**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**(UNAUDITED)**

**(Amounts in thousands, except per share data)**

**1. BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Description of Business***

Advanced Drainage Systems, Inc. (collectively with its subsidiaries referred to as **ADS**, the **Company**, **we**, **us** and **our**), incorporated in Delaware, designs, manufactures and markets high performance thermoplastic corrugated pipe and related water management products, primarily in North and South America and Europe. Our broad product line includes corrugated high density polyethylene (or **HDPE**) pipe, polypropylene (or **PP**) pipe and related water management products.

The Company is managed based primarily on the geographies in which it operates and reports results of operations in two reportable segments. The reportable segments are Domestic and International.

Historically, sales of the Company's products have been higher in the first and second quarters of each fiscal year due to favorable weather and longer daylight conditions accelerating construction activity during these periods. Seasonal variations in operating results may also be impacted by inclement weather conditions, such as cold or wet weather, which can delay projects.

***2014 Initial Public Offering ( IPO )***

On July 11, 2014, in anticipation of the IPO, we executed a 4.707-for-one split of our common and our preferred stock. The effect of the stock split on outstanding shares and earnings per share has been retroactively applied to all periods presented.

On July 25, 2014, we completed the IPO of our common stock, which resulted in the sale by the Company of 5,289 shares of common stock. We received total proceeds from the IPO of \$79,131 after excluding underwriter discounts and commissions of \$5,501, based upon the price to the public of \$16.00 per share. After deducting other offering expenses, we used the net proceeds to reduce the outstanding indebtedness under the revolving portion of our credit facility. The common stock is listed on the New York Stock Exchange ( **NYSE** ) under the symbol **WMS**.

On August 22, 2014, an additional 600 shares of common stock were sold by certain selling stockholders of the Company as a result of the partial exercise by the underwriters of the over-allotment option granted by the selling stockholders to the underwriters in connection with the IPO. The shares were sold at the public offering price of \$16.00 per share. The Company did not receive any proceeds from the sale of such additional shares.

***2014 Secondary Public Offering***

On December 9, 2014, we completed a secondary public offering of our common stock, which resulted in the sale of 10,000 shares of common stock by a certain selling stockholder of the Company at a public offering price of \$21.25.

We did not receive any proceeds from the sale of shares by the selling stockholder.

On December 15, 2014, an additional 1,500 shares of common stock were sold by a certain selling stockholder of the Company as a result of the full exercise by the underwriters of the over-allotment option granted by the selling stockholder to the underwriters in connection with the secondary public offering. The shares were sold at the public offering price of \$21.25 per share. The Company did not receive any proceeds from the sale of such additional shares.

***Basis of Presentation***

The Company prepares its condensed consolidated financial statements in accordance with accounting principles generally accepted in the United States of America ( GAAP ). The Condensed Consolidated Balance Sheet as of March 31, 2015 was derived from audited financial statements. In our opinion, the accompanying unaudited condensed consolidated financial statements contain all adjustments, of a normal recurring nature, necessary to present fairly its financial position as of December 31, 2015 and the results of operations for the three and nine months ended December 31, 2015 and 2014 and cash flows for the nine months ended December 31, 2015 and 2014. The interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements, including the notes thereto, filed in our Annual Report on Form 10-K for the year ended March 31, 2015 ( Fiscal 2015 Form 10-K ).

---

**Table of Contents*****Principles of Consolidation***

Our condensed consolidated financial statements include the Company, our wholly-owned subsidiaries, our majority-owned subsidiaries, including ADS Mexicana, S.A. de C.V. (together with its affiliate ADS Corporativo, S.A. de C.V., ADS Mexicana ) and BaySaver Technologies, LLC ( BaySaver ), and variable interest entities ( VIEs ) of which we are the primary beneficiary. We use the equity method of accounting for equity investments where we exercise significant influence but do not hold a controlling financial interest. Such investments are recorded in Other assets in our Condensed Consolidated Balance Sheets and the related equity earnings from these investments is included in Equity in net loss of unconsolidated affiliates in our Condensed Consolidated Statements of Operations. All intercompany balances and transactions have been eliminated in consolidation.

***Recent Accounting Pronouncements***

*Stock-Based Compensation* In March 2016, the Financial Accounting Standards Board issued an accounting standards update which is intended to simplify certain aspects of the accounting for stock-based compensation. This amendment contains changes to the accounting for excess tax benefits, whereby excess tax benefits will be recognized in the income statement rather than in additional paid-in capital on the balance sheet. The amendment also contains potential changes to the accounting for forfeitures, whereby entities can elect to either continue to apply the current GAAP requirement to estimate forfeitures when determining compensation expense, or to alternatively reverse the compensation expense of forfeited awards when they occur. This update is effective for fiscal years beginning after December 15, 2016, including interim periods within those years, and early adoption is permitted. We expect to adopt this standard effective April 1, 2017. We are currently evaluating the impact of this standard on our consolidated financial statements.

With the exception of the pronouncement described above, there have been no new accounting pronouncements issued since the filing of our Fiscal 2015 Form 10-K that have significance, or potential significance, to our consolidated financial statements.

**2. ACQUISITIONS**

On July 17, 2015, ADS Ventures, Inc. ( ADS/V ), a wholly-owned subsidiary of the Company, acquired an additional 10% of the issued and outstanding membership interests in BaySaver, increasing the Company's total ownership interest in BaySaver to 65%, for a purchase price of \$3,200, plus contingent consideration with an initial estimated fair value of \$750. Concurrent with our purchase of the additional membership investment, the BaySaver joint venture agreement was amended to modify the voting rights from an equal vote for each member to a vote based upon the ownership interest. As a result, we have accounted for this transaction as a business combination with BaySaver being consolidated into our financial statements after July 17, 2015.

As we had accounted for our investment in BaySaver prior to the purchase of the 10% additional membership interest under the equity method of accounting, we accounted for this business combination as a step acquisition and recognized a loss of \$490 on remeasurement to fair value of our previously held investment. The loss is included in Derivative losses and other expense, net in our Condensed Consolidated Statements of Operations. The fair value of our BaySaver investment immediately before the July 17, 2015 acquisition was measured based on a combination of the discounted cash flow and guideline public company valuation methods and involves significant unobservable inputs (Level 3). These inputs include projected sales, margin, required rate of return and tax rate for the discounted cash flow method, as well as implied pricing multiples, and guideline public company group for the guideline public company method.

The purchase price was determined as follows:

**(Amounts in thousands)**

Acquisition-date fair value of our prior equity interest	\$ 4,220
Acquisition-date fair value of noncontrolling interest	6,330
Cash paid at acquisition date	3,200
Fair value of contingent consideration	750
<b>Total purchase price</b>	<b>\$ 14,500</b>

The preliminary purchase price has been allocated to the estimated fair values of acquired tangible and intangible assets, assumed liabilities and goodwill. The preliminary fair value of identifiable intangible assets has been determined primarily using the income approach, which involves significant unobservable inputs (Level 3 inputs). These inputs include projected sales, margin, required rate of return and tax rate, as well as an estimated royalty rate in the cases of the developed technology and trade name and trademark intangibles. The developed technology and trade name and trademark intangibles are valued using a relief-from-royalty method.

**Table of Contents**

Redeemable noncontrolling interest in subsidiaries is classified as mezzanine equity in our Condensed Consolidated Balance Sheets due to a put option held by the joint venture partner which may be exercised on or after April 1, 2017. The redeemable noncontrolling interest balance will be accreted to the redemption value using the effective interest method until April 1, 2017.

The excess of the preliminary purchase price over the fair value of the net assets acquired of \$2,495 was allocated to goodwill, assigned to the Domestic segment, and consists primarily of the acquired workforce and sales and cost synergies the two companies anticipate realizing as a combined company. None of the goodwill is deductible for tax purposes.

Certain estimated values for the acquisition, including intangible assets, goodwill and deferred taxes are not yet finalized. The preliminary purchase price allocation is as follows:

<b>(Amounts in thousands)</b>	
Cash	\$ 12
Other current assets	2,262
Property, plant and equipment	164
Goodwill	2,495
Intangible assets	10,800
Other assets	152
Current liabilities	(1,385)
<b>Total purchase price</b>	<b>\$ 14,500</b>

The acquired identifiable intangible assets represent customer relationships of \$5,400, developed technology of \$4,000 and trade name and trademark of \$1,400, each of which have an estimated 10-year useful life. Transaction costs were immaterial.

The net sales and income before income taxes of BaySaver since the acquisition date included in our Condensed Consolidated Statements of Operations were \$6,780, and \$715, respectively.

The following table contains unaudited pro forma Consolidated Statements of Operations information assuming the acquisition occurred on April 1, 2014 and includes adjustments for amortization of intangibles, interest expense and our prior equity method accounting for BaySaver. This pro forma information is presented for illustrative purposes only and is not indicative of what actual results would have been if the acquisitions had taken place on April 1, 2014 or of future results. The unaudited pro forma consolidated results are not projections of future results of operations of the combined company nor do they reflect the expected realization of any cost savings or synergies associated with the acquisition.

<b>(Amounts in thousands)</b>	<b>Nine months ended</b>	
	<b>December 31,</b>	
	<b>2015</b>	<b>2014</b>
Net sales	\$ 1,048,879	\$ 981,736
Net income attributable to ADS	\$ 29,623	\$ 22,131

Unaudited pro forma net income attributable to ADS has been calculated after adjusting the combined results of the Company to reflect additional intangible asset amortization expense, net of related income taxes and amounts related to the noncontrolling interest, of \$94 and \$230, additional interest expense, net of related income taxes and amounts related to the noncontrolling interest, of \$10 and \$27, and the impact of our prior equity method accounting of \$109 and \$302, net of related income taxes, for the nine months ended December 31, 2015 and 2014, respectively.

### 3. INVENTORIES

Inventories as of December 31, 2015 and March 31, 2015 consisted of the following:

<b>(Amounts in thousands)</b>	<b>December 31, 2015</b>	<b>March 31, 2015</b>
Raw materials	\$ 44,403	\$ 50,198
Finished goods	159,728	219,644
<b>Total inventories</b>	<b>\$ 204,131</b>	<b>\$ 269,842</b>

**Table of Contents**

We had no work-in-process inventories as of December 31, 2015 and March 31, 2015.

**4. GOODWILL AND INTANGIBLE ASSETS****Goodwill**

The change in carrying amount of goodwill by reportable segment is as follows:

(Amounts in thousands)	Domestic	International	Total
Balance at March 31, 2015	\$ 87,507	\$ 11,172	\$ 98,679
Acquisition	2,495		2,495
Currency translation		(969)	(969)
<b>Balance at December 31, 2015</b>	<b>\$ 90,002</b>	<b>\$ 10,203</b>	<b>\$ 100,205</b>

**Intangible Assets**

Intangible assets as of December 31, 2015 and March 31, 2015 consisted of the following:

(Amounts in thousands)	December 31, 2015			March 31, 2015		
	Gross Intangible	Accumulated Amortization	Net Intangible	Gross Intangible	Accumulated Amortization	Net Intangible
Definite-lived intangible assets						
Developed technology	\$ 44,579	\$ (28,740)	\$ 15,839	\$ 40,579	\$ (26,405)	\$ 14,174
Customer relationships	40,470	(21,614)	18,856	43,167	(26,113)	17,054
Patents	6,938	(4,012)	2,926	6,547	(3,550)	2,997

Trademarks	11,930		11,930	11,959		11,959
<b>Total intangible assets</b>	<b>\$ 120,538</b>	<b>\$ (59,046)</b>	<b>\$ 61,492</b>	<b>\$ 117,865</b>	<b>\$ (59,810)</b>	<b>\$ 58,055</b>

**5. FAIR VALUE MEASUREMENT**

The fair value measurements and disclosure principles of ASC 820 Fair Value Measurements and Disclosures define fair value, establish a framework for measuring fair value and provide disclosure requirements about fair value measurements. These principles define a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity has the ability to access as of the measurement date.

Level 2 Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

When applying fair value principles in the valuation of assets and liabilities, we are required to maximize the use of quoted market prices and minimize the use of unobservable inputs. The Company has not changed its valuation techniques used in measuring the fair value of any financial assets or liabilities during the periods presented. Our fair value estimates take into consideration the credit risk of both the Company and our counterparties.

When active market quotes are not available for financial assets and liabilities, we use industry standard valuation models. Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including credit risk, interest rate curves, foreign currency rates and forward and spot prices for currencies. In circumstances where market-based observable inputs are not available, management judgment is used to develop assumptions to estimate fair value. Generally, the fair value of our Level 3 instruments is estimated as the net present value of expected future cash flows based on internal and external inputs.

**Table of Contents****Recurring Fair Value Measurements**

The assets and liabilities carried at fair value as of December 31, 2015 and March 31, 2015 were as follows:

(Amounts in thousands)	December 31, 2015			
	Total	Level 1	Level 2	Level 3
<b>Assets:</b>				
Derivative assets - currency forward contracts	\$ 47	\$	\$ 47	\$
<b>Total assets at fair value on a recurring basis</b>	<b>\$ 47</b>	<b>\$</b>	<b>\$ 47</b>	<b>\$</b>
<b>Liabilities:</b>				
Derivative liability - interest rate swaps	\$ 326	\$	\$ 326	\$
Derivative liability - diesel fuel contracts	3,639		3,639	
Derivative liability - propylene swaps	12,552		12,552	
Contingent consideration for acquisitions	2,726			2,726
<b>Total liabilities at fair value on a recurring basis</b>	<b>\$ 19,243</b>	<b>\$</b>	<b>\$ 16,517</b>	<b>\$ 2,726</b>

(Amounts in thousands)	March 31, 2015			
	Total	Level 1	Level 2	Level 3
<b>Assets:</b>				
Derivative assets - currency forward contracts	\$ 28	\$	\$ 28	\$
<b>Total assets at fair value on a recurring basis</b>	<b>\$ 28</b>	<b>\$</b>	<b>\$ 28</b>	<b>\$</b>
<b>Liabilities :</b>				
Derivative liability - interest rate swaps	\$ 765	\$	\$ 765	\$
Derivative liability - diesel fuel contracts	2,841		2,841	
Derivative liability - propylene swaps	5,142		5,142

(amounts in thousands)	Nine Months Ended December 31, 2014				
	Contingent consideration	Redeemable common stock	Redeemable convertible preferred stock	Deferred compensation - unearned ESOP shares	Total
<b>Balance at March 31, 2014</b>	<b>\$ 2,898</b>	<b>\$ 549,119</b>	<b>\$ 291,720</b>	<b>\$ (197,888)</b>	<b>\$ 645,849</b>
Allocation of ESOP shares to participants				4,391	4,391
Change in fair value	(5)	65,921	34,903	(23,849)	76,970
Payments of contingent consideration liability	(528)				(528)
Transfer from Level 3		(615,040)	(326,623)	217,346	(724,317)
<b>Balance at December 31, 2014</b>	<b>\$ 2,365</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>	<b>\$ 2,365</b>

For the nine months ended December 31, 2014 our Redeemable common stock transferred out of Level 3, as these securities started actively trading on the NYSE during the second quarter of fiscal 2015. In addition, our Redeemable convertible preferred stock and Deferred compensation unearned ESOP shares were reclassified from a recurring Level 3 fair value measurement to a non-recurring Level 3 fair value measurement as a result of the IPO. See Note 1. Background and Summary of Significant Accounting Policies for further information on the IPO. There were no further transfers in or out of Levels 1, 2 and 3 for the nine months ended December 31, 2015 and 2014, respectively.

*Valuation of our Contingent Consideration for Acquisitions*

The fair values of the contingent consideration payables for prior period acquisitions were calculated with reference to the estimated future value of the Inserta Tee and FleXstorm businesses, which are based on a discounted cash flow model. The undiscounted value is discounted to the present value using a market discount rate. The fair value of the contingent consideration liability related to the BaySaver acquisition was calculated based on a discounted cash flow model, whereby the probability-weighted estimated future payment value is discounted to the present value using a market discount rate. The categorization of the framework used to price these liabilities is considered a Level 3, due to the subjective nature of the unobservable inputs used to determine the fair value.

*Valuation of our Redeemable Common Stock*

Prior to July 2014, the Company had certain shares of common stock outstanding allowing the holder to put its shares to us for cash. This Redeemable common stock was historically recorded at its fair value in the mezzanine equity section of our Condensed Consolidated Balance Sheets and changes in fair value were recorded in Retained earnings. Historically, the fair value of a share of common stock was determined by management by applying industry-appropriate multiples to EBITDA and performing a discounted cash flow analysis. Under the industry-appropriate multiples approach, to arrive at concluded multiples, we considered differences between the risk and return characteristics of ADS and the guideline companies. Under the discounted cash flow analysis, the cash flows expected to be generated by the Company were discounted to their present value equivalent using a rate of return that reflects the relative risk of an investment in ADS, as well as the time value of money. This return was an overall rate based upon the individual rates of return for invested capital (equity and interest-bearing debt). The return, known as the weighted average cost of capital ( WACC ), was calculated by weighting the required returns on interest-bearing debt and common stock in proportion to their estimated percentages in an expected capital structure. The WACC used was 11% as of March 31, 2014. An increase in the WACC would decrease the fair value of the Redeemable common stock. The categorization of the framework used to price this temporary equity was considered a

Level 3, due to the subjective nature of the unobservable inputs used to determine the fair value.

The redemption feature of our Redeemable common stock allowing the holder to put its shares to us for cash, as discussed in the previous paragraph, was not in effect upon effectiveness of the IPO on July 25, 2014. As a result, the Redeemable common stock was recorded as mezzanine equity at fair value through the effective date of the IPO and was subsequently reclassified at that fair value to stockholders' equity. See Note 1. Background and Summary of Significant Accounting Policies, for more information on the IPO.

---

**Table of Contents*****Nonrecurring Fair Value Measurements******Valuation of our Redeemable Convertible Preferred Stock***

The Trustee of the Company's ESOP has the ability to put the shares of our Redeemable convertible preferred stock to the Company. Prior to July 2014, our Redeemable convertible preferred stock was recorded at its fair value in the mezzanine equity section of our Condensed Consolidated Balance Sheets and changes in fair value were recorded in Retained earnings. Accordingly, we estimated the fair value of the Redeemable Convertible Preferred Stock through estimating the fair value of the Company's common stock and applying certain adjustments including for the fair value of the total dividends to be received and assuming conversion of the Redeemable convertible preferred stock to common stock at the stated conversion ratio per our Certificate of Incorporation. The categorization of the framework used to price this temporary equity was considered a Level 3, due to the subjective nature of the unobservable inputs used to determine the fair value.

Upon the effective date of the IPO, the redemption feature of our Redeemable convertible preferred stock allowing the Trustee of the Company's ESOP to put shares to us for cash was no longer applicable. However, if our common stock, which our Redeemable convertible preferred stock may convert to, is no longer a registration-type class of security (e.g., in the event of a delisting), the option held by the Trustee, which granted it the ability to put the shares of our Redeemable convertible preferred stock to us, would then become applicable. Preferred securities that become redeemable upon a contingent event that is not solely within the control of the Company should be classified outside of permanent equity. As of December 31, 2015, the Company has determined that it is not probable that the redemption feature will become applicable. Since the Redeemable convertible preferred stock is not currently redeemable and it is not probable that the instrument will become redeemable, subsequent adjustment to fair value is not required. As such, the Redeemable convertible preferred stock was recorded to fair value at the effective date of the IPO on July 25, 2014 and will remain in mezzanine equity without further adjustment to carrying value unless it becomes probable that the redemption feature will become applicable. See Note 1. Background and Summary of Significant Accounting Policies, for more information on the IPO.

***Valuation of our Goodwill and Indefinite Lived Intangible Assets***

Goodwill and indefinite lived intangible assets are tested for impairment annually as of March 31 or whenever events or changes in circumstances indicate the carrying value may be greater than fair value.

**6. RELATED PARTY TRANSACTIONS*****ADS Mexicana***

ADS conducts business in Mexico and Central America through its joint venture ADS Mexicana. ADS owns 51% of the outstanding stock of ADS Mexicana and consolidates ADS Mexicana for financial reporting purposes. During the three and nine months ended December 31, 2015 and 2014, ADS Mexicana compensated certain owners and former owners of Grupo Altima, the joint venture partner of ADS Mexicana, for consulting services related to the operations of the business. These cash payments totaled \$104 and \$203 for the three and nine months ended December 31, 2015, respectively, and \$102 and \$271 for the three and nine months ended December 31, 2014, respectively.

Occasionally, ADS and ADS Mexicana jointly enter into agreements for pipe sales with their related parties. There were no such transactions during the three and nine months ended December 31, 2015 and \$1,125 and \$3,464 for the three and nine months ended December 31, 2014, respectively. Outstanding receivables related to these sales were

\$361 and \$1,005 as of December 31, 2015 and March 31, 2015, respectively.

In April 2015, ADS Mexicana borrowed \$3,000 under a revolving credit facility arrangement with Scotia Bank and loaned that amount to ADS, and such loan was repaid in May 2015. In June 2015, ADS Mexicana borrowed \$3,854 under the Scotia Bank credit facility and loaned it to an entity owned by a Grupo Altima owner, and such loan was repaid in July 2015. ADS does not guarantee the borrowings from this facility and therefore, does not anticipate any required contributions related to the balance of this credit facility.

We are the guarantor of 100% of ADS Mexicana's credit facility and our maximum potential payment under this guarantee totals \$12,000.

### ***South American Joint Venture***

The Tuberias Tigre ADS Limitada joint venture ( South American Joint Venture ) manufactures and sells HDPE corrugated pipe in the South American market. We are the guarantor for 50% of the South American Joint Venture's credit facility, and the debt guarantee is shared equally with the joint venture partner. Our maximum potential obligation under this guarantee totals \$6,844 as of December 31, 2015. The maximum borrowings permitted under the South American Joint Venture's credit facility are \$19,000. This credit facility allows borrowings in either Chilean pesos or US dollars at a fixed interest rate determined at inception of each draw on the facility. The guarantee of South American Joint Venture's debt is for the life of the credit facility which matures on February 5, 2017. ADS does not anticipate any required contributions related to the balance of this credit facility. As of December 31, 2015 and March 31, 2015, the outstanding principal balance of the credit facility including letters of credit was \$13,700 and \$13,600, respectively. The weighted average interest rate as of December 31, 2015 was 3.39% on U.S. dollar denominated loans and 7.30% on Chilean peso denominated loans.

**Table of Contents**

ADS and the South American Joint Venture have entered into shared services arrangements in order to execute the joint venture services. Included within these arrangements are the lease of an office and plant location used to conduct business and operating expenses related to these leased facilities. Occasionally, ADS and South American Joint Venture jointly enter into agreements for pipe sales with their related parties which were \$236 and \$1,117 for the three and nine months ended December 31, 2015, respectively and \$185 and \$648 for the three and nine months ended December 31, 2014. As of December 31, 2015, ADS has a receivable from the South American Joint Venture of \$254.

***BaySaver***

BaySaver is a joint venture that was established to produce and distribute water quality filters and separators used in the removal of sediment and pollution from storm water. ADS owns 65% of the outstanding membership interests of BaySaver and consolidates its interest in BaySaver.

ADS and BaySaver have entered into shared services arrangements in order to execute the joint venture services. Included within these arrangements are the lease of a plant and adjacent yard used to conduct business and operating expenses related to the leased facility. Occasionally, ADS and BaySaver jointly enter into agreements for sales of pipe and Allied Products with their related parties in immaterial amounts.

**7. DEBT**

Long-term debt as of December 31, 2015 and March 31, 2015 consisted of the following:

<b>(amounts in thousands)</b>	<b>December 31, 2015</b>	<b>March 31, 2015</b>
<b>Bank Term Loans:</b>		
Revolving Credit Facility - ADS	\$ 149,500	\$ 205,100
Term Note	85,000	91,250
Senior Notes payable	100,000	100,000
Industrial revenue bonds	2,925	3,545
<b>Total</b>	<b>337,425</b>	<b>399,895</b>
<b>Current maturities</b>	<b>(35,860)</b>	<b>(9,580)</b>
<b>Long-term debt obligations</b>	<b>\$ 301,565</b>	<b>\$ 390,315</b>

***ADS Mexicana Scotia Bank Revolving Credit Facility***

On December 11, 2014, our joint venture, ADS Mexicana, entered into a credit agreement with Scotia Bank. The credit agreement provides for revolving loans up to a maximum aggregate principal amount of \$5,000. The proceeds of the revolving credit facility have primarily been used for short term investments and are available for working capital needs. The interest rates of the revolving credit facilities are determined by LIBOR rates, Tasa de Interes Interbancaria de Equilibrio (TIIE) or the Costos de Captacion rates, plus an applicable margin. The Scotia Bank revolving credit facility matures on December 11, 2017. The obligations under the revolving credit facility are not guaranteed by ADS. As of December 31, 2015, there was no outstanding principal drawn on the Scotia Bank

revolving credit facility with \$5,000 available to be drawn.

## 8. DERIVATIVE TRANSACTIONS

The Company uses interest rate swaps, commodity options in the form of collars and swaps, and foreign currency forward contracts to manage its various exposures to interest rate, commodity price, and exchange rate fluctuations. For interest rate swaps, the difference between the spot rate and applicable base rate is recorded in Interest expense. Contract settlement gains and losses on collars, commodity swaps and foreign exchange forward contracts as well as gains and losses related to the mark-to-market adjustments for changes in fair value of the derivative contracts are recorded in the Condensed Consolidated Statements of Operations as Derivative losses and other expense, net. The Company recognized (losses) and gains on mark-to-market adjustments for changes in fair value on derivative contracts of \$1,784 and \$(6,054) for the three months ended December 31, 2015 and 2014, respectively, and \$(7,750) and \$(6,217) for the nine months ended December 31, 2015 and 2014, respectively.

The fair value of the derivatives is included in the Condensed Consolidated Balance sheet at December 31, 2015 and March 31, 2015 as follows:

(Amounts in thousands)	December 31, 2015			
	Assets		Liabilities	
	Receivables	Other assets	Other accrued liabilities	Other liabilities
Interest rate swaps	\$	\$	\$ (326)	\$
Foreign exchange forward contracts	47			
Diesel fuel option collars and swaps			(3,364)	(275)
Propylene swaps			(11,704)	(848)

(Amounts in thousands)	March 31, 2015			
	Assets		Liabilities	
	Receivables	Other assets	Other accrued liabilities	Other liabilities
Interest rate swaps	\$	\$	\$ (150)	\$ (615)
Foreign exchange forward contracts	28			
Diesel fuel option collars and swaps			(1,883)	(958)
Propylene swaps			(4,412)	(730)

## 9. COMMITMENTS AND CONTINGENCIES

### *Purchase Commitments*

We will, from time to time, secure supplies of resin raw material by agreeing to purchase quantities during a future given period at a fixed price. These purchase contracts are short term in nature and occur in the ordinary course of business. Under such purchase contracts, we have agreed to purchase resin over the period January 2016 through December 2016 at a committed purchase cost of \$24,240.

**Table of Contents*****Litigation***

On July 29, 2015, a putative stockholder class action, Christopher Wyche, individually and on behalf of all others similarly situated v. Advanced Drainage Systems, Inc., et al. (Case No. 1:15-cv-05955-KPF), was commenced in the U.S. District Court for the Southern District of New York, naming the Company, along with Joseph A. Chlapaty, the Company's Chief Executive Officer, and Mark B. Sturgeon, the Company's former Chief Financial Officer, as defendants and alleging violations of the federal securities laws. An amended complaint was filed on April 28, 2016. The amended complaint alleges that the Company made material misrepresentations and/or omissions of material fact in its public disclosures during the period from July 25, 2014 through March 29, 2016, in violation of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, as amended, and Rule 10b-5 promulgated thereunder. Plaintiffs seek an unspecified amount of monetary damages on behalf of the putative class and an award of costs and expenses, including counsel fees and expert fees. The Company believes that it has valid and meritorious defenses and will vigorously defend against these allegations, but litigation is subject to many uncertainties and the outcome of this matter is not predictable with assurance. While it is reasonably possible that this matter ultimately could be decided unfavorably to the Company, the Company is currently unable to estimate the range of the possible losses, but they could be material.

On August 12, 2015, the SEC Division of Enforcement ( Enforcement Division ) informed the Company that it was conducting an informal inquiry with respect to the Company. As part of this inquiry, the Enforcement Division requested the voluntary production of certain documents generally related to the Company's accounting practices. Subsequent to the initial voluntary production request, the Company received document subpoenas from the Enforcement Division pursuant to a formal order of investigation. The Company has from the outset cooperated with the Enforcement Division's investigation and intends to continue to do so. While it is reasonably possible that this investigation ultimately could be resolved unfavorably to the Company, the Company is currently unable to estimate the range of possible losses, but they could be material.

We are involved from time to time in various legal proceedings that arise in the ordinary course of our business, including but not limited to commercial disputes, environmental matters, employee related claims, intellectual property disputes and litigation in connection with transactions including acquisitions and divestitures. We believe that such litigation, claims, and administrative proceedings will not have a material adverse impact on our financial position or our results of operations. We record a liability when a loss is considered probable, and the amount can be reasonably estimated. In management's opinion, none of these proceedings are material in relation to our consolidated operations, cash flows, or financial position, and we have adequate accrued liabilities to cover our estimated probable loss exposure.

**10. ACCUMULATED OTHER COMPREHENSIVE LOSS**

The following table presents the changes in the balance of Accumulated other comprehensive loss ( AOCL ) for the nine months ending December 31, which consists entirely of foreign currency translation gains (losses):

<b>(Amounts in thousands)</b>	<b>Accumulated Other Comprehensive Loss</b>
Balance at April 1, 2014	\$ (6,830)

Other comprehensive loss		(4,730)
<b>Balance at December 31, 2014</b>	<b>\$</b>	<b>(11,560)</b>
Balance at April 1, 2015		(15,521)
Other comprehensive loss		(10,601)
<b>Balance at December 31, 2015</b>	<b>\$</b>	<b>(26,122)</b>

## 11. INCOME TAXES

The Company's effective tax rate will vary based on a variety of factors, including overall profitability, the geographical mix of income before taxes and related tax rates in jurisdictions where it operates and other onetime charges, as well as discrete events, such as provision to return adjustments. For the nine months ended December 31, 2015 and 2014, the Company utilized an effective tax rate of 36.2% and 41.8%, respectively, to calculate its provision for income taxes. These rates are higher than the federal statutory rate of 35% due to state and local taxes, partially offset by foreign income taxed at lower rates, and in the case of the nine months ended December 31, 2015, the reversal of uncertain tax position accruals as a result of the lapse of the statute of limitations.

**Table of Contents****12. NET INCOME (LOSS) PER SHARE**

Basic net income (loss) per share is calculated by dividing the Net income attributable to common stockholders by the weighted-average number of common shares outstanding during the period, without consideration for common stock equivalents. Diluted net income (loss) per share is computed by dividing the Net income attributable to common stockholders by the weighted-average number of common share equivalents outstanding for the period.

Holders of unvested restricted stock have nonforfeitable rights to dividends when declared on common stock, and holders of Redeemable convertible preferred stock participate in dividends on an as-converted basis when declared on common stock. As a result, unvested restricted stock and Redeemable convertible preferred stock meet the definition of participating securities, which requires us to apply the two-class method to compute both basic and diluted net income (loss) per share. The two-class method is an earnings allocation formula that treats participating securities as having rights to earnings that would otherwise have been available to common stockholders.

The dilutive effect of stock options and unvested restricted stock is based on the more dilutive of the treasury stock method or the diluted two-class method. In computing diluted net income (loss) per share, income available to common shareholders used in the basic net income (loss) per share calculation (numerator) is adjusted, subject to sequencing rules, for certain adjustments that would result from the assumed issuance of potential common shares. Diluted net income (loss) per share assumes the Redeemable convertible preferred stock would be cash settled through the effective date of the IPO on July 25, 2014, as we have the choice of settling in cash or shares and we have demonstrated past practice and intent of cash settlement. Therefore these shares are excluded from the calculation through the effective date of the IPO. After the effective date of the IPO, Management's intent is to share settle; therefore, these shares are included in the calculation from July 26, 2014 through December 31, 2015, if dilutive. For purposes of the calculation of diluted net income (loss) per share, stock options and unvested restricted stock are considered to be potential common stock and are only included in the calculations when their effect is dilutive.

Prior to the effective date of the IPO, the Company's Redeemable common stock was included in the weighted-average number of common shares outstanding for calculating basic and diluted net income (loss) per share.

The following table presents information necessary to calculate net income (loss) per share for the three and nine months ended December 31, 2015 and 2014, as well as potentially dilutive securities excluded from the weighted average number of diluted common shares outstanding because their inclusion would have been anti-dilutive:

(Amounts in thousands, except per share data)	Three Months Ended		Nine Months Ended	
	December 31,		December 31,	
	2015	2014	2015	2014
<b>Net income (loss) per share - Basic</b>				
Net income (loss) attributable to ADS	\$ 7,976	\$ (3,325)	\$ 29,585	\$ 22,085
Adjustment for:				
Accretion of redeemable noncontrolling interest	(329)		(586)	
Change in fair value of redeemable convertible preferred stock				(11,054)

**Table of Contents****13. BUSINESS SEGMENTS INFORMATION**

We operate our business in two distinct operating and reportable segments based on the markets we serve: Domestic and International. The Chief Operating Decision Maker ( CODM ) evaluates segment reporting based on net sales and Segment Adjusted EBITDA (a non-GAAP measure). We calculate Segment Adjusted EBITDA as net income or loss before interest, income taxes, depreciation and amortization, stock-based compensation expense, non-cash charges and certain other expenses.

***Domestic***

Our Domestic segment manufactures and markets products throughout the United States. We maintain and serve these markets through strong product distribution relationships with many of the largest national and independent waterworks distributors, major national retailers as well as an extensive network of hundreds of small to medium-sized distributors across the U.S. We also sell through a broad variety of buying groups and co-ops in the United States. Products include Singlewall pipe, N-12 HDPE pipe sold into the Storm sewer and Infrastructure markets, high performance PP pipe sold into the Storm sewer and sanitary sewer markets, and our broad line of Allied Products including StormTech, Nyloplast, Arc Septic Chambers, Inserta Tee, BaySaver filters and water quality structures, Fittings, and FleXstorm. Our Domestic segment sales are diversified across all regions of the country.

***International***

Our International segment manufactures and markets products in regions outside of the United States, with a growth strategy focused on our owned facilities in Canada and through our joint-ventures, with local partners in Mexico, Central America and South America. Our joint venture strategy provides us with local and regional access to new markets such as Brazil, Chile, Argentina, Peru and Colombia. Our Mexican joint venture through ADS Mexicana primarily serves the Mexican markets, while our South American Joint Venture is our primary channel to serve the South American markets. Our product line includes Singlewall pipe, N-12 HDPE pipe, and high performance PP pipe. The Canadian market also sells our broad line of Allied Products, while sales in Latin America are currently concentrated in fittings and Nyloplast.

The following table sets forth reportable segment information with respect to the amount of net sales contributed by each class of similar products of our consolidated gross profit for the three and nine months ended December 31, 2015 and 2014, respectively:

(Amounts in thousands)	Three Months Ended December 31,		Nine Months Ended December 31,	
	2015	2014	2015	2014

**14. SUPPLEMENTAL CASH FLOW INFORMATION**

During the nine months ended December 31, 2015 and 2014, the Company acquired Property, plant and equipment under capital lease and incurred lease obligations of \$28,109 and \$22,531, respectively.

**15. SUBSEQUENT EVENTS**

***Subsequent Events Related to the Bank Term Loans and Senior Notes***

Our long-term debt primarily consists of amounts outstanding under a Revolving Credit Facility with borrowing capacity of \$325,000 for ADS, Inc., a Revolving Credit Facility for ADS-Mexicana with borrowing capacity of \$12,000, and a \$100,000 term note (collectively, the *Bank Term Loans* ), and the \$100,000 of outstanding senior promissory notes ( *Senior Notes* ). The amendments and consents described below that occurred between July 2015 and February 2016 related to the delay in the filing of the fiscal year 2015 Form 10-K, and the restatement of the Company's previously issued financial statements (the *Restatement* ) as reflected in the Fiscal 2015 Form 10-K, which was filed in March 2016.

From July 2015 through December 2015, the Company obtained various consents from the lenders and amended the Bank Term Loans and Senior Notes. These consents and the additional amendments had the effect of: (i) extending the time for delivery of our fiscal 2015 audited financial statements and the first and second quarter fiscal 2016 quarterly financial statements to January 31, 2016, whereby an event of default was waived as long as those financial statements were delivered within the thirty day grace period after that date, (ii) modified certain definitions applicable to the Company's affirmative and negative financial covenants, including the negative covenant on indebtedness, to accommodate the Company's treatment of its transportation and equipment leases as capital leases rather than operating leases and to accommodate the treatment of the costs related to the Company's restatement, and (iii) permitted the Company's payment of quarterly dividends on common shares in June, August and December 2015.

In February 2016, the Company entered into additional amended agreements related to the Bank Term Loans and Senior Notes that further extend the time for delivery of its fiscal 2015 audited financial statements and the first and second quarter fiscal 2016 quarterly financial statements, as well as to extend the time for delivery of its third quarter fiscal 2016 quarterly financial statements. The February 2016 amended agreements extended the time for delivery of the fiscal 2015 audited financial statements and the first, second and third quarter fiscal 2016 quarterly financial statements to April 1, 2016, whereby an event of default was waived as long as those financial statements were delivered by that date without regard to any grace period. As part of the February 2016 amended agreements, the lenders also consented to the Company's payment of the previously declared annual dividend of \$0.0195 per share to be paid on shares of preferred stock in March 2016.

***Subsequent Event Related to ADS Mexicana Scotia Bank Revolving Credit Facility***

On May 27, 2016, ADS Mexicana obtained a waiver on a covenant from Scotia Bank relating to ADS Mexicana failing to notify Scotia Bank of changes in legal organizational structure and payment of dividends.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*Our fiscal year begins on April 1 and ends on March 31. Unless otherwise noted, references to "year" pertain to our fiscal year. For example, 2016 refers to fiscal 2016, which is the period from April 1, 2015 to March 31, 2016.*

*The following discussion and analysis of the financial condition and results of our operations should be read in conjunction with our condensed consolidated financial statements and related footnotes included elsewhere in this report and with our audited consolidated financial statements included in our Fiscal 2015 Form 10-K. In addition to historical condensed consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. This discussion contains forward-looking statements that are based on the beliefs of our management, as well as assumptions made by, and information currently available to, our management. Our actual results could differ materially from those discussed in the forward-looking statements. For more information, see the section below entitled "Forward Looking Statements."*

*We consolidate all of our joint ventures for purposes of GAAP, except for our South American Joint Venture and our Tigre-ADS USA Joint Venture.*

**Overview**

We are the leading manufacturer of high performance thermoplastic corrugated pipe, providing a comprehensive suite of water management products and superior drainage solutions for use in the construction and infrastructure marketplace. Our innovative products are used across a broad range of end markets and applications, including non-residential, residential, agriculture and infrastructure applications. We have established a leading position in many of these end markets by leveraging our national sales and distribution platform, our overall product breadth and scale and our manufacturing excellence. In North America, our national footprint combined with our strong local presence and broad product offering makes us the leader in an otherwise highly fragmented sector comprised of many smaller competitors. We believe the markets we serve in the United States represent approximately \$10.5 billion of annual revenue opportunity. In addition, we believe the increasing acceptance of thermoplastic pipe products in international markets represents an attractive growth opportunity.

Our products are generally lighter, more durable, more cost effective and easier to install than comparable alternatives made with traditional materials. Following our entrance into the non-residential construction market with the introduction of N-12 corrugated polyethylene pipe in the late 1980s, our pipe has been displacing traditional materials, such as reinforced concrete, corrugated steel and PVC, across an ever expanding range of end markets. This has allowed us to consistently gain share and achieve above market growth throughout economic cycles. We expect to continue to drive conversion to our products from traditional products as contractors, civil design engineers and municipal agencies increasingly acknowledge the superior physical attributes and compelling value proposition of our thermoplastic products. In addition, we believe that overall demand for our products will benefit as the regulatory environment continues to evolve.

Our broad product line includes corrugated high density polyethylene (or "HDPE") pipe, polypropylene (or "PP") pipe and related water management products. Building on our core drainage businesses, we have aggressively pursued attractive ancillary product categories such as storm and septic chambers, PVC drainage structures, fittings and filters, and water quality filters and separators. We refer to these ancillary product categories as Allied Products. Given the scope of our overall sales and distribution platform, we have been able to drive growth within our Allied Products and believe there are significant growth opportunities going forward.

**Recent Developments**

***2014 Initial Public Offering ( IPO )***

On July 11, 2014, in anticipation of the IPO, we executed a 4.707-for-one split of our common and our preferred stock. The effect of the stock split on outstanding shares and earnings per share has been retroactively applied to all periods presented.

On July 25, 2014, we completed the IPO of our common stock, which resulted in the sale by the Company of 5,289,474 shares of common stock. We received total proceeds from the IPO of \$79.1 million after excluding underwriter discounts and commissions of \$5.5 million, based upon the price to the public of \$16.00 per share. After deducting other offering expenses of \$6.9 million, we used the net proceeds of \$72.2 million to reduce the outstanding indebtedness under the revolving portion of our credit facility. The common stock is listed on the NYSE under the symbol WMS.

On August 22, 2014, an additional 600,000 shares of common stock were sold by certain selling stockholders of the Company as a result of the partial exercise by the underwriters of the over-allotment option granted by the selling stockholders to the underwriters in connection with the IPO. The shares were sold at the public offering price of \$16.00 per share. The Company did not receive any proceeds from the sale of such additional shares.

## **Table of Contents**

### ***2014 Secondary Public Offering ( Secondary Public Offering )***

On December 9, 2014, we completed a Secondary Public Offering of our common stock, which resulted in the sale of 10,000,000 shares of common stock by a certain selling stockholder of the Company at a public offering price of \$21.25 per share. We did not receive any proceeds from the sale of shares by the selling stockholder.

On December 15, 2014, an additional 1,500,000 shares of common stock were sold by a certain selling stockholder of the Company as a result of the full exercise by the underwriters of the over-allotment option granted by the selling stockholder to the underwriters in connection with the Secondary Public Offering. The shares were sold at the public offering price of \$21.25 per share. The Company did not receive any proceeds from the sale of such additional shares.

### ***Acquisition of Ideal Pipe***

On January 30, 2015, Hancor of Canada, Inc., a wholly-owned subsidiary of the Company, acquired all issued and outstanding shares of Ideal Drain Tile Limited and Wave Plastics Inc., the sole partners of Ideal Pipe (together Ideal Pipe ) for a contractual purchase price of \$55.7 million Canadian dollars, financed through our existing line of credit facility. Ideal Pipe designs, manufactures and markets high performance thermoplastic corrugated pipe and related water management products used across a broad range of Canadian end markets and applications, including nonresidential, residential, agriculture, and infrastructure applications. The acquisition further strengthens our positions in Canada by increasing our size and scale in the market, as well as enhancing our manufacturing, marketing and distribution capabilities. The results of operations of Ideal Pipe are included in our Condensed Consolidated Statements of Operations after January 30, 2015.

### ***Acquisition of BaySaver***

On July 17, 2015, ADS Ventures, Inc. ( ADS/V ), a wholly-owned subsidiary of the Company, acquired an additional 10% of the issued and outstanding membership interests in BaySaver, for a purchase price of \$3.2 million, subject to certain post-closing purchase price payments, which was financed through our existing line of credit facility. The BaySaver joint venture was established in July 2013 to design, engineer, manufacture, market and sell water quality filters and separators used in the removal of sediment and pollution from storm water anywhere in the world except New Zealand, Australia and South Africa. The Company originally contributed \$3.5 million in cash, \$1.3 million in inventory, and intangible assets with no carrying value, in exchange for a 55% equity interest and a 50% voting interest in BaySaver. Concurrent with the additional investment in July 2015, we also entered into an amendment to the BaySaver joint venture agreement to modify the voting rights for the joint venture from an equal vote for each member to a vote based upon the ownership interest. As a result, the Company increased its ownership interest in BaySaver to 65% and obtained the majority of the voting rights.

While we had previously accounted for our investment in BaySaver under the equity method of accounting, we have concluded that the additional investment results in a step acquisition of BaySaver that will be treated as a business combination. As a result, our condensed consolidated financial statements include the consolidation of BaySaver's financial statements beginning on July 17, 2015. The accounting for the step acquisition resulted in the Company recognizing a loss of \$0.5 million in the period of acquisition due to the remeasurement to fair value of our prior equity interest, which is included in Derivative losses and other expense, net in our Condensed Consolidated Statements of Operations.

## **Results of Operations**

### ***Three Months Ended December 31, 2015 Compared With Three Months Ended December 31, 2014***

Edgar Filing: ADVANCED DRAINAGE SYSTEMS, INC. - Form 10-Q

The following tables summarize certain financial information relating to our operating results that have been derived from our condensed consolidated financial statements for the three months ended December 31, 2015 and 2014. Also included is certain information relating to the operating results as a percentage of net sales.

	Three Months Ended		Three Months Ended

*Net sales*

(Amounts in thousands)	Three Months Ended December 31,		
	2015	2014	% Variance
<b>Domestic</b>			
Pipe	\$ 196,162	\$ 179,979	9.0%
Allied Products	70,588	59,236	19.2%
<b>Total domestic</b>	<b>266,750</b>	<b>239,215</b>	<b>11.5%</b>
<b>International</b>			
Pipe	34,451	34,171	0.8%
Allied Products	11,626	6,485	79.3%
<b>Total international</b>	<b>46,077</b>	<b>40,656</b>	<b>13.3%</b>
<b>Total net sales</b>	<b>\$ 312,827</b>	<b>\$ 279,871</b>	<b>11.8%</b>

Net sales for the quarter ended December 31, 2015 totaled \$312.8 million, increasing \$32.9 million, or 11.8%, over the comparable prior year period.

Domestic net sales increased \$27.6 million, or 11.5%, for the third quarter ended December 31, 2015, as compared to the comparable prior year period. The increase in domestic sales was due to continued growth in the non-residential, residential and infrastructure markets and a modest increase in agricultural sales. All domestic end markets also benefitted from mild winter weather at the end of the quarter. Of the \$27.6 million in sales growth, the breakdown between our Pipe and Allied Products reflected increases of \$16.2 million and \$11.4 million, respectively. Pipe sales were helped by a volume increase of 12.2% compared to the comparable period in the prior year, offset by a decrease in Pipe selling prices of 2.9% compared to the comparable prior year period. Allied Product sales increased 19.2% which included the addition of \$3.3 million in sales from the acquisition of BaySaver as well as strong gains in our StormTech, Fittings, and Nyloplast product lines.

International net sales for the third quarter ended December 31, 2015 increased \$5.4 million, or 13.3%, over the comparable fiscal year 2015 period. The growth was primarily due to increased sales in Canada of \$11.5 million as a result of the Ideal Pipe acquisition, offsetting soft sales performance in Mexico which declined by \$5.5 million during the three months ended December 31, 2015 as compared to the comparable prior year period. Slower public spending was the main factor for the decline in third quarter net sales in Mexico versus the comparable prior year period. In addition, the Canadian dollar was approximately 15% weaker against the U.S. dollar in the three month period ended December 31, 2015, compared to the three month period ended December 31, 2014, which had a negative impact on Net sales for Canada of \$5.0 million during the three month period ended December 31, 2015.

## **Table of Contents**

System-Wide Net Sales for the third quarter ended December 31, 2015 were \$330.9 million, a net increase of \$29.5 million, or 9.8%, over System-Wide Net Sales of \$301.4 million for the third quarter of fiscal 2015. Net sales at our South American Joint Venture operation were down \$1.4 million or 9.3% over the comparable prior year period. This decrease was offset by an increase in net sales at our domestic joint venture, Tigre-ADS USA, of \$0.9 million for the three months ended December 31 2015, as compared to the prior fiscal year period. The company acquired a controlling interest in BaySaver during the second fiscal quarter of fiscal year 2016 and those sales are now included in the Company's consolidated net sales. During the comparable fiscal year 2015 period BaySaver contributed \$2.9 million in sales.

### *Cost of goods sold and Gross profit*

Cost of Goods Sold increased \$8.8 million or 3.8% to \$239.5 million for the three months ended December 31, 2015 compared to \$230.7 million over the comparable fiscal year 2015 period.

Gross profit for the three months ended December 31, 2015 increased \$24.1 million or 49.1% over the comparable fiscal year 2015 period. Gross profit as a percentage of net sales totaled 23.4% for the three months ended December 31, 2015 as compared to 17.6% for the comparable fiscal year 2015 period.

Domestic gross profit increased \$23.1 million, or 55.5%, to \$64.9 million for the three months ended December 31, 2015 as compared to \$41.8 million during the comparable prior year period. In addition to the impact of the 11.5% increase in domestic net sales over the comparable fiscal year 2015 period, the increase was driven by a reduction of 14.0% in the cost of pipe resin used in products sold during the quarter versus the comparable prior year period. Both virgin and non-virgin resin prices continued to decline during the third quarter of fiscal 2016. Freight costs totaled 9.7% of domestic net sales for the three months ended December 31, 2015, compared to 9.5% for the prior year period. The higher costs relate to increased depreciation charges associated with new tractors and trailers added to the delivery fleet which offset the benefit of diesel fuel prices moving lower throughout the quarter. Diesel prices declined approximately 30.0% compared to the prior year period.

International gross profit increased \$1.0 million, or 13.0%, for the third quarter of fiscal year 2016 over the comparable fiscal year 2015 period. This was the result of the impact of the 13.3% increase in international net sales. Gross profit margins were negatively impacted by the continued devaluation of the Canadian dollar versus the U.S. dollar as revenue from our Canadian subsidiaries is transacted in the Canadian dollar whereas the cost of raw material is substantially transacted in U.S. dollars.

### *Selling expenses*

Selling expenses consist of field selling and customer service expenditures for personnel engaged in sales and sales support functions. Field selling and customer service expenditures primarily consists of personnel costs (salaries, benefits, and variable sales commissions), travel and entertainment expenses, marketing, promotion, and advertising expenses, as well as bad debt provisions.

Selling expenses for the three months ended December 31, 2015 increased \$2.0 million, or 9.9%, over the comparable fiscal year 2015 period. The increase was primarily the result of increases in variable selling expenses due to higher sales volume and investments in additional sales coverage and growth initiatives. As a percentage of net sales, selling expenses decreased slightly to 7.0% for the third quarter of fiscal 2015 as compared to 7.1% for the comparable prior year period.

### *General and administrative expenses*

General and administrative expenses consists of personnel costs (salaries, benefits, and other personnel-related expenses, including stock-based compensation), recruitment and relocation expenses, accounting and legal fees, business travel expenses, rent and utilities for the administrative offices, director fees, investor relations, membership fees, office supplies, insurance and other miscellaneous expenses.

General and administrative expenses for the three months ended December 31, 2015 increased \$11.7 million, or 82.6%, over the comparable fiscal year 2015 period. The large increase was related in part to incremental expenses for audit, tax, legal and other professional fees which amounted to \$7.6 million related to the restatement of our previously filed financial statements as part of the preparation of our Fiscal 2015 Form 10-K. There were no comparable amounts in the fiscal year 2015 period. In addition, salaries and compensation expense increased by \$1.8 million during the third quarter of fiscal year 2016 and there was an additional \$0.6 million in general and administrative expense from the acquisition of the Ideal and BaySaver businesses, partially offset by a decrease in stock-based compensation expense of \$0.8 million during the period. The remaining increase related to higher corporate overhead including higher depreciation expense as well as increased legal and administrative costs associated with being a public company. Overall, general and administrative expenses amounted to 8.2% of net sales for the three months ended December 31, 2015 compared to 5.0% for the comparable prior year period.

---

**Table of Contents***Gain (loss) on disposal of assets or businesses*

Gain (loss) on disposal of assets for the three months ended December 31, 2014 changed from a loss of \$0.2 million to a gain of \$0.6 million for the three months ended December 31, 2015. We did not dispose of any businesses during the three months ended December 31, 2015 or 2014.

*Intangible amortization*

Intangible amortization for the three months ended December 31, 2015 decreased \$0.1 million, or 6.3%, over the comparable fiscal year 2015 period as a result of intangible assets of \$7.8 million becoming fully amortized during fiscal 2015 offset by the additional amortization for the Ideal Pipe intangible assets acquired in the fourth quarter of fiscal year 2015 and the BaySaver intangible assets acquired in the second quarter of fiscal year 2016.

*Interest expense*

Interest expense for the three months ended December 31, 2015 decreased slightly, \$0.1 million, or 2.0%, over the comparable fiscal year 2015 period. The modest decrease in the current year third quarter was due to lower average interest rates on our outstanding indebtedness. Average debt outstanding was up only slightly compared to the prior year period, which modestly offset the impact of slightly lower rates.

*Derivative losses and other expense, net*

Derivative losses and other expense, net decreased \$3.0 million over the comparable prior year period as a result of changes in both realized and unrealized gains and losses on hedging activities. The net derivative expense activity for the three months ended December 31, 2015 was \$2.4 million (realized loss of \$4.1 million less unrealized gain of \$1.8 million). This compares to a net derivative expense of \$6.5 million incurred during the comparable prior year period (realized loss of \$0.4 million and an unrealized loss of \$6.1 million). The balance of the change relates primarily to foreign currency transaction gains and other insignificant gains or losses.

*Income tax expense*

For the three months ended December 31, 2015 and 2014, the Company recorded an income tax provision of \$8.1 million and \$3.4 million, respectively. These provisions represent an effective tax rate of 48.2% and 139.5%, respectively. Income before income taxes increased significantly compared to the prior year resulting in a much higher provision for income taxes. The effective tax rate for the three months ended December 31, 2015 is lower than the prior year period primarily due to the shift in the projections of the proportion of income earned and higher income before income taxes reducing the impact of non-deductible items in our tax calculations.

*Equity in net loss of unconsolidated affiliates*

Equity in net loss of unconsolidated affiliates decreased \$0.1 million from \$1.0 million for the three months ended December 31, 2014 to \$0.9 million for the three months ended December 31, 2015.

*Net (loss) income attributable to noncontrolling interest*

Net (loss) income attributable to noncontrolling interest represents the share of ADS Mexicana and BaySaver net income attributable to the minority interest holders. Net (loss) income attributable to noncontrolling interest changed from income of \$1.4 million for the three months ended December 31, 2014 to a loss of \$0.2 million for the three

months ended December 31, 2015. The change is largely due to losses incurred by ADS Mexicana of \$0.3 million for the three months ended December 31, 2015 compared to income of \$1.4 million for the prior fiscal year 2015 period. The balance of the change relates to activity for BaySaver.

**Table of Contents***Net loss attributable to ADS and Net loss per share*

Third quarter net income attributable to ADS for fiscal year 2016 was \$8.0 million, improving from fiscal year 2015 third quarter's net loss attributable to ADS of \$3.3 million, as influenced by the factors noted above. Net income per share for the third quarter fiscal year 2016 totaled \$0.13 per basic and \$0.12 per diluted share, as compared to a loss of \$0.07 per basic and diluted share recorded in the comparable prior year period.

**Table of Contents***Net sales*

(Amounts in thousands)	Nine Months Ended December 31,		
	2015	2014	% Variance
<b>Domestic</b>			
Pipe	\$ 654,987	\$ 637,728	2.7%
Allied Products	237,228	210,888	12.5%
<b>Total domestic</b>	<b>892,215</b>	<b>848,616</b>	<b>5.1%</b>
<b>International</b>			
Pipe	121,368	102,320	18.6%
Allied Products	31,697	22,083	43.5%
<b>Total international</b>	<b>153,065</b>	<b>124,403</b>	<b>23.0%</b>
<b>Total net sales</b>	<b>\$ 1,045,280</b>	<b>\$ 973,019</b>	<b>7.4%</b>

Net sales totaled \$1,045.3 million for the nine months ended December 31, 2015, increasing \$72.3 million, or 7.4%, over the comparable period for fiscal year 2015. The total sales growth when broken down between our Pipe and Allied Products, reflected increases of \$36.4 million or 4.9% and \$35.9 million or 15.4%, respectively, for the nine months ended December 31, 2015 as compared to the prior year period.

Domestic net sales increased \$43.6 million, or 5.1%, for the nine months ended December 31, 2015, as compared to the prior year period. Domestic pipe sales increased \$17.3 million, or 2.7%, due to continued growth in our N-12 HDPE and High Performance PP product lines offsetting lower agricultural sales. Allied Product sales increased \$26.3 million, or 12.5%, due to strong sales volume sold primarily into the non-residential, residential and infrastructure markets. In addition, approximately \$6.8 million of the total Allied Product sales increase relates to the acquisition of BaySaver during the second fiscal quarter of fiscal 2016.

International net sales increased \$28.7 million, or 23.0%, for the nine months ended December 31, 2015 over the comparable fiscal year 2015 period. The growth was primarily due to increased sales in Canada, including in particular the contribution from the acquisition of Ideal Pipe, which increased sales by approximately \$36.8 million, helping to offset decreased sales in Mexico of \$3.5 million. In addition, the Canadian dollar was approximately 14% weaker against the U.S. dollar in the nine month period ended December 31, 2015, compared to the nine month period ended December 31, 2014, which had a negative impact on Net sales for Canada of \$15.6 million during the nine month period ended December 31, 2015.

System-Wide Net Sales were \$1,103.3 million for the first nine months of fiscal year 2016, an increase of \$65.0 million, or 6.3%, over System-Wide Net Sales of \$1,038.3 million for the first nine months of fiscal year 2015. Net sales at our South American Joint Venture operation were negatively impacted by continued softness in the mining markets and an overall construction slowdown due to reduced public spending resulting in a sales decline of \$4.4 million or 9.6% to \$41.3 million. Net sales at our domestic joint ventures, Tigre-ADS USA and BaySaver, provided combined net sales for unconsolidated joint ventures of \$16.7 million for the nine months ended December 31, 2015, down \$2.8 million when compared to the prior fiscal year period. However, when taking into consideration the \$6.8 million in net sales recognized for BaySaver subsequent to the July 2015 acquisition of the controlling interest,

comparable sales are up \$4.0 million or 20.5%.

*Cost of goods sold and Gross profit*

Cost of Goods Sold increased \$22.4 million or 2.8% for the nine months ended December 31, 2015 compared with the same period during fiscal year 2015.

Gross profit increased \$49.8 million or 27.7% from \$179.8 million to \$229.6 million for the nine months ended December 31, 2015 compared with the same period in the prior year. Gross profit as a percentage of net sales totaled 22.0% for the nine months ended December 31, 2015 as compared to 18.5% for the prior year.

---

**Table of Contents**

Domestic gross profit increased \$36.7 million, or 22.7%, to \$198.1 million for the nine months ended December 31, 2015 as compared to \$161.4 million during the prior year period. In addition to the impact of the 5.1% increase in domestic net sales over the comparable fiscal year 2015 period, the increase was also driven by a reduction in raw material costs of approximately 8.4%, particularly pipe resin costs. Raw material prices were flat in the first quarter and then declined in the second and third quarters of fiscal 2016 as compared to the prior year periods. Freight costs totaled 9.6% of domestic net sales for the nine months ended December 31, 2015, compared to 9.3% for the prior year period. Diesel prices began to moderate after the third quarter of fiscal year 2015 and continued to decline throughout fiscal 2016. The higher costs relate to increased depreciation charges associated with new tractors and trailers added to the delivery fleet, which offset the benefit of diesel fuel prices moving lower throughout the quarter. Diesel prices were approximately 31.0% below the prior fiscal year for the nine-month period.

International gross profit increased \$13.2 million, or 71.6%, for the first nine months of fiscal year 2016 over the comparable fiscal year 2015 period. This was the result of the impact of a 23.0% increase in international net sales. Gross profit was also helped by improved gross profit performance in Mexico for the nine months ended December 31, 2015, as Mexico benefitted from lower resin costs.

*Selling expenses*

Selling expenses consist of field selling and customer service for personnel engaged in sales and sales support functions. Field selling and customer service expenditures primarily consists of personnel costs (salaries, benefits, and variable sales commissions), travel and entertainment expenses, marketing, promotion, and advertising expenses, as well as bad debt provisions.

Selling expenses for the nine months ended December 31, 2015 increased \$6.0 million, or 10.0%, over the comparable fiscal year 2015 period, growing at a higher rate than the change in net sales. The increase was primarily the result of increases in selling expenses related to Ideal Pipe and BaySaver, variable selling expenses due to higher sales volume and investments in additional sales coverage and growth initiatives. As a percentage of net sales, selling expenses increased slightly to 6.3% for the first nine months of fiscal 2016 as compared to 6.1% for the comparable prior year period.

*General and administrative expenses*

General and administrative expenses consists of personnel costs (salaries, benefits, and other personnel-related expenses, including stock-based compensation), recruitment and relocation expenses, accounting and legal fees, business travel expenses, rent and utilities for the administrative offices, director fees, investor relations, membership fees, office supplies, insurance and other miscellaneous expenses.

General and administrative expenses for the nine months ended December 31, 2015 increased \$25.4 million, or 58.2%, over the comparable 2015 fiscal year period. The increase was primarily the result of significant increases in professional fees for accounting, audit, tax, legal and other professional fees incurred in connection with the restatement of our previously filed financial statements as part of the preparation of our Fiscal 2015 Form 10-K. There were no such amounts in the comparable fiscal 2015 period. These fees amounted to approximately \$16.3 million for the nine months ended December 31, 2015. There was also an increase in salary and compensation expenses of \$2.2 million, as well as incremental general and administrative expenses related to the Ideal Pipe and BaySaver acquisitions of \$1.4 million. The remaining increase related to higher corporate overhead including higher depreciation expense as well as increased legal and administrative costs associated with being a public company. Overall, general and administrative expenses amounted to 6.6% of net sales compared to 4.5% in the prior year.

*Loss on disposal of assets or businesses*

Loss on the disposal of assets or businesses for the nine months ended December 31, 2015 and December 31, 2014 was not significant for either period, amounting to losses of \$0.6 million and \$0.5 million, respectively.

---

**Table of Contents***Intangible amortization*

Intangible amortization for the nine months ended December 31, 2015 decreased \$0.6 million, or 6.6%, over the comparable prior year period as a result of intangible assets of \$7.8 million becoming fully amortized during fiscal 2015, offset by the additional amortization for the Ideal Pipe intangible assets acquired in the fourth quarter of fiscal year 2015 and the BaySaver intangible assets acquired in the second quarter of fiscal year 2016.

*Interest expense*

Interest expense for the nine months ended December 31, 2015 decreased \$0.7 million, or 5.2%, over the comparable prior year period. The decrease was due to both slightly lower average interest rates on our outstanding Revolving Credit Facility, most of which is based on LIBOR, in addition to a modestly lower average outstanding debt balance over the nine-month period. For the prior period ended December 31, 2014, the Company carried a higher Revolving Credit Facility balance through July 2014 until the IPO proceeds were used to reduce the Revolving Credit Facility balance. Additionally, during the nine-month period ending December 31, 2014, a 2% surcharge on our Senior Notes was incurred during the first quarter of fiscal 2015 due to our leverage ratio of Adjusted EBITDA to Funded Debt exceeding three times at June 30, 2014. The surcharge increased interest expense by \$0.5 million for the first quarter of fiscal year 2015, and there was no such amount incurred in fiscal year 2016.

*Derivative losses and other expense, net*

Derivative losses and other expense, net for the nine months ended December 31, 2015 increased \$13.2 million over the comparable prior year period. The increase in expense is predominantly a result of both realized and unrealized losses on hedging activities. The hedging losses for the nine months ended December 31, 2015 were \$18.4 million comprised of realized losses on cash settlements of \$10.6 million and unrealized losses on mark-to-market adjustments of \$7.8 million. This compares to a net hedging loss of \$6.6 million incurred during the prior nine month period, consisting of realized losses on cash settlements of \$0.4 million and unrealized losses of \$6.2 million on the unfavorable mark-to-market adjustments. In addition to the hedging losses, the Company realized a loss of \$0.5 million upon completing the acquisition of BaySaver as a result of remeasuring our investment as of the July 17, 2015 step acquisition. See Note 2. Acquisitions. The balance of the change relates primarily to foreign currency transaction activity and other insignificant gains or losses.

*Income tax expense*

For the nine months ended December 31, 2015 and 2014, the Company recorded income tax provisions of \$19.8 million and \$20.2 million, respectively, which represent an effective tax rate of 36.2% and 41.8%, respectively. The effective tax rate for the first nine months of the fiscal 2016 is lower than the prior year period primarily due to the shift in the projections of the proportion of income earned and higher income before income taxes reducing the impact of non-deductible items in our tax calculations.

*Equity in net loss of unconsolidated affiliates*

Equity in net loss of unconsolidated affiliates represent our proportionate share of net loss attributed to the two unconsolidated joint ventures in which we have significant influence, but not control, over operations as well as our proportional share of BaySaver earnings up until the July 17, 2015 step acquisition. Equity in net loss of unconsolidated affiliates for the nine months ended December 31, 2015 decreased \$0.8 million over the comparable prior fiscal year period to a net loss of \$0.9 million compared to a net loss of \$1.7 million. The decrease was primarily due to lower net losses generated by the South American Joint Venture which reduced our share of the losses during

the nine-months ended December 31, 2015 to \$1.2 million compared to \$2.0 million for the comparable prior year period.

*Net income attributable to noncontrolling interest*

Net income attributable to noncontrolling interest represents income attributable to the noncontrolling interest holders in joint venture operations that are consolidated in our condensed consolidated financial statements. Net income attributable to noncontrolling interest increased \$0.1 million for the nine months ended December 31, 2015 to \$4.5 million compared to \$4.4 million for the comparable prior year period. As noted above, the 35.0% noncontrolling interest for BaySaver is now included in the fiscal 2016 results beginning after July 17, 2015.

**Table of Contents***Net income attributable to ADS and Net income per share*

Net income attributable to ADS of \$29.6 million increased from the preceding fiscal year's net income attributable to ADS of \$22.1 million, as influenced by the factors noted above. Net income per share for the first nine months of fiscal year 2016 totaled \$0.48 and \$0.46 per basic and diluted per share, respectively, as compared to net income per share of \$0.19 per basic and diluted share recorded in the comparable prior year period. The net income per share for the nine months ended December 31, 2014 was impacted by changes in fair value appreciation of Redeemable convertible preferred stock classified in mezzanine equity which reduced income available to common stockholders by \$11.1 million, or \$0.22 per share for common stockholders.

*Adjusted EBITDA <sup>(a)</sup>*

(Amounts in thousands)	Nine Months Ended December 31,		
	2015	2014	% Variance
Domestic adjusted EBITDA	\$ 141,946	\$ 125,195	13.4%
International adjusted EBITDA	19,005	8,932	112.8%
<b>Total adjusted EBITDA</b>	<b>\$ 160,951</b>	<b>\$ 134,127</b>	<b>20.0%</b>
As a percentage of net sales	15.4%	13.8%	

(a) See section entitled "Non-GAAP Financial Measures" for further information.

**Non-GAAP Financial Measures**

In addition to financial results reported in accordance with GAAP, we have provided the following non-GAAP financial measures: Adjusted EBITDA, System-Wide Net Sales and Adjusted Earnings Per Fully Converted Share. These non-GAAP financial measures are used in addition to and in conjunction with results presented in accordance with GAAP. However, these measures are not intended to be a substitute for those reported in accordance with GAAP. These measures may be different from non-GAAP financial measures used by other companies, even when similar terms are used to identify such measures.

*Adjusted EBITDA.* Adjusted EBITDA is a non-GAAP financial measure that is comprised of net income before interest, income taxes, depreciation and amortization, stock-based compensation, non-cash charges and certain other expenses. Our definition of Adjusted EBITDA may differ from similar measures used by other companies, even when similar terms are used to identify such measures. Adjusted EBITDA is a key metric used by management and our board of directors to assess our financial performance and evaluate the effectiveness of our business strategies. Accordingly, we believe that Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our operating results in the same manner as our management and Board of Directors.

The following table presents a reconciliation of Adjusted EBITDA to Net Income (Loss), the most comparable GAAP measure, for each of the periods indicated:

**Three Months Ended December 31, 2016**      **Nine Months Ended December 31,**
