**COMPANHIA SIDERÚRGICA NACIONAL** does hereby inform to shareholders and to the general public that on this date it has entered into a certain Purchase and Sale Agreement of Shares of Estanho de Rondônia S.A. (ERSA) with Brascan Brasil Ltda. for the purchase of 100% of the issued capital stock of ERSA.

**Assets Owned by ERSA**

ERSA owns Mineração Santa Bárbara, located in the city of Itapoã do Oeste, and a smelter mill located in the city of Ariquemes, both in the State of Rondônia. The mine contains measured reserves of 25,898 tones and resources of 54,066 tones of tin, including mining activities (through alluvium method), crushing, milling and concentration. The smelter mill has the capacity to produce approximately 3,600 tons of metallic tin per year.

**Cost of Acquisition**

The total value of acquisition is R\$ 100,000,000.00, of which R\$ 76,863,000.00 shall be paid with the transfer of ERSA shares to CSN. The remaining R\$ 23,137,000.00 will be paid after the end of the fiscal year of 2005, with the confirmation of certain operating efficiency and resources inventory indexes.

**Strategy**

CSN's consumption of tin is approximately 3,600 tones per year for tin-plate coating, one of the highest value-added products in the Company's product mix. The purpose is to increase the annual production of this mine up to 3,600 tones and of the smelter mill up to 4,800 tones until 2009, evidencing a high value generation potential for its shareholders and the firm intention of CSN to conquer market share in the mining business segment.

Also, the Company moves forward on its strategy of consolidating and developing its businesses units of steel, mining, logistics infrastructure and cement.
