1. Executive Summary

Compensation Committee Message and Report

DEAR FELLOW SANDRIDGE ENERGY STOCKHOLDERS,

The success of our business depends on setting and achieving goals tied to our strategic objectives. Incentivizing performance relative to those goals is fundamental to our compensation principles and executive compensation program. As we reflect on 2017, we are proud of the results that our Company delivered during a challenging period of low commodity prices and following the Company's emergence from Chapter 11 reorganization in October 2016. We believe these results are reflected in our near-top-quartile stock price performance for the year relative to our 2017 peer group. Although our team delivered on key performance goals in 2017, in light of our new strategic direction, discussions with large stockholders and robust deliberation among the independent members of the Board, we determined to transition to a new leadership team, which resulted in the departure of Messrs. J. Bennett, Bott and S. Griffin during the first quarter of 2018.

ALIGNING COMPENSATION WITH STRATEGY AND PERFORMANCE

Our business and principal source of revenue is the production of oil, natural gas, and natural gas liquids ("NGLs"). Our Company exceeded our production growth goals for 2017 while simultaneously surpassing our per unit adjusted operating cost reduction goal and effectively managing its capital program rate of return. We found establishing a balanced set of goals focused our management team on growth that contributes long-term value, not just growth for growth's sake.

Further, our team delivered on numerous qualitative goals that were fundamental to our Company's 2017 performance, including:

Reducing 2017 total reportable incident rate by 33% and our motor vehicle incident rate by 41% compared to 2016.

Increasing our NW STACK acreage position and entering into a \$200 million development agreement with an initial \$100 million tranche to efficiently fund the delineation of our NW STACK asset.

Refinancing our non-conforming credit facility to increase our borrowing base, eliminate onerous covenants, release \$50 million in cash from escrow and trigger the conversion of \$264 million in convertible debt to equity.

Selling \$21.9 million in non-core assets (resulting in \$33.7 million in non-core asset sales since emerging from Chapter 11).

Table of Contents

STOCKHOLDER ENGAGEMENT AND FEEDBACK

The Compensation Committee, as well as the full Board, values input and feedback received from our stockholders. We were not satisfied with the outcome of our say-on-pay vote at our 2017 annual meeting of stockholders, having received only 43% of the votes cast. We therefore initiated robust engagement with our largest stockholders and proxy advisory firms Institutional Shareholder Services and Glass Lewis. We took the feedback we received seriously, and our 2017 and 2018 compensation programs are responsive to the concerns we heard. We expect to continue such engagement in the future.

2017 COMPENSATION DECISIONS

For 2017, we returned to historic base salaries and incentive opportunities that were effective prior to our reorganization in 2016 and we implemented a multi-metric performance scorecard comprised of important drivers of value creation for each of the annual incentive program and the performance share units granted under our long-term incentive program. The scorecard balanced production growth with cost reduction and capital program return goals to ensure our management team was not incentivized to pursue growth at any cost, a concern we heard among stockholders. Eliminating the incentive compensation structure the Company adopted during its chapter 11 reorganization, and the absence of comparable emergence equity awards from our 2017 long-term incentive program, addresses feedback we heard regarding outlier compensation levels, particularly for our CEO, in 2016. Our Compensation Committee also replaced its independent compensation consultant with Mercer Company ("Mercer").

2018 COMPENSATION DECISIONS - GOING FORWARD

For 2018, the Compensation Committee and Board continued applying a balanced scorecard approach in establishing the annual incentive program and committed that 50% of the Company's long-term incentive awards made later in 2018 would be performance-based. Further, in light of the departure of Mr. J. Bennett and the termination of his employment agreement, which contained minimum base salary and effective minimum bonus and long-term incentive opportunities, the Company may now recalibrate total target compensation for his successor in a way that is both competitive and more reflective of the compensation found among our peer group companies. We believe that the compensation package established for Bill Griffin, our Interim President and CEO, reflects these principles in a way that is consistent with the market for interim chief executives.

We held 7 Compensation Committee meetings during 2017 and numerous other informational update calls in addition to calls and in person meetings with stockholders. We are engaged and take our responsibilities very seriously in establishing and overseeing SandRidge's executive compensation program.

By the Compensation Committee of the Board:

Sylvia K. Barnes, Chair

Michael L. Bennett

STOCKHOLDER ENGAGEMENT AND ADVISORY VOTE ON COMPENSATION

Investor Outreach

How we engage with our investors

Both the Compensation Committee and the full Board value the input and feedback received from our stockholders, and we view our stockholder outreach efforts as an important part of our compensation setting process. Beginning in 2017 and continuing into the first quarter of 2018, the Board has supplemented management’s investor outreach with its own extensive engagement to directly solicit and receive stockholder input on the Company’s business strategies, governance and executive compensation. We believe such outreach helps ensure that the issues that matter most to our stockholders are understood and considered by management and the Board. We plan to continue engagement practices adopted by the Board throughout the year.

We heard you and took action

At the 2017 annual meeting of stockholders, our executive compensation program for 2016 received the support of approximately 43% of the votes cast. Acknowledging our vote result, and in line with our commitment to ongoing stockholder engagement, during the fall of 2017, we solicited feedback from our largest stockholders representing approximately 60% of the Company’s outstanding common stock. We held conversations with holders representing greater than 40% of shares then outstanding as well as prominent proxy advisory firms Institutional Stockholder Services and Glass Lewis.

Table of Contents

While we were not satisfied with the outcome of our 2017 advisory Say-on-Pay vote, we view it as an opportunity to continue to engage with stockholders, evaluate their input, and improve our pay programs and policies. The following timeline of key events reflects the Company's strong engagement with its stockholders:

Table of Contents

Stockholders were generally supportive of our outreach and our 2017 compensation programs and approach, as we described them. These were some key themes expressed by our stockholders:

What we heard

2016 compensation was too high.

We heard concerns that the size of different compensation elements adopted by the Company in connection with its Chapter 11 reorganization – the short-term cash-settled performance program and the equity emergence grants following the Company’s emergence – resulted in aggregate compensation levels that were an outlier to prior years.

Metrics that incentivize growth for growth’s sake are inappropriate. We heard concerns that production growth and reserves growth goals may provide perverse incentives, which could be mitigated if balanced with other metrics.

What we did for 2017

The Company returned to a compensation program consisting of base salary, performance-based annual incentive and a combination of time- and performance-based long-term incentive compensation at historic target levels.

The salary for the Company’s CEO returned to the minimum prescribed by his employment agreement and his total direct compensation for 2017 was less than 40% of that in 2016.

The Company adopted a balanced scorecard approach in our 2017 annual incentive program. Our Capital Program Return (25%), Per Unit Adjusted Operating Cost (25%) and qualitative (25%) metrics ensure that we are not solely focused on production growth (25%) at any expense.

The Compensation Committee determined to use a discretionary approach to long-term incentive metrics relating to earnings before interest, taxes, depreciation and amortization (“EBITDA”) growth and proved reserves growth to eliminate the potential for stale targets and allow the Board and management to make decisions based on the best outcome for the business irrespective of the impact to a specific performance measure.

What we are doing for 2018

The Compensation Committee, in consultation with its independent compensation consultant, has set interim CEO compensation at a competitive level considering relevant market data.

Going forward, Mr. J. Bennett’s departure permits the Company to recalibrate total target compensation for his successor in a way that is both competitive and more reflective of the compensation found among our peer group companies.

The Company continued a balanced scorecard approach in our 2018 annual incentive program.

Significant portions of our named executive officer compensation continue to be at risk and tied to stock price performance, which ensures that our executives remain focused on delivering value to stockholders.

Table of Contents

What we heard

A larger proportion of the long-term incentive should be performance-based. We heard concerns regarding the weighting of our long-term incentive program, specifically that the 2016 emergence grant, which consisted of 25% performance units was insufficiently performance-based.

Single trigger equity acceleration upon a Change in Control. We heard concerns that such a provision may discourage potential buyers of the Company.

We are committed to continuing to evaluate this and other feedback we receive as part of our ongoing stockholder engagement process. We will continue to refine and update our compensation programs and policies to maintain continued alignment of management's interests with those of stockholders and ensure that our programs reinforce our strong pay-for-performance philosophy.

What we did for 2017

Beginning in December 2017, all restricted stock awards contain double trigger vesting language.

What we are doing for 2018

While the 2017 long-term incentive program continued with a 25% proportion of performance share units, the Compensation Committee committed that the 2018 long-term incentive program will consist of 50% performance share units when grants are made in July 2018 and incorporate three-year vesting and performance periods.

2. Our Executive Compensation and Governance Principles

HOW OUR COMPENSATION PROGRAM IS ALIGNED WITH COMPANY PERFORMANCE

SandRidge's compensation programs are driven by the following guiding principles:

Guiding Principles

Attract, motivate and retain high performing individuals that will successfully execute our strategic financial and operational priorities

Pay competitive levels considering a combination of market data from our peers, an individual's duties and responsibilities, and the performance of the individual and the Company

Align compensation – both program design and levels – with stockholder interests, while rewarding long-term value creation and discouraging excessive risk taking

Promote and emphasize high ethical conduct, safety and environmental stewardship

How We Meet Our Principles

Provide a competitive total compensation package taking into account base salary, incentives and benefits

Provide a significant portion of each named executive officer's target total direct compensation in the form of variable, performance-based compensation

Long-term incentives with multi-year performance and vesting periods help to retain executives

Regularly evaluate our pay programs against the competitive market of our peer group

Individual compensation decisions are made based on market rate, as well as individual and Company performance, time in role, scope of responsibility, leadership skills and experience

Align our executive compensation with short-term and long-term performance of the Company

The annual incentive program uses a balanced approach scorecard containing strategic, financial and operational goals to encourage executives to execute on short-term goals that lead to long-term stockholder value

Pay programs contain a substantial proportion of long-term incentive compensation

Share ownership guidelines contribute to alignment between long-term stockholder value and management decisions

Clawback policy provides the Board with the discretion to recover incentive compensation paid in connection with misstated financial or operating results resulting from fraud, misconduct, or a violation of Company policy

Stock ownership guidelines and clawback, anti-hedging and anti-pledging policies for executive officers and directors

Qualitative safety and environmental goals ensure that these matters are front and center when the Company pursues its other operational goals

What We Do & What We Do Not Do

Below is a summary of executive compensation practices we have adopted, and a list of problematic pay practices that we avoid to help reinforce our compensation principles:

What We Do

Link performance incentive compensation to the achievement of pre-established goals tied to operational, financial, and strategic objectives

Engage in a rigorous target-setting process for incentive plan metrics

Use market data from a relevant peer group as a key input in our compensation setting process

Maintain a clawback policy

Apply robust stock ownership guidelines

Annually perform a risk assessment of our compensation programs and policies

Use an independent compensation consultant

What We Do Not Do

No "single-trigger" change-of-control cash payments

No tax gross-ups

No excessive perquisites

No hedging or pledging of Company stock

No repricing of underwater stock options

Table of Contents**TARGET PAY MIX**

Consistent with our pay-for-performance philosophy, 87.2% of our President & CEO's target pay package and 82.1% of the average of our other named executive officers (other than Mr. Grubert) target pay packages in 2017 were variable/at-risk and contingent upon the Company's financial, operational, and/or share price performance. The 2017 target pay package excludes the 2016 performance unit awards, which were a component of the long-term incentive grants made in October 2016 following the Company's emergence from Chapter 11 reorganization, but are reportable in the Summary Compensation Table in the years that they are earned.

TARGET PAY MIX**President & CEO****Average of Other Named Executive Officers
(other than Mr. Grubert)****4. 2017 Executive Compensation****BASE SALARY**

The purpose of base salary is to provide a fixed level of cash compensation for performing day-to-day responsibilities. Each named executive officer's base salary is set considering market median data, as well as the individual's experience, responsibilities, and performance. The employment agreements we maintain or maintained with our named executive officers establish minimum base salaries, and increases, if any, are based on the achievement of individual and Company objectives, contributions to our performance and culture, leadership accomplishments, and market data for comparable positions in our industry. As discussed further below, the employment agreements in effect at the Company's emergence from Chapter 11 bankruptcy on October 4, 2016 were assumed pursuant to the plan of reorganization, which was approved by substantial majorities of the Company's creditors and confirmed by the Bankruptcy Court prior to the appointment of the Company's Board.

The salaries of our named executive officers have been held flat since 2015, with the exceptions of Mr. Suter's base salary, which was increased to reflect his appointment to Executive Vice President and Chief Operating Officer in December 2016 and Mr. Grubert's salary, which was increased in 2016 in recognition of his individual performance and the expansion of his responsibilities without commensurate base salary increases in preceding years. The 2017 base salary of each of Messrs. Bennett, Bott, Suter and Warman reflect the minimum base salary provided in his employment agreement with the Company. Based on the market analysis performed by Alvarez & Marsal North America, LLC ("A&M"), the Compensation Committee's prior independent compensation consultant, Mr. J. Bennett's 2017 base salary exceeded the 90th percentile of the Company's 2017 peer group companies and the base salaries of the other named executive officers were generally between the 50th and 75th percentiles of the Company's 2017 peer group companies.

Base salaries for 2017 for our named executive officers were:

Executive	Title	2016 Base Salary(a)	2017 Base Salary	Year-over- year change
James D. Bennett	President and CEO	\$915,000	\$915,000	No change

ANNUAL INCENTIVE PROGRAM²

The purpose of the annual incentive is to motivate executives by linking variable cash compensation to key annual performance goals tied to business strategy. In February 2017, the Compensation Committee adopted baseline hurdle of \$50 million in Adjusted EBITDA and established the following metrics, weightings, and goals for our 2017 annual incentive program. These goals tie to our strategic objectives and reflect a balanced scorecard approach to assessing performance. In February 2018, having exceeded the baseline hurdle with Adjusted EBITDA of \$193 million, the Board approved annual incentive program payouts of 116% of target based on its assessment of the Company's performance in 2017.

The following chart shows the metrics, weightings and goals chosen by the Compensation Committee for 2017 and our performance against such metrics.

Metric	Link to Business Strategy	Weighting	Threshold	Target	Maximum	Result	Weighting Score
Capital Program Return(1)	Efficient and effective allocation of capital combined with strong operational performance					17.46%	15.9%
Per Unit Adjusted Operating Cost(2)	Achievement of production targets while operating efficiently and minimizing unnecessary costs					\$11.28/BOE	50.0%
Oil Production(3)	Driver of revenue and growth					4.16 MMBBL	13.3%
Total Production(4)	Driver of revenue and growth					14.91 MMBOE	13.9%
Strategic and Operational Goals	Qualitative assessment of various other key operational and strategic value drivers				In consideration of the Company's achievements in safety and improved capital structure and resource base as well as neutral performance respecting other matters.		23%
						TOTAL:	116%

The capital program return metric equals the weighted average internal rate of return of the 2017 drilling and completion capital program together with certain other capital costs, such as facilities infrastructure construction costs and 3D seismic studies. The IRR calculation (1) reflects actual production and realized pricing for 2017 and forecasted production, pricing and cost assumptions consistent with applicable type curves.

(2) Per Unit Adjusted Operating Costs G&A expense is a non-GAAP financial measure. The Company has defined this measure and reconciled to the most directly comparable GAAP financial measure in the attached Exhibit 99.4 to this Report.

(3) Oil Production equals total oil production (excludes NGLs) for 2017, expressed in barrels.

(4) Total Production equals total production for 2017, expressed in ("BOE") with Oil and NGLs in barrels, and gas at a 6:1 equivalent ratio.

Table of Contents

In February 2017, the Compensation Committee considered our compensation principles and relevant market data and determined to establish target opportunities for each of our named executive officers that were unchanged from 2016.

Based on the market analysis performed by A&M for the Compensation Committee, Mr. J. Bennett's 2017 target bonus as a percentage of base salary was between the 50th and 75th percentiles of the Company's 2017 peer group companies and the 2017 target bonus as a percentage of base salary for the other named executive officers ranged from the 25th percentile to the 90th percentile of the Company's 2017 peer group companies.

The following formula was used to calculate the payment to be awarded to a named executive officer under 2017 annual incentive program:

Target Bonus (% of Base Salary)	Target Bonus (\$)	Actual Performance (% of Target)	=	
---------------------------------	-------------------	----------------------------------	---	--

Based on the Company's performance relative to the metrics outlined above, the final calculation and amounts paid to our named executive officers for 2017 performance were:

Name	Target Bonus (% of Base Salary)	Target Bonus (\$)	Actual Performance (% of Target) =	Final Payout(1)
James D. Bennett	110 %	\$ 1,006,500		\$ 0
Julian M. Bott	90%	\$ 382,500		\$ 0
John P. Suter	100 %	\$ 420,000		\$ 487,200
Philip T. Warman	75%	\$ 281,250		\$ 326,250
Scott Griffin	65 %	\$ 162,500		\$ 188,500
Duane M. Grubert	90%	\$ 346,500	116%	\$ 0

(1) The employment of each of Messrs. J. Bennett, Bott and Grubert was terminated prior to the day on which amounts due under the 2017 annual incentive program were paid out, and they did not receive a payment under the 2017 Annual Incentive Program.

2017 TRANCHE OF EMERGENCE PERFORMANCE UNITS

Variable Cash-Settled Units

The performance unit awards motivate our executive officers to achieve future annual business objectives that drive long-term performance. The performance unit awards were a component of the long-term incentive grants made in October 2016 following the Company's emergence from Chapter 11 reorganization and are reportable in the Summary Compensation Table in the years that they are earned. The performance unit awards vest in one-third increments on each of December 31, 2017, 2018 and 2019 and payments are made based on the Company's performance relative to the metrics established in each year's annual incentive scorecard.

The first tranche, for which right to payment vested on December 31, 2017, was paid based on the company's 2017 annual incentive plan performance scorecard.

Name	Performance Units (vested on 12/31/17)	\$100 / Unit (\$s)	Actual Performance (% of Target) =	Final Payout
James D. Bennett	8,750	\$ 100		\$ 1,015,000
Julian M. Bott	3,083	\$ 100		\$ 357,628
John P. Suter	1,667	\$ 100		\$ 193,372
Philip T. Warman	1,250	\$ 100	116%	\$ 145,000
Scott Griffin	1,250	\$ 100		\$ 145,000
Duane M. Grubert	1,667	\$ 100		\$ 193,372

Table of Contents**LONG-TERM INCENTIVE (“LTI”) PROGRAM**

The purpose of long-term incentives is to align executives’ compensation with interests of stockholders, encourage retention, and reward long-term operational and financial performance. For 2017, we granted long-term incentive awards consisting of 25% stock-settled performance share units and 75% time-based restricted stock awards. We changed the timing of our annual long-term incentive grants from February to July to incentivize mid-year retention, to distribute the Compensation Committee’s workload more evenly throughout the year and to permit the incorporation of additional stockholder feedback and say-on-pay results into the current year’s long-term incentive compensation program. Due to this transition, the 2017 performance share units have a performance period of 2.5 years (January 2017 to June 2019) and the restricted stock awards have a 2.5 year vesting period. We expect that in future years, our long-term incentive grants will have a three-year performance and/or vesting period.

In February 2017, the Compensation Committee considered our compensation principles and relevant market data and determined to establish target opportunities for each of our named executive officers that were unchanged from 2016.

Based on the market analysis performed by A&M for the Compensation Committee, Mr. J. Bennett’s target 2017 long-term incentive awards were between the 75th and 90th percentiles of the Company’s 2017 peer group companies and the target 2017 long-term incentive awards for the other named executive officers ranged from less than the 25th percentile to the 75th percentile of the Company’s 2017 peer group companies. The following table reflects the target 2017 long-term incentive awards expressed as a percentage of base salary and the individual and aggregate grant date fair values of the 2017 long-term incentive awards:

Name	Target LTI (% of Base Salary)	Target PSU Value (25% Weighting)	Target RSA Value (75% Weighting)	Aggregate Target LTI (\$ Value)(1)
James D. Bennett	588 %	\$ 1,293,741	\$ 4,035,133	\$ 5,328,874
Julian M. Bott	350%	\$ 357,678	\$ 1,115,619	\$ 1,473,297
John P. Suter	360 %	\$ 363,581	\$ 1,133,992	\$ 1,497,573
Philip T. Warman	150%	\$ 135,260	\$ 421,870	\$ 557,130
Scott Griffin	125 %	\$ 75,136	\$ 234,366	\$ 309,502
Duane M. Grubert	243%	\$ 224,961	\$ 701,643	\$ 926,604

The grant date fair value of the long-term incentive awards for each named executive officer is slightly less than the target long-term incentive expressed as a percentage of his base salary because the Company determined the number of performance share units awarded (1) based on the closing price of the Company’s common stock on the grant date rather than based on the grant date fair value calculated in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation-Stock Compensation. See “Executive Compensation Tables” for the Grants of Plan-based Awards Table.

Performance Share Units (PSUs)

In February 2017, we granted stock-settled performance share units to our named executive officers. The Compensation Committee selected one quantitative goal of relative TSR and three discretionary financial and operational goals including relative adjusted EBITDA growth, proved reserves growth and per unit adjusted operating costs. The Compensation Committee determined to use a discretionary approach to measuring Company performance against the latter three performance measures to eliminate the potential for stale targets, minimize potential competing influence of different performance periods, ease the application of results from merger and acquisition activity and allow the Board and management to make decisions based on the best outcome for the business irrespective of the impact to a specific performance measure. The two relative metrics – relative TSR and relative adjusted EBITDA growth – performance will be measured against the Company’s 2017 peer group described on below.

The ultimate value realized by our named executive officers at the end of the performance period, which runs from January 1, 2017 through June 30, 2019 will be contingent upon both SandRidge’s performance against these goals and the Company’s stock price. PSUs are also subject to a time-vesting requirement, which generally requires a participant to remain employed by the Company through the end of the performance period.

Table of Contents

Metric	Link to Business Strategy	Weighting	Threshold	Target	Maximum
Quantitative: Relative TSR	Competitive stock price appreciation and value creation				
Discretionary: Relative Adjusted EBITDA Growth(1)	Operational effectiveness and profitability				
Proved Reserves Growth	Increase the amount of high-quality proven assets to drive future production growth and value creation				
Per Unit Adjusted Operating Cost(2)	Achievement of production targets while operating efficiently and minimizing unnecessary costs				

(1) Relative Adjusted EBITDA is a non-GAAP financial measure. The Company has defined this measure in the attached Exhibit 99.4 to this Report.

(2) Per Unit Adjusted Operating Costs is a non-GAAP financial measure. The Company has defined this measure in the attached Exhibit 99.4 to this Report.

Restricted Stock Awards

In February 2017, we granted restricted stock to our named executive officers. These awards vest ratably on each of June 30, 2017, 2018, and 2019 and help motivate and retain executives and provide stability to the compensation programs. The ultimate value realized by our named executive officers at the time of vesting will be contingent upon SandRidge's stock price, thus providing further alignment with stockholders.

OTHER COMPENSATION MATTERS

Health and Welfare Benefits

Our named executive officers were eligible to participate in medical, dental, vision, disability and life insurance to meet their health and welfare needs. These benefits are provided to assure that we are able to maintain a competitive position in terms of attracting and retaining officers and other employees. This is a fixed component of compensation and the benefits are provided on a nondiscriminatory basis to all of our employees.

Limited Perquisites and Other Personal Benefits

We believe that the total mix of compensation and benefits provided to our named executive officers is competitive and, generally, perquisites should not play a large role in our executive officers' total compensation. As a result, the perquisites and other personal benefits we provide to our executive officers are limited.

401(k) Plan

We maintain a 401(k) retirement plan for the benefit of all of our executive officers and employees on a non-discriminatory basis. Under the plan, eligible employees may elect to defer a portion of their earnings up to the annual maximum allowed by regulations promulgated by the Internal Revenue Service. Beginning in 2017, the aggregate matching contribution available to our 401(k) retirement plan participants equals 100% of the first 10% of deferred base salary (exclusive of incentive compensation). In 2017, we made matching contributions equal to 100% on the first 10% of employee deferred base salary (exclusive of incentive compensation). Matching contributions are made in investment vehicles selected by each employee from a variety of options.

Table of Contents

Nonqualified Deferred Compensation Plan

Previously, we maintained a nonqualified deferred compensation plan (“NQDC Plan”) to provide our named executive officers and other eligible employees flexibility for meeting their future income needs and assisting them in their retirement planning. Under the terms of the NQDC Plan, eligible employees were provided the opportunity to defer income in excess of the Internal Revenue Service annual limitations on qualified 401(k) retirement plans.

Under the NQDC Plan, we made discretionary contributions to the deferred compensation account of each participant. The Board approved matching contributions for the NQDC Plan equal to 100% of employee contributions up to 10% of the employee’s annual cash compensation minus any matching contributions made under the 401(k) retirement plan.

In December 2016, we initiated termination of the NQDC Plan, following which no additional deferrals were permitted into the NQDC Plan. Active employee balances were distributed in January 2018.

5. Process for Determining 2017 Executive Compensation

COMPENSATION SETTING APPROACH

Our approach to setting compensation programs and levels for our named executive officers involves a comprehensive process reflecting the input and consideration of numerous factors.

INDEPENDENT COMPENSATION GOVERNANCE

Independent members of our Board and the Compensation Committee seek input from our CEO and other members of our management team as well as input and advice from the Compensation Committee’s independent compensation consultant to ensure our compensation principles and all information relevant to individual compensation decisions are taken into account in setting executive compensation programs and levels. The following summary sets forth the responsibilities of various parties in connection with the implementation of our compensation programs.

The following describes the roles of the key participants in the compensation-setting process:

Independent Compensation Committee

The Compensation Committee is composed of two non-employee independent directors. The Compensation Committee’s duties in administering the executive compensation programs include the following:

Reviewing, evaluating, and approving the Company’s corporate goals and objectives relevant to the compensation of the Company’s CEO and the Company’s other executive officers, as well as other members of the Company’s senior management on an annual basis and making adjustments as it deems appropriate

Evaluating the performance of the Company’s CEO and, in consultation with the CEO, the Company’s other executive officers and other members of the Company’s senior management in light of those goals and objectives

Regularly reviewing and approving the annual total compensation paid to executive officers and other members of senior management
The Compensation Committee reviews the components of our executive officer compensation program on an annual basis and approves adjustments as it deems appropriate. On an annual basis, the Compensation Committee reviews and makes recommendations to the Board with respect to incentive compensation and equity-based plans that are subject to the Board’s approval.

Management Team

Our CEO (other than for himself) and the head of our People and Culture Department work with the Compensation Committee in establishing compensation levels and performance targets. Our CEO is responsible for reviewing the compensation and performance of executive officers other than himself and making recommendations to the Compensation Committee for adjustments to the annual total compensation of his direct reports. Final compensation determinations are made by the Compensation Committee or, from time to time, the Board. The Company’s People and Culture and Legal departments provide support in the preparation of materials and execution of the Compensation Committee’s responsibilities.

Stockholders and Other Key Stakeholders

The Company and the Compensation Committee value stockholders’ input and consider such input in establishing the type and level of compensation for our executives and setting performance metrics and targets. For more detail, see “Stockholder Engagement and Advisory Vote on Compensation” above. The Company has held advisory votes on named executive officer compensation at each of its annual meetings of stockholders beginning in 2014. At our 2017 annual meeting, our stockholders approved holding our Say-on-Pay vote annually.

Independent Compensation Consultant

To facilitate the formulation and administration of our compensation programs, the Compensation Committee continued the engagement of its prior independent compensation consultant, A&M through the fall of 2017, at which point, the Compensation Committee determined to retain Mercer as its independent compensation consultant. In general, A&M provided, and Mercer currently provides, executive and director compensation consulting services to the Compensation Committee, including information and market practices regarding compensation program designs and pay levels, regulatory updates and analyses, and related trends.

In general, at the direction of the Compensation Committee, the compensation consultant attends committee meetings, meets with the Compensation Committee in executive session, and provides advice and expertise on executive and director compensation programs and plan designs. The compensation consultant reports directly to, and takes its charge from, the Compensation Committee on executive compensation matters. Interactions between the compensation consultant and management are generally limited to discussions on behalf of the Compensation Committee or as required to compile information at the Compensation Committee's direction.

During 2017, A&M also served as restructuring advisor in connection with the Company's Chapter 11 reorganization. Accordingly, in 2017, the Company purchased \$238,984 in non-compensation-related services in connection with the Company's restructuring in addition to \$237,054 in compensation-related services. During 2017, Mercer did not provide any non-compensation-related services to the Company.

The Compensation Committee reviewed the independence of A&M and Mercer pursuant to the requirements approved and adopted by the SEC and the NYSE and determined each is independent from management and that their engagement does not raise a conflict of interest.

Peer Group and Competitive Data

The Compensation Committee generally uses a peer group to compare the competitiveness of the Company's executive compensation and to evaluate the Company's performance. The Company updated its peer group for 2017, as detailed below.

SETTING 2017 TARGET COMPENSATION LEVELS

The Peer Group

For 2017, to assist with setting executive compensation levels, evaluating compensation programs and assessing performance relative to 2017 performance goals, the Board approved a new peer group of 12 companies operating in the oil and gas exploration and production industry based on the recommendation of the Compensation Committee and A&M, its independent compensation consultant at the time, and with input from management. In establishing the peer group, the Compensation Committee primarily considered industry, annual revenue, asset similarity, and market capitalization.

Table of Contents

The 2017 peer group was comprised of the following companies:

Employment Agreements

We currently maintain, or maintained, during their employment with the Company, employment agreements with our named executive officers, the material terms of which are described throughout this CD&A. The employment agreements in effect at the Company's emergence from Chapter 11 bankruptcy on October 4, 2016 were assumed pursuant to the Plan of Reorganization, which was approved by substantial majorities of the Company's creditors and confirmed by the Bankruptcy Court prior to the appointment of the Company's Board. As previously described herein, the employment of Messrs. J. Bennett, Bott and S. Griffin terminated effective as of February 8, 2018, February 22, 2018, and March 1, 2018 respectively. As such, the discussion of the terms of their employment agreements herein reflects the terms of their employment agreements prior to their termination of employment.

Table of Contents

The Company's employment agreements, which have evergreen terms, provide, or provided, in respect of Messrs. J. Bennett, Bott and S. Griffin, for (i) an annual base salary of not less than \$915,000 for Mr. J. Bennett, \$425,000 for Mr. Bott, \$420,000 for Mr. Suter, \$225,000 for Mr. S. Griffin, \$375,000 for Mr. Warman and \$350,000 for Mr. Grubert; (ii) eligibility to participate in the annual incentive program; (iii) eligibility for equity awards under the Company's incentive plan; and (iv) health and other employee benefits that are generally available to our employees.

In addition, the employment agreements include, or included, in respect of Messrs. J. Bennett, Bott and S. Griffin, provisions governing the payment of severance benefits payable to the named executive officers upon the occurrence of specified events, such as termination of their employment without cause or termination or resignation for good reason following a Change in Control of the Company. The employment agreements between us and our named executive officers and the related severance provisions are designed to meet the following objectives:

Change in Control. In certain scenarios, the potential to merge with or be acquired by another company may be in the best interest of our stockholders. We have agreed to provide severance compensation to our named executive officers if employment is terminated without cause or the executive resigns with good reason following a change in control transaction in recognition of the fact that our named executive officers may take actions in the best interest of our stockholders that ultimately lead to their departure from the Company. The Company's emergence from Chapter 11 reorganization constituted a change in control under the terms of each outstanding employment agreement, which means that the terminations of each of Messrs. J. Bennett, Bott, S. Griffin and Grubert entitled him to Change in Control severance benefits. Mr. Warman will remain in a Change in Control period until October 4, 2018, during which time he will be entitled to Change in Control severance benefits in the event of his termination. Mr. Suter's employment agreement with the Company, effective December 2016, is not currently in a Change in Control period.

Termination without Cause. If we terminate any of our named executive officers' employment without cause, we will pay certain compensation and other benefits to the terminated individual. We believe this arrangement is appropriate because it is consistent with the triggering events and associated payments found in employment agreements of companies that we compete against for executive-level talent. We also believe it is beneficial for us and our named executive officers to have a mutually agreed upon severance package in place prior to any termination event, which we believe provides us with more flexibility to make a change in senior management if such a change is in our and our stockholders' best interest.

The terms of our equity compensation plan also govern the payments and benefits named executive officers are entitled to in these situations. For a description of these payments, please read "—Potential Payments Upon Termination or Change in Control" below.

6. Actions Related to 2018 Executive Compensation

DEPARTURE OF PRESIDENT AND CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER

As discussed above, in light of our new strategic direction, discussions with large stockholders and robust deliberation among the independent members of the Board, the Company initiated a transition to a new leadership team, leading to the departure of Mr. J. Bennett, the Company's President and CEO, effective February 8, 2018 and Mr. Bott, the Company's Executive Vice President and Chief Financial Officer, effective at the closed of business on February 22, 2018. Messrs. J. Bennett and Bott were retained in their roles pursuant to the Plan of Reorganization, which was approved by substantial majorities of the Company's creditors and confirmed by the Bankruptcy Court prior to the appointment of the current Board. The Plan of Reorganization required the assumption of their employment agreements, which provided for severance compensation in the event of termination without cause during the two year Change in Control period following the Company's emergence from bankruptcy.

Table of Contents

Pursuant to the terms of his employment agreement and the award agreements governing his outstanding equity awards, Mr. J. Bennett was entitled to severance compensation consisting of the following:

a cash severance payment equal to \$6,738,479

the accelerated vesting of 343,085 shares of previously granted restricted stock

the accelerated vesting of 66,619 previously granted performance share units, which upon vesting, were converted into shares of common stock on a one-for-one basis (the “target” award quantity)

the accelerated vesting of 17,500 previously granted performance units, which were settled in cash at the “target” grant value of \$100 per unit

Pursuant to the terms of his employment agreement and the award agreements governing his outstanding equity awards, Mr. Bott was entitled to severance compensation consisting of the following:

a cash severance payment equal to \$2,840,234

the accelerated vesting of 126,469 shares of previously granted restricted stock

the accelerated vesting of 18,418 previously granted performance share units, which upon vesting, were converted into shares of common stock on a one-for-one basis (the “target” award quantity)

the accelerated vesting of 6,167 previously granted performance units, which were settled in cash at the “target” grant value of \$100 per unit

APPOINTMENT OF INTERIM CHIEF EXECUTIVE OFFICER

Upon Mr. J. Bennett’s departure, Mr. B. Griffin, who at the time was serving as one of our independent directors, agreed to serve as President and CEO on an interim basis upon Mr. J. Bennett’s departure while the Company conducts a full review of internal and external candidates. Effective February 8, 2018, the Company entered into an Interim CEO Employment Agreement with Mr. B. Griffin (the “Interim CEO Employment Agreement”). The Interim CEO Employment Agreement has a term expiring five days after the date a successor President and CEO is appointed by the Board, unless terminated earlier by either party upon 30 days advance written notice (the “Employment Term”).

During the Employment Term, Mr. B. Griffin (i) will receive a monthly salary of \$70,000, prorated for any partial month of service during the Employment Term; (ii) will be eligible to participate in a bonus program with a target bonus equal to 50% of Mr. B. Griffin’s salary with the amount of the bonus actually paid to Mr. B. Griffin being determined by the Compensation Committee based on performance objectives established by the Compensation Committee; provided, however, that in the event of a Change in Control as defined in the Interim CEO Employment Agreement, Mr. B. Griffin’s right to payments under the bonus program will vest for the duration of the Employment Term and such payments will be made for the duration of the Employment Term at the greater of the target bonus or the amount calculated by the Compensation Committee; (iii) will continue to receive an annual equity compensation award as granted to non-employee members of the Board, but will not receive an annual cash retainer or any other cash fees payable to non-employee members of the Board; (iv) will continue to vest in any outstanding equity awards as if he remained a non-employee director during the Employment Term; (v) will be eligible to participate in the employee benefit plans and programs available to senior executives of the Company; and (vi) will be reimbursed for expenses incurred in the performance of his duties, including (a) reasonable commuting costs incurred for travel from his residence in Dallas, Texas to the Company’s headquarters in Oklahoma City, Oklahoma, and (b) up to \$2,500 monthly for the cost of housing in or near Oklahoma City, Oklahoma. Mr. B. Griffin will not be entitled to participate in any severance plan or otherwise receive any severance benefits or participate in the Company’s employee equity compensation program.

Table of Contents

2018 ANNUAL INCENTIVE PLAN SCORECARD

For 2018, the Compensation Committee continued the use of an annual incentive program premised on balanced performance metrics. The Compensation Committee adopted a baseline annual incentive performance hurdle of \$115 million in Adjusted EBITDA to serve as the prerequisite for funding the bonus pool and 2018 scorecard metrics tied to meeting specific base case performance targets with a discretionary component.

2018 LONG-TERM INCENTIVE AWARDS

For 2018, the Board intends to make long-term incentive grants comprised of at least 50% performance-based incentives in July.

PEER GROUP

In late 2017, the Compensation Committee reviewed the Company's compensation peer group, with input from its independent compensation consultant and management. This review considered the following primary factors when assessing potential peer companies: industry, annual revenues, market value, total assets, business mix (crude oil vs. natural gas) as defined by revenues and proved reserves, operating regions, and complexity of operations. The goal was to position SandRidge near the middle of the group across these factors, while also considering companies against which the Company competes operationally and for executive talent. As a result of this review, the following 14 companies will comprise the peer group for 2018:

Bill Barrett	Midstates Petroleum
Callon Petroleum	Oasis Petroleum
Carrizo Oil & Gas	PDC Energy
EP Energy	Sanchez Energy
Halcón Resources	SM Energy
Laredo Petroleum	SRC Energy
Matador Resources	Whiting Petroleum

7. Other Executive Compensation Matters

CLAWBACK POLICY

The Company maintains a clawback policy that is administered by the Board. Under the policy, the Company, at the Board's direction, will recover incentive compensation that has been erroneously paid in the event of a restatement or misconduct.

ROBUST STOCK OWNERSHIP GUIDELINES

The Company maintains stock ownership guidelines for executive officers and non-employee directors of the Company. The policy generally requires executives and non-employee directors to own stock in the Company equal to the following guidelines:

PERCENTAGE OF SALARY REQUIRED

Our executive officers and non-employee directors have five years from October 4, 2016 to fulfill this requirement or, if later, five years from the date of their appointment, promotion, or election to a role that is subject to the stock ownership guidelines. Until they are in compliance with the guidelines, our CEO is required to hold 50% of net shares issued (after tax and/or exercise) and other officers and non-employee directors are required to hold 60% of net shares issued.

Table of Contents

ANTI-HEDGING AND ANTI-PLEDGING POLICIES

The Company maintains a policy that prohibits executives and non-employee directors from entering into agreements in which Company shares are pledged as security for a loan. It also prohibits executives and non-employee directors from engaging in hedging transactions involving Company stock.

RISK ASSESSMENT

Our compensation program for executives is not designed to encourage excessive risk taking. In that regard, payouts under the performance incentive program and performance unit plan are capped at 200% of target. In addition, all of our long-term incentives include extended vesting periods.

TAX TREATMENT OF EXECUTIVE COMPENSATION DECISIONS

Section 162(m) of the Internal Revenue Code (the "Code"), generally imposes a \$1 million limit on the amount of compensation paid to certain executive officers that a public corporation may deduct for federal income tax purposes in any year. During 2017, the Code provided an exception to the Section 162(m) deduction limitation for compensation qualifying as "performance-based compensation" within the meaning of the Code and the applicable Treasury Regulations. During 2017, the Compensation Committee designed and administered our executive compensation program with the intent that certain portions of the compensation paid to our named executive officers would qualify as performance-based compensation under Section 162(m).

The "Tax Cuts and Jobs Act," enacted in late 2017, repealed the performance-based compensation exception to the Section 162(m) deduction limitation for tax years beginning after December 31, 2017. While we will continue to monitor our compensation programs in light of the deduction limitation imposed by Section 162(m) of the Code, our Compensation Committee considers it important to retain the flexibility to design compensation programs that are in our best long-term interests and the long-term interests of our stockholders. As a result, the Compensation Committee may conclude that paying compensation at levels that are subject to limits under Section 162(m) of the Code is nevertheless in the best interests of the Company and our stockholders. Given changes made to Section 162(m) by the "Tax Cuts and Jobs Act," which took effect in 2018, we may not be able to deduct for federal income tax purposes a portion of the compensation paid to our named executive officers in 2018.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the disclosure set forth above under the heading "Compensation Discussion and Analysis" with management and, based on this review and discussion, the Compensation Committee has recommended to the Board that the "Compensation Discussion and Analysis" be included in this CD&A.

The disclosure is made at “target” performance level because the Company's performance is not reasonably estimable as of December 31, 2017.

(d) Performance stock units granted to Mr. Grubert remained outstanding following his termination in July 2017 and will vest in accordance with the terms of the award agreement governing the performance stock units.

Nonqualified Deferred Compensation

The Company resolved to terminate the NQDC Plan effective December 31, 2016 in a manner consistent with Section 14 of the Plan and Section 409A of the Code. In 2017, following the resolution to terminate the NQDC Plan, no additional deferrals or contributions were permitted into the NQDC Plan. However, account balances under the NQDC Plan continued to accrue earnings until the aggregate balances as of January 1, 2018 were distributed to participants on January 31, 2018.

Previously, we maintained the NQDC Plan for the benefit of eligible employees, including all of our named executive officers. Under the NQDC Plan, we made discretionary contributions to the deferred compensation account of each participant. The Board approved matching contributions for the NQDC Plan equal to 100% of employee contributions up to 10% of the employee's annual cash compensation minus any matching contributions made under the 401(k) retirement plan.

During 2017, participant's accounts under the NQDC Plan were held in a rabbi trust and were adjusted for earnings and losses based on deemed investment choices selected by the participant from the fund selections made available in the NQDC Plan. The available investment choices mirrored the investment choices available under our 401(k) retirement plan and did not provide guaranteed above-market or preferential earnings on deferred compensation.

The following table sets forth activity under the NQDC Plan for 2017:

The aggregate balance for each named executive officer includes amounts reported as compensation in the Summary Compensation Table for previous years as follows: in 2016, \$126,429 for Mr. J. Bennett, \$20,005 for Mr. Warman and \$19,621 for Mr. Grubert; in 2015, \$198,267 for

(a) Mr. J. Bennett, \$53,091 for Mr. Warman and \$47,634 for Mr. Grubert; in 2014, \$318,178 for Mr. J. Bennett; in 2013, \$204,452 for Mr. J.

Bennett; in 2012, \$158,066 for Mr. J. Bennett. The aggregate balance for each named executive officer does not include amounts reported as compensation in the Summary Compensation Table for 2017, because no contributions we made by the registrant in that year.

Potential Payments Upon Termination of Change in Control

The employment agreements we currently maintain with our named executive officers, together with our incentive and deferred compensation plans and the agreements governing equity and performance unit awards, provide for specified payments in the event of a termination under certain conditions or a Change in Control (as defined below). The following discussion describes these arrangements with current named executive officers. As noted above, Mr. Grubert departed from the Company effective July 1, 2017, Mr. J. Bennett departed the Company effective February 8, 2018, Mr. Bott departed the Company effective at the close of business on February 22, 2018 and Mr. S. Griffin departed the Company effective March 1, 2018.

Table of Contents

Termination without Cause

The Company may terminate its employment arrangement with its named executive officers at any time without cause. Upon such a termination, the named executive officer is entitled to receive (i) a lump sum payment equal to twelve months base salary in effect on the termination date, (ii) accelerated vesting of all unvested restricted stock and (iii) accelerated vesting of all unvested performance units and performance share units, provided that the units shall only be payable subject to the attainment of the performance measures for the applicable performance period as provided under the terms of the applicable award agreement.

Change in Control

Other than restricted stock awards granted beginning in December 2017, upon a Change in Control, named executive officers are entitled to receive (i) accelerated vesting of all unvested restricted stock, (ii) accelerated vesting of all unvested performance units, with payment based on the unit's target value, and (iii) accelerated vesting of all unvested performance share units at the target award quantity.

In the event that employment is terminated within two years of a Change in Control without cause, a named executive officer is entitled to receive a lump sum cash payment in an amount equal to a multiple of his base salary and average annual bonus calculated based on the bonuses paid over the preceding three years. If the foregoing lump sum cash amount is not paid within sixty days after the termination in connection with a Change in Control event, the unpaid amount will bear interest at a rate equal to 12% per annum.

The Company's emergence from Chapter 11 reorganization, effective October 4, 2016, constituted a Change in Control under the terms of each outstanding employment agreement. Therefore, the terminations of Messrs. J. Bennett, Bott, S. Griffin and Grubert entitled them to Change in Control severance benefits of three times, in the case of Messrs. J. Bennett, Bott and Grubert, and two times, in the case of Mr. S. Griffin, his base salary and average annual bonus. Mr. Warman will remain in a Change in Control period until October 4, 2018, during which time he will be entitled to Change in Control severance benefits in the event of his termination, calculated using a two-times multiple. Mr. Suter executed a new employment agreement with the Company, effective December 2016, which contemplates a two-times multiple and is not currently in a Change in Control period.

In addition, in the event of a termination in connection with a Change in Control, notwithstanding any provision to the contrary in any option agreement, restricted stock agreement, plan or other agreement relating to equity based compensation, all of the named executive officer's units, stock options, incentive stock options, performance units, performance share units, stock appreciation rights and restricted stock (collectively, "awards") will immediately vest. In such event, the named executive officer will be entitled to payment in respect of the performance units made at the unit's "target" value of \$100 and the conversion of performance share units at the "target" award quantity of 100%. Further, the executive's right to exercise any previously unexercised options will not terminate until the latest date on which such option would expire but for the executive's termination. To the extent we are unable to provide for one or both of the foregoing rights, we will provide in lieu thereof a lump-sum cash payment equal to the difference between the total value of such awards with the foregoing rights and the total value without the foregoing rights.

In addition, the executive will be entitled to the above-described payments if, within two years of a Change in Control, he resigns for good reason which includes a material diminution in his authority, duties or responsibilities or a material reduction in his then current base salary or other benefits set forth in his employment agreement.

As used in the employment agreements, "Change in Control" means any one of the following:

(a) any "person," as such term is used in Sections 13(d) and 14(d) of the Exchange Act (other than the Company, any trustee or other fiduciary holding securities under any employee benefit plan of the Company, or any company owned, directly or indirectly, by the stockholders of the Company in substantially the same proportions as their ownership of common stock of the Company), becoming the beneficial owner (as defined in Rule 13d 3 under the Exchange Act), directly or indirectly, of securities of the Company representing 50% or more of the combined voting power of the Company's then outstanding securities;

Table of Contents

(b) during any period of 24 consecutive calendar months, individuals who were directors of the Company on the first day of such period (the “Incumbent Directors”) cease for any reason to constitute a majority of the Board; provided, however, that any individual becoming a director subsequent to the first day of such period whose election, or nomination for election, by the Company’s stockholders was approved by a vote of at least two-thirds of the Incumbent Directors will be considered as though such individual were an Incumbent Director, but excluding, for purposes of this proviso, any such individual whose initial assumption of office occurs as a result of an actual or threatened proxy contest with respect to election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a “person” (as used in Section 13(d) of the Exchange Act), in each case, other than the Board, which individual, for the avoidance of doubt, shall not be deemed to be an Incumbent Director for purposes of this Section 10.2(b), regardless of whether such individual was approved by a vote of at least two-thirds of the Incumbent Directors;

(c) consummation of a reorganization, merger, consolidation or other business combination (any of the foregoing, a “Business Combination”) of the Company or any direct or indirect subsidiary of the Company with any other corporation, in any case with respect to which the Company voting securities outstanding immediately prior to such Business Combination do not, immediately following such Business Combination, continue to represent (either by remaining outstanding or being converted into voting securities of the Company or any ultimate parent thereof) more than 50% of the then outstanding voting securities entitled to vote generally in the election of directors of the Company (or its successor) or any ultimate parent thereof after the Business Combination; or

(d) a complete liquidation or dissolution of the Company or the consummation of a sale or disposition by the Company of all or substantially all of the Company’s assets other than the sale or disposition of all or substantially all of the assets of the Company to a person or persons who beneficially own, directly or indirectly, 50% or more of the combined voting power of the outstanding voting securities of the Company at the time of the sale.

Termination for Cause

Pursuant to the employment agreements in effect on December 31, 2017, if a named executive officer is terminated for cause, neither the Company nor the executive has any further obligations except for those expressly surviving termination of employment. Upon such a termination after a named executive officer attains the age of 60, the executive will be eligible for immediate vesting of unvested Company matching contributions under our 401(k) retirement plan.

Voluntary Termination by Executive/Retirement

Pursuant to the employment agreements in effect on December 31, 2017, if a named executive officer voluntarily terminates his employment, neither the Company nor the executive has any further obligations except for those expressly surviving termination of employment. Upon retirement after the attainment of age 60, a named executive officer will be eligible for immediate vesting of unvested Company matching contributions under our 401(k) retirement plan.

Termination due to Death or Disability

Pursuant to the employment agreements in effect on December 31, 2017, if a named executive officer suffers from a continuous physical or mental condition for a period of six months that constitutes a disability under the Company’s Long Term Disability policy, the executive’s employment may be terminated by the Company. Upon a termination due to death or disability, the named executive officer or his estate is entitled to receive (i) a lump sum payment equal to twelve months base salary in effect on the termination date, reduced by benefits payable under disability plans provided by the Company, (ii) accelerated vesting of all unvested restricted stock, (iii) accelerated vesting of all unvested performance units, provided that such units shall only be payable subject to the attainment of the performance measures for the applicable performance period as provided under the terms of the applicable award agreement and (iv) immediate vesting of unvested Company matching contributions under our 401(k) retirement plan.

Table of Contents**Payment Conditions**

The right to severance compensation is subject to the named executive officer's execution of a severance agreement and general release, which operates as a release of all legally waivable claims against the Company and its affiliates, employees and directors. The employment agreements in effect on December 31, 2017 also provide for a 12 month non-solicitation and non-interference period after termination of employment during which the executive agrees not to solicit employees and customers or conduct activities likely to be competitive with the business of the Company. The employment agreements also subject the executive to certain confidentiality obligations. Termination payments are further conditioned upon the executive's compliance with all such post-employment obligations.

If any amount payable to a named executive officer under his employment agreement or otherwise would constitute a "parachute payment" within the meaning of Section 280G of the Code and, but for the terms of the agreement, would be subject to the excise tax imposed by Section 4999 of the Code (the "Excise Tax"), then the executive's payments under the agreement will be reduced to the greatest amount that would not be subject to the Excise Tax if, after taking into account applicable federal, state, local and foreign income and employment taxes, the Excise Tax, and any other applicable taxes, the executive would retain a greater amount on an after-tax basis following such reduction.

Summary of Potential Payments upon Termination or Change in Control

The following table presents our reasonable estimate of the benefits that would have been payable to our named executive officers under their employment agreements assuming that each triggering event took place on December 31, 2017. While we have made reasonable assumptions regarding the amounts, there can be no assurance that the named executive officers would have received the amounts reflected below in the event of an actual termination of employment.

Grubert Severance

As discussed above, Mr. Grubert departed the Company, effective July 11, 2017. Mr. Grubert was retained in his role following the Company's emergence from Chapter 11 bankruptcy, pursuant to which the Plan of Reorganization required the assumption of his employment agreement. The Plan of Reorganization was approved by the Company's creditors and the Bankruptcy Court prior to the appointment of the Company's current board members.

Pursuant to the terms of his employment agreement, Mr. Grubert was entitled to Change in Control severance compensation consisting of the following: a cash severance payment equal to \$2,403,582 (equal to three times the sum of his base salary and average bonus for the three years prior to his termination) and the accelerated vesting of 95,842 shares of restricted stock.

Director Compensation

Following the Company's Annual Stockholders Meeting in June of 2017, our Board revisited the compensation program for non-employee directors in and determined to reduce the quarterly cash retainer payable to non-employee directors. For 2017, the compensation program for our non-employee directors consisted of (a) for the first six months of 2017, a quarterly cash retainer of \$37,500 for the Chairman of the Board, \$31,875 for the Chairman of the Audit Committee and \$29,375 for all other non-employee directors, (b) for the final six months of 2017, a quarterly cash retainer of \$30,000 for the Chairman of the Board, \$25,500 for the Chairman of the Audit Committee and \$23,500 for all other non-employee directors, (c) a grant of restricted stock with an aggregate grant date fair value, rounded up to the nearest whole share, of \$180,000 for the Chairman of the Board, \$153,000 for the Chairman of the Audit Committee and \$141,000 for all other non-employee directors. Directors who also serve as employees receive no additional compensation for serving on our Board during 2017. Shares of restricted stock granted to non-employee directors vest in one-third increments on each of the first three anniversaries of the grant date, unless otherwise accelerated in the sole discretion of the Compensation Committee. Upon a Change in Control of the Company, a resignation following a failure to receive a majority of vote "for" in an uncontested election or a failure to receive the required votes "for" in a contested election, all outstanding restricted stock awards held by our non-employee directors will vest in full.

The following table sets forth the compensation of our non-employee directors for the fiscal year ended December 31, 2017.

The value is calculated in (a) accordance with Financial Standards Board Accounting Standards Codification Topic 718, Compensation-Stock Compensation. These amounts do not necessarily correspond to the actual value that will be recognized by our directors. The assumptions used by the Company in calculating the amounts related to restricted stock are incorporated by reference to Note 17 of the consolidated financial statements included in the Original Report.

Indemnification

We have entered into an indemnification agreement with each of our directors and executive officers (each an “indemnitee”), which is intended to permit indemnification to the fullest extent now or hereafter permitted by the Delaware General Corporate Law. It is possible that the applicable law could change the degree to which indemnification is expressly permitted.

Each indemnification agreement covers expenses (including attorneys’ fees), judgments, fines and amounts paid in settlement incurred by an indemnitee when, in his or her capacity as a director or officer, the indemnitee is made or threatened to be made a party to any suit or proceeding. Each indemnification agreement generally covers claims relating to the fact that the indemnitee is or was an officer, director, employee or agent of ours or any of our affiliates, or is or was serving at our request in such a position for another entity. Each indemnification agreement also obligates us to promptly advance all reasonable expenses incurred in connection with any claim. The indemnitee is, in turn, obligated to reimburse us for all amounts so advanced if it is later determined that the indemnitee is not entitled to indemnification. The indemnification provided under the indemnification agreements is not exclusive of any other indemnity rights of an indemnitee; however, double recovery by an indemnitee is prohibited. We are not obligated to indemnify the indemnitee with respect to claims brought by the indemnitee against:

the Company, except for:

claims regarding the indemnitee’s rights under the indemnification agreement;

claims to enforce a right to indemnification under any statute or law; and

counter-claims against us in a proceeding brought by us against the indemnitee;
or

any other person, except for claims approved by our Board.

We have also agreed to obtain and maintain director and officer liability insurance for the benefit of each of our directors and executive officers. These policies include coverage for losses for wrongful acts and omissions and to ensure our performance under the indemnification agreements. Each of our directors and executive officers is named as an insured under the policies and provided with the same rights and benefits as the most favorably insured of our directors and officers.

Table of Contents

CEO Pay Ratio

In accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act and applicable SEC rules, we are providing the following information about the relationship of our CEO's compensation to the compensation of all our employees. For 2017:

the total compensation of our median employee was \$100,610.44, as calculated pursuant to the same methodology as that used to determine pay for our CEO in the Summary Compensation Table

the total compensation of our CEO, as reported in the Summary Compensation Table, was \$7,277,174

the ratio of our CEO's total compensation to the median employee total compensation was 72.3 to 1

We believe this pay ratio is a reasonable estimate calculated in a manner consistent with SEC rules based on our internal records and the methodology used. To identify our median employee, we compared the year to date Federal Taxable Wages of our employees as of November 1, 2017. We did not exclude any of our employees or make any cost-of-living adjustments. We had 479 employees as of November 1, 2017, all of which were U.S. employees. Similar to our CEO, each of our employees enjoys a comprehensive compensation and benefit package that we determine by benchmarking to market practices.

Compensation Committee Interlocks and Insider Participation

During 2017, the Compensation Committee consisted of Messrs. M. Bennett and Genova, neither of whom was an employee of the Company during 2017 or has ever been an officer of the Company. None of our executive officers serves as a member of the board of directors or compensation committee of any entity that has one or more of its executive officers serving as a member of our Board.
