \$260 for the years ended 2011, 2010 and 2009, respectively, from multiemployer plans not discussed above.

\*\* Health plans include \$474, \$456 and \$328 for the years ended 2011, 2010 and 2009, respectively, from multiemployer plans not discussed above.

\*\*\* Other includes \$32, \$31 and \$13 for the years ended 2011, 2010 and 2009, respectively, in connection with One Grand Central Place for union costs which were not itemized between pension and health plans.

**10. Related Party Transactions**

Services are provided by us to affiliates of the Sponsors that are not part of the predecessor. These affiliates are related parties because beneficial interests in the predecessor and the affiliated entities are held, directly or indirectly, by the Sponsors, their affiliates and their family members.

During 2011, 2010 and 2009, we engaged in various transactions with affiliates of the Sponsors and their family members. These transactions are reflected in our combined statements of income as third-party management and other fees and the unpaid balances are reflected in the due from affiliated companies on the combined balance sheet.

***Supervisory Fee Revenue***

We earned supervisory fees from affiliated entities not included in the combined financial statements of \$2,096, \$1,512 and \$1,743 during the years ended December 31, 2011, 2010 and 2009, respectively. These fees are included within Third-party management and other fees.

We earned supervisory fees from uncombined entities included in the combined financial statements on the equity method of \$1,231 in 2011 and \$413 in each of 2010 and 2009. These fees are included within Third-party management and other fees.

***Property Management Fee Revenue***

We earned property management fees from affiliated entities not included in the combined financial statements of \$944, \$1,055 and \$1,443 during the years ended December 31, 2011, 2010 and 2009, respectively. These fees are included within Third-party management and other fees.

We earned property management fees from uncombined entities included in these combined financial statements on the equity method of \$723, \$178 and \$376 during the years ended December 31, 2011, 2010 and 2009, respectively. These fees are included within Third-party management and other fees.

---

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

***Lease Commissions***

We earned leasing commissions from affiliated entities not included in the combined financial statements of \$2, \$2 and \$79 during the years ended December 31, 2011, 2010 and 2009, respectively.

***Profit Share***

We received additional payments equal to a specified percentage of distributions in excess of specified amounts, both being defined, from affiliated entities not included in the combined financial statements. Our profits interest totaled \$809, \$824 and \$953 during the years ended December 31, 2011, 2010 and 2009, respectively. These fees are included within Other income and fees.

We received additional payments equal to a specified percentage of distributions in excess of specified amounts, both being defined, from uncombined entities included in these combined financial statements on the equity method. Our profits interest totaled \$862, \$491 and \$595 during the years ended December 31, 2011, 2010 and 2009, respectively. These fees are included within Other income and fees.

***Other Fees and Disbursements from Non-Controlled Affiliates***

We earned other fees and disbursements from affiliated entities not included in the combined financial statements of \$946, \$561 and \$146 during the years ended December 31, 2011, 2010 and 2009, respectively. These fees are included within Other income and fees.

We earned other fees and disbursements from unconsolidated subsidiaries included in these combined financial statements on the equity method of \$1,234, \$201 and \$96 during the years ended December 31, 2011, 2010 and 2009, respectively. These fees are included within Other income and fees.

Included in these other fees are reimbursements from affiliates for offering costs related to the IPO of \$1,210, \$172 and \$0 during the years ended December 31, 2011, 2010 and 2009, respectively, of which \$936, \$0 and \$0 were included in Due from affiliated companies as of December 31, 2011, 2010 and 2009, respectively.

***Family Office Services***

Family office services mainly comprise accounting and bookkeeping services. During the years ended December 31, 2011 and 2010, we provided certain family office services to the Sponsors. The Sponsors reimbursed us for direct costs in the amount of \$759 and \$705, in 2011 and 2010, respectively. During the year ended December 31, 2009, we provided certain family office services to the Sponsors without charge. The identifiable direct costs of these services were \$721, which were not reimbursed.

***Aircraft Use***

Malkin Properties CT, one of the companies that comprise the predecessor, owned interests in three aircraft for use by the predecessor's management companies and the Sponsors. A significant portion of the aircraft use was for the personal use of Peter L. Malkin and Anthony E. Malkin. The costs of the aircraft, and attendant expenses, which were attributable to such personal use, were not deductible for income tax purposes. An amount, in accordance with a formula set forth in the Code, was added to the compensation of Peter L. Malkin and Anthony E. Malkin. Personal use expenses amounted to \$214, \$581 and \$672 for the years ended December 31, 2011, 2010 and 2009, respectively. These expenses are included within marketing, general and administrative expenses.

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Combined Financial Statements (continued)**

**(amounts in thousands)**

In May 2011, Malkin Properties CT sold all of its interests in two of the aircraft for \$238. All of the interests in the third aircraft were sold in May 2011 to Air Malkin LLC (a company owned by Peter L. Malkin) at their estimated fair value of \$383. There was no material income or loss to us in connection with these transactions.

***Receivable in Connection with Officer's Life Insurance***

Malkin Properties CT paid the premium on a split dollar life insurance policy with a face amount of \$11,000 carried on the life of Anthony E. Malkin, President of Malkin Properties CT. The owner and beneficiary of the policy was a trust whose beneficiaries are members of the family of Mr. Malkin. The trust reimburses Malkin Properties CT a portion of the annual premium of this policy, at a rate determined to be solely the cost of the insurance protection.

The trustee of the trust had assigned to Malkin Properties CT the right to receive an amount equal to the cumulative annual premiums it has paid on the policy since origination (i) from amounts payable to the trust on account of death of the insured or (ii) upon surrender of the policy by the trust. As of December 31, 2011 and 2010, the amounts due to Malkin Properties CT were \$1,331 and \$1,226, respectively. These amounts were included within Tenant and other receivables.

The insurance policy terminated on December 31, 2011 and was not renewed. Malkin Properties CT was reimbursed for the cumulative premiums paid on behalf of Anthony E. Malkin of \$1,331 upon surrender of the policy in January 2012. The cash surrender value of the insurance policy was used to repay all of the monies due to Malkin Properties CT.

***Other***

Included in Tenant and other receivables are amounts due from partners and shareholders of \$530 and \$125 at December 31, 2011 and 2010, respectively.

The predecessor has released receivables of \$8,962 owed from a non-controlled entity in exchange for building improvements and tenancing costs advanced on behalf of the predecessor by Empire State Building Company L.L.C. that have been capitalized in the predecessor's financial statements.

**11. Segment Reporting**

Our reportable segments consist of a real estate segment and a construction contracting segment. Management internally evaluates the operating performance and financial results of our segments based on net operating income. We also have certain general and administrative level activities, including legal and accounting, that are not considered separate operating segments. Our reportable segments are on the same basis of accounting as described in footnote 2.

**Table of Contents****Empire State Realty Trust, Inc., Predecessor****Notes to Combined Financial Statements (continued)**

(amounts in thousands)

The following table provides components of segment profit for each segment for the years ended December 31, 2011, 2010 and 2009, as reviewed by management:

|   | <b>Real Estate</b> | <b>Construction<br/>Contracting</b> | <b>Totals</b>     |
|---|--------------------|-------------------------------------|-------------------|
| <b>2011</b>                                     |                    |                                     |                   |
| Revenues from external customers                | \$ 247,191         | \$ 47,560                           | \$ 294,751        |
| Intersegment revenues                           | 73                 | 6,476                               | 6,549             |
| Total revenues                                  | 247,264            | 54,036                              | 301,300           |

(amounts in thousands)

**1. Reconciliation of Investment Properties**

The changes in our investment properties for the years ended December 31, 2011, 2010 and 2009 are as follows:

|                             | 2011              | 2010              | 2009              |
|-----------------------------|-------------------|-------------------|-------------------|
| Balance, beginning of year  | \$ 796,008        | \$ 768,733        | \$ 730,710        |
| Improvements                | 70,821            | 36,688            | 40,179            |
| Disposals                   | (10,678)          | (9,413)           | (2,156)           |
| <b>Balance, end of year</b> | <b>\$ 856,151</b> | <b>\$ 796,008</b> | <b>\$ 768,733</b> |

The unaudited aggregate cost of investment properties for federal income tax purposes as of December 31, 2011 was \$816,887.

**2. Reconciliation of Accumulated Depreciation**

The changes in our accumulated depreciation for the years ended December 31, 2011, 2010 and 2009 are as follows:

|                             | 2011              | 2010              | 2009              |
|-----------------------------|-------------------|-------------------|-------------------|
| Balance, beginning of year  | \$ 205,542        | \$ 185,829        | \$ 163,306        |
| Depreciation expense        | 29,155            | 26,969            | 23,516            |
| Disposals                   | (10,678)          | (7,256)           | (993)             |
| <b>Balance, end of year</b> | <b>\$ 224,019</b> | <b>\$ 205,542</b> | <b>\$ 185,829</b> |

Depreciation of investment properties reflected in the combined statements of income is calculated over the estimated original lives of the assets as follows:

|                       |                       |
|-----------------------|-----------------------|
| Buildings             | 39 years              |
| Building improvements | 39 years              |
| Tenant improvements   | Term of related lease |

**Notes to Condensed Combined Financial Statements**

**(amounts in thousands)**

**1. Organization and Description of Business**

*As used in these condensed combined financial statements, unless the context otherwise requires, we, us, and our company mean the predecessor (as defined below) for the periods presented and Empire State Realty Trust, Inc. and its combined subsidiaries upon consummation of its initial public offering, or IPO, and the formation transactions defined below.*

Empire State Realty Trust, Inc. (formerly known as Empire Realty Trust, Inc.) is a Maryland corporation formed on July 29, 2011 to acquire the assets or equity interests of entities owning various controlling and non-controlling interests in real estate assets and certain management businesses controlled and/or managed by Mr. Peter L. Malkin and Mr. Anthony E. Malkin, or the Sponsors.

Prior to or concurrently with the IPO, we will engage in a series of formation transactions pursuant to which we will acquire, through a series of contributions and merger transactions, these assets, interests and businesses which we refer to as our formation transactions. These acquisitions will be made upon completion of the IPO. The formation transactions are intended to enable us to (i) combine the ownership of our property portfolio under our operating partnership subsidiary, Empire State Realty OP, L.P. (formerly known as Empire Realty Trust, L.P.), a Delaware limited partnership, or our operating partnership; (ii) succeed to the asset management, property management, leasing and construction businesses of the predecessor; (iii) facilitate the IPO; and (iv) elect and qualify as a real estate investment trust, or REIT, for U.S. federal income tax purposes commencing with the taxable year ending December 31, 2013. We will not have any operating activity until the consummation of our IPO and the formation transactions. Accordingly, we believe that a discussion of the results of Empire State Realty Trust, Inc. would not be meaningful for the periods covered by these financial statements prior to that acquisition.

***The Predecessor***

The predecessor is not a legal entity but rather a combination of (i) controlling interests in (a) 16 office and retail properties, (b) one development parcel, and (c) certain management companies, which are owned by certain entities that the Sponsors own interests in and control, which we collectively refer to as the controlled entities, and (ii) non-controlling interests in four office properties (which include two of the 16 properties set forth in (i) above), held through entities which we collectively refer to as the non-controlled entities, and are presented as uncombined entities in our combined financial statements. Specifically, the term the predecessor means (i) Malkin Holdings LLC, a New York limited liability company that acts as the supervisor of, and performs various asset management services and routine administration with respect to, certain of the existing entities (as described below), which we refer to as the supervisor; (ii) the limited liability companies or limited partnerships that currently (a) own, directly or indirectly and either through a fee interest or a long-term leasehold in the underlying land, and/or (b) operate, directly or indirectly and through a fee interest, an operating lease, an operating sublease or an operating sub-sublease, the 18 office and retail properties (which include non-controlling interests in four office properties for which Malkin Holdings LLC acts as the supervisor but that are not consolidated into our predecessor for accounting purposes) and entitled land that will support the development of an approximately 340,000 rentable square foot office building and garage that we will own after the formation transactions, which we refer to as the existing entities; (iii) Malkin Properties, L.L.C., a New York limited liability company that serves as the manager and leasing agent for certain of the existing entities in Manhattan, which we refer to as Malkin Properties; (iv) Malkin Properties of New York, L.L.C., a New York limited liability company that serves as the manager and leasing agent for certain of the existing entities in Westchester County, New York, which we refer to as Malkin Properties NY; (v) Malkin Properties of Connecticut, Inc., a Connecticut corporation that serves as the manager and leasing agent for certain of the

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Condensed Combined Financial Statements (continued)**

**(amounts in thousands)**

existing entities in the State of Connecticut, which we refer to as Malkin Properties CT; and (vi) Malkin Construction Corp., a Connecticut corporation that is a general contractor and provides services to certain of the existing entities and third parties (including certain tenants at the properties in our portfolio), which we refer to as Malkin Construction. The term the predecessor's management companies refers to the supervisor, Malkin Properties, Malkin Properties NY, Malkin Properties CT and Malkin Construction, collectively. The predecessor accounts for its investment in the non-controlled entities under the equity method of accounting.

*Controlled Entities:*

As of June 30, 2012, properties that the Sponsors own interests in and control, and whose operations are 100% consolidated into the financial statements of the predecessor include:

*Office:*

One Grand Central Place, New York, New York

250 West 57th Street, New York, New York

1359 Broadway, New York, New York

First Stamford Place, Stamford, Connecticut

Metro Center, Stamford, Connecticut

383 Main Avenue, Norwalk, Connecticut

500 Mamaroneck Avenue, Harrison, New York

10 Bank Street, White Plains, New York

Fee ownership position of 350 Fifth Avenue (Empire State Building), New York, New York

Fee ownership position of 501 Seventh Avenue, New York, New York

*Retail:*

10 Union Square, New York, New York

1010 Third Avenue, New York, New York

77 West 55th Street, New York, New York

1542 Third Avenue, New York, New York

69-97 Main Street, Westport, Connecticut

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

103-107 Main Street, Westport, Connecticut

### *Land Parcels:*

We own entitled land at the Stamford Transportation Center in Stamford, Connecticut, adjacent to one of our office properties that will support the development of an approximately 340,000 rentable square foot office building and garage.

The acquisition of interests in our predecessor will be recorded at historical cost at the time of the formation transactions.

F-99

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Condensed Combined Financial Statements (continued)**

**(amounts in thousands)**

*Non-Controlled Entities:*

As of June 30, 2012, properties in which the Sponsors own and control non-controlling interests and whose operations are reflected in our predecessor's combined financial statements as an equity interest include:

*Office:*

Master operating lease position of 350 Fifth Avenue, New York, New York Empire State Building Company L.L.C.

Master operating lease position of 1350 Broadway, New York, New York 1350 Broadway Associates L.L.C. (long term ground lease)

1333 Broadway, New York, New York 1333 Broadway Associates L.L.C.

Master operating lease position of 501 Seventh Avenue, New York, New York 501 Seventh Avenue Associates L.L.C.

All of our business activities will be conducted through our operating partnership. We will be the sole general partner of our operating partnership. Pursuant to the formation transactions, our operating partnership will (i) acquire interests in the office and retail properties owned by the controlled entities (including our predecessor management companies) and the non-controlled entities and (ii) assume related debt and other specified liabilities of such assets and businesses, in exchange for shares of our Class A common stock, Class B common stock, operating partnership units, and/or cash.

We will be self-administered and self-managed. Additionally, we will form or acquire one or more taxable REIT subsidiaries, or TRSs, that will be owned by our operating partnership. The TRSs, through several wholly-owned limited liability companies, will conduct third-party services businesses, which may include the Empire State Building Observatory, parking facilities, cleaning services, property management and leasing, construction, mortgage brokerage, and property maintenance.

**2. Summary of Significant Accounting Policies**

**Basis of Quarterly Presentation and Principles of Combination**

The accompanying unaudited condensed combined financial statements of the predecessor are prepared in accordance with U.S. generally accepted accounting principles, or GAAP, for interim financial information, and with the rules and regulations of the U.S. Securities and Exchange Commission, or the SEC. Accordingly, certain information and footnote disclosures required by GAAP for complete financial statements have been condensed or omitted in accordance with such rules and regulations. In the opinion of the Predecessor's management, all adjustments and eliminations (including intercompany balances and transactions), consisting of normal recurring adjustments, considered necessary for the fair presentation of the financial statements have been included.

The condensed combined financial statements include all the accounts and operations of our predecessor. The real estate entities included in the accompanying condensed combined financial statements have been combined on the basis that, for the periods presented, such entities were under common control, common management and common ownership of the Sponsors. Equity interests in the combining entities that are not controlled by the Sponsors are shown as investments in uncombined entities. We will also acquire these interests.

The results of operations for the periods presented are not necessarily indicative of the results that may be expected for the corresponding full years. These financial statements should be read in conjunction with the financial statements and accompanying notes included in the financial statements for the year ended December 31, 2011.

---

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Condensed Combined Financial Statements (continued)**

**(amounts in thousands)**

In June 2009, the Financial Accounting Standards Board, or FASB, amended the guidance for determining whether an entity is a variable interest entity, or VIE, and requires the performance of a qualitative rather than a quantitative analysis to determine the primary beneficiary of a VIE. Under this guidance, an entity would be required to consolidate a VIE if it has (i) the power to direct the activities that most significantly impact the entity's economic performance and (ii) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE that could be significant to the VIE.

We will assess the accounting treatment for each investment we may have in the future. This assessment will include a review of each entity's organizational agreement to determine which party has what rights and whether those rights are protective or participating. For all VIEs, we will review such agreements in order to determine which party has the power to direct the activities that most significantly impact the entity's economic performance and benefit. In situations where we or our partner could approve, among other things, the annual budget, the entity's tax return before filing, and leases that cover more than a nominal amount of space relative to the total rentable space at each property, we would not consolidate the investment as we consider these to be substantive participation rights that result in shared power of the activities that would most significantly impact the performance and benefit of such joint venture investment. Such agreements could also contain certain protective rights such as the requirement of partner approval to sell, finance or refinance the investment and the payment of capital expenditures and operating expenditures outside of the approved budget or operating plan.

A non-controlling interest in a consolidated subsidiary is defined as the portion of the equity (net assets) in a subsidiary not attributable, directly or indirectly, to a parent. Non-controlling interests are required to be presented as a separate component of equity in the combined balance sheets and in the combined statements of income by requiring earnings and other comprehensive income to be attributed to controlling and non-controlling interests. As the financial statements of the predecessor have been prepared on a combined basis, there is no non-controlling interest for the periods presented.

**Accounting Estimates**

The preparation of the condensed combined financial statements in accordance with GAAP requires management to use estimates and assumptions that in certain circumstances affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Significant items subject to such estimates and assumptions include allocation of the purchase price of acquired real estate properties among tangible and intangible assets, determination of the useful life of real estate properties and other long-lived assets, valuation and impairment analysis of combined and uncombined commercial real estate properties and other long-lived assets, estimate of percentage of completion on construction contracts, and valuation of the allowance for doubtful accounts. These estimates are prepared using management's best judgment, after considering past, current, and expected events and economic conditions. Actual results could differ from those estimates.

**Income Taxes**

As of June 30, 2012 and December 31, 2011, the New York City unincorporated business tax (NYCUBT) net operating loss carry forward was \$15,093 and \$15,290, respectively, expiring in the years 2021 to 2032. Taxable income for the six months ended June 30, 2012 and June 30, 2011 was approximately \$197 and \$5,158, respectively. The net operating loss carry forwards net of the taxable income in 2012 gave rise to a deferred tax asset of \$604 and \$612 at June 30, 2012 and December 31, 2011, respectively. The deferred tax asset was fully reserved by a valuation allowance at June 30, 2012 and December 31, 2011. The valuation allowance decreased by \$8 and \$206 during the six months ended June 30, 2012 and 2011, respectively.

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Condensed Combined Financial Statements (continued)**

**(amounts in thousands)**

**Fair Value**

Fair value is a market-based measurement, not an entity-specific measurement, and should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, FASB guidance establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within levels one and two of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within level three of the hierarchy).

We use the following methods and assumptions in estimating fair value disclosures for financial instruments.

Cash and cash equivalents, restricted cash, tenant and other receivables, accrued interest payable, due from affiliated companies, due to affiliate companies, deferred revenue, tenant security deposits and accounts payable approximate their fair values because of the short-term nature of these instruments.

The fair value of our mortgage notes payable is based on a discounted cash flow model using currently available market rates assuming the loans are outstanding through maturity and considering the loan to value ratios. The unsecured loans and notes payable are carried at amounts which reasonably approximate their fair value at inception.

The methodologies used for valuing financial instruments have been categorized into three broad levels as follows:

Level 1 Quoted prices in active markets for identical instruments.

Level 2 Valuations based principally on other observable market parameters, including:

Quoted prices in active markets for similar instruments;

Quoted prices in less active or inactive markets for identical or similar instruments;

Other observable inputs (such as risk free interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates); and

Market corroborated inputs (derived principally from or corroborated by observable market data).

Level 3 Valuations based significantly on unobservable inputs.

Valuations based on third-party indications (broker quotes or counterparty quotes) which were, in turn, based significantly on unobservable inputs or were otherwise not supportable as Level 2 valuations.

Valuations based on internal models with significant unobservable inputs.

These levels form a hierarchy. We follow this hierarchy for our financial instruments measured at fair value on a recurring and nonrecurring basis and other required fair value disclosures. The classifications are based on the lowest level of input that is significant to the fair value measurement.

As of June 30, 2012, we did not have any assets or liabilities subject to Level 1, 2, or 3 fair value measurements.

---

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Condensed Combined Financial Statements (continued)**

**(amounts in thousands)**

**Offering Costs and Formation Transaction Expenses**

In connection with the IPO, we have incurred or will incur incremental accounting fees, legal fees and other professional fees. Such costs will be deferred and recorded as a reduction of proceeds of the IPO, or expensed as incurred if the IPO is not consummated. Certain costs associated with the IPO not directly attributable to the solicitation of consents of investors in the existing entities and the IPO, but rather related to structuring the formation transaction, are expensed as incurred.

**Recently Adopted Accounting Pronouncements**

In December 2010, the FASB issued ASU 2010-29, *Business Combinations (Topic 805): Disclosure of Supplementary Pro Forma Information for Business Combinations*. This ASU clarifies for which periods supplemental disclosure of pro forma revenue and net income is required when a business combination occurs in the current period. The guidance clarifies that if a public entity presents comparative financial statements, the entity should disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. In our case, the guidance is in effect for the 2011 annual reporting period. The adoption of this guidance did not have a material impact on our condensed combined financial statements.

In May 2011 the FASB issued ASU No. 2011-04, *Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in US GAAP and International Financial Reporting Standards (IFRS)* (ASU 2011-04). ASU 2011-04 represents the converged guidance of the FASB and the IASB (the Boards) on fair value measurements. The collective efforts of the Boards and their staffs, reflected in ASU 2011-04, have resulted in common requirements for measuring fair value and for disclosing information about fair value measurements, including a consistent meaning of the term fair value. The Boards have concluded the common requirements will result in greater comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with GAAP and IFRS. The amendments in this ASU are required to be applied prospectively, and are effective for interim and annual periods beginning after December 15, 2011. The adoption of this guidance did not have a material impact on our condensed combined financial statements.

In June 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-05, *Presentation of Comprehensive Income*. The update provides an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. In addition, an entity is required to present on the face of the financial statements reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statement(s) where the components of net income and the components of the comprehensive income are presented. The amendments in this update are to be applied retrospectively and are effective for fiscal years and interim periods, beginning after December 15, 2011, except for the amendment to the presentation of reclassifications of items out of accumulated other comprehensive income which the FASB issued a deferral of the effective date on November 8, 2011. The adoption of this guidance did not have a material impact on our condensed combined financial statements.

In September 2011, the FASB issued a new Accounting Standards Update (ASU) to enhance the disclosure requirements about an employer's participation in a multiemployer pension plan. Employers that participate in a

(amounts in thousands)

multiemployer pension plan will be required to provide a narrative description of the general nature of the plans and the employer's participation in the plans that would indicate how the risks of these plans are different from single-employer plans and a disclosure of the minimum contributions required by the agreement. For each multiemployer pension plan that is individually significant, employers are required to provide additional disclosures including disaggregation of information. In our case, the guidance is in effect for the 2011 annual reporting period. During the year ended December 31, 2011, we adopted this guidance.

**3. Deferred Costs, Net**

Deferred costs, net consisted of the following at June 30, 2012 and December 31, 2011:

|                                | June 30,<br>2012 | December 31,<br>2011 |
|--------------------------------|------------------|----------------------|
| Leasing costs                  | \$ 72,606        | \$ 69,995            |
| Finance costs                  | 20,443           | 19,503               |
| Offering costs                 | 20,294           | 13,512               |
| Total                          | 113,343          | 103,010              |
| Less: Accumulated amortization | 32,136           | 30,964               |
|                                | \$ 81,207        | \$ 72,046            |

Amortization expense related to deferred leasing costs was \$3,799 and \$2,915 and deferred financing costs was \$2,043 and \$981, for the six months ended June 30, 2012 and 2011, respectively. Non-cash additions to leasing costs were approximately \$1,726 for the six months ended June 30, 2012.

***Correction of an Immaterial Error in the Financial Statements***

Our prior period financial results have been adjusted to reflect an immaterial correction which has no impact to the net change in cash reported on the statement of cash flows. During fiscal year 2012, we determined that certain costs related to the structuring of the formation transaction that were previously included in deferred offering costs should have been expensed in the periods incurred. The correction impacted the 2011 and 2010 periods and had accumulated to an amount of \$3,652 as of December 31, 2011. In addition, \$298 of such costs were deferred during the three month period ended March 31, 2012. Adhering to applicable guidance for accounting changes and error corrections, we concluded that the error was not material to any of our prior period financial statements. The correction resulted in immaterial changes to deferred costs and formation transaction expenses for the years ended December 31, 2011 and 2010. We applied the guidance for accounting changes and error corrections and revised our prior period financial statements presented.

The following tables present the effect this correction had on the combined financial statements as of December 31, 2011 and for the six months ended June 30, 2011. Additionally, financial information included in the notes to the financial statements that is impacted by the adjustment have been revised, as applicable.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

- (1) The effective rate is the yield as of the issuance date, including the effects of debt issuance costs. There are no discounts or premiums on the notes.
- (2) Pre-payment is generally allowed for each loan with no pre-payment penalty or upon payment of a customary pre-payment penalty.
- (3) Represents the two tranches of the second lien mortgage loan.
- (4) Represents three tranches of the second lien mortgage loan.
- (5) Notes 1 and 2 are *pari passu*.

F-107

**Table of Contents****Empire State Realty Trust, Inc., Predecessor****Notes to Condensed Combined Financial Statements (continued)**

(amounts in thousands)

- (6) Floating at 30 day LIBOR + 2.5%. Loan is collateralized by the Empire State Building. On July 9, 2012, an additional \$30,000 was drawn on this loan.
- (7) Floating at 30 day LIBOR + 2.0%.
- (8) Prior to January 10, 2012, interest is paid based on a floating rate that is the greater of (i) 6.50% and (ii) prime plus 1%. Effective January 10, 2012, interest is paid based on a floating rate that is greater of (i) 4.25% and (ii) prime plus 1%. Prior to January 5, 2015, we have the option to fix the interest rate on all or any portion of the principal then outstanding, up to three times and in minimum increments of \$5,000 to an annual rate equal to either (i) the greater of (a) 4.75% or (b) 300 basis points in excess of the weekly average yield on United States Treasury Securities adjusted to a maturity closest to January 5, 2015 as most recently made available by the Federal Reserve Board as of two days prior to the effective date of the fixing of the interest rate, and (ii) the greater of (a) 5.00% or (b) 300 basis points in excess of the weekly average yield on United States Treasury Securities adjusted to a maturity closest to January 5, 2015 as most recently made available by the Federal Reserve Board as of 30 days prior to the effective date of the fixing of the interest rate. If option (i) is selected, we will be subject to the payment of pre-payment fees, and if option (ii) is selected, we may prepay the loan without any pre-payment fees.

The carrying amount of the properties collateralizing the mortgage notes payable amounted to \$635,843 and \$603,751 at June 30, 2012 and December 31, 2011, respectively.

*Contractual Principal Payments*

Contractual aggregate required principal payments on mortgage notes payable at June 30, 2012 are as follows:

|   |                   |
|---|-------------------|
| 2012 (July 1, 2012 – December 31, 2012) | \$ 6,770          |
| 2013                                    | 69,718            |
| 2014                                    | 330,454           |
| 2015                                    | 81,887            |
| 2016                                    | 97,716            |
| Thereafter                              | 359,423           |
| <b>Total principal maturities</b>       | <b>\$ 945,968</b> |

The mortgage note payable balance of \$945,968 does not include the accrued interest of \$2,780, at June 30, 2012.

**Unsecured Loan and Notes Payable**

As of June 30, 2012, we hold unsecured notes payable totaling \$14,881 to trusts which benefit parties related to the Sponsor. The aggregate notes payable includes accrued interest of \$52. The notes bear interest at a rate of 1.2% compounded annually and are due on November 14, 2020. This liability will be distributed to certain owners of the predecessor and will not be assumed by us. Prior to November 15, 2011, the related liability consisted of a single demand note payable to one of the Sponsors. That previous loan was payable on demand and earned interest at the short term Applicable Federal Rate. On November 15, 2011, the note was transferred to the present owners and re-stated at the present terms.

On December 20, 2010, one of the combined entities (500 Mamaroneck, L.P.) entered into a promissory note agreement with the Sponsors ( 2010 Promissory Note ), whereby the latter would lend up to \$3,600 to the entity primarily for tenant improvements. As of December 31, 2010, \$1,200 was borrowed under the agreement. An additional \$1,200 was borrowed in January 2011 and \$800 was borrowed in March 2011. Loans made pursuant to the 2010 Promissory Note were payable on demand and earned interest at the rate of 10% per annum, payable at the time of principal repayments. The \$3,200 borrowed under the 2010 Promissory Note, together with applicable interest, was repaid in full on April 21, 2011.

**Table of Contents****Empire State Realty Trust, Inc., Predecessor****Notes to Condensed Combined Financial Statements (continued)****(amounts in thousands)**

On April 21, 2011, 500 Mamaroneck, L.P. entered into a second promissory note agreement with the Sponsors, as agents for certain investors in 500 Mamaroneck, L.P. ( 2011 Promissory Note ), under which the investors loaned \$3,600 (including \$1,174 from the Sponsors) to 500 Mamaroneck, L.P. From the proceeds of this loan, \$3,200 was used to repay the principal of the 2010 Promissory Note. Loans made pursuant to the 2011 Promissory Note earn interest at the rate of 10% per annum, payable quarterly, beginning July 1, 2011. The loans will mature on the earliest of (i) January 1, 2015, (ii) sale or transfer of title to the property, or (iii) satisfaction of the existing first mortgage loan on the property. Loans made under the 2011 Promissory Note may be repaid without penalty at any time in part or in full, along with all accrued interest.

**6. Accounts Payable and Accrued Expenses**

Accounts payable and accrued expenses consist of the following as of June 30, 2012:

|  | <b>June 30,<br/>2012</b> | <b>December 31,<br/>2011</b> |
|--|--------------------------|------------------------------|
| Accounts payable and accrued liabilities | \$ 17,978                | \$ 20,180                    |
| Improvements payable                     | 446                      | 3,932                        |
| Other                                    | 1,060                    | 1,195                        |
| Accounts payable and accrued expenses    | \$ 19,484                | \$ 25,307                    |

**7. Fair Value of Financial Instruments**

The following disclosures of estimated fair value at June 30, 2012 were determined by management, using available market information and appropriate valuation methodologies. Considerable judgment is necessary to interpret market data and develop estimated fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts we could realize on disposition of the financial instruments. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

The following table presents the aggregate carrying value of our debt and the corresponding estimates of fair value based on discounted cash flow models, based on Level 3 inputs including current interest rates at which similar borrowings could be made by us as of June 30, 2012:

|   | <b>Carrying<br/>Amount</b> | <b>Fair<br/>Value</b> |
|---|----------------------------|-----------------------|
| Mortgage notes payable                            | \$ 945,968                 | \$ 972,886            |
| Unsecured loans and notes payable related parties | 18,481                     | 12,601                |
| Total   | \$ 964,449                 | \$ 985,487            |

Disclosure about fair value of financial instruments is based on pertinent information available to us as of June 30, 2012. Although we are not aware of any factors that would significantly affect the reasonable fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date and current estimates of fair value may differ significantly from the amounts presented herein.

**Notes to Condensed Combined Financial Statements (continued)**

**(amounts in thousands)**

**8. Rental Income**

We lease various office spaces to tenants over terms ranging from one to 19 years. Certain leases have renewal options for additional terms. The leases provide for base monthly rentals and reimbursements for real estate taxes, escalations linked to the consumer price index or common area maintenance known as operating expense escalation. Operating expense reimbursements are reflected in our combined statements of income as tenant expense reimbursement.

**9. Commitments and Contingencies**

***Legal Proceedings***

We are subject to various legal proceedings and claims that arise in the ordinary course of business. These matters are generally covered by insurance. Management believes that the ultimate settlement of these actions will not have a material adverse effect on our combined financial position, results of operations or liquidity.

***Litigation***

Except as described below, we are not presently involved in any material litigation, nor, to our knowledge is any material litigation threatened against us or our properties, other than routine litigation arising in the ordinary course of business such as disputes with tenants. We believe that the costs and related liabilities, if any, which may result from such actions, will not materially affect our combined financial position, operating results or liquidity.

In March 2012, five putative class actions (the "Class Actions") were filed in New York State Supreme Court, New York County by investors in certain of the existing entities (on March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and March 19, 2012). The plaintiffs assert claims against the predecessor's management companies, Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, Empire State Realty OP, L.P., and Empire State Realty Trust, Inc. for breach of fiduciary duty, unjust enrichment and/or aiding and abetting breach of fiduciary duty. They allege, among other things, that the terms of the transaction and the process by which it was structured (including the valuation that was employed) are unfair to the investors in the existing entities, provides excessive benefits to the supervisor and its affiliates and the then-draft prospectus/consent solicitation statement which is part of the registration statement on Form S-4 filed with the SEC relating to the consolidation failed to make adequate disclosure to permit a fully-informed decision about the proposed transaction. The complaints seek money damages and injunctive relief preventing the proposed transaction. The actions were consolidated and co-lead plaintiffs' counsel were appointed by the New York State Supreme Court by order dated June 26, 2012.

The parties entered into a Stipulation of Settlement dated September 28, 2012, resolving the Class Actions. The Stipulation of Settlement recites that the consolidation was approved by overwhelming consent of investors in the private entities. The Stipulation of Settlement states that counsel for the plaintiff class satisfied themselves that they have received adequate access to relevant information, including the independent valuer's valuation process and methodology, that the disclosures in the registration statement on Form S-4, as amended, are appropriate, that the transaction presents potential benefits, including the opportunity for liquidity and capital appreciation, that merit the investors' serious consideration and that each of the named class representatives intends to support the transaction as modified. The Stipulation of Settlement further states that counsel for the plaintiff class are satisfied that the claims regarding tax implications, enhanced disclosures, appraisals and exchange values of the properties that would be consolidated into our company, and the interests of investors in

---

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Condensed Combined Financial Statements (continued)**

**(amounts in thousands)**

the public entities and the private entities have been addressed adequately, and they have concluded that the settlement pursuant to the Stipulation of Settlement and opportunity to consider the proposed transaction on the basis of revised consent solicitations are fair, reasonable, adequate and in the best interests of the plaintiff class.

Defendants in the Stipulation of Settlement denied that they committed any violation of law or breached any of their duties and did not admit that they had any liability to the plaintiffs.

The terms of the settlement include, among other things (i) a payment of \$55 million, with a minimum of 80% in cash and maximum of 20% in freely-tradable shares of common stock and/or freely-tradable operating partnership units (all of which will be paid by affiliates of the supervisor (provided that no affiliate of the supervisor that would become our direct or indirect subsidiary in the consolidation will have any liability for such payment) and the Estate of Leona M. Helmsley and certain investors in the private entities who agree to contribute) to be distributed, after reimbursement of plaintiffs' counsel's court-approved expenses and payment of plaintiffs' counsel's court-approved attorneys' fees, and, in the case of the shares of common stock and/or operating partnership units, after the termination of specified lock-up periods, to investors in the public entities and the private entities pursuant to a plan of allocation to be prepared by counsel for plaintiffs; (ii) defendants' agreement that (a) the IPO will be on the basis of a firm commitment underwriting; (b) if, during the solicitation period of the public entities, any of the three public entities percentage of total exchange value is lower than what is stated in the final prospectus/consent solicitation by 10% or more, such decrease will be promptly disclosed by defendants to investors in the public entities; and (c) unless total gross proceeds of \$600,000,000 are raised in the IPO, defendants will not proceed with the transaction without further approval of the public entities, and (iii) defendants' agreement to make additional disclosures in the prospectus/consent solicitation which is part of the registration statement on Form S-4 regarding certain matters (which are included therein). Investors in the public entities and private entities will not be required to bear any portion of the settlement payment. The payment in settlement of the Class Actions will be made by the Estate of Leona M. Helmsley and affiliates of the supervisor (provided that no affiliate of the supervisor that would become our direct or indirect subsidiary in the consolidation will have any liability for such payment) and certain investors in the private entities who agree to participate. We will not bear any of the settlement payment.

The settlement further provides for the certification of a class of investors in the three public entities and all of the private entities, other than defendants and other related persons and entities, and a release of any claims of the members of the class against defendants and related persons and entities, as well as underwriters in the IPO and other advisors. The release in the settlement excludes certain claims, including but not limited to, claims arising from or related to any supplement to the registration statement on Form S-4 that is declared effective to which the plaintiffs' counsel objects in writing, which objection will not be unreasonably made or delayed, so long as plaintiffs' counsel has had adequate opportunity to review such supplement. Members of the putative class have the right to opt out of the monetary portion of the settlement, but not the portion providing for equitable relief. The settlement is subject to court approval. It is not effective until such court approval is final, including the resolution of any appeal. Defendants continue to deny any wrongdoing or liability in connection with the allegations in the Class Actions.

There is a risk that other third parties will assert claims against us or our supervisor, including, without limitation, that our supervisor breached its fiduciary duties to investors in the existing entities or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against us or our supervisor.

***Concentration of Credit Risk***

Financial instruments that subject us to credit risk consist primarily of cash, restricted cash, due from affiliated companies, tenant and other receivables and deferred rent receivables.

---

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Condensed Combined Financial Statements (continued)**

**(amounts in thousands)**

Included in cash and cash equivalents and restricted cash at June 30, 2012 were \$81,716 of bank balances in excess of amounts insured by the Federal Deposit Insurance Corporation that were held on deposit at various major New York money center banks. Included in this amount is \$46,221 of money market mutual funds sponsored by those institutions. The underlying investments of those funds are divided between short-term United States Treasury securities and a diversified portfolio of other short-term obligations.

***Major Customers and Other Concentrations***

Excluding the revenues we recognized under operating leases with non-controlled entities, for the six months ended June 30, 2012, three tenants were major tenants who made up more than 10% of the revenues in the aggregate. These tenants represent approximately 4.87%, 3.22%, 3.65% (total of 11.74%) of revenues. For the six months ended June 30, 2011, three tenants were major tenants who made up more than 10% of the revenues in the aggregate. These tenants represent approximately 4.91%, 3.87% and 3.85% (total of 12.63%) of revenues.

For the six months ended June 30, 2012 and 2011, three properties accounted for more than 10% of total revenues in the aggregate. For 2012, One Grand Central Place represented approximately 27.10% of total revenues, First Stamford Place represented approximately 15.79%, and 250 West 57<sup>th</sup> Street represented approximately 11.72%. For 2011, One Grand Central Place represented approximately 26.76% of total revenues, First Stamford Place represented approximately 17.54%, and 250 West 57<sup>th</sup> Street represented approximately 12.07%.

***Unionized Work Force***

Each property's maintenance and cleaning staffs are employed under the terms of collective bargaining agreements and have union representation. The contract with Local 30 at the Empire State Building expired on December 31, 2010. Employees continue to work under the terms of the prior agreement on a temporary basis and it is anticipated that the final contract will contain a provision for salary adjustments to be made retroactive to the expiration date of the prior contract. The contracts with Local 30 and Local 32BJ at the Connecticut and Westchester office buildings expired on June 30, 2011 and December 31, 2011, respectively. New contracts were signed with these unions after June 30, 2012 with benefits effective retroactive to the original termination dates. A craft agreement covering building trade employees (carpenters, electricians, painters and locksmiths) at the Empire State Building and One Grand Central Place expired on December 31, 2011, and is being negotiated by the Realty Advisory Board. As of June 30, 2012, all other union contracts are current.

***Asset Retirement Obligations***

We are required to accrue costs that we are legally obligated to incur on retirement of our properties which result from acquisition, construction, development and/or normal operation of such properties. Retirement includes sale, abandonment or disposal of a property. Under that standard, a conditional asset retirement obligation represents a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement is conditional on a future event that may or may not be within a company's control and a liability for a conditional asset retirement obligation must be recorded if the fair value of the obligation can be reasonably estimated. Environmental site assessments and investigations have identified asbestos or asbestos-containing building materials in certain of our properties. As of June 30, 2012, management has no plans to remove or alter these properties in a manner that would trigger federal and other applicable regulations for asbestos removal, and accordingly, the obligations to remove the asbestos or asbestos-containing building materials from these properties have indeterminable settlement dates. As such, we are unable to reasonably estimate the fair value of the associated conditional asset retirement obligation. However ongoing asbestos abatement, maintenance programs and other required documentation are carried out as required and related costs are expensed as incurred.

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Condensed Combined Financial Statements (continued)**

**(amounts in thousands)**

***Other Environmental Matters***

Certain of our properties have been inspected for soil contamination due to pollutants, which may have occurred prior to our ownership of these properties or subsequently in connection with its development and/or its use. Required remediation to such properties has been completed and as of June 30, 2012, management believes that there are no obligations related to environmental remediation other than maintaining the affected sites in conformity with the relevant authority's mandates and filing the required documents. All such maintenance costs are expensed as incurred.

We expect that resolution of the environmental matters relating to the above will not have a material impact on our business, assets, combined financial condition, results of operations or liquidity. However, we cannot be certain that we have identified all environmental liabilities at our properties, that all necessary remediation actions have been or will be undertaken at our properties or that we will be indemnified, in full or at all, in the event that such environmental liabilities arise.

***Insurance Coverage***

We carry insurance coverage on our properties of types and in amounts with deductibles that we believe are in line with coverage customarily obtained by owners of similar properties.

**10. Related Party Transactions**

Services are provided by us to affiliates of the Sponsors that are not part of the predecessor. These affiliates are related parties because beneficial interests in the predecessor and the affiliated entities are held, directly or indirectly, by the Sponsors, their affiliates and their family members.

During the six months ended June 30, 2012 and 2011, we engaged in various transactions with affiliates of the Sponsors and their family members. These transactions are reflected in our combined statements of income as third-party management and other fees and the unpaid balances are reflected in the due from affiliated companies on the combined balance sheets.

***Supervisory Fee Revenue***

We earned supervisory fees from affiliated entities not included in the condensed combined financial statements of \$1,065 and \$994 during the six months ended June 30, 2012 and 2011, respectively. These fees are included within third-party management and other fees.

We earned supervisory fees from uncombined entities included in the condensed combined financial statements on the equity method of \$413 and \$784 during the six months ended June 30, 2012 and 2011, respectively. These fees are included within third-party management and other fees.

***Property Management Fee Revenue***

We earned property management fees from affiliated entities not included in the condensed combined financial statements of \$587 and \$322 during the six months ended June 30, 2012 and 2011, respectively. These fees are included within third-party management and other fees.

We earned property management fees from uncombined entities included in these condensed combined financial statements on the equity method of \$1,077 and \$557 during the six months ended June 30, 2012 and 2011, respectively. These fees are included within third-party management and other fees.

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Condensed Combined Financial Statements (continued)**

**(amounts in thousands)**

***Lease Commissions***

We earned leasing commissions from affiliated entities not included in the condensed combined financial statements of \$12 and \$2 during the six months ended June 30, 2012 and 2011, respectively. These fees are included within third-party management and other fees.

***Profit Share***

We received additional payments equal to a specified percentage of distributions in excess of specified amounts, both being defined, from affiliated entities not included in the condensed combined financial statements. Our profits interest totaled \$528 and \$545 during the six months ended June 30, 2012 and 2011, respectively. These fees are included within other income and fees.

We received additional payments equal to a specified percentage of distributions in excess of specified amounts, both being defined, from uncombined entities included in these condensed combined financial statements on the equity method. Our profits interest totaled \$654 and \$246 during the six months ended June 30, 2012 and 2011, respectively. These fees are included within other income and fees.

***Other Fees and Disbursements from Non-Controlled Affiliates***

We earned other fees and disbursements from affiliated entities not included in the condensed combined financial statements of \$149 and \$459 during the six months ended June 30, 2012 and 2011, respectively. These fees are included within other income and fees.

We earned other fees and disbursements from unconsolidated subsidiaries included in these condensed combined financial statements on the equity method of \$398 and \$385 during the six months ended June 30, 2012 and 2011, respectively. These fees are included within other income and fees.

Included in these other fees are reimbursements from uncombined entities included in these condensed combined financial statements on the equity method for offering costs related to the IPO of \$403 and \$374 during the six months ended June 30, 2012 and 2011, respectively, of which \$90 and \$175 were included in due from affiliated companies as of June 30, 2012 and 2011, respectively.

***Family Office Services***

Family office services mainly comprise accounting and bookkeeping services. During the six months ended June 30, 2012 and 2011, we provided certain family office services to the Sponsors. The Sponsors reimbursed us for direct costs in the amount of \$196 and \$350, in 2012 and 2011, respectively.

***Aircraft Use***

Malkin Properties CT, one of the companies that the predecessor comprises, owned interests in three aircraft for use by the predecessor's management companies and the Sponsors. A significant portion of the aircraft use was for the personal use of Peter L. Malkin and Anthony E. Malkin. The costs of the aircraft, and attendant expenses, which were attributable to such personal use, were not deductible for income tax purposes. An amount, in accordance with a formula set forth in the Code, was added to the compensation of Peter L. Malkin and Anthony E. Malkin. Personal use expenses amounted to \$0 and \$283 for the six months ended June 30, 2012 and 2011, respectively. These expenses are included within marketing, general and administrative expenses.

**Table of Contents**

**Empire State Realty Trust, Inc., Predecessor**

**Notes to Condensed Combined Financial Statements (continued)**

**(amounts in thousands)**

In May 2011, Malkin Properties CT sold all of its interests in two of the aircraft for \$238. All of the interests in the third aircraft were sold in May 2011 to Air Malkin LLC (a company owned by Peter L. Malkin) at their estimated fair value of \$383. There was no material income or loss to us in connection with these transactions.

***Receivable in Connection with Officer's Life Insurance***

Malkin Properties CT paid the premium on a split dollar life insurance policy with a face amount of \$11,000 carried on the life of Anthony E. Malkin, President of Malkin Properties CT. The owner and beneficiary of the policy was a trust whose beneficiaries are members of the family of Mr. Malkin. The trust reimburses Malkin Properties CT a portion of the annual premium of this policy, at a rate determined to be solely the cost of the insurance protection.

The trustee of the trust had assigned to Malkin Properties CT the right to receive an amount equal to the cumulative annual premiums it has paid on the policy since origination (i) from amounts payable to the trust on account of death of the insured or (ii) upon surrender of the policy by the trust. As of June 30, 2012 and December 31, 2011, the amounts due to Malkin Properties CT were \$0 and \$1,331, respectively. These amounts were included within tenant and other receivables.

The insurance policy terminated on December 31, 2011 and was not renewed. Malkin Properties CT was reimbursed by the insurer for the cumulative premiums paid on behalf of Anthony E. Malkin of \$1,331 upon surrender of the policy in January 2012.

***Other***

Included in tenant and other receivables are amounts due from partners and shareholders of \$607 at June 30, 2012 and \$530 at December 31, 2011.

**11. Segment Reporting**

Our reportable segments consist of a real estate segment and a construction contracting segment. Management internally evaluates the operating performance and financial results of our segments based on net operating income. We also have certain general and administrative level activities, including legal and accounting, that are not considered separate operating segments. Our reportable segments are on the same basis of accounting as described in footnote 2.

**Table of Contents****Empire State Realty Trust, Inc., Predecessor****Notes to Condensed Combined Financial Statements (continued)**

(amounts in thousands)

The following table provides components of segment profit for each segment for the six months ended June 30, 2012 and 2011, as reviewed by management:

| <b>Six Months Ended June 30, 2012</b>           | <b>Real Estate</b> | <b>Construction Contracting</b> | <b>Totals</b> |
|---|--------------------|---------------------------------|---------------|
| Revenues from external customers                | \$ 109,091         | \$ 8,144                        | \$ 117,235    |
| Intersegment revenues                           | 37                 | 3,051                           | 3,088         |

**12. Subsequent Events**

An additional \$30,000 was drawn on the secured term loan of the Empire State Building on July 9, 2012 bringing the total amount advanced to \$219,000.

On October 11, 2012, we entered into an amendment to the secured term loan of the Empire State Building that increases the lenders' respective commitments from an aggregate of \$300,000 to an aggregate of \$500,000 and provides that a condition for any advance in respect of such increased amount (in addition to the other conditions in the loan agreement) is the delivery of an updated appraisal to the effect that the Loan-To-Value Ratio (as defined in the loan agreement) does not then exceed 50%. Upon execution of the amendment, we paid the lenders a facility fee of 0.75% of such increase (\$1,500) and an arrangement fee 0.25% of such increase (\$500).

We entered into a Stipulation of Settlement dated September 28, 2012, resolving the Class Actions. See Note 9. Commitments and Contingencies - Litigation for a discussion of this Stipulation of Settlement.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Empire State Building Company L.L.C.

(a Limited Liability Company)

We have audited the accompanying consolidated balance sheets of Empire State Building Company L.L.C. and Affiliates as of December 31, 2011 and 2010, and the related consolidated statements of income, changes in equity and cash flows for each of the two years in the period ended December 31, 2011. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Empire State Building Company L.L.C. and Affiliates at December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Empire State Building Company L.L.C.

New York, New York

We have audited the consolidated statements of income, changes in equity and cash flows of Empire State Building Company L.L.C. (a New York limited liability company) and Affiliates (the Company) for the year ended December 31, 2009. These financial statements are the responsibility of the management of Empire State Building Company L.L.C. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the results of operations and cash flows of Empire State Building Company L.L.C. and Affiliates for the year ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 2 to the consolidated financial statements, effective January 1, 2009, the Company adopted the provisions pertaining to noncontrolling interests of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 810, Consolidation, and the provisions pertaining to uncertain tax positions of FASB ASC 740, Income Taxes.

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements**

**1. Organization and Nature of Business**

Empire State Building Company L.L.C. ( **ESB** ) was originally organized on August 15, 1961 as a joint venture to lease and sublease the approximately 2,800,000 square foot office building and Observatory, more commonly known as the Empire State Building situated at 350 Fifth Avenue, New York, New York, (the **Property** ). At December 31, 2011, the Property was approximately 68% occupied. On April 2, 1971, ESB converted from a joint venture to a general partnership. On December 17, 2001, ESB converted from a general partnership to a New York limited liability company and is now known as Empire State Building Company L.L.C. Although limited liability companies are unincorporated associations, their members have limited personal liability for the obligations or debts of the entity similar to stockholders of a corporation.

ESB commenced operations on August 15, 1961 and is to continue until the earlier of the complete disposition of all of the Company's assets, unless sooner terminated pursuant to the Operating Agreement or by law.

On February 9, 1962, Empire State Building, Inc. (the **Observatory** or **Inc.** ) was formed to sublease from ESB and operate the observation decks located on the 86<sup>th</sup> and 102<sup>nd</sup> floors of the Property. A new lease was entered into in 2010 (the **2010 Lease** ) under which Inc. acted as agent for a joint venture (the **Joint Venture** ) owned 99% by ESB and 1% by Inc. The Joint Venture arrangement has no significant impact on the financial position or results of operations reported in the consolidated financial statements. The 2010 Lease expired on December 31, 2010 and was not renewed.

On January 1, 2011, ESB entered into a lease for the observation decks with ESB Observatory LLC, a newly organized limited liability company owned 99% by ESB and 1% by ESB 102 Corporation (which, in turn, is owned 100% by ESB), for a five-year term commencing January 1, 2011 and expiring December 31, 2015. ESB Observatory LLC is to pay fixed annual rent of \$6,700,000, adjusted each year commencing 2012 to reflect the increase in the Consumer Price Index, plus additional rent, as defined in the lease. The new leasing arrangement does not have a significant impact on the financial position or results of operations reported in the consolidated financial statements.

On July 15, 2009, ESB Captive Insurance Company L.L.C. (the **Captive** ) was formed in the State of Vermont, as a captive insurance company to insure the Property and business interruption risks of ESB and the Observatory, including, but not limited to, terrorism risks. The Captive was formed as a single member limited liability company, wholly owned by ESB. For income tax reporting purposes, a single member LLC is classified as a division of its member, accordingly, the single member LLC's taxable income or loss is reportable by its member. The Captive reinsures certain coinsurance amounts. There were no losses incurred through December 31, 2011.

**2. Summary of Significant Accounting Policies**

**Principles of consolidation** The accompanying consolidated financial statements include the accounts of Empire State Building Company L.L.C. and its wholly owned subsidiaries: ESB Captive Insurance Company L.L.C., ESB 102 Corporation, and ESB Observatory LLC; and Empire State Building, Inc. (collectively, the **Company** ).

All significant intercompany accounts and transactions have been eliminated in consolidation.

---

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

The Company follows the provisions pertaining to noncontrolling interests of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 810, Consolidation. A noncontrolling interest is the portion of equity in a subsidiary not attributable, directly or indirectly, to a parent. Among other matters, the noncontrolling interest standards require that noncontrolling interests be reported as part of equity in the consolidated balance sheets (separately from the controlling interest's equity). The noncontrolling interest standards also require companies to disclose the changes in the noncontrolling interest in the statement of equity or in a separate note to the financial statements; and require that net income include earnings attributable to the noncontrolling interest with disclosure on the face of the statement of income of the amounts attributable to the parent and to the noncontrolling interest.

The Company's interest in Empire State Building, Inc. is classified as a noncontrolling interest in the accompanying consolidated financial statements.

**Variable interest entities** Under FASB ASC 810, Consolidation, when a reporting entity (ESB) is the primary beneficiary of an entity that is a variable interest entity as defined in FASB ASC 810, the variable interest entity must be consolidated into the financial statements of the reporting entity. The determination of the primary beneficiary of a VIE is based on a qualitative rather than a quantitative analysis. An entity is required to consolidate a VIE if it has (i) the power to direct the activities that most significantly impact the entity's economic performance and (ii) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE that could be significant to the VIE.

Prior to January 1, 2011, ESB had determined that both Inc. and the Joint Venture were VIEs of which ESB was the primary beneficiary. As a result, ESB consolidated both the Joint Venture and Inc. at December 31, 2010, as ESB through its design of the Joint Venture and Inc. and its lease to the Joint Venture, had both the power to direct the activities that most significantly impact both the Joint Venture and Inc.'s economic performance and the obligation to absorb losses of both the Joint Venture and Inc. and the right to receive benefits from both the Joint Venture and Inc. that could be significant to both the Joint Venture and Inc.

On January 1, 2011, ESB deconsolidated the Joint Venture as a result of the expiration of the 2010 Lease. As of December 31, 2011, ESB continued to report an estimated \$1,910,000 income tax liability relating to uncertain tax positions of Inc. as ESB is responsible for such liability.

The deconsolidation of the Joint Venture had no impact on ESB's consolidated balance sheets and statement of income as ESB owned 99% of the Joint Venture.

The aggregate assets, liabilities and deficit of Inc. as of December 31, 2011 were \$4,574,414, \$6,380,999 and \$(1,806,585), respectively, and net income for the year ended December 31, 2011 consisted of an income tax benefit of \$1,200,000. The liabilities of Inc. consist of \$1,910,000 of income tax liability and approximately \$4,470,000 of intercompany payable due to ESB, which eliminates in consolidation. The aggregate assets, liabilities and deficit of the Joint Venture as of December 31, 2010 were \$6,895,694, \$9,902,279 and \$(3,006,585) (includes Inc.'s 1% interest in the Joint Venture), respectively. Net income for the year then ended was \$4,515,868 (net of rent paid to ESB). Net income attributable to the noncontrolling interest was \$1,935,159 (inclusive of a \$1,890,000 income tax benefit). Net income for 2009 was \$20 (net of rent paid to ESB).

**Revenue recognition:**

**Empire State Building Company L.L.C.** Minimum rental revenue is recognized on a straight-line basis over the terms of the subleases. The excess of rents so recognized over amounts contractually due pursuant to the underlying subleases is included in unbilled rents receivable on the accompanying balance sheets. Leases

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

generally contain provisions under which tenants reimburse the Company for a portion of property operating expenses, real estate taxes and other recoverable costs. Receivables for escalation and expense reimbursements are accrued in the period the related expenses are incurred. Rental payments received before they are recognized as income are recorded as deferred income.

ESB provides an estimated allowance for uncollectible rent and loans receivable based upon an analysis of tenant and loan receivables and historical bad debts, tenant concentrations, tenant credit worthiness, tenant security deposits (including letters of credit and lease guarantees provided by the tenant), current economic trends and changes in tenant payment terms. Rent receivable is shown net of an estimated allowance for doubtful accounts of \$1,455,000 and \$1,192,000 at December 31, 2011 and 2010, respectively. Unbilled rent receivable is shown net of an estimated allowance for doubtful accounts of \$710,000 and \$165,000 at December 31, 2011 and 2010, respectively.

Bad debt expense is shown net of recoveries.

**ESB Observatory LLC and Empire State Building, Inc.** Revenues from the sale of Observatory tickets are recognized upon admission. Deferred income related to unused and unexpired tickets as of December 31, 2011 was approximately \$3,400,000.

ESB Observatory LLC and Empire State Building, Inc. provide an estimated allowance for uncollectible accounts receivable based upon an analysis of accounts receivable and historical bad debts, customer credit worthiness, current economic trends and changes in payment terms. Management believes no allowance is necessary for outstanding accounts receivable balances at December 31, 2011 and 2010.

**Cash and cash equivalents** The Company considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

At times the Company has demand and other deposits with a bank in excess of federally insured limits. The possibility of loss exists if the bank holding uninsured deposits were to fail.

**Property** The Company reviews real estate assets for impairment whenever events or changes in circumstances indicate the carrying amount of assets to be held and used may not be recoverable. Impairment losses are recognized when the estimated undiscounted cash flows expected to be generated by those assets are less than the assets' carrying amount. Impaired assets are recorded at their estimated fair value calculated based on the discounted cash flows expected to be generated by the asset. No impairment loss has been recorded for the years ended December 31, 2011, 2010 and 2009.

**Depreciation and amortization** Depreciation is computed by the straight-line method over the estimated useful lives of forty years for the leasehold improvements and seven years for equipment. The leasehold is being depreciated by the straight-line method over the term of the sublease. Subtenant improvements, leasing commissions and leasing costs are amortized by the straight-line method over the terms of the related tenant leases.

Repairs and maintenance are charged to expense as incurred. Expenditures which increase the useful lives of the assets are capitalized.

**Sales tax** Sales tax collected by ESB from tenants for sub-metered electricity is presented in the financial statements on a gross basis and, accordingly, included in revenue and expenses. Observatory admission ticket sales are reported net of sales tax and, accordingly, excluded from revenue and expenses.

---

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

**Income taxes** ESB and ESB Observatory LLC are not subject to federal and state income taxes and, accordingly, make no provision for federal and state income taxes in the accompanying financial statements. ESB's rental operations are not subject to local income taxes. ESB's taxable income or loss (which includes the income or loss of the Captive) is reportable by its members.

Empire State Building, Inc. has elected to be taxed under the Subchapter S provisions of the Internal Revenue Code and applicable New York State income tax law effective January 1, 1971. Accordingly, the Company has not provided for federal or state income taxes since all income is passed through directly to the stockholders for the years ended December 31, 2011, 2010 and 2009. New York City does not recognize S Corporations as pass-through entities. Therefore, Empire State Building, Inc. is subject to New York City general corporate tax which totaled approximately \$2,500 for the year ended December 31, 2010. ESB and ESB Observatory LLC are subject to New York City Unincorporated Business tax which totaled approximately \$177,000 and \$184,000 for the years ended December 31, 2011 and 2010, respectively. ESB 102 Corporation is subject to federal, New York State and New York City corporation tax, which totaled approximately \$11,000 for the year ended December 31, 2011. ESB Observatory LLC was in place as of January 1, 2011. The \$184,000 is related to ESB Co. Inc. JV, which was the JV in place in 2010.

The Company follows the provisions pertaining to uncertain tax positions of FASB ASC 740, *Income Taxes*, which provides a financial statement recognition threshold and measurement attribute for a tax position taken or expected to be taken in a tax return. Under FASB ASC 740 the tax benefit from an uncertain tax position may only be recognized if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Among other matters, FASB ASC 740 also provides guidance on accounting for interest and penalties associated with tax positions. As of December 31, 2011, the Company has recorded a liability of \$1,910,000 for uncertain tax positions, which is included in accounts payable and accrued liabilities on the Company's consolidated balance sheet (including \$619,000 of accrued interest and penalty). During the years ended December 31, 2011 and 2010, the Company recorded a tax benefit of \$1,200,000 and \$1,890,000 (inclusive of reductions in interest and penalties of \$330,000 and \$496,000) as a component of Observatory Income, net on the accompanying consolidated statement of income. The liability is based on amounts of possible outcomes, using facts, circumstances and information available at the reporting date. Interest and penalties are included as a component of income tax benefit on the accompanying consolidated statement of income.

Taxable years ended December 31, 2008, 2009, 2010 and 2011 are subject to IRS and other jurisdictions tax examinations.

**Advertising** The Company expenses advertising costs as incurred. The Company incurred advertising costs of \$4,703,117, \$5,054,935 and \$4,672,938, respectively (inclusive of \$2,589,864 incurred by ESB Observatory LLC in 2011 and \$2,516,693 and \$2,315,290 incurred by Empire State Building, Inc. in 2010 and 2009), for the years ended December 31, 2011, 2010 and 2009.

**Environmental costs** The Property contains asbestos. The asbestos is appropriately contained, in accordance with current environmental regulations. As certain demolition of the space occurs, environmental regulations are in place, which specify the manner in which the asbestos must be handled and disposed. Because the obligation to remove the asbestos has an indeterminable settlement date, the Company is unable to reasonably estimate the fair value of this obligation. Asbestos abatement costs are charged to expense as incurred.

**Notes to Consolidated Financial Statements (continued)**

**Estimates** The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates. The Company regards the allowance for uncollectible rents (including unbilled rent receivable) as being particularly sensitive. Further, when tenants experience financial difficulties, uncertainties associated with assessing the recoverability of subtenant improvements and leasing commissions increase.

Other items subject to such estimates and assumptions include the determination of the useful life of real estate and other long-lived assets as well as the valuation and impairment analysis of real property and other long-lived assets.

The real estate industry has historically been cyclical and sensitive to changes in economic conditions such as interest rates, credit availability and unemployment levels. Changes in these economic conditions could affect the assumptions used by management in preparing the accompanying financial statements.

**Recently adopted accounting pronouncements** In January 2010, the FASB issued ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. ASU No. 2010-06 amends ASC 820 and requires disclosure of details of significant asset or liability transfers in and out of Level 1 and Level 2 measurements within the fair value hierarchy and inclusion of gross purchases, sales, issuances, and settlements in the rollforward of assets and liabilities valued using Level 3 inputs within the fair value hierarchy. The guidance also clarifies and expands existing disclosure requirements related to the disaggregation of fair value disclosures and inputs used in arriving at fair values for assets and liabilities using Level 2 and Level 3 inputs within the fair value hierarchy. These disclosure requirements were effective for interim and annual reporting periods beginning after December 15, 2009. Adoption of this guidance on January 1, 2010, excluding the Level 3 rollforward, did not result in additional disclosures in our consolidated financial statements. The gross presentation of the Level 3 rollforward is required for interim and annual reporting periods beginning after December 15, 2010. The adoption of this pronouncement did not have a material impact on the Company's financial statements.

**New accounting pronouncements not yet adopted** In May 2011, the FASB issued ASU 2011-04, Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP. This ASU provides guidance setting forth additional requirements relating to disclosures about fair value. In accordance with the guidance the Company requires additional disclosures, including: (i) quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion about the sensitivity of the measurements to changes in the unobservable inputs, for Level 3 fair value measurements; (ii) fair value of financial instruments not measured at fair value but for which disclosure of fair value is required, based on their levels in the fair value hierarchy; and (iii) transfers between Level 1 and Level 2 of the fair value hierarchy. For nonpublic companies this ASC is effective for annual periods for fiscal years ending after December 31, 2012. The adoption of this update on January 1, 2012 is not expected to have a material impact on our consolidated financial statements.

In September 2011, the FASB issued ASU 2011-9, Compensation-Retirement Benefits-Multiemployer Plans (Subtopic 715-80): Disclosures about an Employer's Participation in a Multiemployer Plan. The ASU requires substantially more disclosures regarding the multiemployer plan the Company participates in, the nature of the Company's commitment to the plan and other disclosures. The current recognition and measurement guidance is unchanged. The Company is evaluating the disclosures required under the ASU. For non-public companies this ASU is effective for annual periods for fiscal years ending after December 31, 2012.

**Table of Contents****Empire State Building Company L.L.C. and Affiliates****Notes to Consolidated Financial Statements (continued)****3. Members Equity**

Profits, losses and distributions are allocated to the members pursuant to the Company's Operating Agreement.

The Company must maintain minimum capital and surplus of \$250,000 in accordance with Vermont captive insurance regulations.

**4. Deferred Charges**

Deferred charges consist of the following as of December 31, 2011 and 2010:

|  | 2011                 | 2010                 |
|--|----------------------|----------------------|
| Leasing commissions                    | \$ 20,315,761        | \$ 22,758,830        |
| Leasing costs and other deferred costs | 872,891              | 1,888,175            |
|  | 21,188,652           | 24,647,005           |
| Less accumulated amortization          | 8,796,389            | 8,460,780            |
| <b>Total</b>                           | <b>\$ 12,392,263</b> | <b>\$ 16,186,225</b> |

**5. Loans Receivable**

During 2010, the Company entered into lease modification agreements with two tenants which had rent receivable balances in arrears totaling \$1,399,909. Interest income is recognized using the effective interest method and recognized on the accrual basis. As of December 31, 2011, loans receivable consist of the following:

| Date of Loan      | Outstanding<br>Principal<br>Balance | Interest Rate    | Maturity         |
|-------------------|-------------------------------------|------------------|------------------|
| February 28, 2010 | \$ 995,179                          | LIBOR (*) + 3.5% | December 1, 2024 |
| December 28, 2010 | 240,000                             | Prime (**)+ 3.0% | December 1, 2015 |
|                   | <b>\$ 1,235,179</b>                 |                  |                  |

(\*) 0.0556% (three month LIBOR) at December 31, 2011.

(\*\*) 3.25% at December 31, 2011.

Future principal payments due are as follows:

|      |            |
|------|------------|
| 2012 | \$ 119,000 |
|------|------------|

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

**6. Related Party Transactions**

ESB (the Lessee) entered into a lease agreement with Empire State Building Associates L.L.C. (the Lessor) which was set to expire on January 4, 2013. On February 11, 2010, the Company exercised the remaining lease renewal options for the period January 4, 2013 to January 4, 2076. The lease provides for an annual basic minimum rent equal to \$6,018,750 through January 4, 2013; thereafter, the annual basic minimum rent is equal to \$5,895,625.

In accordance with the 3<sup>rd</sup> lease modification dated as of July 26, 2011, the minimum basic rent described above has been increased to cover debt service on the outstanding principal balance (in an amount not to exceed \$159,000,000 without the Lessee's consent) in excess of \$60,500,000 on the Lessor's \$300,000,000 new mortgage Loan obtained July 26, 2011 (the Loan), of which \$159,000,000 has been advanced as of December 31, 2011. Provided no event of default has occurred, and subject to other conditions, upon the Company's request, HSBC has also agreed to source further additional commitments aggregating up to \$200,000,000 in the sole discretion of the lenders. Any further advances under the Loan are subject to the consent of Lessee.

On July 26, 2011, the Lessor closed on a new mortgage loan with HSBC Bank USA and other participating banks (the Lenders) with an initial advance of \$159,000,000 to be used to pay and discharge all existing mortgage loans secured by the Property, to fund operations and working capital requirements relating to the Property (including for improvements) and certain other general purposes. Subject to the conditions set forth in the Loan agreement, the Lenders may provide the Lessor with additional advances of up to \$76,000,000 and use commercially reasonable efforts to arrange for additional commitments from other financial institutions in an aggregate amount equal to \$65,000,000. On November 2, 2011 the Loan was amended to increase the loan amount to \$300,000,000. There were no additional principal advances for the year ending December 31, 2011. The Lessor must also maintain a debt yield as specified in the Loan. Subject to the terms and conditions of the Loan, the outstanding principal amount of the loan shall bear interest at a rate equal to 2.5% per annum above 30-day LIBOR, unless such rate is not available, in which event the Loan would bear interest at 2.5% per annum in excess of (i) HSBC's prime rate or (ii) the BBA LIBOR Daily Floating Rate. The aggregate rate was 2.78% at December 31, 2011. The Lessor is obligated to repay the outstanding amount of the Loan plus accrued and unpaid interest and all other amounts due under the Loan and related documents on July 26, 2014, which the Lessor may extend to July 26, 2015 and thereafter to July 26, 2016, in each case, subject to an extension fee of 0.25% of the total availability under the Loan at the time of such extension. Such extensions are subject to customary conditions, including the maintenance of a certain loan-to-value ratio and debt yield and the absence of an event of default. The Lessor incurred a prepayment penalty of approximately \$2,400,000 in connection with the repayment of the old notes.

Improvement and tenancing costs funded out of the proceeds from the Lessor's mortgage loans which are secured by the Property are borne by the Lessor and capitalized as property improvements or tenancing costs in the Lessor's financial statements. Improvement and tenancing costs funded out of the ESB's operating cash flow are borne by ESB and are capitalized in its financial statements as leasehold improvements or tenancing costs.

In connection with the July 2011 refinancing of Lessor's mortgage loans with a new \$159,000,000 mortgage, approximately \$58,000,000 became available to fund property improvements and tenancing costs allowing reimbursement to the Company subsequent to June 30, 2011 of approximately \$34,000,000 it had incurred and recorded on its financial statements during the first six months of 2011 for fixed asset additions of \$24,400,000 and deferred leasing costs of \$9,600,000. The foregoing was effected in the third quarter of 2011 and resulted in 1) Company's removal of such asset additions and Lessor's recording of same on its financial statements, and 2) Company's accrual of overage rent payable to the Lessor equal to approximately 50% thereof. During the year ended December 31, 2011, the Company outlaid approximately \$63,944,272 for improvements and tenancing costs all of which has been reimbursed to the Company, other than \$6,067,806 due from lessor at December 31, 2011.

**Table of Contents****Empire State Building Company L.L.C. and Affiliates****Notes to Consolidated Financial Statements (continued)**

In accordance with the 2<sup>nd</sup> lease modification dated as of February 25, 2009, the minimum basic rent described above was increased to cover debt service on the Lessor's \$31,500,000 second mortgage loan obtained on February 25, 2009 that was repaid on July 26, 2011 with the proceeds from the Loan described above. The basic rent was increased to cover debt service, which consisted of only interest during the period the second mortgage loan was outstanding and totaled \$1,132,000 and \$2,075,938 for the years ended December 31, 2011 and 2010, respectively.

The lease also provides for additional rent ( Overage Rent ) through all renewal terms equal to 50% of the Lessee's annual net operating profit, as defined, in excess of \$1,000,000, in each lease year.

In addition to the above, the Lessee is required to pay for all operating and maintenance expenses, real estate taxes, and necessary repairs and replacements, and keep the Property adequately insured against fire and accident.

Beginning in 2008 when participants in the Lessor consented to a building improvements program (the Program ), a Program has been undertaken by the Company to maintain and enhance the Property and its competitive position. Through December 31, 2011 the Company has incurred costs related to the Program of approximately \$143,151,000 (which consisted of building improvements and tenant leasing costs of approximately \$80,508,000 and \$62,643,000, respectively), and the Lessor has incurred costs related to the Program of approximately \$73,382,000 (which consisted of building improvements and tenant leasing costs of approximately \$34,735,000 and \$38,647,000, respectively). In addition, during the period from 2006-2008, the Company incurred building improvement costs of \$15,684,000. The Company currently estimates that the total costs of all Program-related projects will be approximately \$670,000 to \$690,000. Lessor intends to seek additional financing to fund future Property improvements and tenancing costs.

The Company advances funding for the Program and bills the Lessor for certain costs incurred. The Program (1) grants the ownership of improvements and tenancing costs funded by Lessor to Lessor and acknowledges Lessor's desire to finance such costs through an increase in the fee mortgage, and (2) allows for the increased mortgage charges to be paid by Lessor from an equivalent increase in basic rent paid by the Company, all to the extent the Company joins Lessor in approving such mortgage increase. Since additional rent will be decreased by one-half of that increase in basic rent, the net effect of the lease modification is to have the Company and Lessor share the costs of the Program equally, assuming the Company's profitability continues to obligate it to pay overage rent.

In connection with the Loan, the Company has assigned all subleases and rents to the lender as additional collateral.

The following is a schedule of future minimum rental payments as of December 31, 2011 (based on the current amount of the Lessor's outstanding mortgage obligation and assuming there are no additional principal drawdowns, the Loan continues to bear interest at the aggregate rate in effect as of December 31, 2011 and the Loan is repaid on its initial maturity date):

|            |                       |
|------------|-----------------------|
| 2012       | \$ 8,810,000          |
| 2013       | 8,680,000             |
| 2014       | 8,170,000             |
| 2015       | 5,900,000             |
| 2016       | 5,900,000             |
| Thereafter | 347,890,000           |
|            | <b>\$ 385,350,000</b> |

**Table of Contents****Empire State Building Company L.L.C. and Affiliates****Notes to Consolidated Financial Statements (continued)**

Distributions are paid from a cash account held by Malkin Holdings. That account is reflected on the balance sheets as Due from Supervisor.

Due to Lessor at December 31, 2010 represents advances made to the Company of \$8,963,473 for building improvements. Due from Lessor at December 31, 2011 of \$6,067,806 represents unpaid outlays made on their behalf.

Due from Supervisor at December 31, 2011 and 2010 represents cash held on our behalf by our Supervisor.

Supervisory and other services are provided to the Company by its Supervisor, Malkin Holdings LLC ( Malkin Holdings ), a related party.

Beneficial interests in the Company are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

Fees and payments to Malkin Holdings during the years ended December 31, 2011, 2010 and 2009, are as follows:

|   | 2011                | 2010              | 2009              |
|---|---------------------|-------------------|-------------------|
| Basic supervisory fees  | \$ 583,368          | \$ 574,000        | \$ 270,000        |
| Offering costs for work done by the employees of the Supervisor | 983,027*            | 119,038*          |                   |
| Other fees and disbursements                                    | 660,318*            | 129,306*          | 272,060*          |
| Service fee on security deposit accounts                        | 24,610              | 22,988            | 41,707            |
| <b>Total</b>  | <b>\$ 2,251,323</b> | <b>\$ 845,332</b> | <b>\$ 583,767</b> |

\* Included in other professional fees in the Consolidated Statements of Income.

For administration and investment of each tenant security deposit account, Malkin Holdings has earned since 1973 a service fee of 1% of the account balance, which fee totaled \$24,610 and \$22,988 for the years ended December 31, 2011 and 2010, respectively. As this service fee is deducted from interest otherwise payable to tenants, these financial statements show no related expense to the Company.

Through December 31, 2011, the Company has been charged an aggregate of \$9,407,731, included in acquisition fees and other professional fees, of which \$1,284,892 is included in accrued liabilities at December 31, 2011, to reimburse Malkin Holdings for services and third-party fees it had advanced pertaining to certain matters regarding a course of action that could result in the Company being acquired by Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a real estate investment trust (REIT). Such fees are borne entirely by the Company and are not shared indirectly with the Lessor through Overage Rent deductions. If the REIT formation and public offering is completed, the Company will be reimbursed for all such costs by the REIT.

Under separate agreements to which the Company is not a party, Malkin Holdings, members of Mr. Malkin's immediate family and other persons having no management role or ownership interest in Malkin Holdings receive additional payments from investors in the Company in varying percentages, based upon current year distributions. These third party payments do not impose any obligation upon the Company or affect its assets and liabilities.

Malkin Holdings also serves as supervisor for the Company's Lessor and receives from Lessor a basic annual fee and a payment in respect of a profits interest based on distributions to Lessor's investors. Beneficial interests in Lessor are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

**Table of Contents****Empire State Building Company L.L.C. and Affiliates****Notes to Consolidated Financial Statements (continued)****7. Rental Income Under Operating Subleases**

Future minimum rentals (including antenna license fees) assuming neither renewals nor extensions of leases which may expire during the periods, on noncancelable operating leases in effect as of December 31, 2011 are as follows:

|            |                       |
|------------|-----------------------|
| 2012       | \$ 90,690,000         |
| 2013       | 90,480,000            |
| 2014       | 85,920,000            |
| 2015       | 82,540,000            |
| 2016       | 71,930,000            |
| Thereafter | 385,550,000           |
|            | <b>\$ 807,110,000</b> |

At December 31, 2011, one tenant, a consumer goods sourcing company comprised approximately 27% of future minimum rental income. There were no other tenants which comprised over 10% of the future minimum rental income.

In connection with a lease entered into during 2008, the Company was required to escrow funds for the Company's contribution for improvement work to be performed. These funds will be disbursed as the work is completed (as defined).

**8. Leasing Agreements**

The Company has engaged Newmark Knight Frank ( NKF ) as leasing agent for the non-retail space of the Property. For the years ended December 31, 2011, 2010 and 2009, NKF commissions capitalized by Company totaled approximately zero, \$772,000 and \$8,500, respectively.

The Company has engaged CB Richard Ellis, Inc. ( CBRE ) as leasing agent for the retail space of the Property. For the years ended December 31, 2011, 2010 and 2009, CBRE commissions capitalized by Company totaled approximately zero, \$930,000 and \$895,000, respectively.

**9. Multiemployer Pension Plan**

In connection with the Company's collective-bargaining agreements with the Service Employees Janitorial Union-Local 32B-32J and the Central Pension Fund-Local 94, the Company participates with other companies in two defined benefit pension plans. The plans cover all of the Company's janitorial and engineering employees who are members of the union. These plans are not administered by the Company and contributions are determined in accordance with provisions of negotiated labor contracts. ESB incurred union pension and welfare expense (which is included in payroll and related costs) of approximately \$2,876,000, \$2,683,000 and \$3,857,000, respectively, for the years ended December 31, 2011, 2010 and 2009. ESB, Inc. incurred union pension and welfare expense of approximately \$2,155,000 and \$2,916,000 (which is included in payroll and related costs - see Note 12) for the years ended December 31, 2010 and 2009. ESB Observatory LLC incurred union pension and welfare expense of approximately \$2,549,000 (which is included in payroll and related costs - see Note 12) for the year ended December 31, 2011.

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

Under the Employee Retirement Income Security Act of 1974, as amended by the Multiemployer Pension Plan Amendments Act of 1980, an employer is liable upon withdrawal or termination of a multiemployer plan for its proportionate share of the plan's unfunded vested benefits liability. Management has no intention of undertaking any action which could subject the Company to the obligation.

**10. Pension Plan**

The Company maintains a 401(k) defined contribution plan (the Plan) which covers substantially all employees of the Company who meet the eligibility requirements set forth in the Plan documents.

The Plan allows the Company to make discretionary employer contributions. There were no employer contributions for the years ended December 31, 2011 and 2010. The Plan may be terminated at the option of the Company.

**11. Fair Value of Financial Instruments**

Cash and cash equivalents (including tenant improvement escrow), accounts receivable, rent receivable, due from Lessor, due from Supervisor, tenant security deposit payable, accounts payable and accrued liabilities, and due to Lessor are carried at amounts which reasonably approximate their fair values, due to the short maturities of the instruments. Loans receivable are carried at amounts which reasonably approximate their fair values at inception due to no known changes in the credit worthiness of the borrowers.

**Table of Contents****Empire State Building Company L.L.C. and Affiliates****Notes to Consolidated Financial Statements (continued)****12. Observatory Operations**

The operations of the Empire State Building Observatory are summarized as follows:

|   | <i>Years Ended December 31,</i> |               |               |
|---|---------------------------------|---------------|---------------|
|   | 2011                            | 2010          | 2009          |
| <b>Income:</b>  |                                 |               |               |
| Admissions  | <b>\$ 72,992,182</b>            | \$ 70,030,303 | \$ 63,310,227 |

**13. Litigation**

The Company is a party to certain routine legal actions and complaints arising in the ordinary course of business. In the opinion of management, all such matters are adequately covered by insurance, or, if not so covered, are without merit or are of such kind or involve such amounts, that an unfavorable disposition would not have a material effect on the financial position of the Company.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

### (1) 1997 Arbitration/Litigation Proceeding

Malkin Holdings and Peter L. Malkin, a member in the Company, were engaged in a proceeding with Helmsley-Spear, Inc. commenced in 1997, concerning the management, leasing and supervision of the Property, in which Malkin Holdings and Mr. Malkin sought an order removing Helmsley-Spear. In this connection, certain costs for legal and professional fees and other expenses were paid by Malkin Holdings and Mr. Malkin. Malkin

F-136

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

Holdings and Mr. Malkin have represented that such costs will be recovered only to the extent that (a) a competent tribunal authorizes payment by the Company or (b) an investor voluntarily agrees that his or her proportionate share be paid. Mr. Malkin has requested, or intends to request, such voluntary agreement from all investors, which may include renewing such request in the future for any investor who previously received such request and failed to confirm agreement at that time. Because any related payment has been, or will be, made only by consenting investors, the Company has not provided for the expense and related liability with respect to such costs in these consolidated financial statements and such consent has not been received at December 31, 2011.

The original action was commenced in June 1997 and was referred to arbitration. The March 30, 2001 decision of the Arbitrators, which was confirmed by the court, (i) reaffirmed the right of the investors to vote to terminate Helmsley-Spear without cause, (ii) dismissed Helmsley-Spear's claims against Malkin Holdings and Peter Malkin, and (iii) rejected the termination of Helmsley-Spear for cause. The parts of the decision under appeal were initially affirmed by the Appellate Division, and the New York Court of Appeals declined to review such ruling. On October 6, 2003, the United States Supreme Court granted Malkin Holdings' petition, vacated the judgment of the Appellate Division and remanded the case to the New York court.

On October 14, 2004, the Appellate Division issued a unanimous decision reversing the Arbitrators. The Appellate Division decided (i) that there was a covert assignment without the Company's knowledge or consent and (ii) that the corporation controlled by Irving Schneider and now named Helmsley-Spear, which had represented itself to be the Company's managing agent since September 1997, in fact never received a valid assignment to become the Company's managing agent. The Company's previously authorized managing agent, the original corporation named Helmsley-Spear, was owned by Harry B. Helmsley and had become inactive. On February 21, 2006, the Court of Appeals reversed the decision of the Appellate Division and reinstated the decision of the Arbitrators, including items (i), (ii) and (iii) in the preceding paragraph. On July 21, 2006, Malkin Holdings filed a certiorari petition seeking review by the U.S. Supreme Court, which it later withdrew as part of the August 29, 2006 settlement agreement terminating claims broadly by exchange of general releases between Helmsley-Spear, Irving Schneider, and their related parties, on one hand, and Leona M. Helmsley, Peter L. Malkin, Malkin Holdings, various property owners supervised by Malkin Holdings, and their related parties, on the other.

(2) 1998-2002 Irving Schneider Actions against the Company's Supervisor and Member

In January 1998, Irving Schneider, who was then one of the controlling principals of Helmsley-Spear and has never had a record or beneficial interest in the Company, brought litigation against the Company's supervisor, Malkin Holdings, and member, Peter L. Malkin, claiming misconduct and seeking damages and disqualification from performing services for the Company. In March 2002, the court dismissed Mr. Schneider's claims. Although Mr. Schneider thereafter appealed the dismissal, the claim was withdrawn prior to 2006.

Also in April 2002, an attorney whose fees were reportedly paid by Mr. Schneider submitted to the Departmental Disciplinary Committee of the Appellate Division of the Supreme Court of New York, First Department, copies of Mr. Schneider's complaints in the foregoing and related litigation with such attorney's letter asserting that the activities of Mr. Malkin and Malkin Holdings, as alleged in those complaints, violated the Code of Professional Responsibility. No action was ever taken by the Disciplinary Committee against Mr. Malkin or Malkin Holdings regarding any of these matters.

During 2002, acting upon a complaint of Mr. Schneider and his attorney, the Manhattan District Attorney's Office conducted an investigation of Mr. Malkin and Malkin Holdings regarding Malkin Holdings' receipt of a 1% fee for administering the tenant security accounts of the Company and other supervised entities. Malkin Holdings made submissions through counsel to show that the fee was expressly permitted under statute and was in accord with prior agreement. By letter dated July 23, 2002, the District Attorney's Office advised that it had concluded its investigation and that no charge would be brought against Mr. Malkin or Malkin Holdings.

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

In accord with a written legal opinion from Thelen Reid & Priest dated April 29, 2005, both Malkin Holdings and Mr. Malkin are entitled to reimbursement from the Company for their expenses to various service providers (including Dewey, Pegno & Kramarsky and Malkin Holdings) in the successful defense against all these Section (2) claims to the extent relating to the Company, as follows: (a) \$238,069 for the successful defense against the 1998-2002 litigations, (b) \$39,621 for the successful defense against Mr. Schneider's complaint to the District Attorney, and (c) \$13,827 for the successful defense against the related complaint to the Disciplinary Committee. These reimbursements were deferred without any charge for interest until the Company's operations were stabilized and its cash and borrowing position permitted payment in June 2008.

All reimbursed expenses funded by the Company under this Section (2) were deducted in computing Overage Rent under the Lease with the Company's Lessor. Accordingly, the Company effectively bore only 50% of such expenses.

**(3) 2006 Settlement Agreement**

As stated above, the August 29, 2006 settlement agreement terminated Helmsley-Spear, Inc. as managing and leasing agent at the Property as of August 30, 2006. The Company is now self-managing the Property, while engaging third party leasing agents, CB Richard Ellis, Inc. for retail space since August 30, 2006 and Newmark Knight Frank for non-retail space since October 21, 2009.

Based upon relative building area and revenue among all the properties at which Helmsley-Spear was terminated pursuant to the settlement agreement, the Company's allocable share of the contract settlement payment was \$3,056,000. Such amount was funded during 2006 with \$1,834,000 from the Company's cash reserves and \$1,222,000 by a capital contribution to the Company from Mrs. Helmsley. There was no change in Mrs. Helmsley's share of the Company's distributions and profits as a result of such capital contribution, but an equivalent amount of the settlement expense was allocated to her.

The Company's allocable share of the fees to service providers (including Dewey, Pegno & Kramarsky and Malkin Holdings) in connection with the settlement and related transition is \$405,174, including preparation of a draft solicitation for a vote to remove Helmsley-Spear, submission to the Real Estate Board of New York of claims regarding Helmsley-Spear, negotiation and conclusion of the settlement agreement, and conclusion of a new leasing agreement with CB Richard Ellis. These fees were advanced by Malkin Holdings without any charge for interest and, pursuant to consent of the Company's members, reimbursed by the Company in June 2008.

The expenses funded by the Company under this Section (3) were deducted in computing Overage Rent under the Lease with the Company's Lessor. Accordingly, the Company effectively bore only 50% of such expenses.

**14. Subsequent Events**

a) In March 2012, the Company concluded an agreement with New York City for a reduction in real estate taxes for the tax years 2002/2003-2011/2012 resulting in gross tax savings of approximately \$16,900,000, of which approximately \$12,400,000 will be in the form of a refund and the balance through future tax reductions to be phased in through 2012/2016. Professional fees totaling \$1,735,010, including \$867,505 to Malkin Holdings, will be paid from the proceeds of the refund. The Company is reviewing the adjustment to real estate tax escalation rent billings to existing tenants resulting from the tax reduction.

b) An additional \$30,000,000 was drawn on the Loan on April 6, 2012 bringing the total amount advanced to \$189,000,000.

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

c) Five putative class actions have been brought by participants in Empire State Building Associates L.L.C. and several other entities supervised by Malkin Holdings that own fee or leasehold interests in various properties located in New York City (which were filed March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and March 19, 2012) (the Class Actions ). As now pending in New York State Supreme Court, New York County, each Class Action challenges the proposed consolidation of those and other properties supervised by Malkin Holdings into a real estate investment trust (the REIT ) and the initial public offering of shares in Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a REIT. The plaintiffs assert claims against Malkin Holdings, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc., Malkin Construction Corp., Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, Empire State Realty OP, L.P., and the REIT ( Defendants ) for breach of fiduciary duty, unjust enrichment and/or aiding and abetting breach of fiduciary duty, alleging, inter alia, that the terms of the transaction and the process in which it was structured (including the valuation which was employed) are unfair to the participants, provides excessive benefits to Malkin Holdings and its affiliates and the prospectus/consent solicitation statement which is part of the registration statement on Form S-4 relating to the consolidation fails to make adequate disclosure. The complaints seek money damages and injunctive relief preventing the proposed transaction. On April 3, 2012, plaintiffs moved for consolidation of the actions and for appointment of co-lead counsel.

The Class Actions are in a very preliminary stage, with no responses to the complaints having been filed to date. The outcome of this litigation is uncertain, however, and as a result, the Defendants may incur costs associated with defending or settling such litigation or paying any judgment if the Defendants lose. In addition, the Defendants may be required to pay damage awards or settlements. At this time, the Defendants cannot reasonably assess the timing or outcome of this litigation, estimate the amount of loss, or assess its effect, if any, on the Defendant s financial statements. Defendants believe the Class Actions are baseless and intend to defend them vigorously.

There is a risk that other third parties will assert claims against the Defendants or the supervisor relating to this transaction, including, without limitation, that the supervisor breached its fiduciary duties to investors in the existing entities or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against the Defendants.

The Company has evaluated events and transactions for potential recognition or disclosure through April 11, 2012 the date the financial statements were available to be issued.

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements**

**1. Organization and Nature of Business**

Empire State Building Company L.L.C. ( *ESB* ) was originally organized on August 15, 1961 as a joint venture to lease and sublease the approximately 2,800,000 square foot office building and Observatory, more commonly known as the Empire State Building situated at 350 Fifth Avenue, New York, New York, (the *Property* ). At June 30, 2012, the *Property* was approximately 66% occupied. On April 2, 1971, *ESB* converted from a joint venture to a general partnership. On December 17, 2001, *ESB* converted from a general partnership to a New York limited liability company and is now known as Empire State Building Company L.L.C. Although limited liability companies are unincorporated associations, their members have limited personal liability for the obligations or debts of the entity similar to stockholders of a corporation.

*ESB* commenced operations on August 15, 1961 and is to continue until the earlier of the complete disposition of all of the *Company*'s assets, unless sooner terminated pursuant to the Operating Agreement or by law.

On February 9, 1962, Empire State Building, Inc. (the *Observatory* or *Inc.* ) was formed to sublease from *ESB* and operate the observation decks located on the 86th and 102nd floors of the *Property*. A new lease was entered into in 2010 (the *2010 Lease* ) under which *Inc.* acted as agent for a joint venture (the *Joint Venture* ) owned 99% by *ESB* and 1% by *Inc.* The *Joint Venture* arrangement has no significant impact on the financial position or results of operations reported in the consolidated financial statements. The *2010 Lease* expired on December 31, 2010 and was not renewed.

On January 1, 2011, *ESB* entered into a lease for the observation decks with Empire State Realty Observatory TRS, LLC (formerly *ESB* Observatory LLC), a newly organized limited liability company owned 99% by *ESB* and 1% by *ESB* 102 Corporation (which, in turn, is owned 100% by *ESB*), for a five-year term commencing January 1, 2011 and expiring December 31, 2015. Empire State Realty Observatory TRS, LLC is to pay fixed annual rent of \$6,700,000, adjusted each year commencing 2012 to reflect the increase in the Consumer Price Index, plus additional rent, as defined in the lease. The new leasing arrangement does not have a significant impact on the financial position or results of operations reported in the consolidated financial statements.

On July 15, 2009, *ESB* Captive Insurance Company L.L.C. (the *Captive* ) was formed in the State of Vermont, as a captive insurance company to insure the *Property* and business interruption risks of *ESB* and the *Observatory*, including, but not limited to, terrorism risks. The *Captive* was formed as a single member limited liability company, wholly owned by *ESB*. For income tax reporting purposes, a single member LLC is classified as a division of its member, accordingly, the single member LLC's taxable income or loss is reportable by its member. The *Captive* reinsures certain coinsurance amounts. There were no losses incurred through June 30, 2012.

**2. Summary of Significant Accounting Policies**

***Principles of consolidation*** The accompanying consolidated financial statements include the accounts of Empire State Building Company L.L.C. and its wholly owned subsidiaries: *ESB* Captive Insurance Company L.L.C., *ESB* 102 Corporation, and Empire State Realty Observatory TRS, LLC; and Empire State Building, Inc. (collectively, the *Company* ).

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles, or GAAP, for interim financial information. In the opinion of the *Company*'s management, all adjustments consisting of normal recurring adjustments, considered necessary for

---

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

the fair presentation of the financial statements have been included. The results of operations for the six months ended June 30, 2012 and 2011 are not necessarily indicative of the results to be expected for any interim period or the full year.

All significant intercompany accounts and transactions have been eliminated in consolidation.

The Company follows the provisions pertaining to noncontrolling interests of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 810, Consolidation. A noncontrolling interest is the portion of equity in a subsidiary not attributable, directly or indirectly, to a parent. Among other matters, the noncontrolling interest standards require that noncontrolling interests be reported as part of equity in the consolidated balance sheet (separately from the controlling interest's equity). The noncontrolling interest standards also require companies to disclose the changes in the noncontrolling interest in the statement of equity or in a separate note to the financial statements; and require that net income include earnings attributable to the noncontrolling interest with disclosure on the face of the statements of income of the amounts attributable to the parent and to the noncontrolling interest.

The Company's interest in Empire State Building, Inc. is classified as a noncontrolling interest in the accompanying consolidated financial statements.

**Variable interest entities** Under FASB ASC 810, Consolidation, when a reporting entity (ESB) is the primary beneficiary of an entity that is a variable interest entity as defined in FASB ASC 810, the variable interest entity must be consolidated into the financial statements of the reporting entity. The determination of the primary beneficiary of a VIE is based on a qualitative rather than a quantitative analysis. An entity is required to consolidate a VIE if it has (i) the power to direct the activities that most significantly impact the entity's economic performance and (ii) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE that could be significant to the VIE.

Prior to January 1, 2011, ESB had determined that both Inc. and the Joint Venture were VIEs of which ESB was the primary beneficiary. As a result, ESB consolidated both the Joint Venture and Inc. at December 31, 2010, as ESB through its design of the Joint Venture and Inc. and its lease to the Joint Venture, had both the power to direct the activities that most significantly impact both the Joint Venture and Inc.'s economic performance and the obligation to absorb losses of both the Joint Venture and Inc. and the right to receive benefits from both the Joint Venture and Inc. that could be significant to both the Joint Venture and Inc.

On January 1, 2011, ESB deconsolidated the Joint Venture as a result of the expiration of the 2010 Lease. As of June 30, 2012, ESB continued to report an estimated \$740,000 income tax liability relating to uncertain tax positions of Inc. as ESB is responsible for such liability.

The deconsolidation of the Joint Venture had no impact on ESB's consolidated balance sheets and statement of income as ESB owned 99% of the Joint Venture.

The aggregate assets, liabilities and deficit of Inc. as of June 30, 2012 were \$4,574,414, \$5,210,999 and \$(636,585), respectively, and net income for the six months ended June 30, 2012 consisted of an income tax benefit of \$1,170,000. The liabilities of Inc. consist of \$740,000 of income tax liability and approximately \$4,470,000 of intercompany payable due to ESB, which eliminates in consolidation. The aggregate assets, liabilities and deficit of Inc. as of December 31, 2011 were \$4,574,414, \$6,380,999 and \$(1,806,585), respectively, and net income for the year ended December 31, 2011 consisted of an income tax benefit of \$1,200,000. The liabilities of Inc. consist of \$1,910,000 of income tax liability and approximately \$4,470,000 of intercompany payable due to ESB, which eliminates in consolidation. The net income of Inc. for the six months ended June 30, 2011 consisted of an income tax benefit of \$1,260,000.

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

**Revenue recognition:**

**Empire State Building Company L.L.C.** Minimum rental revenue is recognized on a straight-line basis over the terms of the subleases. The excess of rents so recognized over amounts contractually due pursuant to the underlying subleases is included in unbilled rents receivable on the accompanying balance sheets. Leases generally contain provisions under which tenants reimburse the Company for a portion of property operating expenses, real estate taxes and other recoverable costs. Receivables for escalation and expense reimbursements are accrued in the period to which they relate. Rental payments received before they are recognized as income are recorded as deferred income.

ESB provides an estimated allowance for uncollectible rent and loans receivable based upon an analysis of tenant and loan receivables and historical bad debts, tenant concentrations, tenant credit worthiness, tenant security deposits (including letters of credit and lease guarantees provided by the tenant), current economic trends and changes in tenant payment terms. Rent receivable is shown net of an estimated allowance for doubtful accounts of \$601,943 at June 30, 2012 (\$1,455,000 at December 31, 2011). Unbilled rent receivable is shown net of an estimated allowance for doubtful accounts of \$741,507 at June 30, 2012 (\$710,000 at December 31, 2011).

**Empire State Realty Observatory TRS, LLC and Empire State Building, Inc.** Revenues from the sale of Observatory tickets are recognized upon admission. Deferred income related to unused and unexpired tickets as of June 30, 2012 and December 31, 2011 was approximately \$4,210,000 and \$3,400,000, respectively.

Empire State Realty Observatory TRS, LLC provides an estimated allowance for uncollectible accounts receivable based upon an analysis of accounts receivable and historical bad debts, customer credit worthiness, current economic trends and changes in payment terms. Management believes no allowance is necessary for outstanding accounts receivable balances at June 30, 2012 and December 31, 2011.

**Cash and cash equivalents** The Company considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

At times the Company has demand and other deposits with a bank in excess of federally insured limits. The possibility of loss exists if the bank holding uninsured deposits were to fail.

**Property** The Company reviews real estate assets for impairment whenever events or changes in circumstances indicate the carrying amount of assets to be held and used may not be recoverable. Impairment losses are recognized when the estimated undiscounted cash flows expected to be generated by those assets are less than the assets' carrying amount. Impaired assets are recorded at their estimated fair value calculated based on the discounted cash flows expected to be generated by the asset. No impairment loss has been recorded for the six months ended June 30, 2012 and 2011.

**Depreciation and amortization** Depreciation is computed by the straight-line method over the estimated useful lives of forty years for the leasehold improvements and seven years for equipment. The leasehold is being depreciated by the straight-line method over the term of the sublease. Subtenant improvements, leasing commissions and leasing costs are amortized by the straight-line method over the terms of the related tenant leases.

Repairs and maintenance are charged to expense as incurred. Expenditures which increase the useful lives of the assets are capitalized.

**Sales tax** Sales tax collected by ESB from tenants for sub-metered electricity is presented in the financial statements on a gross basis and, accordingly, included in revenue and expenses. Observatory admission ticket sales are reported net of sales tax and, accordingly, excluded from revenue and expenses.

---

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

**Income taxes** ESB and Empire State Realty Observatory TRS, LLC are not subject to federal and state income taxes and, accordingly, make no provision for federal and state income taxes in the accompanying financial statements. ESB's rental operations are not subject to local income taxes. ESB's taxable income or loss (which includes the income or loss of the Captive) is reportable by its members.

Inc. has elected to be taxed under the Subchapter S provisions of the Internal Revenue Code and applicable New York State income tax law effective January 1, 1971. Accordingly, the Company has not provided for federal or state income taxes since all income is passed through directly to the stockholders for the six months ended June 30, 2012 and 2011. ESB and Empire State Realty Observatory TRS, LLC are subject to New York City Unincorporated Business tax which totaled approximately \$386,000 and \$400,000 for the six months ended June 30, 2012 and 2011, respectively. ESB 102 Corporation is subject to federal, New York State and New York City corporation tax, which totaled approximately \$18,500 and \$32,000 for the six months ended June 30, 2012 and 2011, respectively.

The Company follows the provisions pertaining to uncertain tax positions of FASB ASC 740, Income Taxes, which provides a financial statement recognition threshold and measurement attribute for a tax position taken or expected to be taken in a tax return. Under FASB ASC 740 the tax benefit from an uncertain tax position may only be recognized if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Among other matters, FASB ASC 740 also provides guidance on accounting for interest and penalties associated with tax positions. As of June 30, 2012, the Company has recorded a liability of \$740,000 for uncertain tax positions, which is included in accounts payable and accrued liabilities on the Company's consolidated balance sheet (including \$240,000 of accrued interest and penalty). During the six months ended June 30, 2012 and 2011, the Company recorded a tax benefit of \$1,170,000 and \$1,260,000 (inclusive of reductions in interest and penalties of \$380,000 and \$390,000) as a component of Observatory Income, net on the accompanying consolidated statement of income. The liability is based on amounts of possible outcomes, using facts, circumstances and information available at the reporting date. Interest and penalties are included as a component of income tax benefit on the accompanying consolidated statements of income.

Taxable years ended December 31, 2009, 2010 and 2011 are subject to IRS and other jurisdictions tax examinations.

**Advertising** The Company expenses advertising costs as incurred. The Company incurred advertising costs of \$2,213,636 and \$1,996,645, respectively (inclusive of \$1,195,711 and \$1,013,137, respectively, incurred by Empire State Realty Observatory TRS, LLC), for the six months ended June 30, 2012 and 2011.

**Environmental costs** The Property contains asbestos. The asbestos is appropriately contained, in accordance with current environmental regulations. As certain demolition of the space occurs, environmental regulations are in place, which specify the manner in which the asbestos must be handled and disposed. Because the obligation to remove the asbestos has an indeterminable settlement date, the Company is unable to reasonably estimate the fair value of this obligation. Asbestos abatement costs are charged to expense as incurred.

**Estimates** The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates. The Company regards the allowance for uncollectible rents (including unbilled rent receivable) as being particularly sensitive. Further, when tenants experience financial difficulties, uncertainties associated with assessing the recoverability of subtenant improvements and leasing commissions increase.

**Table of Contents****Empire State Building Company L.L.C. and Affiliates****Notes to Consolidated Financial Statements (continued)**

Other items subject to such estimates and assumptions include the determination of the useful life of real estate and other long-lived assets as well as the valuation and impairment analysis of real property and other long-lived assets.

The real estate industry has historically been cyclical and sensitive to changes in economic conditions such as interest rates, credit availability and unemployment levels. Changes in these economic conditions could affect the assumptions used by management in preparing the accompanying financial statements.

**New accounting pronouncements** In May 2011, the FASB issued ASU 2011-04, Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP. This ASU provides guidance setting forth additional requirements relating to disclosures about fair value. In accordance with the guidance the Company requires additional disclosures, including: (i) quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion about the sensitivity of the measurements to changes in the unobservable inputs, for Level 3 fair value measurements; (ii) fair value of financial instruments not measured at fair value but for which disclosure of fair value is required, based on their levels in the fair value hierarchy; and (iii) transfers between Level 1 and Level 2 of the fair value hierarchy. For nonpublic companies this ASC is effective for annual periods beginning on or after December 15, 2011. The adoption of this update on January 1, 2012 did not have a material impact on our consolidated financial statements.

In September 2011, the FASB issued ASU 2011-9, Compensation-Retirement Benefits-Multiemployer Plans (Subtopic 715-80): Disclosures about an Employer's Participation in a Multiemployer Plan. The ASU requires substantially more disclosures regarding the multiemployer plan the Company participates in, the nature of the Company's commitment to the plan and other disclosures. The current recognition and measurement guidance is unchanged. The Company is evaluating the disclosures required under the ASU. For nonpublic companies this ASU is effective for annual periods for fiscal years ending after December 15, 2012.

**3. Members' Equity**

Profits, losses and distributions are allocated to the members pursuant to the Company's Operating Agreement.

The Company must maintain minimum capital and surplus of \$250,000 in accordance with Vermont captive insurance regulations.

**4. Deferred Charges**

Deferred charges consist of the following as of:

|  | June 30,<br>2012     | December 31,<br>2011 |
|--|----------------------|----------------------|
| Leasing commissions                    | \$ 19,987,788        | \$ 20,315,761        |
| Leasing costs and other deferred costs | 860,166              | 872,891              |
|  | 20,847,954           | 21,188,652           |
| Less accumulated amortization          | 9,368,190            | 8,796,389            |
| <b>Total</b>                           | <b>\$ 11,479,764</b> | <b>\$ 12,392,263</b> |

**Table of Contents****Empire State Building Company L.L.C. and Affiliates****Notes to Consolidated Financial Statements (continued)****5. Loans Receivable**

During 2010, the Company entered into lease modification agreements with two tenants which had rent receivable balances in arrears totaling \$1,399,909. Interest income is recognized using the effective interest method and recognized on the accrual basis. As of June 30, 2012, loans receivable consist of the following:

| Date of Loan      | Outstanding<br>Principal Balance | Interest Rate    | Maturity         |
|-------------------|----------------------------------|------------------|------------------|
| February 28, 2010 | \$ 965,694                       | LIBOR (*) + 3.5% | December 1, 2024 |
| December 28, 2010 | 210,000                          | Prime (**)+ 3.0% | December 1, 2015 |
|                   | <b>\$ 1,175,694</b>              |                  |                  |

(\*) 0.0466% (three month LIBOR) at June 30, 2012.

(\*\*) 3.25% at June 30, 2012.

Future principal payments due are as follows:

|  |                     |
|--|---------------------|
| 2012 (six months ending December 31, 2012) | \$ 60,000           |
| 2013                                       | 122,000             |
| 2014                                       | 125,000             |
| 2015                                       | 127,000             |
| 2016                                       | 70,000              |
| 2017                                       | 73,000              |
| Thereafter                                 | 598,694             |
|  | <b>\$ 1,175,694</b> |

**6. Related Party Transactions**

ESB (the Lessee) entered into a lease agreement with Empire State Building Associates L.L.C. (the Lessor) which was set to expire on January 4, 2013. On February 11, 2010, the Company exercised the remaining lease renewal options for the period January 4, 2013 to January 4, 2076. The lease provides for an annual basic minimum rent equal to \$6,018,750 through January 4, 2013; thereafter, the annual basic minimum rent is equal to \$5,895,625.

In accordance with the 3<sup>rd</sup> lease modification dated as of July 26, 2011, the minimum basic rent described above has been increased to cover debt service on the outstanding principal balance (in an amount not to exceed \$159,000,000 without the Lessee's consent) in excess of \$60,500,000 on the Lessor's \$300,000,000 new mortgage Loan obtained July 26, 2011 (the Loan), of which \$159,000,000 has been advanced as of December 31, 2011. Provided no event of default has occurred, and subject to other conditions, upon Lessor's request, HSBC has also agreed to source further additional commitments aggregating up to \$200,000,000 in the sole discretion of the lenders. Any further advances under the Loan are subject to the consent of Lessee.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

On July 26, 2011, the Lessor closed on a new mortgage loan with HSBC Bank USA and other participating banks (the Lenders ) with an initial advance of \$159,000,000 to be used to pay and discharge all existing mortgage loans secured by the Property, to fund operations and working capital requirements relating to the Property (including for improvements) and certain other general purposes. Subject to the conditions set forth in the Loan agreement, the Lenders may provide the Lessor with additional advances of up to \$76,000,000 and use commercially reasonable efforts to arrange for additional commitments from other financial institutions in an

F-150

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

aggregate amount equal to \$65,000,000. On November 2, 2011 the Loan was amended to increase the loan amount to \$300,000,000. An additional \$30,000,000 was drawn on the Loan on April 5, 2012 bringing the total amount advanced to \$189,000,000. Under the fourth modification of the sublease dated as of April 5, 2012, the Company agreed to an increase in basic rent to cover the debt service on such \$30,000,000 draw. An additional \$30,000,000 was drawn on the Loan on July 9, 2012 bringing the total amount advanced to \$219,000,000. Under the fifth modification of the sublease dated as of July 9, 2012, the Company agreed to an increase in basic rent to cover the debt service on such \$30,000,000 draw. The Lessor must also maintain a debt yield as specified in the Loan. Subject to the terms and conditions of the Loan, the outstanding principal amount of the loan shall bear interest at a rate equal to 2.5% per annum above 30-day LIBOR, unless such rate is not available, in which event the Loan would bear interest at 2.5% per annum in excess of (i) HSBC's prime rate or (ii) the BBA LIBOR Daily Floating Rate. The aggregate rate was 2.74% at June 30, 2012. The Lessor is obligated to repay the outstanding amount of the Loan plus accrued and unpaid interest and all other amounts due under the Loan and related documents on July 26, 2014, which the Lessor may extend to July 26, 2015 and thereafter to July 26, 2016, in each case, subject to an extension fee of 0.25% of the total availability under the Loan at the time of such extension. Such extensions are subject to customary conditions, including the maintenance of a certain loan-to-value ratio and debt yield and the absence of an event of default. The Lessor incurred a prepayment penalty of approximately \$2,400,000 in connection with the repayment of the old notes.

Improvement and tenanting costs funded out of the proceeds from the Lessor's mortgage loans which are secured by the Property are borne by the Lessor and capitalized as property improvements or tenanting costs in the Lessor's financial statements. Improvement and tenanting costs funded out of the ESB's operating cash flow are borne by ESB and are capitalized in its financial statements as leasehold improvements or tenanting costs.

In connection with the July 2011 refinancing of Lessor's mortgage loans with the new \$159,000,000 mortgage, approximately \$58,000,000 became available to fund property improvements and tenanting costs allowing reimbursement to the Company subsequent to June 30, 2011 of approximately \$34,000,000 it had incurred and recorded on its financial statements during the first six months of 2011 for fixed asset additions of \$24,400,000 and deferred leasing costs of \$9,600,000. The foregoing was effected in the third quarter of 2011 and resulted in 1) Company's removal of such asset additions and Lessor's recording of same on its financial statements, and 2) Company's accrual of overage rent payable to the Lessor equal to approximately 50% thereof. Through June 30, 2012, the Company has incurred approximately \$100,820,000 for improvements and tenanting costs.

In accordance with the 2<sup>nd</sup> lease modification dated as of February 25, 2009, the minimum basic rent described above was increased to cover debt service on the Lessor's \$31,500,000 second mortgage loan obtained on February 25, 2009 that was repaid on July 26, 2011 with the proceeds from the Loan described above. The basic rent was increased to cover debt service, which consisted of only interest during the period the second mortgage loan was outstanding and totaled \$1,038,000 for the six months ended June 30, 2011.

The lease also provides for additional rent ( Overage Rent ) through all renewal terms equal to 50% of the Lessee's annual net operating profit, as defined, in excess of \$1,000,000, in each lease year.

In addition to the above, the Lessee is required to pay for all operating and maintenance expenses, real estate taxes, and necessary repairs and replacements, and keep the Property adequately insured against fire and accident.

Beginning in 2008 when participants in the Lessor consented to a building improvements program (the Program ), a program has been undertaken by the Company to maintain and enhance the Property, and its competitive position. Through June 30, 2012 the Company has incurred costs related to the Program of

**Table of Contents****Empire State Building Company L.L.C. and Affiliates****Notes to Consolidated Financial Statements (continued)**

approximately \$143,466,000 (which consisted of building improvements and tenant leasing costs of approximately \$80,508,000 and \$62,958,000, respectively), and the Lessor has incurred costs related to the Program of approximately \$110,981,000 (which consisted of building improvements and tenant leasing costs of approximately \$52,913,000 and \$58,068,000, respectively). In addition, during the period from 2006-2008, the Company incurred building improvement costs of \$15,684,000. The Company currently estimates that the total costs of all Program-related projects will be approximately \$670,000,000 to \$690,000,000. Lessor intends to seek additional financing to fund future Property improvements and tenancing costs.

The Company is financing the Program and billing the Lessor for certain costs incurred. The Program (1) grants the ownership of improvements and tenancing costs funded by Lessor to Lessor and acknowledges Lessor's desire to finance such costs through an increase in the fee mortgage, and (2) allows for the increased mortgage charges to be paid by Lessor from an equivalent increase in basic rent paid by the Company, all to the extent the Company joins Lessor in approving such mortgage increase. Since additional rent will be decreased by one-half of that increase in basic rent, the net effect of the lease modification is to have the Company and Lessor share the costs of the Program equally, assuming the Company's profitability continues to obligate it to pay overage rent.

In connection with the Loan, the Company has assigned all subleases and rents to the lender as additional collateral.

The following is a schedule of future minimum rental payments as of June 30, 2012 (based on the current amount of the Lessor's outstanding mortgage obligation (including the additional \$30,000,000 advance received on April 6, 2012 and the \$30,000,000 advance received on July 9, 2012) and assuming there are no additional principal drawdowns, the Loan continues to bear interest at the aggregate rate in effect as of June 30, 2012 and the Loan is repaid on its initial maturity date):

|  |                       |
|--|-----------------------|
| 2012 (six months ending December 31, 2012) | \$ 5,230,000          |
| 2013                                       | 10,310,000            |
| 2014                                       | 9,510,000             |
| 2015                                       | 5,900,000             |
| 2016                                       | 5,900,000             |
| 2017                                       | 5,900,000             |
| Thereafter                                 | 342,000,000           |
|  | <b>\$ 384,750,000</b> |

Due from Supervisor at June 30, 2012 and 2011 represents cash held on our behalf by the Supervisor.

Due to Lessor at June 30, 2012 of \$6,490,628 represents advances made for building improvements and tenant escrows made on its behalf. Due from Lessor at December 31, 2011 of \$6,067,806 represents unpaid outlays for building improvements made on its behalf.

Distributions are paid from a cash account held by Malkin Holdings. That account is reflected on the balance sheet as Due from Supervisor.

Supervisory and other services are provided to the Company by its Supervisor, Malkin Holdings LLC ( Malkin Holdings ), a related party.

Beneficial interests in the Company are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

**Table of Contents****Empire State Building Company L.L.C. and Affiliates****Notes to Consolidated Financial Statements (continued)**

Fees and payments to Malkin Holdings during the six months ended June 30, 2012 and 2011, are as follows:

|   | 2012              | 2011              |
|---|-------------------|-------------------|
| Basic supervisory fees  | \$ 300,216        | \$ 287,000        |
| Offering costs for work done by the employees of the Supervisor | 314,863*          | 221,200*          |
| Other fees and disbursements                                    | 130,122*          | 270,785*          |
| Service fee on security deposit accounts                        | 14,801            | 22,988            |
| <b>Total</b>  | <b>\$ 760,002</b> | <b>\$ 801,973</b> |

\* Included in other professional fees in the Consolidated Statements of Income.

For administration and investment of each tenant security deposit account, Malkin Holdings has earned since 1973 a service fee of 1% of the account balance, which fee totaled \$14,801 and \$22,988 for the six months ended June 30, 2012 and 2011, respectively. As this service fee is deducted from interest otherwise payable to tenants, these financial statements show no related expense to the Company.

Through June 30, 2012, the Company has been charged an aggregate of \$13,372,544, \$3,964,813 for the six months ended June 30, 2012 included in acquisition fees and professional fees, of which \$1,792,258 is included in accrued liabilities at June 30, 2012, to reimburse Malkin Holdings for services and third-party fees it had advanced in connection with a proposed consolidation of the Company, other public and private entities supervised by Malkin Holdings and Malkin Holdings and certain affiliated management companies into Empire State Realty Trust, Inc., a newly formed real estate investment trust (collectively the Consolidation) and the initial public offering of Class A common stock of Empire State Realty Trust, Inc. (the IPO). Prior to the fourth quarter of 2011, acquisition fees were capitalized. Beginning in the fourth quarter of 2011, the Company determined that such costs should be written off and charged to expense. Such fees are borne entirely by the Company and are not shared indirectly with the Lessor through Overage Rent deductions. If the Consolidation and IPO is completed, the Company will be reimbursed for all such costs from the proceeds of the IPO.

Under separate agreements to which the Company is not a party, Malkin Holdings, members of Mr. Malkin's immediate family and other persons having no management role or ownership interest in Malkin Holdings receive additional payments from investors in the Company in varying percentages, based upon current year distributions. These third party payments do not impose any obligation upon the Company or affect its assets and liabilities.

Malkin Holdings also serves as supervisor for the Company's Lessor and receives from Lessor a basic annual fee and a payment in respect of a profits interest based on distributions to Lessor's investors. Beneficial interests in Lessor are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

**Table of Contents****Empire State Building Company L.L.C. and Affiliates****Notes to Consolidated Financial Statements (continued)****7. Rental Income Under Operating Subleases**

Future minimum rentals (including antenna license fees) assuming neither renewals nor extensions of leases which may expire during the periods, on noncancelable operating leases in effect as of June 30, 2012 are as follows:

|  |                |
|--|----------------|
| 2012 (six months ending December 31, 2012) | \$ 44,760,000  |
| 2013                                       | 95,330,000     |
| 2014                                       | 92,140,000     |
| 2015                                       | 88,870,000     |
| 2016                                       | 78,070,000     |
| 2017                                       | 74,660,000     |
| Thereafter                                 | 408,060,000    |
|  | \$ 881,890,000 |

At June 30, 2012, two tenants, a consumer goods sourcing company and a fragrance company, comprised approximately 44% of future minimum rental income. There were no other tenants which comprised over 10% of the future minimum rental income.

In connection with a lease entered into during 2008, the Company was required to escrow funds for the Company's contribution for improvement work to be performed. These funds will be disbursed as the work is completed (as defined).

In March 2012, the Company concluded an agreement with New York City for a reduction in real estate taxes for the tax years 2002/2003 - 2011/2012 resulting in gross tax savings of approximately \$16,900,000, of which approximately \$12,400,000 will be in the form of a refund and the balance through future tax reductions to be phased in through 2012/2016. For the six months ended June 30, 2012, the Company recorded a real estate tax refund of \$9,124,934 which is net of professional fees totaling \$1,735,010 (including \$867,505 paid to Malkin Holdings) and \$1,516,799 of real estate tax escalation rent over-billings (resulting from the tax reduction) due to existing tenants.

**8. Leasing Agreements**

The Company has engaged Newmark Knight Frank ( NKF ) as leasing agent for the non-retail space of the Property. There were no NKF leasing commissions incurred for the six months ended June 30, 2012. For the six months ended June 30, 2011, NKF commissions capitalized by Company totaled approximately \$3,471,000 which were subject to reimbursement by the Lessor (see Note 6).

The Company has engaged CB Richard Ellis, Inc. ( CBRE ) as leasing agent for the retail space of the Property. There were no CBRE leasing commissions incurred for the six months ended June 30, 2012. For the six months ended June 30, 2011, CBRE earned commissions totaling approximately \$308,000 which were subject to reimbursement by the Lessor (see Note 6).

**9. Multiemployer Pension Plan**

In connection with the Company's collective-bargaining agreements with the Service Employees Janitorial Union - Local 32B-32J and the Central Pension Fund - Local 94, the Company participates with other companies in two defined benefit pension plans. The plans cover all of the Company's janitorial and engineering

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

employees who are members of the union. These plans are not administered by the Company and contributions are determined in accordance with provisions of negotiated labor contracts. ESB incurred union pension and welfare expense (which is included in payroll and related costs) of approximately \$1,516,000 and \$1,274,000, respectively, for the six months ended June 30, 2012 and 2011. Empire State Observatory Realty TRS, LLC incurred union pension and welfare expense of approximately \$1,371,000 and \$1,195,000, respectively, (which is included in payroll and related costs - see Note 12) for the six months ended June 30, 2012 and 2011.

Under the Employee Retirement Income Security Act of 1974, as amended by the Multiemployer Pension Plan Amendments Act of 1980, an employer is liable upon withdrawal or termination of a multiemployer plan for its proportionate share of the plan's unfunded vested benefits liability. Management has no intention of undertaking any action which could subject the Company to the obligation.

**10. Pension Plan**

The Company maintains a 401(k) defined contribution plan (the "Plan") which covers substantially all employees of the Company who meet the eligibility requirements set forth in the Plan documents.

The Plan allows the Company to make discretionary employer contributions. There were no employer contributions for the six months ended June 30, 2012 and 2011. The Plan may be terminated at the option of the Company.

**11. Fair Value of Financial Instruments**

Cash and cash equivalents (including tenant improvement escrow), accounts receivable, rent receivable, due from Lessor, due from Supervisor, tenant security deposit payable, accounts payable and accrued liabilities, and due to Lessor are carried at amounts which reasonably approximate their fair values, due to the short maturities of the instruments. Loans receivable are carried at amounts which reasonably approximate their fair values at inception due to no known changes in the credit worthiness of the borrowers.

**Table of Contents****Empire State Building Company L.L.C. and Affiliates****Notes to Consolidated Financial Statements (continued)****12. Observatory Operations**

The operations of the Empire State Building Observatory are summarized as follows:

|   | <b>Six Months Ended June 30,</b> |                      |

**13. Litigation**

The Company is a party to certain routine legal actions and complaints arising in the ordinary course of business. In the opinion of management, all such matters are adequately covered by insurance, or, if not so covered, are without merit or are of such kind or involve such amounts, that an unfavorable disposition would not have a material effect on the financial position of the Company.

(1) 1997 Arbitration/Litigation Proceeding

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Malkin Holdings and Peter L. Malkin, a member in the Company, were engaged in a proceeding with Helmsley-Spear, Inc. commenced in 1997, concerning the management, leasing and supervision of the Property, in which Malkin Holdings and Mr. Malkin sought an order removing Helmsley-Spear. In this connection, certain costs for legal and professional fees and other expenses were paid by Malkin Holdings and Mr. Malkin. Malkin

F-156

---

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

Holdings and Mr. Malkin have represented that such costs will be recovered only to the extent that (a) a competent tribunal authorizes payment by the Company or (b) an investor voluntarily agrees that his or her proportionate share be paid. Mr. Malkin has requested, or intends to request, such voluntary agreement from all investors, which may include renewing such request in the future for any investor who previously received such request and failed to confirm agreement at that time. Because any related payment has been, or will be, made only by consenting investors, the Company has not provided for the expense and related liability with respect to such costs in these consolidated financial statements and such consent has not been received at June 30, 2012.

The original action was commenced in June 1997 and was referred to arbitration. The March 30, 2001 decision of the Arbitrators, which was confirmed by the court, (i) reaffirmed the right of the investors to vote to terminate Helmsley-Spear without cause, (ii) dismissed Helmsley-Spear's claims against Malkin Holdings and Peter Malkin, and (iii) rejected the termination of Helmsley-Spear for cause. The parts of the decision under appeal were initially affirmed by the Appellate Division, and the New York Court of Appeals declined to review such ruling. On October 6, 2003, the United States Supreme Court granted Malkin Holdings' petition, vacated the judgment of the Appellate Division and remanded the case to the New York court.

On October 14, 2004, the Appellate Division issued a unanimous decision reversing the Arbitrators. The Appellate Division decided (i) that there was a covert assignment without the Company's knowledge or consent and (ii) that the corporation controlled by Irving Schneider and now named Helmsley-Spear, which had represented itself to be the Company's managing agent since September 1997, in fact never received a valid assignment to become the Company's managing agent. The Company's previously authorized managing agent, the original corporation named Helmsley-Spear, was owned by Harry B. Helmsley and had become inactive. On February 21, 2006, the Court of Appeals reversed the decision of the Appellate Division and reinstated the decision of the Arbitrators, including items (i), (ii) and (iii) in the preceding paragraph. On July 21, 2006, Malkin Holdings filed a certiorari petition seeking review by the U.S. Supreme Court, which it later withdrew as part of the August 29, 2006 settlement agreement terminating claims broadly by exchange of general releases between Helmsley-Spear, Irving Schneider, and their related parties, on one hand, and Leona M. Helmsley, Peter L. Malkin, Malkin Holdings, various property owners supervised by Malkin Holdings, and their related parties, on the other.

(2) 1998-2002 Irving Schneider Actions against the Company's Supervisor and Member

In January 1998, Irving Schneider, who was then one of the controlling principals of Helmsley-Spear and has never had a record or beneficial interest in the Company, brought litigation against the Company's supervisor, Malkin Holdings, and member, Peter L. Malkin, claiming misconduct and seeking damages and disqualification from performing services for the Company. In March 2002, the court dismissed Mr. Schneider's claims. Although Mr. Schneider thereafter appealed the dismissal, the claim was withdrawn prior to 2006.

Also in April 2002, an attorney whose fees were reportedly paid by Mr. Schneider submitted to the Departmental Disciplinary Committee of the Appellate Division of the Supreme Court of New York, First Department, copies of Mr. Schneider's complaints in the foregoing and related litigation with such attorney's letter asserting that the activities of Mr. Malkin and Malkin Holdings, as alleged in those complaints, violated the Code of Professional Responsibility. No action was ever taken by the Disciplinary Committee against Mr. Malkin or Malkin Holdings regarding any of these matters.

During 2002, acting upon a complaint of Mr. Schneider and his attorney, the Manhattan District Attorney's Office conducted an investigation of Mr. Malkin and Malkin Holdings regarding Malkin Holdings' receipt of a 1% fee for administering the tenant security accounts of the Company and other supervised entities. Malkin

---

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

Holdings made submissions through counsel to show that the fee was expressly permitted under statute and was in accord with prior agreement. By letter dated July 23, 2002, the District Attorney's Office advised that it had concluded its investigation and that no charge would be brought against Mr. Malkin or Malkin Holdings.

In accord with a written legal opinion from Thelen Reid & Priest dated April 29, 2005, both Malkin Holdings and Mr. Malkin are entitled to reimbursement from the Company for their expenses to various service providers (including Dewey, Pegno & Kramarsky and Malkin Holdings) in the successful defense against all these Section (2) claims to the extent relating to the Company, as follows: (a) \$238,069 for the successful defense against the 1998-2002 litigations, (b) \$39,621 for the successful defense against Mr. Schneider's complaint to the District Attorney, and (c) \$13,827 for the successful defense against the related complaint to the Disciplinary Committee. These reimbursements were deferred without any charge for interest until the Company's operations were stabilized and its cash and borrowing position permitted payment in June 2008.

All reimbursed expenses funded by the Company under this Section (2) were deducted in computing Overage Rent under the Lease with the Company's Lessor. Accordingly, the Company effectively bore only 50% of such expenses.

**(3) 2006 Settlement Agreement**

As stated above, the August 29, 2006 settlement agreement terminated Helmsley-Spear, Inc. as managing and leasing agent at the Property as of August 30, 2006. The Company is now self-managing the Property, while engaging third party leasing agents, CB Richard Ellis, Inc. for retail space since August 30, 2006 and Newmark Knight Frank for non-retail space since October 21, 2009.

Based upon relative building area and revenue among all the properties at which Helmsley-Spear was terminated pursuant to the settlement agreement, the Company's allocable share of the contract settlement payment was \$3,056,000. Such amount was funded during 2006 with \$1,834,000 from the Company's cash reserves and \$1,222,000 by a capital contribution to the Company from Mrs. Helmsley. There was no change in Mrs. Helmsley's share of the Company's distributions and profits as a result of such capital contribution, but an equivalent amount of the settlement expense was allocated to her.

The Company's allocable share of the fees to service providers (including Dewey, Pegno & Kramarsky and Malkin Holdings) in connection with the settlement and related transition is \$405,174, including preparation of a draft solicitation for a vote to remove Helmsley-Spear, submission to the Real Estate Board of New York of claims regarding Helmsley-Spear, negotiation and conclusion of the settlement agreement, and conclusion of a new leasing agreement with CB Richard Ellis. These fees were advanced by Malkin Holdings without any charge for interest and, pursuant to consent of the Company's members, reimbursed by the Company in June 2008.

The expenses funded by the Company under this Section (3) were deducted in computing Overage Rent under the Lease with the Company's Lessor. Accordingly, the Company effectively bore only 50% of such expenses.

In March 2012, five putative class actions (the "Class Actions") were filed in New York State Supreme Court, New York County by participants in Empire State Building Associates L.L.C. and several other entities supervised by Malkin Holdings that own fee or leasehold interests in various properties located in New York City (on March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and March 19, 2012). The plaintiffs assert claims against Malkin Holdings, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc., Malkin Construction Corp., Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, Empire State Realty OP, L.P., and Empire State Realty Trust, Inc. ("Defendants") for breach of

---

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

fiduciary duty, unjust enrichment, and/or aiding and abetting breach of fiduciary duty. They allege, among other things, that the terms of the transaction and the process in which it was structured (including the valuation that was employed) are unfair to the investors in the existing entities, the consolidation provides excessive benefits to Malkin Holdings and its affiliates and the then-draft prospectus/consent solicitation statement which is part of the registration statement on Form S-4 filed with the SEC relating to the consolidation failed to make adequate disclosure to permit a fully-informed decision about the proposed transaction. The complaints seek money damages and injunctive relief preventing the consolidation. The actions were consolidated and co-lead plaintiffs' counsel were appointed by the New York State Supreme Court by order dated June 26, 2012.

The parties entered into a Stipulation of Settlement dated September 28, 2012, resolving the Class Actions. The Stipulation of Settlement recites that the consolidation was approved by overwhelming consent of the private entity participants. The Stipulation of Settlement states that counsel for the plaintiff class satisfied themselves that they have received adequate access to relevant information, including the independent valuer's valuation process and methodology, that the disclosures in the registration statement on Form S-4, as amended, are appropriate, that the transaction presents potential benefits, including the opportunity for liquidity and capital appreciation, that merit the participants' serious consideration and that each of the named class representatives intends to support the transaction as modified. The Stipulation of Settlement further states that counsel for the plaintiff class are satisfied that the claims regarding tax implications, enhanced disclosures, appraisals and exchange values of the properties that would be consolidated into the company, and the interests of the participants in the public entities and the private entities have been addressed adequately, and they have concluded that the settlement pursuant to the Stipulation of Settlement and opportunity to consider the proposed transaction on the basis of revised consent solicitations are fair, reasonable, adequate and in the best interests of the plaintiff class.

Defendants in the Stipulation of Settlement denied that they committed any violation of law or breached any of their duties and did not admit that they had any liability to the plaintiffs.

The terms of the settlement include, among other things (i) a payment of \$55 million, with a minimum of 80% in cash and maximum of 20% in freely-tradable shares of common stock and/or freely-tradable operating partnership units (all of which will be paid by affiliates of Malkin Holdings (provided that no affiliate of Malkin Holdings that would become a direct or indirect subsidiary of Empire State Realty Trust, Inc. in the consolidation will have any liability for such payment) and the Estate of Leona M. Helmsley and certain participants in the private entities who agree to contribute) to be distributed, after reimbursement of plaintiffs' counsel's court-approved expenses and payment of plaintiffs' counsel's court-approved attorneys' fees, and, in the case of the shares of common stock and/or operating partnership units, after the termination of specified lock-ups periods, to participants in the public entities and the private entities pursuant to a plan of allocation to be prepared by counsel for plaintiffs; (ii) Defendants' agreement that (a) the initial public offering will be on the basis of a firm commitment underwriting; (b) if, during the solicitation period of the public entities, any of the three public entities' percentage of total exchange value is lower than what is stated in the final prospectus/consent solicitation by 10% or more, such decrease will be promptly disclosed by Defendants to participants in the public entities; and (c) unless total gross proceeds of \$600,000,000 are raised in the initial public offering, Defendants will not proceed with the transaction without further approval of the public entities, and (iii) Defendants' agreement to make additional disclosures in the prospectus/consent solicitation which is part of the registration statement on Form S-4 regarding certain matters (which are included therein). Participants in the public entities and private entities will not be required to bear any portion of the settlement payment. The payment in settlement of the claim will be made by the Estate of Leona M. Helmsley and affiliates of Malkin Holdings (provided that no affiliate of Malkin Holdings that would become a direct or indirect subsidiary of Empire State Realty Trust, Inc. in the consolidation will have any liability for such payment) and certain participants in the private entities who agree to participate. Empire State Realty Trust, Inc. and Empire State Realty OP, L.P. will not bear any of the settlement payment.

**Table of Contents**

**Empire State Building Company L.L.C. and Affiliates**

**Notes to Consolidated Financial Statements (continued)**

The settlement further provides for the certification of a class of participants in the three public entities and all of the private entities, other than Defendants and other related persons and entities, and a release of any claims of the members of the class against Defendants and related persons and entities, as well as underwriters in the initial public offering and other advisors. The release in the settlement excludes certain claims, including but not limited to, claims arising from or related to any supplement to the registration statement on Form S-4 that is declared effective to which the plaintiffs' counsel objects in writing, which objection will not be unreasonably made or delayed, so long as plaintiffs' counsel has had adequate opportunity to review such supplement. Members of the putative class have the right to opt out of the monetary portion of the settlement, but not the portion providing for equitable relief. The settlement is subject to court approval. It is not effective until such court approval is final, including the resolution of any appeal. Defendants continue to deny any wrongdoing or liability in connection with the allegations in the Class Actions.

There is a risk that other third parties will assert claims against the Defendants, including, without limitation, that the Defendants breached their fiduciary duties to participants or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against the Defendants.

**14. Subsequent Events**

An additional \$30,000,000 was drawn on the Loan on July 9, 2012 bringing the total amount advanced to \$219,000,000. Under the fifth modification of sublease dated as of July 9, 2012, the Company agreed to an increase in basic rent to cover the debt service on such \$30,000,000 draw.

On October 11, 2012, the Loan was amended to increase the lenders' respective commitments from an aggregate of \$300,000,000 to an aggregate of \$500,000,000 and provides that a condition for any advance in respect of such increased amount (in addition to the other conditions in the loan agreement) is the delivery of an updated appraisal to the effect that the Loan-To-Value Ratio (as defined in the loan agreement) does not then exceed 50%. Upon execution of the amendment, the lenders were paid a facility fee of 0.75% of such increase (\$1,500,000) and an arrangement fee 0.25% of such increase (\$500,000).

The Defendants entered into a Stipulation of Settlement dated September 28, 2012, resolving the Class Actions. See Note 13. Litigation for a discussion of this Stipulation of Settlement.

The Company has evaluated events and transactions for potential recognition or disclosure through November 2, 2012, the date the financial statements were available to be issued.

**REPORT OF INDEPENDENT AUDITORS**

To Empire State Realty Trust, Inc.

We have audited the accompanying statements of revenues and certain expenses (as described in Note 2) of 1333 Broadway Associates L.L.C. (the Company) for each of the three years in the period ended December 31, 2011. These statements of revenues and certain expenses are the responsibility of the Company's management. Our responsibility is to express an opinion on these statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statements. An audit also includes assessing the accounting used and significant estimates made by management, as well as evaluating the overall presentation of the statements. We believe that our audits provide a reasonable basis for our opinion.

The accompanying statements were prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission for inclusion in the registration statement on Form S-11 of Empire State Realty Trust, Inc. as described in Note 2, and are not intended to be a complete presentation of the Company's revenues and expenses.

In our opinion, the statements referred to above present fairly, in all material respects, the revenues and certain expenses, as described in Note 2 of 1333 Broadway Associates L.L.C. for each of the three years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles.

**Notes to Statements of Revenues and Certain Expenses**

**Six months ended June 30, 2012 and 2011 (unaudited) and**

**years ended December 31, 2011, 2010 and 2009**

**NOTE 1. ORGANIZATION AND DESCRIPTION OF BUSINESS**

The accompanying statements of revenues and certain expenses include the operations of 1333 Broadway (the *Property*), an office property, located in New York, NY. The Property is owned by 1333 Broadway Associates L.L.C. (the *Company*). The Predecessor of Empire State Realty Trust, Inc. has a non-controlling 50% co-member interest in the Company, and the Property is supervised by Malkin Holdings LLC (formerly, Wien & Malkin LLC) ( *Malkin Holdings* ), a related party.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Presentation***

The accompanying statements of revenues and certain expenses have been prepared for the purpose of complying with Rule 3-14 of Regulation S-X promulgated under the Securities Act of 1933, as amended. Accordingly, the statements are not representative of the actual results of operations for the years presented as revenues and certain expenses, which may not be directly attributable to the revenues and expenses to be incurred in the future operations of the Property, have been excluded. Such excluded items include interest income, depreciation and amortization, interest expense, supervisory and related party fees and amortization of above and below market leases.

***Revenue Recognition***

Rental revenue includes base rents that each tenant pays in accordance with the terms of its respective lease and is reported on a straight-line basis over the non-cancellable term of the lease which includes the effects of rent steps and rent abatements under the leases. The Company commences rental revenue recognition when the tenant takes possession of the leased space and the leased space is substantially ready for its intended use. In addition, many of the leases contain fixed percentage increases over the base rent to cover escalations.

In addition to base rent, tenants also generally will pay their *pro rata* share of increases in real estate taxes and operating expenses for the building over a base year. In some leases, in lieu of paying additional rent based upon increases in building operating expenses, the tenant will pay additional rent based upon increases in the Consumer Price Index over the index value in effect during a base year. Rental revenue from month-to-month leases or leases with no scheduled rent increases or other adjustments is recognized on a monthly basis when earned.

Lease cancellation fees are recognized when the fees are determinable and collectability is reasonably assured, the Company has no continuing obligation to provide services to such former tenants and the payment is not subject to any conditions that must be met or waived. No lease cancellation fees were recognized for any of the periods presented.

***Bad Debt Expense***

The Company incurred bad debt expense, which is included in rental operating expenses in the accompanying statements of revenues and certain expenses of \$8,143, \$148,431, and \$21,145 for the years ended December 31, 2011, 2010 and 2009, respectively. There was no bad debt expense for the six months ended June 30, 2012 and 2011.

**Table of Contents****1333 Broadway Associates L.L.C.****Notes to Statements of Revenues and Certain Expenses****Six months ended June 30, 2012 and 2011 (unaudited) and****years ended December 31, 2011, 2010 and 2009*****Accounting Estimates***

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that in certain circumstances may affect the reported revenues and certain expenses. Actual results could materially differ from these estimates.

**NOTE 3. MINIMUM FUTURE LEASE RENTALS**

The Company leases various office spaces to tenants over terms ranging from five to seventeen years. Certain leases have renewal options for additional terms. The leases provide for base monthly rentals and reimbursements for real estate taxes, escalations linked to the Consumer Price Index or common area maintenance known as operating expense escalation. Operating expense reimbursements are reflected in tenant expense reimbursements in the accompanying statements of revenue and certain expenses.

At December 31, 2011, the Company was entitled to the following future contractual minimum lease payments on non-cancellable operating leases to be received which expire on various dates through 2027 (in thousands):

|              |                   |
|--------------|-------------------|
| 2012         | \$ 12,113         |
| 2013         | 12,170            |
| 2014         | 12,255            |
| 2015         | 12,588            |
| 2016         | 12,582            |
| Thereafter   | 74,936            |
| <b>Total</b> | <b>\$ 136,644</b> |

**NOTE 4. CONCENTRATION OF CREDIT RISK**

Three tenants comprised approximately 65% of rental revenue for the year ended December 31, 2009. Four tenants comprised approximately 83% of rental revenue for the year ended December 31, 2010. Four tenants comprised approximately 82% of rental revenue for the year ended December 31, 2011. Three tenants comprised approximately 80% of rental revenue for the six months ended June 30, 2012 and four tenants comprised approximately 84% of rental revenue for the six months ended June 30, 2011.

**NOTE 5. RELATED PARTY TRANSACTIONS**

The following expenditures are not reflected in the statements of revenues and certain expenses, but represent transactions between the Company and its supervisor, Malkin Holdings, a related party.

Supervisory and other professional services are provided to the Company by Malkin Holdings. Beneficial interests in the Company are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

For administration and investment of the Company's supervisory account, Malkin Holdings has earned since 1979 a service fee of 10% of the account interest.

**Table of Contents**

**1333 Broadway Associates L.L.C.**

**Notes to Statements of Revenues and Certain Expenses**

**Six months ended June 30, 2012 and 2011 (unaudited) and**

**years ended December 31, 2011, 2010 and 2009**

In addition to the above service fees, Malkin Holdings was reimbursed for certain expenses incurred in prior years relating to the successful defense against various claims by an investor and the final settlement agreement with Helmsley-Spear, Inc. Separately, Malkin Holdings and Peter L. Malkin have requested or intend to request voluntary reimbursement *pro rata* from each investor individually for certain other unreimbursed expenses advanced by them relating to the arbitration to remove and replace Helmsley-Spear, Inc. as managing agent for the Property. Such reimbursement would be paid only by consenting investors, and thus the Company's financial statements do not show any related cost or liability.

**NOTE 6. COMMITMENTS AND CONTINGENCIES**

The Company entered into construction contracts with contractors for completion of the Property's renovation project. As of June 30, 2012, the amount of unpaid budgeted expenditures relating to the renovation project totals approximately \$21,000,000. The total amount of the signed contracts has not been determined as of June 30, 2012 but those commitments do not exceed the unpaid budgeted expenditures.

Additionally, the Company entered into contracts with third parties for building repairs, alterations, or replacements. Some of these contracts may span more than one year in duration. The total amount of these commitments has not been determined.

The Company is not presently involved in any material litigation, nor, to our knowledge is any material litigation threatened against the Company, other than routine litigation arising in the ordinary course of business such as disputes with tenants. The Company believes that the costs and related liabilities, if any, which may result from such actions will not materially affect the Company's operating results.

**NOTE 7. SUBSEQUENT EVENTS**

The Company has evaluated events and transactions for potential recognition or disclosure through November 2, 2012, the date the financial statements were available to be issued.

**Table of Contents**

**REPORT OF INDEPENDENT AUDITORS**

To Empire State Realty Trust, Inc.

We have audited the accompanying statements of revenues and certain expenses (as described in Note 2) of 1350 Broadway Associates L.L.C. (the Company) for each of the three years in the period ended December 31, 2011. These statements of revenues and certain expenses are the responsibility of the Company's management. Our responsibility is to express an opinion on these statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statements. An audit also includes assessing the accounting used and significant estimates made by management, as well as evaluating the overall presentation of the statements. We believe that our audits provide a reasonable basis for our opinion.

The accompanying statements were prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission for inclusion in the registration statement on Form S-11 of Empire State Realty Trust, Inc. as described in Note 2, and are not intended to be a complete presentation of the Company's revenues and expenses.

In our opinion, the statements referred to above present fairly, in all material respects, the revenues and certain expenses, as described in Note 2 of 1350 Broadway Associates L.L.C. for each of the three years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles.

**Notes to Statements of Revenues and Certain Expenses**

**Six months ended June 30, 2012 and 2011 (unaudited) and**

**years ended December 31, 2011, 2010 and 2009**

**NOTE 1. ORGANIZATION AND DESCRIPTION OF BUSINESS**

The accompanying statements of revenues and certain expenses include the operations of 1350 Broadway (the *Property*), an office property, located in New York, NY. 1350 Broadway Associates L.L.C. (the *Company*) holds a long-term ground leasehold interest in the Property. The Predecessor of Empire State Realty Trust, Inc. has a non-controlling 50% co-member interest in the Company, and the Property is supervised by Malkin Holdings LLC (formerly, Wien & Malkin LLC) (*Malkin Holdings*), a related party.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Presentation***

The accompanying statements of revenues and certain expenses have been prepared for the purpose of complying with Rule 3-14 of Regulation S-X promulgated under the Securities Act of 1933, as amended. Accordingly, the statements are not representative of the actual results of operations for the periods presented as revenues and certain expenses, which may not be directly attributable to the revenues and expenses to be incurred in the future operations of the Property, have been excluded. Such excluded items include interest income, depreciation and amortization, interest expense, supervisory and related party fees and amortization of above and below market leases.

***Revenue Recognition***

Rental revenue includes base rents that each tenant pays in accordance with the terms of its respective lease and is reported on a straight-line basis over the non-cancellable term of the lease which includes the effects of rent steps and rent abatements under the leases. The Company commences rental revenue recognition when the tenant takes possession of the leased space and the leased space is substantially ready for its intended use. In addition, many of the leases contain fixed percentage increases over the base rent to cover escalations.

In addition to base rent, tenants also generally will pay their *pro rata* share of increases in real estate taxes and operating expenses for the building over a base year. In some leases, in lieu of paying additional rent based upon increases in building operating expenses, the tenant will pay additional rent based upon increases in the Consumer Price Index over the index value in effect during a base year. Rental revenue from month-to-month leases or leases with no scheduled rent increases or other adjustments is recognized on a monthly basis when earned.

Lease cancellation fees are recognized when the fees are determinable and collectability is reasonably assured, the Company has no continuing obligation to provide services to such former tenants and the payment is not subject to any conditions that must be met or waived. Total lease cancellation fees were \$300,000 for the year ended December 31, 2009. There were no cancellation fees for the years ended December 31, 2011 and 2010 and the six months ended June 30, 2012 and 2011, respectively.

***Bad Debt Expense***

The Company incurred bad debt expense, which is included in rental operating expenses in the accompanying statements of revenues and certain expenses of \$70,800, \$111,951, \$232,068, \$82,593 and \$91,007 for the years ended December 31, 2011, 2010 and 2009 and the six months ended June 30, 2012 and 2011, respectively.

**Table of Contents****1350 Broadway Associates L.L.C.****Notes to Statements of Revenues and Certain Expenses****Six months ended June 30, 2012 and 2011 (unaudited) and****years ended December 31, 2011, 2010 and 2009*****Accounting Estimates***

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that in certain circumstances may affect the reported revenues and certain expenses. Actual results could materially differ from these estimates.

**NOTE 3. MINIMUM FUTURE LEASE RENTALS**

The Company leases various office spaces to tenants over terms ranging from five to fifteen years. Certain leases have renewal options for additional terms. The leases provide for base monthly rentals and reimbursements for real estate taxes, escalations linked to the Consumer Price Index or common area maintenance known as operating expense escalation. Operating expense reimbursements are reflected in tenant expense reimbursements in the accompanying statements of revenue and certain expenses.

At December 31, 2011, the Company was entitled to the following future contractual minimum lease payments on non-cancellable operating leases to be received which expire on various dates through 2025 (in thousands):

|              |                   |
|--------------|-------------------|
| 2012         | \$ 16,127         |
| 2013         | 15,618            |
| 2014         | 15,039            |
| 2015         | 13,600            |
| 2016         | 12,353            |
| Thereafter   | 70,554            |
| <b>Total</b> | <b>\$ 143,291</b> |

**NOTE 4. GROUND LEASE**

On July 30, 1965, a ground lease with an initial term ending July 31, 1976 with Aetna Life Insurance Company, as Lessor, (the Ground Lease) was assigned to the Company by 1350 Broadway Realty Corporation. On April 25, 1978, the Company exercised the second renewal option on the Ground Lease from August 1, 2001 through July 31, 2026 at an annual rent of \$108,000. Aetna Life Insurance Company sold the fee title to GSL Enterprises, Inc. in 1983.

On August 23, 2010, the Company exercised an option to extend the Ground Lease for an additional term commencing on August 1, 2026 and expiring on July 31, 2050 at an annual rent of \$72,000.

Minimum annual rentals are expensed on a straight-line basis over the term of the lease. Rent expense was \$97,387, \$122,906 and \$135,666 for the years ended December 31, 2011, 2010 and 2009, respectively, and \$48,694 for each of the six months ended June 30, 2012 and 2011, which is included in the accompanying statements of revenue and certain expenses.

**Table of Contents****1350 Broadway Associates L.L.C.****Notes to Statements of Revenues and Certain Expenses****Six months ended June 30, 2012 and 2011 (unaudited) and****years ended December 31, 2011, 2010 and 2009**

Future minimum rents under the Ground Lease for each of the next five years and in the aggregate (through July 31, 2050) as of December 31, 2011 are:

| Years Ending December 31, | Amount<br>(in thousands) |
|---------------------------|--------------------------|
| 2012                      | \$ 108                   |
| 2013                      | 108                      |
| 2014                      | 108                      |
| 2015                      | 108                      |
| 2016                      | 108                      |
| Thereafter                | 2,763                    |
|                           | <b>\$ 3,303</b>          |

**NOTE 5. CONCENTRATION OF CREDIT RISK**

Two tenants comprised approximately 25%, 27%, 21%, 25% and 25% of rental revenue for the years ended December 31, 2011, 2010 and 2009 and for the six months ended June 30, 2012 and 2011, respectively.

**NOTE 6. RELATED PARTY TRANSACTIONS**

The following expenditures are not reflected in the statements of revenues and certain expenses, but represent transactions between the Company and its supervisor, Malkin Holdings LLC, a related party.

Supervisory and other professional services are provided to the Company by Malkin Holdings. Beneficial interests in the Company are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

For administration and investment of the Company's supervisory account, Malkin Holdings has earned since 1978 a service fee of 10% of the account interest.

Under a separate agreement to which the Company is not a party, Malkin Holdings also receives additional payments in respect of its profits interest from certain investors in the Company based upon current year distributions in excess of an annual threshold. These third party payments do not impose any obligation upon the Company or affect its operations.

In addition to the above service fees, Malkin Holdings was reimbursed for certain expenses incurred in prior years relating to the successful defense against various claims by an investor and the final settlement agreement with Helmsley-Spear, Inc. Separately, Malkin Holdings and Peter L. Malkin have requested or intend to request voluntary reimbursement *pro rata* from each investor individually for certain other unreimbursed expenses advanced by them relating to the arbitration to remove and replace Helmsley-Spear, Inc. as managing agent for the Property. Such reimbursement would be paid only by consenting investors, and thus the Company's financial statements do not show any related cost or liability.

**NOTE 7. COMMITMENTS AND CONTINGENCIES**

The Company entered into contracts with third parties for building repairs, alterations, or replacements. Some of these contracts may span more than one year in duration. The total amount of these commitments has not been determined.

The Company is not presently involved in any material litigation, nor, to our knowledge is any material litigation threatened against the Company, other than routine litigation arising in the ordinary course of business such as disputes with tenants. The Company believes that the costs and related liabilities, if any, which may result from such actions will not materially affect the Company's operating results.

**NOTE 8. SUBSEQUENT EVENTS**

The Company has evaluated events and transactions for potential recognition or disclosure through November 2, 2012, the date the financial statements were available to be issued.

**REPORT OF INDEPENDENT AUDITORS**

To Empire State Realty Trust, Inc.

We have audited the accompanying statements of revenues and certain expenses (as described in Note 2) of 501 Seventh Avenue Associates L.L.C. (the Company) for each of the three years in the period ended December 31, 2011. These statements of revenues and certain expenses are the responsibility of the Company's management. Our responsibility is to express an opinion on these statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statements. An audit also includes assessing the accounting used and significant estimates made by management, as well as evaluating the overall presentation of the statements. We believe that our audits provide a reasonable basis for our opinion.

The accompanying statements were prepared for the purpose of complying with the rules and regulations of the Securities and Exchange Commission for inclusion in the registration statement on Form S-11 of Empire State Realty Trust, Inc. as described in Note 2, and are not intended to be a complete presentation of the Company's revenues and expenses.

In our opinion, the statements referred to above present fairly, in all material respects, the revenues and certain expenses, as described in Note 2, of 501 Seventh Avenue Associates L.L.C. for each of the three years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles.

**and years ended December 31, 2011, 2010 and 2009**

**(dollars in thousands)**

**NOTE 1. ORGANIZATION AND DESCRIPTION OF BUSINESS**

The accompanying statements of revenues and certain expenses include the operations of 501 Seventh Avenue (the *Property*), an office property, located in New York, NY. The Property is owned by 501 Seventh Avenue Associates L.L.C. (the *Company*). The Predecessor of Empire State Realty Trust, Inc. has a non-controlling 20.5% co-member interest in the Company, and the Property is supervised by Malkin Holdings LLC (formerly, Wien & Malkin LLC) ( *Malkin Holdings* ), a related party. The Property is currently subject to a ground lease with Seventh and 57 Building Associates L.L.C. (Lessor), an affiliate of the Predecessor of Empire State Realty Trust, Inc.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Presentation***

The accompanying statements of revenues and certain expenses have been prepared for the purpose of complying with Rule 3-14 of Regulation S-X promulgated under the Securities Act of 1933, as amended. Accordingly, the statements are not representative of the actual results of operations for the periods presented as revenues and certain expenses, which may not be directly attributable to the revenues and expenses to be incurred in the future operations of the Property have been excluded. Such excluded items include interest income, depreciation and amortization, interest expense, ground rent (payable to affiliate), supervisory and related party fees and amortization of above and below market leases.

***Revenue Recognition***

Rental revenue includes base rents that each tenant pays in accordance with the terms of its respective lease and is reported on a straight-line basis over the non-cancellable term of the lease which includes the effects of rent steps and rent abatements under the leases. The Company commences rental revenue recognition when the tenant takes possession of the leased space and the leased space is substantially ready for its intended use. In addition, many of the leases contain fixed percentage increases over the base rent to cover escalations.

In addition to base rent, tenants also generally will pay their *pro rata* share of increases in real estate taxes and operating expenses for the building over a base year. In some leases, in lieu of paying additional rent based upon increases in building operating expenses, the tenant will pay additional rent based upon increases in the Consumer Price Index over the index value in effect during a base year. Rental revenue from month-to-month leases or leases with no scheduled rent increases or other adjustments is recognized on a monthly basis when earned.

Lease cancellation fees are recognized when the fees are determinable and collectability is reasonably assured, the Company has no continuing obligation to provide services to such former tenants and the payment is not subject to any conditions that must be met or waived. No lease cancellation fees were recognized for any of the periods presented.

***Bad Debt Expense***

The Company incurred bad debt expense, which is included in rental operating expenses in the accompanying statements of revenues and certain expenses, of \$345, \$342, \$706, \$85 and \$169 for the years ended December 31, 2011, 2010 and 2009 and the six months ended June 30, 2012 and 2011, respectively.

**Table of Contents****501 Seventh Avenue Associates L.L.C.****Notes to Statements of Revenues and Certain Expenses****Six months ended June 30, 2012 and 2011 (unaudited)****and years ended December 31, 2011, 2010 and 2009****(dollars in thousands)*****Accounting Estimates***

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that in certain circumstances may affect the reported revenues and certain expenses. Actual results could materially differ from these estimates.

**NOTE 3. MINIMUM FUTURE LEASE RENTALS**

The Company leases various office spaces to tenants over terms ranging from one to fifteen years. Certain leases have renewal options for additional terms. The leases provide for base monthly rentals and reimbursements for real estate taxes, escalations linked to the Consumer Price Index or common area maintenance known as operating expense escalation. Operating expense reimbursements are reflected in tenant expense reimbursements in the accompanying statements of revenue and certain expenses.

At December 31, 2011, the Company was entitled to the following future contractual minimum lease payments on non-cancellable operating leases to be received which expire on various dates through 2026 (in thousands):

|              |                   |
|--------------|-------------------|
| 2012         | \$ 15,336         |
| 2013         | 15,000            |
| 2014         | 14,766            |
| 2015         | 14,095            |
| 2016         | 12,272            |
| Thereafter   | 41,007            |
| <b>Total</b> | <b>\$ 112,476</b> |

**NOTE 4. CONCENTRATION OF CREDIT RISK**

Two tenants comprised approximately 55% of rental revenue for each of the years ended December 31, 2011, 2010 and 2009 and 52% and 56% for the six months ended June 30, 2012 and 2011, respectively.

**NOTE 5. RELATED PARTY TRANSACTIONS**

The following expenditures are not reflected in the statements of revenues and certain expenses, but represent transactions between the Company and its supervisor, Malkin Holdings, a related party.

Supervisory and other professional services are provided to the Company by Malkin Holdings. Beneficial interests in the Company are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

For administration and investment of the Company's supervisory account, Malkin Holdings has earned since 1978 a service fee of 10% of the account interest.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Under a separate agreement, Malkin Holdings also receives additional payments in respect of its profits interest from the Company based upon current year distributions to the investors in excess of an annual threshold.

**Six months ended June 30, 2012 and 2011 (unaudited)**

**and years ended December 31, 2011, 2010 and 2009**

**(dollars in thousands)**

Malkin Holdings also serves as supervisor for the Company's Lessor and receives from Lessor a basic annual fee and a payment in respect of a profits interest based on distributions to Lessor's investors. Beneficial interests in Lessor are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

In addition to the above service fees, Malkin Holdings was reimbursed for certain expenses incurred in prior years relating to the successful defense against various claims by an investor. Separately, Malkin Holdings and Peter L. Malkin have requested or intend to request voluntary reimbursement *pro rata* from each investor individually for certain other unreimbursed expenses advanced by them relating to the arbitration to remove and replace Helmsley-Spear, Inc. as managing agent for the Property. Such reimbursement would be paid only by consenting investors, and thus the Company's financial statements do not show any related cost or liability.

**NOTE 6. COMMITMENTS AND CONTINGENCIES**

The Company is not presently involved in any material litigation, nor, to our knowledge is any material litigation threatened against the Company, other than routine litigation arising in the ordinary course of business such as disputes with tenants. The Company believes that the costs and related liabilities, if any, which may result from such actions will not materially affect the Company's operating results.

**NOTE 7. SUBSEQUENT EVENTS**

The Company has evaluated events and transactions for potential recognition or disclosure through November 2, 2012, the date the financial statements were available to be issued.

**Management's Discussion and Analysis of**

**Financial Condition and Results of Operations**

**Forward Looking Statements**

Readers of this discussion are advised that the discussion should be read in conjunction with the condensed consolidated financial statements of Empire State Building Associates L.L.C. ( Associates ) (including related notes thereto) appearing elsewhere in this prospectus/consent solicitation. Certain statements in this discussion may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements reflect Associates' current expectations regarding future results of operations, economic performance, financial condition and achievements of Associates, and do not relate strictly to historical or current facts. Associates has tried, wherever possible, to identify these forward-looking statements by using words such as believe, expect, anticipate, intend, plan, estimate, and words of similar meaning.

Although Associates believes that the expectations reflected in such forward-looking statements are based on reasonable assumptions, such statements are subject to risks and uncertainties, which may cause the actual results to differ materially from those anticipated in the forward looking statements. Such factors include, but are not limited to, the following: general economic and business conditions, which will, among other things, affect demand for rental space, the availability of prospective tenants, lease rents and the availability of financing; adverse changes in Associates' real estate market, including, among other things, competition with other real estate owners, risks of real estate development and acquisitions; governmental actions and initiatives; and environmental/safety requirements.

**Financial Condition and Results of Operations**

At the time of its organization, Associates acquired the master lease of the Empire State Building (the Master Lease ) subject to the sublease pursuant to which Empire State Building Company L.L.C. (the Sublessee ) subleases and operates the Empire State Building (the Sublease ). Basic Rent received by Associates was used to pay annual rent due under the Master Lease and the basic payment ( Basic Payment ) for supervisory services to the supervisor; the balance of such Basic Rent was distributed to the participants. Basic Rent received by Associates is used to pay the Basic Payment and a portion of debt service on the Secured Term Loan (defined below); the balance of such Basic Rent is distributed to the participants. Commencing July 26, 2011, Basic Rent was increased to cover debt service on the refinanced loan balance to the extent the Secured Term Loan debt exceeds \$60,500,000 which was the balance of the prior first mortgage fully paid on July 26, 2011.

Overage Rent and any interest and dividends accumulated thereon less any expenses and additions to general contingencies and other reserves are distributed to the participants after the additional payment to the supervisor. See Note D to the condensed consolidated financial statements herein. Pursuant to the Sublease, Sublessee has assumed responsibility for the condition, operation, repair, maintenance and management of the Empire State Building. Associates is not required to maintain liquid assets to defray any operating expenses of the Empire State Building.

During the six-month period ended June 30, 2012, Associates made regular monthly distributions of \$98.22 for each \$10,000 participation (\$1,178.59 per annum for each \$10,000 participation). There are no restrictions on Associates' present or future ability to make distributions; however, the amount of such distributions, particularly distributions of Overage Rent, depends solely on Sublessee's ability to make payments of Basic Rent and Overage Rent to Associates. Associates expects to make monthly distributions in the future so long as it receives the payments provided for under the Sublease.

On March 8, 2012, Associates made an additional distribution to participants of \$17,343,000 (\$5,255.45 for each \$10,000 participation), representing Overage Rent received of \$28,780,449 (on Sublessee's net operating profit of \$58,560,898) for the year ending December 31, 2011 after deducting (i) \$10,327,424, mainly for fees

**Table of Contents**

relating to a proposed consolidation of Associates, other public and private entities supervised by the supervisor and the supervisor and certain affiliated management companies into Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a REIT, and for the increase in the supervisory fee to the supervisor, accounting fees, and general contingencies, (ii) annual New York State filing fees of \$3,025, and (iii) the Additional Payment to the supervisor of \$1,107,000 (representing the Additional Payment of \$1,166,417 less \$59,417 previously paid). See Notes C and D to the condensed financial statements herein.

Overage Rent for the year 2010 was \$4,111,371. \$2,020,000 was set-aside for annual debt service on the prior first mortgage (of which \$2,000,000 was deposited in a restricted cash account used to satisfy a portion of the first mortgage interest obligation) and the balance of \$2,091,371 was added to general contingency and other reserves so that no additional distribution was made to the participants for the year ended December 31, 2010.

Associates' results of operations are affected primarily by the amount of rent payable to it under the Sublease. The amount of Overage Rent payable to Associates is affected by the New York City economy and real estate rental and tourist attraction markets, which are difficult for management to forecast, and by the amount of unfinanced improvements undertaken at the Empire State Building. The following summarizes, with respect to the current period and the corresponding period of the previous year, the material factors regarding Associates' results of operations for such periods:

Total revenues increased by \$771,586 for the six-month period ended June 30, 2012 as compared with the corresponding period of the prior year, primarily attributable to an increase in basic rent income by the Sublessee to cover the increase in debt service on the increased loan balance for the six-month period ended June 30, 2012 as compared with the corresponding period of the prior year.

Total revenues increased by \$497,275 for the three-month period ended June 30, 2012 as compared with the corresponding period of the prior year, primarily attributable to: an increase in Basic Rent income by the Sublessee to cover the increase in debt service on the increased loan balance for the three-month period ended June 30, 2012 as compared with the corresponding period of the prior year.

Total expenses increased by \$4,445,652 for the six-month period ended June 30, 2012 as compared with the corresponding period of the prior year, primarily attributable to: (i) an increase in interest on the Secured Term Loan of \$610,049 representing \$1,026,654 of an increased amount of amortization of mortgage refinancing costs due to the July 26, 2011 refinancing less a reduction in interest expense of \$416,605 attributable to a lower rate of interest on the Secured Term Loan as compared with the prior mortgage debt; (ii) an increase in depreciation on building and building and tenant improvements of \$2,794,341 attributable to improvements placed in service in the second half of 2011 and first half of 2012; (iii) amortization of leasing costs of \$647,767 due to leasing costs incurred in the second half of 2011 and first half of 2012; and (iv) an increase in professional fees of \$246,525, including fees to the supervisor of \$180,617 for services rendered in connection with a proposed consolidation of Associates, other public and private entities supervised by the supervisor and the supervisor and certain affiliated management companies into Empire State Realty Trust, Inc., a newly formed real estate investment trust (collectively the Consolidation) and the initial public offering of Class A common stock of Empire State Realty Trust, Inc. (the IPO) for the six month period ended June 30, 2012 as compared with the corresponding period of the prior year.

Total expenses increased by \$2,568,497 for the three-month period ended June 30, 2012 as compared with the corresponding period of the prior year, primarily attributable to: (i) an increase in interest on the Secured Term Loan of \$444,020 representing \$576,182 of an increased amount of amortization of mortgage refinancing costs due to the July 26, 2011 refinancing less a reduction in interest expense of \$132,162 attributable to a lower rate of interest on the Secured Term Loan as compared with the prior mortgage debt; (ii) an increase in depreciation on building and building and tenant improvements of \$1,559,878 attributable to improvements placed in service in the second half of 2011 and first quarter of 2012; (iii) amortization of leasing costs of \$379,325 due to leasing costs incurred in the second half of 2011 and first quarter of 2012; and (iv) an increase in

---

**Table of Contents**

professional fees of \$112,363, including fees to the supervisor of \$51,210 for services rendered in connection with the Consolidation and IPO for the three month period ended June 30, 2012 as compared with the corresponding period of the prior year.

**Liquidity, Capital Resources and Distributions**

Associates' liquidity has decreased as of June 30, 2012, as compared with June 30, 2011 primarily attributable to (i) costs incurred in connection with the Consolidation and IPO, and (ii) reimbursements to the Sublessee for building improvements and tenancing costs. Adverse developments in economic, credit and investment markets over the last several years impaired general liquidity (although some improvement in such markets has arisen recently) and the developments may negatively impact Associates and/or space tenants at the Empire State Building. Any such impact should be ameliorated by the fact that (a) each of Associates and its Sublessee has very low debt in relation to asset value, (b) the Empire State Building's rental revenue is derived from a substantial number of tenants in diverse businesses with lease termination dates spread over numerous years.

On July 26, 2011, Associates entered into a three-year term loan (the "Secured Term Loan") with institutional lenders, including HSBC Bank USA, National Association as agent and HSBC Bank USA, National Association and DekaBank Deutsche Girozentrale as lead arrangers. The Secured Term Loan is secured by a mortgage on the Empire State Building. The Secured Term Loan was amended by the First Amendment to Loan Agreement, Ratification of Loan Documents and Omnibus Amendment dated as of November 2, 2011 to provide for additional commitments from Capital One, National Association and Bank of America, N.A. so that, collectively, the loan was increased to \$300,000,000. No additional funds were drawn at the time of the modification. The Secured Term Loan was amended on November 23, 2011 clarifying certain terms upon which the Empire State Building is permitted to be transferred into a consolidated entity without accelerating the Secured Term Loan.

At the closing of the Secured Term Loan, the lenders provided Associates with an advance of \$159,000,000 (of which \$92,000,000 refinanced existing indebtedness). An additional \$30,000,000 was drawn on April 5, 2012 (in accordance with that certain Fourth Modification of Sublease dated April 5, 2012 by and between Associates and Sublessee) bringing the total amount advanced through June 30, 2012 to \$189,000,000. An additional draw of \$30,000,000 was made on July 9, 2012 bringing the total advanced to date to \$219,000,000. Based on the terms of the Secured Term Loan (as amended) and subject to the conditions set forth in the Secured Term Loan (as amended), the lenders agreed to provide Associates with additional advances of up to \$81,000,000. In addition, one of the lead lenders has agreed upon Associates' request, and subject to certain other conditions, to source further additional commitments aggregating up to \$200,000,000 in the sole discretion of the lenders. Any further advances under the Secured Term Loan are subject to the consent of the Sublessee.

Pursuant to the terms of the Secured Term Loan agreement, Associates and Sublessee entered into an amendment dated July 26, 2011 to the sublease ("Third Modification of Sublease") pursuant to which (i) Sublessee consented to the advance of up to \$159,000,000 under the Secured Term Loan and (ii) in accordance with the terms of the existing sublease agreement (which terminates on January 4, 2076) between Sublessee and Associates, the Basic Rent payable by Sublessee was increased by an amount equal to the debt service on the portion of the borrowing from the Secured Term Loan associated with improvements (excluding any principal payable upon maturity). Sublessee consented to an additional advance of \$30,000,000 on April 5, 2012 pursuant to the Fourth Modification of Sublease as of that date and an additional \$30,000,000 advance on July 9, 2012 in accord with the Fifth Modification of Sublease as of that date. The original Basic Rent payable by Sublessee is more than sufficient to pay the debt service on the portion of the borrowing associated with purchasing the fee position in 2002. The Sublessee and Empire State Realty Observatory TRS, LLC (formerly known as ESB Observatory LLC), a subsidiary of Sublessee, also entered into subordination agreements with the agent on behalf of the lenders pursuant to which the Sublease and the lease of the observatory were subordinated to the mortgage securing the Secured Term Loan. As a result, the Sublease and the observatory lease can be terminated in connection with a foreclosure by Secured Term Loan lenders.

**Table of Contents**

Subject to the terms and conditions of the Secured Term Loan agreement, the outstanding principal amount of the Secured Term Loan shall bear interest at a rate equal to 2.5% per annum above 30-day LIBOR, unless such rate is not available, in which event the Secured Term Loan would bear interest at 2.5% per annum in excess of (i) HSBC's prime rate or (ii) the BBA LIBOR Daily Floating Rate. In connection with this loan, Associates issued promissory notes, a mortgage encumbering the Empire State Building in favor of the agent for the lenders, and other customary security and other loan documents. The maturity date of this loan is July 26, 2014, which Associates may extend to July 26, 2015 and thereafter to July 26, 2016, in each case upon payment of an extension fee of 0.25% of the total availability under the Secured Term Loan agreement at the time of such extension. Such extensions are subject to customary conditions, including the satisfaction of certain loan-to-value and debt yield ratios and the absence of an event of default.

The initial advance was used to pay and discharge the then existing secured mortgage loans relating to the Empire State Building and to fund operations and working capital requirements related to the Empire State Building (including for improvements), including reimbursements to Sublessee for expenditures relating to improvements previously incurred by Sublessee, and certain other general entity purposes permitted in the Secured Term Loan including costs of the financing. Subsequent advances were or will be used for the foregoing purposes except for the discharge of existing secured mortgage loans which had been discharged from proceeds of the initial advance.

Payment obligations relating to the Secured Term Loan may be accelerated upon the occurrence of an event of default under the Secured Term Loan agreement. Events of default under the Secured Term Loan agreement include, subject in some cases to specified cure periods: payment defaults; failure by Associates to pay taxes; failure to keep certain insurance policies in effect; breaches of representations and covenants contained in the mortgage; defaults in the observance or performance of covenants; inaccuracy of representations and warranties in any material respect; bankruptcy and insolvency related defaults; and the entry of one or more final judgments for the payment of more than \$1,000,000 that are not satisfied within 30 days.

The Secured Term Loan agreement contains affirmative and negative covenants customary for financings of this type. Negative covenants in the Secured Term Loan agreement limit Associates' ability, subject to certain exceptions, to transfer all or substantially all of its property; incur indebtedness and liens; dissolve, liquidate or enter into mergers or similar transactions; change its line of business; cancel debt; enter into transactions with affiliates; rezone its property; sell its assets; make certain distributions to investors; and change its organizational documents. Associates must also maintain a debt yield ratio as specified in the Secured Term Loan agreement.

Associates as both the fee owner and the ground lessor of the Empire State Building is mortgagor and each of its estates is therefore mortgaged. Sublessee and the observatory tenant agreed to subordinate their respective leasehold interest to the mortgage. Accordingly, in the event of a foreclosure, their leasehold estates could be terminated.

Associates anticipates that funds for short-term working capital requirements for the Empire State Building will be provided by cash on hand, rental payments received from the Sublessee (which entity is required under the Sublease to make payments of Basic Rent and, subject to cash flow, Overage Rent) and from additional advances of up to \$81,000,000 available with respect to the July 26, 2011 refinancing and subsequent amendment on November 2, 2011. Long-term sources of working capital will be provided by a combination of rental payments from the Sublessee and borrowings.

The Sublessee is to maintain the Empire State Building as a high-class office building as required by the terms of the Sublease.

In connection with the July 2011 refinancing of the mortgage on the fee position of the Empire State Building with the Secured Term Loan, it is now intended that Associates generally will incur all capital improvement and tenanting costs commencing with expenditures incurred January 1, 2011 and thereafter.

## **Table of Contents**

Associates has incurred fixed asset additions of \$33,289,998 and deferred leasing costs of \$4,309,049 during the six months ended June 30, 2012 and reimbursed Sublessee \$35,042,777, resulting in a payable to Sublessee of \$8,569,934 (of which \$2,556,270 relates to unpaid leasing costs) at June 30, 2012.

Since the supervisor gained full control of the day-to-day management of the Empire State Building in August 2006, a total of approximately \$149,000,000 has been invested through June 30, 2012 in connection with the restoration and renovation program at the Empire State Building. Associates currently estimates that between \$185,000,000 and \$225,000,000 of additional capital is needed to complete this renovation program, which Associates expects to complete substantially in 2016. These estimates are based on the supervisor's current budgets (which do not include tenant improvement and leasing commission costs) and are subject to change. Associates' renovation program at the Empire State Building has taken substantial time to design and implement due to many factors, including the overall scale of the program, the market timing of re-leasing upgraded spaces to existing and prospective tenants, Associates' desire to minimize existing tenant disruptions, and the need to obtain consents of investors to complete financings.

Due to Sublessee at June 30, 2012 represents the payable to Sublessee for purchased building improvements and tenancing costs. The costs of the restoration and renovation program will be financed through a combination of borrowings and operating cash flow.

The Sublessee is advancing costs of the Program and is reimbursed by Associates from available financing. The Program (1) grants the ownership of the improvements to Associates to the extent of its reimbursements to Sublessee and (2) allows for the increased mortgage charges to be paid by Associates from an equivalent increase in the basic rent paid by the Sublessee to Associates. Since any Overage Rent will be decreased by one-half of that amount, the net effect of the lease modification is to have Associates and the Sublessee share the costs of the Program equally, assuming Overage Rent continues to be earned.

The supervisor of Associates has filed a registration statement on Form S-4 for the solicitation of consents of the participants in Associates and other public limited liability companies supervised by the supervisor to the Consolidation. In such Consolidation, (x) the property interests of Associates, such other public limited liability companies and certain private entities supervised by the supervisor, and (y) the supervisor and certain affiliated management companies would be contributed to the operating partnership of Empire State Realty Trust, Inc., a newly organized real estate investment trust.

Consents are required from participants in Associates and such other public limited liability companies for them to contribute their interests in the Consolidation, and the solicitation of such consents will not commence until the SEC declares effective the registration statement on Form S-4. Consents have been obtained from participants in the private entities and the supervisor and certain affiliated companies and affiliates of the supervisor for them to make such contributions.

The consideration to be paid to the contributing companies and entities in the Consolidation will be allocated in accordance with exchange values determined based on appraisals by an independent third party. Such method of allocation has been approved by the Sublessee. Based on the exchange values, if the Consolidation proposal is approved by Associates' participants, the consideration with respect to the Empire State Building will be allocated approximately 50% to Associates and 50% to the Sublessee, which the supervisor believes is in accordance with the historical treatment of Associates and the Sublessee.

## **Inflation**

Associates believes that there has been no material change in the impact of inflation on its operations since the filing of the Form 10-K for the year ended December 31, 2011.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Empire State Building Associates L.L.C.

(A Limited Liability Company)

We have audited the accompanying consolidated balance sheets of Empire State Building Associates L.L.C. as of December 31, 2011 and 2010, and the related consolidated statements of income, members' equity and cash flows for each of the two years in the period ended December 31, 2011. Our audits also included the financial statement schedule, Schedule III- Real Estate and Accumulated Depreciation for the years ended December 31, 2011 and 2010, also included in this Form S-4. These consolidated financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Empire State Building Associates L.L.C. at December 31, 2011 and 2010, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

*See accompanying notes to consolidated financial statements.*

**Table of Contents**

**EMPIRE STATE BUILDING ASSOCIATES L.L.C.**

**(A Limited Liability Company)**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

1. **Business Activity and Purchase of Real Estate**

Through April 16, 2002, Empire State Building Associates L.L.C. ( Associates ) owned the tenant's interest in a master operating leasehold (the Master Lease ) on the Empire State Building (the Building ), located at 350 Fifth Avenue, New York, New York. On April 17, 2002 Associates acquired, through a wholly-owned limited liability company, the fee title to the Building and to the land thereunder (the Land ), (together, the Real Estate ). Associates subleases the property to Empire State Building Company L.L.C. ( Sublessee ). The consolidated financial statements include the accounts of Associates and, effective April 17, 2002, its wholly-owned limited liability company, Empire State Land Associates L.L.C. All intercompany accounts and transactions have been eliminated in consolidation.

Associates' members are Peter L. Malkin, Anthony E. Malkin and Thomas N. Keltner, Jr., each of whom also acts as an agent for holders of participations in his respective member interest in Associates. In the consolidated Statements of Members' Equity, each such agent representation is referred to as a Group (i.e., Peter L. Malkin Group, Thomas N. Keltner, Jr. Group and Anthony E. Malkin Group).

2. **Summary of Significant Accounting Policies**

a. **Cash and Cash Equivalents**

Cash and cash equivalents include investments in money market funds and all highly liquid debt instruments with an original maturity of three months or less when acquired.

b. **Restricted Cash**

Restricted cash at December 31, 2011 and 2010 includes a checking account at HSBC Bank and a money market account held at Capital One Bank pursuant to the terms of the loans, to be used monthly to satisfy a portion of the loan interest obligation.

c. **Use of Estimates**

In preparing financial statements in conformity with U.S. generally accepted accounting principles, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The real estate industry has historically been cyclical and sensitive to changes in economic conditions such as interest rates, credit availability, and unemployment levels. Changes in these economic conditions could affect the assumptions used by management in preparing the accompanying financial statements.

d. **Real Estate and Depreciation**

The Real Estate is carried in the financial statements at its historical cost of \$60,484,389. The Building and Building improvements are being depreciated on the straight-line basis over their estimated useful lives of 39 years. The tenant improvements are being depreciated over the terms of the individual tenant leases or the estimated useful life if shorter. Under the terms of the April 17, 2002 contract of sale, the deed contains language to avoid the merger of the fee estate and the leasehold, although on a consolidated financial statement basis Associates incurs no

leasehold rent expense after acquiring the Real Estate.

**(A Limited Liability Company)**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(continued)**

2. Summary of Significant Accounting Policies (continued)

e. Mortgage Financing Costs, Leasing Commissions and Amortization

Mortgage financing costs relating to the Secured Term Loan totaling \$7,405,455 are being amortized ratably over the life of the loan. As the prior first and second mortgages were repaid on July 26, 2011, the remaining unamortized balance of applicable financing costs were written-off. The unamortized loan costs and the prepayment penalty of \$2,343,372 on early repayment of such mortgages are included in interest expense of Associates for the year ended December 31, 2011.

Leasing commissions (incurred in connection with the building improvements program) represent reimbursements to the Sublessee for commissions incurred for new tenants and are being amortized over the terms of the individual tenant leases.

f. Revenue Recognition

Basic rental income, as defined in a long-term lease, is a fixed amount that Associates records ratably over the year. Additional rent is based on 50% of the net operating profit of the Sublessee, as defined, in excess of \$1,000,000 for each lease year ending December 31st and is recorded by Associates when such amount becomes realizable and earned, at the end of each calendar year.

g. Valuation of Long-Lived Assets

Associates assesses the carrying amount of long-lived assets whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. When Associates determines that the carrying amount of long-lived assets is impaired, the measurement of any impairment is based on a discounted cash flow method. No impairment loss has been recorded for the years ended December 31, 2011 and 2010.

h. Income Taxes

Associates is organized as a limited liability company and is taxed as a partnership for income tax purposes. Accordingly, Associates is not subject to federal and state income taxes and makes no provision for income taxes in its financial statements. Associates' taxable income or loss is reportable by its members.

Associates has determined that there are no material uncertain tax positions that require recognition or disclosure in its financial statements. Taxable years ended December 31, 2008, 2009, 2010 and 2011 are subject to IRS and other jurisdictions tax examinations.

At December 31, 2011, the reported amounts of Associates' aggregate tax bases exceeded their net assets by approximately \$685,600. At December 31, 2010, there was no difference between the tax bases and the reported amount of Associates' aggregate net assets.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

### i. Offering Costs

In connection with the proposed consolidation of certain properties (the Consolidation ) and an initial public offering of the consolidated group (the IPO ), Associates has incurred or will incur incremental accounting fees, legal fees and other professional fees. Such costs will be deferred and recorded as a

F-189

**Table of Contents****EMPIRE STATE BUILDING ASSOCIATES L.L.C.****(A Limited Liability Company)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(continued)****2. Summary of Significant Accounting Policies (continued)**

reduction of proceeds of the IPO, or expensed as incurred if the Consolidation and IPO are not consummated. Certain costs associated with the Consolidation and IPO not directly attributable to the solicitation of consents and the IPO, but rather related to structuring the Consolidation, are expensed as incurred.

***Correction of an Immaterial Error in the Financial Statements***

Our prior period financial results have been adjusted to reflect an immaterial correction which has no impact to the net change in cash reported on the statement of cash flows. During fiscal year 2012, we determined that certain costs related to the structuring of the Consolidation that were previously included in deferred offering costs should have been expensed in the periods incurred. The correction impacted the 2011 and 2010 periods and had accumulated to an amount of \$1,817,294 as of December 31, 2011. In addition, \$122,133 of such costs were deferred during the three month period ended March 31, 2012. Adhering to applicable guidance for accounting changes and error corrections, we concluded that the error was not material to any of our prior period financial statements. The correction resulted in immaterial changes to deferred costs and formation transaction expenses for the years ended December 31, 2011 and 2010. We applied the guidance for accounting changes and error corrections and revised our prior period financial statements presented in this prospectus/consent solicitation.

The following tables present the effect this correction had on the combined financial statements as of and for the year ended December 31, 2010 and 2011. Additionally, financial information included in the notes to the financial statements that is impacted by the adjustment have been revised, as applicable.

**j. New Accounting Pronouncements:**

In May 2011 the FASB issued ASU 2011-04, Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure

Requirements in U.S. GAAP. This ASU provides guidance setting forth additional requirements relating to disclosures about fair value. The guidance will be effective for us beginning with the first interim period in 2012. In accordance with the guidance, we will be required to disclose the level in the fair value hierarchy in which each fair value lies that is disclosed but not used to measure an asset or liability on the balance sheet. The guidance also clarifies that the fair value of a non-financial asset is based on its highest and best use and requires disclosure if a non-financial asset is being used in a manner that is not its highest and best use. Associates does not have any financial instruments that would be materially impacted by this standard as of December 31, 2011.

**3. Mortgages Payable**

To finance the acquisition of the fee title to the Real Estate (Note 1) and certain related costs, on April 17, 2002 Associates obtained a \$60,500,000 first mortgage with Capital One Bank. The mortgage was scheduled to mature on May 1, 2012. To finance improvements at the property and costs of the financing, on February 25, 2009 Associates borrowed \$31,500,000 from Signature Bank secured by a second mortgage on the Real Estate. The second mortgage was also scheduled to mature on May 1, 2012. The first and second mortgage loans aggregating \$92,000,000 plus accrued interest and prepayment penalties of \$2,343,373 were prepaid on July 26, 2011 out of proceeds from the new \$159,000,000 financing described below.

On July 26, 2011, Associates entered into a three-year term loan (the Secured Term Loan) with institutional lenders, including HSBC Bank USA, National Association as agent and HSBC Bank USA, National Association and DekaBank Deutsche Girozentrale as lead arrangers. At the closing of the Secured Term Loan, the lenders provided Associates with an advance of \$159,000,000 (of which \$92,000,000 repaid existing indebtedness). The Secured Term Loan is secured by a mortgage on the Real Estate.

The Secured Term Loan was amended by the First Amendment to Loan Agreement, Ratification of Loan Documents and Omnibus Amendment dated as of November 2, 2011 to provide for additional commitments from Capital One, National Association and Bank of America, N.A. of up to \$141,000,000 so that, collectively, the loan was increased to \$300,000,000. No additional funds were drawn at the time of the modification. Provided no event of default has occurred, and subject to other conditions, upon Associates' request, HSBC has also agreed to source further additional commitments aggregating up to \$200,000,000 in the sole discretion of the lenders. Any further advances under the Secured Term

Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Loan are subject to the consent of the Sublessee. The Secured Term Loan was amended on November 23, 2011 clarifying certain

F-191

**(A Limited Liability Company)**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(continued)**

3. Mortgages Payable (continued)

terms upon which the Real Estate is permitted to be transferred into a consolidated entity without accelerating the Secured Term Loan.

Pursuant to the terms of the Secured Term Loan agreement, Associates and Sublessee entered into an amendment dated July 26, 2011 to the sublease ( Third Modification of Sublease ) pursuant to which (i) Sublessee consented to the advance of up to \$159,000,000 under the Secured Term Loan and (ii) in accordance with the terms of the existing sublease agreement (which terminates on January 4, 2076) between Sublessee and Associates, the basic rent payable by Sublessee was increased by an amount equal to the debt service on the portion of the borrowing from the Secured Term Loan associated with improvements (excluding any principal payable upon maturity) (Note 12). The original basic rent payable by Sublessee is more than sufficient to pay the debt service on the portion of the borrowing associated with purchasing the fee position in 2002.

Subject to the terms and conditions of the Secured Term Loan agreement, the outstanding principal amount of the Secured Term Loan shall bear interest at a rate equal to 2.5% per annum above 30-day LIBOR, unless such rate is not available, in which event the Secured Term Loan would bear interest at 2.5% per annum in excess of (i) HSBC's prime rate or (ii) the BBA LIBOR Daily Floating Rate. In connection with this loan, Associates issued promissory notes, a mortgage encumbering the Property in favor of the agent for the lenders, and other customary security and other loan documents. The maturity date of this loan is July 26, 2014, which Associates may extend to July 26, 2015 and thereafter to July 26, 2016, in each case upon payment of an extension fee of 0.25% of the total availability under the Secured Term Loan agreement at the time of such extension. Such extensions are subject to customary conditions, including the satisfaction of certain loan-to-value and debt yield ratios and the absence of an event of default.

4. Related Party Transactions - Rent Income

Associates does not operate the Building. It subleases the Building to Sublessee pursuant to a net operating sublease (the Sublease ), which included an initial term which expired on January 4, 1992. The Sublease provides four separate options for Sublessee to renew the term, in each case for an additional 21 years, on the terms of the original Sublease. Such renewals have been exercised by Sublessee (a) on January 30, 1989, for the first renewal period from January 5, 1992 through January 4, 2013 and (b) as of February 11, 2010, for the remaining three renewal periods from January 5, 2013 through January 4, 2076 (the last two such renewals being exercised by Sublessee with Associates' consent for early exercise). Sublessee is required to pay annual basic rent of \$6,018,750 from January 1, 1992 through January 4, 2013, and \$5,895,625 from January 5, 2013 through the expiration of all renewal terms. Sublessee is also required to pay Associates additional rent of 50% of Sublessee's net operating profit, as defined in the Sublease, in excess of \$1,000,000 for each lease year ending December 31. In addition to the above, Sublessee is required to pay for all operating and maintenance expenses, real estate taxes, and necessary repairs and replacements, and keep the Building adequately insured against fire and accident. In accordance with the 3rd lease modification dated July 26, 2011, basic rent was increased to cover debt service relating to the Secured Term Loan refinancing that prepaid the first and second mortgages aggregating \$92,000,000 (Note 3), to the extent the Secured Term Loan debt exceeds the previous first mortgage of \$60,500,000. Basic rent will be increased to cover debt service on any additional borrowings for improvements and tenanting costs and on any refinancing of such debt so long as the aggregate amount refinanced does not exceed the then existing amount of debt plus refinancing costs.

**Table of Contents****EMPIRE STATE BUILDING ASSOCIATES L.L.C.****(A Limited Liability Company)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(continued)**4. Related Party Transactions - Rent Income (continued)

Additional rent through all renewal terms under the Sublease is payable in an amount equal to 50% of the Sublessee's annual net operating profit, as defined, in excess of \$1,000,000. For 2011 and 2010, Sublessee reported net operating profit of \$58,560,898 and \$9,222,742, respectively. Therefore, rent income was comprised as follows:

|                        | For the years ended<br>December 31, |               |
|------------------------|-------------------------------------|---------------|
|                        | 2011                                | 2010          |
| Minimum basic rent     | \$ 6,018,750                        | \$ 6,018,750  |
| Additional basic rent  | 2,434,117                           | 2,074,528     |
| Additional rent earned | 28,780,449                          | 4,111,371     |
|                        | \$ 37,233,316                       | \$ 12,204,649 |

Due to Sublessee at December 31, 2011 represents the payable to Sublessee for purchased building and tenanting costs.

Real estate taxes paid directly by the Sublessee for the years ended December 31, 2011 and 2010 totaled \$30,009,907 and \$27,664,886, respectively.

The following is a schedule of future minimum rental income (assuming that the Sublessee does not surrender the Sublease):

| Year ending December 31, |                |
|--------------------------|----------------|
| 2012                     | \$ 6,018,750   |
| 2013                     | 5,895,625      |
| 2014                     | 5,895,625      |
| 2015                     | 5,895,625      |
| Thereafter               | 353,737,500    |
|                          | \$ 377,443,125 |

On July 26, 2011, Associates refinanced the existing mortgages which were scheduled to mature on May 1, 2012. The above table does not reflect additional basic rent to cover debt service on the Secured Term Loan. As indicated in the above table, additional basic rent for the years ended December 31, 2011 and 2010 to cover debt service on the mortgages totaled \$2,434,117 and \$2,074,528, respectively. The above table reflects all lease renewals described above.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

The prospectus/consent solicitation in which these financial statements are included relates to the solicitation of consents of the Participants in Associates and other public limited liability companies supervised by the Supervisor to a consolidation transaction. In such consolidation, (x) the property interests of Associates, such other public limited liability companies and certain private entities supervised by the Supervisor, and (y) the Supervisor and certain affiliated management companies will be contributed to the operating partnership of a newly organized publicly traded real estate investment trust.

Consents are required from Participants in Associates and such other public limited liability companies for them to contribute their interests in the consolidation, and the solicitation of such consents will not commence until the SEC declares effective the registration statement on Form S-4. Consents have been obtained from Participants in the private entities and the Supervisor and certain affiliated companies and affiliates of the Supervisor for them to make such contribution.

F-193

**Table of Contents**

**EMPIRE STATE BUILDING ASSOCIATES L.L.C.**

**(A Limited Liability Company)**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(continued)**

4. Related Party Transactions Rent Income (continued)

The consideration to be paid to the contributing companies and entities in the consolidation will be allocated in accordance with exchange values determined based on appraisals by an independent third party. Such method of allocation has been approved by the Sublessee. Based on the exchange values, if the consolidation proposal is approved by Associates Participants, the consideration with respect to the Empire State Building will be allocated approximately 50% to Associates and 50% to the Sublessee, which the Supervisor believes is in accordance with the historical treatment of the Associates and Sublessee.

5. Related Party Transactions Supervisory and Other Services

Supervisory and other services are provided to Associates by its supervisor, Malkin Holdings LLC ( Malkin Holdings or the Supervisor ), a related party. Associates members consist of certain individuals who hold senior positions at Supervisor, each of whom also acts as an agent (collectively, the Agents ) for holders (the Participants ) of participations ( Participations ) in his respective member interest in Associates. Beneficial interests in Associates are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

Associates pays Supervisor for supervisory services and disbursements. The basic fee (the Basic Payment ) had been payable at the rate of \$100,000 per annum, payable \$8,333 per month, since inception in 1961. The Agents approved an increase in such fee in an amount equal to the increase in the Consumer Price Index since such date, resulting in an increase in the Basic Payment to \$725,000 per annum effective July 1, 2010, to be adjusted annually for any subsequent increase in the Consumer Price Index. The Basic Payment is payable (i) not less than \$8,333 per month and (ii) the balance out of available reserves from Additional Rent. If Additional Rent is insufficient to pay such balance, any deficiency shall be payable in the next year in which Additional Rent is sufficient. The Agents also approved payment by Associates, effective July 1, 2010, of the expenses in connection with regular accounting services related to maintenance of Associates books and records. Such expenses were previously paid by Supervisor.

In 2011, Malkin Holdings earned \$1,001,245 from Associates and \$983,027 from Sublessee for special supervisory services at hourly rates in connection with a proposed consolidation of Associates, other public and private entities supervised by Malkin Holdings, and Malkin Holdings and certain affiliated management companies into Empire State Realty Trust, Inc., a newly formed REIT, all representing Associates allocable portion of such fees to be paid directly and not borne indirectly through Additional Rent deductions. Malkin Holdings also receives an additional payment equal to 6% of distributions to the Participants in Associates in excess of 9% per annum on their remaining cash investment in Associates (which at December 31, 2011 was \$33,000,000). For tax purposes, any additional payment is recognized as a profits interest and the Supervisor is treated as a partner, all without modifying each Participant s distributive share of reportable income and cash distributions. Distributions in respect of Malkin Holdings profits interest totaled \$1,166,417 for 2011 and \$59,417 for 2010, respectively.

Malkin Holdings also serves as supervisor for Sublessee for which it receives a basic annual fee of \$574,000 effective January 1, 2010, adjusted annually by the Consumer Price Index. The basic supervisory fees for the years ended December 31, 2011 and 2010 were \$583,368 and \$574,000, respectively. For the years ended December 31, 2011 and 2010, Malkin Holdings received \$1,667,955 and \$271,332, respectively, from the Sublessee in other service fees. Under separate agreements to which Sublessee is not a party, certain of Sublessee s participants pay Malkin Holdings and members of Peter L. Malkin s immediate family a percentage of distributions above an annual threshold. These third party payments (which totaled \$1,796,393 and \$68,880 in 2011 and 2010, respectively, to Malkin Holdings and such Malkin family members) do not impose any obligation upon Sublessee or affect its assets and liabilities.

**Table of Contents****EMPIRE STATE BUILDING ASSOCIATES L.L.C.****(A Limited Liability Company)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(continued)****6. Number of Participants**

There were 2,824 and 2,813 Participants in the participating groups at December 31, 2011 and 2010, respectively.

**7. Determination of Distributions to Participants**

Distributions to Participants during each year generally reflect the excess of the current year's annual rent income, plus additional rent income and dividend income earned in the prior year, over the cash expenses and mortgage requirements of the current year, adjusted for those cash reserves management judges to be suitable under the circumstances.

**8. Distributions and Amount of Income per \$10,000 Participation Unit**

Distributions per \$10,000 participation unit during the years ended December 31, 2011 and 2010, based on 3,300 participation units outstanding during each year, consisted of the following:

|                            | Year ended<br>December 31, |                 |
|----------------------------|----------------------------|-----------------|
|                            | 2011                       | 2010            |
| Income                     | \$ 1,179                   | \$ 1,066        |

| <b>Total distributions</b> | <b>\$ 1,179</b>            | <b>\$ 2,197</b> |

**9. Contingencies**

Malkin Holdings LLC and Peter L. Malkin, a member in Associates, were engaged in a proceeding with Sublessee's former managing agent, Helmsley-Spear, Inc. that commenced in 1997, concerning the management, leasing, and supervision of the property that is subject to the Sublease to Sublessee. In this connection, certain costs for legal and professional fees and other expenses were paid by Malkin Holdings and Mr. Malkin. Malkin Holdings and Mr. Malkin have represented that such costs will be recovered only to the extent that (a) a competent tribunal authorizes payment or (b) an investor voluntarily agrees that his or her proportionate share be paid. On behalf of himself and Malkin Holdings, Mr. Malkin has requested, or intends to request, such voluntary agreement from all investors, which may include renewing such request in the future for any investor who previously received such request and failed to confirm agreement at that time. Because any related payment has been, or will be, made only by consenting investors, Associates has not provided for the expense and related liability with respect to such costs in these financial statements.

An August 29, 2006 settlement agreement terminated Helmsley-Spear, Inc. as managing and leasing agent at the property as of August 30, 2006. Sublessee is now self-managing the property, subject to the supervision of Malkin Holding L.L.C., as its supervisor, while engaging third party leasing agents, CB Richard Ellis for retail space since August 30, 2006 and Newmark Knight Frank for non-retail space since October 21, 2009.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Five putative class actions have been brought by participants in Associates and several other entities supervised by Malkin Holdings that own fee or leasehold interests in various properties located in New York City, (which were filed March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and

F-195

**Table of Contents****EMPIRE STATE BUILDING ASSOCIATES L.L.C.****(A Limited Liability Company)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(continued)****9. Contingencies (continued)**

March 19, 2012) (the Class Actions ). As now pending in New York State Supreme Court, New York County, each Class Action challenges the proposed consolidation of those and other properties supervised by Malkin Holdings into a real estate investment trust (the REIT ) and the initial public offering of shares in Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a REIT. The plaintiffs assert claims against Malkin Holdings, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc., Malkin Construction Corp., Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, Empire State Realty OP, L.P., and the REIT ( Defendants ) for breach of fiduciary duty, unjust enrichment and/or aiding and abetting breach of fiduciary duty, alleging, inter alia, that the terms of the transaction and the process in which it was structured (including the valuation which was employed) are unfair to the participants, the consolidation provides excessive benefits to Malkin Holdings and its affiliates and the prospectus/consent solicitation statement which is part of the registration statement on Form S-4 relating to the consolidation fails to make adequate disclosure. The complaints seek money damages and injunctive relief preventing the proposed transaction. On April 3, 2012, plaintiffs moved for consolidation of the actions and for appointment of co-lead counsel. Defendants intend to consent to consolidation, and have no position with respect to appointment of co-lead counsel.

The Class Actions are in a very preliminary stage, with no responses to the complaints having been filed to date. The outcome of this litigation is uncertain, however, and as a result, the company may incur costs associated with defending or settling such litigation or paying any judgment if Defendants lose. In addition, the company may be required to pay damage awards or settlements. At this time, the company cannot reasonably assess the timing or outcome of this litigation, estimate the amount of loss, or assess its effect, if any, on the Company's financial statements. Defendants believe the Class Actions are baseless and intend to defend them vigorously.

There is a risk that other third parties will assert claims against the Defendants or the supervisor relating to this transaction, including, without limitation, that the supervisor breached its fiduciary duties to investors in the existing entities or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against the Defendants or the supervisor.

10. Concentration of Credit Risk (continued)

account held by Malkin Holdings. That account is included on the accompanying balance sheet as Due from Supervisor. The funds (approximately \$324,000 at December 31, 2011 and 2010) were paid to the Participants on January 1, 2012 and 2011, respectively.

11. Building Improvements Program

In 2008, the Participants of Associates consented to a building improvements program (the Program ) with an initial borrowing of \$31,500,000 and authorization for possible future refinancings of mortgage debt. To finance improvements to the Real Estate and costs of financing, on February 25, 2009 Associates borrowed \$31,500,000 from Signature Bank (Note 3) which was prepaid on July 26, 2011 out of proceeds from the new \$159,000,000 Secured Term Loan. Commencing July 26, 2011, Basic Rent was increased to cover debt service on the refinanced loan balance to the extent the Secured Term Loan debt exceeds \$60,500,000 which was the balance of the prior first mortgage. Through December 31, 2011, Associates had incurred costs related to the Program of \$55,778,000 and currently estimates that the Program, expected to be completed substantially in 2016, will be approximately \$550,000,000 to \$590,000,000 compared to the original budget of \$626,000,000. Due to Sublessee at December 31, 2011 represents the payable to Sublessee for purchased building tenanting costs. The costs of the Program will be financed by the Secured Term Loan, additional financing (Note 3) and Sublessee s operating cash flow.

The Sublessee is advancing costs of the Program and is reimbursed by Associates from available financing. The Program (1) grants the ownership of the improvements to Associates to the extent of its reimbursements to Sublessee and (2) allows for the increased mortgage charges to be paid by Associates from an equivalent increase in the basic rent paid by the Sublessee to Associates. Since any additional rent will be decreased by one-half of that amount, the net effect of the lease modification is to have Associates and the Sublessee share the costs of the Program equally, assuming additional rent continues to be earned.

12. Subsequent Events

Additional Rent of \$28,780,449 was paid to Associates on March 5, 2012. On March 8, 2012, out of the Additional Rent, \$17,343,000 was distributed to the Participants in Associates and \$1,107,000 was paid to Malkin Holdings, representing the balance of its additional payment for 2011.

Sublessee concluded an agreement with New York City for a reduction in real estate taxes for the tax years 2002/2003-2011/2012 resulting in gross tax savings of approximately \$16,900,000, of which approximately \$12,400,000 will be in the form of a refund and the balance through future tax reductions to be phased in through 2012/2016. Professional fees total \$1,735,010, including \$867,505 to Malkin Holdings. Sublessee is reviewing the adjustment to real estate tax escalation rent billings to existing tenants resulting from the tax reduction.

An additional \$30,000,000 was drawn on the Secured Term Loan on April 6, 2012 bringing the total amount advanced to \$189,000,000.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Empire State Building Company L.L.C.

(a Limited Liability Company)

We have audited the accompanying consolidated balance sheets of Empire State Building Company L.L.C. and Affiliates as of December 31, 2011 and 2010, and the related consolidated statements of income, changes in equity and cash flows for each of the two years in the period ended December 31, 2011. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Company's internal controls over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Empire State Building Company L.L.C. and Affiliates at December 31, 2011 and 2010, and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles.

**Table of Contents**

**EMPIRE STATE BUILDING COMPANY L.L.C. AND AFFILIATES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**1. Organization and Nature of Business**

Empire State Building Company L.L.C. ( **ESB** ) was originally organized on August 15, 1961 as a joint venture to lease and sublease the approximately 2,800,000 square foot office building and Observatory, more commonly known as the Empire State Building situated at 350 Fifth Avenue, New York, New York, (the **Property** ). At December 31, 2011, the Property was approximately 68% occupied. On April 2, 1971, ESB converted from a joint venture to a general partnership. On December 17, 2001, ESB converted from a general partnership to a New York limited liability company and is now known as Empire State Building Company L.L.C. Although limited liability companies are unincorporated associations, their members have limited personal liability for the obligations or debts of the entity similar to stockholders of a corporation.

ESB commenced operations on August 15, 1961 and is to continue until the earlier of the complete disposition of all of the Company's assets, unless sooner terminated pursuant to the Operating Agreement or by law.

On February 9, 1962, Empire State Building, Inc. (the **Observatory** or **Inc.** ) was formed to sublease from ESB and operate the observation decks located on the 86<sup>th</sup> and 102<sup>nd</sup> floors of the Property. A new lease was entered into in 2010 (the **2010 Lease** ) under which Inc. acted as agent for a joint venture (the **Joint Venture** ) owned 99% by ESB and 1% by Inc. The Joint Venture arrangement has no significant impact on the financial position or results of operations reported in the consolidated financial statements. The 2010 Lease expired on December 31, 2010 and was not renewed.

On January 1, 2011, ESB entered into a lease for the observation decks with ESB Observatory LLC, a newly organized limited liability company owned 99% by ESB and 1% by ESB 102 Corporation (which, in turn, is owned 100% by ESB), for a five-year term commencing January 1, 2011 and expiring December 31, 2015. ESB Observatory LLC is to pay fixed annual rent of \$6,700,000, adjusted each year commencing 2012 to reflect the increase in the Consumer Price Index, plus additional rent, as defined in the lease. The new leasing arrangement does not have a significant impact on the financial position or results of operations reported in the consolidated financial statements.

On July 15, 2009, ESB Captive Insurance Company L.L.C. (the **Captive** ) was formed in the State of Vermont, as a captive insurance company to insure the Property and business interruption risks of ESB and the Observatory, including, but not limited to, terrorism risks. The Captive was formed as a single member limited liability company, wholly owned by ESB. For income tax reporting purposes, a single member LLC is classified as a division of its member, accordingly, the single member LLC's taxable income or loss is reportable by its member. The Captive reinsures certain coinsurance amounts. There were no losses incurred through December 31, 2011.

**2. Summary of Significant Accounting Policies**

**Principles of consolidation** The accompanying consolidated financial statements include the accounts of Empire State Building Company L.L.C. and its wholly owned subsidiaries: ESB Captive Insurance Company L.L.C., ESB 102 Corporation, and ESB Observatory LLC; and Empire State Building, Inc. (collectively, the **Company** ).

All significant intercompany accounts and transactions have been eliminated in consolidation.

The Company follows the provisions pertaining to noncontrolling interests of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 810, Consolidation. A noncontrolling interest is the portion of equity in a subsidiary not attributable, directly or indirectly, to a parent. Among other matters, the noncontrolling interest standards require that noncontrolling interests be reported as part of equity in the consolidated balance sheets (separately from the controlling interest's equity). The

**Table of Contents**

**EMPIRE STATE BUILDING COMPANY L.L.C. AND AFFILIATES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(continued)

2. Summary of Significant Accounting Policies (continued)

noncontrolling interest standards also require companies to disclose the changes in the noncontrolling interest in the statement of equity or in a separate note to the financial statements; and require that net income include earnings attributable to the noncontrolling interest with disclosure on the face of the statement of income of the amounts attributable to the parent and to the noncontrolling interest.

The Company's interest in Empire State Building, Inc. is classified as a noncontrolling interest in the accompanying consolidated financial statements.

**Variable interest entities** Under FASB ASC 810, Consolidation, when a reporting entity (ESB) is the primary beneficiary of an entity that is a variable interest entity as defined in FASB ASC 810, the variable interest entity must be consolidated into the financial statements of the reporting entity. The determination of the primary beneficiary of a VIE is based on a qualitative rather than a quantitative analysis. An entity is required to consolidate a VIE if it has (i) the power to direct the activities that most significantly impact the entity's economic performance and (ii) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE that could be significant to the VIE.

Prior to January 1, 2011, ESB had determined that both Inc. and the Joint Venture were VIEs of which ESB was the primary beneficiary. As a result, ESB consolidated both the Joint Venture and Inc. at December 31, 2010, as ESB through its design of the Joint Venture and Inc. and its lease to the Joint Venture, had both the power to direct the activities that most significantly impact both the Joint Venture and Inc.'s economic performance and the obligation to absorb losses of both the Joint Venture and Inc. and the right to receive benefits from both the Joint Venture and Inc. that could be significant to both the Joint Venture and Inc.

On January 1, 2011, ESB deconsolidated the Joint Venture as a result of the expiration of the 2010 Lease. As of December 31, 2011, ESB continued to report an estimated \$1,910,000 income tax liability relating to uncertain tax positions of Inc. as ESB is responsible for such liability.

The deconsolidation of the Joint Venture had no impact on ESB's consolidated balance sheets and statement of income as ESB owned 99% of the Joint Venture.

The aggregate assets, liabilities and deficit of Inc. as of December 31, 2011 were \$4,574,414, \$6,380,999 and \$(1,806,585), respectively, and net income for the year ended December 31, 2011 consisted of an income tax benefit of \$1,200,000. The liabilities of Inc. consist of \$1,910,000 of income tax liability and approximately \$4,470,000 of intercompany payable due to ESB, which eliminates in consolidation. The aggregate assets, liabilities and deficit of the Joint Venture as of December 31, 2010 were \$6,895,694, \$9,902,279 and \$(3,006,585) (includes Inc.'s 1% interest in the Joint Venture), respectively. Net income for the year then ended was \$4,515,868 (net of rent paid to ESB). Net income attributable to the noncontrolling interest was \$1,935,159 (inclusive of a \$1,890,000 income tax benefit).

**Revenue recognition:**

**Empire State Building Company L.L.C.** Minimum rental revenue is recognized on a straight-line basis over the terms of the subleases. The excess of rents so recognized over amounts contractually due pursuant to the underlying subleases is included in unbilled rents receivable on the accompanying balance sheets. Leases generally contain provisions under which tenants reimburse the Company for a portion of property operating expenses, real estate taxes and other recoverable costs. Receivables for escalation and expense reimbursements are accrued in the period the related expenses are incurred. Rental payments received before they are recognized as income are recorded as deferred income.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

ESB provides an estimated allowance for uncollectible rent and loans receivable based upon an analysis of tenant and loan receivables and historical bad debts, tenant concentrations, tenant credit worthiness, tenant

F-205

**EMPIRE STATE BUILDING COMPANY L.L.C. AND AFFILIATES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(continued)

2. Summary of Significant Accounting Policies (continued)

security deposits (including letters of credit and lease guarantees provided by the tenant), current economic trends and changes in tenant payment terms. Rent receivable is shown net of an estimated allowance for doubtful accounts of \$1,455,000 and \$1,192,000 at December 31, 2011 and 2010, respectively. Unbilled rent receivable is shown net of an estimated allowance for doubtful accounts of \$710,000 and \$165,000 at December 31, 2011 and 2010, respectively.

Bad debt expense is shown net of recoveries.

**ESB Observatory LLC and Empire State Building, Inc.** Revenues from the sale of Observatory tickets are recognized upon admission. Deferred income related to unused and unexpired tickets as of December 31, 2011 was approximately \$3,400,000.

ESB Observatory LLC and Empire State Building, Inc. provide an estimated allowance for uncollectible accounts receivable based upon an analysis of accounts receivable and historical bad debts, customer credit worthiness, current economic trends and changes in payment terms. Management believes no allowance is necessary for outstanding accounts receivable balances at December 31, 2011 and 2010.

**Cash and cash equivalents** The Company considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

At times the Company has demand and other deposits with a bank in excess of federally insured limits. The possibility of loss exists if the bank holding uninsured deposits were to fail.

**Property** The Company reviews real estate assets for impairment whenever events or changes in circumstances indicate the carrying amount of assets to be held and used may not be recoverable. Impairment losses are recognized when the estimated undiscounted cash flows expected to be generated by those assets are less than the assets' carrying amount. Impaired assets are recorded at their estimated fair value calculated based on the discounted cash flows expected to be generated by the asset. No impairment loss has been recorded for the years ended December 31, 2011 and 2010.

**Depreciation and amortization** Depreciation is computed by the straight-line method over the estimated useful lives of forty years for the leasehold improvements and seven years for equipment. The leasehold is being depreciated by the straight-line method over the term of the sublease. Subtenant improvements, leasing commissions and leasing costs are amortized by the straight-line method over the terms of the related tenant leases.

Repairs and maintenance are charged to expense as incurred. Expenditures which increase the useful lives of the assets are capitalized.

**Sales tax** Sales tax collected by ESB from tenants for sub-metered electricity is presented in the financial statements on a gross basis and, accordingly, included in revenue and expenses. Observatory admission ticket sales are reported net of sales tax and, accordingly, excluded from revenue and expenses.

**Income taxes** ESB and ESB Observatory LLC are not subject to federal and state income taxes and, accordingly, make no provision for federal and state income taxes in the accompanying financial statements. ESB's rental operations are not subject to local income taxes. ESB's taxable income or loss (which includes the income or loss of the Captive) is reportable by its members.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Empire State Building, Inc. has elected to be taxed under the Subchapter S provisions of the Internal Revenue Code and applicable New York State income tax law effective January 1, 1971. Accordingly, the Company has not provided for federal or state income taxes since all income is passed through directly to the stockholders for the years ended December 31, 2011 and 2010. New York City does not recognize S Corporations as pass-through entities. Therefore, Empire State Building, Inc. is subject to New York City

2. Summary of Significant Accounting Policies (continued)

general corporate tax which totaled approximately \$2,500 for the year ended December 31, 2010. ESB and ESB Observatory LLC are subject to New York City Unincorporated Business tax which totaled approximately \$177,000 and \$184,000 for the years ended December 31, 2011 and 2010, respectively. ESB 102 Corporation is subject to federal, New York State and New York City corporation tax, which totaled approximately \$11,000 for the year ended December 31, 2011. ESB Observatory LLC was in place as of January 1, 2011. The \$184,000 is related to ESB Co. Inc. JV, which was the JV in place in 2010.

The Company follows the provisions pertaining to uncertain tax positions of FASB ASC 740, Income Taxes, which provides a financial statement recognition threshold and measurement attribute for a tax position taken or expected to be taken in a tax return. Under FASB ASC 740 the tax benefit from an uncertain tax position may only be recognized if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Among other matters, FASB ASC 740 also provides guidance on accounting for interest and penalties associated with tax positions. As of December 31, 2011, the Company has recorded a liability of \$1,910,000 for uncertain tax positions, which is included in accounts payable and accrued liabilities on the Company's consolidated balance sheet (including \$619,000 of accrued interest and penalty). During the years ended December 31, 2011 and 2010, the Company recorded a tax benefit of \$1,200,000 and \$1,890,000 (inclusive of reductions in interest and penalties of \$330,000 and \$496,000) as a component of Observatory Income, net on the accompanying consolidated statement of income. The liability is based on amounts of possible outcomes, using facts, circumstances and information available at the reporting date. Interest and penalties are included as a component of income tax benefit on the accompanying consolidated statement of income.

Taxable years ended December 31, 2008, 2009, 2010 and 2011 are subject to IRS and other jurisdictions tax examinations.

**Advertising** The Company expenses advertising costs as incurred. The Company incurred advertising costs of \$4,703,117 and \$5,054,935, respectively (inclusive of \$2,589,864 incurred by ESB Observatory LLC in 2011 and \$2,516,693 incurred by Empire State Building, Inc. in 2010), for the years ended December 31, 2011 and 2010.

**Environmental costs** The Property contains asbestos. The asbestos is appropriately contained, in accordance with current environmental regulations. As certain demolition of the space occurs, environmental regulations are in place, which specify the manner in which the asbestos must be handled and disposed. Because the obligation to remove the asbestos has an indeterminable settlement date, the Company is unable to reasonably estimate the fair value of this obligation. Asbestos abatement costs are charged to expense as incurred.

**Estimates** The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates. The Company regards the allowance for uncollectible rents (including unbilled rent receivable) as being particularly sensitive. Further, when tenants experience financial difficulties, uncertainties associated with assessing the recoverability of subtenant improvements and leasing commissions increase.

Other items subject to such estimates and assumptions include the determination of the useful life of real estate and other long-lived assets as well as the valuation and impairment analysis of real property and other long-lived assets.

2. Summary of Significant Accounting Policies (continued)

The real estate industry has historically been cyclical and sensitive to changes in economic conditions such as interest rates, credit availability and unemployment levels. Changes in these economic conditions could affect the assumptions used by management in preparing the accompanying financial statements.

**Recently adopted accounting pronouncements** In January 2010, the FASB issued ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. ASU No. 2010-06 amends ASC 820 and requires disclosure of details of significant asset or liability transfers in and out of Level 1 and Level 2 measurements within the fair value hierarchy and inclusion of gross purchases, sales, issuances, and settlements in the rollforward of assets and liabilities valued using Level 3 inputs within the fair value hierarchy. The guidance also clarifies and expands existing disclosure requirements related to the disaggregation of fair value disclosures and inputs used in arriving at fair values for assets and liabilities using Level 2 and Level 3 inputs within the fair value hierarchy. These disclosure requirements were effective for interim and annual reporting periods beginning after December 15, 2009. Adoption of this guidance on January 1, 2010, excluding the Level 3 rollforward, did not result in additional disclosures in our consolidated financial statements. The gross presentation of the Level 3 rollforward is required for interim and annual reporting periods beginning after December 15, 2010. The adoption of this pronouncement did not have a material impact on the Company's financial statements.

**New accounting pronouncements not yet adopted** In May 2011, the FASB issued ASU 2011-04, Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP. This ASU provides guidance setting forth additional requirements relating to disclosures about fair value. In accordance with the guidance the Company requires additional disclosures, including: (i) quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion about the sensitivity of the measurements to changes in the unobservable inputs, for Level 3 fair value measurements; (ii) fair value of financial instruments not measured at fair value but for which disclosure of fair value is required, based on their levels in the fair value hierarchy; and (iii) transfers between Level 1 and Level 2 of the fair value hierarchy. For nonpublic companies this ASC is effective for annual periods for fiscal years ending after December 31, 2012. The adoption of this update on January 1, 2012 is not expected to have a material impact on our consolidated financial statements.

In September 2011, the FASB issued ASU 2011-9, Compensation-Retirement Benefits-Multiemployer Plans (Subtopic 715-80): Disclosures about an Employer's Participation in a Multiemployer Plan. The ASU requires substantially more disclosures regarding the multiemployer plan the Company participates in, the nature of the Company's commitment to the plan and other disclosures. The current recognition and measurement guidance is unchanged. The Company is evaluating the disclosures required under the ASU. For non-public companies this ASU is effective for annual periods for fiscal years ending after December 31, 2012.

3. Members' Equity

Profits, losses and distributions are allocated to the members pursuant to the Company's Operating Agreement.

The Company must maintain minimum capital and surplus of \$250,000 in accordance with Vermont captive insurance regulations.

**Table of Contents****EMPIRE STATE BUILDING COMPANY L.L.C. AND AFFILIATES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(continued)

**4. Deferred Charges**

Deferred charges consist of the following as of December 31, 2011 and 2010:

|  | <b>2011</b>          | <b>2010</b>          |
|--|----------------------|----------------------|
| Leasing commissions                    | \$ 20,315,761        | \$ 22,758,830        |
| Leasing costs and other deferred costs | 872,891              | 1,888,175            |
|  | 21,188,652           | 24,647,005           |
| Less accumulated amortization          | 8,796,389            | 8,460,780            |
| <b>Total</b>                           | <b>\$ 12,392,263</b> | <b>\$ 16,186,225</b> |

**5. Loans Receivable**

During 2010, the Company entered into lease modification agreements with two tenants which had rent receivable balances in arrears totaling \$1,399,909. Interest income is recognized using the effective interest method and recognized on the accrual basis. As of December 31, 2011, loans receivable consist of the following:

| <b>Outstanding Date of Loan</b> | <b>Principal<br/>Balance</b> | <b>Interest Rate</b> | <b>Maturity</b>  |
|---------------------------------|------------------------------|----------------------|------------------|
| February 28, 2010               | \$ 995,179                   | LIBOR (*)+3.5%       | December 1, 2024 |
| December 28, 2010               | 240,000                      | Prime (**)+3.0%      | December 1, 2015 |
|                                 | <b>\$ 1,235,179</b>          |                      |                  |

(\*) 0.0556% (three month LIBOR) at December 31, 2011.

(\*\*) 3.25% at December 31, 2011.

Future principal payments due are as follows:

|            |                     |
|------------|---------------------|
| 2012       | \$ 119,000          |
| 2013       | 122,000             |
| 2014       | 124,000             |
| 2015       | 127,000             |
| 2016       | 70,000              |
| Thereafter | 673,179             |
|            | <b>\$ 1,235,179</b> |

6. Related Party Transactions

ESB (the Lessee ) entered into a lease agreement with Empire State Building Associates L.L.C. (the Lessor ) which was set to expire on January 4, 2013. On February 11, 2010, the Company exercised the remaining lease renewal options for the period January 4, 2013 to January 4, 2076. The lease provides for an annual basic minimum rent equal to \$6,018,750 through January 4, 2013; thereafter, the annual basic minimum rent is equal to \$5,895,625.

In accordance with the 3<sup>rd</sup> lease modification dated as of July 26, 2011, the minimum basic rent described above has been increased to cover debt service on the outstanding principal balance in (in an amount not to exceed \$159,000,000 without the Lessee s consent) in excess of \$60,500,000 on the Lessor s \$300,000,000 new mortgage Loan obtained July 26, 2011 (the Loan ), of which \$159,000,000 has been advanced as of

F-209

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(continued)

6. Related Party Transactions (continued)

December 31, 2011. Provided no event of default has occurred, and subject to other conditions, upon Lessor's request, HSBC has also agreed to source further additional commitments aggregating up to \$200,000,000 in the sole discretion of the lenders. Any further advances under the Loan are subject to the consent of Lessee.

On July 26, 2011, the Lessor closed on a new mortgage loan with HSBC Bank USA and other participating banks (the Lenders) with an initial advance of \$159,000,000 to be used to pay and discharge all existing mortgage loans secured by the Property, to fund operations and working capital requirements relating to the Property (including for improvements) and certain other general purposes. Subject to the conditions set forth in the Loan agreement, the Lenders may provide the Lessor with additional advances of up to \$76,000,000 and use commercially reasonable efforts to arrange for additional commitments from other financial institutions in an aggregate amount equal to \$65,000,000. On November 2, 2011 the Loan was amended to increase the loan amount to \$300,000,000. There were no additional principal advances for the year ending December 31, 2011. The Lessor must also maintain a debt yield as specified in the Loan. Subject to the terms and conditions of the Loan, the outstanding principal amount of the loan shall bear interest at a rate equal to 2.5% per annum above 30-day LIBOR, unless such rate is not available, in which event the Loan would bear interest at 2.5% per annum in excess of (i) HSBC's prime rate or (ii) the BBA LIBOR Daily Floating Rate. The aggregate rate was 2.78% at December 31, 2011. The Lessor is obligated to repay the outstanding amount of the Loan plus accrued and unpaid interest and all other amounts due under the Loan and related documents on July 26, 2014, which the Lessor may extend to July 26, 2015 and thereafter to July 26, 2016, in each case, subject to an extension fee of 0.25% of the total availability under the Loan at the time of such extension. Such extensions are subject to customary conditions, including the maintenance of a certain loan-to-value ratio and debt yield and the absence of an event of default. The Lessor incurred a prepayment penalty of approximately \$2,400,000 in connection with the repayment of the old notes.

Improvement and tenancing costs funded out of the proceeds from the Lessor's mortgage loans which are secured by the Property are borne by the Lessor and capitalized as property improvements or tenancing costs in the Lessor's financial statements. Improvement and tenancing costs funded out of the ESB's operating cash flow are borne by ESB and are capitalized in its financial statements as leasehold improvements or tenancing costs.

In connection with the July 2011 refinancing of Lessor's mortgage loans with a new \$159,000,000 mortgage, approximately \$58,000,000 became available to fund property improvements and tenancing costs allowing reimbursement to the Company subsequent to June 30, 2011 of approximately \$34,000,000 it had incurred and recorded on its financial statements during the first six months of 2011 for fixed asset additions of \$24,400,000 and deferred leasing costs of \$9,600,000. The foregoing was effected in the third quarter of 2011 and resulted in 1) Company's removal of such asset additions and Lessor's recording of same on its financial statements, and 2) Company's accrual of overage rent payable to the Lessor equal to approximately 50% thereof. During the year ended December 31, 2011, the Company outlaid approximately \$63,944,272 for improvements and tenancing costs all of which has been reimbursed to the Company, other than \$6,067,806 due from lessor at December 31, 2011.

In accordance with the 2<sup>nd</sup> lease modification dated as of February 25, 2009, the minimum basic rent described above was increased to cover debt service on the Lessor's \$31,500,000 second mortgage loan obtained on February 25, 2009 that was repaid on July 26, 2011 with the proceeds from the Loan described above. The basic rent was increased to cover debt service, which consisted of only interest during the period the second mortgage loan was outstanding and totaled \$1,132,000 and \$2,075,938 for the years ended December 31, 2011 and 2010, respectively.

**Table of Contents**

**EMPIRE STATE BUILDING COMPANY L.L.C. AND AFFILIATES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(continued)

6. Related Party Transactions (continued)

The lease also provides for additional rent ( Overage Rent ) through all renewal terms equal to 50% of the Lessee's annual net operating profit, as defined, in excess of \$1,000,000, in each lease year.

In addition to the above, the Lessee is required to pay for all operating and maintenance expenses, real estate taxes, and necessary repairs and replacements, and keep the Property adequately insured against fire and accident.

Beginning in 2008 when participants in the Lessor consented to a building improvements program (the Program ), a Program has been undertaken by the Company to maintain and enhance the Property and its competitive position. Through December 31, 2011 the Company has incurred costs related to the Program of approximately \$143,151,000 (which consisted of building improvements and tenant leasing costs of approximately \$80,508,000 and \$62,643,000, respectively), and the Lessor has incurred costs related to the Program of approximately \$73,382,000 (which consisted of building improvements and tenant leasing costs of approximately \$34,735,000 and \$38,647,000, respectively). In addition, during the period from 2006-2008, the Company incurred building improvement costs of \$15,684,000. The company currently estimates that the total costs of all Program-related projects will be approximately \$550,000,000 to \$590,000,000. Lessor intends to seek additional financing to fund future Property improvements and tenanting costs.

The Company advances funding for the Program and bills the Lessor for certain costs incurred. The Program (1) grants the ownership of improvements and tenanting costs funded by Lessor to Lessor and acknowledges Lessor's desire to finance such costs through an increase in the fee mortgage, and (2) allows for the increased mortgage charges to be paid by Lessor from an equivalent increase in basic rent paid by the Company, all to the extent the Company joins Lessor in approving such mortgage increase. Since additional rent will be decreased by one-half of that increase in basic rent, the net effect of the lease modification is to have the Company and Lessor share the costs of the Program equally, assuming the Company's profitability continues to obligate it to pay overage rent.

In connection with the Loan, the Company has assigned all subleases and rents to the lender as additional collateral.

The following is a schedule of future minimum rental payments as of December 31, 2011 (based on the current amount of the Lessor's outstanding mortgage obligation and assuming there are no additional principal drawdowns, the Loan continues to bear interest at the aggregate rate in effect as of December 31, 2011 and the Loan is repaid on its initial maturity date):

|            |                       |
|------------|-----------------------|
| 2012       | \$ 8,810,000          |
| 2013       | 8,680,000             |
| 2014       | 8,170,000             |
| 2015       | 5,900,000             |
| 2016       | 5,900,000             |
| Thereafter | 347,890,000           |
|            | <b>\$ 385,350,000</b> |

Distributions are paid from a cash account held by Malkin Holdings. That account is reflected on the balance sheets as Due from Supervisor.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Due to Lessor at December 31, 2010 represents advances made to the Company of \$8,963,473 for building improvements. Due from Lessor at December 31, 2011 of \$6,067,806 represents unpaid outlays made on their behalf.

F-211

**Table of Contents****EMPIRE STATE BUILDING COMPANY L.L.C. AND AFFILIATES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(continued)****6. Related Party Transactions (continued)**

Due from Supervisor at December 31, 2011 and 2010 represents cash held on our behalf by our Supervisor.

Supervisory and other services are provided to the Company by its Supervisor, Malkin Holdings LLC ( Malkin Holdings ), a related party.

Beneficial interests in the Company are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

Fees and payments to Malkin Holdings during the years ended December 31, 2011 and 2010, are as follows:

|   | <b>2011</b>         | <b>2010</b>       |
|---|---------------------|-------------------|
| Basic supervisory fees  | \$ 583,368          | \$ 574,000        |
| Offering costs for work done by the employees of the Supervisor | 983,027*            | 119,038*          |
| Other fees and disbursements                                    | 660,318*            | 129,306*          |
| Service fee on security deposit accounts                        | 24,610              | 22,988            |
| <b>Total</b>  | <b>\$ 2,251,323</b> | <b>\$ 845,332</b> |

\* Included in other professional fees in the Consolidated Statements of Income.

For administration and investment of each tenant security deposit account, Malkin Holdings has earned since 1973 a service fee of 1% of the account balance, which fee totaled \$24,610 and \$22,988 for the years ended December 31, 2011 and 2010, respectively. As this service fee is deducted from interest otherwise payable to tenants, these financial statements show no related expense to the Company.

Through December 31, 2011, the Company has been charged an aggregate of \$9,407,731, included in acquisition fees and other professional fees, of which \$1,284,892 is included in accrued liabilities at December 31, 2011, to reimburse Malkin Holdings for services and third-party fees it had advanced pertaining to certain matters regarding a course of action that could result in the Company being acquired by a Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a real estate investment trust (REIT). Such fees are borne entirely by the Company and are not shared indirectly with the Lessor through Overage Rent deductions. If the REIT formation and public offering is completed, the Company will be reimbursed for all such costs by the REIT.

Under separate agreements to which the Company is not a party, Malkin Holdings, members of Mr. Malkin's immediate family and other persons having no management role or ownership interest in Malkin Holdings receive additional payments from investors in the Company in varying percentages, based upon current year distributions. These third party payments do not impose any obligation upon the Company or affect its assets and liabilities.

Malkin Holdings also serves as supervisor for the Company's Lessor and receives from Lessor a basic annual fee and a payment in respect of a profits interest based on distributions to Lessor's investors. Beneficial interests in Lessor are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

**Table of Contents****EMPIRE STATE BUILDING COMPANY L.L.C. AND AFFILIATES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(continued)****7. Rental Income Under Operating Subleases**

Future minimum rentals (including antenna license fees) assuming neither renewals nor extensions of leases which may expire during the periods, on noncancelable operating leases in effect as of December 31, 2011 are as follows:

|            |                       |
|------------|-----------------------|
| 2012       | \$ 90,690,000         |
| 2013       | 90,480,000            |
| 2014       | 85,920,000            |
| 2015       | 82,540,000            |
| 2016       | 71,930,000            |
| Thereafter | 385,550,000           |
|            | <b>\$ 807,110,000</b> |

At December 31, 2011, one tenant, a consumer goods sourcing company comprised approximately 27% of future minimum rental income. There were no other tenants which comprised over 10% of the future minimum rental income.

In connection with a lease entered into during 2008, the Company was required to escrow funds for the Company's contribution for improvement work to be performed. These funds will be disbursed as the work is completed (as defined).

**8. Leasing Agreements**

The Company has engaged Newmark Knight Frank ( NKF ) as leasing agent for the non-retail space of the Property. For the years ended December 31, 2011 and 2010, NKF commissions capitalized by Company totaled approximately zero and \$772,000, respectively.

The Company has engaged CB Richard Ellis, Inc. ( CBRE ) as leasing agent for the retail space of the Property. For the years ended December 31, 2011 and 2010, CBRE commissions capitalized by Company totaled approximately zero and \$930,000, respectively.

**9. Multiemployer Pension Plan**

In connection with the Company's collective-bargaining agreements with the Service Employees Janitorial Union Local 32B-32J and the Central Pension Fund Local 94, the Company participates with other companies in two defined benefit pension plans. The plans cover all of the Company's janitorial and engineering employees who are members of the union. These plans are not administered by the Company and contributions are determined in accordance with provisions of negotiated labor contracts. ESB incurred union pension and welfare expense (which is included in payroll and related costs) of approximately \$2,876,000 and \$2,683,000, respectively, for the years ended December 31, 2011 and 2010. ESB, Inc. incurred union pension and welfare expense of approximately \$2,155,000 (which is included in payroll and related costs see Note 12) for the year ended December 31, 2010. ESB Observatory LLC incurred union pension and welfare expense of approximately \$2,549,000 (which is included in payroll and related costs see Note 12) for the year ended December 31, 2011.

Under the Employee Retirement Income Security Act of 1974, as amended by the Multiemployer Pension Plan Amendments Act of 1980, an employer is liable upon withdrawal or termination of a multiemployer plan for its proportionate share of the plan's unfunded vested benefits liability. Management has no intention of undertaking any action which could subject the Company to the obligation.

**Table of Contents****EMPIRE STATE BUILDING COMPANY L.L.C. AND AFFILIATES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(continued)****10. Pension Plan**

The Company maintains a 401(k) defined contribution plan (the Plan) which covers substantially all employees of the Company who meet the eligibility requirements set forth in the Plan documents.

The Plan allows the Company to make discretionary employer contributions. There were no employer contributions for the years ended December 31, 2011 and 2010. The Plan may be terminated at the option of the Company.

**11. Fair Value of Financial Instruments**

Cash and cash equivalents (including tenant improvement escrow), accounts receivable, rent receivable, due from Lessor, due from Supervisor, tenant security deposit payable, accounts payable and accrued liabilities, and due to Lessor are carried at amounts which reasonably approximate their fair values, due to the short maturities of the instruments. Loans receivable are carried at amounts which reasonably approximate their fair values at inception due to no known changes in the credit worthiness of the borrowers.

**12. Observatory Operations**

The operations of the Empire State Building Observatory are summarized as follows:

|  | <b>Years Ended December 31,</b> |                      |
|--|---------------------------------|----------------------|
|  | <b>2011</b>                     | <b>2010</b>          |
| <b>Income:</b>   |                                 |                      |
| Admissions   | \$ 72,992,182                   | \$ 70,030,303        |
| Ancillary income   | 295,442                         | 570,793              |

**EMPIRE STATE BUILDING COMPANY L.L.C. AND AFFILIATES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(continued)

13. Litigation

The Company is a party to certain routine legal actions and complaints arising in the ordinary course of business. In the opinion of management, all such matters are adequately covered by insurance, or, if not so covered, are without merit or are of such kind or involve such amounts, that an unfavorable disposition would not have a material effect on the financial position of the Company.

(1) 1997 Arbitration/Litigation Proceeding

Malkin Holdings and Peter L. Malkin, a member in the Company, were engaged in a proceeding with Helmsley-Spear, Inc. commenced in 1997, concerning the management, leasing and supervision of the Property, in which Malkin Holdings and Mr. Malkin sought an order removing Helmsley-Spear. In this connection, certain costs for legal and professional fees and other expenses were paid by Malkin Holdings and Mr. Malkin. Malkin Holdings and Mr. Malkin have represented that such costs will be recovered only to the extent that (a) a competent tribunal authorizes payment by the Company or (b) an investor voluntarily agrees that his or her proportionate share be paid. Mr. Malkin has requested, or intends to request, such voluntary agreement from all investors, which may include renewing such request in the future for any investor who previously received such request and failed to confirm agreement at that time. Because any related payment has been, or will be, made only by consenting investors, the Company has not provided for the expense and related liability with respect to such costs in these consolidated financial statements and such consent has not been received at December 31, 2011.

The original action was commenced in June 1997 and was referred to arbitration. The March 30, 2001 decision of the Arbitrators, which was confirmed by the court, (i) reaffirmed the right of the investors to vote to terminate Helmsley-Spear without cause, (ii) dismissed Helmsley-Spear's claims against Malkin Holdings and Peter Malkin, and (iii) rejected the termination of Helmsley-Spear for cause. The parts of the decision under appeal were initially affirmed by the Appellate Division, and the New York Court of Appeals declined to review such ruling. On October 6, 2003, the United States Supreme Court granted Malkin Holdings' petition, vacated the judgment of the Appellate Division and remanded the case to the New York court.

On October 14, 2004, the Appellate Division issued a unanimous decision reversing the Arbitrators. The Appellate Division decided (i) that there was a covert assignment without the Company's knowledge or consent and (ii) that the corporation controlled by Irving Schneider and now named Helmsley-Spear, which had represented itself to be the Company's managing agent since September 1997, in fact never received a valid assignment to become the Company's managing agent. The Company's previously authorized managing agent, the original corporation named Helmsley-Spear, was owned by Harry B. Helmsley and had become inactive. On February 21, 2006, the Court of Appeals reversed the decision of the Appellate Division and reinstated the decision of the Arbitrators, including items (i), (ii) and (iii) in the preceding paragraph. On July 21, 2006, Malkin Holdings filed a certiorari petition seeking review by the U.S. Supreme Court, which it later withdrew as part of the August 29, 2006 settlement agreement terminating claims broadly by exchange of general releases between Helmsley-Spear, Irving Schneider, and their related parties, on one hand, and Leona M. Helmsley, Peter L. Malkin, Malkin Holdings, various property owners supervised by Malkin Holdings, and their related parties, on the other.

(2) 1998-2002 Irving Schneider Actions against the Company's Supervisor and Member

In January 1998, Irving Schneider, who was then one of the controlling principals of Helmsley-Spear and has never had a record or beneficial interest in the Company, brought litigation against the Company's

**EMPIRE STATE BUILDING COMPANY L.L.C. AND AFFILIATES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

(continued)

13. Litigation (continued)

supervisor, Malkin Holdings, and member, Peter L. Malkin, claiming misconduct and seeking damages and disqualification from performing services for the Company. In March 2002, the court dismissed Mr. Schneider's claims. Although Mr. Schneider thereafter appealed the dismissal, the claim was withdrawn prior to 2006.

Also in April 2002, an attorney whose fees were reportedly paid by Mr. Schneider submitted to the Departmental Disciplinary Committee of the Appellate Division of the Supreme Court of New York, First Department, copies of Mr. Schneider's complaints in the foregoing and related litigation with such attorney's letter asserting that the activities of Mr. Malkin and Malkin Holdings, as alleged in those complaints, violated the Code of Professional Responsibility. No action was ever taken by the Disciplinary Committee against Mr. Malkin or Malkin Holdings regarding any of these matters.

During 2002, acting upon a complaint of Mr. Schneider and his attorney, the Manhattan District Attorney's Office conducted an investigation of Mr. Malkin and Malkin Holdings regarding Malkin Holding's receipt of a 1% fee for administering the tenant security accounts of the Company and other supervised entities. Malkin Holdings made submissions through counsel to show that the fee was expressly permitted under statute and was in accord with prior agreement. By letter dated July 23, 2002, the District Attorney's Office advised that it had concluded its investigation and that no charge would be brought against Mr. Malkin or Malkin Holdings.

In accord with a written legal opinion from Thelen Reid & Priest dated April 29, 2005, both Malkin Holdings and Mr. Malkin are entitled to reimbursement from the Company for their expenses to various service providers (including Dewey, Pegno & Kramarsky and Malkin Holdings) in the successful defense against all these Section (2) claims to the extent relating to the Company, as follows: (a) \$238,069 for the successful defense against the 1998-2002 litigations, (b) \$39,621 for the successful defense against Mr. Schneider's complaint to the District Attorney, and (c) \$13,827 for the successful defense against the related complaint to the Disciplinary Committee. These reimbursements were deferred without any charge for interest until the Company's operations were stabilized and its cash and borrowing position permitted payment in June 2008.

All reimbursed expenses funded by the Company under this Section (2) were deducted in computing Overage Rent under the Lease with the Company's Lessor. Accordingly, the Company effectively bore only 50% of such expenses.

(3) 2006 Settlement Agreement

As stated above, the August 29, 2006 settlement agreement terminated Helmsley-Spear, Inc. as managing and leasing agent at the Property as of August 30, 2006. The Company is now self-managing the Property, while engaging third party leasing agents, CB Richard Ellis, Inc. for retail space since August 30, 2006 and Newmark Knight Frank for non-retail space since October 21, 2009.

Based upon relative building area and revenue among all the properties at which Helmsley-Spear was terminated pursuant to the settlement agreement, the Company's allocable share of the contract settlement payment was \$3,056,000. Such amount was funded during 2006 with \$1,834,000 from the Company's cash reserves and \$1,222,000 by a capital contribution to the Company from Mrs. Helmsley. There was no change in Mrs. Helmsley's share of the Company's distributions and profits as a result of such capital contribution, but an equivalent amount of the settlement expense was allocated to her.

The Company's allocable share of the fees to service providers (including Dewey, Pegno & Kramarsky and Malkin Holdings) in connection with the settlement and related transition is \$405,174, including preparation

13. Litigation (continued)

of a draft solicitation for a vote to remove Helmsley-Spear, submission to the Real Estate Board of New York of claims regarding Helmsley-Spear, negotiation and conclusion of the settlement agreement, and conclusion of a new leasing agreement with CB Richard Ellis. These fees were advanced by Malkin Holdings without any charge for interest and, pursuant to consent of the Company's members, reimbursed by the Company in June 2008.

The expenses funded by the Company under this Section (3) were deducted in computing Overage Rent under the Lease with the Company's Lessor. Accordingly, the Company effectively bore only 50% of such expenses.

14. Subsequent Events

a) In March 2012, the Company concluded an agreement with New York City for a reduction in real estate taxes for the tax years 2002/2003-2011/2012 resulting in gross tax savings of approximately \$16,900,000, of which approximately \$12,400,000 will be in the form of a refund and the balance through future tax reductions to be phased in through 2012/2016. Professional fees totaling \$1,735,010, including \$867,505 to Malkin Holdings, will be paid from the proceeds of the refund. The Company is reviewing the adjustment to real estate tax escalation rent billings to existing tenants resulting from the tax reduction.

b) An additional \$30,000,000 was drawn on the Loan on April 6, 2012 bringing the total amount advanced to \$189,000,000.

c) Five putative class actions have been brought by participants in Empire State Building Associates L.L.C. and several other entities supervised by Malkin Holdings that own fee or leasehold interests in various properties located in New York City (which were filed March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and March 19, 2012) (the "Class Actions"). As now pending in New York State Supreme Court, New York County, each Class Action challenges the proposed consolidation of those and other properties supervised by Malkin Holdings into a real estate investment trust (the "REIT") and the initial public offering of shares in Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a REIT. The plaintiffs assert claims against Malkin Holdings, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc., Malkin Construction Corp., Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, Empire State Realty OP, L.P., and the REIT ("Defendants") for breach of fiduciary duty, unjust enrichment and/or aiding and abetting breach of fiduciary duty, alleging, inter alia, that the terms of the transaction and the process in which it was structured (including the valuation which was employed) are unfair to the participants, the consolidation provides excessive benefits to Malkin Holdings and its affiliates and the prospectus/consent solicitation statement which is part of the registration statement on Form S-4 relating to the consolidation fails to make adequate disclosure. The complaints seek money damages and injunctive relief preventing the proposed transaction. On April 3, 2012, plaintiffs moved for consolidation of the actions and for appointment of co-lead counsel. Defendants intend to consent to consolidation, and have no position with respect to appointment of co-lead counsel.

The Class Actions are in a very preliminary stage, with no responses to the complaints having been filed to date. The outcome of this litigation is uncertain, however, and as a result, the company may incur costs associated with defending or settling such litigation or paying any judgment if Defendants lose. In addition, the company may be required to pay damage awards or settlements. At this time, the company cannot reasonably assess the timing or outcome of this litigation, estimate the amount of loss, or assess its effect, if any, on the company's financial statements. Defendants believe the Class Actions are baseless and intend to defend them vigorously.

**(continued)**

14. Subsequent Events (continued)

There is a risk that other third parties will assert claims against the Defendants or the supervisor relating to this transaction, including, without limitation, that the supervisor breached its fiduciary duties to investors in the existing entities or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against the Defendants.

The Company has evaluated events and transactions for potential recognition or disclosure through April 11, 2012 the date the financial statements were available to be issued.

**Notes to Condensed Consolidated Financial Statements (unaudited)**

**Note A Interim Period Reporting**

In the opinion of management, the accompanying unaudited condensed consolidated financial statements of Empire State Building Associates L.L.C. ( Registrant ) reflect all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position of Registrant as of June 30, 2012, its results of operations for the three and six months ended June 30, 2012 and 2011 and its cash flows for the six months ended June 30, 2012 and 2011. The condensed consolidated financial statements include the accounts of Registrant and its wholly-owned limited liability company, Empire State Land Associates L.L.C. All intercompany accounts and transactions have been eliminated in consolidation. Information included in the condensed balance sheet as of December 31, 2011 has been derived from the audited balance sheet included in Registrant's Form 10-K for the year ended December 31, 2011 (the 10-K ) previously filed with the Securities and Exchange Commission (the SEC ). Pursuant to rules and regulations of the SEC, certain information and disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted from these consolidated financial statements unless significant changes have taken place since the end of the most recent fiscal year. Accordingly, these unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto and the other information contained in the 10-K. The consolidated results of operations for the six months ended June 30, 2012 are not necessarily indicative of the results to be expected for any interim period or the full year.

**Note B Organization**

Registrant was originally organized on July 11, 1961 as a general partnership. On October 1, 2001, Registrant converted from a general partnership to a limited liability company under New York law and is now known as Empire State Building Associates L.L.C. The conversion did not change any aspect of the assets and operations of Registrant other than to protect its investors from any future liability to a third party.

Registrant's members ( Members ) are Peter L. Malkin, Anthony E. Malkin and Thomas N. Keltner, Jr. (collectively, the Agents ), each of whom also acts as an agent for holders of participations ( Participations ) in their respective member interest in Registrant (the Participants ).

**Note C Purchase of Fee Title to The Empire State Building and Land Thereunder, Mortgage Debt, and Related Depreciation and Amortization**

On April 17, 2002, Registrant acquired, through a wholly-owned limited liability company (Empire State Land Associates L.L.C.) the fee title to the building known as the Empire State Building at 350 Fifth Avenue in New York (the Building ), and the land thereunder (the Land ) (together, the Real Estate or Property ), at a price of \$57,500,000, and obtained a \$60,500,000 first mortgage with Capital One Bank to finance the acquisition and certain related costs.

The Real Estate is carried in the Consolidated Financial Statements at its historical cost of \$60,484,389, consisting of \$57,500,000 for the purchase price paid to the seller, \$752,022 for acquisition costs, and \$2,232,367 representing the unamortized balance of the cost of the Master Lease on the date the Real Estate was acquired. The cost of the Land was estimated to be 35.63% of the total cost of the Real Estate, and the Building 64.37%. Under the terms of the contract of sale, the deed contains language to avoid the merger of the fee estate and the leasehold, although on a Consolidated Financial Statement basis Registrant incurred no leasehold rent expense after acquiring the Real Estate.

On July 26, 2011, Registrant entered into a three-year term loan (the Secured Term Loan ) with institutional lenders, including HSBC Bank USA, National Association as agent and HSBC Bank USA, National Association and DekaBank Deutsche Girozentrale as lead arrangers. The Secured Term Loan is secured by a mortgage on the Property. The Secured Term Loan was amended by the First Amendment to Loan Agreement,

---

**Table of Contents**

**Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

Ratification of Loan Documents and Omnibus Amendment dated as of November 2, 2011 to provide for additional commitments from Capital One, National Association and Bank of America, N.A. so that, collectively, the loan was increased to \$300,000,000. Subject to the terms and conditions of the Secured Term Loan, the outstanding principal amount of the loan shall bear interest at a rate equal to 2.5% per annum above 30-day LIBOR, which aggregate rate was 2.75% at June 30, 2012. The Secured Term Loan was amended on November 23, 2011 clarifying certain terms upon which the Property is permitted to be transferred into a consolidated entity without accelerating the Secured Term Loan.

At the closing of the Secured Term Loan, the lenders provided Registrant with an advance of \$159,000,000 (of which \$92,000,000 refinanced existing indebtedness). An additional \$30,000,000 was drawn on April 5, 2012 in accordance with that certain Fourth Modification of Sublease dated April 5, 2012 by and between Registrant and Sublessee ( Fourth Modification of Sublease ) bringing the total amount advanced through June 30, 2012 to \$189,000,000. An additional \$30,000,000 was drawn on July 9, 2012 in accordance with that Fifth Modification of Sublease date July 9, 2012 by and between Registrant and Sublessee ( Fifth Modification of Sublease ) bringing the total advanced to date to \$219,000,000. Based on the terms of the Secured Term Loan (as amended) and subject to the conditions set forth in the Secured Term Loan (as amended), the lenders agreed to provide Registrant with additional advances of up to \$81,000,000. In addition, one of the lead lenders has agreed upon the Registrant's request, and subject to certain other conditions, to source further additional commitments aggregating up to \$200,000,000 in the sole discretion of the lenders. Any further advances under the Secured Term Loan are subject to the consent of the Sublessee.

Pursuant to the terms of the Secured Term Loan agreement, Registrant and Sublessee entered into an amendment dated July 26, 2011 to the Sublease ( Third Modification of Sublease ) pursuant to which (i) Sublessee consented to the advance of up to \$159,000,000 under the Secured Term Loan and (ii) in accordance with the terms of the existing sublease agreement (which terminates on January 4, 2076) between Sublessee and Registrant, the basic rent payable by Sublessee was increased by an amount equal to the debt service on the portion of the borrowing from the Secured Term Loan associated with improvements (excluding any principal payable upon maturity). Sublessee consented to an additional advance of \$30,000,000 on April 5, 2012 pursuant to the Fourth Modification of Sublease as of that date and an additional \$30,000,000 advance on July 9, 2012 in accordance with the Fifth Modification of Sublease as of that date. The original basic rent payable by Sublessee is more than sufficient to pay the debt service on the portion of the borrowing associated with purchasing the fee position in 2002. The Sublessee and Empire State Realty Observatory TRS, LLC (formerly known as ESB Observatory LLC), a subsidiary of Sublessee, also entered into subordination agreements with the agent on behalf of the lenders pursuant to which the Sublease and the lease of the observatory were subordinated to the mortgage securing the Secured Term Loan. As a result, the Sublease and the observatory lease can be terminated in connection with a foreclosure by Secured Term Loan lenders.

Subject to the terms and conditions of the Secured Term Loan agreement, the outstanding principal amount of the Secured Term Loan shall bear interest at a rate equal to 2.5% per annum above 30-day LIBOR, unless such rate is not available, in which event the Secured Term Loan would bear interest at 2.5% per annum in excess of (i) HSBC's prime rate or (ii) the BBA LIBOR Daily Floating Rate. In connection with this loan, Registrant issued promissory notes, a mortgage encumbering the Property in favor of the agent for the lenders, and other customary security and other loan documents. The maturity date of this loan is July 26, 2014, which Registrant may extend to July 26, 2015 and thereafter to July 26, 2016, in each case upon payment of an extension fee of 0.25% of the total availability under the Secured Term Loan agreement at the time of such extension. Such extensions are subject to customary conditions, including the satisfaction of certain loan-to-value and debt yield ratios and the absence of an event of default.

The initial advance was used to pay and discharge the then existing secured mortgage loans relating to the Property and to fund operations and working capital requirements related to the Property (including for

---

**Table of Contents**

**Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

improvements), including reimbursements to Sublessee for expenditures relating to improvements previously incurred by Sublessee, and certain other general entity purposes permitted by the Secured Term Loan including costs of the financing. Subsequent advances were or will be used for the foregoing purposes except for the discharge of existing secured mortgage loans which had been discharged from proceeds of the initial advance.

Payment obligations relating to the Secured Term Loan may be accelerated upon the occurrence of an event of default under the Secured Term Loan agreement. Events of default under the Secured Term Loan agreement include, subject in some cases to specified cure periods: payment defaults; failure by Registrant to pay taxes; failure to keep certain insurance policies in effect; breaches of representations and covenants contained in the mortgage; defaults in the observance or performance of covenants; inaccuracy of representations and warranties in any material respect; bankruptcy and insolvency related defaults; and the entry of one or more final judgments for the payment of more than \$1,000,000 that are not satisfied within 30 days.

The Secured Term Loan agreement contains affirmative and negative covenants customary for financings of this type. Negative covenants in the Secured Term Loan agreement limit Registrant's ability, subject to certain exceptions, to transfer all or substantially all of its property; incur indebtedness and liens; dissolve, liquidate or enter into mergers or similar transactions; change its line of business; cancel debt; enter into transactions with affiliates; rezone its property; sell its assets; make certain distributions to investors; and change its organizational documents. The Registrant must also maintain a debt yield ratio as specified in the Secured Term Loan agreement.

Registrant as both the fee owner and the ground lessor of the Empire State Building is mortgagor and each of its estates is therefore mortgaged. Sublessee and the observatory tenant agreed to subordinate their respective leasehold interest to the mortgage. Accordingly, in the event of a foreclosure, their leasehold estates could be terminated.

The estimated fair value of Registrant's Secured Term Loan debt based on available market information is approximately \$189,000,000 at June 30, 2012. The fair value of borrowings is estimated by discounting the future cash flows using current interest rates at which similar borrowings could be made by Registrant.

Restricted cash at June 30, 2012 represents funds in an account held at HSBC Bank pursuant to the terms of the Secured Term Loan, to be used for Registrant's monthly loan interest obligation.

The Building and Building improvements are being depreciated on the straight-line basis over their estimated useful lives of 39 years. Tenant improvements are being depreciated and leasing commissions are being amortized over the remaining lease term or the useful life, whichever is shorter. Mortgage financing costs relating to the Secured Term Loan totaling \$8,578,774 are being amortized ratably over the life of the loan. As the prior first and second mortgages relating to these loans were repaid on July 26, 2011, the remaining unamortized balance of applicable financing costs were written-off. The unamortized loan costs and the prepayment penalty on early repayment of such mortgages were included in interest expense in 2011.

**Note D Sublease**

Registrant does not operate the Building. It subleases the Building to Empire State Building Company L.L.C. ( Sublessee ) pursuant to a net operating sublease (the Sublease ) which included an initial term which expired on January 4, 1992. The Sublease provided four separate options for Sublessee to renew the term, in each case for an additional 21 years, on the terms of the original Sublease. Such renewals have been exercised by Sublessee (a) on January 30, 1989, for the first renewal period from January 5, 1992 through January 4, 2013 and (b) as of February 11, 2010, for the remaining three renewal periods from January 5, 2013 through January 4, 2076 (the last two such renewals being exercised by Sublessee with Registrant's consent for early exercise).

---

**Table of Contents**

**Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

Sublessee is required to pay annual basic rent ( Basic Rent ) of \$6,018,750 from January 1, 1992 through January 4, 2013 and \$5,895,625 from January 5, 2013 through the expiration of all renewal terms. Sublessee is also required to pay Registrant overage rent of 50% of Sublessee's net operating profit, as defined in the Sublease, in excess of \$1,000,000 for each lease year ending December 31 ( Overage Rent ). In addition to the above, Sublessee is required to pay for all operating and maintenance expenses, real estate taxes, and necessary repairs and replacements, and keep the Property adequately insured against fire and accident.

In accordance with the 2<sup>nd</sup> sublease modification dated February 25, 2009, Basic Rent described above had been increased to cover debt service on the \$31,500,000 second mortgage that closed on February 25, 2009. In accordance with the 3<sup>rd</sup> sublease modification dated July 26, 2011, Basic Rent was increased to cover debt service relating to the Secured Term Loan, refinancing that prepaid the first and second mortgages aggregating \$92,000,000 (Note C), to the extent the Secured Term Loan debt exceeds the previous first mortgage of \$60,500,000. In accordance with the Fourth Modification of Sublease, basic rent was increased to cover debt service on the \$30,000,000 advance made on that date. Basic Rent increased by \$775,246 for the six months ended June 30, 2012 representing debt service, which consists only of interest, on the balance of the Secured Term Loan in excess of \$60,500,000.

Basic Rent was increased in connection with the additional \$30,000,000 advance on July 9, 2012 in accordance with the Fifth Modification of Sublease, and will be increased to cover debt service on any refinancing of such debt so long as the aggregate amount refinanced does not exceed the then existing amount of debt plus refinancing costs.

Due to Sublessee at June 30, 2012 and December 31, 2011 represents the payable to Sublessee for building and tenancing costs. Due to Sublessee, a related party, are \$8,569,934 and \$6,067,803 at June 30, 2012 and December 31, 2011, respectively. Due from Sublessee at June 30, 2012 and December 31, 2011 represents funds held in escrow by Sublessee for tenant improvements, and overage rent due from Sublessee for the year 2011, respectively.

Overage Rent and any interest and dividends accumulated thereon are distributed annually after deduction for any additional payment described in Note E below, other expenses and additions to general contingencies management judges to be suitable under the circumstances. For 2011, Sublessee reported net operating profit of \$58,560,898; therefore, Overage Rent of \$28,780,449 was earned for the year ended December 31, 2011. Overage Rent income is recognized when earned from the Sublessee, at the close of the year ending December 31. Such income is not determinable until Sublessee, pursuant to the Sublease, provides Registrant with a certified operating report from a certified public accountant on the Sublessee's operation of the Real Estate. The Sublease requires that this report be delivered to Registrant annually within 60 days after the end of each such fiscal year. Accordingly, all Overage Rent income and the additional payment to Supervisor are reflected in the fourth quarter of each year. The Sublease does not provide for the Sublessee to render interim reports to Registrant.

Sublessee is a New York limited liability company in which Peter L. Malkin is a member and entities for Peter L. Malkin's family members are beneficial owners.

The Supervisor of the Registrant has filed a registration statement on Form S-4 for the solicitation of consents of the Participants in the Registrant and other public limited liability companies supervised by the Supervisor to the Consolidation. In the Consolidation, (x) the property interests of the Registrant, such other public limited liability companies and certain private entities supervised by the Supervisor, and (y) the Supervisor and certain affiliated management companies would be contributed to the operating partnership of Empire State Realty Trust, Inc., a newly organized real estate investment trust.

---

**Table of Contents**

**Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

Consents are required from Participants in the Registrant and such other public limited liability companies for them to contribute their interests in the Consolidation, and the solicitation of such consents will not commence until the SEC declares effective the registration statement on Form S-4. Consents have been obtained from participants in the private entities and the Supervisor and certain affiliated companies and affiliates of the Supervisor for them to make such contributions.

The consideration to be paid to the contributing companies and entities in the Consolidation will be allocated in accordance with exchange values determined based on appraisals by an independent third party. Such method of allocation has been approved by the Sublessee. Based on the exchange values, if the Consolidation proposal is approved by the Registrant's Participants, the consideration with respect to the Empire State Building will be allocated approximately 50% to the Registrant and 50% to the Sublessee, which the Supervisor believes is in accordance with the historical treatment of the Registrant and the Sublessee.

**Note E Supervisory Services**

Supervisory and other services are provided to Registrant by its supervisor, Malkin Holdings LLC ( Malkin Holdings or Supervisor ), a related party. Beneficial interests in Registrant are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

Registrant pays Supervisor for supervisory services and disbursements. The basic fee (the Basic Payment ) had been payable at the rate of \$100,000 per annum, payable \$8,333 per month, since inception in 1961. The Basic Payment was increased, with the approval of the Agents, by an amount equal to the increase in the Consumer Price Index since such date, resulting in an increase in the Basic Payment to \$725,000 per annum effective July 1, 2010 to be adjusted annually for any subsequent increase in the Consumer Price Index. The Basic Payment is payable (i) not less than \$8,333 per month and (ii) the balance out of available reserves from Overage Rent. If Overage Rent is insufficient to pay such balance, any deficiency shall be payable in the next year in which Overage Rent is sufficient. The Agents also approved payment by Registrant, effective July 1, 2010, of the expenses in connection with regular accounting services related to maintenance of Registrant's books and records. Such expenses were previously paid by Supervisor.

The basic supervisory services provided to Registrant by Supervisor include, but are not limited to, maintaining all of its entity and Participant records, performing physical inspections of the Building, providing or coordinating certain counsel services to Registrant, reviewing insurance coverage, conducting annual supervisory review meetings, receipt of monthly rent from Sublessee, payment of monthly and additional distributions to the Participants, payment of all other disbursements, confirmation of the payment of real estate taxes, active review of financial statements submitted to Registrant by Sublessee and financial statements audited by and tax information prepared by Registrant's independent registered public accounting firm, and distribution of related materials to the Participants. Supervisor also prepares quarterly, annual and other periodic filings with the SEC and applicable state authorities.

Registrant pays Supervisor for other services at hourly rates.

Pursuant to the fee arrangements described herein, Registrant incurred supervisory service fees of \$375,654 and \$362,501 for the six month periods ended June 30, 2012 and 2011, respectively, plus additional fees totaling \$29,708 in each period representing 6% of the annual rent and debt service reductions from which Registrant has benefited. No remuneration was paid during the six-month periods ended June 30, 2012 and 2011 by Registrant to any of the Members. Accrued supervisory fees were \$0 and \$1,107,000 at June 30, 2012 and December 31, 2011, respectively. Included in professional fees are amounts to a related party of \$124,086 and \$320,066 for the three and six months ended June 30, 2012, respectively, and \$72,876 and \$139,449 for the three and six months ended June 30, 2011, respectively.

---

**Table of Contents**

**Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

Supervisor also receives an additional payment ( *Additional Payment* ) equal to 6% of distributions to Participants in Registrant in excess of 9% per annum on their remaining cash investment in Registrant (which remaining cash investment at June 30, 2012 was equal to the Participants original cash investment of \$33,000,000). For tax purposes, any additional payment is recognized as a profits interest and the Supervisor is treated as a partner, all without modifying each Participant's distributive share of reportable income and cash distributions.

Distributions are paid from a cash account held by Supervisor. That account is included in the Condensed Consolidated Balance Sheets as *Due from Supervisor*. The funds of \$324,111 at June 30, 2012 and December 31, 2011 were paid to Participants on July 1, 2012 and January 1, 2012, respectively.

Reference is made to Note D above for a description of the terms of the Sublease between Registrant and Sublessee. The respective interests of the Members in Registrant and in Sublessee arise solely from ownership of their respective Participations in Registrant and, in the case of Peter L. Malkin, his family entities' ownership of member interests in Sublessee. The Members as such receive no extra or special benefit not shared on a pro rata basis with all other Participants in Registrant or members in Sublessee. However, all of the Members hold senior positions at Supervisor (which supervises Registrant and Sublessee) and, by reason of their positions at Supervisor, may receive income attributable to supervisory or other remuneration paid by Registrant to Supervisor and Sublessee.

**Note F Subsequent Events**

An additional \$30,000,000 was drawn on the Secured Term Loan on July 9, 2012 bringing the total amount advanced to date to \$219,000,000. Pursuant to the Fifth Modification of Sublease, Basic Rent payable by the Sublessee was increased to cover debt service on this advance.

On October 11, 2012, the Secured Term Loan was amended to increase the lenders' respective commitments from an aggregate of \$300,000,000 to an aggregate of \$500,000,000 and provides that a condition for any advance in respect of such increased amount (in addition to the other conditions in the loan agreement) is the delivery of an updated appraisal to the effect that the Loan-To-Value Ratio (as defined in the loan agreement) does not then exceed 50%. Upon execution of the amendment, the lenders were paid a facility fee of 0.75% of such increase (\$1,500,000) and an arrangement fee 0.25% of such increase (\$500,000).

**Note G Fair Value Measurements**

Fair value is a market-based measurement, not an entity-specific measurement, and should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, Financial Accounting Standards Board guidance establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within levels one and two of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within level three of the hierarchy).

We use the following methods and assumptions in estimating fair value disclosures for financial instruments.

*Cash and cash equivalents, restricted cash, due from Supervisor, a related party, other receivables, accrued mortgage interest, accrued supervisory fees, a related party, payable to Sublessee, a related party, due to Supervisor, a related party, and accrued expenses.* The carrying amount of cash and cash equivalents, restricted cash, due from Supervisor, a related party, other receivables, due from Sublessee, a related party, accrued mortgage interest, accrued supervisory fees, a related party, payable to Sublessee, a related party, due to Supervisor, a related party, and accrued expenses reported in our Condensed Consolidated Balance Sheets approximates fair value due to the short maturity of these instruments.

*Mortgages payable:* The fair value of borrowings is estimated by discounting the future cash flows using current interest rates at which similar borrowings could be made to us.

**Table of Contents**

**Notes to Condensed Consolidated Financial Statements (unaudited) (continued)**

The methodologies used for valuing financial instruments have been categorized into three broad levels as follows:

Level 1 - Quoted prices in active markets for identical instruments.

Level 2 - Valuations based principally on other observable market parameters, including:

Quoted prices in active markets for similar instruments;

Quoted prices in less active or inactive markets for identical or similar instruments;

Other observable inputs (such as risk free interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates); and

Market corroborated inputs (derived principally from or corroborated by observable market data).

Level 3 - Valuations based significantly on unobservable inputs.

Valuations based on third-party indications (broker quotes or counterparty quotes) which were, in turn, based significantly on unobservable inputs or were otherwise not supportable as Level 2 valuations.

Valuations based on internal models with significant unobservable inputs.

These levels form a hierarchy. We follow this hierarchy for our financial instruments measured at fair value on a recurring and nonrecurring basis and other required fair value disclosures. The classifications are based on the lowest level of input that is significant to the fair value measurement.

**Fair Value of Financial Instruments**

The following disclosures of estimated fair value were determined by management, using available market information and appropriate valuation methodologies as discussed in Fair Value Measurements. Considerable judgment is necessary to interpret market data and develop estimated fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts we could realize on disposition of the financial instruments. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

The mortgages payable had an estimated fair value based on discounted cash flow models, based on Level 3 inputs, of approximately \$189,000,000, compared to the book value of the related debt of \$189,000,000, at June 30, 2012.

Disclosure about fair value of financial instruments is based on pertinent information available to us as of June 30, 2012. Although we are not aware of any factors that would significantly affect the reasonable fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date and current estimates of fair value may differ significantly from the amounts presented herein.

**Note H Offering Costs**

In connection with the Consolidation and IPO we have incurred or will incur incremental accounting fees, legal fees and other professional fees. Such costs will be deferred and recorded as a reduction of proceeds of the IPO, or expensed as incurred if the Consolidation and IPO is not consummated. Certain costs associated with the Consolidation and IPO not directly attributable to the solicitation of consents and the IPO, but rather related to structuring the Consolidation, are expensed as incurred.

**Table of Contents****Notes to Condensed Consolidated Financial Statements (unaudited) (continued)*****Correction of an Immaterial Error in the Financial Statements***

Our prior period financial results have been adjusted to reflect an immaterial correction which has no impact to the net change in cash reported on the statement of cash flows. During fiscal year 2012, we determined that certain costs related to the structuring of the Consolidation that were previously included in deferred offering costs should have been expensed in the periods incurred. The correction impacted the 2011 and 2010 periods and had accumulated to an amount of \$2,147,898 as of June 30, 2012. Adhering to applicable guidance for accounting changes and error corrections, we concluded that the error was not material to any of our prior period financial statements. The correction resulted in immaterial changes to deferred costs and formation transaction expenses for the years ended December 31, 2011 and 2010. We applied the guidance for accounting changes and error corrections and revised our prior period financial statements presented in this prospectus/consent solicitation.

The following tables present the effect this correction had on the combined financial statements as of June 30, 2012 and December 31, 2011 and for the three and six months ended June 30, 2012 and 2011. Additionally, financial information included in the notes to the financial statements that is impacted by the adjustment has been revised, as applicable.

**Management's Discussion and Analysis of  
Financial Condition and Results of Operations  
Forward-Looking Statements**

Readers of this discussion are advised that the discussion should be read in conjunction with the financial statements of 60 East 42nd St. Associates L.L.C. ( Associates ) (including related notes thereto) appearing elsewhere in this prospectus/consent solicitation. Certain statements in this discussion may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements reflect Associates' current expectations regarding future results of operations, economic performance, financial condition and achievements of Associates, and do not relate strictly to historical or current facts. Associates has tried, wherever possible, to identify these forward-looking statements by using words such as believe, expect, anticipate, intend, plan, estimate or words of similar meaning.

Although Associates believes that the expectations reflected in such forward-looking statements are based on reasonable assumptions, such statements are subject to risks and uncertainties, which may cause the actual results to differ materially from those anticipated in the forward looking statements. Such factors include, but are not limited to, the following: general economic and business conditions, which will, among other things, affect demand for rental space, the availability of prospective tenants, lease rents and the availability of financing; adverse changes in Associates' real estate market, including, among other things, competition with other real estate owners, risks of real estate development and acquisitions; governmental actions and initiatives; and environmental/safety requirements.

**Financial Condition and Results of Operations**

Associates was organized for the purpose of acquiring One Grand Central Place subject to an operating lease (the Lease ) held by Lincoln Building Associates L.L.C. (the Lessee ). Associates is required to pay, from Basic Rent under the Lease, mortgage charges and a portion of the fee for supervisory services. Associates is required to pay from Additional Rent and Further Additional Rent an Additional Payment to the supervisor and other expenses and then to distribute the balance of such Additional Rent and Further Additional Rent less any additions to reserves to the participants. See Note C to the condensed financial statements herein. Pursuant to the Lease, Lessee has assumed sole responsibility for the condition, operation, repair, maintenance and management of One Grand Central Place. Associates is not required to maintain substantial reserves or otherwise maintain liquid assets to defray any operating expenses of One Grand Central Place.

Associates' results of operations are affected primarily by the amount of rent payable to it under the Lease. The amount of Additional Rent and Further Additional Rent payable to Associates is affected by the New York City economy and real estate rental market, which is difficult for management to forecast.

During the six-month period ended June 30, 2012, Associates made regular monthly distributions of \$124.57 for each \$10,000 participation (\$1,494.89 per annum for each \$10,000 participation). There are no restrictions on Associates' present or future ability to make distributions; however, the amount of such distributions, particularly distributions of Additional Rent and Further Additional Rent, depends on the ability of Lessee to make payments of Basic Rent, Additional Rent and Further Additional Rent to Associates. Associates expects to make distributions so long as it receives the payments provided for under the Lease.

The following summarizes, with respect to the current period and the corresponding period of the previous year, the material factors regarding Associates' results of operations for such periods:

Total revenues were approximately the same for the six-month period ended June 30, 2012 as compared with the corresponding period of the prior year.

Total revenues were approximately the same for the three-month period ended June 30, 2012 as compared with the corresponding period of the prior year.

---

## **Table of Contents**

Total expenses increased by \$300,744 for the six-month period ended June 30, 2012 as compared with the corresponding period of the prior year, primarily attributable to: a decrease in interest on the mortgages payable of \$63,060 as a result of scheduled amortization of principal that reduced the loan balance, offset in part by i) an increase in depreciation of building and tenant improvements and equipment of \$115,483 attributable to improvements placed in service in the second half of 2011 and first half of 2012, ii) an increase in amortization of leasing costs of \$128,877 attributable to improvements placed in service in the second half of 2011 and first half of 2012 and the write off of the unamortized cost relating to tenants who vacated in the second quarter of 2012, and iii) an increase in professional fees of \$69,690 mainly attributable to fees to the supervisor of \$31,088 for services rendered in connection with a proposed consolidation of Associates, other public and private entities supervised by the supervisor and the supervisor and certain affiliated management companies into Empire State Realty Trust, Inc., a newly formed real estate investment trust (collectively, the Consolidation ) and initial public offering of Class A common stock of Empire State Realty Trust, Inc. (the IPO ) for the six-month period ended June 30, 2012 as compared with the corresponding period of the prior year.

Total expenses increased by \$281,423 for the three-month period ended June 30, 2012 as compared with the corresponding period of the prior year, primarily attributable to: a decrease in interest on the mortgages payable of \$31,750 as a result of scheduled amortization of principal that reduced the loan balance, offset in part by i) an increase in depreciation of building and tenant improvements and equipment of \$95,535 attributable to improvements placed in service in the second half of 2011 and first quarter of 2012, ii) an increase in amortization of leasing costs of \$130,904 attributable to improvements placed in service in the second half of 2011 and first quarter of 2012 and the write off of the unamortized cost relating to tenants who vacated in the second quarter of 2012, and iii) an increase in professional fees of \$44,764 mainly attributable to fees to the supervisor of \$31,088 for services rendered in connection with the Consolidation and IPO for the three-month period ended June 30, 2012 as compared with the corresponding period of the prior year.

### **Liquidity and Capital Resources**

Associates' liquidity has decreased at June 30, 2012 as compared with December 31, 2011 as a result of i) scheduled amortization of principal based on a 25-year amortization period, ii) costs incurred in connection with the Consolidation and IPO, and iii) commitments for reimbursement to the Lessee under the improvement program. Associates may from time to time set cash aside for contingencies. Adverse developments in economic, credit and investment markets over the last several years have impaired general liquidity (although some improvement in such markets has arisen recently) and the developments may negatively impact Associates and/or space tenants at One Grand Central Place. Any such impact should be ameliorated by the fact that (a) each of Associates and its Lessee has very low debt in relation to asset value, (b) the maturity of Associates' existing and planned debt will not occur within the next 24 months, and (c) One Grand Central Place's rental revenue is derived from a substantial number of tenants in diverse businesses with lease termination dates spread over numerous years.

Amortization payments due under the First Mortgage commenced August 5, 2007, calculated on a 25-year amortization schedule. Amortization payments due under the additional \$16,000,000 loan commenced December 5, 2009 calculated on a 25-year amortization schedule. The mortgages mature on November 5, 2014 at which time the aggregate principal balance due will be \$84,411,371. Associates does not maintain any reserve to cover the payments of such mortgage indebtedness at maturity. Therefore, repayment of the mortgages will depend on Associates' ability to arrange a refinancing. Assuming that One Grand Central Place continues to generate an annual net profit in future years comparable to that in past years, and assuming further that real estate capital and operating markets return to more stable patterns, consistent with long-term historical real estate trends in the geographic area in which One Grand Central Place is located, Associates anticipates that the value of One Grand Central Place will be in excess of the amount of the mortgage balances at maturity.

Associates anticipates that funds for short-term working capital requirements for One Grand Central Place will be provided by cash on hand and rental payments received from Lessee. Long-term sources of working

**Table of Contents**

capital will be provided by rental payments received from Lessee and/or external financing. However, as noted above, Associates has no requirement to maintain substantial reserves to defray any operating expenses of One Grand Central Place.

The supervisor of Associates has filed a registration statement on Form S-4 for the solicitation of consents of the participants in Associates and other public limited liability companies supervised by the supervisor to the Consolidation. In the Consolidation, (x) the property interests of Associates, such other public limited liability companies and certain private entities supervised by the supervisor, and (y) the supervisor and certain affiliated management companies would be contributed to the operating partnership of Empire State Building Realty Trust, Inc., a newly organized real estate investment trust.

Consents are required from participants in Associates and such other public limited liability companies for them to contribute their interests in the Consolidation, and the solicitation of such consents will not commence until the SEC declares effective the registration statement on Form S-4. Consents have been obtained from participants in the private entities and the supervisor and certain affiliated companies and affiliates of the supervisor for them to make such contribution.

The consideration to be paid to the contributing companies and entities in the Consolidation will be allocated in accordance with exchange values determined based on appraisals by an independent third party. Such method of allocation has been approved by the Lessee. Based on the exchange values, if the Consolidation proposal is approved by Associates participants, the consideration with respect to One Grand Central Place will be allocated approximately 50% to Associates and 50% to the Lessee, which the supervisor believes is in accordance with the historical treatment of Associates and the Lessee.

**Inflation**

Associates believes that there has been no material change in the impact of inflation on its operations since the filing of the Form 10-K for the year ended December 31, 2011.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

60 East 42nd St. Associates L.L.C.

(A Limited Liability Company)

We have audited the accompanying balance sheets of 60 East 42nd St. Associates L.L.C. as of December 31, 2011 and 2010, and the related statements of income, members' deficiency and cash flows for each of the two years in the period ended December 31, 2011. Our audits also included the financial statement schedule, Schedule III- Real Estate and Accumulated Depreciation for the years ended December 31, 2011 and 2010, also included in this Form S-4. These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of 60 East 42nd St. Associates L.L.C. at December 31, 2011 and 2010, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

*See accompanying notes to financial statements.*

**Table of Contents**

**60 EAST 42nd ST. ASSOCIATES L.L.C.**

**(A Limited Liability Company)**

**NOTES TO FINANCIAL STATEMENTS**

1. **Business Activity**

60 East 42nd St. Associates L.L.C. ( Associates ) is a New York limited liability company owning commercial property at 60 East 42nd Street and 301 Madison Avenue, New York, N.Y. The property, known as One Grand Central Place (formerly the Lincoln Building ), is leased (the Lease ) to Lincoln Building Associates L.L.C. (the Lessee ).

Associates members are Peter L. Malkin and Anthony E. Malkin each of whom also acts as an agent for holders of participations in his respective member interest in Associates. In the Statements of Members Deficiency, each such agent s representation is referred to as a Group (i.e., Peter L. Malkin represents five Groups and Anthony E. Malkin represents two Groups).

2. **Summary of Significant Accounting Policies**

a. **Cash and Cash Equivalents**

Cash and cash equivalents include investments in money market funds and all highly liquid debt instruments with an original maturity of three months or less when acquired.

b. **Use of Estimates**

In preparing financial statements in conformity with U.S. generally accepted accounting principles, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The real estate industry has historically been cyclical and sensitive to changes in economic conditions such as interest rates, credit availability and unemployment levels. Changes in these economic conditions could affect the assumptions used by management in preparing the accompanying financial statements.

c. **Land, Building, Building Improvements, Equipment and Depreciation**

Real estate, consisting of land, building, building improvements, tenant improvements and equipment, is stated at cost. Building improvements are depreciated using the straight-line basis over their estimated useful lives of 39 years. The tenant improvements are being depreciated over the terms of the individual tenant leases or the estimated useful life if shorter.

In connection with the building improvements program which began in 1999 (Note 11), costs totaling \$74,308,199 and \$71,632,358 have been incurred through December 31, 2011 and 2010, respectively, for new building improvements (\$66,810,647 for 2011 and \$64,329,907 for 2010), tenant improvements (\$5,793,417 for 2011 and \$5,598,316 for 2010) and equipment (\$130,000 for 2011 and \$130,000 for 2010).

d. **Mortgage Refinancing Costs, Leasing Commissions and Amortization**

Mortgage refinancing costs are being amortized ratably over the term of the related mortgages and included in mortgage interest expense.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Leasing commissions (incurred in connection with the building improvements program) represent reimbursements to the Lessee for commissions incurred for new tenants. Leasing commissions are being amortized over the terms of the individual tenant leases.

F-242

**Table of Contents**

**60 EAST 42nd ST. ASSOCIATES L.L.C.**

**(A Limited Liability Company)**

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

2. Summary of Significant Accounting Policies (continued)

e. Revenue Recognition

Basic rental income, as defined in the Lease, is equal to the sum of the mortgage charges plus a fixed amount. Associates records basic rental income as earned ratably on a monthly basis. Additional rent represents a fixed amount of the Lessee's net operating profit (\$1,053,800 a year minimum), as defined, in each lease year and is recorded ratably over the 12-month period. Further additional rent, which is based on the net operating profit of the Lessee, as defined, is recorded by Associates when such amounts become realizable and earned.

f. Valuation of Long-Lived Assets

Associates assesses the carrying amount of long-lived assets whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. When Associates determines that the carrying amount of long-lived assets is impaired, the measurement of any impairment is based on a discounted cash flow method. No impairment loss has been recorded in the years ended December 31, 2011 and 2010.

g. Income Taxes

Associates is organized as a limited liability company and is taxed as a partnership for income tax purposes. Accordingly, Associates is not subject to federal and state income taxes and makes no provision for income taxes in its financial statements. Associates' taxable income or loss is reportable by its members.

Associates has determined that there are no material uncertain tax positions that require recognition or disclosure in its financial statements.

Taxable years ended December 31, 2008, 2009, 2010 and 2011 are subject to IRS and other jurisdictions' tax examinations.

At December 31, 2011 and 2010, the reported amounts of Associates' aggregate net assets exceeded their tax basis by approximately \$7,362,800 and \$6,700,000 respectively.

h. Offering Costs

In connection with the proposed consolidation of certain properties and an initial public offering of the consolidated group (the "IPO"), Associates has incurred or will incur incremental accounting fees, legal fees and other professional fees. Such costs will be deferred and recorded as a reduction of proceeds of the IPO, or expensed as incurred if the IPO is not consummated. Certain costs associated with the IPO not directly attributable to the solicitation of consents and the IPO, but rather related to structuring the consolidation transaction, are expensed as incurred.

***Correction of an Immaterial Error in the Financial Statements***

Our prior period financial results have been adjusted to reflect an immaterial correction which has no impact to the net change in cash reported on the statement of cash flows. During fiscal year 2012, we determined that certain costs related to the structuring of the consolidation

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

transaction that were previously included in deferred offering costs should have been expensed in the periods incurred. The correction impacted the 2011 and 2010 periods and had accumulated to an amount of \$455,301 as of December 31, 2011. In addition, \$30,593 of such costs were deferred during the three month period ended March 31, 2012. Adhering to applicable guidance for accounting changes and error corrections, we concluded

F-243

**Table of Contents****60 EAST 42nd ST. ASSOCIATES L.L.C.****(A Limited Liability Company)****NOTES TO FINANCIAL STATEMENTS****(continued)****2. Summary of Significant Accounting Policies (continued)**

that the error was not material to any of our prior period financial statements. The correction resulted in immaterial changes to deferred costs and formation transaction expenses for the years ended December 31, 2011 and 2010. We applied the guidance for accounting changes and error corrections and revised our prior period financial statements presented in this prospectus/consent solicitation.

The following tables present the effect this correction had on the combined financial statements as of and for the year ended December 31, 2010 and 2011. Additionally, financial information included in the notes to the financial statements that is impacted by the adjustment have been revised, as applicable.

**i. Recently Adopted Accounting Pronouncements**

In May 2011 the FASB issued ASU 2011-04, Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP. This ASU provides guidance setting forth additional requirements relating to disclosures about fair value. The guidance will be effective for us beginning with the first interim period in 2012. In accordance with the

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

guidance, we will be required to disclose the level in the fair value hierarchy in which each fair value lies that is disclosed but not used to measure an asset or liability on the balance sheet. The guidance also clarifies that the fair value of a non-financial asset is based on its highest and best use and requires disclosure if a non-financial asset is being used in a manner that is not its highest and best use. Associates does not have any financial instruments that would be materially impacted by this standard as of December 31, 2011.

F-245

**3. Mortgages Payable**

On November 29, 2004, a first mortgage was placed on the property in the amount of \$84,000,000 with Prudential Insurance Company of America. At closing, \$49,000,000 was drawn to pay off the former first mortgage with Morgan Guaranty Trust Company in the amount of \$12,020,814 and the second mortgage in the amount of \$27,979,186 with Emigrant Savings Bank. The remaining \$35,000,000 available under the mortgage was drawn on various dates through July 5, 2007. The proceeds of \$49,000,000 drawn at closing and all subsequent draws have been used to pay for the associated refinancing costs and capital improvements as needed. The initial draw of \$49,000,000 and all subsequent draws required constant equal monthly payments of interest only, at the rate of 5.34% per annum until July 5, 2007. Commencing August 5, 2007, Associates is required to make equal monthly payments of \$507,838 applied to interest and then principal, calculated on a 25-year amortization schedule. The entire \$84,000,000 has been drawn and, at December 31, 2011, the balance is \$76,008,249. The mortgage matures on November 5, 2014, at which time the principal balance will be \$69,797,589.

On November 5, 2009, Associates concluded an additional \$16,000,000 loan with Prudential Insurance Company of America secured by a mortgage on the property, subordinate to the first mortgage and to be used for capital improvements (the \$84,000,000 and \$16,000,000 mortgages are referred to as the Mortgages ). The new loan requires payments of interest at 7% per annum and principal in the amount of \$113,085 per month calculated on a 25-year amortization schedule and is co-terminus with the first mortgage. At December 31, 2011, the balance is \$15,470,055. The mortgage matures on November 5, 2014 with a principal balance of \$14,613,782.

The mortgage loans may be prepaid at any time, in whole only, upon payment of a prepayment penalty based on a yield maintenance formula. There is no prepayment penalty if the mortgages are paid in full during the last 60 days of the term.

The following is a schedule of principal payments on the Mortgages in each of the three years (mortgages mature in 2014) subsequent to December 31, 2011:

| <b>Year ending</b>  |               |
|---------------------|---------------|
| <b>December 31,</b> |               |
| 2012                | \$ 2,368,853  |
| 2013                | 2,503,464     |
| 2014                | 86,605,987    |
| Total               | \$ 91,478,304 |

The real estate and all sublease rents are pledged as collateral for the Mortgages.

The estimated fair value of Associates' mortgage debt based on available market information was approximately \$96,658,956 and \$98,784,000 at December 31, 2011 and 2010, respectively.

The fair values of the mortgages payable are based on discounted cash flow models using currently available market rates assuming the loans are outstanding through maturity and considering the loan to value ratios.

4. Related Party Transactions Rent Income

Associates does not operate the property (Note 1). It leases the property to the Lessee pursuant to an operating lease as modified, which is currently set to expire September 30, 2033. The Lease, as modified, provides for an annual basic rent equal to the sum of \$24,000 plus the constant annual mortgage charges on

**Table of Contents****60 EAST 42nd ST. ASSOCIATES L.L.C.****(A Limited Liability Company)****NOTES TO FINANCIAL STATEMENTS****(continued)****4. Related Party Transactions Rent Income (continued)**

all mortgages. In accordance with the Ninth Lease Modification Agreement dated November 5, 2009, basic rent was increased to cover debt service on a \$100,000,000 mortgage. The basic rent will be increased or decreased upon the refinancing of the mortgages provided that the aggregate principal balance of all mortgages now or hereafter placed on the property does not exceed \$100,000,000, plus refinancing costs.

The Lease, as modified, also provides for payments of total additional rent, as follows:

1. Advances of additional rent are payable in equal monthly installments totaling an amount equal to the lesser of \$1,053,800 (\$87,817 per month) or the defined net operating profit of the Lessee during the preceding fiscal year ended September 30 (the lease year); and
2. Further additional rent is payable in an amount equal to 50% of the Lessee's remaining net operating profit, as defined, in each lease year.

Advances of additional rent are billed to and advanced by the Lessee and recorded in revenues by Associates in equal monthly installments of \$87,817 throughout each year. Since it is not practicable to estimate total additional rent for the lease year ending on the ensuing September 30 which would be allocable to the first nine months of the lease year until the Lessee, pursuant to the Lease, renders to Associates a report on the operation of the property, Associates recognizes further additional rent when it is realized and earned from the Lessee at the close of the lease year ending September 30.

Payable to Lessee of \$720,066 and \$1,082,082 at December 31, 2011 and 2010, respectively, represents improvement and tenancing costs advanced by Lessee in connection with the improvement program (Note 11).

Rent income, including total additional rent based on operating profits subject to additional rent, reported by the Lessee of \$11,613,895 and \$8,583,267 for 2011 and 2010, respectively, was comprised as follows:

|                            | <b>Year ended December 31,</b> |              |
|----------------------------|--------------------------------|--------------|
|                            | <b>2011</b>                    | <b>2010</b>  |
| Basic rent income          | <b>\$ 7,474,112</b>            | \$ 7,474,120 |
| Advance of additional rent | <b>1,053,800</b>               | 1,053,800    |
| Further additional rent    | <b>3,085,983</b>               | 55,347       |
| Total additional rent      | <b>4,139,783</b>               | 1,109,147    |
| Rent income                | <b>\$ 11,613,895</b>           | \$ 8,583,267 |

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

As a result of its revenue recognition policy, rental income for the year ending December 31 includes the advances of additional rent income received from October 1 to December 31 but does not include any portion of further additional rent based on the Lessee's operations during that period.

Under the building improvement program (Note 11), the increase in debt service attributable to an increase in the mortgage is funded by a corresponding increase in basic rent payable by the Lessee.

The Lessee may surrender the lease at the end of any month, upon 60 days' prior written notice; the liability of the Lessee will end on the effective date of such surrender.

F-246

**Table of Contents****60 EAST 42nd ST. ASSOCIATES L.L.C.****(A Limited Liability Company)****NOTES TO FINANCIAL STATEMENTS****(continued)**4. Related Party Transactions Rent Income (continued)

The following is a schedule of future minimum rental income (assuming that the Lessee does not surrender the Lease):

| <b>Year ending December 31,</b> |               |
|---------------------------------|---------------|
| 2012                            | \$ 7,480,000  |
| 2013                            | 7,480,000     |
| 2014                            | 6,230,000*    |
| 2015                            | 24,000*       |
| Thereafter                      | 416,000*      |
|                                 | \$ 21,630,000 |

\* Associates intends to refinance the existing mortgages which mature on November 5, 2014. In accordance with the Ninth Lease Modification Agreement, basic rent will increase to include the required debt service on the refinanced mortgages. The above table does not reflect the additional basic rent that will result after November 2014 from the refinanced debt.

Real estate taxes paid directly by the Lessee for the years ended December 31, 2011 and 2010 totaled \$10,928,078 and \$10,594,397, respectively.

The prospectus/consent solicitation in which these financial statements are included relates to the solicitation of consents of the Participants in Associates and other public limited liability companies supervised by the Supervisor to a consolidation transaction. In such consolidation, (x) the property interests of Associates, such other public limited liability companies and certain private entities supervised by the Supervisor, and (y) the Supervisor and certain affiliated management companies will be contributed to the operating partnership of a newly organized publicly traded real estate investment trust.

Consents are required from Participants in Associates and such other public limited liability companies for them to contribute their interests in the consolidation, and the solicitation of such consents will not commence until the SEC declares effective the registration statement on Form S-4. Consents have been obtained from Participants in the private entities and the Supervisor and certain affiliated companies and affiliates of the Supervisor for them to make such contribution.

The consideration to be paid to the contributing companies and entities in the consolidation will be allocated in accordance with exchange values determined based on appraisals by an independent third party. Such method of allocation has been approved by the Lessee. Based on the exchange values, if the consolidation proposal is approved by Associates Participants, the consideration with respect to One Grand Central Place will be allocated approximately 50% to Associates and 50% to the Lessee, which the Supervisor believes is in accordance with the historical treatment of the Associates and Lessee.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

### 5. Related Party Transactions Supervisory and Other Services

Supervisory and other services are provided to Associates by its supervisor, Malkin Holdings LLC ( Malkin Holdings or the Supervisor ), a related party. Beneficial interests in Associates and the Lessee are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

Associates pays Supervisor for supervisory services and disbursements. The basic fee had been payable at the rate of \$24,000 per annum since October 1, 1958. The Agents approved an increase in such fee in an amount equal to the increase in the Consumer Price Index since such date, resulting in an increase in the basic fee to \$180,000 per annum effective July 1, 2010, to be adjusted annually for any subsequent increase in the Consumer Price Index. Fees for supervisory services (including disbursements and costs of

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

5. Related Party Transactions Supervisory and Other Services (continued)

accounting services) for the years ended December 31, 2011 and 2010 totaled \$190,646 and \$109,380, respectively. For the years ended December 31, 2011 and 2010, Malkin Holdings earned \$228,603 and \$56,757, respectively, for special supervisory services at hourly rates in connection with a proposed consolidation of Associates, other public and private entities supervised by Malkin Holdings, and Malkin Holdings and certain affiliated management companies into Empire State Realty Trust, Inc., a newly formed REIT, all representing Associates allocable portion of such fees to be paid directly and not borne indirectly through additional rent deductions. Malkin Holdings receives an additional payment equal to 10% of all distributions received by the participants in Associates in excess of 14% per annum on the initial cash investment of \$7,000,000. For tax purposes, such additional payment is treated as a profits interest and the Supervisor is treated as a partner, all without modifying each Participant's distributive share of reportable income and cash distributions. Distributions in respect of Malkin Holdings' profits interest totaled \$7,380 for each of the years ended December 31, 2011 and 2010, respectively.

Malkin Holdings also serves as supervisor for the Lessee, for which it receives a basic annual fee of \$383,000, effective January 1, 2010, to be adjusted each year for any subsequent increase in the Consumer Price Index. Fees for supervisory services for the years ended December 31, 2011 and 2010 totaled \$389,251 and \$383,000, respectively. For the years ended December 31, 2011 and 2010, Malkin Holdings earned \$175,911 and \$11,370, respectively, from the Lessee in other service fees. Malkin Holdings also receives a payment from Lessee in respect of its profits interest equal to 10% of distributions in excess of \$400,000 a year. Distributions in respect of Malkin Holdings' profits interest from the Lessee totaled \$260,004 and \$460,004 for the years ended December 31, 2011 and 2010, respectively.

6. Number of Participants

There were 848 and 837 participants in the participating groups at December 31, 2011 and 2010, respectively.

7. Determination of Distributions to Participants

Distributions to participants during each year represent mainly the excess of rent income over the mortgage requirements and cash expenses.

8. Distributions and Amount of Income per \$10,000 Participation Unit

Distributions and amount of income per \$10,000 participation unit during the years ended December 31, 2011 and 2010, based on 700 participation units outstanding during each year, consisted of the following:

|                   | Year ended December 31 |       |
|-------------------|------------------------|-------|
|                   | 2011                   | 2010  |
| Income            | \$ 1,495               | \$ 92 |
| Return of capital |                        | 1,403 |

|                     |          |          |
|---------------------|----------|----------|
| Total distributions | \$ 1,495 | \$ 1,495 |
|---------------------|----------|----------|

**60 EAST 42nd ST. ASSOCIATES L.L.C.**

**(A Limited Liability Company)**

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

F-249

**9. Concentration of Credit Risk**

Associates maintains cash and cash equivalents in a bank and a money market fund (Fidelity U.S. Treasury Income Portfolio). The Federal Deposit Insurance Corporation ( FDIC ) insures each interest bearing account up to \$250,000 and fully insures non-interest bearing accounts through December 31, 2012. At December 31, 2011 and 2010, the bank account is fully insured. Funds in the money market fund were not insured at December 31, 2011 and 2010. Distributions are paid from a cash account held by Malkin Holdings. That account is included on the accompanying balance sheet as Due from Supervisor. The funds (approximately \$87,000 at December 31, 2011 and 2010) were paid to the participants on January 1, 2012 and 2011, respectively.

**10. Contingencies**

Malkin Holdings and Peter L. Malkin, a member in Associates, were engaged in a proceeding with Lessee s former managing agent, Helmsley-Spear, Inc. commenced in 1997, concerning the management, leasing, and supervision of the property that is subject to the Lease to Lessee. In this connection, certain costs for legal and professional fees and other expenses were paid by Malkin Holdings and Mr. Malkin. Malkin Holdings and Mr. Malkin have represented that such costs will be recovered only to the extent that (a) a competent tribunal authorizes payment or (b) an investor voluntarily agrees that his or her proportionate share be paid. On behalf of himself and Malkin Holdings, Mr. Malkin has requested, or intends to request, such voluntary agreement from all investors, which may include renewing such request in the future for any investor who previously received such request and failed to confirm agreement at that time. Because any related payment has been, or will be, made only by consenting investors, Associates has not provided for the expense and related liability with respect to such costs in these financial statements.

Five putative class actions have been brought by participants in Associates and several other entities supervised by Malkin Holdings that own fee or leasehold interests in various properties located in New York City (which were filed March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and March 19, 2012) (the Class Actions ). As now pending in New York State Supreme Court, New York County, each Class Action challenges the proposed consolidation of those and other properties supervised by Malkin Holdings into a real estate investment trust (the REIT ) and the initial public offering of shares in Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a REIT. The plaintiffs assert claims against Malkin Holdings, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc., Malkin Construction Corp., Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, Empire State Realty OP, L.P., and the REIT ( Defendants ) for breach of fiduciary duty, unjust enrichment, and/or aiding and abetting breach of fiduciary duty, alleging, inter alia, that the terms of the transaction and the process in which it was structured (including the valuation which was employed) are unfair to the participants, the consolidation provides excessive benefits to Malkin Holdings and its affiliates and the prospectus/consent solicitation statement which is part of the registration statement on Form S-4 relating to the consolidation fails to make adequate disclosure. The complaints seek money damages and injunctive relief preventing the proposed transaction. On April 3, 2012, plaintiffs moved for consolidation of the actions and for appointment of co-lead counsel. Defendants intend to consent to consolidation, and have no position with respect to appointment of co-lead counsel.

The Class Actions are in a very preliminary stage, with no responses to the complaints having been filed to date. The outcome of this litigation is uncertain, however, and as a result, the company may incur costs associated with defending or settling such litigation or paying any judgment if Defendants lose. In addition,

**Table of Contents**

**60 EAST 42nd ST. ASSOCIATES L.L.C.**

**(A Limited Liability Company)**

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

10. Contingencies (continued)

the company may be required to pay damage awards or settlements. At this time, the company cannot reasonably assess the timing or outcome of this litigation, estimate the amount of loss, or assess its effect, if any, on the company's financial statements. Defendants believe the Class Actions are baseless and intend to defend them vigorously.

There is a risk that other third parties will assert claims against the Defendants or the supervisor relating to this transaction, including, without limitation, that the supervisor breached its fiduciary duties to investors in the existing entities or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against the Defendants.

11. Building Improvements Program and Agreement to Extend Lease

In 1999, the participants of Associates and the members in Lessee consented to a building improvements program (the Program) estimated to cost approximately \$22,800,000. In 2000, the participants of Associates and the members in the Lessee approved an increase in the Program from \$22,800,000 to approximately \$28,000,000 under substantially the same conditions as had previously been approved. To induce the Lessee to approve the Program, Associates agreed to grant to the Lessee, upon completion of the Program, the right to further extensions of the Lease to 2083. The Program was further increased in 2004 to up to \$100,000,000. Such increase would extend the Lease beyond 2083, based on the net present benefit to Associates of the improvements made. The granting of such Lease extension rights upon completion of the Program is expected to trigger a New York State Transfer Tax under current tax rules, which will be paid from mortgage proceeds and/or the Lessee's operating cash flow. As of December 31, 2011, Associates had incurred costs related to the Program of \$74,308,199 and estimates that the costs of the Program upon completion will be approximately \$100,000,000 including sprinkler work, required to be completed by 2019. The participants of Associates and the members in Lessee had approved increased refinancing of \$16,000,000 from the total of \$84,000,000 provided by the mortgage to up to \$100,000,000. The balance of the costs of the Program will be financed by the new \$16,000,000 mortgage and Lessee's operating cash flow.

The Lessee is financing the Program and billing Associates for the costs incurred. The Program (1) grants the ownership of the improvements to Associates and acknowledges its intention to finance them through an increase in the fee mortgage (Note 3), and (2) allows for the increased mortgage charges to be paid by Associates from an equivalent increase in the basic rent paid by the Lessee to Associates. Since any further additional rent will be decreased by one-half of that amount, the net effect of the lease modification is to have Associates and the Lessee share the costs of the Program equally, assuming further additional rent continues to be earned. The 1999 consent authorized the members of Associates who act as agents for the participant investors (the Agents) to give additional extension rights to the Lessee beyond the September 30, 2033 expiration date (Note 4) to September 30, 2083 upon completion of the Program, and to later date(s) for consideration and upon such terms as the Agents deem appropriate for the benefit of Associates.

12. Subsequent Events

Subsequent events have been evaluated for potential recognition and disclosure.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Lincoln Building Associates L.L.C.

(A Limited Liability Company)

We have audited the accompanying balance sheets of Lincoln Building Associates L.L.C. as of December 31, 2011 and 2010, and the related statements of income, changes in members' equity and cash flows for each of the two years in the period ended December 31, 2011. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Lincoln Building Associates L.L.C. at December 31, 2011 and 2010, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles.

| <b>Cash and Cash Equivalents end of year</b>                                      | <b>\$ 955,140</b>        | <b>\$ 3,415,068</b> |

Net cash used in investing activities excludes increases of \$106,264 and \$542,477 in accounts payable and accrued liabilities for the years ended December 31, 2011 and 2010, respectively.

Net cash used in financing activities excludes increases of \$267,913 and \$42,603 in accounts payable and accrued liabilities for the years ended December 31, 2011 and 2010, respectively.

*The accompanying notes are an integral part of these statements.*

**Table of Contents**

**LINCOLN BUILDING ASSOCIATES L.L.C.**

**NOTES TO FINANCIAL STATEMENTS**

**1. Organization and Nature of Business**

The Company was originally organized on June 14, 1954 as a general partnership in order to lease and sublease the 1,200,000 square foot office building situated at 60 East 42<sup>nd</sup> Street, New York, New York (the Property or One Grand Central Place ). At December 31, 2011, the Property is approximately 80% occupied. On November 1, 2002, the Company converted from a general partnership to a New York limited liability company and is now known as Lincoln Building Associates L.L.C. (the Company ). Although limited liability companies are unincorporated associations, their members have limited personal liability for the obligations or debts of the entity similar to stockholders of a corporation.

The Company commenced operations on June 14, 1954 and is to continue until the earlier of the complete disposition of all of the Company s assets, unless sooner terminated pursuant to the Operating Agreement or by law.

**2. Summary of Significant Accounting Policies**

**Revenue recognition** Minimum rental revenue is recognized on a straight-line basis over the terms of the subleases. The excess of rents so recognized over amounts contractually due pursuant to the underlying subleases is included in unbilled rent receivable on the accompanying balance sheets. Subleases generally contain provisions under which tenants reimburse the Company for a portion of property operating expenses, real estate taxes and other recoverable costs. Receivables for escalation and expense reimbursements are accrued in the period the related expenses are incurred. Rental payments received before they are recognized as income are recorded as deferred income.

The Company provides an estimated allowance for uncollectible rent receivable based upon an analysis of tenant receivables any historical bad debts, tenant concentrations, tenant credit worthiness, tenant security deposits (including letters of credit and sublease guarantees provided by the tenant), current economic trends and changes in tenant payment terms. Rent receivable is shown net of an estimated allowance for doubtful accounts of \$129,237 and \$66,035 at December 31, 2011 and 2010, respectively. Unbilled rent receivable is shown net of an estimated allowance for doubtful accounts of approximately \$623,000 and \$356,000 at December 31, 2011 and 2010, respectively.

Bad debt expense is shown net of recoveries.

**Cash and cash equivalents** The Company considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Cash equivalents consist of a money market mutual fund (Fidelity U.S. Treasury Income Portfolio).

At times, the Company has demand and other deposits with a bank in excess of federally insured limits. The possibility of loss exists if the bank holding uninsured deposits were to fail.

**Property** The Company reviews real estate assets for impairment whenever events or changes in circumstances indicate the carrying amount of assets to be held and used may not be recoverable. Impairment losses are recognized when the estimated undiscounted cash flows expected to be generated by those assets are less than the assets carrying amount. Impaired assets are recorded at their estimated fair value calculated based on the discounted cash flows expected to be generated by the asset. No impairment loss has been recorded in the years ended December 31, 2011 and 2010.

**Depreciation and amortization** Depreciation is computed by the straight-line method over the estimated useful lives of forty years for the leasehold improvements and five years for equipment. Subtenant improvements, leasing commissions and leasing costs are amortized by the straight-line method over the terms of the related tenant subleases.

---

**Table of Contents**

**LINCOLN BUILDING ASSOCIATES L.L.C.**

**NOTES TO FINANCIAL STATEMENTS**

(continued)

2. Summary of Significant Accounting Policies (continued)

Repairs and maintenance are charged to expense as incurred. Expenditures which increase the useful lives of the assets are capitalized.

**Income taxes** The Company is not subject to federal, state and local income taxes and, accordingly, makes no provision for income taxes in its financial statements. The Company's taxable income or loss is reportable by its members.

The Company follows the provisions pertaining to uncertain tax positions of Financial Accounting Standards Board (FASB), Accounting Standards Codification (ASC) 740, Income Taxes, and has determined that there are no material uncertain tax positions that require recognition or disclosure in the financial statements.

**Advertising** The Company expenses advertising costs as incurred.

**Environmental costs** The Property contains asbestos. The asbestos is appropriately contained, in accordance with current environmental regulations. As certain demolition of the space occurs, environmental regulations are in place, which specify the manner in which the asbestos must be handled and disposed. Because the obligation to remove the asbestos has an indeterminable settlement date, the Company is unable to reasonably estimate the fair value of this obligation. Asbestos abatement costs are charged to expense as incurred.

**Estimates** The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates. The Company regards the allowance for uncollectible rent (including unbilled rent receivable) as being particularly sensitive. Further, when subtenants experience financial difficulties, uncertainties associated with assessing the recoverability of subtenant improvements and leasing commissions increase.

Other items subject to such estimates and assumptions include the determination of the useful life of real estate and other long-term assets as well as the valuation and impairment analysis of real property and other long-lived assets.

The real estate industry has historically been cyclical and sensitive to changes in economic conditions such as interest rates, credit availability and unemployment levels. Changes in these economic conditions could affect the assumptions used by management in preparing the accompanying financial statements.

**Recently adopted accounting pronouncements** In January 2010, the FASB issued ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. ASU No. 2010-06 amends ASC 820 and requires disclosure of details of significant asset or liability transfers in and out of Level 1 and Level 2 measurements within the fair value hierarchy and inclusion of gross purchases, sales, issuances, and settlements in the rollforward of assets and liabilities valued using Level 3 inputs within the fair value hierarchy. The guidance also clarifies and expands existing disclosure requirements related to the disaggregation of fair value disclosures and inputs used in arriving at fair values for assets and liabilities using Level 2 and Level 3 inputs within the fair value hierarchy. These disclosure requirements were effective for interim and annual reporting periods beginning after December 15, 2009. Adoption of this guidance on January 1, 2010, excluding the Level 3 rollforward, did not result in additional disclosures in the financial statements. The gross presentation of the Level 3 rollforward is required for interim and annual reporting periods beginning after December 15, 2010. The adoption of this pronouncement did not have a material impact on the Company's financial statements.

**Table of Contents****LINCOLN BUILDING ASSOCIATES L.L.C.****NOTES TO FINANCIAL STATEMENTS****(continued)****2. Summary of Significant Accounting Policies (continued)**

**New accounting pronouncements not yet adopted** In May 2011 the FASB issued ASU 2011-04, Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP. This ASU provides guidance setting forth additional requirements relating to disclosures about fair value. In accordance with the guidance, the Company requires additional disclosures, including: (i) quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion about the sensitivity of the measurements to changes in the unobservable inputs, for Level 3 fair value measurements; (ii) fair value of financial instruments not measured at fair value but for which disclosure of fair value is required, based on their levels in the fair value hierarchy; and (iii) transfers between Level 1 and Level 2 of the fair value hierarchy. For non-public companies, ASU No. 2011-04 is effective for annual periods beginning on or after December 15, 2012. The adoption of this update on January 1, 2012 is not expected to have a material impact on our financial statements.

In September 2011, the FASB issued ASU 2011-9, Compensation-Retirement Benefits-Multiemployer Plans (Subtopic 715-80): Disclosures about an Employer's Participation in a Multiemployer Plan. The ASU requires substantially more disclosures regarding the multiemployer plan the Company participates in, the nature of the Company's commitment to the plan and other disclosures. The current recognition and measurement guidance is unchanged. The Company is evaluating the disclosures required under the ASU. For non-public companies this ASU is effective for annual periods for fiscal years ending after December 31, 2012.

**Subsequent events** The Company has evaluated events and transactions for potential recognition or disclosure through April 11, 2012, the date the financial statements were available to be issued.

**3. Members' Equity**

Profits, losses and distributions are allocated to the members pursuant to the Company's Operating Agreement.

**4. Deferred Charges**

Deferred charges consist of the following as of December 31, 2011 and 2010:

|                               | <b>2011</b>   | <b>2010</b>  |
|-------------------------------|---------------|--------------|
| Leasing commissions           | \$ 11,453,706 | \$ 9,974,766 |
| Leasing costs                 | 62,525        | 62,525       |
| Other deferred costs          | 2,030,749     | 454,278      |
|                               | 13,546,980    | 10,491,569   |
| Less accumulated amortization | (3,711,419)   | (2,499,263)  |
| Total                         | \$ 9,835,561  | \$ 7,992,306 |

5. Related Party Transactions

The Company has entered into a lease agreement with 60 East 42<sup>nd</sup> St. Associates L.L.C. (the Lessor ) which is currently set to expire on September 30, 2033. The Company (the Lessee ) may terminate the lease on 60 days prior written notice without any further liability.

F-259

---

**Table of Contents**

**LINCOLN BUILDING ASSOCIATES L.L.C.**

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

5. Related Party Transactions (continued)

The lease provides for an annual basic rent equal to the sum of the constant annual mortgage charges incurred on all mortgages by the Lessor (excluding any balloon principal payment due at maturity), plus \$24,000.

The lease also provides for additional rent, as follows:

1) Additional rent equal to the first \$1,053,804 of Lessee's net operating income, as defined, in each lease year.

2) Further additional rent equal to 50% of the Lessee's remaining net operating income, as defined, in each lease year.

The lease further provides for recoupment by the Lessee of advances in future lease years resulting from any overpayment of additional rent in any year.

In addition to the above, the Lessee is required to pay for all operating and maintenance expenses, real estate taxes, and necessary repairs and replacements, and keep the Property adequately insured against fire and accident.

Further additional rent expense is recognized prior to the end of the lease year based on net operating income earned to date, provided it is probable that the Company will generate net operating income for the lease year in such amount as to obligate the Company to pay further additional rent. In the event it becomes probable that net operating income for the lease year will be insufficient to require the payment of further additional rent, any previously recorded further additional rent would be reversed into income. As of December 31, 2011 and 2010, accrued further additional rent attributable to the lease years ending September 30, 2012 and 2011, was \$481,931 and \$770,987, respectively.

During 1999, the Company and the Lessor entered into a building improvements program (the "Program") whereby the Lessor would obtain financing to fund improvements to the Property. To induce the Company to approve the Program, the Lessor agreed to grant the Company, upon completion of the Program, the right to further extensions of the lease to 2083. In accordance with the 2004 consent program, the Program was further increased to up to \$100,000,000. Such increase would extend the lease beyond 2083, based on the net present benefit to the Lessor of the improvements made. On November 29, 2004, Lessor obtained a new first mortgage of \$84,000,000 (the "Lessor's Loan"), of which \$40,000,000 was used to repay the existing first and second mortgages. On November 5, 2009, Lessor obtained an additional mortgage financing of \$16,000,000 (the "Lessor's Second Loan"). The balance of the Lessor's Loan and the proceeds of the Lessor's Second Loan will be used to complete currently estimated costs for existing and additional improvements, including subtenant installation and leasing commissions.

The Company is financing the Program and billing the Lessor for the costs incurred. The Program (1) grants the ownership of the improvements to the Lessor and acknowledges the Lessor's intention to finance them through an increase in the fee mortgage, and (2) allows for the increased mortgage charges to be paid by the Lessor from an equivalent increase in the basic rent paid by the Company. Since any further additional rent will be decreased by one-half of that amount, the net effect is to have the Company and the Lessor share the costs of the Program equally, assuming the Company continues to be obligated to pay further additional rent. At December 31, 2011 and 2010, the Company recorded a receivable of \$369,811 and \$732,045, respectively, from the Lessor for costs incurred by the Company under the Program.

The Lessor's Loan is scheduled to mature on November 5, 2014. The Lessor's Loan bears interest at 5.34% per annum, payable monthly in arrears. Commencing August 5, 2007, the Lessor's Loan requires

**Table of Contents****LINCOLN BUILDING ASSOCIATES L.L.C.****NOTES TO FINANCIAL STATEMENTS****(continued)****5. Related Party Transactions (continued)**

equal monthly payments of \$507,838 applied first to interest at 5.34% per annum, and then principal based on a 25-year amortization period. No prepayment fee shall be due if the Lessor's Loan is prepaid during the final 60 days prior to the maturity date.

The Lessor's Second Loan is scheduled to mature on November 5, 2014 and bears interest at 7% per annum. The Lessor's Second Loan requires equal monthly payments of \$113,085 applied first to interest at 7% per annum, and then principal based on a 25-year amortization period. No prepayment fee shall be due if the Lessor's Second Loan is prepaid during the final 60 days prior to the maturity date.

In connection with the Lessor's mortgage Loans, the Company has assigned all subleases and rents to the lender as additional collateral.

The following is a schedule of future minimum rental payments annual base rent as of December 31, 2011 (based on the current amount of the Lessor's outstanding mortgage obligations and assuming the Company does not surrender the lease):

| <b>Years ending December 31,</b> |               |
|----------------------------------|---------------|
| 2012                             | \$ 7,480,000  |
| 2013                             | 7,480,000     |
| 2014                             | 6,230,000*    |
| 2015                             | 24,000*       |
| 2016                             | 24,000*       |
| Thereafter                       | 402,000*      |
|                                  | \$ 21,640,000 |

\* The Lessor intends to refinance the existing mortgages which mature on November 5, 2014. In accordance with the Ninth Lease Modification Agreement, basic rent will increase to include the required debt service on the refinanced mortgages. The above table does not reflect the additional basic rent that will result after November 2014 from the refinanced debt.

As of December 31, 2011 and 2010, the Lessor had incurred costs related to the Program of approximately \$74,300,000 and \$71,600,000, respectively, and estimates that costs upon completion will be approximately \$100,000,000. The Lessor has funded and capitalized leasing commissions totaling \$4,109,821 at both December 31, 2011 and 2010.

Supervisory and other services are provided to the Company by its Supervisor, Malkin Holdings LLC ( Malkin Holdings ), a related party. Beneficial interests in the Company are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

Fees and payments to Malkin Holdings LLC are as follows:

**LINCOLN BUILDING ASSOCIATES L.L.C.**

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

5. Related Party Transactions (continued)

Malkin Holdings receives an additional payment from the Company equal to 10% of distributions in excess of \$400,000 a year. For tax purposes such additional payment is treated as a profits interest and Malkin Holdings is treated as a member. Distributions in respect of Malkin Holdings profits interest totaled \$260,004 and \$460,004 for the years ended December 31, 2011 and 2010, respectively. In addition, other fees and disbursements to Malkin Holdings were \$228,068 and \$78,554 for the years ended December 31, 2011 and 2010, respectively. The distributions are paid from a cash account held by Malkin Holdings. That account is reflected on the balance sheets as Due from Supervisor. The balance at December 31, 2010 includes a deposit in transit of \$900,000.

For administration and investment of the Company's supervisory account, Malkin Holdings has earned since 1978 a service fee of 10% of the account interest (an annual fee currently less than 0.1% of the account balance), which fee totaled \$78 and \$99 for the years ended December 31, 2011 and 2010, respectively.

Malkin Holdings also serves as supervisor for the Company's Lessor and receives from the Lessor a basic annual fee and a fee based on distributions to its investors which totaled \$7,380 in 2011 and zero in 2010. Beneficial interests in the Lessor are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

Through December 31, 2011, the Company has incurred an aggregate of \$2,030,749 (of which \$1,576,471 and \$454,278 is related to the years ended December 31, 2011 and 2010, respectively) to reimburse Malkin Holdings for third-party fees it had advanced pertaining to certain matters regarding a course of action that could result in the Company becoming part of a newly formed public real estate investment trust (REIT). Such fees are to be borne entirely by the Company and are not shared indirectly with the Lessor through Additional Rent deductions. These fees were capitalized by the Company and included as part of deferred charges and other deferred costs.

Malkin Holdings is a tenant of the Company at the Property. Its office lease was renewed prior to 2008-2009 expiration for a ten-year term from October 2006 through September 2016. The new rent, which is roughly equivalent to the then current, fully escalated rental rate, was determined by taking a recent transaction at the Property and reducing the rent by the costs not incurred by the Company in the Malkin Holdings renewal (as the Malkin Holdings renewal involves no free rent, base building work, tenant installation allowance, or commission paid to any broker). Malkin Holdings also surrendered its semi-annual cancellation right until October 2009, thereby reducing the Property's substantial rollover exposure in 2007 through April 2009. Electricity is now billed to Malkin Holdings via sub meter, consistent with other full floor tenants.

Rent payments (including escalations and expense reimbursements) made by Malkin Holdings totaled \$1,037,398 and \$1,010,435 for the years ended December 31, 2011 and 2010, respectively.

Peter L. Malkin, a member of Malkin Holdings LLC, was elected to the Board of the Grand Central Partnership, Inc. for a two-year term commencing January 1, 2007 and re-elected for additional two-year terms through December 31, 2012. The Grand Central Partnership, Inc. is a month-to-month tenant in the Property commencing March 1, 1998 for 206 rentable square feet at an annual rental of \$1,200. The lease to the Grand Central Partnership, Inc. is on the same terms and conditions as other space it had previously occupied in the building under a lease dated July 24, 1997.

**Table of Contents****LINCOLN BUILDING ASSOCIATES L.L.C.****NOTES TO FINANCIAL STATEMENTS****(continued)****6. Rental Income Under Operating Subleases**

Future minimum rentals to be received, assuming neither renewals nor extensions of subleases which may expire during the periods, on noncancelable operating subleases in effect at December 31, 2011 are as follows:

| <b>Years ending December 31,</b> |                       |
|----------------------------------|-----------------------|
| 2012                             | \$ 44,646,000         |
| 2013                             | 38,464,000            |
| 2014                             | 32,506,000            |
| 2015                             | 26,258,000            |
| 2016                             | 22,843,000            |
| Thereafter                       | 81,237,000            |
|                                  | <b>\$ 245,954,000</b> |

The above table includes \$3,763,000 from Malkin Holdings LLC.

**7. Management Fee**

The Company has engaged Newmark Knight Frank to lease and manage the Property. Pursuant to the management agreement, the management fee is equal to 1% of total collected proceeds per month with a cap of \$350,000 per annum (which is reduced by the service fee on interest income earned on tenants' security deposits). For the years ended December 31, 2011 and 2010, the management fee totaled \$293,018 and \$309,024, respectively.

A portion of the Company's cash is held in accounts in the custody of the managing agent. These amounts are included in the accompanying balance sheets as Restricted cash - managing agent.

**8. Multiemployer Pension Plan**

In connection with the Company's collective-bargaining agreements with the Service Employees Janitorial Union Local 32B-32J and the Central Pension Fund Local 94, the Company participates with other companies in two defined benefit pension plans. The plans cover all of the Company's janitorial and engineering employees who are members of the union. These plans are not administered by the Company and contributions are determined in accordance with provisions of negotiated labor contracts. The Company incurred pension expense (which is included in payroll and related costs) of approximately \$236,000 and \$224,000 for the years ended December 31, 2011 and 2010, respectively.

Under the Employee Retirement Income Security Act of 1974, as amended by the Multiemployer Pension Plan Amendments Act of 1980, an employer is liable upon withdrawal from or termination of a multiemployer plan for its proportionate share of the plan's unfunded vested benefits liability. Management has no intention of undertaking any action which could subject the Company to the obligation.

**9. Subsequent Events**

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Five putative class actions have been brought by participants in Empire State Building Associates L.L.C. and several other entities supervised by Malkin Holdings that own fee or leasehold interests in various properties located in New York City (which were filed March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012)

F-263

**Table of Contents**

**LINCOLN BUILDING ASSOCIATES L.L.C.**

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

9. Subsequent Events (continued)

and March 19, 2012) (the Class Actions ). As now pending in New York State Supreme Court, New York County, each Class Action challenges the proposed consolidation of those and other properties supervised by Malkin Holdings into a real estate investment trust (the REIT ) and the initial public offering of shares in Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a REIT. The plaintiffs assert claims against Malkin Holdings, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc., Malkin Construction Corp., Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, Empire State Realty OP, L.P., and the REIT ( Defendants ) for breach of fiduciary duty, unjust enrichment, and/or aiding and abetting breach of fiduciary duty, alleging, inter alia, that the terms of the transaction and the process in which it was structured (including the valuation which was employed) are unfair to the participants, the consolidation provides excessive benefits to Malkin Holdings and its affiliates and the prospectus/consent solicitation statement which is part of the registration statement on Form S-4 relating to the consolidation fails to make adequate disclosure. The complaints seek money damages and injunctive relief preventing the proposed transaction. On April 3, 2012, plaintiffs moved for consolidation of the actions and for appointment of co-lead counsel. Defendants intend to consent to consolidation, and have no position with respect to appointment of co-lead counsel.

The Class Actions are in a very preliminary stage, with no responses to the complaints having been filed to date. The outcome of this litigation is uncertain, however, and as a result, the company may incur costs associated with defending or settling such litigation or paying any judgment if Defendants lose. In addition, the company may be required to pay damage awards or settlements. At this time, the company cannot reasonably assess the timing or outcome of this litigation, estimate the amount of loss, or assess its effect, if any, on the company's financial statements. Defendants believe the Class Actions are baseless and intend to defend them vigorously.

There is a risk that other third parties will assert claims against the Defendants or the supervisor relating to this transaction, including, without limitation, that the supervisor breached its fiduciary duties to investors in the existing entities or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against the Defendants.

**Table of Contents**

**Notes to Condensed Financial Statements (Unaudited)**

**Note A Interim Period Reporting**

In the opinion of management, the accompanying unaudited condensed financial statements of 60 East 42nd St. Associates L.L.C. ( Registrant ) reflect all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position of Registrant as of June 30, 2012 and its results of operations for the three and six months ended June 30, 2012 and 2011 and cash flows for the six months ended June 30, 2012 and 2011. Information included in the condensed balance sheet as of December 31, 2011 has been derived from the audited balance sheet included in Registrant's Form 10-K for the year ended December 31, 2011 (the 10-K ) previously filed with the Securities and Exchange Commission (the SEC ). Pursuant to rules and regulations of the SEC, certain information and disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted from these financial statements unless significant changes have taken place since the end of the most recent fiscal year. Accordingly, these unaudited condensed financial statements should be read in conjunction with the financial statements and notes thereto and the other information contained in the 10-K. The results of operations for the six months ended June 30, 2012 are not necessarily indicative of the results to be expected for any interim period or the full year.

**Note B Organization**

Registrant was originally organized as a partnership on September 25, 1958. On October 1, 1958, Registrant acquired fee title to One Grand Central Place (the Building ), formerly known as the Lincoln Building, at the address 60 East 42nd Street, New York, New York and the land there under (the Property ). On November 28, 2001, Registrant converted to a limited liability company under New York law and is now known as 60 East 42nd St. Associates L.L.C. The conversion did not change any aspect of the assets and operations of Registrant other than to protect its participants from liability to third parties. Registrant's members ( Members ) are Peter L. Malkin and Anthony E. Malkin (collectively, the Agents ), each of whom also acts as an agent for holders of participations in his respective member interest in Registrant (the Participants ). The Members in Registrant hold senior positions at Malkin Holdings LLC ( Malkin Holdings or Supervisor ), One Grand Central Place, 60 East 42nd Street, New York, New York, which provides supervisory and other services to Registrant and to Lessee. See Note E below.

**Note C Lease**

Registrant does not operate the Property. Registrant leases the Property to Lincoln Building Associates L.L.C. ( Lessee ) pursuant to an operating lease as modified (the Lease ), which is currently set to expire on September 30, 2033. Lessee is a New York limited liability company whose members consist of, among others, entities for the benefit of members of Peter L. Malkin's family.

The Lease provides that Lessee is required to pay to Registrant as follows:

- (i) annual basic rent ( Basic Rent ) equal to the sum of \$24,000 plus the constant annual mortgage charges on all mortgages. In accordance with the Ninth Lease Modification Agreement dated November 5, 2009, Basic Rent was increased to cover debt service on a \$100,000,000 mortgage. See Note D. Basic Rent will be increased or decreased upon the refinancing of the mortgages provided that the aggregate principal balance of all mortgages now or hereafter placed on the Property does not exceed \$100,000,000 plus refinancing costs.
- (ii) additional rent ( Additional Rent ) equal to, on an annual basis, the lesser of (x) Lessee's net operating income (as defined) for the lease year ending September 30 or (y) \$1,053,800 (\$87,817 per month) and further additional rent ( Further Additional Rent ) equal to 50% of any remaining balance of Lessee's net operating income for such lease year. Lessee has no obligation to make any payment of Additional Rent or Further Additional Rent until after Lessee has recouped any cumulative operating loss accruing from and after September 30, 1977. There is currently no accumulated operating loss against which to offset payment of Additional Rent or Further Additional Rent.

---

**Table of Contents**

**Notes to Condensed Financial Statements (Unaudited) (continued)**

The Lease also requires an advance against Additional Rent equal to, on an annual basis, the lesser of (x) Lessee's net operating income for the preceding lease year or (y) \$1,053,800 which is recorded in revenue in monthly installments of \$87,817, which, in the latter amount, will permit basic distributions to Participants at an annual rate of approximately 14.95% per annum on their original and remaining cash investment of \$7,000,000 in Registrant; provided, however, if such advances exceed Lessee's net operating income for any lease year, advances otherwise required during the subsequent lease year shall be reduced by an amount equal to such excess until Lessee shall have recovered, through retention of net operating income, the full amount of such excess. After the Participants have received distributions equal to a return of 14% per annum, \$7,380 is paid to Supervisor from the advances against Additional Rent.

Lessee is required to make an annual payment to Registrant of Further Additional Rent, which, as explained above, is the amount representing 50% of the remaining net operating income reported by Lessee for the lease year ending September 30th after deducting the advance against Additional Rent. The Lease requires that the report be delivered by Lessee to Registrant annually within 60 days after the end of each such lease year. It is not practical to estimate Further Additional Rent for the lease year ending on September 30<sup>th</sup> which would be allocable to the first nine months of the lease year until Lessee, pursuant to the Lease, renders to Registrant a report on the operation of the Property. Registrant recognizes Further Additional Rent when earned from the Lessee at the close of the lease year ending September 30<sup>th</sup> and records such amount in revenue during the three months ended September 30th.

Rent income, earned from a related party, was \$4,264,099 and \$4,263,932 for the six months ended June 30, 2012 and 2011, respectively.

For the lease year ended September 30, 2011, Lessee reported net operating income of \$7,225,766. Lessee paid advances against Additional Rent of \$1,053,800 for that lease year prior to September 30, 2011 and Further Additional Rent of \$3,085,983 subsequent to September 30, 2011. The Further Additional Rent of \$3,085,983 represents 50% of the excess of the Lessee's net operating income of \$7,225,766 over \$1,053,800. During November 2011 Registrant did not make any additional distribution of Further Additional Rent received for the lease year ending September 30, 2011 to Participants as such amount was required for (i) fees relating to a proposed consolidation of Registrant, other public and private entities supervised by Malkin Holdings and Malkin Holdings and certain affiliated management companies into Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a real estate investment trust, (ii) the increase in the supervisory fee to Supervisor, (iii) accounting fees, (iv) the New York State annual filing fee, and (v) general contingencies.

The Supervisor of the Registrant has filed a registration statement on Form S-4 for the solicitation of consents of the Participants in the Registrant and other public limited liability companies supervised by the Supervisor to the Consolidation. In such Consolidation, (x) the property interests of the Registrant, such other public limited liability companies and certain private entities supervised by the Supervisor, and (y) the Supervisor and certain affiliated management companies would be contributed to the operating partnership of Empire State Realty Trust, Inc., a newly organized real estate investment trust.

Consents are required from Participants in the Registrant and such other public limited liability companies for them to contribute their interests in the Consolidation, and the solicitation of such consents will not commence until the SEC declares effective the registration statement on Form S-4. Consents have been obtained from participants in the private entities and the Supervisor and certain affiliated companies and affiliates of the Supervisor for them to make such contribution.

The consideration to be paid to the contributing companies and entities in the Consolidation will be allocated in accordance with exchange values determined based on appraisals by an independent third party.

---

**Table of Contents****Notes to Condensed Financial Statements (Unaudited) (continued)**

Such method of allocation has been approved by the Lessee. Based on the exchange values, if the Consolidation proposal is approved by the Registrant's Participants, the consideration with respect to the Property will be allocated approximately 50% to the Registrant and 50% to the Lessee, which the Supervisor believes is in accordance with the historical treatment of the Registrant and the Lessee.

**Note D Mortgages Payable**

On November 29, 2004, a new first mortgage ( Mortgage ) was placed on the Property in the amount of \$84,000,000 with Prudential Insurance Company of America to provide financing for the improvement program described below. At closing, \$49,000,000 was drawn to pay off the former first mortgage with Morgan Guaranty Trust Company in the amount of \$12,020,814 and the second mortgage in the amount of \$27,979,186 with Emigrant Savings Bank. The remaining \$35,000,000 available under the Mortgage was drawn on various dates through July 5, 2007. The proceeds of \$49,000,000 drawn at closing and all subsequent draws have been used to pay for refinancing costs and capital improvements as needed. The initial draw of \$49,000,000 and all subsequent draws required constant equal monthly payments of interest only, at the rate of 5.34% per annum, until July 5, 2007. Commencing August 5, 2007, Registrant is required to make equal monthly payments of \$507,838 applied to interest and then principal calculated on a 25-year amortization schedule. The entire \$84,000,000 has been drawn and at June 30, 2012 the balance is \$74,979,252. The Senior Mortgage matures on November 5, 2014 at which time the principal balance will be \$69,797,589.

On November 5, 2009 Registrant took out an additional \$16,000,000 loan with Prudential Insurance Company of America secured by a second mortgage on the Property, subordinate to the first mortgage and to be used for capital improvements. The loan requires payments of interest at 7% per annum and principal in the aggregate amount of \$113,085 calculated on a 25-year amortization schedule and is co-terminus with the first mortgage. At June 30, 2012, the balance is \$15,330,985. The mortgage matures on November 5, 2014 at which time the principal balance will be \$14,613,782.

The mortgage loans may be prepaid at any time, in whole only, upon payment of a prepayment penalty based on a yield maintenance formula. There is no prepayment penalty if the mortgages are paid in full during the last 60 days of the term.

The estimated fair value of Registrant's mortgage debt based on available market information is approximately \$95,130,697 as of June 30, 2012. The fair value of borrowings is estimated by discounting the future cash flows using current interest rates at which similar borrowings could be made by us.

As of June 30, 2012, mortgage financing costs of \$2,873,632 were capitalized by Registrant and are being amortized ratably over the terms of the mortgages.

In 1999, the Participants of Registrant and the members in Lessee consented to a building improvements program (the Program ) estimated to cost approximately \$22,800,000. In 2000, the Participants of Registrant and members in Lessee approved an increase in the Program from \$22,800,000 to approximately \$28,000,000 under substantially the same conditions as had previously been approved. To induce the Lessee to approve the Program, Registrant authorized the Agents to grant to the Lessee, upon completion of the Program, the right to further extensions of the Lease to 2083. The Program was further increased in 2004 to up to \$100,000,000. Such increase is expected to permit extending the Lease beyond 2083, based on the net present benefit to Registrant of the improvements made. The granting of such Lease extension rights upon completion of the Program is expected to trigger a New York State Transfer Tax under current tax rules, which will be paid from mortgage proceeds and/or the Lessee's operating cash flow. As of June 30, 2012, Registrant had incurred costs related to the Program of \$76,738,984 (including building and tenant improvements and leasing costs) and estimates that the Program upon completion will be approximately \$100,000,000 including sprinkler work, required to be completed by 2019. The Participants of Registrant and the members in Lessee had approved increased

---

**Table of Contents****Notes to Condensed Financial Statements (Unaudited) (continued)**

refinancing of \$16,000,000 from the total of \$84,000,000 provided by the Mortgage to up to \$100,000,000. As noted above, the additional \$16,000,000 financing closed on November 5, 2009. Costs of the Program in excess of financing, if applicable, will be funded out of Lessee's operating cash flow. Amounts Payable to Lessee related to the program were \$2,231,755 (of which \$2,231,589 relate to unpaid improvements and leasing costs) and \$720,066 as of June 30, 2012 and December 31, 2011, respectively.

**Note E Supervisory Services**

Registrant pays Supervisor for supervisory services and disbursements. The basic fee (the Basic Payment) has been payable at the rate of \$24,000 per annum, payable \$2,000 per month, since October 1, 1958. The Basic Payment was increased, with the approval of the Agents, by an amount equal to the increase in the consumer price index since such date, resulting in an increase in the Basic Payment to \$180,000 per annum effective July 1, 2010 to be adjusted annually for any subsequent increase in the Consumer Price Index. The fee is payable (i) not less than \$2,000 per month and (ii) the balance out of available reserves from Further Additional Rent. If Further Additional Rent is insufficient to pay such balance, any deficiency shall be payable in the next year in which Further Additional Rent is sufficient. The Agents also approved payment by Registrant, effective July 1, 2010, of the expenses in connection with regular accounting services related to maintenance of Registrant's books and records. Such expenses were previously paid by Supervisor.

The basic supervisory services provided to Registrant by Supervisor include, but are not limited to, maintaining all of its entity and Participant records, performing physical inspections of the Building, providing or coordinating certain counsel services to Registrant, reviewing insurance coverage and conducting annual supervisory review meetings, receipt of monthly rent from Lessee, payment of monthly and additional distributions to the Participants, payment of all other disbursements, confirmation of the payment of real estate taxes, active review of financial statements submitted to Registrant by Lessee and financial statements audited by and tax information prepared by Registrant's independent registered public accounting firm, and distribution of related materials to the Participants. Supervisor also prepares quarterly, annual and other periodic filings with the SEC and applicable state authorities.

Accrued supervisory fees, to a related party, are \$0 and \$81,265 at June 30, 2012 and December 31, 2011, respectively. Due to Supervisor, a related party, was \$297,983 and \$922,728 at June 30, 2012 and December 31, 2011, respectively.

Registrant pays Supervisor for other services at hourly rates. Pursuant to the fee arrangements described herein, Registrant incurred supervisory service fees of \$96,956 for the six-month period ended June 30, 2012. Supervisory fees were \$93,690 for the six-month period ended June 30, 2011. No remuneration was paid during the six-month periods ended June 30, 2012 and 2011 by Registrant to any of the Members. Included in professional fees are amounts to a related party of \$31,088 and \$80,188 for the three and six months ended June 30, 2012, respectively, and \$18,050 and \$47,168 for the three and six months ended June 30, 2011, respectively.

Supervisor also receives a payment (Additional Payment) equal to 10% of all distributions to Participants in Registrant in excess of 14% per annum on their remaining cash investment in Registrant (which remaining cash investment at June 30, 2012 was equal to the Participants original cash investment of \$7,000,000). For tax purposes, such Additional Payment is recognized as a profits interest, and the Supervisor is treated as a partner, all without modifying each Participant's distributive share of reportable income and cash distribution. Supervisor receives \$7,380 a year as an advance against the Additional Payment, which Registrant expenses monthly. Distributions are paid from a cash account held by Supervisor. That account is included in the condensed Balance Sheets as Due from Supervisor. The funds of \$87,202 at June 30, 2012 and December 31, 2011 were paid to participants on July 1, 2012 and January 1, 2012, respectively.

**Table of Contents**

**Notes to Condensed Financial Statements (Unaudited) (continued)**

Reference is made to Note C above for a description of the terms of the Lease between Registrant and Lessee. As of June 30, 2012, entities for the benefit of Peter L. Malkin's family own member interests in Lessee. The respective interests of the Members in Registrant and Lessee arise solely from ownership of their respective Participations in Registrant and, in the case of Peter L. Malkin, his individual ownership of a member interest in Lessee. The Members as such receive no extra or special benefit not shared on a pro rata basis with all other Participants in Registrant or members in Lessee. However, all of the Members hold senior positions at Supervisor (which supervises Registrant and Lessee) and, by reason of their positions at Supervisor, may receive income attributable to supervisory or other remuneration paid to Supervisor by Registrant and Lessee.

**Note F Subsequent Events**

Subsequent events have been evaluated for potential recognition and disclosure.

**Note G Fair Value Measurements**

Fair value is a market-based measurement, not an entity-specific measurement, and should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, Financial Accounting Standards Board guidance establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within levels one and two of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within level three of the hierarchy).

We use the following methods and assumptions in estimating fair value disclosures for financial instruments.

*Cash and cash equivalents, due from Supervisor, a related party, other receivable, accrued mortgage interest, accrued supervisory fees, a related party, payable to Lessee, a related party, due to Supervisor, a related party, and accrued expenses:* The carrying amount of cash and cash equivalents, due from Supervisor, a related party, other receivable, accrued mortgage interest, accrued supervisory fees, a related party, payable to Lessee, a related party, due to Supervisor, a related party, and accrued expenses reported in our Condensed Balance Sheets approximates fair value due to the short maturity of these instruments.

*Mortgages payable:* The fair value of borrowings is estimated by discounting the future cash flows using current interest rates at which similar borrowings could be made to us.

The methodologies used for valuing financial instruments have been categorized into three broad levels as follows:

Level 1 Quoted prices in active markets for identical instruments.

Level 2 Valuations based principally on other observable market parameters, including:

Quoted prices in active markets for similar instruments;

Quoted prices in less active or inactive markets for identical or similar instruments;

Other observable inputs (such as risk free interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates); and

Market corroborated inputs (derived principally from or corroborated by observable market data).

Level 3 Valuations based significantly on unobservable inputs.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Valuations based on third-party indications (broker quotes or counterparty quotes) which were, in turn, based significantly on unobservable inputs or were otherwise not supportable as Level 2 valuations.

F-273

**Table of Contents**

**Notes to Condensed Financial Statements (Unaudited) (continued)**

Valuations based on internal models with significant unobservable inputs.

These levels form a hierarchy. We follow this hierarchy for our financial instruments measured at fair value on a recurring and nonrecurring basis and other required fair value disclosures. The classifications are based on the lowest level of input that is significant to the fair value measurement.

**Fair Value of Financial Instruments**

The following disclosures of estimated fair value were determined by management, using available market information and appropriate valuation methodologies as discussed in Fair Value Measurements. Considerable judgment is necessary to interpret market data and develop estimated fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts we could realize on disposition of the financial instruments. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

The mortgages payable had an estimated fair value based on discounted cash flow models, based on Level 3 inputs, of approximately \$95,130,697, compared to the book value of the related debt of \$90,310,237, at June 30, 2012.

Disclosure about fair value of financial instruments is based on pertinent information available to us as of June 30, 2012. Although we are not aware of any factors that would significantly affect the reasonable fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date and current estimates of fair value may differ significantly from the amounts presented herein.

**Note H Offering Costs**

In connection with the Consolidation and IPO we have incurred or will incur incremental accounting fees, legal fees and other professional fees. Such costs will be deferred and recorded as a reduction of proceeds of the IPO, or expensed as incurred if the Consolidation and IPO is not consummated. Certain costs associated with the Consolidation and IPO not directly attributable to the solicitation of consents and the IPO, but rather related to structuring the Consolidation, are expensed as incurred.

***Correction of an Immaterial Error in the Financial Statements***

Our prior period financial results have been adjusted to reflect an immaterial correction which has no impact to the net change in cash reported on the statement of cash flows. During fiscal year 2012, we determined that certain costs related to the structuring of the Consolidation that were previously included in deferred offering costs should have been expensed in the periods incurred. The correction impacted the 2011 and 2010 periods and had accumulated to an amount of \$538,123 as of June 30, 2012. Adhering to applicable guidance for accounting changes and error corrections, we concluded that the error was not material to any of our prior period financial statements. The correction resulted in immaterial changes to deferred costs and formation transaction expenses for the years ended December 31, 2011 and 2010. We applied the guidance for accounting changes and error corrections and revised our prior period financial statements presented in this prospectus/consent solicitation.

**Table of Contents****Notes to Condensed Financial Statements (Unaudited) (continued)**

The following tables present the effect this correction had on the combined financial statements as of June 30, 2012 and December 31, 2011 and for the three and six months ended June 30, 2012 and 2011. Additionally, financial information included in the notes to the financial statements that is impacted by the adjustment have been revised, as applicable.

**Management's Discussion and Analysis of  
Financial Condition and Results of Operations.**

**Forward-Looking Statements**

Readers of this discussion are advised that the discussion should be read in conjunction with the financial statements of 250 West 57th St. Associates L.L.C. ( Associates ) (including related notes thereto) appearing elsewhere in this prospectus/consent solicitation. Certain statements in this discussion may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements reflect Associates' current expectations regarding future results of operations, economic performance, financial condition and achievements of Associates, and do not relate strictly to historical or current facts. Associates has tried, wherever possible, to identify these forward-looking statements by using words such as believe , expect , anticipate , intend , plan , estimate or words of similar meaning.

Although Associates believes that the expectations reflected in such forward-looking statements are based on reasonable assumptions, such statements are subject to risks and uncertainties, which may cause the actual results to differ materially from those anticipated in the forward looking statements. Such factors include, but are not limited to, the following: general economic and business conditions, which will, among other things, affect demand for rental space, the availability of prospective tenants, lease rents and the availability of financing; adverse changes in Associates' real estate market, including, among other things, competition with other real estate owners, risks of real estate development and acquisitions; governmental actions and initiatives; and environmental/safety requirements.

**Financial Condition and Results of Operations**

Associates was organized solely for the purpose of owning 250 West 57th Street subject to a net operating lease (the Lease ) held by Fisk Building Associates L.L.C. ( Lessee ). Associates is required to pay, from Basic Rent under the Lease, the charges on the First and Second mortgages and the line of credit and amounts for supervisory services. Associates is required to pay from Primary Overage Rent and Secondary Overage Rent the Additional Payment to the supervisor, other expenses and then to distribute the balance of such Overage Rent less any additions to reserves to the participants. See Note E to the condensed financial statements. Pursuant to the Lease, Lessee has assumed responsibility for the condition, operation, repair, maintenance and management of 250 West 57th Street. Accordingly, Associates need not maintain substantial reserves or otherwise maintain liquid assets to defray any operating expenses of 250 West 57th Street.

Associates' results of operations are affected primarily by the amount of rent payable to it under the Lease. The amounts of Primary Overage Rent and Secondary Overage Rent are affected by the New York City economy and real estate rental market, which is difficult for management to forecast.

During the six-month period ended June 30, 2012, Associates made regular monthly distributions of \$83.33 for each \$5,000 participation (\$1,000 per annum for each \$5,000 participation). There are no restrictions on Associates' present or future ability to make distributions; however, the amount of such distributions depends on the ability of Lessee to make monthly payments of Basic Rent, Primary Overage Rent, and Secondary Overage Rent to Associates in accordance with the terms of the Lease. Associates expects to make distributions so long as it receives the payments provided for under the Lease.

The following summarizes, with respect to the current period and corresponding period of the previous year, the material factors affecting Associates' results of operations for such periods:

Total rental income increased by \$96,969 for the six month period ended June 30, 2012 as compared with the corresponding period of the prior year, attributable to an increase in Basic Rent to cover an increase in debt service as a result of a \$5,000,000 draw on December 22, 2011 on the Signature Bank line of credit that increased the loan balance for the six month period ended June 30, 2012 as compared with the corresponding period of the prior year.

## **Table of Contents**

Total rental income increased by \$48,401 for the three month period ended June 30, 2012 as compared with the corresponding period of the prior year, primarily attributable to an increase in Basic Rent to cover an increase in debt service - as a result of a \$5,000,000 draw on December 22, 2011 on the Signature Bank line of credit that increased the loan balance - for the three month period ended June 30, 2012 as compared with the corresponding period of the prior year.

Total expenses increased by \$246,310 for the six month period ended June 30, 2012 as compared with the corresponding period of the prior year, primarily attributable to: a) a net increase in interest on the mortgages payable of \$69,362, consisting of an increase of \$96,968 due to the \$5,000,000 increase of the Signature line of credit loan in December 2011 and an aggregate decrease of \$27,606 on the Prudential First Mortgage and Second Mortgage; b) an increase in depreciation of assets and amortization on leasing costs of \$119,750 attributable to improvements placed in service in the second half of 2011 and first half of 2012; and c) and an increase in professional fees of \$42,170 including \$11,769 to the supervisor for services rendered in connection with a proposed consolidation of Associates, other public and private entities supervised by the supervisor and the supervisor and certain affiliated management companies into Empire State Realty Trust, Inc., a newly formed real estate investment trust (collectively, the Consolidation ) and initial public offering of Class A common stock of Empire State Realty Trust, Inc. (the IPO ) for the six month period ended June 30, 2012 as compared with the corresponding period of the prior year.

Total expenses increased by \$146,675 for the three month period ended June 30, 2012 as compared with the corresponding period of the prior year, primarily attributable to: a) an increase in interest on the mortgages payable of \$34,552 as a result of a \$5,000,000 draw on December 22, 2011 on the Signature Bank line of credit that increased the loan balance; b) an increase in depreciation of assets and amortization on leasing costs of \$81,158 attributable to improvements placed in service in the second half of 2011 and first quarter of 2012; and c) an increase in professional fees of \$18,379 including \$14,578 to the supervisor for services rendered in connection with the Consolidation and IPO for the three month period ended June 30, 2012 as compared with the corresponding period of the prior year.

## **Liquidity and Capital Resources**

Associates' liquidity has decreased at June 30, 2012 as compared with December 31, 2011 as a result of 1) costs incurred in connection with the Consolidation and IPO, and 2) commitments for reimbursement to Lessee under the improvement program. Associates may from time to time set aside cash for general contingencies. Adverse developments in economic, credit and investment markets over the last several years impaired general liquidity (although some improvement in such markets has arisen recently), and the developments may negatively impact Associates and/or space tenants at 250 West 57th Street. Any such impact should be ameliorated by the fact that (a) each of Associates and its Lessee has very low debt in relation to asset value, (b) the maturity of Associates' existing and planned debt will not occur within the next 24 months, and (c) 250 West 57th Street's rental revenue is derived from a substantial number of tenants in diverse businesses with lease termination dates spread over numerous years.

Amortization payments due under the First Mortgage commenced February 5, 2007, calculated on a 25-year amortization schedule. Amortization payments under the Second Mortgage commenced April 5, 2009, calculated on a 25-year amortization schedule. The First and the Second Mortgages mature on January 5, 2015. The line of credit requires payment of interest only and also matures on January 5, 2015. Associates does not maintain any reserve to cover the payment of such mortgage indebtedness at maturity. Therefore, repayment of mortgage debt will depend on Associates' ability to arrange a refinancing. Assuming that 250 West 57th Street continues to generate an annual net profit in future years comparable to that in past years, and assuming further that real estate capital and operating markets return to more stable patterns, consistent with long-term historical real estate trends in the geographic area in which 250 West 57th Street is located, Associates anticipates that the value of 250 West 57th Street will be in excess of the amount of the senior mortgage debt and the line of credit balances at maturity.

## **Table of Contents**

Associates anticipates that funds for short-term working capital requirements for 250 West 57th Street will be provided by cash on hand, approximately \$15,000,000 available to be drawn on the line of credit from Signature Bank, and rental payments received from the Lessee. Long-term sources of working capital will be provided by rental payments received from the Lessee and/or external financing. However, as noted above, Associates has no requirement to maintain substantial reserves to defray any operating expenses of 250 West 57th Street.

The supervisor of Associates has filed a registration statement on Form S-4 for the solicitation of consents of the participants in Associates and other public limited liability companies supervised by the supervisor to the Consolidation. In the Consolidation, (x) the property interests of Associates, such other public limited liability companies and certain private entities supervised by the supervisor, and (y) the supervisor and certain affiliated management companies will be contributed to the operating partnership of Empire State Realty Trust, Inc., a newly organized real estate investment trust.

Consents are required from participants in Associates and such other public limited liability companies for them to contribute their interests in the Consolidation, and the solicitation of such consents will not commence until the SEC declares effective the registration statement on Form S-4. Consents have been obtained from participants in the private entities and the supervisor and certain affiliated companies and affiliates of the supervisor for them to make such contribution.

The consideration to be paid to the contributing companies and entities in the Consolidation will be allocated in accordance with exchange values determined based on appraisals by an independent third party. Such method of allocation has been approved by the Lessee. Based on the exchange values, if the Consolidation proposal is approved by Associates' participants, the consideration with respect to 250 West 57th Street will be allocated approximately 50% to Associates and 50% to the Lessee, which the supervisor believes is in accordance with the historical treatment of Associates and the Lessee.

### **Inflation**

Associates believes that there has been no material change in the impact of inflation on its operations since the filing of the Form 10-K for the year ended December 31, 2011. Inflationary trends in the economy do not directly affect Associates' operations since Associates does not actively engage in the operation of 250 West 57th Street. Inflation may impact the operations of Lessee. Lessee is required to pay Basic Rent, regardless of the results of its operations. Inflation and other operating factors affect the amount of Primary and Secondary Overage Rent payable by Lessee, which is based on Lessee's net operating profit.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

250 West 57th St. Associates L.L.C.

(a Limited Liability Company)

We have audited the accompanying balance sheets of 250 West 57th St. Associates L.L.C. as of December 31, 2011 and 2010 and the related statements of income, members' deficiency and cash flows for each of the two years in the period ended December 31, 2011. Our audits also included the financial statement schedule, Schedule III-Real Estate and Accumulated Depreciation for the years ended December 31, 2011 and 2010, also included in this Form S-4. These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of 250 West 57th St. Associates L.L.C. at December 31, 2011 and 2010, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

**NOTES TO FINANCIAL STATEMENTS**

**1. Business Activity**

250 West 57th St. Associates L.L.C. ( Associates ) is a New York limited liability company owning commercial property at 250 West 57th Street, New York, N.Y. The property is leased (the Lease ) to Fisk Building Associates L.L.C. (the Lessee ).

Associates members are Peter L. Malkin and Anthony E. Malkin each of whom also acts as an agent for holders of participations in his respective member interest in Associates. In the Statements of Members Deficiency, each such agent s representation is referred to as a joint venture (i.e., six Peter L. Malkin joint ventures and four Anthony E. Malkin joint ventures).

**2. Summary of Significant Accounting Policies**

**a. Cash and Cash Equivalents:**

Cash and cash equivalents include investments in money market funds and all highly liquid debt instruments with an original maturity of three months or less when acquired.

**b. Use of Estimates:**

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The real estate industry has historically been cyclical and sensitive to changes in economic conditions such as interest rates, credit availability, and unemployment levels. Changes in these economic conditions could affect the assumptions used by management in preparing the accompanying financial statements.

**c. Land, Building, Building and Tenant Improvements, and Depreciation:**

Land, building, building and tenant improvements are stated at cost. Building improvements are depreciated on the straight-line basis over their estimated useful life of 39 years. The tenant improvements are being depreciated over the terms of the individual tenant leases or the estimated useful life if shorter.

In connection with the building improvement program, which began in 1999 (Note 11), costs totaling \$44,605,623 and \$39,846,642 have been incurred through December 31, 2011 and 2010, respectively, for building and tenant improvements (\$4,758,981 for 2011 and \$3,029,299 for 2010).

**d. Mortgage Refinancing Costs, Leasing Commissions and Amortization:**

Mortgage refinancing costs are amortized ratably over the respective terms of the mortgages to which they relate and are included in mortgage interest expense.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Leasing commissions (incurred in connection with the building improvements program) represent reimbursements to the Lessee for commissions incurred for new tenants. They are being amortized over the terms of the individual tenant leases.

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

2. Summary of Significant Accounting Policies (continued)

e. Revenue Recognition:

Basic rental income, as defined in the Lease, is equal to the sum of the mortgage charges plus a fixed amount. Associates records basic rental income as earned ratably on a monthly basis. Primary overage rent represents the operating profit, as defined, of the Lessee for the previous lease year ending September 30 up to a specified maximum amount and is recorded ratably over the 12-month period. Secondary overage rent is based on the net profits of the Lessee in each lease year and is recorded by Associates when such amounts become realizable and earned.

f. Valuation of Long-Lived Assets:

Associates assesses the carrying amount of long-lived assets whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. When Associates determines that the carrying amount of long-lived assets is impaired, the measurement of any impairment is based on a discounted cash flow method. No impairment loss has been recorded in the years ended December 31, 2011 and 2010.

g. Income Taxes:

Associates is organized as a limited liability company and is taxed as a partnership for income tax purposes. Accordingly, Associates is not subject to federal and state income taxes and makes no provision for income taxes in its financial statements. Associates' taxable income or loss is reportable by its members.

Associates has determined that there are no material uncertain tax positions that require recognition or disclosure in its financial statements.

Taxable years ended December 31, 2008, 2009, 2010, and 2011 are subject to IRS and other jurisdictions tax examinations.

At December 31, 2011 and 2010, the reported amounts of Associates' aggregate net assets exceeded their tax bases by approximately \$1,854,000 and \$1,800,000, respectively.

h. Offering Costs

In connection with the proposed consolidation of certain properties and an initial public offering of the consolidated group (the "IPO"), Associates has incurred or will incur incremental accounting fees, legal fees and other professional fees. Such costs will be deferred and recorded as a reduction of proceeds of the IPO, or expensed as incurred if the IPO is not consummated. Certain costs associated with the IPO not directly attributable to the solicitation of consents and the IPO, but rather related to structuring the consolidation transaction, are expensed as incurred.

***Correction of an Immaterial Error in the Financial Statements***

Our prior period financial results have been adjusted to reflect an immaterial correction which has no impact to the net change in cash reported on the statement of cash flows. During fiscal year 2012, we determined that certain costs related to the structuring of the consolidation

transaction that were previously

F-287

**Table of Contents****250 WEST 57th ST. ASSOCIATES L.L.C.****(A Limited Liability Company)****NOTES TO FINANCIAL STATEMENTS****(continued)****2. Summary of Significant Accounting Policies (continued)**

included in deferred offering costs should have been expensed in the periods incurred. The correction impacted the 2011 and 2010 periods and had accumulated to an amount of \$213,500 as of December 31, 2011. In addition, \$14,346 of such costs were deferred during the three month period ended March 31, 2012. Adhering to applicable guidance for accounting changes and error corrections, we concluded that the error was not material to any of our prior period financial statements. The correction resulted in immaterial changes to deferred costs and formation transaction expenses for the years ended December 31, 2011 and 2010. We applied the guidance for accounting changes and error corrections and revised our prior period financial statements presented in this prospectus/consent solicitation.

The following tables present the effect this correction had on the combined financial statements as of and for the year ended December 31, 2010 and 2011. Additionally, financial information included in the notes to the financial statements that is impacted by the adjustment have been revised, as applicable.

**(A Limited Liability Company)**

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

2. Summary of Significant Accounting Policies (continued)

guidance will be effective for us beginning with the first interim period in 2012. In accordance with the guidance, we will be required to disclose the level in the fair value hierarchy in which each fair value lies that is disclosed but not used to measure an asset or liability on the balance sheet. The guidance also clarifies that the fair value of a non-financial asset is based on its highest and best use and requires disclosure if a non-financial asset is being used in a manner that is not its highest and best use. Associates does not have any financial instruments that would be materially impacted by this standard as of December 31, 2011.

3. Mortgages Payable

On December 29, 2004, a first Mortgage (the First Mortgage) was placed on the property in the amount of \$30,500,000 with Prudential Insurance Company of America. At closing, \$3,000,000 was drawn, and the remaining \$27,500,000 was drawn during 2005. These draws paid off the pre-existing first mortgage of \$15,500,000 with Emigrant Savings Bank on September 1, 2005 and were used to finance capital improvements as needed. The initial draw of \$3,000,000 and all subsequent draws required constant equal monthly payments of interest only at the rate of 5.33% per annum till January 5, 2007. Commencing February 5, 2007, Associates is required to repay the full \$30,500,000 in equal monthly payments of \$184,213 applied to interest and principal calculated on a 25-year amortization schedule. The balance of the First Mortgage is \$27,220,488 at December 31, 2011 and \$27,958,705 at December 31, 2010. The First Mortgage matures on January 5, 2015, when the principal balance will be \$24,754,972. The First Mortgage may be prepaid at any time, in whole only, upon payment of a prepayment penalty based on a yield maintenance formula. There is no prepayment penalty if the mortgage is paid in full during the last 60 days of the term.

On May 25, 2006, a second mortgage (the Second Mortgage) was placed on the property in the amount of \$12,410,000 with Prudential Insurance Company of America. At closing, \$2,100,000 was drawn and \$10,310,000 had been drawn as of March 5, 2009. The initial draw of \$2,100,000 and all subsequent draws required constant equal monthly payments of interest only, at the rate of 6.13% per annum until March 5, 2009. Commencing April 5, 2009, Associates is required to make monthly payments of \$80,947 applied to interest and principal calculated on a 25-year amortization schedule. The balance of the Second Mortgage is \$11,780,416 at December 31, 2011 and \$12,021,557 at December 31, 2010. The Second Mortgage matures on January 5, 2015, when the principal balance will be \$10,961,870. The Second Mortgage may be prepaid at any time, in whole only, upon payment of a prepayment penalty based on a yield maintenance formula. There is no prepayment penalty if the Second Mortgage is paid in full during the last 60 days of the term.

On October 15, 2009, Associates closed on a \$21,000,000 line of credit (the Line of Credit) from Signature Bank secured by a mortgage on the property, subordinate to the existing First Mortgage and Second Mortgage debt held by Prudential Insurance Company of America in the original amount of \$42,910,000, and to be used for capital improvements. At closing, \$934,616 was drawn and the balance of the line of credit is \$5,934,616 at December 31, 2011. The new loan requires payments of interest only and is co-terminus with the existing senior mortgage debt. Interest on the new loan is at a floating rate of prime plus 1.0% with a floor of 6.50% per annum unless Associates elects to fix the rate on the floating rate balance, in minimum increments of \$5,000,000, for the then-remaining loan term. Associates has two options to fix the then-floating rate balance. Such fixed rate shall be (a) 300 basis points over the Treasury Bill rate with a floor of 6.50% per annum or (b) if Associates then chooses to eliminate any loan prepayment penalty, 325 basis points over the Treasury Bill rate with a floor of 6.75% per annum.

**Table of Contents****250 WEST 57th ST. ASSOCIATES L.L.C.****(A Limited Liability Company)****NOTES TO FINANCIAL STATEMENTS****(continued)****3. Mortgages Payable (continued)**

The following is a schedule of principal payments on the mortgages in each of the four years subsequent to December 31, 2011, and thereafter:

| <b>Year ending December 31,</b> |                      |
|---------------------------------|----------------------|
| 2012                            | \$ 1,034,859         |
| 2013                            | 1,093,545            |
| 2014                            | 1,155,574            |
| 2015                            | 41,651,542           |
| <b>Total</b>                    | <b>\$ 44,935,520</b> |

The real estate and all sublease rents are pledged as collateral for the First and Second Mortgage and the Line of Credit.

The estimated fair value of Associates' mortgage payable, based on the available market information, was approximately \$47,991,102 and \$42,430,298 at December 31, 2011 and 2010, respectively. The fair values of our mortgages payable are based on discounted cash flow models using currently available market rates assuming the loans are outstanding through maturity and considering the loan to value ratios.

**4. Related-Party Transactions Rent Income**

All rent income is received by Associates from the Lessee, a related party.

Associates does not operate the property (Note 1). Associates leases the property to Fisk Building Associates L.L.C. (the Lessee) under a long-term net operating lease dated May 1, 1954. In 1985, the Participants in Associates consented to the Associates' Agents granting Lessee four options to extend the Lease, in each case for an additional 25-year renewal period, the last expiring in 2103, all on the same terms as the original lease. The Agents intend to grant such options on behalf of Associates, subject to Lessee's compliance with such consents. Such options have been granted by the Agents and exercised by Lessee as to (a) the first renewal period from October 1, 2003 through September 30, 2028, and (b) the second renewal period from October 1, 2028 through September 30, 2053. The Participants in Associates have consented to the granting of options to the Lessee to extend the lease for two additional 25-year renewal terms expiring in 2103. Under the Lease, effective May 1, 1975, between Associates and Lessee, basic annual rent ( Basic Rent ) was equal to mortgage principal and interest payments plus \$28,000 for partial payment to Malkin Holdings LLC for supervisory services. The lease modification dated November 17, 2000, and as further modified, between Associates and Lessee provides that Basic Rent will be equal to the sum of \$28,000 plus the installment payments for interest and amortization (not including any balloon payment due at maturity) currently payable on all mortgages.

Lessee is required to make a monthly payment to Associates, as an advance against primary overage rent ( Primary Overage Rent ), of an amount equal to its operating profit for its previous lease year ending September 30 in the maximum amount of \$752,000 per annum. Lessee currently advances \$752,000 each year, which is recorded in revenues in monthly installments of \$62,667 and permits Associates to make regular monthly distributions at 20% per annum on the Participants' remaining original cash investment (which remaining cash investment at December 31, 2011, was equal to the participants' original cash investment of \$3,600,000) and to pay \$1,667 monthly to Supervisor as an advance of the additional

payment (the Additional Payment ).

F-290

**Table of Contents****250 WEST 57th ST. ASSOCIATES L.L.C.****(A Limited Liability Company)****NOTES TO FINANCIAL STATEMENTS****(continued)****4. Related-Party Transactions Rent Income (continued)**

Lessee is also required to make an annual payment to Associates of secondary overage rent ( Secondary Overage Rent ) subsequent to September 30 of the amount representing 50% of the excess of the net operating profit of the Lessee for the lease year ending September 30 over the Primary Overage Rent of \$752,000, less the amount representing interest earned and retained by Associates on funds borrowed for the building improvement program described in Note 8. Associates recognizes Secondary Overage Rent when earned from the Lessee, at the close of the lease year ending September 30. Since it is not practical to estimate Secondary Overage Rent for the lease year ending on September 30, which would be allocable to the first nine months of the lease year until the Lessee, pursuant to the Lease, renders to Associates a report on the operation of the property. Associates recognizes Secondary Overage Rent when it is realized and earned from the Lessee at the close of the lease year ending September 30.

Rent income was comprised as follows:

|                        | Year ended December 31, |              |
|------------------------|-------------------------|--------------|
|                        | 2011                    | 2010         |
| Basic annual rent      | \$ 3,288,666            | \$ 3,271,513 |
| Primary Overage rent   | 752,000                 | 752,000      |
| Secondary Overage rent | 4,350,339               | 5,081,285    |
| Total Overage rent     | 5,102,339               | 5,833,285    |
| Rent income            | \$ 8,391,005            | \$ 9,104,798 |

Secondary Overage Rent represents 50% of the excess of the Lessee's net operating profit of \$9,452,901 and \$10,915,299 in 2011 and 2010, respectively, over \$752,000 in each year, less \$111 and \$363 in 2011 and 2010, respectively, of dividends earned and retained by Associates on funds borrowed for the improvement program.

As a result of Associates, revenue recognition policy, rental income for the years ending December 31 includes basic rent and the advances of Primary Overage Rent received from October 1 to December 31, but does not include any portion of Secondary Overage Rent based on the Lessee's operations during that period.

The Lessee may surrender the Lease at the end of any month, upon 60 days prior written notice; the liability of the Lessee will end on the effective date of such surrender.

The following is a schedule of future minimum rental income (assuming that the Lessee does not surrender the Lease):

Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

| Year Ending December 31, |               |
|--------------------------|---------------|
| 2012                     | \$ 3,270,000  |
| 2013                     | 3,270,000     |
| 2014                     | 3,270,000     |
| 2015                     | 28,000*       |
| Thereafter               | 350,000*      |
|                          | \$ 10,188,000 |

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

4. Related-Party Transactions Rent Income (continued)

\* Associates intends to refinance the existing mortgages which mature on January 5, 2015. In accordance with the November 2000 Lease Modification Agreement and subsequent modifications, basic rent will increase to include the required debt service on the refinanced mortgages. The above table does not reflect the additional basic rent that will result after January 2015 from the refinanced debt.

Real estate taxes incurred directly by the Lessee for the years ended December 31, 2011 and 2010 totaled \$4,156,415 and \$3,945,185, respectively.

The prospectus/consent solicitation in which these financial statements are included relates to the solicitation of consents of the Participants in Associates and other public limited liability companies supervised by the Supervisor to a consolidation transaction. In such consolidation, (x) the property interests of Associates, such other public limited liability companies and certain private entities supervised by the Supervisor, and (y) the Supervisor and certain affiliated management companies will be contributed to the operating partnership of a newly organized publicly traded real estate investment trust.

Consents are required from Participants in Associates and such other public limited liability companies for them to contribute their interests in the consolidation, and the solicitation of such consents will not commence until the SEC declares effective the registration statement on Form S-4. Consents have been obtained from Participants in the private entities and the Supervisor and certain affiliated companies and affiliates of the Supervisor for them to make such contribution.

The consideration to be paid to the contributing companies and entities in the consolidation will be allocated in accordance with exchange values determined based on appraisals by an independent third party. Such method of allocation has been approved by the Lessee. Based on the exchange values, if the consolidation proposal is approved by Associates Participants, the consideration with respect to the Property will be allocated approximately 50% to Associates and 50% to the Lessee, which the Supervisor believes is in accordance with the historical treatment of Associates and Lessee.

5. Related Party Transactions Supervisory and Other Services

Supervisory and other services are provided to Associates by Malkin Holdings LLC ( Malkin Holdings or the Supervisor ), a related party. Beneficial interests in Associates and Lessee are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

Associates pays Supervisor for supervisory services and disbursements. The basic fee had been payable at the rate of \$3,333 per month, since the fiscal year ended September 30, 1980. The Agents approved an increase in such fee in an amount equal to the increase in the Consumer Price Index since such date, resulting in an increase in the basic fee to \$102,000 per annum effective July 1, 2010, to be adjusted annually for any subsequent increase in the Consumer Price Index. Fees for supervisory services were \$408,596 and \$523,865 for 2011 and 2010, respectively. For the years ended December 31, 2011 and 2010, Malkin Holdings earned \$109,560 and \$22,052, respectively, for special supervisory services at hourly rates in connection with a proposed consolidation of Associates, other public and private entities supervised by Malkin Holdings, and Malkin Holdings and certain affiliated management companies into Empire State Realty Trust, Inc., a newly formed REIT, all representing Associates allocable portion of such fees to be paid directly and not borne indirectly through additional rent deductions. Malkin Holdings

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

receives an additional payment equal to 10% of all distributions received by the participants in Associates in excess of 15% per annum on the original cash investment of \$3,600,000. For tax purposes, such additional payment is recognized as a profits interest and the Supervisor is treated as a partner, all without modifying each

5. Related Party Transactions Supervisory and Other Services (continued)

participant's distributive share of reportable income and cash distributions. Distributions in respect of Malkin Holdings' profits interest totaled \$304,745 and \$452,865 for 2011 and 2010, respectively.

Malkin Holdings also serves as supervisor for the Lessee, for which it receives a basic annual fee of \$102,000 effective January 1, 2010, to be adjusted annually for any subsequent increase in the Consumer Price Index. For the years ended December 31, 2011 and 2010, Malkin Holdings received \$87,776 and \$104,230, respectively, from the Lessee in other service fees. Malkin Holdings receives a payment from Lessee in respect of its profits interest equal to 10% of distributions in excess of \$100,000 a year. Distributions in respect of Malkin Holdings' profits interest from the Lessee totaled \$412,960 and \$362,955 for the years ended December 31, 2011 and 2010, respectively.

Under separate agreements to which Lessee is not a party, certain of Lessee's participants pay Malkin Holdings and members of Peter L. Malkin's immediate family a percentage of distributions above an annual threshold. These third-party payments (which totaled \$407,529 and \$349,311 to Malkin Holdings and such Malkin family members in 2011 and 2010, respectively) do not impose any obligation upon Lessee or affect its assets and liabilities.

6. Number of Participants

There were 629 and 622 participants in the various joint ventures as of December 31, 2011 and 2010, respectively.

7. Determination of Distributions to Participants

Distributions to participants during each year represent mainly the excess of rent income received over the mortgage requirements and cash expenses.

8. Distributions and Amount of Income per \$5,000 Participation Unit

Distributions and amount of income per \$5,000 participation unit during the years ended December 31, 2011 and 2010, based on 720 participation units outstanding during each year, consisted of the following:

|                            | <b>Year ended December 31,</b> |             |
|----------------------------|--------------------------------|-------------|
|                            | <b>2011</b>                    | <b>2010</b> |
| Income                     | <b>\$ 4,559</b>                | \$ 6,411    |
| Return of capital          |                                |             |
| <b>Total distributions</b> | <b>\$ 4,559</b>                | \$ 6,411    |

9. Concentration of Credit Risk

Associates maintains cash and cash equivalents in two banks and a money market fund (Fidelity U.S. Treasury Income Portfolio). The Federal Deposit Insurance Corporation insures each interest bearing account up to \$250,000 and fully insures non-interest bearing accounts through December 31, 2012. At December 31, 2011 and 2010, the bank accounts are fully insured. Funds in the money market fund were not insured at December 31, 2011 and 2010. Distributions are paid from a cash account held by Malkin Holdings. That account is included on the accompanying balance sheet as Due from Supervisor. The funds (\$60,000 at December 31, 2011 and 2010) were paid to the participants on January 1, 2012 and 2011, respectively.

**(A Limited Liability Company)**

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

10. **Contingencies**

Malkin Holdings and Peter L. Malkin, a member in Associates, were engaged in a proceeding with Lessee's former managing agent, Helmsley-Spear, Inc. that commenced in 1997 concerning the management, leasing, and supervision of the property that is subject to the Lease to Lessee. In this connection, certain costs for legal and professional fees and other expenses were paid by Malkin Holdings and Mr. Malkin. Malkin Holdings and Mr. Malkin have represented that such costs will be recovered only to the extent that (a) a competent tribunal authorizes payment or (b) an investor voluntarily agrees that his or her proportionate share be paid. On behalf of himself and Malkin Holdings, Mr. Malkin has requested, or intends to request, such voluntary agreement from all investors, which may include renewing such request in the future for any investor who previously received such request and failed to confirm agreement at that time. Because any related payment has been, or will be, made only by consenting investors, Associates has not provided for the expense and related liability with respect to such costs in these financial statements.

Five putative class actions have been brought by participants in Associates and several other entities supervised by Malkin Holdings that own fee or leasehold interests in various properties located in New York City (which were filed March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and March 19, 2012) (the "Class Actions"). As now pending in New York State Supreme Court, New York County, each Class Action challenges the proposed consolidation of those and other properties supervised by Malkin Holdings into a real estate investment trust (the "REIT") and the initial public offering of shares in Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a REIT. The plaintiffs assert claims against Malkin Holdings, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc., Malkin Construction Corp., Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, Empire State Realty OP, L.P., and the REIT ("Defendants") for breach of fiduciary duty, unjust enrichment, and/or aiding and abetting breach of fiduciary duty, alleging, inter alia, that the terms of the transaction and the process in which it was structured (including the valuation which was employed) are unfair to the participants, the consolidation provides excessive benefits to Malkin Holdings and its affiliates and the prospectus/consent solicitation statement which is part of the registration statement on Form S-4 relating to the consolidation fails to make adequate disclosure. The complaints seek money damages and injunctive relief preventing the proposed transaction. On April 3, 2012, plaintiffs moved for consolidation of the actions and for appointment of co-lead counsel. Defendants intend to consent to consolidation, and have no position with respect to appointment of co-lead counsel.

The Class Actions are in a very preliminary stage, with no responses to the complaints having been filed to date. The outcome of this litigation is uncertain, however, and as a result, the company may incur costs associated with defending or settling such litigation or paying any judgment if Defendants lose. In addition, the company may be required to pay damage awards or settlements. At this time, the company cannot reasonably assess the timing or outcome of this litigation, estimate the amount of loss, or assess its effect, if any, on the company's financial statements. Defendants believe the Class Actions are baseless and intend to defend them vigorously.

There is a risk that other third parties will assert claims against the Defendants or the supervisor relating to this transaction, including, without limitation, that the supervisor breached its fiduciary duties to investors in the existing entities or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against the Defendants.

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

**11. Building Improvement Program and Agreement to Extend Lease**

In 1999, the Participants of Associates and the members in Lessee consented to a building improvement program (the Program) estimated to cost approximately \$12,200,000. In 2004, the Participants and the Lessee approved an increase in the Program from \$12,200,000 to approximately \$31,400,000 under substantially the same conditions as had previously been approved. To induce the Lessee to approve the Program, Associates Participants authorized a grant to the Lessee, upon completion of the Program, of the right to further extensions of the Lease beyond 2103, based on the net present benefit to Associates of the improvements made. The Program was further increased in 2006 from \$31,400,000 to up to \$82,300,000, again on the basis that such increase would allow a further extension of the Lease based on the net present benefit to Associates of the improvements made. The Participants in Associates and the members in Lessee have approved increasing the financing from the total of \$42,910,000 provided by the First and Second Mortgages to up to \$63,900,000. As of December 31, 2011, Associates had incurred or accrued costs related to the Program of \$44,605,623 and estimates that costs upon completion will be approximately \$82,300,000. The balance of the costs of the Program will be financed primarily by the additional borrowings available under the \$21,000,000 previously approved loan that closed on October 15, 2009 and Lessee's operating cash flow.

The Lessee is financing the Program and billing Associates for the costs incurred. The Program (1) grants the ownership of the improvements to Associates and acknowledges its intention to finance them through an increase in the mortgage (Note 3), and (4) allows for the increased mortgage charges to be paid by Associates from an equivalent increase in the basic rent paid by the Lessee to Associates. Since any Secondary Overage Rent will be decreased by one-half of that amount, the net effect of the lease modification is to have Associates and the Lessee share the costs of the Program equally, assuming Secondary Overage Rent continues to be earned.

**12. Subsequent Events**

The \$21,000,000 loan from Signature Bank was modified effective as of January 10, 2012 to provide for a reduction in the fluctuating rate of interest from a floor of 6.50% to 4.25% and to a reduction in the fixed rate to the greater of (i) 4.75% instead of 6.50%, or (ii) 300 basis points above the weekly average yield on U.S. Treasury Securities adjusted to a maturity date closest to the mortgage maturity date. The loan was also modified to allow borrower to elect prepayment without any prepayment fees if the fixed interest rate were the greater of (i) 5.00% instead of 6.75%, or (ii) 300 basis points instead of 325 basis points, above the weekly average yield on U.S. Treasury Securities adjusted to a maturity date closest to the mortgage maturity date.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Fisk Building Associates L.L.C.

(A Limited Liability Company)

We have audited the accompanying balance sheets of Fisk Building Associates L.L.C. as of December 31, 2011 and 2010, and the related statements of income, changes in members' equity and cash flows for each of the two years in the period ended December 31, 2011. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Fisk Building Associates L.L.C. at December 31, 2011 and 2010, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2011, in conformity with U.S. generally accepted accounting principles.

Net cash used in financing activities excludes increases of \$325,867 and \$18,043 in accounts payable and accrued liabilities for the years ended December 31, 2011 and 2010, respectively.

*The accompanying notes are an integral part of these financial statements.*

---

**Table of Contents**

**FISK BUILDING ASSOCIATES L.L.C.**

**NOTES TO FINANCIAL STATEMENTS**

1. **Organization and Nature of Business**

The Company was originally organized on May 1, 1954 as a general partnership in order to lease and sublease the 543,000 square foot office building situated at 250 West 57<sup>th</sup> Street, New York, New York (the Property or Fisk Building ). At December 31, 2011, the Property is approximately 82% occupied. On February 13, 2003, the Company converted from a general partnership to a New York limited liability company and is now known as Fisk Building Associates L.L.C. (the Company ). Although limited liability companies are unincorporated associations, their members have limited personal liability for the obligations or debts of the entity similar to stockholders of a corporation.

The Company commenced operations on May 1, 1954 and is to continue until the earlier of the complete disposition of all of the Company's assets, unless sooner terminated pursuant to the Operating Agreement or by law.

2. **Summary of Significant Accounting Policies**

**Revenue recognition** Minimum rental revenue is recognized on a straight-line basis over the terms of the subleases. The excess of rents so recognized over amounts contractually due pursuant to the underlying subleases is included in unbilled rent receivable on the accompanying balance sheets. Subleases generally contain provisions under which tenants reimburse the Company for increases in the consumer price index, real estate taxes and other recoverable costs. Receivables for escalation and expense reimbursements are accrued in the period the related expenses are incurred. Rental payments received before they are recognized as income are recorded as deferred income.

The Company provides an estimated allowance for uncollectible rent receivable based upon an analysis of tenant receivables and historical bad debts, tenant concentrations, tenant credit worthiness, tenant security deposits (including letters of credit and sublease guarantees provided by the tenant), current economic trends and changes in tenant payment terms. Rent receivable is shown net of an estimated allowance for doubtful accounts of \$527,000 and \$253,039 at December 31, 2011 and 2010, respectively. Unbilled rent receivable is shown net of an estimated allowance for doubtful accounts of \$313,000 and \$292,000 at December 31, 2011 and 2010, respectively.

Bad debt expense is shown net of recoveries.

**Cash and cash equivalents** The Company considers highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Cash equivalents consist of a money market mutual fund (Fidelity U.S. Treasury Income Portfolio).

At times the Company has demand and other deposits with a bank in excess of federally insured limits. The possibility of loss exists if the bank holding uninsured deposits were to fail.

**Property** The Company reviews real estate assets for impairment whenever events or changes in circumstances indicate the carrying amount of assets to be held and used may not be recoverable. Impairment losses are recognized when the estimated undiscounted cash flows expected to be generated by those assets are less than the assets' carrying amount. Impaired assets are recorded at their estimated fair value calculated based on the discounted cash flows expected to be generated by the asset. No impairment loss has been recorded in the years ended December 31, 2011 and 2010.

**Depreciation and amortization** Depreciation is computed by the straight-line method over the estimated useful lives of forty years for the leasehold improvements. Subtenant improvements and leasing commissions are amortized by the straight-line method over the terms of the related tenant subleases.

Repairs and maintenance are charged to expense as incurred. Expenditures which increase the useful lives of the assets are capitalized.

**Table of Contents**

**FISK BUILDING ASSOCIATES L.L.C.**

**NOTES TO FINANCIAL STATEMENTS**

(continued)

2. Summary of Significant Accounting Policies (continued)

**Sales tax** Sales tax collected by the Company from tenants for sub-metered electricity is presented in the financial statements on a gross basis and, accordingly, included in revenue and expenses.

**Income taxes** The Company is not subject to federal, state and local income taxes and, accordingly, makes no provision for income taxes in its financial statements. The Company's taxable income or loss is reportable by its members.

The Company follows the provisions pertaining to uncertain tax positions of Financial Accounting Standards Board (FASB), Accounting Standards Codification (ASC) 740, Income Taxes, and has determined that there are no material uncertain tax positions that require recognition or disclosure in the financial statements.

**Advertising** The Company expenses advertising costs as incurred.

**Environmental costs** The Property contains asbestos. The asbestos is appropriately contained, in accordance with current environmental regulations. As certain demolition of the space occurs, environmental regulations are in place, which specify the manner in which the asbestos must be handled and disposed. Because the obligation to remove the asbestos has an indeterminable settlement date, the Company is unable to reasonably estimate the fair value of this obligation. Asbestos abatement costs are charged to expense as incurred.

**Estimates** The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates. The Company regards the allowance for uncollectible rent (including unbilled rent receivable) as being particularly sensitive. Further, when subtenants experience financial difficulties, uncertainties associated with assessing the recoverability of subtenant improvements and leasing commissions increase.

Other items subject to such estimates and assumptions include the determination of the useful life of real estate and other long-term assets as well as the valuation and impairment analysis of real property and other long-lived assets.

The real estate industry has historically been cyclical and sensitive to changes in economic conditions such as interest rates, credit availability and unemployment levels. Changes in these economic conditions could affect the assumptions used by management in preparing the accompanying financial statements.

**Recently adopted accounting pronouncements** In January 2010, the FASB issued ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. ASU No. 2010-06 amends ASC 820 and requires disclosure of details of significant asset or liability transfers in and out of Level 1 and Level 2 measurements within the fair value hierarchy and inclusion of gross purchases, sales, issuances, and settlements in the rollforward of assets and liabilities valued using Level 3 inputs within the fair value hierarchy. The guidance also clarifies and expands existing disclosure requirements related to the disaggregation of fair value disclosures and inputs used in arriving at fair values for assets and liabilities using Level 2 and Level 3 inputs within the fair value hierarchy. These disclosure requirements were effective for interim and annual reporting periods beginning after December 15, 2009. Adoption of this guidance on January 1, 2010, excluding the Level 3 rollforward, did not result in additional disclosures in our financial statements. The gross presentation of the Level 3 rollforward is required for interim and annual reporting periods beginning after December 15, 2010. The adoption of this pronouncement did not have a material impact on the Company's financial statements.

**Table of Contents****FISK BUILDING ASSOCIATES L.L.C.****NOTES TO FINANCIAL STATEMENTS****(continued)****2. Summary of Significant Accounting Policies (continued)**

**New accounting pronouncements not yet adopted** In May 2011, the FASB issued ASU 2011-04, Fair Value Measurements (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP. This ASU provides guidance setting forth additional requirements relating to disclosures about fair value. In accordance with the guidance, the Company requires additional disclosures, including: (i) quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion about the sensitivity of the measurements to changes in the unobservable inputs, for Level 3 fair value measurements; (ii) fair value of financial instruments not measured at fair value but for which disclosure of fair value is required, based on their levels in the fair value hierarchy; and (iii) transfers between Level 1 and Level 2 of the fair value hierarchy. For non-public companies, ASU No. 2011-04 is effective for annual periods beginning on or after December 15, 2012. The adoption of this update on January 1, 2012 is not expected to have a material impact on our financial statements.

In September 2011, the FASB issued ASU 2011-9, Compensation-Retirement Benefits-Multiemployer Plans (Subtopic 715-80): Disclosures about an Employer's Participation in a Multiemployer Plan. The ASU requires substantially more disclosures regarding the multiemployer plan the Company participates in, the nature of the Company's commitment to the plan and other disclosures. The current recognition and measurement guidance is unchanged. The Company is evaluating the disclosures required under the ASU. For non-public companies this ASU is effective for annual periods for fiscal years ending after December 31, 2012.

**Subsequent events** The Company has evaluated events and transactions for potential recognition or disclosure through April 11, 2012, the date the financial statements were available to be issued.

**3. Members' Equity**

Profits, losses and distributions are allocated to the members pursuant to the Company's Operating Agreement.

**4. Deferred Charges**

Deferred charges consist of the following as of December 31, 2011 and 2010:

|                               | <b>2011</b>         | <b>2010</b>         |
|-------------------------------|---------------------|---------------------|
| Leasing commissions           | \$ 3,815,275        | \$ 2,856,401        |
| Other deferred costs          | 932,812             | 192,000             |
|                               | 4,748,087           | 3,048,401           |
| Less accumulated amortization | 1,513,001           | 131,460             |
| <b>Total</b>                  | <b>\$ 3,235,086</b> | <b>\$ 2,916,941</b> |

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

### 5. Related-Party Transactions

The Company (the Lessee ) entered into a lease agreement with 250 West 57<sup>th</sup> St. Associates L.L.C. (the Lessor ) which is currently set to expire on September 30, 2053. The participants in Lessor have consented to the granting of options to the Lessee to extend the lease for two additional 25 year renewal terms expiring

F-304

**Table of Contents**

**FISK BUILDING ASSOCIATES L.L.C.**

**NOTES TO FINANCIAL STATEMENTS**

(continued)

5. Related-Party Transactions (continued)

in 2103, and the Agents of the Lessor intend to grant all of these options, based on the Lessee's compliance with the terms of such consents. There is no change in the terms of the lease during the renewal periods. The Lessee may terminate the lease on 60 days prior written notice without any further liability.

The lease provides for an annual basic rent equal to the sum of the constant annual mortgage charges incurred on all mortgages by the Lessor (excluding any balloon principal payment due at maturity), plus \$28,000.

The lease also provides for additional rent, as follows:

1) Primary overage rent equal to the first \$752,000 of Lessee's net operating income, as defined, in each lease year.

2) Secondary overage rent equal to 50% of the Lessee's remaining net operating income, as defined, in each lease year.

The lease further provides for recoupment by the Lessee of advances in future lease years resulting from any overpayment of primary overage rent in any year.

In addition to the above, the Lessee is required to pay for all operating and maintenance expenses, real estate taxes, and necessary repairs and replacements, and keep the Property adequately insured against fire and accident.

Overage rent expense is recognized prior to the end of the lease year based on net operating income earned to date provided it is probable that the Company will generate net operating income for the lease year in such amount as to obligate the Company to pay overage rent. In the event it becomes probable that net operating income for the lease year will be insufficient to require the payment of overage rent, any previously recorded overage rent would be reversed into income. As of December 31, 2011 and 2010 the accrued secondary overage rent due Lessor was \$1,190,368 and \$1,056,880, respectively.

In 1999, the participants in Lessor and the members in Lessee consented to a building improvement program (the Program) estimated to cost approximately \$12,200,000. In 2004, the Lessor and the Lessee approved an increase in the Program from \$12,200,000 to approximately \$31,400,000 under substantially the same conditions as had previously been approved. To induce the Lessee to approve the Program, the Lessor agreed to grant the Lessee, upon completion of the Program, the right to further extensions of the lease beyond 2103. In accord with the 2004 consent program, on December 29, 2004, Lessor obtained a new first mortgage of \$30,500,000 (the First Mortgage), of which \$15,500,000 was used to repay the then existing first mortgage. The balance was used to complete the then currently estimated costs for existing and additional improvements, including subtenant installation and leasing commissions. The Program was further increased in 2006 from \$31,400,000 to up to \$82,300,000. In 2006, the Lessor and Lessee approved increased refinancing of up to \$63,900,000. On May 25, 2006, Lessor obtained a second mortgage of \$12,410,000 (the Second Mortgage), which was used to finance capital improvements as needed. On October 15, 2009, Lessor closed on a \$21,000,000 line of credit (the Line of Credit), of which \$934,616 was drawn at closing. On December 22, 2011, the Lessor drew down an additional \$5,000,000. The Line of Credit is secured by a mortgage, which is subordinate to the First and Second Mortgages, which will be used to finance capital improvements as needed.

The Company is financing the Program and billing the Lessor for the costs incurred. The Program (1) grants the ownership of the improvements to the Lessor and acknowledges the Lessor's intention to finance them through an increase in the fee mortgage, and (2) allows for the increased

mortgage charges to be paid by the

(continued)

5. Related-Party Transactions (continued)

Lessor from an equivalent increase in the basic rent paid by the Company. Since any secondary overage rent will be decreased by one-half of that amount, the net effect is to have the Company and the Lessor share the costs of the Program equally, assuming the Company continues to be obligated to pay secondary overage rent.

The Lessor's First Mortgage in the amount of \$30,500,000 is scheduled to mature on January 5, 2015. The First Mortgage bears interest at 5.33% per annum, payable monthly in arrears. Commencing February 5, 2007, the First Mortgage requires equal monthly payments of \$184,213 applied first to interest at 5.33% per annum, and then principal based on a 25-year amortization period. No prepayment fee shall be due if the loan is prepaid during the final 90 days prior to the maturity date.

The Lessor's Second Mortgage in the amount of \$12,410,000 is scheduled to mature on January 5, 2015. The Second Mortgage bears interest at 6.13% per annum, payable monthly in arrears. Commencing April 5, 2009, the Second Mortgage requires equal monthly payments of \$80,947 applied first to interest at 6.13% per annum, and then principal based on a 25-year amortization period. No prepayment fee shall be due if the loan is prepaid during the final 90 days prior to the maturity date.

The Lessor's Line of Credit in the amount of \$21,000,000 is scheduled to mature on January 5, 2015. The Line of Credit bears interest at a floating rate of prime plus 1% with a floor of 6.5% per annum unless the Lessor elects to fix the rate (as defined) and requires payments of interest only. On January 24, 2012, the Lessor entered into a modification agreement on the Line of Credit. Effective January 10, 2012 the Line of Credit bears interest at a floating rate of prime plus 1% with a floor of 4.25% per annum. Should the Lessor elect to fix the interest rate, the modification allows the Lessor to elect prepayment without any prepayment fees (as defined).

In connection with the Mortgage loans, the Company has assigned all subleases and rents to the lenders as additional collateral.

The following is a schedule of future minimum rental payments annual base rent as of December 31, 2011 (based on the current amount of the Lessor's outstanding mortgage obligations and assuming the Company does not surrender the lease):

| <b>Years ending December 31,</b> |                      |
|----------------------------------|----------------------|
| 2012                             | \$ 3,270,000         |
| 2013                             | 3,270,000            |
| 2014                             | 3,270,000            |
| 2015                             | 28,000*              |
| 2016                             | 28,000*              |
| Thereafter                       | 1,034,000*           |
|                                  | <b>\$ 10,900,000</b> |

\* The Lessor intends to refinance the existing mortgages which mature on January 5, 2015. In accordance with the November 2000 Lease Modification Agreement and subsequent modifications, basic rent will increase to include the required debt service on the refinanced mortgages. The above table does not reflect the additional basic rent that will result after January 2015 from the refinanced debt.

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

As of December 31, 2011 and 2010, the Lessor had incurred costs related to the Program of approximately \$44,600,000 and \$40,000,000, respectively, and estimates that costs upon completion will be approximately \$82,300,000. The Lessor has funded and capitalized leasing commissions totaling \$1,998,034 and \$1,785,066 as

F-306

**Table of Contents****FISK BUILDING ASSOCIATES L.L.C.****NOTES TO FINANCIAL STATEMENTS****(continued)****5. Related-Party Transactions (continued)**

of December 31, 2011 and 2010, respectively. The balance of the costs of the Program will be financed by the additional \$21,000,000 previously approved loan that closed on October 15, 2009 and the Company's operating cash flow.

Due from Lessor at each respective year-end represents leasehold improvement and leasing costs advanced by the Lessee to be reimbursed by Lessor from remaining refinancing proceeds when funds are required.

Supervisory and other services are provided to the Company by its Supervisor, Malkin Holdings LLC (Malkin Holdings), a related party. Beneficial interests in the Company are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

Fees and payments to Malkin Holdings for the years ended December 31, 2011 and 2010 are as follows:

|   | 2011              | 2010              |
|---|-------------------|-------------------|
| Basic supervisory fees                                      | \$ 103,663        | \$ 102,000        |
| Offering costs for work done by employees of the Supervisor | 100,287*          | 22,052*           |
| Service fee on investment income                            | 264               | 341               |
| Profits interest  | 412,960           | 362,955           |
| <b>Total</b>  | <b>\$ 617,174</b> | <b>\$ 487,348</b> |

\* Included in professional fees in the Statements of Income.

Malkin Holdings receives an additional payment from the Company equal to 10% of distributions in excess of \$100,000 a year. For tax purposes such additional payment is treated as a profits interest and Malkin Holdings is treated as a member. Distributions in respect of Malkin Holdings profits interest totaled \$412,960 and \$362,955 for the years ended December 31, 2011 and 2010, respectively. In addition, other fees and disbursements to Malkin Holdings were \$111,470 and \$103,889 for the years ended December 31, 2011 and 2010, respectively.

Distributions are paid from a cash account held by Malkin Holdings. That account is reflected on the balance sheets as Due from Supervisor.

For administration and investment of the Company's supervisory account, Malkin Holdings has earned since 1978 a service fee of 10% of the account interest (an annual fee currently less than 0.1% of the account balance), which fee totaled \$264 and \$341 for the years ended December 31, 2011 and 2010, respectively.

Through December 31, 2011, the Company has incurred an aggregate of \$932,812 (of which \$740,412 and \$192,400 is related to the years ended December 31, 2011 and 2010, respectively) to reimburse Malkin Holdings for third-party fees it had advanced pertaining to certain matters regarding a course of action that could result in the Company becoming part of a newly formed public real estate investment trust (REIT). Such fees are to be borne entirely by the Company and are not shared indirectly with the Lessor through Overage Rent deductions. These fees were capitalized by the Company and included as part of deferred charges and other deferred costs.

Malkin Holdings also serves as supervisor for the Lessor and receives from the Lessor a basic annual fee and a payment based on distributions to its investors which totaled \$304,745 in 2011 and \$452,865 in 2010. Beneficial interests in the Lessor are held directly or indirectly by one or more persons at Malkin Holdings and/or their family members.

**Table of Contents****FISK BUILDING ASSOCIATES L.L.C.****NOTES TO FINANCIAL STATEMENTS****(continued)****6. Rental Income Under Operating Subleases**

Future minimum rentals to be received, assuming neither renewals nor extensions of subleases which may expire during the periods, on noncancelable operating subleases in effect at December 31, 2011 are as follows:

| <b>Years ending December 31,</b> |                      |
|----------------------------------|----------------------|
| 2012                             | \$ 17,900,000        |
| 2013                             | 16,300,000           |
| 2014                             | 14,000,000           |
| 2015                             | 11,300,000           |
| 2016                             | 9,400,000            |
| Thereafter                       | 23,800,000           |
|                                  | <b>\$ 92,700,000</b> |

Approximately 35% of future minimum rental income is due from two tenants in the retail industry. For the years ended December 31, 2011, these two tenants represent approximately 17% of rental income.

In connection with a sublease entered into during 2010, the Company was required to escrow funds for the Company's contribution for improvement work to be performed. These funds were disbursed as the work was completed (as defined).

In connection with the early termination of a lease, the Company received a lease termination fee of approximately \$7,900,000 which is included in other income for the year ended December 31, 2010. In connection with the transaction, the Company wrote-off unbilled rents receivable of approximately \$1,560,000 (recorded as a reduction of minimum rental income) and unamortized leasing commissions of approximately \$420,000 (included in amortization expense).

**7. Management Fee**

The Company has engaged Cushman & Wakefield, Inc. to lease and manage the Property. Pursuant to the management agreement, the management fee is equal to 1.125% of total collected proceeds per month with a minimum annual fee of \$112,500 per annum (which is reduced by the service fee on interest income earned on tenants' security deposits). For the years ended December 31, 2011 and 2010, the management fee totaled \$284,334 and \$289,565, respectively.

A portion of the Company's cash is held in accounts in the custody of the managing agent. These amounts are included in the accompanying balance sheets as Restricted cash - managing agent.

**8. Multiemployer Pension Plan**

In connection with the Company's collective-bargaining agreements with the Service Employees Janitorial Union Local 32B-32J and the Central Pension Fund Local 94, the Company participates with other companies in two defined benefit pension plans. The plans cover all of the Company's janitorial and engineering employees who are members of the union. These plans are not administered by the Company and contributions are determined in accordance with provisions of negotiated labor contracts. The Company incurred pension expense (which is included in payroll and related costs) of approximately \$156,000 and \$162,000 for the years ended December 31, 2011 and 2010, respectively.

**Table of Contents**

**FISS BUILDING ASSOCIATES L.L.C.**

**NOTES TO FINANCIAL STATEMENTS**

**(continued)**

8. **Multiemployer Pension Plan (continued)**

Under the Employee Retirement Income Security Act of 1974, as amended by the Multiemployer Pension Plan Amendments Act of 1980, an employer is liable upon withdrawal from or termination of a multiemployer plan for its proportionate share of the plan's unfunded vested benefits liability. Management has no intention of undertaking any action which could subject the Company to the obligation.

9. **Subsequent Events**

Five putative class actions have been brought by participants in Empire State Building Associates L.L.C. and several other entities supervised by Malkin Holdings that own fee or leasehold interests in various properties located in New York City, (which were filed March 1, 2012, March 7, 2012, March 12, 2012, March 14, 2012 and March 19, 2012) (the "Class Actions"). As now pending in New York State Supreme Court, New York County, each Class Action challenges the proposed consolidation of those and other properties supervised by Malkin Holdings into a real estate investment trust (the "REIT") and the initial public offering of shares in Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a REIT. The plaintiffs assert claims against Malkin Holdings, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc., Malkin Construction Corp., Anthony E. Malkin, Peter L. Malkin, Estate of Leona M. Helmsley, Empire State Realty OP, L.P., and the REIT for breach of fiduciary duty, unjust enrichment, and/or aiding and abetting breach of fiduciary duty, alleging, inter alia, that the terms of the transaction and the process in which it was structured (including the valuation which was employed) are unfair to the participants, the consolidation provides excessive benefits to Malkin Holdings and its affiliates and the prospectus/consent solicitation statement which is part of the registration statement on Form S-4 relating to the consolidation fails to make adequate disclosure. The complaints seek money damages and injunctive relief preventing the proposed transaction. On April 3, 2012, plaintiffs moved for consolidation of the actions and for appointment of co-lead counsel. Defendants intend to consent to consolidation, and have no position with respect to appointment of co-lead counsel.

The Class Actions are in a very preliminary stage, with no responses to the complaints having been filed to date. The outcome of this litigation is uncertain, however, and as a result, the company may incur costs associated with defending or settling such litigation or paying any judgment if Defendants lose. In addition, the company may be required to pay damage awards or settlements. At this time, the company cannot reasonably assess the timing or outcome of this litigation, estimate the amount of loss, or assess its effect, if any, on the company's financial statements. Defendants believe the Class Actions are baseless and intend to defend them vigorously.

There is a risk that other third parties will assert claims against the Defendants or the supervisor relating to this transaction, including, without limitation, that the supervisor breached its fiduciary duties to investors in the existing entities or that the consolidation violates the relevant operating agreements, and third parties may commence litigation against the Defendants.

F-313

**Table of Contents****Notes to Condensed Financial Statements (Unaudited)****Note A Interim Period Reporting**

In the opinion of management, the accompanying unaudited condensed financial statements of 250 West 57th St. Associates L.L.C. ( Registrant ) reflect all adjustments, consisting of normal recurring accruals, necessary to present fairly the financial position of Registrant as of June 30, 2012 and its results of operations for the three and six months ended June 30, 2012 and cash flows for the six months ended June 30, 2012 and 2011. Information included in the condensed balance sheet as of December 31, 2011 has been derived from the audited balance sheet included in Registrant's Form 10-K for the year ended December 31, 2011 (the 10-K ) previously filed with the Securities and Exchange Commission (the SEC ). Pursuant to rules and regulations of the SEC, certain information and disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted from these financial statements unless significant changes have taken place since the end of the most recent fiscal year. Accordingly, these unaudited condensed financial statements should be read in conjunction with the financial statements, notes to financial statements and the other information in the 10-K. The results of operations for the six months ended June 30, 2012 are not necessarily indicative of the results to be expected for any interim period or the full year.

**Note B Organization**

Registrant is a New York limited liability company which was organized as a joint venture on May 25, 1953. On September 30, 1953, Registrant acquired fee title to the building known as 250 West 57<sup>th</sup> Street (the Building ), formerly known as the Fisk Building, and the land thereunder located at 250-264 West 57th Street, New York, New York (collectively, the Property ). On November 30, 2001, Registrant converted to a limited liability company under New York law and is now known as 250 West 57<sup>th</sup> St. Associates L.L.C. The conversion did not change any aspect of the assets and operations of Registrant other than to protect its Participants from future liability to a third party. Registrant's members ( Members ) are Peter L. Malkin and Anthony E. Malkin (collectively, the Agents ), each of whom also acts as an agent for holders of participations ( Participations ) in their respective member interests in Registrant (the Participants ). The Members in Registrant hold senior positions at Malkin Holdings LLC ( Malkin Holdings or the Supervisor ), One Grand Central Place, 60 East 42nd Street, New York, New York, which provides supervisory and other services to Registrant and Lessee. See Note E below.

**Note C Lease**

Registrant does not operate the Property. Registrant leases the Property to Fisk Building Associates L.L.C. (the Lessee ) under a long-term net operating lease dated May 1, 1954 (the Lease ). In 1985, the Participants in Registrant consented to Registrant's Agents granting Lessee four options to extend the Lease, in each case for an additional twenty-five year renewal period, the last expiring in 2103, all on the same terms as the original lease. The Agents intend to grant such options on behalf of Registrant, subject to Lessee's compliance with such consents. Such options have been granted by the Agents and exercised by Lessee as to (a) the first renewal period from October 1, 2003 through September 30, 2028, and (b) the second renewal period from October 1, 2028 through September 30, 2053. The Participants in Registrant have consented to the granting of options to the Lessee to extend the lease for two additional 25-year renewal terms expiring in 2103. Lessee is a New York limited liability company whose members consist of, among others, Anthony E. Malkin and entities for the benefit of members of Peter L. Malkin's and Anthony E. Malkin's family.

Under the Lease, effective May 1, 1975, between Registrant and Lessee, basic annual rent ( Basic Rent ) was equal to mortgage principal and interest payments plus \$28,000 for partial payment to Malkin Holdings for supervisory services. The lease modification dated November 17, 2000, and as further modified, between Registrant and Lessee provides that Basic Rent will be equal to the sum of \$28,000 plus the installment payments for interest and amortization (not including any balloon payment due at maturity) currently payable on all mortgages. Basic Rent is payable in monthly installments on the first day of each calendar month in an amount

---

**Table of Contents**

**Notes to Condensed Financial Statements (Unaudited) (continued)**

equal to \$2,333.33 plus the projected debt service due on the mortgages on the first day of the ensuing calendar month (with a reconciliation to be made as soon as practicable thereafter). Basic Rent shall be adjusted on a dollar-for-dollar basis by changes in the annual debt service on the mortgages. See Note D.

Lessee is required to make a monthly payment to Registrant, as an advance against primary overage rent ( Primary Overage Rent ), of an amount equal to its operating profit for its previous lease year in the maximum amount of \$752,000 per annum. Lessee currently advances \$752,000 each year, which is recorded in revenues in monthly installments of \$62,667 and permits Registrant to make regular monthly distributions at 20% per annum on the Participants' remaining original cash investment (which remaining cash investment at June 30, 2012, was equal to the Participants' original cash investment of \$3,600,000) and to pay \$1,667 monthly to Supervisor as an advance of the additional payment (the Additional Payment ).

Lessee is also required to make an annual payment to Registrant of secondary overage rent ( Secondary Overage Rent ) subsequent to September 30<sup>th</sup> of the amount representing 50% of the excess of the net operating profit (as defined) of the Lessee for the lease year ending September 30 over the Primary Overage Rent of \$752,000, less the amount representing interest earned and retained by Registrant on funds borrowed for the building improvement program described below. It is not practical to estimate Secondary Overage Rent for the lease year ending on September 30 which would be allocable to the first nine months of the lease year until the Lessee, pursuant to the Lease, renders to Registrant a report on the operation of the Property. Registrant recognizes Secondary Overage Rent when earned from the Lessee, at the close of the lease year ending September 30 and records such amount in revenue in the three months ended September 30.

Rent income, earned from a related party, was \$2,108,471 and \$2,011,503 for the six months ended June 30, 2012 and 2011, respectively.

For the lease year ended September 30, 2011, Lessee reported net operating profit of \$9,452,901 after deduction of Basic Rent. Lessee paid Primary Overage Rent of \$752,000 for that lease year prior to September 30, 2011 and Secondary Overage Rent of \$4,350,339 subsequent to September 30, 2011. The Secondary Overage Rent of \$4,350,339 represents 50% of the excess of the Lessee's net operating profit of \$9,452,901 over \$752,000, less \$111 representing interest earned and retained by Registrant on funds borrowed for the improvement program. As a result, the Secondary Overage Rent paid by the Lessee subsequent to September 30, 2011 of \$4,350,339 plus \$111 of interest income was available for distribution by the Registrant to the Participants. After deducting \$1,500,000 for (i) fees relating to a proposed consolidation of Registrant, other public and private entities supervised by Malkin Holdings and Malkin Holdings and certain affiliated management companies into Empire State Realty Trust, Inc., a Maryland corporation which intends to qualify for U.S. tax purposes as a real estate investment trust, (ii) the increase in the supervisory fee to the Supervisor, (iii) accounting fees, (iv) general contingencies, (v) the Additional Payment to Supervisor of \$284,745 (Note E), and (vi) the annual New York State filing fees of \$3,000, the balance of \$2,562,705 was distributed by Registrant to the Participants on December 14, 2011.

As a result of its revenue recognition policy, rental income for the six months ended June 30, 2012 and 2011 includes the advances of Primary Overage Rent received from January 1 to June 30, but does not include any portion of Secondary Overage Rent based on the Lessee's operations during that period.

The Supervisor of the Registrant has filed a registration statement on Form S-4 for the solicitation of consents of the Participants in the Registrant and other public limited liability companies supervised by the Supervisor to the Consolidation. In the Consolidation, (x) the property interests of the Registrant, such other public limited liability companies and certain private entities supervised by the Supervisor, and (y) the Supervisor and certain affiliated management companies will be contributed to the operating partnership of Empire State Realty Trust, Inc., a newly organized real estate investment trust.

---

**Table of Contents****Notes to Condensed Financial Statements (Unaudited) (continued)**

Consents are required from Participants in the Registrant and such other public limited liability companies for them to contribute their interests in the Consolidation, and the solicitation of such consents will not commence until the SEC declares effective the registration statement on Form S-4. Consents have been obtained from participants in the private entities and the Supervisor and certain affiliated companies and affiliates of the Supervisor for them to make such contribution.

The consideration to be paid to the contributing companies and entities in the Consolidation will be allocated in accordance with exchange values determined based on appraisals by an independent third party. Such method of allocation has been approved by the Lessee. Based on the exchange values, if the Consolidation proposal is approved by the Registrant's Participants, the consideration with respect to the Property will be allocated approximately 50% to the Registrant and 50% to the Lessee, which the Supervisor believes is in accordance with the historical treatment of the Registrant and the Lessee.

**Note D Mortgages**

On December 29, 2004, a first mortgage (the First Mortgage) was placed on the Property in the amount of \$30,500,000 with Prudential Insurance Company of America. At closing, \$3,000,000 was drawn and the remaining \$27,500,000 was drawn during 2005. These draws paid off the pre-existing first mortgage of \$15,500,000 with Emigrant Savings Bank on September 1, 2005 and were used to finance capital improvements as needed. The initial draw of \$3,000,000 and all subsequent draws required constant equal monthly payments of interest only, at the rate of 5.33% per annum until January 5, 2007. Commencing February 5, 2007 Registrant is required to make monthly payments of \$184,213 applied to interest and principal calculated on a 25-year amortization schedule. The balance of the First Mortgage is \$26,836,394 at June 30, 2012. The First Mortgage matures on January 5, 2015 when the principal balance will be \$24,754,972. The First Mortgage may be prepaid at any time, in whole only, upon payment of a prepayment penalty based on a yield maintenance formula. There is no prepayment penalty if the First Mortgage is paid in full during the last 90 days of the term.

On May 25, 2006, a second mortgage (the Second Mortgage) was placed on the Property in the amount of \$12,410,000 with Prudential Insurance Company of America. At closing, \$2,100,000 was drawn and the remaining \$10,310,000 had been drawn as of March 5, 2009. The initial draw of \$2,100,000 and all subsequent draws required constant equal monthly payments of interest only, at the rate of 6.13% per annum until March 5, 2009. Commencing April 5, 2009, Registrant is required to make monthly payments of \$80,947 applied to interest and principal calculated on a 25-year amortization schedule. The balance of the Second Mortgage is \$11,654,202 at June 30, 2012. The Second Mortgage matures on January 5, 2015 when the principal balance will be \$10,961,870. The Second Mortgage may be prepaid at any time, in whole only, upon payment of a prepayment penalty based on a yield maintenance formula. There is no prepayment penalty if the Second Mortgage is paid in full during the last 60 days of the term.

On October 15, 2009, Registrant closed on a \$21,000,000 line of credit from Signature Bank secured by a mortgage on the Property, subordinate to the existing senior mortgage debt held by Prudential Insurance Company of America in the original amount of \$42,910,000, and to be used for capital improvements. At closing \$934,616 was drawn, and an additional \$5,000,000 used for improvements and tenancing costs was drawn on December 22, 2011. The balance of the line of credit was \$5,934,616 at June 30, 2012. The Signature Bank loan requires payments of interest only and is co-terminus with the existing senior mortgage debt. The \$21,000,000 loan from Signature Bank was modified effective as of January 10, 2012 to provide for a reduction in the fluctuating rate of interest from a floor of 6.50% to 4.25% and to a reduction in the fixed rate to the greater of (i) 4.75%, or (ii) 300 basis points in excess of the weekly average yield on U.S. Treasury Securities adjusted to a maturity date closest to the mortgage maturity date. The loan was also modified to allow borrower to elect prepayment without any prepayment fees if the fixed interest rate were the greater of (i) 5.00%, or (ii) 300 basis points in excess of the weekly average yield on U.S. Treasury Securities adjusted to a maturity date closest to the mortgage maturity date.

**Table of Contents****Notes to Condensed Financial Statements (Unaudited) (continued)**

The estimated fair value of Registrant's mortgage debt based on available market information is approximately \$46,680,927 as of June 30, 2012. The fair value of borrowings is estimated by discounting the future cash flows using current interest rates at which similar borrowings could be made by us.

In 1999, the Participants in Registrant and the members in Lessee consented to a building improvement program (the Program) estimated to cost approximately \$12,200,000. In 2004, the Participants and Lessee approved an increase in the Program from \$12,200,000 to approximately \$31,400,000 under substantially the same conditions as had previously been approved. To induce the Lessee to approve the Program, Registrant's Participants authorized a grant to the Lessee, upon completion of the Program, of the right to further extensions of the Lease beyond 2103, based on the net present benefit to Registrant of the improvements made.

The Program for improvements was further increased in 2006 from \$31,400,000 to up to \$82,300,000, again on the basis that such increase would allow a further extension of the Lease based on the net present benefit to Registrant of the improvements made. The Participants in Registrant and the members in Lessee have approved increasing the financing from the total of \$42,910,000 provided by the First and Second Mortgages to up to \$63,900,000. As of June 30, 2012, Registrant had incurred or accrued costs related to the improvement program of \$48,133,209 and estimates that costs upon completion will be approximately \$82,300,000. The balance of the costs of the Program will be financed primarily by the additional borrowings available under the \$21,000,000 previously approved loan that closed on October 15, 2009 and Lessee's operating cash flow. Amounts Payable to Lessee related to the program were \$7,851,505 (of which \$730,807 relate to unpaid leasing costs) and \$3,576,129 as of June 30, 2012 and December 31, 2011, respectively.

**Note E Supervisory Services**

Registrant pays Supervisor for supervisory services and disbursements. The basic fee (the Basic Payment) had been payable at the rate of \$40,000 per annum, payable \$3,333 per month, since the fiscal year ended September 30, 1980. The Basic Payment was increased, with the approval of the Agents, by an amount equal to the increase in the Consumer Price Index since such date, resulting in an increase in the Basic Payment to \$102,000 per annum effective July 1, 2010 to be adjusted annually for any subsequent increase in the Consumer Price Index. The fee is payable (i) not less than \$2,333 per month, (ii) an additional \$1,000 per month out of Primary Overage Rent payment and (iii) the balance out of available reserves from Secondary Overage Rent. Any deficiency in the portion of the fee payable from Primary or Secondary Overage Rent shall be payable out of Secondary Overage Rent in the next year in which Secondary Overage Rent is sufficient. The Agents also approved payment by Registrant, effective July 1, 2010, of the expenses in connection with regular accounting services related to maintenance of Registrant's books and records. Such expenses were previously paid by Supervisor.

Registrant pays Supervisor an Additional Payment equal to 10% of all distributions to Participants in any year in excess of the amount representing a return to them at the rate 15% per annum on their remaining cash investment in Registrant (which remaining cash investment at June 30, 2012 was equal to the Participants' original cash investment of \$3,600,000). For tax purposes, such Additional Payment is recognized as a profits interest, and the Supervisor is treated as a partner, all without modifying each Participant's distributive share of reportable income and cash distributions.

The basic supervisory services provided to Registrant by Supervisor include, but are not limited to, maintaining all of its entity and Participant records, performing physical inspections of the Building, providing or coordinating certain counsel services to Registrant, reviewing insurance coverage, conducting annual supervisory review meetings, receipt of monthly rent from Lessee, payment of monthly and additional distributions to the Participants, payment of all other disbursements, confirmation of the payment of real estate taxes, active review of financial statements submitted to Registrant by Lessee and financial statements audited by and tax information prepared by Registrant's independent registered public accounting firm, and distribution of related materials to the Participants. Supervisor also prepares quarterly, annual and other periodic filings with the SEC and applicable state authorities.

**Table of Contents**

**Notes to Condensed Financial Statements (Unaudited) (continued)**

Accrued supervisory fees, to a related party, were \$0 and \$20,000 at June 30, 2012 and December 31, 2011, respectively. Due from Supervisor, a related party, was \$60,000 at June 30, 2012 and December 31, 2011, respectively. Due to Supervisor, a related party, was \$139,730 and \$153,445 at June 30, 2012 and December 31, 2011, respectively.

Registrant also pays Supervisor for other services at hourly rates. Pursuant to the fee arrangements described herein, Registrant incurred supervisory service fees of \$62,851 and \$61,000 for the six-month periods ended June 30, 2012 and 2011, respectively. No remuneration was paid during the six-month periods ended June 30, 2012 and 2011 by Registrant to either of the Members. Included in professional fees are amounts due to related parties of \$14,578 and \$37,602 for the three and six months ended June 30, 2012, respectively, and \$13,500 and \$25,833 for the three and six months ended June 30, 2011, respectively.

Reference is made to Note C above for a description of the terms of the Lease between Registrant and Lessee. The respective interest, if any, of the Members in Registrant and in Lessee arise solely from ownership of Participations in Registrant and of Member interests or participations in Lessee. The Members as such receive no extra or special benefit not shared on a pro rata basis with all other Participants in Registrant or members in Lessee. However, all of the Members hold senior positions at Supervisor (which supervises Registrant and Lessee) and, by reason of their interest in Supervisor, may receive income attributable to supervisory or other remuneration paid to Supervisor.

**Note F Subsequent Events**

Subsequent events have been evaluated for potential recognition and disclosure.

**Note G Fair Value Measurements**

Fair value is a market-based measurement, not an entity-specific measurement, and should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, Financial Accounting Standards Board guidance establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within levels one and two of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within level three of the hierarchy).

We use the following methods and assumptions in estimating fair value disclosures for financial instruments.

*Cash and cash equivalents, due from Supervisor, a related party, other receivable, accrued mortgage interest, accrued supervisory fees, a related party, payable to Lessee, a related party, due to Supervisor, a related party and accrued expenses.* The carrying amount of cash and cash equivalents, due from Supervisor, a related party, other receivable, accrued mortgage interest, accrued supervisory fees, a related party, payable to Lessee, a related party, due to Supervisor, a related party, and accrued expenses reported in our Condensed Balance Sheets approximates fair value due to the short maturity of these instruments.

*Mortgages payable:* The fair value of borrowings is estimated by discounting the future cash flows using current interest rates at which similar borrowings could be made to us.

**Table of Contents**

**Notes to Condensed Financial Statements (Unaudited) (continued)**

The methodologies used for valuing financial instruments have been categorized into three broad levels as follows:

Level 1 - Quoted prices in active markets for identical instruments.

Level 2 - Valuations based principally on other observable market parameters, including:

Quoted prices in active markets for similar instruments;

Quoted prices in less active or inactive markets for identical or similar instruments;

Other observable inputs (such as risk free interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates); and

Market corroborated inputs (derived principally from or corroborated by observable market data).

Level 3 - Valuations based significantly on unobservable inputs.

Valuations based on third-party indications (broker quotes or counterparty quotes) which were, in turn, based significantly on unobservable inputs or were otherwise not supportable as Level 2 valuations.

Valuations based on internal models with significant unobservable inputs.

These levels form a hierarchy. We follow this hierarchy for our financial instruments measured at fair value on a recurring and nonrecurring basis and other required fair value disclosures. The classifications are based on the lowest level of input that is significant to the fair value measurement.

**Fair Value of Financial Instruments**

The following disclosures of estimated fair value were determined by management, using available market information and appropriate valuation methodologies as discussed in Fair Value Measurements. Considerable judgment is necessary to interpret market data and develop estimated fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts we could realize on disposition of the financial instruments. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

The mortgages payable had an estimated fair value based on discounted cash flow models, based on Level 3 inputs, of approximately \$46,680,927, compared to the book value of the related debt of \$44,425,212, at June 30, 2012.

Disclosure about fair value of financial instruments is based on pertinent information available to us as of June 30, 2012. Although we are not aware of any factors that would significantly affect the reasonable fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since that date and current estimates of fair value may differ significantly from the amounts presented herein.

**Table of Contents****Notes to Condensed Financial Statements (Unaudited) (continued)****Note H Offering Costs**

In connection with the Consolidation and IPO we have incurred or will incur incremental accounting fees, legal fees and other professional fees. Such costs will be deferred and recorded as a reduction of proceeds of the IPO, or expensed as incurred if the Consolidation and IPO is not consummated. Certain costs associated with the Consolidation and IPO not directly attributable to the solicitation of consents and the IPO, but rather related to structuring the Consolidation, are expensed as incurred.

**Correction of an Immaterial Error in the Financial Statements**

Our prior period financial results have been adjusted to reflect an immaterial correction which has no impact to the net change in cash reported on the statement of cash flows. During fiscal year 2012, we determined that certain costs related to the structuring of the Consolidation that were previously included in deferred offering costs should have been expensed in the periods incurred. The correction impacted the 2011 and 2010 periods and had accumulated to an amount of \$538,123 as of June 30, 2012. Adhering to applicable guidance for accounting changes and error corrections, we concluded that the error was not material to any of our prior period financial statements. The correction resulted in immaterial changes to deferred costs and formation transaction expenses for the years ended December 31, 2011 and 2010. We applied the guidance for accounting changes and error corrections and revised our prior period financial statements presented in this prospectus/consent solicitation.

The following tables present the effect this correction had on the combined financial statements as of June 30, 2012 and December 31, 2011 and for the three and six months ended June 30, 2012 and 2011. Additionally, financial information included in the notes to the financial statements that is impacted by the adjustment have been revised, as applicable.

**DRAFT FORM OF OPINION LETTER PROPOSED TO BE DELIVERED. THIS FORM OF OPINION LETTER REMAINS SUBJECT TO DUFF & PHELPS REVIEW AND APPROVAL AND ALSO REMAINS SUBJECT TO CHANGE BASED UPON, AMONG OTHER THINGS, MARKET CONDITIONS AT THE TIME OF REQUESTED DELIVERY**

Malkin Holdings LLC

, 2012

Each of the Partnerships referred to herein

One Grand Central Place

60 East 42nd Street

New York, NY 10165-3003

Ladies and Gentlemen:

Malkin Holdings LLC (the Company ) has engaged Duff & Phelps, LLC ( Duff & Phelps ) to serve as independent financial advisor to the Company and on its behalf to each of the Partnerships (as herein defined) and to provide an opinion (the Opinion ) to the Company, its officers, managers and members and each of the Partnerships as of the date hereof as to the fairness, from a financial point of view, to each of the Partnerships and the holders of membership interests or partnership interests, holders of participation and subparticipation interests in the membership interests held by the agents, and partners, members and shareholders of entities which directly or indirectly hold interests in the Partnerships (the Investors ), of the allocation of Consideration (as herein defined) (i) among the Partnerships, Malkin Properties, L.L.C., Malkin Properties of New York, L.L.C., Malkin Properties of Connecticut, Inc. and Malkin Construction Corp. (collectively, the Management Companies ) and the Company, and (ii) to the Investors in the contemplated transaction described below (the Proposed Transaction ) (without giving effect to any impact of the Proposed Transaction on any particular Investor other than in its capacity as an Investor in the Partnerships).

**Description of the Proposed Transaction**

The Proposed Transaction involves the consolidation of certain office and retail properties in Manhattan and the New York City metropolitan area owned by the Partnerships (the Properties ) into the operating partnership whose general partner is Empire State Realty Trust, Inc., (the REIT ) conditioned, among other things, upon the closing of the initial public offering (the IPO ) of the REIT's Class A common stock. After the series of transactions in which the assets of the Partnerships will be consolidated into the REIT, the REIT will own, through direct and indirect subsidiaries, the assets of the Partnerships, and the assets of the Company and the Management Companies, that provide asset management and property management, leasing services, and construction services to the Partnerships and certain other parties. The REIT will issue to each of the participants in certain of the Partnerships (other than certain affiliates of the Company) which are public reporting entities (the Public LLCs as listed in Exhibit A) either, at each participant's option, a specified number of limited partnership interests in the operating partnership, or, at each participant's option, shares of Class A common stock that the REIT expects to be listed on the New York Stock Exchange, or, to a limited extent, Class B common stock (the Public LLC Consideration ). The REIT will issue to each of the participants in certain of the Partnerships which are private entities, affiliates of the Company which are participants in the Public LLCs and owners of the Company (the Private Entities as listed in Exhibit B, and together with the Public LLCs, the Partnerships ) and the equity holders of the Management Companies, a specified number of limited partnership interests in the operating partnership of the REIT or, at each participant's option, cash, to the extent available, subject to a cap for charitable organizations, or shares of Class A or, to a limited extent, Class B common stock in the REIT (the Private Entity Consideration and together with the Public LLC Consideration, the Consideration ). We understand that the Company does not know which of the Private Entities or the Public LLCs will approve the

## **Table of Contents**

Proposed Transaction, and assuming the receipt of all necessary approvals, whether the REIT will acquire all of the properties from the Private Entities and the Public LLCs, or the exact composition of the REIT's properties.

## **Scope of Analysis**

In connection with this Opinion, Duff & Phelps has made such reviews, analyses and inquiries as it has deemed necessary and appropriate under the circumstances. Duff & Phelps also took into account its assessment of general economic, market and financial conditions, as well as its experience in securities, business, and real estate valuation, in general, and with respect to similar transactions, in particular. Duff & Phelps procedures, investigations, and financial analysis with respect to the preparation of its Opinion included, but were not limited to, the items summarized below:

1. Reviewed the following documents:
  - a. draft of the consent solicitation in substantially the form intended to be sent to participants in the private entities;
  - b. a draft of the private consent solicitation (the Private Solicitation and together with the S-4, the Solicitations ) in substantially the form intended to be provided to the participants in the Private Entities;
  - c. audited financial statements, or to the extent not available, unaudited financial statements, for the Partnerships, the Company, and the Management Companies for the years ended December 31, 2010 and 2011 and unaudited financial statements for the Partnerships, the Company, and the Management Companies for the six months ended June 30, 2012, in each case, provided to us by management of the Company;
  - d. historical operating and financial information including property-level financial data relating to the business, financial condition and results of operations of the Partnerships, the Properties, the Company, and the Management Companies, in each case, provided to us by management of the Company;
  - e. other internal documents relating to the history, current operations, current budgets, and probable future outlook of the Partnerships, the Properties, the Company, and the Management Companies, including financial projections of the Company, and the Management Companies, in each case provided to us by management of the Company, and financial projections of the Partnerships and the Properties, which financial projections were (i) presented by Duff & Phelps based on the Information (as herein defined) provided by management of the Company and analysis performed by Duff & Phelps, and (ii) reviewed and approved by management of the Company;
  - f. a letter dated \_\_\_\_\_, 2012 from the management of the Company which made certain representations as to historical financial statements, financial projections and the underlying assumptions for the Properties, the Partnerships, the Company, and the Management Companies, the allocation of fee simple value among certain entities which are ground lessees or operating lessees, and the equity interest allocation worksheets for the Partnerships;
  - g. other documents and information related to the Properties and prepared by management of the Company, including: floor plans, re-measurement projections, stacking plans, present market rental package including market rents and concessions, rent rolls, lease abstracts, property tax cards, capital expenditure projections, stabilization estimates for the Properties, and Argus files and operating expense estimates (collectively, the Information );

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

- h. organizational and related documents of the Partnerships; and
2. The schedule setting forth the allocation of Consideration among participants within each Partnership (the Allocation Schedule ) provided to us by management of the Company.

A-2

**Table of Contents**

3. Discussed the information referred to above and the background, other elements of the Proposed Transaction, conditions in property markets, conditions in the market for sales or acquisitions of properties similar to the Properties, current and projected operations and performance, financial condition, and future prospects of the Properties, the Company, and the Management Companies with the management of the Company, and professionals from Pearson Partners, Inc. and CBRE Group, Inc., both as representatives of a significant investor in certain partnerships;
4. Reviewed the historical trading price and trading volume of the publicly traded securities of certain other companies that Duff & Phelps deemed relevant;
5. With respect to the Company and the Management Companies, performed certain valuation and comparative analyses using generally accepted valuation and analytical techniques including a discounted cash flow analysis, and an analysis of selected public companies that Duff & Phelps deemed relevant;
6. With respect to the Properties and the Partnerships, conducted independent valuations using generally accepted valuation and analytical techniques that Duff & Phelps deemed relevant;
7. Performed site visits for each of the Properties, with the exception of the properties located in Westport, CT at 69-97 Main Street and 103-107 Main Street; and
8. Conducted such other analyses and considered such other factors as Duff & Phelps deemed appropriate.

**Assumptions, Qualifications and Limiting Conditions**

In performing its analyses and rendering this Opinion with respect to the Proposed Transaction, Duff & Phelps, with the Company's consent:

1. Relied upon the accuracy, completeness, and fair presentation of the Information, and all other information, data, advice, opinions and representations obtained from public sources or provided to it from private sources, including Company management, and did not independently verify any of the Information or such information;
2. Relied upon the fact that the Company has been advised by counsel as to all legal matters with respect to the Proposed Transaction, including whether all procedures required by law to be taken in connection with the Proposed Transaction have been duly, validly and timely taken;
3. Assumed that any estimates, evaluations, forecasts, projections, the Information, and the Investor allocation schedules furnished to Duff & Phelps were reasonably prepared and based upon the best information currently available to, and the good faith judgment of, the person furnishing the same;
4. Assumed that information supplied and representations made by Company management are substantially accurate regarding the Company and the Proposed Transaction;
5. Assumed that the factual statements concerning the Partnerships and Properties made in the Solicitations do not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading;

6. Assumed that the final versions of all documents reviewed by Duff & Phelps in draft form conform in all material respects to the drafts reviewed;
7. Assumed that there has been no material change in the assets, financial condition, business, or prospects of the Partnerships, the Properties, the Company or the Management Companies since the date of the most recent financial statements and other information made available to Duff & Phelps;
8. Made no investigation of, and assumed no responsibility for, the legal description or for legal matters including title or encumbrances. Title to the Properties is assumed to be good and marketable unless

**Table of Contents**

otherwise stated. The Properties are further assumed to be free and clear of liens, easements, encroachments and other encumbrances unless otherwise stated, and all improvements are assumed to lie within property boundaries;

9. Assumed that all required licenses, certificates of occupancy, consents, or other legislative or administrative authority from any local, state, or national government or private entity or organization have been, or can readily be obtained, or renewed for any use on which the value estimates provided in this report are based;
10. Assumed full compliance with all applicable federal, state and local zoning, use, occupancy, environmental, and similar laws and regulations, unless otherwise stated;
11. Assumed responsible ownership and competent property management;
12. Assumed areas and dimensions of the Properties were obtained from sources believed to be reliable. No independent surveys were conducted;
13. Assumed there are no hidden or unapparent conditions of the Properties, subsoil, or structures that affect value. No responsibility is assumed for such conditions or for arranging for engineering studies that may be required to discover them;
14. No soil analysis or geological studies were ordered or made in conjunction with Duff & Phelps analysis, nor was an investigation made of any water, oil, gas, coal, or other subsurface mineral and use rights or conditions;
15. Duff & Phelps was not engaged nor are we qualified to detect the existence of hazardous material, which may or may not be present on or near the Properties. The presence of potentially hazardous substances may affect the value of the Properties. The value estimate herein is predicated on the assumption that there is no such material on, in, or near the Property that would cause a loss in value. No responsibility is assumed for any such conditions or for any expertise or engineering knowledge required to discover them;
16. The Americans with Disabilities Act ( ADA ) became effective January 26, 1992. Duff & Phelps has not made a specific compliance survey and analysis of the Properties to determine whether or not they are in conformity with the various detailed requirements of the ADA. It is possible that a compliance survey of the property along with a detailed study of ADA requirements could reveal that the property is not in compliance with the ADA. If so, this would have a negative effect on the property value. Duff & Phelps was not furnished with any compliance surveys or any other documents pertaining to this issue and therefore did not consider compliance or noncompliance with the ADA requirements when estimating the value of the property;
17. Assumed that each of the Partnerships will consent to the Proposed Transaction, and that the REIT will acquire all of assets and liabilities of the Partnerships, the Company, and the Management Companies (other than certain specified excluded assets);
18. Assumed at the direction of the Company that, for the purposes of its analysis, the value of each form of Consideration (limited partnership interests in the operating partnership of the REIT, cash, or shares of Class A or Class B common stock in the REIT) is equivalent;
19. Assumed that all of the conditions required to implement the Proposed Transaction will be satisfied and that the Proposed Transaction will be completed in accordance with the Solicitations without any amendments thereto or any waivers of any terms or conditions thereof; and

20. Assumed that all governmental, regulatory or other consents and approvals necessary for the consummation of the Proposed Transaction will be obtained without any adverse effect on the REIT, the Company, or the Management Companies. To the extent that any of the foregoing assumptions or any of the facts on which this Opinion is based prove to be untrue in any material respect, this Opinion cannot and should not be relied upon. Furthermore, in Duff &

A-4

**Table of Contents**

Phelps analysis and in connection with the preparation of this Opinion, Duff & Phelps has made numerous assumptions with respect to industry performance, general business, market and economic conditions and other matters many of which are beyond the control of any party involved in the Proposed Transaction. In rendering its opinion as to the fairness from a financial point of view of the allocation of Consideration to the Investors in the Proposed Transaction, Duff & Phelps relied on information provided by the management of the Company concerning the terms of the constituent documents of the Partnerships which are applicable to distributions of capital proceeds to the Investors.

Duff & Phelps has prepared the valuation of the Properties, the Partnerships, the Company, and the Management Companies as of June 30, 2012 and assumes (i) no responsibility for changes in market conditions and (ii) no obligation to revise its analysis to reflect any such changes which occurred subsequent to June 30, 2012. This Opinion is effective as of the date hereof. This Opinion is necessarily based upon market, economic, financial and other conditions as they exist and can be evaluated as of the date hereof, and Duff & Phelps disclaims any undertaking or obligation to advise any person of any change in any fact or matter affecting this Opinion which may come or be brought to the attention of Duff & Phelps after the date hereof.

Duff & Phelps has not been requested to, and did not, (i) initiate any discussions with, or solicit any indications of interest from, third parties with respect to the Proposed Transaction, the assets, businesses or operations of the Properties, the Company, or the Management Companies, or (ii) advise the Company or any other party with respect to alternatives to the Proposed Transaction.

Duff & Phelps is not expressing any opinion as to the market price or value of REIT, including the price at which the Class A common stock or any other securities of the Company or the operating partnership may trade at any time, or, except as set forth in the valuation analysis, any particular Property, the Company or the Management Companies, either before or after the completion of the Proposed Transaction or the IPO. In this regard, this Opinion addresses the relative percentage of the Consideration that each of the Partnerships, the Management Companies and the Company is to receive in the Proposed Transaction, and not the market price or value of the Consideration upon completion of the Proposed Transaction and the IPO. This Opinion is based on its valuation analyses of the Properties, the Partnerships, the Company, and the Management Companies as of June 30, 2012. Our analysis did not take into account (i) any potential incremental value attributable to the portfolio of assets taken as a whole after giving effect to the Proposed Transaction; and (ii) the effects of variations in aggregate values attributed to the portfolio assets after giving effect to the Proposed Transaction on relative values of such portfolio assets. This Opinion should not be construed as a valuation opinion, credit rating, solvency opinion, an analysis of the Company's credit worthiness, as tax advice, or as accounting advice. Duff & Phelps has not made, and assumes no responsibility to make, any representation, or render any opinion, as to any legal matter.

This Opinion is for the information of the Company, its officers, managers and members and the Partnerships in connection with their consideration of the Proposed Transaction and will be furnished to Investors in the Partnerships pursuant to the Solicitations and will be filed pursuant to the Form S-4 and may not be used for any other purpose without our prior written consent. The basis and methodology for this Opinion have been designed specifically for the express purposes of the Company, the Management Companies and the Partnerships and may not translate to any other purposes. This Opinion (i) does not address the merits of the underlying business decision to enter into the Proposed Transaction versus any alternative strategy or transaction, (ii) is not a recommendation as to how the Investors should vote or act with respect to any matters relating to the Proposed Transaction, and (iii) does not address whether the Investors should elect to receive Class A common stock, limited partnership interests in the operating partnership, or cash, or whether to proceed with the Proposed Transaction or any related transaction. The ultimate decision to participate in the Proposed Transaction or any related transaction must be made by each Partnership and will need to take into account factors unrelated to the financial analysis on which this Opinion is based. This letter should not be construed as creating any fiduciary duty on the part of Duff & Phelps to any party.

**Table of Contents**

This Opinion is solely that of Duff & Phelps, and Duff & Phelps' liability in connection with this letter shall be limited in accordance with the terms set forth in the engagement letter between Duff & Phelps and the Company dated September 27, 2010, as amended (the Engagement Letter ).

**Disclosure of Prior Relationships**

Duff & Phelps has acted as financial advisor to the Company, its officers, managers and members and the Partnerships and will receive a fee for its services and indemnification. No portion of Duff & Phelps' fee is contingent upon either the conclusion expressed in this Opinion or whether or not the Proposed Transaction is successfully consummated. Pursuant to the terms of the Engagement Letter, a portion of Duff & Phelps' fee is payable upon Duff & Phelps' stating to the Company that it is prepared to deliver its Opinion. Other than this engagement, and a valuation advisory engagement prepared in connection with the Proposed Transaction for which customary fees, expense reimbursement, and indemnification were received, during the two years preceding the date of this Opinion, Duff & Phelps has not had any material relationship with any party to the Proposed Transaction for which compensation has been received or is intended to be received, nor is any such material relationship or related compensation mutually understood to be contemplated.

**Conclusion**

Based upon and subject to the foregoing, Duff & Phelps is of the opinion that as of the date hereof that the allocation of Consideration (i) among the Partnerships, the Management Companies and the Company in the Proposed Transaction is fair, from a financial point of view, to each of the Partnerships and each of the Investors, and (ii) to the Investors in the Proposed Transaction is fair, from a financial point of view, to each of the Investors (without giving effect to any impact of the Proposed Transaction on any particular Investor other than in its capacity as an Investor in the Partnerships).

This Opinion has been approved by the Opinion Review Committee of Duff & Phelps.

Respectfully submitted,

Ladies and Gentlemen:

The following valuation information relates to the properties, LLC's and private entities (the Properties). The following information is not to be construed as an appraisal report.

The Properties are comprised of a mix of office and retail properties and one vacant land parcel, identified as follows:

**IDENTIFICATION OF SUBJECT PROPERTIES**

| <b>Property</b>           | <b>Property Type</b> | <b>Address</b>        | <b>City</b>  | <b>State</b> |
|---------------------------|----------------------|-----------------------|--------------|--------------|

**DATE OF VALUATION**

The date of valuation for the Properties is June 30, 2012.

**VALUE DEFINITION**

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

Market Value is defined by the Appraisal of Real Estate, Thirteenth Edition, as follows:

*The most probable price, as of a specified date, in cash, or in terms equivalent to cash, or in other precisely revealed terms, for which the specified property rights should sell after reasonable exposure in a competitive market under all conditions requisite to fair sale, with the buyer and seller each acting prudently, knowledgeably and for self-interest, and assuming that neither is under undue duress.*

B-1

## **Table of Contents**

The property rights being appraised for the Properties are the Fee Simple Interest, the Leased Fee Interest and the Leasehold Interest as of June 30, 2012.

The Fee Simple Interest is defined by the Appraisal of Real Estate, Thirteenth Edition, as follows:

*Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by governmental powers of taxation, eminent domain, police power, and escheat.*

The Leased Fee Interest is defined by the Appraisal of Real Estate, Thirteenth Edition, as follows:

*The ownership interest held by the lessor, which includes the right to the contract rent specified in the lease plus the reversionary right when the lease expires.*

The Leasehold Interest is defined by the Appraisal of Real Estate, Thirteenth Edition, as follows:

*The right held by the lessee to use and occupy real estate for a stated term and under the conditions specified in the lease.*

## **VALUATION METHODOLOGY**

In traditional valuation theory, the three approaches to estimating the value of an asset are the cost approach, sales comparison approach, and income capitalization approach. Each approach assumes valuation of the property at the property's highest and best use. From the indications of these analyses, an opinion of value is reached based upon expert judgment within the outline of the appraisal process.

### **Income Approach**

The income capitalization approach ( income approach ) simulates the reasoning of an investor who views the cash flows that would result from the anticipated revenue and expense on a property throughout its lifetime. The net income ( NOI ) developed in our analysis is the balance of potential income remaining after vacancy and collection loss, and operating expenses. This net income is then capitalized at an appropriate rate to derive an estimate of value or discounted by an appropriate yield rate over a typical projection period in a discounted cash flow analysis. Thus, two key steps are involved: (1) estimating the net income applicable to the subject and (2) choosing appropriate capitalization rates and discount rates.

The discounted cash flow ( DCF ) analysis focuses on the operating cash flows expected from the property and the anticipated proceeds of a hypothetical sale at the end of an assumed holding period. These amounts are then discounted to their present value. The discounted present values of the income stream and the reversion are added to obtain a value indication. Because benefits to be received in the future are worth less than the same benefits received in the present, this method weights income projected in the early years more heavily than the income and the sale proceeds to be received later.

We relied primarily on the DCF method to determine the Market Value of the operating Properties. We relied on the sales comparison approach to value the Stamford, CT land. However, we corroborated our results through an analysis of the implied capitalization rate for each property. We analyzed the implied capitalization rate based on the value determined via the DCF and the first several years of projected NOI (as defined above).

The income approach was relied upon in determining the Market Value of the Properties. This is the approach utilized by typical investors and other market participants in the local market of the Properties, and was therefore determined to be the most reliable indicator of Market Value.

### **Cost Approach**

The cost approach considers the cost to replace the existing improvements, less accrued depreciation, plus the market value of the land. The cost approach is based on the understanding that market participants relate

**Table of Contents**

value to cost. The value of the property is derived by adding the estimated value of the land to the current cost of constructing a reproduction or replacement for the improvements and then subtracting the amount of depreciation in the structure from all causes. Profit for coordination by the entrepreneur is included in the value indication.

The cost approach was omitted from our analysis, as it is not an approach typically utilized by investors in the local market of the Properties. Additionally, a portion of the Properties are unique and historic buildings. The reproduction of the improvements would not be possible in many cases, and a replacement of the improvements would not necessarily constitute an adequate substitute, given their unique and historic nature.

**Sales Comparison Approach**

The sales comparison approach estimates value based on what other purchasers and sellers in the market have agreed to as price for comparable properties. This approach is based upon the principle of substitution, which states that the limits of prices, rents, and rates tend to be set by the prevailing prices, rents, and rates of equally desirable substitutes. In conducting the sales comparison approach, we gather data on reasonably substitutable properties and makes adjustments for transactional and property characteristics. The resulting adjusted prices lead to an estimate of the price one might expect to realize upon sale of the property.

To value the Stamford, CT land, along with the excess land at 500 Mamaroneck Avenue, we relied on the sales comparison approach. The sales comparison approach estimates value based on what other purchasers and sellers in the market have agreed to as price for comparable properties. This approach is based upon the principle of substitution, which states that the limits of prices, rents, and rates tend to be set by the prevailing prices, rents, and rates of equally desirable substitutes. In conducting the sales comparison approach, we gather data on reasonably substitutable properties and make adjustments for transactional and property characteristics. The resulting adjusted prices lead to an estimate of the price one might expect to realize upon sale of the property.

The sales comparison approach was considered but omitted from our analysis (with the exception of the Stamford, CT land and the excess land at 500 Mamaroneck Avenue), as the income approach was deemed to be a more reliable indicator of Market Value, as it is the typical approach utilized by investors in the local market of the Properties. Sales comparables were used to corroborate our value conclusions arrived at using the income approach.

**Ground Lease and Operating Lease Methodology**

The following table shows the individual properties that are subject to ground leases or operating leases:

| <b>Property</b>           | <b>Ground Lease Type</b>                            |
|---------------------------|---|
| The Empire State Building | Operating Lease with Private Entity                 |
| One Grand Central Place   | Operating Lease with Private Entity                 |
| 250 W 57th Street         | Operating Lease with Private Entity                 |
| 112-122 W 34th Street     | Operating Lease with Private Entity and Third-Party |
| 1400 Broadway             | Third-Party   |
| 1350 Broadway             | Third-Party   |
| 501 Seventh Avenue        | Operating Lease with Private Entity                 |

Four of the Properties listed above are subject to operating leases with a private entity. A subsidiary of Malkin Holdings LLC is supervisor to both the property owner or ground lessee with a third-party and the operating lessee.

One of the Properties listed above is subject to a third-party ground lease, which is a standard ground lease in which a third-party owns the land, and a subsidiary of the private entity is the lessee of the land and the owner of the building, until ground lease expiration when building ownership reverts back to the ground lessor. The private entity that is the ground lessee makes contractual ground rent payments to the third-party land owner for these properties.

## Table of Contents

As some of the Properties are subject to operating leases, we determined the value for the private entity that is the property owner or ground lessee with a third-party and the private entity that is the operating lessee. In order to determine the Market Value of the land and building, we used the same discounted cash flow technique highlighted above to estimate the value of the unencumbered property. Secondly, we deducted the present value of the fixed rent payments. Lastly, we split the adjusted value evenly between the private entity that is the property owner or ground lessee with a third-party and the private entity that is the operating lessee.

The allocated exchange value was allocated 50% to the property owner and 50% to the operating lessee in a two tier entity instead of being allocated in accordance with discounted cash flow based on representations of the supervisor as to the original intent to treat the two tier entities as equivalent to a joint venture and the historical treatment of the two tier entities in this manner. The supervisor has represented that historically, agreements have been entered into to share capital expenditure and financing costs and the operating leases have been extended in connection therewith. As a result, the allocated exchange value has been allocated equally to the property owner and operating lessee, rather than in proportion to discounted cash flow, which would have resulted in a higher allocation to the property owner, which, in the case of Empire State Building Associates L.L.C. would have been significantly higher.

For the property subject to a third-party ground lease, we estimated the value of the private entity that is the ground lessee by calculating the present value of the future cash flows through the contractual term including all potential extensions noting that the reversion of the building would flow to the third-party ground lessor.

In applying the discounted cash flow technique, we estimated the operating results over a hypothetical 10-year holding period and assumed the Properties would be sold at the end of the final year for a price calculated by capitalizing the following year's projected net operating income. We averaged the 11th, 12 and 13th years to account for any inconsistencies in cash flow. We then discounted the cash flows at a rate reflective of market conditions, bearing in mind the investment characteristics of the Properties. Lastly, we selected a terminal capitalization rate reflective of anticipated market conditions, the likely future condition of the Properties, and the uncertainty associated with estimates of future income and value.

## Leased Fee Values

The above analysis considers the in-place ground leases at the Properties. As noted, we determined the Leased Fee values (assuming they are not subject to any in-place ground leases) for all properties before allocating the value to the various interests.

**Table of Contents**

The following table shows the Leased Fee values of the Properties (subject to no in-place ground leases):

| <b>Property</b>                        | <b>Leased Fee Value</b> |
|--|-------------------------|
| The Empire State Building <sup>2</sup> | \$ 2,530,000,000        |
| One Grand Central Place <sup>2</sup>   | 704,000,000             |
| First Stamford Place                   | 266,000,000             |
| 250 West 57th Street <sup>2</sup>      | 361,000,000             |
| <b>Property</b>                        | <b>Leased Fee Value</b> |
| 112-122 W 34th Street <sup>2</sup>     | \$ 448,000,000          |
| 1359 Broadway                          | 206,000,000             |
| 1350 Broadway <sup>2</sup>             | 218,000,000             |
| 1333 Broadway                          | 209,000,000             |
| 501 Seventh Avenue <sup>2</sup>        | 178,000,000             |
| 1400 Broadway <sup>2</sup>             | 389,000,000             |
| Metro Center                           | 157,000,000             |
| 500 Mamaroneck Avenue                  | 52,000,000              |
| 10 Bank Street                         | 50,000,000              |
| 383 Main Avenue                        | 37,000,000              |
| 10 Union Square                        | 105,000,000             |
| 1010 Third Avenue <sup>1</sup>         | 85,000,000              |
| 1542 Third Avenue                      | 41,000,000              |

| 66-99 Main Street                      | 31,000,000              |
| 103-107 Main Street                    | 7,000,000               |
| Stamford, CT Land                      | 14,600,000              |

Notes:

[1] Includes value for both 1010 Third Avenue and 77 West 55th Street.

[2] Value assuming no in-place ground leases.

**Market Rent**

In estimating the market rental rates, we surveyed competitive properties in the neighborhood of the Properties, in addition to analyzing the recently signed leases at the Properties and conversations with owner's management to provide an indication of market rent. We also utilized third party databases including CoStar, Loopnet, and Real Capital Analytics, in addition to third party market reports from various brokerage houses (*i.e.* CBRE, Cushman Wakefield, Colliers, NAI, etc.) to provide an indication of market rent.

**Market Rent Growth**

Market rent growth was determined primarily through conversations with local market participants, taking into consideration how investors in the market of the Properties are modeling market rent growth. Market rent growth is primarily a function of location, quality, and property type. The projected market rent growth for the New York City properties is 0.0 percent growth in year 1, 5.0 percent growth in years 2-4, and 3.0 percent growth thereafter. The projected market rent growth for the suburban properties is 0.0 percent growth in year 1, and 3.0 percent growth thereafter.

**Vacancy and Collection Loss**

We held conversations with management and local market participants to estimate downtime, renewal probability and stabilized occupancy. Additionally, we assumed different stabilized occupancies and downtime for each property. The downtime, renewal probability, and stabilized occupancies are primarily a function of location, quality, and use (*i.e.* office vs. retail).

## **Table of Contents**

### **Operating Expense Analysis**

Current and historical expenses constitute a guide for estimating future expenses. Not included among projected annual expenses for appraisal purposes are depreciation reserves, mortgage charges, income tax, corporation tax and capital additions.

In estimating the individual expense categories for the Properties, we looked at historical expenses from 2008 to 2011, year-to-date expenses as of March 31, 2012, as well as management's budget for 2012. We also held discussions with management regarding their expense budget. Additionally we spoke to other market participants to aid in properly estimating projected expenses. We placed primary reliance on management's 2012 budget, and considered historicals as applicable, while corroborating our expense estimates with estimates from the Building Owners and Managers Association (BOMA) and through conversations with local market participants.

*Capital Expenditures* We were provided specific 10 year capital expenditure projections for each property by management. These 10 year projections were the basis for the capital expenditure projections utilized in our analysis.

### **Cash Flow Forecast**

In applying the DCF technique, we estimated the operating results over a hypothetical holding period. We assumed the property would be sold at the end of the final year for a price calculated by capitalizing the projected following year's net income. We averaged the 11th, 12th and 13th years to account for any inconsistencies in cash flow. We then discounted the cash flows at a rate reflective of market conditions as of the Valuation Date, bearing in mind the investment characteristics of the Properties. We selected a terminal capitalization rate reflective of anticipated market conditions, the likely future condition of the Properties, and the uncertainty associated with estimates of future income and value.

### **Discount Rate**

A discount rate is an interest rate used to convert future payments or receipts into present value. The discount rate may or may not be the same as the internal rate of return (IRR) or yield rate depending on how it is extracted from the market and/or used in the analysis. The discount rates noted in this section are unlevered. If the discount rate is lower, the present value of the net operating income will be higher.

We considered conversations with investors and local market participants (institutional investors, publically listed real estate companies/REITs, and other privately held real estate companies), as well as third-party surveys in determining the discount rate. The discount rates were determined on a property by property basis. The discount rates utilized in our analysis are primarily function of property type, location, quality, projected net operating income growth during the holding period, projected capital expenditures during the holding period, and current occupancy.

**Table of Contents**

The following table shows the various discount rates used in our analysis:

| <b>Property</b>           | <b>Discount Rate</b> |
|---------------------------|----------------------|
| The Empire State Building | 7.00%                |
| One Grand Central Place   | 7.00%                |
| First Stamford Place      | 8.50%                |
| 250 West 57th Street      | 7.25%                |
| 112-122 W 34th Street     | 8.50%                |
| 1359 Broadway             | 8.50%                |
| 1350 Broadway             | 8.50%                |
| 1333 Broadway             | 8.50%                |
| 501 Seventh Avenue        | 8.50%                |
| 1400 Broadway             | 8.50%                |
| Metro Center              | 8.25%                |
| 500 Mamaroneck Avenue     | 9.00%                |
| 10 Bank Street            | 8.75%                |

| <b>Property</b>     | <b>Discount Rate</b> |
|---------------------|----------------------|
| 383 Main Avenue     | 9.00%                |
| 10 Union Square     | 6.75%                |
| 1010 Third Avenue   | 6.75%                |
| 1542 Third Avenue   | 6.75%                |
| 77 West 55th Street | 6.75%                |
| 66-99 Main Street   | 7.25%                |
| 103-107 Main Street | 7.25%                |
| Stamford, CT Land   | N/A                  |

**Terminal Capitalization Rate**

The terminal capitalization rates were also determined on a property by property basis. The terminal capitalization rates utilized in our analysis are primarily a function of property type, location, quality, projected net operating income growth during the holding period, projected capital expenditures during the holding period, and current occupancy. If the terminal capitalization rate is lower, the terminal value of the property will be higher.

**Table of Contents**

The following table shows the various terminal capitalization rates used in our analysis:

| <b>Property</b>           | <b>Terminal<br/>Capitalization Rate</b> |
|---------------------------|---|
| The Empire State Building | 5.75%                                   |
| One Grand Central Place   | 5.75%                                   |
| First Stamford Place      | 6.75%                                   |

- (1) Represents the three private entities which are the ground lessees and an operating lessee of two properties that are supervised by the supervisor. The operating partnership has entered into option agreements pursuant to which it has the option to acquire their property interests upon the final resolution of certain ongoing litigation with respect to these properties. The appraised values of such properties are the appraised values the properties would have had if the litigation is resolved, and were determined on a basis consistent with the exchange values of the subject LLCs and the private entities.
- (2) Represents the present value of the base operating lease payments from the operating lessee to the fee owner.
- (3) Represents the present value of the third party ground lease payments from the operating lessee to the third party fee owner.
- (4) Value of the Leased Fee and Leasehold is shown before the allocation of mortgage obligations, cash for improvements, or other non-operating assets and liabilities

**Table of Contents**

**Appendix C-1**

**Projections**

Included below is a summary of projections that were utilized by the independent valuer in making its fairness determination and were material to determining the exchange values and allocating consideration in the consolidation. The appraisal process undertaken by the independent valuer was conducted solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation. The projections were prepared solely for this purpose and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon in determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

Neither the subject LLCs nor the supervisor as a matter of course make public projections as to future performance, earnings or other results beyond the current fiscal year, and the supervisor is especially reluctant to disclose projections for extended periods due to the unpredictability of the underlying assumptions and estimates. However, the independent valuer, for the purpose of preparation of the exchange values and its fairness opinion, used (A) financial projections of the properties owned by the subject LLCs and private entities for the period from the year ending June 30, 2012 to the year ending June 30, 2024, which were finalized in November 2011, and (B) financial projections of the supervisor and the other management companies for the period from the year ending December 31, 2011 to the year ending December 31, 2020, which were finalized in November 2011. The projections with respect to the properties were presented by the independent valuer based on the information provided by management of the supervisor and analysis performed by the independent valuer and reviewed and approved by management of the supervisor, and the projections with respect to the management companies were each prepared by the supervisor.

These projections were not prepared in accordance with published guidelines of the SEC or the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of financial projections. This information is not fact and should not be relied upon as being necessarily indicative of future results, and readers of this prospectus/consent solicitation are cautioned not to place undue reliance on the prospective financial information. Neither the company's independent registered public accounting firm nor any other independent accountants have examined, compiled or otherwise applied procedures to the projections presented herein or express an opinion or any other form of assurance on them. The summary of the projections is being included in this prospectus/consent solicitation solely because the projections were used by the independent valuer in connection with the determination of preliminary exchange values and the allocation of consideration in the consolidation.

The projections were based on numerous assumptions that may prove to be wrong. Important factors that may affect actual results and cause the projections to not be achieved include, but are not limited to, risks and uncertainties relating to the company and other factors described under **Risk Factors** and **Forward-Looking Statements**. The projections also reflect assumptions as to certain business decisions that are subject to change. As a result, actual results may differ materially from those contained in the projections. Accordingly, there can be no assurance that the projections will be realized.

Certain of the prospective financial information set forth herein may be considered non-U.S. GAAP financial measures. The independent valuer believed this information could be useful in valuing the properties. Non-U.S. GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with U.S. GAAP, and non-U.S. GAAP financial measures may not be comparable to similarly titled amounts used by other companies.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

**Appendix C-2**

**Preliminary Exchange Values and Projections used in Connection with Preliminary Exchange Values**

Included below are the preliminary exchange values as of July 1, 2011 and a summary of projections that were utilized by the independent valuer in connection with the determination of the preliminary exchange values as of July 1, 2011 and allocating consideration in the consolidation. The appraisal process undertaken by the independent valuer was conducted solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish the preliminary exchange values to facilitate the consolidation. The projections were prepared solely for this purpose and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon in determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

Neither the subject LLCs nor the supervisor as a matter of course make public projections as to future performance, earnings or other results beyond the current fiscal year, and the supervisor is especially reluctant to disclose projections for extended periods due to the unpredictability of the underlying assumptions and estimates. However, the independent valuer, for the purpose of preparation of the preliminary exchange values and its fairness opinion, used (A) financial projections of the properties owned by the subject LLCs and private entities for the period from the year ending June 30, 2012 to the year ending June 30, 2024, which were finalized in November 2011, and (B) financial projections of the supervisor and the other management companies for the period from the year ending December 31, 2011 to the year ending December 31, 2020, which were finalized in November 2011. The projections with respect to the properties were presented by the independent valuer based on the information provided by management of the supervisor and analysis performed by the independent valuer and reviewed and approved by management of the supervisor, and the projections with respect to the management companies were each prepared by the supervisor.

These projections were not prepared in accordance with published guidelines of the SEC or the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of financial projections. This information is not fact and should not be relied upon as being necessarily indicative of future results, and readers of this prospectus/consent solicitation are cautioned not to place undue reliance on the prospective financial information. Neither the company's independent registered public accounting firm nor any other independent accountants have examined, compiled or otherwise applied procedures to the projections presented herein or express an opinion or any other form of assurance on them. The summary of the projections is being included in this prospectus/consent solicitation solely because the projections were used by the independent valuer in connection with the determination of preliminary exchange values and the allocation of consideration in the consolidation.

The projections were based on numerous assumptions that may prove to be wrong. Important factors that may affect actual results and cause the projections to not be achieved include, but are not limited to, risks and uncertainties relating to the company and other factors described under **Risk Factors** and **Forward-Looking Statements**. The projections also reflect assumptions as to certain business decisions that are subject to change. As a result, actual results may differ materially from those contained in the projections. Accordingly, there can be no assurance that the projections will be realized.

Certain of the prospective financial information set forth herein may be considered non-U.S. GAAP financial measures. The independent valuer believed this information could be useful in valuing the properties. **Table of Contents**

The inclusion of the summary of the projections in this prospectus/consent solicitation should not be regarded as an indication that any of the company, the subject LLCs or the supervisor or their respective affiliates, advisors or representatives considered the projections to be predictive of actual future events, and the projections should not be relied upon as such. None of the company, the subject LLCs or the supervisor or their respective affiliates, advisors, officers, directors, partners or representatives can give you any assurance that actual results will not differ from the projections, and none of them undertakes any obligation to update or otherwise revise or reconcile the projections to reflect circumstances existing after the date the projections were generated or to reflect the occurrence of future events even in the event that any or all of the assumptions underlying the projections are shown to be in error. None of the company, the supervisor and the subject LLCs intend to make publicly available any update or other revision to the projections. None of the company, the supervisor and the subject LLCs or their respective affiliates, advisors, officers, directors, partners or representatives has made or makes any representation to any participant or other person regarding the company's or the subject LLCs ultimate performance compared to the information contained in the projections or that forecasted results will be achieved. None of the subject LLCs, the private entities, the management companies or any of their affiliates has made any representation to the company concerning the projections.

(1) Excludes three private entities which are the ground lessees and an operating lessee of two properties that are supervised by the supervisor, having an aggregate exchange value of \$551,686,612. The operating partnership has entered into option agreements pursuant to which it has the option to acquire their property interests upon the final resolution of certain ongoing litigation with respect to these properties. The exchange values of such properties are the exchange values the properties would have had if the litigation is resolved, and were determined on a basis consistent with the exchange values of the subject LLCs and the private entities. If the option properties are included in the consolidation, the aggregate exchange value would increase by the total exchange value of the option properties, and the individual exchange values of the other properties would not be affected. The relative share of the aggregate exchange value of each of the subject LLCs would be calculated based on the aggregate exchange value including the private entities that own the option properties.

(2)

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

The exchange value is determined as described in Exchange Value and Allocation of Operating Partnership Units and Common Stock Derivation of Exchange Values.

- (3) The exchange value of each subject LLC, each private entity and the management companies is based on each subject LLC's, each private entity's and each management company's assets and liabilities included in the quarterly balance sheets of the subject LLC, private entity or the management companies, as of June 30, 2011. The exchange value will be revised to reflect changes in the balance sheet items included in the calculation of the exchange value in subsequent quarterly balance sheets but will not be revised based on changes in the balance sheets or other events after the final quarterly balance sheet date prior to the closing of the consolidation.

C-2-6

**Table of Contents**

- (4) The number of shares of common stock issued, on a fully-diluted basis, equals the number of shares of Class A common stock outstanding plus shares of Class A common stock issuable upon the exchange of operating partnership units or upon conversion of Class B common stock for shares of Class A common stock on a one-for-one basis. To the extent that participants in the private entities that are non-accredited investors or charitable organizations receive cash, the Class A common stock, which would have been issued to them, will not be issued. As a result, the number of outstanding shares of Class A common stock will be reduced and the percentage of the Class A common stock each participant owns will increase.
- (5) The number of shares of common stock, on a fully-diluted basis, assumes that none of the participants in the private entities receive cash. The number of shares of common stock, on a fully-diluted basis, issuable to each subject LLC, as set forth in the table, was determined by dividing the exchange value for the subject LLC by \$10, which is the hypothetical value that the supervisor arbitrarily assigned for illustrative purposes.
- (6) Represents a voluntary capital override, which was voluntarily agreed to by certain participants.
- (7) Operating lessee of Empire State Building Associates L.L.C.
- (8) Information is provided per 1% interest instead of per \$10,000 original investment.
- (9) Operating lessee of 60 East 42nd St. Associates L.L.C.
- (10) Operating lessee of 250 West 57th St. Associates L.L.C.
- (11) Based on financial statements prepared on a tax basis and not in accordance with GAAP.
- (12) The general partner is an affiliate of the supervisor.
- (13) The Class B interests are equivalent to override interests.
- (14) The manager is an affiliate of the supervisor.
- (15) Total exchange value of the supervisor excludes the value attributable to the supervisor's overrides, which are included in the value of the overrides that the Malkin Holdings group holds in the subject LLCs and the private entities.
- (16) Refers collectively to Malkin Properties, L.L.C. Malkin Properties of New York, L.L.C. and Malkin Properties of Connecticut, L.L.C. (collectively Malkin Properties).

C-2-7

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

C-2-12

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**Table of Contents**

The projections were prepared solely to determine the relative value among the subject LLCs, the private entities and the management companies and to establish exchange values to facilitate the consolidation and should not be relied upon for any other purpose, including without limitation, as an indicator of future performance of the company, the properties, the subject LLCs, the private entities or the management companies. The projections should not be relied upon determining the market value or the estimated value of the company after giving effect to the consolidation and the IPO. The actual performance of the properties and management companies may be materially different from these projections because of changes in market conditions and many other factors.

**PROSPECTUS SUPPLEMENT**

**TO**

**PROSPECTUS/CONSENT SOLICITATION STATEMENT**

**DATED                      , 2012**

**EMPIRE STATE BUILDING ASSOCIATES L.L.C.**

This supplement is being furnished to you, as a participant of Empire State Building Associates L.L.C., or your subject LLC, by Malkin Holdings LLC, the supervisor of your subject LLC, to enable you to evaluate the proposed consolidation of your subject LLC into Empire State Realty Trust, Inc., a Maryland corporation, or the company.

The supervisor, requests that you, as a participant in your subject LLC, consent to the contribution of your subject LLC's interest in the Empire State Building, as part of a consolidation of office and retail properties in Manhattan and the greater New York metropolitan area owned by your subject LLC, the other subject LLCs and certain private entities, or the private entities, supervised by the supervisor, along with certain related management businesses, into the company. This transaction is referred to herein as the consolidation.

The supervisor believes you will benefit from this consolidation through newly created opportunities for liquidity, enhanced property diversification, increased growth opportunities, enhanced operating and financing abilities and efficiencies, combined balance sheets, anticipated regular quarterly cash distributions, and continued leadership by the officers and a principal of the supervisor under the transparency and accountability of the governance structure of a reporting company with the Securities and Exchange Commission, or the SEC, with audited financial statements and a board of directors consisting predominantly of independent directors. Anthony E. Malkin will be the only management member of the board of directors.

As a potential alternative to the consolidation, the supervisor also requests that the participants consent to the sale or contribution of your subject LLC's property interest as part of a sale or contribution of all of the properties owned by your subject LLC, the other subject LLCs, the private entities (including the operating lessee of your subject LLC) and the management companies, as a portfolio to an unaffiliated third party. While the supervisor believes the consolidation represents the best opportunity for participants to achieve liquidity and to maximize the value of their investment, the supervisor believes it also is in the best interest of all participants for the supervisor to have the flexibility and discretion, subject to certain conditions, to accept an offer for the portfolio of properties from an unaffiliated third party if the supervisor determines that the offer price includes what the supervisor believes is an adequate premium above the value that is expected to be realized over time from the consolidation. The third-party portfolio transaction would be undertaken only if the aggregate consideration is at least 115% of the aggregate exchange value for the subject LLCs, the private entities and the management companies included in the third-party portfolio transaction and certain other conditions are met. The proposal must provide for all cash, payable in full at closing, but such proposal may provide for an option for all participants to elect to receive securities as an alternative to cash. If the proposal provides for a securities option, the Malkin Family will have the right to elect to receive securities only on the same proportional basis as other participants. No member of the Malkin Family will be an affiliate, consultant, employee, officer or director of the acquiror after the closing or receive any compensation from the acquiror (other than their pro rata share of the consideration that they will receive in the third-party portfolio transaction).

Participants also are being asked to consent to a voluntary pro rata reimbursement program pursuant to which the supervisor and Peter L. Malkin, a principal of the supervisor, will be reimbursed for the prior advances of all costs, plus interest, incurred in connection with the legal proceedings required to remove and replace the former property manager and leasing agent. The supervisor believes that the voluntary pro rata reimbursement program is fair and reasonable because the successful resolution of the legal proceedings allowed the property owned by your subject LLC to participate in a renovation and repositioning turnaround program conceived and implemented by the supervisor. The estate of Leona M. Helmsley, which we refer to as the Helmsley estate, as part of an agreement with the supervisor covering this and other matters, has paid the voluntary pro rata reimbursement to the supervisor for its pro rata share of costs advanced, plus interest, which totaled \$5,021,048.

**Table of Contents**

The Malkin Holdings group (as defined herein) will receive substantial benefits from the consolidation and have conflicts of interest in making this recommendation. For a further discussion of the conflicts of interest and potential benefits of the consolidation to the supervisor, see Conflicts of Interest Substantial Benefits to the Supervisor and its Affiliates in the prospectus/consent solicitation.

Your subject LLC is one of three publicly-registered entities, which we refer to collectively as the subject LLCs, that the supervisor is seeking to consolidate into the company as part of a series of transactions that is referred to as the consolidation. This supplement is designed to summarize only the risks, effects, fairness and other considerations of the consolidation that are unique to you and the other participants in your subject LLC. This supplement does not purport to provide an overall summary of the consolidation. You should read the accompanying Prospectus/Consent Solicitation Statement, or the prospectus/consent solicitation, which includes detailed discussions regarding the company, your subject LLC and the other entities being consolidated with the company.

Supplements have also been prepared for both of the other subject LLCs, copies of which may be obtained without charge by you or your representative upon written request to MacKenzie Partners, Inc., the company's vote tabulator, at 105 Madison Avenue, NY, NY 10016 or call toll free at (888) 410-7850. The effects of the consolidation may be different for participants in the other subject LLCs.

(xii) *operating partnership units refer to the operating partnership's limited partnership interests. The operating partnership will have two classes of limited partnership interest operating partnership units and LTIP units. The operating partnership units will have four series Series PR operating partnership units, Series ES operating partnership units, Series 60 operating partnership units and Series 250 operating partnership units, which are referred to either collectively, or with respect to one or more series, as the operating partnership units, as the context requires or indicates. Operating partnership units are redeemable for a cash amount equal to the then-current market value of one share of Class A common stock per operating partnership unit, or at the company's election, shares of Class A common stock on a one-for-one basis. The Series ES operating partnership units will be issued to participants in Empire State Building Associates L.L.C., the Series 60 operating partnership units will be issued to participants in 60 East 42nd St. Associates L.L.C. and the Series 250 operating partnership units will be issued to participants in 250 West 57th St. Associates L.L.C., in each case except for the Wien group. The operating partnership intends to apply to have the Series ES operating partnership units, Series 60 operating partnership units and Series 250 operating partnership units listed on the New York Stock Exchange under the symbols ESBA, OGCP, and FISK, respectively. The Series PR operating partnership units will be issued to the participants in the private entities and the Wien group and will not be listed on a national securities exchange, and*

(xiii) *organizational documents refer to the limited liability company agreement, the participating agreements and the terms of any voluntary capital transaction override program for your subject LLC.*

*All references to the enterprise value refer to the value of the company after completion of the consolidation determined in connection with the IPO by the company in consultation with the investment banking firms managing the IPO and prior to the issuance of Class A common stock in the IPO and any issuance of Class A common stock pursuant to equity incentive plans.*

*All references to the aggregate exchange value refer to the aggregate exchange value of the subject LLCs, the private entities and the management companies based on the appraisal, or Appraisal, by Duff & Phelps, LLC, the independent valuer. The exchange values as of June 30, 2012 are based on a final valuation analysis prepared by the independent valuer as of June 30, 2012. The final valuation updates a preliminary valuation prepared as of June 30, 2011. The preliminary exchange values based on such preliminary valuation were used in connection with the solicitation of consents from participants in the private entities in November 2011. See Appendix C-2 Preliminary Exchange Values and Projections used in Connection with Preliminary Exchange Values in the prospectus/consent solicitation, which sets forth the preliminary exchange values and preliminary valuation.*

*All references (other than information labeled as pro forma information, including the pro forma financial statements) to the number of shares of common stock, on a fully-diluted basis, issued in the consolidation refer to the number of shares of Class A common stock and Class B common stock issued or received in the consolidation, prior to the issuance of Class A common stock in the IPO and pursuant to any incentive plans, assuming that (i) the enterprise value in connection with the IPO equals the aggregate exchange value, (ii) the offering price per share in the IPO used herein which is used solely for illustrative purposes equals a hypothetical \$10 per share, (iii) your subject LLC, the other subject LLCs, the private entities and the management companies participate in the consolidation, (iv) no cash is paid to participants in the private entities, (v) no shares of Class A common stock are issued to the supervisor pursuant to the voluntary pro rata reimbursement program, (vi) no fractional shares are issued and (vii) all operating partnership units issued in the consolidation are redeemed on a one-for-one basis and all shares of Class B common stock issued in the consolidation are converted on a one-for-one basis for shares of Class A common stock.*

*The enterprise value will equal the total number of shares of common stock and total number of operating partnership units issuable in the consolidation (excluding any shares of common stock issued in the IPO, and*

## **Table of Contents**

*assuming all participants in the private entities receive shares of common stock or operating partnership units and not cash) multiplied by the IPO price. The enterprise value (which is based on the IPO price) will be determined by, among other things, market conditions at the time of pricing of the IPO, the historical and future performance of the company and its portfolio of properties and the market's view of the company's net asset value and other valuation metrics. Today, some REITs' common stock trades at a premium to perceived net asset value and others trade at a discount to perceived net asset value. The market's view of the company's net asset value determined in connection with the IPO could be less than the exchange values determined based on the Appraisal. The Appraisal was undertaken in connection with establishing relative value for the purpose of allocation of interests in the company among contributors of interests in the properties and not to establish the value of shares of common stock in the company upon completion of the IPO. In contrast, the pricing of REIT initial public offerings generally takes into account different factors not considered in the Appraisal, including current conditions in the securities markets, investor preferences and the market's view of the company's management team. Additionally, the Appraisal did not take into account transaction costs for the consolidation and the IPO.*

*The supervisor believes that initial public offering pricing for REIT common stock generally is at a discount to the market price for common stock of well-established, publicly-traded REITs, and that the company's IPO pricing will be no different. For this and other reasons, the supervisor expects that the enterprise value at the pricing of the IPO will be lower than the aggregate exchange value at the pricing of the IPO, and such discount at the pricing of the IPO could be material and substantial. This discount cannot be determined until the pricing of the IPO. As the company continues to develop a track record as a public company, the supervisor believes that the company's trading price following the IPO will be based on, among other things, the company's historical and future performance, its performance relative to its peers, market conditions generally and its continued seasoning in the public markets. The company currently intends to pay regular quarterly dividends based on the performance of the company and its portfolio of properties, rather than just one property, and those distributions are required to be at least 90% of annual REIT taxable income (determined without regard to the deduction for dividends paid, and excluding net capital gains) to maintain its qualification as a REIT. REIT taxable income will be determined by the performance of the portfolio of the company's properties and unaffected by its stock price.*

*All references to distributions to participants assume that all amounts payable under the voluntary pro rata reimbursement program are paid out of cash distributions from your subject LLC, the other subject LLCs and the private entities, as applicable and that no shares of Class A common stock are issued to the supervisor for amounts due under the voluntary pro rata reimbursement program.*

*The supervisor has made certain of these assumptions to permit the presentation of information in tables in this supplement on a consistent basis. For example, while throughout this supplement the supervisor has assumed for purposes of this presentation of information that no cash is paid, cash will be paid to non-accredited investors in the private entities and to certain investors in the private entities that are charitable organizations and exempt from New York City real property transfer tax and elect to receive cash pursuant to the cash option described herein.*

*All references to the stockholders refer to the holders of Class A common stock and Class B common stock of the company.*

*All references to the Malkin Family refer to Anthony E. Malkin, Peter L. Malkin, each of their lineal descendants (including spouses of any of the foregoing), any estates of any of the foregoing, any trusts now or hereafter established for the benefit of any of the foregoing, or any corporation, partnership, limited liability company or other legal entity controlled by Anthony E. Malkin or any permitted successor in such entity for the benefit of any of the foregoing.*

*All references to the Malkin Holdings group refer to the Malkin Family and Thomas N. Keltner Jr. (and his spouse).*

**Table of Contents**

*All references to the Wien group refer to each of the lineal descendants of Lawrence A. Wien, including Peter L. Malkin and Anthony E. Malkin (including spouses of such descendants), any estates of any of the foregoing, any trusts now or hereafter established for the benefit of any of the foregoing, or any corporation, partnership, limited liability company or other legal entity controlled by Anthony E. Malkin for the benefit of any of the foregoing.*

*For demonstrative purposes, the supervisor has assigned a hypothetical IPO price of \$10 per share. That value is strictly hypothetical and is for illustrative purposes only.*

*All references to the property and assets owned by the company upon completion of the consolidation refer to the company upon completion of the consolidation, without giving effect to the IPO, and assuming that all required consents of the participants in the subject LLCs have been obtained and all of the properties and assets to be acquired from your subject LLC, the other subject LLCs, the private entities and the management companies pursuant to the consolidation have been acquired.*

*All references to a third-party portfolio transaction refer to the sale or contribution of the subject LLCs' property interests and other assets as part of a sale or contribution of the properties owned by the subject LLCs, the private entities and the management companies as a portfolio to an unaffiliated third party. The description of the company in this supplement assumes that all of the properties and assets to be acquired from your subject LLC, the other subject LLCs, the private entities and the management companies pursuant to the consolidation have been acquired by the company rather than a third party pursuant to an unaffiliated third-party portfolio transaction.*

*Certain terms and provisions of various agreements are summarized in the prospectus/consent solicitation and this supplement. These summaries are qualified in their entirety by reference to the complete text of any such agreements, which are either attached as exhibits or appendices to the prospectus/consent solicitation or this supplement in the form in which they are expected to be signed (but subject to change, including potentially significant changes, as described below) or filed as an exhibit to the Registration Statement on Form S-4 of which the prospectus/consent solicitation and this supplement is a part. The parties to such agreements may make changes (including changes that may be deemed material) to the forms of the agreements attached as appendices or exhibits hereto, contained in this supplement or filed as exhibits to the Registration Statement on Form S-4.*

---

**Table of Contents**

**OVERVIEW**

**The consolidation**

You are being requested to approve the consolidation in which your subject LLC will contribute its assets to the operating partnership in exchange for operating partnership units, Class A common stock and Class B common stock. Each participant will receive operating partnership units, or at each participant's election, Class A common stock or, to a limited extent, Class B common stock. You may elect to receive one share of Class B common stock instead of one operating partnership unit for every 50 operating partnership units you would otherwise receive in the consolidation. Each share of Class B common stock has 50 votes on all matters on which stockholders are entitled to vote and the same economic interest as a share of Class A common stock, and one share of Class B common stock and 49 operating partnership units together represent a similar economic value as 50 shares of Class A common stock. A holder of operating partnership units will not have economic interests in the company (but will have the same rights to distributions as stockholders of the company) or voting rights in the company (except to the extent a participant elects to receive Class B common stock instead of a portion of operating partnership units as described above).

The exchange value of your subject LLC is \$1,183,612,549 and the exchange value per \$10,000 original investment is \$323,803 for participants subject to the voluntary override program and \$358,670 for participants not subject to the voluntary override program. The exchange value was used to establish the relative value of the properties and participation interests, and does not necessarily represent the fair market value of your participation interest. The fair market value of the consideration that you receive will not be known until the pricing of the IPO, which will occur after participants vote upon the approval of the consolidation transaction. The enterprise value (which is based on the IPO price) will be determined by, among other things, market conditions at the time of pricing of the IPO, the historical and future performance of the company and its portfolio of properties and the market's view of the company's net asset value and other valuation metrics. Today, some REITs' common stock trades at a premium to perceived net asset value and others trade at a discount to perceived net asset value. The market's view of the company's net asset value determined in connection with the IPO could be less than the exchange values determined based on the Appraisal. The Appraisal was undertaken in connection with establishing relative value for the purpose of allocation of interests in the company among contributors of interests in the properties and not to establish the value of shares of common stock in the company upon completion of the IPO. In contrast, the pricing of REIT initial public offerings generally takes into account different factors not considered in the Appraisal, including current conditions in the securities markets, investor preferences and the market's view of the company's management team. Additionally, the Appraisal did not take into account transaction costs for the consolidation and the IPO.

The supervisor believes that initial public offering pricing for REIT common stock generally is at a discount to the market price for common stock of well-established, publicly-traded REITs, and that the company's IPO pricing will be no different. For this and other reasons, the supervisor expects that the enterprise value at the pricing of the IPO will be lower than the aggregate exchange value at the pricing of the IPO, and such discount at the pricing of the IPO could be material and substantial. This discount cannot be determined until the pricing of the IPO. As the company continues to develop a track record as a public company, the supervisor believes that the company's trading price following the IPO will be based on, among other things, the company's historical and future performance, its performance relative to its peers, market conditions generally and its continued seasoning in the public markets. The company currently intends to pay regular quarterly dividends based on the performance of the company and its portfolio of properties, rather than just one property, and those distributions are required to be at least 90% of annual REIT taxable income (determined without regard to the deduction for dividends paid, and excluding net capital gains) to maintain its qualification as a REIT. REIT taxable income will be determined by the performance of the portfolio of the company's properties and unaffected by its stock price.

The shares of Class A common stock are expected to be listed on the NYSE, which investors may sell from time to time as and when they so desire (subject to the restrictions of applicable U.S. federal and state securities laws and after expiration of the lock-up period as described in the prospectus/consent solicitation). The operating

**Table of Contents**

partnership units will be issued in three separate series to the participants in each of the three subject LLCs, other than the Wien group, each of which has identical rights as to distributions, liquidation and other rights as a limited partner in the operating partnership. Participants in your subject LLC will be issued Series ES operating partnership units. The operating partnership intends to apply to have the Series ES operating partnership units listed on the New York Stock Exchange under the symbol ESBA. Presently there is no active trading market for the participation interest you hold in your subject LLC, which is only an indirect interest in real property subject to an operating lease, which is not under the operational control of your subject LLC. Participants may also achieve liquidity through sale of Class A common stock issued in exchange for operating partnership units and Class B common stock, subject to such restrictions. Participants who receive operating partnership units may also sell operating partnership units, which also are expected to be listed on the NYSE, subject to similar restrictions, although the market for operating partnership units may be more limited than the market for Class A common stock. In addition, each participant in your subject LLC that receives operating partnership units may, immediately following the consolidation and the IPO, sell up to 4.0% of the operating partnership units he or she receives with respect to your subject LLC (assuming all of the participants in your subject LLC elect to receive operating partnership units, the enterprise value equals the aggregate exchange value and the IPO price equals \$10 per share), which treats all three subject LLCs equally after having determined for your subject LLC the minimum amount required by the NYSE for it to meet the requirements as the primary listing.

Through the consolidation, the company intends to combine the properties of your subject LLC, the other subject LLCs and the private entities and the assets and operations of the supervisor and the other management companies into the company, and intends to elect and to qualify as a REIT for U.S. federal income tax purposes, commencing with its taxable year ending December 31, 2013. The closing of the consolidation will occur substantially simultaneously with the closing of the IPO. All required consents of the private entities and the management companies, including the consents of the Wien group and the interests of the Helmsley estate, to the acquisition by the company of the assets of the private entities and the management companies have been obtained prior to the date of this supplement and the prospectus/consent solicitation.

If the consolidation is approved by your subject LLC and the other subject LLCs, the company acquires the properties from each of private entities and the company acquires the management companies, the company will own 12 office properties (including one long-term ground leasehold interest) which, as of June 30, 2012, encompass approximately 7.7 million rentable square feet of office space, which were approximately 78.7% leased (or 82.5% giving effect to leases signed but not yet commenced as of that date). Seven of these properties are located in the midtown Manhattan market and encompass in the aggregate approximately 5.9 million rentable square feet of office space, including the Empire State Building. The Manhattan office properties also contain an aggregate of 428,431 rentable square feet of premier retail space on the ground floor and/or lower levels. The remaining five office properties are located in Fairfield County, Connecticut and Westchester County, New York, encompassing approximately 1.8 million rentable square feet in the aggregate. The majority of the square footage for these five properties is located in densely populated metropolitan communities with immediate access to mass transportation. Additionally, the company has entitled land at the Stamford Transportation Center in Stamford, Connecticut, adjacent to one of its office properties, that will support the development of an approximately 340,000 rentable square foot office building and garage. As of June 30, 2012, the portfolio also included four standalone retail properties located in Manhattan and two standalone retail properties located in the city center of Westport, Connecticut, encompassing 204,452 rentable square feet in the aggregate. As of June 30, 2012, the standalone retail properties were approximately 99.0% leased in the aggregate (or 100% giving effect to leases signed but not yet commenced as of that date).

**The third-party portfolio proposal**

As a potential alternative to the consolidation, you also are being asked to consent to the sale or contribution of your subject LLC's property interest as part of a sale or contribution of the properties owned by your subject LLC, the other subject LLCs, the private entities (including the operating lessee of your subject LLC) and the management companies as a portfolio to an unaffiliated third party. Through solicitation of consents, for the first

## **Table of Contents**

time the properties owned by the subject LLCs and the private entities can be joined as a single portfolio. While the supervisor believes the consolidation and IPO represent the best opportunity for participants in your subject LLC, the other subject LLCs and the private entities to achieve liquidity and to maximize the value of their respective investments, the supervisor also believes it is in the best interest of all participants for the supervisor to be able to approve offers from unaffiliated third parties for the portfolio as a whole. All required consents of the private entities, including the consents of the Wien group and the interests of the Helmsley estate, to the third-party portfolio proposal have been obtained prior to the date of this supplement and the prospectus/consent solicitation.

Market forces are dynamic, unpredictable, and subject to volatility. Should the public awareness of the proposed consolidation and IPO produce potential compelling offers from unaffiliated third parties to purchase the consolidated portfolio, it will be costly and time consuming to solicit consents to allow a sale or contribution of the portfolio to an unaffiliated third party, and there is considerable risk that any opportunity which might appear would be lost without the requested consent in place. Therefore, the supervisor believes that it is advisable to have the flexibility and discretion, subject to certain conditions, to accept an offer for the entire portfolio of properties from a third party, rather than pursue the consolidation and IPO. A third-party portfolio transaction also will include the management companies.

The third-party portfolio transaction would be undertaken only if the aggregate consideration payable in the third-party portfolio transaction is at least 115% of the aggregate exchange value for the subject LLCs, the private entities and the management companies included in the third-party portfolio transaction. If such a third-party portfolio transaction were to proceed, the consideration will be allocated among the subject LLCs, the private entities and the management companies on a basis consistent with the exchange values.

A third-party portfolio transaction would include the following:

The proposal must provide for all cash, payable in full at closing.

The proposal may provide for an option for all participants to elect to receive securities as an alternative to cash. If the proposal provides for a securities option, the Malkin Family will have the right to elect to receive securities only on the same proportional basis as other participants.

No member of the Malkin Family will be an affiliate, consultant, employee, officer or director of the acquiror after the closing or receive any compensation from the acquiror (other than their pro rata share of the consideration that they will receive in the third-party portfolio transaction).

Employees of the supervisor, other than the Malkin Family, could become officers, directors, and/or employees of the acquiring entity after a third-party portfolio transaction.

Because of the inability to act without consent of your subject LLC, the other subject LLCs and certain of the private entities, the supervisor intends to inform any unaffiliated third-party which expresses interest in making a third-party offer that it will not consider any offer until after completion of the solicitation of consents of your subject LLC and the other subject LLCs. If an offer is submitted during the solicitation period, the supervisor may be required to provide information regarding the proposal to participants, to assist them in their decision regarding the consolidation.

The supervisor has agreed that it will not accept a third-party offer unless it is unanimously approved by a committee which will include representatives of the supervisor and a representative of the Helmsley estate. The supervisor will be authorized to approve offers only if a definitive agreement is entered into prior to December 31, 2015 or such earlier date as the supervisor may set with or without notice or public announcement. The tax protection agreement will not apply to a third-party portfolio transaction.

### **The voluntary pro rata reimbursement program**

You are being asked to consent to a voluntary pro rata reimbursement program pursuant to which the supervisor and Peter L. Malkin, a principal of the supervisor, will be reimbursed for the prior advances of all

**Table of Contents**

costs, plus interest, incurred in connection with the legal proceedings with Helmsley-Spear, Inc., the former property manager and leasing agent, which resulted in the removal of the former property manager and leasing agent as property manager and leasing agent of the properties owned by your subject LLC, the other subject LLCs and certain of the private entities and has enabled a renovation and repositioning turnaround program to be implemented by the supervisor. The supervisor and the agents had the authority to commence the legal proceedings without consents from participants so no authorization was sought. No challenge has been raised about the supervisor's authority. In commencing the litigation, Peter L. Malkin believed that participants would understand the value from his and the supervisor's actions and voluntarily agree to the reimbursement. While the supervisor believes it could have effected reimbursement by the subject LLCs and the private entities to the supervisor and Peter L. Malkin, it will not seek such reimbursement from participants who do not consent to the voluntary pro rata reimbursement program to make such reimbursement. If you consent to the voluntary pro rata reimbursement program, the supervisor and Peter L. Malkin will be reimbursed for your pro rata share of costs, plus interest, previously incurred out of your share of the excess cash of your subject LLC that is being distributed to participants, and, to the extent that is insufficient, the consideration that you would receive in the consolidation or the consideration that you would receive in a third-party portfolio transaction, as applicable, will be reduced by the balance (valued, if the consolidation is consummated, at the IPO price) and such balance would be paid to the supervisor and Peter L. Malkin in shares of Class A common stock, if the consolidation is consummated, or out of distributions that you would receive from the proceeds of a third-party portfolio transaction, if consummated or out of distributions from operations of the subject LLC.

The table below shows the amount to be received by the supervisor out of the distributions of each consenting participant in your subject LLC for each \$10,000 original investment by a participant pursuant to the voluntary pro rata reimbursement program:

|   | <b>Voluntary Reimbursement<br/>Per<br/>\$10,000<br/>Original<br/>Investment<sup>(1)</sup></b> | <b>Total Potential<br/>Reimbursement<br/>with 100%<br/>Participation</b> |
|---|---|--|
| Empire State Building Associates L.L.C. | \$ 1,024  | \$ 3,378,431   |

(1) Your subject LLC's share of the aggregate voluntary reimbursement (before any reimbursements) is \$3,150,896, plus interest. The amount shown in the table includes accrued interest through June 30, 2012 and does not include interest which will accrue subsequent to June 30, 2012.

97% of the potential voluntary reimbursement is attributable to advances by Peter L. Malkin for payments to unaffiliated third parties, with interest thereon at prime, and 3% is for amounts to be paid to the supervisor for work it performed.

**Number of Operating Partnership Units and shares of common stock received if your subject LLC is consolidated with the company**

Based on the hypothetical assumptions described herein, your subject LLC will be allocated 118,361,255 shares of common stock, on a fully-diluted basis, that will be allocated to your subject LLC in the consolidation based on its exchange value of \$1,183,612,549. The value of your participation interest, as described in the prospectus/consent solicitation, was determined based on the exchange value for your subject LLC. The exchange value of your subject LLC, the other subject LLCs, the private entities and the management companies is the value of these entities based on the Appraisal by Duff & Phelps, LLC, which is referred to herein as Duff & Phelps, or the independent valuer, which serves as the independent valuer for your subject LLC, the other subject LLCs, the private entities and the management companies. Shares of common stock, operating partnership units and/or cash, as applicable, will be allocated among your subject LLC, the other subject LLCs, the private entities and the management companies based upon the exchange values of your subject LLC, the other subject LLCs, each private entity and the management companies. The exchange value was then allocated among the participants and the holders of the override interests in accordance with your subject LLC's organizational documents. However, as described elsewhere in the prospectus/consent solicitation, while the exchange value

## Table of Contents

was used to establish the relative value of the properties and participation interests, this value does not necessarily represent the fair market value of your participation interest. The number of shares of Class A common stock, Class B common stock and operating partnership units issued in the consolidation will be determined based on the company's enterprise value, which will be determined based on the IPO price, without giving effect to shares of Class A common stock issued in the IPO.

You will receive a portion of the operating partnership units and/or common stock allocated to your subject LLC in accordance with your election and with your percentage interest in your subject LLC and your subject LLC's organizational documents, after taking into account the allocations in respect of the supervisor's override interests. The number of operating partnership units and/or shares of common stock presented in this supplement and in the prospectus/consent solicitation is based on the hypothetical \$10 per share exchange value arbitrarily assigned by the supervisor to illustrate the number of operating partnership units and/or shares of common stock that a participant would receive if the enterprise value of the company determined in connection with the IPO were the same as the aggregate exchange value and the IPO price were \$10 per share.

The fair market value of the consideration that you receive will not be known until the pricing of the IPO, which will occur after you vote upon the approval of the consolidation transaction. The value of the consideration will be based on the enterprise value determined in connection with pricing of the IPO. The enterprise value (which is based on the IPO price) will be determined by, among other things, market conditions at the time of pricing of the IPO, the historical and future performance of the company and its portfolio of properties and the market's view of the company's net asset value and other valuation metrics. Today, some REITs' common stock trades at a premium to perceived net asset value and others trade at a discount to perceived net asset value. The market's view of the company's net asset value determined in connection with the IPO could be less than the exchange values determined based on the Appraisal. The Appraisal was undertaken in connection with establishing relative value for the purpose of allocation of interests in the company among contributors of interests in the properties and not to establish the value of shares of common stock in the company upon completion of the IPO. In contrast, the pricing of REIT initial public offerings generally takes into account different factors not considered in the Appraisal, including current conditions in the securities markets, investor preferences and the market's view of the company's management team. Additionally, the Appraisal did not take into account transaction costs for the consolidation and the IPO.

The supervisor believes that initial public offering pricing for REIT common stock generally is at a discount to the market price for common stock of well-established, publicly-traded REITs, and that the company's IPO pricing will be no different. For this and other reasons, the supervisor expects that the enterprise value at the pricing of the IPO will be lower than the aggregate exchange value at the pricing of the IPO, and such discount at the pricing of the IPO could be material and substantial. This discount cannot be determined until the pricing of the IPO. As the company continues to develop a track record as a public company, the supervisor believes that the company's trading price following the IPO will be based on, among other things, the company's historical and future performance, its performance relative to its peers, market conditions generally and its continued seasoning in the public markets. The company currently intends to pay regular quarterly dividends based on the performance of the company and its portfolio of properties, rather than just one property, and those distributions are required to be at least 90% of annual REIT taxable income (determined without regard to the deduction for dividends paid, and excluding net capital gains) to maintain its qualification as a REIT. REIT taxable income will be determined by the performance of the portfolio of the company's properties and unaffected by its stock price.

If the consolidation is approved by the participants in your subject LLC and is consummated, you will receive operating partnership units and/or shares of common stock as consideration for your participation interest, as described below.

*Operating Partnership Units.* You will receive operating partnership units, unless you elect to receive, in exchange for your participation interests, Class A common stock, or, to a limited extent, as described below, Class B common stock. The operating partnership units will be issued in three separate series to the participants

---

**Table of Contents**

in each of the three subject LLCs, other than the Wien group. The operating partnership units of each of these series are expected to be separately listed on the NYSE and traded separately. In addition, a separate series of operating partnership units, which will not be listed on a national securities exchange, will be issued to the participants in the private entities and the Wien group. Each series of operating partnership units has identical rights as to distributions, liquidation and other rights as a limited partner in the operating partnership. The four series vote together as a single class on all matters on which the holders of operating partnership units have the right to vote or consent. The separate series were created because there are unique U.S. federal income tax consequences to the participants receiving each series of listed operating partnership units (as compared to ownership of operating partnership units of another series) depending on the subject LLC in which they had an interest and the tax aspects of the property contributed by such entity. By issuing the operating partnership units in separate series, each of the operating partnership units in a series that will be trading on the NYSE is expected to be uniform with other operating partnership units of that series.

*Class A Common Stock.* If you elect to receive Class A common stock in lieu of all or any portion of the operating partnership units issuable to you, you will receive one share of Class A common stock for each operating partnership unit you would have otherwise been entitled to receive.

*Class B Common Stock.* Participants may elect to receive one share of Class B common stock instead of one operating partnership unit for every 50 operating partnership units such participant would otherwise receive in the consolidation. The Class B common stock provides its holder with a voting right that is no greater than if such holder had received solely Class A common stock in the consolidation. Each outstanding share of Class B common stock entitles the holder to 50 votes on all matters on which the stockholders of Class A common stock are entitled to vote, including the election of directors, and holders of shares of Class A common stock and Class B common stock will vote together as a single class. Each share of Class B common stock has the same economic interest as a share of Class A common stock, and one share of Class B common stock and 49 operating partnership units together represent a similar economic value as 50 shares of Class A common stock.

**Sale of shares of Class A common stock and operating partnership units after the consolidation and the IPO**

After the consolidation and the IPO, each participant (except the Malkin Family, whose members are subject to a longer restrictive period in which they cannot sell) will have the ability to sell up to 50% of both the operating partnership units and common stock received in the consolidation at any time after the 180th day following the IPO pricing date and the balance of the operating partnership units and common stock 12 months after the IPO pricing date. This includes Class A common stock issuable in exchange for operating partnership units, which are only issuable in exchange for operating partnership units beginning 12 months after the completion of the IPO, and Class B common stock. In addition, each participant in your subject LLC that receives operating partnership units may, immediately following the consolidation and the IPO, sell such participant's pro rata portion of the greater of 1,100,000 operating partnership units and \$40.0 million in value of operating partnership units (based on the IPO price of the Class A common stock). Therefore, each participant in your subject LLC that receives operating partnership units may, immediately following the consolidation and the IPO, sell up to 4.0% of his or her operating partnership units (assuming all of the participants in your subject LLC elect to receive operating partnership units, the enterprise value equals the aggregate exchange value and the IPO price equals \$10 per share), which treats all three subject LLCs equally after having determined for your subject LLC the minimum amount required by the NYSE for it to meet the requirements as the primary listing.

**Similarities among the subject LLCs**

Each of the subject LLCs owns an indirect interest in a Manhattan office property subject to an operating lease. Each of the subject LLCs is supervised by the supervisor. The subject LLCs all have similar structures for paying compensation to the supervisor and for distribution of cash flow and liquidation proceeds, except that your subject LLC and 250 West 57th St. Associates L.L.C. have a voluntary capital transaction override program and 60 East 42nd St. Associates L.L.C. does not have a voluntary capital transaction override program.

---

**Table of Contents**

**Differences among the subject LLCs**

Your subject LLC owns an interest, subject to an operating lease, in a single property, the Empire State Building, which the supervisor believes has a greater value per square foot than the other assets in the company's portfolio.

The Empire State Building is the largest property in the proposed consolidation and its renovation program began last. The renovation program for the Empire State Building is anticipated to require a greater investment than the renovation programs for the other subject LLCs. While the supervisor expects that the renovation programs for the other subject LLCs will be completed substantially by the end of 2013, the supervisor expects that the renovation program for the Empire State Building, which is the last Manhattan office property that began its renovation program, will be completed substantially in 2016.

Your subject LLC's property has a debt to asset value (based on the appraised value) ratio of 7.50% as of June 30, 2012. The company's properties have a debt to total assets ratio of 22.00% as of June 30, 2012. The ratio of debt to total assets was calculated by dividing the total mortgage indebtedness and other borrowings by the sum of the appraised value of real estate assets. The lenders, under your subject LLC's loan agreement, as amended, have agreed to provide your subject LLC with additional advances of up to \$141.0 million, of which \$60.0 million was subsequently advanced. The loan agreement was amended on October 11, 2012 to increase the aggregate commitments to \$500 million. A condition to the lenders' obligation to loan the additional amounts (in addition to the other conditions in the loan agreement) to your subject LLC is that the loan-to-value ratio (as defined therein), based on an updated appraisal, does not then exceed 50%. The participants have authorized your subject LLC to borrow up to 50% of the appraised value, the proceeds of which can be applied towards improvements at the Empire State Building and certain investments for the account of your subject LLC. Based on the Appraisal, your subject LLC would be authorized to borrow up to approximately \$1.25 billion (50% of the appraised value of the Empire State Building). Any such borrowing would require the operating lessee's approval and the subordination of its interest as operating lessee, and the operating lessee has only consented to and subordinated its interest to the currently outstanding balance of the loan. A new consent from the operating lessee and subordination of its interest is required for any new advance under the current loan or a new loan. There can be no assurance that your subject LLC could borrow that amount. Any such borrowing (in excess of the current secured term loan) would depend on the market for such borrowings and the supervisor has not tested the market for such a loan. The amount of the loan would depend on the appraised value, as determined by an appraisal obtained by any lenders in connection with a loan, which could be different and yield a different maximum loan amount. The interest rates are likely to be higher and terms of any such loan for any larger principal amount or a longer term are also likely to be different from the terms of the current secured term loan. The supervisor currently estimates that the improvement program will be substantially completed by 2016 and will require between \$185.0 million and \$225.0 million (not including tenant improvement and leasing commission costs).

Your subject LLC's property was 66.0% (64.6% of office space and 89.7% of retail space) leased as of June 30, 2012. The company's properties were 79.3% (78.7% of office space and 87.4% of retail space) leased as of June 30, 2012.

The age of your subject LLC's property is 81 years. The average age of the company's properties is 61 years.

**Vote required to approve the consolidation or third-party portfolio proposal**

The participation interests in your subject LLC are divided into three separate participating groups. Participants are being asked to vote on both the proposed consolidation and the third-party portfolio proposal. For each proposal to be approved, participants holding 100% of the outstanding participation interests in your subject LLC must approve that proposal. Each of these proposals is subject to a separate consent and approval of each proposal is not dependent on approval of any other proposal.

---

**Table of Contents**

If holders of 80% of the participation interests in any of the three participating groups in your subject LLC approve the consolidation or third-party portfolio proposal, as shown in the tabulation of consents by MacKenzie Partners, Inc., pursuant to a buyout right included in your subject LLC's participating agreements since its inception, the agent of any such participating group will purchase on behalf of your subject LLC for the buyout amount, the participation interest of any participant in such participating group that voted **AGAINST** or **ABSTAINED** with respect to the consolidation or third-party portfolio, as applicable, or that did not submit a consent form, even if the proposal is not approved by the other participating groups in your subject LLC, unless such participant consents to the proposal within ten days after receiving written notice that the required supermajority consent from the participants in your participating group has been received. If the agent purchases these participation interests, the requirement for consent of participants holding 100% of the participation interests of that participating group will be satisfied.

The buyout amount for your interest would be substantially lower than the exchange value. The buyout amount, which is equal to the original cost less capital repaid, but not less than \$100, is currently \$100 for the interest held by a participant in your subject LLC as compared to the exchange value of \$323,803 (or \$358,670 if you are not subject to the voluntary capital override) for a \$10,000 original investment in your subject LLC. The cash required to buyout non-consenting participants will not be paid from the proceeds from the IPO. These buyouts are contractual provisions expressly stated for your subject LLC at the inception of your subject LLC in its original participating agreement dated July 11, 1961, under which the participation interests were issued. The buyout provisions were included as a practical way to permit the entity to act, while still following the then-current tax advice provided to the supervisor of your subject LLC that participants needed to act unanimously to permit your subject LLC to obtain partnership status and to avoid entity level tax as a corporation for U.S. federal income tax purposes. For this purpose, the buyout provisions allow the purchase, at original cost less capital returned, but not less than \$100, of the interest held by a non-consenting participant after ten-days' notice of receipt of approval by 80% of the participation interests in such non-consenting participant's participating group, if such non-consenting participant still does not change its vote to approval. Accordingly, the buyout provisions preserved the unanimity which is considered necessary for these tax reasons, but prevented a small minority, which might be acting for its own purposes and not in the interests of other participants, from preventing action by the large supermajority. The agents are authorized under the participating agreements to buy out participation interests of participants that do not consent to the action if the required supermajority consent from the participants in your participating group is received, as described below. Since such buyout is necessary to provide for the required unanimous consent and is not conditioned on the transaction closing, the agent has the right to buy out participation interests from participants who do not vote **FOR** either proposal, if the required supermajority consent is received by the applicable participating group with respect to such proposal, within ten days after written notice, as described below, whether or not either or neither proposal is consummated.

Prior to an agent purchasing the participation interests of non-consenting participants, an agent will give such participants not less than ten days notice after the required supermajority consent is received by the applicable participating group in your subject LLC to permit them to consent to the consolidation or the third-party portfolio proposal, as applicable, in which case their participation interests will not be purchased. The agents will purchase the participation interests for the benefit of your subject LLC and not for their own account and will be reimbursed by your subject LLC for the cost of such buyout. If the agent purchases these participation interests, the requirement for consent of participants holding 100% of the participation interests of the participating group will be satisfied. Unanimity on the consents is required pursuant to the organizational documents of your subject LLC with respect to both the consolidation and the third-party portfolio proposal for the consent of a participating group; therefore a participant in your subject LLC who does not vote in favor of either the consolidation or third-party portfolio transaction proposal (and does not change his or her vote after notice that the requisite supermajority consent has been obtained) will be subject to this buyout if the tabulation of consents by MacKenzie Partners, Inc. shows that the required consent in his or her participating group has been received, but in no event before the expiration of the 60-day solicitation period as the same may be extended, regardless of whether either or neither transaction is consummated or the required consent of other participating groups is received, as described below. A vote for the proposed transaction by the participants constitutes an authorization for the agents of each participating group to

---

## **Table of Contents**

approve, in their capacity as members of your subject LLC, the consolidation or the third-party portfolio transaction, as applicable. The agents, under the operating agreements of your subject LLC, have discretion, subject to their fiduciary duties, to determine whether to approve the transaction, even after supermajority approval has been obtained for either or both transactions and dissenting participants have been bought out. Additionally, the supervisor, acting on behalf of the subject LLCs and the agents, similarly has discretion, subject to its fiduciary duties, as to whether to abandon or to postpone the transaction, even after supermajority approval has been obtained for either or both transactions and dissenting participants have been bought out. The agents and supervisor could determine not to proceed with the consolidation and the IPO due to market conditions or other reasons.

The agents, who are the members of your subject LLC, recently created a new class of membership interests, which were divided into series. A separate series was deemed to be distributed to holders of each participating group in your subject LLC. Each new series provides protections similar to those under a shareholder rights plan for a corporation. Each new series corresponds to a participating group for which a member acts as agent. The new series will not affect voting rights, except with respect to any person or group that acquires 6% or more of the outstanding participation interests in the applicable participating group (an *acquiring person*). If there is an *acquiring person*, the effect of the new series is that approval of the consolidation proposal and the third-party portfolio proposal by a participating group will require approval by the requisite consent of the participants in the participating group, as holders of the new series of membership interests, excluding the *acquiring person*.

The Wien group collectively owns participation interests in your subject LLC and has advised that it will vote in favor of the consolidation and the third-party portfolio proposal. These participation interests held by the Wien group represent 8.5921% for your subject LLC. In addition to the participation interests, members of the Wien group hold override interests, which are non-voting. See *Background of and Reasons for the Consolidation Background of the Subject LLCs* in the prospectus/consent solicitation.

### **Consent required for the voluntary pro rata reimbursement program**

The consent form being distributed to you and the other participants also seeks to obtain your consent to the payment of a voluntary pro rata reimbursement to the supervisor and Peter L. Malkin, a principal of the supervisor, the prior advances of all costs, plus interest, incurred in connection with the legal proceedings required to remove and replace the former property manager and leasing agent. If you return a signed consent form but fail to indicate whether you consent to or disapprove of the voluntary pro rata reimbursement program, you will be deemed not to have consented to the voluntary pro rata reimbursement program. If you fail to return a signed consent form by the end of the solicitation period, you will be deemed not to have consented to the voluntary pro rata reimbursement program.

### **Tax consequences of the consolidation**

It is expected that the consolidation should be treated for U.S. federal income tax purposes as follows:

- (i) If you receive solely shares of Class A common stock, the consolidation should be treated as a taxable sale of your participation interest in which gain or loss is recognized. Such gain or loss should generally equal the difference between your amount realized (which generally will equal the amount of the aggregate fair market value of shares of common stock that you receive, plus the share of liabilities associated with your participation interests that you are deemed to be relieved of under U.S. federal income tax law) and your adjusted tax basis in your participation interests. You will realize *phantom income* if you have a *negative capital account* with respect to your participation interest. In each of 250 West 57th St. Associates L.L.C. and 60 East 42nd St. Associates L.L.C., original participants have a *negative capital account*. If you are an individual or a partnership for New York State personal income tax purposes, any gain that you recognize in the consolidation will generally be treated as New York source income for New York State personal income tax purposes. As a result, you (or, if you are a partnership, any of your partners who are individuals) will generally be subject to New York State personal income tax on such gain even if you are treated as a New York nonresident for purposes of the

**Table of Contents**

New York State personal income tax. The New York City personal income tax should not apply to individuals who are treated as New York City nonresidents for purposes of the tax. If all of your participation interest is exchanged for Class A common stock pursuant to the consolidation, suspended passive activity losses associated with your participation interest, if any, may be eligible for treatment as losses that are not from a passive activity to the extent that they exceed income and gains from passive activities for your taxable year that includes the consolidation.

- (ii) If you receive solely operating partnership units, or if you receive a combination of (a) operating partnership units and (b) shares of common stock that do not exceed your allocable share of certain qualified capital expenditures of the subject LLC as described under U.S. Federal Income Tax Considerations U.S. Federal Income Tax Consequences of the Consolidation Receipt of Operating Partnership Units in the prospectus/consent solicitation (the reimbursement amount), the consolidation should be treated as a tax-deferred contribution by the subject LLC of the subject LLC's property to the operating partnership in exchange for operating partnership units and common stock as a reimbursement of certain qualified capital expenditures, followed by a tax-deferred distribution of such operating partnership units and common stock to you. You should not generally recognize gain unless (i) the disguised sale rules of the Code apply, (ii) you are deemed to receive a constructive distribution of cash in excess of your tax basis in your operating partnership units under Sections 731 and 752(b) of the Code due to a reduction in your share of partnership liabilities or (iii) you have at-risk recapture income under Section 465(e) of the Code. To the extent that you do not recognize gain in the consolidation for U.S. federal income tax purposes, you also generally should not recognize gain for purposes of the New York State personal income tax and, if applicable, the New York City personal income tax.
- (iii) If you receive a combination of (a) operating partnership units and (b) shares of common stock in excess of your reimbursement amount, you should be treated as first selling a portion of your participation interest for such excess shares of common stock in a transaction in which gain or loss is recognized. Following such sale, the subject LLC should be treated as contributing the portion of its property not attributable to participation interests otherwise treated as having been sold to the operating partnership in exchange for operating partnership units and common stock as a reimbursement of qualified capital expenditures in a tax-deferred contribution, and the subject LLC should be treated as distributing operating partnership units and shares of common stock equal to your reimbursement amount to you in a tax-deferred distribution.

If you consent to the voluntary pro rata reimbursement program, you may be treated as receiving shares of common stock that you would otherwise receive in the consolidation and immediately transferring such shares of common stock to the supervisor as a reimbursement payment. For this purpose, even if you elect to receive solely operating partnership units in the consolidation, you should be treated as receiving shares of common stock equal to the amount that you are treated as transferring to the supervisor as a reimbursement payment. Accordingly, the gain or loss that you recognize in the consolidation transaction should take into account your deemed receipt of such common stock. You should be entitled to deduct the value of the shares of common stock that you are deemed to pay to the supervisor as an expense associated with your participation interest in your subject LLC. This deduction should offset the amount of gain you recognize, or increase the amount of losses you would otherwise recognize, as a result of your deemed receipt of shares of common stock. However, this deduction may be subject to certain limitations depending on your individual circumstances and may be required to be capitalized, and you should consult with your tax advisor regarding your ability to utilize all or a portion of this deduction for U.S. federal income tax purposes. See U.S. Federal Income Tax Considerations U.S. Federal Income Tax Considerations of the Voluntary Pro Rata Reimbursement Program for the Former Property Manager and Leasing Agent Legal Proceedings.

**Table of Contents**

If you receive solely Class A shares of common stock in the consolidation, or if you receive a combination of (a) operating partnership units and (b) an amount of common stock in excess of your reimbursement amount, upon receipt of such shares of common stock, you will be deemed to have consented to treat the consolidation as a sale of all or a portion of your participation interest in exchange for such shares of common stock for U.S. federal income tax purposes.

Whether you receive operating partnership units, Class A common stock, or Class B common stock in connection with the consolidation, you will be allocated your proportionate share of the income and other tax items of the subject LLC for the period ending with the date of closing of the consolidation. You will have to report such income even though you do not receive cash in consideration for your participation interest.

Participants should carefully review U.S. Federal Income Tax Considerations U.S. Federal Income Tax Consequences of the Consolidation in the prospectus/consent solicitation. Participants should consult with their tax advisors with regard to the U.S. federal income tax, New York State personal income tax and New York City personal income tax consequences of receiving operating partnership units or common stock in exchange for their participation interests in their particular circumstances.

---

**Table of Contents**

**THE SUPERVISOR'S REASONS FOR PROPOSING THE CONSOLIDATION**

The supervisor proposed the consolidation and recommends that you vote **FOR** the consolidation. The supervisor believes this transaction represents the best opportunity for value enhancement for your investment in your subject LLC.

**Benefits of Participation in the Consolidation**

The supervisor believes that the consolidation will provide you with the following benefits:

*Tax-deferred Transaction.* You will have the opportunity to receive interests in the company's operating partnership on the same basis as participants in the private entities and the Malkin Family in a transaction expected to be a tax-deferred transaction for U.S. federal income tax purposes. See "U.S. Federal Income Tax Considerations" and "U.S. Federal Income Tax Consequences of the Consolidation." Participants are urged to consult with their tax advisors as to the tax consequences of the consolidation in light of their particular circumstances;

*Liquidity.* You will be able to achieve liquidity by selling all or part of your shares of Class A common stock, subject to the restrictions of applicable U.S. federal and state securities laws and after expiration of the lock-up period described under "The Consolidation Lock-Up Agreement" in the prospectus/consent solicitation. The shares of Class A common stock are expected to be listed on the NYSE. Participants may also achieve liquidity through sale of Class A common stock issued in exchange for operating partnership units and Class B common stock, subject to such restrictions. Participants who receive operating partnership units may also sell operating partnership units, which also are expected to be listed on the NYSE, subject to similar restrictions, although the market for operating partnership units may be more limited than the market for Class A common stock. In addition, each participant in your subject LLC that receives operating partnership units may, immediately following the consolidation and the IPO, sell up to 4.0% of his or her operating partnership units (assuming all of the participants in each subject LLC elect to receive operating partnership units, the enterprise value equals the aggregate exchange value and the IPO price equals \$10 per share), which treats all three subject LLCs equally after having determined for your subject LLC the minimum amount required by the NYSE for it to meet the requirements as the primary listing. There is only a limited market for the participation interests in your subject LLC and the highest price for sales of participation interests in your subject LLC since January 1, 2009 of which the supervisor is aware is \$50,000 per \$10,000 original investment, which the supervisor believes is substantially below their value.

*Risk Diversification.* The company will own a large number of quality office and retail properties in the Manhattan and the New York metropolitan area and have much broader tenant diversification than your subject LLC, which owns an interest in a single property. This diversification will reduce the dependence of your investment upon the performance of, and the exposure to the risks associated with, owning an interest in a single property, and allow for more stable cash flows for distribution;

Your subject LLC is subject to certain risks specific to the Empire State Building and its operations that do not apply to the other properties of the company. The Empire State Building, may be considered to be susceptible to increased risks of a future terrorist event due to the high-profile nature of the property. The observatory operations at the Empire State Building are not traditional real estate operations, and competition, including competition from the new One World Trade Center, and changes in tourist trends may subject the company to additional risks. The broadcasting operations at the Empire State Building also are not traditional real estate operations, and competition, including competition from One World Trade Center, as well as the existing broadcast operations at Four Times Square, and changes in the broadcasting of signals over air may subject the company to additional risks.

*Regular Quarterly Cash Distributions.* Similar to your subject LLC's present method of operation, the supervisor expects that the company and the operating partnership will make regular quarterly cash

## Table of Contents

distributions on the operating partnership units and shares of common stock, which will include distributions of at least 90% of the company's annual REIT taxable income (determined without regard to the deduction for dividends paid, and excluding net capital gains), which is required for REIT qualification. REIT taxable income will be determined by the performance of the portfolio of the company's properties and unaffected by its stock price.

The expected regular quarterly dividends to stockholders in the company will be based on the performance of a portfolio of properties rather than just one property and are required to be at least 90% of annual REIT taxable income (determined without regard to the deduction for dividends paid, and excluding net capital gains) to maintain the company's qualification as a REIT. The supervisor believes that participants have greater potential for increased distributions as a holder of operating partnership units or common stock than as a participant in your subject LLC from improved performance of the properties, potential growth from acquisitions and a better capital structure made possible by the combined balance sheet of all the properties. There is no assurance, however, that the Company's dividends will increase over time or be greater than the historical distributions made to participants in your subject LLC.

*More Efficient Decision-Making.* Your subject LLC currently requires several internal procedural steps to undertake major transactions, which affects its ability to take timely advantage of favorable opportunities. Financing and sales require costly and time consuming steps to obtain consent of a very high percentage of the participants in your subject LLC.

*Improved Capital Structure by Eliminating Two-Tier Ownership.* Except for very small loans supported by basic rent, the relationship between your subject LLC and the operating lessee requires that any additional financing placed on an entire property requires the agreement of both the operating lessee and your subject LLC.

*Easier Access to Financing.* Your subject LLC cannot require the operating lessee to obtain or utilize financing to maximize its cash flow and therefore overage rent available for additional distributions to participants in your subject LLC. The operating lessee controls all aspects of property operations, leasing, and investment and has broad discretion to use cash flow from the property for purposes related to the property. Operating lessee decisions can result in little or no overage rent to your subject LLC, and additional distributions to your subject LLC's participants are contingent on overage rent.

*Eliminates Two-Tier Ownership Impact on Borrowing.* In the past, decisions by the operating lessee have resulted in uneven payments of overage rent to your subject LLC from year to year. Without the cooperation of the operating lessee, there is very limited opportunity for financing by your subject LLC to provide funds for distributions. It is likely that any lender would require agreement of the operating lessee before making any loan to your subject LLC.

*Shared Motivations to Reinvest and Maintain Properties.* Additionally, the operating lease between your subject LLC and the operating lessee does not address reinvestment by the operating lessee in capital improvements for the properties. To induce reinvestment by its operating lessee, 60 East 42nd St. Associates L.L.C. and 250 West 57th St. Associates L.L.C. have agreed, in accordance with their participants' consent and the supervisor's recommendation, to extend the operating leases. These extensions have been coupled with consents by the operating lessees to allow financing on the entire property, which minimized the impact of reinvestment on operating profit and allowed for additional distributions from overage rent.

In connection with these extension and financing agreements, the basic rent has been increased by the amount of the increase in debt service arising from the financing, and such increase in basic rent is deducted in calculating overage rent, ultimately resulting in the debt service being shared 50/50 between each such subject LLC and its operating lessee. In the case of the Empire State

## Table of Contents

Building, because of the pendency of this proposed consolidation, there has been no such lease extension request, though the operating lessee has consented to limited advances under a property mortgage loan made to your subject LLC and has subordinated the operating lease to such advances. If the consolidation does not go forward, the operating lessee has indicated it will request additional lease extensions as a condition for subordination to additional mortgage advances at that time.

*Broader Markets for Property Sales.* Finally, as described under *Background of and Reasons for the Consolidation* The Supervisor's Reasons for Proposing the Consolidation in the prospectus/consent solicitation, the supervisor believes that, unless the operating lessee joins with the corresponding subject LLC in a sale of the property, such a sale would not maximize the value of the such subject LLC's interests in the property.

*Modern Governance Structure.* The company will have a modern governance structure. Capital reinvestment and financing decisions will be based on what is considered to be best for the company, and there will be no need to secure approvals of the operating lessee or your subject LLC. Such decisions will be made under a corporate governance structure governed by a board of directors, with six of seven directors being independent.

*Quarterly Distributions of a Minimum of 90% of REIT Taxable Income.* The supervisor expects that the company and the operating partnership will make regular quarterly cash distributions on its operating partnership units and common stock, which will include distributions of at least a minimum of 90% of annual REIT taxable income (determined without regard to the deduction for dividends paid, and excluding any net capital gains), as required for REIT qualification. REIT taxable income will be determined by the performance of the portfolio of the company's properties and unaffected by its stock price. Such distributions will be based on a portfolio of properties, rather than investors' being dependent on a single property. Your subject LLC generally has been required to maintain property-level reserves to meet potential future expenditures, including those relating to repairs, maintenance and capital improvement, and such reserves generally have been, and in the future, if the consolidation is not consummated, are expected to be, required under your subject LLC's loan agreements. The supervisor does not believe that property-level reserves will be required to be maintained by the company and, as a result, additional cash should be available to the company for distribution;

*Risk of Reduction in Distributions if Consolidation is Not Consummated.* Distributions from your subject LLC come from payments made by the operating lessee. Your operating lessee is required to pay a low basic rent to your subject LLC. Any payment you receive above that comes from the profits from your operating lessee's performance and comes in the form of payment of overage rent out of profits from the operating lessee's operations of the property. The operating lessee makes all decisions relating to the operations of the property.

Decisions over which the operating lessee has control which directly impact whether or not there is overage rent from which you may receive additional distributions include whether or not to lease, whether or not to improve the property, whether to use the cash flow from the property or to seek financing for capital expenditures, and whether to use cash flow for property-related expenses. From the overage rent which is paid, the supervisor maintains reserves for expenses. The balance, if any, is paid out as a distribution from overage rent. In recent years, overage rent has been made possible from time to time through the operating lessee working with your subject LLC to gain consents for financing, the operating lessee agreeing to borrow, and the proceeds of borrowing being used to pay for expenses rather than relying exclusively on cash flow from the property.

In the past, when the operating lessee for your subject LLC has not used financing, overage rent has decreased or ceased. If the operating lessee for your subject LLC exercises its right to use cash flow to fund future capital improvements, tenant installation costs, commissions and other expenses rather than to use financing, your distributions from overage rent may again decrease or cease. If the operating

## Table of Contents

lessee for your subject LLC has a deadlock in operating decision making, it may make decisions or take actions which meaningfully reduce the prospects of your subject LLC's receipt of overage rent in the future. Because of the pendency of this proposed consolidation, Empire State Building Company, L.L.C., the operating lessee, has consented to advances of up to the current outstanding principal amount under a property mortgage loan made to your subject LLC and has subordinated the operating lease to such advances, as required by the lender, without having requested an extension of the term of the operating lease.

If the consolidation does not go forward, it is possible that the operating lessee of your subject LLC may not approve additional advances under the loan agreement unless your subject LLC approves lease extensions, in which case the operating lessee may use cash flow for expenditures to improve the building and conclude leases, resulting in immediate and sustained reductions or cessation of overage rent, or may either defer or not make such expenditures.

Decisions as to whether to use cash flow or financing are made by the operating lessee from time to time and no decision has been made by the operating lessee of your subject LLC. Any decision by the operating lessee of your subject LLC would require the consent of the members of both the Malkin Holdings group and the Helmsley estate or their successor in interest.

*Increased Accountability.* As a result of the governance structure of a company with its Class A common stock and operating partnership units expected to be listed on the NYSE, stockholders will benefit from the oversight by a board of directors consisting predominantly of independent directors;

*Growth Potential.* The supervisor believes that you have greater potential for increased distributions as a unitholder or stockholder and increased value from capital appreciation than as a participant in your subject LLC. The supervisor's belief is based on the anticipated growth in the revenues of the initial properties operated as a portfolio under the Malkin brand and potential additional investments by the company;

*Greater and More Efficient Access to Capital.* The company will have a larger base of assets and believes that it will have a greater variety of options and ability to access the capital markets and the equity value in its assets than your subject LLC individually. As a result, the company expects to have greater and more efficient access to the capital necessary to fund its operations, fund renovations to the properties and consummate acquisitions than would be available to your subject LLC individually. The supervisor believes that it would be extremely difficult for your subject LLC to obtain similar access to capital due to their size and ownership structure;

*Elimination of Risk and Discount in Value from Subject LLC's Passive Ownership of the Property Interests.* Your subject LLC owns an interest in a single property subject to an operating lease. The operating lessee operates the property and your subject LLC does not participate in the management of the operations of the property. The market for the interest held by your subject LLC is smaller than that for, and your subject LLC's interests are less valuable than, the entire property not subject to the operating lease. Following the consolidation, ownership and operation of the properties owned by your subject LLC and the operating lessee will be integrated;

*Valuable Synergies.* Your subject LLC presently benefits from being part of a portfolio of properties with a common brand awareness. However, under the current structure, there are major obstacles to obtaining true synergies and realization of value, such as combining financings, movements of tenants from one building to another, sharing of employees and management and oversight. The consolidation will remove such obstacles and free up access to value creation;

*Position in Highly Desirable Marketplace.* The properties owned by the subject LLCs and the private entities are concentrated in Manhattan and the greater New York metropolitan area. The supervisor believes this is one of the most highly desired markets in the world for office and retail properties;

*Reduced Conflicts of Interest.* From inception, the supervisor has represented many different ownership interests, and your subject LLC, the other subject LLCs and the private entities, therefore, have been

**Table of Contents**

exposed to conflicts of interest. For example, the supervisor and persons associated with the supervisor act as an external manager for all of the entities (including the subject LLCs and the operating lessees), serve as agents for the participants in your subject LLC, the other subject LLCs and certain of the private entities determine when to make recommendations on sales, financings and operations of the properties, and make or recommend all operating and leasing decisions in all operating entities and all decisions of the subject LLCs. Decisions made by the supervisor in its capacity as supervisor of the operating lessees with regard to property operations dictate the cash available for distribution to the subject LLCs, which are also supervised by the supervisor. The company, on the other hand, will be managed by its officers, subject to the direction and control of its board of directors, which will consist predominantly of independent directors, and all the properties will be owned directly or indirectly by a single entity, without a division of interests. There will not be separate interests of different groups of owners and there will not be a role for, or requirement of, an outside supervisor. Accordingly, the supervisor believes this consolidated structure eliminates the conflicts inherent in the structure which have been there from inception of your subject LLC, the other subject LLCs and the private entities and more closely aligns the interests among the stockholders and management; and

*Election to Receive Operating Partnership Units, Class A Common Stock or Class B Common Stock.* Each participant in a subject LLC will have the option to receive operating partnership units in a transaction expected to be tax-deferred for U.S. federal income tax purposes. Each participant will receive operating partnership units, unless such participant elects to receive shares of Class A common stock or, to a limited extent, Class B common stock. Each participant may elect to receive one share of Class B common stock instead of one operating partnership unit for every 50 operating partnership units such participant would otherwise receive in the consolidation. Each share of Class B common stock has 50 votes on all matters on which stockholders are entitled to vote and the same economic interest as a share of Class A common stock, and one share of Class B common stock and 49 operating partnership units together represent a similar economic value as 50 shares of Class A common stock. The Malkin Holdings group will receive its consideration as follows: 97.00% in operating partnership units, 1.03% in Class A common stock and 1.97% in Class B common stock. The operating partnership units will be issued in three separate series to the participants in each of the three subject LLCs and a separate series to the participants in the private entities receiving operating partnership units and the Wien group. Each series of operating partnership unit will have identical rights as to distributions, liquidation and other rights as a limited partner in the operating partnership.

**Table of Contents**

**RISK FACTORS**

The risks from the consolidation and the third-party portfolio transaction generally are applicable to all of the subject LLCs, although certain of the risks affect your subject LLC differently from the other subject LLCs. Because all of the risks and adverse factors described in the consent solicitation apply to the effects of the consolidation on your subject LLC, as well as the other subject LLCs, you should carefully review the risks summarized below and the section entitled "Risk Factors" in the prospectus/consent solicitation.

*Risks which affect your subject LLC differently or which involve changes in the nature of your investment*

The following is a description of the risks which affect your subject LLC differently from the other subject LLCs.

***Fundamental Change in Nature of Investment.*** You no longer will hold a participation interest in your subject LLC that owns an interest in a single property, the Empire State Building, subject to an operating lease, which the supervisor believes has a greater value per square foot than properties of the other subject LLCs as is reflected in the Appraisal prepared by the independent valuer. Instead, you will own operating partnership units in the operating partnership and/or shares of common stock in the company if the consolidation is consummated, which will own a portfolio of office and retail assets in Manhattan and the greater New York metropolitan area.

After the consolidation, you will hold operating partnership units unless you elect to receive Class A common stock, or, to a limited extent, Class B common stock. Each participant may elect to receive one share of Class B common stock instead of one operating partnership unit for every 50 operating partnership units such participant would otherwise receive in the consolidation. Beginning 12 months after the completion of the IPO, the operating partnership units will be redeemable at your option for cash or, at the company's election, shares of Class A common stock. The operating partnership will be a majority owned subsidiary of the company. You will be subject to the risks inherent in investing in an operating partnership which is a majority owned subsidiary of the company, including the risk that the company may invest in new properties that are not as profitable as anticipated.

***Exposure to Market and Economic Conditions of other Properties.*** You no longer will hold a participation interest in your subject LLC that owns an interest in a single property subject to an operating lease located in Manhattan. Instead, you will own operating partnership units and/or shares of common stock in the company if the consolidation is consummated, which will own a portfolio of office and retail assets in Manhattan and the greater New York metropolitan area. The company will own, and in the future may invest in, types of properties different from those in which your subject LLC has invested, and you may be subject to increased risk because of the larger number of properties and broader types of properties held by the company.

***The Company Expects to Reinvest Proceeds.*** Historically, the supervisor generally has not reinvested the proceeds from a sale of properties by investment programs that it supervises, although it is not restricted from doing so. Net proceeds which are not reinvested or reserved in the supervisor's discretion would be distributed to the participants in accordance with your subject LLC's organizational documents. As the company expects to reinvest the proceeds from sales of its properties, you likely will not receive a distribution of any such proceeds, and such reinvestments may be made in properties that are not profitable.

***Future Acquisitions of Properties.*** While the participants in your subject LLC in 2008 authorized the supervisor to obtain financing to invest in properties, your subject LLC has not acquired any additional properties. The company may raise additional funds through equity or debt financings to make future acquisitions of properties. You may be subject to the risk that the company's future issuances of debt or equity securities or the company's other borrowings will reduce the market price of the operating partnership units or shares of Class A common stock and dilute your ownership in the company.

---

**Table of Contents**

***If You Do Not Consent to the Consolidation or the Third-Party Portfolio Proposal, Your Participation Interest Will be Purchased For a Price Substantially Below the Exchange Value.*** The organizational documents of your subject LLC provide that if holders of 80%, or the required consent, of the participation interests in any of the three participating groups in your subject LLC approve an action, the agents will purchase on behalf of the subject LLC the participation interests of participants who do not approve such action, and that price would be substantially below the exchange value of the interests. If the required supermajority consent of the participation interests in any participating group in the subject LLC approves the consolidation or the third-party portfolio proposal, the agent of such participating group will purchase on behalf of the subject LLC the participation interest of any participant in such participating group that voted **AGAINST** the consolidation or the third-party portfolio proposal, **ABSTAINED**, as applicable, or did not properly or timely submit a consent form, even if the proposal is not approved by the other participating groups in your subject LLC. The buyout amount for your interest would be substantially lower than the exchange value. The buyout amount, which is equal to the original cost less capital repaid, but not less than \$100, is currently \$100 for the interest held by a participant in your subject LLC as compared to the exchange value of \$323,803 (or \$358,670 if you are not subject to the voluntary capital override) for a \$10,000 original investment in your subject LLC. The agents are authorized under the participating agreements to buy out participation interests of participants that do not consent to the action if the required supermajority consent from the participants in your participating group is received, as described below. Since such buyout is necessary to provide for the required unanimous consent and is not conditioned on the transaction closing, the agent has the right to buy out participation interests from participants who do not vote **FOR** either proposal, if the required supermajority consent is received by the applicable participating group with respect to such proposal, within ten days after written notice, as described below, whether or not either or neither proposal is consummated.

Prior to an agent purchasing the participation interests of non-consenting participants in your subject LLC, an agent will give such participants not less than ten days notice after the required supermajority consent is received by the applicable participating group of your subject LLC to permit them to consent to the consolidation and/or the third-party portfolio proposal, in which case their participation interests will not be purchased.

Unanimity on the consents is required pursuant to the organizational documents of your subject LLC with respect to both the consolidation and the third-party portfolio proposal for the consent of a participating group; therefore, a participant who does not vote in favor of either the consolidation or third-party portfolio transaction proposal (and does not change his or her vote after notice that the requisite supermajority consent has been obtained) will be subject to this buyout regardless of whether either or neither transaction is consummated or the required consent of other participating groups is received. A vote for the proposed transaction by the participants constitutes an authorization for the agents of each participating group to approve, in their capacity as members of your subject LLC, the consolidation or the third-party portfolio transaction, as applicable. The agents, under the operating agreements of your subject LLC, have discretion, subject to their fiduciary duties, to determine whether to approve the transaction, even after supermajority approval has been obtained for either or both transactions and dissenting participants have been bought out. Additionally, the supervisor, acting on behalf of the subject LLCs and the agents, similarly has discretion, subject to its fiduciary duties, as to whether to abandon or to postpone the transaction, even after supermajority approval has been obtained for either or both transactions and dissenting participants have been bought out. The agents and supervisor could determine not to proceed with the consolidation and the IPO due to market conditions or other reasons.

***Uncertainties as to the Size and Makeup of the Company.*** The consolidation is conditioned on the contribution to the company of the property interests in the Empire State Building owned by your subject LLC, which owns the fee interest and the underlying land, and Empire State Building Company L.L.C., the private entity which is the operating lessee with respect to the Empire State Building, but is not conditioned on any of the other subject LLCs or private entities contributing their property interests

---

**Table of Contents**

to the company in the consolidation. Your subject LLC represents a significant portion of the exchange value and anticipated future net income and cash flow of the company.

*The Consolidation or a Third-Party Portfolio Transaction*

The following is a summary of the material risks of the consolidation and the third-party portfolio transaction. The risks are more fully discussed in Risk Factors in the prospectus/consent solicitation. You should consider these risks in determining whether or not to vote **FOR** the consolidation proposal or the third-party portfolio proposal.

***Uncertainties at the Time of Voting as to the Value of the Consideration You Will Receive.*** The fair market value of the consideration that you receive will not be known until the pricing of the IPO, which will occur after you vote upon the approval of the consolidation transaction. The valuation of the shares of consideration that you will receive in the consolidation, as presented in this supplement and the prospectus/consent solicitation, is based on the exchange value of your subject LLC and the aggregate exchange value. These exchange valuations were based on the Appraisal prepared by the independent valuer. The enterprise value (which is based on the IPO price) will be determined by, among other things, market conditions at the time of pricing of the IPO, the historical and future performance of the company and its portfolio of properties and the market's view of the company's net asset value and other valuation metrics. Today, some REITs' common stock trades at a premium to perceived net asset value and others trade at a discount to perceived net asset value. The market's view of the company's net asset value determined in connection with the IPO could be less than the exchange values determined based on the Appraisal. The Appraisal was undertaken in connection with establishing relative value for the purpose of allocation of interests in the company among contributors of interests in the properties and not to establish the value of shares of common stock in the company upon completion of the IPO. In contrast, the pricing of REIT initial public offerings generally takes into account different factors not considered in the Appraisal, including current conditions in the securities markets, investor preferences and the market's view of the company's management team. Additionally, the Appraisal did not take into account transaction costs for the consolidation and the IPO.

The supervisor believes that initial public offering pricing for REIT common stock generally is at a discount to the market price for common stock of well-established, publicly-traded REITs, and that the company's IPO pricing will be no different. For this and other reasons, the supervisor expects that the enterprise value at the pricing of the IPO will be lower than the aggregate exchange value at the pricing of the IPO, and such discount at the pricing of the IPO could be material and substantial. This discount cannot be determined until the pricing of the IPO;

***Uncertainties as to the Size and Makeup of the Company and the Consideration You Will Receive.*** You will not know at the time you vote on the consolidation the size, makeup and leverage of the company or the exact number of operating partnership units and/or shares of common stock that you will receive in the consolidation. The consolidation is conditioned on the contribution to the company of the property interests in the Empire State Building owned by your subject LLC, which owns the fee interest and the underlying land, and Empire State Building Company L.L.C., the private entity which is the operating lessee with respect to the Empire State Building, but is not conditioned on any of the other subject LLCs or private entities contributing their property interests to the company in the consolidation. Your subject LLC represents a significant portion of the exchange value and anticipated future net income and cash flow of the company;

***Possible Adverse Changes in Value.*** If the consolidation is approved, the contribution agreements require that the consolidation be consummated by December 31, 2014. There could be significant adverse changes in the value of the company between the date that the consents are received and the date of consummation of the consolidation. The consolidation may be consummated regardless of how significant such changes are and may be consummated notwithstanding such changes;

---

**Table of Contents**

***Exchange Value May Not Equal Fair Market Value of the Common Stock and Operating Partnership Units.*** The supervisor arbitrarily has assigned \$10 as the hypothetical value of each operating partnership unit and share of common stock for purposes of illustrating the number of shares of common stock and operating partnership units that will be issued to your subject LLC, the other subject LLCs, the private entities and the management companies in the consolidation. The IPO price of the Class A common stock may be below the hypothetical \$10 per share;

***Exposure to Market and Economic Conditions.*** After the consolidation and completion of the IPO, your investment will be subject to market risk and the trading price of the operating partnership units and Class A common stock may fluctuate significantly and may trade at prices below the IPO price. Your ability to sell operating partnership units and shares of Class A common stock will be subject to the restrictions of applicable U.S. federal and state securities laws and subject to the lock-up period described in the prospectus/consent solicitation;

***Value You Receive May Be Less than Fair Market Value of Your Participation Interests.*** The value of the operating partnership units and shares of common stock to be received by you in connection with the consolidation may be less than the fair market value of your participation interests in your subject LLC;

***Different Voting Rights.*** You will have different voting rights as a result of the consolidation. As a holder of participation interests in your subject LLC, you generally have voting rights only on the sale, mortgage or transfer of the interest in the property, modification of the existing lease on the property held by your subject LLC or entry into a new lease affecting your subject LLC. As a stockholder of the company, you will have voting rights that permit you to elect the board of directors and to approve certain major actions such as mergers and sales of all or substantially all of the assets of the company. Such voting rights do not include the right to consent to a financing.

Participants will receive operating partnership units, unless they elect to receive shares of Class A common stock or, to a limited extent, Class B common stock. Each participant may elect to receive one share of Class B common stock instead of one operating partnership unit for every 50 operating partnership units such participant would otherwise receive in the consolidation. While the holders of operating partnership units and stockholders of the company will have the same rights to distributions, holders of operating partnership units will not have the same voting rights as stockholders, although participants will have the right to elect to receive Class B common stock, which vote together as a class with the Class A common stock, in lieu of a portion of their operating partnership units;

***Changes in Distributions.*** As a result of the consolidation, you will no longer own a participation interest in your subject LLC which entitles you to a pro rata share of distributions made to participants in your subject LLC, derived from cash flow from operations or cash flow from sales or financings. Your subject LLC makes small regular monthly distributions and annual distributions out of overage rent to the extent paid under the operating lease, in each case, to the extent of available cash flow. You will hold operating partnership units in the operating partnership and/or shares of common stock in the company which will entitle you to a per share/unit amount of dividends and distributions paid with respect to the operating partnership units and/or common stock (which are expected to be paid quarterly and include distributions of at least 90% of the company's annual REIT taxable income determined without regard to the deduction for dividends paid, and excluding net capital gains, as is required for the company's continued REIT qualification), if, as and when declared by the board of directors of the company. The amount of such dividends and distributions and the timing thereof will be established by the company's board of directors;

***Termination of Fees and Distributions to Supervisor.*** As a result of the consolidation, the Malkin Holdings group and its affiliates will no longer receive supervisory fees and distributions on account of their participation interests and override interests. Anthony E. Malkin, David A. Karp, Thomas P. Durels and Thomas N. Keltner, Jr., executives of the supervisor, will become officers, and Mr. Malkin will become a director of the company and will receive customary salaries, bonuses and benefits as

---

**Table of Contents**

determined by the company's board of directors, in addition to dividends and distributions payable to the Malkin Holdings group in respect of shares of common stock and operating partnership units they hold;

***The trading market for the operating partnership units may be more limited than the trading market for shares of Class A common stock.*** While the operating partnership units that participants may receive in accordance with their election will be listed on the NYSE, operating partnership units will not be issued in the IPO and will not have voting rights in the company. The trading market for the operating partnership units may be less active than the trading market for the Class A common stock, and an active trading market for the operating partnership units may not develop. Accordingly, holders of operating partnership units seeking liquidity may need to redeem their operating partnership units for cash or, at the company's option, Class A common stock, which they only have the option to do beginning 12 months after the completion of the IPO to achieve liquidity;

Common stock may only be issuable in exchange for operating partnership units if there is an effective registration statement filed with the SEC or an exemption from registration is available. While you will be afforded certain registration rights with respect to any shares of Class A common stock issued in exchange for the operating partnership units, you will not be issued Class A common stock unless such a registration statement, with respect to the issuance of Class A common stock in exchange for your operating partnership units, has been filed with the SEC and is effective or an exemption from registration is available.

The operating partnership units to be issued to participants in the subject LLCs will be issued in three separate series to the participants in each of the three subject LLCs (other than the Wien group), each of which will be listed and traded separately. Because the operating partnership units are in separate series, there will be fewer holders of each series. While each of the series has the same rights, the tax consequences to a participant that receives, and a subsequent purchaser of, operating partnership units of a particular series will be different than those to a participant that receives, and a subsequent purchaser of, operating partnership units of another series (based on different and unique tax attributes of the properties being contributed by each of the subject LLCs). These factors may adversely affect the market for operating partnership units. To avoid such factors and to achieve liquidity, holders of operating partnership units may elect to exercise their redemption rights with respect to such operating partnership units, which commence 12 months after the completion of the IPO, and, if applicable, sell the Class A common stock received in such exchange.

The operating partnership units that participants may receive in accordance with their election will be listed on the NYSE, but generally will be subject to lock-up agreements pursuant to which the participants in the subject LLCs and private entities may not sell or otherwise transfer or encumber shares of common stock or operating partnership units (i) with respect to 50% of the operating partnership units owned by them at completion of the IPO, for a period of 180 days after the IPO pricing date and (ii) with respect to any remaining operating partnership units, for a period of one year after the IPO pricing date, in each case without first obtaining the written consent of the representatives of the underwriters in the IPO. See "The Consolidation Lock Up Agreements" in the prospectus/consent solicitation.

***No Independent Representative.*** While your subject LLC's exchange value has been determined based on the Appraisal prepared by the independent valuer, which has also delivered a fairness opinion, no independent representative was retained to negotiate on behalf of the participants. There are 23 subject LLCs and private entities and groups with different interests in many of these entities. The supervisor does not believe that a single independent representative could have represented the interests of all participants and believes that to locate and retain an independent and equally competent and qualified representative for each separate interest in the consolidation is not possible. The supervisor represents the interests of all participants in the subject LLCs and private entities. The supervisor has served the same role in the past for sales of other properties with different groups of participants, which included the sale of three office properties in New York City in the past fifteen years, 200 Fifth Avenue (known

## **Table of Contents**

as the International Toy Center), 498 Seventh Avenue and 500-512 Seventh Avenue, and believes it is not required to retain any independent representative on behalf of each group of participants or all of the participants as a whole. The supervisor believes the Appraisal prepared by the independent valuer serves the purposes of representing all parties fairly and that the consolidation is fair to all participants regardless of the absence of any such independent representative. If a representative or representatives had been retained for the participants, the terms of the consolidation might have been different and, possibly, more favorable to the participants;

***Fairness Opinion Addressed only the Allocation of the Consideration.*** While the independent valuer appraised each property, the independent valuer's fairness opinion addressed only the allocation of consideration (Class A common stock, Class B common stock, operating partnership units or cash consideration) (i) among your subject LLC, the other subject LLCs, the private entities and the management companies and (ii) to the participants in your subject LLC, the other subject LLCs and each private entity (without giving effect to any impact of the consolidation on any particular participant other than in its capacity as a participant in each of the subject LLCs and each of the private entities);

***Fairness Opinion Cannot Address Market Value of Operating Partnership Units and/or Common Stock.*** The independent valuer's fairness opinion cannot address either the market value of the operating partnership units and/or common stock you will receive, which can only be set by the market value at the time the IPO is consummated;

***Participation in the Consolidation Eliminates Other Alternatives to the Consolidation.*** If the required percentage of participation interests in the participating groups in your subject LLC approves the consolidation and your subject LLC is consolidated with the company, your subject LLC no longer can enter into alternatives to the consolidation. These alternatives include (i) continuation of your subject LLC and (ii) a sale of your subject LLC's interest in the property followed by the distribution of the net proceeds to its participants;

***Conflicts of Interest.*** From inception, the supervisor has represented many different ownership interests, and the subject LLCs and the private entities, therefore, have been exposed to conflicts of interest. For example, the supervisor and persons associated with the supervisor, act as an external manager for all of the entities (including the subject LLCs and operating lessees), serve as agents for the participants in your subject LLC, the other subject LLCs and certain of the private entities, determine when to make recommendations on sales, financings and operations of the properties, and make or recommend all operating and leasing decisions in all operating entities. Decisions made with regard to property operations dictate the cash available for distribution to the subject LLCs;

***Benefits to Malkin Holdings Group.*** The Malkin Holdings group will receive shares of Class A common stock and Class B common stock and operating partnership units which are exchangeable for cash or, at the company's election, Class A common stock, having an aggregate value of \$730,781,533, which they will receive in accordance with the allocation of exchange value based on the Appraisal by the independent valuer. The amounts allocated to the Malkin Holdings group consist of: their interests as participants which will be allocated to them on the same basis as other participants; their interests as holders of override interests which will be allocated to them in accordance with the subject LLCs' and private entities' organizational documents; and their interests in the management companies, which will be allocated to them in accordance with the valuations of the management companies by the independent valuer. This is in addition to shares of Class A common stock issuable in respect of the voluntary pro rata reimbursement program consented to by participants in the subject LLCs and its share of distributions of any cash available for distribution from the subject LLCs prior to the consolidation. The Malkin Holdings group also will receive other benefits from the consolidation, and have interests that conflict with those of the participants. The Malkin Family is also subject to a longer lock-up period than other participants before they can begin to sell common stock or operating partnership units. The Malkin Family may not sell their common stock or operating partnership units until one year after the IPO pricing date. See Summary Conflicts of Interest and Benefits to the Supervisor and its Affiliates in the prospectus/consent solicitation;

---

**Table of Contents**

***Benefits to Certain Persons.*** Upon completion of the IPO, the company expects to grant LTIP units and/or restricted shares of its Class A common stock to its independent directors, executive officers (other than Anthony E. Malkin) and certain other employees, including certain executives of the supervisor. Assuming the company receives gross proceeds from the IPO of \$1,000,000,000 (excluding the underwriters' option to purchase additional shares of the company's Class A common stock), and assuming an IPO price of \$10 per share, David A. Karp, the company's Chief Financial Officer, Executive Vice President and Treasurer, is expected to be granted 114,500 LTIP units and/or restricted shares of Class A common stock, Thomas P. Durels, the company's Executive Vice President and Chief of Property Operations and Leasing, is expected to be granted 395,700 LTIP units and/or restricted shares of Class A common stock, and Thomas N. Keltner, Jr., the company's Executive Vice President, General Counsel and Secretary, is expected to be granted 252,800 LTIP units and/or restricted shares of Class A common stock. The LTIP units and/or restricted share will be subject to time-vesting and/or performance-vesting over a three to four year period;

***Participants are Urged to Consult with Their Tax Advisors.*** While you have the option to receive operating partnership units in a transaction expected to be tax-deferred for U.S. federal income tax purposes, if you receive solely Class A common stock, you generally will recognize gain or loss for U.S. federal income tax purposes with respect to your participation interest equal to the amount by which the value of the shares of Class A common stock you receive in connection with the consolidation, plus the amount of liabilities allocable to your participation interest, exceeds your tax basis in your participation interest. You will recognize phantom income (i.e., income in excess of the value of any shares of Class A common stock you receive) if you have a negative capital account with respect to your participation interest. If you receive a combination of operating partnership units and common stock, you may also recognize gain or loss for U.S. federal income tax purposes. The tax consequences of the consolidation are more fully described under U.S. Federal Income Tax Considerations U.S. Federal Income Tax Consequences of the Consolidation and U.S. Federal Income Tax Consideration of the Voluntary Pro Rata Reimbursement Program for the Former Property Manager and Leasing Agent Legal Proceedings. in the prospectus/consent solicitation. The supervisor urges you to consult with your tax advisor to evaluate the tax consequences to you in your particular circumstances as a result of your participation in the consolidation;

***The Supervisor May Not Approve a Third-Party Portfolio Transaction Even if it Provides for Premium Over Consideration in Consolidation.*** The supervisor may determine not to approve a third-party portfolio transaction even if it provides for more consideration than to be issued or paid pursuant to the consolidation. The supervisor is authorized to approve a third-party portfolio transaction only if the aggregate consideration is at least 115% of the aggregate exchange value for the subject LLCs, the private entities and the management companies included in the third-party portfolio transaction and certain other conditions are met; provided that, subject to its fiduciary duties, the supervisor is not required to accept any offer that the supervisor is authorized to accept. The supervisor has agreed that it will not accept a third-party offer unless it is unanimously approved by a committee which will include representatives of the supervisor and a representative of the Helmsley estate;

***Uncertainties at the Time of Voting Include the Terms of Third-Party Portfolio Transaction.*** At the time you vote on the third-party portfolio proposal, there will be significant uncertainties as to the terms of any third-party portfolio transaction, a proposal for which may not be received until after the consent solicitation has been completed, including the amount of consideration you would receive if a third-party portfolio transaction is consummated. These uncertainties affect your ability to evaluate the third-party portfolio proposal. The supervisor may approve a third-party portfolio transaction which you may view as less favorable than the consolidation; and

***Conflicts of Interest.*** The supervisor, the agents and their affiliates serve in their respective capacities with respect to your subject LLC, the other subject LLCs and the private entities and, as such, have conflicts of interest in connection with decisions concerning the terms of a third-party portfolio transaction.

## **Table of Contents**

### *Ownership of Operating Partnership Units in the Operating Partnership and Shares of Common Stock in the Company*

The following is a summary of the material risks of ownership of operating partnership units in the operating partnership and shares of common stock in the company.

***Cash Distributions May be Less than Distributions of Your Subject LLC.*** There is no assurance as to the amount or source of funds for the estimated initial cash distributions of the operating partnership or the company, and the expected initial cash distributions to the participants following the consolidation could be less than the estimated cash distributions participants would receive from your subject LLC;

***Adverse Economic and Regulatory and Geopolitical Conditions of Manhattan and the Greater New York Metropolitan Area.*** All of the company's properties are located in Manhattan and the greater New York metropolitan area, in particular midtown Manhattan, and adverse economic or regulatory developments in this area could materially and adversely affect the company. Adverse economic and geopolitical conditions in general and in Manhattan and the greater New York metropolitan area commercial office and retail markets in particular, could have a material and adverse effect on the company's results of operations, financial condition and its ability to make distributions to its stockholders and holders of operating partnership units;

***Risks Associated with Renovation and Repositioning.*** There can be no assurance that the company's renovation and repositioning program will be completed in its entirety in accordance with the anticipated timing or at the anticipated cost, or that the company will achieve the results the company expects from the company's renovation and repositioning program, which could materially and adversely affect the company's financial condition and results of operations;

***Expiration of Leases and Possible Inability to Find Other Lessees.*** The company may be unable to renew leases, lease vacant space or re-lease space on favorable terms or at all as leases expire, which could materially and adversely affect the company's financial condition, results of operations and cash flow;

***Risks Associated with Property Redevelopment and Developments.*** The company is exposed to risks associated with property redevelopment and development that could materially and adversely affect its financial condition and results of operations;

***Dependence on Significant Tenants.*** The company depends on significant tenants in its office portfolio, including LF USA, Coty, Inc., Legg Mason, Warnaco and Thomson Reuters, which together represented approximately 19.2% of the company's total portfolio's annualized base rent as of June 30, 2012;

***Dependence on Rental Income.*** The company's dependence on rental income may materially and adversely affect its profitability, its ability to meet its debt obligations and its ability to make distributions to its stockholders and holders of operating partnership units;

***Competition for Acquisitions.*** Competition for acquisitions may reduce the number of acquisition opportunities available to the company and increase the costs of those acquisitions, which may impede the company's growth;

***Risks of Observatory Operations.*** The observatory operations at the Empire State Building are not traditional real estate operations, and competition and changes in tourist trends may subject the company to additional risks;

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

***Risks of Broadcasting Operations.*** The broadcasting operations at the Empire State Building are not traditional real estate operations, and competition and changes in the broadcasting of signals over air may subject the company to additional risks, which could materially and adversely affect the company;

***Option Properties Risks.*** The company has an option to acquire from three private entities supervised by the supervisor two additional Manhattan office properties after an on-going litigation is resolved.

S1-25

**Table of Contents**

These properties, which are referred to herein as the option properties, are subject to various risks, including but not limited to risks relating to the terms of the option agreements and risks relating to the ground leases with respect to the option properties, and the company may not acquire them;

***Risks of Outstanding Indebtedness.*** The company's outstanding indebtedness upon completion of the IPO reduces cash available for distribution and may expose the company to the risk of default under its debt obligations;

***Continuing Threat of a Terrorist Event.*** The continuing threat of a terrorist event may materially and adversely affect the company's properties, their value and the ability to generate cash flow;

***Exposure to Unknown Liabilities.*** The company may assume unknown liabilities in connection with the consolidation, which, if significant, could materially and adversely affect its business;

***Risk of Departure of Key Personnel.*** The departure of any of the company's key personnel could materially and adversely affect the company;

***The Company's Chairman Has Outside Business Interests.*** The company's Chairman, Chief Executive Officer and President has outside business interests that will take his time and attention away from the company, which could materially and adversely affect the company;

***Exposure To Risks Associated With Real Estate Assets And The Real Estate Industry.*** The company's operating performance and value are subject to risks associated with real estate assets and the real estate industry, the occurrence of which could materially and adversely affect the company;

***No Operating History as REIT or as a Publicly-Traded Company.*** The company has no operating history as a REIT or as a publicly-traded company and its lack of experience could materially and adversely affect the company;

***Maryland Law Could Inhibit Changes in Control.*** Certain provisions of Maryland law could inhibit changes in control of the company, which could negatively affect the market price of the Class A common stock;

***No Public Market for Class A Common Stock or Operating Partnership Units Prior to the IPO.*** There will be no public market for the operating partnership units or common stock prior to the IPO and an active trading market may not develop or be sustained following the IPO, which may negatively affect the market price of the operating partnership units and shares of the Class A common stock and make it difficult for investors to sell their operating partnership units and shares;

***Cash Available for Distribution May not be Sufficient.*** Cash available for distribution may not be sufficient to make distributions at expected levels;

***Failure of the Operating Partnership to Maintain its Status as a Partnership and/or of the Company to Qualify as a REIT for U.S. Federal Income Tax Purposes.*** Failure of the operating partnership to maintain its status as a partnership and/or the company to qualify or remain qualified as a REIT for U.S. federal income tax purposes would subject the operating partnership and/or the company to U.S. federal income tax and applicable state and local taxes, which would reduce the amount of cash available for distribution to the holders of operating partnership units and/or company shareholders; and

***REIT Distribution Requirements Could Require The Company to Borrow Funds or Subject the Company to Tax.*** The REIT distribution requirements could require the company to borrow funds during unfavorable market conditions or subject the company to tax, which would reduce the cash available for distribution to the stockholders.

S1-26

**FORWARD-LOOKING STATEMENTS**

This supplement and the prospectus/consent solicitation contain forward-looking statements. In particular, statements pertaining to the company's and the subject LLC's capital resources, portfolio performance, dividend policy and results of operations contain forward-looking statements. Likewise, the company's unaudited pro forma financial statements and all the company's statements regarding anticipated growth in the company's portfolio from operations, acquisitions and anticipated market conditions, demographics and results of operations are forward-looking statements. Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of future events. You can identify forward-looking statements by the use of forward-looking terminology such as believes, expects, may, will, should, seeks, preliminary, approximately, intends, plans, pro forma, estimates, contemplates, aims, continues, would or anticipate. These words and phrases or similar words or phrases. Forward-looking statements depend on assumptions, data or methods which may be incorrect or imprecise and the company may not be able to realize them. The company and the supervisor do not guarantee that the transactions and events described will happen as described (or that they will happen at all). The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements:

the factors included in the supplement and the prospectus/consent solicitation, including those set forth under the headings Risk Factors, Management's Discussion and Analysis of Financial Condition and Results of Operations of Empire State Realty Trust and The Company Business and Properties;

the effect of the credit crisis on general economic, business and financial conditions, and changes in the company's industry and changes in the real estate markets in particular, either nationally or in Manhattan or the greater New York metropolitan area;

resolution of the class action lawsuits;

the value of the operating partnership units and shares of common stock that you will receive in the consolidation;

reduced demand for office or retail space;

use of proceeds of the IPO;

general volatility of the capital and credit markets;

the market price of the company's operating partnership units and Class A common stock issued to participants in the subject LLCs, including the amount of discount of enterprise value to exchange value;

changes in the company's business strategy;

defaults on, early terminations of or non-renewal of leases by tenants;

bankruptcy or insolvency of a major tenant or a significant number of smaller tenants;

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

fluctuations in interest rates and increased operating costs;

declining real estate valuations and impairment charges;

availability, terms and deployment of capital;

the company's failure to obtain necessary outside financing, including the company's expected new secured revolving and term credit facility, which is described in the prospectus/consent solicitation;

the company's expected leverage;

decreased rental rates or increased vacancy rates;

the company's failure to generate sufficient cash flows to service its outstanding indebtedness;

the company's failure to redevelop, renovate and reposition properties successfully or on the anticipated timeline or at the anticipated costs;

S1-27

**Table of Contents**

difficulties in identifying properties to acquire and completing acquisitions, including potentially the option properties described in the prospectus/consent solicitation;

risks of real estate acquisitions, dispositions and development, including the cost of construction delays and cost overruns;

the company's failure to operate acquired properties and operations successfully;

the company's projected operating results;

the company's ability to manage its growth effectively;

estimates relating to the company's ability to make distributions to its stockholders in the future;

impact of changes in governmental regulations, tax law and rates and similar matters;

the failure of the operating partnership to maintain its status as a partnership for U.S. federal income tax purposes;

the company's failure to qualify as a REIT;

future terrorist events in the U.S.;

environmental uncertainties and risks related to adverse weather conditions and natural disasters;

lack or insufficient amounts of insurance;

financial market fluctuations;

availability of and the company's ability to attract and retain qualified personnel;

conflicts of interest with the company's senior management team;

the company's understanding of its competition;

changes in real estate and zoning laws and increases in real property tax rates and

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

the company's ability to comply with the laws, rules and regulations applicable to companies and, in particular, public companies. While forward-looking statements reflect the company's or the supervisor's, as applicable, good faith beliefs, they are not guarantees of future performance. The company and the supervisor disclaim any obligation publicly to update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes after the date of this supplement, except as required by applicable law. For a further discussion of these and other factors that could impact the company's future results, performance or transactions, see the sections entitled "Risk Factors" in this supplement and the prospectus/consent solicitation. You should not place undue reliance on any forward-looking statements, which are based only on information currently available to the company (or to third parties making the forward-looking statements). The company and the supervisor undertake no obligation publicly to release any revision to such forward-looking statement to reflect events or circumstances after the date of this supplement or the prospectus/consent solicitation, except as required by applicable law.

S1-28

**Table of Contents**

**EFFECT OF CONSOLIDATION ON SUBJECT LLCS NOT ACQUIRED**

If the company does not acquire your subject LLC's assets in the consolidation or if the consolidation is not consummated and a third-party portfolio transaction is not consummated, your subject LLC will continue to operate as a separate limited liability company with its own assets and liabilities and will bear its proportionate share of the expenses of the consolidation. If the consolidation is not consummated, there will be no change in your subject LLC's investment objectives and it will remain subject to the terms of its organizational documents.

S1-29

**Table of Contents**

**SHARES OF COMMON STOCK ON A FULLY-DILUTED BASIS TO BE  
ALLOCATED TO YOUR SUBJECT LLC**

The number of shares of common stock, on a fully-diluted basis, to be allocated to your subject LLC was determined based on the Appraisal by Duff & Phelps, LLC, the independent valuer, as set forth under Summary Allocation of Consideration in the Consolidation in the prospectus/consent solicitation.

The number of shares of common stock and operating partnership units actually issued in the consolidation will be equal to the aggregate enterprise value divided by the IPO price. For illustrative purposes only, this supplement includes information regarding the allocation of common stock and operating partnership units based on a hypothetical value of \$10 per share and a hypothetical enterprise value equal to the aggregate exchange value arbitrarily assigned by the supervisor to illustrate the allocation of the common stock and operating partnership units and to determine the hypothetical number of outstanding common stock and operating partnership units.

The table below shows such illustrative allocation of common stock, on a fully-diluted basis, to your subject LLC and the private entity that is the operating lessee of the property. The table below assumes that all subject LLCs and all private entities participate in the consolidation. The table below also assumes that all participants in the private entities and the equity owners of the management companies receive operating partnership units or shares of common stock. The actual number of shares of common stock and operating partnership units allocated to each subject LLC and private entity upon consummation of the consolidation will be reduced by an amount equal to the number of shares of common stock or operating partnership units that would have been issuable to participants in the subject LLCs and the private entities that receive cash. The table assumes that the enterprise value in connection with the IPO equals the aggregate exchange value.

| Entity  | Exchange Value   | Common<br>Stock, on a<br>Fully-Diluted<br>Basis <sup>(1)</sup> | Percentage of<br>Total Exchange<br>Value and<br>Percentage of<br>Total Shares of<br>Common<br>Stock<br>Issued, on a<br>Fully-Diluted<br>Basis |
|---|------------------|--|---|
| Empire State Building Associates L.L.C.             | \$ 1,183,612,549 | 118,361,255  | 28.3%   |
| Empire State Building Company L.L.C. <sup>(2)</sup> | \$ 1,162,136,482 | 116,213,648  | 27.8%   |

- (1) The number of shares of common stock issued, on a fully-diluted basis, equals the number of shares of Class A common stock issued in the consolidation plus shares of Class A common stock issuable upon the exchange of operating partnership units or upon conversion of Class B common stock for shares of Class A common stock on a one-for-one basis. To the extent that participants in the private entities that are non-accredited investors or charitable organizations receive cash, the common stock which would have been issued to them, will not be issued. As a result, the number of outstanding shares of common stock will be reduced and the percentage of the common stock each other participant owns will increase. The number of shares of Class A common stock, Class B common stock and operating partnership units issued in the consolidation will be determined based on the company's enterprise value, which will be determined based on the IPO price. Enterprise value is calculated without giving effect to shares of Class A common stock issued in the IPO. The enterprise value (which is based on the IPO price) will be determined by, among other things, market conditions at the time of pricing of the IPO, the historical and future performance of the company and its portfolio of properties and the market's view of the company's net asset value and other valuation metrics. Today, some REITs' common stock trades at a premium to perceived net asset value and others trade at a discount to perceived net asset value. The market's view of the company's net asset value determined in connection with the IPO could be less than the exchange values determined based on the Appraisal. The Appraisal was undertaken in connection with establishing relative value for the purpose of allocation of interests in the company among contributors of interests in the properties and not to establish the value of shares of common stock in the company upon completion of the IPO. In contrast, the pricing of REIT initial public offerings generally takes into account different factors not considered in the Appraisal, including current conditions in the securities markets, investor preferences and the market's view of the company's management team. Additionally, the Appraisal did not take into account transaction costs for the consolidation and the IPO.

The supervisor believes that initial public offering pricing for REIT common stock generally is at a discount to the market price for common stock of well-established, publicly-traded REITs, and that the company's IPO pricing will be no different. For this and other

**Table of Contents**

reasons, the supervisor expects that the enterprise value at the pricing of the IPO will be lower than the aggregate exchange value at the pricing of the IPO, and such discount at the pricing of the IPO could be material and substantial. This discount cannot be determined until the pricing of the IPO. As the company continues to develop a track record as a public company, the supervisor believes that the company's trading price following the IPO will be based on, among other things, the company's historical and future performance, its performance relative to its peers, market conditions generally and its continued seasoning in the public markets. The company currently intends to pay regular quarterly dividends based on the performance of the company and its portfolio of properties, rather than just one property, and those distributions are required to be at least 90% of annual REIT taxable income (determined without regard to the deduction for dividends paid, and excluding net capital gains) to maintain its qualification as a REIT. REIT taxable income will be determined by the performance of the portfolio of the company's properties and unaffected by its stock price.

(2) Operating lessee of Empire State Building Associates L.L.C.

For a detailed explanation of the manner in which the allocations are made, see Exchange Value and Allocation of Operating Partnership Units and Common Stock Allocation of Common Stock and Operating Partnership Units among the Subject LLCs, the Private Entities and the Management Companies in the prospectus/consent solicitation.

---

**Table of Contents**

**EXCHANGE VALUE AND ALLOCATION OF OPERATING PARTNERSHIP UNITS AND COMMON STOCK**

The shares of common stock and operating partnership units to be issued to each subject LLC, each private entity and the management companies will be allocated based on their respective share of the aggregate exchange value. The exchange value for each subject LLC, each private entity and the management companies was determined as of June 30, 2012 to establish a consistent method of allocating common stock and operating partnership units for purposes of the consolidation.

The number of shares of common stock, on a fully-diluted basis, to be issued in the consolidation, as presented in this supplement and the prospectus/consent solicitation, was determined by dividing the aggregate exchange value by \$10, and your subject LLC's share of the common stock, on a fully-diluted basis, to be issued in the consolidation is equal to its exchange value divided by \$10. The hypothetical value per share of \$10 was an arbitrary amount chosen by the supervisor for the sole purpose of illustrating the allocation of common stock and operating partnership units.

The fair market value of the consideration that you receive will not be known until the pricing of the IPO, which will occur after you vote upon the approval of the consolidation transaction. The value of the consideration will be based on the enterprise value determined in connection with the pricing of the IPO. The actual number of shares of common stock, on a fully-diluted basis, issued in the consolidation will equal the enterprise value of the company divided by the IPO price. The shares of common stock, on a fully-diluted basis, will be allocated among your subject LLC, the other subject LLCs, the private entities, and the management companies in proportion to their relative share of the aggregate exchange value. The enterprise value (which is based on the IPO price) will be determined by, among other things, market conditions at the time of pricing of the IPO, the historical and future performance of the company and its portfolio of properties and the market's view of the company's net asset value and other valuation metrics. Today, some REITs' common stock trades at a premium to perceived net asset value and others trade at a discount to perceived net asset value. The market's view of the company's net asset value determined in connection with the IPO could be less than the exchange values determined based on the Appraisal. The Appraisal was undertaken in connection with establishing relative value for the purpose of allocation of interests in the company among contributors of interests in the properties and not to establish the value of shares of common stock in the company upon completion of the IPO. In contrast, the pricing of REIT initial public offerings generally takes into account different factors not considered in the Appraisal, including current conditions in the securities markets, investor preferences and the market's view of the company's management team. Additionally, the Appraisal did not take into account transaction costs for the consolidation and the IPO.

The supervisor believes that initial public offering pricing for REIT common stock generally is at a discount to the market price for common stock of well-established, publicly-traded REITs, and that the company's IPO pricing will be no different. For this and other reasons, the supervisor expects that the enterprise value at the pricing of the IPO will be lower than the aggregate exchange value at the pricing of the IPO, and such discount at the pricing of the IPO could be material and substantial. This discount cannot be determined until the pricing of the IPO. As the company continues to develop a track record as a public company, the supervisor believes that the company's trading price following the IPO will be based on, among other things, the company's historical and future performance, its performance relative to its peers, market conditions generally and its continued seasoning in the public markets. The company currently intends to pay regular quarterly dividends based on the performance of the company and its portfolio of properties, rather than just one property, and those distributions are required to be at least 90% of annual REIT taxable income (determined without regard to the deduction for dividends paid, and excluding net capital gains) to maintain its qualification as a REIT. REIT taxable income will be determined by the performance of the portfolio of the company's properties and unaffected by its stock price.

No fractional operating partnership unit or share of common stock will be issued by the company in connection with the consolidation. See "No Fractional Share of Common Stock" in the prospectus/consent solicitation.

**Table of Contents**

*Adjustments to Exchange Value and Allocation of Operating Partnership Units and Shares of Common Stock.* All determinations of the exchange value for purposes of allocating the common stock and operating partnership units among the subject LLCs, the private entities and the management companies were determined as of June 30, 2012 in the manner described below under Derivation of Exchange Values. The exchange value will be revised to reflect changes in the balance sheet items included in the calculation of the exchange value in subsequent quarterly balance sheets but will not be revised based on changes in the balance sheets or other events after the final quarterly balance sheet date prior to the closing of the consolidation. No other adjustment will be made to the allocations of any of the subject LLCs, private entities or the management companies. As of the date of the prospectus/consent solicitation and this supplement, the supervisor does not know of any material change regarding your subject LLC that will affect materially the exchange value for your subject LLC.

For a detailed explanation of the manner in which the allocations are made, see Exchange Value and Allocation of Operating Partnership Units and Common Stock in the prospectus/consent solicitation.

**Derivation of Exchange Values**

*Your subject LLC* the exchange value of your subject LLC has been determined by the independent valuer as follows:

the total allocable value as described below has been allocated equally between your subject LLC and the operating lessee:

the total allocable value equals:

the sum of:

the appraised value, on a fee simple basis, of Empire State Building, as determined by the independent valuer's Appraisal of such property, as of June 30, 2012 and

the amount by which the actual net working capital of both your subject LLC and the operating lessee exceeds (such value being negative if it is exceeded by) the normalized level of net working capital required to operate the property owned by your subject LLC, except for cash in excess of the normalized level of working capital which will be retained by your subject LLC and the operating lessee and distributed to your subject LLC's and the operating lessee's participants. Net working capital as used in this allocation is defined as current assets (excluding cash and cash equivalents, except to the extent required to maintain the normalized levels of working capital), less current liabilities (excluding the current portion of debt). As of June 30, 2012 the supervisor determined that there was no excess or deficit in the net working capital over the normalized level of working capital at any of the subject LLCs or operating lessees, with the exception of the unpaid cash overrides addressed below and

the amount of cash held by your subject LLC and the operating lessee that is expressly designated for property improvements, as of June 30, 2012, as provided by the supervisor;

reduced by:

the face value of shared mortgage debt obligations, which are mortgage debt obligations of your subject LLC that are serviced by basic rent paid by the operating lessee, as of June 30, 2012 and

## Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

the present value of the base operating lease payments from the operating lessee to your subject LLC.

fifty percent of such allocable value is allocated to your subject LLC and is adjusted as follows to estimate the exchange value of your subject LLC:

subtract the after-tax present value of supervisory fees paid to the supervisor and the unpaid cash flow overrides as of June 30, 2012;

S1-33

---

**Table of Contents**

subtract your subject LLC's debt obligations that are not shared mortgage debt obligations serviced with basic rent paid by the operating lessee as of June 30, 2012 and

add the present value of the base operating lease payments from the operating lessee to your subject LLC.

The allocable value was allocated 50% to your subject LLC and 50% to the operating lessee of the property instead of being allocated in accordance with discounted cash flow based on representations of the supervisor as to the original intent to treat the two entities as equivalent to a joint venture and the historical treatment of the two entities in this manner. The supervisor has represented that historically, agreements have been entered into to share capital expenditure and financing costs and the operating leases have been extended in connection therewith. The reasons why the supervisor made this representation and believes that it is reasonable and appropriate are described under Reports, Opinions and Appraisals Appraisal Supervisor's Reasons for Representation as to 50/50 Allocation in the prospectus/consent solicitation.

The independent valuer initially provided a preliminary draft valuation that allocated the property value based upon the lease agreements between the lessor and the operating lessee using a discounted cash flow analysis. Such draft valuation allocated additional value to the lessor by attributing value to the residual interest (that is, the value of the property at the expiration of the operating lease), which the independent valuer determined on a discounted cash flow basis by (a) applying an assumed inflation rate to forecast such residual value and (b) then computing the net present value of that residual by applying a discount rate. The independent valuer's preliminary draft valuation also allocated all of the debt to the lessor. Pursuant to the operating lease terms as amended for each financing, the debt service on shared mortgage indebtedness is a shared expense between the lessor and the operating lessee, but the principal amount due on maturity is contractually only an obligation of the lessor. Under the final method used to allocate the appraised value between your subject LLC and the operating lessee, shared mortgage indebtedness was allocated 50% to your subject LLC and 50% to the operating lessee, except for \$60,500,000 of debt of Empire State Building Associates L.L.C. relating to financing costs incurred by Empire State Building Associates L.L.C in connection with the acquisition of the fee interest, which benefited Empire State Building Associates L.L.C as it was relieved of the obligation to pay the ground rent. As a result of the foregoing, the allocable value has been allocated equally to your subject LLC and the operating lessee of the property, rather than in proportion to discounted cash flow, which would have resulted in a significantly higher allocation to the subject LLC.

Set forth below is a comparison of the allocation of value of your subject LLC and its operating lessee using the joint venture methodology ( JV ) and the discounted cash flow method for calculating the residual ( DCF ).

Each of the valuations has been calculated based on the valuation inputs used to calculate the exchange values shown in the prospectus/consent solicitation.

The valuation based on the discounted cash flow method, as set forth below, was calculated by the independent valuer. The supervisor requested the independent valuer in September 2012 to calculate the exchange values using the discounted cash flow methodology on this basis solely for illustrative purposes to show participants the effect of the different methods. This illustrative valuation prepared by the independent valuer and summarized below was not prepared based on the same valuation inputs as the original valuation using the discounted cash flow methodology prepared by the independent valuer. The original discounted cash flow methodology had been prepared on the basis of valuation inputs that were not yet final.

The supervisor requested that the independent valuer prepare the illustrative valuation using the discounted cash flow methodology using the same valuation inputs that were used to prepare the exchange values shown in the prospectus/consent solicitation to show participants the effect of the application of the discounted cash flow method for valuing the residual interest in the properties owned by the subject LLCs.

A copy of this illustrative valuation prepared by the independent valuer, which is attached as Exhibit 99.48 to the Registration Statement on Form S-4, of which the prospectus/consent solicitation is a part, may be

(1) Represents, for the joint venture method, the allocation of the appraised value determined by the independent valuer 50% to the subject LLC and 50% to the operating lessee after deducting the present value of the base rent from the appraised value and adding the present value of base rent to the appraised value of the subject LLC.

**Allocation of Exchange Value and Operating Partnership Units and Common Stock**

To allocate the shares of common stock, on a fully-diluted basis, for illustrative purposes, the supervisor arbitrarily used an enterprise value of the company equal to the aggregate exchange value and assigned a hypothetical \$10 per share exchange value for illustrative purposes. The supervisor allocated to each subject LLC a number of shares of common stock, on a fully-diluted basis, equal to the exchange value of its assets divided by \$10.

The following table sets forth for your subject LLC and the operating lessee, among other things, the calculation of the exchange value, the percentage of total exchange value and percentage of total number of operating partnership units and shares of common stock to be issued, the number of operating partnership units and shares of common stock to be issued, on a fully-diluted basis and the number of operating partnership units to be allocated to override interests of the supervisor and the Malkin Holdings group and to other persons.

- (1) Reflects the Appraisal of your subject LLC's real property interests as of June 30, 2012 by the independent valuer.
- (2) Debt obligations, including mortgage debt of your subject LLC and shared mortgage debt obligations of your subject LLC and the operating lessee that are serviced by basic rent paid by the operating lessee.
- (3) Represents the present value of the base operating lease payments from the operating lessee to the fee owner.
- (4) Total allocable value which is shared equally by your subject LLC and the operating lessee, equals the appraised value of such property minus the sum of shared debt obligations and the present value of base rent payable under the operating lease, plus the cash reserves for improvements.
- (5) Reflects the after-tax net present value of the supervisory fees paid to the supervisor. The net operating income used to determine the appraised value of the properties was calculated without deducting supervisory fees as an expense. Instead, the after-tax net present value of the supervisory fee was included in determining the appraised value of the supervisor.
- (6) Reflects operating overrides due to the supervisor in respect of cash flow from operations which were unpaid as of June 30, 2012. The appraised value of the supervisor includes an amount equal to the value of the unpaid overrides.
- (7) Debt obligations, if any, attributable solely to your subject LLC and not shared by the operating lessee.
- (8) Represents the present value of the base operating lease payments from the operating lessee.
- (9) The exchange values of your subject LLC and the operating lessee are based in part on your subject LLC's and the operating lessee's assets and liabilities included in their quarterly balance sheets as of June 30, 2012. The exchange values will be revised to reflect changes in the balance sheet items included in the calculation of the exchange value in subsequent quarterly balance sheets after June 30, 2012 but will not be revised based on changes in the balance sheets or other events after the final quarterly balance sheet date prior to the closing of the consolidation.
- (10) The number of operating partnership units and shares of common stock issuable to your subject LLC, as set forth in the table, was determined by dividing the exchange value for your subject LLC by \$10, which is the hypothetical value that the supervisor arbitrarily assigned to illustrate the number of operating partnership units and shares of common stock to be received. The number of shares of Class A common stock, Class B common stock, and operating partnership units issued in the consolidation will be determined based on the company's enterprise value, which will be determined based on the IPO price. Enterprise value is calculated without giving effect to shares of Class A common stock issued in the IPO. The enterprise value (which is based on the IPO price) will be determined by, among other things, market conditions at the time of pricing of the IPO, the historical and future performance of the company and its portfolio of properties and the market's view of the company's net asset value and other valuation metrics. Today, some REITs' common stock trades at a premium to perceived net asset value and others trade at a discount to perceived net asset value. The market's view of the company's net asset value determined in connection with the IPO could be less than the exchange values determined based on the Appraisal. The Appraisal was undertaken in connection with establishing relative value for the purpose of allocation of interests in the company among contributors of interests in the properties and not to establish the value of shares of common stock in the company upon completion of the IPO. In contrast, the pricing of REIT initial public offerings generally takes into account different factors not considered in the Appraisal, including current conditions in the securities markets, investor preferences and the market's view of the company's management team. Additionally, the Appraisal did not take into account transaction costs for the consolidation and the IPO.

The supervisor believes that initial public offering pricing for REIT common stock generally is at a discount to the market price for common stock of well-established, publicly-traded REITs, and that the company's IPO pricing will be no different. For this and other reasons, the supervisor expects that the enterprise value at the pricing of the IPO will be lower than the

**Table of Contents**

aggregate exchange value at the pricing of the IPO, and such discount at the pricing of the IPO could be material and substantial. This discount cannot be determined until the pricing of the IPO. As the company continues to develop a track record as a public company, the supervisor believes that the company's trading price following the IPO will be based on, among other things, the company's historical and future performance, its performance relative to its peers, market conditions generally and its continued seasoning in the public markets. The company currently intends to pay regular quarterly dividends based on the performance of the company and its portfolio of properties, rather than just one property, and those distributions are required to be at least 90% of annual REIT taxable income (determined without regard to the deduction for dividends paid, and excluding net capital gains) to maintain its qualification as a REIT. REIT taxable income will be determined by the performance of the portfolio of the company's properties and unaffected by its stock price.

(11) Represents exchange value per \$10,000 original investment for participants subject to the voluntary override program. Participants not subject to the voluntary override program have an exchange value of shares of common stock per \$10,000 original investment of \$358,670.

**Allocation of Common Stock on a Fully-Diluted Basis among the Participants**

**and the Supervisor and the Malkin Holdings Group**

The common stock, on a fully-diluted basis, to be allocated to your subject LLC will be allocated among the participants holding participation interests in your subject LLC and the supervisor and the Malkin Holdings group in accordance with the provisions of your subject LLC's operating agreement and other agreements relating to distributions upon liquidation of your subject LLC.

| Override Interests to the Malkin Holdings group  | \$ 52,889,643           | 5,288,964   | 1.26%   |
| Other Override Interests   | \$ 53,218,257           | 5,321,826   | 1.27%   |
| <b>Total</b>   | <b>\$ 1,162,136,482</b> | <b>116,213,648</b>  | <b>27.79%</b>   |

(1) Assumes all holders of participation interests in the private entities receive operating partnership units or shares of common stock. Each operating partnership unit provides the same rights to distributions as one share of common stock in the company and, subject to limitations, is redeemable for cash or, at the company's election, for one share of Class A common stock after a one-year period.

(2) The number of shares of common stock outstanding, on a fully-diluted basis, equals the number of shares of common stock outstanding plus shares of Class A common stock issuable upon the redemption of operating partnership units or upon the conversion of Class B common stock for shares of Class A common stock on a one-for-one basis. To the extent participants in the private entities receive cash, the common stock, on a fully-diluted basis, which would have been issued to them, will not be issued. As a result, the number of shares of outstanding common stock, on a fully-diluted basis, will be reduced and the percentage of the common stock, on a fully-diluted basis, each other participant owns will increase.

Edgar Filing: Empire State Realty Trust, Inc. - Form S-4/A

- (3) Represents a voluntary capital override, which was voluntarily agreed to by certain participants.

S1-37

## Table of Contents

The method utilized to allocate the operating partnership units, Class A common stock and Class B common stock is as follows:

Level 1 Allocation: The operating partnership units, Class A common stock and Class B common stock will be allocated to your subject LLC based upon the exchange value of your subject LLC, relative to the aggregate exchange value of all of the subject LLCs, the private entities and the management companies, as determined by the independent valuer. The supervisor believes that the exchange value constitutes a reasonable basis for such allocation.

Level 2 Allocation: Within your subject LLC, the operating partnership units, the Class A common stock and the Class B common stock allocable to your subject LLC will be allocated among the participants holding participation interests in your subject LLC and holders of override interests in accordance with the provisions of your subject LLC's organizational documents relating to distributions upon liquidation of your subject LLC.

Under the organizational documents of your subject LLC, after any required payment of debts and liabilities of your subject LLC, the net proceeds to your subject LLC from the consolidation or a third-party portfolio transaction will be distributed to the members, each of whom is an agent for participants, in proportion to the members' membership interests.

The net proceeds distributed to the members will be distributed to the participants as follows:

To participants in their participating group in proportion to the participants' percentage interests in the participating group and the amount distributable to each participant that has consented to the voluntary capital transaction override program will be adjusted to reflect the amounts distributable under the voluntary capital transaction override program to the supervisor.

The supervisor will receive, as an override under the voluntary capital transaction override program, an amount equal to 10% of the amount by which the net proceeds distributable in respect of a participant's participation interest in connection with a capital transaction, including the consolidation, exceeds such participant's original cash investment.

The amount distributable to each participant that has consented to the voluntary pro rata reimbursement program will be reduced by any amount distributable to the supervisor and Peter L. Malkin under such program.

The agents, who are the members of your subject LLC, recently created a new class of membership interests, which were divided into series. A separate series was deemed to be distributed to holders of each participating group. Each new series provides protections similar to those under a shareholder rights plan for a corporation. Each new series corresponds to a participating group for which a member acts as agent. If any person or group acquires 6% or more of the outstanding participation interests in the applicable participating group (an acquiring person), each participant in the applicable participating group other than an acquiring person prior to the closing of the consolidation, will have the right to receive distributions on the new series (equal to three times the distributions on the participations) and as a result if there is an acquiring person the distributions to the acquiring person will be reduced and the distributions of other participants in the participating group in which there is an acquiring person will be correspondingly increased.

**MALKIN HOLDINGS GROUP S INTEREST IN YOUR SUBJECT LLC AND  
ITS OPERATING LESSEE**

The following chart compares the exchange value of the operating partnership units and Class B common stock that the Malkin Holdings group will receive from your subject LLC and the exchange value of the operating partnership units and Class B common stock that the Malkin Holdings group will receive from your subject LLC s operating lessee:

| Entity   | Malkin Holdings group |            |
|--|-----------------------|------------|
|  | Exchange Value        | Percentage |
| Empire State Building Associates L.L.C.              |                       |            |
| As holders of participation interests <sup>(1)</sup> | \$ 74,481,907         | 6.29%      |
| Override Interests <sup>(2)</sup>                    | \$ 108,143,382        | 9.14%      |
| Total  | \$ 182,625,289        | 15.43%     |
| Empire State Building Company L.L.C.                 |                       |            |
| As holders of participation interests <sup>(2)</sup> | \$ 24,724,899         | 2.13%      |
| Override Interests <sup>(2)</sup>                    | \$ 52,889,643         | 4.55%      |
| Total  | \$ 77,614,543         | 6.68%      |

- (1) Does not include participation interests in which the Malkin Holdings group controls the vote, but does not have an economic interest. A member of the Malkin Holdings group is the trustee of a trust that owns participation interests. The member of the Malkin Holdings group does not require the consent of the participants/partners to give its consent with respect to such participation interests. These participation interests represent 0.2% of the participation interests of Empire State Building Associates L.L.C.
- (2) Does not include participation interests in which the Malkin Holdings group controls the vote, but does not have an economic interest. A member of the Malkin Holdings group either acts as agent for a participating group that owns the economic interests in the participation interests or is the general partner of a partnership that owns participation interests. In either case, the member of the Malkin Holdings group does not require the consent of the participants/partners to give its consent with respect to such participation interests. These participation interests represent 23.75% of the participation interests of Empire State Building Company L.L.C.

**Table of Contents**

**FAIRNESS OF THE CONSOLIDATION**

**General**

The supervisor believes the consolidation to be fair to, and in the best interests of, your subject LLC and its respective participants. After careful evaluation, the supervisor concluded that the consolidation is the best way to maximize the value of your investment in your subject LLC.

Although the supervisor believes the terms of the consolidation are fair to you and the other participants, the supervisor and its affiliates have conflicts of interest with respect to the consolidation. These conflicts include, among others, its realization of substantial economic benefits upon completion of the consolidation. For a further discussion of the conflicts of interest and potential benefits of the consolidation to the supervisor, see *Conflicts of Interest Substantial Benefits to the Supervisor and its Affiliates* in the prospectus/consent solicitation. While the supervisor has conflicts of interest which are described under *Conflicts of Interest* in the prospectus/consent solicitation, the supervisor does not believe that these conflicts of interests affected its fairness determination. See *Exchange Value and Allocation of Common Stock and Operating Partnership Units Allocation of Common Stock and Operating Partnership Units among the Participants and the Supervisor and the Malkin Holdings Group* in the prospectus/consent solicitation.

Based upon the supervisor's analysis of the consolidation:

The supervisor believes that the consideration offered to the participants in your subject LLC constitutes fair value for their participation interests. The exchange values of each of the subject LLCs, the private entities and the management companies are based on the Appraisal by Duff & Phelps, LLC, the independent valuer. The independent valuer determined the exchange value, which was reviewed and approved by the supervisor. The supervisor believes that the allocations in accordance with the Appraisal by the independent valuer were in the best interests of the participants.

The supervisor's belief as to the fairness of the consolidation to the participants and the statements above regarding the material terms underlying its belief as to fairness partially are based upon the Appraisal of each subject LLC's interest in a property that the independent valuer prepared and upon the fairness opinion the independent valuer provided to the supervisor.

The supervisor considered that each participant will be given the option to elect to receive operating partnership units, Class A common stock, or, to a limited extent, as described above, Class B common stock. Each participant may elect to receive one share of Class B common stock instead of one operating partnership unit for every 50 operating partnership units such participant would otherwise receive in the consolidation. The operating partnership units would be issued in a transaction expected to be tax-deferred for U.S. federal income tax purposes. These options allow participants to receive the same form of consideration as the participants in the private entities and the Malkin Family.

The supervisor believes that the consolidation is fair to all participants in your subject LLC and as a whole, regardless of which particular combination of entities participates in the consolidation. Even if less than all of the other subject LLCs participate in the consolidation, the supervisor believes that the participants in your subject LLC will realize the benefits described under *Summary Benefits of Participation in the Consolidation* in the prospectus/consent solicitation. There are no material differences among the subject LLCs (such as with respect to types of assets owned or investment objectives) that affect the reasons why the supervisor believes the consolidation is fair to you. While the supervisor believes that it would be more beneficial to participants if all of the subject LLCs participate in the consolidation, the supervisor believes that, through a combination of the properties of the private entities, for which necessary approvals have been obtained, and the property interests of your subject LLC and its operating lessee, Empire State Building Company L.L.C., the company will be of sufficient size and have sufficient assets to allow participants to realize the benefits described under *Summary Benefits of Participation in the Consolidation* in the prospectus/consent solicitation.

## Table of Contents

of the consolidation even if one or both of 250 West 57th Street Associates L.L.C. and 60 East 42<sup>nd</sup> St. Associates L.L.C. do not participate in the consolidation.

While your subject LLC's exchange values have been determined based on the Appraisal by the independent valuer, which has also delivered a fairness opinion as described above, no independent representative was retained to negotiate on behalf of the participants. There are 23 subject LLCs and private entities and groups with different interests in many of these entities. The supervisor does not believe that a single independent representative could have represented the interests of all participants and believes that to locate and retain an independent and equally competent and qualified representative for each separate interest in the consolidation is not possible. The supervisor represents the interests of all participants in the subject LLCs and private entities. The supervisor has served the same role in the past for sales of other properties with different groups of participants, which included the sale of three office properties in New York City in the past fifteen years, 200 Fifth Avenue (known as the International Toy Center), 498 Seventh Avenue and 500-512 Seventh Avenue, and believes it is not required to retain any independent representative on behalf of each group of participants or for all groups of participants as a whole. The supervisor believes the Appraisal prepared by the independent valuer serves the purposes of representing all parties fairly and that the consolidation is fair to all participants regardless of the absence of any such independent representative.

While the supervisor has had from inception conflicts of interest which are described under "Conflicts of Interest" in the prospectus/consent solicitation, the supervisor does not believe that these conflicts of interests affected its fairness determination. In considering fairness, the supervisor considered the following:

The tax protection agreement, which the supervisor believes is consistent with market practice for transactions of this type and generally would require payment only if the company took or failed to take certain actions, which it does not currently intend to take or fail to take, as the case may be, with respect to the protected properties;

The option agreements, which the supervisor believes benefit the company by providing it with the right to acquire attractive properties complementary to the company's portfolio on terms which the company believes are reasonable and, with respect to which, any determination to be made by the company will be made by the company's independent directors; and

The agreements to indemnify the principals of the supervisor for certain liabilities relating to the subject LLCs and the private entities; the supervisor believes it is reasonable for a REIT which is being formed to assume indemnification obligations relating to the operations of entities whose assets are being acquired. Under the organizational documents of the subject LLCs and private entities and applicable law, the principals of the supervisor are already generally entitled to indemnification from the participants in the subject LLCs and the private entities for liabilities incurred by them in good faith and not arising out of their own willful misconduct or gross negligence.

The supervisor also took into account the terms of the compensation payable to persons in the Malkin Holdings group by the company after the closing of the consolidation as set forth under "Management Executive Compensation" in the prospectus/consent solicitation, which, the supervisor believes, are on terms customary for similar publicly-traded REITs and are based on recommendations of a compensation consultant.

While there is no assurance that the IPO price will be equal to or greater than the exchange value per share or that the operating partnership units and Class A common stock will trade at a price equal to or greater than the IPO price following consummation of the consolidation and IPO, the supervisor believes that the increased liquidity will offer participants in your subject LLC and the other subject LLCs the opportunity to sell all or part of their shares of Class A common stock or operating partnership units, subject to the restrictions of applicable U.S. federal and state securities law and after expiration of the lock-up period.

**Table of Contents**

The supervisor's belief as to the fairness of the consolidation took into account the effect of the consolidation on the aggregate cash available for distribution to you and the other participants. The effect of the consolidation and the cash available for distribution will vary among the subject LLCs. The estimated initial distribution for participants in your subject LLC as stockholders of the company for the year ending June 30, 2013 per \$10,000 original investment in your subject LLC is greater than the average annual distribution per \$10,000 original investment for the five years ending December 31, 2011 (\$5,879 of estimated initial distributions as a stockholder of the company as compared to \$3,110 of average annual distributions (including \$140 of overage rent distributions attributable to borrowings) as a participant in your subject LLC). The supervisor believes that participants in each of the subject LLCs have greater potential for increased distributions as a holder of operating partnership units or common stock than as a participant in a subject LLC from improved performance of the properties, potential growth from acquisitions and a better capital structure made possible by the combined balance sheet of all the properties. There is no assurance, however, that the company's dividends will increase over time or be greater than the historical distributions made to participants in your subject LLC. The estimated annual distribution is based on certain assumptions. See "Background of Reasons for the Consolidation" "Comparison of Distributions by the Subject LLCs and the Company" "Distributions by the Company" in the prospectus/consent solicitation.

You and the other participants whose subject LLCs participate in the consolidation will be able to benefit from the potential growth of the company and also will receive investment liquidity through the public market by selling all or part of their shares of Class A common stock or operating partnership units, subject to the restrictions of applicable U.S. federal and state securities laws and after expiration of the lock-up period described in the prospectus/consent solicitation.

As set forth in the table below, the supervisor calculated the net book value of your subject LLC under GAAP, as of June 30, 2012, per \$10,000 original investment. Since the calculation of the book value was done on a GAAP basis, it is based primarily on depreciated historical cost and, therefore, is not indicative of the fair market value of your subject LLC. This figure was compared to the exchange value per \$10,000 original investment.

**Summary of Valuations**

(per \$10,000 original investment)

| Entity   | Exchange Value <sup>(1)</sup> | GAAP Net Book Value (Deficit) as of June 30, 2012 |
|--|-------------------------------|---|
| Empire State Building Associates L.L.C. Participants (subject to voluntary override)     | \$ 323,803                    | \$ (631)  |
| Empire State Building Associates L.L.C. Participants (not subject to voluntary override) | \$ 358,670                    | \$ (631)  |

- (1) The exchange value of each subject LLC is based in part on each subject LLC's assets and liabilities included in the quarterly balance sheets of the subject LLC as of June 30, 2012. The exchange value will be revised to reflect changes in the balance sheet items included in the calculation of the exchange value in subsequent quarterly balance sheets but will not be revised based on changes in the balance sheets or other events after the final quarterly balance sheet date prior to the closing of the consolidation.

The supervisor has adopted the conclusions of the fairness opinion from and the Appraisal prepared by the independent valuer, which are described in the consent solicitation.

**Comparison of Alternatives**

The supervisor has considered alternatives to the consolidation, including the continuation of your subject LLC without change and the liquidation of your subject LLC and the distributions of the net proceeds to you. The supervisor does not believe that your subject LLC could realize its allocable share of the value of the property through a sale of the interests in the property held by it. The supervisor believes that, over time, the likely value

## **Table of Contents**

of the interest you will receive in the consolidation will be higher than the value of the consideration you would receive from any of the other alternatives as a result of increased efficiencies, growth opportunities through potential acquisitions and potential growth in revenue of the initial properties and more stable cash flow for distributions, more efficient access to financing and other opportunities for value enhancement.

The supervisor has not provided an estimate of the going-concern values and liquidation values of your subject LLC for the reasons set forth below. As explained below, the supervisor believes these values would be in the same range as, or lower than, the exchange values. These values may be more or less than the value of the consideration that you will receive in the consolidation. See Risk Factors.

*Continuance as a Going-Concern.* The supervisor considered the going-concern value of your subject LLC. The purpose of a going-concern analysis is to determine the estimated value of your subject LLC, assuming that your subject LLC continues to operate as a separate legal entity with its own assets and liabilities and governed by its organizational documents. A going-concern analysis differs from a liquidation analysis in that a liquidation analysis assumes that your subject LLC immediately commences an orderly disposition of its interest in the property and distributes the net liquidation proceeds, to the members and participants holding participation interests and to the supervisor on account of overrides and voluntary reimbursement payments. The going-concern analysis estimates the present value of the participation interests in your subject LLC, assuming that your subject LLC was operated as an independent standalone entity during an assumed ten-year holding period, and sold its interest in the property at the end of the ten-year period.

The supervisor believes that, based on, among other things, the advice of the independent valuer, the going concern value of the participation interests in your subject LLC pursuant to a going concern analysis, which would assume continued operation and eventual sale, is in the same range as the exchange value. The exchange value is based on (i) the appraised value of the property interest owned by your subject LLC which was based on the income approach taking into account, among other things, the expected financial performance such as estimated revenues, operating expenses, general and administrative costs, capital expenditures and leasing costs for the property, and operating cash flow of the property, and (ii) the allocation of such appraised values to the participants in your subject LLC as described in Reports, Opinions, and Appraisals Fairness Opinion in the prospectus/consent solicitation. Similarly, a going concern analysis would determine the value of the equity interest in a partnership or limited liability company by estimating the present value of distributions to such interests in the going concern entity. The supervisor believes that, based on advice from the independent valuer, the methodology used to determine the value of an equity interest in a partnership or a limited liability company, as was performed in the Appraisal, is a generally accepted valuation and analytical technique, and, when performed using the same underlying assumptions, can be expected to yield a result in approximately the same range as the going concern analysis.

*Liquidation of your subject LLC.* Since another available alternative is to proceed with a sale of the interest in the property your subject LLC owns and to distribute the net proceeds to its participants, the supervisor has considered the liquidation value of your subject LLC. The supervisor believes that, based on advice from the independent valuer, using the discounted cash flow method used in the Appraisal is a reasonable way to estimate the price at which the property could be sold for purposes of a liquidation value analysis. The difference between the exchange values and the liquidation value would be the deduction of assumed selling and liquidation costs (real estate commissions and legal and other closing costs) in calculating the liquidation value, which the supervisor estimates would equal approximately 2.5% to 5% of the appraised real estate value. The supervisor believes that the costs relating to liquidation, including costs of soliciting participants consent and legal fees, could exceed this percentage. This alternative also assumes that non-real estate assets are sold at their estimated realizable value determined on a basis consistent with the independent valuer's Appraisal.

However, while the Appraisal is not necessarily indicative of the price at which the assets would sell, the real estate appraisal assumes that the interest in the property of your subject LLC is sold in an orderly manner and is not sold in forced or distressed sales where sellers might be expected to dispose of their interests at substantial discounts to their actual value. See Reports, Opinions and Appraisals Appraisal.

## **Table of Contents**

The supervisor believes that the value of the participation interests in the subject LLCs in a liquidation would be lower than the exchange values because the value in a liquidation would be determined based on the appraised value of the property interest owned by your subject LLC (as described under Reports, Opinions, and Appraisals Appraisal ), reduced by the transaction costs associated with marketing and selling a property, and the costs of soliciting participants consent and legal fees. Such fees and expenses were not deducted in calculating the exchange value because they are being borne by the company. The liquidation value would also not incorporate any prepayment penalties that would be due upon the sale of a property, which is not expected to be payable, to the same extent, in the consolidation. Such fees and expenses would reduce the amounts distributable to the participants in your subject LLC in a liquidation to a level below the exchange values.

Participants might not have the opportunity to receive consideration in a transaction expected to be tax-deferred as they have in the consolidation.

*Secondary Market Prices.* Participation interests in your subject LLC are not traded on any national securities exchange. There is no established trading market for participation interests, and it is not anticipated that any market will develop for the purchase and sale of the participation interests. There is only a limited market for the participation interests in your subject LLC, and the supervisor believes the highest price for past sales of participation interests is substantially below the value of the shares of common stock or operating partnership units that you will receive, based on the enterprise value.

*Sales transactions for participation interests have been limited and sporadic.* The supervisor is aware of sales made which were not arranged by it because it acts as transfer agent for the participation interests. In some cases, the supervisor receives information regarding the prices at which secondary sale transactions of participation interests have been effectuated but, in many instances, the supervisor is not aware of the prices at which transactions have been made. Affiliates of the supervisor have arranged for purchases of participation interests, from time to time, as an accommodation to participants that desired to sell their participation interests. The supervisor also is aware of third-party appraisals that were performed for participants. The supervisor generally used methodology similar to that in these appraisals in determining the price to be offered to participants that requested that the supervisor arrange sales of their participation interests as an accommodation. In making such purchases of participation interests as an accommodation to participants, the supervisor generally determined the purchase price by applying capitalization rates to annual distributions out of basic rent and overage rent, applying a discount because the interest is an illiquid minority interest and, since 2008, applying a further discount because of the instability of the economy. The supervisor believes that these prices are less than the long-term value of the participation interests and the supervisor so advised each participant who requested that the supervisor arrange a sale. The extent of the participation interest sales transactions between willing buyers and willing sellers, each having access to relevant information regarding the financial affairs of your subject LLC, the expected value of their assets and their prospects for the future is unknown. Many participation interest sales transactions are believed to be distressed sales where sellers are highly motivated to dispose of the interests and, to facilitate the sales are willing to accept substantial discounts from what might otherwise be regarded as the fair value of the interest being sold.

**Table of Contents**

Affiliates of the supervisor made the following purchases of participation interests in your subject LLC during the period from January 1, 2009 through June 30, 2012:

| <b>Date of Transfer<br/>(Month/Day/Year)</b> | <b>Amount of<br/>Purchase (Based<br/>on Original<br/>Investment)</b> | <b>Amount of<br/>Consideration Paid<br/>per \$10,000<br/>Original<br/>Investment</b> |
|--|--|--|
| 2/02/11                                      | \$ 10,000.00   | \$ 15,000.00   |

| 9/02/09                                      | \$ 6,666.66  | \$ 15,000.00   |
| 5/02/09                                      | \$ 5,000.00  | \$ 29,400.00   |

The supervisor also is aware of the prices on the following additional purchases of participation interests by third parties in your subject LLC during the period from January 1, 2009 through June 30, 2012:

| <b>Date of Transfer<br/>(Month/Day/Year)</b> | <b>Amount of<br/>Purchase<br/>(Based<br/>on Original<br/>Investment)</b> | <b>Amount of<br/>Consideration Paid<br/>per \$10,000<br/>Original<br/>Investment</b> |
|--|--|--|
| 5/02/12                                      | \$ 5,000.00  | \$ 30,000.00   |
| 5/02/11                                      | \$ 5,000.00  | \$ 1,000.00  |
| 5/02/11                                      | \$ 5,000.00  | \$ 1,000.00  |
| 4/02/10                                      | \$ 10,000.00   | \$ 17,000.00   |
| 3/02/09                                      | \$ 10,000.00   | \$ 29,400.00   |
| 3/02/09                                      | \$ 5,000.00  | \$ 29,400.00   |
| 1/02/09                                      | \$ 2,500.00  | \$ 50,000.00   |

*Certain potential alternatives as to Empire State Building Associates L.L.C. not considered viable by the supervisor.*

*Empire State Building stand-alone REIT.* The supervisor does not believe a REIT which includes only the Empire State Building is a feasible alternative. Any Empire State Building-only REIT would require the consent of Empire State Building Company L.L.C. which is controlled by the Malkin Family and the Helmsley estate. The Malkin Family and the Helmsley estate have consented only to the proposed consolidation and believe that a single-asset REIT would not be desirable.

The supervisor believes that a single-asset REIT is not typical and that the potential REIT investors (the great majority of which are institutional investors) would not react favorably to such a REIT. Moreover, a stand-alone Empire State Building REIT, even if consented to, would have certain risks resulting from lack of diversification and risks relating specifically to the Empire State Building and bear many of the same ongoing expenses of a company with a security listed on a national securities exchange without other properties to share them.

The proposed consolidation provides benefits, which, as described under *Background of and Reasons for the Consolidation* The Supervisor's Reasons for Proposing the Consolidation in the prospectus/consent solicitation, would not be provided by a stand-alone Empire State Building REIT. In addition, a stand-alone

Empire State Building REIT would have management which also continues to manage, separate from the REIT, the other subject LLCs and the private entities they currently supervise, which the supervisor believes would not be viewed favorably by institutional investors and would create continuing conflicts of interest.

*Borrowing to buy out the Helmsley estate's interest in Empire State Building Company L.L.C.* The supervisor also did not consider borrowing funds to buy the Helmsley estate's interest in Empire State Building Company L.L.C. to be a feasible alternative to the consolidation. For a number of reasons, the supervisor believes that based on its knowledge of the loan markets, a loan for these purposes would be improbable at this time on any reasonable terms. The supervisor does not believe that a lender would make the necessary loan of this size on top of the borrowing required to upgrade the Empire State Building, install tenants, and pay leasing commissions, with the building in its current state of repositioning, to buy out an existing investor. Empire State Building Company L.L.C. would have to join in the loan or otherwise Empire State Building Associates L.L.C. would be reliant on basic and overage rent from Empire State Building Company L.L.C. to cover costs to service and repay the loan. Empire State Building Company L.L.C. is not required to apply cash flow in such a way as to make any additional rent payment above basic rent. Moreover, both the controlling partners in Empire State Building Company L.L.C., Peter L. Malkin and the Helmsley estate, have committed to the consolidation and the IPO. Additionally, buying the Helmsley estate's interest would not create the benefits the supervisor believes would result from the consolidation and IPO, which benefits are described under "Background of and Reasons for the Consolidation" and "The Supervisor's Reasons for Proposing the Consolidation" in the prospectus/consent solicitation.

**Comparison of Distributions**

*Distribution Comparison.* The supervisor has considered the potential impact of the consolidation upon distributions that would be made to the participants that exchange their participation interests for operating partnership units and/or common stock.

**Comparison**

The following table sets forth a comparison of the distributions by the subject LLC and by the company.

| <b>Subject LLC</b>  | <b>Average Annual<br/>Distribution<br/>for the years<br/>ending<br/>December 31,<br/>2007-2011<br/>Per \$10,000 Original<br/>Investment<sup>(1)</sup></b> | <b>Estimated Initial<br/>Distribution of<br/>the<br/>Company to<br/>Former<br/>Participants<br/>for the year ending<br/>June 30, 2013<br/>Per \$10,000 Original<br/>Investment<sup>(2)</sup></b> |
|---|---|--|
| Empire State Building Associates L.L.C.                             |   | \$ 5,879 <sup>(3)</sup>  |
| Distributions out of basic rent                                     | \$ 1,179  |  |
| Distributions out of overage rent                                   |   |  |
| Overage rent distributions attributable to borrowing <sup>(4)</sup> | \$ 140  |  |
| Overage rent distributions attributable to operations               | \$ 1,791  |  |
| <b>Total distributions</b>  | <b>\$ 3,110</b>   |  |

- (1) Distributions each year consist of small regular monthly distributions out of basic rent and larger, but variable, distributions out of overage rent. The amount of distributions out of overage rent varies from year to year depending on factors such as:

capital expenditures funded out of operating cash flow which reduced distributions;

borrowings to fund capital expenditures which would otherwise have been paid out of operating cash flow, which increases overage rent and the amount available for distribution; and

non-recurring events that generate additional cash, such as early lease cancellations, which may increase distributions and nonrecurring events that require expenditure of funds, which may decrease distributions.

S1-46

**Table of Contents**

Accordingly, participants should not treat the amount distributed in any year as indicative of the amount that they would have received in future years if the subject LLC continued its operations. After the consolidation, a diverse collection of properties will be combined with more efficient access to capital and, as a result, the supervisor expects that overall distributions should be more consistent with less fluctuation due to these factors.

(2) The calculation of the estimated annual distributions to stockholders of the company is determined in accordance with the table below under Distributions by the Company. The estimated initial distribution per \$10,000 original investment was calculated based on the percentage interest that a holder of a \$10,000 original investment would hold of the number of shares of common stock of the company outstanding after the IPO on a fully diluted basis. The company estimated the number of shares of common stock on a fully diluted basis outstanding after the IPO to be equal to the sum of:

(i) the number of shares of common stock on a fully diluted basis issuable in the consolidation (calculated without reduction for cash paid to participants in the private entities in lieu of common stock or operating partnership units), as set forth in table under Exchange Value and Allocation of Operating Partnership Units and Common Stock Derivation of Exchange Values, plus

(ii) 1,800,000 LTIP units/shares of restricted Class A common stock estimated to be issued as equity compensation at the IPO, plus

(iii) a number of shares issuable in the IPO (assuming no exercise of the underwriters option to purchase additional shares of the company s Class A common stock) equal to: (a) the portion of the gross proceeds from the IPO used to pay expenses of the consolidation and IPO and underwriting discounts (other than underwriting discounts that are deducted in calculating the cash payable to charitable organizations who are participants in the private entities, including the Helmsley estate, on exercise of their cash election), which is estimated to equal \$ 48,552,137, (b) divided by the IPO price, assuming that the IPO price equals the hypothetical \$10 per share (used solely for illustrative purposes).

By way of explanation, the portion of the proceeds from the IPO used to pay cash to participants in the private entities is excluded because shares of Class A common stock issuable in the IPO that are used for such purpose do not increase the common stock outstanding on a fully diluted basis from that which would have been outstanding if all participants received operating partnership units or common stock instead of cash, because the number of shares of common stock on a fully diluted basis otherwise issuable to participants in the consolidation is reduced on a one-for-one basis.

The estimate of the initial distribution per \$10,000 may be more or less than that set forth herein to the extent that the actual amounts are more or less than the estimated amounts set forth herein or to the extent that the number of shares under clauses (i), (ii) and (iii) are different due to the difference between exchange value and enterprise value, which will not be known until the pricing of the IPO or would be affected by the IPO price being more or less than \$10 per share.

(3) Assumes that a participant is subject to the voluntary override.

(4) The distributions attributable to borrowings resulted from borrowings used to fund capital expenditures which would otherwise have been funded from operations and reduced overage rent.

**Distributions by Your Subject LLC**

The following table sets forth the amount of annual distributions per \$10,000 original investment of your subject LLC for each of the five years in the period ended December 31, 2011 and the amount of distributions per \$10,000 original investment, for the six months ended June 30, 2012. The original cost per unit was \$10,000, in the case of your subject LLC.

|  | Six Months ended<br>June 30, 2012 | 2011     | 2010     | 2009     | 2008     | 2007     |
|--|-----------------------------------|----------|----------|----------|----------|----------|
| Empire State Building Associates L.L.C.  |                                   |          |          |          |          |          |
| Summary Per \$10,000 Original Investment |                                   |          |          |          |          |          |
| Distributions out of basic rent          | \$ 589                            | \$ 1,179 | \$ 1,179 | \$ 1,179 | \$ 1,179 | \$ 1,179 |
