**CHICAGO RIVET & MACHINE CO.**

(Exact Name of Registrant as Specified in Its Charter)

Edgar Filing: CHICAGO RIVET & MACHINE CO - Form 10-Q

<b>Illinois</b> (State or Other Jurisdiction of Incorporation or Organization)	<b>36-0904920</b> (I.R.S. Employer Identification No.)
<b>901 Frontenac Road, Naperville, Illinois</b> (Address of Principal Executive Offices)	<b>60563</b> (Zip Code)
<b>Registrant's Telephone Number, Including Area Code (630) 357-8500</b>	

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every interactive data file required to be submitted and posted pursuant to Rule 405 of Regulation S-T (section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer <input type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company <input checked="" type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of November 2, 2012, there were 966,132 shares of the registrant's common stock outstanding.

## CHICAGO RIVET &amp; MACHINE CO.

## NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. In the opinion of the Company, the accompanying unaudited interim financial statements contain all adjustments necessary to present fairly the financial position of the Company as of September 30, 2012 and December 31, 2011 and the results of operations and changes in cash flows for the indicated periods. Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted from these unaudited financial statements in accordance with applicable rules. Please refer to the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The results of operations for the three and nine-month period ending September 30, 2012 are not necessarily indicative of the results to be expected for the year.

2. The Company extends credit on the basis of terms that are customary within our markets to various companies doing business primarily in the automotive industry. The Company has a concentration of credit risk primarily within the automotive industry and in the Midwestern United States.

3. The Company is, from time to time, involved in litigation, including environmental claims and contract disputes, in the normal course of business. While it is not possible at this time to establish the ultimate amount of liability with respect to contingent liabilities, including those related to legal proceedings, management is of the opinion that the aggregate amount of any such liabilities, for which provision has not been made, will not have a material adverse effect on the Company's financial position.

4. The Company's effective tax rates were 31.2% and 32.7% for the third quarter of 2012 and 2011, respectively, and 32.1% and 32.8% for the nine months ended September 30, 2012 and 2011, respectively. Rates were lower than the U.S. federal statutory rate primarily due to the Domestic Production Activities Deduction allowed under Internal Revenue Code Section 199.

The Company's federal income tax returns for the 2009, 2010 and 2011 tax years are subject to examination by the Internal Revenue Service (IRS). While it may be possible that a reduction could occur with respect to the Company's unrecognized tax benefits as an outcome of an IRS examination, management does not anticipate any adjustments that would result in a material change to the results of operations or financial condition of the Company. No statutes have been extended on any of the Company's federal income tax filings. The statute of limitations on the Company's 2009, 2010 and 2011 federal income tax returns will expire on September 15, 2013, 2014 and 2015, respectively.

The Company's state income tax returns for the 2009 through 2011 tax years remain subject to examination by various state authorities with the latest closing period on October 31, 2015. The Company is currently not under examination by any state authority for income tax purposes and no statutes for state income tax filings have been extended.

5. Inventories are stated at the lower of cost or net realizable value, cost being determined by the first-in, first-out method. A summary of inventories is as follows:

	September 30, 2012	December 31, 2011
Raw material	\$ 2,032,904	\$ 2,016,032
Work-in-process	2,203,712	1,984,368
Finished goods	1,568,745	1,760,640
Inventory, Gross	5,805,361	5,761,040
Less: Valuation reserves	(590,600)	(549,000)

Edgar Filing: CHICAGO RIVET & MACHINE CO - Form 10-Q

Inventory, Net	\$ 5,214,761	\$ 5,212,040

## CHICAGO RIVET &amp; MACHINE CO.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Results for the third quarter of 2012, as well as those of the current year to date, reflect a continuation of the improvement reported in recent quarters compared to year earlier periods. Net sales for the third quarter this year totaled \$8,537,639, an increase of \$716,033, or 9.2%, compared with the third quarter of 2011. As of September 30, 2012, year to date sales totaled \$26,167,158, an improvement of \$2,397,080, or 10.1%, compared with the first three quarters of 2011. The increase in revenue helped to improve net income for the third quarter to \$463,342, or \$0.48 per share, compared with \$317,640, or \$0.33 per share, in the third quarter of 2011. Net income for the current year to date, which has benefited from the revenue growth achieved during the first three quarters as well as ongoing efficiency initiatives, was \$1,397,508, or \$1.45 per share, compared with \$1,022,183, or \$1.06 per share, reported in 2011.

During the third quarter, fastener segment revenues improved to \$7,841,672 from \$6,913,898 in the year earlier quarter, an increase of \$927,774, or 13.4%. This marks three years of consecutive quarterly increases in fastener segment sales compared with the year earlier period. For the first three quarters of the year, fastener segment revenues have increased \$2,451,214, or 11.5%, to \$23,781,773 in the current year from \$21,330,559 in 2011. While the majority of this segment's revenues are derived from the automotive industry, current year sales for this segment have exceeded the growth seen in domestic automotive production. We experienced lower raw material prices in the third quarter this year compared to a year earlier, which combined with higher sales resulted in a fastener segment gross margin of \$1,708,174 compared to \$1,404,704 in the third quarter of 2011. For the first three quarters of 2012, the fastener segment gross margin has improved to \$5,077,261, from \$4,292,349 a year earlier, primarily due to higher sales in the current year, as the higher material prices incurred in the first half of the year have been offset by reductions we have seen in recent months.

Revenues within the assembly equipment segment were \$695,967 in the third quarter of 2012, a decrease of \$211,741, or 23.3%, compared to the third quarter of 2011, when revenues were \$907,708. Sales for this segment can fluctuate due to large orders which do not necessarily follow a predictable pattern. Current year to date revenues of \$2,385,385 represent a modest decline of \$54,134, or 2.2%, compared to the \$2,439,519 reported in 2011. While the lower sales in the third quarter this year resulted in a drop in gross margin to \$216,619 from \$341,614 in the third quarter a year ago, by maintaining manufacturing costs at levels near or below the prior year, gross margins for the assembly equipment segment declined less than 1% to \$821,870 for the first three quarters, from \$827,161 in the same period in 2011.

Selling and administrative expenses for the third quarter of 2012 were \$1,263,236, a decline of \$25,636, or 2%, compared to the year earlier quarter total of \$1,288,872. The decrease is due in part to lower payroll related expenses of approximately \$27,000 and office supplies expenses of approximately \$23,000, which are returning to normal levels after last year's computer system upgrades. These savings were partially offset by an increase in profit sharing of \$20,000 related to improved profitability. For the first three quarters of the year, selling and administrative expenses have increased \$102,492, or 2.7%, from \$3,832,380 in 2011 to \$3,934,872 in 2012. Profit sharing expense has increased by \$61,000 for the year due to improved profitability, compared to last year, while the remaining net increase includes various smaller items. Selling and administrative expenses as a percentage of net sales for the first three quarters of 2012 declined to 15% from 16.1% in 2011.

A slight decline in other income was reported in the third quarter of 2012 compared to the same period of 2011, and gains from the disposal of property and equipment were approximately \$132,000 lower in the first three quarters of 2012 compared to the same period of 2011 due to the sale of our Jefferson, Iowa property in the second quarter of 2011.

Working capital at September 30, 2012 was \$16.1 million, an increase of approximately \$1.1 million from December 31, 2011. Most of the net improvement relates to an increase in accounts receivable balances of more than \$1 million, related to greater sales during the quarter compared to the seasonally lower sales late in the fourth quarter of 2011. Partially offsetting this change are increases in accounts payable and accrued payroll totaling \$.7 million that reflect the increased level of operations. The net result of these changes and other cash flow items, including a \$.4 million reduction in capital expenditures during the first three quarters of the current year compared to last year, on cash, cash equivalents and certificates of deposit leaves such total balances at \$7.4 million, up from \$6.6 million at the beginning of the year. Management believes that current cash, cash equivalents and operating cash flow will provide adequate working capital for the foreseeable future.

**Table of Contents**

We are pleased to report results for both the third quarter and the current year to date that reflect our successful efforts to increase sales and net income. This success has allowed us to maintain a strong financial position and make prudent investments in our operations in an effort to position the company for further success. Even though the recovery in the domestic economy has been tentative due to high unemployment and weak confidence, we will continue to pursue opportunities to profitably grow our revenues and improve our bottom line, while maintaining the high level of product quality and reliability of service our customers demand.

*This discussion contains certain forward-looking statements which are inherently subject to risks and uncertainties that may cause actual events to differ materially from those discussed herein. Factors which may cause such differences in events include, those disclosed under Risk Factors in our Annual Report on Form 10-K and in the other filings we make with the United States Securities and Exchange Commission. These factors, include among other things: conditions in the domestic automotive industry, upon which we rely for sales revenue, the intense competition in our markets, the concentration of our sales to two major customers, the price and availability of raw materials, labor relations issues, losses related to product liability, warranty and recall claims, costs relating to environmental laws and regulations, the loss of the services of our key employees and difficulties in achieving expected cost savings. Many of these factors are beyond our ability to control or predict. Readers are cautioned not to place undue reliance on these forward-looking statements. We undertake no obligation to publish revised forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.*

Item 4. Controls and Procedures.

(a) Disclosure Controls and Procedures. The Company's management, with the participation of the Company's Chief Executive Officer and President, Chief Operating Officer and Treasurer (the Company's principal financial officer), has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and President, Chief Operating Officer and Treasurer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

(b) Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
