PROXY AND SOLICITATION

The accompanying proxy is solicited on behalf of the Board of Directors of Green Mountain Power Corporation (the Company or GMP) for use at the Annual Meeting of Shareholders of the Company to be held on Monday, May 22, 2006, and at any and all adjournments thereof. This proxy statement and the accompanying form of proxy are being sent to shareholders on or about April 18, 2006.

The cost of soliciting proxies by the Board of Directors will be borne by the Company, including the charges and expenses of brokers and others for sending proxy materials to beneficial owners of Common Stock. In addition to the use of the mails, proxies may be solicited by personal interview, by telephone, by facsimile, by telegraph, or by certain of the Company's employees, without compensation therefor.

A proxy may be revoked at any time before it has been voted at the meeting by submitting a later-dated proxy or by giving written notice to the Secretary of the Company. Unless the proxy is revoked or there is a direction to abstain on one or more proposals, it will be voted on each proposal and, if a choice is made with respect to any matter to be acted upon, in accordance with such choice. If no choice is specified, the proxy will be voted as recommended by the Board of Directors.

STOCK OUTSTANDING AND VOTING RIGHTS

On March 27, 2006, the record date for the Annual Meeting, the Company had 5,251,658 outstanding shares of Common Stock. The Common Stock is the only outstanding class of voting securities of the Company. Each holder of record of Common Stock on the record date is entitled to one vote for each share of Common Stock so held.

A majority of the votes entitled to be cast on matters to be considered at the meeting constitutes a quorum. If a share is represented for any purpose at the meeting, it is deemed to be present for all other matters. Abstentions and shares held of record by a broker or its nominee that are voted on any matter are included in determining the number of votes present. Broker shares that are not voted on any matter at the meeting will not be included in determining whether a quorum is present.

The election of each nominee for director requires a plurality of the votes cast. In order to be approved, the votes cast for the selection of independent accountants must exceed the votes cast opposing such matter.

In the absence of your voting instructions, your broker may or may not vote your shares in its discretion depending on the proposals before the meeting. Your broker may vote your shares in its discretion and your shares will count toward the quorum requirement on routine matters. However, your broker may not be able to vote your shares on proposals that are not considered routine. When a proposal is not a routine matter and your broker has not received your voting instructions with respect to that proposal, your broker cannot vote your shares on that proposal. This is called a broker non-vote. The Company believes that the election of directors and the ratification of the selection of independent accountants are routine matters on which brokers will be permitted to vote on behalf of their clients if no voting instructions are furnished. The Company may also vote, in the discretion of the proxies, upon such other matters that may properly come before the meeting or any adjournments thereof.

Attendance At Annual Meeting

Compensation of Directors

Non-employee Directors receive an annual fee of \$20,000. In addition to the annual fee, the Chair of the Board of Directors receives an annual fee of \$30,000. In addition to the annual fee, the Chairs of the Audit, Governance and Compensation Committees each receive an annual fee of \$5,000. For each meeting scheduled as a meeting by teleconference, Directors receive one-half of the regular fee. We reimburse Directors for reasonable expenses related to their Board of Directors service. Directors may defer all or part of their annual fees and meeting fees under the Directors Deferred Compensation Plan. Deferred amounts earn interest and the Director may determine at the time of the deferral when the funds

are to be paid. Each non-employee Director was awarded 1,100 Stock Units on July 26, 2005. Each Stock Unit awarded to non-employee Directors represented the right to receive one share of the Company's Common Stock on December 31, 2005, the date of vesting. According to such guidelines, non-employee Directors should own beneficially Common Stock approximately equal in value to three times the Director's annual fee and the Chair of the Board should own beneficially Common Stock approximately equal in value to five times the Chair's annual fee. Current Directors have until October 6, 2008 to satisfy this guideline. New Directors will have five years from the date of election to the Board of Directors to satisfy this guideline.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors is composed of five directors, all of whom are non-employee directors (within the meaning of Rule 16b-3 of the Securities Exchange Act of 1934, as amended), outside directors (within the meaning of Section 162(m) of the Internal Revenue Code) and independent directors (within the meaning of the current New York Stock Exchange listing standards and the Company's Governance Guidelines and Director Independence Standards). The Compensation Committee operates under a written Charter adopted by the Board of Directors. The Compensation Committee's Charter delineates the Compensation Committee's responsibilities, which include:

- o designing and recommending executive compensation plans to the Board of Directors and administering approved plans;
- o reviewing and approving corporate goals and objectives relevant to CEO compensation;
- o undertaking periodic evaluations of CEO, executive and director compensation, including retention of independent compensation consultants to assist with such evaluations;
- o sole authority to determine CEO compensation based on evaluation of CEO performance in light of corporate goals and objectives;
- o recommending compensation levels for officers of the Company other than the CEO;
- o recommending compensation levels for directors;
- o developing plans and recommendations to the Board of Directors regarding CEO and managerial succession for the Company;

- o administering the stock incentive plans for all employees as authorized by the Board of Directors; and
- o considering all executive compensation issues and making appropriate recommendations to the Board of Directors for approval.

This is the report of the Compensation Committee describing the Compensation Program and the basis upon which the 2005 compensation determinations were made.

Compensation Philosophy

It is our philosophy that executive compensation should be competitive in the marketplace, promote the strategic objectives of the Company and be aligned with corporate performance, including customer service and satisfaction. Total cash compensation for executives and directors should compare favorably with organizations competing for similar talent. The Compensation Committee's role is to balance the need to attract and retain high caliber talent with the Board of Directors' corporate and fiduciary responsibility to shareholders and other stakeholders. The compensation arrangement for officers and directors is designed to meet these objectives.

In 2003, the Compensation Committee undertook a detailed review and redesign of CEO, officer and director compensation programs with the assistance of Mellon Human Resources and Investor Solutions (Mellon), a division of Mellon Financial Corporation. In 2004, the Compensation Committee retained Mellon to review and update its study and recommendations. In 2004, Mellon analyzed CEO and executive compensation using a blend of market reference points, including peer public companies in the Company's geographic region, peer public electric utility companies and executive compensation survey data for the public utility sector from various sources, including the Towers Perrin Executive Compensation Energy Services Industry Database, the Mercer 2004 Executive Compensation Survey (Utility Cut), the 2004/2005 ECS Industry Report on Top Management Compensation and the Wyatt Top Management 2003/2004 compensation report. Peer companies were selected based on similarity of size and/or operating characteristics, with the goal of developing a comparable group representative of the Company's main competition for executive talent. Mellon performed a regression analysis to assure comparability of the peer and market data. The compensation survey groups include companies that are different from the companies in the Edison Electric Institute 100 and the S&P 500 Composite Index used for the Performance Graph. The Compensation Committee concluded that Mellon's 2004 analysis remained appropriate for determining executive compensation in 2005.

Executive Compensation

Based on Mellon's report, the Compensation Committee concluded that CEO and officer compensation should continue to include three components: Base salary is intended to be set at approximately the 50th percentile for base salary compensation at comparable companies. Short-term incentive compensation is intended to compensate officers for Company performance and is linked to defined Company performance metrics, such that if performance targets are achieved, officers' direct compensation (base salary plus short-term incentive) would approximate the 40 -50th percentile of total direct compensation at comparable companies. Performance metrics for short-term incentive compensation include customer service (60%), based on meeting or exceeding seventeen specified customer service quality performance standards in the Company's service quality plan approved by the Vermont Public Service Board, and creating value for

shareholders (40%), based on the Company's annual consolidated return on equity. The Compensation Committee (with respect to the CEO) and the Board of Directors (with respect to other executive officers) retain discretion to reduce short-term incentive compensation in light of events or circumstances that would make it inappropriate to award short-term incentive compensation strictly in accordance with these performance metrics. Long-term incentive compensation is designed to provide long-term incentives for future Company performance and is intended to bring total officer compensation to approximately the 40th percentile of total compensation paid to equivalent executives at comparable companies, if target performance criteria are met.

The Compensation Committee has reviewed all components of CEO and non-CEO officer compensation, including salary, bonus, equity and long-term compensation, accumulated realized and unrealized stock options, the earnings and accumulated payout obligations under the Company's non-qualified deferred compensation plans and projected payout obligations under the Company's supplemental executive retirement plan. Based on the Compensation Committee's review and Mellon's 2004 report, in December 2005 the Compensation Committee did not increase the base salary of the CEO in 2005 and recommended base salary increases ranging from three to five percent for five other officers of the Company, effective January 1, 2006. The Board of Directors approved the non-CEO officer base salary increases in December 2005.

Effective February 27, 2006, the Compensation Committee approved a short-term incentive cash award to the CEO, based on 2005 service quality performance results and 2005 financial results. The Compensation Committee also recommended, and the Board of Directors approved, short-term incentive cash awards for other Company officers based on the same criteria. These awards are included in the executive compensation table above. The short-term incentive awards reflect that the Company achieved or exceeded all target performance criteria in 2005.

In 2006, the Compensation Committee expects to consider a long-term incentive award to the CEO and recommendations to the Board of Directors of long-term incentive awards to officers other than the CEO of Stock Units pursuant to the 2004 Stock Incentive Plan. Each Stock Unit represents the right to receive one share of the Company's Common Stock upon vesting. Long-term incentive awards, when fully vested, are intended to bring total compensation for the CEO and other officers to a level approximately at the 40th percentile for comparable companies, based on Mellon's 2004 report. The Compensation Committee has determined that the total compensation paid to the CEO and to non-CEO officers is reasonable and not excessive.

In 2005, the Compensation Committee retained Mellon to review the Company's Supplemental Retirement Plan for Officers. Under the existing plan, participating Officers are entitled to receive retirement and survivor's benefits for a period of fifteen years following retirement, with annual benefits computed as a percentage of the Officer's final salary (44% for the CEO and 33% for non-CEO officers). Based on Mellon's recommendations, the Committee recommended, and the Board of Directors approved, the adoption of a new Supplemental Retirement Plan (the New Plan) for executive officers. The New Plan is designed to provide a portable supplemental retirement benefit and a vesting schedule that relates the value of the benefit with credited years of service to the Company. The New Plan provides each participant a lump-sum payment, subject to vesting requirements, upon termination of employment,

retirement, or reaching age 65, based on the number of credited years of service under the New Plan and the participant's final salary. The amount of the supplemental retirement benefit vests over 20 years at 5% per year for each credited year of service under the Company's pension plan. The maximum benefit, after 20 credited years of service, is based on the approximate actuarial value of a fifteen-year stream of annual payments of 44% of final salary for the CEO and 33% for non-CEO officers. The benefit upon termination of employment prior to retirement is subject to an actuarial equivalence reduction. The minimum vesting requirement under the New Plan is 3 or 5 credited years of service, depending on the participant. Each participant in the existing plan was offered the opportunity to elect to continue participation in the existing plan or to terminate participation in that plan and to participate in the New Plan. All officers except Stephen C. Terry, who retired on January 6, 2006, elected to participate in the New Plan.

Section 162(m) of the Internal Revenue Code of 1986, as amended, imposes a \$1 million limit on the amount that the Company may deduct for compensation paid to the Company's CEO or any of the Company's four other most highly compensated executive officers who are employed as of the end of the year. This limitation does not apply to compensation that meets the requirements under Section 162(m) for qualifying performance-based compensation (i.e., compensation paid only if the individual's performance meets pre-established objective goals based on performance criteria approved by the Company's shareholders). The Compensation Committee considers the deductibility of compensation when reviewing and approving compensation levels and programs but reserves the right to award compensation that is not deductible under 162(m) if it is determined to be in the best interests of the Company and its shareholders.

The Board of Directors has adopted stock ownership guidelines for the Company's officers. The guidelines provide that officers should own beneficially Common Stock approximately equal in value to the following multiples of base salary compensation: CEO five times; Chief Operating Officer three times; and other officers one and one-half times. Officers appointed as of the date of adoption of these guidelines have five years from February 9, 2004 to satisfy these guidelines. Officers appointed thereafter have five years from the date of appointment to satisfy these guidelines.

Director Compensation

The Compensation Committee did not recommend, and the Board of Directors did not approve, any changes in the annual fees paid to the Chair and other non-employee directors, annual fees paid to the chairs of the Audit, Governance and Compensation Committees and meeting fees compared to 2004. The Compensation Committee recommended, and the Board of Directors approved, awards of Stock Units to each non-employee director on July 26, 2005. Total compensation for non-employee directors is intended to approximate the 50th percentile of compensation paid to directors of comparable companies. Director compensation amounts and share ownership guidelines are described above under the captions Information About Our Board OF DIRECTORS -- Compensation of Directors, and -- Stock Ownership Guidelines, respectively.

The 2004 Stock Incentive Plan

The purpose of the 2004 Stock Incentive Plan is to promote the interests of the Company and its shareholders by aiding the Company in attracting and retaining employees, officers, consultants, independent contractors and non-employee directors capable of contributing to the

future success of the Company, to offer such persons incentives to put forth maximum efforts for the success of the Company and to afford such persons an additional opportunity to acquire a proprietary interest in the Company. In June 2005, the Compensation Committee approved awards under the 2004 Stock Incentive Plan for the entire employee population of the Company, excluding officers and directors who had previously received awards during 2005 and newly hired employees.

As of December 31, 2005, the Company had 202,000 shares of Common Stock available for issuance out of the 225,000 shares of Common Stock authorized for issuance under the 2004 Stock Incentive Plan.

Conclusion

We believe the Company's executive compensation program appropriately aligns executive compensation with individual and corporate performance and increases in shareholder value, is competitive with the market and is sensitive to the concerns of customers, shareholders and other constituencies.

PENSION PLAN INFORMATION AND OTHER BENEFITS***Pension Plan Information***

All employees are covered by the Employees Retirement Plan of Green Mountain Power Corporation (the Retirement Plan) if they have been employed for more than one year. The Retirement Plan is a defined benefit plan providing for normal retirement at age 65. Provided that a participant has at least ten years of continuous service, early retirement may be taken beginning the first day of any month following the attainment of age 55. If retirement occurs prior to age 59, benefits are reduced as shown in the table below:

<u>Age at Retirement</u>	<u>Reduction of Benefits</u>
58	7.5%
57	15.0
56	22.5
55	30.0

For employees with at least five but less than ten years of continuous service who commence benefits before age 65, benefits are actuarially reduced. If retirement occurs after age 59 and completion of at least ten years of continuous service, the full accrued benefit is payable.

Retirement benefits are based on final average base compensation and length of service. Final average base compensation is the average of the compensation (limited to base salary for Officers, as shown in the Salary column of the Summary Compensation Table for the Officers named in this proxy statement, and straight-time payroll wages for other employees) for the highest 36 consecutive fiscal months out of the final ten years of employment. The normal retirement benefit is equal to 1.1% of the final average compensation up to the covered compensation amount plus 1.6% of final average base compensation over covered compensation multiplied by each year of credited service up to 35 years. Retirement benefits are not subject to any deductions for Social Security or other offset amounts.

The following table shows the estimated annual pension benefit payable pursuant to the Retirement Plan to all covered employees, including the Officers named in this proxy statement, for the average compensation and years of service indicated. It assumes retirement at age 65 and an election of a retirement allowance payable as a life annuity. The retirement benefits in connection with the Supplemental Retirement Plan referred to below are in addition to those described in the table.

*Compensation cap was \$200,000 for 2003, \$205,000 for 2004, and \$210,000 for 2005.

Credited years of service as of December 31, 2005, for each of the Officers named in this proxy statement were as follows: C. L. Dutton, 20.8 years; M. G. Powell 6.8 years; S. C. Terry 19.8 years; R. J. Griffin 22.8 years; and D. J. Rendall, Jr. 2.8 years.

Supplemental Retirement Plan

In addition to the Retirement Plan described above, all the Officers, including the Officers named in this proxy statement, participate in the Company's Supplemental Retirement Plan. The Supplemental Retirement Plan is designed to supplement the retirement benefits available through the Company's defined benefit pension plan for executive officers and is part of the Company's strategy for attracting and maintaining top managerial talent. In 2005, the Company initiated a new Supplemental Retirement Plan (the "New Plan") to replace the supplemental retirement plan previously offered to Officers. All Officers of the Company except Stephen C. Terry elected to terminate their participation in the previous plan and to participate in the New Plan. The New Plan provides a lump-sum payment (or if the accrued benefit exceeds \$1,000,000, a partial lump-sum payment of \$1,000,000, with the balance, including interest, paid in monthly installments over five years) to each participant, subject to vesting requirements, upon termination of employment, retirement, or reaching age 65, based on the number of years of credited years of service under the Retirement Plan and the participant's final salary. The amount of the supplemental retirement benefit at the time of retirement is equal to 44% of final salary for the CEO and 33% of final salary for non-CEO officers, multiplied by 10 and multiplied by a fraction in which the numerator is the participant's credited years of service (up to a maximum of twenty years) and the denominator is twenty. The benefit upon termination of employment prior to retirement is subject to an actuarial equivalence reduction. The vesting requirement for Officers who participated in the Company's previous supplemental retirement plan and elected to terminate the prior plan and to participate in the New Plan is three credited years of service. The vesting requirement for all other Officers is five credited years of service. See Compensation Committee Report on Executive Compensation. Additionally, the New Plan provides that the Company will pay the officer the value of the officer's accrued benefit (but assuming an additional two years of credited service) if the officer remains in the continuous employ of the Company until a Change in Control (as defined in the Change of Control Agreement described below).

The New Plan also incorporates a death benefit provision providing that, if the officer dies before the commencement of benefits under the New Plan to the officer due to his or her termination of employment, retirement, reaching age 65 or in the event of a Change in Control,

the Company shall pay to the officer's beneficiaries an additional benefit of \$100,000 in a single cash payment within thirty days after the officer's death.

Mr. Terry elected to continue to participate in the Company's previous supplemental retirement plan, which provides retirement and survivor's benefits for a period of fifteen years following retirement. The annual benefit is 33% of Mr. Terry's final salary.

Life Insurance Plan

The Officers also participate in a life insurance plan. Under this plan, the Company has purchased insurance on the lives of the Officers to provide pre-retirement life insurance benefits to them in an amount equal to four times salary for the CEO and three times salary for non-CEO Officers.

Deferred Compensation Plan

Officers and Directors may participate in a Deferred Compensation Plan under which they may elect to defer a portion of their salaries. Amounts deferred are credited to a separate account for each participant. The balance in a participant's account, plus accrued interest, will be paid to him or her, or to his or her beneficiary according to his or her election form.

2004 Stock Incentive Plan

The 2004 Incentive Plan provides for the grant of stock options and other stock-based compensation to employees, Officers and Directors. The Compensation Committee administers the 2004 Stock Incentive Plan and determines when and to whom awards will be granted and the type, amount, terms of payment and other conditions of each award, consistent with the provisions of the 2004 Stock Incentive Plan. As of December 31, 2005, there were approximately 195 employees, Officers and Directors who were eligible to be selected by the Compensation Committee to receive an award under the 2004 Stock Incentive Plan. The 2004 Incentive Plan provides for the issuance of 225,000 shares of Common Stock through February 7, 2009, of which 202,000 shares of Common Stock remained unissued as of December 31, 2005.

Change of Control Agreements

Change of Control agreements have been executed with seven members of management, including the Officers named in this proxy statement. The Company entered into Change of Control agreements with each of Christopher L. Dutton, Mary G. Powell, Robert J. Griffin, Donald J. Rendall, Jr. and Walter S. Oakes on February 10, 2004. The Company entered into a Change of Control agreement with Robert E. Rogan (who was appointed Vice President for Public Affairs effective October 1, 2005) on December 19, 2005 and with Dawn D. Bugbee (who was appointed Vice President and Chief Financial Officer effective March 20, 2006) on April 3, 2006.

If within three years following a change of control of the Company, the Officer's employment is involuntarily terminated without cause or is voluntarily terminated by the Officer with good reason, the agreements include and provide affected individuals with:

- o For Mr. Dutton, Ms. Powell, Mr. Griffin, Mr. Rendall and Mr. Oakes, payments of 2.99 times, and for Mr. Rogan and Ms. Bugbee, payments of 2.0 times, the base salary of the individual plus the target short-term incentive bonus (or if there is no target short-term

incentive bonus payable for such year, the actual amount of the individual's most recent short-term incentive bonus) that would be payable for such year;

- o Continuation for 36 months of health, medical and other insurance programs;
- o Payment of an amount equal to the actuarial value of up to 36 months of additional credited service under the Retirement Plan;
- o Receipt of all benefits payable under the Company's Retirement Plan, Savings and Thrift Plan, Supplemental Retirement Plan and any other plan or agreement relating to retirement benefits;
- o All Options, Stock Appreciation Rights, Stock Units and Deferred Stock Units outstanding shall become fully vested and exercisable;
- o In the case of Mr. Dutton, Ms. Powell, Mr. Oakes, Mr. Griffin and Mr. Rendall, indemnification, up to a maximum dollar amount, of an officer for any payment of excise tax imposed on the officer's excess parachute payments. The amount of the indemnification caps for the respective officers of the Company are as follows: Mr. Dutton, \$903,000; Ms. Powell, \$359,000; Mr. Oakes, \$343,000; Mr. Griffin, \$251,000; and Mr. Rendall, \$251,000;
- o Outplacement services for a reasonable period of time and at a reasonable cost; and
- o Provisions providing that any officer who receives a severance payment thereunder is required to comply with a non-compete covenant. The term of the non-compete covenant is 18 months for Mr. Dutton as CEO and 12 months for all other officers.

As defined in the agreements, a change of control of the Company will have occurred when:

- o A person secures ownership of 20% or more of the voting power of the outstanding stock of the Company;
- o A change occurs in the majority of the Board of Directors for two consecutive years, which has not been approved by the Directors in office at the beginning of the period; or
- o Shareholders approve a merger or consolidation of the Company with another company where the outstanding voting stock of the Company does not continue to represent at least 80% of the combined voting power of the Company or the surviving company.

Individuals may terminate employment following a change in control with good reason if:

- o The individual is assigned duties inconsistent with the duties before the change in control;
- o The headquarters are relocated more than 50 miles from the present location;
- o The individual is required to relocate more than 50 miles from the present location;
- o Compensation or benefits are reduced or adversely affected other than as part of an overall adjustment of executive compensation or benefits;

- o The Company fails to obtain an agreement from its successor to perform under the change of control agreements;
- o The Company fails to offer the individual any compensation plan provided to other executives of similar responsibility;
- o The Company eliminates or materially reduces or jeopardizes the ability of the Company to fulfill its obligations under certain executive benefits plans; or
- o The executive resigns within the 30 days immediately after the first 12 months following a change of control, or if the change of control occurs pursuant to shareholder approval of a merger or consolidation as described above, then the resignation must occur within the 30 days immediately after the first 12 months following the closing of such merger or consolidation.

The Board of Directors has limited discretion to determine whether a change of control of the Company has taken place.

The Company has, from time to time, had preliminary discussions with potential strategic partners regarding possible transactions that could, if consummated, trigger the operation of the agreements. All such discussions have terminated at a preliminary stage.

Management represented to the Audit Committee that the Company's audited consolidated financial statements were prepared in accordance with generally accepted accounting principles and the Audit Committee has reviewed and discussed the audited consolidated financial statements with management and Deloitte & Touche.

The Audit Committee has discussed with Deloitte & Touche the matters required to be discussed by Statement on Auditing Standards No. 61 (Codification of Statements on Accounting Standards), as amended by Statements on Auditing Standards 89 and 90, including the scope of the auditor's responsibilities.

The Audit Committee also has received the written disclosures and the letter from Deloitte & Touche relating to the independence of that firm and has discussed with Deloitte & Touche that firm's independence from the Company.

Based upon the Audit Committee's discussions with management and Deloitte & Touche and the Audit Committee's review of the representation of management and the report of

Deloitte & Touche to the Audit Committee, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's annual report on Form 10-K for the year ended December 31, 2005, to be filed with the Securities and Exchange Commission.

The Audit Committee reviews with management and the independent accountants the results of the independent accountant's review of the unaudited financial statements that are included in the Company's quarterly reports on Form 10-Q. The Audit Committee reviews the fees charged by the Company's independent accountants. During the fiscal year ended December 31, 2005, Deloitte & Touche billed the Company the fees set forth below under the caption "Fees Paid to Deloitte & Touche" in connection with services rendered by that firm to the Company.

The Audit Committee meets regularly with both the independent external auditors and the accounting firm and individuals responsible for the internal audit function, all of whom have unrestricted access to the Audit Committee. These meetings include executive sessions without management present. The Audit Committee believes that it has taken the actions it deems necessary or appropriate to fulfill its oversight responsibilities under the Audit Committee's Charter. All Audit Committee members are independent under the enhanced independence standards for audit committee members in the Securities Exchange Act of 1934, as incorporated into the listing standards of the New York Stock Exchange.

Pre-Approval Policies and Procedures

The Audit Committee has adopted a Pre-Approval Policy for pre-approving all audit and non-audit services provided by the Company's independent accountants. The Audit Committee must pre-approve the audit and non-audit services performed by the independent accountants in order to assure that the provision of such services does not impair the auditor's independence. Before the Company or any of its subsidiaries engages the independent accountants to render a service, the engagement must be either specifically approved by the Audit Committee or entered into pursuant to the Pre-Approval Policy. The term of any pre-approval is 12 months from the date of pre-approval, unless the Audit Committee specifically provides for a different period. The Audit Committee must periodically revise the list of pre-approved services. The Audit Committee may consider the amount or range of estimated fees as a factor in determining whether a proposed service would impair the auditor's independence. The Company's management must inform the Audit Committee of each service (including fees paid) performed by the independent accountants pursuant to the Pre-approval Policy. Requests or applications to provide services that require separate approval by the Audit Committee must be submitted to the Audit Committee by both the independent accountants and the Company's Chief Financial Officer and must include a joint statement as to whether, in their view, the request or application is consistent with the Securities and Exchange Commission's and the Public Company Accounting Oversight Board's rules on auditor independence. The Audit Committee has considered whether the independent accountant's provision of permitted and pre-approved non-audit services to the Company is compatible with the accountant's independence.

Fees Paid to Deloitte & Touche

During the fiscal year ended December 31, 2005, Deloitte & Touche was employed principally to perform the annual audit and to render other services. Fees paid to Deloitte & Touche for services rendered in fiscal years 2004 and 2005 are listed in the following table.

	<u>2004</u>	<u>2005</u>
Audit Fees	\$ 492,750	\$ 538,420
Audit-Related Fees	15,155	11,050
Tax Fees	30,500	0
All Other Fees	0	0
	<u> </u>	<u> </u>
Total Deloitte & Touche Fees	<u>\$ 538,405</u>	<u>\$ 549,470</u>

Audit Fees include fees to perform the audit of the Company's financial statements. This category also includes fees for audits provided in connection with statutory filings or services that generally only the principal auditor reasonably can provide to a client, such as procedures related to audit of income tax provisions and related reserves, consents and assistance with and review of documents filed with the Securities and Exchange Commission. Audit Fees for 2004 and 2005 include approximately \$299,330 and \$214,500, respectively, for attestation services related to the Company's internal control over financial reporting for compliance with Section 404 of the Sarbanes-Oxley Act.

Audit-Related Fees include fees associated with assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements. Audit-related fees include audits of employee benefit plans.

Tax Fees primarily include fees associated with tax audits, tax compliance, tax consulting, as well as tax planning.

**RATIFICATION OF SELECTION
OF INDEPENDENT PUBLIC ACCOUNTANTS**

Year 2006 Audit Services

On February 16, 2006, the Audit Committee appointed the firm of Deloitte & Touche LLP to serve as independent certified public accountants for the calendar year 2006. We expect a representative of Deloitte & Touche to attend the Annual Meeting of Shareholders, respond to appropriate questions and be given an opportunity to speak if he or she desires to do so.

This proposal will be approved if the votes cast in favor of the proposal exceed the votes cast opposing the proposal. Appointment of the Company's independent accountants is not required to be submitted to a vote of the shareholders of the Company for ratification. However, the Audit Committee has recommended that the Board of Directors submit this matter to the shareholders as a matter of good corporate practice, which the Board of Directors is doing. If the shareholders fail to ratify the appointment, the Audit Committee will reconsider whether to retain Deloitte & Touche, and may retain that firm or another without resubmitting the matter to the Company's shareholders. Even if the appointment is ratified, the Audit Committee may, in its

discretion, direct the appointment of different independent accountants at any time during the year if it determines that such a change would be in the best interests of the Company and the shareholders.

SUBMISSION OF SHAREHOLDER PROPOSALS

Proposals of shareholders intended to be presented at the 2007 Annual Meeting scheduled to be held on May 21, 2007, must be received by the Company by December 19, 2006 for inclusion in the Company's proxy statement and proxy relating to that meeting. - o a brief description of the business desired to be brought before the annual meeting, including the complete text of any resolutions to be presented at the annual meeting, and the reasons for conducting such business at the annual meeting; and
- o any material interest of such shareholder in such business.

These requirements are separate from the requirements a shareholder must meet to have a proposal included in the Company's proxy statement.

In each case the notice must be given by personal delivery or by United States certified mail, postage prepaid, to the Secretary of the Company, whose address is Green Mountain Power Corporation, 163 Acorn Lane, Colchester, Vermont 05446. (j) an immediate family member of the director is an executive officer of another company that has made payments to, or received payments from, the Company, for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1,000,000 or two percent (2%) of such other company's consolidated gross revenues;

(k) a director is, or has been within the last three years, an executive officer of another company which was indebted to the Company, or to which the Company was indebted, and either: (a) the total amount of such other company's indebtedness to the Company was greater than two percent (2%) of the total consolidated assets of the Company, or (b) the total amount of the Company's indebtedness to such other company was greater than two percent (2%) of the total consolidated assets of such other company, in each case for any of the three most recently completed fiscal years;
