MODENA 3, INC. NOTES TO FINANCIAL STATEMENTS

1. Summary of significant accounting policies:

Industry - Modena 3, Inc. (the Company), a Company incorporated in the state of

Delaware as of November 18, 2003, plans to locate and negotiate with a business entity for the combination of that target company with The Company. The combination will normally take the form of a merger, stock-for-stock exchange or stock-for-assets exchange. In most instances the target company will wish to structure the business combination to be within the definition of a tax-free reorganization under Section 351 or Section 368 of the Internal Revenue Code of 1986, as amended. No assurances can be given that The Company will be successful in locating or negotiating with any target company.

The Company has been formed to provide a method for a foreign or domestic private company to become a reporting ("public") company whose securities are qualified for trading in the United States secondary market.

The Company has adopted its fiscal year end to be October 31.

Results of Operations and Ongoing Entity - The Company is considered to be an

ongoing entity. The Company's shareholders fund any shortfalls in The Company's cash flow on a day to day basis during the time period that The Company is in the development stage.

Liquidity and Capital Resources - In addition to the stockholder funding capital

shortfalls; The Company anticipates interested investors that intend to fund the Company's growth once a business is located.

Cash and Cash Equivalents - The Company considers cash on hand and amounts on

deposit with financial institutions which have original maturities of three months or less to be cash and cash equivalents.

Basis of Accounting - The Company's financial statements are prepared in

accordance with generally accepted accounting principles.

Income Taxes - The Company utilizes the asset and liability method to measure

and record deferred income tax assets and liabilities. Deferred tax assets and liabilities reflect the future income tax effects of temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and are measured using enacted tax rates that apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets are reduced by a valuation allowance when in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. At this time, The Company has set up an allowance for deferred taxes as there is no company history to indicate the usage of deferred tax assets and liabilities.

Edgar Filing: MODENA 3 INC - Form 10QSB

MODENA 3, INC. NOTES TO FINANCIAL STATEMENTS

Fair Value of Financial Instruments - The Company's financial instruments may

include cash and cash equivalents, short-term investments, accounts receivable, accounts payable and liabilities to banks and shareholders. The carrying amount of long-term debt to banks approximates fair value based on interest rates that are currently available to The Company for issuance of debt with similar terms and remaining maturities. The carrying amounts of other financial instruments approximate their fair value because of short-term maturities.

Concentrations of Credit Risk - Financial instruments which potentially expose

The Company to concentrations of credit risk consist principally of operating demand deposit accounts. The Company's policy is to place its operating demand deposit accounts with high credit quality financial institutions. At this time The Company has no deposits that are at risk.

2. Related Party Transactions and Going Concern:

The Company's financial statements have been presented on the basis that it is a going concern in the development stage, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. At this time The Company has not identified the business that it wishes to engage in.

The Company's shareholders fund The Company's activities while The Company takes steps to locate and negotiate with a business entity for combination; however, there can be no assurance these activities will be successful.

3. Accounts Receivable and Customer Deposits:

Accounts receivable and Customer deposits do not exist at this time and therefore have no allowances accounted for or disclosures made.

4. Use of Estimates:

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenue and expenses. Management has no reason to make estimates at this time.

5. Revenue and Cost Recognition:

The Company uses the accrual basis of accounting in accordance with generally accepted accounting principles for financial statement reporting.

6. Accrued Expenses:

Accrued expenses consist of accrued legal, accounting and office costs during this stage of the business.

MODENA 3, INC.
NOTES TO FINANCIAL STATEMENTS

7. Operating Lease Agreements:

The Company has no agreements at this time.

8. Stockholder's Equity:

Common Stock includes 100,000,000 shares authorized at a par value of \$0.001, of which 100,000 have been issued for the amount of \$100 on November 18, 2003 in acceptance of the incorporation expenses for the Company.

9. Required Cash Flow Disclosure for Interest and Taxes Paid:

The company has paid no amounts for federal income taxes and interest. The Company issued 100,000 common shares of stock to its sole shareholder in acceptance of the incorporation expenses for the Company.

10. Earnings Per Share:

Basic earnings per share ("EPS") is computed by dividing earnings available to common shareholders by the weighted-average number of common shares outstanding for the period as required by the Financial Accounting Standards Board (FASB) under Statement of Financial Accounting Standards (SFAS) No. 128, "Earnings per Shares". Diluted EPS reflects the potential dilution of securities that could share in the earnings.

No estimate can be made as to the number of persons who will be contacted or solicited. Management may engage in such solicitation directly or may employ one or more other entities to conduct or assist in such solicitation. Management and its affiliates will pay referral fees to consultants and others who refer target businesses for mergers into public companies in which management and its affiliates have an interest. Payments are made if a business combination occurs, and may consist of cash or a portion of the stock in the Company retained by management and its affiliates, or both.

John Fitzpatrick will pay as his own expenses any costs he incurs in supervising the search for a target company.
