**ABOUT THE MEETING**

At our annual meeting, our shareholders will act upon the matters outlined in the accompanying notice of meeting. The scheduled matters to be acted upon at the 2015 annual meeting are the election of three (3) members of the board of directors named in the Proxy Statement, a non-binding advisory vote on the compensation program for the Company's named executive officers (a say-on-pay vote), a non-binding advisory vote on how frequently shareholders will be provided a say-on-pay vote (a say-on-frequency vote), and the ratification of the appointment of Cherry

**Table of Contents**

**VOTING INFORMATION**

All shares represented by properly executed proxies received by the board of directors pursuant to this solicitation will be voted in accordance with the shareholder's directions specified in the applicable voting instructions or proxy card. If no directions have been specified during Internet or telephone voting or by marking the appropriate places on the physical proxy card, the shares will be voted in accordance with the board's recommendations which are:

FOR the election of each of the director nominees as directors of the Company for a term of two (2) years, and until their successors are elected and qualified.

FOR the compensation of our named executive officers as disclosed in this Proxy Statement.

FOR the 2 Years say-on-frequency alternative set out in the proxy card.

FOR the ratification of the appointment of Cherry Bekaert LLP as the Company's independent registered public accounting firm for fiscal year 2016.

A shareholder signing and returning a proxy has power to revoke it at any time prior to its exercise by delivering to the Company a later-dated proxy or by giving notice to the Company in writing or at the meeting, but without affecting any vote previously taken.

**Record Date**

You may vote all shares that you owned as of September 28, 2015, which is the record date for the annual meeting. On September 28, 2015, we had 9,443,408 common shares outstanding. Each common share is entitled to one (1) vote on each matter properly brought before the meeting.

**Ownership Of Shares**

If your shares are registered directly in your name, you are the holder of record of these shares and we are sending these Proxy Materials directly to you. As the holder of record, you have the right to give your proxy directly to us, give your voting instructions by telephone or by the Internet directly to us, or vote in person at the annual meeting. If you hold your shares in a brokerage account or through a bank or other holder of record, you hold the shares in street name, and your broker, bank or other holder of record is sending these Proxy Materials to you. As a holder in street name, you have the right to direct your broker, bank or other holder of record how to vote by filling out a voting instruction form as provided to you by your broker or other person who is the holder of record, or if such Internet or telephone access is provided to you by such holder of record, by following the directions to provide your instructions to the record holder via the Internet or by telephone. Regardless of how you hold your shares, we invite you to attend the annual meeting.

**Electronic Availability**

In compliance with the proxy rules promulgated by United States Securities and Exchange Commission (SEC), our Proxy Statement and Annual Report to Shareholders are available over the Internet at [www.proxyvote.com](http://www.proxyvote.com), a website

established specifically for access to such materials. Such materials are also available on the Company's website at [www.sunlinkhealth.com](http://www.sunlinkhealth.com).

## Table of Contents

### **How To Vote**

*Your Vote Is Important.* We encourage you to vote promptly. Internet and telephone voting is available through 11:59 p.m. local time on Sunday, November 8, 2015 for all shares held of record. Depending on whether you are a record holder of your shares, or whether you hold your shares in street name, you may vote by any of the means described below.

#### Voting Procedures for Holders of Record

If you are a holder of record, you may vote your shares by any of the following methods:

**By Telephone:** If you are a holder of record located in the U.S., you can vote your shares by calling the toll-free telephone number provided on your proxy card. Holders of record may vote by telephone 24 hours a day. Our telephone voting system has easy-to-follow instructions and allows record holders to confirm that the system has properly recorded their votes. If you vote by telephone, you do not need to return your proxy card.

**By Internet:** If you are a holder of record you can also vote your shares by using the Internet. Your proxy card indicates the website you need to access for Internet voting. Holders of record may vote on the Internet 24 hours a day. As with telephone voting, you will be able to confirm that the system has properly recorded your votes. If you vote by Internet, you do not need to return your proxy card.

**By Mail:** If you are a holder of record, you can vote by marking, dating and signing your proxy card and returning it by mail in the enclosed postage-paid envelope.

**At The Annual Meeting:** You may vote in person at the Annual Meeting. If you vote your shares now, it will not limit your right to change your vote at the annual meeting if you attend in person.

#### Voting Procedures for Beneficial Holders

If you hold your shares in street name, you may vote your shares by any of the following methods:

**By Telephone/Internet:** The availability of telephone and Internet voting for beneficial owners will depend on the voting processes of your broker, bank or other holder of record. Therefore, we recommend that you follow the voting instructions in the materials you receive.

**By Mail:** If you hold your shares in street name, please complete and mail the voting instruction card you receive from your broker, bank or other holder of record.

**At The Annual Meeting:** You may vote in person at the Annual Meeting. If you hold your shares in street name, you must obtain a proxy, executed in your favor, from the holder of record if you wish to vote your shares in person at the annual meeting.

**Broker Vote On Election Of Directors, Routine And Non-Routine Proposals** A broker non-vote occurs when a broker holding your shares in street name does not vote on a particular matter because you did not provide the broker voting instructions and the broker lacks discretionary voting authority to vote the shares because the matter is non-routine or fails to exercise such authority. New York Stock Exchange (NYSE) Rule 452 and Section 402.8 of the NYSE Listed Company Manual which regulate broker voting in connection with certain listed companies, including companies listed on the NYSE MKT, LLC equities exchange ( NYSE MKT ), prohibit broker discretionary voting on a

variety of matters, including, but not limited to, the election of directors for shares held in client accounts when the broker has not timely received voting instructions from the client. Rule 452 and Section 402.08 prohibit broker discretionary voting upon matters related to executive compensation, including, but not limited to, advisory votes on approval of compensation and the frequency of such advisory votes.

If you hold your shares in a bank or brokerage account, you should be aware that if you fail to instruct your bank or broker how to vote within ten (10) days of the meeting, the bank or broker is not permitted to vote your shares in its discretion on your behalf for the election of directors, but is permitted to vote your shares in its discretion on your behalf on routine items.

## Table of Contents

NYSE MKT rules also determine whether proposals presented at the shareholder meetings are routine or not routine. If your holdings of our common shares are held by a broker in street name (which means your shares are registered in the name of your broker or other nominee), under the rules of the NYSE your broker may vote your shares on certain routine matters, other than the election of directors and compensation matter, if you do not provide your broker with voting instructions. The ratification of the selection of our independent registered public accountants is considered a routine matter upon which brokerage firms may vote on behalf of their clients if no voting instructions are provided.

While banks and brokers have historically cast their votes on routine items in support of management's recommendations in the absence of instructions from their clients, some firms are now casting uninstructed votes in the same proportion as their clients' instructed votes, giving, in effect, investors who provide voting instructions to brokers an opportunity to disproportionately influence the outcome of proxy voting.

*If you want to ensure that your shares are voted in accordance with your wishes on Proposals 1, 2, 3 and 4, you should complete and return your voting instruction form before October 30, 2015.*

**Revocation Of Proxies:** All shares that have been properly voted and not revoked will be voted at the meeting. If you sign and return your proxy card without any voting instructions, your shares will be voted as the board of directors recommends.

### Holder of Record

You can revoke your proxy at any time before your shares are voted if you: (1) submit a written revocation to our Secretary; (2) submit a later-dated proxy; (3) provide subsequent telephone or Internet voting instructions within the time permitted for such voting methods; or (4) vote in person at the meeting.

### Beneficial Holders

If you are a beneficial holder you can revoke your proxy at any time before your shares are voted if you (1) cause the record holder to submit a written revocation to our Secretary; (2) cause the record holder to submit a later dated proxy if you timely provide updated voting instructions to such holder by mail or by Internet or telephone voting if provided by the recordholder; or (3) vote your shares in person at the annual meeting through a proxy, executed in your favor, from the holder of record.

## **Quorum And Required Vote**

**Quorum:** We will have a quorum and will be able to conduct the business of the annual meeting if the holders of a majority of the shares that are entitled to vote are present at the meeting, either in person or by proxy.

**Votes Required:** To elect directors a plurality of the votes cast is required. The say-on-pay proposal will be approved if the number of votes cast in favor of the proposal exceeds the number of votes cast against the proposal. Shareholders are not voting to require that the say-on-pay vote be held every two years, only to express a non-binding preference for how often the say-on-pay vote should be held. The Company will take into consideration the shareholder vote on each of the alternatives set forth in the proxy card with respect to that Proposal. To ratify the appointment of Cherry Bekaert LLP as the Company's independent registered public accounting firm for fiscal 2016 a majority of votes cast is required.

**How We Count Votes:** Abstentions will be counted for purposes of determining the presence or absence of a quorum. In the case of Proposal 1 (Election of Directors), Proposal 2 (the say on pay vote), Proposal 3 (the say-on-frequency

vote), and Proposal 4 (Ratification of the Selection of Independent Registered Public Accountants), abstentions will not change the number of votes cast for or against these proposals and therefore will have no effect on the approval of these proposals.

**Table of Contents**

**CORPORATE GOVERNANCE**

Our business is managed by the Company's employees under the direction and oversight of the board of directors. Except for Mr. Thornton, none of our board members is an employee of the Company. The board limits membership on the audit committee, the executive compensation committee (referred to in this Proxy Statement as the *compensation committee*) and the strategic planning committee to independent non-management directors. We keep board members informed of our business through discussions with management, materials we provide to them, visits to our offices and facilities, and their participation in board and board committee meetings.

The board of directors has adopted charters for the standing board committees (other than the executive committee), resolutions governing the process for identification and nomination of candidates for the board, and the Company's code of ethics, known as the SunLink Health Systems, Inc. Code of Conduct. These documents, together with the Company's Articles of Incorporation and Code of Regulations, provide the framework for the governance of the Company. Our Code of Conduct is applicable to our directors and our employees, including our principal executive officer and principal financial officer. Members of our board are required to certify compliance with our Code of Conduct. Any amendment to or waiver of our Code of Conduct for any board member, our chief executive officer, our chief financial officer or any other executive officer as well as our comptroller and any other similar accounting officer will be disclosed on our website, [www.sunlinkhealth.com](http://www.sunlinkhealth.com).

A complete copy of the charters of the board committees, the resolutions governing the process for identification and nomination of candidates for the board and the Code of Conduct for employees, as in effect from time-to-time, may be found on the Company's website at [www.sunlinkhealth.com](http://www.sunlinkhealth.com). Copies of these materials are also available to shareholders without charge upon written request to the Secretary of the Company.

The board intends to review the Company's corporate governance principles, charters, Code of Conduct and other aspects of governance annually or more often if necessary, to remain current in all aspects of corporate governance. The board has also adopted a policy to self-evaluate its performance and that of each of its committees on an annual basis.

**Summary Of The Corporate Governance Principles**

*Board Leadership Structure*

Our Company is led by Mr. Robert M. Thornton, Jr. who has served as chief executive officer and chairman of the board of directors since 1998. We combine this traditional leadership structure with a board structure in which our non-management directors meet regularly outside of the presence of Mr. Thornton. We believe this structure currently works best for the Company by providing us with the benefits of a single person setting the tone and having primary responsibility for managing our operations and provides clear leadership. At the same time, by having a board which is composed mainly of independent directors, including former CEOs, individuals with healthcare industry operating experience, and diverse other talents, we believe we have created a board that is collegial, well versed in board processes and the duties of the committees on which they sit, and well engaged in their responsibilities. The board believes its members have no reticence about forcefully expressing their views while at the same time fully and fairly considering the views of their fellow directors, and that the members of the board have the experience and ability to critically evaluate the performance of our Chairman and CEO in implementing the strategic, as well as day to day, goals of the Company. Although the board periodically evaluates alternative board governance models and refinements to the existing structure, it believes, after assessing the current service of the Company's Chairman and CEO and the current composition of the board, that the current board leadership structure is appropriate for the Company.

*Independence*

The board of directors is required to consist of a majority of independent, non-management directors who meet the criteria for independence required by NYSE MKT. Under such rules, a director is independent if he or

## **Table of Contents**

she does not have a material relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Our board annually evaluates each board member's independence.

The board of directors has determined that, as of September 28, 2015 six (6) of the Company's seven (7) incumbent directors are independent under these guidelines: Ms. Brenner and Messrs. Baileys, Burlison, Ford, Mills and Turner. Mr. Thornton, as a management director, also participates in the board's activities and provides valuable insights and advice. Each member of our audit and compensation committees is an independent director both under the general definition for board independence as well as any separate independence criteria for service on the applicable committee whether required by the SEC, NYSE MKT or SunLink. Independence requirements for committee service are set forth in the respective committee charters.

The non-management directors meet periodically in executive session without the management director present. The executive sessions of non-management directors are presided over by the director who is the chairperson of the committee responsible for the issue being discussed. General discussions, such as the review of the Company's overall performance, are presided over by the chairperson or a director elected by a majority of the non-management directors.

### *Role of the Board in Risk Oversight*

The business of the Company is managed by the Company's employees under the direction and oversight of the board. Among the oversight activities of the board is the broad oversight of risk. Risk is inherent in virtually every business activity. Accordingly, the board's primary role with respect to risk is to ensure that the Company's management implements appropriate procedures designed to identify and, where possible, quantify and/or mitigate risks. The board administers its risk oversight function both at a board level and through its various committees. Our board committees consider, among other things, risk issues within their areas of responsibilities. For example: The audit committee oversees the accounting and financial reporting process, the adequacy of our risk-related internal financial controls, internal audit, the impact of risks on our current financial position, and related compliance matters. The compensation committee oversees the annual performance evaluations of executive management, succession planning, and the evaluation of risks that may be implicated by the Company's compensation structure. The responsibilities of the individual committees are discussed in greater detail elsewhere in this Proxy Statement.

### *Business Combinations*

In the event SunLink receives any formal written offer to purchase more than 20% of the Company's outstanding common shares, such proposal is required to be evaluated by the board of directors, who have delegated the evaluation of such offer(s) to the strategic planning committee of the board of directors. Such committee is required to be comprised of a majority of independent directors and currently is comprised solely of outside directors. The committee has established three criteria for any takeover proposal it considers: (1) adequate price, including in light of the limited trading market for the Company's common shares, (2) certainty of financing, and (3) minimum execution risk. The strategic planning committee may retain such legal and financial advisors as it may deem necessary to advise it and the board in respect of any offer or other proposal.

In the event of any proposed business combination involving SunLink, the compensation committee is authorized to retain an independent financial advisor to evaluate and make recommendations to the compensation committee concerning any severance or retention package proposed for any of SunLink's officers or directors in connection with any proposed business combination. The compensation committee will evaluate any such proposals in light of existing severance benefits and the financial effect of any existing or additional benefits.

*Director Share Ownership*

SunLink believes that each director should have a personal investment in the Company. Each outside director (or future outside director, as the case may be) is required to own at least one thousand (1,000) common

## **Table of Contents**

shares of SunLink. Each outside director (or future outside director, as the case may be) must maintain ownership of such number of common shares until such outside director ceases to serve as a member of the board. Each of our incumbent directors has complied with such ownership requirement since at least July 1, 2008.

### *Annual Meeting Attendance*

The board of directors encourages all of its members to attend the annual meeting of shareholders. In November 2014, all director nominees and all continuing directors were personally present at the annual meeting of shareholders, except Mr. Mills who attended by teleconference.

### **Communications By And With Directors**

In connection with the proper discharge of their duties, our independent non-management directors have access to individual members of management or to other employees of the Company on a confidential basis. Likewise, in connection with the discharge of their duties, non-management directors as authorized by the board or a committee thereof also have access to Company records and files, and our directors may contact other directors without informing Company management of the purpose or even the fact of such contact.

The board of directors has provided a means by which shareholders, employees or other interested persons may send communications to the board or to individual members of the board. Such communications should be directed to the Secretary of the Company and should be addressed to SunLink Health Systems, Inc., Office of Corporate Secretary, 900 Circle 75 Parkway, Suite 1120, Atlanta, Georgia 30339. Our corporate secretary will forward communications to the intended recipients. However, unsolicited advertisements or invitations to conferences or promotional material, in the discretion of the Secretary or his designee, may not be forwarded to the directors.

If a shareholder wishes to communicate to the chairperson of the audit committee about a concern relating to the Company's financial statements, accounting practices or internal controls, the concern should be submitted in writing to the chairperson of the audit committee in care of the Company's Secretary at our headquarters address. If the concern relates to the Company's governance practices, business ethics or corporate conduct, the concern likewise should be submitted in writing to the chairperson of the audit committee in care of the Company's Secretary at our headquarters address. If the shareholder is unsure as to which category his or her concern relates, he or she may communicate it to any one of the independent directors in care of the Company's Secretary.

The Company's whistleblower policy prohibits the Company or any of its employees from retaliating or taking any adverse action against anyone for raising a concern. If a shareholder or employee nonetheless prefers to raise his or her concern in a confidential or anonymous manner, the concern may be directed to the Compliance Committee Chairman at the Company's headquarters or by telephone at 1-866-244-5952. The officer responsible for such services or his designee will refer the concern to the compliance committee or, if appropriate, the chairperson of the audit committee to ensure that the matter is properly investigated.

### **Related Party Transactions**

The Company is subject to a variety of prohibitions on, or approval procedures with respect to, related party transactions.

First, the Company is subject to certain NYSE MKT requirements which require shareholder approval of certain related party transactions. Second, the Company's Code of Conduct prohibits related party transactions which could give rise to a conflict of interest including, but not limited to, employment by third parties that do business with the

Company; conducting business, not on behalf of the Company, with the Company's vendors, suppliers, and contractors; representing the Company in any transaction where such person representing the Company has a substantial personal interest; disclosure or use of confidential or inside information about the Company for personal gain; competition with the Company in any purchase, sale or ownership of property, property rights or interests; performing services for vendors or competitors of the Company; service on any board of directors or trustees that might conflict with the Company's interests and; the acceptance of any faculty or

**Table of Contents**

speaker positions and any honoraria in connection therewith. A related party transaction must be approved by the Company's compliance committee, or, in the case of a member of the board of directors and/or an executive officer, such related party transaction must be approved by the Company's audit committee, with such action reported to the Company's independent directors. To assist in identifying related party transactions, each director and officer is required, annually, to submit a Conflict of Interest Disclosure Statement. We have not adopted formal standards for the approval of related party transactions, but instead the compliance committee reviews these transactions on a case-by-case basis and may approve such transactions that are in, or not inconsistent with, the best interests of the Company and its shareholders.

because the full board is comprised predominately of independent directors and has the time and resources to perform the function of selecting board nominees. When our board performs its nominating function, it acts in accordance with our Articles of Incorporation and Code of Regulations but does not have a separate charter related to the nomination process.

### *Director Qualifications*

The board of directors concluded that each continuing director and each director nominated for re-election was qualified to serve as a director of SunLink and recommended the nominees for election or re-election at the current year's annual meeting. No single factor was more important than any other factor in the evaluation of any director or selection of any director nominee and the board made its determination on the basis of its own experience and subjective evaluation of each individual, with reference to various objective criteria required by law or other regulatory requirements, including but not limited to independence requirements and stock exchange regulations, as well as the subjective criteria that each director has deemed desirable in evaluating nominations.

Each director nominated for re-election and each continuing director was deemed by the board to have: met applicable legal and regulatory definitions of independence where required for their service on the board or its committees excluding from such independence determination process only Mr. Thornton, the Company's sole management director; met the criteria set forth in the Company's corporate governance guidelines; a reputation for and to have displayed, personal integrity and judgment; achieved professional prominence in their business careers; manifested concern for the interests of the Company's shareholders; sufficient time available for service on the SunLink board taking into account such person's other professional and personal commitments; demonstrated a commitment to the Company based on their current and historical service to the Company as a director and/or as an executive officer of the Company; a general understanding of marketing, finance, and other disciplines relevant to the success of a publicly traded company in today's business environment; and knowledge with respect to the current state of the Company based on their current and historical service to the Company as a director and/or as an executive officer of the Company.

Board members with long board service to the Company (Baileys, Brenner, Burlleson, Ford, Thornton and Turner), prior experience in the healthcare services industry (Burlleson, Ford and Thornton), current and prior experience providing legal services to clients in the healthcare industry (Turner), prior experience in businesses ancillary to the healthcare services industry (Burlleson, Ford and Thornton), or a combination thereof, as set forth in greater detail in their individual biographies, were deemed to have applicable industry or related industry experience relevant to the Company. Board members identified in greater detail in their individual biographies as having served as officers of other healthcare services providers (Burlleson, Ford and Thornton) or a current officer of the Company (Thornton) were deemed to have had operational experience relevant to the Company. Directors identified elsewhere in this Proxy Statement in greater detail as serving on specific committees of the board were deemed to have experience in matters relevant to their current committee assignments including executive compensation (Baileys, Brenner, and Burlleson), and financial expertise (Brenner and Ford). Each director is identified in greater detail in their biographies as an incumbent director of SunLink or as having served as an officer, director or both of one or more other public companies (Baileys, Burlleson, Ford, Mills and Thornton) was deemed to have experience relevant to SunLink as a public company and to the discharge of the duties of such persons as directors of a public company. Each director with prior CEO experience (Baileys, Burlleson and Ford) and corporate legal experience (Turner) was deemed to have experience relevant to their oversight of the Company's management in general and its CEO in particular. Each director identified in their biography as having applicable healthcare services industry experience (Baileys, Burlleson, Ford and Thornton), or healthcare legal experience (Turner) was deemed to have applicable industry regulatory experience. Each director identified as having experience in industries which are or have been highly competitive (all) or highly regulated, especially the financial services industries (Brenner and Mills), were deemed to have experience

relevant to the Company in its own business which is both highly competitive as well as highly regulated. Each director was deemed of sufficient age and maturity to have accumulated the life experiences, viewpoints, and expertise necessary to perform the duties of a public company director, as well as being able to vigorously perform his or her duties as a director of the Company.

**Table of Contents**

The board conceptualizes diversity expansively to include differences of viewpoint, professional experience, and skill sets, especially in matters of healthcare service operations and regulations, financing, marketing, and human resources, as well as a subjective determination of individual qualities, attributes, and differences. The board has taken into account the benefits of, but has not ascribed any specific weight to, or adopted any formal policy with respect to, matters of geographic and cultural background, race, and gender. The board evaluates each individual in the context of the board as a whole, with the objective of recommending a group that can best facilitate the success of SunLink's business and represent shareholder interests through the exercise of sound judgment using its diversity of experience. The board evaluates each incumbent director to determine whether he or she should be nominated to stand for re-election, based on the types of criteria outlined above as well as the director's contributions to the board during their current term. Because the assessment of the diversity of the board as well as the effectiveness of the current factors in achieving diversity from a variety of perspectives is based on the individual subjective evaluation of each of the board members, the Company does not engage in any formal benchmarking procedure.

**Board Meetings**

The board of directors held six (6) meetings during fiscal 2015. The board has four (4) standing committees: an executive committee, an audit committee, a compensation committee and a strategic planning committee. Except for Mr. Mills, all directors attended 75% or more of the meetings of the board of directors. **Nomination Procedures And Shareholder Nominations**

The board does not have a nominating committee but has adopted a nominating resolution which provides that the Company believes it to be in its best interest and the best interest of its shareholders to authorize the entire board to identify and nominate, by majority vote of the entire board of directors then in office, directors to serve on the Company's board so long as, pursuant to NYSE MKT rules, director nominees so selected are approved by a majority of the independent directors and, when vacancies occur on the board, the board seeks individuals qualified to become board members based on business experience, professional expertise, industry experience and diversity. Shareholders who wish to submit nominees for election at an annual or special meeting of shareholders should follow the procedure generally described in *Requirements, Including Deadlines, For Submission Of Proxy Proposals, Nomination Of Directors And Other Business Of Shareholders* on page 45 of this Proxy Statement and more particularly, in the Company's Code of Regulations. The board of directors applies the same standards in considering candidates submitted by shareholders as it does in evaluating candidates submitted by members of the board of directors. The board does not have a separate policy with regard to the consideration of candidates recommended by shareholders other than the process provided in the nominating resolution.

Table of Contents**COMPENSATION OF DIRECTORS****Management Directors**

We do not pay directors who are also our employees any additional compensation for serving as a director, other than customary reimbursement of expenses.

**Non-Management Directors**

The Company believes that the compensation of non-management directors should be at a level which is sufficient to attract talented and diverse individuals to serve on the Company's board of directors while, at the same time, avoiding compensation levels where the level of compensation might present the appearance of a potential lack of director independence. However, in recent years, the board of directors has limited director compensation in light of the Company's recent financial performance to levels below those which the board would otherwise deem appropriate.

The following chart discloses the compensation of each non-management director for the fiscal year ended June 30, 2015:

(1) **Cash Compensation.** Non-management directors receive a flat fee for director compensation of \$36,000 per year, payable on a monthly basis in equal installments. We also reimburse customary expenses for attending board, committee and shareholder meetings.

(2) **Equity Compensation.** Each non-employee director is eligible to participate in the 2011 Directors Stock Option Plan, and each award, if any, during fiscal 2015 was awarded under such plan. Although each non-employee director is technically eligible to participate in the Company's 2001 Outside Directors' Stock Ownership and Stock Option Plan and in the 2005 Equity Incentive Plan, the last shares available for new grants to directors under either such plan were utilized in 2005.

- (3) **Other Arrangements.** Mr. Turner is a partner of the law firm of Smith, Gambrell & Russell, LLP. Such law firm provided legal services to the Company in the fiscal year ended June 30, 2015 at customary rates and continues to provide such services to the Company in the fiscal year ending June 30, 2016.

**EXECUTIVE COMPENSATION**

**Compensation Process**

*Compensation Review Process; Management Participation in Compensation Determinations; Delegation of Authority*

The compensation of our executive officers is determined by the compensation committee of our board of directors on an annual basis subject to the provisions of employment agreements and employment letters. The committee considers all elements of compensation in making its determinations. With respect to those executive officers who do not serve on our board of directors, the committee also considers the recommendations of our chairman of the board and chief executive officer. The committee meets at various times during the year, and it also considers and takes action by written consent. The committee chair reports on committee actions and recommendations at board meetings.

Periodically, the committee conducts a review of the Company's executive compensation program (the "Compensation Review"). The Compensation Review may include (a) an internal report evaluating executive compensation throughout the Company to review consistency and program effectiveness, (b) a report evaluating the competitiveness of executive compensation at the Company relative to other healthcare companies and public corporations employing similar executive talent, which report may be internally generated or produced by outside consultants or (c) both. As part of the evaluation process, the committee considers the recommendations of management; particularly the recommendation of the Company's chief executive officer, in setting the compensation of the Company's named executive officers.

The committee may delegate limited authority to the compensation and benefits group in SunLink's human resources (HR) department to support the committee in its work and, in some cases, act pursuant to delegated authority to fulfill various functions in administering SunLink's compensation programs.

*Authority To Utilize Compensation Consultants*

The compensation committee has the authority to engage and has in the past has engaged, outside advisers, experts, and others to assist it in various ways including providing it with comparative data. The compensation committee has established procedures that it considers adequate to ensure that advice to the committee remains objective and is not influenced by the Company's management, including a direct reporting relationship of any compensation consultant to the committee. If the committee elects to engage any consultant, it is contemplated that under the terms of any agreement with any such consultant the committee will be able to contact the consultant without any interaction from Company management and the committee will require both the consultant and the Company to report any engagement of the consultant by the Company and the amount of fees paid or anticipated to be paid in connection with such engagement in order that the committee may evaluate the independence of such consultant in its role as the committee's compensation consultant.

**Compensation Disclosure And Analysis**

This Compensation Disclosure and Analysis discusses components for the year ended June 30, 2015 (fiscal year 2015) and the other periods specified herein.

*Objectives and Goals*

We have five major objectives for the Company's compensation structure:

1. Accountability Through Measurable Goals, through revenue and EBITDA goals and expense control measures, which align our compensation programs with internal financial objectives for revenue, EBITDA

## Table of Contents

and cost control; and through repositioning goals for our business both internally and pursuant to strategic transactions, including the disposition of underperforming assets.

2. Congruence between Executive Pay and Business Performance, through compensation programs designed to reward high performance with high compensation over different time horizons.

3. External Competitiveness, through compensation programs that are intended to motivate management with compensation that takes into account relative compensation and performance within the healthcare industry and compensation relative to other companies of similar size and complexity and performance, as well as to promote management continuity and succession planning.

4. At Risk Compensation, through compensation programs that are intended to encourage strategic goals and provide continued at risk compensation, including when available and advisable equity-linked compensation programs, as well as a stock ownership requirement for our named executive officers (our NEOs).

5. Risk Appropriateness, through compensation programs that encourage boldness and innovation but do not encourage undue or excessive risk and do not sacrifice long term growth or goals for transient success. To achieve this goal, we seek to use compensation programs that balance short and long term incentives and which do not utilize open-ended incentives. We also do not utilize certain performance measures, which we believe could encourage undue risk taking. We consider adjusting targets when warranted by economic conditions or changes in the Company's business strategy. We endeavor not to pay excessive compensation when macroeconomic conditions played a significant role in the Company's success and conversely we endeavor not to overly penalize the Company's officers when macroeconomic conditions have adversely affected the Company's success; however, we do evaluate how the Company's officers guide the Company in responding to macroeconomic challenges.

### *Use Of Compensation Consultants*

During fiscal year 2015, the committee did not retain any compensation consultants or engage in any formal benchmarking.

### *Major Compensation Components*

In fiscal 2015, the principal components of compensation for our executive officers were base salary and short-term incentives, generally in the form of cash bonus programs. We believe that the Company's current goals are best met by utilizing an approach to compensation with these two (2) distinct elements.

*Base Salaries.* The Company's base salaries are intended to be consistent with its understanding of competitive practices, levels of executive responsibility, qualifications necessary for the particular executive position and the expertise and experience of the executive officer. Salary adjustments reflect the compensation committee's belief as to competitive trends, the performance of the individual and, to some extent, the overall financial condition of the Company.

Base salary amounts in fiscal year 2015 were unchanged from fiscal year 2014.

Base salaries for the Company's named executive officers at June 30, 2015, effective from July 1, 2014, were as follows:

<b>Name</b>	<b>Base Salary</b>
Robert M. Thornton, Jr	\$ 359,700
Mark J. Stockslager	\$ 182,585
Byron D. Finn	\$ 200,000

In setting base salaries for fiscal year 2015, the committee considered a number of factors including, but not limited to: the fact that no material adjustments were made to base compensation during fiscal 2014; the

**Table of Contents**

Company's performance in fiscal 2014; and the steps taken by the Company's executive officers in fiscal 2014 to respond to the various events which have negatively impacted the Company's business. The size of specific salary adjustments in fiscal 2015 also reflected the committee's beliefs as to competitive trends, the performance of the individual, internal equity, the appropriateness of the rate at which adjustments should be made, and, to some extent, the overall financial condition of the Company. Individual variances also were based on the committee's subjective evaluation of other factors including length of service in position, the extent of any difference between an officer's base salary and the base salaries of other officers, the nature of an individual officer's duties, and other factors which may have been deemed relevant by the individual members of the compensation committee.

During fiscal year 2015, the CEO, Mr. Thornton, was employed under an employment agreement which provided for an annual base salary of not less than \$335,000. The compensation committee believes that, based in part on consultation with a compensation consulting firm at the end of fiscal year 2015, Mr. Thornton's salary is on the low end of salaries for CEOs of regional hospital management companies.

Base salary amounts set for fiscal year 2016 were either unchanged or reflected only minor increases of 1.75% and 4.0% for Mr. Thornton and Mr. Stockslager, respectively from their respective base salaries for fiscal year 2015. Base salaries for the Company's named executive officers effective from July 1, 2015, are as follows:

<b>Name</b>	<b>Base Salary</b>
Robert M. Thornton, Jr	\$ 366,000
Mark J. Stockslager	\$ 190,000
Byron D. Finn	\$ 200,000

In setting base salaries for fiscal year 2016, the committee considered a number of factors including, but not limited to: the fact that no material adjustments were made to base compensation during fiscal 2015; the Company's performance in fiscal 2015; and the steps taken by the Company's executive officers in fiscal 2015 to achieve performance under the 2015 Bonus Plan. The size of specific salary adjustments for fiscal 2016 also reflected the committee's beliefs as to competitive trends, the performance of the individual, internal equity, the appropriateness of the rate at which adjustments should be made, and, to some extent, the overall financial condition of the Company. Individual variances also were based on the committee's subjective evaluation of other factors including length of service in position, the extent of any difference between an officer's base salary and the base salaries of other officers, the nature of an individual officer's duties, and other factors which may have been deemed relevant by the individual members of the compensation committee.

*Short-Term Incentives*

**2015 Bonus Plan.** For fiscal 2015, the compensation committee approved a single bonus plan with a pool thereunder in the amount of \$382,000 (the "2015 Bonus Plan"). The 2015 Bonus Plan included participants in addition to the Company's executive officers. Bonuses to executive officers under the 2015 Bonus Plan could not exceed the maximum annual amounts for fiscal year 2015 for which such officers are entitled to be considered under their employment or other agreements with the Company. Relative weighing among criteria and allocations were fixed in the Committee's discretion based on the achievement of milestone and operating objectives, the identity of the plan participants and their relative responsibilities for achieving objectives. Milestone objectives again included the disposition of underperforming assets and a reduction in costs by deregistering under the Exchange Act. Operative objectives again included whether the Company achieved its budgeted consolidated and business line operating EBITDA and whether the Company obtained business line financing for one or more of the Company's lines of business. The compensation committee retains full authority under the 2015 Bonus Plan to: determine the identity of

participants to whom bonuses would be payable (if at all), to determine the amount of bonuses payable under the 2015 Plan (if at all), to determine whether objectives under the 2015 Bonus Plan were achieved, to add, modify or delete objectives under the 2015 Bonus Plan, and to determine the timing in whole or in part of payouts (if any) under the 2015 Bonus Plan.

**Table of Contents**

In September 2015, the Compensation Committee met to determine whether bonuses should be paid under the 2015 Bonus Plan and, if so, in what amounts. The Committee considered management's recommendations in light of the fact that the Company had achieved the following milestone objectives: (a) the sale of the Company's Fulton Hospital, (b) the achievement of consolidated and business line EBITDA in excess of budget by six percent, (c) an aggregate of \$1.5 million of income recoveries from an insurance claim and the settlement of certain subsidiary litigation with respect to a real estate transaction, both previously described in the Company's periodic filings, (d) the procurement of business line financing commitments of \$4 million for the Company and \$1 million for the Company's indirect wholly-owned Carmichael's Cashway Pharmacy, Inc. subsidiary, (e) the renewal of a \$500,000 working capital line for Southern Health Corporation of Houston, Inc., an indirect wholly-owned subsidiary of the Company which owns Trace Regional Hospital, (f) a substantial increase in cash and working capital from approximately \$9,269,000 at June 30, 2014 to \$14,328,000 at June 30, 2015 and (g) a reduction of consolidated long term debt from approximately \$17 million at June 30, 2014 to approximately \$12 million at June 30, 2015.

After deliberation, the Committee approved bonuses equal to \$342,722 from the \$382,000 pool reserved under the 2015 Bonus Plan including (i) \$143,880 for Mr. Thornton (equal to 40% of his base salary), (ii) \$73,034 for Mr. Stockslager (equal to 40% of his base salary) and (iii) \$125,808 for other non-executive members of management of the Company and its various operations. Under his employment agreement, Mr. Thornton is eligible to be considered for an annual bonus of up to seventy percent of his annual base salary. Under his employment letter, Mr. Stockslager is also eligible to be considered for an annual bonus of up to forty percent of his annual base salary.

The following table sets forth, for each named executive officer, information regarding each incentive award for the year ended June 30, 2015:

Short-Term Incentive Plan Participant  (Name and Position)	Award Percentage Subject to Objective Criteria		Actual Award as a Percentage of Incentive Base Salary (\$)	Actual Annual Incentive Award as a Percentage of 2015 Actual Base Salary

*Long-Term Incentives.* While base salary and short-term incentives are primarily designed to compensate current and past performance, the primary goal of the long-term incentive compensation program is to directly link management compensation with the long-term interests of the shareholders through the award of equity based compensation. Historically, the compensation committee has not utilized any percentage or relative measure of valuation to establish any relationship or allocation between equity-based and non-equity-based compensation. At June 30, 2015, the Company had available 338,533 shares available for future issuance under its 2005 Equity Incentive Plan. The Company's ability to make new awards under the Plan terminates on November 7, 2015.

Types Of Equity Awards And Criteria For Award Type Selection. The Company historically has used stock options to align executive officer's interests with those of our shareholders. Options are intended to provide strong incentives for superior long-term performance. In the future, the compensation committee may, at its discretion and subject to availability under the plan, grant awards to executive officers through one or more equity plans.

Criteria For Award Amounts. In considering whether to grant equity incentives for fiscal year 2015, the committee looked at the availability of shares under the 2005 Equity Incentive Plan and made limited awards of options for 90,000 shares for such year. When shares have been available for issuance under the Company's equity plans, the committee historically has looked at a variety of factors, with no formal weighting assigned to any single factor or group of factors. In determining the size of equity awards, the committee assesses the current value of previous awards; however, it has not historically given any weight to accumulated wealth in evaluating whether future awards are merited. Historically, the committee also, from time to time, has evaluated equity incentive awards made by our competitors (both individually and as part of a comparative compensation analysis, although no such analysis was made with respect to the limited grants in 2015), historical levels of the Company's equity incentives (including the fact that no equity awards were made in 2014), the extent to which value under the award is subject to risk, whether the award vehicle has intrinsic value and the need to motivate and retain persons eligible to participate under the Company's plans. The committee has placed less emphasis on equity awards in light of the thinly traded market for the Company's common shares. The committee also considered the uncertain prospects for equity appreciation in light of the thinly traded market for the Company's common shares, the underperformance of the Company financially, the prospect for slow growth in the Company's businesses, and the current macroeconomic environment.

*Vesting And Holding Periods For Equity Incentive Compensation.* Grants of stock options are exercisable at such times and subject to such terms and conditions as the committee may, in its sole discretion, specify in the applicable award agreement. However, as a means to encourage continued employment with SunLink, the Company's equity awards historically have been subject to a multi-year vesting period. The committee anticipates that future awards (if available) will be subject to multi-year vesting, most likely over three year periods; vesting and holding periods also may be examined as part of a future compensation review. Currently, the Company does not impose minimum equity ownership requirements for equity compensation awarded to its executive officers, nor does it require any continued ownership of the securities issued pursuant to such awards after vesting. Historically, the Company's executive officers have held substantially all shares acquired by the exercise of options, although there can be no assurance that they will continue to do so in the future. Because there is no mandatory holding policy, executive officers may sell shares issuable upon the exercise of options for any reason and persons who cease to be executive officers may elect to sell some or all of their holdings for any reason.

In considering whether to grant equity incentives for fiscal year 2015, the compensation committee looked at a variety of factors, with no formal weighting assigned to any single factor or group of factors. In determining awards for such period the compensation committee focused on the discretionary criteria evaluated in connection with the short term incentive plan, and to a lesser extent, the Company's recent financial and operational performance.

*2015 Equity Awards.* For a further discussion of equity awards made to the Company's named executive officers for 2015, see "Grant of Plan-Based Awards in Last Fiscal Year".

*2016 Equity Awards.* In setting compensation for named executive officers for fiscal 2016, the Committee approved (i) the award of options for 5,000 shares to each of the six non-management board members (30,000 total options) to be vested immediately and exercisable over a 10 year period at the market price of the Company's common stock on date of grant, (ii) the award of options for 30,000 shares of the Company's common shares to Mr. Thornton and 15,000 shares of the Company's common shares to Mr. Stockslager, each vesting at 33-1/3% on each of the three anniversaries after date of grant and exercisable over a 10 year period at the market price of the Company's common stock on date of grant, which price was \$1.79

*Other Benefits*

All of the Company's executives are eligible to participate in the Company's health care, insurance and other welfare and employee benefit programs, which generally are the same for all eligible employees, including SunLink's executive officers.

**401(k) retirement savings plan.** SunLink offers tax advantaged savings benefits to its employees through an employee-funded 401(k) retirement savings plan with an annual discretionary company match as determined by SunLink's board of directors. The 401(k) savings plan provides a long-term savings vehicle that allows for pre-tax contributions by an employee and tax-deferred earnings. Employees may generally contribute up to 100% of eligible annual pay to the 401(k) savings plan, not to exceed the annual IRS limit (generally \$18,000 for 2015). Employees attaining at least 50 years of age by the end of 2014 were eligible to make 401(k) catch-up contributions to a maximum of \$6,000. Employees direct their own investments in the 401(k) savings plan. The benefits under such tax-qualified savings plans for SunLink's executive officers are the same as those available for other eligible employees. Individual participant balances reflect a combination of: (1) a differing annual amount contributed by the Company or the employee; (2) the annual contributions and/or deferred amounts being invested at the discretion of the employee (the same investment choices are available to all participants); and (3), as in (2), the continuing reinvestment of the investment returns until the accounts are paid out. This means that similarly situated employees, including SunLink's executive officers, may have materially different account balances because of a combination of factors: the number of years that the person has participated in the plan; the amount of money contributed or compensation deferred at the election of the participant from year to year; and the investments chosen by the participant. The 401(k) savings plan does not promise any guaranteed minimum returns or above-market returns; the investment returns are dependent upon actual investment results. Accordingly, when determining annual compensation for executive officers, the compensation committee does not consider the individuals' retirement plan balances and payout projections.

*Use Of Employment And Severance Agreements*

In the past, the committee has determined that competitive considerations merited the use of employment contracts or severance agreements for certain members of senior management. Currently, Mr. Thornton is employed pursuant to employment contract, while Messrs. Stockslager and Finn are employed pursuant to employment letters. Mr. Thornton's agreement and Messrs. Stockslager's and Finn's letters include severance benefits under certain circumstances. The Company's severance benefits take effect in connection with severance other than for death, disability or cause. Additionally Messrs. Thornton, Stockslager and Finn are entitled to severance benefits in connection with a "change in control". We have designed these severance benefits to help keep employees focused on their jobs, especially during the uncertainty that accompanies a change in control, to preserve benefits after a change in control transaction, and to help us attract and retain key talent. Compensation criteria for officers employed

pursuant to employment agreements with severance benefits may be more difficult to adjust on an annual basis. For more information on employment or severance contracts please refer to *Employment Contracts, Termination Of Employment And Change-In-Control Arrangements* beginning on page 34 of these Proxy Materials.

## **Table of Contents**

### *Change In Control Compensation*

Provisions for additional or continued compensation in connection with a change in control of the Company are located in two areas: (1) specifically in the Company's employment agreements and employment letters as discussed above; (2) and, more generally, in the Company's equity incentive plans and/or award agreements thereunder, whereby the committee administering such plans and awards has the power to accelerate the vesting of such awards upon a change in control or where such plans or awards provide for automatic vesting in the event of such change, whether merely upon the occurrence of such event or upon the occurrence of such event and an adverse occurrence for the participant, such as termination of employment.

The change in control provisions set forth in the Company's employment agreements employ several approaches to cause a triggering event. In some cases, change in control benefits are payable in the ordinary course upon the occurrence of the event. Payment of benefits is not restricted only to situations involving the involuntary termination of the officer afforded such change in control protection. In other cases, benefits are payable in the case of involuntary terminations or where the executive, in connection with or within one year of the transaction, elects to terminate his employment. The committee believes this approach helps to ensure the continued availability of the services of the executive during the times of uncertainty inherent with any change in control, including especially in the immediate post-event period under new ownership and/or management, while at the same time limiting windfall benefits by making the benefits payable only after a termination of employment. By providing post-event coverage, the executive is encouraged to remain in the employ of the Company without the need to be concerned about a post-event restructuring which may result in a material diminishment of the executive's duties or post-event management or ownership changes with respect to which the executive may have concerns or reservations.

The definition of change in control is intended to be broad in scope and to capture most, if not all, of the scenarios where an actual change in control has occurred. Automatic vesting under the terms of our equity compensation plans, if any, is based on the committee's belief as to market practices at the time of award and recognition that the value of equity compensation can be radically affected by a change in control, whether or not existing management is retained.

In connection with providing severance benefits to the Company's other executive officers, the committee has evaluated, and expects to continue to examine, the amounts which could be realized by persons granted such rights upon a change in control.

### *Internal Equity*

Internal equity has generally been evaluated based on a subjective assessment of the relative contributions of the members of the management team. For the year ended June 30, 2015, the committee did not undertake any formal audit or similar analysis of compensation equity with respect to Mr. Thornton relative to the other members of the management team or with respect to the management team relative to the Company's employees generally. However, the committee believes that the relative difference between the compensation of the Company's chairman and chief executive officer and the compensation of the Company's other executives is not inconsistent with the differences found in the healthcare industry group and the market for executive level personnel for similarly sized public companies. As a smaller reporting company, SunLink is not subject to the provisions of Item 402 of Regulation S-K required by Section 953(b)(1) of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act) that mandate certain compensation and pay ratio disclosures by certain public companies.

### *Wealth Accumulation*

The compensation committee does not engage in a specific process which attempts to justify compensation levels based on wealth accumulation. The committee does not analyze proposed annual compensation for any

individual versus the accrued wealth of such individual, or the accrued wealth of persons with similar job titles at other companies. The committee believes that no such meaningful analysis can be performed due to, among other things, disparate actual duties versus job titles, different employment histories, different life experiences or needs or social inequalities.

### *Recapture And Forfeiture Policies*

As a smaller reporting company, SunLink is not required to implement recapture rules under Item 402 of Regulation S-K as required by the Dodd-Frank Act for certain public companies. Historically the Company has not had formal policies with respect to the adjustment or recapture of performance-based awards where the financial measures on which such awards are or were based, are adjusted for changes in reported results such as, but not limited to, instances where the Company's financial statements are restated. The committee does not believe that repayment generally should be required where the plan participant has acted in good faith and the errors are not attributable to the participants' gross negligence or willful misconduct. However, the committee has in the past and may in the future take such errors into account, including whether the conduct was negligent or without fault, in setting and awarding current or future compensation, including discretionary compensation. The committee believes the Company has or will have available negotiated or legal remedies in many situations. Furthermore, the committee may elect to take into account factors such as the timing and amount of any financial restatement or adjustment, the amounts of benefits received and the clarity of accounting requirements leading to any restatement in determining current or future compensation of the responsible officer or officers.

### *Deductibility Of Compensation And Related Tax Considerations*

As one of the factors in its review of compensation matters, the committee considers the anticipated tax treatment to the Company and to the executives of various payments and benefits.

*Section 162(m)*. Section 162(m) of the Code generally limits to \$1 million the amount that a publicly held corporation is allowed each year to deduct for the compensation paid to each of the corporation's chief executive officer and the corporation's four most highly compensated executive officers, other than the chief executive officer. However, performance-based compensation is not subject to the \$1 million deduction limit. In general, to qualify as performance-based compensation, the following requirements must be satisfied: (i) payments must be computed on the basis of an objective, performance-based compensation standard determined by a committee consisting solely of two or more outside directors; (ii) the material terms under which the compensation is to be paid, including the business criteria upon which the performance goals are based, and a limit on the maximum amount which may be paid to any participant pursuant to any award with respect to any performance period, are approved by a majority of the corporation's shareholders; and (iii) the committee certifies that the applicable performance goals were satisfied before payment of any performance-based compensation is made.

Although the Company's stock option plans generally have been structured with the goal of complying with the requirements of Section 162(m), and the compensation committee believes stock options awarded thereunder should qualify as performance-based compensation exempt from limitations on deductibility under Section 162(m), the deductibility of any compensation has not been a condition to any compensation decision. Based on current compensation levels, the Company does not expect its ability to deduct executive compensation to be limited by operation of Section 162(m).

Revenue Ruling 2008-13 states that if performance-based pay could become due under a plan or agreement upon a termination without cause, for good reason, or as a result of voluntary retirement, and would be payable regardless of whether performance-based goals are met, then any payment from such plan or agreement will not qualify as Section 162(m) performance-based compensation and will not be eligible for exclusion from the Section 162(m) \$1 million compensation limit.

Under the Company's employment contract with Mr. Thornton and employment letters with Messrs. Stockslager and Finn, executive benefits agreements, certain terminations following a change of

## **Table of Contents**

control give rise to a payment obligation based on the amount of the officer's salary and prior bonus amounts. Such arrangements are not eligible for the performance based exclusion. Likewise, amounts payable under the 2016 Plan, if paid in connection with a Change of Control or otherwise do not meet the criteria for performance based compensation under Section 162(m).

Due to interpretations and changes in the tax laws, some types of compensation payments and their deductibility depend on the timing of an executive's vesting or exercise of previously granted rights and other factors beyond the compensation committee's control which could affect the deductibility of compensation.

The compensation committee will continue to consider the impact of Section 162(m) when designing compensation programs, and in making compensation decisions affecting the Company's Section 162(m) covered executives, if any.

*Section 280G.* Code Section 280G generally denies a deduction for a significant portion of certain compensatory payments made to corporate officers, certain shareholders and certain highly-compensated employees if the payments are contingent on a change in control of the employer and the aggregate amounts of the payments to the relevant individual exceed a specified relationship to that individual's average compensation from the employer over the preceding five years. In addition, Code Section 4999 imposes on that individual a 20% excise tax on the same portion of the payments received for which the employer is denied a deduction under Section 280G. In determining whether to approve an obligation to make payments for which Section 280G would deny the Company a deduction or whether to approve an obligation to indemnify (or gross-up) an executive against the effects of the Section 4999 excise tax, the committee has adopted an approach similar to that described above with respect to payments which may be subject to the deduction limitations of Section 162(m).

### *Duration Of Benefits*

The duration of benefits for our executive officers is based on a variety of factors including the purpose of the benefit, historical expectations, competitive factors and the cost of providing the benefit. Historically, we have provided no lifetime benefits.

### *Chief Executive Officer Compensation*

Except as noted, the compensation policies described in this report apply equally to the compensation of the Chief Executive Officer.

### *Committee Conclusions*

The committee believes that SunLink's 2015 compensation program and the total compensation (and, in the case of the severance and change-in-control scenarios, the potential payouts) awarded to the Company's named executive officers in the aggregate to be reasonable and not excessive.

Any Person, or Persons acting together that would constitute a group, together with any Affiliates or Related Persons thereof (other than any employee stock ownership plan), beneficially owns 40% or more of the total voting power of all classes of Voting Stock of the Company, except an acquisition by (i) an employee

benefit plan maintained by the Company or another corporation controlled directly or indirectly by the Company; (ii) the Company or any Subsidiary; (iii) Executive or any Person controlled by an Executive, under common control with Executive or acting in concert with Executive; or (iv) any Person in connection with a non-control transaction;

If the executive's employment is terminated prior to a change in control and the executive reasonably demonstrates that such termination (A) was at the request of a third party who has indicated an intention or taken steps reasonably calculated to effect a change-in-control and who effectuates a change in control (a third party ) or (B) otherwise occurred in connection with, or in anticipation of, a change-in-control which actually occurs, then for all purposes, the date of a change in control with respect to the executive shall mean the date immediately prior to the date of such termination of the executive's employment.

Upon a change in control, if Mr. Thornton's employment is thereafter terminated for any reason other than cause or if he terminates his employment within one (1) year of the change in control, he is entitled to (a) thirty months of base pay, to be paid in accordance with the Company's payroll practices; (b) accrued compensation, including a pro rata portion of any annual bonus for which goals have been proportionately met; (c) health and certain ancillary benefits for twenty four months following termination; and (d) full vesting of any then unvested stock options.

**PROPOSAL 2 TO BE VOTED ON BY SHAREHOLDERS**

**Proposal 2 Advisory Vote on Executive Compensation**

We are requesting your advisory approval of the compensation of our named executive officers as disclosed in the Executive Compensation section of this Proxy Statement, including the compensation tables, and the narrative discussion set forth on pages 22 to 30 of this Proxy Statement. This non-binding advisory vote is commonly referred to as a "say on pay" vote.

Our Compensation Committee, which is responsible for designing and administering our executive compensation program, has designed our executive compensation program to provide a competitive compensation and benefits package that reflects executive performance, job complexity and strategic value of the position, which it believes also includes retention incentives, performance incentives, and alignment with the interests of the Company's shareholders. We encourage you to carefully review the Executive Compensation section of this Proxy Statement for additional details on the Company's executive compensation, including the Company's compensation objectives, as well as the processes our Compensation Committee used to determine the structure and amounts of the compensation of our named executive officers for the fiscal year ended June 30, 2015.

We are asking you to indicate your support for the compensation of our named executive officers as described in this Proxy Statement. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and the objectives, policies and practices described in this Proxy Statement. Accordingly, we are asking you to vote, on an advisory basis, For the following resolution at the Annual Meeting:

**RESOLVED**, that the compensation paid to SunLink Health Systems, Inc.'s named executive officers, as disclosed pursuant to the Securities and Exchange Commission's compensation disclosure rules, including the Executive Compensation section of the Proxy Statement, and the compensation tables and narrative discussion set forth therein, is hereby approved.

While the results of this advisory vote are not binding, the Compensation Committee will consider the outcome of the vote in deciding whether to take any action as a result of the vote and when making future compensation decisions for our named executive officers.

**Vote Required and Board Recommendation**

The "say-on-pay" proposal will be approved if the number of votes cast in favor of the proposal exceeds the number of votes cast against the proposal.

*The board of directors unanimously recommends that the Company's shareholders vote FOR the compensation of our named executive officers as disclosed in this Proxy Statement.*

**PROPOSAL 3 TO BE VOTED ON BY SHAREHOLDERS**

**Proposal 3 Advisory Vote on the Frequency of the Vote on Executive Compensation**

The Company is presenting this proposal, which gives you as a shareholder the opportunity to inform the Company as to how often you wish the Company to include a say-on-pay proposal in our Proxy Statement (a say-on-frequency vote). While this say-on-frequency vote is advisory in nature and therefore will not bind us to adopt any particular frequency, the Board intends to carefully consider the shareholder vote resulting from the proposal in determining how frequently we will hold say-on-pay votes.

Please note that, as a shareholder, you have the choice to vote for one of the following choices, as indicated on the proxy card: to hold the advisory vote on executive compensation (1) every year, (2) every two years, (3) every three years, or (4) to abstain from voting.

The Board values constructive dialogue on executive compensation and other important governance topics with our shareholders. Because the executive compensation program for our named executive officers has remained consistent for several years, the Board believes an advisory vote every two years should be sufficiently frequent to obtain information on shareholder sentiment about our executive compensation program and to respond to shareholders feedback and the vote results.

**Required Vote of Shareholders**

Shareholders are not voting to approve or disapprove the recommendation of the Board that the say-on-pay vote be held every two years, but, rather, to express their own preference. The Company will take into consideration the shareholder vote on each of the alternatives set forth in the proxy card with respect to this Proposal.

*The board of directors unanimously recommends that the Company's shareholders vote for the 2 Years alternative set out in the proxy card.*

Even if the selection is ratified, the audit committee, in its discretion, may select a different independent registered public accounting firm at any time during the year and may periodically request proposals from other independent registered public accounting firms and as a result of such process may select Cherry Bekaert LLP or another independent registered public accounting firm if the audit committee determines that such a change or action would be in the best interests of the Company and our shareholders.
