NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(1) Interim Financial Statements

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements of Beasley Broadcast Group, Inc. and its subsidiaries (the Company) included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016. These financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the financial statements reflect all adjustments necessary for a fair statement of the financial position and results of operations for the interim periods presented and all such adjustments are of a normal and recurring nature. The Company's results are subject to seasonal fluctuations therefore the results shown on an interim basis are not necessarily indicative of results for the full year.

(2) Recent Accounting Pronouncements

In March 2017, the Financial Accounting Standards Board (FASB) issued guidance to improve the presentation of net periodic pension cost and net periodic postretirement benefit cost. The new guidance is effective for annual periods beginning after December 15, 2017. The Company is currently in the process of reviewing the new guidance, but its preliminary assessment, which is subject to change, is that the new guidance will not result in a significant impact on its financial statements.

In January 2017, the FASB issued guidance to simplify goodwill impairment testing by eliminating step two from the goodwill impairment test. Under the new guidance, an entity still has the option to perform the qualitative assessment of a reporting unit to determine if the quantitative impairment test is necessary. Under the new guidance an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. The new guidance is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed after January 1, 2017. The Company adopted the new guidance on a prospective basis in the first quarter of 2017 with no current impact on its financial statements.

In August 2016, the FASB issued guidance to reduce diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The new guidance is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. The Company is currently in the process of reviewing the new guidance, but its preliminary assessment, which is subject to change, is that the new guidance will not result in a significant impact on its financial statements.

In March 2016, the FASB issued guidance to improve several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The new guidance is effective for annual periods beginning after December 15, 2016 and interim periods within those annual periods. The Company adopted the new guidance in the first quarter of 2017 with no material impact on its financial statements.

In February 2016, the FASB issued guidance to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. There continues to be a differentiation between finance leases and operating leases, however lease assets and lease liabilities arising from operating leases should now be recognized in the statement of financial position. New disclosures are required to meet the objective of enabling users of financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases. The new guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company continues to review the new guidance and is currently researching lease management software. The Company expects the new guidance to result in a significant impact on the balance sheet, however that impact will not be quantified until closer to the adoption date. The Company does not expect the new guidance to have a significant impact on the statement of comprehensive income.

In January 2016, the FASB issued guidance that changes how entities measure equity investments and present changes in the fair value of financial liabilities. The new guidance requires entities to measure equity investments that do not result in consolidation and are not accounted for under the equity method at fair value and recognize any changes in fair value in net income unless the

Table of Contents**BEASLEY BROADCAST GROUP, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

investments qualify for the new practicality exception. A practicality exception will apply to those equity investments that do not have a readily determinable fair value and do not qualify for the practical expedient to estimate fair value, and as such, these investments may be measured at cost. The new guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company continues to review the new guidance, but its preliminary assessment, which is subject to change, is that the new guidance will not result in a significant impact on its financial statements.

In September 2015, the FASB issued guidance that modified accounting for business combinations to reflect measurement period adjustments to be recorded prospectively rather than retroactively to the assets and liabilities initially recorded under purchase price accounting. The guidance, which was effective as of January 1, 2016, did not have a material impact on the Company's financial statements at the time of adoption. During the first quarter of 2017, the Company accounted for measurement period adjustments on a prospective basis. See Note 3 for further information.

In May 2014, the FASB issued guidance to clarify the principles for recognizing revenue. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance provides a comprehensive framework for revenue recognition that supersedes current general revenue guidance and most industry-specific guidance. In addition, the guidance requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. In 2016, the FASB issued several updates to address implementation issues and to clarify guidance for principal versus agent considerations and identifying performance obligations and licensing. An entity should apply the guidance either retrospectively to each prior reporting period presented or retrospectively with the cumulative adjustment at the date of the initial application. In August 2015, the FASB delayed the effective date of the new guidance to annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Early adoption is now permitted after the original effective date of December 15, 2016. The Company plans to adopt the new guidance on January 1, 2018. The Company continues to review the impact of the new guidance on its revenue streams and its initial assessment is that the new guidance will not result in a significant impact on its financial statements. The Company preliminarily plans to adopt the new guidance using the modified retrospective application method.

(3) Acquisitions and Dispositions*Greater Media Merger*

On November 1, 2016, (the Acquisition Date), the Company completed the acquisition of Greater Media, Inc. (Greater Media), pursuant to the merger agreement, dated as of July 19, 2016 by and among the Company, Greater Media, Beasley Media Group 2, Inc., an indirect wholly-owned subsidiary of the Company (Merger Sub), and Peter A. Bordes, Jr., as the Stockholders Representative (the Merger Agreement). On the Closing Date, Merger Sub was merged with and into Greater Media, with Greater Media surviving the merger as an indirect wholly-owned subsidiary of the Company (the Merger). As a result of the Merger, the Company added 21 radio stations in the Boston, MA, Detroit, MI, Charlotte, NC, Middlesex, NJ, Monmouth, NJ, Morristown, NJ and Philadelphia, PA markets.

Pursuant to the terms of the Merger Agreement, at the effective time of the Merger, the Company acquired all of the issued and outstanding common stock of Greater Media for an aggregate purchase price of \$239,875,000, subject to a purchase price adjustment related to the sale of Greater Media's tower assets and other customary post-closing purchase price adjustments and inclusive of the repayment of \$82.2 million of Greater Media's outstanding debt and the payment of certain transaction expenses. The proceeds paid to the stockholders of Greater Media consisted of (i) \$94.4 million in cash and (ii) \$25.0 million in shares of the Company's Class A common stock, which equaled 5,422,993 shares at a fixed value of \$4.61 per share (the Merger Shares). The 5,422,993 shares of Class A common stock were recorded at a fair value of \$4.80 per share or \$26.0 million on the Acquisition Date. The Merger consideration is subject to adjustment for changes in working capital of Greater Media, outstanding debt of Greater Media and its subsidiaries as of the date of the closing and certain other payments and expenses. Additional Merger Shares may be issued in connection with such adjustment. In addition, the stockholders of Greater Media will receive the net cash proceeds from the sale of Greater Media's tower assets, originally estimated to be approximately \$24.0 million. Merger expenses of \$0.5 million are reported in merger and disposition expenses in the consolidated statement of comprehensive income for the six months ended June 30, 2017.

The acquisition was accounted for as a business combination. The preliminary purchase price allocations are based on a preliminary valuation of assets and liabilities and the estimates and assumptions are subject to change as the Company obtains additional information during the measurement period, which may be up to one year from the Acquisition Date.

Table of Contents**BEASLEY BROADCAST GROUP, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

The Company has engaged a third party to evaluate certain net operating loss carryforwards related to Greater Media, Inc. and several of its subsidiaries to determine the amount of net operating loss carryforwards that may be utilized by the Company in future tax returns. These evaluations have not been finalized, therefore an estimate of \$3.6 million for net operating loss carryforwards has been included in the preliminary purchase price. The accounting for this item is preliminary and will be adjusted once finalized during the measurement period.

On the Acquisition Date, in accordance with the Merger Agreement, the Company placed 867,679 shares of Class A common stock with a fair value of \$4.2 million in escrow. Some or all of these shares could be released to Greater Media based upon a working capital adjustment which may not be finalized until the third quarter of 2017. The Company's estimate of the working capital adjustment as of the Acquisition Date, results in 189,915 shares of Class A common stock being released to Greater Media. The unreleased shares in escrow will be canceled by the Company. The forfeited shares are not indexed to the Company's stock and therefore are adjusted to fair value based on the Company's closing stock price on each reporting date with changes in fair value recorded in earnings. The estimated number of shares to be released to Greater Media had a fair value of \$0.9 million as of the Acquisition Date and have been included in the preliminary purchase price. The estimated number of shares to be forfeited had a fair value of \$3.3 million as of the Acquisition Date and have been reported as a merger consideration receivable in the accompanying consolidated balance sheet. The Company reassessed the fair value of the estimated number of shares to be forfeited and recorded a \$1.2 million decrease in fair value of the contingent consideration for the three months ended June 30, 2017 and a \$2.5 million increase in fair value for the six months ended June 30, 2017. The final purchase price will include the fair value of the forfeited shares as of the settlement date of the working capital adjustment. The accounting for this item is preliminary and will be adjusted once finalized during the measurement period.

In accordance with the Merger Agreement, the purchase price will be adjusted by certain proceeds from the sale of Greater Media's towers assets. Based on the proceeds from the tower sale, the former stockholders of Greater Media will return a certain number of shares of Class A common stock that will be canceled by the Company. The Company has accounted for this arrangement as contingent consideration subject to the ultimate sale of the tower assets. As of the Acquisition Date, the Company estimated the sales price of the towers to be \$28.0 million which resulted in the expected return of 650,759 shares. As of the Acquisition Date, the estimated number of shares to be returned had a fair value of \$3.4 million based on a stock price of \$5.16 and have been reported as a merger consideration receivable in the accompanying consolidated balance sheet. On February 27, 2017, the former stockholders of Greater Media entered into an asset purchase agreement to sell the towers for \$28.0 million. As of June 30, 2017, the estimated number of shares to be returned had a fair value of \$6.4 million based on a stock price of \$9.80. The Company recorded a \$1.2 million decrease in fair value of the contingent consideration for the three months ended June 30, 2017 and a \$2.6 million increase in fair value for the six months ended June 30, 2017. The number of returned shares may be revised due to a change in the estimated net proceeds from the tower sale. The accounting for this item is preliminary and will be adjusted once finalized during the measurement period.

The following table summarizes the preliminary purchase price allocation as of the Acquisition Date:

On November 1, 2016, the assets of WBT-AM, WBT-FM and WLNK-FM were contributed to a trust following completion of the Company's acquisition of Greater Media and were operated by Entercom under a local marketing agreement until completion of the sale. The assets of WBT-AM, WBT-FM and WLNK-FM were reported as a beneficial interest in trust as of December 31, 2016 that was realized upon completion of the sale. Income before taxes for the radio stations in the Greenville-New Bern-Jacksonville, NC market was \$0.5 million and \$0.3 million for the three and six months ended June 30, 2016, respectively. Financial Statement Presentation

The following discussion provides a brief description of certain key items that appear in our financial statements and general factors that impact these items.

Net Revenue. Our net revenue is primarily derived from the sale of advertising airtime to local and national advertisers. Net revenue is gross revenue less agency commissions, generally 15% of gross revenue. Local revenue generally consists of airtime sales, digital sales and event marketing for advertisers in a radio station's local market either directly to the advertiser or through the advertiser's agency. National revenue generally consists of advertising airtime and digital sales to agencies purchasing advertising for multiple markets. National sales are generally facilitated by our national representation firm, which serves as our agent in these transactions.

Our net revenue is generally determined by the advertising rates that we are able to charge and the number of advertisements that we can broadcast without jeopardizing listener levels. Advertising rates are primarily based on the following factors:

a radio station's audience share in the demographic groups targeted by advertisers as measured principally by periodic reports issued by Nielson Audio;

Table of Contents

the number of radio stations, as well as other forms of media, in the market competing for the attention of the same demographic groups;

the supply of, and demand for, radio advertising time; and

the size of the market.

Our net revenue is affected by general economic conditions, competition and our ability to improve operations at our market clusters. Seasonal revenue fluctuations are also common in the radio broadcasting industry and are primarily due to variations in advertising expenditures by local and national advertisers. Our revenues are typically lowest in the first calendar quarter of the year.

We use trade sales agreements to reduce cash paid for operating costs and expenses by exchanging advertising airtime for goods or services; however, we endeavor to minimize trade revenue in order to maximize cash revenue from our available airtime.

We also continue to invest in digital support services to develop and promote our radio station websites. We derive revenue from our websites through the sale of advertiser promotions and advertising on our websites and the sale of advertising airtime during audio streaming of our radio stations over the internet. We also generate revenue from selling other digital products.

Operating Expenses. Our operating expenses consist primarily of (1) programming, engineering, sales, advertising and promotion, and general and administrative expenses incurred at our radio stations, (2) general and administrative expenses, including compensation and other expenses, incurred at our corporate offices, and (3) depreciation and amortization. We strive to control our operating expenses by centralizing certain functions at our corporate offices and consolidating certain functions in each of our market clusters.

Critical Accounting Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires us to make estimates and assumptions that affect reported amounts and related disclosures. We consider an accounting estimate to be critical if:

it requires assumptions to be made that were uncertain at the time the estimate was made; and

changes in the estimate or different estimates that could have been selected could have a material impact on our results of operations or financial condition.

Our critical accounting estimates are described in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2016. There have been no material changes to our critical accounting estimates during the second quarter of 2017.

Recent Accounting Pronouncements

Recent accounting pronouncements are described in Note 2 to the accompanying financial statements.

Net revenue for the three months ended June 30, 2017 was comparable to net revenue for the same period in 2016 at our remaining market clusters.

Station Operating Expenses. Station operating expenses increased \$25.2 million during the three months ended June 30, 2017 as compared to the three months ended June 30, 2016. Significant factors affecting station operating expenses included \$9.5 million in additional expenses from the Boston radio stations, \$9.0 million from the Philadelphia radio stations, \$5.4 million from the Detroit radio stations, and \$3.2 million from the New Jersey radio stations acquired from Greater Media, partially offset by a \$0.9 million decrease in station operating expenses due to the disposition of our Greenville-New Bern-Jacksonville market cluster on May 1, 2017, a \$0.9 million decrease in station operating expenses at our Charlotte market cluster primarily due to the disposition of WFNZ-AM on January 6, 2017, and a \$0.7 million decrease in station operating expenses at our Tampa-Saint Petersburg market cluster. Station operating expenses for the three months ended June 30, 2017 were comparable to station operating expenses for the same period in 2016 at our remaining market clusters.

Corporate General and Administrative Expenses. Corporate general and administrative expenses increased \$2.0 million during the three months ended June 30, 2017 as compared to the three months ended June 30, 2016. Significant factors affecting corporate general and administrative expenses included a \$0.7 million increase in cash compensation expense, which was primarily due to an increase in the number of employees at our corporate offices and new employment agreements including retroactive compensation, a \$0.6 million increase in stock-based compensation expense and a \$0.3 million increase in contract services.

Depreciation and Amortization. The \$0.8 million increase in depreciation and amortization during the three months ended June 30, 2017 as compared to the three months ended June 30, 2016 was primarily due to additional expense from the radio stations acquired from Greater Media.

Gain on Disposition. On May 1, 2017, we completed the disposition of our Greenville-New Bern-Jacksonville market cluster. As a result of the disposition we recorded a gain of \$4.0 million during the three months ended June 30, 2017.

Change in Fair Value of Contingent Consideration. In connection with the acquisition of Greater Media, a number of shares of our Class A common stock will be returned to us by the former stockholders of Greater Media based on certain proceeds from the sale of Greater Media's tower assets. The fair value of the estimated number of shares to be returned decreased \$1.2 million due to a decrease in our stock price over the three months ended June 30, 2017. In addition, a certain number of shares of our Class A common stock placed in escrow on the acquisition date are expected to be forfeited based on a working capital adjustment. The fair value of the estimated number of shares to be forfeited decreased \$1.2 million due to a decrease in our stock price over the three months ended June 30, 2017. These decreases were recognized as a change in fair value of contingent consideration during the three months ended June 30, 2017.

Termination of Postretirement Benefits Plan. Effective May 31, 2017, we terminated the Greater Media postretirement medical and life insurance benefits plan. As a result of the plan termination, we reversed the accrued liability of \$1.8 million during the three months ended June 30, 2017.

Interest Expense. Interest expense increased \$3.9 million during the three months ended June 30, 2017 as compared to the three months ended June 30, 2016. The primary factors affecting interest expense were the increase in long-term debt outstanding and the applicable interest rate.

Income Tax Expense. Our effective tax rate was approximately 40% and 52% for the three months ended June 30, 2016 and 2017, respectively. These rates differ from the federal statutory rate of 35% due to the effect of state income taxes and certain expenses that are not deductible for tax purposes. The effective tax rate for the three months ended June 30, 2017 also reflects a \$0.9 million increase due to the change in fair value of contingent consideration.

Table of Contents

Net Income. Net income during the three months ended June 30, 2017 increased \$1.4 million as compared to the three months ended June 30, 2016 as a result of the factors described above.

Net Revenue. Net revenue increased \$59.5 million during the six months ended June 30, 2017 as compared to the six months ended June 30, 2016. Significant factors affecting net revenue included \$24.1 million in additional advertising revenue from the Boston radio stations, \$21.1 million from the Philadelphia radio stations, \$10.6 million from the Detroit radio stations, and \$8.3 million from the New Jersey radio stations acquired from Greater Media on November 1, 2016, partially offset by a \$1.7 million decrease in advertising revenue from our Charlotte market cluster primarily due to the disposition of WFNZ-AM on January 6, 2017, a \$1.7 million decrease in advertising revenue from our Tampa-Saint Petersburg market cluster, and a \$1.3 million decrease due to the disposition of our Greenville-New Bern-Jacksonville market cluster on May 1, 2017. Net revenue for the six months ended June 30, 2017 was comparable to net revenue for the same period in 2016 at our remaining market clusters.

Station Operating Expenses. Station operating expenses increased \$49.1 million during the six months ended June 30, 2017 as compared to the six months ended June 30, 2016. Significant factors affecting station operating expenses included \$18.0 million in additional expenses from the Boston radio stations, \$17.4 million from the Philadelphia radio stations, \$10.3 million from the Detroit radio stations, and \$6.2 million from the New Jersey radio stations acquired from Greater Media, partially offset by a \$1.5 million decrease in station operating expenses at our Charlotte market cluster primarily due to the disposition of WFNZ-AM on January 6, 2017, a \$1.1 million decrease in station operating expenses at our Tampa-Saint Petersburg market cluster, and a \$1.0 million decrease in station operating expenses due to the disposition of our Greenville-New Bern-Jacksonville market cluster on May 1, 2017. Station operating expenses for the six months ended June 30, 2017 were comparable to station operating expenses for the same period in 2016 at our remaining market clusters.

Corporate General and Administrative Expenses. Corporate general and administrative expenses increased \$2.8 million during the six months ended June 30, 2017 as compared to the six months ended June 30, 2016. Significant factors affecting corporate general and administrative expenses included a \$1.1 million increase in cash compensation

expense, which was primarily due to an increase in the number of employees at our corporate offices and new employment agreements including retroactive compensation, a \$0.5 million increase in stock-based compensation expense and a \$0.5 million increase in contract services.

Depreciation and Amortization. The \$1.5 million increase in depreciation and amortization during the six months ended June 30, 2017 as compared to the six months ended June 30, 2016 was primarily due to additional expense from the radio stations acquired from Greater Media.

Gain on Dispositions. On May 1, 2017, we completed the disposition of our Greenville-New Bern-Jacksonville market cluster. As a result of the disposition we recorded a gain of \$4.0 million during the second quarter of 2017. On January 6, 2017, we completed the sale of substantially all of the assets used or useful in the operations of WBT-AM, WBT-FM, WFNZ-AM and WLNK-FM in Charlotte, NC. As a result of the disposition we recorded a \$0.3 million loss during the first quarter of 2017

Change in Fair Value of Contingent Consideration. In connection with the acquisition of Greater Media, a number of shares of our Class A common stock will be returned to us by the former stockholders of Greater Media based on certain proceeds from the sale of Greater Media's tower assets. The fair value of the estimated number of shares to be returned increased \$2.6 million due to an increase in our stock price over the six months ended June 30, 2017. In addition, a certain number of shares of our Class A common stock placed in escrow on the acquisition date are expected to be forfeited based on a working capital adjustment. The fair value of the estimated number of shares to be forfeited increased \$2.5 million due to an increase in our stock price over the six months ended June 30, 2017. These increases were recognized as a change in fair value of contingent consideration during the six months ended June 30, 2017.

Termination of Postretirement Benefits Plan. Effective May 31, 2017, we terminated the Greater Media postretirement medical and life insurance benefits plan. As a result of the plan termination, we reversed the accrued liability of \$1.8 million during the six months ended June 30, 2017.

Interest Expense. Interest expense increased \$7.7 million during the six months ended June 30, 2017 as compared to the six months ended June 30, 2016. The primary factors affecting interest expense were the increase in long-term debt outstanding and the applicable interest rate.

Income Tax Expense. Our effective tax rate was approximately 41% and 25% for the six months ended June 30, 2016 and 2017, respectively. These rates differ from the federal statutory rate of 35% due to the effect of state income taxes and certain expenses that are not deductible for tax purposes. The effective tax rate for the six months ended June 30, 2017 also reflects a \$2.0 million decrease due to the change in fair value of contingent consideration.

Net Income. Net income during the six months ended June 30, 2017 increased \$7.1 million as compared to the six months ended June 30, 2016 as a result of the factors described above.

Liquidity and Capital Resources

Overview. Our primary sources of liquidity are internally generated cash flow and our revolving credit facility. Our primary liquidity needs have been, and for the next twelve months and thereafter, are expected to continue to be, for working capital, debt service, and other general corporate purposes, including capital expenditures and radio station acquisitions. Historically, our capital expenditures have not been significant. In addition to property and equipment associated with radio station acquisitions, our capital expenditures have generally been, and are expected to continue to be, related to the maintenance of our studio and office space and the technological improvement, including upgrades necessary to broadcast HD Radio, and maintenance of our broadcasting towers and equipment. We have also purchased or constructed office and studio space in some of our markets to facilitate the consolidation of our operations.

Our credit agreement permits us to repurchase sufficient shares of our common stock to fund withholding taxes in connection with the vesting of restricted stock units and shares of restricted stock, subject to compliance with financial covenants, up to an aggregate amount of \$2.5 million per year. We paid \$0.5 million to repurchase 46,653 shares during the six months ended June 30, 2017.

Our credit agreement restricts our ability to pay cash dividends and to repurchase additional shares of our common stock. The credit agreement does permit, however, (i) additional dividends of up to an aggregate amount of \$6.5 million if our Total Leverage Ratio is greater than 3.5x and up to an aggregate amount of \$7.5 million if our Total Leverage Ratio is less than or equal to 3.5x, (ii) an amount equal to our excess cash flow that is not required to prepay the credit agreement, subject to maintaining a Total Leverage Ratio of no greater than 3.75x and (iii) unlimited

dividends if our Total Leverage Ratio is less than 3.5x and our First Lien Leverage Ratio (as defined in the credit agreement) is less than 2.5x. We paid cash dividends of \$2.6 million during the six months ended June 30, 2017. Also, on June 8, 2017, our board of directors declared a cash dividend of \$0.045 per share on our Class A and Class B common stock. The dividend of \$1.3 million in the aggregate was paid on July 7, 2017, to stockholders of record on June 30, 2017.

We expect to provide for future liquidity needs through one or a combination of the following sources of liquidity:

internally generated cash flow;

Table of Contents

our revolving credit facility;

additional borrowings, other than under our existing revolving credit facility, to the extent permitted under our new credit agreement; and

additional equity offerings.

We believe that we will have sufficient liquidity and capital resources to permit us to provide for our liquidity requirements and meet our financial obligations for the next twelve months. However, poor financial results or unanticipated expenses could give rise to defaults under our credit facility, additional debt servicing requirements or other additional financing or liquidity requirements sooner than we expect and we may not secure financing when needed or on acceptable terms.

Credit Facility. As of June 30, 2017, the credit facility consisted of a term loan with a remaining balance of \$222.0 million and a revolving credit facility with an outstanding balance of \$3.0 million and a maximum commitment of \$20.0 million. As of June 30, 2017, we had \$17.0 million in available commitments under our revolving credit facility. At our option, the credit facility may bear interest at either (i) the London Interbank Offered Rate (LIBOR) plus a margin of 6.0% or (ii) the base rate plus a margin of 5.0%. Each margin will decrease 0.25% when our First Lien Leverage Ratio (as defined in the credit agreement) is equal or less than 3.75x. The LIBOR interest rate for the term loan is subject to a 1% floor. Interest payments for loans based on LIBOR are due at the end of each applicable interest period unless the interest period is longer than three months, then they are due at the end of each three month period. Interest payments for loans based on the base rate are due quarterly. The revolving credit facility carried interest, based on LIBOR, at 7.2% as of June 30, 2017 and matures on November 1, 2021. The term loan carried interest, based on LIBOR, at 7.2% as of June 30, 2017 and matures on November 1, 2023.

Commencing with the year ending December 31, 2017, the credit agreement requires mandatory prepayments equal to 75% of Excess Cash Flow (as defined in the credit agreement) when our Total Leverage Ratio (as defined in the credit agreement) is greater than 3.75x; mandatory prepayments equal to 50% of Excess Cash Flow when our Total Leverage Ratio is less than or equal to 3.75x and greater than 3.5x; mandatory prepayments equal to 25% of Excess Cash Flow when our Total Leverage Ratio is less than or equal to 3.5x and greater than 3.0x; and no mandatory prepayments when our Total Leverage Ratio is less than or equal to 3.0x. Mandatory prepayments of consolidated Excess Cash Flow are due 105 days after year end. The credit agreement also requires mandatory prepayments for defined amounts from net proceeds of asset sales, net insurance proceeds, and net proceeds of debt issuances.

The credit agreement requires us to comply with certain financial covenants which are defined in the credit agreement. These financial covenants include a First Lien Leverage Ratio that will be tested at the end of each quarter. For the period from June 30, 2017 through March 31, 2018, the maximum First Lien Leverage Ratio is 6.25x. For the period from June 30, 2018 through September 30, 2018, the maximum First Lien Leverage Ratio is 6.0x. For the period from December 31, 2018 through September 30, 2019, the maximum First Lien Leverage Ratio is 5.75x. The maximum First Lien Leverage Ratio is 5.25x for December 31, 2019 and thereafter.

The credit facility is secured by substantially all assets of the Company and its subsidiaries and is guaranteed jointly and severally by the Company and its subsidiaries. If we default under the terms of the credit agreement, the Company and its subsidiaries may be required to perform under their guarantees. As of June 30, 2017, the maximum amount of undiscounted payments the Company and its applicable subsidiaries would have been required to make in the event of default was \$225.0 million. The revolving credit facility and the guarantees thereto expire on November 1, 2021 and the term loan credit agreement and the guarantees thereto expire on November 1, 2023.

Failure to comply with financial covenants, scheduled interest payments, scheduled principal repayments, or any other terms of our credit agreement could result in the acceleration of the maturity of our outstanding debt, which could have a material adverse effect on our business or results of operations. As of June 30, 2017, we were in compliance with all applicable financial covenants under our credit agreement.
