YPF SOCIEDAD ANONIMA AND CONTROLLED COMPANIES

Notes to the condensed interim consolidated financial statements as of September 30, 2015 and comparative information

(amounts expressed in millions of Argentine Pesos, except shares and per share amounts expressed in Argentine Pesos, and as otherwise indicated Note 1.b)

1. BASIS OF PREPARATION OF THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

1.a. Basis of preparation

The condensed interim consolidated financial statements of YPF S.A. (hereinafter "YPF" or the "Company") and its controlled companies (hereinafter and all together, the "Group") for the nine-month period ended September 30, 2015, are presented in accordance with International Accounting Standards ("IAS") No. 34 Interim Financial Reporting. The adoption of the International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") was determined by the Technical Resolution No. 26 (ordered text) issued by Argentine Federation of Professional Councils in Economic Sciences ("FACPCE") and the Regulations of the Argentine Securities Commission ("CNV"). Also, some additional information required by the Law 19,550 of Argentine Corporations and /or regulations of the CNV, was included. Such information was included in the Notes to the mentioned condensed interim consolidated financial statements only to comply with regulatory requirements.

These Condensed Interim Consolidated Financial Statements should be read in conjunction with the Annual Consolidated Financial Statements of the Group as of December 31, 2014 (the Annual Consolidated Financial Statements) prepared in accordance with IFRS.

These condensed interim consolidated financial statements were approved by the Board of Directors meeting and authorized to be issued on November 5, 2015.

These Condensed Interim Consolidated Financial Statements corresponding to the nine-month period ended on September 30, 2015 are unaudited. Management believes they include all necessary adjustments to fairly present the results of each period on a consistent basis with the annual consolidated financial statements. Results for the nine-month period ended on September 30, 2015 do not necessarily reflect the proportion of the Group's full-year results.

1.b) Significant Accounting Policies

The accounting policies adopted in the preparation of these condensed interim consolidated financial statements are consistent with those used in the preparation of the Annual Consolidated Financial Statements of the Group as of December 31, 2014, except for the valuation policy for Income Tax detailed in Note 6.i). The most significant accounting policies are described in Note 1 to such annual consolidated financial statements. Furthermore, revenue recognition treatment given by the Group for incentive scheme is described below.

Revenue recognition for incentive scheme

The incentives for additional natural gas injection (see Note 11.c to the annual consolidated financial statements) and the crude oil production (see Note 11.c), issued by the *Comisión de Planificación y Coordinación Estratégica del Plan Nacional de Inversiones Hidrocarburíferas* (Strategic Planning and Coordination Commission of the National Hydrocarbon Investment Plan) by Resolutions No. 1/2013 and No. 14/2015, respectively, fall within the scope of IAS 20 Accounting for Government Grants and Disclosure of Government Assistance because they consist of an economic compensation for companies committed to increasing their productions.

Moreover, the temporary economic assistance received by Metrogas S.A. ordered by the Argentine Energy Secretariat in Resolution No. 263/2015 (see Note 11.c) is also contemplated under this standard, because it is intended to cover costs and investments related to the normal operation of the provision of the natural gas distribution public service by preserving the chain of payments to natural gas producers until completion of the Tariff Review.

Such revenues are recognized at fair value when there is reasonable assurance that the incentives will be received and the conditions related to them are met.

Production incentives have been included in Revenues in the condensed interim consolidated statement of comprehensive income, while the temporary economic assistance has been included under the category Other operating results, net .

New issued standards

The standards, interpretations and related amendments published by the IASB and endorsed by the FACPCE and the CNV which have been applied by the Group as from the year beginning on January 1, 2015, are the following:

Annual improvements to IFRS (2010-2012 cycle) modify several standards, including amendments to IAS 16 (Property, Plant and Equipment), IAS 24 (Related Party Disclosures), IAS 38 (Intangible Assets), IFRS 2 (Shared-based Payment), IFRS 3 (Business Combinations), IFRS 8 (Operating Segments) and IFRS 13 (Fair Value Measurement).

Annual improvements to IFRS (2011-2013 cycle) modify several standards, including amendments to IAS 40 (Investment Property), IFRS 1 (First-time Adoption of International Financial Reporting Standards), IFRS 3 (Business Combinations) and IFRS 13 (Fair Value Measurement).

The aforementioned adoption of standards, interpretations and related amendments did not have significant impact on these condensed interim consolidated financial statements of the Group.

Functional and reporting currency

As it was mentioned in Note 1.b.1 to the Annual Consolidated Financial Statements YPF has defined the U.S. dollar as its functional currency. In addition, according to General Resolution No. 562 of the CNV, YPF shall submit its financial statements in Argentine Pesos.

1.c) Accounting Estimates and Judgments

The preparation of financial statements at a certain date requires the Management to make estimates and assessments affecting the amount of assets and liabilities recorded, contingent assets and liabilities disclosed at such date, as well

as income and expenses recorded during the period. Actual future results might differ from the estimates and assessments made at the date of preparation of these condensed interim consolidated financial statements.

In the preparation of these Condensed Interim Consolidated Financial Statements, significant judgments made by Management in applying the Group's accounting policies and the main sources of uncertainty were the same as those applied by the Group in the preparation of the Annual Consolidated Financial Statements for the year ended December 31, 2014, which are disclosed in Note 1.c) related to accounting estimates and judgments to those financial statements.

1.d) Comparative information

Amounts and other information corresponding to the year ended on December 31, 2014 and to the nine-month and three-month period ended on September 30, 2014, are an integral part of the condensed interim consolidated financial statements previously mentioned and are intended to be read only in relation to these statements. Certain reclassifications have been made in order to present amounts comparatively with the current period.

2. SEASONALITY OF OPERATIONS

Historically, the Group results have been subject to seasonal fluctuations during the year, particularly as a result of the increase of natural gas sales during the winter. After the 2002 devaluation and as a consequence of the natural gas price freeze imposed by the Argentine government, the use of this fuel has been diversified, generating an increase of its demand throughout the entire year. However, sales of natural gas are still typically higher in the winter to the residential sector of the Argentine domestic market, which prices are lower than other sectors of the Argentine market. Notwithstanding the foregoing, on February 14, 2013, Resolution 1/2013 of the Planning and Strategic Coordination Commission of the National Plan of Hydrocarbon Investments (the Commission) was published in the Official Gazette, creating the Natural Gas Additional Injection Stimulus Program. Under this regulation, gas producing companies were invited to file with the Commission before June 30th, 2013 projects to increase natural gas injection, in order to receive an increased price of U.S.\$7.50/mmBtu for all additional natural gas injected. These projects shall comply with minimum requirements established in Resolution 1/2013, and will be subject to consideration approval by the Commission, including a maximum term of five years, renewable at the request of the beneficiary, upon decision of the Commission. If the beneficiary company in a given month does not reach the committed production increase it will have to make up for such volumes not produced. During 2014, the natural gas pricing program was incorporated into the Hydrocarbons Law, as modified by Law No. 27,007. In view of the foregoing, seasonality of the Group operations is not significant.

3. ACQUISITIONS AND DISPOSALS

On May 7, 2015 the transfer by Repsol Butano S.A. to YPF of shares representing the 33.997% of the capital of YPF Gas S.A. was effective as well as the transfer from Repsol Trading S.A. to YPF of the 17.79% of the capital of Oleoducto Trasandino Chile. The transaction was for a total amount of 161. The estimation of the fair values of the main identified assets and liabilities of the acquired companies and the initial investment accounting are provisional and subject to the completion of the analysis of the accounting, tax and contractual information of the acquired companies.

On August 18, 2015, YPF and Grupo Inversor Petroquímica S.L. (GIP) accepted an offer from Basell International Holdings B.V. and from Lyondell Basell Industries Holdings B.V. to acquire 100% of the shares of Petroken Petroquímica Ensenada S.A. (Petroken). The aggregate price for the shares, as agreed upon by the parties is around US\$ 142.4 million, net of cash and banks and financial debt. The price includes working capital, and shall be adjusted on the agreement execution date. The closing of these acquisitions is subject to fulfillment of certain precedent conditions.

In addition, on the same date, YPF accepted an offer from GIP to acquire 46% of the shares of Petroquímica Cuyo S.A. (a company controlled by GIP) in an aggregate amount of approximately US\$ 50 million, net of cash and banks and financial debt. This price includes 46% of working capital, and shall be adjusted on the agreement execution date. The closing of these acquisitions is subject to fulfillment of certain precedent conditions, including the closing of the transaction mentioned in the preceding paragraph.

As a result of the above-mentioned transactions, YPF and GIP shall jointly and equally control 100% of the capital stock of Petroken and 92% of the capital stock of Petroquímica Cuyo S.A.

4. FINANCIAL RISK MANAGEMENT AND FAIR VALUE MEASUREMENTS

4.a. Financial Risk

The Group's activities are exposed to a variety of financial risk: market risk (including foreign currency risk, interest rate risk and price risk) credit risk, liquidity risk and capital risk.

The Condensed Interim Consolidated Financial Statements do not include all the information and disclosures on financial risk management; therefore they should be read in conjunction with the Group's Annual Consolidated Financial Statements for the year ended December 31, 2014.

There have been no changes in the risk management or risk management policies applied by the Group since the end of last year.

4.b. Fair value measurements

IFRS 9 defines the fair value of a financial instrument as the amount for which an asset could be exchanged, or a financial liability settled, between knowledgeable, willing parties in an arm's length transaction. All financial instruments recognized at fair value are allocated to one of the valuation hierarchy levels of IFRS 7. This valuation hierarchy provides for three levels.

In the case of Level 1, valuation is based on unadjusted quoted prices in active markets for identical financial assets or liabilities that the Group can refer to at the end of the period. A market is deemed active if transactions take place with sufficient frequency and in sufficient quantity for price information to be available on an ongoing basis. Since a quoted price in an active market is the most reliable indicator of fair value, this should always be used if available. Financial instruments assigned by the Group to this level comprise investments in listed mutual funds, which results for the nine-month periods ended on September 30, 2015 and 2014, are disclosed under "Interest income" in the condensed interim consolidated statements of comprehensive income.

In the case of Level 2, fair value is determined by using valuation methods based on inputs directly or indirectly observable in the market. If the financial instrument concerned has a fixed contract period, the inputs used for valuation must be observable for the whole of this period. The Group has not valued financial instruments under this category.

In the case of Level 3, the Group uses valuation techniques not based on inputs observable in the market. This is only permissible insofar as no market data are available. The inputs used reflect the Group's assumptions regarding the factors which market players would consider in their pricing. The Group uses the best available information for this, including internal company data. The Group has not valued financial instruments under this category.

The Company's Finance Division has a team in place in charge of estimating valuation of financial instruments required to be reported in the financial statements, including the fair value of Level-3 instruments. The team directly reports to the Chief Financial Officer (CFO). The CFO and the valuation team discuss the valuation methods and results upon the acquisition of a financial instrument and, if necessary, on a quarterly basis, in line with the Group's quarterly reports.

According to the Group's policy, transfers among the several categories of valuation hierarchies are recognized when occurred, or when there are changes in the prevailing circumstances requiring the transfer.

Between December 31, 2014 and September 30, 2015, there have been no significant changes in business or economic circumstances affecting the fair value of the Group's financial assets and liabilities (either measured at fair value or amortized cost).

In addition, no transfer has occurred among the different hierarchies used to determine the fair value of the Group's financial instruments.

4.c. Fair value of financial assets and financial liabilities measured at amortized cost

The estimated fair value of loans, considering unadjusted listed prices (Level 1) for Negotiable Obligations and interest rates offered to the Group (Level 3) in connection with the remainder of loans, amounted to 76,655 and 53,108 as of September 30, 2015 and December 31, 2014, respectively.

The fair value of the following financial assets and financial liabilities do not differ significantly from their book value:

Other receivables

Trade receivables

Cash and equivalents

Accounts payable

Provisions

6.i) Income tax:

According to IAS 34, income tax expense is recognized in each interim period based on the best estimate of the effective income tax rate expected as of the year-end. Amounts calculated for income tax expense for the nine-month period ended September 30, 2015 may have to be adjusted in subsequent periods if, based on new judgment elements, the estimate of the effective expected income tax rate changes.

The reconciliation of pre-tax income included in the condensed interim consolidated statement of comprehensive income, at the statutory tax rate, to the income tax as disclosed in the condensed interim consolidated statements of comprehensive income for the nine-month periods ended September 30, 2015 and 2014, respectively, is as follows:

	For the nine-month period ended September 30,	
	2015	2014
Net income before income tax	13,721	21,887
Statutory tax rate	35%	35%

Loss from investments in companies	18	21
Miscellaneous	45	(319)
Income tax expense	(7,430)	(14,338)

The Group did not recognize deferred income tax assets amounting to 3,714 and 3,511 as of September 30, 2015 and December 31, 2014, respectively, from which 1,728 and 1,953 corresponds to taxable temporary differences not recoverable and 1,986 and 1,558 corresponds to tax loss carry forwards from a foreign subsidiary, since they do not meet the recognition criteria set forth under IFRS. From the tax loss carry forwards above mentioned, as of September 30, 2015, 444 will be due as from 2020, 1,516 from 2032 and 26 have an indefinite due date.

The composition of the Group's deferred income tax assets and liabilities as of September 30, 2015 and December 31, 2014, is as follows:

	September 30, 2015	December 31, 2014
<u>Deferred tax assets</u>		
Nondeductible provisions and other liabilities	2,109	2,479
Tax loss carryforward and other tax credits	170	222
Miscellaneous	44	17
Total deferred tax assets	2,323	2,718

<u>Deferred tax liabilities</u>		
Fixed assets	(22,525)	(19,250)
Miscellaneous	(3,129)	(2,172)
Total deferred tax liabilities	(25,654)	(21,422)
Net deferred tax liability	(23,331)	(18,704)

As of September 30, 2015 and December 31, 2014, 223 and 244, respectively, have been classified as deferred income tax assets and 23,554 and 18,948, respectively, as deferred income tax liabilities arising from the deferred income tax net balance of each individual company that take part in these Condensed Interim Consolidated Financial Statements.

As of September 30, 2015 and December 31, 2014, the causes that generated charges in Other comprehensive income did not generate temporary differences subject to income tax.

7. INVESTMENTS IN COMPANIES AND JOINT OPERATIONS

The Group does not participate in subsidiaries with significant non-controlling interest. Furthermore, no investments in companies or joint operations are deemed individually material.

The following table shows in aggregate, considering that none of the companies are individually material, the amount of investments in companies and joint ventures as of September 30, 2015 and December 31, 2014:

	September 30, 2015	December 31, 2014
Amount of investments in affiliated companies	977	757
Amount of investments in joint ventures	2,344	2,432
Provision for reduction in value of holdings in companies	(12)	(12)
	3,309	3,177

Investments in companies with negative shareholders' equity are disclosed in Accounts payable .

The main changes that affected the amount of the investments previously mentioned, during the nine-month periods ended on September 30, 2015 and 2014, are the following:

For the nine-month periods

	ended on September 30,	
	2015	2014
Amount at the beginning of year	3,177	2,124
Acquisitions and contributions	163	94

Reclassification of investments in companies with negative shareholders equity		132
Distributed dividends	(281)	(293)
Amount at the end of period	3,309	2,552

Note 15 provides information of investments in companies.

The following table shows the main magnitudes of net income (loss) from the Group's investments in companies, calculated according to the equity method, for the nine-month periods ended on September 30, 2015 and 2014. YPF has made adjustments, where applicable, to the amounts reported by such companies in order to conform the accounting principles used by such companies to those used by the Group:

	Affiliated companies		Joint ventures	
	2015	2014	2015	2014
Net income (loss)	88	(148)	(36)	209
Other comprehensive income	9	17	189	417
Comprehensive income for the period	97	(131)	153	626

Additionally, the Group participates in Joint Operations which give to the Group a contractually-established percentage over the rights of the assets and obligations that emerge from the contracts. Interest in such Joint Operations have been consolidated line by line on the basis of the mentioned interest over the assets, liabilities, income and expenses related to each contract.

The assets and liabilities as of September 30, 2015 and December 31, 2014, and main magnitude of results for the nine-month periods ended on September 30, 2015 and 2014 of the Joint Operations and other agreements are detailed below:

	September 30, 2015	December 31, 2014
Noncurrent assets	31,249	22,439
Current assets	1,238	1,295
Total assets	32,487	23,734
Noncurrent liabilities	3,614	3,129

	For the nine-month periods ended September 30,	
	2015	2014
Production cost	9,454	5,832
Exploration expenses	130	474

8. SHAREHOLDERS EQUITY

On April 30, 2015, the General Ordinary and Extraordinary Shareholders meeting was held, which has approved the financial statements of YPF for the year ended December 31, 2014 and additionally decided the following in relation with the distribution of earnings of fiscal year ended as of December 31, 2014: (i) to appropriate the amount of 120 to a reserve for future acquisition of YPF shares under the performance and bonus program mentioned in the Director's report of the Annual Consolidated Financial Statements as of December 31, 2014, giving to the Board of Directors the opportunity to acquire shares when it considers it convenient and to comply with the commitments assumed and to be assumed in relation with the mentioned program; (ii) to appropriate the amount of 8,410 to constitute a reserve for investment in accordance with the article 70, third paragraph of the Law No. 19,550 of Argentine Corporations as amended; and (iii) the appropriation to a reserve for future dividends in an amount of 503, empowering the Board of Directors to determine the opportunity of payment which should not exceed the end of the present fiscal year. On June 8, 2015, the Board of Directors of the Company resolved to pay a dividend of 1.28 pesos per share, for an

amount of 503, which was available to shareholders on July 28, 2015.

9. EARNINGS PER SHARE

As of the date of issuance of these condensed interim consolidated financial statements, YPF has not issued equity instruments that give rise to potential ordinary shares (considering the Company's intention of setting the share based benefit plans through treasury shares purchase), as a result, the calculation of diluted earnings per share coincides with the basic earnings per share.

The following table shows the net income and the number of shares that have been used for the calculation of the basic earnings per share:

	For the nine-month periods ended on September 30,	
	2015	2014
Net income	6,274	7,619
Average number of shares outstanding	392,214,430	392,193,525
Basic and diluted earnings per share	16.00	19.43

Basic and diluted earnings per share are calculated as shown in Note 1.b.14 to the annual consolidated financial statements as of December 31, 2014.

10. PROVISIONS FOR PENDING LAWSUITS, CLAIMS AND ENVIROMENTAL LIABILITES

Provisions for pending lawsuits, claims and environmental liabilities are described in Note 3 to the annual consolidated financial statements for the year ended December 31, 2014. As of September 30, 2015, the Group has accrued pending lawsuits, claims and contingencies which are probable and can be reasonably estimated, amounting to 8,453.

In relation to environmental obligations, and in addition to the hydrocarbon wells abandonment legal obligations for 21,367, as of September 30, 2015, the Group has accrued 2,440 corresponding to environmental remediation, which evaluations and/or remediation works are probable and can also be reasonably estimated, based on the Group's existing remediation program.

Developments during the nine-month period ended September 30, 2015, concerning more significant pending lawsuits and contingencies are described below.

With respect to arbitration with AES Uruguaiana Emprendimientos S.A. (AESU), on April 24, 2015, the Arbitration Tribunal resolved to resume the arbitration process and invited the parties to discuss the continuation of arbitration and to file with the Arbitration Tribunal a joint or separate proposal on steps to be followed. Such decision was notified by YPF to the Federal Court of Appeals hearing Administrative Litigation matters on April 27, 2015, since the precautionary measure suspending the arbitration process ordered by the latter is still in force. On June 22, 2015 the Arbitration Tribunal proposed to conduct the evidentiary hearings concerning damages stage on November 16 and 17, 2015.

With respect to the legal action filed by AESU in Uruguay, on July 16, 2015 the Administrative Claims Court No. 3 rejected one of the letters rogatory whereby AESU attempted to file a nullity action of the Arbitration Board's resolution which provided for the stay of the arbitration proceeding. On September 4, 2015, AESU filed an appeal.

Under the arbitration process filed by Nación Fideicomisos S.A. (NAFISA) against YPF demanding payment of the transportation charges to Uruguaiana, as evidenced in the transportation invoices claimed by TGN on September 29, 2015, the Supreme Court sustained YPF's appeal and revoked the resolution of the Administrative Claims Court, Division IV, asserting that ENARGAS is not a competent authority to hear this matter, given that the parties are not subject to the Gas Law.

In relation to the Passaic River litigation initiated by New Jersey Department of Environmental Protection (DEP) against YPF, YPF Holding Inc. and other subsidiaries on alleged contamination caused by dioxin and other hazardous substances from Newark plant and alleged contamination of lower Passaic River, on March 26, 2015, a new presiding judge was appointed for the case (Hon. Gary Furnari). On April 15, 2015, Occidental Chemical Corporation (OCC) served Maxus with an indemnity demand letter asserting that Maxus is obligated to indemnify OCC under the 1986 SPA with respect to the counter-claims asserted by Repsol against OCC, which seek to recover from OCC the US\$ 65 million payment made by Repsol to New Jersey State under the settlement agreement. Maxus replied to OCC on April 28, 2015 reserving all arguments and defenses regarding the 1986 SPA s indemnification provisions.

Furthermore, scheduled dates were changed by Case Management Order XXVI dated March 9, 2015 and the Case Management Order XXVII dated July 1, 2015 under which the new judge extended the deadline to complete all expert discovery until January 29, 2016, established a briefing schedule pursuant to which summary judgment will not be decided until late April or early May 2016, at the earliest, and included a provision that trial shall be scheduled in June 2016. Depositions of witnesses residing in the US and abroad began in December 2014 in accordance with the Case Management Order XXV. Since that time about forty witnesses have been deposed, including the corporate representatives of all the parties. The issues being explored include Track IV (the alter-ego and fraudulent transfers of assets) and Track III (indemnity claims filed by OCC against Maxus). Depositions of witnesses were completed in October 2015.

While Case Management Order XXVII provided that motions for summary judgment could be filed until March 4, 2016, the Special Master authorized the parties to file briefs specifying any issue in respect of which each party believed, that the court should authorize early summary judgment motions.

YPF has requested for and obtained an authorization to file a request regarding three issues: 1) dismissal of the portion of OCC s claims for alter ego liability, based on the financing of YPF s acquisition of Maxus shares in 1995; 2) dismissal of the portion of OCC s liability claims based on the alleged control by YPF of Maxus Board of Directors decision, in 1996, to sell its subsidiaries in Bolivia and Venezuela to YPF International; and 3) dismissal of the portion of OCC s claims for alter ego liability, based on the transfer of Maxus assets from 1995 through 1999.

OCC has requested for and obtained an authorization to file a motion against Maxus in relation to OCC s claim to recover the amount of US\$ 190 million paid to the State of New Jersey under the settlement agreement. In addition, OCC has also been authorized to file a request for a partial summary judgment dismissing the above mentioned cross complaints of Repsol.

Repsol has requested for and obtained authorization to file a motion against OCC to dismiss alter ego arguments, to the extent that OCC claim is based on prescribed claims for fraudulent transfers. Moreover, Repsol will seek the dismissal of the cross claims of OCC based on the following grounds: 1) OCC cannot prove that it has suffered damages due a failure to perform an agreement; and 2) OCC cannot prove that Repsol has caused any damage even if a non-performance occurred, because OCC has alleged that Maxus became insolvent before Repsol acquired YPF in 1999.

Finally, Maxus has requested for and obtained authorization to file a request for partial summary judgment against OCC to dismiss the claims for damages filed by OCC regarding costs not yet incurred by OCC.

Per the time schedule set by the Special Master, all parties filed their respective briefs in support of motions for early summary judgment on November 2, 2015. Opposition briefs must be filed on November 20 and replies to answers on November 27, 2015. Upon the Special Master's decision, the parties may appeal such decision before Judge Furnari.

In addition, on October 23, YPF received a copy of the six reports produced by OCC under the expert's evidence. Three of them are meant as evidence of the circumstances stated by OCC under Track III, and the other three are meant as defense of OCC position under Track IV.

OCC has requested for authorization to submit a motion to amend its second amendment to its complaint on September 25, 2015. OCC sought to add claims against YPF and Repsol regarding the alleged fraudulent transfers with its contractual right under the SPA. The Special Master authorized OCC to file the motion on October 13, 2015 and ordered the same time schedule applicable to motions for summary judgment.

With respect to the second draft of the Focused Feasibility Study (FFS) the U.S. Environmental Protection Agency (EPA) made additional remarks to the In-Eco project Works Proposal in March 2015, which were answered by Tierra Solutions, Inc. (TS) during the second semester of 2015. In September 2015, a meeting was held between TS, its experts and the EPA, during which the final matters were decided upon and laboratory studies were estimated to commence in early 2016.

In October 2015, the U.S. Government Accountability Office (GAO) advised Maxus, Tierra and OCC that it had commenced a study on some Superfund sites affected with sediments, including the Lower Section of the Passaic River, at the request of the Committee of Environmental Matters and Public Works of the Senate of the United States. The GAO plans to talk to EPA project managers, representatives of the community and potentially responsible parties (PRP). With the information now available it is not possible to determine if GAO's review will have any effect on the term for the rendering of the Record of Decision (ROD) related to the FFS.

With regard to the Removal Action for the Mile 10.9 of the Passaic River, the Focused Feasibility Study (FFS) published on April 11, 2014 provided that Phase II of the removal action shall be implemented in a consistent manner with such FFS. On September 18, 2014, EPA requested that Tierra Solutions, Inc. (TS) submit a work plan to conduct additional sampling of the Phase II area. Such sampling was completed in the first quarter of 2015, and it is anticipated that TS will submit the validated results to the US Environmental Protection Agency (EPA) during the fourth quarter of 2015.

Regarding the lower 17 miles of the Passaic River, it is predicted that the Remedial Investigation / Feasibility Study (RI/FS) is expected to be completed in 2016 or later. The CPG (Cooperation Group Parties) submitted a draft project of the above mentioned RI/FS during the first semester of 2015. Separate sections were submitted over a four month period from February to July 2015. Certain sections of the modeling works have not been submitted as of September 30, 2015. The CGP documents offers potential alternatives to the EPA FFS (which comprises the lower 8 miles of the Passaic River). The EPA may or may not consider this report, as they continue to address comments to the above mentioned FFS. As of the date of these condensed interim consolidated financial statements, the EPA has made no remarks.

With regard to the complaint brought by Ruby Mhire and others against Maxus and other third parties, in June 2015, Maxus made one last installment payment in the amount of US\$ 1 million, with which it has no further payment obligations. However, it still has to carry out the site remediation which is expected to be completed in December 2015. The agreed site remediation works commenced in the third quarter and are expected to be completed in early 2016.

11. CONTINGENT LIABILITIES, CONTINGENT ASSETS, CONTRACTUAL COMMITMENTS, MAIN REGULATIONS AND OTHERS

Contingent liabilities, contingent assets, contractual commitments, main regulations and others are described in Note 11 to the annual consolidated financial statements for the year ended December 31, 2014. Developments during the nine-month period ended September 30, 2015 concerning the above are detailed below.

a) Contingent Liabilities

Concerning court claims brought by the Asociación de Superficialarios de la Patagonia (ASSUPA) against concessionaires of the areas of the Northwest Basin, currently all terms to file answers have been stayed by reason of a request from the Company. In addition, Pan American Energy filed a motion to disqualify the judge hearing the case and therefore, court proceedings were referred to Federal Court No. 2 sitting in Salta for a decision thereon to be rendered.

On November 2, the Company was given notice of the complaints filed by ASSUPA against concession holders of the areas of the Austral Basin. The Company requested the stay of the relevant term until the plaintiff produces all items of documentary evidence they intend to submit under the proceedings.

On April 8, 2015 Petersen Energía Inversora, S.A.U and Petersen Energía, S.A.U. (jointly, Petersen), a former shareholder of YPF, filed a complaint against the Argentine Republic and YPF with the U.S. District Court for the Southern District of New York. The litigation is being conducted by the bankruptcy trustee of the aforesaid companies by reason of a liquidation process pending in a Commercial Court in Spain. The complaint contains claims related to the expropriation of the controlling interest of Repsol in YPF by the Argentine Republic in 2012, asserting that the obligation by the Argentine Republic to make a purchase offer to the remaining shareholders would have been triggered. Claims seem to be mainly grounded on allegations that the expropriation breached contract obligations contained in the initial public offering and bylaws of YPF and seeks unspecified compensation. The Company filed a motion to dismiss on September 8, 2015, the date which was set as a result of the extension of the term provided for by the Court.

Based on the available information related to the complaint, YPF believes that the claim against the Company lacks of legal merit and will strongly defend its interests. Finally, as of the date of these condensed interim consolidated financial statements, there exists no element in possession of the Company that may permit YPF quantify the possible impact of this claim over the Company.

On September 18, 2015, Metrogas S.A. was made aware of petitions for bankruptcy, filed by Pan American Sur S.A., Pan American Fueguina S.A. and Pan American Energy LLC Sucursal Argentina, which are being heard by Argentine First Instance Court No. 26 in Commercial Matters, Division No. 51 of Buenos Aires City. As of the date of these condensed interim consolidated financial statements, Metrogas has not received any notice regarding said court files, despite of which it shall take all necessary action for an appropriate defense of its rights.

b) Contingent Assets

La Plata Refinery:

Regarding Coke A and Topping C units at YPF's facilities in La Plata refinery, YPF has concluded the procedure to recover the damages regarding its loss against the insurance company.

The period under which compensation for the loss of profits was calculated, was extended until January 16, 2015 and the entire compensation for loss of profits was finally paid in June 2015 upon a final payment of US\$ 185 million.

The total amount received for this loss amounted to US\$ 615 million, of which US\$ 227 million were related to property damage and US\$ 388 million to loss of profits.

During the nine-month period ended on September 30, 2015, a gain of 523, was recorded in the statement of Comprehensive income, under the captions Revenues and Cost of sales, depending on the nature of the claimed concept.

Cerro Divisadero:

Concerning the fire that affected the facilities of the Oil Treatment plant of Cerro Divisadero in Mendoza, the Company has selected a reconstruction project after analyzing several technological options and, as of the date of these condensed interim consolidated financial statements, an advance of US\$ 60 million has been requested, which will be paid during November 2015, comprising both property damages and loss of production.

During the nine-month period ended on September 30, 2015, the Group has recorded a gain of 562 in the statement of comprehensive income under Other operating results, net and Cost of sales, based on the nature of the item claimed (property damage and loss of production respectively).

c) Contractual commitments, main regulations and others

Agreements of project investments

With respect to the Investment Agreement executed by and between the Company and subsidiaries of Chevron Corporation for joint exploitation of unconventional hydrocarbons in the province of Neuquén, in Loma Campana area, during the nine-month period ended September 30, 2015, the Company and Compañía de Hidrocarburo No Convencional S.R.L. (CHNC) have conducted operations, among which purchases of gas and crude oil by YPF for 2,511 can be mentioned. These operations are formalized based on general and regulatory market conditions. The net balance payable to CHNC as of September 30, 2015 amounts to 347.

As of June 30, 2015, the Company had received within the operation with Dow Europe Holding B.V. and PBB Polisor S.A. by reason of the joint exploitation of the first tranche of unconventional gas pilot project in the province of Neuquén for an amount of US\$ 120 million, which was recorded under Loans in the condensed interim consolidated statement of financial position. Dow had 90 days from July 22, 2015 to decide whether or not to exercise the conversion option, whereby it would be assigned 50% of the equity

interest in the area.

On October 22, 2015, both parties agreed on an Addendum which provides for, among other things, (i) A US\$ 60 million increase in the amount to be disbursed by Dow, thus rising it to US\$ 180 million, through a financial instrument convertible into a share in the project, for the same purposes and effects as the previous disbursements, i.e., the joint exploitation of a unconventional gas pilot project in the province of Neuquén, and (ii) the extension of the term within which Dow may exercise its conversion option, until December 18, 2015. On October 30, 2015, the Company received the committed additional amounts.

Regarding the investment agreement between the Company and Petrolera Pampa SA (Petrolera Pampa) for the development of hydrocarbons of the Rincón del Mangrullo area (the Area) in the province of Neuquén, on May 26, 2015 a supplementary agreement (the Amendment) to the investment agreement dated November 6, 2013 was signed.

The Amendment establishes an equity interest of 50% of each of the parties in the entire production, costs and investments for the development of the Area with retroactive effect from January 1, 2015, excluding from the agreement only the formations of Vaca Muerta and Quintuco. Such investments include surface facilities in the area of US\$ 150 million, which include the first expansion stage of the treatment facilities, bringing the current capacity of 2 to 4 million cubic meters per day to allow the conditioning and evacuation of future production from the block.

The Amendment also includes the expansion of the investment commitment of Petrolera Pampa in a third investment phase of US\$ 22.5 million, for the drilling of additional wells targeting the Mulichinco Formation.

In addition, the Amendment includes an exploratory program for the Lajas Formation, under which Petrolera Pampa is committed to an investment of up to US\$ 34 million and YPF up to US\$ 6 million for the period 2015-2016. Subject to the results obtained in this period, Petrolera Pampa may choose to continue with a second investment phase in 2017 also for the Lajas Formation, with an additional investment commitment of US\$ 34 million.

It should be noted that on July 14, 2015, the conditions required for that Amendment to entry in force were complied with.

As of September 30, 2015, for the first stage of Petrolera Pampa's commitment, 17 wells were drilled and completed. The second phase provides for an investment of US\$ 70 million to drill 15 wells.

Concerning the Investment Project Agreement (the Agreement) entered into on December 10, 2014, by and between the Company and Petronas E&P Argentina S.A. (PEPASA), an affiliate of Petronas, for the joint development of a Shale oil pilot project in La Amarga Chica area in the province of Neuquen, the agreement provides for an exclusivity period to negotiate and execute a series of final contracts, which will become effective once a series of conditions are complied with.

It should be noted that on May 10, 2015, the conditions required for the entry into force of that Pilot Plan in 2015 were complied with.

As of September 30, two wells of the Pilot Plan were drilled. Upon completion of each annual phase of the Pilot Plan and payment of the relevant contributions, PEPASA shall have the option to abandon the plan, upon delivery of its interest in the concession and payment of accrued liabilities until its exit day (without access to 50% of the production value net of drilled wells until the exercise of its exit right).

Upon performance of all the commitments undertaken by the parties in the Pilot Plan stage, each of the parties shall pay for 50% of the work program for area development and shall contribute 50% of the budget under the Joint Operation Agreement.

On July 16, 2015, the Province of Neuquén, pursuant to executive orders 1536/15 and 1541/15, approved the subdivision of the Bandurria block (465.5 km²) and awarded 100% of the area known as Bandurria Norte (107 km²) to Wintershall Energía S.A., 100% of the area known as Bandurria Centro (130 km²) to Pan American Energy LLC (Sucursal Argentina) and 100% of the area known as Bandurria Sur (228.5 km²) to YPF, awarding to YPF an Unconventional Hydrocarbons Exploitation Concession in Bandurria Sur area, for a 35-year term, with a commitment to develop a pilot plan to be completed in 3 years with a related investment of US\$ 360 million.

On July 10, 2015, the Province of Neuquén agreed to award to both partners, Pan American Energy LLC (Sucursal Argentina) and YPF, pro rata their interests (62.5% and 37.5%, respectively) in the Lindero Atravesado joint venture, the right to an Unconventional Hydrocarbons Exploitation Concession for a 35-year term, pursuant to the provisions of sections 27 bis, 35(b) and related sections of Act 17.319, as amended by Act 27.007. As a condition to the award of the above mentioned concession rights, concession holders have agreed to carry out an Unconventional Tight Gas Pilot program within 4 years, beginning on January 1, 2015, with an investment of US\$ 590 million. On July 6, 2015, an agreement in this respect was approved by Executive Order 1540/15 of the Neuquén Province.

Liquid hydrocarbons regulatory requirements

Dated February 3, 2015, the Argentine Republic Official Gazette published the text of Resolution No. 14/2015 passed by the Commission for Planning and Coordination of the Strategy for the National Plan of Investment in Hydrocarbons that created the Crude Oil Production Promotion Program for 2015 under which beneficiary companies are awarded an economic compensation, payable in pesos, for an amount equivalent to up to three U.S. dollars per barrel for the total production of each beneficiary company, provided that its quarterly production of crude oil is higher or equal to the production taken as basis for such program. Basis production is defined as the total production of crude oil by beneficiary companies corresponding to the fourth quarter of 2014, expressed in barrels per day. The beneficiary companies that have met the demands of all refineries authorized to operate in the country and direct part of their production to the foreign market may receive an additional economic compensation of two or three U.S. dollars for each barrel of exported crude oil, depending on the level of exported volume achieved.

Pursuant to Executive Order No. 1330/15 of July 6, 2015, the Government resolved to render ineffective the *Petróleo Plus* program, which had been created by Executive Order No. 2,014 of November 25, 2008.

Natural gas regulatory requirements

Resolution No. 123/2015 was published in the Official Gazette on July 15, 2015 which approved the Regulations governing procurement, sales and transfers of areas, assignments of rights and equity interests under the approved programs.

On September 29, 2015, Resolution 185/2015 was published in the Official Gazette regulating an incentive program for natural gas injection for the benefit of corporate producers which do not have a previous record of natural gas injection. The beneficiary companies will receive a compensation resulting from the difference between US\$ 7.50

US\$/MMBtu and the price received for the sale of the natural gas in the market. Such compensation shall be received only for natural gas originating in areas whose production rights shall have been acquired from companies registered with any of the two previous programs and provided that during the period in which the transferor shall have calculated its base injection, according to its programme, the injection of the area operated by the current beneficiary transferee shall have been null.

In relation with the creation of the Trust Fund to finance natural gas imports to be injected into the domestic gas network, on October 27, 2015 the Supreme Court issued judgment on the action for protection of constitutional rights filed by Mega S.A. (for a period running until the enactment of the budget act for

fiscal year 2013 No. 26,784) and held that the charge imposed by Executive Order 2067/08 was unconstitutional and not applicable to Mega S.A.

Main rules applicable to the activities of Metrogas:

Resolution SE No. 263/2015 was published in the Official Gazette on June 8, 2015 whereby the Energy Secretariat approved an expenditure as temporary economic assistance payable in ten consecutive installments to Metrogas and the rest of the natural gas distributors effective from March 2015, in order to cover the costs and investments associated with the normal operation of the provision of the public service of natural gas distribution networks and on account of the Comprehensive Tariff Review to be carried out in due course.

This Resolution provides that beneficiaries must allocate part of the funds received from each of the monthly installments to cancel overdue debts as of December 31, 2014 to natural gas companies and also that, distributors may not accumulate more debts for natural gas purchases as from the entry into force of such Resolution.

In the case of Metrogas, ENARGAS established an exceptional need for funds to be disbursed by 2015 according to a monthly schedule from March to December. Moreover, it established that Metrogas must allocate part of the temporary economic assistance to the payment of debts to producers due as of December 31, 2014 in 36 monthly equal and consecutive installments, plus interest, from the month of January 2015, calculated by using the current Average Lending Rate published by Banco Nación for Commercial Discount Transactions (2.05% per month), the first installment to be paid as from March 2015.

Additionally, ENARGAS considered that distributors will pay all gas purchase invoices falling due in 2015, providing for the cancellation thereof within 30, 60 and 90 days consistent with the collection of invoice payments from their customers.

As of the date of the issuance of this interim condensed consolidated financial statements, Metrogas has received three of the ten installments on account of temporary financial assistance. In addition, it has entered into payment agreements with most producers under the provisions of Energy Secretariat Resolution No. 263/2015, subject to the availability of the amounts committed.

Regulatory framework for the electricity industry in the Argentine Republic:

Resolution SE No. 482/2015: this resolution defines certain adjustments to the remuneration scheme contemplated in Resolution SE No. 529/2014, increasing the tariff schedule of the five remunerative items established therein. It also incorporates a new specific contribution scheme called Investment Resources of FONINVEMEM 2015-2018 to be allocated to those participants generating investment projects already approved or to be approved by the Energy Secretariat and establishes a new system of incentives to Energy Production and Operational Efficiency for the involved power generation agents. The provisions set forth in this resolution are to be retroactively applied as from the financial transactions corresponding to the month of February 2015 for those power generation agents that have adhered to Resolution No. 95/2013.

New Argentine Civil and Commercial Code

On August 1, 2015 the new Argentine Civil and Commercial Code became in full force and effect. This new code, while unifying the Civil Code with the Commercial Code, introduces many new features and modifications to the rules governing issues like Capacity, Obligations, Contracts, and Pre-contractual and Contractual Civil Liability, Ownership, Co-ownership, Commercial Companies and Statute of Limitations, among others.
